

WAR ORDERED ON DRUGGIST BOOTLEGGERS

Dry Chief Orders Licenses of Druggists Revoked Who Consume Will Bootleggers in Illicit Sale and Distribution of Moonshine; Names to Be Published.

WASHINGTON, Jan. 18.—Assistant Secretary of the Treasury Andrew W. Mellon today ordered his 22 local prohibition administrators to begin war on bootleg druggists.

In a letter to his lieutenants, Andrew Mellon—assistant secretary of the treasury—ordered prohibition druggists who traffic with bootleggers and outlined methods of obtaining evidence against the illicit trade.

"I believe it is possible to clear up pretty thoroughly all the bootleg traffic on the form of distribution," by revoking permits to sell to druggists who are party to its misuse," Andrew wrote.

"Administrator Baird has proposed for the district of Columbia and Pennsylvania" to lift simultaneously from every drug store in a given city, one plot of his medicinal whiskey; that is, this whiskey for purity and where he finds the druggist handling spurious whiskey or other than absolutely pure-bottled in bottle whiskey to revoke his permit," Andrew wrote.

"If will then publish the names of those druggist handling spurious bottle in bottle whiskey so that the public may know where it is procured for medicinal purposes.

"In the large cities it would have to be done in an expedient at a time for fear of causing a riot. In all cases the bottle could be returned to the original dealer. It has been tested."

MILES OF NEW PAVING BEING LAID IN TOKIO

TOKIO.—The municipality of Tokyo is now engaged in laying down 4,000,000 square yards of modern asphalt paving, concrete based asphalt or granite or wooden block.

The paving work is being done in a systematic way by means of concrete and steam rollers, to reconstruct telephone conduits and to enlarge the sewerworks system.

They Die of Old Age
The shortage of unretired doctors in the rural districts is said to be so serious that people living there almost never have their tonsils out on account it is necessary.

Why He Did Not Eight
White, who was small and puny, had offended Brown, who was a powerful fellow six feet in height, and who had, in consequence, declared that he would break White whenever he met him.

Some time later an unkind fate threw them together. True to his promise, the big man gave poor White such a blow on the face as almost knocked him down.

"Recovering himself," the victim exclaimed:—"Gettend it, set!—White's that? Do you mean that in jest or earnest?" "In earnest," replied the other, placing himself in a fighting attitude.

"Oh, very well," said White. "If it's in earnest there's nothing more to be said, but if it had been in jest I should not have hit it at all."

He but walked off.—Minneapolis Tribune.

BABE RUTH IS TRAINED DOWN BEST IN YEARS

Yankee Skipper Warned Bambino's Last Season That Fat Outfielders Were Not in Demand: Hopes to Get Contract for 1000 a Week Renewed at End of 1926.

(By Henry L. Farrell.) NEW YORK, Jan. 18.—(Special)—Babe Ruth, who has been the best condition he has attained in years, Babe Ruth, who was hit by the Yankees for the New York Yankees, is getting ready to go south full of health and new resolutions.

The Babe is figuring into the last year of a contract that calls for \$1000 each and every Saturday night for the next year. He has agreed to have it renewed next winter at the same price.

Last summer, when he was not playing ball, he was in the hospital, he was told by Colonel John T. Murphy, owner of the team that he would be just an outfielder when it came time for a new contract and that fat outfielders were not getting any for much on the lot.

The Babe has been working harder to get himself in shape than he ever worked before. He went up into the Catskills, where he had a number of other ball players and he let them tell him that he had to get so rid in an air truck line while the other athletes walked. He came out, however, under his own steam.

The Yankee officials then notified him that he had to get into the best of his shape for his annual bath and that he would have to find another and more laborious way of getting himself in shape. He decided upon a winter in gymnasium instead of the five of a country gentleman and his rural estate in Salisbury, Mass., and after a month of hard work he has been released with a diploma pronouncing that he is in condition to play golf, baseball and bridge.

