

Far West Holds Key to Control in Both Houses

EXPRESS DOUBT AS TO OUTCOME IN MANY STATES

Nugent Making Determined Fight Against Gooding in Idaho.

WASHINGTON, D. C., Oct. 28.—The far west holds the secret of control of the next congress.

There are strong chances of election of democratic senators in Nevada and Arizona, and the split of republicans in Colorado, Idaho and Oregon, in sufficiently promising places those states in the doubtful column. In California, Washington and Utah, republican candidates are credited with the edge.

Through this sweep of Rocky mountains and Pacific coast territory, the elections next Tuesday will determine future occupying senate and house republican seats and but seven democratic house seats.

Here again republicans are faced with a battle both here and while the democrats have everything to gain and nothing to lose.

Not a democratic senator is up for reelection in this territory.

If the doubtful eastern states are split between republicans and democrats under the reasonable law of political averages, the election of control—particularly of the senate—will rest in the five western states where democrats are conceded a chance to win.

Here is the situation as outlined to impartial political observers here:

Arizona—Representative Cary Dwyer, democratic senatorial candidate, is making a vigorous campaign against Senator Cameron, republican holder of the senate seat. It has been reported for the campaign for months, in reported to have sufficient funds and is personally popular.

California—Senator Shortridge, republican, is expected to be re-elected. There are contests over four legislative seats in the state, one democratic, three republican.

Idaho—Senator Smoot, republican.

Democrats Have Chance to Gain in Middle West

WASHINGTON, D. C., Oct. 28.—Democratic feeling is prevailing in the next congress will likely be elected over in the mid-western region from the Canadian border to the southern tip of Missouri.

In these two states impartial political observers give democrats an even chance to gain two republican senate seats and perhaps two seats in the house.

In other parts of this farm region—scene of the reported agricultural depression during the past year—there seem likely likelihood of a democratic chance. Of course, republicans of the tendencies of Illinois in Wisconsin, Ohio, Indiana, Michigan and Pennsylvania have long not been welcomed as friends by the eastern republican group. But they are to be elected in Illinois and Indiana and Pennsylvania into the party fold in these times, when any republican legislative vote is not to be thrown away. Republican senators are expected to be elected in Iowa, Kansas, North Dakota, South Dakota and Wisconsin will almost the same as democrats in the rest of the mid-west, Florida, Arkansas, Louisiana, North and South Carolina.

In all this region of the mid-west and north there are at stake seven republican and six democratic senate seats with sixty republican and 80 democratic house seats.

It is almost a foregone conclusion that more than two senate and three or four house seats, it would be regarded as a political upheaval.

Early Death of Roumanian King Thought Likely

LONDON, Oct. 28.—An Exchange Telegraph dispatch from Vienna today, which states that King Ferdinand of Roumania was likely to die soon and that members of his family had been ordered of his condition. "The king's fate," the newspaper dispatch explains that the king's condition is serious and that former Crown Prince Carol has been named to the throne.

"Following the earlier alleged official statement report that Queen Marie had been reported to have died, the king's condition is serious and that former Crown Prince Carol has been named to the throne."

PUBLIC SERVICE IS KEYNOTE OF COOLIDGE TALK

President Says Success Lies in Faithful Service to the Public.

WASHINGTON, Oct. 28.—American leaders to-day are paying tribute to the method of permanent service to the public, faithful conscientious service in the public, according to President Coolidge.

In his last speech before the congressional elections, the president, who today said that the American Association of Advertising Agencies, that wages now are high while profits are moderate, bringing a prospering business, is a sign that the nation is on the march and less into the enrichment of the few.

Mr. Coolidge did not refer to the economic program of the president-elect, but he stressed the accomplishments of the administration, including tax reduction, business prosperity, wage increases and improved living conditions.

"If we proceed under our present program," the president said, "there would appear to be little reason to doubt that we can continue to maintain all of these high standards in wages, in output, and in consumption, indefinitely, and with our same program of administration, including tax reduction, business prosperity, wage increases and improved living conditions."

SENATOR WILLIAM E. BORAH

Thomas McDermott Would Take Reward Offered for Capture of "Key Witness"

PRESIDENT AND QUEEN WILL BE DRAWING CARDS

Queen Marie and Nation's Executive to Share Missouri Honors.

