

# TWIN FALLS NEWS

VOLUME 11.

TWIN FALLS, IDAHO, FRIDAY, OCTOBER 27, 1905.

NUMBER 1

## HOSPITAL FOR TWIN FALLS IS NOW ASSURED

President Buhl of the Land & Water Company Places \$500 at the Disposal of the Committee—Subscriptions Already Aggregate \$1745 and Cash Donations Amount to \$342.

Twin Falls is to have a thoroughly modern city hospital, not necessarily a large building but well equipped with every convenience and appliance known to surgery and medical science. It will be a haven for the sick, a place where surgeons can perform operations under the most favorable conditions and where patients can have the benefit of skilled nursing. When the hospital is opened it will be no longer necessary for citizens of Twin Falls to go to the expense of traveling to larger cities for surgical treatment and attention. The hospital will be open to all and every physician will enjoy its privileges. It will be managed in a thoroughly businesslike manner by a competent board of representative citizens and it will be run in the interest of the people of Twin Falls and the surrounding country.

When President F. H. Buhl of the Twin Falls Land & Water Co. was informed by the health committee of the Twin Falls Commercial club that a hospital was urgently needed in this city and that the citizens were joining hands in an effort to secure funds for the building, he promptly subscribed \$500 which will be available at any time it is needed. President Buhl's generosity has put new life in the hospital movement and made possible the erection of the building without delay. The news that Mr. Buhl had come to the rescue was brought to Twin Falls this evening by General Manager Walter G. Flier of the Land & Water company, who stated that the president was in hearty accord with the movement and glad to assist the people of Twin Falls in such a laudable effort.

The Commercial club took hold of the hospital question in a vigorous manner. Although the ground has been barely prospected up to date, stock subscriptions amounting to \$1745 have been obtained and \$342 in cash has been donated. It is confidently believed that \$3000 can be raised and for this sum a comfortable hospital can be built. The ladies of the city have announced that they will furnish the building from cellar to garret and there is little doubt that funds ample to equip the hospital will be available when required. Many of those who subscribed stock said they would take more if necessary. Others, whose names do not appear on the list, have promised their assistance. At the meeting of the Commercial club on Tuesday evening, Chairman George Fraser of the committee on public health reported that the committee had succeeded in raising \$342 in cash and \$1745 in stock subscriptions. Since that time no soliciting has been done but several offers of assistance have been made to the committee and will be accepted in time.

The cash subscriptions will be utilized in checking the spread of typhoid and in maintaining the temporary hospital. There are five fever patients in the hospital at present and every one of them is on the road to recovery. Two patients will be discharged in a few days. Miss Volt and Miss Welshold, the trained nurses, are doing admirable work. Each of the ladies works 12 hours a day. To care for two fever patients is a task for any nurse, but Miss Volt and Miss Welshold have ministered to three times that number and have done it cheerfully and skillfully.

The sanitary campaign is being vigorously prosecuted. Dr. Emerson, the county physician, made a thorough inspection of Rock creek today, going over every foot of the canyon between the waterworks well and the siphon. He was accompanied by Dr. Clouchek and Trustee Eckhoff. They reported having found the banks of

the creek in a filthy condition at many points. Dr. Emerson will make a detailed report with recommendations to the county commissioners and Dr. Clouchek will act as deputy county physician in the Twin Falls district and carry out the commissioners' instructions. The effects of the sanitary campaign are already being felt and no new cases of typhoid have been reported for several days.

Formal steps will be taken to perfect the hospital organization at the meeting of the Commercial club next Monday evening. It is probable that a hospital association will be regularly incorporated with a suitable amount of capital stock, perhaps \$10,000, and a board of managers elected. Following is a list of the subscriptions to date:

| Name                 | Cash      | Stock      |
|----------------------|-----------|------------|
|                      | Subscrip- | Subscrip-  |
|                      | tion.     | tion.      |
| F. H. Buhl           | \$500.00  |            |
| James H. Richardson  | \$25.00   |            |
| Roberts & Oughton    | 25.00     |            |
| Dr. Truman O. Boyd   | 200.00    |            |
| Dr. H. W. Clouchek   | 100.00    |            |
| First National Bank  | 25.00     |            |
| McCormick & Co.      | 100.00    |            |
| G. W. Tarr           | 100.00    |            |
| Twin Falls News      | 25.00     |            |
| M. M. Murtough       | 20.00     |            |
| Allen Mer. Co.       | 35.00     |            |
| J. P. Harrah         | 3.00      |            |
| George Basset        | 5.00      |            |
| F. E. Ramsay         | 2.50      |            |
| David Smith          | 5.00      |            |
| L. O. Kiersted       | 2.50      |            |
| Young & Sons         | 5.00      |            |
| Sprague & Butler     | 50.00     |            |
| G. B. Storer         | 1.00      |            |
| H. J. Wall           | 5.00      |            |
| M. B. DeLong         | 10.00     |            |
| I. R. Darrow         | 2.50      |            |
| Fred A. Volt         | 5.00      |            |
| Fred Dreyer          | 25.00     |            |
| F. L. Flier          | 5.00      |            |
| Forrie & Burton      | 10.00     |            |
| Robison, Tagg & Hdw. | 10.00     |            |
| Twin Falls Furn. Co. | 20.00     |            |
| E. B. Williams       | 10.00     |            |
| H. Triplett          | 2.50      |            |
| Dr. J. M. Rogers     | 25.00     |            |
| J. H. Pierson        | 2.50      |            |
| C. Harder            | 5.00      |            |
| Pearl Market Co.     | 5.00      |            |
| F. L. Osborn         | 2.50      |            |
| C. M. Hill           | 5.00      |            |
| Stuart H. Taylor     | 5.00      |            |
| G. F. Baker          | 5.00      |            |
| James F. Stott       | 5.00      |            |
| W. W. Dunn           | 10.00     |            |
| S. T. Hamilton & Co. | 10.00     |            |
| R. W. Jones          | 15.00     |            |
| J. V. Baker          | 2.50      |            |
| O. A. Stalker        | 2.50      |            |
| C. C. Bedford        | 25.00     |            |
| H. S. Osburn         | 1.00      |            |
| A. McPherson         | 2.50      |            |
| Totals               | \$342.00  | \$1,745.00 |

A number of donations were also made. The Robison, Tagg Hardware Co. supplied stores, stovepots and pans for the hospital; Bradley & Parsons are supplying coffee for the patients; The Independent Fuel & Commission Co. donated a ton of coal; the Fiter Coal Co. came through with another ton; R. M. Downey is furnishing meat for broth. Pape & Tubbs will donate work in the event that a hospital is built and several others have announced their willingness to assist. The lumber dealers will come forward with a liberal donation of lumber, and there is little doubt that the Townsite company will provide a site. One prominent citizen has agreed to furnish hot air for the heating plant.

Mrs. H. O. Milner is preparing broth for the patients; Mrs. H. J. Wall brews the coffee; and Mrs. J. H. Richardson provides the toast. Mrs. H. F. Allen, Mrs. M. M. Murtough, Mrs. Volt, Mrs. Wolfe and other ladies have been exceedingly attentive and kind, and Dr. Boyd has been charit-

personified. If the names of any who assisted have been overlooked, the aggrieved parties are at liberty to throw potatoes at the chairman of the health committee, the understanding being that the potatoes are to go to the hospital.

The health committee was alarmed by a report that a number of young gentlemen were feigning sickness in order that they might be nursed. The guilty parties were warned that they would be ducked in Rock creek and made to drink creek water if they did not be good.

## SCARLET FEVER AT POCATELLO

Authorities Busily Engaged in Stamp- ing Out the Epidemic.

The children of Pocatello will now have to stay at home. There will be no more attendance of children at public gatherings of any kind. The theatres, schools, churches and all halls are closed to them. The public and parochial schools closed several days ago because of the danger of spread of contagious disease. Now the board of health has requested the theatres, churches and Sunday schools to be barred against children and they have all consented. The board did not make an order to this effect, but they have made the request and all persons in charge have willingly consented to take the action. The academy will not be closed because the pupils of that institution are old enough not to be so susceptible to scarlet fever, and most of the students are from out of town and have not mingled with families or children having the disease, and no cases have appeared there.

The scarlet fever is not spreading, but it has been decided to use drastic measures to end the disease now and have it done with, hence the action indicated has been taken. There are but 14 cases of the disease and only one, now case for the last three or four days. Many of the old cases are ready to be released within a few days, so that, unless there are new cases, which do not now seem likely, the disease will soon be stamped out. The health board is making a thorough sanitary inspection of the city and will leave nothing undone to put it in the best of shape. They will first inspect the dairies to see that conditions of cleanliness prevail there and will also inspect meat markets and all meat brought to the city from the outside will have to be submitted for inspection.

Yards, alleys and streets are to be cleaned up and kept that way; dogs are being killed off as fast as the executioner can work, and if the city is not good and healthy from this on, the board of health and city officials will know the reason why.—Pocatello Advance.

## ALBION ALSO HAS ITS TROUBLES

Citizens of County Seat Wrestling With Typhoid Fever Problem.

The typhoid situation in Albion is becoming a serious question. Once this disease gains a foothold, no one is safe, for it is a difficult matter to destroy the deadly germ. The typhoid germ thrives in filth and finds its way into the human system by means of water. Here, then, is the secret of its extermination. Every precaution should be taken to prevent contamination of the water supply. Many of the wells about town are in close proximity to stables, closets and other filthy and disease-breeding places. Stops and organic matter of different kinds are thrown upon the ground near wells, where it rots and contaminates the soil, and the first rain washes the filth with the deadly germs it contains into the well. People who allow such conditions to exist about their premises are nothing less than criminals, for they endanger not only themselves but also the entire community. We believe our laws are sufficient, if vigorously enforced, to protect the public, and our health officers should see that the law does protect. People should first be told what to do, and then if they do not remove these sources of contamination they should be prosecuted to the full extent of the law. Albion cannot afford to gain the reputation of being a hotbed for typhoid.—Albion Times.