Eden Girls Win from Shoshone Team

The Eden basketball team, journeyed to Shoshone Friday evening. The Eden girls played the first game and won with a score of 18 to 3. The Eden boys lost their game to Shoshone. The score of the boys game was 15 to 25. The Eden girls, however, won four games out of five. Matchups will play double games here Friday evening, January 22.

When winter's snow is falling outside—and the wind roars through the trees—when the friendly logs blaze up in the fireplace—have a Camel!

WHEN it's a winter night and the day that was busy is done. And outside the snow is driving through the trees before the wind. When, inside, the crackling logs catch fire and burst into flames above the hearth—have a Camel!

For Camel is the tried and trusted friend of millions of experienced smokers. Whether your returning steps bring you home tired or jubilant, no sweeter, more mellow fragrance ever came to you from a cigarette. There's not a cigarette after-taste not a tired taste in a whole country full of Camels. Only mild and mellow flavor, deep-down contentment in your home or any home where Camels are lighted.

So, this night, before your roaring logs of oak or hickory—have a Camel. Open up the famous package of Camels and know the fragrance, the contentment that brings happiness to millions. Put a Camel between you and a light and taste the mellowest, most delectable blend ever made into a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality is that you try them. We invite you to compare Camels with any cigarette made at any price.

R. J. Reynolds Tobacco Co.

No other cigarette in the world is like Camels. Camels contain the choicest Turkish tobaccos, the finest blend of expert blend. The Camel cigarette paper is the finest made, especially in France. Into this choice blend of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

TWIN FALLS DAILY TIMES

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1916.

IDAHO LEADS IN PRODUCTION

Idaho ships 17,000 cubs of potatoes annually and the Idaho Russet potato sells for the highest price of any potato on the American market. She has more than 70,000 acres of orchard from which more than 10,000 cubs of the choicest fruits are shipped annually. She produces annually more than 2,000,000 tons of the finest alfalfa grown in the west, which yields from 4 to 6 tons per acre.

Idaho produced more than \$6,000,000 worth of alfalfa and clover seed in 1924 when she took 50 per cent of all the prizes offered at the international seed show held in Chicago, in competition with all the rest of the United States and Canada, and for the past five years in succession she has averaged 47 per cent of all the prizes offered at this seed show. She produced 1800 cubs of seed peas and beans valued at \$8,126,500 in 1924.

The climate of Idaho is ideal, the mean temperature of the state being 5 degrees warmer than that of the state of Ohio, with no floods or severe storms. A cyclone is unknown in Idaho.

Idaho has 3,000,000 acres of school land which sells at a minimum price of \$10.00 per acre on 10-year terms. She has more fine school houses and more modern homes for a given population than any state in the union. The census bureau of the United States gives the mortality of Idaho as 8.78 per 1000, the lowest in the union. The infant mortality is hardly one-half as great in the state of Idaho as in the nation.

Idaho has 2,500,000 sheep, producing annually 20,000,000 pounds of high grade wool. She has eight sugar factories producing annually 200,000,000 pounds of sugar. Within the past five years she has constructed 64 cheese factories and a milk condenser, and has made greater progress in the dairy industry than any other state in the Union. Her dairy products now bring in a return of \$1,000,000 per month and within 10 years she will be America's heaviest exporter of dairy products. Livestock of all kinds do exceptionally well in Idaho. The absence of flies, the uniform climate, the never failing supply of pure mountain water and abundance of high grade alfalfa with its high mineral content makes the livestock industry very profitable.

Idaho lies at the west entrance of the Yellowstone National Park, the nation's greatest playground, which is visited annually by 140,000 tourists, who enjoy the wonders of this great state over more than 1600 miles of highway, including state highway, Yellowstone highway, Panhandle highway, North and South highways, Old Oregon Trail, Utah-Montana highway, and lesser highways, having more miles of paved and gravelled highway per capita than any other state in the Union.

