## PLAYLET GIVEN AT KIMBERLY WELL RECEIVED

Special Dispensation: The Times KIMBERLY, May 2.—The play, "An Old-Fashioned Mother," given by the ladies of the Methodist church Friday evening in the high school auditorium, was largely attended and well received.

The play was the story of a young woman and her thoughts and sometimes heartlessness of children toward their old and "old-fashioned" mother. The strain of pathos was enhanced at intervals by humor, and in the end everyone must be happy by the regeneration and return of the son.

The costumes and furniture were all in harmony with the time of play. The village choir added much to the entertainment of the evening by the singing of old songs and the novelty of their costumes.

The evening dinner was given by Kimberly ladies. 25-26-year-olds were seen on the stage and other agencies that were raised for settlement's sake were worn.

Mayor and Mrs. Jobler, Mrs. E. B. Johnson and Mr. and Mrs. Graham from Twin Falls were among the out-of-town visitors.

Supt. Don D. Gibbs has sold the 35-acre acreage that he purchased last Saturday from Charles Deater to Mr. Dumaine, for a consideration of \$7,000.

Miss Vera Olson, daughter of Mr. and Mrs. Olson, is a national in the Twin Falls county general

hospital having undergone an operation. Her condition is reported to be the cause of much concern.

The junior high school students and many members of the faculty enjoyed a picnic dinner and swim at Artisan Thursday evening. The members of the faculty making the trip: Messrs. Gibbs, Berkwith, Hill, Farlow, Mrs. Proctor, Misses Tracy and Bruce.

A number of nephews and friends of Mrs. J. B. Weller gave her a pleasant surprise last Tuesday evening. The party was a costume party, the guests being dressed to portray hard times. The dinner was also a "hard time" affair, consisting of corn bread and beans, cake, fruit and coffee.

The evening was spent in playing cards, other games, and a social hour. The party was given for the best costumes, Pauline Hill being judged the best costume lady, and Miss E. Pyle the best for the gentlemen.

The guests who enjoyed the evening were: Mr. and Mrs. J. B. Weller and daughter, Inez; Mr. and Mrs. T. L. Pyle and children, Pauline, Lucille, and Kay; Mr. and Mrs. Frank Johnson and Frances Boyd; Mr. and Mrs. Ray Moreland and daughter Jean; Mrs. J. B. Weller and Misses Shirley, Sarah, William, Nellie, and Mr. and Mrs. Roy Weller.

## GENEALOGY IS MAIN THEME AT L. D. S. MEET

Speaker DeBaro It is Based on Invaluable Faith in Revelations to Joseph Smith; Twin Falls Is Praised.

At the session of the L. D. S. quarterly conference here Saturday, a most interesting and valuable work and genealogy, particularly the best method of keeping same with terminology, by Elder Richard H. Sumner, of Salt Lake City.

The same line of thought was followed in the Sunday sessions at the high school auditorium. It was stated that this work is the result of the implicit faith placed by the Latter Day Saints people in the revelations given to Joseph Smith, the prophet.

In his address Elder John A. Wilton, of Salt Lake City, said while he had visited this section of Idaho for the past 25 years and had been interested in and connected with the development of the lower Snake river project.

He paid high tribute to the record made by the city of Twin Falls in its efforts to make all the views of modern times. Such a record, he said, was an evidence of the fine character of the people who live here. He declared that he regretted much that nature had been made in the effort to keep pictures shown closed on Sunday.

Elder Whitson said that during his years as an educator at least 25,000 young students had received their education under his directions, and now, by observing the accomplishments of these, he was convinced that the greatest enemies of young people are selfishness and pride. He urged strongly that all unite in keeping the Eighteenth amendment in the constitution. It is founded on sound principles, and is for the good of the people.

The M. I. A. held session in the evening was featured by many fine musical numbers and readings. The evening subject was "The Restoration of the Gospel." Elder Lloyd DeWitt was principal speaker. The attendance on Sunday was large at all sessions, and the singing was declared high class by the visitors.

## Nation's True Wealth

The real wealth of the nation does not consist in its money, in its value of its trade or in the extent of its industry on Sunday was large at all sessions, and the singing was declared high class by the visitors.

