

TWIN FALLS TIMES

VOL. VI. NO. 11.

TWIN FALLS, TWIN FALLS COUNTY, IDAHO, THURSDAY, JUNE 2, 1910.

SUBSCRIPTION \$2.00 PER YEAR.

PREPARATIONS FOR COUNTY FAIR

Fair Committee Continues to be Very Busy.

SPECIAL PREMIUMS OFFERED FOR EXHIBITS.

The Material is Here and Twin Falls County Should Have Credit For All.

Plans and preparations for the county fair go merrily on and interest in the proposed undertaking is growing. No county anywhere possesses better facilities and materials for a successful county fair and prize exhibits than the Twin Falls country, and everyone should take hold and "push" for the "best yet" fair.

The strawberry season is now on, and it is suggested that everyone lie on the lookout for fine specimens and have them preserved now for exhibition at the fair this fall. Other small fruits will be coming in season all during the summer, and as each item appears at its best, it should be preserved. This is merely a warning note so that we will not overlook the small fruits during the summer.

We want to give the Twin Falls county credit for all to which she is entitled in every department of agriculture and horticulture, etc.

The committee on special premiums have worked only a short time and have made a fairly good showing.

Following is a partial list of the special premiums offered:

First National bank, \$25.00.

Twin Falls Hardware Co., \$25.00.

Farmers and Merchants bank, \$25.00.

O. A. Saylor and Co., \$25.00 each.

Anderson, the Jeweler, \$25.00 gold watch and chain.

City Electrical Supply Co., electric iron.

Neve & Co., \$25.00 carpet.

McMaster & Smith, best bull draft mares, any breed, \$25.00.

J. A. Waters, nursery stock, best agricultural exhibit, \$25.00.

J. J. Vero, best five pounds of country butter, \$15.00.

J. B. White & Bro., best two boxes apples, Jonathan and Rome Beauty, \$15.00.

Burman & Monroe, best lady's shoe in house for best box apples, Jonathan and Rome Beauty, grown on T. F. tract.

Palmer Clothing Co., pair \$5 pants.

Farjo Tailoring Co., best percheron suckling calf, pair \$5 pants.

Bourcham & Pickett, best box Gano apples, \$5.00.

Bill Gutrie, best pair Bull Cocker chickens, \$5.00.

C. W. & M. Co., one Stewart beating stove, best sack potatoes, half bushel, value \$25.00.

Smith Farmhouse Co., red rooster, article selected by committee, \$10.00.

Twin Falls News Publishing Co., best lady driver, \$10.00; best lady snuff, \$5.00.

Nick Smith, best calf shown from Black Percheron Gambrine, service fee of \$20.00.

Chas. Hedrick, to the following horses for best colt shown from each horse, service fee of \$15.00 each: Frank E. Silver Mile, Teddy and Hobe (at 100).

Everett, McMaster, best colt shown

BURGLARS MAKE THE ROUNDS

Safes of Three Business Firms Badly Damaged.

Obtain No Money But Do Considerable Damage.

All Safes Were Unlocked, So That Nothing But the Cash Boxes Were Broken.

On Wednesday night of last week the safes of the Twin Falls Transfer Co., the Twin Falls Milling and Elevator Co., and the Adams & Pilegrin Lumber Co. were all tampered with, although no money was obtained. At the transfer office the burglars opened the safe, which is always kept unlocked, tore out the inner section and carried it away with them. At the planing mill the safe was opened and a small steel compartment removed. This compartment was known to be empty. Through their own bungling the burglars themselves locked the safe at the elevator, and succeeded only in tearing up the cash drawer, which contained only a few cents.

NEGOTIATIONS FOR THE BOURNE

Representatives of Eastern Capitalists Inspecting Famous Property.

Representatives of New York capitalists are now in Jordan inspecting the Bourne mine with a view of buying the same. Negotiations with the eastern capitalists have been carried on by telegraph for the past two weeks, and should the report of their representatives prove favorable, it is probable that this property will change hands. The Bourne was the first mine opened up at Joridge, and a change in its management would be beneficial to the whole district, as the present owners have not sufficient capital to develop the property thoroughly nor will they give less than fair terms.

From horse, Belgian stallion, service fee.

The above is only a partial list of special premiums offered for the best exhibit in some particular line, which will be determined later.

There will be a meeting of the executive committee and the department heads at the Commercial club rooms Saturday evening, June 4th, at 8 p. m., which all concerned are urged to request to attend. It is the purpose of this meeting to discuss the progress made by the several departments and to take up any other important matters relative to this big event which we want to make the most notable ever pulled off in the Twin Falls country.

The secretary is desirous to have every farmer on the tract keep on the lookout for any promising crop grown and note the kind and location, name of owner, etc., so that time can be saved in gathering a special collective exhibit for the large crop, which is to be presented by one of our generous merchants for the best display of an exhibit of any section.

Let everyone keep this coming great in mind and boost for a successful county fair.

IDAHO DEPT. STORE TREATS

Employees Enjoy Very Pleasant Half Holiday.

A TRIP TO THE SHOOSHONE FALLS.

Fine Picnic Lunch Spread At Waters Edge Enjoyed By Hungry Crowd.

The employees of the Idaho Department store were treated to a half holiday on Monday and a trip to Shoshone Falls. The fifty clerks numbered thirty-five and sounded like a college crowd with their "Yells" in which the name of the "Big Store" held a prominent place. Just before leaving the store Mr. Plowder of the Ames Studio took a picture of the entire party and team.

A pleasant afternoon was spent about the falls and before starting for home an immense lunch, kindly enjoyed by all, was spread at the foot of the stairs and at the waters edge.

KINGSBURY-HARDIN.

Well-known Young Couple Wedded In the Presence of Many Friends.

On Wednesday evening at five o'clock occurred the marriage of Harry Kingsbury and Miss Flora Hardin in the new residence of the groom on Seventh avenue East, which was beautifully trimmed in light yellow and saffron. The impressive marriage ceremony was conducted by Rev. Mr. Hardin, Rev. Mr. Parker and Rev. Mr. Chasney assisting. About fifty of the friends and relatives of the young couple were present.

MORE FIRE PROTECTION.

City Council May Order a Steamer Fire Fighter.

At the meeting of the city council next Monday evening a proposition will be considered to call for an election to vote bonds for the purchase of an up-to-date fire engine. No definite decision has been reached as to whether an automobile steamer or one drawn by horses shall be purchased, but it is planned to install an electric alarm system if the bond issue is carried.

LEASES PERRINE DINING ROOM

W. A. Ring Opens The Perrine Cafe June 1st.

W. A. Ring has leased the Dining room of the Hotel Perrine and after a thorough refitting it was opened for business Wednesday. The new restaurant will be known as the Hotel Perrine Cafe, and its service will be a la carte. Mr. Ring is favorably known in the restaurant business in Twin Falls, he having opened the Rogers Grill under the name of Ring's Grill.

TRAGIC DEATH OF YOUNG MAN

Only Son of Senator Hastings Ends Own Life.

WAS CARRYING OUT WILD WEST IDEAS.

Boys Secured Guns and Ammunition From Store—Then About to Be Captured Hastings Shot Himself.

Two boys of Wendell, one a school boy named Brown, and the other, LeRoy Hastings, only son of Senator Fred R. Hastings, had been harrying Wild West ideas for some time, which terminated Tuesday evening in their attempting to put into actual practice, some of these theories. Securing some guns, ammunition, etc., from a store in Wendell, they started forth on a career which perhaps they thought characteristic of the west, and permissible. However, officers set out at once and followed the boys across the Snake river into Twin Falls country, locating them at Urbans's ferry.

Seeing that they were about to be captured by the officers, young Hastings, probably suddenly realizing their situation, drew a gun and turning it upon himself, blew off his head. Young Brown was taken to Shoshone in the custody of the officers.

The body of LeRoy Hastings was brought to this city Wednesday morning, when an inquest was to be held, when W. B. Guthrie, prosecuting attorney, received a telephone message asking that the inquest be waived in order that the night might be taken back to the home, and this request was granted.

The Hastings family is one of the oldest and best known in this part of the country and one of the prominent families of the state. Thus the tragic death of the only son is a terrible blow to the parents and two sisters, but is a shock to the many friends and acquaintances throughout the state. The tragedy is indeed a sad and deplorable one.

SUMMER GARDEN.

Commercial Club Arranging Delightful Place for Lives of Members.

The Commercial club have recently arranged a nice little summer garden in the rear of the club rooms for the purpose of encouraging a ladies' night, where the wives and lady friends of the club members may enjoy a summer evening at cards and be served with all kinds of fancy soft drinks at popular prices, such as only George, the porter, can make. This addition to the club rooms' accommodations is screened in and well lighted, and is provided with special tables for the ladies' use. It is an ideal place to spend the warm summer evenings.