The scenic wonders of Idaho are unsurpassed in the world. The great Shoshone Falls, where the mighty Snake in a solid crescent leaps over a sheer precipice 212 feet of the abyss below, is 46 feet higher than Niagara. From the brink of the picturesque canyon of the Salmon more than a mile in depth, one beholds that ribbon-like stream as it winds its way to the sea, while nearby are the Craters of the Moon, that volcanic phenomenon, with their yawning chasms as deep and black as the bottomless pit. The majestic Sawtooth Range, the pride of America, the Bitter Root, Teton and Clearwater Ranges, lifting their hoary heads to an elevation of more than 13,000 feet, with their snow-crowned peaks glittering in the summer sunshine, standing like giant sentinels guarding the fertile valleys below, and beckoning to you to come and enjoy the wonders of nature under God's great open canopy where there is health, wealth and happiness for you, your children and the generations to come.

The above facts and figures are compiled and sent out by the Idaho Chamber of Commerce.

NEW CLUB AGENT FOR NORTH IDAHO

UNIVERSITY OF IDAHO, Moscow, Jan. 18.—The resignation of R. E. Eery, of district club agent for North Idaho, and the appointment of W. L. Stephens, Idaho resident with first class of 1925, to succeed him, have been announced at the college of agriculture. Mr. Eery's resignation was effective January 15 and Mr. Stephens has already assumed the duties of his new office.

Mr. Eery, who has directed North Idaho club work with conspicuous success since September 15, 1924, leaves the university to become a resident representative of the Holstein-Friesian Association of America, with headquarters at Portland, Ore. His territory includes Washington, Idaho, Utah and Oregon.

The Holstein-Friesian association is the largest cattle registering organization in the world. It has more than 25,000 members representing the Holstein breed in the United States in registration, official testing, and breed extension work. Mr. Eery's new duties will include organization work among breeders, assistance in milk campaigns, cooperation with agricultural colleges and other agencies and promotion of better sire campaigns and better dairies generally.

Under Mr. Eery's supervision club work in the north Idaho district has reached its highest stage of development. The record showing made by club members this year is a tribute to his energy.

Mr. Stephens will be best remembered by grid fans as star center of the Idaho 1924 football eleven. During the season he was employed in Idaho by the United States department of agriculture. For the last few months he has been connected with a wood craftsmen's association in Blackfoot.

Friar, Bacon's Brazen Head Is Old Legend

According to a legend prevalent in the Middle Ages, Roger Bacon (1214-1292) spent seven years constructing a brazen head, which he fancied would tell him how to surround the island of Great Britain with a wall of iron. This head was so simple, within a month after its completion, but despite his best efforts he was unable to make it work. Bacon, accordingly, set his servants to watch, secretly, everything that he said, and his master in case the head should speak. At the end of the first day, four the assistant, said the head, exclaiming: "Time is!" At the end of the second hour, "Time was!" and at the end of the third hour, "Time is past!" whereupon it fell with a loud crash and was shattered to pieces.

The legend neglected to tell Bacon, thinking he would not care to be disturbed for such a trifle, and that the knowledge necessary to build the brazen wall was never acquired.

This legend is the substance of a talking brazen head was widely spread in the Middle Ages. Gresham, a French characterist, and to be made with a head; and Albertus Magnus is alleged to have constructed an entire man of brass—Kamius City Star.

True Charity

A man should fear when he enjoys only the good he does, and not the good he does for others. True charity is not charity, but charity which is love. It is not charity that is love, but love that is charity.—Henry Ward Beecher.

COULDS

"Pape's Cold Compound"

Breaks a Cold Right Up

Take five tablets every three hours until three doses are taken. The first dose may be given before the second and third doses completely break up the cold. Pleasant and safe to take. Contains no quinine or opium. Millions use "Pape's Cold Compound." Price thirty-five cents. Druggists guarantee it.

