Etiquette Constant Problem

Proper manners are set by the leaders of every age in history, and yet "high society" is hardly less guilty than the lower social orders at times. The situation became so bad during the reign of Louis XIV in France, who had poor eating manners, that books of instruction were issued then to none. At one time the fork was held "inverted."

Man-Made Windstorm

An experiment showed 700 miles an hour, used by the bureau of standards for testing airplane propellers, demonstrates that the vital metal propellers now being used are more efficient at high speeds than wooden propellers. Just another step toward that 2000-mile-an-hour transit we are coming to—E. H. Jones.

Locked Exercise

"Now," said the woman, after he had climbed the flights of stairs, doors, and windows, he is just out and fed the horses, walked to blocks, hoed the garden, mowed the lawn and changed two cows with the kids. "In getting taken by reduced exercise."—American Legion Monthly.

The Sensation of Winter MOTOR FUELS—

NEVER before have the motorists of this city had a winter motor fuel which could compare with High Test Conoco Ethyl Gasoline. It is the great contribution of automotive science to grief-proof winter driving. It insures a twelve month motoring season in any climate! And all at such a slight cost—just 4c more per gallon than regular Conoco gasoline. If you have not yet used High-Test-Conoco Ethyl, you have a pleasant surprise in store. Imagine this: On the coldest winter day your engine starts at the touch of the starter and it will keep you going for miles and miles of knockless driving!

Nor is that all. High Test Conoco Ethyl Gasoline delivers that smooth even power that you always want—no matter how full of carbon the engine may be. In fact, this perfect motor fuel makes carbon work for you. It turns it into power!

High Test Conoco Ethyl is the development of the most up-to-date refinery practices plus seven years of research in the great laboratories of General Motors. It gives by far the greatest possible satisfaction for winter driving—on every count. So pull up to the Conoco sign—and get a flying start to knockless miles of motoring delight.

NURSE SAYS TRIGUEIRO WAS SANE

Mrs. Maguire Files of Statements Made by Father in Handling Documents to Servant After He Had Affixed His Signature.

The defense in the Trigueiro-Geertzchabarris case continued its fight today in the district court with Mrs. R. Maguire, former nurse at the twenty-month lunacy of the late Francisco Trigueiro, defendant in the estate of Mauricio Geertzchabarris.

Mr. Sherry held the stand until a few minutes before noon today. Cross examination failed to shake him in the main points of his testimony.

The seven documents that transferred the transfer of Frank Trigueiro's estate to Mauricio Geertzchabarris were drawn up by Mr. Sherry, who was present when the papers were signed, signed and delivered to the defendant.

Caves of Elephants. Not far from Bunkley, Ind., are the famous caves of Elephants. Elephants in a blind hole hold as a sacred place by elephants. The cave was given by the Portuguese from a colossal sculpture of an elephant. A series of subterranean tunnels are hewn right out of the solid rock. Columns of the natural rock are left standing to support the roof, says the Cleveland Daily Leader.

Crops and Weeds. Generally speaking, the larger the truss the fewer the weeds present. This is especially true with small grain and hay. Short good stands of these crops will tend to smother out weeds. Furthermore, pastures that are given good care by top-dressing with fertilizers free from weed seeds and by close but not destructive grazing always contain fewer weeds and more grass than those poorly managed.

Begin With Petty Larceny. A survey of the inmates of many penitentiaries made by an official of a juvenile court showed that petty larceny was the outstanding first offense of the prisoners examined.

But Now! One of the oldest inhabitants of the town who has lived here 75 years, passed away at the home of his son, Edward Herbst. She is survived also by another son, William Herbst, who has a daughter, Mrs. Elsie Rambo, of this city.

Noxious Weed Bill Is Endorsed by the Bean Grower Ass'n

To help pass the "noxious weed bill," H. C. Rolake of Clover was appointed a delegate from the Southern Idaho Bean Grower association on a commission composed of members of various farm organizations who will go to Idaho shortly. Mr. Rolake was appointed at the meeting of the S. I. B. G. association held at the local offices Thursday afternoon, and J. H. Glendon of Twin Falls was elected to succeed H. C. Rolake, chairman of this city, no president of the board of directors.

"War on weeds—in the last attack" was the substance of the resolution to be recommended to the state legislature. The state commissioner of agriculture and other state officials will supervise eradication of noxious weeds if the recommendations of the local association and other farm groups are passed by the legislature. The State Grange, in annual convention here last week, passed similar recommendations.

The Thursday Southern Idaho Bean Growers' association meeting followed the six annual convention of the organization held here last Saturday, at which time three directors were elected and Carl Trivett was elected to succeed Mr. Glendon as vice president. W. Brown was re-elected secretary and treasurer. The appointive office now held by H. C. Rolake was not taken under consideration at this time.

Longer Righteousness. In doing good we are generally cold and laze, and sluggish; and of all things afraid of being too much in the right. But the works of mercy and justice are quite in another style. They are mingled with a bold, unflinching band—namely, virtue.
