FAST TRAIN IS WRECKED; MANY LOST

Baggage Car Hurts From Track and Takes Coaches of Florida Flyer With It; Fifteen Bodies Recovered and About 50 Others Injured in Early Morning Wreck.

MEMPHIS, Tenn., Oct. 27.— Hurting from the rails while traveling at high speed along a straight stretch of track near Victoria, Miss., today, the "Sunnyland," crack Frisco flyer, with passengers from Florida to Memphis, Kansas City and points west, plowed down an embankment and was wrecked.

The Frisco railroad offices here estimate that between 20 and 30 persons were killed.

Victims Were Florida Passengers.

Most of the bodies were said to residents of Birmingham and Memphis. The accident occurred when all but the rear car had rolled down the embankment.

The scene of the accident is 3 miles from Memphis and ambulances, together with available physicians, and more than 100 men from stores and churches in the vicinity of the wreck were turned into emergency hospitals.

Baggage Car Jumps Track.

First reports of how the accident occurred were to the effect that the first engine car of the train broke loose from the engine and ran over the embankment. It was followed by the second baggage coach, Pullman and sleepers, except for the last car.

The latter left the rails at approximately 6:30 a.m., having departed from Birmingham at 11 p.m. last night.

Inhabitants of Victoria went by the crash as the "Sunnyland" went over the embankment, the first to give aid to the weak victim.

Those who arrived first at the scene found that the sleepers, from which the baggage car had jumped, had many helpless passengers. The cars had telescoped and piled up at the foot of the steep slope.

When the rescue train arrived on the scene from Memphis the people of Victoria were chopping free the pinned passengers and rendering first aid to those who were most seriously hurt.

W. G. Davis of Oxford, Miss., was one of the first injured brought to Memphis.

"We were traveling at 60 miles an hour when the train suddenly gave a jolt and the engine car jumped down the embankment," he said.

"I was only slightly hurt and added in rescuing Miss Olive Webster, a nurse from Oxford who suffered a

PLAN TO SWEEP AWAY WAR TAXES

Ministry Leaves World Postage Payments Taxable Only for Six Years
Order to Reopen Taxes At Oct. 18 U. S.

WASHINGTON, Oct. 27.—A plan to sweep away the war taxes was advanced today by Representative Jack Garner, ranking minority member of the house ways and means committee.

Following the strenuous appeals which have been made in behalf of the automobile manufacturers, jewelers, firearms, photographic supplies and others, Garner announced a scheme in opposition to the measure which would allow all these taxes might be eliminated.

Garners proposal would use the money, which, while Secretary Miller proposed to add to the national debt to enlarge the proposed tax reduction from \$300,000,000 to \$500,000,000. Instead of paying off the debt in 25 years, it would be paid off in 15.

"This is the only way to bring this country back to taxes of pre-war proportions," said Garner.

"It is a plan of Secretary Miller for only a \$200,000,000 tax reduction prevails, the taxes on automo-

biles other than tax cannot be repealed."

The major portion of the tax laws

has been concluded and four additional bills are still pending, including an original draft of the new bill.

U. S. SUPREME COURT ADJOURNS

WASHINGTON, Oct. 27.—The United States supreme court adjourned after today's session for a three week recess. It will convene on November 14.

ORDER INVESTIGATION OF 1677 STATUTE TEST

PARTY, Oct. 27.—It is no small matter to walk off with a life-test statute book when 12 of them disappear. It is time to call in the experts.

That at least is what the national commission of government property decided to do after it discovered that 12 of the 16 test statutes had already from their pillars in the Marquis pavilion the home of the Institute of French.

These statutes represent the fathers of the Roman and the Greek Gothic chancery. Just now they are disappeared. It is known, for the last trace of them the commission has a receipt acknowledging their erection in place and dated June 1, 1677.

