

RADIO BOARD TO BE NAMED BY GOOLIDGE

President Must Appoint a Commission of Five Men to Regulate Broadcasting, Salary \$10,000 Per Year for Each.

WASHINGTON, Feb. 18.—President Coolidge now faces the task of selecting five men to rule the radio waves. The Dill-White bill setting up a five-man commission for the regulation of all phases of broadcasting went to the White House today after final approval yesterday by the senate. The president is expected to sign it will be lodged in this commission. For the first year, all authority which among other problems, must be worked out some of the important stations now mixing up grand opera, jazz and lectures.

The secretary of commerce will have administrative authority. After the first year, general jurisdiction will pass to him with the commission. Nothing to be done until the power to pass on all appeals from the secretary.

Members of the commission, appointed for one year by the president with the senate's consent, will get \$10,000 each for the first year. After that they will be paid when they work 320 a day and expenses.

Ross Evangelist Trio Opens Meetings in Burley Tomorrow

BURLEY, Feb. 18.—Sunday will begin a series of meetings with the Ross Evangelical company that promises to be not only the most interesting but also the most successful of any similar meeting ever held in the Christian church of Burley.

The meetings were planned several months ago when Rev. Lohell began his pastorate with the Christian church here, and the company was organized then at these meetings. From that day the work under the direction of Rev. Lohell has been carried on with perfect efficiency to prepare the church for these special services.

The Rosses are known throughout California and the north-west as the most successful and eloquent of any of the evangelists of any of the churches in this territory.

Rev. Ross and Rev. Lohell are graduates of the same college and yet they are as unlike in their preaching as it is possible for two preachers to be.

The Ross Evangelical Trio held a splendid meeting in Twin Falls last fall and from there went to Rupert.

Seven Men Locked in Vault by Bandits

CLEVELAND, O., Feb. 18.—Seven men, estimated for an hour in the vault of the State Bank company here by four bandits, were rescued by a fire department today. The bandits escaped with more than \$1,000 after locking the entire office force in the vault.

OREGON COUPLE HELD FOR BANK OFFICIALS

BIRMINGHAM, Ala., Feb. 18.—Held on a fugitive warrant from Eugene, Ore., a man and woman given their names as Mr. and Mrs. H. Bradley were being detained at police headquarters here today.

Officers charged that Bradley is Henry Berkman, president of the Central Bank of Eugene, Ore., and that Mrs. Bradley is Miss Harriet Weather, cashier.

MURDER WIFE AND BARE

PORTLAND, Ore., Feb. 18.—Estranged because his wife insisted that he contribute something toward her support, Henry James, 26, murdered his wife and month old baby and then committed suicide here, this morning. The tragedy occurred in a private sanitarium where Mrs. James was employed. Shots were heard by Mrs. Vina Harrison, a patient.

Lake Vessel Sinks at Pier; Pilgrims Go Mad; One Dies

COMO, Italy, Feb. 18.—Seven hundred religious pilgrims aboard the Lake Vessel Tonia scrambled for safety when the vessel sank beneath them at the pier. One woman, injured in the panic, died in a hospital and it was feared that many more will have been other victims.

PENSION BILL PASSES HOUSE TEACHERS BILL

MASSACHUSETTS, Feb. 18.—The House today passed the pension bill for the teachers of the state. The bill provides for the payment of a pension to teachers who have served in the state for a certain number of years. The bill also provides for the payment of a pension to teachers who have served in the state for a certain number of years.

CHINESE LABOR STRIKES WHEN BRITISH ENTER OF NEW YORK

SHANGHAI, Feb. 18.—British strikers today occupied positions in the rural districts of the city and Chinese labor proclaimed a general strike as a protest against the landing here of British troops and in celebration of the triumph of the Chinese nationalists in Chekiang.

Martial Law Prevails Throughout Shanghai Today; General Strike Proclaimed; Japan Lands 300 Marines Today.

Entertainment—Birthdays—The entertainment of a number of his girl and boy friends at his home, 745 Second avenue north, Friday evening in celebration of his birthday. Dinner served at 6 o'clock. The guests being seated at one large and three small tables. A banquet of carousels centered the large table and three smaller tables. The patriotic color scheme, red, white and blue, was evidenced in the napkins and the place cards. Following dinner games and contests were enjoyed until 8 o'clock, and the host entertained his guests the remainder of the evening at the theatre.

Current Events Luncheon—The current events department of the Twentieth Century club entertained with the annual luncheon Friday in the private dining room of the Robertson hotel. The luncheon table was centered with a beautiful bouquet of roses and carnations, and the nut case and other appointments were also favored the pink color note. Mrs. H. C. McGuire sang two vocal selections and Mrs. A. Gilbert played several piano numbers. Rotation of an "leader" in the life of Washington or Lincoln was given by each one present. A note of sympathy and a gift were sent to Mrs. Kennedy Packard, who was for years the department chairman, and who was unable to attend on account of illness. The flowers from the table were sent to Mrs. M. J. Snowley, an active member of the department, who is critically ill. Mrs. Mary V. Norton presided over the luncheon.

Smart Bag

Nailhead trimming on bands of blue. Hand applied on black calf make a smart evening bag.

Entertain War Mothers—Twin Falls chapter of American War Mothers were entertained at the home of Mrs. L. Friedman Friday afternoon, with Mrs. Max Hink, Mrs. Walter and Mrs. Patrick Ryan as hosts. Mrs. A. S. Martyn presided over the usual luncheon session. The remainder of the afternoon was spent socially. At five o'clock the hostesses served a delicious luncheon to the 24 members and guests, Mrs. Wood and Mrs. Slack.