WASHINGTON, Oct. 28.—President Coolidge will be the official star of the Armistice day celebration at Kansas City, Mo., this year, but James Owen Burke of Bonanza, Mo., is to witness the royal husband and abdicate her four regalia, the first lady have to reap all the credit of the affair.

The president will be the featured player at Kansas City's war memorial ceremony—his Majesty, under the present scheme, will be in his present city the same day. These antics the question of relative status to an American audience of the chief executive of this nation and of the coronation of a Italian queen.

President Coolidge's travel schedule for the Kansas City trip has not yet been drawn it is manifestly to make preparations for handling the executive's special train are unable to obtain official orders. "The reason," it is understood, is simple.

The president does not wish his visit to conflict with that of the Majesty.

Brother of Suspect Asks for Money in Letter to Mrs. Mellett.

NANTYBELL, Pa., Oct. 28.—Thomas McDermott was approached by his brother Ed, wanted in connection with the murder of Don H. Mellett, today wrote asking the widow of the Canton banker to accept the \$2000 reward offered for the "key witness."

The letter from Thomas McDermott to Mrs. Mellett said:

"It is with greatest difficulty that I write to you, asking you to accept any money sympathy of the entire McDermott family in Nantybelle and Twin Falls, Pa."

"My brother, Patrick Eugene McDermott, as you now do doubt already are aware, is held by Canton authorities as one of those who helped to bring about the death of your late husband, Don H. Mellett. He is, undoubtedly through my efforts and those of other members of our family—in Pennsylvania and Idaho, to all you and the Canton authorities in solving this mystery and bringing the guilty persons to justice."

"John, the one who found Patrick and brought him to Nantybelle, where eventually he was surrendered to the proper authorities in \$2000 amount, is willing to accept a reward of \$1000 offered for his arrest."

"Mrs. Mellett, I could not find no member of the McDermott family could accept the reward. It is my desire and the desire of the entire family, that the reward be turned over to you."

Twin Falls County Expenses Show \$3,000 Increase in 1925 Over 1924 Says Report

Report from County Auditor's Office Published in May, 1926, Shows That Almost Every Fiscal Cost More During the Fiscal Year Ending January 10th of This Year Than the Cost for a Similar Period Ending One Year Ago Under Democratic Rule; Sheriff's Office Is Exception; County Hospital Shows Rise in Cost.

The following story is reproduced from the Twin Falls news of May 6, 1926, and tells a very vital story at this season of the year.

This story as reproduced reports the county auditor's annual report, therefore we take it that the figures must be true as published.

Heavy expenditures for appropriations for most of the county departments totaling more than \$40,000 are shown by a comparison of the audit report for the year ending January 10, 1926, with the present board of commissioners' total charges.

The commissioners' report for the year ending January 10, 1926, shows that the total charges were \$41,000, or \$1,000 more than the total charges for the year ending January 10, 1925.

"Oh, why can't I have a skin like other girls? Why do I have to have these ugly pimples, blotches and blackheads?"

"If I could only find something that would clear up my skin and give me back my soft, rosy complexion, I would be the happiest girl in the world!"

Is that you talking? If it is, you don't have to worry a minute! Just build up the rich red color of your body. Then your skin will be as clear and soft as anybody's!

That's what S. S. S. has been doing for generations—helping Nature build up red blood, and that's what red blood cells do so fast that the impurities that cause breaking out on the skin hardly get into the system before the pure blood annihilates them—kills them right out—stops them from breaking out through the pores of the skin and keeps it looking healthy.

And then this rich, red, pure blood feeds and nourishes the tissue of the skin and keeps it looking healthy.

That's all there is to it. Healthy, vigorous, red blood rich as S. S. S. helps. It's a pure, healthy, natural skin builder. It makes you healthy all over. It beautifies your skin. It drives away all the pimples, blotches, blackheads, blotches, rash, boils and eczema—gives you back your appearance—builds firm, plump, clear skin and fills you full of new life and energy.

TILDEN GIVES HIS VIEWS ON BECOMING PRO

Big Bill Would Have Considered Offer to Turn Professional If Americans Had Won National Championship This Year.

NEW YORK, Oct. 28.—William T. Tilden, for six years American national tennis champion, gave today for the first time his attitude toward the professional "game in an exclusive interview with the United Press.

