LABOR PLANS TO CARRY OUT GOMPERS AIM

Today is Regarded As a Day For Serious Reflection on the Part of Labor Rather Than a Day of Rejoicing; Memorialize Grand Old Leader.

DETROIT, Mich., Sept. 7.—Auto-racy in industry and communism are twin evils, which labor must combat, William Green, president of the American Federation of Labor, declared in an address here today.

Not only are we constantly at grips with hostile employers and those representatives of corporations who will not permit their workers to become members of trade unions, Green said, but in addition we were called upon to meet and deal with destructive forces within our own ranks.

WASHINGTON, D. C., Sept. 7.—Uncle Sam is making more money from his postal business this year than ever before in his history, figures compiled by the postoffice department today showed.

Increased postal rates put into effect April 15, when postage was granted a 48,000,000 raise in mail rates, have brought revenues about \$25,000,000 in less than four months, preliminary returns show.

Great preparations have been made by the labor organizations of the country to make the day apart from all other Labor Day celebrations, the record of trade unionism in America since built by the hands of men.

To Carry on Gompers Program, President William Green, who was chosen to carry out the work of the man who served continuously as president of the organization which he helped to found in Pittsburgh in 1891, appealed to organized labor today to help him carry out the program of the memorial day.

MITCHELL IS PRAISED FOR FIRM STAND

Colonel is Smacked With Messages Congratulating Him on His Stand Taken in Regard to Air Service; He May Be Dismissed by Court Martial.

SAN ANTONIO, Texas, Sept. 7.—Col. William Mitchell's home is swamped today with telegrams all congratulating him upon his vigorous attack on the present air defense system, and assuring him support in his campaign.

Major General Ernest Hinds, commander of the 124th corps area, said he had heard nothing from the lieutenant referred to since the names of any of the congratulators until the colonel himself returns from his fishing trip to Arkansas coast.

Colonel Mitchell is expected to return today from Arkansas Pass. When Mitchell returns to San Antonio today or tomorrow from a fishing trip, he will be asked by Major General Hinds under informal instructions from Washington to affirm or deny his statements. His reply, which will undoubtedly be an affirmation, will be sent to Davis, who will lay the whole matter then before the president, who is due in Washington Wednesday.

The "flying general" who has already suffered demotion and has resigned from Washington for his outspoken criticism of the national air policy, faces court martial, dismissal, possibly jail and slander suits by high government officials who he assailed as grossly stupid, incompetent and criminally negligent.

The situation created by Mitchell's latest outburst has deeply stirred the armed services of the country. A showdown on the administration of the war and navy departments is certain.

Many regard Mitchell's assertions as ridiculous effusions of a man who seeks to be made a martyr. Others, however, believe he has stated the case exactly, and that the government to open up national mind. No real action is expected for (Continued on page 6)

WOODROW WILSON'S WIDOW HONORED AT GENEVA PARLEY

Former President's Wife Attend the League of Nations' Parley and Is Honored by French Treasurer.

GENEVA, Sept. 7.—Mrs. Woodrow Wilson, widow of the late American president, sat today in a place of honor among world statesmen gathered for the sixth assembly of the League of Nations.

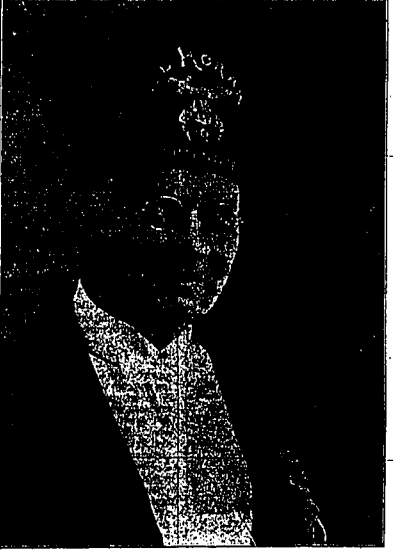

The League had assigned her and her companion, Miss Belle Farsch, a place of honor on the main floor in the crowded assembly hall, while many American anxious for a view of the assembly's session were turned away disappointedly.

Mrs. Wilson came and went quite unobtrusively. In fact, there were few who recognized her, but from those there came a demonstration of respect and admiration.

Among the great powers of the world, Russia, Germany and the United States alone were not represented on the floor of the assembly.

Deligates representing 54 member nations were present.

