**Auxiliary Entertains**—Following the regular meeting of the American Legion in the Elks hall Tuesday evening, the members of the American Legion auxiliary surprised them with a delightfully arranged party. Mrs. J. L. Hodkin, Mrs. P. H. Stowell and Mrs. M. A. Butler were instrumental for the cleverly arranged program. Miss Mary Anne Jones of New York City presented the Merry Willow waltz and Mrs. M. A. Butler was instrumental for playing the piano accompaniment. A. Wilton Peck, accompanied by Mrs. Peck, sang "Yuba," a song written by E. Berner and "Florida." Mrs. Patrick Wynne, president of the auxiliary, gave an address of welcome which contained a most interesting "American Boy." A clever fortune telling act, featuring take-offs on the leaders, proved especially amusing. Mrs. J. L. Hodkin assuming the role of Mrs. Alexander the Great. Later the evening refreshments were served by the committee with Mrs. Harry B. Hottel, Mrs. Wilton Peck and Mrs. R. K. Logan in charge.

**Literary Program Given**—The drama and literature department of the Twentieth Century club presented a play at the home of Mrs. B. L. Price on Ninth avenue north Wednesday afternoon. Mrs. J. D. Hilde was especially interesting in her play, "Poets of Today," talking on her authorities Monroe and Henderson and Gamble. Mrs. Ritchie developed the subject by contrasting the English poets of 1800 on with the American poets of the same time, and then comparing the modern English poets with English poets of the Victorian period. She discussed briefly Macaulay, Keats, Gilman, Walter L. Moore, Davis, Hardy and others. Reading the best part of selections which represented the style of each poet, and concluded her paper by summarizing the English poets as being more thorough, sincere and more works full of spirituality. Mrs. E. M. Wolfe gave a comprehensive and complete review of the January issue of the National Geographic. At the conclusion of the program Mrs. Price and Mrs. H. H. Atkinson served refreshments.

Tall decorated lanterns in green, placed in crystal holders, green and white archways from which fluttered large green lanterns reading, "Welcome," and green and white markings completed the decorations. At 7 o'clock Mrs. Katherine Kelley played a match and then the members escorted their husbands to dinner. Mrs. Carl Junset, club president, gave a toast to the husbands and then the president responded. The program included a poem, "National Alf," by Mrs. A. E. Henderson, a parody on the families present, sung by the women, people's chorus, two trampoline solos by Arthur Henderson; two vocal duets, "Where the Ivy Grows," "Round the Door" and "The Christmas Tree," by Mrs. A. E. Henderson; two piano selections, "Golden Twilight," and "Love's Re-echoes," Miss Laura Landrum; vocal solo "Play Me," by Mrs. A. E. Henderson; and "A Little Bit of Heaven," by Mrs. A. E. **MANY FILM APPEARANCES IN "BAD MEN"**

The opening of the Indian lands for settlement by the whites is the epic story of Fox Film production of "Bad Men," which is now playing at the Idaho theatre. It is a most interesting picture of one of the most rugged, heroic periods of American history, but it is also a gripping story of the struggle of two youthful lovers for love. George O'Brien plays the part of the hard riding young man, Dan Whalley and Olive Harder as the winsome but courageous young orphan, the "Bad Men" historically accurate portraits of the bad men of that period, are splendidly portrayed by J. Farrell MacDonald, Tom Santschi and Frank Campbell. The supporting cast includes one of the strongest assembled picture in movie time, including a dozen each well known film favorites. The picture is a most interesting story of the Indian, George Harris, Jay Hunt, who starred in "Lakota," Patsella Hunt, Ed Barton, Walter Perry, Grace Jordan, George Irving and Alice H. Abrams, star of "Thank You."

"Bad Men" is nine reels of thrilling action and with "Selling Mattie," at two reel comedy featuring Lloyd Hamilton as well as the Idaho Play-Grams under this real, interesting entertainment. This week will run through Saturday with special show for the "kiddies" Saturday morning at 10 o'clock.