Tuesday night is temporarily decided upon to be ladies' night, until it can be determined that some other night will be more suitable to the ladies themselves.

For Sale—Modern 6-room house, cheap. 310 4th Ave. No. June 2 at

WIN THREE STRAIGHT GAMES

The Comets Put It Over Indians and Reat Diggers.

PLAY TWO GAMES AT BLACKFOOT AND ONE AT POCATELLO.

Reat Makes Two Home Runs At Pocatello, Bringing in Four Scores At One Time.

The games with Blackfoot Sunday and Monday and the game with Pocatello Tuesday, resulted in splendid victories for the Twin Falls Comets, and the Twin Falls boys should be especially congratulated, as they played two of the fastest games in the state. Sunday's game with Blackfoot was close and interesting, resulting in a score of five to three. The game was a battle of the pitchers, McGreery and Hall, both doing excellent work in the box. The second game with Blackfoot was one-sided. Twin Falls batting the ball all over the field.

At Pocatello both teams played a fast game. Reat made a nice running catch and Chasney made two home runs, one of them in the eighth inning, with the bases full. The score follows:

Sunday: 1 2 3 4 5 6 7 8 9 R.H.E. Blackfoot, 0 0 1 0 1 0 1 0 2 3 6 Twin Falls, 0 0 2 0 1 2 0 0 0 5 2

Monday: 1 2 3 4 5 6 7 8 9 R.H.E. Blackfoot, 0 1 0 2 0 2 0 0 1 5 4 12 Twin Falls, 0 1 2 5 0 0 2 3 8 21 17 4

Tuesday: 1 2 3 4 5 6 7 8 9 R.H.E. Pocatello, 0 1 2 1 0 0 0 0 1 4 6 Twin Falls, 0 0 0 4 1 0 0 0 0 8 6

Two new men, John Hannah and P. B. Duering, have been added to the Twin Falls team to take the place of Khney and Chapin, who leave soon to attend a chess reunion at Yale.

The Comets will play Idaho Falls Saturday and Sunday. Two games will be played Sunday, one in the morning and one in the afternoon. Manager White stated that it was necessary to play two games Sunday, because the people of Twin Falls would not patronize a Monday game and in consequence Monday games were a financial loss.

FIRE AT THE HOSPITAL.

Flames Extinguished Before Arrival of the Fire Department.

Considerable excitement was caused Wednesday night about twelve o'clock by the continued ringing of the fire bell, fire having broken out in the Twin Falls hospital. One of the patients, retiring late to his room, found it filled with smoke and flames. The alarm was immediately turned in, but before the arrival of the department the hospital nurses had put out the fire without disturbing the patients. In the least, no were the aware of its occurrence until the following morning.

SPECIAL LARGED.

Six-room electric-lit house with good cellar. A half acre of ground. Fruit trees and small fruits in the city limits. \$2500. See us about it. Hill & Taylor. June 2 at

MEMORIAL EXERCISES

Program Appropriate to the Day Given.

EXERCISES WERE HELD IN THE M. E. CHURCH.

Music and Speaking—Church Nicely Decorated With Flowers and Flags.

Memorial Day was observed in a fitting manner Monday afternoon with public exercises at 2 o'clock at the Methodist church. A program appropriate to the occasion was carried out, consisting of the singing of "America" by the congregation, prayer by the chaplain of the G. A. R., two beautiful solos by Mrs. Joseph L. Daube, an interesting reading by Miss Sybil Griffin, a splendid address by Everett M. Sweeley, and two well rendered selections by Byron's Troubadours. The exercises were in charge of Judge James W. Shields.

The church was nicely decorated with flowers and flags. One of the flags used for the occasion is worthy of special mention. It was made in 1862 by Mrs. M. E. Dodge, grandmother of Mrs. K. R. Dodge, of this city. It is a large flag and was made entirely by Mrs. Dodge. The needle work is fine.

Following the program a large number accompanied the soldiers to the cemetery, where the usual order of exercise was carried out.

BARBERS VS. REAL ESTATE MEN

Welders of The Razor Contest With Land Sharks.

Following the Kimberly-Twin Falls Athletics game Monday afternoon the barbers and the real estate men played five innings. The barbers winning by a score of 13 to 8. It would hardly be called a fast game, although the way some of the land sharks ruled the earth in getting around the bases, was a credit to their profession. For the barbers Bowen and Wyland pitched, and Revere Tabor caught. For the real estate men, Wilson, Thompson and Dew filled the box at various times, with D. M. Denton holding the bat.

TO DRILL A WELL.

Property Owners in Block 88 Will Have Their Own Water Supply.

W. H. Weaver, W. Jones, Adams & Pilegrin and D. M. Denton, all property owners in block 88, together with Robt. Rogers, the proprietor of the Rogers Hotel, have contracted with M. N. Conkling for the sinking of a well on Mr. Weaver's property on the corner of Main and Third street East.

An electric pump will be used to pump the water through the buildings owned by these men.

Mr. Conkling commenced the drilling of the well Wednesday and will push the work as rapidly as possible.

Just East of Blue Lakes Boulevard In Senior Addition

LOTS, EACH 60x125, \$50.00 DOWN, \$15. PER MONTH
LOTS, EACH 60x190, \$50.00 DOWN, \$20 PER MONTH

7 per cent interest on deferred payments. When lot is paid for, a warranty deed and abstract of title given with each lot.

THIS IS YOUR OPPORTUNITY, to have the ideal home you have wished for—on terms within the means of every one.

Twice the Size of a Regular Fifty-foot Lot

THIS PROPERTY is situated 3 1/2 blocks from the Nickel school and 12 minutes walk from the business center of Twin Falls in a residence section which is rapidly increasing in value; a splendid profit is to be realized on the increase in value of these lots.

THE PUREST WATER is piped to each lot from the Abilition well. It is free and a perpetual water right is stipulated in your contract. ELECTRIC LIGHT lines are extended to this addition.

JONATHAN AND ROME BEAUTY apple trees which will bear next year are set out on each lot, also the finest strawberries and other small fruit on the tract.

PROHIBITION NEWS.

Other Counties Join the List of "Drys."

Sandpoint, May 26.—Homer county is dry by a majority of 400 to 500. Wet weather prevailed, and the dry voting would have been heavier. All the rural precincts were heavily dry.

In Oregan County.

American Falls, May 26.—Returns from nine of 23 precincts give the "dry" a majority of 1034, the vote being 1403 to 369. The wet vote in the county will not exceed 500 and the dry will probably approximate 2500. Very little interest was taken. It being conceded that the "drys" would carry the county by an overwhelming vote. There has not been an open auction in the county for more than a year, through refusal of the commissioners to grant license. It was impossible to get voters to the polls at American Falls, only 190 votes being cast out of 437 registered and about 200 did not take interest enough in the election to register. The vote in the three incorporated towns in the county is as follows: Malad, 318 dry and 41 wet; Preston, 257 dry and 122 wet; American Falls, 123 dry and 61 wet. Not more than 40 per cent of the vote was cast.

DEED FARM FOR DRINK.

Remarkable Statement Made by gubernatorial Candidate.

In the debate on local option Sunday afternoon J. W. Holmes, gubernatorial candidate, made a statement by "indignation" that a candidate for governor on a state-wide prohibition platform (meaning me, presumably) indulged privately in intoxicating liquors. I have not taken a drink of alcoholic or malt beverages in any form for 18 years, since a boy at college, and J. W. Holmes, Senator Whitaker, or any other man who says I have, lies untruthfully. I will offer \$1,000, or better still, make a deed of my ranch in Homer county, in which I take great pride, to any person who has seen me touch intoxicating liquors during this period. I am very glad of this first opportunity to nail a lie, which I have heard was being circulated privately ever since. I commenced fighting the saloon interests.

PAUL CHAGSTONE, gubernatorial candidate, in response to charge made against him Sunday at Sandpoint.—Evening Capital News, Boise.

RE-BLAZING THE OLD OREGON TRAIL

Earn Meeker Locating Places Where Monuments Are to Be Erected.

Eighty years young, Ezra Meeker, the pioneer of the earliest "wild and woolly" west, with his ox team and the old schooner, is making definite locations for the places of the old Oregon Trail so that monuments may be placed at various points along the road to indicate to future generations the exact location of that famous old road over which thousands of the earliest settlers of Oregon passed while they wended their way to the land of the setting sun and to build a new empire "where rolls the Oregon."

The surveyor general of this state is getting out plans of the government survey on which he will note all trails and roads and Mr. Meeker is identifying which of these is the identical Oregon Trail. By the help of certain points he is able to establish the line of the trail at interesting points.

In this section he has found definitely where the trail crossed the Boise river near the bridge at Caldwell. He finds that the trail continued down the Boise river, having struck the Boise river near South Boise.

