VOLUME II.

TWIN FALLS, IDAHO, FRIDAY, JANUARY 5, 1906.

NUMBER 11

## SETTLERS WILL BENEFIT BY THE REORGANIZATION

Canals on South Side Will Be Rushed to Completion and Work of Reclaiming Lands on the North Side Will Be Vigorously Prosecuted—Company Will Cultivate Close Relations with the Settlers and Render Them Practical Assistance.

At a meeting held in Salt Lake City on December 26 the stockholders of the Twin Falls Land & Water company ratified the transfer of the 62 1/2 per cent interest in the company held by the Buhl-Kimberly corporation of Sharon, Pa., to the Trowbridge & Niver company of Chicago. The remaining 37 1/2 per cent of the stock is owned by B. H. Milner of Salt Lake City. It is understood, will be the president of the reorganized company, succeeding F. H. Buhl, who is disposing of his interests in the west. The reorganization is now being consummated in Chicago. When it is completed the Trowbridge & Niver company will furnish the requisite cash to complete the canals on the south side of the Snake river and construct a canal 7 1/2 miles long on the north side of the stream to irrigate about 130,000 acres of land now segregated under the Carey act on that side.

The reorganization of the Twin Falls Land & Water company means much to the settlers on the tract. It relieves that feeling of uncertainty as to the company's intentions which has obtained ever since the death of P. L. Kimberly. While construction work has been carried on at full speed all the while, there was always a doubt in regard to the future. It was known that the Kimberly estate could not furnish its share of the funds until it had passed through administration. Mr. Buhl was anxious to close out all his western business, and although he stood ready at all times to come to the rescue if necessary, the policy and future of the company was clouded.

It is now definitely known that the Trowbridge & Niver company will finish the work on the south side with a rush and will immediately begin construction on the north side. In the Trowbridge & Niver company and S. H. Milner the settlers will find friends who are willing and financially able to stand by them until the last water right on the tract has been paid for.

Another feature of the reorganization which should appeal strongly to the settlers will be the fact that the new company's headquarters are to be located in Twin Falls and entrymen who have business with the company will be enabled to deal directly with the heads of departments. This will do away with misunderstandings and friction. Settlers or farmers' associations will be enabled to get a definite answer to any question without delay. The new company will follow the broad and liberal lines pursued by the Buhl-Kimberly corporation and

best for the interests of the tract and its people.

It is understood that when the reorganization is effected R. W. Faris will assume the position of chief engineer and general manager. He will have his headquarters in Twin Falls and will personally supervise all work. Mr. Faris, who is senior member of the firm of Faris & Kool, the builders of the Milner dam, has had many years' experience in irrigation work. He knows every phase of it from the laterals to the dams, and he is intensely practical. A gentle, unassuming gentleman, always willing to listen and ready to give a positive answer, Mr. Faris is a splendid man for the position he is to occupy. Being a practical irrigator himself, he can always view a water problem from the settler's standpoint, and being unselfish and fair-minded he can always be depended upon to do the right thing. He will be clothed with abundant authority.

Although no definite plans have been decided upon, it will be the policy of the new company to increase Superintendent McPherson's sphere of usefulness. When the west end of the tract begins to settle up in the spring Mr. McPherson will have his hands full. It is more than probable that he will be given several assistants, practical irrigators, who will not only tell the inexperienced farmers how to irrigate but get right in and show them—stay with them until they are safely out of the woods. Further than that Mr. McPherson will keep in close personal touch with the settlers, calling upon each one and finding out his needs. In this way it will be possible for the company to maintain the most friendly relations with the settlers and the danger of friction will be reduced to a minimum. Settlers will be encouraged and assisted in establishing their homes and laying out their farms on proper lines. If a settler should happen to have a grievance it will be taken to headquarters instantly and remedied.

The change will in no wise affect the status of the settlers with respect to the water company. Trowbridge & Niver simply take over the Buhl-Kimberly interests. Neither the settlers nor the company will be obligated one additional penny. All contracts and obligations will be lived up to just as though nothing had happened. The construction of the works on the north side will not divert a drop of water from the south side, nor has the company the slightest intention of reclaiming any land on the west side of Salmon river, as had been reported. The interest question will be straightened out satisfactorily and all other questions arising between the entrymen and the company will be settled promptly and fairly. No cause for agitation will be permitted.

It will thus be seen that the settlers have every reason to be pleased with the change. The most regrettable feature of the reorganization in the withdrawal of Mr. Buhl, who has always been a true and helpful friend to Twin Falls. The citizens of Twin Falls have Mr. Buhl to thank for many a kindly act and he will be held in grateful remembrance by the pioneers as a man who always did the right thing at the right time.

## KIMBERLY CITIZENS ARE FOND OF ENTERTAINMENT

Several Delightful Parties Given There During the Holidays—Hay Rides, Sleigh Rides and All Sorts of Fun—Rock Creek Also Has the Social Peavee and is Entertaining in the Most Hospitable Fashion—School Reopens with Increased Enrollment.

