A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Fig Syrup" can't harm tender stomach, liver, bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, their feet sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, feverish, breath bad, restless, do not eat heartily, fall of color or has any threat of any other children's ailments give a teaspoonful of California Fig Syrup, thoughtless worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and flatulence will gently move out of the bowels, and you will have a well, playful child again.

A thorough "inside cleaning" is often all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Fig Syrup," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company,"—Siv.

Preachers Are Foes of Chickens-Aver Judges of Debate

At the meeting of the Kimberly grange at the Methodist church Friday evening 60 members were voted in to be initiated at the next meeting, March 8.

Following the routine business the meeting was turned over to the lecturer, Mrs. A. E. Gray, who had prepared an interesting program including speeches, solos and debate.

Mrs. Cook, after evangelist sermon, gave a talk which was appreciated by all, in which he advised the farmers to keep throughout stock on their farms.

The attractive team was the debate: "Resolved, That Preachers Are Harder on Chickens Than Coyotes."

Mr. and Mrs. A. E. Henderson and Mr. Howard of Twin Falls, acted as judges.

NEWS OF THE SPORT WORLD

IS BASEBALL BIGGER THAN ANY PLAYER?

Tris Speaker and Ty Cobb Were Just About Ready to Retire from Baseball Until Charges of Scandal Came; Fans Kicked Off and Cobb Gave \$75,000 and Speaker \$50,000.

By HENRY L. FARRHILL.
NEW YORK, March 1.—Until the customers began to take interest in the case of Ty Cobb and Tris Speaker, baseball managers detested themselves in connection with the old theory that the game is bigger than any player.

Cobb and Speaker were well on their way out of baseball when the well known cloud of suspicion when the paying public kicked over the old notion that a baseball customer will stomach anything and they began to ask—how come?

The instigators of the query and the devotion which the customers manifested in a letter to the editor of the game's greatest hero resulted in a \$75,000 job for Cobb and \$50,000 for Speaker and a white robe for each.

If the market price for the affection-customer was \$75,000 for a Cobb who can't hope to have many more active years and \$50,000 for a Speaker who is also creeping in the limbs, what will it register for Babe Ruth?

In a few days the owners of the New York Yankees will have to engage in conversation with a newly awakened Babe about the terms of a new contract and Broadway seems to think that the Babe will act just about what he wants.

Babe Ruth needs \$200,000. The Yankees will struggle a little, but the \$200,000 Babe needs will make any man struggle, but the Babe is in a better position to struggle back than when he signed his last contract.

When the Babe dashed out of the world's series last fall with as much glory as the big game could carry, it was suggested that Colonel Walsh, who handles the Babe's business affairs, that his client ought to be worth about \$160,000 this year and the thermometer ought all over the wall in the Yankee office.

After months of consideration, the Ruth firm set their price down to \$100,000 with a suggestion that the price would be considered and the Babe's that it was the lowest figure that letter sounded like he meant it.

Yankee owner realize that the Babe is not doing all his talking, even if he didn't write it. Colonel Walsh, multi-millionaire owner of the Yankees commented, and with his flourish he gave the contract to the Yankees.

Tris' biggest fan should will tell the owner that Jack Dempsey was a hard customer to match satisfactory when Jack Kearns was talking business for him and the astute Christy Walsh does not need any lessons from Kearns. He knows what he has to sell to the Yankees and he knows how to sell.

SUNDAY MOTION PICTURES ARE ASKED IN CITY

Overnight Asking Biller Passage of Ordinance or Reference to Voters Are Placed on File; Will Probably Be Referred of Week End.

The question whether or shall now have Sunday motion pictures in Twin Falls will probably be submitted to the voters April 6 as a result of petitions containing 282 names, filed with the city council. Should the council act for the petitioners, the petitioners for the ordinance. The petitioners for the ordinance. The petitioners for the ordinance. The petitioners for the ordinance.

The Law in the Case.

The petitioners state that they contain the names of more than 10 per cent of the total number of voters in Twin Falls at the last election and ask either an ordinance or submission to the voters. Under commission form of government, this is sufficient to force a referendum on the passage of the proposed ordinance by the council if it should desire to pass it; otherwise it must submit the matter to the voters and the council members personally seemed to think this last alternative would be adopted if the petitioners were legally sufficient. Should the council pass the ordinance, it would be subject to referendum. There is another method, which, however, has not been indicated by the petitioners, and that is the one provided by the general statutes, applicable to all cities whether under commission form of government and that is to file petitions with more names than the total of 50 per cent of the total vote cast for mayor. In case an ordinance should be passed in compliance with such petitions it would not be subject to referendum. A movement for Sunday movies under the general statute, filed here in 1916.

