### "Piety Comes High" But Not Half Cost Of Being Beautiful

**By United Press**  
CHICAGO, Aug. 11—American women last year spent five times more to save their beauty than to satiate their souls.  
Retailers estimate their average of "beauty" goods sold in 1927 cost them \$2 cents every 24 hours. Those materials were introduced through by Miss Frances Bartel, secretary of the American Cosmetics Society, before its annual convention.  
"Piety costs high," Miss Bartel told the willing beauty experts, "but not one-fifth as high as the cost of beauty. It includes clothing, cosmetics, facial treatments and the care of the hair. The average woman spends \$18,000,000 in 1927, or an average of \$4,000,000 a day. Yet during the same period, she spends only \$1,800,000 for books and magazines, and \$1,200,000 for religious and congressional expenses of \$120,000 a day."

### SMITH WILLING TO ARGUE FROM CHURCH PULPIT

In Meantime Democratic Candidate Is Working on Acceptance Speech.

**ALBANY, N. Y., Aug. 14**—Gov. Alfred E. Smith will meet Dr. John Erskine Straton in his factory Church, Albany, and will argue from the pulpit in the greater measure to moral forces in America, the governor intimated today.

The intimation was contained in Smith's acknowledgment of Straton's reply to the governor's request that he be permitted to answer the assertion in the church.  
Smith's reply to Straton reads: "I have your letter of August the ninth covering three pages in answer to my simple request that the permission be granted you to appear here. The statements you made about me with such profusion as you care to adduce, and give me an opportunity to answer you before your own constituents in the place where you made the statements.  
"Your reply shows that you misunderstand the situation. I have no intention of conducting a political debate with you. I wrote you not in the capacity of a governor of the state of New York, whom you have insulted, but as a private citizen."  
"The answer to my request to appear here under the condition mentioned in your note, unless and until I hear from you in the affirmative, is in the negative."  
"Yours very truly,  
"ALFRED E. SMITH."

### WORKING ON HIS SPEECH

**ALBANY, N. Y., Aug. 14**—With one of the most important conferences of the year behind him, Governor Alfred E. Smith, Democratic presidential candidate, devoted his time today completing his speech of acceptance.  
The speech was practically finished at 2 a. m. today. The last of the "copy" will be sent to the printer tonight and it is expected that distribution will be made to newspapers and press associations tomorrow.  
It is understood that the speech will run 6,000 to 7,000 words and will be delivered at 8 o'clock tomorrow evening. Smith will devote a great deal of time to farm relief and prohibition. The most important subjects to be discussed, it is believed, will be reorganization of the state and the organization of a new monetary system.  
Smith and his friends today expressed themselves as satisfied at the result of the conference held yesterday with nine farm leaders from across the state, and a group of Republicans headed by George F. Peck of Morris, Ill., an ally of Frank O. Lowden of Illinois in the Republican re-convention campaign.  
The conference, which began at noon, did not break up until nearly 5 p. m.  
The farm leaders and the governor all intimated that politics had not been discussed by them, but that they had devoted their whole time to talking over the subjects and forming the leaders imparting their ideas to the governor rather than asking him for an unusual celebration.

**By United Press**  
LONDON, Aug. 14—Danger of a break between Japan and the Chinese nations over the Manchurian situation was considered less acute by well informed observers here today. The reported acceptance of Chang Tso-Lin's military covering of Manchuria, to Japan's insistence on the ending of negotiations for a rapprochement with Nanking was regarded as easing the situation. The general feeling was that all three parties are anxious to continue practical negotiations, because failure might mean military action to prevent "encroachment" either by Japan or the nationalists in Manchuria.

## STIFF FOREIGN DEMAND SENDS WHEAT UPWARD

CHICAGO, Aug. 14.—Strength of foreign markets together with the favorable crop reports from Canada went sharply higher today on the board of Trade. Short covering aided the advance in corn. Data was brought in showing 25.625¢ up from wheat, 25¢ higher and oats, raised from 46¢ off to 56¢ up. Provisions were higher—strong on higher Liverpool values. Good buying activity in the wheat, encouraged by advances in Chicago, and reports of crop around Calgary. The seaboard reported good inquiry for hard winter and Manitoba, but no buyers were available. Receipts here were 17,347 cars, with the cash market 10¢ higher.

Corn was under pressure at the opening, but a combination of shorts and heavy bids, the latter being reported that contract shorts were in excess of 10,000,000 bushels compared with 2,500,000 bushels a year ago, caused some setting. Cash corn was steady to be higher. Receipts were 31,400 cars.

Wheat had little news of importance. Commission houses were moderate buyers. Receipts were 17,347 cars with the cash market steady.

## DISCOURTESY RAMPANT ALONG THE BORDER LINE

Complaints are pouring in to Washington from the part of residents of the United States concerning the treatment meted out by customs and immigration officials to United States and other nationals crossing the border line between Canada and the United States, complaints that reflect nothing but discredit on this country and its methods employed in handling people entering the country.