Mr. Meeker made a report to the congressional committee on the bill to be introduced before which the bill is now pending for an appropriation of \$50,000 for the purpose of furnishing money to build monuments to mark the old trail. His report was as follows:

Made possible by the discovery in 1854 of that wonderful game in the Rocky mountains known as the South Pass, the Oregon Trail did not become a national highway until Hanesville and Wyeth in 1832 and 1833 traversed the whole length, from the Missouri river to the tide waters of the Pacific.

The subsistence, trappers and traders soon wore a visible wagon track to the traders' rendezvous on the Green river and beyond to Fort Hall on the upper reaches of Snake river, but not until the greater immigration of the Oregon housekeepers a thousand years, with their wagon trains in 1843 passed over to the Pacific, did the Oregon trail become in fact a great national highway. Each year thereafter wagon trains passed over the whole route to the Oregon country in varying numbers, wearing the track deeper and deeper until finally the greater exodus of 1852, when a column 20,000 strong moved out from the Missouri river and lined the trail with the dead, 5,000 or more in number for that one year alone. Meanwhile the Mormon emigration had followed in the track of the Oregon pioneers for fully 1500 miles to the great bend of Bear river. The California movement of 1849 and later also followed in the same track to Bear river or to Fort Hall, where

the California trail diverged as did the Mormon track also, and bore off to the southwest, while the Oregon trail kept steadily on to the northwest.

"The trail had indeed become a great national highway, 2,000 miles long, fully 300,000 people pressed over what might be termed the 'eastern section' before the advent of the Pacific railroad, which diverted the later traffic, and the trail again became a solitude, but not until fully 5,000,000 head of stock passed over, either east or west, and had worn the trail so deep that the track in places might readily be mistaken for great railroad cuts."

"The object of marking this historic trail is the same as the marking of any other great battlefield of history. The winners of the farther west that passed over the trail fought a strenuous battle, and the trail became a battlefield from end to end to the other. Six dead to the mile upon a stretch of 400 miles up the Platte tells the casualty story. Nor was this all. The fallen could be counted in groups of 50s and 100s, and the dead were everywhere made."

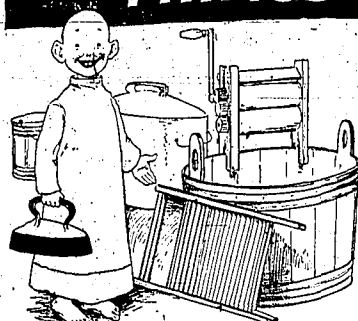

"History does not record the battlefield of greater carnage than that of the Oregon Trail; neither is there any record of loss of life or of one that wrought such historic changes. The joint occupancy treaties with Great Britain left the settlement of Oregon boundary virtually to be determined by a race as to whom should be considered the country first. The Hudson Bay company began bringing in settlers from the Red river of the north, and not until the opening of the Oregon Trail for wagon travel to the Oregon country, with their precious freight of homesteaders, was the question settled as to the preponderance of the American settlement over that fostered by the Hudson Bay company. Immediately this was accomplished, an American proclamation was issued, and the British rule ended.

"No more heroic act is recorded in history than the march of the Oregon pioneers holding firmly the disputed territory while many of our statesmen were deprecating the Oregon country and repining the war for a shamed surrender. The American people owe a deep debt of gratitude to those intrepid pioneers and the trail should be marked and the memory of it preserved religiously as a great landmark in the history of the nation, not only that future generations may know of the great struggle to advance our national boundary to the Pacific, but likewise to keep alive that patriotic zeal so helpful in the perpetuation of our government."

"In a measure we keep the memories of the heroic past fresh in the minds of our people, patriotic fervor is kindled, the past is revered and our national stability better assured."

Mr. Meeker will probably arrive in Twin Falls a few months before the Oregon Trail passed within a quarter of a mile of Twin Falls, just across Rock creek south of the city. The pioneers of the trail used the old road for a public highway when the trail was first settled, but now almost all traces of the old trail have been erased by the cultivation of the land. The Rock state fort three miles west of Twin Falls is the only monument remaining on the trail to mark this former great American highway.

WASH DAY THINGS

LET'S START NEXT WEEK RIGHT. OUR MODERN WASH TUB, PATENT WRINGER AND OTHER WASH-DAY NECESSITIES LIGHTEN THE BURDENS OF BLUE MONDAY. EVERY HOUSEKEEPER SHOULD COME TO OUR STORE AND LOOK AT OUR LINE OF WASH-DAY THINGS. YOU WILL FEEL BETTER—WE'LL FEEL BETTER, AND THE DRUGGIES OF WASH-DAY WILL BE CHANGED TO PLEASURES.

OUTBREAK IN SPAIN.

Bomb Outrages at Barcelona, Seville and Madrid.

Three persons were killed and 16 injured Tuesday in a bomb explosion in a church at Carranza, Spain. The killed and injured were worshippers at the time.

The authorities learned that the bomb was charged with explosives similar to that which injured a man named Callemeyer at Madrid, which is believed to have planned an attack upon the King and Queen.

The similarity of the bomb leads to the belief that an anarchistic reign of terror is impending.

Bomb outrages at Barcelona, Seville and Madrid, in which the life of King Alfonso was endangered, caused the police to begin a campaign against anarchistic organizations.

The reign of terrorism at Barcelona and Seville received impetus in Madrid when a man named Callemeyer dragged a bomb near a place where the King and Queen of Spain were to drive on the King's return from England.

The bomb exploded and wounded Callemeyer. The police started in pursuit of the man, who, seeing he would be captured, killed himself with a revolver.—Observer.

BOOTLEGGERS BOUND OVER.

Four Accused Men Arraigned Before Judge Van Heeth.

Four alleged "bootleggers" were arraigned yesterday afternoon before Justice of the Peace Felix Van Heeth, after being arrested on warrants sworn out in this court, by special agents of the Anti-Saloon and Law Enforcement league, which is said to have a corps of detectives in the field gathering evidence against violators of the local option law. Those arraigned were Carl G. Sandover, of Baneroff, George Jacobs, a hotel porter Henry Porterfield, a negro houseboat, and Garland Graves. The last named, against whom there are two counts, waived examination and was bonded over to the district court under \$100 bonds, which he was unable to give. All the others waived examination and were bound over under bonds in the following sum: Porterfield, \$200; Sandover, \$500; Jacobs, \$300. Jacobs furnished the required sum and was released. All the others are in jail.

Sandover was arrested at Baneroff by Sheriff John Ellis and Special Deputy Charles Sol. It is understood that a number of other warrants will be served within a few days.—Portland Tribune.

Local and Personal

Miss Conkham has gone to Oakley on business.

C. P. Conkham, the pianist, was in Portville, Tuesday.

Mrs. Herman D. Foster, who has been visiting her mother from California.

J. A. Walker of Rock Creek, was a business visitor in town yesterday.

P. O. Conkham of Burley, was a business visitor in Twin Falls today.

A. C. Conkham came down from Thursday to transact business here.

Miss Elson, the hotel-keeper, was in Twin Falls visitor the first of the week.

S. H. Bolton was a business visitor in this city, working against the hills tonight.

Mr. and Mrs. H. E. Stuntz, who have been visiting here the first of the week for Boise.

Paul Wardwell returned from his home at Rock Creek the first of the week.

Mrs. Mary Hadden, who has been visiting here in Twin Falls, returned to her home at Rock Creek the first of the week.

Miss Vera Thomas leaves today for Portland to attend the Boise Carnival and to spend the summer there.

Mrs. Harry Packard and two daughters, left Tuesday for Idaho, where they will reside. Mr. Packard having a position at that place.

Walter Boyd and Arland Oakley, who have been working with a surveying crew near American Falls, returned here yesterday.

Mr. and Mrs. W. W. Wilson and daughter, Miss Maudie, will leave tomorrow for a month's visit at their former home in Michigan City, Ind.

Mr. and Mrs. J. T. Wright were here from Twin Falls a number of days this week, the guests of Mrs. Wright's parents, Mr. and Mrs. J. H. Wallis, residents of this city.

Mrs. C. H. Johnson, wife of the landlord of the Shoshone Falls hotel, has been quite ill the past week with blood infection, but is much better today and the physician thinks she will now get along alright.

Miss Alta Fisher, who has been visiting the past two weeks at the home of her brother, A. R. Fisher, will leave tomorrow for Portland, Ore., where she will spend the summer. Little Miss Helen Fisher will accompany her.

The pasture is progressing finely, but not too fast to please the people who have to drive so far around to get anywhere. By the end of this week Shoshone street will be opened up to the corner of the First National Bank building.

Joseph Jank, aged 26 years, died at his home ten miles south of Holbrook, Tuesday, May 21, of stomach trouble. The funeral services will be held at Mr. Walker's parlors Friday morning at 10 o'clock, the Catholic priest officiating. Interment in the Twin Falls cemetery.

Miss John W. Teton, aged 21 years, on May 20, at her home, 25 miles east of Rock Creek, on Cottonwood Creek. Mr. Walker was called and brought the news to his office, where funeral services are waiting orders from the Catholic priest in Colorado.