Shape of Egg Is No Index to Sex

Poultry Breeder Must Rely Solely on Mother Nature for Square Deal.

If you are one of the many who believe that the long, slim heavy hen eggs are the ones which hatch out the male chicks, and that the smaller eggs are the ones which give birth to the female chicks, you are mistaken. You need to revise your opinion on the matter, says the United States Department of Agriculture. You may as well leave your chickens, geese, turkeys, ducks, geese, calves, and other units at home when you go forth to purchase a setting of eggs from a poultry breeder, and rely solely on Mother Nature to give you a fifty-fifty deal in the matter of sex.

Commercial Fertilizer Encourages Big Yields

The continued use of commercial fertilizer over a series of years will encourage the production of large yields and at the same time will raise the soil to a high level of fertility. However, this is not due to the direct effect of the fertilizer itself but rather to the fact that the fertilizer has stimulated the crop and caused it to remove from the soil even more plant-food elements than are supplied by the fertilizer. But if either large or small amounts of fertilizer are used in connection with a good system of cropping, and every acre is taken to return all the manure to the bank there will be no reduction of yield due to soil depletion. The fact, commercial fertilizers have a very definite value, none especially when proper use depends on such factors as crop, soils, rotation systems, etc.

Sweet Clover Cause of Serious Cattle Trouble

The Minnesota experiment station has discovered that when sweet clover hay is fed in large quantities to cattle, it occasionally causes serious trouble. In fact, when two yearling heifers were fed on a quantity of sweet clover hay both of them died in a little over a month. Death appeared to be caused by internal bleeding. It seems, however, when sweet clover hay is fed in connection with other roughages, that it is safe. Sweet clover hay is fed in connection with other roughages, that it is safe. Although white is popularly regarded as a distinct color, and for all practical purposes it is, it is not distinct by a color, but rather the combination of all the colors.

Dairy Bureau Is Now Established

More Complete Information Needed on Fundamentals of All Branches.

The establishment of a bureau of dairying in the United States Department of Agriculture was announced on July 2 by Secretary Wallace, and the same day he announced the appointment of Dr. C. W. Larson, chief of the dairy division of the bureau of animal industry, as chief of the new bureau. The act of congress, creating the bureau, approved by President Coolidge on May 20, provides that the secretary of agriculture may transfer to the bureau of dairying such activities of the Department of Agriculture as he may designate as primarily related to the dairy industry. All of the dairy work heretofore carried on by the bureau of animal industry has been transferred to the bureau of dairying and about 150 employees of the dairy division have been shifted to the new bureau. Appropriations for the fiscal year for carrying on dairy work in the department amount to approximately \$400,000.

Need of Dairy Industry. In discussing the latest development in the Department of Agriculture, Secretary Wallace said that the need of the dairy industry is for more complete information on the fundamentals underlying all its branches, and that the addition of the problems heretofore in progress. He also emphasized the need for better methods of feeding and care to enable dairymen to produce milk more economically. At the same time he spoke of the need for even better sanitary conditions and improved methods for utilizing by-products.

Dr. Larson is well known to the farming and dairy interests in all parts of the country, having been engaged in some branch of this work for the past 20 years. He was born in Mitchell county, Iowa, in 1881, and was raised on a stock farm there. He was graduated from the Iowa State College of Agriculture in 1900 and for a short time was connected with the University of Wisconsin in Wisconsin and Minnesota. In 1907 he became a member of the faculty of the University of Wisconsin, where he was made professor in charge of the department of dairy husbandry. In 1910 he received the degree of doctor of philosophy from Columbia university and was appointed assistant professor of agriculture and agricultural economics at that university. He joined the staff of the United States Department of Agriculture and since 1921 has been chief of the dairy division of the bureau of animal industry.

Plans for Bureau. The plans for the new bureau, says Dr. Larson, are quite largely a continuation of the work which has been going on for the past few years. It is his opinion that many of the fundamental problems of the industry are yet to be solved. He plans to include the results of research into the industry as rapidly as possible.

Among the important lines of work which will be continued are the investigation of nutritive value, feeding, the statistical study of cow feeding associations, studies of the underlying principles of breeding, the study of the same uniformity in the transmission of high milk and butter fat producing capacity in dairy cattle as is being secured with other characteristics by breeders of flowers, fruits, and grain. Special studies will be laid on the study of nutrition of dairy cattle, in which, field considerable progress has been made in the last few years. A nutrition bureau and laboratory have recently been completed at the Beltsville farm near Washington. Herd management

Of this group Lansdowne, Lawrence, Houghton, Hanewick and Sheppard were killed in the crash of the big ship.

problems also are being studied at this time, as well as experiments with various types of barns, and many other problems.