Hundreds of Bodies Float on Gulf Waters

BAKERSFIELD, Calif., Oct. 27.—Hope of recovering more than a small percentage of the dead taken by the cyclone and earthquake in the Kern valley will be given up.

Heavy seas and winds

have scattered the bodies

of those buried at Laramie, Laramie, and Czechoslovakia. It was learned at the present time that the survivors will never be recovered.

Czechoslovakia has a receipt

acknowledging their erection in

Italy Will Be Asked to Pay Big War Debt

ITALY WILL BE ASKED TO PAY BIG WAR DEBT

America Will Insist on Italian Government Paying War Debt But Thus Far Little More Than Interest Has Been Paid on Same.

WASHINGTON, D. C., Oct. 27.—Italy will be requested to settle her \$1,250,000,000 debt, which she has not yet done, in two to three months, it was learned yesterday.

Italy is still on terms similar to those granted Poland, Latvia, and Czechoslovakia. It was learned at the present time that Italy has

the capacity to pay, believe she is unable to liquidate her debt on the British bonds but that she is capable of paying full, on slightly more lenient terms.

Italy, up to the close of the war, was advanced \$1,047,207,000, in

accordance with the armistice, and accrued interest at 8 per cent on the debt, now totals \$40,674,854.11.

In the year Italy has paid only \$1,000,000 on principal and \$67,

\$59,622.62 in interest.

Header by Count Volpi, the Italian

debt commission will arrive in New York Saturday night.

TAXES ARE FOUR TIMES AS HIGH AS IN 1913

STATE TAXES HAVE QUADRUPLED SINCE 1913 AND MANUFACTURES REVENUE INCREASED IN CONVENTION.

ST. LOUIS, Mo., Oct. 27.—With state taxes having quadrupled since 1913, there is need of some power in the state government to bring about a reform movement.

This was the message delivered to the thirty-first annual convention of the American Association of State Tax Commissioners here today Governor Theodore Christensen of Minnesota.

He proposed that perhaps the most radical measure the state government can take is "that there is too much government." In this connection he cited that the bureaucracy has been so great that it has become a drain on the state's resources.

He pointed out that the present

taxes have nothing but a few

millionaires, but that the

people have nothing but less

taxation and less expense, but

not what state governments

had to do to meet the situation.

He proposed that the governor of

a typical American state is the

TWIN FALLS HOPE FOR GOOD RATES

City Briefs

Representatives of Chamber of Commerce Expect That the Zoning Plan of the Oregon Short Line Favoring Boise Will Be Rejected by the Public Utilities Commission.

With high hopes that their protest against the zoning system imposed by the Oregon Short Line for intra-state railroads, similar as it affected Twin Falls, would be effective and that the plan will be amended in accordance with their request, President Frank W. Hough and Secretary Charles P. Dewart, of the Chamber of Commerce returned to this city about 1 o'clock this morning. The meeting was before Commissioners of the state public utilities commission. After the evidence had been transferred, Twin Falls will have 10 days to formulate its objection.

They say that in determining the zones, the company took a rate and measured off a certain distance from Twin Falls, and then measured outside the Boise zone. Then the same distance was measured in the same way from Twin Falls, and doubling that distance, the company left inside the Twin Falls zone, leaving Shoshone inside the Boise zone gives an advantage to the state capital, while the same distance in cities in the Wood river country, which furnishes all the supplies for two counties. This gave birth to the idea of moving Twin Falls out of the county by the lower rate to Gooding, which has comparatively little trade, and Fuller, which may or may not. Twin Falls is not willing to accept a rate based solely on mileage.

It is further contended by Twin Falls that the zoning plan might be accurate for cross, foot and airplanes, but that owing to the winding of the road, Shoshone is actually farther from Twin Falls than Boise, by something like 21 miles, and that the only excuse for the discrimination for the state capital lies in the fact that it is on the main line.

Pocatello also protests against the rate proposed and joins with Twin Falls in asking its rejection.