## BAN JOHNSON GIVEN UNFAIR DEAL; OPINION

Die-Hard Partisans Insist That Club Owners Give American League Prexy Raw Deal; Charged That He Was Bribed With Retirement Salary of \$40,000.

By HENRY L. FAIRBELL.

NEW YORK, Jan. 26—While official baseball manifested restrained emotion over the settlement of the feud between Commissioner Tamm and Ban Johnson, president of the American League, there has arisen a feeling minor as it may be, that Johnson got an unfair deal.

Die-hard partisans insist that the club owners of a league that has prospered and grown through the past 27 years of his life, in keeping alive and developing it to a prosperity over the older National League, threw him down and bribed him with a \$40,000 a year salary to take a vacation and stay out of baseball.

It was generally admitted that Johnson today is physically unfit to administer the business affairs of a corporation worth millions of dollars.

There are those, however, who believe the happiness of American League politics since 1913—and perhaps before that—might be justified in thinking it was unwise to throw out a sick and doddering old man.

But as "Tanuany" Young, the famous gate crasher, Broadway sage, and baseball fan puts it:

"Say, when I'd enough to get fired from my racket and they fire me for the rest of my days at forty grand a year, I want to be fired. I'd do any little minute for that much dough."

There is no doubt that Johnson is a subject of sympathy. The finish of his career was not a disgraceful one but the men who brought about the finish of his career did not act with the vigilance that characterized the finish of Johnson's and utterances in recent years.

After what has happened, and what no one would wish to happen, the commissioner-restores the fair names of Ty Cobb and Tris Speaker. It probably will be a fair verdict that Johnson got a much better deal from club owners than Johnson gave to Cobb and Speaker.

## TWIN FALLS WINS FROM SHOSHONE AND HOLLISTER

Hollister Defeated by Cubs in One Sided Game But Shoshone Puts Up Real Battle for Bruins; Hollister Makes 8 Points and Cubs 32; Bruins 35, Shoshone 26.

The Twin Falls arena came through last night with two victories in the double-header played against the Hollister and Shoshone. The final count in the game with Shoshone was 35 to 26. For the Hollister game which was played entirely by the Bruin crowd, the score was 32 to 8.

The Shoshone game was fast and exciting and close enough to keep the Bruin faithful throughout. Twin Falls took an early lead which they maintained but which was always within striking distance until the closing minutes of the game. However, the Bruin players showed their superiority in both floor work and in basket shooting.

Elvin Kelly was probably the star of the Bruin team, and he was the floor was excellent and besides this he was responsible for most of the Bruin's count. Captain Bertsch played a very good game and accounted for a good good try for the basket. His floor work at times, however, seemed a little under par. Hollister played a fast game and was successful in making several points, but was put out of the game in the last half on personal fouls. Wardle at center played a snappy game but was almost at a loss in receiving the ball. Nelson, at standing guard, played his position well. Several substitutes were used, all of whom did good work.

For Shoshone all of the six men used did good work, but Harris, who engaged most of the centers and forwards, who played a good game at guard, were the stars.

Hollister game was another affair. The Hollister players substituted and outplayed in all departments of the game. But even so, their floor work was vastly superior to their basket shooting.

The score at the half was 21 to 0, and at the end of the game 32 to 8, but their inability to hit the hoop after they had the ball worked down their score for the rest of the game. The inexperience of both Hollister and the Bruin Cuba led to a great deal of roughness, which added to the excitement for the spectators, but which also accounted for many personal fouls on both sides.

For the Bruin Cubs, Pete Taylor, Art Kelley and Tim Robertson were the shining lights. Pete's floor work and basket shooting were both very satisfactory. Kelley had his "hat-trick" eyes and made most of the Bruin's points. Robertson's floor work and play in general was good. Mullins, who made most of the centers for Hollister and Hollister; center and the best work for the Hollister team.