Other Items of Business.

The anti-cow ordinance preventing the keeping of bovine animals in any part of the city of Twin Falls, except a lot in the southeast corner or keeping more than one such in the additions was passed.

Two more petitions for street improvements were filed; one on Elm street between 10th and 11th and the other on Seventh avenue east between A and B streets.

The council authorized payment of a total of \$47,900 on improvement district bonds and interest.

ROBERTS WINS OVER SAILOR WELTERWEIGHT

BUROKLYN, N. Y., March 1.—Fidèle Roberts won the decision in a ten-round bout with Sailor Friedman at the Broadway arena last night but failed to enhance his pugilistic reputation by the victory.

Although battered all over the ring, Friedman had remarkable staying powers and in the last round displayed so savagely that the crowd was rooting for him at the end.

Roberts was entitled to the victory because he forced the fighting throughout and led in the number of punches.

Ordinance to Change

Work on enclosing the Weeco Oil station at the corner of Third avenue and Shannon street west in a modern fashion will begin at once. The matter was presented to the city council last evening by Ellis E. Bjorling, of the firm of Ernest White & Company which has the contract. Modern material will be used. It was found that the city ordinance regarding this had not been brought up to date and City Attorney E. M. Sweeley was instructed to draft amendments covering modern building material and modifying the provisions to make it more strict. The proposed material enclosure of the Weeco will be calculated.

Packard Reduces \$335

The prices of three of the most popular Packard Six models have been reduced \$335.

The Packard Six Five-Passenger Sedan now costs but \$2250 at the factory

—the Five-Passenger Phaeton \$2250

—the Four-Passenger Runabout \$2350.

Seven years ago these models were introduced as America's first fine small cars.

Seven years have seen the public accept these cars to an extent that now makes it possible to offer the sedan for less than half its original price.

Seven years have seen each car developed to meet the needs of the most discriminating fine car owner.

Today's Packard Six is with one exception—the Packard Eight—the finest car Packard has ever built.

You can safely follow it in its Seventh Year of Success. Eighty horse power and 126 inches of wheel base assure performance and riding comfort.

Those who act now may have early deliveries. May we tell you about our monthly payment plan, and the ease with which you may have a Packard by applying the value of your present car against the cost of the new one?

FILER RECORD SHOWS WIDTH OF TWO GYMS

The following story is reproduced from the Filer Record of last week and shows that Filer is not content with defeating the Twin Falls Bruins but insists that there was nothing to all that the Filer high school team was better than the Twin Falls gym. Here the Wildcats won two decisive victories and we would think that this would satisfy but evidently they are strong on arguments and they will print their side of the gym story to satisfy all concerned.

"To establish the error of publishing reports to the effect that the Twin Falls team played to a disadvantage here on account of the alleged narrowness of the local courts, we have yesterday took the pains to measure both the Filer and Twin Falls courts and established the fact that the local court was 6 feet and 6 inches wide, the Twin Falls court, the latter being 33 feet and 10 inches wide while Filer's was 35

feet and 6 inches wide. The Filer court is 22 and a half feet long while the Twin Falls court measured 28 1/2 feet in length."

A Mother, Her Child, and One Dime!

"HOW INNOCENT a drug can be—and how helpful! I'm done with purgatives that leave even a child's system so sore you can detect it in the perspiration. A little Cascarets is a perfect purgative, for my boy and I both love the candy."

CASCARETS

Many people who never have to take a laxative eat a candy Cascarets now and then. Do you know why? They have found that Cascarets soothes the whole system—relaxes and purgative of person that means everything. It prevents bodily chemistry from ever making one uncomfortably offensive to others. And what a perfect regulator of the bowels! Salts affect the lining of the bowels. Mineral oils leave a coating that the food must carry off through the pores. How much better to ease the system, and cause the bowels to expel everything by normal muscular contractions! To say nothing of the cleaner, sweeter condition that lasts for days—a wholesome condition that makes the use of laxatives quite unnecessary in January or July! Men and women whose years have brought on sluggishness often find that a Cascarets only once a week is all the toning they need. Cascarets is splendid for children, too, and they love the taste of this candy laxative which every druggist has for 10¢ and 25¢.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by The Times Publishing Company, Twin Falls, Idaho. I. H. MASTERS, Editor and Publisher.

