

TWIN FALLS NEWS

VOLUME II.

TWIN FALLS, IDAHO, FRIDAY, APRIL 27, 1906.

NUMBER 27

NEW WATER SUPPLY IS PROMISED IN 90 DAYS

Waterworks Company Secures Right of Way Along the Center Line of Sections 21, 28 and 33 to the Low Line Canal Directly South and a Little More Than Two Miles From City, Where Reservoirs and Filtration Works Are to Be Built.

The Twin Falls Waterworks company has secured right-of-way and made surveys for a pipe line which will convey water for domestic purposes from the low line canal at a point in section 33, a little over two miles directly south of the city, and within 90 days the new supply will be available. The plan includes the construction of two reservoirs with filtering works on section 33, close to the place where the canal will be tapped. The company was prompted to take this action because of the sanitary condition of Rock creek, which, when the new pipe line is completed, will be abandoned as a source of supply. This will insure an abundant supply of pure water and furnish a good pressure for fire purposes.

The new pipe line, which will be eight to 10 inches in diameter, will follow the center line through sections 21, 28 and 33, straight south from the middle of the townsite. It will be laid at a depth of three feet and the total fall will be in excess of 150 feet. The water will be drawn into a reservoir 100 feet in diameter and 10 feet deep. From this it will be filtered into a second reservoir of the same size. The filtering process will include aeration and purification. The second reservoir will be constructed of cement and it is probable that cement lining will be provided for the first also. The total cost of the improvement will exceed \$10,000.

"I will guarantee that water from the low line canal will be delivered in Twin Falls within 60 days after the material arrives," said Superintendent Ramsay. "It will not take very long to get the material here, and I feel safe in saying that the new supply will be available some time in July. We will hasten the work all we possibly can. Our new standpipe will be useless after the pipe line is completed. I fear, but we may be able to use it for storage purposes. With a fall of over 150 feet there will be abundant pressure for fire purposes. All that will be necessary is the installation of fire hydrants and a supply of hose with apparatus for handling it. This will be forthcoming, and when a volunteer fire department is organized Twin Falls will be well equipped in the matter of fire protection. Beginning at the second reservoir on section 33 we will use 10-inch pipe for about a mile and complete the line with eight-inch pipe to connect with the city system. We now have nearly three miles of new wooden main pipe in the city and we cannot keep pace

with the demand. The city is growing too fast. However, we are doing the best we can to keep up with the procession, and after the first of August Rock creek water will no longer be a fashionable beverage."

KIMBERLY BANK IS ORGANIZED

Stockgrowers Mercantile Co. Sells Kimberly Store. KIMBERLY, April 25.—The Kimberly bank was organized here last Monday evening as a state bank with a capital of \$10,000. The directors are H. T. West, A. D. Norton, W. H. Turner, W. Webster, H. Jones, T. Neel, Scott, J. W. Perry and Horace Neal. The first three named are president, vice president and cashier respectively. J. W. Perry is connected with the National Bank of Commerce of St. Louis, the largest bank in that city. Horace Neal is cashier of the Capital State bank of Boise. W. H. Turner comes highly recommended from Indian Territory, and under his supervision the bank is bound to be a success. The rest of the directors are local people and are well and favorably known on the tract.

Mr. and Mrs. Madison Fisher have moved onto the Perrine ranch north of town, which they will have charge of this summer. J. A. Schiffman and family have sold their land south of town. We are sorry to lose them from our midst, though they will not leave the tract. Several houses are in the course of construction in the townsite and others are being planned.

Rev. Schenck and Rev. Osterhout, both of Twin Falls, held services here Sunday that were well attended. Rev. Silas Perkins of the Presbyterian church of Coward, Idaho, but now a resident of Kimberly, will preach next Sunday afternoon at 3 p. m. A large attendance is desired.

The Kimberly store of the Stockgrowers Mercantile Co. was sold this Saturday that were well attended. The new company will take charge next week. The new name of the store has not yet been decided upon. Edward F. Tucker, the retiring manager and the postmaster of Kimberly, will, it is reported, assume charge of another store which the Stockgrowers will shortly open in a new town.

The third carload of trees for Kimberly arrived Tuesday and the farmers are now busily engaged putting out their orchards. G. H. Johnson will plant his commercial apple orchard of 2,000 trees. Several Kimberly people attended the I. O. O. F. dance in Twin Falls Thursday night and spent a very enjoyable evening there. George Moore will leave Saturday for Nampa, where he will be employed in the wheat sugar factory being erected there.

Fred Gooding of Shoshone spent Monday and Tuesday in Kimberly. Recent Twin Falls visitors include Mesdames Gale, Lewis, Zimmerman, Miss Stratton, Messrs. Tucker, Prothro, McMillan and Clippinger.

LOOKS ENCOURAGING.

The Chicago & Northwestern railroad has applied to the department of agriculture for permission to build along Buffalo creek in the Teton forest reserve just south of Yellowstone park and extending its line into Idaho. The formal notice of the application has been received by Zeph Jones, supervisor of the Teton reserve. This is further proof of the known fact that the Northwestern is going to build into Idaho at once and will not stop at Yellowstone park. The question is: Where will the road go from Fremont county? It unquestionably will extend to St. Anthony and other cities in that county, and will then turn northward, nor can it turn northward. Roads are not usually built through unprofitable territory and the Northwestern will build to tonnage. It might be well for the people in this part of the state to get busy and offer the Northwestern some inducement to come this way.

CONTEST DECISIONS.

The state land board has decided the contest cases of J. G. Crutcher vs. J. O. Hulse, J. B. Kelly vs. Joseph L. Hulse and Reed Fryar vs. John H. Hulse in favor of the Hulse brothers, the entrymen. In accordance with its consistent policy of giving the Twin Falls settlers a square deal and the benefit of all doubt in cases where misunderstandings arose through mis-constructing of the rules. The Hulse brothers, who are prominent and popular young citizens of Twin Falls, assigned from a notice they filed in the papers that all entrymen west of Rock creek had been granted six months' leave of absence. This was true, in a measure, but it was necessary to make individual application for leave, which they omitted to do. The board held that they had shown good faith and were entitled to hold their lands. In the case of D. B. Pettijohn vs. John F. Kloman the board decided in favor of Mr. Pettijohn, holding that the evidence proved abandonment on the part of the contestant.