Tilden, who was beaten in the quarter final round of the recent national championship tournament at Forest Hills by Henri Cochet, one of the French four brothers, said he would remain an amateur for one more season, but that he would certainly "be" would do in 1921.

He said that he had been approached by C. C. Tyle with an offer that doubled his previous terms to join Mike Leonard, Max May, J. Brown, Vincent Richards and Fred and Kinsey in the professional troupe, and that he might have accepted if an American player had won the national championship.

Rather Apt Comparison.

"A meteoric career is not wholly to be desired," admitted "Professor Tyle." "The meteor suddenly flares forth from obscurity, dashes crazily upward, the surprised sky in a swirl of momentary brilliancy, dips languidly and subsides into oblivion, very much as does the average favorite son."

BOXING BOUTS PROVE SUCCESS

Pat Tiffany Lost to Walt of Ithaca and Mike Tiffany Lost to Jefferson Hill Leonard Won His Bout in Second Round with Knockout.

BOZEMAN, Idaho, Oct. 27.—A packed house saw the Americanization boxing contests here last night at Ithaca hall. Every bout was fast and exciting and the milling was decided and furious for the most part.

In the latter round, the first event of the evening, J. Clayburn, was victorious. The other men in the ring were E. Clark, Bud Davis, Brown and Hinchey.

The first bout was won by Young Leonard, of Twin Falls, who knocked Hank Lane in two rounds. Leonard smothered his opponent under a heavy bombardment of rights and lefts, clearly outclassing Lane in every department.

Pat Tiffany proved to be no match for Walt of Ithaca who knocked him out in the fourth round.

DROP KICKS

How to Report going to report Bert Sullivan, Perrine, Owens and Robinson. Any team which can hold that number of size is mighty good. Not a single eleven this year has been able to do it. Whom he is to say this at the end of the season?

One fellow that the Bruins are counting to have in their line is Tom. He is one fast individual and if he gets away, well there may be the first Idaho team to score on Twin Falls this year. The thing is, will he get away? And if he does, can Perrine or Owens run him down?

If we can get just Nampa, Pocatello, Fillet, Buhl and a few others we'll alright, but the chances considerable get in the way of a state championship, though indications are now that Twin Falls is going to put up the stiffest possible fight for the title. The team that beats Twin Falls will have to master to stopping line plunges, that end runs and off tackle plays. It will have to outkick Rich Robinson, in itself a heavy center. It will have to get past Lawrence and Stimpson or Nye, which isn't an easy feat of the easiest thing in the world. It will have to have strong Pat Vance and his chummy line center. It will have to outgeneral the shifty Brain quarterback. It will have to possess unlimited endurance for every minute of the game. Why? Because these are the qualifications Twin Falls has. Pocatello and the other teams, if they want to win, must go one better.

We are safe in saying that if Twin Falls is beaten the year it will be through the aerial attack.

Ancient American Art

Thus far Bolivia is the only locality of the new world where the Incas, commonest of antiquities is exposed. It marks the St. Paul Pioneer Press. The deposits are just, and the use of this an alloy appears to be as old as the people. At any rate, before the coming of the Spanish conquistadores the natives of Peru and Bolivia, in the vicinity of Lake Titicaca, made use of tin as an alloy with copper to make bronze.

Better Iron It

The other morning little Helen was washing another dress one of her coats. Helen asked why this had to be done. Mother said to get the wrinkles out. Later mother was sitting on the porch with Helen in a large red rocker. The inspection of the need on mother's arm wrinkled it a great deal. Helen seeing this exclaimed: "Mother, look at your arm! Don't you think you had better treat it?"

Easy to Tell the Age

You can usually tell approximately the age of the fairest girl by what he orders at the soda fountain. If he's under twenty-one, he'll take strawberry if he's between twenty-one and thirty-five, he'll take lemon. If he's over thirty-five, he won't be there.—Kansas City Star.

It's all a matter of picking the packing

How much fun you get out of a pipe depends largely on one thing: the tobacco. The pipe itself is the accessory, after all. The tobacco's the thing. That's why the most contented bunch of smokers in the world smoke Prince Albert exclusively.

Cool as a dove, sheltered from the beat of the sun. Sweet as a breath-of-clover. Fragrant as fresh-cut flowers... fragrant and mild. Yet with a body that satisfies your smoke-taste right down to the ground. A rare combination, Men.

