TWIN FALLS, IDAHO, FRIDAY, MAY 18, 1906.

NUMBER 30

BOISE HONORS AND IS HONORED BY TWIN FALLS

Commercial Club Excursion From the Capital Proves a Glittering Success—Visitors Delighted with the Magic City and Tract and the Character of Welcome They Received—Were Surprised at Evidence of Progress and Left with Pleasant Memories.

The Boise Commercial club delegation; 75 strong, arrived in Twin Falls on Tuesday evening and left for home on Wednesday night. The train consisted of two Pullmans and a baggage car, and the passengers brought at least an additional carload of cheer and good fellowship with them. They also brought a snowstorm of mild proportions, just to lay the dust, they said.

It was the easiest kind of a party to entertain; in fact they furnished the entertainment themselves. They felt at home in Twin Falls and they just put on their slippers and took it easy. They were happy every minute and they left a splendid impression in Twin Falls. It was a representative body of men and a charming congregation of ladies.

President Frank D. Kimball, Secretary Charles M. Hill and George B. Frazer of the Twin Falls Commercial club met the party at Nampa. Nampa is a fine town, but it seems to be suffering from acute growing pains. The members of the reception committee were unable to secure rooms but they obtained a splendid view of Nampa by moonlight and thoroughly tested the chairs in the Dowsy Palace hotel office.

A number of those who intended to make the trip missed the excursion train in Boise. It was a cold, raw morning and only a few of those who were late came over on the pony express, for which the Twin Falls special was held at Nampa.

The first stop was at Mountain home, where the local band played for the entertainment of the visitors. Professor Szydowski, formerly of Twin Falls, is the band master and he has surrounded himself with a clever band of players. A number of prominent citizens greeted the delegation and the stop at Mountain home was made very pleasant.

At Glenn's Ferry the train stopped for 20 minutes. Glenn was not at home but the ferry was running, although the visitors could not see it from the station. Glenn's Ferry looked green and refreshing. All they need over there is a little Twin Falls water to make a great showing.

Lunch was eaten at Shoshone, where a stop of half an hour was made. Several of the party who got to the tables late were left behind and the train had to back up for them.

At Rupert, the next stopping place, the local band, two weeks old, ser-

naded the visitors, much to their surprise and pleasure. Nobody expected to find a band in a young town like Rupert and to find a good one at that was astonishing. The band made a hit. It is a good advertisement for Rupert and one which Twin Falls should not hesitate to copy.

"Welcome Boise," painted in letters two feet high, caught the eyes of the visitors at Heyburn. Neatly printed and cleverly designed cards bearing a brief description of the resources of Heyburn and a verse of welcome to the Boise visitors were distributed among the passengers. The cards and the sign furnished another surprise. They showed that the Heyburn citizens, like their Rupert neighbors, were wide awake and hospitable.

The visitors paraded the streets of Burley and scrutinized Major Reed's optimistic signs. They were welcomed by a committee of citizens who escorted them up town. As most of the visitors were personal friends of Major Reed, they took a great interest in Burley.

Another delegation of business men from Twin Falls met the party at Starr's ferry and scattered among the visitors to inform them regarding the tract and point out the places of interest.

An hour was spent by the visitors at the Milner dam. A chilly wind blew up the canyon but it did not prevent everyone aboard from crossing the dam and scrambling about for good view points. The visitors were amazed to find such a magnificent structure and such a vast body of water. The main canal, which is now a great, gushing river, interested them mightily and it was with reluctance that they heeded the warning whistle and footed back to the train.

It was trying hard to snow when the train pulled into Twin Falls. The ladies were bundled into vehicles and taken up to the Hotel Perrine while the gentlemen trudged through the mud. The visitors were dined at the Perrine and at Dr. Lee's.

After dinner on Tuesday evening the ladies of the party were entertained by the ladies of Twin Falls in the Perrine parlors, while the gentlemen thronged the Babcock building where a "smoker" was in full blast. The visitors needed no diagrams or coaxing. They mixed like Twin Falls land and water and had a splendid time. Joe Plinkett of the Chicago, Milwaukee & St. Paul road, who is

known as "the thrush" of the rail, sang songs until he became so hoarse that he could scarcely make his words known. The crowd joined in the chorus every time and it is probable that the building swelled at least two inches with each chorus. Judge McKimley, Mr. Manning of the Capital News and other vocalists cheered things up and Norm Thompson told several of his inimitable stories.

P. H. Smith presided over the compulsory department. If the secretary of war ever sees Mr. Smith in action he will undoubtedly appoint him commissary general. One of the visitors said he ate 10 sandwiches just because he could not refuse them from Mr. Smith's hands. Herbert Seebeck, neat, gentlemanly and at ease, assisted Mr. Smith with all the aplomb of a skilled waiter and won all sorts of praise for his clever work. Billy Dunn made a record. He opened 72 bottles of beer in 17 minutes by the watch and never spilled a drop. Chet Parsons has offered him a fabulous salary which he has declined because he prefers to remain an amateur. Billy shook hands with his right hand and set out liquid refreshments with his left and he did a land office business. Everybody helped and everybody else made it easy to work. It was a regular family party, shorn of all formality, and the visitors enjoyed it hugely. Several of the younger members of the party attended the dance at the skating rink.

Sightseeing on Wednesday. On Wednesday morning the visitors were provided with vehicles and set out to visit Shoshone falls and Blue Lakes. The weather was cold and the good citizens of Twin Falls plundered their trunks to provide wraps for their guests. Judge Perky, who is a big man physically as well as mentally, looked discomfited at the prospect of a cold drive, but P. H. Smith found him a sweeter water than him like the paper on the wall. The judge declared that the resources of Twin Falls were truly marvellous because he had never been able to find a sweeter or larger enough for him before.

The drive to the falls and the lakes was made without mishap and the visitors were simply carried away by the natural beauties. They took their time and enjoyed themselves, returning to the city for dinner. Acquaintances were renewed in the evening and the guests took their train at 10:30 for Boise, declaring the trip had been a revelation and delight to them from beginning to end. Many of them announced their intention of returning later for a longer visit.

Incidents of the Excursion. Remont Wood of Boise, one of the leading horticulturists in the west, was very favorably impressed with the young orchards. Mr. Wood has the finest apple orchard in the state and he has promised to come to Twin Falls later in the season and address the farmers on apple culture. He strongly advised the planting of wind-

breaks along all orchards. He will give the farmers much valuable information in regard to pruning and irrigating their trees. Mr. Wood believes that the Twin Falls tract will soon be a great fruit producer.

Frank R. Coffin, president of the Bank of Commerce of Boise, crossed and recrossed the Twin Falls tract many times on the old stage line. Mr. Coffin was astonished at the appearance of the city. Always a great believer in the future of Idaho, he saw in the Twin Falls tract an exemplar of his predictions. Not only was he pleased at the looks of the tract and city but the character of the people impressed him very favorably.

Leo Falk of the Falk Mercantile Co. of Boise was another surprised visitor. Mr. Falk made many friends in Twin Falls and went away with a pleasant impression of the city and its people. He will soon pay another visit.