PONTIAC SIX NOW MADE IN NEW FACTORY

PONTIAC, Mich., May 2.—The recent removal of the Pontiac Six production machinery from the Oakland factory to the new \$10,000,000 Pontiac plant is a vivid illustration of the length to which efficiency has been developed in the automotive industry.

Until the completion of the new Pontiac plant, the Pontiac Six was where it was born in more than a year ago. Almost 100,000 Pontiac Sixes were produced in the Oakland plant. However, as a demand for the Six increased, more and more space was required for the machinery to manufacture it, as well as to meet the Six's own increasing demand.

THE RELIGIOUS ISSUE.

In the exchange of views between Governor Smith and Lawyer Marshall of New York the general public will not be greatly interested in their differing interpretations of church dogma or in the apparent conflict between the numerous authorities they quote. The dogma may be as strict as Mr. Marshall's interpretation or as liberal as Governor Smith's belief to be. The dispute from a practical standpoint is not very important. Not only in the church but everywhere there is much of the dogma that is not only not to be followed but is being actively opposed by the shoulders of those nominally under its authority. We are, after all, a pretty free and free-thinking people, as all the churches found, and there is not a single church orator South himself, who would not let the individual conscience be the guide. Governor Smith's letter, we think, makes it very clear how his conscience guides him in all matters civil and political. His attitude in the religious matter is that he "recognized no power" in his church or in the church's dogmas or in its constitution, including its bill of rights, or the enforcement of laws made under it. It is not the duty of the state to support a church, in a state church or public church, in a state church or public church, and bluntly opposes our meddling in the internal affairs of other countries for religious or other reasons.

DOÑ JUAN. CHAPTER V (Continued). It was amusing to find that this opponent of his was even better than he. After a moment he realized that the man who was fighting for his life, a thing he had never before been forced to do.

From the bushes Adriana, her maid and her father watched breathlessly. And Varanese, realizing that the man who had happened if this new friend had not come to their rescue, gave thanks to his God for Adriana's aid of the young Spaniard into his life. Adriana's maid remained across his chin. His hair was drawn low over his eyes. Don Juan's eyes were fixed on the young man's face. He was so demurely calm, so self-controlled, that he knew that it was not Varanese, as he had thought, but a man who was likely to make other work of him.

# BULGIN REVIVAL IS CLOSED; HUGE PURSE GIVEN EVANGELIST

MAJESTIC  
Union Meeting of Five Protestant Churches for Five Weeks Drew Record Attendance; Dr. Bulgin Compliments City and Urges Pulling Together; About \$2500 Is Raised.

By I. H. MASTERS.  
The revival which has been going on for the past five weeks in the big lecture hall came to a close last night. It is estimated that there have been conversions for many years and the number of converts have not been given publicity yet. It is estimated that more than 200 have come forward. About twenty-five marched to the front last evening and took Dr. Bulgin's hand by the hand and kissed him. They would lead different hymns. Yesterday was Bulgin day and all three of the services were devoted to him. The close last evening according to Frank W. Black, treasurer was \$2300 but three times as good deal to be put in in religious music yesterday.

Leaves Imperial.  
Few evangelists have made such an impression upon a community as Dr. Bulgin. He has been here for the talk of the town and some have almost as strong as others. He is a friendly and his personality is a great asset. Charles Clark with a handsome "Prayer Book" on behalf of the choir and the young people. Mr. Roy Gorum before was a handsome and his personality is a great asset. The children before the last service.

The morning service in the tabernacle. Rev. C. C. Curtis took charge and secured a large sum in pledges. He said that for Dr. Bulgin and his workers and stated that Dr. Bulgin is one who might well grace the United States senate and could not do his services for \$50,000 a year. Curtis said that Rev. Curtis added, "He came to Twin Falls without a suitcase and we don't want a man to come and give us a revival. Let us see that those on the outside will see that we love the souls of men." Bulgin will not be here. The ministers of Bulgin had asked that Dr. Bulgin and his party not be invited to the city. He will be invited to some compromise asked by the Bulgin ministers. Dr. Bulgin said that he would not be invited to a revival for them.

