

SHIP HEADED FOR 'FRISCO WITH SICK

Army Transport, Chateau Thierry Racing to Coast City with Fifty Sick with Influenza; Four Deaths Reported; Thirteen Representatives Aboard.

SAN FRANCISCO, March 22.—With at least four dead and fifty or more stricken by influenza, the army transport Chateau Thierry was racing toward San Francisco today.

The vessel was about 400 miles south of San Francisco at midnight today and was expected to reach here tomorrow night.

Details of the epidemic were lacking in the brief advice in Colonel A. V. P. Anderson, chief of staff of the Ninth Corps area. The radio did not state that the deaths were due to influenza, but army authorities here assumed that was the case since the 50 stricken were ill of that disease.

Preparations to receive the victims of the epidemic were rushed at Letterman General hospital at the Presidio today. Army ambulances will be supplemented by city and private carriers to take the ill from the vessel as soon as it comes through the Golden Gate and ties up at the army transport dock.

The Chateau Thierry will not be decontaminated at Quarantine, but will be permitted to proceed to the dock immediately upon arrival.

The transport arrived from New York for San Francisco on March 17 at the Panama canal. Several officers and their families are aboard, also 673 enlisted men of whom 40 are under service in Honolulu. The men are replacements, there being no fatalities aboard.

WASHINGTON, March 22.—The army transport Chateau Thierry today sailed with a large number of influenza victims, earlier 13 members of the house of representatives. The army transport service here today made public the names of the congressmen as follows:

Charles F. Curry, Republican, Syracuse, N. Y.

Three Vacancies Sites in Idaho for President

BOISE, Idaho, March 22.—Three vacancies in the full cabinet of the new President Charles E. Hughes were announced today. The offices have been known through the office of Governor Blodgett. One understood to be Honey Suckle Hill in Idaho; the second in the Snake Valley; the third in the Sawtooth range in the northwestern part of the state.

Successor To J. A. Lippincott Not Yet Named by Governor

BOISE, March 22.—Some one with an active and speculative mind asked Governor Blodgett what he would be doing next. They imagined his appointment to Idaho as a boundary commissioner, to talk over a proposed trade of the Star valley for the Salt River basin, might be the important move. He replied that the matter might be alive for several years but it was the least of his worries and that other, more important, of genuine urgency called for his attention. He stopped just there and failed to mention what the urgent situation was.

Well, naturally, some appointments are. A governor is rather rushed when he first takes office, with a regular cabinet and under the important cabinet posts to be filled, and the several departments to be settling along in tune with the new administration. Only three cabinet jobs are settled then which cannot wait, and some which can wait are left until late in March—which is now.

On the first Monday in April a new member of the state board of education will assume his duties. J. A. Lippincott of Idaho City will retire. His successor might be selected from any part of the territory between Weiser and Salmon.

Salt Lake Man Is Re-elected Head of Beet Growers

CHICAGO, March 22.—Steven H. Love, Salt Lake City, was re-elected president of the United States Beet Sugar Growers' Association at the annual convention here late Monday.

Charles A. Austin, Washington, D. C., was re-elected secretary; treasurer, W. L. Portlock, Denver, was elected vice president; J. E. Carlson, Colorado Springs, Colo., vice president; and C. M. Metcalf, Holland, Mich., vice president.

GRAY ADMITS KILLING OF ART EDITOR

Tells How Murder Had Been Planned by Fleo and Mr. Snyder; Explaned How Fire Was Set; Discussed Talking of Snyder's Life.

NEW YORK, March 22.—The "perfect murder" of John Snyder, editor of the magazine Motor Boat, was solved today.

Police announced they had obtained a confession from Harold Gray, chief salesman, that he and Mrs. Snyder had plotted the murder, that he had fired Snyder with a sawed-off, chloroformed him, and then made death triply sure by garrotting him with pleasure wire.

Richard Weverton, district attorney of Queens, who made the confession, called the murder the most premeditated crime in the history of the New York police department.

Gray fled after he and Mrs. Snyder had arranged the Snyder home to make it appear that robbery had committed the murder. He left Mrs. Snyder bound and fled to Syracuse, N. Y., where he prepared a careful will, covering up the murder.

One little detail, the sweetening under a mattress of the jewelry. Mrs. Snyder told the police had been given the clue that upset the whole elaborate structure.

The murder was committed about 2 1/2 a. m. on Sunday. A little after five o'clock Mrs. Snyder broke under merciless questioning and confessed.

