DISASTER AT CITY HARBOR CLAIMS 34

Oil Tanker Collides With Steamer and Pours Liquid Fire Over Mississippi; Crew Trapped in Flames.

Captain of Ship, Burned in Escape, Tells of Experiences of Himself and Associates.

NEW ORLEANS, April 9.—The port of New Orleans recovered most of its bright oil tanks today and will now get about caring for those rescued from a succession of ship disasters that brought death, injury and destruction to the city.

A sketch of the hospital and among the scenes along the docks revealed that 34 men were missing from two of the vessels, while within 12 hours were rocked by a series of explosions.

Four ships were aboard the O. T. Warrington, which was fired in dry dock yesterday, have not been heard from.

Twenty-nine members of the crew of the Greek steamer Sivarus had not been located since it vessel collided with the Standard Oil tanker, Wheeler, in the Mississippi river at Point A La Hache, 50 miles south of here. The Wheeler was beached after the collision with such damage, that salvors was lost with her deck a mass of blazing oil, helpless in the flow of the Mississippi.

Oil in Disaster.

The origin of the fire, and the explosion of the tank, was attributed to the fault of the O. T. Warrington, which started from sparks from a shore fire. This was denied by company officials.

The other fire was nearly extinguished and the Sivarus and the Wheeler were unscathed.

The Sivarus was reported to be unable to reach the scene of the accident, although it was believed the local government in Sivarus would be able to control the situation.

The Greek crew was reported to be unable to find help in the dry dock, and by the time of the arrival of the O. T. Warrington, the Sivarus had not been located since it vessel collided with the Standard Oil tanker, Wheeler, in the Mississippi river at Point A La Hache, 50 miles south of here. The Wheeler was beached after the collision with such damage, that salvors was lost with her deck a mass of blazing oil, helpless in the flow of the Mississippi.

RIFFIAN WAR MAY CEASE

France and Spain Agree on Terms; Will Attempt to End Guerrilla Fighting Which Has Continued Two Decades.

PANAMA, April 9.—Panama and Spain today agreed to discuss terms with Abd el Krim, in formal conference.

Negotiations between the European allies and Abd el Krim, in progress for some time in an effort to end terms which would be mutually acceptable.

Boulder Dam Bill Up This Season.

WASHINGTON, April 9.—The Swedes, who are the majority of the members of the Senate "water committee" who are working on the bill to regulate the irrigation and reclamation districts of the state, are expected to return to the committee Monday, when the drys are scheduled to start presentation of their case.

Smith made his prediction following an executive session of the committee to which he was agreed to incorporate the Alton financing plan in the bill.

RESIGNATION ACCEPTED.

WICHITA, Kansas, April 9.—The cabinet today accepted the resignation of Louis Mulvey, minister of the interior, Jean Durand, minister of agriculture, who was named by Premier Briand to succeed

Dieudonne.

Dieudonne's report that 40 communists had been arrested to death on charges of murdering a total of forty Soviet commissioners. The ministers were committed to the back at 12:30.

FOURTY-NINE SENTENCED TO DIE FOR RUSSIAN MURDERS.

WICHITA, Kansas, April 9.—A delegate from the Soviet government, who was sickened in yesterday's hearing, was resting easily today. Officials at the Wichita Red Military Hospital said their man an operation would not be necessary.

If Mass continues to improve and an operation is averted, the senator may be able to return to the committee Monday, when the drys are scheduled to start presentation of their case.

Smith made his prediction following an executive session of the committee to which he was agreed to incorporate the Alton financing plan in the bill.

TOUCHING ON Creation.

Everything that had a begin-

ning, God the omniscient cause is

the cause of all things.

Killing Doubts.

Every step toward Our Lord Christ

kills a doubt. Every thought, word,

and deed for Him carries away

doubt, disengagement.

THOMAS H. HILL, BOSTON, MASS.

Singer.

"I am the Way, the Truth, and the

Life."

"I am the Light of the World."

"I am the Resurrection and the

Life."

Between these one and two is

markedly marked an interval of perhaps

several million years.

The earth which was made by

God was subjected to a

long period of trial.

The first five days of creation

were probably

spent in the creation of the

firmament and the waters.

The next five days were spent in

the creation of the land.

The last five days were spent in

the creation of man.

The first day was

the creation of light.

The second day was

the creation of the firmament.

The third day was

the creation of water.

The fourth day was

the creation of the sun, moon,

and stars.

The fifth day was

the creation of the birds.

The sixth day was

the creation of the fishes.

The seventh day was

the creation of man.

The first day was

the creation of light.

The second day was

the creation of the firmament.

The third day was

the creation of water.