CELEBRATION BY THE ODD FELLOWS

LOCAL LODGE ENTERTAINS LARGE NUMBER OF VISITORS.

Guests Accompanied by Shoshone Band—Past Grand Frank Martin De-livers the Address of the Day to Large Audience at Skating Rink.

The Odd Fellows were in undisputed possession of Twin Falls yesterday afternoon and evening. They were the most genial and lovable conquerors imaginable. With them came the Silver-Cornet band of Shoshone, the second band to awake the echoes of the Rock creek canyon. A number of prominent citizens of Shoshone, including Mr. Werneke, Mr. Walters and Mr. Starrh were among the visitors.

The band headed the procession which traversed the principal streets of the city, winding up at the skating rink, where the afternoon program was carried out. It opened with a song by the lodge members, which was given with vim, fervor and good tone. Messrs. Sterer, Barber, Thomas and Cole sang a lodge song in good voice, and well phrased.

The address of welcome was delivered by C. D. Thomas. It was brief, eloquent and cordial and was received with loud applause. Fred Nihart's response was equally well conceived and delivered.

The address of the day by Past Grand Frank Martin of Boise was a masterly review of the history of Odd Fellowship since the inception of the order. The splendid work the order has accomplished was concisely and eloquently detailed by Mr. Martin, who was frequently interrupted with applause.

Miss Hawk, the young daughter of Mr. and Mrs. C. W. Hawk, recited

"When Papt Rode the Goat" in a manner that brought roars of laughter from the large crowd. It was a very clever effort for a child of her years and everybody spoke of it as among the best things they had heard.

A duet by Miss Dyer and Mr. Evans reminded the visitors that Twin Falls has a wealth of good musical talent and won unqualified applause. It was followed by a mixed quartet, "America." The names of the singers was not announced but the quartet was none the less meritorious and deserving of the hearty applause it received.

Noble Grand C. W. Hawk of the Twin Falls lodge closed the program with a few appropriate remarks full of good sense and hospitality and worthy of long remembrance.

In the evening the skating rink was packed with merry dancers, the attendance being limited to the capacity of the building. The weather was perfect and the music could not be exceeded.

FORMER EARTHQUAKE HORRORS

More Than 1,000,000 Were Killed in Past Disasters.

Notable earthquakes, with consequent disaster, have occurred as follows:

Place	Date	Fatilities
Juden	51D.C.	10,000

SEWER SYSTEM FOR CITY OF TWIN FALLS

T. A. Perkins, the Engineer Who Planned the Excellent System in Ogden, is Here Gathering Data—Will Present Plans as Soon as Possible—Probability That Main Will Begin at Low Point in City Park Square and Run Westward Into Rock Creek.

T. A. Perkins, an engineer of wide experience in the construction of sewer systems, is in the city on invitation of the Commercial club and the Land & Water company for the purpose of preparing plans for the most economical, effective and expeditious system it is possible to build in Twin Falls. Surveys are now being made and when Mr. Perkins is in possession of the necessary data he will submit his plans without delay. The Commercial club and the village trustees are very much in earnest regarding the construction of a sewer system and no time will be wasted. Arrangements for placing the sewer bonds have already been informally made and all that is necessary is legal ratification by the taxpayers. Not the slightest opposition to a sewer system has been made. In fact, the property owners are unanimously in favor of its immediate construction.

While it is rather early to make predictions, it is probable that a point in the public park, the lowest spot in the city, will be selected as the base of operations and the branch mains will radiate from this point. The main sewer will likely run in a westerly or northwesterly direction to Rock creek. It is possible to drain the entire townsite to the low spot in the park at very moderate cost.

Some objections have been raised to the use of Rock creek as a sewer vent but as there are very few farms below the point where the sewer main will empty it is believed that satisfactory arrangements may be made. The farmers do not use creek water for domestic purposes—in fact, they cannot do so without filtration and then only at grave risk. With proper treatment and good flushing, the presence of sewage in the creek would scarcely be detected. The sewage would all reach the creek in liquid form and as there is always a good flow of water with a speedy current no ill effects are anticipated.

The intention is to build a system which will answer the purposes of a city, many times the size of Twin Falls and obviate the necessity of enlargement for years to come. There are many ways in which this can be done and the most efficacious will be selected. In the city of Ogden, where conditions were not nearly so favorable as they are in Twin Falls, Mr. Perkins devised one of the best sewer systems in the west. This system has given perfect satisfaction from the beginning. Mr. Perkins takes a personal interest in Twin Falls, being one of the

first engineers on the tract. He located the major portion of the main canal for the Land & Water company. He was surprised to find that the city had made such strides and he said it would afford him great pleasure to give Twin Falls the best sewer system possible.

ANNEX FOR THE HOTEL PERRINE

WORK HAS COMMENCED ON THE SECOND ADDITION.

Will Provide New Kitchen, Serving Room, Cold Storage and a Number of Bedrooms, Bathroom and Private Dining Room.

Work has commenced on the Hotel Perrine annex. Ordinarily there would be nothing startling in a statement of this kind, but in the present instance it means something to those who are interested in Twin Falls. It is less than six months since the big hotel was opened and although many wiseacres predicted that the hotel was much too large for a young city like Twin Falls, one annex was added in three months and a second annex is now found necessary. The upper story of the new Babcock building next to the hotel has been divided into bedrooms which have been furnished and provided with electric light and are now in use.

The new annex, which is being built of cement blocks similar to those used in the construction of the main building, will be two stories in height and will occupy a ground space 25x42 feet with basement. The ground floor will be used as a kitchen and serving room, affording much needed room in those departments. The present kitchen and serving room will be transformed into a private dining room. The storage room in the rear of the new kitchen will enable the management to keep well stocked with poultry and vegetables. The annex will join the rear of the present kitchen and a portion of the dining room, into which it will open.

On the upper floor there will be four large bedrooms and a bathroom, with toilet.

J. P. Harrah is now at work on the excavation for the basement. The cement blocks to be used in construction are being made by Roberts & Oughton. The work will be rushed with all possible speed.

ECHOES FROM THE SAN FRANCISCO DISASTER

Thrilling and Grievous Stories of Incidents Connected with the calamity Which Destroyed the Principal City on the Coast—Law and Order Being Maintained and Homeless Sheltered and Fed—City Will Be Rebuilt Upon Grander Lines Than Ever—Help Coming From All Quarters.