The Line-ups.—TWIN FALLS: Murphy, Light Forward; E. Kelly, Center; Bertsch, Left Forward; Wardle, Right Center; Martin, Right Guard; Nelson, Left Guard.

Substitutions.—Shoshone: Mills for Jordan; Twin Falls: Batelle for Wardle; Bible for Martin; Wurdell, Miller, Robertson for Wardle, and Haynes for Batelle.

HOLLISTER.—TWIN FALLS: Lowe, Light Forward; Haynes, Right Forward; Thayer, Left Forward; A. Kelly, Center; Robertson, Right Guard.

Substitutions.—Hollister: Butler for A. Kelly; Putzier for Beza; Robertsch, Robertson for Wardle, and Haynes for Batelle.

Referee—Bitter (both games).

SPEEDING UP IDAHO COURTS

Dispatches from Boise state that a bill is now before the legislature, the purpose of which is to simplify and expedite appeals in criminal cases. That the supreme court of Idaho is behind the matter. This is a highly proper move. There should be similar steps taken in regard to appeals in civil cases for the supreme court is several years behind in its work. It is understood that the Chief Justice, William E. Lee, is rotating judges on the supreme bench and is, in cooperation with other judges of the supreme court, insisting that when a district judge assists in the hearing of a case, he shall remain in Boise until he writes an opinion in the case heard. This should expedite business.

It would seem that the judges of the supreme court as well as the district courts have been remiss in a duty imposed upon them by the constitution of the State of Idaho, which provision is as follows:

"The judges of the district courts shall, on or before the first day of July in each year, report in writing to the justices of the supreme court, such defects or omissions in the laws as their knowledge and experience may suggest, and the justices of the supreme court shall, on or before the first day of December of each year, report in writing to the governor, to be by him transmitted to the legislature, together with his message, such defects and omissions in the constitution and laws as they may find to exist."

We are informed, that a short time ago, the clerk of the United States district court at Boise, in making his official report to the department of justice at Washington, D. C., reported that Judge Dietrich had decided over one thousand cases in one year.

It must be remembered that in deciding such a large number of cases in a year, that Judge Dietrich was called to preside in other cases during the year, in New York City, San Francisco, Portland and Seattle, and that in Idaho, he had to hold court in Boise, Pocatello and two places in northern Idaho. What showing can district judges in Idaho make in comparison with the showing of this Federal judge? No wonder he was recognized by the bar of Idaho by a magnificent banquet and highly complimentary speeches. No wonder he was such an outstanding figure for promotion to the United States circuit court of appeals, and is talked of as a judge for the supreme court of the United States.

If state judges would carry out the mandates of the constitution as above set forth, court business could be greatly expedited in the State of Idaho.—Contributed by a Citizen who favors speedy justice.

MANY REGIMENTS HAVE THEIR SONGS

Music Helpful in Keeping Up Morale. Washington.—The American soldier in a foreign war, on the march, in the trenches or camp, or even going into action, he takes his voice—methodical harmony with his comrades in the routine of popular life, according to the United States Army Band. Music is an important factor in keeping up the morale of a combat organization. Regular song leaders are used in training camps and soldiers are encouraged to lend their voices to songs.

Have Own Songs. Many regiments in the present-day army have songs and ballads peculiar to their own, and which are known as their regimental songs. Some of these were written especially or adapted by the regimental band for state occasions. These regiments have distinctive ballads set to the tune of "The Girl I Left Behind Me," "Sempar Edeleu," and "Amie Lantele." One regiment, the Forty-seventh, made up for its march "Eos de Bocheque," a song which illustrates its origin. Another, using the old Italian march for its theme.

Two organizations, the Thirty-fourth Infantry and the Eleventh Infantry, use a march called "Le Regiment de Sambre et Meuse." In commemoration of their having fought along those same lines in the World war, one regiment, the Forty-seventh, has adopted a march of Spanish origin called "The Girl I Left Behind Me." Another regiment used the tune of the French "Sambre et Meuse."