While a four hours Gray was arrested in Syracuse. He was brought back early this morning and in New York's office in Love, Island City, where he was held until the city commissioner Metcalf left the city.

RUSSIAN POPULATION MOVING INTO CITIES

MOSCOW, March 22.—The movement from the land to the cities in Russia is being noted by the fact that the population of the towns and cities is growing twice as fast as had been expected, the census taking in 1925. The census of 1925 showed a 5 per cent increase, the report indicates.

The "moving" union has a population of 144,000,000 people, according to the census figures of whom 25,000,000 live in cities and towns and 118,000,000 live on the land.

There was an squabbling over the salary item in the budget, either, it seemed almost as if the matter were being taken up and under consideration.

As a matter of fact, when John I. Hillman, executive secretary of the state teachers' association, was "buckled" by the lower house of the late legislature for indiscreet utterances in one of his bulletins, it was his remark about the "moving" union which touched a tender spot. He intimated strongly that political bosses were arranging to divide up the position of a business man (later of an educator).

Hillman was not altogether wrong. Various signs of the "moving" union and the new commissioner is bound to (1) a man; (2) a man from outside the state; (3) primarily a business man. (Continued on Page Six)

The Manchuria put in to San Diego last Friday but the accident was not revealed until today.

PROBE BATTLE BETWEEN FROSH AND THE SOPHS

First and Second Years Students at John Hopkins University Have Scrap; Fire Hose and Guns Used to Quell Mob.

ANNAPOLIS, Md., March 22.—John Hopkins university authorities today planned a night investigation into a battle last night between freshmen and sophomores which police used fire hose and guns to quell.

A score of students were injured, three seriously, and nine were arrested. The National Guard armory was badly damaged. Governor Ritchie refused a request that he call on the state militia.

The three hour fight started when sophomores attempted to break up the annual freshmen dinner at the armory. A score of second year men were reported to have hidden in the armory and when the first freshmen reinforcements arrived and tried to rescue the 25 fellow classmates from some 250 angry freshmen.

Six policemen then joined the frothing night attack, but were driven off over the heads of the rioters and summoned reinforcements.

PALACE TURNED OVER TO BABY PRINCESS

LONDON, March 22.—Princess Elizabeth, daughter of the Duke and Duchess of York, who possibly heir to the throne, is being relieved of her discomfort at Buckingham palace where she is staying with the king and queen.

Coast Officials Believe Man Was Killed in Kansas

KANSAS CITY, Mo., March 22.—Records were today searched by Kansas City police today for a description of a man who Los Angeles police believe was killed here. The California officials have forwarded a request to local police for information regarding the death of a man said to be the brother of Baker, Los Angeles inventor.

The state department announced that after consideration, the government has concluded termination of the treaty at the expiration of the year (March 24, 1927) and has accordingly advised the government of Mexico and that in the circumstances it is deemed advisable to continue in effect the agreement which contains certain commitments and the United States to cooperation for the enforcement of laws or decrees relating to the transportation of commodities of all sorts into another country with this country has no arrangement, by treaty or otherwise, for the transportation of such commodities.

PEACHES WILL LIVE WITHOUT HER ALIMONY

THE QUESTION IS "Will Duddy Browning Take Her Bag?" Three Hundred Weekly Alms Automatically Stop.

NEW YORK, March 22.—Her devilish bubble burst, a crafty Peachess Browning, a wealthy divorcée, today and probably pondered the same questions that were bothering a few million other women: "Will Duddy Browning offer to take her back? And if he does, will she?"

With the usual separation suit decided entirely in favor of Edward W. Browning, the wealthy real estate dealer, and an appeal by the former Peachess Heenan considered unlikely, the 16-year old Peachess had no hope for future favors from her husband except through magnanimity, the court ruling which granted him a separation denied alimony for the wife and automatically the \$300 a week which she had been receiving from him since she left him.

Under the smugging treaty it would be possible for this government to permit the Mexican government to export arms destined for counter-revolutionary activities.

QUININE COCKTAILS SERVED IN LONDON

LONDON (United Press)—"Quinine" cocktails from champagne and wine instead of the usual ingredients were offered to quench the thirst of members of the committee in charge of the arrangements for London's biggest public ball of the year—the State Guild ball—when they got to draw up their plans recently.

THE ENTERTAINMENT COMMITTEES GET UNDER WAY.