H. E. Neal, cashier of the Capital State bank of Boise, said all he had heard of Twin Falls had been amply verified. It was the most thrifty and enterprising city of its age he had ever seen and its citizenship was a credit to the state.

C. C. Anderson, proprietor of the Golden Rule store in Boise, complimented the local merchants on their enterprise and progressiveness. Their new buildings, he said, showed their faith in the city and were the finest kind of an advertisement. The orderly and neat appearance of the town, despite the upturning incident to building operations, spoke well for the citizens.

Secretary of State Gibson was the only state official who made the trip. Governor Gooding was called to Pocatello at the last moment and the other officials were detained at home by their duties. Mr. Gibson, who is a member of the state land board, said he understood now why the farmers on the Twin Falls tract had given the board so little trouble. They were, he declared, a splendid body of citizens who would soon become a powerful factor in state affairs. Mr. Gibson said he would take a deeper interest in Twin Falls and its people hereafter, now that he had become acquainted with the tract. Twin Falls could have anything it wanted from the land board in the future as in the past because it was deserving.

Judge K. I. Perky was once district judge for this district and is familiar with the east end of the county. He said he never dreamed that the west end would eventually become one of the garden spots of the state. It gave him a great deal of pleasure to see the development on the Twin Falls tract, which he will watch in the future with keen interest.

President W. T. Booth of the Boise Chamber of Commerce enjoyed every minute of the trip and dispensed cheer liberally. He said it was a grand outing and a liberal education and would go a long way toward cementing the good feeling between the two cities.

O. V. Allen and C. R. Shaw, who had been here before several times, were kept busy saying, "I told you so."

Joe Plinkett, traveling freight agent of the Milwaukee road, was the star entertainer of the party and worked harder than anybody to provide amusement. Joe had something new every minute and without him the trip would have lost much of its pleasure.

Messrs. Carlson and Culver made up as "butcher boys" and sold papers, peanuts and fruit on the train. Their stock ran out at Glenn's Ferry but they did a fine business while it lasted.

Conductor Bob Pryor and his crew were part of the party. They were well known to the Boise folks and the fact that they had the train in charge made it very pleasant for all. Everything moved smoothly and harmoniously, and there was no suggestion of a kick from start to finish. Couldn't be with Bob at the helm.

Guy Flenner of the Boise Statesman and C. B. Adams of the Capital News accompanied the party as chroniclers. They didn't have time to chronicle much but they had a glorious excursion.

Ralph Cowden, the Caldwell banker, and Sumner Doe, a prominent mer-

HOW NEW LAND SHOULD BE PREPARED FOR CROP

Superintendent McPherson Strongly Urges Beginners to Take Pains in Grading Their Fields Before Irrigating—Tells How This Can Be Done Cheaply and Effectively—Don't Spare the Scraper, It Will Save You Toll and Money Later on and Repay You Many Fold.

"How are the farmers getting along with their water distribution this spring?" was asked of Superintendent McPherson.

"A great many of them, especially those who had some experience last year, are preparing their land in very good shape, but a large number of the late arrivals are apparently in too big a hurry to get in their crops and do not realize the difficulties that will beset them when they begin to irrigate. Last year good crops of grain were raised when sown as late as the last of May and good stands of grasses can be obtained if the seed is sown any time before July 1. Last year alfalfa and clover sown about the first of June yielded one ton per acre and shows a fine stand this year. I speak of this to show that it is often best to make haste slowly. In other words, it is wise to take your time and get your ground right. Many people do not realize that even when they have a good grade that the water will not run over the humps, bumps and hollows which, to the inexperienced, seem so insignificant. A field may look to be perfectly smooth and level and yet it may be impossible to evenly irrigate it. In this instance appearances are very deceptive. A field that looks lapidated may irrigate perfectly. A few hours or days spent with a power scraper will answer the purpose in a majority of cases and, have many times its cost and the expense of operating it. Land once prepared properly will irrigate effectively for all time, and it should be the aim of every farmer to get his ground as nearly right as possible at the start. The ground must be graded for water distribution sooner or later, the earlier the better. If it is not graded with a team in the beginning it will have to be graded with a shovel later or uneven crops will surely result.

"In the grading of the land at the beginning lies the whole secret of success in irrigated farming. Without good grading no farmer can hope to succeed. By grading I mean the sloping and leveling of the land for the distribution of water. It is absolutely necessary, in order to secure good results, that the water should run with an even flow over every portion of the field. If it runs too fast it will wash out and create gulches which will give the farmer no end of trouble. If it runs too slow it will be hard to carry over the ground and will drown some portions before other portions are sufficiently moistened. The thing to watch out for on this tract is to prevent the water from running too fast. Nearly every farm has a good slope and unless the fields are properly corrugated to control the flow the water is liable to get away from the irrigator without performing its proper function. It should be remembered that the water in its course over a field should be permitted to thoroughly soak into the land."

"How is the average farmer who is not accustomed to irrigation going to know what he has the right slope or grade? Must he hire an engineer to ascertain it for him?"

"Not necessarily. There are many simple devices by which a farmer can determine what is the right flow. I will try to describe one of the simplest, in which a carpenter's spirit level may be used. Take a piece of 2x4, two or three feet long, and sharpen it at one end like a stake. Then nail another piece of 2x4 two feet long across the top near the blunt end, forming a cross. Stick the sharp end of the cross in the ground and place the level on top of the crosspiece. By sighting over the level and turning the cross around in all directions you can easily determine the level of the land. Some use what are known as peep sights, and which can be ob-

talped at hardware stores. The proper fall for water in this section is one inch to the rod. Two or even three times this fall will answer provided the water is properly handled."

"What do you mean by 'properly handled'?"

"I mean that the amount of water turned in each corrugation should be governed by the fall of the land and the distance which the water is allowed to run before it is checked up and redistributed. If the ground is steep and too large a head of water is turned into the corrugations it will wash too much. It is also liable to wash at the heads if it is allowed to run too long a distance. My advice is to turn in just enough water so that it will travel the entire length of the corrugation in about an hour. This distance will vary from 300 to 500 feet. I would not advise trying to run it any longer. Small streams and short runs will result in even moisture, less danger of washing and are more easily controlled by the irrigator. The corrugations should be not more than two feet six inches from center to center, and the water should be allowed to run until the moisture moists, or nearly meets, in the center between them. Another thing I wish to call attention to is that from this time of year, forward the ground should be irrigated before the seed is sown. This will bring the seed up quickly and evenly. It is far better to irrigate before sowing than to try and irrigate it up after sowing, and it also saves time. The surface soil is now too dry to germinate seeds. The moisture which is found a foot or so below the surface is not available for seed germination. It frequently happens just now that a man will plow a field and upturn moldy earth. The seed he plants, however, rests in the dry earth which he has turned under from the surface, and while there may be moisture above and below it there is none where it lies to germinate it."

"What is meant by 'checking' water?"

