THE TWIN FALLS COUNTY "IDEA"

Representatives from Twin Falls county—Gillis, Sanderson, Parish, Pettigrove—are to be commended for their opposition to the four-cent gas bill...

The committees on highways have recommended an expenditure of nearly four million dollars in the state in the next two years.

There is no state levy for highways proposed. The maintenance and extension will be paid for from the gas tax and motor license fees.

It is the Twin Falls county "idea" that the gas tax should be returned to the counties where the tax is collected for expenditure on their own highways.

The legislature turned down this "idea" but the voters will have the next inning.

## BUHL SCHOOLS MAKE RECORD

(By Supl. M. M. Van Patton.)  
The total enrollment for the year is 1296.  
A special meeting of all the teachers in the Buhl school system was held Monday evening of this week. A number of matters of particular concern to the corps were discussed at this meeting. The English entrance examination department, and given by the teachers of the northwest was taken by the teachers at this time. The average grade of the group was very gratifying. This grade being 85 per cent. Six of the instructors wrote excellent papers and one perfect examination was written.  
Miss Steinrom was present for the teachers' meeting, having returned to her work Monday of this week. She has fully recovered from her recent operation.  
School Spirit.  
It is difficult to define or describe school spirit. Perhaps in the best of terms we may say that it is a strong desire for a high type of scholarship and earnest striving for clean wholesome extra-curricular activities. Many who hold this to be a good description of school spirit enthusiastically affirm that the school spirit at this time in the Buhl has ever equaled. This feeling comes from teachers, pupils and patrons.

Joe H. Peter, whose ample slugs is pictured above, has been appointed chairman of the public morals committee of the Washington state senate. "Some folks may think that funny, because I'm in the third business, but on the point, and an honest St. Peter," he says. "But when I look at my job, I will have the last laugh."

## BERGER NEWS

**BERGER**—Word was received from Mrs. George L. McGregor Tuesday who had been in attendance at the bedside of her daughter, Mrs. Lillian Berger, for the past two weeks. Mrs. Wade has sufficiently recovered from her serious illness to be removed to her home from the hospital. She is expected home the first of the week.  
Mrs. G. J. Chan is reported ill at her home with an attack of pleurisy and pneumonia so well Tuesday. Her condition has improved. A position with a nursery firm in Seattle, Wash. and his work will be in the ornamental department.  
The members of the Hollister Rural high school basketball team from the Berger district were indignant at the report of the game with the "Bulls" in the Berger district. The report was as follows: In the Berger district, the game was played as well as 12 in favor of the Berger all through the game to almost the last of the third quarter when the Kimberly boys scored a comeback. The Hollister team made fair showing regardless of the handicap of having no gym for practice. The Hollister team expected to attend the game. Kimberly barely held, but the reporter did not measure up to that standard.  
Wade Pugh, who lives on the Edwards ranch south of Berger, returned home after completing his work near Buhl.

PRESIDENT VETOES BILL

(Continued from Page One) must not contemplate as this measure, inescapably does, that farmers in these regions should be penalized for the benefit of those in other regions.

POTATO BRIEFS

(Continued from Page 1) sible; and it must bear some relation to the end sought to be attained. On the question of reasonableness, we have shown that "the regulation amount simply to confiscation of the difference in price obtainable for a natural product and the price at which the regulation requires it to be sold."

The Hackman Contention.

In his brief, Mr. Hackman makes an extended argument, citing many cases where the courts have held that what is based are unconstitutional.

"We must remember," concluding the constitutional questions here involved that in addition to the declaration of rights expressly reserved in the constitution of the State of Idaho, section 21 of article 2, provides:

"That enumeration of rights shall not be construed to impair or deny other rights retained by the people."

