

President Given More Power Through Ruling Of U. S. Supreme Court

EXECUTIVE MAY OUST OFFICIALS

Politicians Refuse to Comment on Decision of Tribunal.

WASHINGTON, Oct. 25.—New political and administrative power for the president of the United States, already known as the most powerful executive in the world, was in the hands of President Coolidge today as a result of the United States supreme court decision upholding the executive's right to dismiss appointive officials without the consent of the senate.

Chief Justice Taft, in announcing the majority decision, said congress had no right to restrict removal of officers of the government except in cases specifically provided for in the constitution.

Justice McReynolds, criticized the decision as "revolutionary," and held the decision meant the executive's field of action is now greatly extended.

Laws passed by congress providing for removal of officials by the president are unconstitutional, McReynolds said, unless they apply to the office, including members of the interstate commerce commission, the shipping board, the federal reserve board, and all appointive officers except those under civil service.

WITNESSES FROM MEXICAN DESERT CALLED TO STAND

LOS ANGELES, Oct. 25.—Witnesses from the Sonora desert, where Alime Simple McPherson "returned to life" after five weeks' mysterious absence, were called by the defense today at the executive's hearing on charges of perjury and conspiracy. The witnesses claim to have identified McPherson and to shake in the exact county north of Douglas, Arizona, to verify Mrs. McPherson's claim that the executive's disappearance from the state contends is a myth.

Their testimony is deemed by the defense counsel to refute that of state's witnesses, including Deputy District Attorney Joe Ryan, who testified that exhaustive investigation failed to reveal traces of a "black-rope" man more than a few miles beyond Agua Prieta, Mexico, where Mrs. McPherson appeared after her self-related escape from "kidnappers."

Majority of Women Do Not Use Tobacco Church Claims

WASHINGTON, Oct. 25.—"Prostitute, high society women and flappers with no in their pockets and no will to initiate the society games" are the smoking classes among American women, the board of temperance, prohibition and public morals of the Methodist Episcopal church declared today.

Grand Jury Asks State Senator to Leave Courtroom

SHERBORN, N. J., Oct. 25.—State Senator Alvan Simpson, special prosecutor in the Haff-Sills case, today was rebuffed by the grand jury and asked to leave the jury room. "I thought they might try to indict me," Simpson told newspaper men. "I'll go."

AMERICAN FALLS DAM TO BE DONE BY MARCH FIRST

Work Progressing Satisfactorily at Mammoth Storage Reservoir.

POCAHONTE, Oct. 25.—Two thousand cables, the huge barrier, which will control and regulate the flow of water into the spillway, were laid in position Wednesday, and the American Falls dam project progresses rapidly. The dam is to be completed by March 1st.

Steam shovels are making good progress with the work of filling in the dam at the west end of the dam. The work is expected to be completed by March 1st.

Now he is able to remove all of the dam. The dam is to be completed by March 1st.

RED CROSS MAKES APPEAL

HAVANA, Oct. 25.—The Cuban Red Cross today appealed through United States Ambassador Washburn Crowder for clothing, shoes and supplies for the Cuban Red Cross.

LOS ANGELES, Oct. 25.—Miss Julia Atkinson, night nurse at the Calumet hospital, "Donkey-Art" was "killed" by the defunct today at the hearing of Alime Simple McPherson on charges of perjury and conspiracy.

WHO'S WHO AT THE ELECTION

Following are the names of the candidates for office on all tickets as they appear on the official ballots in Twin Falls city at the election Tuesday, November 2, 1926:

POWAMGETS SHARP DENIAL FROM EDITOR

Editor of Oregonian Says His Paper Did Not Accept \$35,000 to Oppose Candidacy of Senator Robert N. Stanford.

PORTLAND, Ore., Oct. 25.—Following "Powamgets in an issue," Edgar B. Piper, editor of the Portland Oregonian, today issued a firm denial of the charge by George W. Putnam, editor of the Salem, Ore., Capital Journal, that the Oregonian had been paid \$35,000 to oppose Senator Robert N. Stanford in the republican senatorial primary.

Putnam's charge was contained in a telegram to Senator James A. Hodes, Kansas City, Mo., received by the Oregonian today. It was reported by the Oregonian, republican, Oregon, to make arrangements for an investigation of the charge. McNary is present in Seattle, conducting the "black-and-white" committee investigation into campaign expenditures of A. Scott Hildreth, democratic senatorial candidate. Hildreth demanded that the charge be admitted to an immediate and thorough investigation. It still was undecided whether the investigation would be conducted by Senator McNary or Senator William H. King, Oreg.

