

## AMERICANS FLEE FROM CHINK RIOTS

### Anti-foreign Riots Are Increasing and 26 American War Vessels Are in Chinese Waters and More Are on Way; 12,000 Americans in China.

WASHINGTON, D. C., Jan. 22.—Americans were fleeing today from dozens of isolated mission posts to Chinese coast cities, where United States battleships and gunboats are carrying them to the Philippines and safety, it is necessary.

Officials here are alarmed over the anti-foreign riots sweeping China and are taking all precautionary measures to evacuate the 12,000 Americans there in an emergency.

American battleships and gunboats are prepared to use force to cover an evacuation, but it is believed that foreign guns will discreetly abstain from firing unless they are ordered to do so.

With John Van A. MacArthur, American military, ordered back to Peking to take charge of the situation, and additional marines ordered from Guam to the Philippines in reserve, other forces are waiting the call of Admiral Williams, Asiatic commander.

## DANCE HALL BILL KILLED

### Jeppson Declines Pivotal Role for Child of His Pen and Reclamatory Only Leads to Added Pains.

BOISE, Idaho, Jan. 22.—Idaho's state senate did a ghost dance Thursday, with Senator Jeppson of Bingham county, and his bill to regulate dance halls, the burnt offering. Senator Jeppson himself precipitated the circus when he refused to accept the defeat of the state affairs committee and provided for the measure. The corporations committee recommended that senate bill No. 11, allowing cities to bond for the construction of libraries, be printed and passed, while the privileges and elections committee made a similar recommendation as to senator's senate bill No. 16, which puts a limit on the time of declaration of nominations. But the state affairs committee applied the quorum to senate resolution No. 1, by which provisions for a four-year term for county commissioners, and also knocked out senate bill No. 8, Jeppson's measure, which would close dance halls between 7 and 9 p. m., except where city ordinances provided otherwise.

## JUDGE WALETZ TO SPEAK TO BURLY HORTONIANS TUESDAY

Judge E. A. Walters of Twin Falls, governor of the fifth district in international Rotary, will make his official visit to the Burlly Rotary club next Tuesday, January 25. This is the information received by President H. L. Harpster of the Burlly club.

Members at their weekly meeting Tuesday noon enjoyed a splendid program sponsored by the fellowship committee in charge of Fred Carter, says the Burlly Bulletin. Those who were present at the fellowship were H. E. Hemlaway, J. C. Ring, H. C. Davidson and E. S. Platon. W. C. Roberts of the Burlly Boy Scout club next Tuesday, January 25. This is the information received by President H. L. Harpster of the Burlly club.

## KIMBERLY AUTO THIEVES ACTIVE

KIMBERLY, Jan. 22.—A Ford sedan was taken from the front of the Chamber of Commerce on Center street early Thursday morning. Police returning from a party shortly after midnight saw two men pushing a car down the street. They thought it was their own but they were having difficulty in getting it started, but this morning tracks revealed the fact that this was the Tealer car. Mr. Tealer had left the key in his car so it was very little trouble to make way with it when sufficiently far removed from his residence that starting the engine would attract the attention of the family. No trace of the car has been received at this time.

## JARDINE WILL BE ASKED TO SPEAK TO LEGISLATURE

BALT LAKE CITY, Utah, Jan. 21.—William M. Jardine, secretary of agriculture, will be invited to address a joint session of the senate and house of representatives of the Utah legislature while he is here attending the American livestock congress next week. The speaker of the Utah senate was authorized by action of this body to invite Secretary Jardine and to arrange the joint meeting.

## Defends Smith

C. J. Doyle will represent Frank L. Smith, senator-elect from Idaho, as his attorney when Smith goes to Washington to face the Senate storm over his campaign funds. Doyle, former secretary of the Springfield club, is president of the Three-Yes League.

## WAR VETERAN REEFERS BOISE

BOISE, Idaho, Jan. 22.—Doctor E. Albert, state adjunct of the American Legion, a disabled veteran of the World War, suffered a sudden attack late Friday and was rushed to the Veterans' hospital here. An X-ray was to be made today to determine the cause of the attack. Albert lost both his legs in the war.

## COAL MINERS WAGE DISPUTE IS UP AGAIN

### Bituminous Coal Miners in Eastern States Threaten Strike Over Wage Agreement; Operators State That Union Miners Must Compete with Non-union.

INDIANAPOLIS, Ind., Jan. 22.—The bituminous coal industry today faced another stubborn wage battle between operators and miners.

Although both sides carefully avoided any talk of a strike, there was an air of belligerence in both camps. The United Mine Workers of America on one side, and the bituminous operators on the other.

The impending wage battle is to be centered on the new wage contract to replace the Jacksonville agreement which expires March 31. Already operators of the contract collapsed here, embracing the bituminous mines of western Pennsylvania, Ohio, Indiana, and Illinois, have announced a determination of fighting for a lower wage scale.

## Idaho State Chamber of Commerce Elects Officers; Adjourns

BOISE, Idaho, Jan. 22.—Election of officers and adjournment of the Idaho State Chamber of Commerce featured the closing session of the first annual convention of the Idaho State Chamber of Commerce, Friday afternoon. R. E. Shepherd of Jerome was chosen president; M. R. Yeaman of Elkhart Falls, first vice-president; E. F. Peltroy of Moscow, second vice-president; T. L. Martin of Boise, treasurer.

The directors closed their year with the following: E. W. Trauman, St. Maries; John McMurtry, Oakley; R. E. Shepherd, Jerome.

Ralph E. Thomas, manager of the State Chamber, business secretary at the expiration of the term of J. A. Harrier.

## BURLEYITE ATTENDS MEETING; STATE GRANGE AT TWIN FALLS

Mrs. Kenneth Shreder returned home Thursday from the meeting of the state grange at Twin Falls for the past few days. She reported the meeting and large attendance at all seasons, says the Burley Bulletin. She was one of the guests at the luncheon given Wednesday at the Park hotel by the Amalgamated Sugar company for delegates to the convention from Alameda and Canada counties. She was the only one present from Cassin county, representing the Citronnet, grange.

## SYRACUSE—Jim Maloney, Boston contractor for the heavyweight championship, knocked out Jim Herman, Portland, in the second round.

## SIX ARE DYING FROM EATING POISON PORK

SANTA ROSA, Cal., Jan. 22.—Six persons in one family here are believed slowly dying as a result of eating uncooked pork sausage, infested with trichinella worms, it was learned today.

Jacob Catala, meaty rancher, his wife and four children, have been seized by the coroner and Dr. W. E. Hixby said there is nothing medicinal science can do to cure them.

"Only a possible natural resistance by the victims can prevent death," the physician said.

## EXPLOSION AND FIRE KILLS SIX

TOLLEDO, O., Jan. 22.—Six are known to be dead; two are reported missing and at least five persons are injured by a result of an explosion and fire which razed a two-story brick and frame building at Point Place here.