The San Francisco authorities are still unable to furnish an authentic list of the dead as the result of the earthquake nor can they tell approximately how many perished. On this point the observations of a confidential engineer...

bread at the regular price of 5 cents a loaf. Grateful to Idaho. Gov. Goelling has received the following telegram from Mayor Schmitz of San Francisco...

Returning Business. There was a resumption of business to an astonishing extent on Wednesday throughout the residence section of San Francisco...

Many Weddings Among Homeless. Weddings in great number have resulted from the recent disaster. Women from out of the homes and left destitute have appealed to the men to whom they were engaged...

Another Shock. At 3:15 on Wednesday afternoon a shock of earthquake was felt. It lasted nearly a minute and caused considerable alarm. One woman was killed. A number of walls of burned buildings...

Governor Chamberlain of Oregon has sent the following telegram to Governor Gurnee of California. "Many children and some babies are coming through here unaccompanied and unaccompanied by anyone, cared for only by strangers. Can they not be kept together for subsequent identification?"

Grand Total of Relief Fund. New York City's San Francisco contributions up to Wednesday morning amounted to over \$2,000,000. The amount of the whole country exceeds \$20,000,000. The Empress of China has sent \$50,000 to the legation at Washington...

World's Most Beautiful City. Steps are being taken to organize a movement for the rebuilding of San Francisco on the plans of Architect Daniel Burnham. While the various other committees have been busy with relief work, many prominent citizens have been in consultation and within the next few days plans will be outlined...

Where to Send Donations. In a proclamation issued on Wednesday President Roosevelt urged the American people now to send their contributions for the alleviation of the distress in San Francisco directly to former Mayor James D. Phelan, chairman of the finance committee in San Francisco...

Number of People Fed. An idea of the Titanic task which confronts the citizens' food committee may be gained from the figures of the number of hungry people fed on Tuesday. Throughout the city 34,410 people were distributed.

For Sale. Shade trees, 4 to 12 feet. Weeping Birch, 4 to 6 feet. Russian Mulberry, 4 to 8 feet. White Pine, 4 to 8 feet. Apple, 4 to 8 feet. Fruit trees, 3 to 6 feet. Berry Bushes. Grape Vines. Flower Plants. Roses, Shrubs, etc. For prices write to H. G. MONCE, NAMP, IDAHO.

National Irrigation Congress.

The National Irrigation Congress, to be held in Boise next September, will be worth \$25 an acre to lands under the canal systems of the state, was the remark of Sign. Fred J. Kolstad of Ogden last week. That may seem a broad statement, but watch and see. It will certainly advertise—the state immediately an excellent way to call attention to the vastness of your water supply and the productive capacity of your soils.

Land Notice.

United States Land Office. Notice is hereby given that the state of Idaho has filed in this office the following list of lands, to-wit:

SAN FRANCISCO.

San Francisco, the most picturesque and cosmopolitan city in the United States, is in ashes. It will be rebuilt with California money, but it will never be the same old San Francisco, so dear to the heart of the Native Son.

A year ago last July Wilson Bowley purchased 100 acres of land on the Twin Falls tract. Up to date it has cost him \$6500 an acre and he has just received \$27,500.

For Sale—Thoroughly modern Zion city, litigation attachments, second hand farm, etc. Owner has no further use for property.

toward assisting the victims and level-headed men are now engaged in the heroic task of restoring order and relieving the suffering.

It has ever been so with Americans. To them charity is something more than a mere word. To them it spolia civilization, Christianity and progress.

The socialist who fought under the red flag in the heart of San Francisco a few days ago are receiving the same consideration as the capitalists whom they hate.

A year ago last July Wilson Bowley purchased 100 acres of land on the Twin Falls tract. Up to date it has cost him \$6500 an acre and he has just received \$27,500.

For Sale—Thoroughly modern Zion city, litigation attachments, second hand farm, etc. Owner has no further use for property.

FORMER DISASTERS IN CALIFORNIA METROPOLIS

1849—Big fire. 1851—Two more big fires. 1868—The earthquake killed.

The first cable car in the world was commissioned in San Francisco. These cars have since been largely superseded by the trolley, but they have been important factors in solving the transportation problem.

For 40 years previous to its destruction last week the Tivoli opera house had only been dark four nights.

California, and particularly San Francisco, was the first to recognize Mark Twain and Bert Harris.

Stanford and Berkeley, two of the most lavishly equipped universities in the world, were built by Californians with California money.

CIVILIZATION.

Considering the financial loss with the loss of life, the earthquake which has just visited California is the greatest calamity of the kind in American history.

ing the different sorts. Seasons differ. It may be warmer one year on the first of April than it is two weeks later.

EVOLUTION OF THE HARVESTER

Various Devices Used by the Ancients to Garner Grain. The first implement was used among the ancient Jews, and in Great Britain was called reaping hook.

The important parts are the cutting apparatus, gathering device, platform, carriers or rakes for elevating, or discharging the grain, and a device for separating the swath to be cut from the grain.

In 1786 Pitt made the first English reaping machine which was brought to America by James O'Leary in 1826.

In February, 1836, a patent called the modern self-feeding reaper was invented by Cyrus McCormick.

THE FARMER TO BLAME

If His Land Suffers From Drought or Lack Water for Irrigating When Small Stream is Near by, Says Robert Washburn.

"It is the farmer's own fault, in these days of scientific discovery, he does not reap all the returns he should from his land."

"It is the farmer's own fault, in these days of scientific discovery, he does not reap all the returns he should from his land."

Recorder.

BREVITIES

The county commissioners have appointed City Marshal Dyer constable of the Twin Falls precinct.

E. B. Brotherton of Denver has purchased George Bernard's barber shop on Main street and is remodeling and improving the rooms.

Savannah Day Adventist services each Sabbath at 3 o'clock p. m. at stone house, three blocks north of Pacific hotel, same street. All are welcome.

Preaching at the old school house Sunday, April 29, at 11 a. m. and 8 p. m. by J. H. Schlock, pastor of the Baptist church. Sunday school at 12 m. All are invited to come and worship with us.