Losses in Hi-Lo Bridge Club—Mrs. Roy Gardner was hostess to the members of the Hi-Lo bridge club Friday afternoon at her home on Third avenue north. Mrs. F. C. Dawson and Mrs. B. W. Mangel were guests of the club. Mrs. T. J. Foster won the high score award. At the conclusion of the games the hostess served a delicious luncheon.

Valentine Dance Party—One of the most attractive juvenile parties of the week was given at the Hi-Lo bridge home on Sixth avenue east when Lenora Diebolt and Laetitia and Lenora Strifens were hostesses to thirty-two of their boy and girl friends. The earlier hours were spent with amusing games and contests. A buffet supper was served and the remainder of the evening was spent in dancing.

Marl Gras Committee—Committee for the 25th of Marl Gras to be given at the Hi-Lo bridge home has been appointed and are now actively engaged in completing arrangements for this affair. Committee chairman are Leonard Axon, hall and music; Gertrude Owens, decorations; Angel Rockwith, entertainment; H. J. Junn, promotion and J. F. Rich, publicity. Band—Rainbow orchestra.

China Cement.
Take dissolved saw marble and still in enough plaster of paris to make a soft paste. This is almost colorless and sets excellently as cement for floors. In preparing very delicate china or porcelain, fit the pieces carefully in place with tape. It is then put in a suspension of milk and the latter is very gradually brought to boiling point. Remove the suspension from the fire but leave the china in it for about six minutes. Lift out carefully and place on a shelf to dry.

The Golden Age Fallacy
Why may not even a foolish idealist realize that there is no golden age in the future? The race will always be the same. It is not necessary to build a little in some things and possibly lose in some others. I think it possible greater individuals will develop, but, so far as the masses are concerned, we will never have a greater age than the present.—E. W. Howe's Monthly.

A New Affliction.
"Jack," said a friend of a patrolman who had just turned in a report about a man fallen ill on the street, "what did you say was the matter with that man in some reports," reported," said the patrolman, with all the dignity of an orthodox diagnostician, "he had had a fall down in an athletic hall."

Small Railroad Cars
The smallest type of railway car is probably the push car. It is made with two pairs of wheels and a slight track, and is used by track workers. Next comes the hand car. It is worked with a hand lever and can be operated at average speed by a few men. An interesting car taking a gasoline engine for working the lever is a new form of hand car.

Values.
The man who values his life asser much, who pursues athletics and thinks about the quality of the fat, eats contained in his body, does not risk his health. Nature will also play the trick of causing a big man to lose his great strength by employing it with an excessive habit of self-protection.

FIGURE IT OUT FOR YOURSELF. THE actual cost FOR soap—AND washing powder—AND fuel—AND the backache—AND the doctor—TO treat it—FIGURE IT OUT—AND see IF it doesn't total WELL over A dollar or two A week.

Second Thoughts — By Taylor

— I BOUGHT ANY A TOY AUTOMOBILE AND CHECK A REAL ONE — BUT I PAID CASH FOR THAT OUT OF MONEY I HAD IN THE BANK.

GREAT HONK — IT MAKES ME DIZZY WHEN I THINK OF THE BILLS THAT ARE WAITING TO BE PAID LET'S SEE NOW — I BOUGHT MOM A FOUR COAT — THANK HEAVENS I MADE A PAYMENT ON THAT.

BUT I WISH I HAD THE MONEY.

AND I'M GLAD DEE TON OR ELSE THE CHECKS WOULD BE TAKING IT BACK FOR NON PAYMENT CHECK GETS A LOT OF FUN OUT OF HIS COAT AND HIS CONVICTION TO KNOW HE CAN KEEP IT.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by The Times Publishing Company, Twin Falls, Idaho.
I. H. MASTERS, Editor and Publisher.

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1916.

COMMERCIALIZING VULGARITY

Nearly every news-stand in the country carries a load of magazines, the purpose of which is to play upon the human emotions of lust, curiosity, malice, and egotism, in order to share in the profits of large-scale circulation. That is what these confession magazines, "health" magazines, psychological magazines, erotic, neurotic, and plain rotten magazines prevailing do. They strike under the level of public taste in the well-founded hope of successful exploitation. There has always been plenty of tinder in every society awaiting the spark. Sparks will fly and fires will kindle, but the present wholesale debauchery of human interest by print is the most remarkable commercialization of the vice and vulgarity in modern times. One must go back to the pandering of late Roman days to find anything like it. Nor is the insistent urge of sex appeal its worst feature. That is a postwar phenomenon which in part is an escape from suppression, and which will disappear as soon as some other emotion is more readily aroused. It is the vulgarity, morbid emotionalism, and sickly smartness of this literature with no standards, ideals, nor hopes nor desires that are not cheap, sentimental, or hypocritical that is the real danger.

This spawn of news-stand pests is, for example, the deadliest enemy of sound culture as it should be taught in the schools. And yet are the schools even aware of their greatest rivals? They teach their arid classics to their boys and girls and never ask what they read on Saturdays and Sundays.—The Tribune.

HEPLIN THE CHARGER

If congress must have a charger, Heplin of Alabama, should be kept on the job indefinitely. He is the mouth-foamingest, prancing, most "firing" charger that ever came out of the south or anywhere else. He charges for everything and at everything. If a southern lullaby should float disturbingly to his overwrought mind he would no doubt charge the author with attempted murder.

