

# HOUGHTON GROOMED FOR POST

### Ambassador to England Returns and Reports Indicate He Will Succeed Secretary of State Kellogg.

WASHINGTON, March 6.—Announcement of the imminent return from London of American Ambassador Houghton received reports here today that he had been groomed to succeed Frank B. Rowland as secretary of state.

The primary office of Houghton's visit is to confer with President Coolidge on the important recent European development, including participation of the League of Nations' preliminary arm conference.

Illness Forces Action.  
That the present slight illness of Kellogg emphasizes the fact that his successor has already been selected was said at the time of his appointment last year that his tenure would be temporary.

If Kellogg remains here the November elections are expected. Houghton is considered the logical successor. Next to that is the name of Brock, whose nomination as attorney general was rejected by the senate. Houghton is the president's closest adviser on foreign affairs.

# Two Still Held in Woman's Death

DENVER, Colo., March 6.—With Virgil A. Masole, husband of Mrs. Katherine Houghton Masole who was found dead in the basement of her home, February 1 and Mrs. Rebecca Buelcher, friend of Masole, still in custody here on suspicion of her role in an autopsy upon the body of Mrs. Masole at Carlsbad, Ill.

Televista working on the case reported in notes received here today, read, found in the Masole home and with which they seemed to connect Mrs. Buelcher.

# TWO DIE IN FLAMES

TOLLEDO, O., March 6.—Two persons were burned to death, four persons were seriously injured and one made homeless when fire swept a rooming house in the downtown section today. An aged couple and two children were carried to safety.

# TESTIMONY OF SON MAY HIT MOTHER

Foster Son Testifies that Paroled Killed Playmate and as Result She Faces Life Term on Murder Count.

STOCKTON, Cal., March 6.—The testimony of an 11-year old Mexican boy may send his foster-mother to prison for life for the murder of his playmate, according to the result of a trial under way here.

Mrs. Louisa Zamora is charged with slaying Leonora Amador, 11, another foster-child, and the sister of her husband, on Raymond Zacharias, a mild, frightened youth, as his chief witness. The woman is charged with killing the girl at their home near Tracy, Calif., in 1924, and burying the body in a back yard cistern.

"Cody," the "dog" name for the woman, "whipped Leonora and told her to get out," testified Raymond as the opening scene witness. "The next morning she called a man with water and held Leonora's hand in it until she was still. Then she took her down to the yard and threw her to the ground."

The corpse was not discovered until some months after the Zamoras had vacated the property. After a long search the woman was arrested by William, Calif., and brought here for trial.

# Burbank Issues His Message to Children as Birthday Treat

SANTA ROSA, Calif., March 6.—The annual birthday message to the children of America was given out today by Luther Burbank, famed plant scientist. It follows:

"What a beautiful world we live in! My seventy-seventh birthday finds me busier than ever in nature's workshop. I have always been a student; it finds me happier than ever, because I have strength and the will to work. To the children of America, especially the children who will think of me today, the friends I have lost I send this message:

"As you hold forth thoughts toward every person and animal and even toward plants and stars, rivers and hills, and as you behold kind of service in the world, so you will find yourself growing more happy each day, and will happiness come to you and everything you want."

# THREE BURNED TO DEATH

MISSISSAUGA, Ont., March 6.—Mrs. Catherine Santini and her two children were burned to death today when a fire broke out in the Santini home at Warsaw near here.

# BRYAN ESTATE HALF MILLION

Property of Late Commoner Appraised at \$668,330 and Widow Is Named Execltrix of the Legacy.

MIAMI, Fla., March 6.—The late William Jennings Bryan left an estate valued at \$668,330, it was declared today in a will in probate court by three appraisers.

The items listed in the commoner will are as follows: Real estate, \$292,715; cash on hand and in banks, \$167,272; land contracted for sale, \$28,041.75; mortgages, \$101,480.82; life insurance, \$12,122.12; land contracted for purchase, \$38,000; stocks and bonds, \$49,238.54; rights in real estate, \$10,000; and other property.

The appraiser fixed the value of "Marygrove," the family home near Cincinnati, at \$250,000. Mrs. Mary Helen Bryan, the commoner's widow, is executrix of the estate.

# STORM STRIKES WEST SEVERELY

Worst Blizzard of Year Reported at Pueblo, Colo., and Damage Follows in Other Mountain Sections.

DENVER, Colo., March 6.—Changing spring weather in winter, a storm swept the country from the Rocky Mountains last night, doing considerable damage in mountain sections.

The worst blizzard of the year was reported at Pueblo, Colo., where the light winds caused the city to be in darkness while the snowstorm raged. Colorado Springs reported cold and snow with light frost several hours and freezing to the confusion.

# Coolidge Is Agreed Business Is Sound

WASHINGTON, D. C., March 6.—President Coolidge agreed with his cabinet colleagues, Secretary of Commerce Hoover, and Secretary of Treasury Mellon, that business conditions are sound.

Undated by the week's gyrations in Wall street, the president disclosed, through the "White House statement" that there is no unemployment in the country and that speculation shown on the stock market has not extended to the commodity market, according to his information.

# WETN PLAN HEARING

WASHINGTON, D. C., March 6.—An attempt of senate "wet" to obtain a "dry" hearing will be made Monday, Senator Edna Republican, New Jersey; Edwards, Democrat, New Jersey; and Bruce, Democrat, Maryland, appear before the senate judiciary committee today to present arguments as to why their measures to relax Volstead dryness should be voted subject of hearing.

ST. PETERSBURG, Fla.—Ward Edin Ward in the field, Bob Messel is the only Yank veteran who has not signed a contract.

# STRIKERS IN NEW MOVE TO WIN RIGHTS

Textile Workers Seek to Have Police Chief and Others Arrested For Breaking Up Picket Line.

Peace Officers Refuse, However, to Serve Warrants on Officials Named and Justice Is in Quandry.