Six bodies had been removed from the smoldering wreckage at 3 p. m. today.

## STUDENTS KILLED IN AUTO BUS

### Eleven Students Are Killed When Train Hits Auto Bus; Stricken Were Baylor University Basketball Team.

ROUND ROCK, Texas, Jan. 22.—Eleven persons were killed, four probably fatally injured and seven others hurt when a Missouri Pacific passenger train demolished a passenger bus at a grade crossing near here shortly after noon today.

All the dead were members of the Baylor university basketball team, on route to Austin from Waco.

The dead and injured were placed aboard the train and taken to Taylor, Texas.

## NEW HABITUAL CRIMINAL BILL INTRODUCED

Idaho State Legislature Gets Bill Which Imposes Second Offense Penalty.

BOISE, Idaho, Jan. 22.—Introduction of a habitual criminal act featured today's session of the Idaho legislature.

The act, introduced by the house, provides that a second felony offense shall be not less than the maximum for first offense or not less than twice the minimum. Sentence for the fourth offense shall be life.

## APPROPRIATION BILL SIGNED.

WASHINGTON, Jan. 22.—President Coolidge signed today the rivers and harbors appropriation bill, carrying among other items, \$12,500,000 for the Missouri river project.

## For Wales

These grateful ewes from the trees at Corpus Christi, Texas, are now on route to England, where they will go to the breeders of the Prince of Wales.

Miss Mary Graer, who is holding them, says one reason they are extra-dine grateful is that they have a short way length. Wales' veat, therefore, will not suffer when he eats them.

## BEAN GROWERS SHOW INCREASE IN MEMBERSHIP

Southern Idaho Association Is In Flourish Condition; Report of Chairman H. T. Blake of Idaho Bean Growers' association in session here today shows an increase of membership by 24 as an evidence of the growth of the organization. He urged proper cleaning of beans and care in avoiding mixture of inferior seed with Great Northern. He urged shaking all the grain out of grain sacks used for beans, as grain breaks with it.

## NORTHWEST PINCHED BY COLD WAVE

Portland, Ore., Jan. 22.—With the contrast of skyrocketing snowfall and the west, a cold wave in temperature from 21 above to a low of 23 degrees below zero, the Pacific Northwest today continued in the grip of the most intense cold spell of recent years.

## CONGRESS TODAY

SENATE: Continues consideration of Bryan-Wood nomination in executive session; agriculture committee considers farm relief measures; privileges and elections committee reads report on investigation of Senate election case.

HOUSE: Ways and means committee considers lease of New York territory; oil field; judicial committee considers bill to fix salaries in territories.

## AN UNPOPULAR ADDITION TO THE FAMILY

## MEXICO IS WAITING FOR U. S. MOVE

### American Investment Totals About \$1,500,000,000 in Mexico and About 13,000 U. S. Citizens Live There; Arbitration Move Must Come from U. S.

WASHINGTON, Jan. 22.—American investments in Mexico approximate \$1,500,000,000, testimony published today by the house appropriations committee on the state department supply bill showed.

Assistant Secretary Willbur J. Carr told the committee between 12,000 and 13,000 Americans now live in Mexico.

Carr said Mexican land, petroleum and uranium have caused "unwarranted expropriations."

## BEAN GROWERS SHOW INCREASE IN MEMBERSHIP

Southern Idaho Association Is In Flourish Condition; Report of Chairman H. T. Blake of Idaho Bean Growers' association in session here today shows an increase of membership by 24 as an evidence of the growth of the organization. He urged proper cleaning of beans and care in avoiding mixture of inferior seed with Great Northern. He urged shaking all the grain out of grain sacks used for beans, as grain breaks with it.

## NORTHWEST PINCHED BY COLD WAVE

Portland, Ore., Jan. 22.—With the contrast of skyrocketing snowfall and the west, a cold wave in temperature from 21 above to a low of 23 degrees below zero, the Pacific Northwest today continued in the grip of the most intense cold spell of recent years.

# SOCIETY

**Altruistic Dinner Party**—Mr. and Mrs. A. C. Victor and Mr. and Mrs. F. W. Noble entertained with the society at the home of Mrs. F. W. Noble, Friday evening at the club. The four small tables at which the guests were seated were decorated with pink and lavender candy baskets and the place cards bore Valentine motifs. The hostess had prepared a delightful menu. The guests included Mrs. and Mrs. Roy Mann of Clatsop, Mr. and Mrs. E. J. Colburn, Mr. and Mrs. F. S. Cappel, Mr. and Mrs. F. E. Hamilton, Mr. and Mrs. W. C. Alexander, Mr. and Mrs. R. K. Alexander, Mr. and Mrs. A. G. Gall and Mr. and Mrs. Warren Williams.

**Delightful Dinner-Ridder**—The members of the Luncheon club and their husbands were entertained with a delightful dinner-party Friday evening at the home of Mrs. M. C. Young of Seventh avenue east. Mr. and Mrs. Charles Nease and Mr. and Mrs. J. A. Barrett were special guests at the evening. Mrs. McAtee was assisted in serving by Mrs. Charles Hart and Miss Virginia Smith, who is visiting her father, Dr. Smith, of Cheney. The hostess, Mrs. H. O. Miller won the high score award.

**War Mothers**—Mrs. J. C. Beach, chairman, Mrs. H. O. Bault, Mrs. J. A. Jones and Mrs. David Brown were hosts to the Twin Falls chapter American War Mothers Friday evening at the home of Mrs. Beachman on Tenth avenue north. Mrs. C. T. Hart presided over the business meeting. Arrangements were made for a regular food and rummage sale to be given some time in the near future. Mrs. Henry Peters, treasurer, announced that the chapter had purchased the certificate of ownership of 25 shares in the Memorial home at Denver, which is connected with the Fitzsimons hospital for disabled veterans.

**Celebrate Founder's Day**—Members of the P. O. celebrated Founder's day Friday evening with a dinner and the candle memorial service at the Alkon tea room. Covers were laid for thirty-one at two large tables having a trim yellow and white chrysanthemum and yellow tapers in ivory holders. Mrs. Frank S. Bell was in charge of the ceremony, those taking part being Mrs. F. E. McAtee, Mrs. Edward Cooper, Miss Joan Maxwell, Mrs. Willis Young, Mrs. W. E. Dixon, Mrs. L. C. Dunlap, Mrs. J. C. Dunlap and Mrs. W. C. Dickey. Mrs. Bell made a short talk and several songs were sung by the chapter.

**Compliment Former President**—Mrs. Matt Schmitt was the guest of honor at a delightful afternoon party Friday when the members of the Highland-View club entertained Mrs. Schmitt, who has been the club's president in the past year. She presented with a bouquet of flowers, all were Mrs. Hart, the vice president making the presentation speech. A delicious luncheon was served at the close of the afternoon.