Beginning with next Sunday evening, the Episcopal church will be held on the church lawn. Rev. Mr. Chamberlain is arranging to have the lawn beautified with rows of electric lights and music will be rendered by the large Episcopal choir.

Miss On Wednesday, June 1, 1910, 25 miles south of town, near Walden, aged 29 years. The remains were brought to Twin Falls Thursday and prepared for shipment and were sent Thursday night to Black River Falls, Wisconsin, accompanied by his father, Edward Walden. Mr. J. A. Walker had charge of the funeral arrangements.

Miss On Wednesday, June 1, 1910, 25 miles south of town, near Walden, aged 29 years. The remains were brought to Twin Falls Thursday and prepared for shipment and were sent Thursday night to Black River Falls, Wisconsin, accompanied by his father, Edward Walden. Mr. J. A. Walker had charge of the funeral arrangements.

BODY OF DICKHUT FOUND.

Is Now on the Way To Twin Falls.

The body of Thos. A. Dickhut, who lost his life in the crater of an extinct volcano near Gardiner, Idaho, was found about four days ago and is now being brought to Twin Falls.

Mr. Dickhut, while out on a prospecting trip, fell into an oval-shaped sink hole over a cliff into an extinct volcano and was lost in the house of snow that filled the gorge. Efforts were made at the time by citizens of Gardiner and by a party sent out by the Old Fellows of this city, to recover the body, but the heavy snow made the effort impossible.

With the melting of the snow the arm of the volunteer men was dispatched sticking above the snow on a ledge several hundred feet below the top of the cliff. The body when rescued showed no broken bones and it is believed that death was caused by suffocation.

Word of the finding of the body was brought to Twin Falls this morning by Sidney Colman, manager for the Jarbridge Patrick Mining Co., who came direct from Gardiner. Mr. Colman stated that the body of Dickhut would arrive in Twin Falls today or tomorrow. The Old Fellows of this city have sent word to Mr. Dickhut's mother in the east and will take charge of the body upon its arrival in Twin Falls.

RENNER-SOUTHWORTH.

Popular Young Couple of Idaho United in the Holy Bonds of Wedlock.

One of the prettiest weddings that has taken place in Idaho for some time occurred on Wednesday of this week at high noon at the beautiful home of Mr. and Mrs. J. W. Parks. The contracting parties were Mr. Sydney C. Renner, one of Idaho's prominent young business men, and Miss Grace Lenora Southworth, daughter of Mr. and Mrs. W. D. Southworth, of Castleford.

The ceremony was performed by Rev. Alward Chamberlain of Twin Falls, and the beautiful ring service of the Episcopal ritual was used for the occasion.

The bride entered the parlor on the arm of her father to the strains of Mendelssohn's Wedding March, played by Miss Gretchen Miller. She was preceded by the maid of honor, Miss Mona Parks, being followed by the groom and his best man, Mr. Earl M. Knight, the vows were taken and promises made which united them as husband and wife.

After the ceremony, a delicious wedding breakfast was served by the hosts, which was thoroughly enjoyed by all, great merriment being afforded by the cutting of the wedding cake.

REGIMENTAL HEADQUARTERS.

Four Troops of Cavalry and Many New Buildings for Holes.

Specific orders were received today by telegraph from Brigadier General J. B. Alshira, Quartermaster general of the war department, with headquarters at Washington, by Commander in Chief, Lieutenant J. M. Walworth, designating the 1st Cavalry post as regimental headquarters under the department of Columbia. Brigadier General Alshira's telegram said in part: "The war department desires to complete 1st Cavalry barracks to accommodate regimental headquarters for four troops of cavalry."

There will be about 320 men installed at the post when the transfer of the troops from Walla Walla takes place, as well as the same number of horses. Of this number, about 200 will be troopers and 20 officers and members of the staff.

The famous regimental band will also be permanently stationed in this city and will be one feature of unusual importance to this city as the musical organization is known as one of the finest in the northwest.

Estimates secured today from officers show that the monthly pay will cost up to approximately \$14,000, the greater share of which will be of commercial importance to this city.

That the war department is making extensive plans for the installation of the regimental headquarters is shown from the plans on file, which include the improvement of the grounds whereon no less than 53 buildings are proposed to be erected in the near future, but orders authorizing their construction having not yet been received.—Evening Capital News, Boise.

CLAIMANT TO BRITISH THRONE

Brooklyn Man Says He Is Legitimate Son of the Late King Edward.

New York, May 25.—John H. DeGuelph of Brooklyn, who claims to be a son of the late King Edward VII. of England, sent a message today to the upper and lower houses of parliament and to the people of the United Kingdom and Ireland, demanding the British crown.

After expressing sorrow at the death of the king, the writer says that he, John George Edward, Rex of Great Britain and Ireland, the legitimate and lawful, bone of the marriage of late majesty, King Edward VII. and the first princess consort, was unjustly and unlawfully deprived of his birthright as the firstborn son of the rightful sovereign.

He also asks of parliament that the legitimacy of any and all marriages contracted by any descendant of George III. shall be duly recognized and recorded in the usual manner.—Salt Lake Tribune.

INFORMATION ABOUT SORGHUM.

An Industry Which Has Proved Profitable in Southern Idaho.

Though all the cultivated "sorghums" probably came originally from a single wild species, the term as now used includes a great number of cultivated varieties differing widely in character. These are commonly divided into two general classes, (1) the saccharine sorghums which have sweet juice and are now called sorgho; and (2) the non-saccharine sorghums which include Kaffir corn, broom corn, durra, millet, lowland and some others.

Different varieties of sorghum have been cultivated in India, China and in different parts of Africa for many centuries. They are now introduced into Italy during the first century of the Christian era.

The seeds of sorghum are largely used for human food in India, and in parts of Africa, and to some extent elsewhere. In nearly all the temperate and tropical regions of the world, sorghum is grown both for grain and for other purposes.

In this country the value of sorghum is well recognized. It is widely cultivated as a food crop and to a considerable extent as a sugar crop. At one time the government experimented for several years in the manufacture of sugar from sorghum, but the results secured did not justify the hope that sorgho would become one of the great sugar-producing plants of the world. Considerable quantities of table syrup are manufactured from it every year, though this industry is unimportant as a technical one.

The U. S. department of agriculture has recently issued two publications relating to sorghum—a bulletin on "The History and Distribution of Sorghum," and a circular for free distribution on "Three Much Misrepresented Sorghums." The object of the latter is to set the people right concerning some mistakes and misrepresentations.

Recently an Oklahoma man has been selling at 20 cents a pound seed grain of what he calls "California wheat" which he declares will produce 200 to 400 bushels per acre. The department shows that this is a variety of sorghum known as shallu which, after thorough test a few years ago, proved only about half as productive as Kaffir corn. It is also inferior as a forage.

The second of these "misrepresented sorghums" is a so-called "cheese corn" or "cheese corn" which is a variety of sorghum known as shallu which, after thorough test a few years ago, proved only about half as productive as Kaffir corn. It is also inferior as a forage.

The rate of sorghum seed in the south under the name of "Texas Seed" or "Hibon Seed" by certain seedsmen has led to much confusion and disappointment. The use of the term "Hibon Seed" is the cause of the trouble, since this is the popular name for the sugar cane of the south which does not bear seed. The impression spread by advertisers of this seed was that they were offering a variety of the sugar cane which would produce seed, and there was a large demand for this seed which in fact was nothing more than "cheese" sorghum. The demand eventually exhausted the supply of seed and the seedsmen began filling orders with other sorghum seed. The fraud was promptly exposed by the department of agriculture, but the sale of this seed continues. The department urges that the name "Seeded Hibon Seed" be discontinued because it is misleading.—Rural Spirit.

THIRTEEN MILES OF MAIN LINE

Hansen-Rock Creek Independent Telephone Line Being Promoted.

The telephone promotion of Hansen and Rock Creek people, by which it is designed to connect the two centers and the near adjoining country is succeeding nicely. Nearly all required subscriptions in the shape of the company to build the main line have been offered and it is expected the stock list will be filled by the close of this week. As soon thereafter as the necessary legal formalities can be completed and required apparatus procured active construction will be begun with the intention of constructing a minimum of thirteen miles of main line with the necessary side branches. It is hoped that other towns and communities in the tract will get in line and soon construct rural lines, thus making telephonic communication possible with the entire region of the South Side. The enthusiastic support being so generously offered the Hansen-Rock Creek telephone project makes its success now practically assured, and its construction only a matter of the time required to get the lines in operation.

COMET DUST FALLS IN NORTH.

Mysterious Precipitation Noted In Nez Perce and Idaho Counties.

Lewiston, Ida., May 26.—A sulphurous looking substance which many believe to be comet dust fell in heavy showers which prevailed over northern Idaho yesterday afternoon and samples of the deposit have been secured in different localities to be sent to the university of Idaho and the W. S. C. for an analysis.