General Manager R. W. Faris of the Grand and Water company left yesterday for Osnawa, Iowa, where Faris & Fetz have a big drainage contract. The largest dredge ever constructed in America was built especially for this contract, which involves the dredging of a large area of valuable farm land.

I would have greatly liked to have visited the Twin Falls tract, but will hardly have time on this trip. And indeed, the Twin Falls tract needs no "boasting" from me or anyone else; people are going wild over it as it is. It is a grand thing to have an agent of the Harriman system, in an interview.

Collections for the Shoshone avenue viaduct fund have commenced. F. C. Smith being the first to contribute. Bills of lading for two carloads of the bridge material have arrived and the timbers will all be here. It is expected by the time the foundations are ready. It is in order now to do something toward opening up the roads on the south side of Rock creek.

The Knights of Pythias of Twin Falls are preparing for a grand regatta which will be held in the local lake. An institution, Grand Chancellor R. G. Spaulding, Arch Cunningham and a number of Boise brethren will be present and an elaborate program of entertainment is in course of preparation. The Twin Falls lodge will be instituted with an exceptionally large membership and in conditions which promise well for the future.

A special meeting of the Commercial club held in the office of McCracken & Co. on Wednesday evening for the purpose of organizing a volunteer fire department. Those who attended were either fire-fighters or men with the machine. A plan was decided to round up the young bucks next Monday night and perfect organization. Hugh Austermeyer was assigned the task of getting the boys together and it is hoped that a first-class volunteer department will be organized. The plan is to have the city furnish the apparatus which will be placed in competent volunteer hands.

Mr. Burnett lost one of his best driving horses of the type which is peculiar and spectacular manner. The animal was taken suddenly ill and broke out of the stable, racing madly down toward the horse lot, where it struck the window, snapping the plate glass to atoms. Back to the stable galloped the crazed animal and smashed through a window which stood in the way. Wheeling about, the horse started for the street again but only gone a few feet when it dropped dead. Jim does not think the horse was shocked to death at the sight of his new bus.

Allen T. Mulkey of Walla Walla is putting up a large frame building on the lot next to the old postoffice on Twelfth avenue for Berry & Swanwick. The new building will be ready to house their present quarters too cramped and wishing to put in a thoroughly up to date plant they decided to secure spacious quarters. They intend to make their shop one of the best in the state and they will carry a large stock of high grade material. Happened as they are for a number of recent years they have done for any kind of work in their line and are kept very busy.

The new omnibus for the Shoshone falls state line has arrived at Burnett's and has been placed in commission. It is a beauty. Eight passengers can easily be accommodated and the stage will make regular trips to the falls. The Hotel Perrine bus is also ready. Many of the employees of the Snake River Implement company, through which the order was placed, smiled blandly when asked about the vehicle and adroitly changed the subject. It is unsafe to mention bus to Burnett. It is reported that the vehicles have been en route since last August.

The finest appearing house on Coeur d'Alene ridge is that of Jacob Lockman. This might naturally be expected of Mr. Lockman, who does everything in proper style, but it came about in a peculiar manner. So the gentlemen from the north declare. It appears, so the story goes, that Mr. Lockman concluded that he was too old to engage in speculative farming so he decided to build a brewery in Nampano, a small cattle town in addition to his father-in-law, John Graf, he sent plans for a house to be built on other Twin Falls farm. Somehow or other the plans were lost and Mr. Lockman received plans for a brewery instead. At least that was the conclusion reached by Jake's friends, so they con- sidered it his misfortune to have the residence and Judge McKinlay prepared the plans. The design selected is of the Etruscan, with a touch of Corinthian and a dash of Decore. It is so beautiful and so complete that it has been frequently mistaken for the Bull hotel. All Jake has to do is to increase the price of beer and as the Nampano people are a little more mind a triffler like that. It is said that Jake has offered to give the farm to anyone who will pay for the house or give half interest to the person who will pay for the paint.

The Catholic Ladies' Aid society will meet at the home of Mrs. Channel on Wednesday, May 2, at 2 p. m. Friends are cordially invited to come and bring their tributes.

M. Johnson has rented a building on lower Main street, next to Rathbun's food store, and has moved his hand laundry. Mr. Johnson is an expert in the business and is doing right after the trade.

J. B. Perrine has kindly tendered the use of his beautiful grounds at Blue Lakes to the former residents of Illinois for a basket picnic to be held there Sunday, May 5, at 10 o'clock. The organization of an Illinois association will be completed.

The Episcopal ladies guild will be held on next Tuesday afternoon, May 1, at 3 p. m. in the parlor of the Hotel Perrine, with Mrs. Williams and Mesdames F. J. Sprague and Mesdames J. W. and J. C. All Twin Falls ladies are cordially invited.

Y. M. C. A. meeting. Christian church, Sunday afternoon, 4 o'clock prompt. Good literary program, special music. Ladies and gentlemen welcome. Program for Sunday, April 29: Reading, selected, Jack White; address, Rev. Armstrong; vocal solo, Mr. Evans. All are cordially invited to attend.

H. H. Seebeck returned from New York on Sunday, accompanied by Mrs. Seebeck, Mrs. E. E. Seebeck, Mrs. Herbert and Helen. Herbert, who is an enterprising young athlete of 14 years, decided to spend his vacation in the mountains. He is a member of the manufacturing company, and Bob Steele declares the young hustler is going to develop into a first class mechanical engineer. Mr. Seebeck is very much pleased with Twin Falls and it is quite safe to talk of dust in his presence.

The Twin Falls investment company is building an office 20x22 feet, on the lot next to the Bull hotel. George Evelyn will have charge of this office and will conduct the sale of lands and lots in the Bull hotel. The company's purchasers who may desire to remain on the west end. The demand for Bull property shows no signs of waning and there is an increasing inquiry for farm land.

The first of a series of shoots for a trophy to be given to the member making the best weekly average and participating in at least 60 per cent of the meets between now and June 15 was held on the 10th and Gule club grounds last Sunday. C. L. Parsons and Harry Allen tied with 23 out of 25 targets. Captain Pete Holohan broke 24 but he declared himself out of the competition for the reason that the other members are lacking in experience and practice and he wants them to have all the fun to themselves. Parsons and Allen both shot at new Remington trap ejector and did splendid work.