Those hundreds of thousands who have tumbled by motor car across the line anywhere between Vancouver or the Pacific ocean and St. Andrews on the New Brunswick-Maine line, will bear testimony to brusque and ill-mannered treatment handed out by United States officials who, so it is said, use their little brief authority to demonstrate their power and importance. One commentator, a Republican, crossing the Detroit river from Windsor to Detroit recently, made the remark that the customs and immigration officers were making Democratic votes by the thousand because of discourtesy and bad manners.

In marked contrast, so it is said, is the conduct of Canadian officers who are under instructions from the authorities in Ottawa to make things as pleasant as possible for American tourists. It would be unkind to insinuate that it pays Canada to be polite as a mere matter of business because of the millions of dollars left in that country by residents of the United States either on business or pleasure bent. Whatever may be the motive, however, there is a difference and a very wide difference at that for it is related that customs officials not only expedite the disposal of the necessary red tape connected with entry into Canada but actually supply travel and road maps, backed up with a word of welcome and the wish that the journey may be safe and pleasant. That leaves a good taste in the mouths of the travelers and may have something to do with loosening up the dollars that are rapidly enabling Canada, plus her own industry and resources, to wipe out the World War debt and become financially independent.

In this connection a recent editorial in the Buffalo Evening News is in order, that paper saying: "The United States customs and the immigration authorities might well put inspectors along the northern border under the same orders with respect to the treatment of Canadians who enter this country under which Hon. W. D. Euler, Minister of National Revenue, has put officers of the Canadian customs service with respect to American tourists.

"He has served notice on them that tact and courtesy must go hand in hand with the performance of their duties. 'There is no place in the service,' he says, 'for an officer who is rude and discourteous.'"

## WHAT SOME PEOPLE LOOK UPON AS AMUSEMENT.

It is almost inconceivable that rational human beings would pay hard cash entrance fees to a dance hall to witness what is known as a "dance marathon." These freak amusement features, strange to say, have had some degree of success in the larger cities. This may possibly be ascribed to the fact that in the big towns pleasure-seekers have almost exhausted all sources of so-called enjoyment, so they turn to anything that has a flavor of newness in the hope that it will relieve their boredom.

Press dispatches from Seattle relate that on Wednesday there were nine "survivors" in a contest that had then lasted close to four hundred hours of continuous dancing. Those still on the floor were almost in a state of physical collapse.

While the law books are jammed with unnecessary rules and regulations, there would appear to be room for one good ruling prohibiting such affairs as a menace to health and even life.

## WELL, THE WORLD WILL WISH GENE PERFECT HAPPINESS.

Formal announcement is made of the engagement of Gene Tunney, retired heavyweight champion and Miss Mary Josephine Rolland Lauder, a grand-niece of the late Andrew Carnegie and a very rich young woman, socially prominent, and one of the most noted figures in the East, in society set.

Some sport writers have accused Gene of being un-sportsmanlike in retiring from the ring after having won not only boxing laurels but a fortune of considerably more than a million dollars.

Surely they will not now accuse the champion of being a poor sport since he is willing to take a chance at matrimony.

There is one sure thing that neither Gene nor his bride-to-be will have to worry about where the rent is coming from.

The standing of the American entries in the Olympic games is so low that some of the other countries have actually won a few points.

### WHEN MISSOURI VOTES DIVY

(Twin Falls Times-Register)  
The "Big Game" between the two parties in the state of Missouri was referred to as the "Missouri Game" and the "Missouri Game" was the only one of its kind in the history of the state.

There were the days when Missouri voted for Democratic majority or for the "other" party, and the "other" party was the "other" party.

**PLAYERS FOR THIS HOUSE**  
The politics of this house  
And may ill-fortune never pry  
About the windows; may the roof  
And rains go by.

Strengthened by faith, the rafters will  
Withstand the buffeting of the  
storm.  
This health, though all the world  
grow still  
Will keep you warm.

Peace shall walk softly through those  
rooms.  
Touching your lips with only wine,  
The every casual corner bloom  
Twin a sunrise.

Laughter shall draw the curtains  
short.  
And, like the shattering walls

May they be strong to bear the

Two faces were close together, the

the other face was small and white,

that raised the man's horrified face.

"How can you do this?" the  
man's voice was strident, for that other  
face was the face of his watch, and  
those little hands told him that he  
could not miss the last train home—

"Phillips Milk of Magnesia"  
Better than Soda

Hereafter, instead of soda, take a  
little "Phillips Milk of Magnesia" in  
your water. An immediate relief will  
come instantly.

For fifty years genuine "Phillips  
Milk of Magnesia" has been prescribed  
by physicians because it overcomes  
three times as much acid in the  
stomach as a saturated solution  
of bicarbonate of soda, leaving the  
stomach sweet and free from all  
gases. It neutralizes acid forma-  
tions in the bowels and gently urges  
the souring waste from the system  
without purgative. Besides, it is more  
pleasant to take than soda, which  
often "Phillips" overcomes the  
city even without any purgative.