"Many of the courts don't seem to regard these rights but only look to the express rights and attempt to confer omnipotence upon the legislature, involving the injunctions laid down by Coke and in the Bill of Rights of Virginia, and some down late that deep well and apply these great underlying principles that are embodied in the law, we are bound to come to the conclusion that it is the duty of this Court to declare the sections of the Idaho Compiled Statutes together with the amendments, unconstitutional as an attempt to delegate legislative authority to an executive officer or board, and as endeavoring to give a title of such officer or board the authority of law, and of such make it a criminal offense to not obey such mandate of such officer or board, and that even if the rules and regulations are resolutions themselves enacted into the form of law by the legislature that they would be unconstitutional, null and void. And further that if they are an actual legislative enactment laid upon their face, that as the facts show that they are administered in a harsh and oppressive manner, they should be declared unconstitutional."

"I therefore submit that the judgment and decree of the District Court should be reversed, and the writ of habeas corpus issued, and the sections of the Code and amendments together with the rules and regulations complained of be declared unconstitutional and void."

SENATE CONSIDERS BILLS TODAY

WASHINGTON, D. C., Feb. 25. By use of an article vote the Senate today passed a bill to give the Interstate Commerce Commission the right to give the \$12,750,000 public buildings bill without displacing the Boulder Canyon dam measure, one of the bitterest battles of recent years.

CONGRESS TODAY

SENATE—Considers the Muscle Shoals legislation for two hours, then resumes consideration of Swiss-Johnson Boulder dam bill. HOUSE—Considers deficiency appropriation bill; military committee considers Muscle Shoals.

AUTO TAX BILL

(Continued from Page 1) discussions with other taxmen.

Many Bills Passed. The senate passed 24 measures, fifteen one house bill and nine senate resolutions, which proposed a constitutional amendment to increase the pay of legislators to \$10 a day yesterday. Debate of this measure was, however, reconsidered in the afternoon and the proposal referred to the committee of the whole. Two resolutions were passed to submit constitutional amendments to provide for a four-year term for elective state officers and to permit fixing of county prosecuting attorneys' salaries by law instead of by the constitution.

Kill Pension Proposal. Senators killed, 13 to 21, the house bill which would have permitted county commissioners to pay all age pensions of \$25 a month to county residents of 25 years.

Two house mines committee bills were approved to permit increasing the state mineral tax from \$200 to \$300 a year. Two appropriations committee bills approved provided \$300,000 for the Lava Hot Springs and \$144,000 for the Indian reservation board. Renewal of improvements from property held for taxes is made lawful and quantum is defined for cooperative associations under other bills passed.

Medicine committee measures approved prohibit "Indian hemp" and require county supplies to dispense certain quantities for abuse. The department of public investments is relieved of collections for lease of land in state lands and the land board may lease lands acquired by virtue of loans from endorsement funds under approval of public lands committee—minutes.

CARTOON OF PROMINENT CHARACTERS OF TODAY

WALTER P. CHRYSLER'S TRAFFIC TALKS

PEDESTRIAN RIGHTS It is the inalienable right of the pedestrian to walk on sidewalks and to cross streets at intersections in safety and without being compelled to run.

First, it assumes that the pedestrian will refrain from jaw-breaking, and the crossing of streets other than street intersections, one of the commonest of all causes of accidents.

Secondly, it assumes that with a change of signals, motor cars will not start until pedestrians have had a chance to walk to the curb. It also assumes that pedestrians will start from the curb after motor cars have received the signal to go.

Thirdly, it assumes that pedestrians will be given ample opportunity to cross streets at crossings without having their line of march cut off by vehicles coming around the corner. Pedestrians should be allowed to cross first before cars are permitted to make turns.

I have no patience with the motorist who compels the pedestrian to run to get out of the way of the car. It is illogical, to say the least. In addition, it is dangerous.

I really believe that most people are considerate and courteous. It is common to see motorists stop even when they have the right of way, to wave to pedestrians to pass.

Courtesy and consideration will do much to eliminate the little things which are irritating to the man who walks—and to the man who drives.

Southern Boy Plans to Cash In on Alabama

Tommy Christian Says His State Has Reputation on Broadway

New York City.—Tommy Christian had come to New York to capitalize the advertising which his native state, Alabama, has received as a jazz center. Christian is an orchestra leader and all-around musician. "I thought it was time somebody made some money out of our reputation," he declared in his first press interview. "You know jazz is supposed to have originated right down in my section. "In all the books they write about jazz and even in Europe, we get the credit, or maybe you want to call it streetwise, of starting the whole jazz rumpus. Yet I can't seem to get any credit. I have been able to find out there isn't a single orchestra leader except me on Broadway who has come on from Alabama to cash in."