WASHINGTON, March 22.—The congressional delegation of Oregon called on President Coolidge today to urge the re-establishment of land offices in the states of the West. The delegation, headed by Senator Hiram Bump, of Portland, Ore., and including Representatives Hiram Bump, of Portland, Ore., and Hiram Bump, of Portland, Ore., urged the re-establishment of land offices in the states of the West.

TWO YOUTHS REPORT NEW GOLD STRIKE

Oakland Boys Who Run Restaurant at Weepah Bring in Specimens of Gold Uncovered in Ten Miles from Original Find.

TONOPAH, Nev., March 22.—The report of a new gold strike in Nevada was given today by two youths who had been prospecting in the Weepah area. The boys, Harry and Walter Brown, both 17 years old, had been prospecting in the Weepah area for some time.

They said their strike was about 10 miles away from Weepah. The boys had been prospecting in the Weepah area for some time. They had been prospecting in the Weepah area for some time.

Meanwhile work of making a book out of text at Weepah continued and the market was taken down. A new flock of gamblers has arrived and undertaken attempts to get up their gambling tables in the town which flourishes under the name of a street where gamblers usually gather.

Grove of Custer County Granted a Habeas Corpus Writ

BOISE, Idaho, March 22.—The Grove of Custer county was granted a habeas corpus writ by the Idaho supreme court late Monday after the district court had tried to pronounce judgment three years out. It was held by the high court that the district court had no right to keep the son of a wealthy Alton Grove for an indefinite period.

Bodies of Aviators Will Arrive Aboard Steamer Tomorrow

WASHINGTON, March 22.—The bodies of two aviators, William W. Benton, United States army Pan-American flier, killed in an airplane crash at Hobe Sound, Fla., and a young man who was killed in a crash at Hobe Sound, Fla., will arrive at Hoboken, N. J., tomorrow on board the steamer Vaudreuil, the war department announced today.

Beethoven Week Observed Throughout Entire Nation

The observance of Beethoven week began Sunday in the schools, colleges, civic organizations and churches throughout the country, and will play its part in the week in observing the works of Beethoven, and by so doing give a voucher to the future of their interest in the music of Beethoven, so that there will be truly a people's celebration. But, many will speculate upon Beethoven—the man.

Who is really known as the creator of the nine symphonies, the 17 quartets, which are the pilgrimage of Beethoven's genius from early manhood up to his death, the mighty sonatas and concertos? Too much research has marred the features of Beethoven. It is time to redraw the picture. Frederick Niecks has been discovered by the research staff of Beethoven week, which helps to separate the wheat from the chaff.

NORTHERNERS STORM GATES OF COLONY

WASHINGTON, March 22.—The national convention of the Northern Colonies of the United States, which is being held at the Hotel Hamilton in New York City, today opened its sessions with a report from the executive committee of the organization, which had been elected at the annual meeting in New York City last year.

Chinese Rush into Foreign Settlement for Safety; Engage in Brief Battle with British Durhams; Two Injured.

SHANGHAI, March 22.—(U. P. file)—Northern Chinese soldiers today stormed the gates of the international settlement in the vicinity of the British Consulate, which had been held by white British soldiers into Rance Road and then engaged the British in a brief battle.

Members of the Chinese were killed and two of the British, members of the Durham Battalion, were wounded.

SOCIETY

Spooning In Wisconsin Town Regulated by Cops

WIN FALLS, Wis., March 22.—Spooning is perfectly proper in Racine, according to Chief of Police H. C. Baker, and love making couples will not be molested by police, as long as they live up to the rules for the proper conduct of "necking" parties.

"Lovers may wander about arm in arm, or even occupy park benches the rules state. They must, however, remain within the bounds of propriety."

"They may even do their spooning in perfect view, subject of course to the discretion of police officers when they come to see if they are within the area that set down by the police."

"This limit is a 'mature' age," it is understood that "mature" means over 16. Chief Baker declares that last summer, police had considerable trouble with couples under that age parking until the small hours of the night. "The full assistant parking, if the sponsors are under that age, will be strictly enforced," the chief states.

"However, spooning always has been more or less tolerated. Chief Baker declared. Under the new rules it will be tolerated, up to midnight, at a stroke of 12 is the deadline, however."

"There is one thing, however, that the police are strictly against, and that is, unassured driving. One arm around a girl in all right, police, feel, as long as it is the right girl the right place, the right time, and everybody concerned is willing."