The market-milk investigations, which will be continued by the bureau, will deal largely with studies in dairy sanitation and milk plant management. The purpose is to save losses in unmarketable or low grade milk and to effect economies in the preparation of fluid milk and cream for delivery. Work will be done on bacteriological and physical changes in milk and cream and studies will be conducted on labor requirements and the efficiency of dairy machinery.

The investigation of the manufacture of dairy products will be carried on, as heretofore, at the creamery in Great Falls, Ia., which is managed under the direction of the bureau of dairying, and also at the bureau laboratories in Washington. The Great Falls creamery provides facilities for putting into practice on a commercial scale methods which have been worked out in the laboratory. Here work will continue on the problem of sweet ricard butter, sweet cream, cream, condensed milk, milk powder, and by-products. It is not planned to enlarge the laboratories. In the immediate future, but according to Dr. Larson, they will be worked to full capacity in the attempt to solve the important problems of the industry.

Increased Complete. Anyone having a complete set of poultry raising equipment can enlarge their operating season, as well as their income, by attaching another chick and raising them for the fall and holiday markets.

SENATORS WIN DOUBLE HEADER WITH ATHLETICS

Washington Senators Now Hold Lead of Nine Full Games and Athletics Have Lost Twelve Straight; Senators Took First Game Today by 2 to 1 Score and Second Was 7 to 1

WASHINGTON, Sept. 7.—After having punned the Washington Senators a 2 to 1 victory over the Philadelphia Athletics in the first game of a double header here this morning.

The victory increased the lead of the Senators to eight full games in the American league, having increased the Athletics' losing streak to eleven straight games. A single by Sam Rice in the fifth inning secured Walter Johnson with the first run and the second, counter-charge when Joe Harris hit a home run in the sixth inning.

The Athletics erred— a blunder, when Jim Pohl, a pinch hitter, doubled in the ninth with two on, but the rally ended when Miller went to sleep at bat.

SECOND GAME. Philadelphia, Sept. 7.—Washington took another long stride toward the American league pennant by winning a double header here today from the Philadelphia Athletics.

After winning the morning game, the Athletics erred— a blunder, when Jim Pohl, a pinch hitter, doubled in the ninth with two on, but the rally ended when Miller went to sleep at bat.

The Athletics fought hard to snuff out the first slump in the second game, but they were nervous and unsteady and committed three errors at critical times.

The score came tied at five all in the eighth inning when the Senators put over two runs on singles by Peck and McGraw, scoring Miller, who hit the homer and a single by Buckey Harris.

The situation confronting the Athletics was precarious before today's game and it is now desperate and practically hopeless. The whole team looks to be shot and its spirit seems to be broken.

First Inning. Washington—McNeny grounded to Holt. S. Harris walked. Holt singled to right, scoring S. Harris and slugging Gaullin to left center, scoring S. Harris. Holt stopping at second. J. Harris hit into a double play, Gaullin to Bishop to Holt. One run, two hits, no errors.

Philadelphia—S. Harris threw out Bishop and Cochrane at first, scoring Lamar. No runs, no hits, no errors.

Second Inning. Washington—Bishop flied to Simmons. Peck singled to right, scoring Holt. Ruel hit to Holt, who tried for a facerout at second but made a bad throw past Bishop. Peck going to first and Ruel to second. Cochrane was out on strikes. McNeny flied to Lamar. No runs, one hit, one error.

Philadelphia—Simmons popped to Ruel, near the box. S. Harris threw out Holt. Hale fouled to Ruel. No runs, no hits, no errors.

Third Inning. Washington—S. Harris beat out a bunt down the first base line. Holt sacrificed. Quinn to Holt. Goslin hit to Hale and S. Harris was run down between second and third. Holt to Bishop to Gaullin to Hale. Goslin reaching second on the run down. S. Harris slugged past Gaullin, scoring Goslin. Blumie singled over Gaullin's head. J. Harris stopping at second. Peck flied to Lamar. One run, three hits, no errors.

TWIN FALLS WELCOMES THE SHRINERS

Today Twin Falls is acting as host to the Shriners of Idaho. Their parade this forenoon was splendid and while their stay here may seem somewhat like a holiday affair the Shrine has a very serious and sober mission in this age.

