U. S. REFUSES TO MODIFY DEBT PACT'S

Gray Shows Jurors How He Killed Snyder

SWINGS IRON BAR IN COURT

Uses Weight with Which He Killed Victim; Says Mrs. Snyder Urged Bigamy.

By PAUL W. WHITE, United Press Staff Correspondent. COURT ROOM, LONG ISLAND CITY, N. Y., May 5.—Henry Judd Gray today showed the jury exactly how he killed Albert Snyder with what Albert Snyder was killed and showed a juror and court-room full of spectators how the murder was done.

Swings lightly, he had just finished his direct examination, featured by a declaration that Ruth Brown Snyder often during their clandestine meetings urged him to commit bigamy and marry her and was taken over by Mrs. Snyder's lawyer, Dana Wallace, for questioning.

The attorney took up the window weight which had caused the direct examination exhibits before the jury since testimony began, and handed it to Gray, who seemed for a moment to hesitate in taking back into his hand the weapon he had wielded with such deadly aim. Wallace told him to take off his spectacles.

"Show how you struck Albert Snyder," commanded the direct examiner. Gray raised the weight over his shoulder, grasping it in both hands. He brought it down with a heavy thud, instead of with the resounding crash which the court room instinctively had set itself to hear.

CAUSE OF DELAY

After confabulating various difficulties while back, the trial might well be expected to be over by tomorrow evening.

FLOOD THREATENS 13 NEW AREAS IN SOUTH

Homes of 300,000 Persons in Path of Waters Which Engineers Declare Will Break Through Levees in Short Time.

DANGER ENDS IN NORTH SECTION

VICKSBURG, Miss., May 5.—The crest of the Mississippi river flow has passed Vicksburg, engineers announced today. All danger of new levee breaks to the north has gone and the real battle shifts to the south.

MONROE, La., May 5.—The levee protecting Bayville from the Arkansas river overflow broke today and water began to rush into the north section of the town. The entire town will be covered before tomorrow, it was expected.

NEW ORLEANS, May 5.—Thirteen additional Louisiana parishes in the southern part of the state, inundated by more than 200,000 persons, provide new danger points in the flood area today.

JEKING by the force of the flood which has snapped levees on the crest advanced, engineers believe, nothing can hold the dike at the Bend above Simsport. If a break occurs there, practically all of the southern parishes on the west bank will be inundated, engineers believe.

PARISHES threatened by the southern sweep of the river are: Avoyelles, Pointe Coupee, St. Landry, West Baton Rouge, Iberville, Terre Acadee, Assumption.

TROOPS GUARD SCENE OF RIOT

Aarkansas Mob Lynchs, Burns Negro Who Confesses Attacks.

LITTLE ROCK, Ark., May 5.—The Pulaski county grand jury today prepared to make a thorough investigation of the rioting yesterday of John Carter, negro, as members of the Arkansas National Guard took charge of the rioting.

Troops were patrolling the streets today, guarding the negro against any retaking sentence of white persons to that section of the city where Carter's body was buried.

A mob of 400 persons, headed by a man in the city yesterday, wrung a confession from him that he had assaulted Mrs. B. B. Stewart and her daughter, Gleason, and turned the negro to a telephone pole. The body was riddled with bullets, both at automobile and straggled nine miles to Little Rock.

There the bleeding corpse was dragged through the principal business section of the negro belt and buried in the heart of the black district. The mob returned through the section, threatening violence to colored residents. At midnight, all was quiet, though there still a large crowd down town.

John Gordon Peay, foreman the Pulaski county grand jury, today announced that a thorough investigation of the affair would be made.

Peay had been high here as a result of the confession of Lonnie Dixon, 17-year-old negro, that he confessed to the murder of Peay, McDonald, 11, and had hidden her body in the helly of a church. The body of the girl was found Saturday.

POPE EXPLAINS SMITH STAND

Vatican Denies Intent to Meddle in Presidential Race.

IN THIS IS MOHAWK, United Press Staff Correspondent. (Copyright, 1927, by United Press.) ROME, May 5.—The official and exclusive statement of the holy see's attitude toward the presidential candidacy of Governor Alfred E. Smith of New York was obtained by The United Press today from a qualified spokesman for the Vatican.