## THE NEWS' BIRTHDAY.

With this issue the Twin Falls News enters upon its second year of publication. When the first number was published a few optimistic citizens who watched it come from the press predicted that it would soon become a powerful agency in exploiting the Twin Falls tract. While the publishers do not make this statement as a positive fact, it is probable that the News today has the largest paid circulation of any weekly in the state of Idaho. The reason for this is that Twin Falls is attracting more attention than any other section of the state. No less than 250 farmers have published their final proof notices in the News already. While some of them might be classed as transients, the vast majority are permanent citizens. They represent only a fractional part of the settlers who have taken up land under the largest and best canal system in America. There are more than 1500 entrymen on the tract already and the large holdings are being split up rapidly. Many a man who went in five cents in stamps for a sample copy of the News followed up the paper and became a land owner. A list of the "sample copy" settlers was kept until it contained more than 50 names and had it been continued it is probable that the number would exceed 100 today. The News has endeavored to keep pace with the procession. Without egotism it may be said that the News plant is the most modern and complete in Idaho. The publishers have unlimited confidence in the future of the city and tract and they have not hesitated to give Twin Falls the best equipment that money can buy. Visitors are always welcome.

## RANGE STOCK IS BEING SHOT BY THE FARMERS

Cattle and Horses from the Ranges in the Hills Are Devastating Unfenced Fields and Settlers Are Unable to Fence Against Them—Many Animals Have Been Killed.

Range cattle and horses are coming down in droves from the hills and devastating the fields of the farmers west of Twin Falls. The farmers are unable to build fences fast enough to protect their growing crops because fencing material is not to be had. If reports be true scores of range horses have been shot and either killed or maimed by indignant farmers whose fields have been ruined. The owners of the horses were unaware of the whereabouts of their animals, also they would have run their stock somewhere else.

"I counted the carcasses of nine horses on one section of land not far west of the city," said a well known horse owner. "Some of the animals belonged to me. They were raised in this district and this had been their winter range for years. They trespassed upon the farmers' fields and I suppose that the farmers were simply wrought up to such a pitch that they used their rifles. Much as I regret having my horses killed, I nevertheless feel that the farmers are up against a hard proposition. It is pretty tough for a man to lose a crop which has cost him perhaps \$15 an acre to grow. The law says that legal fences should be built to protect cultivated lands but how are the farmers going to fence their lands when they cannot get material nor even if they could afford to buy it? Still I am of the opinion that the farmers might have rounded up the range animals and run them across the canals. Range horses and cattle will rarely if ever cross a bridge and since over the canal they would stay there. Naturally the animals seek their old grazing ground. So far as my stock is concerned I would gladly have gone after it had I known what was happening. Viewed from a legal standpoint the farmer has no ground to stand on. He must either build a legal fence or suffer the consequences. There is also a law providing for the taking up of stray stock and the farmer can avail himself of this measure. It seems to me the proper thing to do would be for the stockgrowers to have a round-up on the Twin Falls tract without delay. From what I have seen there will be nothing to round up before very long. The farmers are sore and if they cannot buy rifle shells, the upshot will be that some of the stockgrowers whose animals have been killed will carry the matter into the courts and the farmers may have to pay more than it would have cost them to fence their lands. That would be an unfortunate proceeding and would do the Twin Falls tract no good."

## BRINGING CANAL ACROSS CREEKS

NEAT FEATS PERFORMED BY THE ENGINEERS.

High Line Canal Will Pass Over Rock Creek on the Larson Farm and Under the Turbulent Cottonwood Fur- ther Down.

The engineers of the Twin Falls Land & Water company are engaged in the difficult task of passing Rock creek under the high line canal. The canal and the creek come together in the field of L. Larson at Rock Creek, where the grades of both streams are practically the same. By means of four openings, each two feet by three feet six inches in size, the waters of the creek will be carried under the bed of the canal. The openings are 120 feet long and their carrying capacity has been gauged to meet the heaviest spring freshets. No possible damage to the canal can result from this source. The work will be complete in about 10 days.

The company is also placing three huge radial gates at the head of the high line canal to regulate the flow of water. These gates are similar to those in use at the headgate of the main canal at Milner, which have given perfect satisfaction.

At the point where Cottonwood creek crosses the high line canal the company is building a huge flume, 16 feet wide, seven feet deep and 200 feet long. This flume will carry the waters of the creek over the canal. It will stand 20 feet above the canal and is being constructed in the most substantial manner possible. The Cottonwood is a turbulent stream in the spring but it will be confined in such a manner that it cannot possibly harm the canal. Lumber for the flume is now being hauled to the crossing and the work is being pushed with great rapidity.

Few of those who are not familiar with the construction of irrigation canals realize the enormous number of problems involved in the work. The slightest defect is liable to cause serious trouble and the engineers are constantly devising means to minimize the dangers to the canal. It is conceded by all experts who have inspected the work that the Twin Falls canal system could not be improved upon.

Assistant General Manager Murtough reports that work on both canals is progressing faster than was anticipated and indications are that the big ditches will be finished before the time set for their completion. When the Rock Creek and Cottonwood crossings are in, the high line canal will be ready for water for a distance of several miles west of Cottonwood.

Range cattle and horses are coming down in droves from the hills and devastating the fields of the farmers west of Twin Falls. The farmers are unable to build fences fast enough to protect their growing crops because fencing material is not to be had. If reports be true scores of range horses have been shot and either killed or maimed by indignant farmers whose fields have been ruined. The owners of the horses were unaware of the whereabouts of their animals, also they would have run their stock somewhere else.

"I counted the carcasses of nine horses on one section of land not far west of the city," said a well known horse owner. "Some of the animals belonged to me. They were raised in this district and this had been their winter range for years. They trespassed upon the farmers' fields and I suppose that the farmers were simply wrought up to such a pitch that they used their rifles. Much as I regret having my horses killed, I nevertheless feel that the farmers are up against a hard proposition. It is pretty tough for a man to lose a crop which has cost him perhaps \$15 an acre to grow. The law says that legal fences should be built to protect cultivated lands but how are the farmers going to fence their lands when they cannot get material nor even if they could afford to buy it? Still I am of the opinion that the farmers might have rounded up the range animals and run them across the canals. Range horses and cattle will rarely if ever cross a bridge and since over the canal they would stay there. Naturally the animals seek their old grazing ground. So far as my stock is concerned I would gladly have gone after it had I known what was happening. Viewed from a legal standpoint the farmer has no ground to stand on. He must either build a legal fence or suffer the consequences. There is also a law providing for the taking up of stray stock and the farmer can avail himself of this measure. It seems to me the proper thing to do would be for the stockgrowers to have a round-up on the Twin Falls tract without delay. From what I have seen there will be nothing to round up before very long. The farmers are sore and if they cannot buy rifle shells, the upshot will be that some of the stockgrowers whose animals have been killed will carry the matter into the courts and the farmers may have to pay more than it would have cost them to fence their lands. That would be an unfortunate proceeding and would do the Twin Falls tract no good."

That would be an unfortunate proceeding and would do the Twin Falls tract no good."

That portion of Cassia county lying directly south of the Twin Falls tract, the major portion of which is now contained in the Cassia forest reserve, has been a summer range for cattle and horses for more than 25 years. The autumn storms and winter snows drove the stock down into the Snake river valley where winter grazing was to be found. For the most part the animals ran in this section are owned by Nevada and Cassia county stockmen who have hitherto had unrestricted use of the range. This is the first year that these stockmen have had to meet the settlement problem, consequently it is rather binding on them.

## MODEL SERVICE

### ON SHORT LINE

TWO DAILY PASSENGER TRAINS ON TWIN FALLS BRANCH.

Accommodation Train Will Leave Here at 7 o'clock in Morning, Enabling Passengers to Reach Salt Lake and Boise on the Same Day.

Commencing on Sunday, October 29, Twin Falls will have a train service superior in every respect to that upon any other branch of the Oregon Short Line, not excepting the Boise branch. The reason why—Twin Falls has the tonnage and the passenger traffic to warrant model service. The Minidoka & Southwestern has been a glittering success since the day the last spike was driven in Twin Falls yard. Freight and passenger business is increasing daily and there is nothing "red" about this road.

The regular passenger train, which arrives at 11:30 a. m. and leaves at 4:30 p. m., will continue to run on practically the same schedule, arriving in Twin Falls at 11:15. It will lay over at Minidoka hereafter instead of Pocatello.

The freight train, which has been arriving in Twin Falls at 1:30 p. m. and departing at 3 p. m., will be transformed into an accommodation train, leaving Twin Falls at 7 o'clock in the morning, connecting with No. 2 eastbound at Minidoka at 10:20 a. m. and returning leaving Minidoka at 12:30, arriving in Twin Falls at 5 p. m.

Thus it will be possible to leave Twin Falls in the morning and reach Salt Lake City the same evening. Passengers from Shoshone can make better time by rail than they could by stage. The westbound connections are also convenient.

In order to make sure that the accommodation train will not be hung up at way stations indefinitely, the railway company has so arranged the

# THEY WERE WED IN OLD VIRGINIA

## SPRAGUE-ROBERTSON MARRIAGE IN AMHERST.

Conducted with All the Ceremony Connected with the Episcopal Ritual—Mr. and Mrs. Sprague on Their Way to Twin Falls.

The Times-Dispatch of Richmond, Va., gives the following account of the marriage of George E. Sprague of Twin Falls and Miss Anna Rose Robertson of Amherst, Va., which occurred in the latter city on the evening of October 11:

"The wedding of Miss Anna Rose Robertson of this place to Mr. George E. Sprague of Twin Falls, Idaho, which took place in Ascension Episcopal church here tonight, was one of the most elaborate weddings ever seen in Amherst. The beautiful ceremony of the Episcopal church was performed by Dr. R. J. McBrulo of Lexington, a relative of the bride, assisted by Rev. A. P. Gray, rector of Ascension church.

"The church was lavishly decorated with roses, chrysanthemums and cosmos. The bride carried Bride roses, and the bridesmaids were dressed in white, with pink girdles. 'Lohengrin' and 'Rubenstein's' 'Thou Art so Like a Flower' were softly played by Miss Kate Troy during the ceremony.

At 8:30 the bride, dressed in white silk and lace, in train, and wearing pearls, entered on the arm of her brother, Mr. Archibald Robertson, who gave her away. They were met at the altar by the groom, with Mr. Thomas Sprague of New York, who acted as best man. They were married with a ring, according to the Episcopal ceremony.