At present Mr. Heplin is charging again over Mexico and declaring he has been threatened with knives, bullets and poison unless he shall be silent. We doubt if even those implements would prove effective. Such a wonderful soul as his would no doubt recant through the halls of congress, flinging wild accusations, exploding explosives and heckoning martyrdom.

If we must have that class in congress, by all means let it be Heplin. He's a good entertainer, a valiant Democrat and the other windmills are never really in danger.—E.K.

WASHINGTON DAILY NEWS LETTER

BY RODNEY DUTCHER
New Service Writer

WASHINGTON—The Washington recently advanced claim to distinction as the greatest business man of his time may soon be cynically proved on the average of millions of dollars in the government and some 2,000,000 citizens.

A miniature Muscle Shoals which will produce electric light and power in the national capital backyard at about one-fifth the present rate is likely to be developed by act of this Congress of the next.

Approximately 20,000 horsepower would be used by government and other buildings in Washington and its vicinity in the bonded mill radius, containing 15,000,000 persons outside the capital. With both plants in operation and with control of water by three supplementary dams farther upstream increasing the regular flow to some feet per second all this electric current could be developed for \$12,000,000.

The \$44,250,000 would be amortized over 20 years and the price of current would be expected to drop well below half the present rate of about 10 cents per kilowatt hour with a total saving of \$1,000,000 a year to come primarily the product in demand to supply government buildings and \$1,500,000 annually thereafter.

WALTER P. CHRYSLER'S TRAFFIC TALKS

WOMEN DRIVERS

Dr. Alexander Crisphead, German post doctor, recently made the statement that was published widely that women should not be allowed to drive automobiles.

"Women are as capable as the best of an automobile driver," is the reply of Commissioner Charles A. Harnett of the New York State Motor Vehicle Bureau.

Having his opinion on operation of cars in New York, there are more motor vehicles registered in any one family in country. Mr. Harnett said the average woman exercises as much care and judgment in driving a motor car as man does and is less inclined to take risks.

The opinion of Mr. Harnett is the result of a study of 100,000 students of street and highway car accidents and transportation. There are relative driving among women and men, and the number of accidents is about the same. There are a class, most women drivers are careful, conservative and rarely take chances.

The time is coming when a majority of American families will own more than one car, not used by the father of the family to take the family from his house to his work and from work to his home, and also used by the mother of the family for the care and welfare of her children. And these mothers constitute a class of courts of essential drivers.

The motor car is for both men and women.

The DAIRY

USE SKIM MILK FOR DAIRY CALF

"Many farmers are not successful in raising calves on skim milk," says R. W. Clark in Colorado Extension Bulletin No. 127. "While milk may produce the best calf, it is not necessarily the best cow. As good an animal can be produced on skim milk as can be produced on whole milk, but greater care and attention is required in producing the former.

"The calf should nurse its mother for the first three days, after which it should be removed and fed by hand. Whole milk, warm and fresh from the mother, should be given for ten days or two weeks at least. Ten to twenty pounds per day in two or three feedings should be given at first, and the length of time that it should be continued depends upon the strength of the calf. Ordinarily ten days to two weeks will be required to make the change from whole milk to skim milk. Gradually substitute skim milk for whole milk, increasing the former until the whole milk is entirely replaced. This may be a week or it may be a month. Skim milk should be warm and sweet when fed, as cold, sour skim milk is the greatest cause of scour. It may be fed for six weeks or more, depending mainly upon the supply. It should be given until two months of age at least."

Missouri College Cows

Make New Milk Record:
Two new Missouri Jersey records in milk and butterfat production have been reported by the dairy specialists at the Missouri College of Agriculture.

Hugh's Velvet Queen, a mature cow in the herd of Longview Farm, St. Joseph, in ten months produced 12,731 pounds of milk and 1,731 pounds of milk fat. This is the highest record for a Jersey cow ever made in Missouri, the specialist says. The new champion has been awarded a gold medal by the American Jersey Cattle Club, New York.

In a previous test made when she was a two-year-old, Velvet produced 52,235 pounds of fat and 11,025 pounds of milk in 365 days.

Another Jersey cow, Campus Love C., established a new school four-year-old record for Missouri by producing 7,000 pounds of butterfat and 12,000 pounds of milk in 365 days. This cow also was listed as a Junior two-year-old, when she produced 10,854 pounds of butterfat and 735 pounds of milk in 365 days.

Plenty of Green Feed for Hens Is Important

The importance of plenty of green feed for hens has long been known and appreciated, but the average farmer who keeps perhaps 100 hens has been slow to make much of an effort to produce such a supply. In some farms, for his hens during the winter months. The poultry experts at Ohio state experiment station, realizing that a regular supply of green feed is difficult to obtain, at least for a great many farmers, set out to find a substitute.

Alfalfa, red clover, and soy bean hay were tested out and all gave excellent results. Almost every farmer can easily provide some one of these feeds for his hens, and he will find it greatly to his advantage to do so. The hay should be cut green and well cured, and it will be palatable to the hens only if it retains its green color.

The hens will eat more of it if the hay is cut into short lengths, but they will eat a large amount of short hay. It has been found on some farms to feed the large scatterings of alfalfa and clover hay that accumulate on the barn floor, indicating that some people have appreciated the value of this feed for a long time.