Among the points made by the spokesman for the Vatican were the following:

- 1.—The attitude of those Americans who view Smith's candidacy as being the candidacy of the holy see was "most unfortunate."
- 2.—The holy see does not know of any reason for desiring that a Catholic should be president of the United States.
- 3.—There will be no meddling on the part of the Vatican in the campaign.
- 4.—The holy see has only expressed satisfaction with the attitude assumed by the president of the United States.
- 5.—It is in the policy of the holy see to abstain from all political activities with the various states.

TERSE NOTE TO LONDON

Washington Will Not Reopen Negotiations, Kellogg Tells England.

By JOSEPH M. WANSLEY, United Press Staff Correspondent. WASHINGTON, May 5.—The United States has no intention now, or any time in the future, of negotiating or modifying its war debt settlements, it was made plain today.

Winston Churchill's criticism of a letter Secretary of the Treasury Mellon recently sent to President John D. Hillen of Princeton University, outlining the administration's debt policies, failed of its purpose. It that, however, was to require debt modifications with America.

Domestic Discussion. Secretary of State Kellogg sent the following terse note to the British foreign office:

"The government regards the correspondence between Sir Mellon and Mr. Hillen as a purely domestic discussion and does not desire to engage in diplomatic exchanges upon the subject."

Anal Secretary of State Kellogg said in a statement that all debt agreements have failed and no terms which are likely to become a serious economic burden on nations that had borrowed from America.

Great Britain calculates for war debt differently from methods used by the Treasury in that it excludes war stocks debts from the term "called war debts." Mellon said. When similar methods are used, the totals arrived at by both countries are identical.

Disagreement Certain. "Again," he said, "there is bound to be disagreement with the American government in its increasing payments received from Germany include all payments, while the British government is strict in its refusal to pay debts strictly on account of reparations and Helms' war debt."

VANZETTI ASKS HE GET JUSTICE

By United Press. BOSTON, Mass., May 5.—A remarkable petition signed by Bartholomew Vanzetti, asking "not for mercy but for justice" for him and Nicola Sacco today had been handed to the secretary of the Massachusetts State Prison at Joliet, Ill., by the state attorney.

Vanzetti's petition was filed with the state attorney by the state attorney. Vanzetti, before whom Sacco and Vanzetti were tried with grave offenses against judicial ethics.

Sacco did not sign the petition. He was arrested in 1920 in connection with the men explained that it would be against his beliefs and principals as an anarchist to sign a petition for an intervention to save him from death. Seven years of imprisonment for a crime he denied, reduced him to a condition of discouragement, and he an inner care to fight for life.

It was said that the petition was for both, and the governor was asked to consider it as coming from both.

BOXER EXPIRES AFTER WORKOUT

By United Press. SAN ANTONIO, Tex., May 5.—Frank Ray, 32, Los Angeles, broke his neck in a boxing workout today, and died unconscious at the conclusion of a workout last night in the Continental Hotel. Cause of death has not yet been determined.

It is believed that Ray's injuries were the result of a blow to the head which he had drunk a short time before he made him ill. The doctor who treated him said that he was not sure if he was or not, and that he was training that a blow to the head, near the top of the head.

Throughout the flood-stricken Mississippi valley scenes like this picture above are characteristic. More than 100,000 will be homeless. President Coolidge, in behalf of the Red Cross, has appealed to the nation to contribute to the homeless and starving. The top and right (below) are shown refugees in a recently constructed relief camp near Hickman, Ky. At the lower left a Salvation Army shelter is shown with some of the first refugees that arrived in Memphis, Tenn., from flooded districts.

FARMER HELD AFTER IDAHO WOMAN IS SHOT TO DEATH

BOISE, Idaho, May 5.—An inquest into the death of Mrs. Lily Fraser at Star, west of here, who was killed last Wednesday, was being held at Star today. Herbert O. Nicols, a farmer, is being held in connection with her death.