PASSAIC, N. J., March 6.—Difficulties were caused today in the working of the plants charging assault, on Chief of Police Zuber and two patrolmen, charged with striking five of the striking textile mill workers.

After two local constables had refused to serve the warrants, signed by Justice Katz, hundred other warrants and said: "I must refuse to go any further with this matter."

Another Officer Asked. Justice Katz said he would confer with County Prosecutor De Vore and ask assistance of a deputy sheriff in executing the warrants.

PASSAIC, N. J., March 6.—With the arrest of Chief of Police Zuber and two patrolmen expected today, striking textile workers are hoping that they may establish in court their right to picket.

Officers Are Named. Five complainants asked for the warrants of arrest, swearing that Zuber, Cornelius Strong and Edward Hogan had struck them with clubs during recent clashes between police and strikers.

It was necessary for Justice Katz to go to Jefferson before he could find a constable who would serve the warrants.

# TARIFF PROGRAM ATTACKED

WASHINGTON, D. C., March 6.—An attack on the administration's tariff program as part of the democratic plan to make the tariff the dominant force in the coming campaign, was launched today by Senator Robinson, democratic floor leader.

# SHIBLING DEER VISITS IN CITY'S DUES OF SHOCK

NEW YORK, March 6.—From out of the wild a deer came straggling into New York today seeking food—and died from the shock.

After wandering about the cobblestone streets, nibbling door knobs and other indiscretions, the doe was discovered eating from the doorway of a haberdashery sleeping, by Patrolman Christie Wilkinson.

# Fire Threatens to Wipe Out Circus

NEW YORK, March 6.—While fire fighters are now working on a Coney Island circus—wrecked and scattered in winter quarters at Richmond Hill, fire early today, may wipe out an adjacent soap company.

Three houses 60 animals were as close as 20 feet to the blazing factory.

Fearing that signs of the beasts would escape, Queens police rushed machine guns to the fire and mounted them at strategic points around the menagerie.

However, none of them was needed. The blaze was confined to the factory, which contained dime-a-plate stand.

# ACTRESS SUED AS LOVE THIEF

Carroll Palmer Is Named in Action Filed by Mrs. Brewster for \$2000 Damages in Alienation Case.

HOLLYWOOD, Calif., March 6.—Carroll Palmer, well known costar of the \$200,000 litigation suit brought against her by Mrs. Eugene V. Brewster, wife of the macegator publisher.

NEW YORK, March 6.—Word was expected by rumormongers for Carroll Palmer today as to whether the actress, now in California, will defend the action brought by Mrs. Brewster. She would give \$200,000 damages for alienation of affection, her husband, Eugene V. Brewster, wealthy magazine publisher.

Supreme court Justice O'Malley before whom the case was begun by neither Miss Palmer for Brewster present, said he would give the decision tomorrow but Monday to decide whether the action would be defended.

# Friend of Evelyn Nesbit to Serve on Drug Court

SANTA FE, N. M., March 6.—The "Red" Smith of New York and Los Angeles, one time friend of Evelyn Nesbit, was again a suspended sentence of year and a day in prison at Canon City, Colo., today when she pleaded guilty to possession of morphine in federal court.

Mrs. Smith and her husband, Geo. Smith, were arrested in Albuquerque several weeks ago. Smith was freed by the court when no evidence was found against him. Mrs. Smith admitted she was a drug addict but was undergoing treatment for a cure. She was put on probation for five years by the court.

# RADIO CONCERTS ARRANGED

NEW YORK, March 6.—The dates of the Victor series radio concerts in the Victor series were announced today.

# RESTRICTION TOO SEVERE FOR PUBLIC

Governor of Virginia Urges Power to Halt Growing Power of Federal Government for Love of Liberty.

Otherwise They Must Submit to a Standardization of Their Lives, State Chief Declares.

RICHMOND, Va., March 5.—"The American people must halt the growing power of the federal government or submit to a standardization of their lives which takes an amount of time and energy," says Governor Albert C. Ritchie, of Maryland, said here today.

He came here on a special invitation to speak before the legislature.

"The American people must take more care of their rights," said the governor. "They must demand the freedom guaranteed the individual and for the liberty guaranteed the state, or they will lose the freedom guaranteed through federal control of the individual and federal taxation of the state."

"Here I plead for the south to take the leadership in vitalizing the traditions of the old—the love of liberty, the spirit of education, faith in the individual and in his right to the business of freedom, hatred of arbitrary power and of excessive federalism, the glory of self reliance."

"The integrity of our political system will be restored," said the governor, "only the reduction of excessive federalism is now."

# Helena Willis Defeated Nesbit to Serve on Drug Court

SANTA FE, N. M., March 6.—Helena Willis and her partner, Van Allen, were defeated today in the contest against the prohibitionist, unless doubled by Miss Edith Vlasto and the French lawyer, Cuchie. The score was 7-5, 6-7, 6-2.

# Veteran Printer of Idaho Dies Today

BOISE, Idaho, March 6.—Robert W. Jones, aged 71, pioneer printer, member of the legislature and former state auditor, died of his illness here today. He was a native of the state and had lived in Idaho for several years.

# Prices Slump After Flurry

Wall Street Trading Suffers Setback Today Following Several Days of Wild Spurts in Stocks.

NEW YORK, March 6.—Business for hoards investors improved on the stock exchange today and, after a few developments, important figures were at high levels and bank statements showed public buying power to be strong.

Professional selling interests were active on the exchange in the second hour and declines were forced in such stocks as Union, American Can and General Motors.

# Judge Refuses to Have Trial Reported

DENVER, Colo., March 6.—A court case similar to that of Jesse Fiverson, Mrs. Leola, Miss, where the newspapermen have been told not to publish details of the proceedings may occur here, when Joseph Nolan, "murdering knave" by Bronck, is tried.

"One thing," said District Judge Henry Frye here today, "this case will be kept out of papers."