Among the many regimental marches are several special marches. The Seventh Infantry, for instance, which has adopted "The Girl I Left Behind Me" first heard this tune played by British bands during the battle of Orleans in 1815. When the line of the Seventh (then a rifle and drum corps) caught the air, they played it, and the tune of the march was adopted as the regimental march of the Seventh Infantry. The Seventh was the first regular army regiment to march in the World war.

Truth Is Mighty. Truth is a very deadly thing, at least when it confronts the devil, but in a place where he cannot creep, if he tries the air instead of the sea, the waters and fascinating little stories which are social in their nature, and very bursts into flame and perishes at once with a flash of truth.—Dr. Lynn Vaughn.

Ducks Live in Chimney. At Marlboro, N. H., a flock of ducks have a nest in a chimney. One morning after a heavy rain the evening before, the ducks were rescued from the fire. The seven, which were rescued, were found to be very fat and plump. They were rescued from the chimney.

Legend of "Garry Owen." "Garry Owen," the stirring regimental march of the Seventh United States Cavalry, has a historic legend connected with its inception. In 1863 the troops of the Seventh were engaged with hostile Indians at Wounded Knee, in the state of Wyoming. A black man to be made at dawn, Chief Black Kettle's (Cheyenne) Indian chief, sent a signal for the concerted rush of the cavalry was necessary. "Garry Owen" was played for the first time upon that occasion and the blood-curdling air of that march carried the cavalry into the ensuing action against the savage redskins. An interesting historical episode in connection with this march is that it is known to have been General Custer's favorite song and tune. At 5 a. m. on May 17, 1876, during the final battle and review of the Seventh cavalry at Fort Lincoln, the regimental band played this air. This was the march which General Terry left the march with the resident on the expedition to the Little Big Horn which was

Progress Made in Live Stock

Reports Show Steady Increase in Number of Owners Using Pure Breeds.

Prepared by the United States Department of Agriculture. On October 1 the "Better-Stock-Better-Stock" campaign, fostered by the Bureau of Animal Industry, United States Department of Agriculture, in cooperation with various states, reached the beginning of its eighth year. Improvement of live stock in the United States, and of stock owners and their organizations are invited to cooperate. Reports of live stock owners during the period have shown a steady increase in the number of owners agreeing to use pure-bred stock for all classes of animals. There has been also a wide demand for publications, posters, lantern slides, and other information showing the benefits of well-bred and pure-bred stock.

Outstanding Results of the Work. Among the results of public interest thus far have been: The distribution of nearly half a million copies of "Farmers' Bulletin 1119," "Benefits of Animal Industry," prepared early in the progress of the campaign. The participation of an increasing number of live stock owners, since October 1, numbered 16,193 persons, each of whom had written declarations to use pure-bred stock exclusively.

Elimination of Worms From the Herd of Hogs. The Los County (Ill.) farm bureau is strongly urging attention to the elimination of worms from the herd. This is a very important matter, with a dependable verminicide, the safest and best of which is the drug, Santal. This drug not only kills worms but acts as an intestinal antiseptic, and in any case of irritation, it has a soothing effect rather than causing additional trouble. Santal is not a mistake to assume that the only time to treat for worms is in young pigs. It is highly advisable to treat for worms in advance of farrowing time. If the brood sow is infested with worms, it is almost impossible for the piglets to escape worm infestation. Santal is entirely safe for such use, which is not true of some various substitute worm treatments now being offered.

BOY OF 8 IS NEAR-SAVANT IN KNOWLEDGE OF STARS

Here is William Gannaway Brownlow, eight-year-old astronomer, at his six-foot telescope, which has a lens four and a half inches in diameter. At the upper right the huge size of the star Betelgeuse is illustrated. Below, a map of the heavens showing stars to which young Brownlow's article refers.

Youth is affluence with knowledge—knowledge such as only mature students and select professors ordinarily have—in the case of 8-year-old William Gannaway Brownlow 11, of Knoxville, Tenn.