Nicols went on a shooting spree Wednesday and is believed to be depressed. He took several shots at a number of Star residents and then went to his wife's home, from whom he was separated and whose life he had previously threatened. Mrs. Nicols was at home and Mrs. Fraser was visiting her. When they saw Nicols, he fired at them and they both ran out of the house. Mrs. Nicols, succumbing in getting away, Nicols, according to the authorities, then shot at Mrs. Fraser, the bullet penetrating her heart.

PLAN NO SHARP ACTION IN CHINA

By United Press. WASHINGTON, May 5.—The United States government understands Great Britain, France, Japan and Italy have accepted the American view that no drastic action should be taken by the powers in China in connection with the Nanking outrage, state department officials said today.

Following the government's decision not to join in another joint note demands to the nationalists at this time, it is understood, the other powers have now rejected the alternative plan for action by the four powers without the United States.

OLD TIME SHEIK HAD MANY CURLS FROM FLAPPERS

By United Press.

FULTON, Mo.—There was a time when girls thought their curls for Sunday hazy, riding with a lock of hair, according to J. Roy Tucker, sometimes called "Fulton's original sheik."

But that was when they had enough hair to curl once a week and never miss it.

Once popular with the girls, Tucker has attracted renewed interest with the revelation of a collection of 100 curls from a many heads, buried in a trunk full of relics for 30 years, and—renewed—precious quantities of his youth.

Tucker was a student in Westminster college 30 years ago, owned an English pinstriped buggy and two horses.

M'GRAW LIKELY TO UNTIE PURSE STRINGS TO STOP LOSING STREAK

New York Squad, Pennant Winner on Paper, Hits Tobacco Hitters are Going Strong.

By United Press.
NEW YORK, May 6.—What's wrong with a ball club which has a powerful attack, good fielding and a strong defense and a fielding defense as soon as any, but, nevertheless, loses ball games?

There's a good pitcher in Philadelphia, Carlson, but try and get him away from Sully McGraw. The pitcher of the Giants is really terrible. Looking over the staff of Brooklyn, Boston and Philadelphia clubs on their early schedule, Rogers Hornsby, captain of the Giants, said:

There are only two ways to get the apparently needed pitcher, purchase or trade. With the squad as thoroughly patched it is out of the question to get a rookie without straining an arm. No wonder, for the club will have to be able to strengthen a pennant run leader and the Giants haven't a leading material to suit the needs of a club with surplus pitchers.

The Giants admit pitcher, Tony Knouffman from the Cubs. He is said to be in had with the management. But Tony Knouffman is in the mood to get rid of him to get what plenty from the Giants for him.

McGraw was said to be after Jim Genowich from the Braves before the season started. Genowich has not looked so good this season. He might do better with a strong hitting club, however. There was a time before the season opened when the New York club could have had Adolf Lutzke of the Cincinnati Reds if the Giant owners had been willing to pay a few more thousands.

It is improbable that the Red would do business with the Giants now for two seasons. They would be big hearted in helping a strong club and McGraw wouldn't part with a player who would solve their problem.

Tales of Eastern Life
"Monday Night" was a collection of eastern tales first known in Europe in 1701, and since translated into most of the languages of the civilized world. The tales are supposed to have been told in portulans by the sailors by his surname, Sior-lorance. They give a vivid picture of Arab and Persian life, manners and customs.

The Chicago White Sox got six in the fourth inning for the eighth and two in the sixth inning for an 11 to 5 victory over Detroit. Tom Gibson, their pitcher, distinguished himself by striking out four Chicacons in a row in the second and third innings but couldn't repeat in the fourth.

When the Cincinnati Reds finally succeeded in getting the Chicago Cubs out in the third inning, the score was 10 to 4 against them. The Chicagoans had scored eight runs in that inning. The final score was Chicago 12, Cincinnati 8. Earl Webb, "Big Red" of the season, led up in this population by "BUD," a "hair-cut" double and a single.

Cleveland had a hot day at St. Louis, losing to the Browns, 12 to 2. Laves, Shute and Collins who pitched for the Indians were equally ineffective. The Browns scored six of their runs in the sixth.