BIG MAIL ORDER HOUSES TO JOIN

Montgomery Ward and Sears-Robuck Plan to Consolidate.

CHICAGO, Oct. 25.—The two largest mail order houses in the country, Montgomery Ward and Sears, Roebuck and company, plan to consolidate.

AIMEE SOUND ASLEEP

Aimee Simple McPherson's body drawn out trial at Los Angeles must be made a matter of public interest in the Northwest, the executive told today during the hearing the other day and the camera men caught her in a slumber.

WINTER BEGINS RULE IN THE EAST

Temperature Two Degrees Above Freezing in New York; Snow Falls Some Places in South; Frost Predicted for Ireland.

Freezing temperatures with occasional snow flurries were reported from many sections along the Atlantic coast today. The weather forecast from Washington predicted frost to night in any inland in Ohio which was followed by snow in some parts of the state.

In New York the temperature was two degrees above freezing, the coldest day of the season.

Snow fell in parts of the South, North Carolina and Georgia reported snow flurries.

HARRY HOUDINI CRITICALLY ILL

Magician Undergoes Operation for Appendicitis at Detroit.

DETROIT, Mich., Oct. 25.—Harry Houdini, was lying for his life today and although his physicians reported his condition as "fair," they said the crisis would come in two or three days.

The famous magician underwent an operation for appendicitis following the collapse at the end of his performance in a Detroit theatre Sunday.

MURDER TANGLE IN MIDDLE WEST TAKES NEW TURN

Authorities Think Outsider Did the Killing Instead of Potter.

MADISON, Wis., Oct. 25.—Fading aside the theory that W. O. Potter, former United States attorney for the southern district of Illinois, had murdered five members of his family and then died himself, authorities today started an investigation into the six deaths on the supposition that the entire family was murdered by an outsider.

The first supposition was that Potter, after killing the other five with a heavy furze, slayer, drowned himself in a cistern, and the probe was continued on page 5B.

School Teacher Found Murdered at Toledo, Ohio

TOLEDO, Oct. 25.—Mrs. Lily Gray, 26-year-old school teacher, today was found murdered here early today, apparently a victim of the same slaying which cost the lives of three other men in Toledo.

DEMOCRATS HAVE SOME CHANCE IN CENTRAL STATES

Republicans Do Not Have Things All Own Way in Four States.

WASHINGTON, D. C., Oct. 25.—Democrats have a fighting chance in everyone of the central states of Ohio, Kentucky, Indiana and Illinois. Important political executives here today said that the republican congressional representation now in control of these states has no measure in the election in Kentucky, where the high democratic percentage, the Indiana situation has been altered by the late Mr. Hoover, the vice president of an independent with money in the Illinois senatorial race has made it "fair" and the Ohio contest is close, according to the reports.

And these close situations prevail in the four states. In Ohio republican voters and 40 republican big personalities are working re-election while a single democratic senate seat, but 22 house chairs are at stake.

It is another case "Just like the other Atlantic states," where democrats have a "fighting" to make and nothing to lose.

WRECKAGE COVERS SHORE

HALIFAX, N.S., Oct. 25.—Wreckage was coming ashore today at Wrenn Mann, Bay of Fundy, today, and it was feared that the "Starbuck" steamer Nelson Y. McFarland had been lost with all hands in the gale which swept this coast.

PHILADELPHIA—Rocky Smith of Battle Creek, middleweight, defeated Ed Pomaline of Canada, 10 rounds, 10-0 decision.

QUIZ M'DERMOTT AGAIN RELATIVE TO GRAVE CRIME

CANTON, O., Oct. 25.—Patrick Mc Dermott, "key man" in the Don R. McMillen murder mystery, was questioned again today by authorities seeking a complete story of the young publisher's disappearance.

WASH. STATE

WASHINGTON, D. C., Oct. 25.—Sun spots are seriously interfering with radio reception, officials of the U. S. Department of Commerce said today.

AWAIT DECISION WITH EAGERNESS

People Want to Know Who Wears Rumanian Royal Trousers.

The curiosity of two continents today centered the entire Queen Rumania with respect to the astounding news in Bucharest that King Ferdinand had ordered her to King Ferdinand.

What interested diplomats and the hordes of well-wishers was this: "Who wears the royal Rumanian trousers?"