"By checking up the water I mean the use of cross ditches at regular intervals in the field. These ditches receive the drain water from above them and in turn redistribute it further down the field. In other words, if you tried to run water say a quarter of a mile, no matter how nicely your field might be laid out, you are liable to drown one end before the other receives sufficient moisture. By putting a cross ditch in the middle and checking the water for redistribution you get even saturation all over."

ADVERTISED LETTER LIST

List of letters remaining unclaimed in the postoffice at Twin Falls, Idaho, for the week ending May 14, 1906.

Adams, Ed.
Beech, Henry
Bryan, Miss Tilda (2)
Clemens, Edw.
Camp, Joe
Davis, Mrs. J. A.
Davis, Edw. A.
Davis, Willie P.
Diner, Mrs. Dollie
Gysson, William
Haynes, John (2)
Hoover, R. L.
Jenkins, Mrs.
Kessler, J. H.
Ryan, Miss Ella and Julia
Stadler, Henry G. (5)
When calling for the above letters, please say, "Advertised May 15."

W. W. DUNN, Postmaster.

Strayed or Stolen.

Friday, May 11, one iron gray gelding, 5 years old, branded S on left shoulder; mane and tail a little light; thin in flesh. One iron gray mare, 5 years old, branded S on left shoulder; is blocky built and in good working flesh. Both of these animals were shot and had halters on when they left; are both scarred on the hip. Will pay \$50 for their return to me at Buhl, Idaho.

J. W. JACKSON.

Happiness Is Supreme

When you can get just what you want at less than you expected to pay. We are treating customers to this kind of a surprise every day. We sell you a good article and let you off cheap. You will find our selections choice, our goods reliable, our prices satisfactory. A fair deal makes the buyer happy. We give it. We won't skin you on one article and cut the price in two on another. ARE BEGINNING TO TAKE NOTICE

UNION LABOR TO TAKE A HAND IN POLITICS.

Will Put Up Leaders for Members of Congress—Action Causes Commotion in the House of Representatives.

One of the most important of recent developments from a political viewpoint, as seen in Washington, where politics in one way or another is a constant topic for discussion, is the threat and seeming determination of labor leaders to put up candidates for congress in a number of districts where the labor element is dominant. The labor lobby, for there is a labor lobby in Washington just the same as lobbies representing railroad and other interests, a short time ago addressed a lengthy communication to the president, the speaker of the house of representatives and President pro tempore of the senate, in which general dissatisfaction was expressed with the condition of laws affecting labor and asking for the speedy enactment of laws for the benefit of laboring interests.

This "message" was heralded as a formal entry of the labor party into national politics. This has been followed up with separate statements by Mr. Gompers and other labor leaders intimating that candidates would be placed in the field in certain districts. One district in particular is that now represented by Mr. Daisell of Pittsburgh, Pennsylvania. It has also been hinted that the seat of Mr. Payne, chairman of the committee on ways and means, and that of "Uncle Joe" Cannon, the speaker of the house, might be contested. These gentlemen claim that they are not worried by such statements, and seem to have given them the consideration such threats are entitled to.

There are, however, a number of congressmen who are pretty well stirred up, and are as a result paying more than usual attention to their political fences. They are also giving a good deal of thought before voting on measures likely to affect the labor interests. The result of the recent election in England, where the labor party gained several additional seats in the house of commons, doubtless has had something to do with the agitation in the United States, and is probably to a great extent directly responsible for it.

It is interesting to conjecture as to what will be the probable outcome of this direct entry into politics by labor as a separate party. It is not likely to have any immediate effect upon the representation from the southern states, as political affairs in that section are still controlled by the agricultural element. In New York, Massachusetts, Pennsylvania and Illinois the field for the laborites would be the most inviting, as several districts in those four states could easily be carried by the laboring men. Probably no state in the west, with the possible exception of Colorado, would be immediately affected. Of course, there is a labor element in California, Idaho and Montana, but men who are familiar with conditions in those states are of the opinion that this element is not yet strong enough to gain control. It is further suggested by western men that the real friends of labor come from the western states. Under these circumstances it is not likely that the movement will gain any headway except in the eastern states where the labor question is more acute.

The party is of course in its infancy in this country. It is, nevertheless, receiving a great deal of publicity in the newspapers and magazines. Politicians are reckoning upon this new element in American politics, and statesmen are wondering what will be the permanent effect upon our institutions.

An Ideal Stock Ranch.

400 acres, all fenced and cross fenced with good fence, situated one mile from town, well located on dry hill route; 260 acres in hay, positive no waste land; plenty of free water at all times; large creek running through portion and with deep black loam soil; very fertile. This ranch is tributary to the best stock range in Idaho; road 7-room house, modern painted; large barn well built; 5000 and other outbuildings; corral, etc.; a full equipment of machinery goes with this ranch; adjacent to a rich mining region which affords a splendid market for all produce; near good schools and church; the best bargain in Idaho; owner must sell; \$1750 per acre, on 10% down. Write to Northwest Investment Co., Ltd., Boise, Idaho.

Span of light sorrel horses, Strayed from Lincoln's camp, high line canter, Saturday, April 28. Return to camp or my farm, section 14, township 10, range 15, and receive reward of \$20.

TIPS FOR CATTLE BREEDERS

Thoroughbred Stock Alone Much the Better Returns.

In a recent address at a farmers' institute Hon. L. H. Kerrick of Bloomington, Ill., gave them some sound plain primary talk on cattle breeding and growing, and among other good sensible things he said:

"In breeding cattle for beef, the constant effort is to get animals of good beef form—that is, with such frame and contour of body as may carry a goodly load of thick beef, and carry it on those parts where the beef is most valuable. We strive also to produce an animal with good constitution and good digestion, for these measure his capacity for converting feed into beef. Especially do we try to produce animals in which the habit of early finishing or early maturing is dominant, for time is an important factor in profitable beef making. A steer that can be made into a prime beef weighing 1,500 pounds in 24 months is far better than one that would need 36 months to attain the same weight."

"Now suppose I find in my herd a youngster endowed with all these good beef-making qualities; I shall want more of him. How can I make sure of getting the best? Well, if there be a record of his ancestry I can from it learn what sire got him and what cow was his mother, and what his grandmother was, and so on down his ancestral line."

"Thus it is by the record, and by the record only, that we can find out where the good ones come from. So you have, very briefly, what is meant by pedigree, and just a suggestion as to its value. Only a small proportion of our great stock of cattle is pure bred and recorded."

"Of the 45,000,000 or 50,000,000 of those classed 'beef cattle' not exceeding 500,000 are recorded. Nevertheless, it is only with that recorded half million that the work of improvement can be effectively carried on. From these are drawn the highest improved males used in crossing upon the large unrecorded stock of the country. The recorded stock is not fed for beef, being so much more valuable for breeding purposes. From the great stock of common or grade cattle more or less improved by crossing with the pure bred come the cattle that fill the feed lots and afterwards supply the beef market."

