

TWIN FALLS NEWS

VOLUME II.

TWIN FALLS, IDAHO, FRIDAY, MARCH 2, 1906.

NUMBER 19

LEGAL BARRIERS APPEAR TO BE INSURMOUNTABLE

Act of the Legislature of 1905, Governing Elections in Villages and Designating How Latter May Be Raised to Cities of Second Class. Provides for Biennial Elections in Villages so it Would Appear that Change Cannot Be Made Until Next Year.

The district court will be asked to pass upon the legality of holding a civic election in Twin Falls next month. Public sentiment is decidedly in favor of an election but the village trustees decline to take the necessary steps because City Attorney P. W. Sweeney is of the belief that according to law elections in villages should be held biennially. Attorney M. H. Sweeney and others take the opposite view, holding that an election must be held in any event, even though no attempt is made to raise the village to a city of the second class. The committee appointed by the Commercial club to act upon the question presented its views to the village trustees last evening. Mr. Sweeney, acting as its spokesman, while Mr. Sweeney responded for the trustees. The attorneys differed materially in their views and the question will be brought before District Judge Lytleton Price at Shoshone next Monday. In the event that Judge Price renders a speedy decision, which he will probably do, there will be sufficient time in which to prepare for an election should one be called. Qualified on Population.

The Commercial club committee, consisting of Dr. Truman O. Boyd, chairman, and Messrs. Sweeney, Thomas, P. H. Smith, A. N. Sprague, Eastman and Slerer, wasted no time in getting to work. The first move necessary was to show that Twin Falls had more than 1000 inhabitants. To demonstrate this fact a number of canvassers were put in the field on Tuesday. When these canvassers turned in their reports on Tuesday evening it was found that nearly 1300 people had been discovered, with two large lists missing. The canvassers did not pretend to make a thorough canvass, their time being too limited. In many cases entire families were overlooked on account of there being nobody at home. Once it was shown that the village possessed the necessary population the canvass ceased, the object for which it was made having been accomplished. The signatures of about 400 qualified electors, a number far in excess of the legal requirements, were affixed to the petition asking that the village be raised to a city of the second class.

By appointment the committee met with the trustees in the office of S. T. Hamilton & Co. last evening. G. D. Alken, who was appointed to fill the vacancy on the village board occasioned by the resignation of F. W. Elkhoff, who has moved to Buhl, answered the roll call for the first time. Trustee McCollum, who is in Boise, recovering from the effects of a surgical operation, was the only absentee.

Attorney Sweeney stated that in acting as spokesman for the committee he was merely performing the duty imposed upon him by the Commercial club and that he did not represent any clique, faction or party. He expressed the belief that the village trustees had the welfare of Twin Falls at heart and would act for the best interests of the people. He also stated his belief that the law required the holding of an election in Twin Falls next month, regardless of the municipal rank of the corporation. In support of his contention Mr. Sweeney quoted freely from the Idaho statutes and also cited authorities. As proof that the method of procedure followed by the Commercial club was regular he presented the petitions and affidavits offered by the committee. Mr. Sweeney said he did not believe the committee was asking the trustees to do an illegal act which might embarrass the corporation at some future time. The committee, he asserted, was merely expressing the will of the people of Twin Falls in the manner prescribed by law. He did not suppose for an instant that the trustees would do anything contrary to law just because public sentiment happened to demand it but he did believe that the request was in proper form and deserving of proper attention.

City Attorney Sweeney placed an entirely different construction upon the statutes, contending that the legislature had provided for the holding of an election in villages on "the first Tuesday in April, 1906, and biennially thereafter," consequently there could be no civic election in Twin Falls this year. The cases cited by Mr. Sweeney, he asserted, were not in line. The intent of the Idaho legislature was plain, he maintained, and the trustees would not be justified in deviating from the statutes. No matter how much the people might desire to have the village raised to a city of the second class, and the desire was laudable, the trustees would be held responsible for future complications, should any arise because of irregularity in the method of procedure, consequently it behooved them to be careful. He did not believe the trustees could legally act upon the petition without endangering the validity of the corporation should its validity ever be questioned, therefore he had advised that the petition be not granted.

It is almost impossible to describe in detail the legal points upon which the attorneys differed. The state law relating to the organization and government of villages and cities of the second class is rather cloudy and apparently susceptible of miscellaneous construction.

Action in Albion and Oakley.

It has been unofficially announced that elections will be held on the first Tuesday of next month in Albion and Oakley, both of which villages are on an equality with Twin Falls. Elections were held in both Oakley and Albion last April. The report has been circulated that County Attorney Derbyshire was of the opinion that elections should be held annually in all villages in Cassia county.

No Elections in Lincoln.

County Attorney Frank T. Disney of Lincoln county is authority for the statement that no village elections will be held in that county this year. When asked what the prevailing sentiment in that county was with respect to village elections Mr. Disney said that the law of 1905 expressly provided that village elections should be held biennially. In Shoshone, which is a village of the same class as Twin Falls, there would be no election. The officers elected last April would hold office for two years.

None in Blaine.

Village Attorney Broadhead of Halley said there would be no election in Blaine county villages until the first Tuesday in April, 1907. The act of 1905, he added, provided that elections should be held in villages on the first Tuesday in April of that year and every two years thereafter. Such was the interpretation placed upon the act in Blaine county, said Mr. Broadhead, and no preparations had been made in any village to hold an election.

Not in Ada and Canyon.

Payette, in Canyon county, which is a village like Twin Falls, elected trustees last April and will not hold another village election until one year hence.

In Parma, another village of the same class, also in Canyon county, village elections will be held this year. The county authorities of Canyon county are not aware of any village elections to be held next month.

Meridian, a village in Ada county, elected its village officers last April for a term of two years. No village elections will be held in Ada county this year.

NOTICE TO WATER-USER, SEASON OF 1906.

Notice is hereby given to owners of lands for which water was available during the irrigating season of 1905 that a maintenance charge of 80 cents per acre, for each and every acre irrigated during the irrigating season of 1906 will be made by this company, payable in advance, on or before March 15, 1906.

The company is now prepared to receive, at its office in Twin Falls, applications for water in any amount required. Applications must state amount and location of land to be watered.

TWIN FALLS LAND & WATER CO.

By FRED L. HARRIS, Secy.

Likewise Washington.

None of the villages in Washington county will hold village elections this year.

Nothing Known in Boise.

At the office of the attorney general in Boise nothing is known of any village elections to be held in Idaho next month. According to the views

John Samuel.

John Samuel, E. W. Tilley, Samuel E. N. McIntyre, Two Country Boys, Mr. Isaac J. McMillan, Jews, proprietors of a clothing store. The actors played their parts well and kept the house in a roar of laughter. Miss Moore also deserves special mention. There will be a meeting of the young men of the district in the

Main Canal of the Twin Falls system, as it appears today, carrying about one-third of the normal flow of water. This canal was filled to the brim last spring by water which flowed down in the coulees from the mountains to the southward. The canal is 120 feet wide at the top and 80 feet wide at the bottom. It is constructed to carry 10 feet of water.

of the officials in that department of the state administration, the law of 1905, providing that village officers shall hold office for a period of two years, is in full force and effect, its validity never having been assailed.

Thus it would appear that the Cassia county villages are the only ones in which elections are contemplated on the first Tuesday of next month. The attorney general's office, when informed that elections were to be held in Oakley and Albion, gave the unofficial opinion that these elections would be void.

The Original Issue.

The question raised by the News in its issue of February 16 seems to have been lost sight of entirely. The suggestion made in that issue was that if it were possible to raise Twin Falls from a village to a city of the second class it should be done. It was thought possible that although no village election might be held, the law might be construed to permit an election as a city of the second class. However, even in the event that the village trustees should have acted favorably on the petition presented to them by the Commercial club committee, it would not be possible to have an election of village officers until April, 1907.

YOUNGSTERS GIVE AMUSING FARCE

FOR ENTERTAINMENT OF THE
KIMBERLY FARMERS.

Slaughter of Rabbits Continues—Baseball Team to Be Formed—Dance at the School House Next Friday Evening.

KIMBERLY, Idaho, March 1.—The members of the Farmers' association were entertained by the young people on Wednesday evening. The room was crowded in spite of the cold, windy night. Ernest McIntyre, chairman of the association, presented the following program was rehearsed: Duet, "Alone and Ed. Wilkins. Recitation, "Seven Things at Night" by Chas. Sweeney. Solo, "Mrs. McCreary Selection." Mrs. Candlish. Circulation Lecture on "Leaving an Umbrella" by Hazel Moore. Solo, "A Queer Fit" by M. B. Wilkins. Cast of Characters.

schoolhouse Monday evening for the purpose of organizing a baseball team. Everyone interested in the game is urged to be present. There are some good players about Kimberly and it is expected that a strong team and one of which we may justly be proud will soon be formed.