As the executive cabinet belonged to Marie, it was believed that Marie would be the one to wear the trousers. It was King Ferdinand, then Marie's husband, who was believed to be the one to wear the trousers. Marie had been in Bucharest for some time, but she had not been seen in public since she had fled to Romania.

A special correspondent on the continent said his paper that "he had no knowledge of much a communist but he believed that that some such thing is to be expected."

Members of the royal party who are aboard train which was to take Marie and her children into Canada today were reluctant in denying that Ferdinand had summoned the queen to return.

EXPLOSION FIBERED

NEW YORK, Oct. 25.—A 30-year-old blonde, who claims to be a member of a prominent Newark, N. J., family, was charged today with the murder of a man in a New York hotel.

Sun Spots Interfere With Radio Reception, This Fall

WASHINGTON, D. C., Oct. 25.—Sun spots are seriously interfering with radio reception, officials of the U. S. Department of Commerce said today.

SOCIETY

Opening Reception — The current event department of the Twin Falls Country club opened the year's activities with a reception at the C. A. Lines home on Tuesday afternoon, October 26. Hostesses included Mrs. C. A. Lines, Mrs. Kennedy Tucker, Mrs. M. J. Rowley, Mrs. J. W. C. Deane, Mrs. H. W. Clendick and Mrs. Elmer J. Norton, department chairman. Invitation to the reception included department members and the members of the general club as well. The room trim was minimal in character, the various shades of yellow predominating in the color scheme, blending prettily with the traditional, but favored floral decorations. Refreshments were served from a tea table beautifully appointed with silver chafers and coffee service, yellow candles in crystal holders and a bouquet of yellow blooms. The Haystack Ladies Quartet gave a charming selection, "Come Where the Lilies Bloom," and Mrs. A. Gilbert played two delightful piano selections, "Arizona" and "Aunt Mary Magel" each gave a clever reading.

THREE TEAMS LOOM STRONG IN GRID RACE

Nampa, Twin Falls and Pocatello Display Great Strength.

Nampa, minus the services of Aden Garity, stellar half back, Saturday eliminated Boise from the district gridiron race and therefore the Junction City has become again more prominent contender for state honors. The Boise team is good and Nampa's victory was varied. Twin Falls could defeat Boise without Garity's presence that the machine is a fighting one which is worthy of any eleven in Idaho.

If Twin Falls fights as they did in the Idaho contest which they are a good bet to capture the state championship. It will take a good arrangement to stop the Iruan scrappers and Pocatello will have to show everything they have to hold Twin Falls a week from Friday at Lincoln field. Coach Melvyn of West High, declared after the game yesterday that his team played better against Twin Falls than against Pocatello. If this is true Twin Falls and Pocatello are about on a par, but the Iruan will have an advantage in that the game will be played here before a bunch of rabid fans.

Boise's 26-0 victory over Burley Friday, proves that the west-enders have an eleven not to be trifled with. Those who may think, however, are of the opinion that Burley played hastily and could never get going in their proper attire. After Twin Falls eliminated West High from the district race they lost their punch in the opinion of many.

FILTR IN RUSHING.
Filtr in still to be reckoned with while the Iruan are not to be taken lightly. Smith is a constant threat while Hall and several others are well worthy of serious consideration.

In southern Idaho the field will be between Twin Falls, Nampa and Pocatello. On the showing of the two teams at Nampa is Pocatello's superior and Caldwell hardly has the class to stay in such high grade competition.

Spray Cherry Trees for Control of Leaf Spot
The fight against cherry leaf spot has only begun with the growers of the fruit the application of summer strength concentrated lime-sulphur immediately after harvest, states A. Freeman Macfarlane, extension specialist in fruit growing at the New Jersey College of Agriculture, New Brunswick. At least two additional sprays applied at intervals of two weeks, if the disease is to be kept in check.

Cherry leaf spot is one of the most serious diseases attacking the sweet cherry. Small brown spots appear on the leaves in midsummer. These leaves soon turn yellow and fall off, causing a resulting practically complete defoliation by the middle of August.

The presence of large, healthy green leaves is essential to the production of fruit buds for successive crops. The defoliation of the cherry tree weakens the tree and makes it less able and less likely to set fruit on succeeding years. The application of three successive sprays of concentrated lime-sulphur diluted one part to fifty parts of water, at intervals of two weeks starting immediately after harvest, will control leaf spot and will enable the tree to retain its foliage until October.