"The bridesmaids were Misses Jean M. Robertson, Miss Lucile Strode, Miss Eliza Payne and Sadie Dearborn of Amherst, Eilon C. Brown of Arlington, Sue Sprague of New York, Ruth Alexander of Danville and Louise Cabell of Galt's Mills. Miss Beale Robertson, sister of the bride, was maid of honor. The ushers were Messrs. Frank Hopper of Baltimore, Thomas B. Robertson of Eastville, Va., Thomas M. Robertson of High Point, N. C.; Sam Scott of Amherst, T. Macon Waller of High Point, Lewis Brown of Arlington, Va.; W. K. Allen of Amherst and Arthur P. Gray of the University of Virginia. The flower girls were Elizabeth C. Ambler and Martha Waller-Robertson, who wore frocks of white, with pink ribbons, and carried baskets of white and pink flowers.

"After the ceremony was over a reception was given at the home of the bride's mother to the bridal party and the relatives of the families. The couple left on the 12 o'clock train over the Southern Railway for an extensive trip, to include Boston, Canada and other points. From thence they will go to their future home in Twin Falls, Idaho, by way of Salt Lake City.

"The bride is a well known Virginia social favorite, and is the fourth daughter of Mrs. Martha Robertson of this place. For several years past she has taught art in a seminary in Boise, Idaho. She has quite a good deal of artistic talent, and one of her paintings, which was on exhibition in the Idaho building at the St. Louis exposition, attracted a good deal of notice. The groom is a native of New York, but for a number of years past has made his home in Idaho. He has been very successful as a real estate dealer, and has large real estate holdings in the rising city of Twin Falls, Idaho.

"The out-of-town guests were Miss Lucy Wornley of New York, Mrs. Mrs. Maurice Garland, Misses Maude Garland and Louise Waller of Lynchburg; Mrs. James Waller of High Point, N. C.; Judge and Mrs. J. Thompson Brown of Arlington, Mrs. E. C. Ambler of West Virginia, Mr. and Mrs. Raymond of New York, Miss Saine and Mr. Meredith Waller of Forest Hill, and Miss Louisa Miller of Lynchburg.

**For Exchange.**  
Twenty-acre orchard in full bearing or eighty-acre tract of acre brush land with full water right, both in Payette valley, for land or town lots at Twin Falls. Address P. O. box 574, Boise, Idaho.

**Ditch Surveying's Specialty.**  
Charles H. Mull makes specialty of ditch surveying. He knows the ground and guarantees satisfaction. Office in Jones building, Twin Falls.

# EVAPORATED CREAM

Nickels, gilded to represent \$5 gold pieces, are being circulated freely in southwestern Idaho.

Colonel Alton Miller estimates the population of Idaho at 250,000. His estimate was based upon the number of school children enrolled, 77,000.

A skeleton of a mastodon was found at the Milkado dam at a point about 25 feet beneath the surface by the men engaged in excavation work. The skeleton was almost entire.

Admiral Togo has returned to Tokyo, His fleet, which consisted of more than 300 vessels, including several of those captured from the Russians, was reviewed by the Mikado. The admiral's reception was almost hysterical in its warmth.

President Roosevelt's swing through the south this week was a series of ovations. The greeting he received at the Tuskegee Institute was something unusual in its warmth, but none the less demonstrative than the reception given him at Atlanta and other cities.

The sale of town lots in Hoyburn and Rupert has been postponed until spring. Congressman French will endeavor to have a bill passed by congress providing that the proceeds of the sales shall be used for the benefit of the towns and not turned into the reclamation fund, as would be the case if the sales were held this year.

The celebrated "Bachelor Girls' Club" of Corry, Pa., concerning which columns were printed not long ago, has disbanded. The girls who took an oath not to marry succumbed, one by one, to Cupid's wiles and finally decided to get married in a body. Sixteen former members of the club were married in Buffalo a few days ago.

George V. Catt, who was a very wealthy man and whose wife is the well known club woman, Caroline Chapman Catt, died a few days ago, after leaving a will bequeathing his body to Bellevue hospital for dissection. As a result the doctors made the amazing discovery that the millionaire had lived for several months without a pancreas, the most important of digestive organs. The discovery is expected to be of great benefit to science.

The strike of railway employes in Russia is spreading and practically every road in the empire is now tied up. Trade is paralyzed and foodstuffs are becoming dearer every day. There appears to be no prospect of a settlement. Pathetic scenes are reported from Moscow, where thousands of the poorer inhabitants of the adjoining provinces have been waiting for four days for trains to take them home. They are camping out near the railroad station and in the streets, and many of them are without money and the necessities of life.

The famous Rancho Del Paso at Sacramento, Calif., is to be broken up into farms and sold. The Rancho del Paso is the property of J. B. Hagg and for many years has been the largest and most noted farm of the kind in the world. Scores of kings and queens of the turf were bred there, and it was the home of such stars as Ormond, Salvador, Tony, Ben All, Sir Walter, Middleton, Goldsmith, Waterer, Sir Mordred, Maxim, Fonso, Fitzjames, Star Ruby, St. Andrew and others who helped to make turf history. It will require 75 cars to ship these horses to New York, where they will be sold on December 7. The breaking up of the Rancho del Paso will be a severe blow to horse racing in California.

Professor W. D. Miller of the University of Berlin sent letters down the backs of the students at Wesleyan when he announced that the life of a girl would often bring a quicker and more horrible death than the life of a serpent. Professor Miller, who has made a special study of the behavior of the mouth, said that only a short time ago he experimented on a girl in Germany and found that an arrow dipped in saliva from her mouth would send its victim into death throes, and more terrible than one dipped in the venom of the most deadly snake. Professor Miller said that there was a lesson in this for dentists. Neither should mothers or fathers allow babies to chew their fingers as blood poisoning is likely to come from it.

After months of illness, Ex-Congressman Jerry Simpson, the most famous member of the Populist party, died last Monday. "Sockless" Jerry, as he was called, was a genial, kindly and able man, and was true to his principles. His action in tearing up his overcoat on the floor of the house of representatives in Washington while making a speech against the manufacture of shoddy goods and their protection by the tariff will long be recalled as one of the most dramatic happenings in congress.

The advance in the price of leather of all grades, which has been steady and continuous for the past two months, has reached a point where the manufacturers of leather goods are taking alarm and beginning to talk of raising prices all along the line, says the Journal of Commerce. Already the Chicago shoe manufacturers have advanced their prices 50 cents per pair, and there is talk here to the effect that eastern manufacturers would follow suit within a few days. Quotations have risen so persistently and strongly, and it is becoming so apparently easy to get higher and higher prices, that unless wisdom and restraint prevails between buyers and sellers there is danger afloat. Never in the history of the leather trade have the prices of hides been so high for a continuous period. It has been an extraordinary situation, and its existence is charged up to Chicago packers.

The insurance investigation still continues to be prolific of sensation. Emory McClintock, actuary of the Mutual Life insurance company, was on the grill on Tuesday and after a perplexing examination he was excused on account of illness. He was supposed to be able to explain the extraordinary reduction in the company's dividends to policy holders, which he asserted, was due to the increase in the company's reserve fund. Mr. McClintock said interest rates had declined from 6 1/2 per cent 20 years ago to 4 per cent at the present time. The company was now paying 4.1 per cent, which was greater than the interest paid by savings banks, but the policy holders received only the fraction in excess of 4 per cent. Charles J. Smith, who said his business was to counteract the injury being done to the insurance companies and policy holders by the investigation, said the company paid \$1 a line for dispatches sent out through the medium of the Telegraphic News bureau, which served about 100 newspapers. He admitted that the dissemination of President McCurdy's testimony cost \$2 per line. Since the investigation began, Mr. Smith admitted, the company had paid about \$14,000 for publicity. The witness said some of the newspapers refused to print the insurance dispatches without marking them as advertisements. Walter S. Sullivan, who had charge of the magazine advertising for the Mutual, testified that this class of advertising cost the company \$34,173 last year.

**INTERESTING FIND OF BONES**  
Made by Workmen at American Falls Power House.  
Workmen excavating at the new power house this week have brought to light a great quantity of bones, tusks and teeth of huge prehistoric animals. Judging from the number of tusks taken out there must have been at least seven of these great skeletons unearthed. The largest tusk measured 14 feet in length and was over 13 inches in diameter at the base. Many fine specimens of teeth have been found, the largest weighing 17 pounds and 2 ounces. The bones, as a rule, are in a badly decayed condition, though a few have been carefully handled and are almost entire. The engineers for the Brady company have been instrumental in saving one of the largest skeletons, of which there are two large tusks, a number of immense bones and a jaw bone with several teeth intact. This collection is now at the company's offices on Railroad avenue—American Falls Advertiser.

Buy or sell anything for spot cash. Pate's second hand store, East Main street.

For Sale.  
Fruit farm on Snake river, near the mouth of Little Salmon, 25 miles north of Twin Falls; 117 acres, 600 fruit trees, 400 of them 6 to 8 years old; abundance of free water; new house; cuts about 25 tons hay. This place is only partly improved and will be sold very cheap. Call on or address P. N. UHRLAUB, Riverside Farm, Hagerman P. O., Idaho.

# WHY THEY COME TO TWIN FALLS

## RAIN RUINS WHEAT CROP IN THE PAULOUSE COUNTRY.

Nearly One Million Bushels of Grain Rendered Useless for Milling Purpose and Loss to Farmers Will Be Enormous.

Fully 750,000 bushels of wheat are practically a total loss in the Paulouse country as a result of the continued heavy rains. In the vicinity of Washington, Kalbouns and Pampa there is 15 days' work for a threshing machine. There are hundreds of acres standing in the shock in the vicinity of Oakesdale, Thornton and St. John that is practically a total loss. It is now growing and rotting in the shock. Many farmers have their entire crops standing in the stock and will lose it all. The condition is serious as it affects many farmers, whose loss will be enormous.

Many farmers declare their crop a total loss. One farmer offered to sell his crop of 160 acres of wheat, cut and in the shock, for \$300, or less than \$2 per acre. A farmer living near Steptoe Butte declared there are 10,000 acres of wheat standing in the shock in his neighborhood, all of which is almost a total loss. He told of one man with 640 acres; another with 600 acres, and he has 300 acres which have not been threshed.