Silage Must Be Given Serious Consideration

The dairyman who is milking ten or more cows in the corn belt can well afford to consider the advisability of using silage for his cows. Dairy cows need abundance in their ration to produce to the maximum advantage. Corn makes a large amount of feed per acre when it is converted into silage and provides the abundance that dairy cows need when pasture is not available.

Some of the larger dairymen find a profitable use for two silos. A large silo is used for winter and a smaller silo is used for summer. In the winter the silage is used to provide a constant food for their cows at any season of the year. If it happens to be a very moist year and the pastures remain good, the silage in the small silo is carried over or fed to some other type of stock. However, there are not many years when silage will not come in handy to supplement pasture crops.

Poultry Notes

Keep the ventilator at work so that the air will be fresh and pure.

Gather the eggs often and do not let them freeze. Market at least once a week during the cold months.

Shocks in getting a good egg yield depends to a great extent upon the proper selection of the laying stock.

You simply cannot make a first-class meat fowl out of a Leghorn any more than you can produce beef that will top the market from a dairy cow. Leghorns, as a rule, have to be sold to a cheap trade.

If any birds in the flock develop scabs, put as much potassium permanganate as will remain on the surface of the scab. Wash with water and keep this mixture in their drinking water for several days.

Have plenty of ventilation in the poultry houses and let as much sunlight as is possible, but do not allow drafts to blow.

The index of fourth-month alfalfa for the hens to pick at this winter. Do not bother to remove the snow as there will be less waste if it has remained thin.

Fortunately, feeds such as milk, fresh grass, food and minerals, that produce better eggs, also help in producing good hatching eggs.

Having plenty of ventilation in the poultry houses and let as much sunlight as is possible, but do not allow drafts to blow.

Put aside a few inches of fourth-month alfalfa for the hens to pick at this winter. Do not bother to remove the snow as there will be less waste if it has remained thin.

Fortunately, feeds such as milk, fresh grass, food and minerals, that produce better eggs, also help in producing good hatching eggs.

Dairy Facts

Alfalfa hay and corn silage together supply ideal rations for dairy cows.

Individual stables and pails are advisable so that each calf will get its share.

When the calves are about two weeks old, they should be taught to eat grass and hay.

Feed the cows according to their production about one pound of grain to three or four pounds of milk.

Wash and treat the milk and sell water first out of the feed to determine which cows are leading up the bill.

For dairy cows on pasture a mixture of equal parts of ground oats and clover is the most practical ration. In the case of extremely heavy milkers during the late autumn it may be added to the mix.

Cool milk or cream is not less than 20 degrees F. within few minutes after it is drawn or skimmed. Maintain this temperature.

Wash out the unprofitable cows. It is wiser and more profitable to milk three good cows than six or eight poor ones.

The calf should also have free access to salt. Salt is just as much needed for the calf as it is for the cow, even though the quantity it will consume is very small.

Footlights!

—NEA, Los Angeles Bureau
Now the ladies are going to wear footlights! If you don't believe look at this one, worn by Sally Blaine of the Hollywood colony. It's a coat light, with a battery concealed in the hem.

Opportunities Wasted.
At a party one evening a married lady was entertaining the assembled company with an account of their first affairs, and how, after making it up with one another, her husband had planted a tree in remembrance of it. "If we had only done that," whispered the husband's wife to her husband, "we had a splendid avenue we might have had."

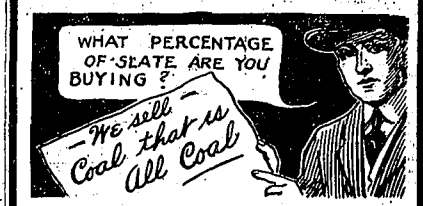

Notaries Public.
Notaries public are said to have been appointed by the republicans to Christianize such facts as were obtainable about the murders of the first century. The office afterward took a local form and had to do with the attesting of deeds and other writings.

Shoes in Same Age
Did Stone Age shoes wear shoes, is an interesting question. The Stone Age man "rubbed" or "tanned" animal skins. They used the flesh of those animals for food. The furs for clothing and the leather often for sandals. Just as much as for the moderns, and they made them out of animal skins, as well. Only the shape was very much different.

Living in Hoops.
"My father, by hook or by crook," said small Jesse, "what is that?" asked the little daughter of the Indian dress, who was helping her mother. "Well, I don't 'sactly know," said Jesse, "but I'm gonna bring a new carpet for the library, just now. What did you do that for? I ain't quite a millionaire."

What Idaho Makes—Makes Idaho

Idaho Home Industries Association

Office at Boise, Idaho

February 10, 1927.

Mr. J. H. Masters, Editor,
Twin Falls Daily Times,
Twin Falls, Idaho.

Dear Mr. Masters:

I wish to thank you for your interest in the building of your city which prompted you to carry the full page display in the Twin Falls Daily Times of February 3 in which an excellent comparison is made of the local merchant and the "tintant, bell-ringing peddler." This is worth hundreds of dollars to your local merchants and certainly should inspire the consumers of your community with the necessity of supporting local institutions. In general the local newspapers are the best boosters for the building of a local community.

We feel very decidedly that the newspaper as a home institution should receive better support in subscribers, advertising and job printing.

Again, in behalf of the officers and members of the Idaho Home Industries Association, may I thank you for your very kind cooperation with our campaign to build each individual community.

Yours very sincerely,
NORMAN A. ATKINSON
Secretary-Manager.