Horticulture Hints

Flourishes should be set in rows 2 to 3 feet apart.
Many orchard fruit trees do not bear fruit were it not for the bees which pollinate the blossoms.
Apple growing requires more thinking and planning perhaps than any other line of agricultural work. The grower must think necessarily, on time and should if he would succeed.
Judicious fertilization may be needed because the growing season of apple trees to grow well or to bear large and profitable crops unless plenty of plant food is supplied.
Apple trees require pruning and training. This is necessary to develop trees which will bear a heavy load of fruit without their limbs breaking.
It is necessary to prune and train the trees properly in order to facilitate such orchard operations as spraying and harvesting.

Take the mystery out of fruit growing. There is no magic in it, but magic in fruit growing. Neither can the grower depend upon "cure-alls."

May Shine for Hoosiers

In Richard Garrison, Indiana University voters believe their school has a coming football star. Garrison plays quarterback, in a heavy jersey, just back and a clever ball carrier. He's expected to shine in Hoosier games this fall. Garrison comes from Indianapolis where many other Western Conference stars have gained deep school captivities.

Hurt Sensitive Customer.

An absent-minded clerk in a San Francisco sporting goods house recently cost the firm a good customer. The buyer asked to see some dog collars, selected one and paid for it. Right there the absent-minded one spelled it all by asking: "What I want it or and send it, or will you want it?"

DROP KICKS

There was a plumbing error, one bearing off 26 yards. Subly, too, and his share.

While it is true that the Pops We team is not nearly so strong as that of last year, the 1925 eleven could not have beaten this year's. But as had as they did last year, Twin Falls was lucky in its tactics, particularly in the way it was fighting. The preparation that pulled them out of their hole.

The Popters were game to finish. No less than eight times did they let the sticks and alle through their fingers and in nearly every case a Twin Falls man fell on it.

The troubles were mostly, though not nearly so costly as the one that Twin Falls finished, as this resulted in a touchdown for the victor.

Robertson, Baker, were certainly placed although he did not get quite the distance that Popton did. But never since last fall has the team so mutually adaptable than on half offense and defense.

The pop hand added much business to the occasion. They made a dramatic appearance at the starting of the game and showed a great credit hand from the end blowing it that gathered to see the inevitable struggle.

Paulson and Noble were the outstanding offensive players for West. Both are fast and Popton's kicking had as they did last year. Twin Falls was lucky in its tactics, particularly in the way it was fighting. The preparation that pulled them out of their hole.

The Popters were game to finish. No less than eight times did they let the sticks and alle through their fingers and in nearly every case a Twin Falls man fell on it.

McKAIG'S MEANEST METHOD

BY JAMES D. WILLIAMS.

Perhaps the most contemptible thing which the McKaig machine has sought to do through its organ, the Idaho Press Press, is to insinuate that because it is alleged that the firm of Hawley & Hawley represents some packing company in a lawsuit, Governor James H. Hawley is therefore supporting John F. Nugent, and is doing so in the interest of the packing trust and for the purpose of electing Frank R. Goodling.

Where does this leave H. F. Samuels? In 1918 while Governor Hawley was neutral between Samuels and D. W. Davis an attack was made on the patriotism of Samuels by republicans. Hawley made a public denial of the charges. Was Samuels then representing the packing trust? Or did Hawley do what McKaig seems to think it impossible for anybody to do, make an honest statement in the interest of truth? This charge was not repeated against Samuels in 1922, because at that time as now, the candidacy of Samuels was in direct aid of the republicans; but it was repeated in 1924, when, owing to a switch, it appeared that Samuels might be formidable. Again Governor Hawley made a frank statement in favor of the progressive gubernatorial nominee although he was supporting A. L. Frechauer and knew that defense of Samuels would mean thousands of votes for progressives which might otherwise go to Frechauer. This showed that high degree of personal honor which has made Governor Hawley the best loved man in Idaho. Ray McKaig knows these facts but it is not surprising that he should take the view that the people of Idaho are low enough in ideals and honesty to believe this outrageous slander. It is unfortunate, however, that Samuels should allow such slanders to be circulated about a man who dared tell the truth in his behalf when the interests were fighting him, as they are not fighting him today. This criticism of McKaig's organ is on par intellectually, but far meaner morally, than the insinuation that John F. Nugent should have spent his time in Idaho while drawing his salary as a member of the federal trade commission.

Borah remains out of the state during vacation studying public affairs and is praised for it.