Several of the young men of Kimberly spent Monday evening in Twin Falls attending the first show of the Quaker doctors.

Mrs. E. C. Egelson, who has been ill for the past week, is slowly recovering. Charles Maudslai is also able to be about again. He suffered from blood poisoning for a week as the result of a horse stepping on his foot.

There will be a dance in the schoolhouse here on Friday evening, March 9. Plans are well under way and a fine time is anticipated. Everyone is invited.

Mr. and Mrs. George Peterson spent Sunday in Milner. They made the trip on horseback.

About 200 more rabbits were killed last Sunday by the sportsmen about here. This is the third drive in the last three weeks and about 900 rabbits have been killed. Bunnies are beginning to be a curiosity in this neighborhood.

Miss Florence Moore left Tuesday for Dry Creek, where she will take up her duties as teacher of the public school there.

A party of eight of the Kimberly young men attended the dance at Burley on February 22. As an evidence of the good time they had it might be stated that the 1 o'clock accommodation train left too early for them and they decided to remain until the dance was over. The party included Messrs. Johnson, Hansen, Sharf, McMillan, Tucker, Cheney, Scott and McIntyre.

U. W. Osborne is building an addition to his home on Cedar street. Mr. and Mrs. Cowse of Colorado Springs are visiting at the home of Mr. and Mrs. E. Lewis west of Kimberly.

They expect, in the near future, to locate permanently. A meeting in the interest of the anti-salt movement will be held in the schoolhouse on Sunday afternoon at 2 o'clock to take steps toward organizing a league here. Every one interested in the work of this organization is urged to be present. The circulating public library was changed Thursday and another fine assortment of books has arrived. The library is greatly appreciated and the books have been extensively read. The library is in charge of the Kimberly Drug Co. Messrs. Hansen, Dornrose and Shaffer attended the dance at Rock Creek on Tuesday evening and report an especially enjoyable time.

TRAVELED OVER TRACT ON STAGE 25 YEARS AGO

E. Fitzgerald, the Veteran Commercial Traveler, Tells How He Used to Make His Trips Over This Section of Idaho Before the Railroad Came—Took Two Days and Two Nights to Travel from Kelton, Utah, to Boise, by Way of Twin Falls.

T. E. Fitzgerald, the dean of commercial travelers in southern Idaho, if not in the entire state, was a guest at the Perrine last Friday, Saturday and Sunday. It is more than 25 years since Mr. Fitzgerald first crossed the Twin Falls tract. Then, as now, he was a "knight of the road." For 21 years he has traveled for the same house. Mr. Fitzgerald is a quiet, unobtrusive gentleman who requires some coaxing

many think it a strange statement but I have known of instances where rats were plugged up with congressional documents in order to get the stages moving. It was necessary to have something solid underneath the wheels and time was too valuable to waste in grubbing—sagebrush. The western congressman had a habit of burdening the mails with heaps of documents which were carried free by the postal department. Such matter did not command much respect in those days when thoroughness was high and roads were bad.

Rattlers Were Troublesome. "Many a hard job have I received when the stage horses ached at rattles shaken on the road. In August the rattlers were numerous along Rock creek and the best driver in the world could not keep them straight when a snake barred the way.

"I don't suppose that people have changed much since the stage days but there certainly was a fine lot of fellows on this route. Perhaps I think so because I was brought into close contact with them. They were generous and genial. A traveler was always sure to get a square deal if he behaved himself half decent."

"I have often wondered what the future of this great valley would be but now I know. I have watched its development and I feel sure it is bound to be one of the most prosperous tracts in this west."

Mr. Fitzgerald resides at Ogden during the winter and at St. Anthony in the summer. He has traveled over every foot of Idaho for more than 25 years and he is at home and among good friends no matter where he stops.

HANSEN BASEBALL CLUB ORGANIZED

SEVERAL CLEVER PLAYERS ON THE TEAM.

Mrs. Crater and Children Return from Weatchuca—Several New Arrivals Reported—Personal News of the Past Week in the Busy Burg.

HANSEN, Idaho, March 1.—H. G. Hatto was a Twin Falls visitor last Wednesday.

Henry Hansen of Rock Creek was a caller in Hansen last Sunday.

Mr. and Mrs. Corey of Rock Creek were among the stage passengers the first of the week.

Mrs. Harry Kellough was the guest of Mrs. E. L. Rice last Tuesday. A Mrs. John Monkor returned from Rock Creek Wednesday, where she had been a number of weeks.

Henry and Marion Larsen were stage passengers from here to Rock Creek last Friday. Recent comers into this community are Mr. Edward Sheeley and family from Hopkins, Mo.

Misses Nellie and Nova Sweeney, who had been residing near Hansen, have moved to their home in Twin Falls.

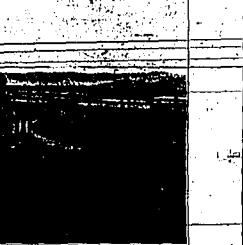

Miss Ruth Hansen, who had been visiting her parents at Rock Creek—a few days, returned on Sunday's train to her school work at Milner.

A. A. Fouts went to Twin Falls Monday, where he is engaged in palming, and will remain there until time to pack the crop this spring on his ranch northeast of here.

William Gordon of Weatchuca, Idaho, is here looking over the property of Hansen and estimating the value of the timber.

Mrs. G. W. Crater and children Teardrop are here and will remain here. Mrs. Crater spent last summer here but had been residing in Washburn since last September, to give her son and daughter the school advantages to be had there.

A baseball team of Hansen young men was recently organized. The team comprises some men of no mean ability as ball players. The members are: Nick Smith, Arthur Towne, Lloyd Towne, Roland Sweeney, Frank Brewer, Ira Brewer, Will Lytle, Roy Williams and Joe Williams.

When he first traveled in this section of Idaho, said Mr. Fitzgerald, the stage trip from Kelton, Utah, to Boise occupied two days and two nights, provided the roads were in good shape. Otherwise it was a case of get through as best you could. The management of the stage line did its best at all times and many deeds of heroism and daring were performed by the employees of which the world will never know.

Tedious Stage Ride. In March, 1881, when Mr. Fitzgerald first tried the Boise-Kelton route, Barney Mallory was stage agent at Kelton and Captain Riley, now of Halley, was express agent. The stage used to leave Kelton early in the morning.

The passengers breakfasted at Emigrant Springs and had dinner at Albion. Supper was eaten at Goose creek station, about where Burley is now. This, of course, was provided the stage was on time.

About 1 or 2 o'clock on the following morning the westbound stage used to pull into the old desert station at Twin Falls. If a passenger happened to be hungry he could always find beans and "cow bells" and perhaps hot coffee at the station. Breakfast time found the stage at Salmon river.

By noon, if all went well, the eating station near the McMillan ranch was reached. Another all night ride and Boise was made in the early morning.

First Twin Falls Station. I recall the old desert station near your bustling city of Twin Falls very well," said Mr. Fitzgerald. "More than once I have gone in there in the small hours of the morning and enjoyed a bit of lunch from the station tender's larder. It was mighty refreshing, too, at that hour. Stage riding is one of the best appetizers I have ever tried. The old station here was the scene of more than one serious argument. The Indians had a knack of swooping down from the mountains and running away with the stage horses. At one time, in 1878, I think, they captured the station and killed the station tender."

Good Use for Free Mail. "I made my trips in March and August, as a rule. In March the roads were usually pretty bad. Long poles were carried on the stages for the purpose of lifting the vehicles out of the mud when they got stuck. You

WORK COMMENCED UPON SHOSHONE AVENUE BRIDGE

Driveway Will Be 16 Feet Wide with Ample Paving on Both Sides—Fair Prospects for the Construction of a Public Watering Trough—Commercial Club Will Send Delegates to Convention at Weiler on March 15, When Southern Idaho Commercial Organizations Will Form League.

At a well attended meeting of the Commercial club on Monday evening the invitation of the Weiler club to participate in a convention to be held in that city on Thursday, March 15, to perfect a "Southern Idaho League of Commercial Organizations" was discussed and accepted. The proposed organization was strongly supported by several members of the club and it was decided to send two delegates to the convention. President Frank D. Kimball and Secretary Charles M. Hill were chosen. The club will furnish them with transportation and pay their expenses.

An informal report was made by the bridge committee, showing that almost \$3,000 had been subscribed for the construction of the Shoshone avenue viaduct. Chairman Bickel of the board of village trustees reported that the material for the bridge had been ordered and that work had already commenced on the structure. The driveway will be 16 feet wide, with paths on either side three feet six inches across and raised with two or three rails. The announcement was received with applause. It is estimated that the viaduct will cost about \$6,000 and the Townville company has agreed to furnish the difference.