**Spanish Heather Honey**

In Spain there are several fine honeyes and one of the finest honeyes of Catalonia, is as green as grass and low as a mountain peak, but is very highly esteemed. This heather honey, from the slopes of the Pyrenees. Indeed, Spanish honey is so famous, that the Americans of old for the honey of Bumble Bees, that it is the food of the gods, as available to the favor

## Husband and Wife

My wife is opposed to paint and powder and lets her nose shine—Everett.

WHAT DOES YOUR WIFE DO?

## NEW CRANKSHAFT IS EXPLAINED

Designer's Reasons for the Varied Lengths of Main Bearings Made Clear by Dodge Heiler.

Newspaper advertising and posters blank everywhere during the last few months have carried claims of several makers of motor cars that new freedom from vibration and smoothness of engine power have been achieved by the adoption of an increased number of crankshaft bearings. The change from four to five bearings, comparatively few of the many makers who have examined the new crankshaft exhibited in the display room of the Magel Auto company, Frank Magel explains, seem to have any clear line of the reason why five short bearings are preferable to three longer ones having the same total arc.

"The crankshaft must, of course," Mr. Magel explains, "be sufficiently stiff and must have a larger enough number of properly spaced and properly bearing to prevent bending under the loads imposed when the engine is developing its power. At first the designer would expect the designer to make all five bearings of the same length except that the rear main bearing is a little longer than the first to carry the extra load imposed by the flywheel."

Inquiries regarding the shorter length of the second and fourth bearings of the improved engine are so frequent that we believe the designer's reasons are of general interest. As the subject is somewhat technical we try to offer such an explanation as can easily be understood.

**Wrong Appellation**

We call a fourth bearing "main" probably for the same reason we call a short person "a big old man." The only fact, one of the most of it, is that, with the same arc, the length of the bearing is not really one of its dimensions. The same is true of its width and its height and its thickness, or, as any other kind of animal.

**Spanish Heather Honey**

In Spain there are several fine honeyes and one of the finest honeyes of Catalonia, is as green as grass and low as a mountain peak, but is very highly esteemed. This heather honey, from the slopes of the Pyrenees. Indeed, Spanish honey is so famous, that the Americans of old for the honey of Bumble Bees, that it is the food of the gods, as available to the favor

## FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

### Where Ruled the "Emperor of the West"

At Fort Union, N. M., Kenneth McKeble once reigned as the "Emperor of the Missouri" or, better, Fort in the "Empire of the West." John McLaughlin, officially chief factor for the Hudson's Bay company in Oregon but spoken of as "the old wild as the 'Emperor of the West' in Oregon despite his for 22 years ruled over an empire 400,000 square miles in extent, of which his post, Fort Vancouver, Wash., was the capital.

From 1810 to 1840, though then retroactively belonging to Great Britain, the Pacific northwest was dominated by the Hudson's Bay company. From 1810 to 1840, under the terms of the Treaty of Ghent, this vast territory was under the joint sovereignty of Great Britain and the United States. In reality the word of the H. B. C. was the law and the Hudson's Bay did not look any too kindly upon American interference. The one exception was Dr. McLaughlin, to whom we owe an eternal debt of gratitude.

Fort Vancouver was the result of the merger in 1827 of the Northwest company, which had put John Jacob Astor's Pacific Fur company out of business, and the company with the Hudson's Bay company, which had in turn ousted the opposition of the Northwest organization. McLaughlin became the important chief factor for the Oregon country. In 1810, 60 miles above Fort Astor.

SNOW PLAYS LOW PRICES ON FILM ACTORS IN IDAHO

### Hollywood Workers, Unaccustomed to Zero Weather, Find Conditions Unpleasant

Showing these same queer tricks on snow plays low prices on film actors in Idaho. Hollywood workers, unaccustomed to zero weather, find conditions unpleasant. In the first place, few actors are accustomed to snow. This was demonstrated quite noticeably when Victor Schertzinger, producing "Siberia," Fox Films version of Bartley Campbell's dramatic play, took his company into the Ash-ton Locks for the Siberian scenes. This production opens at the Orpheum theatre Monday.

"It is tough," Edmund Lowe explained, commenting upon the first snowfall of the east. "You see, we of the Hollywood colony do the greater part of our work in warmer zones. We are not like the members of traveling companies. I don't always get all kinds of weather—ranging from the tropical to the zero brand. They become accustomed to all sorts of conditions."

### Famous Boston Hill

Recent hill, Boston, provided the name from the fact that the public house was placed upon its summit. Later the hill was reduced in height and the residence complex is high and grand.

# BARBS

Now we know where Santa Claus spends his summers. The old fellow can be seen after the game, frolicking around under the grandstands in the big league parks.

Christmas cards revealed one thing, anyway. A lot of people have very peculiar mind names.

An optimist is a fool of you.

We have laid in a large stock of ammunition, and are patiently awaiting the next man who says "I'll catch enough for you."

January 1 is coming, gentlemen. Let nothing go by you!

# NEWS OF THE SPORT WORLD

## KIMBERLY IS DEFEATED IN DOUBLE HEADER

### Twin Falls Bruins Win Hoop Game from Kimberly Boys by 36 to 14 Score; Twin Falls Girls Win by 26 to 20 in Exciting Game Last Night—Boys' Game is Rough but Girls Show Real Class.

The Twin Falls Bruins defeated the Kimberly quintet here last evening in a rather loosely played game of basketball. The final score of the boys game was 36 to 14, but the score hardly shows the speed and agility presented by the Kimberly team. The visitors were light and fast and played a remarkable passing game but were not so good at hitting the basket as they should have been. The game was pretty rough and yet most of the fouls were called.

Two teams were used by Coach Fleming and several of the younger lads showed fine form. Ward played a good game at center but is not as agile on the floor as he should be. Lamar Nelson looks good and will develop into a fine player, his work last night was passing. Holts Martin at left forward played a good game and scored five points. Captain Mitchell played a good game at passing and working the ball down the field but was off as far as shooting baskets goes. Kelly, star of the team, displayed splendid floor work and scored 18 points for his team. "Chuck" Battelle played a short time at center and made a good showing.

In the last quarter Art Kelly, "Pete" Taylor, Dibble and several of the other second string men had a tryout and worked well. Robertson played a fine game at forward making this quarter and made two baskets.

Sullivan at guard and Simpson at center played a good game for Kimberly, but Ballard and Sampson divided the 10 points between them when it came to the scoring.

Girls' Game  
The Twin Falls girls took the lead in the scoring and generally showed a better type of basketball than did the Kimberly squad. The Kimberly girls were in the lead at the close of the half but the Bruin girls came back and soon took a decided lead and held it. The running center, Cynthia Evans, played a nice game. Karen Newman as jumping center, usually got the tip and played a wonderful game. Irma Jenkins scored 10 points, and Smith girl made 8. La Vonne Guttery, who played forward most of the game, scored 4 points.