Increased Grain Yields

can be markedly improved by feeding our feeding herd grain. We do not mean just ordinary re-cleaning, but system makes

FERRET SEED
Also, we remove what cuts from wheat absolutely. Before having your seed re-cleaned, come in and see our "FERRET SEED" machine.

every little while was necessary. If past fifty, buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

Dr. Caldwell's SYRUP OF PEPSIN

One Million Dollars!
But What—Why—How?

Who would give her, Joanna, a million dollars? She was pretty—men told her that! She was attractive—her rouge box, eyebrow pencil, short skirts and peppery tongue assisted to that end. But what was the big idea behind the gift? She wasn't a gold digger, hadn't tried to vamp any rich men—and didn't even know a millionaire by sight! Why had this unknown man coolly passed her a million dollars without any apparent "ifs" or "ands"?

There must be an answer to every question. There are answers to these—as Joanna will soon learn. What she learned—her romantic and tragic experiences—her loves and heartaches, and finally the big test, make the greatest story of the modern flapper ever penned.

WASHINGTON DAILY NEWS LETTER

BY CHARLES P. STEWART
Max Baucus, of Montana, has been given command of the Liberator army. An American, at that.

We're more, but a good soldier. The War Department in Washington just notified us and the War Department under the Stars and Stripes since 1915.

The next head of the Liberator military establishment is Hester Outley, late second in the 2nd United States cavalry. World War veteran and all that.

OUTLET was in Washington recently, visiting himself discharged from the 9th, securing a passport and winter in his old American outfit, with a view to his trip to the front.

This is the first time an American Negro has been handed an army command and War Department files were a lot interested as they were at the Department of State, too.

Outley has a first class military record and his superior was glad to enable him to accept the Liberator outfit, though sorry to see him go.

ORIGINALLY General formerly Sergeant Outley is from Houston, Tex. He worked as a chauffeur and electrician before enlisting in the 35th First Artillery of Jefferson, Arkansas, May, in September, 1915, when he was 22 years of age.

During America's participation in the World War he had a hand in all the fighting on the front and the fact that he won his way to a sergeantcy speaks for itself.

After the war he was shifted to the 1st Cavalry and was stationed at Ft. Huachuca, where he received Liberator's call.

The Best Plan
"Don't worry about anonymous letters. The best thing is not to open them."—L. B. French, Boston, Mass.

And So Ad Infinitum
Scientists report that flies can go without food for 40 weeks. But they don't—George F. Johnson.

Bible Thought for Today
NEAL, SERVING—By love, serve one another.—Gal. 5:13

Unlucky Thirteenth
A woman seeking a divorce at Tottenham, England, testified her marriage was very happy until the thirteenth day of her thirteenth child.

CROP VALUES IN IDAHO SHOW BIG INCREASE

Eighteen Leading Crops of Idaho Show a 40 Per Cent Increase Over 1924, According to Report. Total Value Is about 110,800,000; Gen State Taxes Four, Fifths.

(By Julius H. Jacobson) The value of Idaho's eighteen principal crops averaged in 1925 \$110,800,000, compared with a value of \$78,810,000 for the same crops in 1924. This is a gain of 40 per cent in one year, and is a wonderful testimony of Idaho's recuperative ability.

Compared with all other states Idaho ranked first in acre-yield of winter wheat, oat, beans and clover seed, second in rye, alfalfa, timothy, spring wheat, tame hay, potatoes and sugar beets. The above and Idaho's yields are shown in the following: Idaho's rank—first in winter wheat; average 27; first in oats, average 47; first in rye, average 22 bushels; first in clover seed, average 5 bushels; second in rye, average 29 bushels; second in barley, average 4 bushels; third in spring wheat, average 29 bushels; third in potatoes, average 3.23 tons; third in potatoes, average 156 bushels; third in sugar beets, average 116 tons.

Potatoes Pay Merit. Potatoes proved to be regular mortgage lifters this year. An acre yield of 156 bushels, containing a new all-time high in this state, scattered over most of the state, and secured without the aid of commercial fertilizers. There was a slump in the market around December 1 and in view of the short United States crop, it is probable that the December 1st average price of 14¢ a bushel may prove a high one over the average received for the entire crop.