The question of raising the village to a city of the ancient class was brought up and the ways and means were discussed at some length. The speakers were unanimously of the opinion that such a move would be beneficial. A committee of nine was appointed to take the matter up in such a way as seemed best.

A communication was received from President Critchlow of the Waterworks company announcing that the company had placed the matter of installing a public watering trough in the hands of Superintendent Ramsey, who would arrange for the installation at the place designated by the club, provided the company was reimbursed against improper use of the water. The attention of the club was called to the pending parcel post bill which is now before congress. It was announced that other commercial clubs in the east had adopted resolutions opposing the passage of the bill which, it was represented, favored the large mail order houses at the expense of the local merchants. As the members were not familiar with the provisions of the bill it was decided to take it up at a future meeting, when a copy of the measure would be available.

TELEPHONES ON THE FARM

Various Beneficial Uses to Which It May Be Put.

The telephone is the most useful invention of the nineteenth century. It is the statement of a prominent man who had considered carefully the many inventions of that prolific age. It is certainly useful, not only in the city, but in the country, and while some farmers look upon it merely as a luxury which they can afford to do without, I venture to say that if they will try it to their own homes for a period of one or two months, they will never voluntarily give it up. I find that it is the greatest time saver that we can employ, and surely "time is money" in these strenuous days.

In the fruit shipping season I found it indispensable and on all occasions it has been of the greatest utility.

I remember a cold, stormy night some years ago when a member of the family was taken seriously sick, and since there was no telephone in the house at that time, I had to drive over very rough roads at 11 p. m. for four miles to a physician. Now he can be summoned in a moment by the telephone. In case of sickness it is invaluable, not only in calling the doctor promptly, but in preventing something, means life when delay means death. But it helps by turning the system and patient in connection at all times and thus the doctor can watch the case with the minimum of time and expense. Its prompt action is often the "attract in time" that saves "nine." It frequently happens that an errand is thought of after a member of the family has departed for town, but if there is a telephone in the house, the absent member can be communicated with and the errand can be performed. If the member who goes to town will

the lands on the south side be watered, and when? If, as stated, "all the land is now filled upon by bona fide settlers," why does not the reclamation service keep faith with the settlers on the south side? If it is believed that all land is now filled upon, how does it come that "the area to be benefited" remains subject to entry under the provisions of the homestead law? The reclamation service should touch up its word-juggler. His trolley is crooked.

Land Notice.

United States Land Office,
Hullay, Idaho, Feb. 7, 1906.

To Whom It May Concern: The state of Idaho has filed in this office the following list of lands, to-wit:

Reliable information regarding the city and country promptly and cheerfully furnished. Advertisements accepted on commission by The News Publishing Company, Twin Falls, Idaho.

Entered as second class matter, December 12, 1901, at the postoffice at Twin Falls, Idaho, under the Act of Congress of March 3, 1879.

ENCOURAGE GOOD STOCK.

In making preparations for the fair to be held in Twin Falls next autumn, the Federation of Farmers' associations should bear in mind the necessity of encouraging farmers to bring in good stock. Nothing adds more to the effectiveness of a fair than a fine stock display. While the federation cannot be expected to do everything at once, it cannot afford to slight the most essential features. For instance, it would be very nice if prizes were offered for hand-painted china, but the tract is more in need of good milk cows. All efforts should be concentrated on the more practical and essential features. A farmer cannot afford to bring cattle or horses miles to a fair, feed them for two or three days, perhaps and be put to other expense for the sake of winning a small prize. If the fair were large enough to warrant the effort, well and good. Until the orchards on the Twin Falls tract begin to bear it will not be necessary to offer many prizes for fruits. Considering the newness of the tract, it might be wise for the federation to bond its efforts toward the encouragement of farming, gardening and stock raising exclusively. A good display of grains, grasses, vegetables and livestock would surely make the fair a success, even if nothing more were exhibited. Variety is very nice and it might not be a bad idea to offer prizes for some products not commonly grown in this section of the country in order, as it were, to bring out the versatility of the tract. It had frequently been said that anything produced in the temperate zone can be grown on the Twin Falls tract and it would be very interesting to prove this statement, but in fair matters the federation must crawl before it can walk, and prudence seems to suggest that it keep pretty close to the ground for the first year or two. The merchants of Twin Falls, through the medium of the Commercial club, can, if they will, do much toward making the fair a success. The fair committee of the federation might find it profitable to meet with the Commercial club and discuss plans. In the abstract the interests of both organizations are identical and co-operation seems to be the proper thing.

One year ago yesterday the gates were closed at the Miner dam and at midnight on that date water was turned into the big canal. The development since that time has been so startling that nobody expecting those who have seen it with their own eyes can appreciate its magnitude. More than 100 homes have been made and as many more will be made before March 1, 1907. Thousands of acres have been cultivated and reclaimed; the state of Idaho has obtained patent to a large portion of the tract in record breaking time; more than 100 patents have been issued to entrymen and the indications favor an enormous crop this year.

The city of Twin Falls had a population of less than 100 when the gates of the dam were closed; today it is claiming to be one of the city of the second class. The foundation of the Hotel Perrine was being laid one year ago and the buildings on Main street were low and far between. Contrasted with present conditions, the progress seems almost incredible.

One year ago yesterday 100 freight trains could easily have been counted on the road between Shoshone and Twin Falls. Now every pound of freight comes by rail and most of it costs a trifle more than it did 12 months ago.

One year ago yesterday the dust was eight inches deep on Main street. Men were walking about without their coats; farmers were plowing and winter had passed. The weather is the only thing that has not kept pace with the progress of the tract.

Hoeh has been hanged and the pure food bill has passed the senate. There is still hope for the reformation of the government reclamation service.

THINKS WELL OF TWIN FALLS

Register McConnell of the State Land Board is Pleased.

C. S. McConnell, register of the state land department, arrived in Twin Falls on Wednesday afternoon and left today for Boise, after taking testimony in four content cases, those of J. C. Grimmer, J. O. Hulce, J. H. Lenny, J. A. Joseph, L. Hulce, Reed Perry, J. A. Hulce and D. B. Pettit. John W. John, F. K. Clemon.

"It speaks well for Twin Falls," said Mr. McConnell, "that only about a dozen contests have been filed. When I considered that there have been 1500 original entries, it is wonderful that the contents have been so few. It shows that the people appreciate the value of their lands and are careful to comply with the law; also, that the entrymen on this tract are high class citizens who are not in the habit of giving trouble. The Twin Falls tract, the largest of its kind in the country, has given the state land department no trouble whatever, outside of the great task of keeping the records up. Under these circumstances it is natural that we should all feel kindly toward the tract and its settlers."

"I conducted a land sale here in October, 1904. From the office records I know about what has been going on in Twin Falls since then, but I was not prepared to see such a wonderful change for the better. The progressive appearance of the city impressed me the most. I never saw a town, supported by an agricultural community, grow so fast. But you have every advantage here—good land, plenty of water, fine climate and immense water power."

"As I said before, the state land board is very kindly disposed toward the Twin Falls settlers and will do all in its power to make things pleasant for them. Whenever an entryman has made an honest endeavor to do what is right the board will back him up. Technicalities and misunderstandings will not be taken advantage of to the detriment of the settler. A parent good faith is all that is asked of the entrymen and they are certainly showing it."

MIGHT BE "SOMETHING DOING"

Putting Two and Two Together, it Looks That Way.

Recently Senator Heyburn and Congressman French urged the secretary of the Interior to send a special inspector, one in no way connected with the reclamation service, to inspect conditions on the south side of the Minidoka project. In compliance with this request Mr. Samuel F. O'Fallon of Spokane, Wash., has been spending some time during the past three or four weeks examining into conditions here. He left for Boise last Sunday. Of course no one knows what the nature of his report will be, but all who held conversation with him felt convinced that he had made a thorough investigation of the situation and that his report would be honest and just from the standpoint he had viewed matters.

The fact that we have at last succeeded in getting action on matters sufficiently to secure the appointment of an inspector is of itself an encouraging feature. Our Settlers' League should now push what advantage we have already gained and the settlers should back up their officers with the means necessary to continue the work to a finish.—Burley Bulletin.

It is rumored that a government secret service man has been on the project for some time past looking after matters for Uncle Sam, and that he has reported satisfaction and to have over 100 homestead filings cancelled because of the entrymen having violated the homestead laws.—Hupert Pioneer.

SHADOWS OF COMING EVENTS

Observed by Bill Nye Twenty-Five Years Ago.