It is thought that about 10 per cent of the crop has not been threshed and will be lost, except what is used for feed. A portion of this can be used for feed for stock, if fed in the shock, but if it were threshed it would rot in the sack, as it did in 1893, when millions of bushels of grain which had been cut, threshed and sacked, spoiled and the farmers lost the grain and the sacks in which it was stored—Golden-Date, Wash., Sentinel.

## NOW WATCH TOOLE GET EVEN

Jacob Lockman Springs Joke on His Old Friend in Wallace.  
Jacob Lockman came up from Twin Falls the first of the week on business that demanded his personal attention. He will return tomorrow and remain on his land the balance of the time required by law. Mrs. Lockman remained on the ranch.

Mr. Lockman expressed himself as very much pleased with his investment down there, as are all those making up the Coeur d'Alene party. Prior to going to Twin Falls the Coeur d'Alene had arranged to have cabins or shacks built on their claims, which was done under the supervision of A. D. McKinlay, who went down considerably in advance of the party. They had also contracted the clearing of the ground, 10 acres on 80 acre tracts and 20 acres on 160 acre tracts. All the cleared ground has been planted in wheat, and the Coeur d'Alene crowd now have water on their ground and growing crops.

The only event outside of what was to be expected was a severe dust storm a few days before Mr. Lockman left. For more than an hour a terrific wind prevailed and the dust was blinding. Hugh Toole, evidently stinging the storm up for a cyclone, abandoned his cabin and took to the sage brush, where he hugged the ground as close as possible until the storm passed over.

The Coeur d'Alene crowd consists of Mr. and Mrs. Jacob Lockman, Mr. and Mrs. L. L. Sweet, Mr. and Mrs. W. R. Swicegood of Gem, Mr. and Mrs. Williams, Trentowsky of Gem, Hugh Toole, Horace King, A. D. McKinlay, Bert Zink of Gem, George Ritter of Kellogg and Al Page of Wardner—Wallace Press.

Just received a fine line of Indian purses and automobile bags, at Bedford drug store.

Alfalfa and Timothy Hay.  
I propose to ship hay by the carload into Twin Falls for my own use and for sale to farmers at a reasonable price. By buying right I will be able to sell right.

J. E. BURNETT,  
Twin Falls Livery and Sale Stable.

Notice of Sale of Telephone Poles.  
On November 10, 1905, at 10:00 a. m. on the steps of the postoffice at Crook Creek, Cassia county, Idaho, I will offer for sale for cash to the highest bidder:

78 poles, 30 feet long, 7 inches diameter at top.  
446 poles, 20 feet long, 4 inches diameter at top.  
These poles are now lying at Big Buck Camp, Bear gulch, and on right hand fork of Shoshone creek, all on Cassia forest reserve.  
PETER T. WRENSTEDT,  
Forest Superintendent.  
October 14, 1905.

# LIVE STOCK BRAND LAW CAUSES DISSATISFACTION

Seems to Be Too Cumbersome to Enforce Successfully—State Auditor Bragaw Sees All Kinds of Grief Ahead of His Department—Trouble in Store for the County Recorders Also.

State Auditor Bragaw is having trouble of his own these busy Indian summer days. Senate bill No. 61, "An act to provide for brands to be used on live stock and recording the same," etc., is becoming a thorn in his flesh. Fifteen hundred brands for horses, cattle, sheep, swine and other species of live stock have so far been filed in his office. That is all well enough, says Auditor Bragaw, but just wait, he says, until the time comes for the operation of that provision of the above named act which requires the state recorder to publish a book of brands. This book will not be of good literary value, but it promises to be voluminous. And it is this book, and the pending trouble incident to the preparation thereof, which is causing Auditor Bragaw to lay awake nights and dream of burning the midnight oil and wearing out pens and state seals.

Section 13 of the live stock brand law reads as follows:  
 "It shall be the duty of the state recorder, on or before December 1, 1905, to publish a brand book, in which shall be given a fac simile or copy of all the brands recorded in his office up to that time, together with the owner's name and the city and county wherein he resides. One copy of such book shall be forwarded to the county recorder of each county . . . and one to each livestock inspector within the state. It shall be the duty of the state recorder, quarterly after the publication of a brand book, to furnish each county and each inspector with a list of the brands and marks recorded in his office during the preceding three months, which list shall be printed in uniform style with the pages of such brand book, and shall be pasted in and become a part of such brand book when received by the county recorder and inspector of the respective counties. The state recorder is authorized to publish, if he deem best to do so, a limited number of such brand books in addition to the number required by the provision of this section and to sell the same for such price as he may consider reasonable and proper, which price shall not be less than the actual cost of the same. The proceeds of the sale he shall turn over to the state treasurer."

Auditor "Views with Alarm."  
 Now, there are 21 counties in the state of Idaho, and therefore 21 county recorders. There are also 36 livestock inspectors in the state. It will therefore devolve upon the state auditor to make 57 copies of his brand book as a starter, and quarterly thereafter he shall be required to make a certified copy of all new brands recorded since the issuance of the book. No wonder State Auditor Bragaw views the outlook with eyes of disfavor.

A great deal of trouble has been caused by the livestock law. Many owners of live stock send to the state recorder an incorrect description of their brands, or perhaps they fail to observe that portion of the law which requires that the exact spot upon the animal on which the brand is to be placed shall be designated. The auditor is forced to return the papers in such case to the stock owner for correction. Weeks may elapse before the brand is received again for recording. In the meantime another stock owner may file exactly such a brand as the first man intended to file, and the auditor, under the law, is forced to record the second brand, and when the first man's corrected application for filing is received, the auditor is forced to reject the application, on the grounds that such a brand is already on file. And it is then that the first man arises in his righteous wrath and calls down anathemas upon the head of the state lawmakers in general and Auditor Bragaw in particular.

**Livestock Law Defective.**  
 The Idaho livestock law is not giving the satisfaction its framers anticipated. It is subject to improvement in many spots and the next session of the state legislature will undoubtedly take the matter up for discussion.  
 At the present time one clerk in the office of the state auditor is kept busy with brand filings alone. Later

on, when the brand book is to be prepared, it will require the services of fully three men.—Boise Statesman.

## MORE LIGHT ON ARROW HEADS.

Wood River Times Contributes Information on the Subject.  
 Some of the newspapers that are commenting upon the finds of arrowheads and spear points at and near Burley say that they are so hard that they cannot be worked with any implement known to the present generation, also, that they were used before the great lava flow.

Both statements are erroneous. In 1887-8 there were thousands of arrowheads found across the river from Glenn's Ferry by the employes of the Lucky Bar Placer Mining company, of which this reporter was the manager. These all found a ready sale with the lapidarians and the manufacturing jewelers of Chicago and New York at 25 to 50 cents apiece, according to their color. They were of carnelian, and in various shades of red, from pink to very dark. The jewelers manufactured them into neckpins that sold for \$10 each. They had no trouble in grinding and polishing them, their hardness being about one-third less than that of the diamond.

The heads found at Burley are of obsidian, which is a variety of volcanic glass, and of substantially the same mineralogy as carnelian. Its hardness is also about one-third less than that of the diamond, the latter's being 10, while that of the obsidian and carnelian is 7.

The great lava flow that covered what has since become the Snake River valley must have preceded the age of man. At any rate, the arrowheads and spear points are invariably found buried in the sediment that overlies the lava, and that doubtless resulted from its decomposition. An enterprising person could make good money by gathering the arrowheads and selling them to the jewelry trade, as the demand is practically unlimited.—Wood River Times.

## For Sale.

Three hundred and twenty acres, all fenced, 150 acres in alfalfa, 100 acres in grain. New five-room house, well, stable, granary and shop. Altitude 4200 feet. Two miles from railway station and postoffice. This ranch is ideally located for a stock or sheep farm, owing to the exceptionally good free range commencing at the ranch fence and extending many miles. Stock can be raised cheaply and the shipping facilities are unexcelled. Price \$12,000. Easy terms. Address P. O. box 374, Boise, Idaho.

**Full of Tragic Meaning**  
 Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At Sprague & Butler's, druggists; guaranteed; 50c and \$1.00. Trial bottle free.

**Lands for Lease.**  
 Choice agricultural tracts, under the low line canal, 20 to 150 acres in extent, will be leased to desirable tenants on favorable terms. These cleared and cultivated at once. In lands are owned by farmers in north Idaho, who wish to have them cleared and cultivated at once. Interested tenants will find the terms very advantageous. For particulars inquire of J. M. MAXWELL, Cashier First National Bank, Twin Falls.

**Plans to Get Rich**  
 Are often frustrated by sudden breakdown, due to dyspepsia or constipation. Bragaw and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start. Curo headache and dizziness too. At Sprague & Butler's drug store; 25c guaranteed.  
 Nothing is too heavy or too light for Eickhoff & Hazen to handle in their big transfer wagons. Give them a trial and satisfy yourself.

LIVELY DEBATE AT KIMBERLY

JUDGES DECIDE IN FAVOR OF SPECIALTY FARMING.

Points Well Taken and Arguments Excitingly Interesting—Miss Chamberlain Will Talk Next Week on "Centralized Schools."

KIMBERLY, Oct. 25.—The debate of the Kimberly Farmers' association meeting on Wednesday night was a decidedly successful one. The school room was crowded and everyone entered to the meeting with the intention of getting all the fun out of it that they could. The question was "Resolved that investment farming is preferable to specialty farming."

Miss Belle Chamberlain, assistant state superintendent of public instruction, will speak next Wednesday night on "Centralized Schools," and a large attendance is expected as the subject is an important one. The officers of the association and E. Prothro, road overseer, were elected delegates to the convention to be held at Twin Falls on Saturday, November 4.

General discussion and story telling ended a pleasant evening. The next evening a party from Boise will visit with his family in Boise. There is a railroad extra gang in cars on the siding here. They are surfacing the track between Kimberly and Twin Falls.

The school enrollment has passed the 50 mark and still the children continue to flock in. The pupils are learning to be practical farmers as they are at present engaged in grubbing the sagebrush off of the school grounds.