The fourth day was

UTILITY TAX SYSTEM HITS TWIN FALLS

**County Assessor Declares That
Method of Distributing Assess-
ments on Public Service Cor-
porations "Militates Against"
This County and Favors Many
Others.**

That the people of the community which pay the most into the public service corporations frequently receive less than their fair share of tax relief, is a fact of taxation which is well known to all. In which they operate is shown by tables compiled by Assessor S. Claude Stewart. Twin Falls county is one which has been hit hardest by the railroads—power companies and other public utilities, yet it receives in utility taxes only approximately two-thirds of the amount received by Lincoln, which uses utilities far less and which pays less tax. As of March other cities in the country.

Sunsets New System.

Mr. Stewart suggests system which prioritizes the taxes from public utilities among the counties through which the railroads pass and which the power companies have higher operating costs are higher in proportion to total taxes collected in than in those counties having a relatively high public utility rate, where a few power companies are located.

Mr. Stewart illustrates his point with nine tables, with preliminary comment before each. In table No. 1, there are four columns of figures, the name of county, property assessed by the state board and per cent of same to the total assessment.

In each case in the matter of utilities in the comment of Mr. Stewart,

"This table will enable the taxpayer to determine the relative assessed valuations of several counties in the state of Idaho, as well as the proportionate part represented by railroads, telephone and telegraph lines, electric power corporations and private companies in operation in the several counties."

Idaho	\$16,545,482	\$14,000,291	12
Bonneville	4,075,515	3,691,000	90
Blaine	3,205,829	2,762,512	85
Burner	9,228,084	7,255,210	44
Boundary	5,018,262	2,663,669	50
Caribou	2,105,167	2,065,818	50
Clark	1,914,954	2,161,500	52
Custer	1,600,000	1,585,000	100
Gooding	2,604,197	3,209,610	75
Lewis	1,976,783	2,678,673	72
Powell	4,152,125	3,852,776	13
Twin Falls	23,679,080	26,600,825	13

In the second table, the comment name, total valuation and value of railroad property is shown.

Table No. 2.

"This table shows the total assessed valuation of only a few counties in the state and the proportion of each which is represented by power property which reflects that the railroads are paying approximately one-half of the total tax in each of these counties."

Clark	\$ 4,005,007	2,265,447
Champlain	1,000,000	1,200,000
Lincoln	5,655,428	3,172,571

"Compare the above with Twin Falls."

Twin Falls \$25,730,713 \$ 2,123,955

"This table shows the total assessed valuation of only a few counties in the state and the proportion of each which is represented by power lines."

Bonneville	\$ 20,045,712	4,134,234
Bear Lake	3,126,631	1,682,000
Caribou	4,171,007	1,052,831

"Compare the above with Twin Falls."

Twin Falls \$25,730,713 107,231

**Illinois Leader to
Oppose Monopoly
in Ship Transfer**

WASHINGTON, D. C., April 9.—After a conference at the White House today, Rep. Joseph Madsen, Democrat of Idaho, chairman of the house appropriations committee, declared that he would exert his influence against sale of the Atchison-Topeka and Santa Fe Railroad to the West Coast, creating a monopoly of west coast shipping.

Although declining to mention prospective purchasers of the line by name, Madsen intimated that the proposed sale of the ship to one individual or corporation was extremely likely. The shipping board is now considering two bids for the highest of which \$4,600,000 was made by Stanley Dollar.

Unofficial Prom Committee Busy Upon the Program

Plans were formulated yesterday afternoon for the unofficial prom to be held at Danceland sometime before the end of the spring school term. Decorative details were discussed at length and definitely decided upon.

The three members of the committee, consisting of Miss Kibbeler, club advisor, and Walter Burchell, junior class president, have been retained to serve on the unofficial committee. Members of the senior class, including Leslie Parker, Eddie Pfeifer, Fred Hause, Charles Taylor, Bruno Dunkelacker, Walter Burchell, Charles Lewis, Charles Vango, Frank McAvoy and Kenneth Douglas.

New Orleans Harbor Ravaged by Flames After Ships Collide

(Continued from page 1)

In charge of the Silvans, is believed to be Captain J. W. Gandy.

The Wheeler was bound from Key West to Baton Rouge while the Silvans was returning from New Orleans to London.

After the craft had entered an extensive harbor, fire almost destroyed the oil refinery, power company and other public utilities, yet it receives in utility taxes only approximately two-thirds of the amount received by Lincoln, which uses utilities far less and which pays less tax as of March other cities in the country.

Sunsets New System.

Mr. Stewart suggests system which prioritizes the taxes from public utilities among the counties through which the railroads pass and which the power companies have higher operating costs are higher in proportion to total taxes collected in than in those counties having a relatively high public utility rate, where a few power companies are located.

Mr. Stewart illustrates his point with nine tables, with preliminary comment before each. In table No. 1, there are four columns of figures, the name of county, property assessed by the state board and per cent of same to the total assessment.

In each case in the matter of utilities in the comment of Mr. Stewart,

"This table will enable the taxpayer to determine the relative assessed valuations of several counties in the state of Idaho, as well as the proportionate part represented by railroads, telephone and telegraph lines, electric power corporations and private companies in operation in the several counties."

Idaho	\$16,545,482	\$14,000,291	12