"The first winter past and grass at hand, a bunch of 50 steers coming a year old may show 20 acres of good bluegrass pasture for their range. This will furnish all the green stuff they need or want during the whole of the growing season. Our practice is to continue right on with feeding. If one have good pasture lands of a kind that may not be more profitably put to grain raising he may well leave his yearling steers to graze them without other feed, but in Illinois our farms are becoming so valuable we cannot afford room enough for steers to make their living and a proper gain by grazing alone. Besides, a steer has a simple and single mission, which is to make beef. He should be kept making all he can each and every day."

"He cannot do his best by grazing alone. With something to grease, for his health and for variety's sake, but with a goodly amount in addition of corn and oats and oil cake or like feeds, he can make more and better beef in a given time."

"I suspect we produce the best beef by supplying a steer liberally with the proper feed during the period of more rapid growth. By this practice I believe we get the maximum thickness of red meat, with the most thorough maturing of fat and lean. In practice and recommendation growing beef on high-priced land rather than growing steers to be afterward fattened. This is to be saved and a more valuable product is obtained by beef growing.—Journal of Agriculture."

CAUSES OF FAILURE ON FARM

Can Generally Be Found and Remedied if Bought.

Throughout the length and breadth of our land we find the farms tenanted by men who, it seems, have never made a success nor a failure of farming, but who have managed to live reasonably and comfortably.

Some men have made great success at farming from the possession of qualities of character, perseverance, determination and the ability to do the right thing at the right time, but it is a difficult thing to point out the qualities which can be secured and secured by them their success upon the farm.

There are real failures upon the farm, which may arise from many causes, and the likelihood is that we keep a man down for years, but there are so many opportunities in life that it is not necessary for him to be ruined permanently.

Our most successful farmers have had high waters to wade through, but the man who lets a few strokes of misfortune ruin him has not the qualifications to succeed. No blame misfortune or ill-luck for many things that are but the consequence of our perversity; very often what we call fate is the consequence of our own actions; unlikelihood as a rule is due to some hidden defect.

We have farmers who are wholly ignorant as to whether they succeed or fail. They can endure anything but they cannot rescue themselves to make an effort to rectify the oncoming of what they call fate; they will float along with the tide and will not give a stroke against it. A friend may try to assist them, but they cannot grasp the opportunity; they may be prudent, painstaking, industrious, but with a stroke against it, they cannot raise them from the slough, and they keep sinking.

From the acres to the oak, the ordered route is service and success. The men who are successful farmers have clambered over rough and rugged ways. Well directed effort is an exciting thing, but it is not a simple one. Results are what we are striving for and results are worth the processes.

Some say, "Give us the right conditions and we can make a success of farming."

The environment of our most successful farmers was not harmonious. They had trials and misfortunes, but

they achieved in spite of them. There are other unpractical people who fail because they refuse to recognize the necessary conditions which fence a man in, impatient to reach the goal without doing the necessary work. The routine work of the farm is, as of everything else, more or less drudgery; but there is a way of doing it so you will enjoy and bless others while doing it. It is possible to put the artistic spirit into the farmer's toil. Thus can we transform our dull farm into a palace of the king, with a beautiful acreage.—The American Farmer.

OREGON SHORT LINE.

Epworth League Convention, American Falls, Idaho, May 25-27.

For the above occasion a rate of one and one-fifth fare on the certificate plan to American Falls, and return will prevail, subject to an attendance of 50 or more who attend from outside points and who hold receipts for full fare paid going. If the number of present tickets will be sold on a basis of half rate. For further particulars inquire of D. E. SULLIVAN, G. P. and T. A., Salt Lake City.

If you are hard to fit and want a shoe that you don't have to "break in" try the Florshelm, Ferrine & Burton.

LAND NOTICE.

United States Land Office, Hailey, Idaho, Feb. 7, 1906.

To Whom It May Concern: Notice is hereby given that the state of Idaho has filed in this office the following list of lands, to-wit:

And has applied for a patent for said lands under the acts of August 18, 1894 (28 Stat. 372-373), June 3, 1896 (29 Stat. 434), and March 3, 1901 (31 Stat. 1133-1134), relating to the granting of not to exceed a million acres of arid lands to each citizen of the United States, and that the said land, with its accompanying proofs, is open for the inspection of all persons interested, and the public generally.

Within the next 60 days following the date of this notice, protests or contests against the claim of the state to any tract described in the list, on the ground of failure to comply with the conditions of the grant, or on the ground of prior adverse right, or on the ground that the same is more valuable for mineral or for agricultural purposes, will be received and noted for report to the general land office at Washington, D. C.

"Jimmy," said the teacher, "what's a cape?" "A cape is land extending into the water." "Correct. William, define a gulf?" "A gulf is water extending into the land." "Good. Christopher, to a small, eager-looking man you tell us what is a mountain?" Christopher shot up from his seat and said, "A mountain is a hill with a peak." "And promptly responded: 'A mountain is land extending into the air.'"

"Some folks," said Uncle Eben, "lose de fall benefit of deir word; bein' no being able to handle it. De chicken-kin-ay-de-egg-but she can't peck it."

One day little Alice, who was spending a few weeks in the country, heard a cow "moo," and said to her mother: "Oh, mother, do bark at that cow blowing her horn!" Her mother explained that the cow was not blowing her horn. Whereupon Alice exclaimed, in a disappointed tone: "Why, what the good of cow-blowing horns if they can't blow them!"

As the train stopped at a small town in Virginia, the mail bag was thrown to a negro boy of perhaps 15 years, and he started at a trot to the postoffice. But a larger boy, turning a corner, suddenly ran into the mail carrier and overturned him. As soon as he recovered himself he turned upon the aggressor. "Look a heah!" he exclaimed. "You wants to be keeful of de chile. When you knocks me down, you are a whole govment of de United States. T' carrie de mail!"

TWIN FALLS LAND & WATER CO.
By FRED L. HARRIS, Secretary.
Dated-May 11, 1906.

OREGON SHORT LINE.
Annual Teachers' Excursions East-bound.
From all points on the Oregon Short Line to Idaho round trip excursion tickets will be sold on May 25, June 1, 3 and 16 at one lowest first class fare, plus \$7, to points in Minnesota, Iowa, peninsula of Michigan, Illinois, except that part east of the line of the Chicago & Eastern Illinois railroad Chicago to St. Louis; that part of Missouri and north of the Rock Island railroad from St. Louis to Kansas City; South Dakota; that part of North Dakota east of the meridian at which the Missouri river crosses its southern boundary line; Kansas, except that part east of the St. Louis & San Francisco railroad from Kansas City to Fort Scott; thence through Girard, Cherokee and Baxter to and including Galena, Kansas; Nebraska; Colorado, east of and including Colorado common points, Denver to Trinidad inclusive; also to Memphis, Tenn. Transit limit 10 days in each direction; final limit October 31. Stopovers allowed only at and west of Missouri river points. The same rates will apply on tickets sold at Idaho points on May 25 and 26 for the Western Federation of Miners' meeting at Denver, May 23 to June 15. Transit limit five days in each direction; final limit 30 days from date of sale. For further information inquire of

D. E. SULLIVAN, Agent, Twin Falls.
G. P. and T. A., Salt Lake City.

Gracie: "Oh, Mr. Nocone, how lovely you are to bring me these beautiful flowers! How sweet they are, and how fresh! I do believe there is a little dew on them yet!"
Nocone: "Well, yes, there is; but I'll pay it tomorrow."

