# BALDWIN DICTATES TERMS OF PEACE UPHEAVAL IS CALLED REBELLION AGAINST CONDITIONS OF LIVING

## Unconditional Ending Of Strike Is Demanded By Premier of England

Refuses to Negotiate Unless Representatives of Workers  
Order Return to Normalcy; Ministers Prepare to Ask  
Act of King.

LONDON, May 5.—Premier Baldwin today in the house of commons stated the terms upon which the government would resume peace negotiations with the trade unions. He said:

"The strike must be suspended so that we may resume negotiations the moment the strike was unconditionally called off."

Baldwin's statement followed an appeal by Arthur Henderson, former member of the labor cabinet, for "resumption of formal negotiations."

Baldwin said that the government's position has not been changed and would not change and that any time labor wanted to resume negotiations, the terms would be the same:

"Any offer will be rejected."

Perhaps even more important was the decision reached by the bishop of Winchester. The clergymen plan immediately to ask King George to intervene for peace, pleading that it is the only individual capable of finding a common ground.

Special committees facilitate that the strikes are ended. They are disbanded by the vigorous opposition of the government. Britain is tolerating and may fall either in the direction of peace and safety or of war and danger.

Additional copies of the British Gazette, official government newspaper, were being published, including two afternoon papers. The others are weeklies.

Slight Recovery. Noted.

In the north midlands, 30 per cent of the Midland railway clerks were working again and the London Underground was running and six-minute service was expected tomorrow. The subways have received 3000 volunteer workers.

At Peterborough, near Manchester, there was an ineffective attempt to stop the miners.

Some recovery from the chaotic conditions of yesterday was reported, although the nation was apprehensive lest the mighty forces represented by the government on one side and the trade unions on the other meet in violent conflict for supremacy.

## THE STRIKE TODAY

"No government, under any circumstances, can yield to a general strike," Baldwin said. J. H. Thomas, laborite, was feeling out Premier Baldwin with a view to discussion of a basic for possible peace conference.

Menacing crowds gathered in the East India dock.

Troops were ready to quell disorders in Canning town where some sort of disturbance occurred today.

Twenty strikers were in Poplar hospital, London, their heads broken by blows from police batons during a charge near the docks last night.

The house of commons began to debate emergency regulations, providing for callouts with dictatorial powers. The regulations have been in effect since the beginning of the strike, but expire in seven days unless approved by the commons.

A government communiqué announced that 30,000 volunteer strike-breakers had already enrolled for government services.

The necessary measures to enforce these decisions were introduced at the conference.

They shall be decided upon were:

They will prevent coaling or loading vessels at German ports.

German labor will do its utmost to thwart any attempt to stop imports and exports.

## NAMPA FETES SHOP OPENING

Thousands Turned Out  
for Pageant, Sports Program and  
Carnival.

JOHNSON, May 5.—Thousands of visitors crowded Nampa today for the dedication ceremonies for the million-dollar Pacific Fruit Express car, shop here.

P. F. E. and the Union Pacific officials, who were in attendance, and the northern states were in attendance at the ceremonies and participated in the program.

An elaborate parade, followed by a pageant depicting the growth of the west, made up the morning program, which was followed by a luncheon and entertainment, consisting of a musical concert.

This afternoon special events are on the program while tonight a carnival will be staged.

The P. F. E. shops were recently completed and have already begun the building, repair and rebuilding of railroad refrigerator cars.

## PRIMARIES ARE DISQUIETING

Goddard Maintains Silence on  
Results of Early Vote in Senatorial Race.

WASHINGTON, May 5.—Despite the defeat of Roosevelt in the senatorial election, the military and commercial news arrives from Pennsylvania, Massachusetts and Iowa, the White House is adhering to its neutral position in the matter of state primaries and national conventions.

"It is not the policy of President Coolidge to interest himself in state politics," Everett Sanders, his secretary, continued to tell reporters. But the number of state primaries and political caucuses, as well as the candidates themselves, has not diminished on the president's endorsement, nor an pressure for presidential assistance continues.

The administration is particularly concerned in Pennsylvania, Illinois where Senator Pepper, a staunch administration supporter, is faced with the powerful War, Philadelphia political boss, and the conservative Governor Pinchot, in the primary on May 16.

## FORTY PLANES TO BE BUILT

Government Lets Contract for  
Construction of New Equipment  
for Air Mail Route.

WASHINGTON, D. C., May 5.—A contract was awarded to the Deutsches Luftverkehrsgesellschaft, Santa Monica, Calif., to supply forty aircraft for use in the government-operated transoceanic air service between New York and San Francisco by Postmaster General today.

The postoffice department will pay \$11,000 for each plane, Postmaster General said. The terms of the contract will be delivered within 16 days.

When the forty planes are placed in service, the government will have 155 ships available for operation of the coast-to-coast line.

THIRTY DAY RET.

