

WINE REPORT

Board of Temperance of the Methodist Episcopal Church has decided improvement in conditions still think there is too much moonshine.

The prohibition agitation directly contributes to the violation of the law. In this particular, the only practical and so far, the only method which must be resorted to by friends of prohibition everywhere is the production of moonshine liquor by small producers in a remote area which must be controlled by the local authorities.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by The Times Publishing Company, Twin Falls, Idaho.

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 21, 1918.

Lots of fellows expect to go to heaven on a scalper's ticket. Honesty will succeed as a principle where it fails as a policy.

No one envies the pioneer until he begins to gather in his riches. If the epitaphs were said over and over again in the home, there would be fewer on the tombstones.

There is but one name by which to call dishonesty, whether it be of the crude or the refined sort.

Many of us forestall our vision of the higher things by an abnormal self-appreciation.

Individual units in the wide world of humanity are held together by the law of attraction; else, by the law of repulsion, they drift farther and farther apart.

No play is well staged unless it ends beautifully. When the curtain falls the last act in life's drama ought to linger with the world like the afterglow of a sun long since gone down.

No matter what your social position, no matter how wealthy or poor you may be, no matter what your occupation is, you belong to one of two great armies.

No person can really live whose heart is cold and shriveled. Love and life are one and the same.

STOCK JUDGES RIDE SHEEP TRAIN

Nearly two months ago two of our high school boys rode a sheep train from here to Denver and then took the cushions to Kansas City.

The system as operated in Idaho consists of picking a small team of willing workers from a school which wants to enter with the consent of their parents.

The judging took place about six weeks to two months, and was related at that time in the Twin Falls Times.

wealth. The late Theodore Roosevelt gave big business its title and used the big stick to subdue it.

Senator Borah is not inclined to make extravagant or exaggerated charges. He has not contended for a long time that the money interests of the country have tried to influence Washington.

The senate may take it up and conduct an investigation to determine whether or not it is actually a fact that the bankers of the country are working for foreign interests.

It is the claim of our own government, made through the state affairs department, that American marines and sailors were landed in Nicaragua only for the purpose of protecting American citizens and American rights.

Big business is powerful and has its rights, but one of them does not permit interference in the direction by the government of international affairs.

A TRIBUTE TO WOODROW WILSON

There is no more reason why Democrats should exclusively honor the memory of the late Woodrow Wilson than Republicans should exclusively honor the memory of Abraham Lincoln.

But custom sometimes establishes precedents which seem to be the governing factor with relation to these two distinguished characters.

Wilson was a Democrat who upheld the banner of democracy in this country as its leader and its spokesman.

Speaking before a distinguished audience composed of Idahoans at a Wilson memorial dinner in this city, Milton H. Welling, former congressman from Utah, said of the late Woodrow Wilson:

"His fame is beyond the menace of hate. Already his name is written in the everlasting firmament of the earth's immortals."

The subject of this tribute won and deserved all that was said of him, and more. Woodrow Wilson was a great man and a great President.

WASHINGTON DAILY NEWS LETTER

BY RODNEY DUTCHER

WASHINGTON—Plan returned from the November election in far away Alaska, home of the north and the mainland.

The main business, election of a territorial governor, has been decided long since. But there is enough romance in the situation to make Robert W. Service to imagine a time of suspense when those voices might decree a prohibition on drinking or something else to write such verse as:

Oh, how did they die at Distort? And Keating's Sound on election day?

The poem might be in print for months before Alaska knew the result of the plan.

By the way, have you read today's denial the Henry Ford is going to produce a brand new style of car?

Mussolini hasn't answered Kemal's letter threatening to take his war machine to walk over Russia for a Kemal.

We were discussing that when he asked: 'Why do you fellows always leave of the apple?' Then with a yawn, he answered himself with a yawn.

A senator with a little flare for style on his graduation can give a lot on graduation this year.

DAIRY FACTS

COVERED SPACE FOR DAIRY HERD

The open shed or covered barnyard is a practical method of housing dairy cows. It provides the best-known method of saving and preserving all the fertility constituents of the manure.

The labor required under the two systems was slightly greater with the open shed. Had the cows been milked in the open shed this would not have been the case.

Helpful Plan Outlined to Dehorn Young Calves

During each year there are many questions about killing the horns on little calves. These are the following from a bulletin from the Ohio experiment station:

When the calf is four to seven days old the hair over the sound should be clipped close. The molted end of a stick of caustic potash, if then rubbed over the horns while open, about the size of a dime becomes raw.

Lactic Acid Bacteria in Milk Causes It to Sour

Milk sours because of the action for it of tiny germs, called lactic acid bacteria.

Lactic acid bacteria are everywhere and their numbers multiply fast in warm, while at a cooler temperature their multiplication is slower.

Dairy Hints

Under natural conditions the calf takes its milk frequently and in small quantities.

Using a milk stool on a cow's back, it has been found by actual experience, improves the cow exactly as much as the milk stool.

More attention to the care of milk and cream will improve the quality and eventually command a higher price.

The importance of using the cleanest of vessels to hold milk is shown by the fact that 80 per cent of the milk in the market milk come from stale vessels.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomachs, liver, bowels!

Give "California Fig Syrup" if cross, bilious or feverish

No matter what ails your child, it always is the first treatment given.

If your little one is out-of-order, listless, not resting, eating and acting normally—look, Mother, see. If tongue is coated, this is a sure sign that the little stomach, liver and bowels are clogged with waste.

When cross, listless, feverish, stomach sour, breath bad or has stomacheolic, diarrhoea, nose throat, full of cold, give a teaspoonful of "California Fig Syrup."

Mother can rest easy after giving this harmless, "fruit" laxative. Because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they dearly love its pleasant taste.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by the "California Fig Syrup Company,"—adv.

Imports

Despite the fact that the United States has more railroads than any other country, the first rails to be used in "California Fig Syrup" thus see that it is used by the ship Alexander.

Sour Stomach

"Phillips' Milk of Magnesia" Better than Soda

Indigestion hereafter takes a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, stinky stomach, and relief will come instantly.

For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes heart and grip from all causes. It neutralizes acid fermentation in the bowels and gently urges the moving water from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips' Twenty-five cent and fifty cent bottles," any druggist. "Milk of Magnesia" has three times as much acid in the form of the Charles L. Phillips Chemical Co. and its predecessor Charles C. Phillips since 1875.—adv.