"Milk of Magnesia" has been the U. S.  
registered trade mark of the  
Charles H. Phillips Chemical Co. and  
its predecessor, Charles H. Phillips,  
since 1878.

# A Quarter a Week for—

## WHAT?

If you use Conoco Ethyl Gasoline, it will cost you on the average only about twenty-five cents more per week of motor operation than if you buy ordinary gasoline. But you ask, why should I pay even that negligible premium?

And the answer is this: For your quarter a week you get all your motor's power with no knocks. You get practically high compression performance—no matter how choked-with-carbon-the-pengine may be; you get an instant pick-up, greater flexibility, less gear shifting.

Weighing all of these advantages together you will finally discover that instead of paying a premium you are actually saving a great many dollars due to reduced repair bills and the longer life which the regular use of Conoco Ethyl will give to your motor.

In the long run, Conoco Ethyl Gasoline is the economy fuel. A good fair trial will convince you.

Poor Children Eat Largest Ice Cream Cone

Children who attended the annual picnic of the Northwestern University Settlement in Chicago were surprised when they were confronted by the largest ice cream cone ever made. The cone, which contained 500 quarts of ice cream made from dry skimmed milk, was large enough to make 4,000 normal cones. Health authorities are finding that ice cream made of skimmed milk is useful in fighting tuberculosis in poor children.

# WHITE DOMINATION IN THE SOUTH MOST IMPORTANT ISSUE BEARING ON PRESENT POLITICAL CAMPAIGN

### Supremacy of White Race at Stake in View of Sen. Hoke Smith.

Editors' Note: Following is the second of the series of special articles by Hoke Smith on the political situation in the South, growing out of Governor Smith's Democratic nomination for the presidency.

By THOMAS L. STUBBS  
United Press Staff Correspondent  
(Copyright, 1928, by United Press)  
The campaign of opinion on the part of Southern leaders and editors of papers throughout the South, as gathered by the United Press staff, has been a constant reminder of the political situation in the South. The political situation in the South is a complex one, and it is one that has attracted the attention of the entire nation.

There are two moral issues in this campaign. One is whether the white race in the South is to be dominated by the negro race, and the other is whether the white race in the South is to be dominated by the negro race.

The anti-Smith element is both vigorous and active. In Senator George Jones of Mississippi, the vice-chairman of the Republican national committee and Eastern director, and in Senator Charles McNary of Indiana, the Republican candidate for the presidency, there are some active and vigorous workers.

There are also some active and vigorous workers in the Democratic ranks. In the person of Hoke Smith, the Republican candidate for the presidency, there are some active and vigorous workers.

Democracy will carry on their work through the State and local leaders who know the situation. How the Republican campaign will be conducted is a matter of some interest to the people of the South.

There will be a drive to get out many voters who have not hitherto been much about going to the polls. In the general election, because they believe sincerely in the Democratic nomination of Mississippi, who is a member of the national advisory committee, will have a very active campaign to get out the day-after-morrow.

Regrets gathered by the United Press staff show the type of campaign that Southern leaders are going to make to keep the South solidly behind the Democratic nomination.

Why domination in the South? Alleged sale of office by Republican negroes, resulting in "judicial" in Mississippi. "Republican corruption," such as the Tappan Damm case. And the following expressions sum up the type of appeal that will be made to Southern voters.

Why support the Democratic nomination because it is a white man and a white man, said former Senator John Sharpe Williams of Mississippi.

"If the Democratic party be now overthrown, then the overthrown of white supremacy will follow. How low said former Senator Hoke Smith of Georgia.

Senator Hoover's order. Secretary of Commerce distributing a few negro workers among the white population in the census bureau. What the United Press staff gathered in Washington, D. C., is a "segregation" which is forbidden by government department. Negroes have been used already and will be used more in the campaign in the South.

A significant and enlightening view of the situation was given by the United Press staff in the city of Birmingham, Ala. Star and a political leader in Alabama.

It is a well known fact in Alabama that the writer as a member of the platform committee of the convention at Houston, Tex., in 1924, the "Abolition Star," did everything in his power to prevent the nomination of Governor Smith.

However, the Star believes that the interests of this section of the country will be best served by the party rule and accordingly will support Governor Smith in spite of our differences with him on the question of prohibition.

But for Mr. Hoover's injection of the racial issue in the campaign, it is believed that Mr. Hoover would secure a majority in the South than he has secured at the present time. Unhappily, however, it is the opinion of the Star that the Democratic rank on account of Smith's political views and as a consequence of religious prejudice.

However, it is not believed that this will be sufficient to affect the electoral vote and that the South will continue solidly behind the Democratic party in the coming Presidential election.

What Daniels Says. Joseph Daniels of South Carolina, former secretary of the navy, and a leader of the "dry" field in the Southern Democratic movement, will elect dry members to Congress and will vote for Smith because of his record as governor. He also votes for Smith because of his record as governor.

I think the well-to-do Southern people are getting very much disgusted and weary because of the continued retention of the hoodlums by people in the South.