The instant you open a tidy red tin of P. A., you know this tobacco is unlike any other. That warm, rich fragrance! Only real tobacco could give off such an appetizing aroma. You are completely won to P. A. when you smoke that first load.

It's a pretty safe guess that, if you smoke one tin of Prince Albert—all of it—you will continue to smoke Prince Albert from then on. That has been the experience of other pipe-smokers. It's worth finding out about. Buy some P. A. today.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tin and soft cases, and in bulk quantities. It is made in Canada and is the finest tobacco ever made. It is the only tobacco that is so pure and so delicious. It is the only tobacco that is so pure and so delicious. It is the only tobacco that is so pure and so delicious.

IDAHO DAIRYMEN OPPOSE GOODING

A crisis confronts the dairy industry in Idaho. It MUST be protected from the ruinous competition of counterfeit butter, made from coconut oil, that can be retailed at 13 cents a pound and make a profit. The interests that manufacture and sell this counterfeit butter are at work in Idaho.

But they do not control the voters. An overwhelming majority of the voters are opposed to oleomargarine and favor the dairy cow. But these voters and the dairymen are not organized and working as the opposing interests. Unless we awaken and get busy and get out the vote next Tuesday and vote to elect only candidates who are known to be friendly to the dairy industry and opposed to the oleomargarine trust, we may lose the fight as we lost it in 1925, when the oleomargarine interests killed our bill after it had passed the house and senate. We must elect men who will support our industry.

The above is a signed statement from J. E. Nessly, chairman of the legislative committee of the Idaho Dairy Association, and he further urges the defeat of those who voted against the oleomargarine bill in the Idaho legislature. Here is what he says about Senator Frank R. Gooding in a signed statement recently published:

"On with the fight. Defeat every man who voted and worked against the dairy industry during the last session of the legislature, and that means Frank R. Gooding, United States senator; Addison T. Smith, congressman; 'Mo Toy' Baldrige, lieutenant governor, who refused to help us in our fight (and the bible says, 'he who is not for me is against me') and Baldrige is now candidate for governor, and we must defeat every senator who voted with the oleomargarine interests and against the dairymen of Idaho. I have the names of every one of these and they are published in this paper. Read and remember them and work and vote against them. I am not afraid to oppose the weak policy of Chairman Davis and I think 99 per cent of the dairymen of Idaho are brave enough to make this fight, despite the statement of Mr. Davis.

"On with the fight and let us not stop until it is won." The morning organ of the republican party in Twin Falls county announces that the United States imported four million pounds of butter last year and had it not been for the tariff much more butter would have been imported, but the organ did not say how much oleomargarine was sold in Idaho during the past year because Senator Gooding caused the defeat of the oleomargarine bill in the Idaho legislature because of Southern manufacturers bringing pressure to bear on him. The people are asked to vote for Gooding because he keeps a tariff on butter and yet the junior senator betrayed the dairymen of Idaho into the hands of the oleomargarine trust. Consistency, thou art a jewel, but Gooding isn't so considered by the dairymen of Idaho.

Perhaps the Idaho senator will state tonight just how much he made out of that deal when he defeated the Idaho oleomargarine bill through his telegrams from Washington to the Idaho legislators.

Make answer, Senator Gooding, or else remain at home and allow Senator Nugent to replace you in the U. S. senate.

DOES TARIFF BOOST WHEAT PRICES?

BY JAMES H. WHEELER.

In his page advertisement in the morning paper John W. Graham attempts to show the growers of beans that they benefited to the extent of 80 cents a bushel by the present tariff. He assumes that all fluctuations upward are the result of the higher schedules. On the other hand he quietly overlooks the fall in price of 25 cents a bushel in 1923, evidenced in his own table.

Mr. Graham lets the cat out of the bag when he proceeds to discuss other things wherein he says the tariff benefits the farmer and mentions wheat, butter, beef and other articles covered by the Haugen bill which was intended to help farmers as the tariff helps the manufacturing trusts. Senator Gooding himself, in the speech of May 21, this year, taken from the Congressional Record and widely circulated among voters here, says: "I was happy, very happy, when the present increase in the tariff on wheat from 30 cents a bushel to 42 cents a bushel was made. I THOUGHT IT WAS GOING TO HELP THE FARMER, BUT I HAVE DISCOVERED THAT FOR SOME REASON, AT TIMES HE HAS RECEIVED BUT LITTLE BENEFIT FROM THE TARIFF OF 42 CENTS A BUSHEL ON WHEAT; and I have come to the conclusion that it is simply because the millers have a thorough organization.