Let's Work for the Home Folks Awhile

CLOSER BUDGET PLAN IS NEW CANAL RULE

Which Scale Will Be Fixed Annually? Limit Is Set for Monthly Expenditures. Specific Provision to Be Followed; Manager to Select Successor, to Chair.

Adoption of the budget system and more scientific planning in regard to expenditures, are included in the resolutions adopted by the canal board last evening. The resolutions provide for a wage scale to be adopted March 1 of each year and maintained unless changed by the board. No expenditure of more than \$500 shall be made on any job until an estimate is submitted and limit fixed. An estimate of money to be expended on far an account shall be submitted by the manager at the beginning of the month. The president and secretary of the canal company shall act with the manager in buying materials and personal supplies, and the manager shall not make any purchase of more than \$100 without authorization of the board as a whole. All extraordinary items of expenditure must be submitted to the board. Reports of those showing special efficiency with a view of promoting them.

Manager Barton Smith was authorized to engage a purchasing agent to take the place of Melvin Chair, Carl J. Miller was not present at the meeting but had advocated a similar system to that adopted for several years.

Playtime

Now and then bankers leave their money bags and go out to play. Here is Julie S. Inghs, New York banker and society matron, at the sands at Palm Beach, Fla.

My Gentle Hint. Friend—I suppose if people would do just what you tell them you would have a great deal less trouble. Doctor—Yes, indeed! I would tell some of them to settle their accounts.

Essex Makes Record of 53.8 Miles Per Hour for One Day

An average speed of 53.8 miles an hour for 24 continuous hours was hung up by one of the new type Essex Super-Sixes on the Culver, City, Cal., track, according to official record kept by Mr. Jensen, dealer.

This test, according to Mr. Jensen, was completed by Walter M. Murphy; the Los Angeles distributor, and was officially observed and scored by Los Angeles newspapermen and by the Western Union. After the Essex had chafed off its 12th million on the track, it completed a trip on Mr. Wilson and return, and was placed for display in the distributor's Los Angeles showroom.

"When this test was undertaken," said Mr. Jensen, "the program" was simply to equal the 60 miles an hour average which has been produced by the Hudson organization for the Essex Super-Six. To be safe, this speed was somewhat exceeded early in the hour, ran at that speed when the car and a dump truck handicapped the latter part of the run, the average was substantially better than had been thought.

"Such test takes more out of a car than 10 times the mileage under normal driving conditions, yet the car was immediately started on the Mr. Wilson climb which involved entirely different operating qualities. No difficulty at all was experienced in either part of the test. The top speed made on the track was around 63 miles an hour.

Not in on the Coast. "How does your wife like the new neighborhood?" "Not very well in yet. You know she's not well enough acquainted with the other married women in the block to talk about them."

Discouraging. It is very discouraging for a thoughtful man to note how the advice of our leading medical scientists, Dr. H. H. Cannon in his "Present-day Diseases" and "Reasons Thereof," and though we have watched check ever since this passage, for the life of the life is very light, advanced, we have been disappointed of not to see a population waiting about on all fours.

Original Meaning. Stigmata originally meant simply to brand, and in the days of Shakespeare the former was said to stigmatize his sheep.

Our Saved-Off German. It is some satisfaction to know that people can't draw a stick, draft on us for a debt of gratitude.

Smells—Public Market.—adv.

Worth While Quotation. "We only see in a lifetime a dozen faces marked with the leaves of a contented spirit."—Henry Ward Beecher.

Orange Harvest. In Florida oranges are taken from the trees from the latter part of October and the first of November until April. In California they are gathered all the year around. The new crop begins about November 1.

Country Life. A man watching the live stock rush for the suburbs remarked: "The country must be terribly crowded."

Sting. "It's not as if I had let my 'beast'—A White House—London Mail.

NOTICE!! Knights of the Ku Klux Klan will hold a special meeting. See your officer for information. IMPORTANT

ROCK SAVES LIFE OF BOISE MAN ON BLUE LAKES GRAD

Because his machine struck a rock after it climbed off the Blue Lake grade last evening, J. C. Briggs, pilot man of the middle department of the Pull, started, was enabled to arrive in the city without injury to himself or without serious damage to his car. The rock which stopped the car is at least 20 feet from the road, while underneath is a precipice 200 feet high.

CAN'T END DISPUTE OVER PEPPY'S NAME

Barnet Lewis christened one of his aircraft Peppy Avenue, now finds it self involved in the old controversy as to the correct pronunciation of the name. Lewis says that he named the plane after an investigation of evidence reported to the library as being in favor of "Peppy," but the name was changed to "Peppy" in direct violation of the Cottonman Paper, one of whom when addressed as "Peppy" returned angrily, "I'm not Peppy."

WILL KEEP RELICS IN OLD HOLYROOD

The ancient palace of Holyrood house holds the promise of being the royal palace of the Scottish king. David I, in 1128, founded an abbey in Edinburgh and named it Holy Rood. The monastery, which was built in the Norman and early Gothic time and the chapel became a parish church. James II of Scotland made it a chapel royal in 1457, but it began to fall into ruins in 1705.

Compromised

"My wife started a row with me this morning, just as I was coming away," on the porch of the tavern at Tulliville, related Guy Johnson of Hampton, N.H. "But I was in too big a hurry to quarrel, and so I compromised with her."

