

## THE EASTERN STAR LODGE IN SESSION

**Large Number of Delegates  
Entertained in City.**

**GUESTS ARRIVE MONDAY AND  
SPEND TIME IN BUSINESS**

Two Sessions Held Yesterday With Social in Evening for the Delegates.

The annual session of the state grand lodge of the Eastern Star has filled the city with ladies from every town in the state, while the town has been running along its usual gait. The delegates who have filled the city all week long have been here on business strictly to business and have been holding sessions almost continually until last night, when a relaxation was given by a social given by the local lodge to the visitors.

This morning the visitors who remained were taken by the citizens in autos to the falls to get a glimpse of the great falls of the state.

The election of officers will take place some time today but too late for a report in this issue.

## NEW HACK LINE BUSY.

Daily Hack to the Falls Is Proving Popular.

The daily hack to the Shoshone falls is receiving generous patronage at the start, and Thos. E. Ring, who has instituted the enterprise, is to be congratulated for the idea.

The new line is found to be more convenient for sightseers than the early stage or a lively team and also less expensive. This hack leaves Twin Falls about 10:00 a. m. and returns about 3:00 p. m., and if orders are left with Mr. Ring at the O. K.

C. S. Welsler, the driver, has engaged in this kind of work for nearly twenty years at Salt Lake City, the Yellowstone Park and other places, and is a thoroughly capable and trustworthy driver.

escorted the visitors through the building and showed the workings of the ice plant and creamery. During the afternoon every visitor was served with ice cream which was made by special process in the building and which production will be featured by

**EIGHTH GRADE GRADUATION**

Gov. Brady and State Superintendent  
to Spenk.

The annual graduation exercises of the eighth grades of this city will be held tomorrow evening in the Bleeker school auditorium. The city graduates will receive their diplomas from the county, which has jurisdiction over such graduates. Besides the usual exercises the fact that Gov. Braden and Capt. S. Belle Chamberlain will be present and speak will add interest to the event. Everyone interested in the public schools is invited. There will be no admission fee.

## BISBEE A BENEDICT.

Prominent Photographer Weds Hast-  
ings, Nebr., Girl.

Yesterday afternoon in Salt Lake City, occurred the marriage of

ence E. Mashee of this city, to Miss Jessie E. Robinson of Hastings, Nebr. After a short honeymoon the couple will return to Twin Falls to make their home.

Mr. Blaboe, who is an expert photographer, is one of the pioneers of Falls, and during his residence here has been popular in business and social circles.

**EZRA MEEMER** is a well-known Old Timer in the town of Cart Lake.

Ezra Meemer's new novel method of controlling the water brought across the state, was given much attention from the people, and he and his family have appeared on the Perlin corner of their way to Washington.

### Kindly Folk.

Hillingsgate is one of the most polite and gentle mannered places in London, however strange its Cockney talk may be. Here a low kind of the porters are: A big porter who strolled through the market, whistling under his burden of fish, overtook a woman struggling with a heavy package. "Are you here, too, dear?" said he. "Will give you a hand, and still balancing his fish box he caught up the porter found his way barred it was not. "Do you want all the road?" that he shouted out, but, "Do you mind making room for my orphan?" or, "By your leave, sir. Thank you kindly." "Do you think you can manage it, chummy?" said one porter, or still I take the big 'un?" "He there hazy chap 'ere 'o knows where Jim's cart his?" "B wants these quickly." And three porters, idle for the moment, sprang forward to show the speaker where to set down his load. "I like the big, strong Hillingsgate porter," said a young Scots woman, a relative of a high official of the market. "I like their gentle voices and ways."

### Character Does Count.

Dumont Clarke began work as a clerk in the American Exchange bank of this city 70 years ago. When he died last week he had been president of the bank 13 years. His chief bequest to his sons was an absolutely clean record. He conducted the affairs of the bank solely in the interest of the depositors, whom he protected in times of stress, and of the stockholders, of whom he was but one of many. Because he never did a dishonest thing or unduly let there has not been a discordant note in the placid and universal tribute paid to his memory. His death marks a real loss to the community. It also affords a plain illustration that character does count after all.—Harper's Weekly.