At Volmer, Penn., Rubins and other Canas and Nez Perce prairie points, the pools of water where range stock drank were reported impregnated with the deposit to such an extent that animals refuse to drink it and the sidewalks in the towns are coated so that they have the appearance of having been treated with a coat of brown paint. At Grangeville several people professed to have noticed a peculiar odor in the air during the transit of the comet but this was ascribed to vivid imaginations. The presence of the dust in the air, however, is evidenced by the precipitation yesterday and it is considered not unlikely that the comet is responsible for the peculiar manifestation.—Idaho Statesman.

BIRDS REPAIRED AT KELLY'S.

THE MILWAUKEE HOLDS

FIRST PLACE

because of its light draft, ease of handling and the manner in which it takes care of the heaviest grain, elevating and binding it without difficulty.

The above points of advantage appeal to the farmers throughout all grain growing sections of the country. They are some of the features that create a demand for Milwaukee machines.

To use the Milwaukee is to use a machine that leads—it is placing yourself in the lead with your neighbors. The complete line includes: Binders, reapers, mowers, rakes, corn binders, knife grinders, and binder twine.

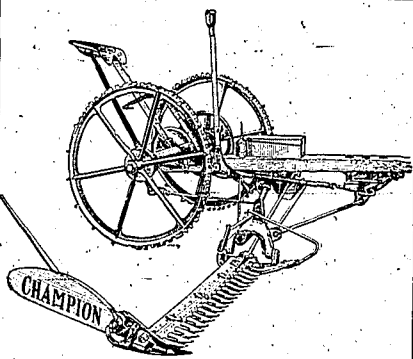

I have sold the MILWAUKEE LINE on the Twin Falls Tract for the past five years with universal satisfaction. A large stock of extras carried constantly.

POINTS
THAT
PLACE
THEHendricks Sagebrush Grubbers
IN THE LEAD.

The Hendricks Grubber is the best on the market today. Our many years' experience in the field with other machines has put us in the lead. We guarantee the Hendricks Grubber in any and all kinds of sage brush. It makes no difference how thick or how large or how difficult it is for the horses to get through, the Hendricks Grubbers do the work. Every owner of a Hendricks machine is more than satisfied. We have never had a single word of complaint from any purchaser of our machine.

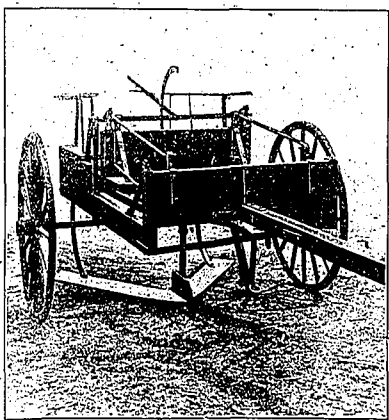

The Hendricks Grubbers with six horses, will clear six or seven acres per day in any kind of sage brush, and cut it out cleanly. The all steel machine at the price is equal to two ordinary machines.

We have manufactured the Grubbers from original designs in this section until the acme of perfection has been reached in the machines now placed on the market. The cut of the first machine shows the solidity of the parts and it is a matter of pride with the maker that not a single purchaser has been dissatisfied with the work of the Grubbers.

The working principles of the machine are simple and strong, so that there is little chance of even an inexperienced man having trouble. The knives are placed so as to cut below the soil surface, thus taking out the toughest sage brush roots and leaving the land ready for plowing. Descriptive circulars and detailed information will be gladly given by

The ball boys are feeling blue today over their defeat at Oakley. Ed Dean and wife spent the day

FILER NEWS.

Correspondent Enthusiasm by a Visit To the Canyon.

Filer, Idaho, May 31, 1919.

A recent visit to the some day famous peach orchard, in the Snake River valley the first of the week, revealed in a startling and conclusive manner the possibilities of a productive future of that wonderful valley. In this section with the exception of the homes of the early settlers and investors, there is left at the hand of Mother Nature created in its wonderful rugged beauty and grand geological formations that for years have been the delight and the study of naturalists. But within the past two years the shift and genius of man has been directed to this once considered arid waste, and looking from the top of Clark's grade, one unconsciously exclaims or feels that here again the desert has been made to blossom as the rose for looking from this slightly point, not only are the wonders of the great canyon, several hundred feet below us, with precipitous walls, seen, but the green of many thousands of fruit trees and the peaceful valley of homes surrounded in shrubbery. On reaching the bottom of the canyon the first orchard of large proportions that is encountered in the 700 acre tract of the Newton-Hedford Development Co., of Twin Falls and Salt Lake. Two years ago work was commenced on this magnificent orchard—and now it contains 50,000 fruit trees, the large majority of which, numbering into 50,000, are the varieties of the finest peaches grown and for which some portions of the Snake River valley have been famous these many years. The young trees have grown remarkably, thus attesting the adaptability of the soil and climate, and though only in their third year are strong and vigorous in growth and will, where permitted, produce some peaches this year. After driving through a mile or more of these sturdy verdant trees, through a dense growth of the vigorous orchard consisting of some 12,000 young cherry trees of the sweet variety only, as the Royal Art, things are different. Beyond the cherry orchard extends another of peaches and across the river, the old Smalley orchard, well known as the supply point for fine fruits for the first settlers of this region for many years past, have been planted some ten thousand grape vines and many acres of strawberries. This famous old place is now the property of the Development Co., also its wonderful spring that daily supplies water to irrigate thousands of trees and the great orchards. The water is laden with fruit that after carefully discarding half of the young fruit, it comes to maturity, only one-half can be saved for the abundant harvest and that by pruning up the trees, in the Development Co. has some 2000 acres in orchard and vineyard, and the very able management of Clifford Fugate, and under whose direction many trees are being planted each year. At present some 2000 acres are required to carry on the work of rearing for the trees, but next season the 1000 acres of the peaches can be expected. It will require into the hundreds for picking and packing purposes and when within two years the 1000 acres of the peaches can be expected. MURTAUGH ITEMS.

An Interesting Program Given For the Benefit of the Ball Team.

Murtaugh, Idaho, May 30th, 1919.

The ice cream social given for the benefit of the ball team at the school house was a decided success. The rooms were prettily decorated by the school girls. The boys realized \$10, which will go to purchase an outfit for the team. The program was rendered:

Violin Solo..... Ralph Day
Song..... Mrs. J. W. Draper
Prof. French
Duet..... "Hilro-Song"
Geraldine and Louella Carson
Solo..... Clifford Tipton
Duet..... Misses Huber and Tipton
Duet..... Misses Johnson and Goss
Solo..... Ben Huber
Violin Solo..... Ralph Day
Song..... Three little girls
Solo..... Mrs. J. W. Draper
at the home of Mr. and Mrs. Clinton Medley.

Misses Huber and Deckey came up from Twin Falls Saturday evening and spent Sunday at the lake fishing. They were the guests of Deckey and Clarence Medley.

Fred Bacon was a business visitor at the county seat Saturday.

Mr. P. J. Peterson was at the lake Saturday fishing, making a good catch.

Mr. Peterson, Lamson and Hargrave of Hurley, spent Sunday in Murtaugh.

Doris Lee is working for Mr. Decker this week putting in his crops.

The lake is two feet higher than it has been any previous year. On account of the rainers irrigating their crops, it was necessary to raise the water in the lake.

Miss Huber and Mrs. Steiner entertained Mr. and Mrs. M. D. Rowley Sunday.

Miss Maudie Tipton and Mr. George Oakes went to Twin Falls Saturday to see the basketball game.

Mr. and Mrs. J. W. Draper visited her sister, and Mr. Oakes transacted some business.

Mr. Roberts had business in Twin Falls Saturday.

Mr. and Mrs. Dillon have rented the house formerly occupied by Mr. H. Oakes and family.

Rufus Hansen was a Twin Falls visitor one day last week.

Miss Esther Wheat, of Hillsdale, in visiting at the home of her brother, Pat Wheat, and wife, for several days.

Everett Wheat was a passenger to Twin Falls Saturday.

Mr. and Mrs. Arthur Wilson are now domiciled in their new home near Artesian City.

Lloyd Hays of Kimberly, is visiting for several days at the home of Mr. and Mrs. J. W. Draper.

Mr. and Mrs. F. Lee Johnson spent Sunday at the home of Mr. and Mrs. J. W. Draper.

Mr. and Mrs. J. W. Draper and daughters, Misses Hazel and Leah, were passengers to Oakley Saturday to attend the ball game.

Mr. and Mrs. Strong were Oakley visitors Saturday and Sunday, attending the sale of lots of the Oakley addition.

Mr. Rudolph took his cattle to the Snake River Monday.

Mr. and Mrs. Horande are the proud parents of a new baby girl.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Mr. Frank Terrell is having his house remodelled, and an additional room built, which will quite convenient.