KIMBERLY, Jan. 4.—Friday evening Misses Alice and Bertha Norton of Rock Creek entertained 30 of their friends with one of the most delightful parties of the season. The evening was made merry with games of every description, including "Marching to Jerusalem." At a late hour dainty refreshments were served in the dining room, which was tastefully decorated in red. The guests were presented with a red letter and arranged about the room, so that the letters would spell "Merry Christmas and Happy New Year." The Nortons are royal entertainers and it is a pleasure to receive an invitation from them binding one to be a guest at their home. Mr. and Mrs. J. J. Witly returned Monday from their old home in Oregon, where they were visiting during the holidays.

Mr. and Mrs. B. Wilkins entertained Monday evening in honor of their daughter, Mrs. M. Fisher of Salt Lake, who spent the holidays in Kimberly. High five was the snub and some unusually interesting hands were played. Delightful refreshments were served

during the course of the evening and a very pleasant time was spent by all. Ed F. Tuckey attended the dance at Burley Friday and reports a splendid time.

Mr. and Mrs. W. S. Starr were Twin Falls visitors Monday. The treasurer has been at work in this neighborhood this week, thrashing at A. R. Moore's and Frank Prothro's.

School began Monday after a week's vacation with an increased enrollment. Thursday evening an "Improvement" dance was given at the school house that was enjoyed by about 30 people.

Frank Prothro is at work on an addition to his house. Five of Kimberly's young men attended the opening of the skating rink in Twin Falls on Tuesday evening. A hand car was their means of transportation.

Last Saturday evening the young people of Kimberly spent a very enjoyable time at the Witly home. The invitations were for a web party, and that part of the time was pleasantly spent in untangling the elusive web which wound and twisted about the room. At the end was tied a small shoe which bore the number to indicate your partner. After this various other games were indulged in, such as charades, an old-fashioned spelling match and the guessing of names of words advertised by the pictures published in the magazines, which were named around on the wall. If all of these games the winner was given a prize. During the time refreshments were being served some speechmaking was indulged in on a small scale, Henry Scott being the toastmaster. Some good stories were told and a beautiful solo song by Mrs. Fisher of Salt Lake. All agree that this party was an unqualified success and are only waiting for another similar one.

Miss Nettie Durphy, our school teacher, returned from her Christmas vacation, which she spent in Pocatello, Sunday morning. After hearing of all the good times that we had here during the week she regretted her trip and remarked that after this Kimberly was good enough for her.

Thursday evening about 30 of the Kimberly young people went on a hay ride to the Bruce ranch on Rock Creek. The invitation had been extended some time ago by Mrs. Bruce, and it was to be a surprise party for her daughter Clara, who is home for the holidays from Idaho Falls, where she is teaching school. Mr. C. L. Parsons

(Continued on Page 5.)

S. H. HAYS.

Two men who have done a great deal and who will do much more towards developing the Twin Falls tract.

### A Few of Our Bargains

#### CITY PROPERTY.

5-room plastered house with bath room, closets, porch in front and rear, in best part of city, on easy monthly payments.  
5-room plastered house near Shoshone avenue, lot graded, trees set out: \$1,350 for deed; \$300 cash, balance in monthly payments; can rent house for \$25 a month.  
4-room plastered house in good location; \$1,050 for deed.  
Residence lot No. 7, b. 5, \$325 for deed.  
Residence lot No. 4, b. 7, \$250 for deed.  
Residence lots 10, 11, b. 114, \$335 ea. for deed.  
Residence lot No. 9, b. 28, with small two-room house, \$425 for deed.  
Residence lot 5, b. 4, house 12x14, \$425 for deed.  
Residence lot No. 15, b. R, \$300 for deed.  
Main st. lots, 20 and 21, b. 85, \$700 ea. for deed.  
Main street lot, opposite Sprague's drug store, b. 85, \$1,250 for deed.  
2 Main street lots in hotel block, \$5,500 deed to both.  
Shoshone avenue lot, 21, b. 58, \$825 for deed.  
We can sell you a lot in any location in town and sell it to you right.

#### FARM LAND.

Choice 160 acres 7 miles out; 100 acres cleared; good house and barn; 5 horses and harness, all implements; \$3,250, including first payment; a snap.

## Hill & Taylor

WISH TO THANK the people of Twin Falls and vicinity for any business they have done with us in the past year, and hope they will favor us with more in the coming one. We will be better equipped than before to handle any business in our lines.

We are strictly in the fire insurance business, and will write you a good policy that is written right. We will gladly look over your property, whether in town or country, and make you a rate. All our companies are first class—we represent no Wild Cats. See us before insuring.

Our list of farm and city property is large and we have some good buys. We will quote you prices in any location. List your property with us if you wish to sell. If you have any property to rent list it with us—if you want to rent we can fit you out. Yours for business,

## REFLECT WONDERFUL PROGRESS OF IDAHO

Interesting Data Contained in the Reports of State Officers—Records of State Land Department Systematized—One Mine in Coeur d'Alene Produces More Lead than Entire State of Utah and Pays Half as Much Dividends as All Mines in That State.