Mr. and Mrs. R. M. McCollum and Miss McCollum have gone to Bull to make final proof on Mr. McCollum's farm which adjoins the Bull townsite. Gibby, the family fox terrier, is on the farm. The McCollum's farm is already cleared and most of it is seeded. He will cultivate every acre this year. He has been looking for a man to help him grubbing by proxy and his potato planting by absent treatment. His principal occupation will be shooting jack rabbits. The new tractor has been secured and will visit to the McCollum farm next month.

Judge A. D. McKinlay of Coeur d'Alene ridge nearly lost his eyesight looking for a tenant for Mill Eloh's farm. By an eyelash he secured a contract with W. W. Young, who has been in the business for many years so accustomed to keeping his eyes open for a prospective tenant that he failed to close them while exploring the roof of his barn for a snag. In toasting things, around he disclosed a bale of alfalfa which lodged in his right eye. Dr. Boyd cut him to make him see the knot which was sold for a sum sufficient to pay for the operation. The judge is still wearing smoked glasses.

J. M. Campbell, proprietor of the Capital nursery, died in Boise a few days ago after a long illness. Mr. Campbell was a lovable man, fondly remembered by all who knew him. In Twin Falls last autumn he traveled all over the tract, meeting the new settlers and giving them wholesome advice about tree planting and the best methods of irrigation, water supply and irrigation and a general Christian gentleman. Mr. Campbell was a member of the Boise school board and during his stay in Twin Falls last year he assisted the local board in forming plans. The news of his death will be received with keen regret by those who enjoyed the honor of his acquaintance. Mr. Campbell's nursery business will be carried on by his son, J. M. Campbell, who is thoroughly conversant with the business. He has been working with his father for years.

"Cramped for quarters" is getting to be such a common expression in Twin Falls that nobody pays much attention to it except those who suffer from it. The Pioneer Storage & Commission company recently and each spasm has resulted in the erection of a new building of some such make. The company has built a small building which is now ready for occupancy. It is absolutely necessary to have an uptown store and being unable to wait until its own building is completed, the company has secured the building now occupied by Mr. Pat and is replacing the front with a better one. There it will put in a stock of general hardware and a full line of hardware in addition to his hay, grain, seeds, implements, Scheutler wagons, bearing horse-drawn machinery, etc. The company will also handle all kinds of hardware. The store will be in charge of William F. Shefel, who has had long experience in the hardware and implement trade. He has secured the building to carry a large block of stock in the company.

That Good Nut Coal
Just the thing for the kitchen range. We have a supply on hand, also a supply of
"Peacock" Rock Springs Coal
The best quality of fuel at the right price.

The Twin Falls public schools closed yesterday and will not reopen until September on the new school building will be ready. Next Tuesday, May 2, the board of trustees will select eight teachers for the fall term. The remaining teachers will not be engaged until autumn.

Dr. D. Brown Lewers has arrived from Boise and has rented a new cottage on Shoshone avenue and will open a temporary office there until his rooms are ready, which will be in about three weeks.

C. A. Leeper, who stopped over with his family in Twin Falls a short time ago while on his way home from Colorado, died at his residence in Lewiston, Idaho, this week. Mr. Leeper was one of the best known and highly respected men in Nez Perce county. It is with intention to make his home in Twin Falls, having secured a splendid farm south of the city.

L. A. Trowbridge and R. D. Manson of Lewiston, Idaho, have secured a firm which financed the Twin Falls reorganization deal, left for Chicago on Monday after visiting here for several days. They were exceedingly well satisfied with the appearance of the tract and the manner in which land is being taken up and improved.

Mr. Musgrave, a well known watchmaker and jeweler of Boulder, Colorado, has arrived in Twin Falls with his family and household effects and is looking for a location. Mr. Musgrave brought his safe and equipment with him. He heard that Twin Falls was a live town for an up-to-date business man and he lost no time in coming here.

A. D. Crandall has returned from a tour of Washington, where he induced a large number of settlers to take up land under the Twin Falls rental system. In all 41 settlers came here by the strength of Mr. Crandall's representations, and all of them secured farms. Several more will be here shortly. Mr. Crandall secured a special homesteaders' rate from Portland to Twin Falls and organized two parties which are now en route.

Joe Butler has returned to Twin Falls and there is rejoicing in the ranks of the "Homeless Twenty." During his six months' absence he has tried his luck in San Francisco and other metropolitan cities but none of them was fast enough to suit him so he concluded to come home. He has secured a new home and is now in the process of moving. He has secured a new home and is now in the process of moving. He has secured a new home and is now in the process of moving. He has secured a new home and is now in the process of moving.

PHARMACEUTICAL CHEMISTS
C. C. Bedford, Mgr. Twin Falls, Idaho

S. T. HAMILTON & CO. call attention to the plating of M. B. DeLong's farm into 5-acre tracts. These tracts are now on sale at prices and terms which are attracting great interest on the part of investors. Watch this space next week for a photograph of the beautiful residence to be given away when all tracts have been sold. This property adjoins the city and is ideal for rural homes.

Right at home—forest, fruit, small fruit, shrubbery. We take contracts for planting orchards or forest, woods, firs. Write for details. J. E. STEINOUR, Murtaugh.

Meeting Notice: The meeting of the ladies of the Twin Falls school district that was called by the superintendent of agriculture for April 18, for the purpose of organizing an improvement society, has been deferred until April 30, 3 p. m., at the same place—the office of the superintendent of agriculture. Signed by the Committee.

For Sale: Two large work teams, harness and wagon for sale. Apply to J. M. Bennett, blacksmith shop.

All men interested in the bulle ring room are requested to meet at the Y. M. C. A. reading room, Tuesday evening, May 1. All members of the Y. M. C. A. and all business men are cordially requested to be present as matters of vital importance will come before the association. JACK W. WHITE, Temporary Secretary.

Cut flowers at Booth's each Friday.

Rangers' Examinations: Examinations for positions as forest rangers in the government forest reserves will be held at Meadows on May 14 and Potlatch and Kooekia on May 14 and Bolau on May 15. On May 14 supervisors' examinations will be held in all the larger cities. Application blanks may be obtained from Peter T. Wrenstedt, forest supervisor, Pocatello and Cassia forest reserves, Pocatello, Idaho.