# Beat Growers Organization Complete

KIMBERLY, March 6.—About 600 growers of beet sugar in the Beat theatre and organized a Beet growers association by electing A. R. Scott president; H. Smith, vice president; and Frank H. H. secretary. Other directors are C. W. Colner, Edmer Wooten, S. E. Cox and George A. Johnson.

The sentiment of the meeting was strongly in favor of planting "beets" and securing a good price. There will be another meeting in two weeks to perfect the organization.

# SENATOR TO RUN IF UNSEATED

Announcement Is Viewed as Veiled Threat Against Republican Leaders Who Seek to Oust Him.

WASHINGTON, March 6.—Should Senator John S. R. Houghton, Iowa, be unseated in the next election, he will enter the senate to oppose re-election of the present administration.

# OIL MERGER A RECORD SETTER

Consolidation of Associated Oil Company and Tidewater Oil Brings Largest Deal of This Year.

NEW YORK, March 6.—Official announcement of the consolidation of the Associated Oil company and the Tidewater Oil company brings about the formation of one of the largest independent units in the industry.

The deal, representing the largest merger of the year, investigated an amount of \$25,000,000.

The new company which will be known as the Tidewater-Associated Oil company, Inc., under the laws of Delaware has an authorized capital of \$25,000,000 and 100,000 shares of six per cent cumulative preferred stock and 10,000,000 shares of one per cent common stock.

Wall street investors believe that consolidation of the two companies will be a boon to the Mid-Atlantic Oil company which is acquired.

# Burbank to Be Honored in Birthday

Santa Rosa Will Fete Famed Naturalist Tomorrow When He Passes Into His Seventy-Seventh Year.

SANTA ROSA, Calif., March 6.—The 77th birthday of Luther Burbank, famed naturalist, will be celebrated tomorrow when citizens from all sections of the valley of the Sacramento gather here to join in honor.

The scientist's birthday as Arbor day in California, made so by legislative act in 1906, and the planting of the observance will include tree planting in keeping with the sentiment of the occasion.

Lecture Will Be Held in Burbank park under the auspices of the American Legion posts of Sycamore, California, and the planting of a tree in Burbank park will be the main feature.

Part of the day, concluding a week of events, will be the planting of a tree in Burbank park. Part of the day will be the planting of a tree in Burbank park.

Part of the day will be the planting of a tree in Burbank park. Part of the day will be the planting of a tree in Burbank park.

BRINGING HOME SOME OF HIS WORK.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sundays by the Times Publishing Company, Twin Falls, Idaho. Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1918.

BRYAN MEMOIRS AND OTHER LIBRARY BOOKS

By JAMES D. WHELAN.

In the long list of books recently added to the shelves of the Twin Falls public library, are several of unusual interest and value in the non-fiction class.

"The Economics for Helen," by H. Belloc, is one of them. It has nothing to do with pifs, pudding, pustry or pink teas, but is a clever elementary treatise on political economy which a lot of folks besides Helen might read with profit. It is peculiarly commendable for clear, concise and intelligible definitions of economic terms, which are often obscured in more elaborate works.

Public Finance, by M. A. Robinson, is another little book that has a lot of good suggestions on the effect of taxation, without having any particular conclusion. It is worth reading.

Then there is the book of Memoirs by William J. Bryan, over half of which is the work of his wife, which will be read with interest and sympathy by those who followed and those who fought the Great Commoner. It is filled with the sort of sympathetic humanity which made Bryan always beloved by millions.

Of course, the final drama of the trial on evolution gets the space, and the speech which was to have been delivered is given in full; a very able popular presentation of the case of the fundamentalists is published.

But the older reader will find the review of past campaigns of more interest, and will be struck by the singular consistency of Bryan in his fight for elimination of privilege and for international peace.

There is no letting down in his fight on a protective tariff, which he scored in speeches that stirred the nation in the early '90s during his congressional career; when he denounced a tariff levied for protection to be robbery, whether the rate was 10 per cent or 1000 per cent. More moderation is observed in expression in the speeches quoted in the Memoirs, but there is no retraction or modification in principle.

Mrs. Bryan while defending the position of her husband with reference to his difference with the president, nevertheless calls Wilson a great war president. The very seeming contradictions in his character making for a combination of stability and effectiveness. She says high tribute also to the sound democracy of the chief executive.

The principles of the Bryan peace treaties, which by the way, our present secretary of state, Frank B. Kellogg, once said would have prevented the war if universally signed, are reproduced in Article 12 of the covenant of the League of Nations. Mrs. Bryan claims that the whole principle of the League was adapted from her husband by Wilson, who brought it with him from America, instead of accepting a British plan as his foes have asserted.

Bryan remained loyal to the League without reservations to the end, although he would have accepted it with reservations rather than remain outside. On this point, Mrs. Bryan quotes the speech of her husband in San Francisco at the 1920 democratic convention when he said that if he could by sacrificing his life secure its adoption without reservations and give all the credit to Woodrow Wilson he would go to his death with a smile on his face.

One finishes the Memoirs with the conviction that unto the end Bryan might have repeated what he said in opening a great speech in the St. Louis convention in 1901: "That while there might be a question as to whether he had fought a good fight, or whether he had run his course, there could be no question that he had kept the faith."

WASHINGTON DAILY NEWS LETTER

BY CHARLES P. STEWART

NRA Service Worker

WASHINGTON—Senator Norris

is expected to announce

Senator George W. Norris of

Nebraska.

Normally a Republican, he jumped

the Republican reservation all the

time. He has nearly a full term

of office. Several times he has

Norris was re-elected at the last

election. He has nearly a full term

of office. Several times he has

intimate that he wouldn't be re-elected

if he had to go to the voters' pur-

suit and win administration sup-

port.

NOW this isn't fair to Norris.

In the first place, he always

was honest.