During the past seven months the state land board has selected nearly 150,000 acres of land for state purposes. Of the lands selected, about three-fourths of the area has been reserved for a term of years. The selections during the year 1905 aggregated one-fourth of the total state selections. The admission of Idaho to statehood. A fiscal statement of the business of the land department will be prepared and submitted to the governor some time during January. Today Mr. E. I. Marvin, the state's expert land agent, submitted a report to the governor showing the condition of each of the state's land grants at the expiration of the year 1905. The report states:

State Selections Made During 1905:

	Acres	Appraised Value	Estimated Value
Coeur d'Alene district	19,045.29	25,558.12	
Lewiston district	4,543.33		
Boise district	15,397.30		
Blackfoot district	124,628.90		
<b>Totals</b>	<b>163,612.82</b>	<b>25,558.12</b>	

#### Recapitulation of State's Selections Made During 1905.

	Acres	Appraised Value	Estimated Value
University grant	1,622.25		
Charitable, etc.	9,553.64		
Agricultural colleges	5,956.25		
Penitentiary	1,520.96		
Common school indemnity	167,508.54		
<b>Total</b>	<b>186,161.64</b>		

#### Character of State Selections Made During Year 1905.

	Acres	Appraised Value	Estimated Value
Coeur d'Alene district	19,045.29	25,558.12	
Lewiston district	4,543.33		
Boise district	15,397.30		
Blackfoot district	124,628.90		
<b>Total</b>	<b>163,612.82</b>	<b>25,558.12</b>	

#### Status of State's Special Grants, According to State's Records, Dec. 31, 1905

Amount Granted.	Amount Selected.	Amount Pending.	Amount Selected.
Insane asylum	50,000	49,994.84	5.16
Public buildings	22,000	21,988.89	11.20
Normal schools	100,000	98,726.67	1,273.33
Charitable	150,000	151,209.95	76,776.05
Scientific	100,000	97,818.67	2,181.33
Agricultural	90,000	89,528.03	75.97
Penitentiary	60,000	58,265.30	1,734.70
University (state)	60,000	57,513.79	2,486.21
University (territ.)	46,080	45,659.79	420.21
<b>Totals</b>	<b>668,080</b>	<b>661,233.11</b>	<b>5,789.60</b>

\*In these cases selections have been made in excess of the grants to the amount of 1,290.95 and 551.79 acres.

The above statement is as nearly correct as can be prepared from the records in the state land office at present. About 50 selections lists are missing from the files and some 250 tracts the status of which are unknown.

Of common school indemnity selections made prior to 1905, 12,264.15 acres, being the whole amount selected, are still pending. Of the 167,508.54 acres of common school indemnity selected this year, the entire amount is still pending—no clear lists having yet been received from the general land office. Of the total state selections there is 104,769.69 acres of special grants which have not been clear listed by the general land office.

Mr. Marvin began work for the state land department about the first of March. During the nine months intervening a great deal of important work has been done by him. He was especially well equipped for the work, and is the owner of exclusive plats of the timber lands belonging to the state, private owners and the general government throughout the state. These plats have been of great value to the state, and it is conservatively estimated that the maps drawn from Mr. Marvin's plats, and now included among the state's records, could not have been prepared for \$1,000 in any other way. For the use of these plats the state has paid nothing.

The work of Mr. Marvin during the past nine months has been of especial interest and value. The records of the office have been systematized and brought up to date, so far as the records are concerned. Additional records will not be required for several weeks yet, when the missing lists have been duplicated. In addition Mr. Marvin has directed and supervised the appraising of all the state lands, the selection of about 50,000 acres of timber lands, estimated to be worth about \$1,000,000, and of nearly 140,000 acres of farm lands, worth probably \$2,000,000 more.

exceeds the total lead output of the state of Utah for this year, and pays in dividends more than 50 per cent of the total dividends paid by all the Utah metal mines, while the total dividends paid by seven of the Coeur d'Alene mines in 1905 will exceed by 50 per cent the total dividends paid by all the Utah metal mines during the same period.

Mining Inspector's Report.

Mining Inspector Bell has just issued a statement showing the metal production of Idaho during the past year. His estimate of metallic production for Idaho for 1905 is as follows:

Metal	Quantity	Value
Gold	61,694 ozs.	\$1,275,111.95
Silver	9,609,230 ozs.	5,132,565.69
Copper	6,629,000 lbs.	1,040,250.00
Zinc	2,159,000 lbs.	121,250.00
<b>Total value</b>		<b>\$7,473,177.64</b>

The total dividends paid by the Idaho metal mines during the year 1905, according to the report issued by Mr. Bell, is \$7,473,177.64.