At the top point of the diamond, much higher up and to the south, is Aldebaran, the red eye of the bull. The other two corners of the diamond are in the constellation Orion. The upper one is Betelgeuse, which is an addition unless through and no perspective—they are so close together.

His sword. In the sword is the great nebula of Orion—a glowing gas which even a strong field vision will show only as a small patch of light. In this nebula is Theta, a quadruple star, which every body knows. Higher up in the coat, above Sirius, is the first magnitude star Procyon. In the "Little Dog," which will be the twins Castor and Pollux, and overhead is Capella.

State Activity in Forestry Movement Urged for Main Progress in Timber Growing

(Prepared by the United States Department of Agriculture) State rather than federal activity in forest conservation must be looked for as the main progress in timber growing from now on, W. B. Greeley, chief of the forest service, United States Department of Agriculture, told the meeting of state foresters here today at Washington to confer on federal cooperation in forestry. The federal forestry force good many years to come, according to the chief forester, was completed with the enactment of the Clark-McNary law in 1924, providing for financial cooperation in forest management between the federal government, the states and private land owners, and the chief development henceforth should be in the forestry activities of states, local institutions and individuals.

FARM NOTES

Every child in America should have a quart of milk a day and every adult at least a pint. Experiments have shown that the highest production of milk is made early. The yield, however, is vigorous and has good size, too. Artificial light will illuminate the reproduction of normal mice. It makes little difference to which end of the natural day it is added. Leading hens in the farm flock eat the profits the busy babies make. Good poultrymen keep them just long enough to consign them to a butcher. The oats as a nurse crop for sweet clover rather than barley. In either case the nurse crop should be seeded at about one-half the normal rate of sowing. Clover and alfalfa have about the same effect in building up the soil. Both are good. Clover is most generally used for that purpose, because it is cheaper and in many places is easier to get a stand of clover. Too Much Taste Spiritually, no less than physically, we tend to be in too great a hurry, and are too fond of comfort, comfortable "crans." We are impatient of inconvenience and delay in reaching the goal of our material ambitions—yet, and too often fail in the attainment.—Exchange.

serves to direct your attention to entertaining elements that make the world brighter through wit and humor—in the newspapers and the magazines, on the stage and on the movie screen.

If you are not already familiar with the comics and other humorous features in this newspaper, turn to them today. You'll soon appreciate why every month is "Laugh Month" for "Bringing Up Father" and our other select comic elements.

Incidentally, "Laugh Months" with "Jiggs" and "Maggie" are international, for those famous characters are as familiar in certain quarters of South America, Cuba, Europe and the Orient as they are to our own readers.

# POTATO MEN VOTE TO HAVE ORGANIZATION

Gathering in Parish Hall Tuesday Afternoon Blessed Situation With Commissioner Welch Who Expresses Himself As Willing to Abide by Wishes of Majority of Dealers and Growers.

Although those delegates of Sunday indicated a determination on the part of John S. Welch, new commissioner of agriculture, to stand by the grades established and advertised by his predecessor, A. W. B. Klamm, the commissioner yesterday in his conference here showed a more conciliatory attitude and determination was expressed to promulgate grades satisfactory to a majority of growers and dealers for the marketing of the 1927 crop. He stated, however, that Idaho Falls growers are strongly in favor of the perpetuation of the Klamm regulations. It was voted to organize permanently.

The 200 growers attending the meeting in the Parish Hall, Friday, expressed gratification at the manner Commissioner Welch met their proposition. It was determined to organize permanently and no motion carried through unanimously. The chairman, A. L. Hamilton, appointed a committee consisting of J. F. Jral of Blaine; E. C. Davis of Castledale; H. J. Weaver of Piler and Joe Marshall and W. A. McDonald of Twin Falls.

Twin Falls growers objected principally to the abolishment of the intermediate grade by the Klamm resolutions, which they claimed was satisfactory both to grower and consumer and saved much unnecessary and costly labor for the spinster.