Best Idaho Lamb Last Year's. Sugar beets averaged 13.65 tons per acre, almost twice last year's and the third highest in the United States. The average yield was 13.15 tons per acre. On the other hand, Idaho's beets with a sugar content of 17.6 per cent ranked second in the California, but first with 19.15 per cent. This year saw sugar beets raised on 100,000 acres, which produces well for this important home industry.

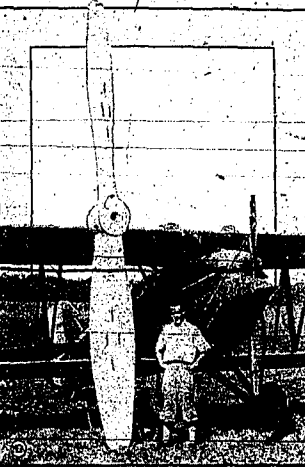

Corn Grain Drops. All grain crops did exceptionally well in Idaho this year. Winter wheat led all states with an acre yield of 21 bushels, an all-time high with an average yield of 19 bushels. It was good corn weather all season, and an average yield of 34 bushels, well matured, was secured.

Large Hay Production. Although considerable alfalfa, and clover hay-making during the winter of 1924-1925, the past season proved so favorable that over 3 1/2 million tons of hay were produced. Quality was below normal, due to frequent rains during harvest. Alfalfa seed yields were low because of wet weather blighting the blooms. Clover seed yields were low for the same reason. A yield of 5 bushels per acre was the highest recorded in any state in the Union.

Beans and Beans. Beans did remarkably well, an average yield of 22 bushels per acre being the highest in the United States. There was little disease, but wet weather during harvest injured quality somewhat. A bumper crop of good quality seed peas was harvested in the Upper Snake river valley. Acre yields of thirty to forty bushels were reported.

Apple Shipments Heavy. While the apple crop was not as large as the record crop of 1924, early shipments will be heavy. The winter of 1924-1925, the past season proved so favorable that over 3 1/2 million tons of hay were produced. Quality was below normal, due to frequent rains during harvest. Alfalfa seed yields were low because of wet weather blighting the blooms. Clover seed yields were low for the same reason. A yield of 5 bushels per acre was the highest recorded in any state in the Union.

This Will Drive New Dirigible

This propeller is 17 1/2 feet long and weighs only 140 pounds. It was made by the U. S. Air service at McCook Field, Dayton, O., for the new army dirigible 1924, and is constructed of Scott's Ferro, III., and weighs less than half as much as it would weigh if made of the wood usually used. It is of balsam wood, the lightest and strongest wood known.

BULL MAN HAS HIGH COW IN TESTER REPORT

Carl Middlestadt's Best Top, 1541, F. E. McClain Has High Cow for the Month of December.

Twenty-five herds with 374 cows were tested for December by W. J. Hays in the Pioneer Cow Testing association. Fifty-one cows produced more than 40 pounds of butterfat; the average production being 24.6. This average pounds of milk per cow was 67.5. A dozen cows were sold for thirty pounds of butterfat.

The three highest herds in the association, are, first, the Jersey and Holstein herd of 18 cows owned by C. E. McClain of Twin Falls, with an average butterfat of 100.1; the second the herd of 17 Holsteins of Joseph Weber of Idaho, with an average of 57.2 pounds from milk of 1128 pounds; and the third, the herd of 25 Jersey and Holsteins of C. Flower of Twin Falls, with average butterfat of 22.5 pounds from 812.5 pounds of milk.

Buffed Curiosity

Men are funny creatures. They are trying by every imaginable means to find out how old the earth is, who can't even find out the age of his average woman on a New Orleans Times-Tribune.