"The time and place, however are not in a moving car, unless the couple is in the back seat. No motor will be shown anyone driving, with one arm extended the width of a companion."

"The 'soft' opinion," in the rules is very firm. "The cannot be set and last rules outlining what constitutes properly, so the chief is leaving that question up to the individual officers. If they think everything is nice, and calm, and as it should be, well, everyone has a right to steal a kiss in the dark."

MOVIES AND THE EYES

If you can read, write or do other work without lifting your eyes, there is no harm in going to the movies, specialists in eye diseases say. Tests with 125 persons showed that those who suffered eye fatigue after watching a motion picture film, also became tired when doing other work that affected the vision, so that the movies were not responsible for the trouble.

THE JOKE TURNED

A motorist touring in Ireland one day met a donkey who was driving a donkey. Finding he would have a little fun at the man's expense, he said, "My friend, what is the difference between you and a donkey?" "Oh, not a great deal," promptly replied the Irishman. "Since the donkey's in the shafts in Wau and on the seat in the other."

HOLLISTER Pimples, Boils, Skin Eruptions

Skilled physicians recognize the appearance of pimples, boils and other skin eruptions as being an indication of an abnormal condition of the system. This is why so many thousands have been cured by taking a course of S.S.S. You owe it to yourself to try S.S.S. It helps Nature build up red corpuscles, improves the processes by which the blood is nourished. It is time-tested and reliable.

"I suffered from impure blood—my neck, and I had lost so much weight, and was also bothered with a headache and that flickered terribly. I also had boils one after another. I tried other kinds of remedies, but nothing did me any good until a friend advised me to take S. S. S. Now I feel well and am getting along fine. S. S. S. stopped the itching and it cured me of boils. I advise all weak and run-down people to give S. S. S. a trial. It cleans the skin and makes you strong and fits you with energy." Mrs. J. W. Harber, 1237 Walnut Street, Cincinnati, Ohio.

S.S.S. is made from the fresh roots of medicinal herbs and plants and is prepared in a scientific way in a modern laboratory.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

FRENCH DICTATOR PROPOSES HE BE ENGLISH DICTATOR

LONDON, March 22.—An "infatuated dictator" for the British League is the suggestion put forward here recently by Dr. S. D. Danington, famous Paris physician.

During a lecture to prominent London doctors Dr. Danington urged a national campaign in Great Britain led by himself, against influenza.

The task, he said, would consist principally of special treatment of complicated cases in isolated hospitals, but only that of his own profession.

At the end of the lecture the chairman, an English doctor, stated that Dr. Danington believed in making known any "discovery" and urged that would benefit humanity and asked Dr. Danington what special cure he possessed that would justify his being made "dictator."

Dr. Danington replied that during a war one did not ask a general what his plans were. The meeting took an action on this suggestion.

INTERNET BREAD—Have you tried it? Do you eat it regularly? It is usually a solid firm loaf; beautiful, brown crust; fine texture and delicious flavor.

MOTHERS' BREAD—For those who prefer a very light, soft, fluffy loaf, we have our MOTHERS' BREAD, the same dough as INTERNET BREAD but baked by the ordinary process. It sells 2 for 25¢. Specify MOTHERS' BREAD on the market order. You then get BUTTERNUT quality in the soft, fluffy loaf.

WELL'S SOLD OUT

WELL'S, Sat. March 22.—Ten thousand dollars' worth of "Well's" was uncovered in the Trout Creek country about 20 miles northwest of Contact, the latter part of last week.

It is little, a prominent feature of the copper camp, which was in Wells Saturday.

The strike was made by Pat Dunn. The rich find is in a narrow vein about an inch wide, but gives promise of developing into something big, on the mountain at Wells by ground, immediately surrounding the strike and carry the hope that it may lead into the making of a great copper camp.

E. M. Johnson, a well known resident of Wells stated this week that he had spent much time in the Trout Creek country in days past and that a number of times he had found small deposits of gold, but thought never striking it in a great quantity. He follows, however, that the yellow gold in there and around the present strike is the starting point for a big gold camp near Contact.

Sour Stomach

"Phillips Milk of Magnesia" Better than Soda

Instead of soda beverages take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, easy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently eases the souring action from the system without purging, belching or flatulence.

What's the odds? asking young Lydia. "When I'm one a gentleman nobody will take notice of that."
