SHIPMENT OF ORE FROM JARBIDGE

High Grade Ore Brought to Twin Falls for Shipment.

110 SACKS FROM FOUR M LEASE SHIPPED TO SALT CITY.

Messrs. Bruhn and Kinney returned from Jarbidge where they have been for the past week or ten days with a party of engineers looking over different properties there, report that conditions of the district are in better shape than ever before and that the work which has been done on all the properties is demonstrating the fact that Jarbidge is one of the richest mining districts in Nevada.

Shipment of ore reached Twin Falls on the 12th and left for the salt lake city on the 13th. This shipment consisted of 110 sacks of high grade ore from the Four M lease on the Pavalik property. This shipment is expected to be very profitable to the camp, inasmuch as it has been taken three months time from the beginning of the lease for the amount of ore to reach the market, something which no other mining camp in the country ever accomplished, for it took the Goldfield Consolidated mines one year and a half before a shipment was made and the Independence mine of Cripple Creek, which has paid millions in dividends, was one year and eight months before a shipment was made and the shipment only amounted to about \$25,000.

Mr. P. C. Schreiber, P. S. Geological survey man, has spent considerable time exploring the district and he would make the best of the district that he has made in his twenty years' experience with them.

On the Jarbidge property, Mr. Hildreth on his lease, with his lower tunnel in thirty feet with the cross-cut, from where he has drilled into the bed, is endeavoring to strike the main lode, with considerable depth beneath his upper tunnel, which is in sixty feet. He is also making arrangements with the Jarbidge tunnel, which will mean a will be for Christmas.

On the Four M lease from which the high grade shipment was made, there are in eighty feet with the drift, at which point a shaft was sunk which is about thirty feet down in the lode, at which depth the lode shows considerable width and the values will increase. This shaft, which will be to a depth of fifty feet where a heading will be turned and levels run.

On the Pavalik lease, the tunnel is in about eighty feet and quite a number of veins will have been encountered. This tunnel is being driven for the purpose of cutting the interval between the veins, which will be done within the next one hundred feet.

On the McCoy lease, the lode is from six to eight feet wide and runs about \$15,000 and is showing strength with every foot of work accomplished. On the Bernely lease, the lode is lately been struck and runs well and should run from \$15 to \$25 dollars and with a little more work the intersection of the lodes will be encountered and Mr. Bernely is rushing his work with this in view.

On the Curry lease, the tunnel is in about twenty-five feet and a quantity of ore has been uncovered showing free gold in a number of places and the lode, which is two feet wide in the face of the tunnel, is gaining width with every foot of advance.

In the Jarbidge tunnel the casing of the Pavalik lode has been struck with the tunnel in some 350 feet and, as considerable material is in evidence, the lode is expected to be cut in the near future.

On the Pick and Shovel the values still continue and more is expected to be heard of this property in the near future.

All in all, the conditions all over the district and camp are looking very bright and encouraging and the fact that this is using considerable effort to enhance the interests of the camp and have, through its efforts, secured the U. S. Government a mail route to Three Creek, which James Cameron has received at \$2500 per year. This will be of the district and also to those on the outside, as it guarantees that mail will reach the camp three times a week.

SENATOR BORAH COMING SEPT. 29

Will Discuss National and State Issues.

WILL DELIVER ADDRESS BEFORE COUNTY CONVENTION.

Silber Tonnaged Junior Senator One of the Attractions for the Industrial Fair.

September 29th will be a very important date for the Republicans of this county when the opening speech of the campaign will be made by Senator William E. Borah, of Boise, before the convention called for the purpose of framing the county platform. The platform convention is called by the county central committee for that date and delegates from every precinct on the tract will be present to aid in the platform building.

Senator Borah, when invited to be present, accepted and will deliver an address in the evening outlining the principle for which the national party are contending and will also cover the state issues.

Senator Borah has the reputation of being one of the best orators in the senate, and has made an enviable record for himself as a clear, logical thinker. His coming to this city should bring a large percentage of the citizens of the county.

A BIG SMOKE.
A Hanaway Coffee Grinder Burns Out the Fire Department.

Considerable excitement was created about 7:30 o'clock, Tuesday evening by the discovery of a dense smoke coming from Jarbidge. A Schreiber's grocery store. The fire alarm was turned in and the store broken into only to discover that the smoke all came from a coffee grinder, which some coffee hobs had been set to fire by the friction from the rapidly revolving machine.

During the afternoon, while the power was off, someone left the switch on. When the power came on again, the grinder started revolving, the heat generated in the rapidly revolving grinder set fire to the hulls in the machine, but did not do other damage.