... AT THE THEATRES

BETTY BRONSON HEADS GUEST SHOW AT IDAHO

J. M. Barrie's "A Kiss for Cinderella," featuring Betty Bronson, and made by Paramount, will be the surprising attraction of the Idaho theatre bill, starting today. It's a modern romance—a "franchise" of photogenic drab—a screen classic of laughs and heartiness—the kind of a picture you will cherish in your heart forever.

The International News Weekly Company's "The Marjorie" will be the first National production of the last half of the week. The picture is scheduled for showing at the Orphan theatre Monday and Tuesday.

FOR SALE LUMBER, PIPE AND CORRUGATED IRON. All lumber, pipe and corrugated iron at the Twin Falls Bulk Center is now offered at BARGAIN PRICES for quick sale. Eastern Iron and Metal Co.

HIGH SCHOOL

The Junior high school held an assembly at one o'clock Monday afternoon. The program was the one which was to have been held Thursday. The A class as the outstanding class under the leadership of Miss Grant presented their farcical skits among which were the class program, mimed, Dutch chorus and readings and show by various members of the class.

EDEN NEWS

EDEN, Idaho.—Miss Melba Thomas came up from Gooding Friday evening and spent the weekend with Professor and Mrs. Hayes. Miss Helene Davis spent the week end at Rupert with her parents. Mr. and Mrs. L. A. Williams were Twin Falls visitors Saturday.

Miss Eva Dinwiddie met with about 50 girls at 11:30 on Monday who are going to try out for the school opera "Polish Peasants." All citizens are urged to have their tickets for perfect attendance for the second six weeks according to classes are: Freshman class 98 per cent, sophomore class 97 per cent, junior class 98 per cent and senior class 97 per cent.

Alumni students tried out for the Junior play Monday afternoon. It is to be given some time in March and the title is "The Chasm School." About 60 high school young people were present at the H-Y skating party on the reservoir last Thursday night. The party included about 60 high school young people were present at the H-Y skating party on the reservoir last Thursday night.

Mrs. Adelle C. Wilson conducted the seventh and eighth grade examinations Wednesday, Thursday and Friday. Students from Russell, Idaho, and near there took the examinations.

Mrs. A. A. Joffe has been sick for the past few days suffering from a cold of unusualness. Miss Mildred Nook and Anna Neer spent the week-end with their parents at Filer and Twin Falls.

Requests for the Junior play will be given on Monday by Miss Helen Knapp and Miss Marjory Smith, who will coach the play. Thursday afternoon a meeting of the local industry committee of the W. W. C. A. preceded the Blue Tri-angle meeting. Officers for the coming year are as follows: Chairman, Mrs. E. S. Laiford; assistant chairman, Mrs. Witham; secretary-treasurer, Mrs. Alice Taylor.

The program for the Blue Triangle meet is as follows: in the high school auditorium—Christian and Amalgamated flag salutes; general song service; reports on the Christian social service work by Betty Wilson, Phyllis Evage, Patricia Wilson and Isabelle Clark; junior staff with the cost cast, including Miss Portland, Irene Hurst, Marion Dadel, Marjorie Neale, Dorothy Dinkler, Lucille Parker, Dorothy Smith and Marcello Wynn.

NOTICE FOR PUBLICATION

Department of the Interior,
U. S. Land Office at Blackfoot, Idaho,
Jan. 16, 1926.

Notice is hereby given that the Twin Falls County, Idaho, Section 20, Township 18 South, Range 18 East, Idaho, has filed notice of the intention to make three year proof to establish claim to the land above described, before C. H. Nugent, Notary Public at Blackfoot, Idaho, on the 27th day of February, 1926, and before H. L. Powers, U. S. Commissioner at Twin Falls, Idaho, at the same date and time of the following named witnesses:

Glenn Thomas as witness;
Huck C. Reed, May C. Reed, William Whitt, Paul Reed, all of Twin Falls, Idaho.

P. G. JOHNSTON,
Register.

New Records and New Prices!

Graham Brothers Truck sales for 1925 were the largest in their history.

The previous record breaking year was surpassed by 123 per cent.