THIRD HUGE EFFORT INAUGURATED TO WIPE OUT WAR AFTER-EFFECTS

By HENRY WOOD
(United Press Staff Correspondent)
GENEVA—With the meeting here of the long heralded international economic conference of the League of Nations, hopes were high that the foundation "top" at last had laid for the "United Economic States of Europe."

The conference, which was convened as the result of French initiative, is the third great effort that has been made since the war to get Europe back on its feet and to reorganize the economic machinery of the world back on the basis of pro-war organization and production.
The first of these three efforts was the financial conference of 1920 held at Brussels under the auspices of the League, while the second was Lloyd George's famous Genoa conference.
The present conference, under the presidency of former Belgian Prime Minister Theunis is probably the largest international economic assembly ever met. It is being participated in not only by all of the members of the League of Nations but also by almost of the few outsiders, including the United States and Turkey.

The first of these three efforts was the financial conference of 1920 held at Brussels under the auspices of the League, while the second was Lloyd George's famous Genoa conference.
The present conference, under the presidency of former Belgian Prime Minister Theunis is probably the largest international economic assembly ever met. It is being participated in not only by all of the members of the League of Nations but also by almost of the few outsiders, including the United States and Turkey.

The League of the five principal delegates will in way kind the government they represent. The recommendations for the measures proposed to avert the world's present post-war economic slump rather than to launch international campaigns on the subjects treated.
In addition to the forty three nations participating in the conference most of the leading international financial and economic organizations are represented such as the International Chamber of Commerce, the International Labour office, the International Agricultural Institute, etc.

The session, which will probably constitute a month at least are being held in the famous Assembly Hall of the League of Nations building in Geneva.
The first of these is the breaking down of customs and trade and transportation barriers in such a way that Europe will become an economic whole, a veritable "United Economic States of Europe."

The second is the organization of European production by means of great international trust agreements affecting the whole of each industry in all of the European states, such as steel, rubber, cotton, wool or other, that over-production can be prevented, the cost of production reduced, and ruthless competition eliminated.
The final program of the conference is as follows:
1. Principal features and problems

- 1. As seen from the viewpoint of different countries.
- 2. Analysis of economic causes of the present disturbed equilibrium in commerce and industry.
- 3. Economic tendencies capable of affecting the peace of the world.
- 4. Liberty of trading.
- 5. Customs, Tariffs and Commercial Treaties.
- 6. Indirect methods of protecting national commerce and shipping.
- 7. Reparation upon international commerce of reduced purchasing power.
- 8. Present situation of principal industries.
- 9. Nature of present difficulties in industry; monetary, commercial, etc.
- 10. Present position of agriculture compared with its pre-war position.
- 11. Possibilities of international action.
- 12. In the preparation of the agenda, it was decided not to consider the question of "movements of population" or emigration or the question of duties as constituting problems that would probably keep the conference from arriving at any definite solutions or conclusions.

Lacy Fluffy-Ruffles Type for the Spring Negligee

Frills and furrows accent a feminine styling of the newer negligees. Of sheer flower-printed velvets and chiffons or pastel organdies, are they. The picture shows a lace-trimmed rose-pink cotton jacket worn over a foundation slip of deeper hue.

The new Peace bridge, connecting Buffalo, N. Y., and Fort Erie, Canada, is pictured above. It is nearly complete and is to be dedicated in May by President Coolidge and the Prince of Wales. The span is dedicated to the 100 years of peace between the United States and Canada and as a reminder that no fortifications exist on either side of the border from coast to coast.

Ink Balls on Oaks
Ink balls are caused by a certain species of gnat. The insect punctures the bark of the tree and lays the eggs. After the eggs hatch the young insect lives in the gall or ink ball. Such galls appear only on certain species of trees, particularly the oak, because the insect seems to prefer those trees.

DR. W. B. CALDWELL AT THE AGE OF 83

While Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, has had a constitution which is the result of advancing age, he does not believe that a "drop" of hisbeverly little while was never dry.
To him, it seemed cruel that so many complicated old people had to be kept constantly "dressed up" and half dead by taking cathartic pills, tablets, salts, calomel and many oils.