WILL OPEN STUDIO.

Mr. W. E. Aaron is to be married in Ellettsville and Dramatic Expression.

Mr. W. E. Aaron has opened a temporary studio at his home, to be followed later by larger quarters as soon as they may be obtained, for a class in elocution and dramatic expression.

Mr. Aaron is a graduate of the University of California and has had considerable experience in arranging entertainments and managing plays. Her pupils will also be presented in entertainments throughout the afternoon.

The results of the election in the state of Washington, in which Miles Polidexter, candidate for United States senator, did not win with a large majority, adds another burden of worry to the administration. Polidexter was avowedly intransigent in his tendency in the lower federal legislature and made his campaign upon a stand against Canningism. His victory in the primary election dealt the standpatters one of the hardest black eyes given in the many recent elections for the reason that the whole Republican machinery of the state, backed by federal patronage, was used against him. Perhaps the great Schum at Washington may yet wise to just how the Abirich-Cannon congress is regarded by the people in the west after a few more jolts.

Paul Clagstone, as a disciple of local opinion, is making a rather inconsistent move in his office of a contest against Brady on the grounds of illegal expense. If Mr. Clagstone is successful in throwing out the election of Mr. Brady he not only gives the dry movement a black eye but will virtually elect J. H. Hawley, an avowedly wet candidate. It does not matter to Mr. Clagstone whether he will not accept nomination in case of success in his contest and that his reason is impractical. The damage will have

been done to the party and to the reform movement. The Times has always been in favor of purity in politics and believes that every safeguard should be placed around the ballot, but the filing of contests where the result was so overwhelmingly one-sided looks like the furtherance of personal selfishness on the part of Mr. Clagstone, rather than any deep seated desire for reform.

Governor Brady pulled a much heavier vote in the primary election than he anticipated and is to be congratulated upon the endorsement given his administration by the voters of the state. The handsome majority of his last regular campaign should be greatly increased with the rank and file of the party working in harmony now that the primary is over. The utterances of James H. Hawley, the Democratic candidate, on the local option question, will be pretty liable to lose him many of the dry votes in his party and make his campaign that much harder to overcome a normal Republican vote. Discussions of whether Mr. Brady has made good or not are confined to the most part to the Democratic ranks and such contention on their part is most natural. With a new lot of state candidates to take off some of the discontent there seems no reason why the election this fall should not land Mr. Brady in office with little trouble.

In this issue of The Times will be found an article from the pen of Mr. S. W. Motley, Socialist candidate for governor, in which Mr. Motley accuses the editor of The Times of writing an article signed "A Laborer," which appeared in last week's issue. If Mr. Motley desires to be credited with the semblance of common sense he should couch his language in terms direct. Mr. Motley, had he taken the pains to inquire, could have learned the name of the author of the article published under the title of "A Laborer," simply by applying to The Times office, which Mr. Motley did not do. Appearing rather to prefer taking things for granted, The editor wishes to call attention of Mr. Motley to the fact that all articles on the editorial page unless signed like the article in question can be credited to the editor and no one else, and that in case the Times has occasion to criticize Mr. Motley's action it will appear as an editorial for which the editor is willing to stand personally responsible. If Mr. Motley will call at his earliest convenience any information he desires will be forthcoming concerning the article to which he objects.

The United States land office at Hanley has received notice of the withdrawal from entry by presidential proclamation of approximately two and a half million acres of land in the Hanley land district. This land is withdrawn from settlement, location, sale or entry, and reserved for examination and classification with respect to coal value, under the provisions of the act of June 25, 1910.

The lands withdrawn embrace the major portion of the unoccupied agricultural lands in the land district. The withdrawal does not affect existing homestead and desert entries, which remain intact and may be perfected under the provisions of the laws in force on the date of entry. However, if any such entry is relinquished it immediately becomes subject to the withdrawal and cannot be re-entered. Therefore entrymen on the lands involved in this withdrawal cannot dispose of their entries through relinquishment.

This is a temporary withdrawal and will remain in effect until the lands have been examined and classified with respect to coal value. After such classification the lands will be restored to entry, but such of the land as may be classified as coal land may be entered only under the provisions of the act of June 22, 1910, under which the entrymen will acquire surface rights only.

Following is a full list of the lands withdrawn:

Notice of the Time Fixed for Hearing Objections to Special Assessments Made for the Purpose of Defraying Cost and Expense of Laying and Constructing a Sewer and Sufficient Sewer System in Local Sewerage Improvement District No. 4, in the City of Twin Falls, Idaho.