A New York hotel man was spending his vacation in Maine, when one evening he was kept in his hotel by a terrific fire, and the windows of his room were broken by hallstones. The proprietor of the hotel observed that his guest appeared to be laboring under great emotion, so asked: "Does the storm scare you?"
"Not exactly," was the reply, "but it does tear my heartstrings to see so much crack ice wasted on a prohibition state."

We will have hay in a few days. Pioneer Storage & Commission Co.

Subscription Rates.
One Year, in Advance, \$2.00
Six Months, in Advance, \$1.00

Reliable information regarding the city and country generally and cheerfully furnished. Advertisements will be accepted on the same basis as in other newspapers.
Entered as second-class matter, December 12, 1905, at the postoffice at Twin Falls, Idaho, under the Act of Congress of March 3, 1879.

It is necessary that speedy action be taken upon the sewer question. The public health demands the construction of an adequate system without delay. Surveys and estimates have been made and are almost ready for presentation. There are no barriers, aside from the use of Rock creek. This creek is a sewer now and always will be. A visit to the siphon will convince anyone of this fact. The spray which comes from the creek at the siphon is so foul that the workmen engaged there could scarcely stand it. It is nonsense to claim that the creek will purify itself in a few miles. The current is swift and the water so tainted that it is a serious menace. With a septic tank in the canyon below the city the sewerage from Twin Falls could be turned into Rock creek with perfect safety. The creek water will never be used hereafter for domestic purposes. However, if Rock creek cannot be utilized, some other vein must be found and dug quickly. The situation will not improve with age. Other towns, like Nampa, for instance, have no sewer drainage, yet they have solved the problem. Twin Falls can do what any other city can do, and more.

The road to Buhl is sadly in need of repair. A bridge is needed across Cedar draw and the Rock creek crossing should be patched up. A little lumber and a little work judiciously distributed would be of great benefit. In many places waste water, has formed soft spots which are causing no end of trouble. It behooves somebody to take the question up and see that temporary repairs are made. The traffic to Buhl is very heavy and the teamsters are threatening to quit unless the road is made passable. They do not ask for a boulevard, but they rightfully insist upon a road which will carry a load without killing a horse. The farmers along the road are willing to help all they can and with a little outside aid the road could be put in condition at slight cost. The Commercial club might take the matter up as the condition of the road will not bring business to Twin Falls.

Twin Falls asks for an uptown express office. It forgets. The Pacific Express company needs the money to perpetuate its graft. Idaho Falls asks it. It is asking. It may get it. It has got it—but it is principally in the neck up to date.—Idaho Falls Post.

The Southern Idaho League of Commercial clubs might use some of its clubs on the express company and beat a little courtesy into the corporation.

Resolution of Condolence.
Twin Falls, May 15, 1906.
Whereas, It has pleased Almighty God to take away from our midst Mrs. Sarah Pearson, the wife of our beloved neighbor, Olaf Pearson; therefore, be it

Resolved, By the members of Twin Falls Camp No. 10390, Modern Woodmen of America, in meeting assembled, that we extend to Neighbor Pearson our deepest sympathy in this his darkest hour of sorrow and bereavement; and be it further
Resolved, That a copy of these resolutions be sent to our bereaved neighbor, a copy published in our local papers, and a copy spread upon the records of our camp.
W. J. SMITH,
L. M. LUCY,
J. F. MURREW,
Committee.

Resolutions of Condolence.
United Brotherhood of Carpenters and Joiners of America, Local Union No. 1116.
Twin Falls, Idaho, May 15, 1906.
Whereas, The Infinite One has written in all forms of life the inexorable decree of death; and whereas, that decree has been fulfilled in the death of the wife of our beloved brother, Olaf Pearson; therefore, be it

Resolved, By Local Union No. 1116, United Brotherhood of Carpenters and Joiners of America, that we extend to Brother Olaf Pearson in his great and sudden bereavement our heartfelt sympathy; and be it further
Resolved, That a copy of these resolutions be sent to our afflicted brother, Olaf Pearson, that it be written on the records of our local union, and a copy forwarded to General Secretary Frank Duffy for publication in our official journal.

G. D. JOHNSON,
Committee.

LITTLE FOLKS ENTERTAINED

Mrs. Redhead of Hansen Hostess at a Delightful Party.

HANSEN, May 17.—Farmers in this vicinity are busily engaged in irrigation. Mrs. J. E. Hansen was a caller in Hansen last Friday.

Tobias Rauch left last Tuesday for a few weeks visit in Goldendale, Wash.

A. A. Fouts returned last Saturday from Twin Falls, where he had been engaged in painting for some time.

John Nichols was painfully injured about the head last week by a kicking horse.

Arrangements are being made by the Hansen people for a social to be held in the school house in the near future.

Mr. Mechem, a brother of D. E. Mechem, a rancher south, arrived last week from Canada. He has come to make his home here.

J. L. Barnes and Chas. Adamson visited in Twin Falls last Monday night and attended the Masonic lodge reception.

A meeting of the Hansen people is called for next Saturday at 3 o'clock p. m. to be held in the schoolhouse.

Among the recent Twin Falls visitors were Mrs. Nick Smith, Miss Fern Towne, Miss Ethel Towne, Miss Adella Roberts, F. M. Towne, Geo. Doughty, Will Lytle and D. V. Beck.

Mrs. E. M. Towne visited at the home of Mr. and Mrs. G. L. Andrews last Wednesday.

Nick Smith, whose land lies adjacent to the townsite, is improving and adding valuable additions that will bring about a new ranch in the near future.

Mr. Smith has erected a large and convenient barn that would be a credit to a much older country, and next fall Mr. Smith will build a handsome, modern eight-room house and will add other improvements.

A delightful party, the first entertained for little folks, was given by Mrs. G. L. Redhead last Wednesday afternoon, the occasion being little George Redhead's ninth birthday.

From 1 to 5 o'clock the guests were mostly entertained with games by Mrs. Redhead, assisted by Mrs. Baker and Mrs. LaCourse. A delicious luncheon was served and the little folk delighted in a merry afternoon.

They could never forget. The guests were: Zubia Divino, Nola Crater, Erna Smith, Florence Carter, Jennie Carter, Hazel Smith, Edith Rice, Mildred Ricker, Lena Browne, Flora Browne, Muriel LaCourse, Floyd Roberts, Fred Roberts, Frank Hansen, Ahlo Smith, Harry LaCourse, George LaCourse and George Baker.

KIMBERLY LOOKING FOR GAME

Ball Tossers of That City Prepared for Contest.

KIMBERLY, Idaho, May 17.—Mr. Edward F. Tucker, who was formerly manager of the Stockgrowers store here before that firm sold, left with his mother, Mrs. Laura Tucker, for Shoshone on Monday. A number of their friends gathered at the train to see them off.

S. G. Shaffer, who has been in charge of the Nibley-Channel lumber yard here for some time, was called to his home in California recently by sickness in the family. His place is being filled by Mr. Gaskell from the Twin Falls office of the company.