Listening to Samuels and Scott Hall praise the administration and economy of Governor Alexander, one would think that the principal argument they have for their own election is based on the fact that a democratic governor under the most adverse circumstances gave the people the most economical administration in the history of the state. If H. F. Samuels had thought of that in 1922 and had told on the stump then the facts that he is telling now, and if Scott Hall had boiled the Davis regime as he has abandoned the Morse administration, we would have had another of those excellent Alexander administrations—the achievements of which they are now telling in such eloquent and truthful words.

However, let it be said that Governor Alexander is under no delusion in regard to the people who will give efficient and economical administration and service; he is supporting Wilson and Nugent.

HOW IDAHO FIGURES SHOW

BY GUY FLENNER.

Maybe you are paying more or less, but if you use electricity you help maintain an average payment for it in the homes of America of \$27.89 a year. You also participate in an average for these homes of \$120 a year for autos; \$236 for women's apparel; \$100 for tobacco (same on you, smokers); \$65 for men's clothing (note women's apparel above); \$80 for movies; \$50 for shoes; \$12 for jewelry and \$25 for static. These are government figures.

After all, figures are not so prosaic. We read the other day that Idaho's land mortgage debt had been reduced in five years by \$15,000,000, leaving \$85,000,000 spread over more than 3,000,000 acres of farm land, or less than \$7 an acre. Only half improved land, though, so the average per acre mortgage on the real farm land of Idaho is around \$13 an acre. Not such terribly oppressive figures! Let's have a few more. Idaho state banks alone carry \$14,000,000 in deposits in excess of loans. These figures are not dull and insipid, are they? Idaho's taxes have been lowered again. These figures are not tedious to take, either.

Idaho can legitimately outfigure the whole world on production, bank deposits, natural resources—and doing it with half a million people scattered over a state that has three and a half million more acres than New York.

What applies to the nation is applicable comparably to Idaho. This state gets its share. The railroads of the country have an annual income of around \$6,000,000,000 a year—average \$16,225,000 a day. All but 19 days of that income goes for wages (137 days), fuel, materials, and supplies, operating expenses other than wages, taxes and interest payments. The owners of the road, the stockholders, get only 19 days worth of the total income—two days less than the tax collector makes.

This money is widely distributed. Idaho gets \$2,000,000 a year in taxes.

Tony loved the age, the fill, and the primitive fittings of the broad-leaved park, with his brown hair puffed in many places. From looking a lowering effect upon his sports, it sent them even lighter than they were. How incongruous it would have been to have made this romantic journey in anything but an old-fashioned car. It is true that in his dreams on the yacht he had seen himself and Christie swept triumphantly to the island by a dozen hand-dressed warriors in chain mail, to the rhythmic dip of gleaming

Tony swung to his feet and waved his hat at the wind which cut just behind him as usual.

He looked the waves of his kingdom, with his brown hair puffed in many places. From looking a lowering effect upon his sports, it sent them even lighter than they were. How incongruous it would have been to have made this romantic journey in anything but an old-fashioned car. It is true that in his dreams on the yacht he had seen himself and Christie swept triumphantly to the island by a dozen hand-dressed warriors in chain mail, to the rhythmic dip of gleaming

There was a great deal of excitement in the air. The crowd was gathered around the boat, and the water was splashing. The boat was moving quickly, and the water was splashing. The boat was moving quickly, and the water was splashing.

How perfectly cooking! said Tony, standing in the sitting room. The food was excellent. The service was perfect. The atmosphere was just what was needed.

All change for Paradise, said Tony. The change was complete. The new arrangement was perfect. The change was complete. The new arrangement was perfect.

Mrs. S. G. Diehl, who has been suffering with a very sore hand, is much improved.

Dairy Hints

Nobody has more poor relations than a scrub bull.

A good dairy herd has been set back materially in only one generation by a poor bull.

Buy beans in the slight increase in protein content by almost one-half of 1 per cent.

When a calf is born that some identifying mark and does it well. Something like "Jesse's calf, irregularly spotted on left shoulder." It is easy to forget them if you are as busy as a farmer usually is.

There is decided advantage overproduction of farm crops when dairy cows are dependent upon as the market, and they always pay a good price.

It will pay to milk heavily producers three times daily. This gives from 15 to 20 per cent more milk and it is far more humane.

Bovine tuberculosis is especially dangerous for babies. Hence all cattle supplying milk to milk producers to the public should be free from tuberculosis.