To the owners of Property in Local Sewerage Improvement District No. 4, of the City of Twin Falls, Idaho:

You are hereby notified that the assessment roll of special assessments against the property in Local Sewerage Improvement District No. 4, of the City of Twin Falls, State of Idaho, made for the purpose of paying the cost and expense of the construction of a good and sufficient sewer system in said Local Improvement Sewerage District No. 4, as made out and certified to the City Council of said City of Twin Falls, by the committee on streets, together with the sewer committee of said district, is now on file in my office, the date of the filing of the same being the 15th day of August, 1910, and that the City Council of said city has fixed the 20th day of September, 1910, at the hour of 5 o'clock P. M., at the council room in said city, as the time at which the City Council will hear and consider objections to said assessment roll by the parties or any party aggrieved by said assessment, at which time they will hear and determine all objections, which have been filed by any party interested, to the regularity of the proceedings in making such assessment, or the amount, level or assessed upon any particular lot or parcel of land.

The owner or owners of any property which is assessed in such assessment roll, whether named therein or not in such assessment roll may within ten days of the last publication of this notice file with the city clerk his or her objections in writing to said assessment, or any portion thereof, which objection must be definite and specific as to the property or piece of property included in said assessment roll to which said objection is made, as well as the specific grounds of such objection.

Dated this 5th day of September, 1910.
Date of last publication September 15, 1910. STUART H. TAYLOR, Clerk. Sept 8-15

Notice for Sealed Proposals for Paying Streets in City of Twin Falls.

Sealed proposals will be received by the City Clerk of the City of Twin Falls, Idaho, at his office in said city, until the 22nd day of September, 1910, at 5 o'clock P. M., for the grading, paving and curbing of the streets in Local Improvement District No. 7 of said city. The paying of said streets to be done with bituminous pavement and all other details as to the manner of the same provided in Ordinance No. 80 of said city and in accordance with the city and jurisdiction for said improvement to file in the office of said city clerk.

All bids for said work shall be submitted on blanks, which will be furnished upon application therefor to the city clerk.

No person or bid will be considered unless accompanied by a certified check in favor of the city of Twin Falls, for the sum of \$25,000, as evidence of good faith, to be returned to said city as and for liquidated damages if the bidder neglects to accept or consider into a contract and provide a suitable bond in the sum of \$25,000 for the faithful performance of said work, in case the contract is awarded to him.

No bid will be considered unless accompanied by a separate bid for the maintenance in good condition of the bituminous pavement for a period of two years, and each bid shall state the amount per square yard per annum and shall be accompanied by a certified check for a sum equal to ten per cent of the amount of the bid made in contract. The successful bidder will

be required to furnish a bond in the sum of \$25,000, guaranteeing to keep the pavement in repair for the period of ten years. The city reserves the right to reject or accept the maintenance bid at any time prior to the completion of the entire improvement, however, the city agrees that if the maintenance bid is not accepted at the time of the acceptance of the contract bid, that they will allow the contractor to substitute in lieu of certified check deposited, a good and sufficient bond guaranteeing in proper form that the contractor will enter into a contract at any time prior to the completion of the work if so required by the city. Said bond so given to meet the approval of the mayor and city council.

The work shall be commenced within ten days after the signing of the contract and shall be completed in 150 working days.

Attention of all contractors is called to the agreement of Warren Brothers Co. filed with the city clerk, in accordance with which agreement they agree to license all contractors desiring to bid for work to lay bituminous pavement in accordance with its provisions and the terms of said agreement.

The city reserves the right to reject any and all bids.

Done by order of the Mayor and City Council of City of Twin Falls, Idaho. Dated this 5th day of August, 1910. STUART H. TAYLOR, City Clerk of Twin Falls, Idaho. Sept. 1-5-15-22

An Incognamus Sailed to the State by the Local of Socialist Argument. Editor Times: In your issue of September 8, I noticed an article in which some incognamus who is ashamed to sign his name, took offense at my speech on the street Saturday evening, September 3.

I did not say any one made "Three pairs of shoes do the work of twelve pairs," as the writer alleges. I suppose he wants to lie on purpose to deceive. I simply stated that it has been proven by statistics that with the use of improved machinery the labor power of the laborer has been so intensified that the average laborer in the shoe industry can turn out twelve pairs of shoes per day.