Here is the story of the Shriners' hospital taken from Desert Dust and tells in a brief fashion some of the things for which this organization stands.

The world war was over; peace reigned again; and individuals and organizations which had devoted themselves unselfishly to patriotic and benevolent efforts were beginning to turn back to everyday affairs.

Among the Nobles who believed earnestly that the Shrine should undertake some great charitable work and who often spoke of this growing institution was W. Freedland Kendrick, past potentate of La-La Temple of Philadelphia, who for years had been interested in charitable institutions and especially in helping crippled children.

WASHINGTON DAILY NEWS LETTER

BY CHARLES P. STEWART, NEA Service Writer

WASHINGTON - Everybody knew President Coolidge was trying, but even for him it was "selling some" to evolve a scheme by which the government is to get \$160,000,000 worth of public buildings without spending anything in fact, in the long run saving money. Explained how, it's simple.

TO begin with, the government has about half as much room as it needs to do its business suitably, its numerous personnel in Washington.

THE president wants to get the war surplus accurate into regular, permanent buildings before their present value collapses on them. He wants also to cut

off the \$200,000,000 to \$25,000,000 item which the government now pays annually in rentals.

What, he asked, would be the cost of putting up the necessary structures to house the entire staff? It is in this line the government ought to maintain its policies.

THE chief of a department sold at the moment of taking any such run out of the government's books. Wanting there a sure way of getting the buildings with

HAWKEYES IN PICNIC HAVE FINE PROGRAM

Large Crowd Brave Bad Weather to Attend Annual Gathering in Park Today; Many Fine Musical Numbers, Talks and Readings Are Given.

Hundreds of Hawkeyes whisked briskly around the frigid of a fried chicken that loaded the tables at the city park today at the annual picnic of Iowa folks. And the fried chicken was a fine example of the appetites of the great corn state. Takes such a mother made with more modern (it's) looked appetizing and was the pie and things that went with it most a tasty treat, while the aroma of fragrant coffee was wafted through the trees.

Program of Day.

The following program arranged by a committee of which Mrs. O. W. Whitman was chairman, was given: Music—Chas. Kirk, Solo—Mrs. M. C. Dwight, Reading—Dorothy Cunningham, Whittier solo—Mrs. George Leonard.

Speech—Lincoln Shinn, Community song, Address—Judge Kenneth England, Reading—Mrs. Esther Jacoby Merrill.

Paper on Iowa—Mrs. Van Houten of Hull read by Mrs. Phil Campbell. Address—Capt. E. D. Bloom.

Whether best some of the Hansen folks with their parts away. Business session.

The closing business session, the election of officers will include unfinished business and other matters of importance.

The address of James Shinn gave a fine picture of the great Mississippi valley state, while Judge Packard read of earlier times and conditions among the Hawkeyes.

The paper written by Mrs. Van Houten was interesting to all as it set forth the glories of the state and the beautiful scenery of the state.

ix hours. Everything awaits the investigation by Major General Hinds, which will probably not be completed until tomorrow or Wednesday.

If the administration decides to punish Mitchell, formal charges will be made by the inspector general of the Eighth corps area and prepared against Mitchell, who will be placed under arrest.

Three charges of action are against Mitchell: 1. Prosecution for corruptly accepting an office and a gentleman, the penalty for which is dismissal.

2. Prosecution for conduct prejudicial to good order and discipline, the penalty for which is up to the court-martial and may include a life sentence.

3. Stupor, reprimand.

Mitchell does not expect or want to be let off with a reprimand, and war department officials believe the charges he has made are too serious to ignore.

Any sentence imposed by the court-martial would have to be reviewed by the president and Mitchell will take the case to the commander in chief on the administration's course against him.

JEFFERSON MEMORIAL PLAN MADE

Meeting Sunday Afternoon Agrees on Tentative Outline Democratic Order Will Talk on Declaration and Pledges on Constitution's Purpose

Plans for the building of the Jefferson Memorial celebration on Thursday, September 17, with two prominent speakers and a musical program at the Twin Falls high school auditorium, were outlined Sunday afternoon at a meeting of the Memorial committee appointed by the mayor during the administration of Stuart L. Hedberg. The meeting, which was at once national and non-partisan in its inception and organization had for its purpose the securing of financial aid for a national celebration on the 60th anniversary of the adoption of the Declaration of Independence, the national work of Thomas Jefferson.