Kimberly Girls Star.  
For the visitors the two guards, Byron and Marcus, prevented several more points being scored by the Bruin squad. The forwards, Tyler and McCarty, each made 10 points. Running center Hunt, and jumping center, Tyler, did good work.

Girls' Game  
**KIMBERLY.** La Vonne Guttery Right Forward. Jenkins Left Forward. Newman Jumping Center. Evans Running Center. Rowberry Right Guard. Worth Left Guard. Substitutions—Twin Falls: Smith for Guttery; Guttery for Evans; Holmes for Rowberry. Referee: Davis.  
**Boys'**

**KIMBERLY.** TWIN FALLS: Sampson Right Forward. Martin Left Forward. Ward Center. Ballard Nelson Right Guard. Kelly Left Guard. Evans Outboard, referee.

### Flight of Buzzards

The biological society says that the buzzard is able by more or less imperceptible movements of the wings, to take advantage of minor air currents.

### Wampum Not European

It has been thought that wampum making was of European origin, but the abundance of wampum beads found in Long Island shell mounds would indicate that the beads, and Indian origin rather than European.

## Meets Maloney

Here is Paulino, the Barque Wood-chopper, the only foreign heavy-weight among the many who recently invaded this country, to remain undefeated. He is shortly to meet Jim Maloney, Boston heavy-weight, who has been pulled to the "wiremen."

### SPORT TABS OF EVERY KIND

**NEW YORK.** Dave Anderson, St. Louis City flyweight, won a 10 round decision from Frankie, General former champion, 11th Round, 10th round by weight, won a 10 round decision from Tripp Lindback, Chicago.

**CHICAGO.** A ten minute overtime period failed to break a deadlock that existed at the end of the regular game time and the Chicago "wildman" played a 24-25 with the Detroit Hurons in an American League hockey game.

## BUHL DEFEATS TWO TEAMS IN HOOP CONTESTS

(Special in The Times)

Buhl Girls	46
Ablon Normal	29
Buhl	39
Hagerman	11

Buhl, Jan. 22. Buhl chalked up a double win last night on the local basketball court, the girls taking from Ablon Normal the four end of 46 to 29, the boys trouncing Hagerman 39 to 11.

From the first blast of the whistle, the girls tore into the game. After the first quarter the Buhl coaches say they hold a slight edge on the score, but the Teachers fought with all that was in them. Up into the third quarter it was an even bet, 29 to the winner.

The top of the third and all of the fourth quarter were clearly Buhl's. Coach Barry's wicket set their floor work running smoothly, and though the Normal guards played the ball in the style they were unable to break up the Metz-Lazy scoring combination.

The boys' game was fast and snappy. At the end of the first half, Buhl held a 22 point margin, and Hagerman had not touched a single mark. Coach Stot out by order of the Buhl second string in the last half, and the teams became more matched.

Think us ever turned out a big crowd of fans to cheer on their teams. An estimate of one thousand would be conservative.

St. Martin of Gooding refereed both games. The two Buhl teams played here Friday the 23rd.

## CALIFORNIAN IS UNDISPUTED BANTAM CHAMP

### Fidel Labarba Defeats Elicey Clarke in 12 Rounds and is Now Undisputed Flyweight Champion; the New Champ is 21.

By HENRY L. FARRIELL, MADISON SQUARE GARDEN, New York, Jan. 22.—Known affectionately to the army of American athletes who invaded the Paris Olympic games in 1924 as "Little Philby," the twenty-one year old Californian, Fidel Labarba, is now \$22,000 richer than last night and the stock broker's office of his dreams.

For the first time in his brilliant career, little Philby hit a champion's money and a real title in Tex Rickard's garden last night when he beat Elicey Clarke, a little granite-headed Sicilian, in a 12 round bout and became the undisputed flyweight champion of the world.

"When Rickard first tried to make the match, Clarke claimed he was the world's champion and entitled to the larger percentage of the proceeds," said the New York law allows a champion. Labarba was backed by the New York commission and other American boxing bodies, in the world's championship and last night's match decided it.

It wasn't a great fight and 15,000 spectators who paid \$50,000 to see the first world's championship fight of the year expressed themselves to that extent.

### Flying Ability of Birds

The narrower a bird's wing is in comparison to its length, the better is the ability to fly. Also, the shorter the body is in comparison to the length of the outstretched wing the greater is the flying power.

### Carried to the End

From 1879 until after the Civil war Yankee clipper-carried her from Boston to India. With the advent of artificial refrigeration the trade died out, says the Department of Commerce.

### STUDENTS KILLED.

(Continued from Page 1)

45 had 50 miles an hour, struck the bus squarely in its middle, hurling bodies to all directions and causing the splintered wreckage nearly a quarter of a mile down the right of way.

### Famous Chairs

One of the most beautiful chairs in the world is the chair of Euphorbus, king of the Franks, who died in the year 628. It is made of oak and polished bronze of very fine workmanship. But St. Peter's chair at Rome is said to be the most ancient and the most famous piece of furniture in existence.

### Paris Latin Quarter

The Latin quarter of Paris is the section of the city in which the University of Paris is situated. Education in the university was formerly given in Latin, and the students used to go to town singing their songs in Latin thus giving rise to the name which persists to the present day.

# BARBS

A woman may smile at a jury if she pleases, a New York judge rules. To be sure, ladies and why not even let her laugh?

One way of breaking air for pain would be to go into the undertaking business at Herrin, Ill.

Many a "sugar daddy" probably is just a plain sap.

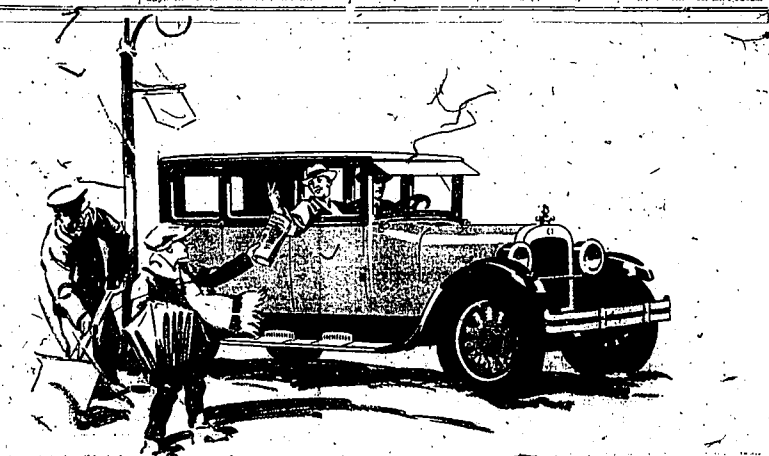

Headlines you never see: **FORD RETIRES FROM BUSINESS; WILL SPEND LAST DAYS IN PALESTINE.**

Just we are and to dust we shall return, but that doesn't keep us from throwing a little mud once in a while.