Four new houses have been started this week in the townsite. They are all cozy cottages and will make very comfortable homes. They belong to J. Witty, B. Wilkins, A. N. Dunton and D. P. Moon.

George Holyoak's adobe house is being up rapidly. A. L. Hanson is clearing his lots preparatory to starting a livery stable and feed yard.

Charles Schiffman left for Portland on Saturday. Mr. and Mrs. Ed Lewis left for Colorado Springs Thursday. They will be away only long enough to dispose of their home and pack their household goods. Mrs. Lewis' mother will return with them.

Miss Florence Morse entertained with a surprise party for her brother, Roy, on Monday night. A very pleasant evening was spent playing flinch. Those enjoying Miss Morse's hospitality were Misses Holm, Moore and Rose and Messrs. Wilkins, Lytle and Ors.

Fred Gulna, who had been for some months clerk in the Stockgrowers' office, returned to Shoshone Monday. Mr. Gulna made a host of friends here who will miss him.

The Nibley-Channel Lumber company is putting in a wagon scale to be used in connection with their coal business. Rev. Osterhout will hold services at the school house on Sunday at 3 p. m. Plans will be discussed for organizing a Sunday school. All those interested in the work are especially urged to be present.

George Peterson is hauling vitrified pipe to the high line canal to be used in conveying water from Rock creek under the canal. The Twin Falls Land & Water company is hauling a carload of heavy timbers from here to points on the high line canal for bridges.

Judge Knutson finished thrashing on Wednesday. A three-seater living car has been set out here for the use of Station Agent Gale and his family. Mr. and Mrs. Frank Burrington spent Wednesday and Thursday in Kimberly.

W. H. C. Taylor left for Boulder, Colo., Monday. He expects to return in the spring.

HAY IS SCARCE IN CLEAR LAKE

STOCKMEN HAVE BOUGHT UP THE ENTIRE SUPPLY.

George Lamb is preparing to open a store. T. W. Snodgrass completes his Creamery and Otis Syter finishes his Greenhouse.

CLEAR LAKE, Oct. 25.—Although the nights are at times decidedly pleasant, George M. Lamb is in Ogden, purchasing a stock of goods preparatory to opening a general store here. He has the good wishes of all in his vicinity.

T. W. Snodgrass has completed his Creamery, a very well equipped and comfortable building. Mrs. George Lamb has been suffering for the past week from an affection of the ear.

Mr. and Mrs. Albert Haines of Elmer, Perry and their family, who valley a few days ago on their way home. Mr. Haines is editor of the Glenn's Ferry Signal and formerly resided in this part of the country. Henry Smalley and his son, Charles Smalley, visited in Shoshone last Saturday. Hay is becoming very scarce in this section. Almost every farmer has

ALREADY DISPOSED OF HIS CROP TO STOCKMEN.

Miss Alma Anyerson of Abbey visited at the home of Mrs. Snodgrass on Monday last. Mrs. M. Anderson has been on the sick list for the past week. Mr. and Mrs. Dike and family are preparing to move into the home on the Haines ranch which they purchased last spring.

A. G. Madellina went to Shoshone on business last Monday. Mrs. Charles Ferguson is quite ill at the home of her mother, Mrs. Briggs, of this place.

Otis E. Syster has received the winter stock of his new greenhouse which is almost completed. There are more pupils attending school at present than there has been at any time since the school opened.

Henry Smalley, who harvested some of the finest potatoes ever grown in the state, sold several hundred bushels to farmers here last week.

WILKINS, H. BEET AND DAN C. IRVAN

Twin Falls spoke on the occasion of the death of J. McMullan and W. A. Waters of Twin Falls were their opponents. Messrs. Knutson and Lytle of Kimberly and Anderson of Twin Falls acted as judges. The argument was held all the way through, and not a point was allowed to escape. The decision was taken by ballot and the judges, after careful consideration, gave the victory to the negative side.

Miss Belle Chamberlain, assistant state superintendent of public instruction, will speak next Wednesday night on "Centralized Schools," and a large attendance is expected as the subject is an important one.

The officers of the association and E. Prothro, road overseer, were elected delegates to the convention to be held at Twin Falls on Saturday, November 4.

General discussion and story telling ended a pleasant evening. The next evening a party from Boise will visit with his family in Boise.

Miss Florence Morse entertained with a surprise party for her brother, Roy, on Monday night. A very pleasant evening was spent playing flinch. Those enjoying Miss Morse's hospitality were Misses Holm, Moore and Rose and Messrs. Wilkins, Lytle and Ors.

Fred Gulna, who had been for some months clerk in the Stockgrowers' office, returned to Shoshone Monday. Mr. Gulna made a host of friends here who will miss him.

The Nibley-Channel Lumber company is putting in a wagon scale to be used in connection with their coal business. Rev. Osterhout will hold services at the school house on Sunday at 3 p. m. Plans will be discussed for organizing a Sunday school. All those interested in the work are especially urged to be present.

George Peterson is hauling vitrified pipe to the high line canal to be used in conveying water from Rock creek under the canal. The Twin Falls Land & Water company is hauling a carload of heavy timbers from here to points on the high line canal for bridges.

Judge Knutson finished thrashing on Wednesday. A three-seater living car has been set out here for the use of Station Agent Gale and his family. Mr. and Mrs. Frank Burrington spent Wednesday and Thursday in Kimberly.

W. H. C. Taylor left for Boulder, Colo., Monday. He expects to return in the spring.

POCATELLO WANTS A HOSPITAL

CITIZENS ARE ENDEAVORING TO RAISE A FUND OF \$5,000.

An effort is now being made to secure a hospital here that bids fair to result in accomplishing the desired object and in the securing of a first class hospital for this city. Bishop Funsten of the Episcopal church of this state has made a standing offer to build a \$10,000 hospital in this city provided the citizens here would raise half the sum.

The physicians of the city have been taking an active interest in the matter for some time and Monday night held a meeting in the Elks' club rooms, at which the matter was gone over thoroughly.

Yesterday a subscription paper was prepared and D. W. Church started out with it and in a few hours had secured pledges of more than \$1,200 of the amount required, and it is believed that the citizens will stand together on the proposition and make it a success.

The list which Mr. Church was circulating yesterday bears the following pledge: "Whereas, Bishop Funsten having agreed to put up a building costing \$10,000 for a hospital, provided that the citizens will guarantee him the sum of \$5,000, we realize that the city of Pocatello is greatly in need of a hospital and the matter has been talked to a standstill, and now all that is needed is action. We would be ashamed to think that we could not secure one because we could not raise so paltry a sum for so great a benefit, therefore, we, the undersigned, agree to pay to the treasurer of the hospital committee when it is an assured fact that the building will be built, the amount subscribed opposite our names."—Pocatello Advertiser.

MANY VISITORS STOP AT HANSEN

SEVERAL NEW SETTLERS ARRIVE DURING WEEK.

Number of School Children is Increasing Rapidly—Church Services are Arranged—Social Events are on the Increase.

HANSEN, Oct. 26.—The family of B. E. Coffey arrived Friday. B. E. Rose left Thursday on a hunting expedition. J. Tobin of Twin Falls was a visitor in Hansen on Wednesday.

Mr. and Mrs. R. Messer and Mr. and Mrs. C. E. Coley were passengers from here to Twin Falls on Monday. J. J. Rauch was a caller in Twin Falls on Tuesday.

W. W. Jones of Twin Falls visited in Hansen on Tuesday last. On Sunday last Miss Roxie Divine entertained the Messrs. Fern and Ethel Towne.

George Smith has gone to Twin Falls, where he has secured employment. Miss Elva McCollum is visiting this week at the home of T. J. Raeh.

Robert Messer was a passenger from here to Rupert on Tuesday. F. M. Towne is erecting a very comfortable home on his ranch east of here.

J. H. Barnes arrived on Saturday from Portland, Ore., to visit his parents, Mr. and Mrs. T. J. Barnes of this place.

H. W. Sampson departed Sunday for his home in Pullman, Wash., to remain during the winter. D. M. Ricks, while en route home from the Portland fair, is visiting his brother, E. L. Ricks of Hansen.

Miss Elva McCollum has recently been added to the list of enrollment in the Hansen school. Church services are being held regularly on Sundays in the school house with a very good attendance.

Mrs. Robert Messer entertained at dinner Thursday evening in honor of Miss Elva McCollum of Twin Falls. Covers were laid for eight.

EDUCATIONAL LAWS OF IDAHO

Should Be Observed by All Patrons of Public Schools.

The following Idaho laws, one pertaining to the duties of teachers and school trustees, the other to the duties of probate courts and their probation officers, should be read by all school patrons:

Section 1094 of the school laws of 1905 provides that every child between the ages of 8 and 14 years, whose physical condition will permit, shall be kept in school for at least 12 weeks in each school year, and section 1098 of said law, that the principal or superintendent shall serve notice on the parents or guardian of said child demanding the attendance of said child within 10 days from said service, designating the school which said child shall attend.

Section 1097 provides that if at the expiration of said 10 days said parent shall refuse to cause the attendance of said child, the superintendent or principal shall on five days' notice proceed to collect a fine from said parent of not less than \$5 or more than \$25 for the first offense and not less than \$10 or more than \$50 for the second offense, said fines to go into the school fund.

Section 1101 also makes it the duty of the teachers to report all children between the ages of 8 and 14 years that do not attend school, and it then becomes the duty of the trustees to proceed to collect the penalties set forth in section 1098, and it also becomes the duty of the trustees to post notice of these requirements in prominent places in their district.

The foregoing are the requirements, briefly stated, of the teachers and trustees of our school districts by the school laws of this state.

Delinquent Children Act. Section 9 of the "Act to Provide for the Care of Delinquent Children," found on page 106 of the session laws of 1905, states that all parents, guardians and other persons having the care of children between the ages of 8 and 16 shall send said children to a public, private or parochial school for the entire year, during which the public schools are in session. This act does not, however, apply to children over 14 years of age who have completed the eighth grade, or whose parents' support, or for any good cause showing it would be for the best interest of the child; it may be relieved from its attendance at school; or if the child's mental or bodily condition does not permit of its attendance at school it can be excused. The act further provides that the superintendent of the school district, if there be one, and if not, the county superintendent, shall hear and determine all applications of children desiring to be excused from attending school for or on account of any of the foregoing reasons. This matter is not left to the parents of children, as will be observed.