Such healthy increases in demand require proportionate increases in production.

Graham Brothers four factories are now equipped for larger output than ever before.

They are therefore able to give truck buyers the benefit of still further savings—

Savings that are now passed along in the form of another substantial Price reduction—the third such reduction in eight months!

VANDERMARK BLOCK SOLD TO GOLDEN RULE

Manager of Local Store
Wires From New York
Authorizing Purchase of
Structure From Estate of
Slain Man; Enlarged
Store Is Predicted by Cit-
izens.

Sale of the Vandermark building, at 200 Main avenue east, by J. A. Roscoe, administrator of the estate of A. B. Vandermark, to Maurice W. A. Van Eenhoven of the Golden Rule store, has been announced by J. E. White, the notary, through whom the transfer was made. It is understood that it is purchased for the Golden Rule.

The consideration was not announced by Mr. White, but it is understood to be in the neighborhood of \$5000. There has been considerable speculation in regard to the sale of this building for some time. Mr. Van Eenhoven has been considering it and desiring to buy with the New York purchasing goods for the Golden Rule store, he wired authority to C. Charles L. Hart, assistant manager of the business, in the absence of the purchaser no record had been given out in regard to what may be done with the building. Mr. Hart said today that he was unable to say, but had no statement to make.

Has Interesting History.
The structure which is two stories high and built of cement blocks was formerly known as the Stout building from the man who constructed it. It was purchased by Vandermark, who leased it to John Jariko for a pool hall. It was the scene of the tragedy in which Jariko shot the owner dead. He was convicted of this murder and sentenced to be executed, but appealed and his case is still pending in the supreme court awaiting decision after argument.

Filer Man Denies Interest in Liquor

Denial that he owned any interest in the sale of liquor found in the cellar of a house near here last week by the sheriff's deputies, and the Filer police, was reiterated on the witness stand this afternoon before a jury in Probate Judge J. E. Hayden's court. The admitted staying at the Bliss house and said he had keys for the same but did not know they were being used there. He denied knowledge of the fact that there was also a Bliss, who entered a plea of guilty after arrest, took the stand and swore that he was the sole owner of the house. Testimony by the state was offered by Sheriff Superintendent and Harry Davis and by Marshal Dale Allen of the Filer police. The state is represented by Prosecution W. Taylor and the defense by T. C. Hackman.

NEW STORE TO OPEN HERE SOON

The New York Times report says a Scotch bar in about 10 days the old site of the Alex. Chisholm, 187 Main avenue east, will be known as Delaney's hotel. The property has, it is understood, been purchased the model stock of the Alex and will also put in a new line of food.

Negotiations have been going on for some time and the deal has, it is understood, been finally closed. The New York Times' headquarters are located in Boise, but it has branch offices in several Idaho cities.

BOULDER BOY CUTS EYE BADLY WITH PIECE OF GLASS

John Brannan, the 10 year old son of Mrs. and Mrs. Dan Brannan of Buhl, was brought to the Twin Falls county general hospital yesterday suffering from a laceration inflicted on his right eye with a piece of broken glass. The boy was playing with a bottle and tried to break it when a silver lens fell out and struck the eye. The attending physician says he has hopes of saving the sight and is not certain.

LIND HEADS THE YELLOWSTONE TO YOSEMITE ROAD

Twin Falls Man Is Elected President by Association of Portland Saturday Club Will Be in Operation During the Year 1928.

PORTLAND, Jan. 17. (Determined) Those have the Yellowstone-Yosemite highway ready for the start. The year of 1928 was sponsored by the meeting at Portland Saturday club which is held at Twin Falls, Idaho. The president and W. M. David of Reno over the highway.

It is stated that the proposed route would take its travelers between Twin Falls and Yellowstone the direct route and from here through Porterville and north from here through the Wood River region and would provide an "extra-long" trip. The Yellowstone-Yosemite highway, which will be open to automobile tourists beginning with the season of 1928 will be the shortest route to the "great outdoors" of the mountains. It is only 100 miles long and can be easily traversed in four days. From the Twin Falls end the route will lead to the western entrance of Yellowstone park.