Secondly, he didn't want to be

re-elected in 1924. Politicians aren't

his name on the ballot, but in No-

braska, "Senator Norris" attends

at his home, in spite of the fact

avoided some little expense, which

you bore.

"They can draft me," exulted

Norris, when he heard of it. "I'm

travelling out. I'm going to get out

of this business, in spite of the fact

he drew a check, to reimburse

his supporters who had put up

with him. Several times he has

written a letter to his secretary, Miss

Marjorie Taylor, telling them he

wasn't elected to run.

"PLEASE" get this letter out to-

night. He told Mrs. Taylor.

"By tomorrow it will be too

late to send what those misguided

millionaire have done."

"Don't tell me," replied Mrs. Taylor.

"I'm too tired to get it out tonight."

# SCHOOL LEVY IS VOTED BY THE ELECTORS

Board is Permitted to Raise About \$50,000 in Addition to the Eight Mill Levy Which is to be Paid by the Property Owners This Year.

By a vote of 216 to 75 the people of Twin Falls at the election held yesterday authorized the levying of seven mills extra for the general fund. The vote in the Lincoln school was 105 for the levy and 21 against. In the district school the vote stood 115 for and 51 against.

The total levy, if made will amount to approximately \$122,000, of which \$72,000 will be raised by the original millage rate and \$50,000 by the seven-mill levy. The estimated amount required for the year is slightly in excess of \$127,000. The operation and maintenance, so that the total levy would appear to be somewhat below possible mill requirements. Last year it was estimated that the seven mill levy would raise \$52,000 more than the valuation has been reduced since that time in an amount in excess of \$100,000.

## Equitable Assurance Company Issues 66th Annual Statement

The sixty-sixth annual statement of the Equitable Life Assurance Society of the United States is published today, showing gains in all important items. The assets on December 31st total \$432,400,000, an increase of \$27,700,000 over 1925, which is the largest gain ever made by the company. The outstanding insurance policies amount to \$6,400,000,000, a few months ago and now totaling nearly \$4,400,000,000.

The new insurance paid for during the year aggregated \$555,000,000, including \$100,000,000 of group insurance. This was the largest amount of new business in any year in the history of the company and represents an increase of \$100,000,000 over the amount paid for in 1924.

During the year the company paid nearly \$100,000,000 to the policyholders and beneficiaries. A little over \$33,000,000 was set aside for payment on annual dividend policies during 1925.

A further improvement in the company's mortality experience is indicated by the decrease from 6.08 per cent in 1924 to 5.24 per cent in 1925 in the ratio of actual to expected losses.

**Tool Man Centuries to See Value of Fork**  
In "good old times" when human beings were always within 25 hours of a savanna, man ate only with his fingers. He hunted for his food in the woods or by the seashore, and he picked the bones clean.  
Two table articles are found among uncivilized peoples—the knife and the spoon.  
The knife was originally a weapon of attack or defense; it was used for cutting and carving flesh, but its convenience in eating soon became apparent.  
The origin of the spoon is uncertain. It must have been invented at a very early date, for it is found in the hands of people that have never come into contact with civilization.  
The necessity of having some implement for dipping into the pot, and the fact that in the invention of the wheel, or the use of the wheelbarrow, and later on to the steam engine, there were many things that were done before there were forks. As a French writer on table etiquette has said: "From the cradle of the steam engine, the invention of the steam-train, the man ate only with his fingers." This is, however, a mistake of 400 years, for we find forks as early as the thirteenth century, when they are mentioned as being kept for special purposes.

# Seeks Walker

Walker, who expects to show his fighting ability in the east shortly. He is not on getting a match with Mike Walker, champion. On the first round Walker is well thought of and many experts predict a great future for him.

## INCOME TAX FACTS

**WHO'S RESPONSIBLE?**  
WHO? Single persons, who had not income of \$2,000 or more, \$2,000 to \$5,000 or more, and married couples who had not income of \$2,500 or more, or whose income of \$5,000 or more must file returns.  
WHEN? The filing period ends on March 15, 1926.  
WHERE? Collector of Internal Revenue for the district in which the person lives or has his principal place of business.  
HOW? Instructions on Form 1090 and 1091; also the last issue of the "Blue Book."  
WHAT? One and one-half per cent normal tax on the first \$10,000 in excess of the personal exemptions and credits. The normal tax on the next \$10,000, plus one per cent normal tax on the balance of net income. \$2000 or net income in excess of \$10,000.

## About the East

The porous Far East designated China and Japan and that region of Asia that is most eastern, whereas the Near East refers to the Levant, Turkey, and the countries adjacent thereto. Originally in the political world, Far East affairs were referred to as the Eastern Question. In those days the Far East included all the nations of China, which were designated by the "Far East" and "Japan" the phrase "Far East" came into prominent use. The word "Orient" is derived from the Latin word, "oriens" which means the east in the East because the sun is said to rise in that region.

## Eastern Well Sweeps

A shower in a water-trading service consisting of a long pipe placed near one end and having its upper end fitted. A bucket is hung to its lower end, thus operating on the principle of a well sweep. It is used by the Nile and elsewhere in the East, especially for irrigation.

# OX DRIVER TO TRIAL TODAY FOR MURDERS

COHET HOUSE, Day-St. Louis, Mo. —WHI reporters under strictest orders not to publish details of the case and the witness of his two victims until a few feet away from him. Jesse Payne, oxman driver and suspected assassin, went on trial today charged with the murder of two government employees.

The trial officially got under way after Justice Walter A. White, who imposed the "no talk" rule on the press, overruled a motion by Payne's counsel to reopen argument for a chance of venue which had been denied earlier in the work with the jury.

Witnesses for the state were sworn. There were eight defense witnesses.

## LAMB PRICES STUMP

DESVER, Colo., March 4.—Owing to a seasonal increase in lamb receipts at livestock markets, the wholesale price of lambs has declined appreciably since the first of February and this meal, especially cuts from the shoulder and breast, should offer the consumer a relatively economical buy, according to an announcement issued today by the Colorado Stock Growers' association.