More than 95 per cent of the total lead output of Idaho for the year is from the Coeur d'Alene mines, and the balance from Atlantic, Lemhi and Custer counties. Of the total output of lead produced, the gross output of the Bunker Hill-Sullivan mine alone during 1905 was 39,000,000 pounds, together with 2,125,180 ounces of silver, and it paid over \$2,000,000 in dividends on the year's production. This remarkable output of a single Idaho mine, from a single ore body 2500 feet deep,

TWIN FALLS NEWS

Published every Friday by THE NEWS PUBLISHING COMPANY TWIN FALLS, IDAHO

Subscription Rates: One Year, in Advance, \$1.00 Six Months, in Advance, .60

Entered as second-class matter, December 12, 1904, at the postoffice at Twin Falls, Idaho, under the Act of Congress of March 3, 1879.

No meeting of the Commercial club has been held for several weeks. Surely the cold weather has not chilled the enthusiasm of the members.

When former Governor Frank Steunenberg fell dying at the threshold of his own home in Caldwell on Saturday evening last, the victim of the most contemptible of assassinations, the bomb thrower, there was stricken a man who possessed in abundance every quality in human nature which tends to win the love, respect and honor of mankind.

When the news of Governor Steunenberg's assassination reached those who had lived in Idaho since 1876, the first words that rose to their lips were: "The Coeur d'Alenes." This was as natural as it was regrettable; natural because of the memories of the Coeur d'Alenes troubles which still lingered in the public mind; regrettable because there does not exist in this state or in the entire west a more detestable, more industrious, more intelligent community than the Coeur d'Alene district of today.

There is one feature of the case which, apparently, has been overlooked. In American jurisprudence the procedure followed during the Coeur d'Alene riots is without parallel. It was tested in the supreme court of the United States and it still stands as a precedent.

The government reclamation service bureau is impotent. Unable to defend the service against a single charge advanced by The News, the bureau papers are industriously engaged in throwing dust.

The Heyburn Review accuses The News of misrepresenting facts with respect to the Heyburn and Rupert townsites. Will it kindly quote from The News anything to the effect that citizens were promised title to their lots in those towns? The News did say, and repeats, that the reclamation service, in its insane endeavor to knock Burler, encouraged people to build in Heyburn and Rupert. Those who

built were never promised title and most of them will never receive title. They will lose their lots and their buildings as well, unless they remove the latter from the townships. Then they will get wise and stick a few pins in the turtles of the reclamation service.

The Heyburn Review has discovered that the Twin Falls Land & Water company wants to reclaim the south side lands on the Mindoka tract. It makes this statement with the same display of colossal ignorance with which it places the price of Carey act lands at \$1.25 an acre.

Will the reclamation service press bureau answer one question: "Why did J. H. Lowell and A. K. Steunenberg receive \$81,000 in water contracts and \$20,000 in cash to get out of the Twin Falls Land & Water company?" Mr. Ross could answer that question if he would.

Twin Falls is ripe for the organization of a building and loan association. Nearly every town of note in the west has been built up through the agency of building and loan associations and Twin Falls should not be slow in forming one.

As an investment for savings there is nothing better than building and loan stock. In Boise this stock pays about 9 per cent. It is absolutely safe. The books of the association are always open to inspection by stockholders; there are no salaries or expenses to pay and the securities become better every month.

We do not know how much the Twin Falls Land & Water company is paying the Twin Falls News for all the columns of space it is now utilizing in its "reclaim" and "gravy brown" of the reclamation department.

COMMENT ON ASSASSINATION.

An Appalling Crime! (Moscow Journal) The assassination of ex-Governor Steunenberg, which occurred almost at the threshold of his home on Saturday night, is the blackest crime that has ever defaced the state of Idaho.

The crime is appalling in its nature, but its enormity should only serve to spur the people on to a determination to capture and punish the perpetrators, and beyond and above all, fathom the motive behind it.

Tribute to Law.

One of the best tributes to law and order that has appeared in recent times is the superb offer of Shoshone county, Idaho, of the reward of \$10,000 for the apprehension of the murderers of Governor Steunenberg.

Idaho is Outraged. (Lewiston Teller) The murder of ex-Governor Frank Steunenberg is one of the most heinous crimes in the annals of the west.

It is unflinchingly and with a rugged courage that won him the respect and admiration of the whole body of law abiding citizens of the state. In performing his duty ex-Governor Steunenberg made many bitter enemies, and suspicion points to them as the originators of this cowardly crime.

A Great Loss. (Halleys Times) The assassination of former Governor Steunenberg is deplorable in every respect. It seems beyond a doubt that it was because, during the incumbency of the chief magistrate of the state, he found it necessary to call out the military to restore peace in the Coeur d'Alenes.

This killed him politically, and he knew that it would. But he never faltered in his duty, and his work accomplished, the rule of law and order restored to the Coeur d'Alenes, he retired to private life and devoted all his energies to the industrial and commercial development of the state.

It is exceedingly deplorable that in a country such as this, where all men are free and equal before the law, methods that are execrable in countries where the masses have been oppressed since the creation, should ever be again suggested.