Now, if we just had an Oil Commissioner!

## The Real Test of Coal!

If you can obtain the desired heat, with the smallest consumption of coal, and the least amount of soot and clinkers—that's the real test of coal.

We have said before, and we say it again, that our HARD coal can be easily controlled, therefore it LASTS LONGER. Our HARD coal MAKES NO CLINKERS and NO STRINGY SOOT.

### Some Doubting Thomases Said!

"There Ain't Such Coal!"

But one doubting Thomas has changed his mind. He bought two tons of it, on condition that if it did not do what we claimed it to, he would get the coal FREE! HE PAID FOR THE COAL!

This Doubting Thomas' name is Joe-K. Just read for yourself what he has to say.

"It's the best in the west by all users best. It will stand the most critical and exacting test. So when 'Old Man Winter' harasses your soul. Make it 'hot' for him, with Detweiler's Hard Coal.

It's SOOTLESS and CLINKERLESS, has a very light ash.

It LASTS SO MUCH LONGER, DON'T TAKE SO MUCH CASH."

Joe K says:  
"Human nature is the same the world over. When we get something unusually good, we want to tell our friends so they may enjoy the same things. On Dec. 4, I bought two tons of coal, and it only lasted until December 22, when I bought two tons of Detweiler's hard coal and it has lasted until today. The first coal lasted 18 days, and the last coal 31 days. I did not believe that there was a coal that was SOOTLESS and CLINKERLESS, but I was pleasantly surprised. I have not cleaned my cook stove out since burning Detweiler's Hard Coal, and it is clean now, whereas I had to clean it about every ten days with other coal; and I have not gotten a single clinker. It is so good that I want to tell my friends about it so that they may enjoy the satisfaction, comfort and saving which I have.

For Coal That's Fine Phone 309.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by The Times Publishing Company, Twin Falls, Idaho. I. L. MASTERS, Editor and Publisher. Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1918.

IS AMERICA TO GO THE WAY OF GREECE AND PERSIA?

The following data has been submitted by one of our subscribers and will be read with considerable interest, we believe, in this part of Idaho. We have always been in favor of the press maintaining an open forum for the expression of ideas on public questions and while we may not agree altogether with the writer, yet these suggestions are worthy of consideration:

It is recorded in history that the Greeks, who once ruled the world, ate but two meals a day.

The beginning of the downfall of Greece and Persia dates back to the time when they departed from this simple rule of living and started on the road to destruction, through gluttony.

It has also been said that America is the best fed nation in the world and that she is the least sober.

Therefore, it behooves every thoughtful man and woman to count the cost of our national debauch.

Some very good thoughts were given The Times readers in a recent editorial on Abstinence. We believe parents and teachers alike realize the truth of those statements, but what are we to do when the leaders of society, church, state and nation set the example of extravagance?

Philosophers of today are agreed that it is only a short matter of time until our present civilization goes the way of its predecessors. They claim that a home is becoming practically impossible, children almost out of the question and real Christian motherhood almost a thing of the past. Women in their new freedom have often sacrificed honor, home, health and happiness in order to have more leisure and more money. Consequently the home has suffered the most.

Kathleen Norris, writing in "Liberty," says that it is only the woman of the family who can restore the sanctity of the home and thus save our national life.

Perhaps she is right, but unless the fathers of America awaken to their sense of duty to the home I fear little may be accomplished by the woman.

The good housewife may search here and there for something wholesome to cook and plan something useful to do for herself and children, but tell me what chance has a woman of making a true home if the man of the house demands rich, highly seasoned food and spends his time and money in riotous living? An abstainer is one who refrains from over-indulgence in food and drink and if both old and young would practice abstinence we would have very little need of doctors or prohibition.

Therefore we should work for the conversion of individuals and not seek to reform the whole world.

Jesus realized the futility of such a course when He called out the twelve disciples. He sent them forth by two and two and gave them power over unclean spirits. They took nothing for their journey, save a staff, no bread, no money. The early evangelist did not travel with a retinue of reporters and private secretaries. They went on foot and carried no luggage; they fasted and prayed; they were temperate in all things and we hear Paul saying, "I will eat no meat while the world standeth if it make my brother to offend." Ah, this is the secret of Paul's great success. He set an example of right living. He was sober and industrious.

It is not recorded that any of these early disciples were carried about on the shoulders of men "while a crowd of admiring friends followed with garlands of roses." But it is recorded that they were persecuted from city to city, beaten with stripes, and thrown into jail.

Aimee Semple McPherson does not know what the word persecution means, and many of our so-called church members do not know what the word abstinence means.

We have let Gene Tunney set a better example of abstinence before our children than we parents have set. If Gene Tunney finds that it pays to abstain from certain foods and drinks in order to build up a fine physique and thus defeat his opponent in the ring, would it not pay men in general to abstain from cigarettes and bad booze in order to build up a mentality strong enough to say "No" to the bootlegger and thus put him out of business?

I see in a recent news item that a certain tobacco king left an estate valued at millions of dollars. How much of an estate does the average smoker leave his family? The moderate smoker spends at least one dollar a week for tobacco in some form.

This means fifty-two dollars a year and in twenty years he has chewed or smoked up one thousand good dollars. If this amount had been put out at interest, it would have netted him several hundred more dollars. But having spent this amount in tobacco he has inherited a weak heart, a bad liver, and smokers' sore throat which calls for "just a little drink." This is not all, with a weakened mind and constitution he is not able to fight his opponent (the devil), therefore he falls a prey to other temptations. This is why we hear of so much crime in our land today. And crime is costing the nation a terrific price in dollars, broken hearts and homes.

Our young people, not seeing a better example of abstinence and thrift set by our leaders, have said, "If it is all right for them it is all right for us." There you have the secret to the utter disregard for the laws of God and man. Our girls see the elite of society and of church with bobbed hair and short skirts. "Then why," they reason, "should it be thought a crime if I bob my hair?" So we find our young girls spending their hard earned cash for

cosmetics, marcel, fine clothes and high heeled shoes in order to "look like a million dollars," but they only succeed in looking ridiculous. Yet I fail to see how we can remedy the situation in our land today when those who should set a better example, preach one thing and practice another.

The head of this nation has been preaching economy for years, and yet our nation is spending more money than ever.

The W. C. T. U. has been preaching temperance for years and still we are a very intemperate nation.

Celebrated preachers and evangelists go about the country preaching the gospel and they fail to live according to its teachings. They beseech their brethren to lay up treasures in heaven, but we notice that they have accumulated much money and real estate. How can we account for these worldly inclinations?