Speech on Evolution.  
Dr. Bulgin spoke on evolution in his morning address and stated that "The Bible and evolution are not in conflict. Evolution is a selfishness because it teaches that the strong kill off the weak." Dr. Bulgin stated that the Bible is occupying space to the world. A dark day for America when all the evolutionists are speaking of the miracle. Dr. Bulgin stated there were four words in the Greek which refer to a miracle. The words are wonder, sign, work and power. "Wonder is an event compelling attention. It is a working wonder and induces supernatural power. Work is accomplished by a supernatural power. Sign is a sign of a Divine nature." Dr. Bulgin stated that last year 400 miracles were reported from active workers under 35 years of age and asked "Is that proper distribution of wealth?" "The world is growing worse spiritually. We spent a total of 26 billion for the world war and the world is not better but it is worse and only four per cent of the legion men to be church."

Dr. Bulgin thanked all those in Twin Falls who helped to make this musical success and named individuals who had done well. He especially thanked the pastors of the churches, the ushers, the choir, the ladies and others who assisted in the event. He thanked Margie Switzer for use of her lot which the tobacco stood. The leading speaker Rev. A. Pearson presided and stated that five weeks ago he stood on this platform and introduced these workers with the Bulgin party. Dr. Bulgin stated that he loved Twin Falls and its people and urged them in his closing remarks to get together, work together and hang together.

Mrs. J. D. Smith, who is 77, has attended every one of the Bulgin meetings. This is the best record as far as we know.

**THREE ARE KILLED**  
By United Press.  
WESTFIELD, N. Y., May 2.—Three men were killed and another injured in a collision of a freight train and a gasoline tanker car. The train was moving southward on the main line, while the tanker car was being pushed under the car.

**Exaltio Religion**  
The Exaltio in Greenland and Labrador are with few exceptions non-British. The native religion is a vague animism and consists of a belief in good and evil spirits. It is a belief in the spirits and in heaven and hell. A child's faith is placed in native wizards, who are believed to be intermediaries between mankind and the beneficent spirit world of the white spirits is prevalent.

**Old Collections**  
A collection which is representative both in scope and value has lately been sent to the American Museum of Natural History by Dr. W. E. Woodman, Andrews, and his collection. It consists of 1500 skins of various birds.

# 104. Chops Wood

Chopping wood every day is just like eating three square meals for the million mark for the first time in the week of March 12 or nearly nine weeks earlier than last year. While objection may be made that shipments of coal in anticipation of a strike are largely responsible for these heavy loadings, the movement of merchandise and miscellaneous freight has continued at record levels.

With the United States Steel Corporation operating practically at capacity and the industry as a whole averaging around 93 per cent at the end of March the month will continue to bring a sharp rebound for steel production.

General building continues to hold up, as shown by February contract awards for 37 states which were only 3.4 per cent below those of February last year.

Dr. Bulgin, who is 77, has attended every one of the Bulgin meetings. This is the best record as far as we know.

# GENERAL BUSINESS CONDITIONS

By GEORGE E. ROBERTS  
From the Monthly Bank Letter for April issued by The National City Bank of New York

**The Further Decline of Prices**  
The general tendency of commodity prices continued downward, as indicated by Professor Fisher's index of 205 articles which in the week of March 29 touched 129.6 per cent of the 1913 average, the lowest in five years and almost down to the post-war low point of 133 reached in January 1922. Much has been said of the decline in agricultural prices, but non-agricultural prices have been falling too. In January of this year the average of non-agricultural items included in the Department of Labor's wholesale price index stood at 156 per cent of the 1913 average, down 5 per cent from a year previous and practically equaling the lowest point touched in the depression of 1921-22. The decline of prices, it is interesting to note, has not been confined to this country but has been in evidence in foreign countries as well.

**The Improvement in Textiles**  
Good reports are still to be had from the cotton and silk branches of the textile industry. Cotton mill activity has continued to increase both in New England and in the South, with slight expansion common in the southern sections. Reports compiled by the Association of Cotton Textile Merchants of New York show that, while production of standard textiles during February increased 8 per cent over February a year ago, sales increased by 37.3 per cent and shipments by 12.6 per cent. Stocks on hand on February 28 were 27.6 per cent below stocks on hand February 28, 1926, while finished orders at the close of February this year were 62.6 per cent greater than on the corresponding date a year ago. All in all, the cotton industry regards the outlook more favorably than at any time for several years past.