### Prize for Best Snow Statue.

A feature of the winter season in Quebec is a competition for the best snow statue to be made in Dufferin terrace, directly opposite the Chateau Frontenac. Snow lends itself admirably to modelling, as several successful statues made in past winter campaigns in Canada testify. It is probable that one of the three judges will be M. Paul Chevre of Paris, who is the sculptor of the Champlain statue on Dufferin terrace. M. Chevre is spending several weeks in Quebec at the chateau. The Chateau Frontenac offers a purse of \$50 in gold to the sculptor of the best snow statue and two other prizes, each of \$25 in gold, are offered by business firms.

### Marriage in a Snowdrift.

The unique experience of being married in a snowdrift belongs to Thomas Stickle, a young farmer, and Miss Florence Merkley of Newmarket. Mr. Stickle and his bride were to be married to drive to a minister's house in Mount Jackson. Snowdrift after snowdrift was encountered. The horses became exhausted and the vehicle finally came to a stop in a five-foot drift. Leaving Miss Merkley, Stickle made his way on foot to the home of the Rev. Henry Dittler, who returned and married the couple in the drift on the road.—Vincennes correspondent Baltimore Sun.

### Ireland Becoming Prosperous.

A statement from the Irish department of agriculture says that in June of this year, as compared with the corresponding month of 1908, there was an increase of approximately \$2,400,000 in deposits in Irish joint stock banks and of about \$2,900,000 in savings banks deposits. The increase in post-office deposits on December 31, last, compared with December 31, 1907, was \$102,500, while the investments, etc., on which dividends are payable at the Bank of Ireland, amounted to \$6,000,000.

### Thrifty Colonizers.

Colonizers of all races seem to be careful savers of their earnings in the countries to which they emigrate. In recent years there has been a considerable migration of East Indian coolies to the island of Trinidad, 2,335 having landed there last year. There was a return to Calcutta of 726, carrying with them \$56,000 in money, besides a large quantity of jewelry in which the coolies invest their savings. In the year there were also remittances to India of about \$17,000.

### Commercial Value of "Rat" Skins.

The use of rat skins in the manufacture of fancy articles is increasing. Last year the trade in Great Britain alone amounted to \$250,000, and supplies of brown rat skins are being sought in lots of from 100 to 30,000. It is proposed to start a business in Calcutta for securing and preparing the skins of the brown rat, to be used, among a variety of purposes, in the making of books and the binding of prices, gloves and various articles for women's use and wear.

### Population of the Earth.

It is probable that the population of the earth has doubled since 1800. Says the St. Louis Post-Dispatch. No one knows within 10,000,000 what he is in 1909, but so doing the figures first published by D. P. Putnam Wells are as good as any other. He gives a grand total of 1,683,000,000. Of these only about a third, or 616,000,000 are white, with 85,000,000 in North America and 152,000,000 in Europe.

### Headgear Prevented Fighting.

Korea, where the assassination of the premier followed closely on that of Prince Ito, is living up to its ancient reputation. At one time, a historian explains, fatal quarrels became so frequent in the country that drastic measures were necessary. A law was promulgated ordering adult males to wear on all occasions a china head-dress, shaped like an inverted flower pot. It was impossible to fight when wearing such a head-dress, and, as a result, the quarrels ceased.

### Tribute to the Drama.

In his speech at the luncheon at the Comedie Francaise, Mr. Watkley put the actor above the minister, the politician, the ambassador, as an agent of international understanding and good-will; and until political questions become acute—in other words, until our pockets are touched—the claim holds good. If the actors are the chief bonds of unity, among all the arts the drama is at once the most far-reaching and the most national.—London Times.

### Don't Put Birds in Windows.

"Never put a bird in the window," said a bird fancier. "I rarely go into the street in summer, or even on a mild day in winter, that I do not see unfortunate canaries hung in the windows. Even if the sun is not broiling the brains under the little yellow cap a draft is blowing all the time over the delicate body. People have been told a thousand times that they must not put a bird in the draft, yet how few remember there is always a draft in an open window."

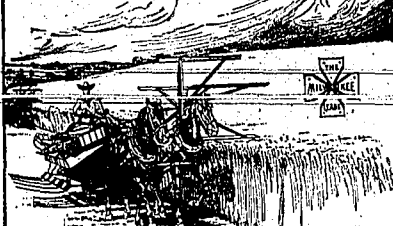

### Rich Gift for University.

The Chicago Record-Herald says that a certain contemplation for giving the University of Chicago the finest physical laboratory in the United States, if not in the world. It is said that before all the plans are consummated the plant will have cost \$1,000,000. All of the money is to be furnished by Martin Ryerson, president of the board of trustees of the university, who also was the donor of the present Ryerson laboratory at the university.