VICTIM OF THE DYNAMITERS

Frank Steunenberg, twice governor of Idaho and one of the leading men in the state, was assassinated at his home in Caldwell last Saturday evening. A dynamite bomb, which was fastened to the rear gate at his residence, was exploded just as the governor was in the act of closing the gate.

The funeral of Governor Steunenberg was held in Caldwell on Tuesday and was attended by hundreds of prominent citizens from all parts of the state.

1906 Prescription Drug Store ON the threshold of the new year we wish to extend our greeting to the many friends who have contributed to make the year just passed a pleasant and profitable one to us. The success of 1905 is an added incentive to make 1906 a still more prosperous year—a year of increased business and ever-widening friendships. We assure you of our effort to give you a better drug store service than ever before. We thank you for many evidences of confidence and good will, and wish you a very "HAPPY NEW YEAR." Sprague & Ferney

BREVITIES

A. N. Sprague is in Salt Lake City on business. E. E. Craven is visiting with his brother, J. W. Craven, at the Perrine. Mrs. C. W. Hawk has been suffering for several days from a severe cold with pneumatic tendency. Mrs. Jack Ransom of Virginia is visiting with her cousin, Mrs. George F. Sprague, at the Perrine. Oscar Allen is the guest of his brother and sister, Mrs. M. and Mrs. H. F. Allen, at the Perrine. James L. Perry has returned from St. Anthony with both arms straight. He reports mild weather in the "happan belt."

The Episcopal ladies' guild will meet with Mrs. Wiseloy on Tuesday next at 2:30 p. m. A. F. Johnson has arrived from Govan, Washington, and will reside on his property here hereafter. Mr. Whittington is fitting up the barber shop in the Hotel Perrine and will be open on business there in a few days. Assistant General Manager M. M. Murtough of the Twin Falls Land & Water company has returned from a holiday trip to Utah and California. The new skating rink is growing in popularity. Large attendance has been the rule ever since the opening and the weekly dances are well patronized.

A meeting of the Commercial Club hospital committee will be held next week for the purpose of forming a committee to plan for the erection of the hospital building. Services will be held in the old school building on Sunday morning at 11 o'clock and Sunday evening at 7:30 by Rev. Randall of the Episcopal church. Sunday school will meet at 10 a. m. A number of lanterns belonging to the city have been stolen recently from around the excavations where they were placed. It is not now considered good form to loan carrying a lantern. The big tank for the Twin Falls Waterworks company has arrived, together with a carload of pipe, and the company will install it as soon as possible and proceed to reclaim the upper storages. Mr. and Mrs. James Nilroy returned on Thursday evening from a three weeks' visit in Salt Lake City. Out of respect for Jim's nerves the electric lights were turned off before the train left Kimberly.

Jack Howe is going to Salt Lake City on Saturday to see the electric cars. It is two years since Jack has ridden on a train and he expects to see something. Del Sprague warned the Zion authorities that Jack was coming. A number of business houses are being supplied with electric light from the Hotel Perrine plant. The traction engine which operates the dynamo was badly hit in a run but is now in good running order. The high price of coal makes the light expensive but the people seem to want it at any price. Land in the vicinity of Bull is being eagerly sought. Several aliases have recently been made and a number of sales have been made. Several town lots are increasing, and several people have offered to build on the townsite and take their chances on buying the lots at the opening on April 1.

How Is Your Coal Bin? The weather sharp predicts warm weather but you never can tell. Better be on the safe side and have a good supply of "Peacock" Rock Springs Coal. Throw away that gasoline stove, and try some of our hot coal. It's safer, warmer and cheaper. The Filer Coal Company. SOLE DISTRIBUTORS. Telephone No. 4. Orders left at J. V. Baker's transfer office, Phone No. 19, will receive prompt attention.

Ten Cents — One Dime HAVE YOU EVER FIGURED OUT WHAT A DIME WOULD BUY? IF YOU WANT TO FIND OUT WHAT YOU CAN BUY IN THE WAY OF GLASSWARE FOR 10 CENTS, CALL AT Bonham & Peters THE RACKET STORE—OPPOSITE ALLEN MERC. CO. Special 10c Sale of Glassware this week

JACK RABBITS WERE VICTIMS OF HANSEN HUNTERS ON NEW YEAR'S DAY. Drive Conducted by 30 Men Covers Ground South of Marietta and Results in Slaughter of 1000 Long-Eared Pests. HANSEN, Jan. 4.—Attorney P. W. Sweeney was a business caller in Albion the first of this week. Isaac Dineo was a passenger to Twin Falls last Saturday. The Hansen school opened Tuesday after a short vacation during the holidays. Isaac Dineo entertained Mr. and Mrs. Roberts and family—New Years. Miss Nellie Rauch returned to Albion Monday, where she is attending the Albion State Normal.