From the department, "Twenty-Five Years Ago Today," in the Evanston News-Register is an article that appeared in the Laramie-Bloomington in 1882, and bears the earmarks of the infallible Nye. The article carried the headline: "Whither Are We Drifted?" and is interesting because it shows that even in that early day the west was changing and the cowboy and the larrikin and the "wild and woolly" scenes were being crowded further back to the hills.

"People who were at the train, Tuesday evening noticed a young man who wore a look of chastened joy and his hair long. His hair was his chief attraction, hanging down his back in wavy ringlets and tied with a blue ribbon. At first the city marshal was

going to arrest him for wearing men's clothes, but pretty soon he discovered that it was a slight misapprehension. It looked like the fluff on a peach. The young man was bound for Idaho, where he is a mining expert and territorial marshal.

"When a mining expert gets to doing his hair up with a blue ribbon, the romance of our mighty west is played out. If the time has arrived when Idahoan fighters, trappers, guides and miners wear corsets and drink chocolate, the joy of the west and frontier frontier is a thing of the past. Some, however, hope that this man was a fraud and that the characteristic mustache of the Rocky mountain is not going to travel over the plains with an embroidered night shirt and a fresh lawn tie for every-day-in-the-week. Once the plainsman rode all day on the lookout for Indians and at night picketed his broncho, and ate a chunk of salt pork or nothing at all and slept if the Indians would let him.

"Now times have changed, it seems. The soft-eyed scraph, fresh from the New England shore, packs up his tooth brush and campfire ice and goes where glory waits him. It is death to the dime novel trade and annihilation to the funny-business of the blood-curdling west. All a man needs in these days, in order to become a guide and win glory, is a "wallow of hair" and a gold mounted revolver. If this thing continues, the old "sagaw man" will eventually enter the camp of the hostile in a blue hat and a cadet blue coat cut so high in the tail that it won't be safe for him to wear an open back shirt, buckskin and a bronco and plaques on his side gone out of date, and the man whose regular beverage was strychnine and alkali water has disappeared almost from the green plains of this lofty allitoodom. Goodbye, brave men of the gladiolus west. There are only two or three of us left, and we have to wear glasses and dress in the modern garb of this artificial generation. One of these days there won't be enough valiant cusses left to protect our women and children from the hostile college student."

M'PHERSON ON IMPROVEMENT

Superintendent Tells of Plans for the Tract.

A. M'Phereson, superintendent of agriculture for the Twin Falls Land & Water company, is in the city, having come up partly on public business and partly on business for the company. He is a member of the dairy and pure food commission which will meet today and is also a member of the board of horticultural inspection which will meet tomorrow. He will attend both meetings.

The company business that brings Mr. M'Phereson here is the purchase of 5000 shade trees to be put out at Buhi and Twin Falls. The streets and parks of the former place are to be set with trees, and there is a large new park at Twin Falls to be embellished.

The latter park is in the canyon of Rock creek, which crosses one corner of the townsite. It is about 100 feet below the level of the plain and offers a fine site for a pleasure ground. The park will be three-quarters of a mile long and will contain 15 acres. Roads and walks will be built and bridges constructed across the stream, while the entire park will be set with trees.

It is stated by Mr. M'Phereson that it is the intention to lay out two blocks at Buhi as model home sites. Those will be carefully graded and walks will be laid out, while trees and shrubbery will be planted on an artistic plan. This work is to be done this spring, the purpose being to show how beautiful a home tract there can be made.

It is also proposed to start an experimental farm at Buhi. This will be especially to show what can be done with a piece of rocky land. The worst place on that section of the tract has been selected for the purpose, and it is proposed to demonstrate how such land can be made productive and attractive.

Mr. M'Phereson is looking for "tree white-wake" and thoroughly experienced irrigators. These men are to be sent out among the farmers to give instruction to all who need it. They will be furnished with horses and will cover the entire tract.

Five nights a week Mr. M'Phereson gives stereopticon lectures at different points on the tract. He takes up all features of agricultural development. On Monday afternoons he lectures before the school children at Twin Falls. The object is to place all the people on the tract in possession of the very latest facts that settlement has gathered affecting the business of the farmer.—Statesman.

TWIN FALLS LODGE NO. 23, I.O.O.F., instituted 1905. Meets every Thursday evening 7:30. Visiting brothers always welcome.
C. W. HAWK, I. R. DARROW, Nobis Grand, Secretary.

25 Per Cent

We have some very desirable business properties that will pay 25 per cent on the price asked under annual lease.

S. T. Hamilton & Co.

Souvenir

—OF—

Twin Falls

A beautiful Album, containing 12 pages of views in and around Twin Falls, and a concise history of the growth of the city and tract. Just the thing to send to the folks at home.

Issued by the Ladies' Aid Society of the First Presbyterian church.

On sale at Sprague & Ferney's drug store. Price, 25 cents.

If Your Fire

Don't keep good over night. Don't blame the stove. Don't swear that your wife failed to shut off the drafts. The stove is all right, and so is your wife.

It's the Coal you use that causes the trouble.

Try an order of

KEMMERER COAL

It lasts longer and gives more heat.

Nibbley-Channel Lumber Co.

A Rockland schoolboy's competition on Whittier, handed in the other day, reached the following incontestable conclusion: "He was never married. He hated slavery."

First Telegraph Messenger—"I don't like delivering messages in there."

Second Messenger—"Why?"

First Messenger—"All the doors are fixed so you can't slam 'em."

Jack (during their quarrel)—Now, let me explain.

May—I want to say something first. Jack—All right. I'm all ears.

May—I know it. No doubt that's why your parents called you "Jack."

Philadelphia Press.

Critics—Did you ever notice how artists always depict Cupid without any clothes even in winter scenes? I often wonder why.

Newfield (dreamily)—I suppose it's to show how almost impossible it is for true love to grow cold.—Philadelphia Press.

R. A. Carter & Co.

BREVITIES

Mrs. M. A. Coffin is visiting with her father, Carl Pyle, at Idaho Falls.

On Thursday afternoon the ladies sewing circle was entertained at the home of Mrs. Booth, who was assisted by Mrs. Swisher. About 15 ladies were present.

Hon. C. D. Thomas addressed a large audience in Oakley last Friday night on the subject of controlling the population of this kind of world which is built in that town.

P. J. Holman has arrived from Wallace and is now a permanent citizen of Twin Falls. The weather cleared up the day after he came and even the blue rocks began to look cheerful.

Luther E. Ballard, of the Twin Falls, Idaho company has purchased two lots on the corner of Main and Washington streets on which he intends to build a handsome residence.

A social meeting of the Episcopal church will be held at the home of Mrs. Hahn next Tuesday afternoon. Ten cent tea will be served. Mrs. Allen was the hostess at this week's meeting.

Archdeacon Jones of Boise will hold Episcopal services in the old school house next Sunday morning. Prayer will be at 11 a. m. and evening prayer and sermon at 7:30 p. m. Sunday school, as usual, at 10 a. m.

A bounding boy was born to Mr. and Mrs. John Durfee this week at the McKinlay ranch on Coeur d'Alene ridge. Mr. McKinlay made a Paul Revere ride from the ranch to Twin Falls to inform a physician. Mrs. Durfee and child are doing nicely.

Steve Paul, Examiner C. S. Love, one of the loyal pioneers of Twin Falls, is in the city on business. Mr. Love said he was more pleased with Twin Falls every visit. The Hotel Perrine, he added, was a great comfort and a splendid advertisement for the city.

Past Newman has recovered from a threatened attack of nervous prostration—the major portion of his stock of tobacco having arrived. For a time he thought seriously of turning out a brand called "Flax de Alida," using alfalfa and red top for filler and corn stalks for wrappers. Now that his stock has arrived he is ready to cut and pack.

Mrs. Williams, the genial hostess of the Hotel Perrine, entertained at cards Tuesday afternoon. Seven tables were merely going for two hours, then the banquet of confection was served. The first prize, a handsome cup and saucer, was won by Mrs. J. V. Baker; the consolation, a decorated candle and candlestick, by Mrs. R. A. McKinlay. Those present were Mesdames Allen, Aiken, Boyd, Baker, Ball, Burdette, Booth, Conway, Clarke, Chamberlain, Holman, Holden, Miller, O'Brien, Pike, Richardson, Sprague, A. N. Sprague, Steele, Sweely, McCollum, Misses Ashe, Hildebrand, Kierstead, McClain and Perrine.