Since the logical outcome of the Declaration of Independence was the adoption of the Constitution of the United States, to secure the rights and liberty by the first signed document, it was deemed proper to hold the memorial service on "Constitution Day." An admission of 50 cents will be charged to defray the expenses of this patriotic celebration. As it was deemed especially important that young folks should have an opportunity of participating, it was decided to charge only 25 cents admission for minors.

Tickets will be on sale in a couple of days. There will be a democratic speaker, Judge William Murray, to speak on the declaration, and a republican speaker, probably Supreme Court Justice William Taylor, to speak on the Constitution.

The plan has the approval of the bar association.

The musical program will be arranged by Mrs. I. H. Shaver and will be announced later.

Members of the committee are James J. Whelan, Judge James R. Hedberg, Judge E. A. Walters, Dr. W. E. Pifer, Mrs. Charles E. Dwight, Miss Elizabeth Smith, Thomas J. Boyd and Guy L. Kinney.

Tentative State Tax Levy Given

The state tax levy for the current year has been fixed at 50 cents per hundred dollars, the same as last year. The total state tax is \$120,000,000 plus \$30,000,000 for the year and \$187,200,000 special inspection.

The estimate is that of the county auditor, C. C. Sletten, and in order to be effective must be either continued or altered when the commission's final report is made and state law September 24.

BRITAIN FACES THROUGH LABOR

Extremists Have Firm Grip on England and All Industries May Strike for Four Hours.

SCARIFORTH, England, Sept. 7.—Britain today faces the prospect of a strike which may paralyze the country at a moment's notice by a general strike.

Since labor has a more powerful or formidable body of working men assembled in England, and never before have the extremists had a firm grip on the man power of the country.

Plumbed with the success achieved for labor solidarity in the recent coal mining crisis, the radical wing entered today's assembly determined to make this year's congress the "reddest" in the annals of the British trades unionism.

In its record are many advancements in human progress, as well as the numerous benefits in working conditions which organized efforts has brought forth.

The policy of Samuel Gompers, national leader of the American Federation of Labor, will be the "policy" of the British trades unionism.

The chief upon which the labor movement was elected—the principle of collective bargaining—will be the starting point and the basis of advancement in the future, and every deviation from this principle will be strenuously opposed, the new leadership has stressed.

JEWETT SMASHES RECORD

Again Demonstrating Its Marvelous Power and Stamina

Distance Traveled 430 Miles
Time 7 Hours 48 Minutes
Average Speed 55.1 Miles Per Hour

Jewett has again demonstrated its superiority over all other cars in making the grilling run from Mountain Home, Idaho, to Salt Lake City, a distance of 430 miles, in the change of time of seven hours and forty-eight minutes. Traveling at an average speed of 55.1 miles per hour, this car, driven by J. M. Jensen, manager of the Jensen Motor Company of Boise, overcame every difficulty of the road via Pocatello, McCammon, Preston, Logan, Ogden, to Salt Lake. This remarkable time eclipses a year made over any route between these two points.

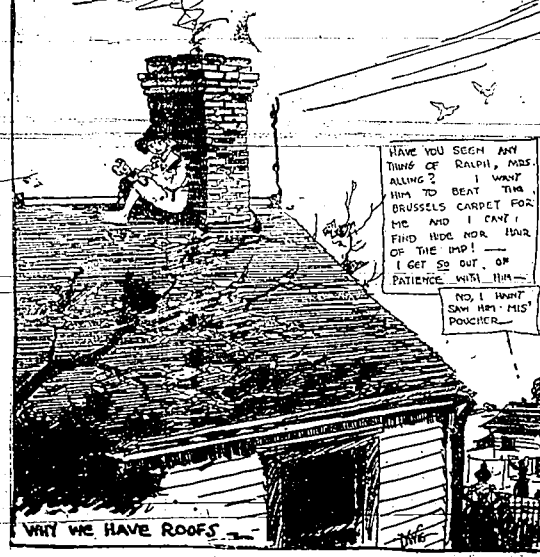

Time Checked by Western Union

Upon the arrival at Salt Lake the time was immediately checked by Western Union and Sergeant Warden of the Salt Lake Police Department sealed the car. This is a challenge was issued to all Automobile Dealers, four, six, or eight, to a competitive demonstration on the Twenty-first South Hill east of the Penitentiary.