Mr. Gooding asked, "What about the hard wheat growers?"

Mr. Gooding: "No; not even the hard wheat growers at times have received much benefit from the tariff." Senator Gooding then quoted a table of prices showing the price of hard wheat in Winnipeg and Minneapolis. In 10 of the months cited, the price was somewhat higher in Minneapolis than in Winnipeg; in one month the price was the same, and in eight of the 28 months the Canadian price was higher than the Minneapolis price, in one month 11 cents higher, although we had a tariff of 42 cents against Canadian hard wheat. Surely, his statement that farmers were receiving little benefit was conservative.

Mr. Gooding then added: "Let us not forget that this table refers only to hard wheat growers. Only 15 per cent of the wheat growers of this country produce what is known as No. 1 northern wheat, which competes with Canada. It is scarcely to say that the wheat growers, outside of hard wheat growers, have gotten ANY benefit from the tariff." These are admissions of Frank R. Gooding, in congress, May 21, as shown by documents sent out by himself within the last month.

Recently there was cited in these columns figures furnished by Congressman Haugen, for whose bill Senator Gooding and Congressman Smith voted, showing that with a tariff of 12 cents a pound on butter and a transportation charge of a cent, butter in London averaged this year up to the time the Haugen bill was discussed in May, two cents higher than the price in New York City. In other words that if the tariff had been effective, the price in New York would have been 15 cents higher than it was, or at least 13 cents, since the Copenhagen price was exactly the same as the New York price. He showed similar facts regarding corn, meats and other products, which John W. Graham now assumes are benefited by the tariff to the fullest extent. If the farmer is so benefited, why did Gooding, Smith and French vote for the unconstitutional Haugen bill, and Senator Borah says it is unconstitutional, on the theory that the farmer was not getting the purported benefit from the tariff?

The term "free trade" is one of various meanings. Strictly it means removal of all economic barriers in the way of a tariff. It is sometimes applied to the theory of a tariff for revenue only, WITHOUT INCIDENTAL PROTECTION. In neither of these senses is the democratic party a free trade party.

John's claim that a demagogue in the senate cannot vote for a protective tariff is absurd, not to say idiotic. Many democrats, even those opposed to the protective principle, voted for the emergency tariff. The delegation from Louisiana in both houses have voted against every democratic tariff bill and for every republican tariff bill for years. Congressman Hudspeth of west Texas is a leading high tariff man. For many years a Pennsylvania democrat, Samuel J. Randall, was a leading figure in the lower house of congress, though the strictest protectionist, and was actually elected speaker of the house by the democrats, who opposed his tariff views, because of his parliamentary ability.

In the summer of 1894, after the low tariff Wilson bill had passed the house, a small coterie of protectionist democrats, headed by Senator Arthur Pue Gorman, succeeded in having inserted 400 increases in the schedules, in spite of the fact that Grover Cleveland and William J. Bryan, then a congressman, worked together to prevent such increases.

John Graham has a funny idea of the rights of a congressman or senator when he says that he cannot vote outside his party.

Senator Nugent has stated his tariff views clearly, and he will vote that way if elected.

Carl Irwin's Jersey Herd Receives Praise

Read what the Extension Department of the University of Idaho has to say about the Carl Irwin Jersey herd which will be sold Thursday: "Mr. Carl D. Irwin of Kimberly, Idaho, will hold a dispersal sale of his registered Jerseys, October 28th. This herd is one of the best Jersey herds in the state and compares very favorably with any in the Northwest. The herd contains a solid herd of cows, a silver medal cow and many blue-ribbon individuals, including several with state records. People interested in Jerseys and in getting good foundation stock cannot go wrong by attending the sale. The entire herd is not only outstanding in production but for its uniformity in type as well.—Idaho Dairy Extension News Letter for September—adv.

When your Child has Croup

IN cases of spasmodic croup or kiddie's cold, the child's suffering and your anxiety will find quick relief through the soothing, healing, medicated vapors of Vicks VapoRub.