### Bad Weather in Panama.

November was the coldest as well as the wettest month in the history of the isthmus of Panama. The maximum temperature in the sun at Colon was only 26 and the average temperature was below that of any previous month on record.

## THE MILWAUKEE HOLDS

## FIRST PLACE

because of its light draft, ease of handling and the manner in which it takes care of the heaviest grain, elevating and binding it without difficulty.

The above points of advantage appeal to the farmers throughout all grain growing sections of the country. They are some of the features that create a demand for Milwaukee machines.

To use the Milwaukee is to use a machine that leads—it is placing yourself in the lead with your neighbors. The complete line includes: Binders, reapers, mowers, rakes, corn binders, knife grinders, and binder twine.

I have sold the MILWAUKEE LINE on the Twin Falls Tract for the past five years with universal satisfaction. A large stock of extras carried constantly.

## Hendricks Sagebrush Grubbers IN THE LEAD.

The Hendricks Grubber is the best on the market today. Our many years' experience in the field with other machines has put us in the lead. We guarantee the Hendricks Grubber, in any and all kinds of sagebrush. It makes an difference how thick or how large or how difficult it is for the horses to get through, the Hendricks Grubbers do the work. Every owner of a Hendricks machine is more than satisfied. We have never had a single word of complaint from any purchaser of our machine.

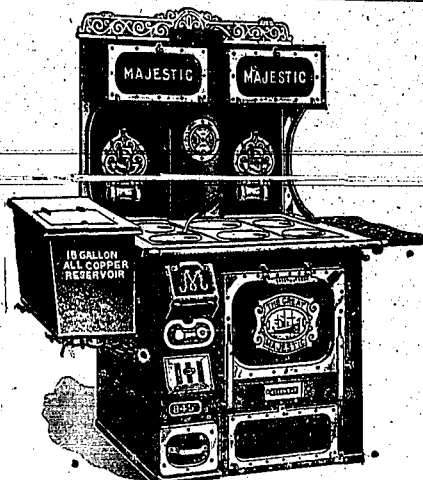

The Hendricks Grubbers with six horses, will clear six or seven acres per day in any kind of sage brush, and cut it out cleanly. The all steel machine at the price is equal to two ordinary machines.

We have manufactured the Grubbers from original designs in this section until the name of perfection has been reached in the machines now placed on the market. The cut of the first machine shows the solidity of the parts and it is a matter of pride with the maker that not a single purchaser has been dissatisfied with the work of the Grubbers.

The working principles of the machine are simple and strong, so that there is little chance of even an inexperienced man having trouble. The horses are placed on as in cut below the soil surface, thus taking out the toughest sage brush roots and leaving the land ready for plowing. ### DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Twin Falls People to Neglect.

The great danger of kidney trouble is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Headaches, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in meretricious succession. Don't delay in securing a cure. Don't delay with the serious and safe remedy, Doan's Kidney Pills, which has cured people here and in this locality.

W. H. Allen, River St., Hatley, Idaho, says: "A few months ago I suffered from a severe attack of kidney trouble. My back became weak and sore and I attempted to stop, sharp pains darted through me. There which kept me in misery. I had but little energy and a long walk completely tired me out. I also suffered from headache and dizzy spells and irregular passages of the kidney secretions caused me much annoyance. Finally learning of Doan's Kidney Pills, I procured a box and received great benefit from their use. Doan's Kidney Pills have proved to be a reliable kidney remedy and I heartily endorse them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent of the United States.

Remember the name—Doan's—and take no other.

**Largest Building.**  
The capacities of the largest buildings in the world are as follows: Coliseum, Rome, 87,000; St. Peter's, Rome, 54,000; Theater of Pompey, Rome, 46,000; Cathedral, Milan, 41,000; St. Paul's, London, 31,000; St. Petronia, Bologna, 26,000; Cathedral, Florence, 24,500; Cathedral, Antwerp, 24,000; St. John Lateran, Rome, 23,000; St. Sophia's, Constantinople, 22,000; Notre Dame, Paris, 21,500; Theater of Marcellus, Rome, 20,000; Cathedral, Pisa, 15,000; St. Stephen's, Vienna, 12,400; St. Dominic's, Bologna, 12,000; St. Peter's, Bologna, 11,400; Cathedral, Vienna, 11,000; Ghimere's Garden, New York, 8,433; Mormon Temple, Salt Lake City, 8,500; St. Mark's, Venice, 7,500; Spurgeon's Tabernacle, London, 6,900; Holohol Theater, St. Petersburg, 5,900; LaScala, Milan, 3,000.