Mr. Wallace of Idaho, is visiting his sister, Mrs. Mamie Terrell.

Mrs. Ida Deanecker has charge of the hotel during Mrs. Allen's absence.

Chas. Medley is here from Tennessee visiting relatives.

Clarence Medley was a North Side visitor last week.

Mrs. Ivan Tolman and baby have returned from a three weeks' visit with Mrs. Tolman's parents at Oakley, Idaho.

Miss Ina Terrell has been quite sick for the past week.

Wm. Walker was down from his sheep camp the first of the week.

Mr. Law of Tennessee, arrived last week to visit for some time with his sister, Mrs. Harvey Walling.

The basket supper will be Saturday evening, June 1st, for the benefit of the ball team at Artesian City.

Mr. and Mrs. George Decker entertained Mr. and Mrs. Alex Tolman and Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

Misses Hazel and Leah, who were in Twin Falls the first of last week shopping and attending to business.

KIMBERLY LOCALS.

The News of the Week Told In Brief.

Kimberly, Idaho, May 31, 1919.

Mr. and Mrs. Shively delightfully entertained a company of friends to dinner Sunday in honor of their daughter's father, it being his 54th birthday. Shively has one of the opportunities of being present with a father's birthday at this age. Having attained and out-numbered the Biblical age some number of years, he has still retained a core of strength, and his fatherly and very interesting in conversation, being well informed on almost any subject. His neighbors often see him rambling over the sage brush with a rifle in search of game. Mrs. Shively, assisted by Mrs. W. Martin, served a most palatable dinner, which all did ample justice. A beautiful white cake adorned one of the table, a gift of Mrs. Walter Taylor. Mrs. Beranigan, in a very pleasing manner and in behalf of Mr. and Mrs. Shively, presented the guests of honor with a purse and comfortable rocker. Other remembrances were left by the company and music and entertainment were furnished the afternoon program. At evening the guests departed with many good wishes for him another birthday.

C. T. Newbury returned Thursday of last week from a trip through Colorado. After spending nearly a month visiting with friends and relatives in different parts of the state, he declares he would not see his home in Kimberly until he has seen it all.

H. R. Hillman, manager of the Kimberly Milling Co., is on his way on a trip to Hurley and Heyburn, Thursday of last week.

C. E. Williams, who lives south and east of Kimberly, is butting out a portion to his house, besides making other improvements on his ranch. This week visiting with her mother at Twin Falls.

E. G. Peterson reports that he has not, last completed his cellar on his ranch north of town. He is now preparing the cellar, and expects to have a nice fresh lunch to deliver to the people here before election.

Geo. Peterson was called to Boise a few days ago to do some work for the Pleasant Valley Land and Irrigation company, returning Sunday.

Mr. Deatheridge, local manager of the Wecker Lumber Company, made a business trip to Twin Falls Saturday of last week.

Frank Harrington arrived here Friday of last week from Modesto, Calif. He having received a letter from his mother, he is here to see her and will then go to Chicago for a short visit before returning to California. Mr. Harrington will spend several days here looking after business and then will return to Idaho to live. Mr. Harrington was among the pioneers of the Twin Falls Valley.

Mr. and Mrs. J. W. Draper, who were in Twin Falls the first of last week, are now in the country with their children.

Mr. J. C. Severance held the lucky card at the Elks Club Saturday afternoon, drawing the beautiful dinner set.

The Saturday evening band concert are attracting large crowds and the music is appreciated by all. Let the band play on.

The people of Kimberly are preparing for the celebration and tend them all the assistance possible, and help to make this one of the best of the best.

Chris Newmann and R. T. Lake returned Saturday evening from Strifer where they had the first week's meeting of the Striker Union.

Mrs. J. P. La Salle is quite sick with the first typhoid fever.

W. M. Van Housen, the first in the district to fill his cistern from the deep well and fills the water is all right.

Martin Sullivan, who lives south of Kimberly, underwent an operation on his eye Saturday at Twin Falls. Mr. Sullivan has been complaining of his eye for some time but did not think there was anything serious the matter.

Several ladies left for Twin Falls Sunday for Rock Creek and other places to try their luck with the funny thing.

Mr. Melridge, who lives south of Rock Creek, had the misfortune to set one of his horses badly cut in a tug-of-war with his horse near town Saturday evening.

Mr. and Mrs. R. P. Turner received the sad news of the death of their uncle, Mr. George E. Barrows, at Mansfield, Wash., the funeral being held Sunday, May 26th, 1919. Mr. Barrows was a place of business, country, Wash. and leaves a large family.

H. D. Scott and G. H. Johnson left the first of last week for the Snake River, where they will remain for some time doing development work on the Snake River.

The Ladies' Union club will meet at the home of Mrs. J. W. Draper, June 1st, all members are requested to dress to represent a look or come to the meeting to roll call with quotations from the Bible or stories from the country which they represent.

The Kimberly baseball team went to Twin Falls Saturday to play the home team. The game was a close one, but the home team won by a score of 4 to 3.

Several of the Kimberly people attended the Memorial exercises at Twin Falls Sunday.

The Kimberly baseball boys crossed the Snake River on Monday, Tuesday and Wednesday. This was a good game for the boys, who were very busy.

Several of the Kimberly people attended the Memorial exercises at Twin Falls Sunday.

CUTTING OFF QUEUES.

Chinese of Idaho Making Innovation.

Literally speaking the Chinese of Idaho have joined the ranks of the "cutting off queues" and are giving their queues the axe, following a reform movement in China in which the emperor has based an edict that the Chinese can use their own discretion as to the manner in which they shall wear their hair. This has resulted in many of the Mongolian tribes on their heads and adopting the American style.

One of the well known local celebrities, when seen today, declared: "In 10 years I doubt if there will be many Chinese wearing queues. Every year more and more of the younger Chinese have their hair cut according to the American style. The old men refuse to change the custom and absolutely refuse to have the scissors applied. The younger ones, however, like the change for it is convenient not to have their queues in the way. Among the rich it is quite fashionable to wear the heads and in all probability they will continue to grow them. These Chinese are gradually adopting the new way of things and the queues are gradually disappearing."

Every since immigration began coming to America it has been understood that if the Chinese cut off their queues they would not be permitted to return to their native land. For that reason the queues have been regarded more closely than money. Many local Chinese have been heard to state that they would rather lose all their worldly goods than their queues. Others have been known to inflict upon themselves bodily injury for the loss of them—Capitally News.

IDAHO'S RECLAMATION TRIUMPH

Million and a Quarter Acres Reclaimed in Five Years.

Spokane, Wash., May 28.—W. H. Fisher of Twin Falls, Idaho, announced in the rooms of the Spokane chamber of commerce, that more than one million two hundred and fifty thousand acres of land in southern Idaho will be brought under irrigation within the next five years. The cost of this work is estimated at \$30,000,000, among the tracts to be reclaimed being the following:

The Salmon, 50,000 acres; the South Side, 240,000 acres; the North Side, 150,000 acres; the Goose Creek, 80,000 acres; the Clover Creek, 40,000 acres; and the Braggan, 60,000 acres, all within a radius of 60 miles of Twin Falls, some of them in the immediate vicinity of that city.

"The triumph is ideal for irrigation and drainage," said Mr. Fisher, who is an experienced surveyor and engineer. "The ground slopes well, formerly for miles, broken by only a few hills and then gently and just sufficiently for scenic effects. When lower Idaho is in full bloom it will be one of the exceptionally beautiful garden spots of America."

"Some of these tracts have been opened for settlement and settlement is proceeding. The North Side tract will have water for the reclamation of 1,000 acres of the coming summer when some parts of other tracts will be in readiness.

"Graveling is the purpose of most settlers, but alfalfa and kindred vegetables will be cultivated during early seasons and until trees begin to bear. Two or three young orchards began to bear last year, yielding Jonathan and Rome Beauty apples of good quality. As a result of this demonstration large areas are being set out on both sides of the river. The reclamation of 600,000 acres and the expenditure of \$30,000,000 in five years will be to begin next fall, at the latest, and will occupy more than three years. Water for the first part of the work will be brought from a point on the Snake river, 50 miles distant.

"Settlement and improvement of the lands are contributing greatly to the prosperity of Twin Falls, which has grown from a quiet village to an active city of 5,000. Reflection of the prosperity developed is seen in the expansion of business in every line. In the banking business more than any other, perhaps, because of the outward demonstration.

"This development has increased the value of the lands from \$20 to \$100, and as high as \$200 in many instances, within seven years," declared Mr. Fisher.

Opening of 12,000 Acres Carry Act Land.
At Weiser, Idaho, June 11th, under Crane Creek project. Reduced rates via Oregon Short Line. Tickets on sale June 11th, 12th and 13th, limited to June 15th. See agents for rates and further particulars. June 9.

