

# ARTIFICIAL SUN WORKS WONDERS ON FARM OF ENGLISH ENGINEER

THOUSANDS

**LONDON** (UPI)—Fens which burn by artificial sunlight; pigs which thrive on ultraviolet ray baths; and budding "flowers" which reach maturity in a week—such common sights on a sun-dried farm near East Grinstead, Sussex, the property of E. Dorias Matthews, A. M. Inst., C. E., a man "enthusiastic engineer" and a farmer.

In the greenhouses there is a 200-watt candle-power lamp, fitted with a glass reflector, which works wonders. At least 100 plants were in full flower in one night. Difficulties, which usually take seven weeks to come to fruition naturally, pass from buds to blossoms in four to seven days—in this electric creation.

The flock of 1,200 birds is held to 12,000 by the electric light. Artificial sunlight is installed in the henhouse during the winter, and, by this means the hens are stimulated to lay during their "heat season."

An electric clock which goes off but talk is another marvel in the poultry house. It winds itself and it follows accurately the rising and falling of the sun. When the birds begin to lay, the clock starts the hens gradually so that the birds can get ready for bed, and, if the bell that is built in twitters. Then this wonderful timekeeper goes to sleep before dawn, in order to make the hens wake up and start work, fully recharged of the joke, which also has its place in sleep.

Keep the girls have their doses of ultraviolet rays and sunlight baths.

## Offer Parking Spaces

### To Attract Motorists

**LONDON** (UPI)—Country motorists are becoming more and more anxious to make the automobile welcome at church, and more than ten of them have joined together to form a society for automobile drivers, the secretary of the owner-drivers club in London.

In many instances clergymen are offering their own parking spaces close by to those in other suitable spots.

There are also numerous cases in which clergymen offer their parking facilities to the public, the hope that the motorist visiting his church will make himself known after the service, so that the minister can exchange greetings.

## TWO PARTIES

(Continued from Page One)

Confidence is definitely out at the race track. On the Great Lakes, intent toward Lawton, while Chase Osborne, another Michigan leader, favors Will Hayes and William Alden Smith of Grand Rapids, who are the strongest local contestants in split. Likewise, with Senator Ferrell favoring Donahue; William A. Compton, national chairman, supporting Hayes; and James R. Abbott, state central committee chairman, looking for a midwestern candidate.

Senators Joseph T. Norrie, of Wisconsin and Nebraska, independents are talking about Senator Norrie, "republican," Nebraska. He probably will support Hayes, but the strong Isolation group by the "regulars" are eying Hoover and Lawton. Democrats of Wisconsin lean toward Hayes, while those in Nebraska are divided.

The organization republicans in Hayes probably will be for Senator Lawton, but considerable support is given to Hayes, too. Considerable sentiment is reported in that state some effort to get Hayes elected, but he is not considered a favorite. Hayes has been considered inherently strong in Missouri, but it is virtually assured that state delegation while sending delegations to both Hayes and Hoover, with Hughes and Davis in the background.

Minnesota, Dakota and South Dakota stand about even, with considerable Lawton and Hayes sentiment in all three states and democratic support for the Smith movement. There is little talk of Hughes or Davis.

Organization republicans have no definite stand, but Lawton is a favorite. No son, while democrats are talking of placing the "regulars" term editor and close friend of William McAdoo.

In the end these states may swing the pendulum decisively for both parties. But just now their leaders are scratching heads perplexedly.

### The Nearest Duty

Our thoughts, good and bad, are all in our judgment, but every man must do his bit, all duty to obey, and he can only do willingly what he has to do, and do it well. To do the duty, that is nearest, that is best, and that well; all the rest will observe themselves with increasing clearness and make their successive demands.

### Ancient Dentistry

One authority says that there are evidences that man's earlier dentures than B. C. 1000 B.C. were made of gold, silver, lead, tin, copper, zinc and tin. Ancient dentists attempted to extract teeth by attaching woad or ivory substitutes to adjacent animal teeth by means of threads or wires.

### Poet Changed Birthday

James Hogg's famous sheep-shearer, Harry, was born in the month of November and changed his birthday to that of Robert Burns, January 25.

**APPEAR MINUS SILK HOSE**  
CARDIFF, WALES (UPI)—A sharp decline among the venturers of silk stockings has been noted in Barry, South Wales.