Dog Rings Salute

At Gilkey's Harbor (Maine) light station a dog, the dog of the keeper, who is occasionally known as the "pussing of every boat." Many of the fishermen who pass daily by him, passing to recognize and in response to a whistle his dog knows no bounds until he pushes to the harbor light and once at the rope which rings the bell. A recognized feature of every excursion is to run close enough to the Gilkey light to see the dog ring a salute."

Sheila Discard Robes

No longer do the students in the prominent schools of England wear the traditional robes of their order. After a small, but significant, civil war, they discarded the flowing robes for the modern dress. The reason for the revolution favored the robes and threatened a lock-out of students, but the students entered their robes by wearing robes and their modern suits and discarding them when remaining in school.

Traveling Schoolrooms

Schoolrooms on wheels are now a feature in sparsely settled regions of northern Ontario. They form a part of the educational program introduced by the province, working in conjunction with the railroad. Care, once heeded to form schoolrooms are supplied with modern equipment and provide accommodations for a teacher. The rolling schools will be noted to various outlying parts of Ontario.

Origin of 'Farting'

Early Roman pennies had four grooves in them as they could be easily broken. Each section was called a farthing, the word later being corrupted to farting.

Improved Uniform International Sunday School Lesson

By REV. R. B. FRYER, D.D., of the Board of Christian Education, U.S.A., Western Conference of Synods

Lesson for February 20 SERVING IN AND THROUGH THE CHURCH.

1. LESSON TEXT—Matt. 23:1-6; Acts 13:47. GOLDEN TEXT—"I have labored much, but I have not labored in vain." PRIMARY TOPIC—Praying God in Jesus' Name. JUNIOR TOPIC—Serving in the Church. THE COMPENSATION AND THE REWARD—The Meaning of Church Membership. THE PEOPLE AND APOSTLE TEACHING AND WORKING TOGETHER in the Church.

There is an utter lack of concern on the subject classically by the lesson committee and the passage of Scripture selected. The text exhibits the responsibilities of the individual church. Public recognition should be given this in our interpretation of the passages.

The whole mass of men and women in the world is in a state of spiritual darkness. It is the privilege and solemn responsibility of the subjects of the Kingdom to exert a saving and uplifting influence on the world in which they live. They are to live such lives as will bring to the world the light of the knowledge of Jesus Christ, the King, and strive to make known His glory and power to others.

"Ye are the salt of the earth" (v. 13).

The properties of salt are: (1) Preserving. Salt has the tendency to arrest decay. The influence of the disciples was to preserve the world from perishing in its own wickedness. True believers in Christ will penetrate society, purify and preserve it.

(2) Purifying. The influence of the disciples of Christ is to purify and purify.

(3) Preserving. Salt has the tendency to arrest decay. The influence of the disciples was to preserve the world from perishing in its own wickedness.

(4) Light. Illuminating and warming. In being in Christ, the disciples must not be hidden. The city built on a hill was not intended to be hidden; neither was the living candle hidden.

This world is dark and cold. Many are the pitfalls and snares set by the devil. Believers in Christ should live that the necessary ones be kept from falling into them.

Characteristics of the Primitive Church (Acts 2:42-47).

The behavior of the members of the early church was as unworldly as their gifts of speaking with tongues and performing mighty miracles were the result of the Holy Spirit in their hearts.

They sought instruction from those who knew the Lord (v. 42).

They were united in fellowship with one another (v. 42).

They observed the sacramental observance of Christ's death (v. 42).

Those who have entered into fellowship with Christ will faithfully observe His commandments (v. 42).

A new mark of the spirit-filled life is a life of love (v. 47).

This unity was the result of their having been baptized into the name of Jesus Christ (v. 41).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

They were united in fellowship with one another (v. 42).

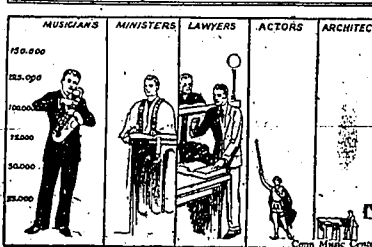

They were united in fellowship with one another (v. 42).

The Lid's Off Now

A trial marriage that was different was entered into by August Woldkin, New York broker, and Elate Riter, Washington actress. They were married more than a year ago, but agreed to keep it secret as their condition of divorce was not met until the other day they announced it to their friends with the card shown here.

MUSIC HOLDS BIGGEST FIELD

Musicians in the United States considerably outnumber the clergymen and lawyers, according to a statement emanating from the Conn Music Center. There are almost three times as many people earning a living through music as there are drinking beer or playing behind the footlights. These figures are for people entirely dependent on music for a livelihood. It does not include the tens of thousands of part-timers who are teaching, singing in choirs or earning extra dollars on the side with violin or saxophone.

Man's Best Friend

Your Connecticut dog that refused to leave his master when he had to bid him and his dog to bid up the other day lived up to the best standard of canine utility. The devotion of the dog to his master is not dependent on sentimental feelings; it is a fact established in the records of the past and continued in the news of the day. —New York Sun.

No Place to Go

"Why don't you get married?" "Because we can't get any house or place." "But can't you live with your parents?" "No, because they're still living with their parents here." —News Letter, Belfast.

Accuracy in Gunnery

It was a 40-ton tube and a high-speed camera the United States bureau of standards experts are concerning the directions of guns in the firing of a shell. The experiment, it is thought, will make gunnery more accurate.

Was He Profane?

"I lost him, Profane, after she had been four times." "That wasn't the expression I heard in my mind, my dear." —Punching Bear, London.