For Sale or Exchange: Two good 5-room houses and lots, which I wish to sell for cash or on payments, or will exchange for land. For particulars see GEO. D. WISELEY at Pioneer Storage & Com. Co. Warehouse, near depot.

Eldridge Clothing & Tailoring Co. A ground of gray. Just a dash of color, in over plaid, line or sprinkling. That's the best mixture for this dusty country. But the thing to brag about in our new two-piece suits is the value one gets for the money—\$8 and \$10. That's the rule with everything we sell—Clothing, Furnishings, Hats and Shoes. For men and boys.

Land Leases: Those who desire to lease land under the Twin Falls canal system and those who have land which they desire to lease, communicate with Alex. McPherson, superintendent of agriculture, Twin Falls, stating terms.

Lost: Elk tooth watch chain, engraved, D. J. H. No. 331. Reward if returned to News office.

On the Bull road, large double suit of furniture and household goods, returned to Frederick H. Brown, Hotel Perrine. Perrine & Burton have received a carload of Early Ohio, Pearl and Rural New York potatoes from the celebrated Greeley district in Colorado. These varieties are the best for irrigated land.

Ticket Office, 51 East Broadway. Butte, Montana

Y. M. C. A. DEPARTMENT.

(Conducted by the Secretary.)
 The secretary is negotiating with the Y. M. C. A. state and international officers of Portland, Oregon and New York City with the view of getting a general secretary to come here and take full charge of the work, who will devote his entire time to building up and developing the Y. M. C. A. work. These men are maintained by the state and international organizations, and whenever a city can make a strong appeal to the Y. M. C. A. secretary to come here and take full charge of the work, who will devote his entire time to building up and developing the Y. M. C. A. work. These men are maintained by the state and international organizations, and whenever a city can make a strong appeal to the Y. M. C. A. secretary to come here and take full charge of the work, who will devote his entire time to building up and developing the Y. M. C. A. work.

It was not intended at the beginning to be able to make the Y. M. C. A. all that it ought to be under the temporary organization. It was hoped, however, to demonstrate the feasibility of an association here, and to open a public reading room where those so inclined might find the privilege of spending their spare time in clean, wholesome entertainment. This has been accomplished. Current magazines and newspapers are constantly on the reading tables. Over 300 books are on the book shelves. Scores of men visit the room daily. There are some who are carefully reading some of the best books, and who are not permitted to take them from the room (this not being possible at present) they can be found at the room nearly every evening. There are many who peruse the daily papers at the room and who would not miss this opportunity.

This alone, then, is sufficient reason why every one interested should take courage and put forth redoubled effort to make the institution a grand success. Before God's footstool to confess. A poor soul knelt and bowed his head; "I failed," he cried. The Master said: "Thou didst thy best—that is success."
 —Henry Coyle in Success Magazine.
 The above words ought to be an inspiration to all who have made an honest effort in life. I have always contended that success is not attained to some honored position within the gift of the people, nor being numbered among those who have amassed fabulous sums of money, but simply doing one's best in whatever avocation he may be engaged. And the man who spends a lifetime serving the public in the capacity of a street cleaner or chimney sweeper has made as great a success as he who has served the people as president, providing that the street cleaner has done his level best. Let the Y. M. C. A. workers take renewed courage, then, and remember that if we do our best, that is success. And whether we are able to give the city a \$10,000 building or a modest reading room, if it is the best we can do, we will have done our duty, and so far as we are concerned our success will be complete.

Generally, the business men of Twin Falls have come to the support of the Y. M. C. A. in a most creditable manner. Practically all have voiced their appreciation of the work, and in some instances business men have visited the reading room, leaving reading matter, stationery, etc. When an act of this kind is done by a certain business man, it is purely a sacrificial service, for all the benefit they can hope to obtain is in the consciousness that they are helping to build up the community and develop sturdiness of character in its citizens. Most of the class of men referred to have homes of their own, hence they have no use for the reading room—their reading room is by their own fireside. There is no way in which they can receive any direct personal benefit, so their service is only for the public good. However, there are some, methinks, who do not fully appreciate what it is to be without a home—to have not a friend to whose home you may return, and partake of the milk of human kindness. The country is full of this class of people. Our little city has scores of them. Thirty industrious, ambitious men who have temporarily left home and friends to pioneer a new home in a new country. It is these men that the association is endeavoring to benefit more especially. This is another class to whom the association appeals. Those who have seen better days than they will have first their trip on the vital and essential principles of life. Those countless numbers who have in them the making of good citizens. If they only could be rounded—if the proper influences are thrown around them. It is largely this class and the young boy who is passing through the formative period that the association tries to meet real help.

The reading room is recently in receipt of over 50 volumes of books from the "City" library, which were sent through the courtesy of Hon. John D. Spencer, chairman of the board of directors of the library of the Fish city. Spencer was recently in Twin Falls, and while here visited the reading room. The work thus far accomplished at once makes it abundantly clear that the books referred to, Mr. Spencer has our sincere thanks, and we hope that when he visits the city again he will give us some more and improvement in the work.

Letters of commendation have been received from all members of Idaho's delegation congress. Both Senators, Heyburn and Dubois and Congressman French have sent reading matter from Washington. For all of this we are deeply thankful. It is a great honor for stock than cars of the Y. M. C. A. meeting Sunday. Rev.

Evans always has something good to say and he is given the closest attention.
 A feature of the program last Sunday was several selections on the phone. Messrs. Sprague & Ferry kindly loaned the instrument. While a novelty, it was thoroughly enjoyed.
 A happy selection was read by C. E. Cole yesterday.
 The employment agency has so far been the means of procuring work for many of our unemployed employees. Looking for men make their wants known at the room.

We wish to call special attention to a notice published elsewhere in this paper of a business meeting to be held Tuesday evening, May 1. Most important to every citizen of Twin Falls. Don't fail to be present.
 A family affair which will interest everyone will soon be held. If you haven't heard about the family affair, you'd better get ready.
 William S. Jones, who has a homestead under the Muddoka project, but who can't get action on his land until water is available, has been stopping at the room for several days. After having spent several evenings at the reading room, Mr. Jones felt that he owed the association something, so he cordially looked up one of the members and said he wanted to help to the extent of one dollar. The dollar was thankfully received and used to help pay the coal man.