We cannot hope to influence other nations in prohibition when we are so intemperate. Neither can we influence others for good if we have broken God's laws and broken down the laws of the home, state and nation. Hypocrisy is quickly noted by our young people and they will not tolerate our advice if it smacks of deceit.

If we believe in prohibition let us practice abstinence.

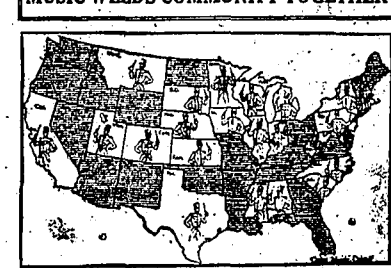

If we believe in thrift let us practice economy.

If we believe our nation is in danger of being undermined by false economic conditions let us cease our indulgence.

If we believe the Bible is the Word of God let us follow its teachings and not follow the teachings of men. Never let us forget that "Righteousness exalteth a nation, but sin is a reproach to any people."

MRS. E. W. SNOW.

MUSIC WEEDS COMMUNITY TOGETHER

"Must be a band concert here tonight." That's the conclusion to be reached in driving through a town where every street is lined with parked cars and streams of machines are pouring in from all directions. That's the flourishing situation brought to light by a survey made by the Conn Music Center in which the progressive states were found to be: Alabama, California, Colorado, Illinois, Indiana, Iowa, Kansas, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Texas, Utah, Vermont, West Virginia, Wisconsin. Similar legislation is pending in Arizona, Florida, Idaho, Kentucky and New Mexico.

# DAIRY TALK

## CORN AND OATS GOOD COW FEED

Current prices of feeds indicate that corn and oats should again be used as extensively as possible in mixing dairy rations. The fall, says C. H. Rhude, dairy extension specialist of the college of agriculture, University of Illinois. He points out, however, that corn and oats should not be furnished in quantities of protein unless the deficiency of protein is supplied by adding other feeds to the grain ration. Milk and butter production will fall off and the return will be lowered, he said. An adequate supply of protein, together with the rest of the ration, are the factors that should be considered by dairymen who are interested in producing efficiently.

At present prices, cottonseed meal is the cheapest source of protein, according to Rhude. With corn at 70 cents a bushel, choice cottonseed meal will furnish a pound of digestible protein for 5.5 cents. Oil meal will do the same thing for 0.1 cents and wheat bran will do the job for 0.5 cents. Of course, the dairymen who is growing and feeding liberal amounts of legume hay will not have to buy as much high protein concentrates as the dairymen who are using roughage crops.

One good grain mixture to feed when silage and legume hay are being fed as roughage can be made from 500 pounds of ground corn, 200 pounds of ground oats and 100 pounds of cottonseed meal. A second grain mixture that might be good to feed with silage and legume hay can be mixed up at the rate of 500 pounds of ground corn, 300 pounds of ground oats, and 100 pounds each of wheat bran and cottonseed meal.

When no legume hay is being fed, a good grain mixture to use is composed of 100 pounds each of ground corn and ground oats, 125 pounds of cottonseed meal, and 175 pounds of wheat bran. A second grain mixture that can be used when no legume hay is fed is composed of 100 pounds each of ground corn, wheat bran, and oil meal and 50 pounds of cottonseed meal. If there is no silage in either of these two rations, the cottonseed meal should be replaced with oil meal at the rate of 100 pounds of all meal for each 100 pounds of cottonseed meal.

When the roughage consists of legume only, a 200 pound mixture can be made of 200 pounds of ground corn, 300 pounds of ground oats and 100 pounds of oil meal or ground soy beans. A good grain mixture that makes a good one to feed when the roughage consists only of legumes can be made from 200 pounds of ground corn and 100 pounds of wheat bran.

These grain mixtures should be fed at the rate of 2 1/2 pounds for each gallon of milk produced daily. The amount should be increased to 3 1/2 pounds for Jerseys and Guernseys producing more than 25 pounds daily.

## HOSPITAL RULE FOR OPERATING ROOM CHANGES

The county commissioners in a session which began at 2 o'clock p. m. yesterday considered among other things, made a sweeping change in rules and fees for use of the operating room. Instead of a flat rate for the use of the operating room with or without use of the official anesthetic by the patient, where an anesthetic was administered, the board charged \$15 for the room without the use of the anesthetic and \$25 with the official anesthetic. The following is the text of the new rule:

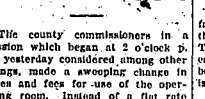

"On and after January 21, 1927, the following fees will be charged for the use of the operating room: For the operating room without the county anesthetic, \$15; for the operating room including the services of the county anesthetic, if available, \$25.

If those who are the owners of inpatient amusement and the directors of the world, they would take away the spring and youth, the former from this year, the latter from human life.

Unwise in Opposition

If those who are the owners of inpatient amusement and the directors of the world, they would take away the spring and youth, the former from this year, the latter from human life.

## Vanity Fairest

Eng. of Litigation

Nolle prosequi means the same as nolle prosequi. It is an entry made on the record, by which the prosecutor or plaintiff declares that he will abandon the further prosecution of the case. It is a voluntary withdrawal by the prosecuting attorney of present proceedings on a particular bill.

Metals Long Used

Gold probably was the first metal used for the purpose of the arbitrary value assigned to it. For its supposed magical qualities it formed a worldwide search for it and made it a potent factor in shaping the history of civilization. Copper and tin, also found in their respective states, may have been used by prehistoric man.

Empress's Unique Chair

At Langford castle, Wilt, England, in an archaic of solid steel, presented to the Empress Elizabeth II by the people of Australia in 1872. It is said to have taken thirty years to make, and to be valued at \$200,000. It is covered with historical and symbolic scenes, each said to be the work of a great master.

## Curious Book

There is a book belonging to the family of prince de Ligne of France that is neither written nor printed. The letters of the text are cut out of such folio upon the finest vellum, and being interwoven with blue paper, it is as easy to read as print.

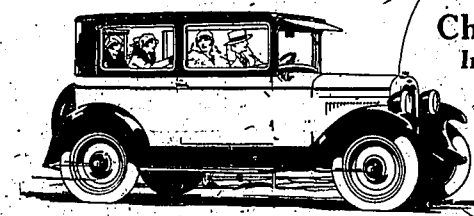

Tweedledum and Tweedledee

At the time he left, Poe was torn between hope and fear. He hoped that the clue was based on authentic information, but feared that it might be either an error or a mistake. —California Paper.

Dorothy Lasebuth is the prettiest coed in the University of South Dakota. At least, Cecil B. De Mille, movie director, says so. He picked her at the co-ed's annual contest. She lives in Parkston, S. D.

# The Greatest Sensation of America's Greatest Industry!

The Chevrolet Coach Improved in Quality.

yet reduced to \$595

f. o. b. Flint, Mich. Former price \$645

New and Marvelously Beautiful Fisher Bodies—a host of Mechanical Improvements—New Features found only on the costliest cars—plus an amazing reduction in price!