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1918.

The question whether there is a subtle political significance in the ordinance passed last night purporting to prohibit the keeping of cows in the city limits has been raised by the hypercritical, who see in it a sinister purpose to drive a part of the population out on account of lack of intellectual brilliancy. The ordinance forbids the keeping of any "bovine animal" within certain limits. Webster defines "bovine" as "of, pertaining to, or like the ox or cow or animals of the ox kind; hence, sluggish and patient, dull." It is probable, however, that Police Judge James L. Mee will not extend the interpretation beyond members of the cow family.

The immigration restrictions have been under severe fire in congress in recent days. The present immigration law provides that the president shall proclaim quotas based upon the racial origins of the entire American population, and those people who are anxious to throw down the gates and overwhelm the American people are contending that this provision of the law is unfair. Why the old-time American should not be accorded a quota as well as some others is hard to understand. The passing of a type is always a sad thing and the passing of the American type, smothered by an incoming flood which it is hopeless for him to assimilate, would be more than sad. It would be treason to the best interests of the world.

DANGER OF RUSSIAN RECOGNITION

The trouble indicated in dispatches Thursday which the British ministry is having with the Russian Soviet administration indicates the wisdom of the course pursued by the Wilson, Harding and Coolidge administrations in refusing to recognize the Muscovite Bolshevik regime. It is all very well to say that a nation need not fear the effects of the work of representatives of another government when "boring from within" while at the same time blocking on the outside, but it does not work that way.

True, the British government is reactionary, and the Russian government was recognized by the British labor government. But the labor government, made up of moderate socialists, suffered more than the present one from Bolshevik interference and was overthrown as a result. In consequence of the pernicious interference of the Bolshevik administration in English politics, George Bernard Shaw and other British socialist writers and scholars, at first friendly, have repudiated all connection with and sympathy for the Russian regime. This position has long been occupied by the American Federation of Labor. Socialist writers like Charles Edward Russell and John Spargo, who want socialism to win by constitutional means, have been the ablest opponents of the Bolshevik and their methods. Switzerland has an unfortunate experience with the Russian Red government.

Senator Borah in his persistent arguments for recognition of the soviet government points out that Washington, with the advice of both Hamilton and Jefferson, recognized the French revolutionists. The argument is beside the point. The French regime did not want to overthrow the government of any republic. Hence it was recognized. It did want to overthrow monarchical governments and these did not recognize France under the revolutionists. The Russian administration seeks to make all nations Bolshevik. If it be said that this confuses the Communist party with the Soviet government, it need only be pointed out that in speaking of Russia in a business and governmental way, Stalin, head of the communist organization, and not the figurehead in office is always the one quoted.

DO WE WANT PROSPERITY?

Many of us living here in Idaho give little thought to our own individual responsibility or duty in furthering the best interests of the community. Its material prosperity does not bother us very much so long as we get "three squares" per day, seven days each week—yet it is the one thing we should be most vitally interested in because our own individual prosperity and well-being depend upon the general prosperity of the Twin Falls tract and Idaho in particular.

We can liken this city to a huge power house in which the "machinery" is made up of the business interests of the community. We, as individuals, are the "units of power" that keep the machinery going. If the "machinery" runs along smoothly, it is because the "units of power" are functioning properly. If the "machinery" is running badly the "units of power" ARE NOT functioning properly.

We are paid for our labor in wages and we cannot maintain that earning power indefinitely if we do not do our part toward keeping the "machinery" running smoothly—and we are all "units of power." In other words, if we are to have prosperity the "machinery" must be kept going. If we send a part of our money, which we get in return for our labor, out of the city, whether through the transient peddler or to the mail order house, we help to SLOW UP the "machinery," and that means putting the brakes on individual and collective prosperity.

We cannot save money by purchasing merchandise of any kind from the catalogue house or from the transient peddler. We can buy just as good or better merchandise right here at home for the same or less money.

Must I Continue to Suffer the Unbearable Itching? Are you one of those unfortunate who are going through the suffering of itching? You are suffering from eczema, because I cannot praise it, interfering with your working hours. I have tried many things without relief. Why not try this? For many years I have been giving relief in many forms of eczema. Thousands of letters of gratitude prove its worth.