The latest arrivals in this community are Mr. Jackson and Mr. Mortain and families, from Hopkins, Missouri. Oliver Carter has been suffering with grippe the past week, but is now on the road to recovery. J. Fraehlich left Tuesday for a visit in Georgetown, Ohio, and A. H. Fraehlich has gone to Denver, Colo., where he intends remaining a few weeks before starting for Alaska. A very delightful evening was spent for neighbors at the home of Mr. and Mrs. G. L. Rodhead New Year's watching the old year out and the new year in. A rabbit hunt took place south of here New Year's and the participants report the success of having killed 1,000 rabbits. A party of about 30 men is being organized in this community for a rabbit hunt on Saturday, January 6, to start from the west end of section 36, striding towards the east and ending north of Hansen.

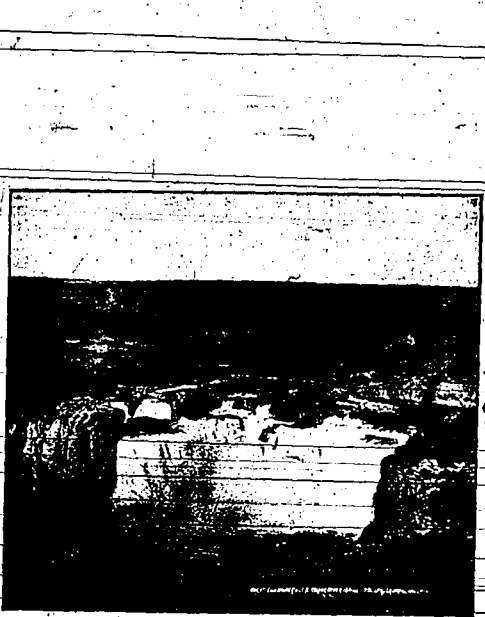

Kimberly Citizens Are Fond of Entertainment (Continued from First Page.) kindly proffered the use of his wagon and four horses and went along himself as chief manipulator of the ribbons. Leaving Kimberly about 6:30, the party arrived at Brosse's about 8:15, having had a splendid ride over the snow-covered roads which are exceedingly smooth compared with their normal summer condition. For those who have had occasion to stop at the Brosse home, to speak of their unbounded hospitality is unnecessary, but it might be said in passing that they entertain in the true entertaining spirit. The evening was joyously spent in games and music and the trip home started about midnight. Although the ride was cold, all kept comfortable and agree that all had a jolly good time. We only regret that Miss Brosse leaves so soon. Miss Edith Starr has been threatened with pneumonia lately, but we are glad to report that at present she is recovering and will be able to be out soon. Mr. and Mrs. George E. Osborne and daughter spent New Year's day at Rock Creek visiting the Roberts.

These who are interested in historical matters and the study of our literature will meet at the home of Hon. C. D. Thomas on Wednesday evening, January 10, for the purpose of considering the advisability of forming an organization. As there are no libraries in Twin Falls, there is need of such an organization to keep people up to date as it were. There is also a strong desire on the part of many to foster historical research and the preservation of reliable knowledge which will be beneficial in the future. All those who take an interest in this work will be welcomed at the meeting. Marlin J. Sweeley, a leading attorney of Sioux City, Iowa, who recently visited Twin Falls and was so favorably impressed with the city that he decided to locate here, has returned, bringing Mrs. Sweeley with him. For the present they are the guests of Mr. and Mrs. Booth. Mr. Sweeley and his son, Everett M. Sweeley, a graduate of the University of Michigan, have formed a law partnership under the firm name of Sweeley & Sweeley. Until they secure an office they will have a work room with Hill & Taylor. Mr. Sweeley, Jr., will arrive in Twin Falls in June. Mr. Sweeley, Sr., is a former representative of Woodbury county in the Iowa legislature and has always been prominent in public matters in his section of the state. The Misses Margurita and Mildred Conway gave a very delightful Xmas party to 25 of their young friends. The rooms were beautifully decorated with evergreens and flags, and surprises awaited the guests in every room. In the center of one was a large chimney, which contained a gift for each guest. A delicious luncheon was served at a table in the center of which was an evergreen Xmas tree which called forth many exclamations of delight. Merry games and music were indulged in, and all agreed it was the most enjoyable juvenile party given in Twin Falls. The guests were: Mary Milner, Edith Ramsey, Grace Barger, Florence Barber, Emily Grant, Jennie Prater, Leslie Williams, Estella Perrine, Flossie Brink, Lydia Boyd, Sarah Higgins, Marie Terry, Vesta Thomas, Bard Wall, Vera Cole, Reda Cole, Lillian Johnson, Grace Smith, Rose Crandall, Olive Smith, Truth Miller.