- New Low Prices:**
- The Coach - \$595 (Former price \$645)
  - The Coupe - \$625 (Former price \$645)
  - The Sedan - \$695 (Former price \$725)
  - The Landau - \$745 (Former price \$765)
  - The Touring Car - \$525 (Price includes Balloon tires and steel disc wheels. Former price \$535 with balloon tires only.)
  - The Roadster - \$525 (Price includes Balloon tires and steel disc wheels. Former price \$535 with balloon tires only.)
  - The Sport Cabriolet - \$715 (Newest model with rumble seat.)
  - 1-Ton Truck (Chassis Only) - \$495
  - 1 1/2-Ton Truck (Chassis Only) - \$395 (Balloon tires now standard on all models. All Prices F O B Flint, Mich.)

America has always expected great things from its greatest industry. But the announcement of the Most Beautiful Chevrolet has been the automotive sensation of all time!

Here is a car which in beauty, luxury, quality and modern design challenges the costliest creations of the day.

Here, in a price class where average standards have been the rule, is now offered a car so far beyond all expectation that comparisons cease to exist.

Seven superb models styled as low priced cars were never styled before and offering such prices of fine car distinction as: full crown one-piece fenders, bullet type lamps and "fish tail" rear deck modeling! New and supremely beautiful bodies by Fisher! And, above all, infinitely finer quality—the result of a host of additional improvements such as AC oil-filter, AC air cleaner, coincidental steering and ignition lock; larger 17 inch steering wheel, gasoline gauge and many, many others!

All this is combined to a supreme degree in the long famous leader of the Chevrolet line—the Coach. It would be a brilliant achievement for any manufacturer merely to design such a splendid car to sell at any reasonably low price. But to sell it at the amazing price of \$595 is a feat of history making proportions. This one price reduction alone would suffice to center worldwide attention on Chevrolet. But due to economies of tremendous production plus the vast resources of General Motors, Chevrolet also announces striking price reductions on other models.

For years Chevrolet has led the world in providing Quality at Low Cost. But now with a new and more beautiful car—with a car infinitely finer in quality and greatly lower in price, Chevrolet stands supreme and unchallenged in dollar-for-dollar value!

No matter in what price class you intend to buy or whether you plan to spend more or less than the price of a Chevrolet, come in today and see the most beautiful low priced Coach ever designed. Admire its marvelous style and grace! Mark its many new fine-car features! Learn for yourself by personal inspection why, at its new low price, it is the greatest sensation of America's greatest industry!

## Comfortable Stable Is First Step in Dairying

About one-half of a cow's feed is used for the production of heat and energy. When she has to roam about on a bleak hillside or in a cold, barren pasture, she loses more heat from her body than it she were protected by buildings or kept in a sanitary, well ventilated barn. Milk production cannot be expected to keep up no matter how good a cow is fed, unless she is also protected from the weather.

Any comfortable barn is one of the first steps to successful and profitable dairying. Water supply is one of the first essentials in maintaining the high level of production. Arrangements should be made so that the cows can drink frequently, and that the water will at least have been chilled taken off from it instead of being only slightly above the freezing temperature.

## Make Choicest Veal by Allowing Calf With Dam

Probably the choicest veal is made by allowing the calf to run with its dam. This is nature's way, but for the dairymen it is not practical and is absolutely not profitable. In fact the veal is not so good as that with the dam's best heeds where cattle can be kept on the range or other land that is not profitable till the dairymen must get more for the use of his cow than the growth of the calf. He cannot afford to allow the dam to suck the cow until it is fattened, because this method gets the new, fat, bad habits and she will not produce as much milk after the calf is fattened as she will if fattened during the beginning.

## Feeding Dry Cows

Feed the dry cows liberally. Grain fed to cows before freshening will return more profit than any other thing. Especially is this true if the cow is moderate in this feed. The Missouri station found a 30 per cent increase in the feeding two's milk flow with liberal feeding while dry. Dry cows should get about the same ration as milking cows until about a week before calving, when corn or heavy ration should be left out.

# FILER BOYS WIN FROM GOODING BUT GIRLS LOSE

Gooding Boys Put Up Real Fight for Filer Wildcats but Latter Win by 25 to 22 Score; Gooding Girls Defeat Filer, 40 to 20.

FILER, Jan. 22.—(Special to The Times)—Fight and real game the Filer high boys put on and the 25-22 score in the Gooding-Filer basketball game here last night; the same two qualities carried the Gooding girls to a 40-20 win over the fair Filerites.

From the tip-off the Gooding girls showed superior aggression, teamwork and shooting ability, and the outcome of the game was never in doubt. The boys' game on the other hand was anybody's until the final clang of the thirteenth song.

The visiting Jinks smashed through the first quarter leaving Filer in the dust, 8 to 0.

The Wildcats got going shortly after the opening of the second quarter and hooped. Their five-man defense also started working and they stopped Gooding time and again. The Smith held a long egg, and the score stood 8-4. Then two more Filer shots slipped through the hoop and the half ended 8-8.

Harrison, Filer guard, was forced out of the game from sickness. Gooding sank a free throw and field goal; then big Smith stepped up and hooped two baskets and the teams were neck and neck, Gooding 13; Filer 12. Golcocha, the visitors' star forward dropped two long ones and the third quarter ended 13-12.

Harrison won the credit of hooping the ball that put Filer in the lead for the first time in the game. Smith razzed up another rally, 18-21 in favor of Filer. A free throw gave the Wildcats another point.

Golcocha dashed out with two brilliant long shots in the score. With but a few seconds to play, Miller sank the winning basket for Filer; and a free throw was netted for good luck. Timekeeper Demman's song rang out, and the game was over, Gooding 22, Filer 25.

Smith with 9 points and Golcocha with 13 points were beyond question the stars. The Filer guards were particularly quick in breaking up the Gooding offense.

In the girls' game, Knyska started for the Filer girls, Gooding 16 points of the total 20. G. Boyer and Sanderson, Gooding forwards shared honors with 23 points each to their credit. A collision between the head of Filer and Sanderson of Gooding forced both girls from the game, but neither was seriously injured. W. E. Ritter, Filer referee, referred the boys' game; Harold Harvey of Buhl, the girls' game.

# The VAIR

### KNOW YOUR COWS, URGES DAIRYMAN

Co-operation in selling dairy products when properly developed and managed will add the dairy industry and with increase in the most important factor in successful enterprise.

"Efficient production is still within the control of the individual dairyman," says John A. Aray, dairy extension specialist at the North Carolina state college. "The factor is not dependent on group action. If all the dairymen knew exactly what it was costing them to produce milk, the danger of overproduction would be greatly reduced. There would be no surplus at any of our large milk markets if the unprofitable cows were slaughtered."