John Olson suffered quite a painful accident on Monday morning. He was preparing to take out the new delivery wagon of the Meat Market and Mercantile company when the team became frightened and ran away. One of the horses in kicking got one leg over the tongue and thus made matters worse. They ran from the butcher shop to a corner of the fence and stopped so suddenly that both horses and driver were thrown down.

Clarence attended the injured man and at this writing he is able to be about.

The farmers' meeting of last week was addressed by Miss Belle Chamberlain. Her talk was along the centralized school idea and some of the arguments she advanced were very convincing. The balance of the evening was devoted to the discussion of the necessity of some woman's organization in Kimberly. Mr. McPherson also spoke regarding the coming fair.

E. C. Cole of Twin Falls gave a very interesting talk based on one of Will Carleton's stories.

Miss J. McMillan spent the past week visiting the Brose home on Rock creek.

The baseball team met two evenings last week and during the second the townsite company has so generously loaned for a diamond. The grounds are not completed yet, but inside of a couple of weeks will be ready to hear from some team in this vicinity that would like to play a game on Decoration day.

Merle Wright was in town recently from Rock Creek, where he is now living.

The bank building is making rapid strides toward completion. It is ready to be put in this week.

McMasters and Smith unloaded another car of hay last week.

Basuer, who purchased a 40 adjoining the townsite last winter, died at his home here on Monday afternoon. Deceased was formerly a resident of Akron, Ohio, to which place his remains were shipped for interment. He had his daughter and a nephew living here with him, both of whom accompanied the remains home.

Y. M. C. A. DEPARTMENT.

(Conducted by the Secretary.)

A recent visitor to our reading room, of which mention should have been made in these notes before, was Miss Lillian Stokoe. Miss Stokoe pleaded that she did not come "just to see the men," but I have heard so much about her that I wanted to see her. Miss Stokoe was shown about the room and expressed surprise and pleasure at finding such an abundance of books. She said that she thought well lighted room I should think you would have it crowded all the time," said Miss Stokoe, and when Miss Stokoe was told that there had been as many as 25 on the roster at one time she began to think that the reading room was appreciated by a good many. Miss Stokoe has a young brother who is of the right age to become a member of the boys' department, consequently she is deeply interested in the work. We hope that other young ladies of the city will develop the interest that Miss Stokoe has, whether they have brothers or not.

All boys of whatever age are earnestly requested to attend and become members of the association. Especially do we want boys between the ages of 12 and 18. It is between these ages that the boys are admitted into the regular boys' department where one can

Very few members have paid their monthly dues for April and May. We need the money, gentlemen. The running expenses are in excess of \$200 a month, and it isn't right that two or three should be compelled to dig this up from month to month. Mr. Armstrong, our new manager of the boys' department, will accept your dues. He is at the room from 10 a. m. to 10 p. m., where you can see him.

Anything worth having in this world must be striven for. Things that come easy are never appreciated; they never give the possessor any satisfaction. There has never been a time when any of the promoters of the Y. M. C. A. in Twin Falls felt that their task was an easy one. They have from the beginning known that much of their time and money would have to be spent before the association could be put upon a permanent and firm basis. But they have felt that the results would justify the efforts.

They have felt more convinced of that than now. The prospects grow brighter day by day. A word of appreciation now and then from loyal friends makes the work more of a pleasure. The time is coming when large will be the number who will join in the shout, "Hurrah for the Y. M. C. A."

The Y. M. C. A., assisted by friends, will present to the people of Twin Falls one of the most wholesome and laughable three-act comedy ever written. The title is "Family Affairs." It is itself ought to be enough to indicate that it will be good. Mrs. Walter F. Pike has the play in charge, and this audience must realize that it will be worked up to perfection. The best talent in the city has been working on the play, and we can assure the public that an evening of genuine enjoyment in more for the time. The proceeds of the play will be devoted to the Y. M. C. A. reading room. Monday evening, May 21, is the time the roller-skate-the

The secretary hopes that the boys who are interested in making the boys best possible use of their time and effort, and all boys should be so interested as to read what we have to say of Donald McPherson in this issue and become interested in these notes and the Y. M. C. A. work. I hope to be able to say something here of special interest to you very soon.

One day during the last week the writer stopped down into the reading room on his way to dinner, as he does quite frequently, and the only occupant he found on the occasion returned to was a boy whose age we judged was about 12 or 13. He was reading a book and was studying an article in a recent issue of "The Youth's Companion" and occasionally taking a bite from a piece of popcorn. The boy was an industrious looking fellow, neatly clad in work clothes, and having never seen him before, we wondered if he was one of the many homeless litters that roam about the country and had happened into Twin Falls. Who could not be interested in a boy of this kind? After observing the stranger, as we thought, we approached him and asked him how he found his way to the reading room. "I come here quite often," he said, "the last time I came I was inquired as to the object of our interest lived near Twin Falls, and that he was then in the employ of the Rocky Mountain Bell Telephone Co. and having a few minutes during the noon hour, had run down into the reading room to enjoy it in reading. When we asked for the boy's name, he said our surprise when we were told that it was Donald McPherson, son of Agricultural Superintendent McPherson. Donald then told the writer that he had for several years been a member of the boys' department of the Y. M. C. A. at Boise, and gave his name as a member here. We are glad to know Donald. He is the sort of boy that is going to be the man that will amount to something. We wish that other boys of Twin Falls would emulate Donald McPherson and make the reading room a place for recreation and study.

Write, telephone or call on any of the following for full particulars about that "Family Affairs" that comes off at 8 o'clock Monday evening, May 21. Mrs. Walter F. Pike, Mrs. Paul V. Robinson, Miss Nellie Ash, Charley Cole, C. F. Hall, Bob Fitch, Ed. H. Adair, C. H. Hall about that "Family Affairs" he's mixed up in it and so is Bob Hays.

For Sale or Trade.
40 acres 2 1/2 miles east of Twin Falls, 2 miles from Shoshone falls. All improved and plowed ready for crop; 6 acres in winter wheat doing nicely; 1 1/2 story home dwelling with porch; 12000 lbs. stock feed; 7 stalls good stall and easily irrigated; price reasonable. For particulars call on J. M. Bennett, blacksmith shop, 5th St. N. E. section 1, township 10, r. 17.

Take your best girl for a drive to Shoshone falls. Inexpensive at first class accommodations at the hotel.

On sale at all drug stores and news stands. Price, 25 cents.

BREVITIES

E. W. Galt is here from Boise in the interest of the Palo Alto stock farm, Emmet county, Iowa. Mr. Agnew is preparing to return to Boise and take out more horses to other towns.

If the party who sends anonymous letters to the local authorities in regard to gambling will communicate to person and furnish the information he claims to possess he will get action.

Arnold Frankell is preparing to open a well pool room and cigar store in the Boyd block, having decided to abandon the grill room and other business. He proposes a surprise in the future line and will spring it on an early date.