At Least Safe

Father was a Roman title and high speed camera the United States bureau of standards experts are concerning the directions of guns in the firing of a shell.

Keep Him From Gossiping

Keep Him From Gossiping. Perhaps few were queerer than Father in the world. One of his great specialties was to keep him from gossiping for three years in his own case, but he had a habit of doing so for his wife and children, but he was a wife.

Washington News

BY RODNEY DUTCHER, NEA Service Writer. WASHINGTON — The world powers obtained their conclusions from the treaty made in China partly by force and partly by bribery.

The susceptibility of Chinese officials to bribery has long been notorious. There has never been any adequate check to such practices and graft has permeated the whole system of Chinese government, both at Peking and in the capitals of the provinces. If the Cantonese Nationalists come to control the country a new order of things may be expected.

The first attempt on the part of a western power to establish relations with China was made by Queen Elizabeth, who sent a vessel in 1582 which did not arrive. The East India Company later established a trading base at Canton and Lord Macartney established a mission in 1792 during the reign of Emperor K'ang Hsi. Lord Amherst, the second ambassador, was greeted indignantly, however, and sent back home with an insulting letter because he refused to bow his head nine times to the ground before the emperor. British, indignantly was aroused and subsequent events led finally to a series of military and naval movements which established western domination.

The Chinese were peace-loving, industrious and mercantile in spirit. They were poor soldiers, poorly equipped for fighting and lacking any martial tradition. Despite their weakness, at the beginning of the western invasion, the Chinese were arrogant. British and Americans were regarded as barbarians. "All men under heaven worship the emperor of China," was a national motto.

China had been the Athenian Greece of the east, distinctive culture and enlightenment all about it to Japan, Korea, Siam, Annam, Burma and Tibet. No other western could pretend any equality with the emperor and official documents described the British king as "reverentially submissive." Foreign diplomats were regarded as his as 1850 as little more than dust under the feet of Chinese officials.

TIMES WANT ADS BRING QUICK RESULTS

New Continued Story for Times Readers. 'Don't Tell the Wife' starring Irene Hich starring in Warner Bros. picture of the novel. This is a novel of modern life dealing with the marriage problems of two who love each other dearly but who are temperamental contrasts. It is delightful comedy dealing with the smart set whose background are the fascinating polo grounds of the East. There is smart satire running through the entire story on the dissimilarity of the divorce laws of our various states. Every man and woman who is married or who contemplates marrying must read the story.

WELLS TRAIN SNOWBOUND AT HERRELL, NEV.

Storm Blockades Route and Stops Progress 22 Miles from Destination; Special Goes to Pull It Out and Track Is Ordered to Close Today.

Stuck in the snow a point 22 miles this side of its destination, the mixed train on the Wells branch spent the night in the snow banks and the arrival of a special train to pull it out is its difficulty. It will arrive here again this afternoon. A rotary from the Portland shops has been ordered to go and here through the accumulation. These circumstances are very effective, but it sometimes takes several engines to drive them through. The rotary will arrive late this afternoon and so at once to the scene.

Heretofore there has been no trouble on the Wells road from snow while there has been a good depth. The deep snow found on this occasion was a surprise.

When Bees Become Wild

The British Beekeepers' association knows what makes a wild bee wild. It appears, often as honeybees are in the late summer and early fall when flowers are disappearing and there is not enough honey to go around. When in this mood they resort from one another, and, if disturbed, will sting. It is a common thing for bees to kill chickens in England.

Origin of a Style

"During the time of Louis XIV the Englishwomen had come to be presented at court. They arrived too late to have their hair dressed in the current style, so for a expedient they powdered their tresses and the style caught on immediately," writes Elsie Bourne in Liberty, explaining the Eighteenth-century vogue of powdered hair.

Here Is a Mystery

In passing through a forest it was noted that the other plants are dotted with woodpecker holes, and a few woodpeckers were to be seen, says the Nature Magazine. Some of the holes may have been made a century ago, for this insect protects itself from infection by forming a hard and imperious callous around these holes.

Just a Suggestion

"It is too easy to get married in this country," says a reformer. "Every body who applies for a marriage license should be made to take certain examinations." Maybe he means an intelligence test.—Exchange.

Honor Roll for Cowtesters Show Many Fine Herds

The herd of L. J. Tencknick of Twin Falls, containing 175 cows, made the highest record in the largest herd division of the Pioneer Cow Testers' association for March, according to the report of W. J. Byers, pastor, with 1022 pounds of milk and 116 butterfat. The C. Flowerdew Jersey herd of six cows, won in the medium division with 805 pounds of milk and 108.8 butterfat, while the J. S. Wilson herd of three grade Holsteins won in the small division with 1121 pounds of milk and 22.2 butterfat. The average for the 225 cows tested for the month was 710 pounds of milk and 71.3 of butterfat. The honor roll of 10 is as follows:

C. E. McFall, 9 cows or 52 per cent of herd; L. J. Tencknick, 12 cows at 52 per cent; Joseph Weber, 4 cows at 51 per cent; M. E. Collette, 8 cows or 20 per cent; Carl Middelstadt, 3 cows or 25 per cent; J. R. Long, 4 cows or 23 per cent; C. H. Hemphill, 7 cows or 22 per cent; John Gott, 5 cows or 16 per cent. The following are the names of the small herd divisions which have high records: J. S. Wilson, 2 cows or 60 per cent; J. H. Crawford, 3 cows or 50 per cent; P. Beer, 3 cows or 50 per cent; C. Flowerdew, 3 cows or 50 per cent; C. Wilson, 3 cows or 43 per cent; E. Aldrich, 2 cows or 25 per cent; W. J. Emery, 1 cow or 25 per cent; C. Wilson, 1 cow or 10 per cent.