LETTER FROM WINTHROP FISK

Prominent Mining Engineer
Writes to J. E. Weaver.

MEN WITH CAPITAL ENTERING
JARBIDGE DISTRICT.

Many Idle Hands Need Put Through—
An Accurate Statement of Conditions at the Camp.

The following is a letter received by J. E. Weaver of this city, from Winthrop Fisk, the well-known mining engineer of Salt Lake City:

Jarbridge, Nev., May 28, 1910.

My Dear Mr. Weaver:

Your favor of the 24th just, at hand. Was pleased to hear that you had a pleasant trip home. Things are moving along here as usual, but there is a slight improvement all the time, but so little work is being done that the changed conditions are hardly noticeable.

The Pavlak Co. are still showing the most energy and mining interest and are to be praised for doing so. It is a pity that if they would follow up on their plans they would have a chance to show some of the results which give good promise for the future of their mine, and as the pioneers of practical mining they deserve unbounded success.

The Pavlak Co. have let four leases, all of them are working on the Pavlak vein and have good showings and values. The Boylan and Graham leases south of the Pavlak shaft have several feet of good material in the vein. The doing well if there was a mill to which they could send their ore. They talk of consolidating and organizing a company to put in a small mill of their own. They have hardly enough development work yet done to warrant a mill, but they are very promising in showing and with capital to open up their vein they might soon remedy that part.

The two new leases on the north of the shaft have opened the vein which hardly showed on the surface, but is showing out and in both places well.

On the Pick and Shovel company are testing their vein by shafts in three places and are being favored with good ore and occasionally some high grade.

On the south ridge of Bonanza Gulch below the Shovel claim on several of the claims there has been found quite a lot of very rich material. Some persons think this has all come from the Shovel vein, but others think there is too much of it to come from one vein and that it is all similar to the Shovel ore. At any rate the Nelson Bros. and a few others are hunting for veins that will amount to big things and they have indications that point to other veins, and it would not surprise me any to hear of a big strike there next year.

Some remarkably fine float has also been found. The river considerably above the Pick and Shovel, which has caused considerable interest to be revived in the upper part of the river country.

At the Bonnie they are still working in the upraise or slope and taking out some of the material which they are sending. They have also started to trench and trace the vein down the hill with a possible view to running another tunnel lower down.

Clark & Fletcher, who have a lease of the ground just south of the mine, are busy getting ready for active work.

The Hugs-Biddle lease on the old Bonanza discovery is looking pretty good. They are sinking a winze in their tunnel and now have six feet of ore between walls and it pans clear around below and it is evident that there is a vein that they do not get shipping values.

Stewart, McCoy and Connors, who have successfully placed the Pavlak claims, have taken over the Bonnie group from Mr. Pavlak and are preparing to open the great quartz dike which shows up on this property, which is between the Bonnie and Pavlak.

Another important deal has been closed by the purchase for cash of the Pavlak claims on Mahogany Flat, on the trail to Cedar Creek. The new owners are Tacoma, Wash., people and they have a mine plan to be carried out by the work planned. They will not do much talking, but they will do certain amount of work and they may open up something that will give the camp quite a boost. This is the kind of people that are needed and they are the only kind that will ever make a mining camp of Jarbridge.

There was a little strike made on the creek line across the ridge from your claim, and I think over there

but they had started six claims and all the showing I could find around that was on one of their claims; they are now on the creek.

I see by the papers that a new district has been organized at East Park. The town looks just about as when you left, a few more tents up on the ridge, but a few others put in on the "cliffs."

Some of the liquor men have returned, but they are very hard to get on. The grand jury—federal—are there and do not much business. Nothing yet for Mr. Martin.

Yours truly,
Winthrop Fisk.

IN FROM JARBIDGE.

Silvery Columbia Describes Conditions At the Camp.

Silvery Columbia, superintendent of the Jarbridge-Pavlak Mining Company, arrived in Twin Falls early this morning and reports as follows:

"A rich strike has been made on the 24th. Morris Bros. and Shovel and the ore running from \$75.00 to \$80.00 per ton. Ore of the same character has been encountered, on the Bonnie and Pick and Shovel, also on the Bonnie and Pavlak properties and is characteristic of the whole camp."

Mr. Columbia himself is very promising, which may be seen and examined at Bonnie, Kinney & Co's office, in the Jarbridge hotel building.

The strike cannot quite be a reliable for other reasons," says Mr. Columbia, "one being that to John Griffin, representing the Pick and Shovel, and Mont. and of the strike, and best known mining men in the country."

"The camp in general is looking exceedingly well and more good substantial mining men are coming in every day."

"The Pick and Shovel have let their tunnel contract and the Vulcan and several other properties have started work and expect that there will be a good deal of mining done in the near future."

"The Pavlak tunnel is in 110 feet and the Tuff ledge, according to engineers' estimate, will be encountered within 15 or 20 feet."

SEEKS TO OBSTRUCT SALE.
Tenaho Company Declares Objection of Inspecting Books is Unlawful Scheme.

The Tenaho Mining and Smelting Company and John Janney, its secretary, filed an answer in the district court Tuesday to the application of Herman Tye for a writ of mandamus to compel the secretary of the company to permit Tye to examine the books and records of the company.

The Tye claim that he was a stockholder of the company and that he made demand upon Janney to be permitted to examine the books and his request was refused.

In their answer the company and Janney deny that Salt Lake City is the principal place of business of the company, but, on the contrary, allege that its principal office is in Nevada. They deny that Tye made the demand to examine the books and that he made demand upon Janney to be permitted to examine the books and his request was refused.

Tye sees all of the books and records of the company excepting a certain one dated March 5 last, whereby P. B. Locker was to sell the treasury stock of the company, and he refused to show him that contract. He says Tye would interfere with the sale. They ask the petition for a writ of mandamus to be denied as to this contract and the balance of the directors' meeting in which the contract was approved. Salt Lake Tribune.

THE IDAHO MUSIC CO.
To Run Piano Sale—To Lease No. 318 Main St. For Present.

Commencing Friday morning, June 10th, The Idaho Music Co. (formerly by Chas. H. Burns) Music Co. of Idaho, will run a sale on their high grade pianos for one week. The Idaho Music Co. are the state representatives for the World's famous Steinway Chickering, Petro, Hardman and many other makes of pianos and player pianos.

These great instruments will be on sale Friday morning. All piano players, including in Twin Falls or the surrounding country will find no greater bargain the world over, than at this sale.

Remember the date, June 2, 1910. The piano, No. 318 Main street, Twin Falls City.

Opening of 12,000 Acres Carry Act Land.
At Weiser, Idaho, June 11th, under Crane Creek project. Reduced rates via Oregon Short Line. Tickets on sale June 11th, 12th and 13th, limited to June 15th. See agents for rates and further particulars. June 9.

HOW THE GEN STATE GROWS

According to figures given out by the United Proportion Bureau, that country handled between March 1, and April 1, of this year, more people than any other state in the Union. Idaho and Colorado points combined and with a very large percentage of the population in the state, the increase in population was 25.4% other Oregon points, 25.7%; Idaho, 24.2%; Montana, Nevada, Utah, Colorado and Wyoming, 15.7%. The increase in all the states and the United States was 15.7%.

Idaho was a very close second to "Puget Sound" in the number of people added to the population of that large and rapidly growing territory exceeding the number destined to Idaho by only 114 passengers. The number of people added to the population of Idaho during the period was 2,777; Puget Sound and Washington, 2,585; Idaho, 2,432; Montana, Nevada, Utah, Colorado and Wyoming, 1,572. The increase in all the states and the United States was 15.7%.

The increase in population was 25.4% other Oregon points, 25.7%; Idaho, 24.2%; Montana, Nevada, Utah, Colorado and Wyoming, 15.7%. The increase in all the states and the United States was 15.7%.

The increase in population was 25.4% other Oregon points, 25.7%; Idaho, 24.2%; Montana, Nevada, Utah, Colorado and Wyoming, 15.7%. The increase in all the states and the United States was 15.7%.

The increase in population was 25.4% other Oregon points, 25.7%; Idaho, 24.2%; Montana, Nevada, Utah, Colorado and Wyoming, 15.7%. The increase in all the states and the United States was 15.7%.

NEW FINDS
IN JARBIDGE

Director of Pavlak Property
Brings News to Salt Lake.

HIGH-GRADE BEING FOUND IN
ABUNDANCE.

Ninety Men Working For Wages
In the District at the Present Time.

C. D. DeWitt, one of the directors of the Jarbridge-Pavlak Mining company, arrived last night direct from camp, with a bunch of very gratifying news for all people interested in the district.

"In a while, Jarbridge is making good," he explained, enthusiastically, "because it is showing better conditions every day."