D. P. Thomas, a brother of Hon. C. D. Thomas, is a recent arrival in Twin Falls. He is a stone mason, builder and contractor, and will remain in Twin Falls, having purchased a building lot with the intention of erecting a home.

The dog catcher is at work and stray pups are being gathered in the city. A large number of animals have been impounded and the campaign will be carried on until every dog in town wears a license tag.

The Hulse brothers have arrived from North Yakima with their live turkeys and chickens. They brought with them a stylish mare with low the 30 mark. Their cars came through in good shape and they are now busy on their farms.

Marshall Dyer made an unexpected call upon a number of non-producers yesterday morning and greeted the city exchequer about the city. Smith gave the gentlemen of leisure to understand that it would cost them something to loaf in Twin Falls here and there and that they had better go to work.

Complaint is made that cattle and horses are turned loose in the city at night and are damaging trees. The park is a tempting grazing ground and young trees are almost irresistible to old cows. An example should be made of those who have the right grazing habit before any more trees are destroyed.

Mr. and Mrs. C. F. Schenck have arrived from Maroa, Illinois, and are located on Mr. Schenck's farm near Buhl. Mr. Schenck is a brother of Rev. John Schenck and is well known to the smokers of Twin Falls by reason of the excellent brand of "Stub" cigars which he manufactures at Maroa. He is very well pleased with the appearance of the tract.

Mrs. Robert W. Steele met with a painful accident at her home last Thursday in a most peculiar and commonplace manner. Just as she had stepped out on the porch she slipped and fell, turning her ankle and fracturing her limb. She injured her back and has been placed in a plaster cast and while Mrs. Steele will probably be "at home" to her friends for a short time she will suffer from permanent ill effects from the accident.

The frost on Wednesday night was in the canyon but did no damage above. As reported the frost was almost wasted in the vicinity of Twin Falls. At George H. Peck's ranch the lawn on some of the apples and the ditches were slightly touched but the vegetables were unharmed. Woody Seal's garden escaped without a touch and other gardens in the city have been unscathed. At the experimental farm the thermometer showed frost but there was no evidence of the visitation in the vegetable patches.

Era Meeker, the veteran pioneer who is on his way eastward over the Oregon trail with an ox team, will reach Twin Falls tomorrow or Sunday and remain here two days. The object of his trip is to erect stone monuments along the historic old road over which the pioneer emigrants crossed the country. He has erected a large number of monuments at different points, and he intends to put one up at Twin Falls, either at the old desert station or in the city park. He will take the matter up with the Commercial club.

Mr. and Mrs. James H. Richardson gave a "poverty party" last evening which took the palm for grotesque hilarity and furnished no end of amusement. The guests were invited to be in the hardest kind of luck and they dressed accordingly. M. J. Sweet's make-up was so clever that Mr. Richardson telephoned for the town marshal when he saw him coming. Mrs. Carl Hahn "made up" ingeniously as an elderly woman with the usual accompaniment of wrinkles and a face which completely disguised her. Mr. Sweet and Mrs. Hahn won honors for the best disguises. Those present were Messrs. and Mesdames Sweet, Thomas, Hahn, Eastman, Chamberlain and Boyd, Mrs. E. B. Williams and P. H. Smith. Mr. Smith had the nerve to wear a white collar and the other guests thought of disguising him. To get even they called him "Romeo."

The organization of the Twin Falls band will be perfected at the skating rink next Wednesday evening, May 23. A number of the local musicians got their heads together last Wednesday night and decided to form a band at once. Among those present were C. D. Thomas, John Eldridge, George Lacey, Carl Camp and Mr. Camp, Sr., who are all well known performers. The band will consist of brass instruments, two clarinets and two cornets. It is their intention to order 10 or 15 instruments and organize the band. They are already requested to attend the meeting next Wednesday evening and John H. Boyd, public sentiment is strongly in favor of the organization and the band will have hearty and substantial support. There are a number of excellent musicians in Twin Falls and it is proper to back and encourage the band which would be second to one in the state.

The Ladies' Aid society of the Presbyterian church will meet May 23 with Mrs. E. W. Davis at 3:30 o'clock. A 10-cent collection will be taken and all are cordially invited.

Ivan B. Rhodes, state secretary of the Y. M. C. A. of Oregon and Idaho, will be in Twin Falls on Monday night in the interest of the association. Mr. Rhodes will meet the business men and assist in the movement to erect a Y. M. C. A. building in Twin Falls. He will be cordially welcomed.

C. L. Reynolds and wife have recently arrived from the east and located at Filer, where Mr. Reynolds will assume the management of the Filer Hardware Co. Mr. Reynolds expresses himself as pleased with the outlook in this section and looks for a great future for the Twin Falls tract.

The lower bank of the dirt fill on the high line canal at the corner of Cedar street developed a leak on Tuesday night and the water was turned off until Thursday noon to permit of repairs. The damage was easily remedied and the canal is now carrying a full head of water to the range line south of Buhl.

Attorney P. W. Monahan has moved to Buhl, bag and baggage. Mr. Monahan will open an office in Buhl, having obtained permission from Pat Hall to establish himself in the city by the setting sun. Mr. Monahan will have the distinction of being the first attorney in the new town and Buhl will have another mighty good citizen.

C. C. Bedford's new fixtures will be installed in his new drug store this week and he expects to change quarters on Tuesday. He has a soda fountain so seductive in appearance that its attraction can be felt at Kimberly. It is said to be as busy as constructed that it will even respond to a wink. A public test will be given on the opening night.

The old Headquarters building on the corner of Tenth and Shoshone avenues is being torn down. Its removal causes pain of regret in the hearts of the sentimental pioneers who recall the days when they trudged through the dust to the Headquarters for their meals. The building was not exactly a relic of the past but it has been a place in the upbuilding of Twin Falls.

In undertaking the clearing of three quarters of section 22, township 9 S., range 15 E., Sam Swanson thinks he has a large undertaking on his hands. Besides the necessary clearing, a crop of 50 acres is being planted in alfalfa and wheat, and a small patch being devoted to alfalfa. Mr. Swanson is a Cooper's Alfalfa man and has leased his land from Grunberg Bros., well known of that section.

As a result of a sudden winter storm the corn crop on R. B. Hudson's four miles east of Buhl is a thing of the past. A fortunate peculiarity of the incident was the fact that two horses and a calf, tied within the structure, and a cow standing near the outside, escaped uninjured. The storm came up very suddenly at about 4 p. m. it being quite dark at the time, and lasted but a few minutes. The crash of the doomed barn building brought Mr. Hudson out of the house in a hurry, only to find no trace of the missing animals. He wandered about the yard. A new barn has already taken the place of the old one, typifying tract enterprise and energy.

Mrs. Olav Pearson died suddenly on Sunday night as the result of an unusual attack of severe vomiting due to poisoning. It was at first thought that potatoe poison was responsible for her death, but Dr. Patterson, the coroner, held the worst wound which showed that a blood vessel had been ruptured. Mrs. Pearson was ill only a few hours. She undoubtedly had eaten something which made her violently ill but would not have recovered in a short time had she not sustained a hemorrhage. The funeral took place on Tuesday morning at the Knights of Modern Woodmen and Carpenters' union joining in the ceremonies. Mr. Pearson has the heartfelt sympathy of a host of friends in his sad bereavement.