FORMALIN FOR POTATO SCAB

Its Beneficial Uses Are Explained by Professor Henderson.
 After quite thorough trial tests with formalin, corrosive sublimate, and sulphur for potato scab, Professor L. F. Henderson, botanist of our state experiment station, has reached the conclusion that formalin is effective and safer than any of the other remedies or preventives for this disease.

He says of it: "Harmless to the touch, not injurious to the seed in stronger solutions, than recommended, and not poisonous if fed internally in small quantities and diluted."
 A pint is supposed to be enough for 50 gallons, ordinarily. He says in his treatment care was taken that each sack should be entirely immersed whenever a bushel of seed was treated. Each bushel was left in the solution for two hours, then taken out, held on the edge of the tub to drain, dried and cut to size.

Corrosive Sublimate.
 Owing to the fact that corrosive sublimate is an intense poison, Professor Henderson does not recommend it for use. It is, however, of great use in cases it should be handled with care, guarding against using the vessel in which the substance has been dissolved for any other purpose as mixing feed or putting anything in it which is intended to be used for man or beast. In his own experiments the poison was poured into warm water in a wooden tub and stirred vigorously with a half pint dissolved. The approved amount being 10 ounces sublimate to 50 gallons water. The potatoes were submerged in the solution for 24 hours, and all of the sacks was submerged also, and after leaving them from an hour and one-half to two hours, were taken out, dried, and then cut for planting.

Preparation of Land and Cultivation.
 In order to be sure the land should be in good shape. If it had plowed, then harrowed, then disked, then harrowed again, the rows were opened by a double-shovel plow, running as deep as it could be conveniently held. After the potatoes were dropped, the centers between the rows were plowed out by walking plow to two directions, throwing the dirt towards the potatoes and covering them deeply. When the weeds had made a start, about two weeks after sowing, a sickle-tooth harrow was run over the whole patch two or three times, at from 45 degrees to right angles with the rows, leveling the ground and breaking up the earth from above the seed, which by this time had sprouted. Three or four cultivations through the spring completed the attention given the patch.

For Service.
 Registered Jersey bull, "Alphonse II," sire of Laid's celebrated \$14,000 bull from the Laid stock farm, Twin Falls, Idaho, Oregon. Reference, superintendent Alex. McPherson. Terms, \$5 for season. "Jersey cows only." Inquire or address: Pioneer Storage & Commission Co., Twin Falls.

Mythic Shrine Convention, San Francisco, May 7-10—Excursion Rates.
 For the Mythic Shrine convention which will be held in San Francisco May 7-10 the Oregon Short Line will sell round trip excursion tickets April 26 to May 6 inclusive, good until July 21, with stop-over privileges within limits from Twin Falls to San Francisco via Ogden, for \$49.15. To Los Angeles, via Ogden and Southern Pacific, from Twin Falls, the round trip Twin Falls will be \$51.45; via Salt Lake and the San Pedro road, \$51.65. For further information apply to D. B. GILLIVAN, General Passenger Agent, Twin Falls.

Ditch Surveying a Speciality.
 Charles H. Mull makes a specialty of ditch surveying. He knows the ground and guarantees satisfaction. Postoffice box 250. Orders may be left at Bedford's Drug Store.

The New Cough Syrup—the one that is not a mild cathartic on the bowels. It is Kennedy's Laxative Honey and Syrup. It is a cold from the system, cuts the phlegm out of the throat, strengthens the mucous membranes of the bronchial tubes, and relieves the whooping cough, etc. Children love it.
 Just received, car of corn and one of shorts. H. C. Evans and better for stock than cars of Pioneer Storage & Commission Co.

MANY ARRIVALS AT HANSEN

Land Owners Flocking In and Improving Their Farms.

HANSEN, April 26.—D. S. Vanhook of Washington was a caller in Hanson last Wednesday.

Amos McMasters was among the east-bound passengers last Wednesday. J. T. Barnes and son J. L. spent last week at Salmon river.

Mr. and Mrs. Herold were among the Rock Creek passengers last Monday.

Mr. and Mrs. C. O. Morrell spent last Saturday and Sunday at their ranch near here.

Charles Uhden and Roy Williams were Rock Creek visitors last Saturday.

Mrs. John Simmons, who had been seriously ill, was now glad to know is convalescing.

J. H. Smith has returned to Hansen after an absence of several months spent in Washington.

J. R. Hinton arrived last Tuesday, his wife and son having preceded him a few weeks.

The Twin Falls visitors of the past few days are J. D. Morrell, A. D. P. Kell, Isaac Dwyer, John Mongor, G. D. Bunnell and F. V. Brownlee.

Mrs. E. G. Conley, who has been on the sick list the past week, we are now glad to report is recovering.

Mr. and Mrs. F. M. Towne were visitors at the home of Mr. Walters of Twin Falls last Friday and Saturday.

John L. Smith, the county assessor, has been down from Albion assessing in the Hansen district for several days past.

G. W. Taylor of Washington has returned to Hansen after an absence of the past few months. Mr. Taylor is the fortunate owner of a 120-acre ranch one mile north of here which he will extensively improve this spring.

CURRENT WORLD.

It is estimated that the eruption of Mount Vesuvius wrought damage exceeding \$20,000,000 and left 50,000 people destitute. The volcano is still spasmodically active.

President Castro, the effervescent ruler of Venezuela, has taken to the toll timber—once more. General Juan Vicente Gomez is now the chief executive of the inflammable republic. Castro's cabinet relinquished office with their chief.

The United States supreme court has advanced the hearing of the habeas corpus cases of Moyer, Haywood and Pettibone, charged with complicity in the murder of ex-Governor Steunenberg of Idaho, naming the first Tuesday in October as the date of their presentation.

Professor George Wildner, principal of the Walden, Colorado, high school, has been sued for breach of promise by Miss Florence E. Dexter of Emporia, Kansas. The case should properly be tried in Fort Collins, Colorado, but to prevent publicity it was decided to hold the trial in Walden. To meet the expense of trying the case in Walden a small admission fee will be charged. This is the first case of the kind on record.

Bookkeeping and Accounting.

An experienced bookkeeper is open for engagement. Export accountant work done. Books opened or closed. Inquire at Nowa office.

First class accommodations at Shoshone falls, the grandest sight in America. Daily stage from Burnett's.