## "City" of El Dorado

Nothing But a Myth  
Some time ago, when the ruins of an Aztec city were discovered in the Amazonian forest, they were popularly supposed to be those of El Dorado, the golden city to which Raleigh and many other adventurers were said to have been seeking their fortune, and a few to fortune, in Elizabethan times, when the wild stories of the New World found credence.

El Dorado sounds like the fanciful names which the Spaniards and Portuguese gave to the cities they established, such as Inagua, Alca, San Juan, Los Angeles, and so on. But the fact is that El Dorado is not a city at all, and never was, although it would make a fine sounding name for some new city.

## Their Fate

The warlike men of the north felt superior to the people, but it is members few of them.—Duluth Herald.

# SOUTH PACIFIC BUYS MORE CARS

SAN FRANCISCO, March 5.—The Southern Pacific company has ordered from Chrysler car building firm 1000 freight cars which will cost approximately \$1,250,000. G. W. Lopez, freight traffic manager, announced today.

The order includes 1100 fifty-ton standard box cars and 50 general purpose freight cars.

The box cars are similar to 2000 cars ordered by the company last year and 500 others now being built by the company itself at Sacramento. The Southern Pacific last month ordered 23 locomotives which will cost about \$2,000,000.

# WALL STREET FINANCIAL

NEW YORK, March 5.—Trading operations of the stock-market resumed with a resumption of the downward movement—(inverted)—by the numerous stocks of the railroad group. The selling went ahead among the industrials with Wall Street "B" Foundation Company and several other specialties among the railroads. Pressure was lifted from this section of the market following the development of a demand for rails with the numerous stocks of the railroad group. The market closed irregular, closing prices included:

U. S. Steel 25 1/2; off 1/2. American Can 25; up 1/2. Allied Chemical 18 1/2; off 1/2. Consolidated Traction 21 1/2; off 1/2. Chrysler 17 1/2; off 1/2. General Motors 22 1/2; off 1/2. # HOW LONG A LINE WOULD 1500 CARS MAKE

"Try to visualize an unbroken line of 1500 motor cars driven on the road 35 feet apart—how far would the line extend?" This question, asked by Frank Macel of the Macel Automobile Company, Lord Dodge Brothers dealer, is being looked upon by a number of people as being a "flourish."

Dodge Brothers, Inc. are now building 1500 vehicles a day. Each car measures 14 feet by 15 feet from bumper to bumper. If they should allow 35 feet as a safe driving distance between cars, the road this would make an unbroken line of 75,000 feet long.

"I have not been able to find a road map which shows the distance from New York City but I have now checked the distance from a point in New York City to Buffalo in order that it may be of interest to our readers. The distance by road from New York City to Buffalo is 415 miles. If the distance by road from New York City to Buffalo is 415 miles, the distance by rail is 315 miles."

# Bible Thought for Today

THE VERY CHRISTIANITY of the day is not in the church, but in the heart. The church is the body, but the heart is the soul. The church is the house, but the heart is the temple. The church is the vessel, but the heart is the treasure.

## Publishers Keep Busy

If there is a book in the world, there will be a publisher to publish it. The publishers are busy with the new books that are being published every day. The publishers are busy with the new books that are being published every day. The publishers are busy with the new books that are being published every day.

# Her Memory Reversed

Lois Aronella was the daughter of Thomas Carl Lincoln. She married Frank Johnson, who left his native land for New England from religious motives. Mrs. Aronella cheerfully accompanied him, and they arrived at Salem, Mass., in April, 1920. Her father's character and gentleness pleased her, and she remained in the country. She is now in the hospital, and she is being cared for by her mother.

## To Remove Iron Rust

Iron rust may be removed even the most stubborn by applying common table salt and the juice of a freshly cut lemon to the stain and holding it over the spot for a few minutes. After a few minutes repeat with a fresh application.

## Furious Atlantic Spends Its Might in Vain as Entire Antioe Crew Is Rescued by American Merchant Seamen Heroes.

WHIRLING, frenzied seas, biting ice, the roar of the Atlantic Wind howling in the ears of twenty-two weary, hungry seafaring men waiting for the survivors of the Atlantic's mid-winter debauch of terror.

The freighter Antioe was at 40 degree lat. Her steering gear had been ripped off. Her No. 3 hatch had been torn loose and flung over the gunwale by a twisting wave. Water had flooded her engine room, and she could not turn her screws.

Early Sunday morning, January 26, she had used her radio to call for help. At once the U. S. liner Roosevelt, near over the horizon. Her crew helped—perhaps. If the crew quitted the Roosevelt could not out boat.

"But the sea did not quiet. More and more the freighter suffered from her heaving as the hours passed. Hulls were ripped off, tonnage flicked into the ocean. A high deck stupa standing by could have given no aid in that insane storm.

There was comfort for the twenty-two seafarers in only one thing. Words of assurance came over the radio from the Roosevelt, words that were seldom said, and then seldom from man to man. They were said for some little thing that would give them the right to hope.

**One Thread of Hope**

And Arthur Evans, the Antioe's young wireless operator, was answering those words from the Roosevelt. He was keeping up that precious contact, that link with all the outside world that was hidden behind the leading seas.

Then the radio went dead.

The Antioe was alone. The Roosevelt, who had become a teacher, it was a witness of death, a futile witness. Nothing could be said.

Night fell—black, storm-swept night. And the Antioe was alone. She could not talk to that neighbor whose lights were bobbing in the sea, some three times only a few hundred yards away.

Arthur, Evans decided something ought to be done. And he did it.

He talked with the Antioe's crew. From the helms of the Antioe he sent forth his plea and dashes in the form of blinks from the bulb of his light.