**Empress' Most Prized Jewel.**  
The German empress owns most wonderful jewelry, and among her treasures are diamonds valued at a quarter of a million pounds. Many ropes of pearls and other costly trinkets. For all of these the empress carries little, but she is very fond of a certain bracelet, which she never allows to go out of her possession. This bracelet was a present from the Kaiser and it is composed of seven pieces, each of which contains a portrait of one of her children. In a heart-shaped locket attached to the bracelet is a miniature portrait of the Kaiser himself.

**Snakes in Oregon.**  
A special agent of the department of commerce and labor, who has just returned from Washington, from a trip through the west, is authority for the statement that Oregon is a favorite resort for snakes. "I never saw a snake more in my life as at a point near Klamath Falls," he said. "I could stand in one place and count twenty in plain sight. I killed sixty within a radius of 300 feet. They are a troublesome variety and the people do not seem to care anything about them."

**Telephone in Speeding Auto.**  
During one of the automobile endurance tests between San Antonio and Dallas, Tex., one of the entrants, who is president of a telephone company, carried telephone apparatus with him, and by using a long fishing pole could touch the telephone along the route without leaving his car. By such means he was able to keep in touch with police in advance of the run and arrange for relief in case of accident or for local accommodations.

**Notice for Publication—Final Proof.**  
I, Benjamin A. Diesel, of Buhl, Idaho, who made entry No. 2114, under the provisions of an act of the legislature of the State of Idaho, commonly known as the "Carey Act," approved March 2nd, 1899, which embraces S<sup>2</sup> NE<sup>2</sup>, Sec. 11, T. 16 S., R. 17 E. B. M., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have reformed and cultivated said land as required by law, before H. H. Lewis, agent of the State Land Board, at Buhl, Idaho, on the 14th day of June, 1910, by two of the following witnesses:

James H. Wyley, E. C. Edwards, Frank Craig, and James Muller, all of Buhl, Idaho.

BENJAMIN A. DIESEL,  
Entrant.

**Notice.**  
Notices is hereby given that I have this 2nd day of June, 1910, sold and relinquished the following described animal, found running at large in the city of Twin Falls, contrary to the ordinance of the city of Twin Falls, Idaho, made 3 years old, white stripe in forehead, and right hind ankle broken, in that I will sell said animal at public auction at Gallagher's livery barn, Monday, June 20, 1910, at said city at the hour of 10 o'clock, A. M. to the highest and best bidder for cash, for the payment of the legal claim. Any person claiming said animal, and who can show said animal, and may recover the same by paying the undersigned the legal expenses and charges of keeping the same at any time before 30 days.

Dated this 2nd day of June, 1910.  
W. G. THOMPSON,  
City Marshal.

## DEMAND THIS LABEL

On All of Your Printed Matter. It represents Good Workmanship, Good Wages, and Good Conditions.

As fine a "boosting" edition as ever comes to our exchange table, came this week from The Idaho Republican, printed at Blackfoot, in the form of a twenty-eight-page paper filled with half tones and good writing.

From the amount of unsavory odors arising at the court house goes up it would seem that the county commissioners think they are working on a sewer job. There is some danger, too, that the same court house may prove the noxious breeding ground of some ambitious politicians.

The same Fourth will have its first test in this city this year and from the extra efforts made by the merchants, none will regret the loss of excitement due to fires, disfigured faces and mutilated limbs which the younger generation has given year by year upon the altar of an abnormal patriotism. Everything which will take place on the Fourth is intended to amuse and delight both old and young, and it is certain there will be more pleasure in retrospect for the parents when the

worship of the fifth dawns and the Nation's birthday has passed into history.

The unfortunate accident this week which resulted in a sixteen-year-old girl facing perhaps fatal injury is merely the outcome of conditions that have been existing for four or five years. Every man or boy with the ambition to fire a gun has been in the habit of going out at any time with a high-power rifle and blazing away anywhere at anything. While few accidents have happened, nevertheless a number of people can tell of having holes whistled past their ears as the result of misguided enthusiasm for the hunt. The Twin Falls tract is too thickly settled for the use of high power rifles except by officers and there should be some means taken to stop the promiscuous shooting which has taken place during the pleasure days. There is no doubt but the man or boy who accidentally shoots some one feels badly about the accident, but that will not bring back the life snuffed out or repair the injury. Civilization on the tract is too far advanced for any one to think any part of the tract has open season for the shooting of human beings and the near tragedy of this week should open the eyes of the community.