A Glimpse of Shoshone Falls from the Top of the Rimrock on the North Side

W. J. McDonald, president of McDonald, McCoy & Co., the Chicago bond house, and George W. Sturtevant, chief engineer of the Shoshone Falls Power company, were in Twin Falls during the early part of the week. They inspected the plants at Shoshone falls and Auser falls and expressed their satisfaction with the work. City Marshal Dyer and Deputy Sheriff Ramsey talked an option for the new down town building on Wednesday night and caught James Saylor and William Korn with "the soids." A complete option involving the building was issued for the tenant of the room, who was out of the city. The tough characters are being watched and warned, and they are getting tired of Twin Falls. The Hotel Perrine bar was opened by C. Sorenson and W. H. Oakley on New Year's night. The opening was very quiet, but none the less enjoyable. Mr. Oakley brewed a "brew" of champagne for the opening of the hotel, and judging from the way in which it went upstairs it must have had the right flavor. The bar is beautiful and the service is exceptionally good. George L. Hyde, William Kelsey and George Bruy of Springdale, Minn. left for home on Wednesday after purchasing a half section of land north of Flor. This was the second purchase by the Springsdale group. The agent, Dr. Cook and his associates having bought a quarter section south of Kimberly a short time ago. The sentiment from Springdale are all experienced farmers and they consider the Twin Falls tract the finest and best watered piece of agricultural land they have ever seen. They are the kind of citizens needed in Twin Falls.

Craven, Seebek & Smith are ready for business and will be glad to sell you hay and grain at their large new warehouse on Fifteenth street, near Shoshone avenue. Full weight, fine moats, fair treatment at the City Meat Market. Wanted to Buy. Soft flannel collars, rags; must be clean. Bring to The News office. Carload of poultry netting and barb wire just received by Perrine & Burton. Anything from a ton of coal to a feather duster carried by Braun Bros' express as it should be. Satisfaction guaranteed. For tender cuts try the City Meat Market, next to the new Stott building. Braun Bros. will collect your freight and express and deliver it in first class condition. Look for the Red Cross and you will obtain the best drugs. Poultry netting and barb wire at Perrine & Burton's. Try Braun Bros' transfer for prompt and careful delivery. For Rent. Two downstairs rooms of plastered house. Address—Box 42, Twin Falls. For Sale. Team, wagon and harness. Inquire John A. Erickson, one mile north of town on Blue Lakes boulevard. Barb wire and poultry netting. Carload just received by Perrine & Burton. WANTED—Two girls to work for their board at the girls' dormitory at Albion State Normal school. Good chance for girls wanting an education. Apply to G. A. Axline, president, Albion, Idaho. Mr. Property Owner, if the other fellow has not sold that property, let T. J. Woods & Co. try it.

#### HE USED A GUN

##### NOVEL REVENGE OF A MEXICAN AT MILNER.

Armed to 'Dog Meat at Restaurant During Construction Days, and Because He Could Not Get It He Endeavored to Assassinate Proprietor.

A group of men sat in the lobby of the Hotel Fortino, discussing the shocking assassination of former Governor Stannard, and the conversation gradually shifted to the use and abuse of dynamite.

"I noticed that the dynamite used by roads have to be built to a great rusty rails, old scraps of iron, and extent with gravel. To build gravel other men in the town with roads and then use narrow three wheels which he murdered one of the men, Jones for heavy loads is a wrong job. He said if we look to the preservation of the road in its good condition, in the larger cities where they have gone to that rusty metal embedded in the floor will cause blood poisoning. This row three wagon road. That is good practice had in Milner.

"A man whom I shall call Jones, because his name was not Jones, ran a restaurant there during construction days. It was a good feeding house and Jones was popular. In order to make both ends meet it was necessary that he should be careful about giving credit. All sorts of tough characters were drifting down to Milner at that time, looking for work and afraid they would find it. A good many of them would work until they had a few dollars coming and then draw their wages and leave. Their favorite game was to go to the restaurants and obtain credit, if they could, on the strength of their being employed. The restaurant keeper, in the event that he trusted a man, would have to watch out and see that his debtor did not make a 'bee' away. This trouble was generally worth more than the profit on the unpaid meals, consequently credit was tight.

"One day a Mexican came to Jones' restaurant and asked for a meal, say he was broke and hungry. Jones heard that story almost every day and his usual reply was to advise the applicant to go to work and earn his piece of a meal. The Mexican was very impatient and Jones had some trouble getting rid of him. That night, after the restaurant was closed, Jones, who slept in the rear, was awakened by someone knocking on the front door. At first he decided to pay no attention to the disturbance but the knocking grew in violence and he finally made up his mind to see what was wanted. Lighting a lamp, he went to the front door and began to fumble for the key. While he was stooping over in the act of plucking the key in the lock he was felled by a gunshot fired through the glass door in the rear of the restaurant. The gun had been loaded with brass filings and metal scraps, and Jones was literally a walking scrap heap. An alarm was given but no trace of the shooter could be found.

"Dr. Emerson spent several days removing pieces of brass from Jones' epidemics, and when it became evident that the victim would soon recover his friends began joking him, calling him 'Brassy'. This nickname he resented and many a man narrowly escaped a thrashing for using it.