I said three pairs, or \$10.00 pays for all labor and raw material employed in production and that at that rate, it amounts to 300 per cent. surplus value. I did not say that the manufacturer gets it all as the writer stated. That is the No. 2. I said this 300 per cent goes to the exploiters who do not work at all. The manufacturer gets part, the railroad company through exorbitant freight

rates part and the head dealer a part before it reaches the consumer. gave as proof, Carol D. Wright, commissioner of commerce and labor in his "Eighteenth Annual Report."

See the 1900 Census Report, Vol. 7, page 59; also page 122; also page 131. You see I did not get this out of a newspaper; it is the State's report, while Teddy was in the chair.

Smoke that in your Republican paper, then howl. In regard to millions being invested at from five to eight per cent I will say this applies to the middle class business man, who is fast being crowded out by large concentrated capital. Why, my dear man, you have never studied the economic basis of the capitalist mode of production. I don't blame the writer for not signing his name to the article in question. Such gross ignorance would shame any person, even a Republican politician.

Say, Mr. Editor, are you quite sure you did not write that article? Square yourself by producing the name of the writer, or the public is liable to hold you under suspicion. I thereby issue a public challenge to the chairman of the Republican Central committee to put up some of your representative lawyers or candidates to

debate with me and try to defend the present rotten exploiting profit system against the logic of the Socialist doctrine. This also applies to Democrats as well as Republicans. Come to the froit, gentlemen. Put up or shut up. I will venture the assertion that the writer of the article in question is too big a coward to publish his name and if he does it will be taken that he accepts my challenge to debate, then see where it will put him. S. W. MOTLEY.

KIMBERLY NEWS NOTES.

Kimberly, Idaho, Sept. 13, 1910. J. A. Byher and C. W. Dyer, Democratic nominees for county surveyor and assessor and tax collector, were asking lands with friends in Kimberly Tuesday of this week.

The Kimberly school opened Monday morning, September 12th. There were 157 pupils reported. Two years of high school work will be taught. Under the supervision of Prof. J. C. Goss and with the corps of excellent teachers, Kimberly should have one of the best schools in the county.

E. T. Newberry was in Twin Falls Monday of this week attending business for the county.

W. C. Hudson, proprietor of the Kimberly hotel, has made some improvement around the hotel, having built a new wing on each side of the building from the front to the rear of the building.

Messrs. Barzide and Green have rented the townsite building and have moved up a pool hall. E. T. Brown moved into the Morzan house a few days ago for the winter to take advantage of the Kimberly school.

Joe Fitzsimmons has moved into the Western Lumber Co.'s building opposite the postoffice, and has built a new house on the site of the old one.

Mr. and Mrs. Letch returned Friday of last week from conference and a visit with friends and relatives in Boulder, Colo., to attend school this winter.

Miss Deatbridge, daughter of J. E. Deatbridge, left Monday morning for Boulder, Colo., to attend school this winter.

The reception given the faculty of the Kimberly school Friday evening of last week, proved to be a grand success, and all those present had a very enjoyable time.

Gust Haritz returned from Jarbridge Friday evening of last week. Gust says the camp is looking good. He brought in some fine samples of ore from the Haritz and other claims.

O. M. Hanna was down from Hollister one day last week and says everything is out the move up there. Lots of land being cleared and put in shape for crops next year.

The registration office at Kimberly will be open every Saturday afternoon and evening so that all that did not get registered before the primary will have the privilege of registering in time to vote at the general election, November 8th.

Mr. and Mrs. W. T. Hudson will leave Tuesday evening for their old home in Wisconsin for a month's visit.

Mr. and Mrs. Hudson are among the pioneers of the Twin Falls tract and have made many friends who wish them a safe and pleasant trip. Mrs. George will have charge of the hotel during their absence.

Mr. Wilcox, who owns some fine land east of Hansen, was a Kimberly visitor Tuesday morning of this week. Charley George has gone to Hollister where he has work clearing up land for Dr. J. A. Myrie. He expects to be gone about a month.

Geo. Latt brought in samples of Bartlett pears raised on his ranch near Kimberly a few days ago that are equal to any grown in other parts of the state. There is no question about their part of Idaho for fruit.

Mr. Florence Brunks was down from Miller the first of this week visiting with friends.

C. T. Newberry made a business trip to Miller Sunday, returning Monday.

H. R. Denton is having his house connected up this week with the electric power company's line.

It is reported that Chris. Neumann has purchased the property formerly owned by C. W. Rice. There is always a reason.

The census report for the Kimberly school district shows quite an increase in the past year. The report for 1900 showed 277 pupils of school age. This report for 1910 shows 275 pupils.