Mr. Aray states that the benefits of a cow-testing association in showing which cows are profitable and which are unprofitable cannot be overestimated. He states that a striking example of this was given in the case of a Virginia cow which was milking 20 cows and found that he was not making money. As a result of cow-testing work, the herd was divided into two groups of 18 cows each. The results of the testing showed that one group of 18 cows was returning a profit while the other 18 cows were not paying for the feed consumed.

A further study of the records showed that these 18 unprofitable cows produced 71500 pounds of milk for a city which already had an over-supply of market milk and the price of milk produced by the 18 profitable cows was thus depressed by the poor producers. The problem of the dairymen was then simple. Let the milk be known about it until the records made it clear, states Mr. Aray. The dairymen did not merely set up the more efficient method of milking but also to dispose of the 18 unprofitable cows.

Mr. Aray states that a large number of dairymen could get much more profit from their herds if they had accurate records such as are kept by cow-testing associations.

# Here are Two Callers!

...one, your "Local Merchant," comes in the evening—timely—catalogs a list of desirable offerings at attractive prices and offers immediate delivery, backed by his local organization of people; some of whom are, perhaps, your friends and neighbors who live next door.

...one, just a "bell ringing peddler," calls at all sorts of inopportune hours, brings only samples, glittering promises and a desire to separate you from the advance deposit—asking you to WAIT for delivery and not caring whether he ever sees you again, and usually don't.

CONSIDER your Local Merchant. His business is a part of your city's industrial fabric that makes your home and income possible. He is a local taxpayer, employing hundreds of other taxpayers. Your interests are his interests.

HE buys merchandise as cheaply as it is possible for it to be produced, and passes on to you the savings he obtains through sales volume, made possible by serving you satisfactorily over long years.

HIS merchandise is reliable. He constantly tells you so thru his "daily caller," his advertisement, and he is here, ready and willing at all times, to prove its reliability by making good any slight dissatisfaction you may have. But you rarely have dissatisfaction with his merchandise.

HE is a "Community Asset," offering a necessary service in merchandise distribution at the lowest possible cost. There can be NO EXCEPTION to this rule. Competition regulates it beyond the control of any individual or organization.

HE deserves all your patronage.

CONSIDER also the "bell ringing peddler." He is almost a Community parasite. His business would not even be possible except for the fact that, thru the years; your solid, local Merchant has won your confidence in all merchandising methods by never taking advantage of you. The "bell ringing peddler" trades wholly and absolutely upon your confidence.

THIS "peddler," who usually retains all of your initial deposit as his "commission," can, and does, make all sorts of extravagant promises about his merchandise, which "may" come up to his samples; will insist on the "great savings(?)" for you, knowing such savings are hardly possible after his "commission," plus the general agent's "rake-off," plus factory profit and cost of production are taken into consideration.

HIS only solid recommendation, as a rule, is his ability to "sell you" into believing all his claims are true. He doesn't have to make good on his promises and isn't available if you have trouble with his merchandise.

—as between your solid "Local Merchant" and the itinerant "bell ringing peddler," your choice, for your own protection, is obvious!

# CERTIFIED SEED BEANS ARE BEST

Dr. C. W. Hungerford of the University, Tells Farmers of Twin Falls. Producers; Large Attendance at Annual Meeting Today.

The value of seed certification, with the compliance with requisites necessary to secure the same has been amply demonstrated by Dr. Charles W. Hungerford, head of the department of plant pathology, of the University of Idaho, told the meeting of Twin Falls Bean Growers' association at the Parish hall this afternoon, in his talk on "Bean Diseases and Their Control."

Green House Test. "We grow beans from seed from various fields in Twin Falls county in a greenhouse," said Dr. Hungerford, "and in this way get a year ahead with our experiments over what we would be if we waited for the beans to grow in the fields the next year. The results of this year's experiments show strikingly the value of certification. All the beans raised from certified fields were fairly free from mosaic. In beans from uncertified fields the per centage of mosaic was heavy and in some cases 75 per cent.

Mosaic Main Illness. "Mosaic is the only serious disease attacking Idaho beans which is carried on seed. In this respect the latter has been a great advantage over eastern beans which have several diseases."

"So far as possible only certified seed should be planted; eventually, none other will be, and the necessity of a mosaic will be eliminated. Under the system of roguing and the carrying of infected plants from the fields, the best results can be secured."

Dr. Hungerford has charge of the bean inspection work on this tract, which has been directly managed by

### RECORDS FOR TWO YEARS BROKEN BY DROIP TO IT BELOW

Records for the past two years were broken here last night when the official thermometer registered 11 below zero. The highest point registered yesterday was 17 above when the wind made a temporary shift to the south. The atmosphere was clear this morning however and the cold though amount for this part of the country, resulted in little suffering.

Walter Pierce, formerly of Berger and now assistant plant pathologist at the University, and of County Agent H. E. Hammond and President H. T. Hicken of the Twin Falls County Bean Growers' association. This morning Dr. Hungerford visited the Ammated Sugar company plant in company with Professor H. W. Halgler, of the state department, who is conducting experiments with bean diseases.

Mayor E. L. Axtell presided, and George W. Wilcox was secretary. The cold weather prevented the calling of the meeting, probably at the stock-cultivation and planting were discussed by J. M. Pierce of Berger and early and late. H. C. Finkle of Clover. This last discussion went out many divergent ideas relative to the effect of different times of planting and the quantity of beans. Incidentally, it was brought out that on the Barrett farm on the Salmon, with but two irrigations, nearly 50 bushels per acre of red Mexican beans had been raised. It was suggested that under such circumstances growing of red Mexican beans might be profitable.

### Announcements

The Menor club will meet January 26 in I. O. O. F. hall, at which time the members of the same club will be guests. Mrs. Von Duess will speak on "Home Problems."

The music department of the Fourth County club will meet at the home of Mrs. C. H. North, 201 Seventh avenue north Monday evening, Jan. 23. The afternoon will be given with rehearsal and plans for the seasonal program to be presented at the February meeting of the general club.

The Women's Pan-Hellenic club will meet with Mrs. T. E. Williams, 211 Seventh avenue north Monday evening, Jan. 23. Miss Wilma Koel will be assistant hostess.

TIMES WANT ADS PAY.

Here is George Young, 17-year-old Toronto swimmer, who won the 25,000 Catalina Island swim. The picture is an excellent study of sturdy physique that enabled him to succeed where more than 30 other skilled swimmers failed.

### CARD OF THANKS

We take this opportunity to thank our friends and neighbors for their kind words and sympathy and for the beautiful flowers given us at the passing of our beloved mother and dear mother-in-law, Mrs. Jesse Withers. Marvin S. Withers, Mr. and Mrs. Roy Withers, Mr. and Mrs. Jesse Withers.