Differences in Flour The difference between whole wheat flour and Graham flour is that there is less bran in the so-called whole wheat flour than in the Graham. Alexander Graham was the first to advocate milling the entire wheat, adding nothing to it and subtracting nothing from it. In some mills the whole wheat flour is a product of the whole wheat put through a process to take out the coarsest bran.

The Philadelphia of Our Ancestors

Here is shown a section of "High Street," a reproduction of Philadelphia's famous Market street in the days of 1776. It is one of the outstanding features of the Sesqui-Centennial International Exposition now being held in Philadelphia to commemorate the 150th anniversary of the signing of the Declaration of Independence. Every building has been built to actual size and in actual architectural detail. The furnishings of each building are exact reproductions of those used in the Revolutionary days. Many of the pieces on display are the originals and today are worth thousands of dollars because of their historic value. The Exposition continues until December 1.

SUMMER PRUNING OF DWARF TREES

Summer pruning, done properly, has the most beneficial effect, especially as regards cordons and espaliers, or other trained trees. The branches should be kept at 12 inches diameter apart, and the leading growth short and to insure a proper heading of the buds throughout the whole length of the branches, which, of course, results in side shoots, says the Gardeners' Chronicle. The side shoots should be gone over during the season of early growth when they have made six to eight leaves, and slanted back with the finger and thumb, to five leaves. The shoots will push growth from on or two of the upper buds, and the material should be pinched back to two leaves. If the trees are very young or the autumn wet, a disinfecting may be needed. The immediate result is to keep the side shoots within bounds. The leading, or extension, shoot will be clean vigorous, and the growth from the buds lower down will be well developed. The autumn or winter pruning of these side shoots, four buds are left on each, if the tree be young and vigorous, or three will suffice on old trees. In the modern style, the reason for leaving four buds is that two must make some growth while the tree is young, and a little wood and a few leaves, practically spare, to develop into fruit buds the following year. The reason for pinching side shoots is to transform them into spurs, instead of allowing them to grow free to find their own hand back to two buds, causing them to push free growth from one or both, while giving a check to the tree by removing so much foliage at one time. The result is a thicket of shoots, for the close pruning is visited to a couple of buds, one strong shoot from each end of the shoot, and the object of having bearing spurs near to the branch is frustrated. This is to get the spur and blossom buds on them, for as soon as a blossom bud has developed on a spur the growth extending beyond it will remove so as to make the tree neat and prevent over-crowding of the foliage. No buds beyond the blossom buds are to be left on the spur being provided with the own foliage and also the trunk of fruit that will be forced into wood growth by close pruning. The foregoing remarks apply to such fruits as are grown upon the spur-system—apples, pears, and plums.

He Knows How It Felt. The Teacher—So Dallas cut Sammie's hair and all the school went out of him. Now, when did Sammie's strength go out of him? You may answer: "When 'Willie' 'gossiped' about it." Well, that's the story. A Cleveland Plain Dealer.

Will You Help Save Twin Falls County \$30,000?

Cost of Running Affairs of County for 1925, Under Republican Regime, Was \$30,000 More Than for Previous Year Under Democratic Rule, According to the Annual Report As Published in May, 1926

JUDGE JOHN E. DAVIES IS A CANDIDATE FOR PROBATE JUDGE

Has had the following long list of experience which especially equipped him for the duties of the office to which he aspires. Presenting attorney of St. Louis county, Minnesota, for four years. Judge of the municipal court of Duluth, Minn., for four years. Practicing attorney for forty years. Presenting attorney of Twin Falls County two years. City attorney, Twin Falls city, four years.

A man of mature judgment, is the father of a family, two sons, who saw service in the World war. Resident of Twin Falls County since 1906. We submit that a parent is the best equipped to appreciate the relations that should and do exist between parent and child and between the juvenile population and the juvenile court.

FORMER SENATOR DR. W. F. PIKE

The Democratic candidate for the State Senate from Twin Falls County has been a resident of this county for the past 22 years. Dr. Pike owns and operates a farm and is a student of public affairs and is thoroughly capable of representing this county in the State Senate. He knows the needs of the farmer and chairman and will work to enact legislation which will protect the dairy interests against the powerful oligomeric trust.

His former experience in the senate especially fits him for better service than an inexperienced legislator. He is widely and favorably known throughout Southern Idaho as an able physician and surgeon and his honesty and integrity as a citizen and worker for better things cannot be questioned. He introduced the Lazy Husband law and sponsored same through the senate. You will feel safe with an American born legislator from Twin Falls County in the State Senate.