Miss Ethel Manker has arrived from Bedford, Idaho, and is the guest of Mr. and Mrs. C. A. McMaster. She is just entering upon her professional career as a musician and she believes Twin Falls is a good place to make a home. Miss Manker is a student of music and a teacher of experience and art. She is possessed of rich native talent which has been developed to a high degree and she is a devoted pianist. J. B. Dunham, the noted actor and composer, to whom Miss Manker acted in the capacity of accompanist for some time, recommended her highly as a reader, interpreter and pianist. Her musical education was perfected under the direction of Professor W. J. Whiteman, director of music in the public schools of Denver, who refers to Miss Manker's exceptional qualifications as a musical talent of school children.

Probably the largest social function of the season occurs this afternoon at the cozy home of R. M. McCollum, where Mrs. and Miss McCollum will entertain about 15 ladies at a progressive high five. Misses Hildebrand and Ashurst at the coffee urn, while Mesdames McCollum, Wall and Ramsey will dispense the more substantial refreshments. The following are those invited: Mesdames Allen, Allen, Ball, Burdette, Boyd, Booth, Baker, Burdette, Chamberlain, Conway, Cole, Chamberlain, Channel, Clarke, Dun, Doherty, Greenhow, Holtzman, Hardesty, Holden, Hahn, Hess, Jacobs, Johnson, Kierstead, Mitchell, Miller, O'Brien, Pike, Robinson, Ramsey, Richardson, Ring, F. W. Smith, W. J. Smith, Sweeney, Geo. Sprague, Sprague, A. N. Sprague, Steele, Thibault, Thomas, Tager, Wall, Wisely, Williams, Mrs. J. H. Hayes, of Rock Creek, and Misses Hildebrand, Chamberlain, Butler and Rauch of Hansen.

C. A. McMaster of McMaster & Co. has returned from Iowa, bringing with him three carloads of live stock and goods. In the shipment were registered Norman stallions of the best blood; two pedigreed horses, a high degree and two young Jack horses; a number of registered and pure animals cannot be found anywhere. Mr. McMaster and Mr. Smith, the most extensive farmers on the Snake river, are a big success. They wanted the best stock that money could buy and they went to the best place to get it. The stallions are pure and the bulls would be sold by competition. They will be sold or changed for land. In last week's issue it was stated that McMaster & Co. had 5000 pounds of Lincoln seed for sale, whereas they now have 5000. They have taken great pains to thoroughly screen their seed grain.

The T. X. L. restaurant has changed hands. Cameron Bros. having sold out to G. P. McKee.

Engineer John E. Hayes and his corps of installers are engaged in placing a portion of the townsite west of Rock creek.

Secretary Fred L. Harris of the Land & Water company is in Salt Lake attending a meeting of the company officials.

Services will be held in the Catholic church here on March 5, 6, 7 and 8. Mass at 8 o'clock each morning. Children doctrine for children each afternoon at 4 o'clock. Lectures on most important subjects at 7:30 each evening. Everybody is cordially invited to attend.

C. L. Parsons has a pair of lutey bob cats which are confined in a cage in the rear of the Palace saloon. The animals were captured a short distance up the Rock creek canyon and they are the most spiteful brutes imaginable. They put in 24 hours out of 24 growling and spitting.

The Quaker Medicine show has been doing a standing room business at the playing rink all week and has furnished a great deal of amusement. Some of the turns are for the amusement and the show which is free as a whole compares favorably with many which charge an admission fee.

A handsome Chinaman ran the streets of Twin Falls last Tuesday, inquiring of everybody he met the way to the depot. Where he came from nobody seemed to know, but from all accounts his name in this city was only one beat in length. He had no trouble whatever in finding his way to the outgoing train.

The work of surveying the location for the Shoshone avenue viaduct has been completed by John E. Hayes and the construction of the foundation will begin on Monday. The foundation will be of masonry and it is the intention of the townsite company to have it ready by the time the material for the superstructure arrives.

The Bull Townsite company, recently organized with headquarters at the town of Bull, Cassia county, yesterday filed a copy of its articles of incorporation with the secretary of state. The company is capitalized at \$200,000, all of which is subscribed. Controlling stock to the amount of \$299,996 is held by Stanley W. Milner of Salt Lake. Boise Statesman.

T. D. Connor, former mayor of Wallace, Idaho, and one of the most prominent and respected citizens of that place, arrived in Twin Falls early in the morning. He is a guest of Mr. McKinlay, who assured him that the rattlesnakes were still dormant. Mr. Connor has a fine farm west of town which he is now engaged in cultivating.

C. O. Meigs, the genial manager of the Stinkhorn company, has recovered from a protracted spell of sickness and is busy explaining to his many friends how he enjoyed his first trip from business in the city. He is not quite so stout, as he was but he could stand a still greater hardship and yet be in the race. His recovery is a source of gratification to everybody.

Louis N. Roos of Boise has accepted a position in the office of the Twin Falls Land & Water company. He entered upon his duties on Wednesday and is already an enthusiastic worker. Although he has not had much time to devote to his new position, he has been able to make a few acquaintances in Idaho and a base ball player of professional skill. Quiet, unassuming and genial, he will soon become a familiar figure to the citizens of the state. Mrs. Roos will shortly join her husband here.

B. A. Carter, the real estate dealer, has purchased lot 20, on Main street, opposite the Hotel Perrine, for \$2500. It is Mr. Carter's intention to put up a building as soon as possible, the property being so valuable to remain vacant. Mr. Carter was one of the earliest arrivals in Twin Falls and one of the first to go into land and business city lots. His faith in the future of the city has increased every hour and his latest purchase shows what he thinks of local realty.

Superintendent McPherson delivered his first lecture on agriculture to the school children of Twin Falls on Monday afternoon. "Soil" was the subject. The pupils, which numbered all above and including the fifth grade, listened with close attention and fairly snatched the superintendent's words. Mr. McPherson was greatly pleased with the interest shown by the pupils and he predicts that they will profit greatly by his instruction.

E. B. Tager, father of A. F. Tager and Charles Tager of Twin Falls, died in Boise last night. He was a well known pioneer. He held many important public positions and enjoyed the respect and friendship of a multitude. He was chief of the Idaho fire department for many years and in 1902 and a cold which he contracted while at a fire developed an ailment from which he suffered until death relieved him. His family has the sincere sympathy of their large circle of friends.

A grand charity ball for the benefit of the Catholic church of Twin Falls will be given in the skating rink at the evening of St. Patrick's day, Saturday, March 7. The committee on arrangements is composed of Mr. Steele, W. H. Kennedy, T. C. Macnamara, P. H. Hall, Louis Reame and Paul Hof. The reception committee consists of Mr. Steele, W. H. Kennedy, T. C. Macnamara, Channel, Green, Hall, Ferny and Miss Ryan. A full orchestra has been engaged for the occasion and the arrangements will be first class in all particulars. Last year the St. Patrick's day ball was the social event of the season, and if Pat Hall never does another good turn he will still be a public benefactor for having arranged the entertainment.

That Good Nut Coal

Just the thing for the kitchen range. We have a supply on hand, also a supply of.

MRS. D. W. BRUNK

Tenth Street

Rear of Old Pearl Market

D. M. Winsor of the Western-Molina Plow company is a guest at the Perrine.

Harry Dietrich of the state land office is here assisting Register McConnell in taking evidence in the contest cases.

John H. Lynch, the North Yakima attorney, is here in the interests of his clients whose lands have been contested.

Joseph L. Hulise of North Yakima, who is defending a contest on his land filed by J. G. Granger, is registered at the Perrine.

Nicholas Gier, who has a fine piece of land near Filer, has arrived from Ellensburg, Wash., and is now engaged in farm making.

Mrs. John R. Lehman, the wife of Secretary Lehman of the Miller-Turner Co. at Buhl, has arrived from Lancaster, Pa., and will make her home in Buhl.

Mr. and Mrs. C. W. Hawk are now located in their comfortable new home on Sixth avenue, between Eleventh and Twelfth streets, where they will be pleased to meet their friends, old and new.

Truster F. D. Bradley has returned from a visit in his old home in Wisconsin. Mr. Bradley reports that the winter in Wisconsin was exceptionally fine. He met a number of people who are interested in Twin Falls, several of whom intend to come here this spring.

Mr. and Mrs. E. W. Davis and children have arrived from Pueblo, Mr. Davis, who was a prominent merchant in Pueblo, has sold out his interest there and will make his home in Twin Falls. He recently purchased Main street lot opposite the Hotel Perrine, on which he intends to build.

Peter Marth has sold to Morgan G. Heyaw the southwest quarter of section 32, township 10, range 18; John T. Rumbidge has purchased from Silas White lot 12, block 18, Twin Falls, and J. A. Waters has disposed of all of block 50 to C. O. Poland. The sales were reported by T. J. Woods & Co.