"In the first place, they have been getting some exceedingly fine ore out of the Bourne workings lately. Bourne is there himself, and with his manager, Jesse Mitten, is taking out quite a large number of sacks of ore that carries \$100 to \$200 and frequently better, which is in form a shipment that is to be made in the near future. These ore are for a test mill run, and it will determine the kind of milling facilities the camp requires, and also demonstrate beyond a doubt that the ore of Jarbridge carries values evenly distributed throughout the tonnage."

"Mottat & Co. have taken a lease on the Pavlak ledge, also Frank Riddle, the same man who has a lease working on the Bourne."

"Specker Bros., another crowd of investors on the Pavlak, are showing the fine dirt (decomposed ore) that is coming out of their tunnel, and the precious yellow metal so recovered is sufficiently large to pay all the expenses of their leasing operations. They are securing practically the first and gold bricks, in the shape of reports, that Jarbridge has yielded, and are surely proving that the genuine stuff is there. They recover the gold in sliver boxes, full almost, a little creek which traverses the gulch just below where they are working. Altogether, there are also leases in operation on the Pavlak property."

"The strike in the Pavlak tunnel, which was thought to have been the Taft ledge last week, proved just what I always said—a blind strike—but it is a rich one, having been found to be three and one-half feet wide, and is all ore of a very high grade, showing some evidences of tellurium."

"The Hill Top workings are showing up nicely, and John Ferguson told me that every shot in the Pick and Shovel shaft shows it to be a yet better resource than has been supposed by the results disclosed in the shaft boreholes."

"Nelson and Richardson brought down the richest ore ever found in the district from the vicinity of the territory between the Pick and Shovel and the Pavlak claims. They have some claims up there, and it was from those bottoms that the fine rich samples were secured, at the surface. There is the latest strike in the district and caused a sensation throughout the camp when the records of prospectors were permitted to see the black-and-white character of the ore."

"G. Carlson, an expert miner man from Aspen, Colo., came out with me, and he declares the showing in the camp far surpasses his expectations. He is on his way back to the Continental state, where he will raise capital and immediately return, for the purpose of getting into Jarbridge as strong as possible for himself and friends, and as quickly as possible."

"There are now in the neighborhood of ninety men working on pay in Jarbridge. We have also men working on the company tunnel, and there are twenty-seven working on the leases. In all, there are thirty-five men working for pay on the Pavlak property. We are working three shifts on the tunnel, and all these men to the skin, which is as many as can possibly work at one time on the face of the tunnel, as it is only 55 feet, and there isn't room for more than three. We have established as pay day in the camp the tenth day of each month. The leases on the Pavlak property was the first of the operators in the district to inaugurate a regular pay day, and it is expected that other companies will establish a regular pay day in the camp. —Salt Lake Tribune.

New Discoveries of Gas and Gold.
Two recent discoveries of natural wealth in the state of Idaho are drawing many people here from the north-west, as well as the east. One is the discovery of natural gas near Hope, Idaho, and the other is a discovery of gold in the Ten Mile district on the Clearwater river, not far from Stites and Grandville. Goldseekers are pouring into the Panhandle from Spokane and other points, with the hope of making land near Hope. It has been taken up, and capital is being raised to develop the natural gas discovery, which may also mean the location of oil.

And the End Is Not Yet.
The editor of an exchange who found time to reflect upon the high prices of everything, says a hen is worth as much as a hen used to be. A hog brings as much as a good horse used to cost. Two acres of land in western Iowa as much as an eighty-acre farm did twenty years ago, and two good farms now cost as much as the president's salary for a year.—Idaho City Miner News.

Wanted—Two smart men roomers to quiet family. All modern conveniences. Inquire at 211 24th Ave. East. June 3rd

JARBIDGE NOTES.

Robt. Brownfield Writes Enthusiastically of the Camp.

McCoy & Richardson have let a block of ground to Pat Galager and Hamilton, both experienced miners men from Round Mountain, Nevada. They will begin operations at once on a tunnel to gain backlogs on the main ledge.

"No money will be wasted on surface work," says Mr. Galager, as they are thoroughly satisfied with values in surface workings which have been thoroughly tested by Mr. Galager on his former trip to the camp. The gentlemen will outfit in Twin Falls. Messrs. McCoy & Richardson state that they will be ready to organize the Jarbridge-Buster Mining company by June 1st, as their articles of incorporation are being written and will begin operating with three shifts. Mr. James McCoy, Twin Falls, Idaho, friend James—A few lines from camp.

There has been a number of arrivals in camp in the last few days from all routes. Mr. Twin Falls, Mountain Home and Elko. They are nearly all mining men who have money to invest. After looking over the camp, they openly admit the showings far surpass their expectations.

"I have closed a few deals for mining property and sold a few blocks of Jarbridge-Pavlak stock the last week. I have had a great many inquiries by mail from different parts of the country. The camp is picking up fast; you can feel it in the very atmosphere. It was up the canyon as far as the light and shovel yesterday. They are working ten men in the mines. Manager Scott arrived here with money and full power to operate as fast as he liked. He says he is going to begin operations on a large scale and will put more men on the main workings as fast as he can make room for them. Their showings are astonishing."

As I came down over the Arizona or Pavlak group, it was shooting time, or time to change shifts. The blasting reminded me of a sham battle. The canyon was simply ringing with the boom of shots all along the east hillsides, where the leasers are operating as well as from the company's tunnel. The showings in the tunnel are fine and the leasers are enthusiastic.

The amount of work being done, together with the high values being found over the large area of Jarbridge-Pavlak ground place it distinctly in the lead, making it the most desirable property in Jarbridge.

The Bourne people are sucking ore from their main workings which they say runs as high of \$1,000 to the ton. However, it is literally covered with fine gold and they are packing it off the hill for shipment.

The Fletcher lease has been worked with two shifts. They are driving the main Bourne tunnel with the aid of the Fletcher lease through the Mine II ledge which joins the Buster group in the north.

Everyone in camp is anxious to see operations begun on the Buster group. It fills the gap on the main ledge between the Bourne and Pavlak properties. Could have every block of Buster ore and Buster Fletcher. Let me hear from you and send me to it.

Nelson continues to bring in large pieces of his fabulously rich float; pieces as large as a man can carry. They tell me that the Jarbridge-Bleeker has a large block that pans well. Will go and see it.

The Hill Top people are finding some good veins.

The town itself is quiet but we all agreed that it will not remain so long, as the shovels around the mines would cut a wooden Indian. I remain.

Years truly,
ROBT. B. BROWNFIELD,
Brownsfield Investment Co., Jarbridge.
May 22, 1910.

MAGNIFICENT DISPLAY.
Campbell Brothers Circus Will Be in Twin Falls, June 10th.

Everyone turns out to see a circus parade, and the crowds that gather to watch the grand spectacular parade given by Campbell Brothers' Big Circus. Solidated Shows when they exhibit in Twin Falls on Friday, June 10th, will witness one that is unequalled anywhere today.

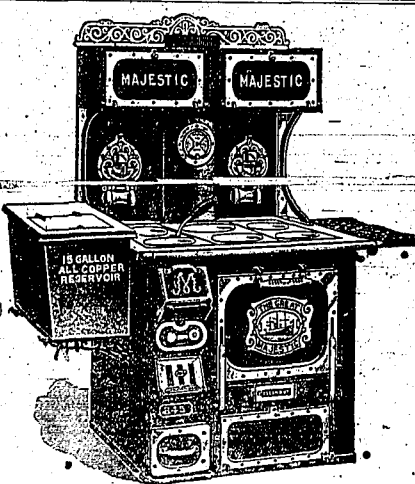

Horses are always a leading feature with every circus, and Campbell Brothers have spent years in raising and training their hundreds and hundreds of fine horses that are exhibited both in the free street parade, and in the various ways under the big top.

The horses are attractive, but we must not fail to mention their riders, secures and sources of really beautiful women, rally and unmercifully costumed and all exhibiting different feats of horsemanship and daring. Then, there are the almost uncountable horses and houndies that are exhibited by Campbell Brothers' Big Circus.

Excursions East via Oregon Short Line To Cheyenne, Denver, Colorado, St. Paul, Kansas City, Mo., St. Louis, Omaha, Chicago, St. Paul, Minneapolis and many other points. Roof Economy

ALL roofs have two cost prices:—the first cost per square on the roof and the cost per year for up-keep. The total roofing cost must include

COST PER SQUARE.
COST FOR LAYING.
COST FOR REPAIRS.

COST OF PROPERTY DAMAGE FROM LEAKS.

Roof Economy, therefore, consists in obtaining the largest amount of property protection at the least total expense. Apply this test to your roof. Buy on that basis!

REX FLINTKOTE ROOFING

Ask for your consideration solely upon this basis. It has proof to offer that it is the most economical roof you could purchase. Its cost per square is as low as Quality will admit; its cost to lay is less than shingles; its up-keep cost is infinitesimal; its property protection is absolute; its years of service the most. We hope you will let us prove to you that Rex Flintkote is all that it claims to be.