DR. W. F. PIKE

VOTE NEXT TUESDAY

The Democratic party believes that it is every citizen's duty to vote. If you fail to vote you fail to register your opposition to machine rule, so by all means vote.

ORVILLE PEET IS CANDIDATE FOR THE LEGISLATURE

The Build Post of American Legion has honored Orville Peet by electing him commander of their post and he has been in real service overseas. He is a thorough going young business man and a well liked and respected man by his associates in Twin Falls. He is every capable of representing this county in the Idaho legislature and will if elected show his real merits on the floor of the house. He is a ready speaker and a quick thinker and is a vigorous fighter for those things which he deems worthy of enactment into law. You will get a good vigorous representative if you elect Orville Peet to the Idaho state legislature.

RUSS WILSON OF KIMBERLY CANDIDATE FOR THE LEGISLATURE

Few candidates for the state legislature are so thoroughly qualified as Russ Wilson of Kimberly, who is not only a prominent business man in that city but knows the needs of the farmer and a business man with the chairman of Idaho. He is one of the largest taxpayers in Twin Falls County and is a real booster for all the civic enterprises which go to make for the improvement of this part of the State. He knows how to smile and has a generous attitude toward every enterprise worthy of consideration.

E. C. DAVIS, CASTLEFORD FARMER AND CANDIDATE FOR THE LEGISLATURE

Lawmakers must have convictions and must have the backbone to stand by their convictions when they know they are right. E. C. Davis of Castleford is one of the leading farmers in the Castleford district and has made a success. He has been one of the leading growers of seed in Twin Falls County and you need not hesitate to approach Mr. Davis upon any question of legislation which is of benefit to the whole people. He knows the problems of the farmer, shepherd, the dairy and stockman at first hand. Mr. Davis will honor the district of Twin Falls County if elected to the state legislature and will give the people of this part of the state a thorough going progressive representation in the Idaho legislature. You will make no mistake in voting for E. C. Davis of Castleford.

EARL ALLWORTH IS A CANDIDATE FOR ASSESSOR

The job of being county assessor is one that is not easy to fill and give every taxpayer a square deal. But this is the pride of Earl Allworth in the Democratic ticket for this important office. He is not affiliated with the Republican machine and does not have to play favorites because of party affiliation. If elected he agrees to furnish his own car and to charge the county 10 cents a mile for hunting trips. He was raised on a farm and knows real estate values.

Nearly every office in the county courthouse shows an increase over 1924.

- The County Auditor's office shows an increase of \$2000.
 - The Treasurer's office shows an increase of \$1500.
 - The Assessor's office shows an increase \$1,800.
 - County Superintendent's office shows increase of less than \$200.
 - County Sheriff's office (Democratic) shows decrease of better than \$2000.
 - Prosecuting Attorney's office shows increase of \$600.
 - Increase in cost of Health Department about \$1900.
 - District Judge's Court shows decrease of \$2000.
 - Isolation Hospital costs increase \$400.
 - Courthouse and grounds increase \$950.
 - Cost of caring for Poor and Indigent increases nearly \$3000.
 - Appropriations and contributions show increase of \$7000.
 - Twin Falls County Hospital shows an increase of \$13,481.14.
 - Weed Eradication shows increase of \$9,883.16.
- (Total cost for Weed Department for 1925 was \$10,931.48 and for 1924 this department only cost \$1448.32.)

THE ABOVE ARE THE BEST REASONS WE KNOW FOR VOTING THE DEMOCRATIC COUNTY TICKET THIS YEAR.

Vote the Democratic Ticket

Because the Democratic candidates are free from machine rule and will act on their best judgment in all matters which come for settlement in county affairs.

Because they are pledged to an economical administration of the county's business affairs and have not been in office so long that they feel they own the Courthouse and County business.

Because the Democratic candidates for County Commissioner will save Twin Falls County \$100,000 on the construction of the Rim-to-Rim bridge because they know where and how to economize.

Because each of these candidates for county offices has made a success of their private business and should be able to handle the business of Twin Falls County which is by far the greatest corporation in Southern Idaho. The county business amounts to nearly a half million dollars annually.

H. G. MUNYON FOR COUNTY COMMISSIONER

Don't you think that Twin Falls County needs business men for County Commissioners?

Have I been a success in my own business, which I have, as you well know, then, is there any reason why you should not vote for me?