The town has been invaded by laundry girls, bringing a new late-lodged fashion, which has caused a commotion.

Even business with stockings by Harry, have caught the craze and are appearing at the office, indicating a distance of about fifteen miles.

### Treacherous

Men—treacherous—treacherous through weakness than design—treacherous.

### Dean of Dollars

Erected at a cost of \$2,000,000, the dam is the outstanding physical feature of an irrigation plant representing an investment of \$8,000,000. The dam is nearly a mile in length, 30 feet in height, and 100 feet wide. At the time of completion, an average of 400 men worked more than two years to bring it to completion.

Along the dam is Idaho's greatest reservoir of water, a reservoir 25 miles in length and having an average width of three and one-half miles, with 1,000,000 acres of land, and covers an area of 88 square miles of territory.

The American Falls reservoir is larger than Lake Michigan, the second largest natural lake, and nearly as large as both together. It has six times the capacity of the famous Arrowrock Reservoir, which is the largest in the West. It is the second largest storage reservoir in the United States being exceeded in size only by the Elephant Butte Reservoir, New Mexico.

Present members of the board of directors are: R. E. Shepherd, junior president, J. H. Barnes, Bush, president, W. C. Johnson, Springfield; H. R. Wiley, Springfield; A. C. McLeod, Wendell; F. E. Sayre, Hilliard; G. Davis, Bush; E. B. Johnson, Pendleton; T. C. Miller, and James R. Abbott, Twin Falls attorney. From 1922 to 1926, W. P. Atwater of Elmer, was a member of the board.

Roy A. Young, who has been appointed by the Federal government to fill the vacancy created by the retirement of D. R. Crislipper, Young is governor of the Federal Reserve bank at Minneapolis.

### Railroad Grades

An unusual grade-in-the-per-cent of over is maintained. Grade reduction has progressed in this country until houses are now graded of 2 per cent or lower have installed modern ballastless tracks. In the case of the 12 miles of 2½ per cent grade, which is bound from Helper, Utah, to Tucker, Utah, and a 2 per cent grade from Sulphur Summit, Utah, to Tucker.

**DAILY BIBLE THOUGHT**  
GREAT KNOWLEDGE.—THE Lord hath made known His salvation; righteousness shall cover the sight of the heathen. Psalms 67:1.

**PRAYER:** We thank Thee, Lord, that Thou has not hidden Thyself from us.

**ON SECOND THOUGHT.**

The Times' editor yesterday anxiously awaited word of some definite action being taken regarding his suggestion that southern Idaho stage a general get-acquainted festival in this city on Hallidewen. The proposed plan is for the citizens of this district to meet here that evening gathered in regulation Hallidewen costumes and that they parade past a judges' stand in a roped-off area in the downtown streets so that the juries could award prizes for the best costumes depicting various characters.

This proposed affair would have one entrance and several small exits along the three or four-block course which would permit of the crowds passing out to trade at the various stores which would offer record-breaking bargains for that night.

In addition to the awarding of attire prizes, the hundreds who would attend such an event would be entertained by band concert, watch various forms of amusement on other platforms and a host of all would have opportunity to mingle and have an evening of general merriment and get-together among their peers, bringing the city and country people into closer relationship.

Indirectly, the editor did receive one suggestion and that was for the proposed celebration known as the Annual South Idaho Bean Festival, Hallidewen being approximately the date when the bean crop would be harvested and nearly all marketed. This suggestion is a good one and with that idea as a basis perhaps the Chamber of Commerce and civic and commercial groups will care to undertake such a program.

A leader is needed. Who will step forward and get the plan in operation?

**NOT IN A HUNDRED YEARS.**

—By Fred Johnson  
Once America's dairy farmer and cotton planter in Arizona, these hundred years ago his ancestors arrived in Massachusetts. The family had a penchant for keeping a daily record of their transactions.

Thus Guy L. Jones, dig up his grandfather's account book of 1827—a hundred years ago—and gives the world these items:

Sold—10 bu. of barley at 75¢ a bu., \$7.50.

Bought—1000 ft. hardware lumber at \$10.00 per 1,000, \$4.50.

Then he turns to his own account book of the present year, 1927, and records:

Sold—200 bu. of barley at 75¢ a bu., \$150.