Do You Know You Do Not All Kinds Adams, Pitgerrim Co. Planing Mill and Lumber Yard Twin Falls Idaho

# GIRLS SUSTAINED HONOR OF THE ALBION NORMAL

Defeated the Academy of Idaho at Basket Ball but Were Obligated to Witness the Downfall of Their Football Team at the Hands of the Clever Young Players from the Pocatello Institution.

Honors were easy at the academy... The Albion basketball team came off victorious with a score of 4 to 2, while in the football game the academy boys had things their own way from beginning to end. In the evening high school and academy met together on common ground at the academy reception to the Albion team, renewed their friendship and talked over battles yet to be fought. Mr. Slaughter delivered a very delightful address of welcome to the visitors, and Mr. Thompson, the coach of the Albion team, responded. A short literary and musical program was followed by dancing, games, general conversation and refreshments. The only thing that marred the evening was an occasional fuse blown out, which the electrician could not keep going. Everyone went away, it is believed, with the highest opinion of the academy's hospitality.

Albion Ladies Victorious. A more perfect day could hardly have been created for the events. For two days before the games the students of the academy had been wearing their badges of admission and as the hour of their schedule drew near, excitement grew intense. By 2 o'clock a good sized crowd had already gathered about the basket ball field, where the girls in their suits were practicing for the contest. The basket ball game was both a novelty and a very pretty exhibition. During the first half the Albion girls were plainly the superior of their two, both in team play and in energetic line. Numerous fouls on both sides characterized the half, but no goals were made on the free throws. There were many exciting cries which set the rosters into an uproar, but the score at the end of the first half stood 4 to 2 in Albion's favor.

The second half was far more interesting than the first. The academy girls weakened and plunged into the game with a determination to win if possible. The Albion team kept up a good part but were no more than a match for their opponents. Fouls were still made, but with less frequency. The Misses Dippel and Smith for the academy did especially creditable work in their half. Miss Dodson was most active and likewise most given to fouls. Miss Fischer also played a good half. However, at the end of the half the score of the first remained unchanged, still 4 to 2, with Albion in the lead.

The Albion team deserved their victory, but it needs to be said that the academy team has always played the game by girls' rules, as should be done, while the Albion team insisted on playing men's rules. In this, as in all cases, the academy followed its policy of conceding every reasonable demand to the opponent and taking the disadvantage itself. A return game will be played later in the season.

Normal Footballers Outclassed. With somewhat anxious hearts the crowd turned from the basket ball grounds to the football checkerboard. A feeling of suppressed excitement prevailed in the air as during a few moments' intermission they waited the appearance of the teams. Soon amid the cheers of the side lines the academy boys, preceded by their opponents, ran onto the field for a few moments of signal practice. The academy team wore an entirely new outfit of varsity trousers with orange and black jerseys and socks, both black, with a single band of orange around the center. Their appearance was very pleasing. Without delay the teams lined up for the kick-off. The ball went to Albion, who kicked to the academy 20-yard line. Then the surprise began. Almost before anyone realized what was happening, the academy team by alternate line plunges and end runs carried the ball without a moment's delay down the length of the field, where Captain Moon went over for the first touchdown, after three minutes and 20 seconds of play. Again the ball was kicked to the academy and again it went back for the Albion 50's could get their feet for another touchdown in three minutes more of play. Then it went at kick-off to the other side. But the efforts of the Albion boys told for little against the stone-

wall defense of the academy line. On defense, Nelson, the academy's big center, broke through time and again, and got the man behind the line. The two guards, Lowrie and Griffith, were close rivals in doing likewise. Burnside and Eastman also made some magnificent tackles and played fearlessly brilliant games. The game was but one story of short possession for Albion, then made rapid line plunges and end runs, ending in touchdowns for the academy. The first half ended with a score of 28 to 9, the academy leading. Length of half, 20 minutes.

During the intermission the coaches agreed to shorten the second half to 15 minutes. Then began a repetition of the same play. The academy boys were so swift in their line-up and so perfect in their team-play that the Albion team could make almost no impression against their interference. Leonard, the big fullback, tore through the line time and again for long gains, showing remarkable staying power and keeping his feet against heavy odds. The two tackles, Woodall and Burkhard, were just as good. The tackles took bucks of the academy, only one during the game failing to gain the five yard distance. But the prettiest plays were the end runs of Moon, Gooding and Rayle, the little general that starred in a splendid game at quarter back. At the end of the second half the score stood 45 to 0. The touchdowns were made as follows: Moon, two; Gooding, two; Leonard, two; Burkhard, one; Woodall, one, making eight in all. Nelson booted over one goal and Gooding four others.

The game was one-sided but decidedly interesting because of the fast play and pretty team work of the academy boys. The Albion team deserves great credit, however, and were a compliment to Coach Thompson, even though the score was a heavy one against them. Only one of their team had ever before been in a game and many of them had never seen one. They weighed about even with the academy team and played a nervy, hard game. They will meet again at Albion on the 11th of November.—Pocatello Tribune.

## CHAPTER ON THE EMPIRE BUILDER

MAJOR REED OF BURLEY TAKES HIS PEN IN HAND.

Relates in His Original and Realistic Style the Story of the Man Who Blazes the Way for Future Generations in the West.

Some men are called to preach the gospel. Others hear the wall of the heathen in the far off jungles, and with a grip full of traps hasten to their dusky skinned brother to place his unshod feet on the straight and narrow path. The human family are liable to go off on any kind of a tangent and do all kinds of mental stunts to benefit their brother man. But the empire builder is the very king of all the nobles of earth. His call makes all the other humans who are called look like 30 cents. His call is one long whirl shriek extending from rim rock to rim rock and from the poles to the equator. It's a cross between the last wail of a circus calliope and the roar of a hungry lion. So he is the called of the called.

To describe the architecture of the empire builder it is always well to begin at the beginning and analyze from the external to the internal. First his skin must be two and a half inches thick, thoroughly tanned or it will tear; it must then be vitrified so as to shed water. His interior must be three-eighths boiler iron so he can digest the product of a three mile frontier hash house. His heart must be as tough as whang leather and as soft as angel cake. His nerves constructed of chilled steel and then some. He must be able to receive the blows of fate and with face to the north star say, "Sail on, and on, and on," harrumphing for his empire. A real empire builder must laugh when others cry, and when he weeps

go out in the sage brush in the stilly night and weep alone. His backbone must be built of corrugated iron and filled in with concrete. His face must always wear a smile, and lurk in the depths of his eyes must be the power of dynamite and the softness of the love lights in the eyes of the maiden when her lover draws nigh. He must be an orator, poet, artist, must sing always, be tickled nearly to death because he is so glad he is alive. He must be a lawyer, doctor, sailor, soldier, know how to

cook, swim, sew and mend. He must be a tailor, barber, blacksmith and carpenter. He must be ready at all times to be all things to all men, be sideswiped popular with the ladies. He must nurse the sick, bury the dead, be strong on epigrams and long on adjectives. He must know about horses, cattle, pigs and chickens, when eggs will hatch the best, and be fond of case eggs. His life must be an open book indexed, a ready reference and never closed up. He must have indiarubber feelings and live his life as if he were able to die at a moment's notice and be buried on the installment plan. He must work all the time, and if he ever wishes he could be happy and live like other people; if his heart yearns for a happy home and wife and children, that's treason and he ought to be jailed.

The real, bang-up empire builder must be always ready to sacrifice all that life holds dear so that his empire can go whizzing into the future untrammelled. He must be able to sleep three in a bed and not object to snoring. He must like rain, snow, mud and dust so if he discovers a place where the absence of dust is conspicuous he must immediately get some and sprinkle it around so he won't be lonesome. If he is the real thing he will offer his life to his empire with a clean receipt, and when the waves of the milllion complications that confront an empire builder beat hard on his shore he will smile softly to himself and gently hum, "There'll come a time some day." And when he is weary and worn, and all the world is wrapt in slumber, our empire builder sneaks out into the stilly night and, gazing up at the star-studded heavens, while the night wind cools his fevered brow and the gurgling, rippling howl of the coyote greets his hearing, and the swish of the night hawk as she screams in his face, he—the lonely, tired, empire builder—realizes that man born of woman is full of trouble and that his days are stratified with adversity and that soon his tired body will be absorbed by mother earth. He is re-vitalized by the promise on every hand that though he may pass away and be forgotten yet will the future vindicate his life's work and that the human stream that will flow on will be benefited by his labor—that his empire lives on, flourishes and gladdens the hearts of thousands of his men even though he has crossed to that bourne from which no traveler ever returns.—Fred R. Reed, in Burley Bulletin.

OBJECT LESSON IN FARMING  
Boise Man Netted \$3,323.70 from 142 Acres of Grass.

Some very interesting records have been kept of the results of farming in the Boise valley. One of those is by W. C. Annett for a 146-acre farm owned by him under the New York canal. This record, for the year 1904, is given in a letter which Mr. Annett sent to an Iowa man. It gives these facts, stating also that all labor was hired:

Receipts.

|                                    |            |
|------------------------------------|------------|
| 14,728 lbs. clover seed at 12 1/2c | \$1,842.25 |
| Stack straw sold                   | 500.00     |
| Stack of alfalfa hay               | 325.00     |
| 140 tons hay at \$5.00             | 2,600.00   |
| Grazing on meadow, estimated       | 150.00     |
| Total                              | \$3,323.70 |

Disbursements.

|  |            |
|--|------------|
| Threshing  | \$ 245.50  |
| Hay harvesting   | 850.00     |
| Irrigating, taxes, water maintenance, and all other expenses   | 1,227.20   |
| Total  | \$1,612.50 |
| Net proceeds   | \$3,323.70 |
| Net proceeds per acre, \$22.93, which equals 3 per cent. interest on net valuation of \$286.50 per acre. |            |

Prices of products are lower this year than for two years past; expenses are charged against the whole 160 acres. I have another 160-acre farm about three miles distant from this, the net result is which are within 32 per cent of the above showing. The above is about the average yield for a series of years.

Play Safe. Have your land surveyed and your ditches located by C. H. Mull, Jones building, Twin Falls.