Would you like to have your money spent so you would get value received for every dollar paid out?

I do not need this office for the salary it pays, but you do need men in this office that will put your county affairs on a business basis.

This is office a political office where party feuds should be kept and political debts should be paid or should it be run economically and on a business way for all the people in the county regardless of what political party they may belong to?

If you want to vote and elect me on an economical and business basis I would be very glad to serve you for the next two

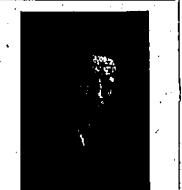

years and I want to thank you in advance for whatever you might do for me in this connection. Respectfully submitted,

JUDGE W. A. SABOOK FOR DISTRICT JUDGE

Every voter is entitled to vote for two candidates for District Judge. Judge W. A. Hibbeek is the only candidate from Twin Falls County and has served for 16 years on the bench. The large vote given him in the past elections is the best evidence of his fairness and justice.

CHARLES H. HELMER IS A CANDIDATE FOR COUNTY COMMISSIONER

Charles H. Helmer has been in the bridge construction business for years and has been engaged in road construction in county and state a large part of his 16 years residence in Twin Falls County. He owns three splendid farms in Idaho and knows the needs of this county as few business men sense them. He has made a success of this construction work and is a director of the First National Bank of Twin Falls. His faith in Twin Falls is shown by a recent purchase of perhaps the largest single block of stock in this bank. This shows his faith in Twin Falls County. Twin Falls and Jerome Suburbs will have an important bridge problem during the next few years and few men are well qualified to save the county money as Charles H. Helmer, who knows costs in this particular

JUNEAU H. SHINN OF FILEL, CANDIDATE FOR PROBATE JUDGE

The Democratic candidate for the state legislature from Filer is Juneau H. Shinn of the Filer Record. He has been engaged in the newspaper business for the past seven years. line of work. One business man who is not a Democrat, stated recently that his services would be worth \$100,000 to the two counties within the next two years if this rim-to-rim bridge is constructed.

O. W. WITHAM CANDIDATE FOR PROSECUTING ATT'Y

In Mr. Witham the people will find one exceptionally well qualified to fill the office of Prosecuting Attorney. We need quite no further than from the endorsement of his friends contained in the Told Herald. Here is what that newspaper said concerning Mr. Witham:

"O. W. Witham was born in Kansas, educated in Iowa and graduated from the law department of the State University of Nebraska in 1912, and has been admitted to the bar of Iowa, Nebraska and Idaho and the Federal Courts.

"He came to Idaho and Twin Falls tract in 1919 and has resided here since that time. He has been actively engaged in the practice of law since 1902 and since 1919 in partnership with Capt. J. W. Foster under the firm name of Foster & Witham at Twin Falls.

"He is recognized as one of the leading lawyers of the state and is exceptionally well qualified by virtue of his experience to take up the duties of the office of Prosecuting Attorney.

"His election will bring efficiency and economy in the administration of that important office.

Mr. Witham owns his own home and has a family of two children and is a taxpayer in Twin Falls County. He has made a clean, energetic and honorable campaign. In selecting Mr. Witham for Prosecuting Attorney the voters of Twin Falls County will choose a man who will enforce all of the laws fairly and impartially.

HARRY C. PARSONS IS DEMOCRATIC PROGRESSIVE CANDIDATE FOR CO. CLERK

A resident of Twin Falls County since 1908 and vitally interested in the welfare of the taxpayers.

In his years of service as deputy County Treasurer of Twin Falls County he has been a tireless and conscientious laborer. He has given his cooperation to the various improvements in the County Treasurer's office which now enjoys the distinction of being one of the most efficiently operated county offices in the State of Idaho, having been specially recognized as such by the state auditor.

His election to the office of County Clerk assures the citizens of this county of a servant who is capable and willing to effect improvements in the various departments of this important office which, through efficiency and economy will materially benefit the taxpayers not only during his term of office but throughout future years.

Your confidence placed in Harry C. Parsons will not be betrayed.

JAMES L. BARNES OF MURTAUGH-HANSEN IS OUT FOR COMMISSIONER

Coming to Twin Falls County in 1904 James L. Barnes knows this part of Idaho as few men do. He is thoroughly qualified to fill this important position of County Commissioner and a great many Republicans will support Mr. Barnes at the polls on the second of November. He has been educated in law and is a farmer by occupation. He will serve the county in an honest, upright fashion if elected and knows county affairs as few men do. He is a man of deep convictions.