POULTRY FEEDING PULLETS IN COLD SEASON

Pullets must be well developed, vigorous and must carry a surplus of body fat if they are to produce heavily during the winter months.

D. C. Henderson, poultry specialist in the South Dakota State college extension service, says that pullets which come into laying with weak frames and undeveloped bodies usually break down under the strain of egg production during the winter months. He advises a careful feeding program for pullets so that they will have the surplus body fat as necessary to heavy egg production.

"Feeds containing protein and minerals are essential for proper growth of bones, feathers and muscles," he says. "Starch milk, if available in sufficient quantity, is an excellent feed. The birds should be given access to the milk at all times. It can be fed either in the sweet or sour form.

"If the milk is luted, part of the protein may be supplied through the use of meat scraps or tankage in a mash mixture."

A dry mash mixture which Henderson advises for satisfactory development of pullets is composed of six parts pure by weight of cornmeal, ground heavy oats, wheat bran, four millings and tankage.

One pound of mash should be added to each 100 pounds of mash. If a limited amount of milk is available, one-half pint of tankage may be fed in the mash. Dry mash should be kept in the hoppers before the birds at all times.

Grain is necessary for the proper storing of a reserve of fat in the body, states the specialist. Late hatched pullets should be forced heavily with both bran and mash to develop flesh and bone, essential in continuous heavy egg production. Early hatched pullets, that are well developed and are coming into laying should be fed heavily on grain feeds and sparingly on dry mash. The pullet flock must carry a surplus of body fat, obtained principally from high feeds if they are to give profitable winter egg production.

Says "Allenru" Greatest Rheumatic Medicine in the World

Hundreds of Bottles Being Sold, Declare Twin Falls druggists, Who Guarantee it and Are Dispensing it to Many Sufferers Here.

It does not matter whether you are disabled with cursed Rheumatism or have only occasional twinges, "Allenru" will ease the agony—away with the gnawing pains and often reduce the swollen joints. Allenru is no juggard. It starts right in at once searching out the poisonous deposits and in two days starts to drive the concentrated impurities that often cause Rheumatism, out of the body thru the natural channels. Allenru has been tried and tested for years and really marvelous results have been accomplished, often in the most severe cases where the suffering and agony were intense and where the sufferer was almost helpless. "Allenru" is the "miraculous preparation" quickly gives has made for it thousands of friends, say Twin Falls druggists.

Judge Chamberlain Commits Suicide At Room Today

Pioneer of Twin Falls Tract and Wealthy Landowner Kills Himself This Morning; Had Been Suffering from Melancholia Since Death of His Wife.

Frank Edgar Chamberlain, pioneer resident of the Twin Falls tract, a wealthy land owner and former probate judge of Twin Falls county, committed suicide about 7 o'clock this morning at his room at 210 Third avenue north by shooting himself in the temple. Chronic melancholia is believed to have been the cause of the act. He was rooming temporarily at the home of A. Gilbert.

Seemed Cheerful. A sister, Mrs. G. F. Knowles, accompanied by a little grandson, arrived Wednesday of this week from Chicago with the understanding that they would all move out on a ranch owned by Judge Chamberlain. Since her arrival, Judge Chamberlain seemed less gloomy, and was unusually cheerful last evening. When going to his room he said he wanted to get away as he planned to go to ranch today. About 7 o'clock a shot was heard. At first Mrs. Gilbert thought that her husband was throwing something at the cat, but later she learned that he had been shot. Investigation was made and Judge Chamberlain was found dead in his room with a bullet in his head.

Story of Life. F. E. Chamberlain was born in St. Joseph, Mich., Feb. 28, 1863, and had lived until next Monday would have been 64 years old. He was educated in the public schools of Michigan and graduated from the law department of the university at Ann Arbor in 1889, where he received his law degree. He was married to Mrs. H. H. Chamberlain, a fellow student, 32 years ago. No children were born to the match but later a boy and girl were born to him who came to the Twin Falls tract 26 years ago and prospered. He took an active interest in public affairs and served as probate judge.

