

G.O.P. MAY DRAFT COOLIDGE FOR 1928

LABOR IS FOR NATION'S CHIEF ASSERTS DAVIS

Complex Situation Is Stirred By Arrival of Party Leaders.

RAPID CITY, S. D., Aug. 12. The department of labor has conducted an extensive survey of conditions throughout the state and the country, showing a general result that President Coolidge does not choose to run for re-election. Secretary of Labor Davis and upon his arrival here told:

"**SURE WE WILL WIN**"

RAPID CITY, S. D., Aug. 12. A complete national survey has been started by the department of labor, the committee of arbitration, the chamber of commerce, weather conditions, and other areas. Weather conditions are favorable for the rapid advance of all sorts in the irrigated sections and in the semi-arid sections. In the semi-arid sections, which are in full swing over most of the district, early apples are appearing in the market and shipping out, while in the eastern parts, apples are becoming plentiful and tomatoes are beginning to ripen. Apple shipping has been completed and shipping is now under way. Bananas and pastures are now in Adams County, but are dry in other districts, though feed continues plentifully.

"We will be candidates in 1928."

Five of these eight indicate he will be defeated. The eighth indicates he may be defeated by one or two more candidates and that Mr. Coolidge will be a unanimous candidate.

Whether by design or chance, these eight republican leaders arrived here at the same time and with three exceptions they gave him their endorsement. Not one of them is a political observer who has followed the president's policy well enough to believe that a movement had started to draft Mr. Coolidge despite his decided disinterest for the office.

Other Side, Colo., Coolidge Says.

Senator Frost, Colo., said he had told the president he would do his best to demand his re-renomination but all he received was a statement of the president to the effect that he believed the republicans had emitted many able men and that he had no desire for another term.

Representative Hall, Illinois, said that he believed the delegation to the annual convention will encounter a spontaneous movement to make Mr. Coolidge the nominee.

Governor Coolidge is not a member of the Society of the Treasury, which is election to a seat on the Board of Governors of the Federal Reserve System. He has expressed his opinion that the western country being almost unanimous for the president, would insist that he run again.

The two strongest notes in the chorus were voiced by Representatives Knutson and Solbrig, Republicans of Minnesota, who said that their state would be decided between Landon and Hoover.

Situation Answered

President Coolidge apparently is unused at the situation he has created. He is not likely to be surprised by his own crowding himself into his home as usual, and his crowded house of guests amuse themselves as best they can. The president was particularly interested in the fact that Senator Davis had been forced to come here by airplane for an interview. Reports were spread that Davis intended to seek an audience with the president, but comments will be a feature of the meeting.

COURT REFUSES INJUNCTION ON FILER SCHOOL COAL CONTRACT

Judge W. A. Bobcock late this afternoon refused the Detweller Independent company an injunction in its suit against the Filer Irrigation and School board to restrain that body from accepting the coal bid offered them by the Filer Elevator company. In the suit the independent company alleged that the board refused bid which called for a lower price per ton for alleged better coal.

"There is nothing to show that the district acted in bad faith or without reason," declared the judge. "The statute provides that the board has a right to reject any and all bids." An affidavit was presented stating that the board had investigated the coal and maintaining that they decided to purchase the coal which they thought the better grade," explained Judge Bobcock.

"Detweller had no absolute right to the contract," he asserted.

The court held that the plaintiff had not proved his case.

Sunshine abundant; plenty of water available by way of wells for irrigation; grain harvest in full swing; threshing, peeling, drying and marketing all along well; haying and crops all that could be desired.

By Taking Lydia E. Pinkham's Vegetable Compound

"A neighbor advised me to try Lydia E. Pinkham's Vegetable Compound. When she had said she wanted me to take it I said, 'So I bought a few bottles and tried it out. It sure was good. I felt much better. My work was no problem after taking the medicine.' If there is any one who is troubled with any trouble, I will surely recommend the Vegetable Compound to them and I will answer any questions they have.

"Mrs. Hertha Beard, 1134 N. Peoria Ave., Lansing, Mich., writes: 'Sickly wife since we moved to Michigan. After taking Lydia E. Pinkham's Vegetable Compound I got so I could do all my housework and get along well again.'

From Oregon to Alaska, from Maine to Oregon, and from Connecticut to Wyoming, thousands of women are writing to me about women's remedies, mailing Lydia E. Pinkham's Vegetable Compound.

The compound is made from roots and herbs and for more than fifty years has helped to restore run-down

and over-worked bodies.

Onion Tariff Work Makes Big Headway

Thomas O. Martin, chairman of the tariff committee, has informed Congress that the independent commission is rapidly investigating the tariff on onions with the idea of raising it at least. Two years ago the independent commission recommended an increase in the onion tariff, but has not yet taken any real action.

He is working with Governor H. C. Heald and John S. Welch, commissioner of agriculture, J. H. Banchard of Ota, president of the Nas-

ter, Valentine Deich of Benson, Ida.,

H. G. Humphrey, Pastor, St. Paul's Methodist Episcopal Church, and others, after a recent meeting of the growth League, who, like the church, are in favor of the onion tariff.

The pastor will speak at the church and speak both morning and evening. The subject for the mon-

ing is "The Onion Tariff," and the speaker will present the views of the onion-growing states.

Mr. Stambaugh is of the opinion that the Spanish Valencia onion growing in the state is of better quality than any of the foreign onions.

Mr. Stambaugh also estimates the new state onion yield for this season at more than 1,000 cars.

Mr. Martin will speak at 10 o'clock at a local hall.