WASHINGTON, May 5.—The senate set the impeachment trial of Federal Judge George W. English of Illinois, accused of misbehavior and maladministration in office, for November 10.

Three officers stood in a companion-way and refused to allow the "black gang" of sellers and wipers to pass below the ship.

Captain John Lennard appeared in time to prevent an incident, and when the Arabic steamed down the Hudson, the would-be deserters were still tending in a little group the boat-deck apparently having refused to return to their posts.

It was the disturbance that resulted from the British "seaman's strike" which had been reported in this country.

An executive of the German Trade Union federation conferred with the executives of the mines, transport workers and railway men, and the miners were told to go back to work to prevent German labor from striking.

Twenty strikers were in Poplar hospital, London, their heads broken by blows from police batons during a charge near the docks last night.

GERMANS WILL  
AID STRIKERS

—

BERLIN, May 5.—German labor to day held its plans to assist the British strikers.

An executive of the German Trade

Union federation conferred with the executives of the mines, transport workers and railway men, and the miners were told to go back to work to prevent German labor from striking.

The miners declined upon were:

They will prevent coaling or loading vessels at German ports.

German labor will do its utmost to thwart any attempt to stop imports and exports.

WASHINGTON, May 5.—The Amundsen-Ellsworth-Nobile polar expedition distinctly violated the rules of Leningrad for Spitzbergen this morning, was reported flying across Finland with light northeast winds this afternoon.

At 1:30 p. m. in the Norge was reported north of Vadsø, in the extreme northeastern section of Norway.

At that hour snow was falling but the Norge apparently was not meeting with any serious difficulties.

Norge had been delayed long

days for a heavy fog which made

navigation difficult.

THIRTY DAY RET.

WASHINGTON, May 5.—Eight senators today passed the \$100,000 bill providing a five-year building program for the army air service.

The measure, an outgrowth of the recent aviation controversy, was approved by the administration.

## Adoption of American Standards of Labor Is Need of British Empire

High Production Costs; Antiquated Methods and General Deficiency and Inefficiency Are Causes of Troubles, Writer Believes.

By J. W. T. MASON  
International writer on Foreign Affairs.

London, May 5.—Great Britain will never settle her industrial strife until American methods of efficiency in production and American standards of high wages are accepted by British capital and labor.

Threats to tie up industry in the United Kingdom are signs of a revolt against low living conditions, dangerous disabilities, and want of harmonious relations between employees and employers.

The cause of the industrial unrest of the British is symbolized by the conditions in the coal industry. It comes from too much coal in the coal fields.

Without a record production, the coal provides little revenue for the government.

The miners object to any new methods of mining which reduce their number, while private capital cannot be found to modernize the mines, through fear of the government eventually taking over the coal fields.

Captain Loriga of the Spanish Madrid-Tokio air

plane flight, missing several

days, was rescued and brought

to Macao, China, aboard a gunboat.

Rain at Logan Causes Cancellation; Zam is Optimistic Over Showings of Irrigators.

(Special to The Times)

**LOGAN**, Utah, May 5.—Heads of agricultural clubs between the Ogallala and the Irrigators were called off shortly after noon because of rain. Carl Zamp, Ogallala club president, said the Irrigators had planned to start the game in the afternoon, but the way in which the clouds would and were not in the lead encouraged with the defeat at the hands of the Logans Tuesday.

Although the Irrigators had less

than half as many members as the Logans, he explained, "Logan was a little bit

wild and the breaks went against us. We'll get along fine."

Lennie Baker, whose place was being used by the Irrigators, has been invited to Logan Saturday night. Fred M. Smith will be in the Irrigator base in the next game.

**LOGAN**, Utah, May 5.—Heads in the most fertile agricultural region in the state, Cache Valley—where sunbeams beat down on the land like a scorching fire—have been impressed by the Irrigators' hitting and fielding ability. He intends to offer the Irrigators a game in the next game,

### Watching the Scoreboard

Yesterday's Game: Joe Petty, Brooklyn pitcher, who was his fifth name in as many starts when the Indians succeeded in the ninth, 3 to 2.

Jacques Fournier, Robbins' first baseman, injured his leg and will be out for a week or so.

Hermon Dell's relief hurling and Latimer Bell's hitting gave the Indians a 3 to 2 victory over Cleckley.

The White Fox got out after Wells in the ninth and unassisted, caught up to beat Detroit 4 to 2.

The Indians made 15 hits; oftentimes, when ever the major pull on the ball, Jim Hefner was using, were off, because Jim had hard luck. A single hit by a batsman saw the Indians two hits in the ninth and then was relieved.

Hefner was with the Volestad law for the Collegians were able to knock one over in the seventh and one in the eighth.

Tony Riles hooked one in the ninth when McBride came through hitting for Bebe. He took three of a passed ball and scampered home as the Indians worked on Appling's grounders.

It was expected late this forenoon that Pete Dell will hit the pinch-hitter for the Irrigators today, and that holds complications.