When Vicks is rubbed over throat and chest at bedtime it acts in two ways—

(1) It is vaporized by the body heat and inhaled directly to the inflamed air passages and lungs, loosening the phlegm and easing the cough; and (2) At the same time it warms and stimulates the skin like a poultice, "drawing out" the soreness and pain.

Colds are usually better by morning and croup is often relieved with one application.

Shell Company Has Eliminated Knock in Gas for Auto

MARTINEZ, Calif.—The research laboratory of the Shell Company, of California stated today that the problem of eliminating knock and providing higher compression in automobile motors has been solved by the employment of selected pure hydrocarbons.

This purpose has been attained through the addition of chemicals to California gasoline. To preserve and enhance the characteristic of quick starting, in which the so-called anti-knock chemicals are deficient.

Some \$2,000,000 worth of anti-knock chemicals are delivered through the properties of hydrocarbons themselves, results that have been shown elsewhere by the addition of certain substances. According to G. A. Kramer, these experiments have demonstrated that nothing yet discovered can improve upon the pure standard properly treated.

"One interesting result of our experiments during which we used practical engine trials of the petroleum gasoline on the market," said Kramer today, "is that most of the best results are usually forestalled by the usual working of an engine. The knock is eliminated."

one think that counts is total vaporization at operating temperature, and this is approximated most closely by a method of utilizing selected hydrocarbons.

Eastern Branch of Maytag Company Sets New World Record

The Eastern branch headquarters in Philadelphia of the Maytag Company of Newton, Iowa, has set a world's record in merchandising. PROBATE JUDGE HAS IMPORTANT OFFICE DECLARES CITIZEN

The location of probate judge's office is being considered by the general public as one of minor importance.

Let us for a moment see what the duties of the probate judge are. He has the duty of the administration of decedent estates, whether these estates be small or large; they have to pass through the probate court. You are all aware that your estates should be efficiently and economically administered when you pass away. Second, the probate judge has the duty of all income persons and delinquent children. Third, it has jurisdiction to the extent of \$50 in all civil cases except where title to real estate and questions of equity are involved. Many of such actions are instituted and decided in said court. Fourth, it has final jurisdiction of all criminal actions other than those which are felonies. It also has jurisdiction of preliminary examinations where the crime complained of constitutes a felony.

The probate judge has largely to do with the proper enforcement of the prohibition law.

While each and every one of the duties imposed on the probate judge are important, probably the most important of all is the care and disposition of delinquent and abandoned children should rank first in importance.

Boys and girls of the future century; boys and girls are very near and dear, as a general thing to their parents; the state and the nation are much interested that they grow up to be good and substantial citizens. Our boys or our girls should not be sent to a penal or reformatory institution except as a last resort.

OUT OUR WAY—BY WILLIAMS

THE LEAK. ©1926 BY J. WILLIAMS, INC.

"Remember the Alamo!"

What Douglas brought to me to know, the Alamo is to Texas, and both are more than the most famous forts in their respective states. They are monuments to the memory of our great American frontier hero—Dimitri Blanding and many others—they are national shrines.

The Mission of San Antonio de Valero, commonly called the Mission del Alamo (Alamo), being the Spanish word for endurance, was founded by the Franciscans in 1744 and after various removals was established in the present location in 1722. Soon after the outbreak of the Texas War of Independence in 1835 the Alamo was held by the Texans.

The commander of the next year was Gen. Col. William Barrett Travis, a young Carolina lawyer. Associates with him were Col. James Bowie of Georgia and of Bowie killed there. They had only about 130 men but in February there came a wild storm reinforcement to the persons of Davy Crockett, accompanied by some of his neighbors from Tennessee.

On February 23, 1836, Santa Anna, the dictator of Mexico, approved his capture and demanded its surrender. Travis answered with a shot from his cannon and a defiant holding of his flag. The Mexican General had more than 4,000 men but he did not care to risk an exhausted battle and spent the day.

For eleven days the siege was continued with heavy losses for the Mexicans but without a single casualty among the defenders. In the meantime Travis' appeals for help brought to the Alamo Col. James Butler and a company of men during the line of the besiegers, and a detachment of 32 men, led by Capt. J. W. Gray, who had been sent to the city of Austin to raise a detachment of 300 men. Two attacks were made on the desperate Texan but the garrison, weakened by the long vigil and lack of food, could not long resist the third attempt. The Mexicans assumed over the wall one by one for the next few minutes there followed one of the most desperate hand-to-hand combats ever fought on the American continent. When it ended only five of the 180 defenders were left alive and they were wounded, helpless prisoners. By command of Santa Anna they were killed at once.