Two years ago his wife died and he had never fully recovered from the mourning, which accompanied her death at the time of her death. He brought little, since.

Judge Chamberlain is survived by three sisters, the Mrs. Knowles referred to, Mrs. E. H. Knowles, married to a brother of G. F. Knowles, and living at Fremont, Neb., and Mrs. Franklin Lewis, Anconia, Mich., sister of a brother, A. H. Chamberlain, of Dubuque.

The adopted children grew up years ago. The boy is said to be in California and the girl in Texas.

Will Be No Inquest. Coroner P. J. Grossman said this morning that an investigation had convinced him that the case was clearly one of suicide, and that no inquest would be required. He said that Judge Chamberlain had evidently gotten up and stood before the mirror in his room, while deceased in his nightgown and had fired three shots in succession at his head, as there were two marks in the wall behind him. Apparently the focus was not good, but at the time of firing the last shot he pressed the 32 calibre pistol to his temple and fired.

He said while Mrs. Gilbert did not receive the sound as pistol shots, Mr. Gilbert and Mrs. Knowles did and hurried to the room to find him dead. The funeral home has not yet been set but it will be under Kalkreuth Funeral auspices.

The purpose of the visit which Judge Chamberlain intended to make to the ranch today was to attend the sale of M. E. Callister, his renter, who was disposing of his stock with a view of moving to Seattle so that the owner might move on.

BURY JUG IN SIGHT OF COP; ARE IN JAIL

"Never spread your name in the sight of any child," has been demanded by the actions of Clark Tipton and Leonard Blankenship, according to the theory of the police force here, who say that when Police Officer William Mumford, attracted by the curious actions of the gentlemen named, approached the point where they were buying a jug of colored moonshine, they proceeded with their labors until the snare snapped. The men were buying the alleged liquor in the carol near the Farmer's barn at 223 Fourth avenue west. When through with the ceremony they were taken into custody by the police officers. Later they sat 24 hours in which to plead, when arraigned before Probate Judge C. A. Bailey, and were held under \$500 bail.

Tipton is the one armed man who got into an altercation with R. Hatfield, noted feudist, also one-armed, early in 1926, and was held in jail, threatened with death. Hatfield received a sentence for assault.

Pioneer Kimberly Woman Dies Last Night at Her Home

Mrs. Mary Brecken, wife of W. P. Brecken, for the past 20 years a resident of Kimberly, died at her home last night after a long illness. She is survived by her husband and by two sons by a former marriage, Harold Lewis of Salt Lake City and Clarence Lewis of Klamath Falls, Ore.

Mrs. Brecken was born June 29, 1871, in Andrews, Ia., and lived on until the age of 55 years, 7 months and 26 days. She was married to W. P. Brecken on December 25, 1906, to Mr. Brecken, but to this union no children were born.

Both of Mrs. Brecken's sons arrived here only a few hours before their mother's death, in response to a message telling of her serious condition.

The funeral of Mrs. Brecken will be held Monday afternoon at two o'clock from the Kimberly Methodist church and conducted by Rev. Charles D. Fletcher, the pastor.

Wind and Shorn Lamb

Contrary to the popular belief, the quotation, "God tempest the wind to the sheep lamb" is not a Bible verse. It is an old proverb of unknown origin. The earliest known use of it appears in Laurence Stern's "Sentimental Journey." But there it is quoted, showing that Stern did not claim it as his own.

The Crickets' Song

The croaking of the crickets seems at the very foundation of all sound. At last I cannot tell it from a ringing in my ears. It is a sound from within but without. I can cannot dispose of it by listening to it. In proportion as I am still to hear it, it conveys me that I am a d-d-ition of the earth—Thoreau.

Trees That Cure Lepers

Numerous kinds of leprosy-causing trees exist in Brazil, including one species which is thought to be more obnoxious than the famous giant mangrove tree of Hawaii. The seed is called "leper fruit" or "leper bread," indicating that the natives believe that it cures the disease.