"Some time after the shooting a Mexican, who had been working with a gang on the canal, came into Milner and gave up the key to the mystery. He said that the Mexican whom Jones refused to feed for nothing had shot the restaurant keeper out of revenge. He had gone into a workshop next door to the restaurant, which was used by Faris & Keel, and there he found an old musket which he loaded heavily with brass filings and metal scraps scrapped from the floor. Then he went to the front door of the restaurant and hammered until he attracted Jones' attention and when the latter went to open the front door, the Mexican slipped around to the rear and shot him. I think the Mexican was rested but there was some difficulty about convincing him on account of the lack of positive evidence and he was ordered to leave Milner and was away whenever I hear of less fitting metal scraps used in this connection I always think of Brassy."

### AGREES WITH MR. CHAMBERLAIN

#### That Narrow Tire Wagon Should Be Sent to Scrap Heap.

In a letter, to the Journal of Agriculture, George J. Menger of Marion county, Missouri, said:

"I have been impressed with your advocacy of good roads in a number of recent issues of the Journal of Agriculture. I agree with you on that proposition. The good road problem is one in which the people are interested individually and collectively. The good road question is advancing in the popular thought and endorsement. There is one feature of road building, however, which seems to be overlooked, and that is the sustaining of good roads after they are made. Counting on the dynamite used by roads have to be built to a great rusty rails, old scraps of iron, and extent with gravel. To build gravel other men in the town with roads and then use narrow three wheels which he murdered one of the men, Jones for heavy loads is a wrong job. He said if we look to the preservation of the road in its good condition, in the larger cities where they have gone to that rusty metal embedded in the floor will cause blood poisoning. This row three wagon road. That is good practice had in Milner.

### SENATOR HEYBURN IS PLEASSED

#### With the Work Done on Twin Falls Experimental Farm.

Washington, D. C., Dec. 18, 1905.

Alex. McPherson, Esq., Twin Falls, Idaho.

Dear Mr. McPherson—Your report of the result of the first six months' work on the Twin Falls proposition is before me. I wish to congratulate you upon the exceptional ability that you have displayed in managing this very important proposition. The statement is surprising to those who do not know of the capability of irrigation, and Twin Falls makes a showing that is surprising to those who do not know of the capabilities of irrigation. I hope that you may be able to continue your work along the line indicated by you, as it is for the benefit of the entire country, and I am glad to get the public attention to recognize the importance of the proposition. Truly yours, W. B. HEYBURN.

### NOTICE TO ENTRYMEN.

Entrymen who have not made final proof on their lands are hereby notified that the law requires them to make annual proof of said lands within one year of the date on which they received notice that same were ready for delivery. By order of the State Land Board, C. D. THOMAS, Representative, Twin Falls.

### NOTICE

Mail arrives daily, including Sunday, train No. 2, at 11:30 a. m.

Mail leaves daily, including Sunday, train No. 1, at 4:30 p. m.

Mail closes at 4:00 p. m.

Stage Mail.

Mail for Stricker, Rock Creek and Trochu leaves daily, except Sunday, immediately after arrival of train No. 2.

Postoffice Hours.

Open at 8:00 a. m.  
Close at 6:30 p. m.

Sunday.

General delivery open 1:30 to 2:30 p. m.

### State Lands for Lease.

Pursuant to an order of the State Board of Land Commissioners of the state of Idaho, notice is hereby given that application to lease state lands will be received by the undersigned, the register of Boise, Idaho, at his office in Boise, Idaho, up to January 1, 1906.

Notice is further given that leases on all lands not applied for at that date will be offered to public auction on January 15, 1906, or as soon thereafter as sales can be arranged for in the various counties of the state.

Further information can be obtained by writing to the county treasurer or to the Register of the State Board of Land Commissioners at Boise, Idaho.

By order of the State Board of Land Commissioners,  
C. S. MCCONNELL, Register.

### For Sale.

Four farm tracts, situated near the mouth of Little Lost River, near the north of Twin Falls, 117 acres, 600 foot trees, 100 of them 5 to 8 years, new house, 4000 feet of fence, hay, this place is only partly improved and will be sold very cheap. Call on or address J. E. FARM, Greenman P. O., Idaho.

Protect yourself against judgments against you by insuring your property in some other county or state by demanding an abstract of your property. The Cassia County Abstract Company can do the work for you. See either Attorney C. M. Price or C. D. Thomas.

Kimberly.

The Kimberly Townsite Co. are offering for the next 30 days inside business lots in the town of Kimberly. These are the cheapest lots offered by any town on the Maladoka & Southwestern railway, and will probably be the largest rate of profit. You can't lose; they are an absolutely safe investment.

### Run No Risks.

Get your Injuries Right in the Morning and Save endless trouble. C. H. MULL will survey them for you and guarantee satisfaction.

Postoffice Box 239. Orders may be left at Bedford's Drug Store.

Save your jaws by buying beef steaks at the Meat Market and you will be better able to boast for Twin Falls.