The recording of disgrace and misfortune is one of the hardest things which comes to the lot of the newspapers and in many cases no one is benefited by the exploiting of human wrongs through the press, but some times such course is necessary because it acts as a check upon those who might otherwise not be deterred from evil conduct. In the sending to the reform school two young girls from this city can be mirrored a condition which should make a good many parents study evils as they exist in this city. Young girls are allowed to attend public dances unchaperoned almost weekly with no attempt made by the parents to find out the class of associates with which their children may be brought into contact. Girls of tender years are allowed on the streets long after hours when ordinary caution would make the parents want them at home. In fact too great laxity is the entire wedge whereby the girls are thrown into contact with finished scoundrels at a time when they need the home influence and the parents' care. The Times is not bringing out these matters from choice but from a sense of duty not only to the parents who should know better, but to safeguard the purity of the youth who should be given every protection until they arrive at the period of responsibility.

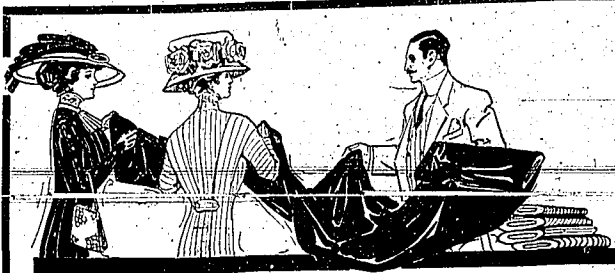

The question of the men for the office later than the choice for the man is the vital object point in the local and county political situation for the primary campaign. The old time political line that the man with the party at his back was the only qualification for gaining and holding office is liable to receive a strong right arm jolt during the primary campaign. The fact that too many of the old leaders at the party patronage trough are starting to get back will of necessity mean that many voters will have to divorce from the party lines in order to get right men in office. Too little has been said of the things that need a strong remedy in county affairs. Too little has been said of the conduct of some of the incumbents in office and their fitness to hold office again. The voters in many cases are not being in touch with the progress of affairs are imagining that the course of the county officials is straight and efficient. In many cases the present incumbents are entitled to credit for well administered official duties but in other cases there is no doubt that a change would prove beneficial. In legislative affairs the line cannot be drawn too closely. Any man who is personally out of sympathy with the demands of the voters is a poor man to send to the legislature no matter how strongly he may promise to fulfill the wishes of the constituency which elects him. Under the primary such course on the part of the voters leaves the candidate free to get the nomination and then after the primaries do the opposite with little fear of the election inflicting his chances after his better and more reliable opponent has been eliminated by the primary. The primary is the political hatchet of the voters and it is up to them to chop the heads off the unworthy. The time to do this is in the primary where the chances of the party will not be injured.

## FINE STRAWBERRIES.

Sample of What the Twin Falls Tract Produces.

Mrs. Pat Wynn, living two miles west and one mile south of town on the Filer road, brought into this office two of the finest boxes of strawberries we have ever seen. Every berry weighed an ounce apiece, and by actual count it took just twelve berries to fill a quart box, leaving full. They grew on plants of the Glen Mary and Steven Belt variety that were set out last year. From here Mrs. Wynn took the berries to the Commercial club where they might be seen by visitors there and used as an advertisement for the tract.

Gold Medals for Patriotism.

Thomas Lincoln, Post, Leavenworth,  
Kan., aided by the officials of the Na-  
tional Military Museum, has decided to  
again offer gold medals for patriotic  
actions on American subjects by the  
pupils of the district schools.  
These medals will be given by town-  
ships to the scholar making the best  
recitation, and then there will be a  
county contest among the winners,  
with a fine silk flag to be given to the  
scholar who makes the best effort.

Peeping the Frogs.

In France, a hundred and fifty years  
ago, the rich people living in the  
country obliged men and boys among  
the poor to walk about their lakes and  
ponds at night and throw stones at  
the frogs who croaked and made a  
disturbing noise. It wasn't fun for  
the boys after the first night or two,  
and the frogs also had something to  
say.