For prompt and efficient transfer work try Eickhoff and Hazen.

## TIME-KILLERS

Governor Herrick, the Ohio executive, was telling of a negro case meeting in southern Tennessee the other day. An exhorter had just made a great success," he said, "and he got through he went down among the congregation and asked each one to come and live de army of the Lord. "One of the congregation, when this question was put to him, replied: "No—none joined." "What you fine?" asked the exhorter. "In de Baptist church," was the answer. "Why, chile," said the exhorter, "you alive in de army of the Lord." "Phinephina ledger."

Miss Oldham awoke in the middle of the night and found her husband snoring. Her trunk, she said, did not scream, but looking him square in the eye she pointed to the door and said: "Oh, that's all right, madam," said the burglar, as he backed toward the door, "I had no intention of taking you."—Chicago News.

"You must find that impelling in your speech—rather inconvenient at times," Mr. Briggs said to a man who was every body has his little peculiarity. Stammering is mine—mine: what is yours?" "Well, really, I am not aware that I have any." "Do you stir your tea with your right hand?" "Why, yes, of course." "I'm well, that is your peculiarity; most people use a teaspoon."—The Bits.

Fair Passenger—What's the matter, captain? You look quite worried." Captain—Fact is, madam, our ruler's broken. Fair Passenger—Oh, never mind that, we'll get another. Captain—And so one will notice it's gone.—London Sketch.

Mrs. Jawback—Get right away from here, you nasty tramp, or I'll call my husband. Oliver Mudd—G'wan! Yer husband ain't home. Mrs. Jawback—How do you know? Oliver Mudd—Husbands of women like you never are home, except for meals.—Cleveland Leader.

A little five year old boy was telling his three year old brother that "John the Baptist was an animal, a four-legged animal." "Why, Willie," said his mother, "don't tell your little brother such stuff as that." "Well, he was an animal with four legs; our Sunday school superintendent said he was," insisted Willie. "Do you remember just what he said?" asked his mother. "Yes, he said that John the Baptist was a four-runner."—Lippincott's Magazine.

Rownds—Of course, it was business that detained me last night. Mrs. Rownds—Yes. Rownds—Yes; you know I wouldn't deceive you. Mrs. Rownds—No, George, you wouldn't deceive me, no matter what you said.—Philadelphia Ledger.

A well known evangelist is fond of telling how, at the close of one of his most stirring addresses, he approached a big, stout looking German in the congregation who had paid the closest attention to the discourse. Thinking that he had, perhaps, made some impression on the man, the evangelist said to him: "Are you a Christian?" "No, Sherman," was the reply. "Oh, George, if you would you not like to become a Christian—and work for the Master?"

The man shook his head and said: "No, I have never got a shov to drive an ice wagon."—Lippincott's Magazine.

Mrs. Callahan—Molke! Molke! Wok up; ut's tyme t' take y' insomnia medicine."—Puck.

A Baltimore physician boarded a crowded car in Charles street. A woman was standing and a big German was sprawling over twice the seat area than his. The physician said indignantly to the physician said to him: "See here! Why don't you move a little so that this tired woman may have some room?"

For a moment the German looked dazed. Then a broad smile spread over his countenance as he answered: "Say, dot's a joke on you, all right! Dot's my vice!"—Harper's Weekly.

"George," said she, "you have held a good many high positions at one time and another." "Yes," said George, who had been married long enough to know that non-committalism is the best home policy.

"And I have heard it said that your success was due to the magnetism that drew men toward you." "In—?" "Don't pretend to be lavish, now. And I was just wondering if you were immense enough to draw the tacks toward that drawing-room carpet to prevent marring-before breakfast."—The Bits.

"Papa, what's a man who runs an auto?" "It depends on whether he is being called by his employer or by the man he has just missed."—Houston Post.

A man was being tried on the charge of selling impure whiskey. The whiskey was offered in evidence. Jury returned to try the evidence. Judge (presently)—"What is the verdict?" "Foreman of the Thirty-fifth, your honor, we want more evidence."—San Francisco News-Letter.

STATE PRESS ASSOCIATION MOVE TO MAKE IT UNANIMOUS

Elects New Officers and Selects Next Meeting Place.

The following officers were elected by the State Press Association at its meeting in Moscow:

President—M. A. Bates, Herald, Parma.

Vice president—Mrs. Ada Merritt, Recorder, Salmon City.

Secretary—S. D. Taylor, Herald, Bonners Ferry.

Treasurer—A. E. Glipson, Rural, Caldwell.

Delegates to the National Editorial Association chosen are: M. S. Parker, A. E. Glipson, E. T. Barber, W. D. Smith.

The legislative committee appointed is: M. S. Parker, J. E. Roberts, D. E. Badley.

The next meeting of the association will be held at Coeur d'Alene City.

Hill & Taylor have a number of buyers from the east who are looking for good land. If you want to sell, list with them.

Merited Compliment to Miss Scott's Burley Bulletin.

Miss May L. Scott, the present incumbent of the office of state superintendent of public instruction, is broad-minded, level-headed, a capable woman. Miss Scott is a woman who understands, and in all of life's work the spirit of "live and let live" governs her life. It is more of a pleasure to have this state officer request than to have some people grant one. Miss Scott is a hard conscientious worker and a credit to the administration and Idaho.—Burley Bulletin.

For Sale.

Team of eastern horses, consisting of one mare, 5 years old, weight about 1300 pounds, and one horse, 3 years old, weight about 1200 pounds, inquire at Washington Hotel at Coeur d'Alene.

H. F. Allen went to Salt Lake on Thursday evening on a business trip.

H. Triplet left this afternoon for Boise and the canyon. He will enlighten those whom he meets in regard to Twin Falls.

C. D. Thomas and T. J. Woods have been making things interesting for the ducks on the Dry creek reservoir. They brought back 24 fat birds.

The telephone office has been moved from J. V. Baker's to the temporary building on the east corner of Main street and Shoshone avenue.

The Triplet building on Main street will be completed in about 30 days. It will be occupied by T. B. Aah, who will carry a complete stock of furnishings.

Major Fred R. Reed of Burley was a Twin Falls visitor this morning. The major reports that Burley is growing stouter and more prosperous every day.

Evangelist I. F. Stephens will preach in the school house Sunday at 11 a. m. and 7:30 p. m. Bible school at 10 a. m. All are cordially invited to these services.

The contractors have commenced work on the cement sidewalk in front of the Hotel Purline. The walk will be 12 feet wide on both Shoshone avenue and Main street.

The new passenger depot is beginning to assume proportions and promises to be a very useful and useful. Now if somebody would only fix Shoshone avenue so that the dust

The many friends of Mr. and Mrs. Frank Burrington will be glad to know that they have returned to Twin Falls for the winter. They will reside in a neat little home on the lot in the rear of the Burrington hotel.

The Commercial club has petitioned the Oregon Short Line to provide the local agent with additional help. Freight is piling in so fast that the present force, capable as it is, is unable to keep pace with the rush, and annoying delays result.

The Teton Peak Chronicle has issued an illustrated number which reflects in strong light the magnificent development of Fremont county and shows in striking colors the grand resources of that fertile section.

All members of the Catholic church in Twin Falls are urgently requested to meet in the church building on Sunday, November 5. Business of importance will come before the congregation on that date and it is desirable that all members should be present.

J. F. Van Devort has arrived from Sumner, Ore., and will reside here in the future. Mr. Van Devort was prepared for a mild surprise but the development of the city has amazed a shock to him. He said no agricultural community in the west had ever made such progress in so short a time.

Messrs. Butler, Frankell, Mill and Beebe returned from Shoshone basin with a fat buck. They report having seen a number of deer but the brush was too thick and the animals kept well under cover. They also stated that hunters with dogs were operating in the basin, contrary to state law.

The farmers' associations on the Twin Falls tract will be consolidated on the afternoon of Saturday, November 11, at a meeting in the grand ballroom in Twin Falls. Delegates from the Twin Falls, Hansen, Kimberly, Dry Creek, Maroa and Filer associations will be present representing a total membership of approximately 500. The federation will be an all important factor in the upbuilding of the tract. Full details regarding its scope and purpose will be given later.

Fred Nibart of the Davis County, Utah, nursery, was in Twin Falls this week showing the settlers what Utah could do in the way of raising apples and other fruits. Mr. Davis brought convincing proof with him in the shape of some of the most beautiful and well flavored apples it is possible to grow in any country.

William Z. Iron and family have arrived from North Yakima and established residence upon Mr. Iron's excellent farm, three miles from Twin Falls. Mr. Iron has a carload of effects on his way, in charge of his son. He was more than satisfied with the growth of Twin Falls and considered himself fortunate in getting in on the ground floor.

H. Towner has sold his lot and building to the Snake River Improvement company. He will dispose of his stock of hardware and furniture before moving to his ranch near the city. The improvement company will, it is understood, open a large branch establishment in Twin Falls. It already has branches in Burley and Oakley.

J. D. Johnson of Salt Lake City, general manager of the American Sunday School Union for Utah and Idaho, visited in Twin Falls last Saturday and Sunday. Mr. Johnson was here last winter when he organized the Union Sunday school. He expressed his unbounded astonishment at the remarkable progress of the city and country.

Pete Costello has returned from a visit to his old home at Argenta, Ill. He picked up considerable weight while in that western paradise, about the advantages of Twin Falls but he is still able to assimilate a little dust. Mr. Costello stated that everything looked rosy and prosperous in the Buckeye state.

F. D. Shroyok, who arrived from Ft. Dodge, Kan., with a family and a crowd of household effects, was disappointed to learn that a change in the route of the low line canal had cut up his three 40-acre tracts to such an extent that he did not feel warranted in making final proof upon them. He will dispose of his stock and spend the winter in the east.

O. A. Stalker, who has had charge of the fruit packing establishment of P. H. Hensley for what has been the past three or four weeks, finished his engagement with Mr. Hartley and departed for Twin Falls last week. Mr. Stalker's carload of choice prunes to the eastern markets and they were put up in the shape, too. That, in fact, is the way Mr. Stalker does whatever he undertakes.—Gem State Rural, Caldwell.