**Winking Odds and Dashes**

The two ships rolled and strained under the sea, under the weight of an onslaught of the fury of the storm. But aboard the Antioe there was new hope, for once again she was left to the world—tied by the wireless light.

The incident is typical of the resourcefulness displayed by the officers in that great drama which, for four days, held the attention of the world. It was that ability to make the most of the means at hand, coupled with the bravery of the crew of the President Roosevelt, that made it possible for every one of the twenty-two to be saved.

The six took two victories, sailing of the Roosevelt which cast aside all thought of personal safety in obeying the age-old law of their calling.

**Rewards for Heroes**

Because of their resourcefulness and bravery, the Board of Trade cut all

red tape that Captain George Fried, master of the Roosevelt, and his crew might be from medals commending their bravery without delay.

The heroes have been lauded by the great of all the world. King George has thanked them, and President Coolidge. But the congratulatory cable from a rich Captain Fried, marshal of the Antioe's desperate condition at 2:45 a. m. January 24. The stricken vessel's master was unable to give his position, as the storm made it impossible to use the sextant. Wireless Operator Upton, of the Roosevelt, was ordered by Captain Fried to use the sextant direction finder and to report to him every fifteen minutes.

**Oil on the Waters**

When the Roosevelt came upon the Antioe she found the helms vessel had listed heavily to the starboard, in an effort to cut the sea somewhat, more than 2000 barrels of oil were poured on the water. But it was futile to attempt to lower a boat.

line reached the Antioe safely. But the fury of the sea took its toll, and the fall of the lifeboat was being halted in by the crew of the doomed ship.

**Manned, Lifeline, Was**

Regularly it was by a manned lifeboat that the rescue was effected. The weather moderated somewhat and Captain Fried decided to risk his men once more. Again volunteers were called for, and again there were plenty of them.

The lifeboat was maneuvered alongside the Antioe, but it would have been foolhardy for it to get too close. The crew of the wrecked ship was ordered to jump for it. They were slow in responding, most of them feeling too exhausted to put forth the effort. The boat finally cleared away with twelve men and headed for the Roosevelt, which had been maneuvered to a favorable position.

When it arrived it was impossible for the rescued men to mount the ladders that linked the ship's side. Most of them were hoisted aboard—by life-lines.

They collapsed on the deck.

In the morning of January 25, long before daylight, another lifeboat put out to complete the rescue work. A bright moon aided the task, and the men were glad about the prospect of being rescued without mishap. Captain Tose, master of the Antioe, but the last up to the ladder.

The first thing that the men realized on reaching the deck was to ask that he be taken to Captain Fried to express his gratitude.

**Four Days of Delay**

"This, after a delay of only four days," the Antioe's crew continued to say.

Every kindness was shown the rescued men. Clothing was provided for them by crew and passengers, and, scattered liberally of all, they were given plenty of food and plenty of opportunity to sleep.

The "barmentation" that was the famous berths for William and Hellman, the two men who had lost their lives in the rescue, had long since been abandoned. Most of the stores had long since overboard in the storm.

All this time the Roosevelt was also feeling the effects of the storm. She rolled to 35 degrees in the heaviest weather. But there were no murmurs from her passengers.

It was at this juncture that one of the passengers proved resourcefulness was not possessed only by sailing men. Colonel U. C. Isaacs, of the U. S. Coast Artillery, a ballistic expert, suggested that a spring be inserted between the life gun projectile and the fuse it carried. This was done, and

he reached the Antioe safely. But the fury of the sea took its toll, and the fall of the lifeboat was being halted in by the crew of the doomed ship.

It was at this juncture that one of the passengers proved resourcefulness was not possessed only by sailing men. Colonel U. C. Isaacs, of the U. S. Coast Artillery, a ballistic expert, suggested that a spring be inserted between the life gun projectile and the fuse it carried. This was done, and

THE SHIP THAT DID THE JOB. The President Roosevelt, photographed before she set out for sea. Since she carried the twenty-two men of the wrecked freighter safe into Plymouth harbor, her routing, speed and rescue were triumphs.

At 10:30 a. m. on Saturday afternoon, during a slight fall in the heavy weather, Captain Fried ordered a boat over. There had been urgent calls for aid from the Antioe—calls that were transmitted by the signals.

The crew of the lifeboat, all volunteers, included Chief Officer Miller, Master-at-Arms Tom Wilman, Master-at-Arms Ernest Holman, Master-at-Arms Morris Jacobson and Able Seaman Johannes Bower. Alex Vreth, some German Franklin and Sam Fisher.

**Two Sacrifices Lives**

It was a dangerous undertaking—the boat rode free only a moment after hitting the water. Then she was swung over on her side. Wilman and Hellman were lost.

For more than an hour the Roosevelt, with a crew of twenty-two men, but to no avail. Night fell, and it was impossible to try to reach the Antioe again.

Early the next morning the Roose-

he reached the Antioe safely. But the fury of the sea took its toll, and the fall of the lifeboat was being halted in by the crew of the doomed ship.

Regularly it was by a manned lifeboat that the rescue was effected. The weather moderated somewhat and Captain Fried decided to risk his men once more. Again volunteers were called for, and again there were plenty of them.

In the morning of January 25, long before daylight, another lifeboat put out to complete the rescue work. A bright moon aided the task, and the men were glad about the prospect of being rescued without mishap. Captain Tose, master of the Antioe, but the last up to the ladder.

The first thing that the men realized on reaching the deck was to ask that he be taken to Captain Fried to express his gratitude.

**Four Days of Delay**

"This, after a delay of only four days," the Antioe's crew continued to say.

Every kindness was shown the rescued men. Clothing was provided for them by crew and passengers, and, scattered liberally of all, they were given plenty of food and plenty of opportunity to sleep.

The "barmentation" that was the famous berths for William and Hellman, the two men who had lost their lives in the rescue, had long since been abandoned. Most of the stores had long since overboard in the storm.