The Shoshone Falls Power company, represented by Manager Aiken, Attorney Hamilton and Civil Engineer Biele have purchased and located land on each side of the Lower Salmon falls, also right of way to the land of Roy Bowen, Erwin Condit and John Condit to the rapids of the Shoshone for power purposes. This is the beginning of a gigantic enterprise that means much for this country. Hagerman correspondence Shoshone Journal.

A number of our Report people surprised Mr. and Mrs. T. C. DeWitt Monday evening, it being the eve of their silver wedding anniversary. The evening was spent in social conversation, music, etc., after which refreshments, consisting of cake and cake, were served at the Model restaurant. At a late hour all departed wishing the DeWitts happiness in their new home. Report our one of our local families in the department of Mr. and Mrs. T. C. DeWitt for Buhl, on the Twin Falls tract, yesterday. They were among the very first settlers here and have had the confidence and respect of all who came to know them. However, the distance between here and their new home is not far and they will be in the city with us occasionally.—Ralph Pioneer.

Get your wire fencing from Perrine & Burton. They have just received a carload.

MEMORABLE BANQUET AT THE ACADEMY OF IDAHO

Enjoyed by the Students and Faculty and Their Guests on the Evening of February 22—Witty Toasts and Clever Responses Prove Highly Entertaining—Decorations and Menu Will Serve as a Standard in Future at This Admirable Institution of Learning.

The most elaborate, the best attended and decidedly the most successful social event of the year at the Academy of Idaho occurred Wednesday evening. At 8:30 the doors of the gymnasium were opened for the reception of the guests. The hall had been decorated in orange and black and furnished with rugs, chairs and cosy corners enough to satisfy the taste of the most exacting. The lights were covered with light green gauze throwing a softened but still abundant glow over the hall. Music, both vocal and instrumental, was furnished by Professor Meulien and the Misses Beamer, Mager, Robertson and Farey and Mr. Beashear.

At 8:30 the guests retired to the dining hall, where they were shown to their places by a well trained corps of waiters, the Messrs. Byrd, Hauser, Parsons, Hood, Deane, Alfred, Dodge, Castle and Durham. The invocation was pronounced by the Rev. P. W. Reed of Trinity church, and the banquet began. Never in local history has an assembly of happier young people gathered around such a well covered board. A banquet of seven courses was served beautifully, and the merriment was beyond all expectations.

As the evening wore on the trustees, faculty and students warmed to the occasion and a feeling of fellowship and loyalty to school, state and nation was generated that none present will forget. The decorations of the hall were elaborately marked out by the committee of decorations in red, white and blue—Portraits of Washington, Jefferson, Lincoln, Franklin and Roosevelt garlanded with the national colors, adorned the walls. The electric rosettes were supplanted by a maze of gaudies in the lighting scheme. A thirty-foot, cleverly-shaped, was suspended from the center of the ceiling, from which radiated streamers in the national colors. At each plate was placed a menu and program printed in red and blue upon white and bearing a tiny flag fastened to the cover, upon which a memorandum of the academy and a cut of Washington also appeared. The menu was as follows:

Oyster Cocktail
Brown-Broast-Salad
Consomme
Olives
Cream Chicken in Timble Cases
Fresh Green Peas
Parker House Rolls
Roast Veal
Potato Croquettes
Fruit Salad
Sherbet
Coffee

After the guests had enjoyed themselves thus for nearly two hours the toastmaster, C. Redman Moon of St. Anthony, opened the program with a most able and fitting introduction. Throughout the program his witty remarks and pointed stories kept everyone in good humor. The first toast, entitled "Washington, the Father of His Country," was responded to by Del Sullivan of Rupert. Mr. Sullivan's toast would have been an credit to a speaker far beyond his years and certainly reflected great credit upon his class and the school. He spoke eloquently of the life of Washington, and pointed his character in colors strong and sternly true.

Miss Nora McManis of Portville responded to the toast, "Our Country." She also did remarkably well and held her audience from beginning to end. Although still in the first year of her college course, she is a veteran. She followed a toast by Miss O'Brien of Pocatello on "The Gen of the Mountains," which was written in a charming style, and which had been referred to in the program. Miss Grace Ford of Pocatello responded to the toast, "The Academy and Its Faculty." Her toast was composed entirely in verse and from a literary point of view was most excellent. She took the members of the faculty, one by one and alternately

blamed and praised them. With humor and shrewdly intimated pleasantly to make her toast one of the most enjoyable features of the evening. Mr. Norman of the faculty then toasted the students in his clear and interesting style for which he is so well known. Mayor Cleave responded to the last toast, "The Trustees." He said: "You have been able to find some one willing and able to say something good of the faculty, some one else to speak

well of the students, but I take it as you could find no one willing to do so speak words of praise concerning the trustees, you have chosen one of their own number to toast his fellow members and himself." Hearty laughter and rounds of applause greeted this introduction and the gathering listened intently while Mr. Cleave in his laudatory way spoke of the academy and its work in past, present and future. The first but happy group broke up in the small hours of the morning, and good night to each other, and left behind them a bit of their life's history that will ever be a bright spot in their memories of the past.

Committees—Executive, Mr. Upjohn, Mrs. Oliver, Brimfield Mager, Thomas Delman, Katie Tupper, Miss Walker, Clarence Perrin; reception, Principal Faris, Leroy Nelson, Mrs. Faris, Clara Mager, M. Solette, Sherman Farey, Mrs. Solette, Cattle Gray; program, Mr. Noton, Grace Farey, Joe Byrd; decoration, Redman Moon, Wilson Durkhard, Del Sullivan, Charlotte Beamer, Emma Hayes; sentiments, Mr. Rutherford, Mr. Slaughter, Mr. Cheyney.

Taking Time by the Forelock.
A lady, entertaining a guest of importance, was giving him instructions to her maid.
"Now, Polly," she said, "in the morning take a pitcher of hot water up to Mr. X's room. Be sure not to forget this."
"Norn," Polly answered. The lady thought no more of the matter until the next day, when at noon she received a call. "Of course, Polly," you carried that hot water up to Mr. X's room this morning?"
"Polly beamed. 'D. law, Miss Mary, I was so tired I brought forth date water but I carry it up last night,' Lippincott's.

Apologized to Hayburn.
Senator Hemenway of Indiana is new to the ways of the senate, but very familiar with the ways of the house, where he served for many years before he went into the senate.
In debate on the pure food bill, he referred many times to Senator Hayburn, who is in charge of the bill, as "the gentleman from Idaho," which is the custom of the house. In the senate they say, "the senator from Idaho." After Hemenway had called Hayburn "the gentleman from Idaho" several times, he realized he had made a mistake.
"I hope," he said, apologetically, "that the senator from Idaho will pardon me for calling him a gentleman."
—Rochester Democrat and Chronicle.

Doctors Are Puzzled.
The remarkable recovery of Kenneth Melver of Vancouver, B. C., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say it saved my life." Cures the worst coughs and colds, bronchitis, tonsillitis, weak lungs, hoarseness and all grippe, guaranteed at Sprague & Forney's drug store; 50c and \$1.00; trial bottle free.

Ditch Surveying a Specialty.
Charles H. Mill makes a specialty of ditch surveying. He knows the ground and guarantees satisfaction.
—Postoffice Box 230. Orders may be left at Bedford's Drug Store.

Home-seekers' Rates.

The Oregon Short Line announces a "home-seekers' rate" of one fare plus \$2 for the round trip to Idaho from Kansas and Nebraska and all Missouri river points and stations as far east as St. Paul, Duluth, Chicago, Peoria and St. Louis, 21 days limit. Tickets on sale the first and third Tuesdays of March and April. The usual stopover privileges are attached.
D. E. HURLEY,

YARD FACING RAILROAD TRACK AT THE FOOT OF 12TH ST.

EARLY ADJOURNMENT OF CONGRESS IS PREDICTED

Members Appear to Be Anxious to Get Ready for November Campaign—Senator Heyburn's Pure Food Bill Passed in Its Original Form—Splendid Record of Midshipman Gormley of Moscow—F. W. Gooding Working for 36-Hour Bill.

WASHINGTON, D. C., Feb. 26.—From all indications there will be an early adjournment of congress. It was thought for awhile that the session would last until some time in July, but the house has made such good time passing the larger and more important bills and the senate seems to be doing so well under way that it is frequently stated by leading members of both the senate and the house that the work of congress will be completed by the first of May. The house has already passed the statehood bill and the railroad rate bill, and it now has the merchant marine bill and the food bill to consider, both of which have already passed the senate. The house also has the appropriation bill to pass, but they are always snatched out in the committees, and never take very much of the time of the house. The senate has the railway rate bill and the statehood bill, the latter is not expected to consume much time as it was thoroughly discussed at the last session. Much time will likely be spent on the railway rate bill, but not enough to extend the session very far. The fact that this session year will make a great deal of difference, as the members of both houses are anxious to wind up their business here and not ready for the campaign of the next November. Of course the question when congress will adjourn is only a conjecture at best, as not even Republican leaders can tell exactly when it will occur, but from all indications at present it seems that it will be a great deal earlier than was expected a short time ago.