## Solution of Chinese

Let it be emphasized once more that it is a wholly non-partisan statement. Nationalism has gone completely beyond any state group, though the Nationalist government is at present dominated by the only real political party in China today—the Kuomintang, or People's Party. Indeed, proponents of the Nationalist movement see in the very universality by its greatest danger, that it will become so diluted as to be unmanageable.

Certainly the continued success of the

# 3 BAD MEN

THRILLS!!

In this compelling story of conflict between men in the frantic land rush of 1877, there is keen love interest as well as strong dramatic action. All the exciting scenes are interwoven with daring stunts, of horsemanship—thrilling stage coach drives—realistic fights and as a foil, there is the spectacle of three of the wildest bad men being tamed by the innocence of a defenseless girl. "3 Bad Men" fairly bristles with action.

Based on Herman Whitaker's novel "OVER THE BORDER"—The romance of a girl in the land of promise—Civilization marches West—Homesteaders in search of gold, liberty and happiness—Cast of 25,000 men

GEORGE OBRIEN—OLIVE BORDEN  
J. FARRELL McDONALD—TOM SANTSCHI—FRANK CAMPEAU  
LOU TELLEGEN—ALEX FRANCIS—TRICILLA BONNER and the PRAIRIE BEAUTIES

## A World-Wide "Nervous System"

THE nerves of the body are like telegraph wires. The nerves of the world ARE telegraph wires. Pain in foot or finger is instantly telegraphed to the brain.

A disaster on the other side of the world is as quickly telegraphed to this newspaper office.

Abd-El-Krim surrenders to the French . . . . . a broken dam floods a town in Japan . . . . . Pilsudski strives for control in Poland . . . . . the Arms parley ends at Geneva . . . . . the Renault strike ends in Paris . . . . . these and many other messages travel on the "nervous system" of the UNITED PRESS—speeding to the editorial rooms of this newspaper for your reading today.

This is a UNITED PRESS newspaper enjoying all of the service and facilities of one of the greatest news-gathering organizations in the world today.

Look for the line "BY UNITED PRESS" over the news items from other cities. News "BY UNITED PRESS" is authoritative, reliable, dependable.

It is as easy to remember UNITED PRESS as it is to remember HARRY STAR. If you want to read your newspaper with confidence and enjoyment, UNITED is a word worth remembering.

DAILY MARKET REPORTS
CHICAGO CLOSING GRAIN REVIEW
Canadian Wheat Yield is Reported Similar to Last Year but Cash Price Rallies at Close.
CHICAGO, Jan. 26.—Although bulls were discouraged by the final Chicago wheat estimate which showed about the same yield the previous preliminary estimate and by lower foreign cables, early buying of 3 1/2 million bushels of quiet absorption by export houses and the close was fractionally higher than yesterday. The cash market was 5/8c to 1c higher with offerings well taken. The cash market was steady.
OATS followed other grades in a small advance with trade light and without much feature. The cash market remained unchanged.
Provisions were irregular with a slightly easier tone.

TRIGUIERO MENTALLY WEAK, CLAIM

Endeavor is Made by Administrator and Heirs to Show That Sheepman Was Not at Himself in Mind and Body When He Gave Property to Serrant.

Effort to show that at the time he signed the deed, transfer and bill of sale for property valued at \$150,000 to Marico Guerechero, shortly before death, Frank Triguero was mentally and physically unable to make the transfer...

Regarding Signature. The defendant was called on the stand by attorneys for the plaintiff and testified that Triguero had signed the documents himself.

When the case was called on on Tuesday, Rev. Jean was the minister and farmer, was the first witness. He knew Triguero seven years, and thought at the time that the man had some evidence of weakening and that his memory was failing.

Three of the relatives of Frank Triguero are here: Joseph Triguero, a brother of San Jose, Calif.; Anthon Triguero, brother of San Jose, Calif.; and Frank H. Courant, nephew of Berkeley, Calif., to attend the trial.