The O. N. O. club will entertain in I. O. O. hall on Monday evening, October 30, at 8:30 p. m. Cards and dancing are announced as the features of the entertainment. The sponsors are Messdames Murtaugh, Mitchell, Peterson, Nibley, Allen and Bell, and Misses Crisman and Cole. Nobility seems to know what the letters "O. N. O." signify. All sorts of wusses as to the cabinet combination have been made but no one appears to have hit the right one. One man did bachelorette that the ladies did not know the answer to. The "O. N. O." could not keep it secret. But the "O. N. O." are still looking wise and putting everybody off until Monday evening.

Jess Butler has severed his connection with the firm of Sprague & Filer, and has moved to the new building on the corner of Main street and Shoshone avenue. Mr. Butler has been in the employ of the firm for several years and has been a gentleman of the first water. He will be sadly missed by the "Homeless" party and by almost every other man, woman and child in Twin Falls. Here's good luck to you, Jess, and don't lower your sights whatever you do.

## FIRST CLASS PASTURE

Terms, \$3 per head per month. GOLD MEDAL LINCOLN SEED OATS FOR SALE.

**DON C. BRYAN**  
Half Mile West of Twin Falls.

Ed A. Johnson, who had been assisting Postmaster Dunn for several months, has returned to Twin Falls. His place in the postoffice is filled by J. D. Rogers. Mr. Johnson's departure was regretted by a host of patrons of the office who appreciated his unflinching kindness and unquestioned competency.

Bradley & Parsons of the Twin Falls Grocery are disposing of their present establishment on November 1. Mr. Bradley is negotiating for a suitable lot on Main street on which he proposes to build a first class store.

Colonel A. M. Thrift left on Thursday for his farm home in Decatur, Ill., where he will eat Thanksgiving dinner with his mother. Colonel Thrift said his reputation for veracity might be tested when he told of the marvelous growth of Twin Falls during the past six months, which, he asserted, eclipsed anything he had ever seen in the way of progress. During his stay in Twin Falls, Colonel Thrift made a careful study of water distribution with the result that his farm is one of the best irrigated in the city of his state. He believed in making the right start and he surely succeeded.

I. R. Borum, traveling representative of the Wheeler & Wilson Mfg. Co. of Chicago, makers of the celebrated Wheeler & Wilson sewing machine, was in the city yesterday. So favorably impressed was he with the appearance of Twin Falls that he at once contracted with the Twin Falls Furniture company to handle the Wheeler & Wilson machines and arranged for an immediate shipment to this city. It was not customary for the company to establish an agency in a city of this size. Mr. Borum explained, but the outlook was too tempting to pass.

Dr. and Mrs. Emerson of Oakley and their two children arrived in Twin Falls on Thursday evening. Dr. Emerson is county physician and he came to a city of his size. The doctor has been very successful in stamping out fever epidemic at other points in this county. In one district where about 20 deaths occurred last year, only one case was reported this season. Mrs. Emerson is a daughter of Governor Gooding. This was her first visit in Twin Falls and she said that after making the allowance for Bob McCollum's glowing stories she was still agreeably surprised to find such a nice city.

From seed planted on new land in the spring, Woody T. Seal has succeeded in growing a crop of onions which would attract favorable attention in any market. Only ordinary care was bestowed upon the onions, yet they attained marvelous growth. Three pounds are common among them. One monster Red Weatherfield, which weighs a fraction over three pounds, will be shipped by Mr. Seal to his father's home in Texas, to be used in the turkey dressing on Thanksgiving day. Such onions cannot be grown anywhere in the west, without being propagated in a hotbed and transplanted.

For Sale.  
One pair of eastern horses, consisting of one mare, three years old, new spring, weight about 1500 pounds, and one horse, 9 years old, weight about 1225. Inquire at Washington hotel at once. F. B. STIRYOCK, Twin Falls.

## FARM AND RANCH PROPERTIES

1. 160 acres, unplowed, good water right, 2 1/2 miles from postoffice, 1/2 mile from school. A very desirable and smooth piece of land. Easy terms for all or any part.
2. 50 acre orchard in full bearing. Good winter apples, choice prunes, etc. 12 acres Jonathan apples. Land all seeded. Adjoins town of New Plymouth, Idaho. Good water right, good schools, churches and an ideal place to live.
3. 160 acres all under high state of cultivation. Large house, plenty of outbuildings; 70 acres in good blue grass pasture, balance in timothy and clover hay. Ideal location for raising sugar beets as it is within 1/2 mile of railroad switch. Good water right with 15¢ per annum maintenance. School adjoining land. Church 2 1/2 miles. Only six miles from state capital. Rural free delivery and telephone. Will sell on easy terms or trade all or any portion for other property.
4. 500 acres, situated in the fertile Red River valley in Richland county, North Dakota. Land is all under cultivation; good well; six room house, good as new; good stable and outbuildings; complete set of farming implements; eight work horses; in fact a complete outfit for operating a farm. Over 13,000 bushels of grain raised last season. Entire tract seeded this season to grain. The owner of this property will either sell on reasonable terms or exchange for land or livestock.
5. 320 acres. All under fence. 150 acres in alfalfa, 100 acres in grain. New five room house. Well, stable, granary and shop. Altitude 4200 feet. Two miles from railroad station and postoffice. This ranch is ideally situated for a stock or sheep ranch owing to the exceptionally good free range commencing at the ranch fence and extending many miles, cheapness with which they can be raised and the excellent shipping facilities. Easy terms. \$12,000.00.
6. Stock ranch consisting of 1900 acres five miles from good railroad shipping point. 1500 acres under fence, in all about 10 miles of fencing consisting mostly of three wire. Good water right and shore private ditch. About 300 acres are in alfalfa, produced 1400 tons last year. Buildings consist of house for foreman and family and large dining room for accommodation of help. Bunk house for men. Large, commodious, eight room house with necessary closets for owner. Large barn, granary and tool house. Blacksmith shop, ice house, milk house, corals and sheds for accommodating a great many cattle or sheep. There is a full equipment of stock and tools. Best of free outgrange and all conditions ideal for the cattle, horse or sheep business. Easy terms to the right party.

7. 40 acres finely improved land in Payette valley, Idaho. 20 acres in alfalfa and clover, yields on an average of 100 tons per annum. 20 acres in full bearing orchard, which is seeded to clover. Best winter varieties of apples, a few prunes and pears. Full complement of tools go with the place. Good water right in well established co-operative canal. Rural Free Delivery and telephone. A quarter of a mile from nice village of 300 inhabitants with good schools and churches. Our price but your terms.

8. Sixty foot lot on most fashionable residence street in Boise. Will sell or trade for land, sheep or cattle.

9. 40 acre orchard in famous Payette Valley, Idaho. 1700 trees winter apples, good varieties. 200 prunes, ground all seeded to clover. House, barn, good well, full equipment of tools. Good water right. Telephone. Rural Free Delivery. Will sell cheap on easy terms.

10. 20 acres all in cultivation, House, well, stable, etc. Pasture, garden, some alfalfa, some clover. Good water right. Three quarters of a mile from village, school, church and post office. Has Rural Free Delivery and telephone. Fine location and easy terms.

Address Box 874, Boise, Idaho.

## MAROA ASSOCIATION FORMED

Too Many Farmers at Filer, for One Organization.

"Beautifying the home grounds" was the principal subject discussed at the meeting of the Filer Farmers' association on Tuesday evening. Between times the members of the association talked about pitting potatoes and other work of a more pressing nature. Questions came in volleys and the evening passed quickly. It was the last meeting of the Filer association in its original form. Those of the members who live in the vicinity of the Filer townsite resigned from the organization in a body in order to make way for another association. The Filer farmers will stick to the old name, while the "Sucker Flat" settlers will form what is called the Maroa Farmers' association, taking their name from the beautiful county of Maroa, Ill., from which many of them came. It was necessary that another association should be formed because of the rapid increase in population. Mr. Moore was elected vice president of the Maroa association in place of Mr. Rettig of Filer. The officers of the Filer association will be elected at a meeting to be held in Filer on November 2 and this association will be represented at the federation meeting which will be held in Twin Falls on Saturday November 4.

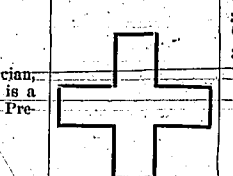

At the meeting on Tuesday evening considerable time was devoted to discussion on the subject of "Preparing land for spring work," a problem of great importance and one to which a great deal of attention should be given.

## PROMPT HANDLING OF FREIGHT

is Assured by the Officials of the Short Line.

Vice President and General Manager W. H. Bancroft, General Superintendent E. Buckingham, Chief Engineer William Ashton and Master Mechanic J. F. Dunn of the Oregon Short Line and General Manager Walter G. Filer of the Twin Falls Land & Water company arrived in Twin Falls on a special train this evening and left for the east after dinner. The Short Line officials were on a general tour of inspection. They found the Twin Falls branch bustling with business and General Superintendent Buckingham announced that he had arranged to provide about Sullivan of Twin Falls with another assistant in order that freight might be promptly handled. Mr. Buckingham was not aware that freight was coming into Twin Falls so rapidly and he stated that the company would certainly see that there would be no delay in future at this end of the line.

## VISITORS FROM THREE CREEK

Enjoy a Pleasant Trip to the City of Twin Falls.

Homey Axt, Miss Mabel Axt, I. W. Goddard and Miss Abbie Goddard of Three Creek, Mr. and Mrs. Lee Madden of Salmon River and Tra Brackett of Butte arrived in Twin Falls on Tuesday. Mr. and Mrs. Madden made the journey from their home to the city in one day. Mr. and Mrs. Axt and Mr. and Mrs. Goddard left home on Sunday, stopping at Cedar creek that night. They camped at Gos Springs on Monday night, taking the time on the road.

The visitors reported that the road to Twin Falls from Three Creek to the high line canal was much better than the Mountainhome highway because of the reason that there were no low traverses without water. They said that considerable stock from that section would have been shipped from Twin Falls had the canal been bridged and the Salmon river bridge put in safe condition. Some shippers they stated, tried to have their car diverted to Twin Falls but did not succeed. The visitors thought it quite feasible to open a mail route from Twin Falls to Three Creek, Butte and Roseworth which, they said, would be a big improvement of the present service.