The Heyburn pure food bill passed the senate last week by a vote of 64 to 4. For three days the senate had considered the bill and amendments thereto by various interests. A great many of the amendments were offered with the intention of weakening the bill, but they were all voted down, and the bill passed practically as originally drawn by Senator Heyburn. When the health and happiness of the people are taken into consideration, this is the most important legislation at this session of congress, and the fact that it passed by such a large majority is a credit to the members of the senate. Some kind of pure food legislation has been before congress for several years, but no genuine effort has recently been made to get it through congress.

The passage of the bill in its present shape makes it unlawful to sell or manufacture any article of food, drugs, medicines or liquors which is adulterated or misbranded, or which contains any poisonous substance. It prohibits the introduction into the United States or the sale of goods from a foreign country of foods, drugs and liquors which are impure or misbranded. The method of ascertaining the purity of foods, drugs and liquors, both of foreign and domestic manufacture, is left to the secretaries of agriculture, treasury and commerce and labor. They will prescribe the uniform rules for the examination of these products, such examination to be made by the bureau of chemistry of the department of agriculture. In an article is found upon examination to be adulterated, notice is to be given to the manufacturer, and a hearing shall be arranged, and should appear that the law has been violated, the secretary of agriculture is at once to certify the facts to the proper district attorney, whose duty is to immediately institute prosecution. One of the most important provisions of the bill is the provision that no dealer can "concoct" under the terms of the bill when he can produce a guarantee from the wholesaler or manufacturer in whom he purchased the goods, that the goods were unadulterated or misbranded.

Among the midshipmen recently graduated from the United States Naval academy at Annapolis, Maryland, is Robert L. Gormley of Moscow. Mr. Gormley was appointed to the academy four years ago by Senator Heyburn, and has made a most creditable record. In a class of over 100 graduated near the head and there are many among his classmates who, being appointed to the academy, attended some of the most notable colleges and universities in the country.

EVAPORATED CREAM

The appointment of Postmaster W. C. Fenton of Boise has been confirmed.

The senate is wrestling with the railroad rate bill. The measure was introduced by Senator Tillman.

The new light and power plant of the Cranmer Electric company at Idaho Falls was put into commission on Monday night.

President Roosevelt, in meeting with encouragement in his effort to bring about an agreement between the coal barons and the miners.

James V. Munnell, former assessor of Clatsop county, has pleaded guilty to the charge of embezzlement and has been sentenced to imprisonment for one year.

Joseph L. Griffin, one of the early pioneers of Idaho and one of the most respected citizens of the state, died at the home of his daughter, Mrs. F. W. Collins, in Shoshone on Tuesday afternoon.

The Chinese are again engaged in their pastime of hunting missionaries. Several missionaries are reported to have been killed. It seems to be a recurrence of the old trouble with the missionaries.

There is little change in the Steinhilber murder case. Governor Gooding has confirmed the report that Harry Orchard had made a confession.

No date has been set for the preliminary examination of the suspects.

General Grosvener, for 20 years a prominent member of the house of representatives in Washington, is smarting under the sting of his defeat for re-nomination. It appears that his supporters tried to purchase his vote at a round sum of \$2000.

The czar of Russia emerged from his hole long enough to pose as peace-maker between France and Germany. Since the Japanese declaration of war, "peace" has been new mounting for the Russian ruler. Besides, Nicholas would be unable to borrow any more money from France in the event of war between that nation and Germany.

However, the belligerents seem to be cooling down and trouble is unlikely.

Miss H.—It was simply wonderful how the mind works. He knew all our thoughts by just looking into my face.

Miss V.—He probably read between the lines.—Life.

"My husband is an inventor, you know."

"So a mine."

"More excuses for staying out late at night than any one ever dreamed of."—Cleveland Leader.

Mrs. Cushman—Did you attend those very interesting lectures on Browning, Lamb and Hogg?

Mrs. Nixson—Browning lamb and hog? Dear me, no. I learnt cooking thoroughly when I was a girl.—Boston Transcript.

Her Ladyship (who is giving a servants' ball) to butler—We shall begin with a square dance, and I shall want you, Wilkins, to be my partner.

Butler—Certainly, my lady, and afterwards I presume we may dance with 'em we like?—Punch.

"How many women did you try to marry before you got me?" she exclaimed in anger.

"You were the thirteenth," he answered sadly, "and I never thought to count them before."—Judge.

Farm to Rent.
The ranch at Yale, Cassia county, Idaho, is for rent the coming season in two portions. The lower place puts up 250 tons of alfalfa and wild hay. The upper place puts up 500 tons alfalfa and wild hay, and has over 50 acres grain land. Plenty of water on either place. Only responsible parties, with some work horses, need apply. Address, or see, L. H. Sweetser, Burley.

Concrete Blocks.
Bross & McMillan of Kimberly have the sole right to manufacture the Miraculo Double Air Space Blocks in Cassia county, outside of Twin Falls. If you contemplate building next spring, see them for prices.

Protect yourself against judgments transferred to Cassia county from some other county or state by demanding an abstract of your property. The Cassia County Abstract company can do the work for you. See either Attorney C. M. Price or C. D. Thomas.

If you want clean, heavy oats that will mature early and yield bountifully, try the celebrated Montana variety just received by Perrine & Burton.

Notice to Creditors.
In regard, Nathan H. Nichols, a voluntary bankrupt, No. 1, in bankruptcy.

The first meeting of creditors of said bankrupt is hereby called for the 15th day of March, 1906, at 10 o'clock a. m., at my office in Twin Falls, in the county of Cassia, state of Idaho. Such meeting will be held for the allowance of claims, appointment of trustee and examination of bankrupt. C. D. THOMAS, Referee in Bankruptcy.

Dated February 14, 1906.

GRAZING IN FOREST RESERVES

Applications for Permits Should Be Made at Once.

Notice has been received by Forest Supervisor Major Fenn, stating that applications for grazing lands in the forest reserves will be received until April 5.

As is already well known, the reserves will be open to cattle May 1 and to sheep June 1.

Each person who has filed a certificate of ownership of stock, said Mr. Fenn yesterday, will have sent to him by mail a blank application with instructions how to prepare it. This will be done so as to assure that each person will secure an application even if he does not see the published notice to the effect that the time of receiving applications will close April 5.

Notice of the time of closing will be published in the leading papers in five principal places covering the different localities of the reserves.

A Scientific Wonder.
The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Milford, lecturer for the Patrons of Husbandry, of Boise, of a distressing case of piles. It healed the worst burns, scalds, boils, ulcers, cuts, wounds, chilblains and salt rheum. Only 25c, at Sprague & Perry's drug store.

An Ideal Stock Ranch.
400 acres, all fenced and cross-fenced with good fence, three-quarters mile from town, well located on daily mail route; 250 acres in hay, positively no waste land; plenty of free water at all times; large creek running through portion of land; a deep black loam soil, very fertile. This ranch is primarily to the best stock range in Idaho; good crop house, modern, painted; large barn well built, 60x60, and other outbuildings, corrals, etc.; a full equipment of machinery goes with this ranch; adjacent to a rich mining region which affords a splendid market for all produce; near good schools and church; the best bargain in Idaho; owner must sell; \$17,500 per acre, on easy terms. Write Northwestern Investment Co., Ltd., Boise, Idaho.

Main Street Lot for Sale.
Lot 26, block 37, located on Main street, Twin Falls, is for sale. For price inquire of H. H. Jacobs, Twin Falls, or J. C. Paulson, Emmetsburg, Iowa.

Those Carolina pears are the fastest growing shade trees that grow. They are perfectly hardy. You can buy them eight to 10 feet tall from H. G. Monce, Nampa, Idaho.

Tree Planters.
Write today for our descriptive and illustrated catalogue of fine nursery stock, roses and ornamentals. The Nampa Nursery, Nampa, Idaho.

Correct Surveys.
Having secured a copy of the original field notes and plats for the entire tract, C. W. LeVing, licensed surveyor for Idaho, is in position to set all obliterated corners correctly and place same on record if desired.

Barb wire and poultry netting. Carload just received by Perrine & Burton.

To Bull and return via Filor every Monday, Wednesday and Friday. Stage leaves Washington stables at 7:30 a. m. G. H. Erdmann, proprietor.

NOTICE.
Corrected list of arrival and departure of trains and mails for Twin Falls.