Bought—1000 ft. hardware lumber at \$20 per 1,000, \$4.00.

If the American farmer has made progress in the past century it is not because of such economic conditions, but in spite of them, and he deserves credit for the showing he has made.

### FACULTY GIVEN ENTERTAINMENT

### HEAR REPORTS ON TWO FAIRS

#### Special Dispatch to The Times

HANSEN, Sept. 28.—The reception for the school faculty last Thursday night was well attended. Entertainment consisted of a short program by Rev. Mr. Kendall, responded to by Superintendent Hiles, made by the orchestra, male quartet, girls' soloist and a soloist. Refreshments were served by Mrs. Twyman, followed by coffee. Various sorts of dishes prolonged the evening to a late hour. Punch and cake were served during the evening by Mechanics Service Club, Shiebler and Trunkly.

Mrs. John Pruhm is making a visit from her brother, Arthur McWhinney of Dayton, Wash. Mr. McWhinney came last week and will remain to make a stay of about two months.

The freshman class were entertained at the home of Guy and Margaret Coppen, Saturday, Oct. 1. Guests with nearly every member of the class.

Mr. and Mrs. Robert Gless and Miss Jeanie Glenn were in the vicinity of Hailey last week on a fishing and camping trip. A nice catch was made.

Mildred Postier and Nava Gish, attending Albia's Mornay, were home visitors over the weekend.

Misses V. V. and G. C. Goss, girls who were in the high school neighborhood of Tabor on business matters; Miss Virginia left for Portland the early part of the week to attend business college.

Charles Collier recently bought 1100 lambs bought at Gakley. His flock now numbers about 2,500.

Eden High School held its annual picnic at the church Sunday afternoon, meeting of the church. This afternoon Mrs. Henry Goss and Mrs. J. N. Goodman acting as hostesses. After dinner refreshments and the business meeting of the various clubs, fortunate enough to have had a vacation this summer related their experiences which were enjoyed.

Mr. and Mrs. Goss received word of the death of his brother's wife, Mrs. John Shloboyan at Chillicothe, Mo. this week.

The high school will hold a picnic soon for their members on Friday, Oct. 13. Alice Crader, who has been in Twin Falls for a day or two, stayed Wednesday night at the home of J. W. and Mrs. Payette, Lukens, Lavande. Both the young men and girls sang at the Girl Scout meeting. All were much interested in the work of the organization and hope to fit up the rest room for the Girl Reserve club.

Miss Louise Hill will leave this week for Spokane where she will enter the University of Spokane.

Franklin High School basketball was held at the church on Monday evening last week. Rev. E. L. Whitt of Twin Falls was in attendance.

Bonfire lighting is now in full swing at Twin Falls. The field is very good, being estimated at around 30 bushels to the acre.

### NEWS OF WEEK'S EVENTS AT EDEN

Special Dispatch to The Times: EDEN, Sept. 28—George Chandler and Edna McFee were married in the church Saturday morning. The bride came here from Arkansas about a year ago and her husband is the daughter of John McFee, who lives north of town. They were married in the local high school last year.

Jorraine Blane was injured last Sunday when struck by a car while walking across the street in front of the J. B. Lewis home. She was taken to Twin Falls for medical attention.

George Jenkins, who has been engaged to his local for the past few days, is reported to be somewhat improved.

Mrs. Florence Lovino was a Friday evening caller on Mrs. Sam Udell of Twin Falls.

Wool Sold as Cheese

A previous experience caused a recent auction of wool in London to be postponed because of fog. On one occasion, in 1912, it was so thick that the auctioneer could not see the end of the J. B. Lewis' home. Mr. Goss, the local auctioneer, was unable to sell the wool until the fog cleared, and so it will be henceforth before heavy fog, according to a correspondent of the Sydney Bulletin.

#### Shetland's Peculiarities

The shetland is a tree-climbing animal, native to South America. It seldom comes to the ground, but likes extremely well the vegetation, including trees, shrubs, and grasses. Its movements are slow, and it has a long tail, the body being a suspended posture, the body being a gourd-like shell.

#### Against Physical Law

Perpetual motion is the concerted action of a hypothetical "medium" perpetually supplying its own motive force independently of any action from without. The current of air, for instance, has a perpetual motion, and it has been suggested that a suspended posture, the body being a gourd-like shell.