Funeral of M. T. Staley Is Set for Monday Afternoon

The funeral of M. T. Staley of Kimberly, who died last evening, will be held Monday at 2 o'clock from the L. D. S. church in Kimberly unless other arrangements are announced later. It was fitted today.

Funeral services for Merrill Theodore Staley, who died last evening at his home in Kimberly, where he has lived for the past 21 years, will be held early next week, after word has been received from relatives. The body is at the Blue undertaking parlors.

Mr. Staley was born November 12, 1854, in Cornett Bluffs, Iowa, in which state he lived until coming to Idaho 20 years ago.

He is survived by his widow, who was Miss Bertha Powell, to whom he was married in February, 1877, and by seven children, three brothers and two sisters. Six children preceded him in death. Surviving children are Merrill Edward Staley, William Everett Staley, Stephen Elmer Staley, Warren Staley, Jay Staley, Theodore Joseph Staley and Mrs. Olive Peterson, all of Kimberly. The brothers are William Staley of Union, Utah; Chester S. Staley of Garland, California; Edward Staley of Milner and the sisters are Mrs. Anna Kidd of Reno and Mrs. Emma Longmire of Coalinga, Calif.

Food Value of Sugar

It has been shown by experiments that, as a part of a complete mixed diet, five ounces of sugar a day can be consumed by a healthy adult and 100 per cent of its total energy becomes available in the body. The main function of the sugar is to furnish heat energy.

PROSECUTOR WAITS ORDER OF THE COURT

County Attorney William Has Notices Drafted in the Case Against Leach, Heiter and Peters and the Case Against Leckie and Awaits Final Note of Supreme Tribunal.

Papers have been prepared by Prosecutor O. W. Witham for giving this notice to the attorneys, bondsmen, and, if located, the defendants in the case of the state against Frank G. Leckie and Keith S. Peters and also in the case against Jay J. Leckie, who was convicted of embezzling \$14,128 from the Idaho Power company and whose conviction has been affirmed by the supreme court. Attorney for the state in this case were J. W. Taylor, who was prosecuting attorney, and Shad L. Hodgin, who represented the power company. All sentences are from one to 14 years. While the opinion of the supreme court upholding the verdict of the jury and the sentence imposed by Judge W. A. Babcock has been sustained in both of the above cases, the formal order following has not been received and until that comes action by the prosecuting attorney cannot be taken. The

Change in Water Office of City on March First

Change in the management of the city water office to take effect March 1 and consisting of a reorganization of that department has been announced. Miss Blanche Walker, treasurer, relative general charge and will also take charge of shutting off the water. Heretofore the sheriff, who cut off water for non-payment, has acted in connection with the street department. This will leave the work in the hands of two instead of three, according to the plan worked out by Commissioner James S. Keel.

COOLIDGE SPEECH TO BE HEARD BY RADIO AT IDAHO

The Washington birthday address of President Coolidge will be broadcast at the Idaho theatre Tuesday morning, February 22, at the Idaho theatre, and it is assured that it will be satisfactorily given if broadcasters including those at Jerome and other nearby stations will buy off. The American Electric company furnishes the radios. It is requested that the use of No. 2700 machines be discontinued during the time. By consent of Supt. E. D. Bloom, high school students may attend the broadcasting program on this occasion.

Old English "Harpest Home"

Blossford gives us a fine picture of Harpest Home in Suffolk, England, where the foremost man in the field was honored with the title of "lord," and at the Harpest or Harpest home feast he collected money from farmers and visitors to make a frolic afterwards, which was termed the "big-goss sporting." Even in Blossford's time the quality custom was on the wane.

NOTICE

We wish to announce that Iona Martin of the La Faye Beauty Parlor has never, at any time been employed at the Orpheum Beauty Shoppe. We further announce that our operators are all graduates, therefore upholding the standards in our profession.

ATTENTION

Dodge Brothers and Graham Brothers Owners

We announce the installation of a complete system of Lupton Steel Bins, to better enable us to serve Dodge Brothers and Graham Brothers Owners:

We also wish to remind you that we handle nothing but *genuine* Dodge Brothers and Graham Brothers parts, thus protecting you against "gyp" parts, and we and our associate dealers are the only authorized Dodge Brothers Service Stations stocking genuine Dodge Brothers parts in Southern Idaho.

We also announce the establishment of a dependable Used Parts Department. If you want to overhaul your old car with little expense, we suggest that you visit our Used Parts Department. Inasmuch as we wreck nothing but Dodge Brothers cars; keeping only dependable parts, we are better able to serve Dodge Brothers Car Owners.

D.W. GRIFFITH'S Sorrows of Satan

By Marie Corelli

ADOLPHE MENJOU
RICARDO CORTEZ
CARLOIMPSTER
LYA DE PUTTI

A PARAMOUNT PICTURE

The love of a woman, loyal and persistent, that burns through the lures and enticements that beset man in this world, eventually drawing him back to the real values of life, that is the romantic story told in "Sorrows of Satan."

Transferring Marie Corelli's novel to the screen called for a decided departure from old methods. Akim D. W. Griffith has brought to the art a new solution so much a technique that marks another milestone in the advancement of moving photography.