Mail arrives daily, including Sunday: Train No. 71, at 11:15 a. m. Mail departs daily, including Sunday: Train No. 72, at 4:15 p. m. Mail closes at 3:45 p. m.

Postoffice Hours.
Open at 8:00 a. m. Closes at 6:30 p. m. Sundays. General delivery window open one hour after arrival of train. W. W. DUNN, Postmaster.

PREPARING FOR ANNUAL FAIR IN TWIN FALLS

Federation of Farmers' Associations Will Secure Grounds and Offer Liberal Prizes—Land & Water Company Will Give Substantial Cash Premiums for Field Crops—Early Preparations Being Made in Order that Farmers May Have Good Chance to Compete.

The Federation of Farmers' associations is preparing to hold a fair in Twin Falls next autumn on lines much broader and more liberal than those usually followed in counties. Besides bringing the farmers together in friendly competition, the fair will encourage them to grow prize products.

It will also be a matchless demonstration of the productiveness of the Twin Falls soil and afford the most conclusive proof that farming, intelligently conducted, can be made to pay on this tract from the beginning. An early start is being made in order that the farmers may know what to expect of them and be given every opportunity to prepare for the competition. If possible, the major portion of the special prizes will be announced before the seeding season is over so as to permit the farmers to plant for prizes, as it were.

Superintendent McPherson has induced the Twin Falls Land & Water company to offer \$170 in cash prizes, divided as follows:

\$50 for the best irrigated field of not less than 10 acres, contour of land, method of irrigation, crop, etc., to be considered.

\$25 for the best crop of sugar beets, not less than a quarter of an acre, stand, tonnage and macerine, quality to be considered.

\$25 for the best acre of wheat, perfection of berry, yield and milling qualities to be considered.

\$25 for the best acre of corn, quality and yield considered.

\$15 for the best acre of oats, yield and quality considered.

\$10 for the best acre of onions, yield and quality considered.

\$10 for the best yield of alfalfa or clover hay per acre, or one of more acres.

\$10 for the best acre of forage plants, feeding value and yield considered.

The premiums will be awarded by a committee to be appointed by the federation and the awards will be announced as soon as possible after the fair.

These prizes were announced by Superintendent McPherson for the purpose of giving the farmers a fair chance to compete. The committee on awards will have a large territory to cover and many fields to inspect. It is the intention of the fair committee to make public announcement of the remaining premiums as early as a date as possible in order to stimulate interest and allow every farmer on the tract to compete on an equal basis. The intention is to make the fair as attractive as possible. Grounds convenient to the city will be secured and fitted up in good season.

FIRST CANDIDATE FROM TWIN FALLS

MISS BELLE CHAMBERLAIN FOR
STATE SUPERINTENDENT.

Popular and Talented Assistant to
Present Incumbent Announces Her
Candidacy—Owns Valuable Farm
Near This City.

Miss Belle Chamberlain has announced her candidacy for the position of state superintendent of public instruction to succeed Miss Scott, who will have held the position for two successive terms at the close of the present administration. Miss Chamberlain has during that period been the assistant and has become thoroughly acquainted with the manifold duties of the important office. When it became known that Miss Scott would not be a candidate for another term, friends of Miss Chamberlain began to urge her for the position and in several of the counties mention has already been made of the expected announcement.

Miss Chamberlain was born in Idaho and has devoted her life to educational work. After graduating from the Boise High school, she entered the Michigan State Normal college where she received the necessary training for her profession. Leaving the college, she accepted a position in the city schools of Grand Rapids, Mich., which are noted for their high standard, and held the position until she returned to Boise, her native town, where she was engaged as one of the teachers of the public school. The number of years devoted to this line of work, her success as a teacher, and her thorough familiarity with the duties of the office makes Miss Chamberlain, in the estimation of her supporters, the logical candidate for the position to which she aspires.—Boise Statesman.

Miss Chamberlain, whose candidacy is announced above, is properly speaking a citizen of Twin Falls. With that sound judgment which has always characterized her acts, official and otherwise, she "got in on the ground floor" and secured a valuable "40" close to the city. Last autumn Miss Chamberlain, at great personal inconvenience, owing to pressure of official duties, came to Twin Falls, maintained legal residence on her land for the required period and "proved up." She might easily have made an assignment and avoided the strenuous task but Miss Chamberlain is not in the habit of avoiding what she believes to be her duty. She is a worker and she works intelligently. With a thorough knowledge of the requirements of the office at her finger tips, Miss Chamberlain would make an ideal state superintendent. Progressive, energetic, talented and genial, she would be a worthy successor to the retiring superintendent, Miss Scott, which is equivalent to saying that the office could not be better filled. The News and Twin Falls will be for Miss Chamberlain.

ADVERTISED LETTER LIST

List of letters remaining unclaimed in the postoffice at Twin Falls, Idaho, for the fortnight ending February 23, 1906:

BUHL STORE OPENS TOMORROW

F. W. Eickhoff Has Purchased a Large
Stock of Goods.

F. W. Eickhoff has returned from the east, where he bought a large stock of goods for his store in Buhl. He already has 16,000 pounds of general merchandise and drugs at the Twin Falls depot ready for transfer to the building town at the west end. Mr. Eickhoff went to Buhl yesterday and he expects to open his store, which will be known as "The Postoffice Store," tomorrow.

The Buhl postoffice is now open and is already doing a thriving business. G. H. Erdmann carries the mail to Buhl and Ellor every Monday, Wednesday and Friday. The service will be made daily so soon as "business" warrants.

Landseekers by the score are heading for Buhl—and a considerable amount of land has been filed upon during the week.

GREEN HILLSIDES AT CLEAR LAKE

GRASS IS BEGINNING TO SHOW
ON THE RANGE.

School, Which Was Closed Last Autumn on Account of Prevailing Sickness, Is Reopened—Term Will Now Be Finished.

CLEAR LAKE, Feb. 25. Grass is beginning to show and the south side hills present a nice green appearance. A. G. Madolema made a trip to Shoshone last week on business.

George M. Lamb went to Hagerman last week for supplies.

Mr. and Mrs. T. W. Snodgrass were visitors in the Sunnyside district on Sunday.

Mrs. S. F. P. Briggs has been on the sick list for the past week.

School commenced here today and the term will be finished. The school was closed last autumn on account of sickness.

GIFT OF IDAHO ENTHUSIAST

New Pear Named After the White House Bride.

The Pittsburg Post published a pretty little story about the fruit for Miss Roosevelt's wedding breakfast, in which it made the "feature place" of that affair, the "Princess Alice" pear, "one of the rarest fruits in the world." It is, the product, says the Post, of budding a Bartlett pear on a Peaberry pear bush, and is the work of an Idaho enthusiast. H. C. Frick, the Pittsburg millionaire, who is given the credit for having the finest private conservatories and hothouses in the United States, is said to control the output of this wonderful cross, which last year amounted to a couple of hundred pears. The fruit was sent to Washington in a specially made box, contrived from a piece of pear tree trunk 8 inches deep and 18 inches long, and is supposed to have been the star attraction.

So it seems that Idaho is credited with another remarkable fruit, and with being the home of an enthusiast of the Luther Burbank type. Great is Idaho—the Gem of the Mountains—Gem State Rural.

A spin's wife was telling the story of her courting days. She said: "When Barney and me was first engaged he wanted to give me a present, though I didn't want nothing. He thought to give me a ring with a stone in it, but I had a ring, and told him if he was bound to give me anything, he'd better get something for my neck. He did, too; he got me a cake of soap."

A Harvard professor, dining at the Parker house, Boston, ordered a bottle of hock, saying as he did so: "Hock—hock—being me a bottle of hock—hic, haec, hoc."

The waiter, who had been to college, smiled, but never stirred. "What are you standing there for?" exclaimed the professor. "Didn't I order some hock?"

"Yes, sir," said the waiter, "you ordered it, but you afterwards declined it."

Call, write or phone; we will do the rest. Twin Falls Pressing club.

See those swell spring and summer samples in yard lengths at the office of the Twin Falls Tailoring Co., Perrine Hotel block.

A Chinaman, wearing his finest suit of silk, called at a house where he happened to disturb a rat, which was reclining itself out of a jar of oil standing on a beam over the door. In his sudden flight the rat upset the oil over the luckless visitor, ruining his fine raiment. While the man was kitting pale with rage his host appeared, and after the customary greetings the visitor accounted for his appearance in this wise: "As I was, entering your honorable dwelling I frightened your honorable rat; while it was trying to escape it upset your honorable jar of oil over my poor and insignificant clothing. This explains the contemptible condition in which I find myself to your honorable presence."

For Sale.

One disk plow, one disk harrow. Inquire of Mrs. D. F. Clark, two miles east of town.