**Silk manufacture also is active and reports of artificial silk is in strong demand.**  
Woolens, on the other hand, are in the least satisfactory position of the principal textiles. Emphasis was laid on the difficulties which the industry has been experiencing by publication of the annual report of the American Woolen Company for 1926.  
Those who are thinking that agriculture is having a momentary respite will get a different view by reading the report of this company, which is the largest single factor in the woolen industry. It had a deficit after dividends for 1926 of \$11,000,000, in 1925 it reported dividends on its common stock, but had a deficit notwithstanding of \$2,555,000,000, in 1924 it reported a deficit of \$7,227,500. Upon the publication of this report the preferred shares, which have paid 7 per cent for many years, sold downward 25 on the New York Stock Exchange and the common touched 18 1/4, the lowest price in 34 years.

**Agriculture**  
The Government's report of March 15 on grain stocks showed 54,046,000 bushels of wheat and 11,000,000 bushels of corn and the figures of last year and good crop prospects. The stocks of corn and wheat also are unusually large and prices of these grains declined to the lowest figures on the crop. The report makes the interesting estimate that only 16 per cent of the last crop corn will leave the country in which it was grown and only 24 per cent of the oat crop. These figures emphasize the fact that there is but a limited market in the cities and the farms. They must be fed out on the farms, and the low prices of hogs are clearly due to the falling in the amount of hogs, pigs, and cattle on the farms.  
The dairy industry on the other hand shows a picture of declining production of other products, in accordance with all reports of the dairy industry in 1926 had one of the most

prosperous years in its history, its profits being increased by the low prices for the feed grains. Luard's Dairyman, in his review of dairy markets in 1926 reported that the increased production of 1926 was the highest since 1914 and that for ten years had had an important part in increasing dairy farm returns. The total value of dairy products above a very satisfactory condition prevailing in the industry. The spread between the cost and market milk and price received was \$1.24 in 1926. This is 21 cents above 1925 and is second only to a few years in 1919 and 1920. The spread between the cost of milk and price received was 1.24 in 1926. STOCKS UNDER STRONG ATTACK

By United Press  
 NEW YORK, May 2.—Describing the market, the Wall Street Journal's Financial Review said today: "Having lost for the week-end in a fourth frame of mind, professional operators opened the week on the stock exchange with a vigorous drive on the principal speculative stocks. This attack was based on the belief that action of the market last week suggested that its speculative reaction was imminent. Many commission houses expressed the same opinions in letters to their clients over Sunday. In conclusion of the serious character of the market, the Review said: 'The early dealings in the week-end were forced to the reaction and the week were subjected to a strong attack.'"

# COMMERCE CHAMBER SELECTS COMMITTEE ON STATE CHAMBER

Movement is Started in Twin Falls to Secure Members for Idaho Organization; Other Matters Are Deferred Until Return of President Asher B. Wilson.

The board of directors of the Twin Falls chamber of commerce at its noon luncheon at the Recreation today appointed the following committee to introduce Mrs. J. S. Strongfellow, representative of the Idaho chamber of commerce, among merchants: W. A. Patrick, George E. Balth, Roy W. Gledner, C. E. Lind and Harry B. Smith. Mrs. Strongfellow is making an extensive campaign for members. Other positive action was considered on a number of matters on which, however, no action was taken pending the return of Asher B. Wilson, in whose absence the meeting was presided over by Alvin Harboure. President Wilson, with his wife, is in New York today to meet his daughter, who has just returned from a trip around the world on the floating university. Mr. and Mrs. J. A. Barrett are there to meet their son Harold, who is also returning on the university. They are all going to the meeting of the United States chamber of commerce in Washington, where, among other things, they will eat Twin Falls potato pies at the chamber luncheon.

## EARL'S DEPARTURE

"Goodby, Earl," cried New York sidewalk throngs in response to this "going away" smile of Earl Carroll, theatrical magnate, farewell a copy nation on his lapel, was leaving the Atlanta postoffice. He was walking into a New York railway station in custody of a deputy marshal as this picture was made.