But the sacrifice of Davy Crockett, Bowie and Travis has become the motto for the battle cry which swept the field at the decisive battle of San Antonio, "Remember the Alamo!"

In a monument in the city capital of Austin commemorating their deeds is this line: "Thermopylae had its heroes, but the Alamo had God."

TWIN FALLS, COUNTY EXPENSES

(Continued from Page 1)

sherrif showed a decrease of slightly more than \$2,000, from \$15,523.23 to \$13,202.64 for the conduct of his office. The county treasurer's office for this office for the sum of \$2,255, which while placed under the sheriff's department was not part of the general expenses, but which somewhat more than offset the saving. There was a cut in both expense for salaries and for extra help. The sheriff's office expenses increased from \$3,750.25 to \$4,750.17 or \$958.60, but this was more than offset by the increased number of meals for the indigent prisoners, said increased number of meals for prisoners, costing \$467.75, apparently indicating that the general expense of the sheriff's office did not cause a decrease in efficiency in rounding up culprits.

The increase in the cost of the office of the prosecutor was slightly less than \$500 or from \$4,222.84 to \$4,420.52. The expense of the health department increased from \$2,450.00 to \$3,117.65. The commissioner's expenses decreased nearly \$400 from \$4,603.13 to \$3,757.04. Part of the expense of the clerk of the county, \$2,510.00 was expense in the appeal of the salary case. The prolate court showed a decrease of about \$400 from \$4,496.66 to \$3,795.78. The district court expense was something over \$200 less, the figure standing \$10,022.24 January 1 to December 31, 1925 and \$9,460.57 for the year ending January 10, 1926. Cost of holding hospital increased about \$150 from \$1,270 to \$1,194.14. Expenses for court house and grounds increased about \$500 from \$11,824.52 to \$12,750.70. Two of the most increased items by \$200 for \$209.59 to \$247.59. Appropriations and contributions increased about \$700 from \$9,094.14 to \$9,825.17. The total increase was \$2,629.57 to eradicate stock tuberculosis. The big increase under this head being in water regulation where the increase was from \$1,428.27 for the year ending January 10, 1921 to \$4,031.48 for the year ending January 10, 1926. The budget for 1926 for the year for the county again \$250 for road eradication under this year, and are not included under the above head.

Fair Cost Less.

The agricultural fair cost nearly \$250 less, the decrease being \$19,062.71 to \$17,602.75 and this included new buildings and improvements costing \$3,355.85.

Highly Paid Increase.

The total disbursements for the Twin Falls county general hospital increased the largest amount of all. In 1925 for the year ending January 10, 1925, the expense of the hospital aggregated \$40,179.23. This year the total expenditure was \$53,987.20, an increase of \$13,807.97. It is true that hospital receipts increased over \$3000, from \$192,912.91 to \$209,956.04, showing increased patronage. On the other hand, collections were presumably better since \$431,118 was spent for collections during last year and only \$182,526 was spent for this purpose in the previous year. The report shows an increase in salaries of nurses, salary of dietitians, physicians, drug, supplies, instruments, housekeeping, light and power, care of indigent, etc. The greater part of the increase has occurred during the last half of the year. Hence the old organization established by the former board of commissioners was changed. The general expense fund shows increase of about

Constipation!
How to Keep Bowels Regular

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 42 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "set up" and have their bowels taken care of by cathartic pills, tablets, salts, calomel and other pills.

While he knew that constipation was the cause of many ailments, such as nervous indigestion and stomach acidity, he did not believe that a sickening "purge" or "physical" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only

causes a gentle, easy bowel movement but just as often it never acts at all, or upsets the system, besides, it is absolutely harmless, and so pleasant that even a nervous, fretful, bilious, sick child gladly takes it.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only

causes a gentle, easy bowel movement but just as often it never acts at all, or upsets the system, besides, it is absolutely harmless, and so pleasant that even a nervous, fretful, bilious, sick child gladly takes it.

Buy a large 50-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE, and just see for yourself.