All this time the Roosevelt was also feeling the effects of the storm. She rolled to 35 degrees in the heaviest weather. But there were no murmurs from her passengers.

It was at this juncture that one of the passengers proved resourcefulness was not possessed only by sailing men. Colonel U. C. Isaacs, of the U. S. Coast Artillery, a ballistic expert, suggested that a spring be inserted between the life gun projectile and the fuse it carried. This was done, and

he reached the Antioe safely. But the fury of the sea took its toll, and the fall of the lifeboat was being halted in by the crew of the doomed ship.

Regularly it was by a manned lifeboat that the rescue was effected. The weather moderated somewhat and Captain Fried decided to risk his men once more. Again volunteers were called for, and again there were plenty of them.

The lifeboat was maneuvered alongside the Antioe, but it would have been foolhardy for it to get too close. The crew of the wrecked ship was ordered to jump for it. They were slow in responding, most of them feeling too exhausted to put forth the effort. The boat finally cleared away with twelve men and headed for the Roosevelt, which had been maneuvered to a favorable position.

When it arrived it was impossible for the rescued men to mount the ladders that linked the ship's side. Most of them were hoisted aboard—by life-lines.

They collapsed on the deck.

## Britain and United States Honor the Intrepid Rescuers

Captain George Fried and his subordinates of the President Roosevelt became heroes to all the world by their courageous rescue of the crew of the Antioe. They have been touched with honors ever since.

When the Roosevelt touched at Southampton February 8 on its return to this country after the rescue, the British Government bestowed medals on all the men involved in the rescue.

In addition, Captain Tose, of the Antioe, presented the Roosevelt master and his officers with suitably inscribed gifts.

The daring rescue also called for the official recognition by the United States Government. The Navy Cross was awarded Captain Fried with this citation:

"The seamanship, courage and professional ability displayed during a long struggle with a violent gale, snow and ice, in the highest order and in accordance with the best traditions of those men who go to sea."

## Blinking Flashlight Beams Carry Desperate Pleas for Help to U. S. Liner Standing By During Four Frightful Nights.

representative of the Admiralty Commander-in-Chief, representing the Commander in Chief at Devonport; Captain Humphreys, the King's Harbor Master; Captain J. King, representative of Lord of Trade, and Ralph O. Buser, the American Consul.

The Mayor of Plymouth was the spokesman. He referred to the heroism of his nation over the loss of the two American seamen and his spoke of the rescue as a deed "that will be recorded in history as unequalled in the annals of the sea."

"This heroic rescue," he continued, "will make closer the relations between the great maritime nations and all English speaking peoples. All nations the gallant deed which gave its lives for humanity. Their unselfishness will never be forgotten. Their names will live forever as well as the gallant deeds of the President Roosevelt's captain and crew."

**"We Did Our Duty"**

Captain Tose, a Stocky, friendly man, was self-conscious as he listened to this praise.

"Any ship able to cope with such an emergency would have done the same," he said. "We simply did what our duty as sailors demanded of us."

Meanwhile great demonstrations of joy were going on. The Antioe's crew was home again—some after days spent in the shadow of death, others when it seemed certain that they were no more to see their England.

**"Give 'em a Cheer!"**

Jumpy good-byes were said by the Antioe's men as they prepared to leave the ship. There were rough expressions of gratitude and strong handshakes.

Then Bill Richardson, a sixteen-deckhand, took charge of the party. "Give 'em a cheer," he shouted to his crew. "The twenty-five men of the approval. Hurrah for Captain Fried, hurrah for the President Roosevelt, hurrah for the Antioe's crew!"

"The formal part of the ceremony," Tose was expressed in the following note, which he presented to Captain Tose when it reached the latter for Plymouth.

"It is impossible for me to find words to express my appreciation to myself and the officers and crew of the Antioe our heartfelt gratitude to you for your heroic rescue. All of us from our own little ship. Your splendid determination saved us at all costs, even at the cost of your brave men, and this is our debt to you. We shall never forget your noble spirit of sacrifice and your devotion to the highest instincts of humanity. Your handling of your ship in extremest difficulty merits our lasting praise and affection."

Tose thanks Miller, who is now Nor did Captain Tose forget Oiler Miller, who was in command of the life boat which took off the crew of the wrecked vessel. To Miller the Antioe's master gave this letter:

"As master of the Antioe I wish, as a token of my officers and men, to

thank you with all my heart for the part you took in the rescue of the Antioe's crew. Your intrepid bearing, unselfish disposition and remarkable seamanship in connection with your brave act in commanding the three life boats calls forth our admiration and gratitude. You have indeed given us back to us, according to the command to express gratitude to you and your brave men, and all we can say is that we thank you for the depth of our hearts. May God bless you all."

**Oh for Shore**

"To the shrieking of stress and the sounding of horns the lighter bearing the Antioe crew made for the shore. It made its way through a maze of small craft that had put out to welcome the Roosevelt. Thousands of other spectators waited on shore to give another welcome to the men who had come back from death. Handshakes and water from bottles were jammed by a happy, cheering crowd."

**Thrilling Story an Air-Cast**

Canada has told the story of the rescue to the people of England over the radio. It was the most successful broadcasting program of the season, according to the comment of many radio operators in that country.

For fifteen minutes he recited, in an even matter of fact voice, the events of the Antioe's rescue, during the four trying days.

And he closed his speech with an expression of his gratitude and the gratitude of his men toward the gallant Americans who saved them.

**King Deeply Moved**

That "thrilling story of thankfulness" was emphasized by King George in the message to President Coolidge.

"The news of the heroism displayed by the officers and crew of the President Roosevelt, the rescuing, under the most terrible conditions, all the hands of the Antioe, has deeply moved me in expressing my thanks and appreciation to the gallant men who sacrificed their lives, and would ask you, Mr. President, to assure the bereaved families of our best wishes."