An Ideal Stock Ranch.

400 acres, all fenced and cross fenced with good fence, three-quarters mile from town, well located on daily mail route; 260 acres in hay, positive, no waste land; plenty of free water at all times; large creek running through portion of land; a deep black loam soil, very fertile. This ranch is tributary to the best stock range in Idaho; good 7-room house, modern, painted, large barn well built, 50x60, and other outbuildings, corrals, etc.; a full equipment of machinery goes with this ranch; adjacent to a rich mining region which affords a splendid market for all produce; near good schools and church; the best bargain in Idaho; water must sell, \$17.50 per acre, on easy terms. Write Northwestern Investment Co., Ltd., Boise, Idaho.

PLANS FOR GREATER Y. M. C. A.

Business Meeting to be Held on Next Tuesday Evening.

A business meeting will be held in the Y. M. C. A. reading room next Tuesday evening, May 1, for the purpose of devising means whereby Twin Falls can secure a first class Y. M. C. A. hall and the services of a general secretary to look after the work in this territory. Such a hall is urgently needed at the present time. This need has been amply demonstrated by the patronage bestowed upon the reading room which has proved a great convenience. Those who believe in good work and clean citizenship should attend the meeting.

Checks Lost.

Lost in Twin Falls on Thursday, four checks for \$250, \$50, \$140 and \$50 drawn on McCormick & Co., Bank of Twin Falls National and First National of Portland. Return to M. F. Connor, Waverly hotel, Twin Falls, and receive reward.

For Sale or Trade.

40 acres 2 1/2 miles east of Twin Falls, 2 miles from Shoshone falls; all improved and plowed ready for crop; 6 acres in winter wheat doing nicely; 2 1/2 story frame dwelling with porch and painted; good barn with 7 stalls; good soil and easily irrigated; price reasonable. For particulars call on J. M. Bennett, blacksmith shop, 32 1/2 NE 1/4 section 14, township 10, r. 17.

Play Safe.

Have your land surveyed and your ditches located by C. H. Muil.

Potatoe Box \$30. Orders may be left at Bedford's Drug Store.

The finest appetizer in the world. A drive to Shoshone falls and a good meal at the O. K. Try it. Daily stage from Burnett's.

Don't run risks by planting inferior or unsuitable potatoes. Perrine & Burton have the best varieties grown by irrigation in the famous Greeley, Colorado, district.

Wood fence and gates, also Glidden barbed and plain wire by Pioneer Storage & Commission Co., Fifteenth avenue, near Shoshone avenue.

If you want clean, heavy oats that will mature early and yield bountifully, try the "Big Horn" variety just received by Perrine & Burton.

No smut, no scab, in your crop of wheat oats or potatoes—if you treat your seed with the Formaldehyde bought of the Bedford Drug Co. They have received a fresh supply.

If you are looking for choice seed potatoes call at Perrine & Burton's and see the favorite varieties from Greeley, Colo., which were grown on irrigated land.

The big dam only partially completed by the Bureau of Irrigation—estimated at a cost of over \$30,000 was washed out by high water last week. The dam was built of loose earth but was not high enough. A tunnel that carried a high stream of water was not large enough to carry it all, and when the flood backed up and rose to the top of the earthwork, it began pouring over it. It made short work of the big dam. Harry Watkins arrived from St. Louis last Thursday evening. He says the project has been financed by the sale of bonds, and that the work of constructing the dam and completing

DOG IN BEAR TRAP 13 DAYS

This IS POSITIVELY SHOCKING
Poor, Innocent Men Rest Under the Ban of Suspicion.

Were you at Shoshone falls last Sunday afternoon? If so, don't growl, it might hurt your reputation and if you can prove that you were not there and had no intention whatever of visiting the famous resort, do so. If you happened to wander down in the direction of the ferry you are a zone-quander. You might just as well have jumped over the falls for all the reputation you have left. If you stayed close to the hotel you rest under the suspicion of having brutal instincts coupled with streaks of yellow. And it was all caused by a defective dog collar, nothing more. Ain't it a shame?

Pastoral quiet prevailed at the falls. Little children romped on the canyon sides, gathering wild flowers. Grown people strolled around the hotel grounds and a holy hush seemed to permeate the canyon. Suddenly above the roar of the falls there came from the direction of the stable a series of short, defiant barks mingled with deep growls and snarls.

"The dog, the dog," said a shrill woman. "They are having a dog fight over there. See those men rush to it. Tight! The brutes. How dare they!" As the impossible, madame—protected one of the visitors. "I don't believe it. I'm going right down now to see if my theory is correct," and away he went with his coat tails sticking straight out behind him.

"Oh, the wretches," continued the lady, "just wait till they come back. Surely you are not going to see a dog fight at the falls. I know, that man who was looking anxiously in the direction of the stable from which another growl occasionally came.

"He? The idea. Had I known that the men I rode out with were low enough to witness a dog fight I would never have associated with them."

There was no mistaking the cause of the growls and the men grew very nervous. A prominent officer of the power company sniffed the danger and denounced his trip across to the plant because of the suspicion which might attach to it.

And in the meantime excited men were trying to pry two bulldog apartments at the stable. One dog had been

chained under a wagon and had broken his moorings. As he bore down another dog which was also chained under a wagon, the other dog likewise broke away and the troupe began. The animals wore parted unscathed and chained again. While this was going on, two other dogs were brought to the scene and their owners said there "might be something doing" if the cash was forthcoming. A dozen men put up their money and "baited" two dozen rubberneck refused to do so and a deadlock followed. The non-producers refused to go any. Somebody suggested turning the dogs loose on them. Scouts from the hotel began to arrive with warnings that the women were "wise" and forbidding there was a hegra in the direction of the hotel.

Those who wanted to see it out went down to the ferry with the dogs and crossed over to Lincoln county. When they returned the dogs were panting and wet.

This is why it was unsafe to be seen in the vicinity of the stable or the ferry at Shoshone falls last Sunday afternoon.

Mail and Passenger Stage to Buhl.—G. H. Erdman's mail and passenger stage will leave the Hotel Perrine, Twin Falls, every morning at 8 o'clock for Buhl via Filer. Returning it will leave the Buhl hotel at 1:30 p. m. For accommodations apply at the Washington stable, in rear of Washington hotel.