In the Caldwell's Syrup Pepsin he discovered a laxative which helps to "regulate" the bowels of old folks. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but each dose helps to strengthen the bowels muscles, thereby establishing natural "regularity." It never gripes, chafes, or upsets the system. Hence, it is absolutely harmless and pleasant to take.

WILSON HEADS ROTARIANS FOR YEAR TO COME

Edwin A. Wilson was elected president of the Twin Falls Rotary club at the meeting held last evening. Other officers elected were: Arthur E. Jones, vice president; Asher H. Wilson, Charles Seydell and H. H. Grant were elected directors. The president and vice president are Canadian members of the organization.
An address was delivered by Mrs. R. S. Stringfellow, field secretary of the Idaho State Chamber of Commerce.

Over 300 years ago an English doctor was moved to pity for a little girl who had to take nasty medicine so he made a mixture of sugar, water and flavoring extract. This he gave to the little girl with her medicine and she liked it so well that the doctor was persuaded after her recovery to prep are more of the delightful concoction, with the medicine omitted. He called the preparation "Syrup" and that's how the name came. It's a natural "regularity" it never gripes, chafes, or upsets the system. Hence, it is absolutely harmless and pleasant to take.
If, in fact, you have a large stomach at any store that sells medicines, or buy "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and list free for yours.

MIRROR SUICIDE WAVE IN BRITAIN

By Walter Preece
LONDON.—"Mirror, Mirror" are the latest attraction for those who take their own lives here. Numerous cases of suicide have been reported in Great Britain. Some committed has been deliberately staged before a mirror. "In each case a cord of suicide while unconscious has been erected, and the victim has been hanged. Several noted pathologists and psychiatrists have recently devoted some time to a study of the apparent complex which causes suicides to stand before a mirror and take their lives. One psychiatrist has declared that the cause is a complex of desire for death, the subject's long thought of death that he is anxious to flee for the life time someone in the agony of dying.
In one case recently a young woman, the student in front of a mirror, had inflicted several wounds with a razor at various vital points in her body before her death. The case is declared to be the most unique suicide ever committed before a mirror. Witnesses declared at the inquest that from the position of the body the young woman had been watching herself die almost until the time life expired.
Numerous cases have been discovered lately where the suicide has shot himself while looking in a mirror.

IDAHO CHRISTIANS IN SESSION HERE; NOTED MEN SPEAK

Dr. Raum Declares That Gospel Wins Where Human Means Would Fail; President Sanderson of Bible University Will Make Principal Talk This Evening

Declaring that in his quarter of a century experience in evangelical work he had found ample proof for the statement that the gospel will win where human means fail, Dr. J. S. Raum, of the national Christian church headquarters at Cincinnati, delivered an address on the subject, "The North American Continent at the opening session of the Idaho Christian restoration meeting at the Christian church last evening.

NEWSPAPERMEN CLASH SUNDAY

Times and News 'Classic' is Scheduled at Athletic Park at 1 p. m.

"Them" ball game will take place at Sunday afternoon at 1 at Athletic park. After tossing a ball three times Wednesday and four times Thursday, Manager Wallace of the Times team reports that his team is ready to see "them" squared down in order. He has not worked with his catcher Turpin yet, but he is sure the latter will be able to hold his slants in the game Sunday.

After receiving reports that the News team has been practicing every day for the last two weeks, Manager Wallace of the Times team said today he believed it would be a good idea for the Times tossers to make one session and has called his club to be present at Athletic park tomorrow afternoon at 2 for practice.

With the call he gave after warning that any News player found within 100 feet of the Times' quarter of the park tomorrow afternoon would be the target of leaders, rebuffs and other hostile outbursts. The Times team will consist of Wallace, pitcher, and Turpin, catcher. Other members are Hawk, Strickland, Ream, Heister, Edwards, Masters and Perkins. They will play "scattering" position.

Signs Never Fail
"Pa," said Clarence, "do you believe in signs?" "Some of them, son," replied his dad, "when I get home and find your ma in an exceptionally good humor, with an exceptionally good dinner ready for me, I know it is a sign I'll have to shut out, and when I get home and find her looking like a thunderstorm it is a sign I've gotta get well before the evening is over."—Cincinnati Enquirer.