**President Coolidge's Reply**

To that message, Mr. Coolidge replied:

"I have been gratified to receive your masterly gracious message of appreciation of the rescue of the entire crew of the Antioe, and especially which by the American States—President Roosevelt, and the families of those gallant men whose lives in this humanitarian effort shall be applied of your generous expression of condolence. The event is but another illustration of the heroism of the Antioe's crew, which has characterized alike the maritime of the United States and Great Britain, and which, in the occasion of this rescue, has been so nobly and bravely shown. I rejoice that American sailors have been able to help those of Great Britain."

FRANK M. UPTON, Wireless Operator of the Roosevelt, who picked up the Antioe's distress signal.

# INJUNCTION IS SOUGHT ON THE HANSEN BUTTE

Papers Are Filed to Stop Directors of Murlough Irrigation District from Issuing and Selling Bonds—Claim Is Made That Conditions Have Changed Since Bonds Were Authorized

A suit to enjoin the board of directors of the Murlough Irrigation district from issuing and selling bonds in the principal sum of \$250,000 has been filed in the district court. The bonds were authorized May 1, 1922. The plaintiffs are E. H. Mounsey, H. C. Getzer, Peter Lihl, C. W. Parks, Samantha K. Aull, Mrs. P. A. Covalch, Charles M. Tobey, John Hoffman, C. J. Weaver, A. B. Jensen, C. C. Remick, J. L. Heiler, George White, Dana Woodke, William Woodke, W. G. Moberg, H. C. Olson, J. E. H. Olson, and Albert R. McChernid. H. C. Bond, H. C. Romig, H. C. Hoag, J. B. White, First National Bank and J. A. Cron. The district court is presided over by directors from existing contracts for the leasing and sale of the bond. The suit is to prevent the board of directors from entering into contracts for the leasing and sale of the bond. The suit is to prevent the board of directors from entering into contracts for the leasing and sale of the bond. The suit is to prevent the board of directors from entering into contracts for the leasing and sale of the bond.

# WHITE IS LOW BIDDER ON THE L.D.S. TABERNACLE

The Ernest White company of the city has been the low bidder for the construction of the L. D. S. tabernacle. It was discovered when the bids were opened by E. M. Guest here last night. The low bid was \$22,725. There were five bids all from Twin Falls, Idaho, including the following: The bids were sent for checking of Salt Lake City, where they were distributed and returned. President J. C. Kirkman said that construction will be started by shortly. The new building will be fitted for all the necessities of the church here and will have an auditorium that will seat 500 people. It will be a beautiful structure, architecturally. The building committee consists of H. C. Kirkman, C. H. Dorje, M. G. Street, J. W. Roberts, Claude Brown, Chas. Wilkins, George W. Hammond and George Ward.

# JOE-K GOES TO ATTEND GREAT MANAGER MEET

With a schedule as closely packed as that of a continental railway, Joe-K, manager of the Idaho Theatre, starts tomorrow for Honolulu to attend the Pacific Theatre Managers' national convention in Alhambra, Calif., March 16, 17 and 18, at which time he will attend the annual meeting. The instructions to Joe-K were just when he starts, what time to take from Chicago, what time to get to Honolulu, what time to get to Alhambra, H. C. Bond, H. C. Romig, H. C. Hoag, J. B. White, First National Bank and J. A. Cron. The district court is presided over by directors from existing contracts for the leasing and sale of the bond. The suit is to prevent the board of directors from entering into contracts for the leasing and sale of the bond. The suit is to prevent the board of directors from entering into contracts for the leasing and sale of the bond.

# AIRPORT HERE IS NEW PLAN

Aviator and Local Business Men Select Field Near City and Plan That City Purchase It At Once.  
Twin Falls has moved another step toward the realization of a separate airport with the announcement today that a field had been tentatively selected outside the city limits.  
Charles Deight, secretary of the chamber of commerce, in company with M. L. Tompkins of Idaho Falls, an aviator, A. L. Seifig, real estate dealer here, and Eugene Osterlander, manager of the Texas Oil company, branch at Twin Falls, here today proposed against this morning the purchase of a tract of land to build an airport. The property now belongs to the state. It is ideally located and in excellent condition for use. It is a beautiful structure, architecturally. The building committee consists of H. C. Kirkman, C. H. Dorje, M. G. Street, J. W. Roberts, Claude Brown, Chas. Wilkins, George W. Hammond and George Ward.

# City Briefs

Back from Trip—Robert C. Wolf has just returned from three months' travel.

# HEALTH AND CHARACTER TO BE BUILT UP

Superintendent Blom Talks of Sub-stance of Several Outstanding Addresses at Superintendents Meeting in Connection with the National Education Association.  
Health as an objective in education character and citizenship, and the matter of the curriculum, were subjects which engaged a great part of the time and attention of the superintendent division of the National Education Association at its meeting in Washington, according to Superintendent Blom, who returned Friday afternoon from Washington, where he attended the meeting. He visited the University of Chicago while on route home.  
Division Is Necessary.  
The division of superintendence is the result of a division in activities in the association, which has grown so large to hold all divisions together, with their various interests and activities. In one meeting, Blom visited the University of California in Los Angeles and San Francisco, while in the last part of the trip he visited the University of the South Pacific Railroad company here.  
School Successes—The elementary school conducted this week at Buley was a great success. It was started today by E. Douglas Hawley, district superintendent. There were 200 children who had the course and will have much pleasure and are prepared to do creditable work.  
Take Formal Action—Final action on the purchase of 11000 acres of water from the American Falls dam to apply to 37,000 acres of land owned to the big district was taken today by the board of directors of the district. The action today was simply the final endorsement of the purchase. The water was also, other business up to press this was routine.  
Appeal to Swanson—Sustaining the attitude of Carl J. Miller, Twin Falls representative on the committee of nine, in regard to storage of natural flow water, the Twin Falls Canal company board yesterday voted to appeal to W. H. Swenson, reclamation commissioner from the action of the watermaster.