SCOUT COUNCIL DISCUSS MANY BIG PROBLEMS

New Officers Elected for Ensign Year and Reports Made for 1926 by Scout Executive and Other Officers; Vote of Thanks Extended to Raising Officers.

The Twin Falls Boy Scout Council met yesterday afternoon in the public school office and discussed reports for the past year's work and made officers for the coming year. Chairman Roy W. Gardner called on Dr. W. P. Pomeroy to give a report of the recent campmaster's department. Dr. Pomeroy reported that there were 100 scouts and 10 second class scouts. He also stated that 33 merit badges had been awarded and 1000 merit badges had been received by the scouts. The total number of merit badges awarded is 109.

The scout commissioner stated that there was not much connection between the troop committee and the troop. In other words the committee should not be in charge of their work as they should take care of their own work. He stated that they were progressive and pleasant to work with. Chairman Gardner remarked that the committee which have been passed out today were printed in

Mr. Pomeroy stated that he had been troop commissioner for two years or more and had never been called on for a report from the scoutmaster. In his opinion most of the scoutmaster were appointed by some "book" organization and took the "book" route.

P. D. Gardner gave a report in which he stated that the merit badge committee had been organized during the year. Scouting is making progress as well as being expected but scouting is not as high and new program as it should be.

This month to be the low period. If conditions are backed by a strong committee like this one there is no chance, but if the committee happens to be weak there is a chance of success. The committee and a group of boys have been passed out of attention and new material is being and of the same kind of scouting. One of the great needs in scouting is assistant scoutmaster. We lack reserve force in this regard when a committee cannot be had and take charge but because we have lacked attention the troops have been without leaders many times.

The scoutmaster's training school in Twin Falls failed and, but the reason is hard to figure out. We are now trying to interest young leaders and recruit new leaders. The training overnight camp is growing more popular and recently we had 25 boys out to this camp. Mr. Gardner stated that the outlook for scouting in Twin Falls looked very promising in 1928 although the record of the past year does not show as much progress as we would like. He expressed the wish that the present officers be re-elected. They were progressive and pleasant to work with.

Chairman Gardner remarked that the committee which have been passed out today were printed in

SALMON DIRECTORS ELECT HAYWARD AS COMPANY PRES.

At the Salmon River Canal company directors meeting late Saturday afternoon the following officers were elected: President, Nelson Hayward; first vice president, L. E. Jostly; second

vice president, A. J. Douglas; secretary, C. L. Smith.
"Other directors are G. M. Hall, retiring president; J. H. Treadwell, Sr.; Murray Brookman, E. B. Barlison, and A. J. Lidner.
The meeting reappointed Judge James H. Bohlwell as attorney, F. P. Bates as superintendent, and Robert Blank as assistant superintendent.
Poultry School Announced—Dates for the forthcoming poultry school in Twin Falls and Filer have been announced. The school will begin here, under the direction of Prof. Moore, on February 8, the day that the seed car arrives and will continue on the day following. It will be at Filer February 10 and 11.

MOON'S PAINT SHOP

Always a Wise Now Investment Better than ever before

Dodge Brothers, Inc. have announced astonishingly low new prices.

They have announced important refinements in their product. Always building an exceptional car, they are now building better than ever.

Better in many ways—in beauty, comfort, driving vision, engine smoothness, snap, elasticity and getaway.

The simultaneous offering of lower prices and vital improvements is made possible by a gigantic expansion of buildings and equipment.

Ten million dollars so invested permit great savings through vastly increased volume and efficiency.

Part of these savings goes into further betterment of the car. The other part goes directly back to the buyer—in the form of a price reduction that staggered the industry.

Those who chose Dodge Brothers Motor Car in the past invested their money wisely.

Today they invest more wisely than ever before.