POWER FORCES KILL BILL IN IDAHO SENATE

Measure Intended to Clarify Legality of Dibble Plan is Definitely Postponed After Its Passage Was Promised; Does Not Necessarily Defeat Plan or Some Other Form of Municipal Ownership.

Defeat by indefinite postponement in the senate committee of a bill which would have made clear without litigation as to its meaning the right of the city to enter into the contract proposed by Barry Dibble in Twin Falls is reported here. The defeat of the measure by this method is a matter of surprise here among friends of municipal ownership, who say that while it does not necessarily defeat the general plan of public ownership of the light system, under the present law at least one of the plans now being carried out by the city is being carried out by one of the plans more definitely.

Justice James R. Bodwell, in a careful opinion, has held that even without this provision the Dibble plan can be carried out, but his friends felt that it would be much better to have specific legislation. For that reason a bill was drafted by Attorney General H. Harriott and this measure was held to be constitutional by Attorney General Frank L. Stephenson, and though filed late was originally printed by the senate committee of the measure and its passage through that body seemed assured. Then it was reported that Senator M. B. Yeaman of Idaho Falls had opposed to the measure and this was followed by its indefinite postponement.

The bill does not cover the same ground as the Pike bill which permits the raising of revenue for payment of interest and sinking fund from the plant. This latter measure, it is believed by neither one necessary for the ownership of a light plant by the municipality but friends of such ownership believed the measure would carry more easily if both were enacted.

Mrs. A. R. Ostrander Dies Last Night at Home in This City

Death called Mrs. A. R. Ostrander, 72, Twin Falls, at her home at 1402 Main avenue last night at 8:30. Mrs. Ostrander was stricken with paralysis Monday. She has been in poor health and recently visited Hot Lake, Ore., for her health. Mrs. Ostrander, daughter of Mr. and Mrs. F. Holmes, was born April 28, 1872, in Brooklyn, Ia., where she spent the early years of her life. On November 20, 1897, she was married in Houston, Texas, to Mr. Ostrander. To this union two children were born. In 1907, Mr. and Mrs. Ostrander and their son William Ostrander, came to Twin Falls, where they have resided continuously until about 1923, when they moved to California. In 1926 they returned to their home here. Mrs. Ostrander spent the time of her illness here. She was a member of the Y. W. C. A. and was the founder of one of the leading societies in Twin Falls, but during the last years has not been actively engaged in business.

Mrs. Ostrander is survived by her husband, her son William Ostrander, 22, of Twin Falls, and a daughter, Miss Lenore Maude Ostrander, who is a student at the Twin Falls high school, and a brother, L. A. Holmes of Geary, Okla.

TWIN-FALLS MAN PATENTS BEET MACHINE

Clas R. Ludlum Has Invention Which He Believes Will Prove Great Benefit for the Saving of Labor in Harvesting Crops.

Nation has been received by Clas R. Ludlum, of route No. 2, Twin Falls, that letters patent have been issued on his new beet harvester, which he believes will be the work of saving most of the labor in harvesting beets.

The purpose and plan of the machine are set forth by Mr. Ludlum in his preliminary description of the invention in his application for the patent, as follows: "The invention contemplates a machine for digging the beets from the ground and subsequently conveying the same to a portion of the machine where the beets are topped in a better and quicker manner than heretofore accomplished."

"It further contemplates the use of a plurality of carriers into which the beets are deposited after having been received from the ground, the carriers conveying the beets in the direction of cutting knives for severing the tops from the beets, after which the beets are deposited into suitable containers and finally deposited on the ground in spaced piles where they can be conveniently gathered."

SUPERINTENDENT ERNEST D. BLOOM RESIGNS POSITION

Head of Schools for Past Three Years Retires; Was Re-elected with Increased Salary Two Weeks Ago.

Acceptance of the resignation of Supt. Ernest D. Bloom, who withdrew after two weeks consideration if reappointment with increased salary was the outstanding feature of the meeting of the school board last evening. Chairman E. E. Crabtree voted against the acceptance. Mr. Bloom has been superintendent for three years.

The question of dancing at the Junior prom came up as an incident in the statement of Chairman Crabtree to the board if appointed. It was suggested by W. E. Blinn that the defeat of Mr. Weaver last year grew out of his vote on the junior prom dance. With the exception of Mr. Crabtree, the consensus seemed to be that an error of judgment had been made at that time in this view. W. L. Sackett and S. L. Perrine, both of whom voted against the dancing program last year, had their attitude on the subject of dancing in view.