The Dick P. Sutton Novelty show will give three performances in Twin Falls next week, beginning with a matinee on Saturday afternoon. May 19. The show will be known as the Sutton Novelty show and whenever his name is behind a show no further guarantee is needed. The Novelty show has been playing the towns on the Short Line from Butte south and is conceded to be equal to anything on the road. It presents standard dramas and comedies and vaudeville and carries an animal turn that is a winner everywhere. The members of the company travel in the private car "Butte" while the scenery and tent is carried in a 60-foot baggage car. The show tent will be pitched on the railroad right of way near the depot.

The May party given by Mrs. W. A. Ring at the skating rink on Monday evening will be remembered as the most original and enjoyable function of the present season. The rink was lavishly and tastefully decorated. Surprises were scattered about profusely and the effect was splendid. In a very short time Mrs. B. B. Bittner, who in the fantastic garb of a fortune teller, scanned the horoscope of the guests. There was a suspicion that Mrs. Wolfe had been "fired" because her predictions all had that beautiful Twin Falls sunset glow. One of the striking features was the Maypole dance, in which a young person took part. The dance was given by Mrs. Bonanza, Miss Ash and Miller Evans. A piano solo by Miss Devere, a recitation by Miss Ella Robinson and a piano solo by Mrs. Hahn and Mrs. Evans. After the musical program the guests enjoyed a delightful dance. Then there was punch—very palatable and very insidious, so the men say. The trimmings that went with the punch were in harmony with the rest of the good things and the world looked very bright to the guests who are under obligation to Mrs. Ring for an exceedingly pleasant evening.

SEEDS—SEEDS

A complete stock of Farm and Garden Seeds at Prices that are Right at

The Filer Hardware Co.

FILER, IDAHO.

Teasler & Labsonier have repainted the front of their poolroom opposite the J. W. Steele block and it shows up in impressive style.

Robert W. Steele has purchased from F. E. Chamberlain a lot on Fifth avenue between Shoshone and Seventh street on which he intends to build a residence. Mr. Chamberlain also proposes to build on the adjoining lot, which he owns.

Strawberries are ripe at Blue Lakes, the first installment being picked yesterday. The fruit is far advanced and in very promising condition, and Bill, the giant rainbow trout, is faster than ever. The Boise visitors scored on William on Wednesday, but he shows no symptoms of indignation.

Peter Shankle is a believer in big things and is accordingly preparing a large portion of his land for cultivation. Of his quarter in section 31, township 13 S., range 14 E., Mr. Shankle has 100 acres cleared and broke ready for planting. Wheat and oats will be the principal crops.

E. A. Miner of Buhl was suddenly called to Chicago on Monday by telegram announcing the unexpected death of his wife. Mrs. Miner was preparing to start for Twin Falls when fatal illness suddenly overtook her. It was a terrible shock to Mr. Miner, who has the heartfelt sympathy of a host of friends.

A. H. Hellman and J. K. Hellman of Williamsport, Pa., and Charles G. Avery of Philadelphia, Pa., left for the city today after a short visit in Twin Falls. They invested in Twin Falls bonds some time ago and came out to look over the tract. They found it pretty as represented, in fact much better, and an additional evidence of faith they purchased town lots in Twin Falls and Buhl. The project, they said, was one of the grandest enterprises they had ever seen.

P. H. Smith drove over to one of his farms at Hansen last week and was followed by a stray dog. On the return trip the dog picked up a jack rabbit shortly after leaving Hansen. Mr. Smith did not have time to stop and allow the dog to eat the rabbit and the animal lugged his prize all the way to Twin Falls. Just after passing the city lights the dog was set upon by two other canines who took the rabbit away and chased his dogship half a mile. Mr. Smith said the expression on the poor dog's face was the personification of mind luck.

Norm W. Thompson, manager of the Palo Alto Stock Farm at Emmett, Idaho, was in town last week on business. Mr. Thompson is an old friend of H. H. Jacobs, John Peters and W. A. Ring. He said it seemed like home to him in Twin Falls. It pleased him deeply to find that his old friends were so well established and so highly esteemed and said that fact alone was sufficient to convince him that Twin Falls and its people were all right. Mr. Thompson said he would endeavor to breed dark colored draft horses as a compliment to Twin Falls.

Woody Seal and George Bassett will probably raise pigs this year on three-year-old trees. Mr. Seal has quite a number of trees which give promise of bearing, and Mr. Bassett likewise has symptoms of a small crop. Mr. Seal will also have quite a yield of cherries. His Elberta peach trees bore blossoms but carry no fruit. Of the thousand black walnut trees which Mr. Bassett grew from seed in 1904-05 the trees sprouted nicely last year. They were not nursed and he scarcely expected any of them to survive the winter, but they are a very indication of growing to maturity. They were damaged a great deal by the jack rabbits. Mr. Seal's fruit trees got a good start last year and they all came through the winter in fine condition. If the years mature this year it will be very encouraging to those farmers who have planted pear trees.

"A Family Affair" will interest you May 21.

Leave orders for ice on the slate at the O. K. barber shop, Tobin building, Jacobs & Tobin.

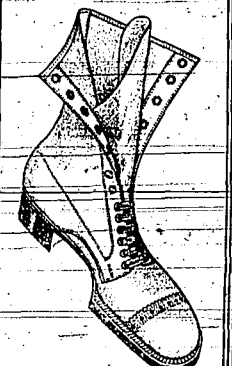

May 21—"A Family Affair"—at the roller rink. Don't miss it.

STATE NEWS

Ben Darwin, aged 30, was slain in a robbery on the Boise and Idaho Railway, near Kootenai, on Tuesday morning. Theories differ as to whether the dead man was killed by a bullet or by being clubbed over the head with a revolver or other weapon. The coroner's jury attributed the murder to Lamb.

A disastrous forest fire is burning within a few miles of Sandpoint. Sparks from the engines of the Great Northern train started the fire, which has now burned beyond all control and the ranchers of that vicinity are making efforts only to save their movable property. Several sawmills and many thousands of feet of poles and posts have already been destroyed.

The State Banking and Trust company is the name of a new banking institution to be launched in Boise in the course of the next few weeks. The new institution will have a paid-up capital of \$250,000, the greater portion of which will be owned by Boise people. The balance of the capital stock will be owned by Salt Lake capitalists, who, it is stated, are strong men financially and desire very much to secure the larger portion of the stock themselves.

The Boise and the Inter-Mountain Gun clubs are making preparations for a big tournament to be held in Boise on Decoration day. In addition to the "schutzenfest" it is the purpose to organize a state game and protective association. The following Gun-club members all over the state have been invited to attend the meeting and participate in the tournament, which will take place on the grounds at the barracks. A good sized purse will be put up and several trophies will be secured for the winners of different events.

An adjournment for 30 days has been taken in the Twin Falls desert land cases that have been before the register and recorder. The following are the contestants and contestees: R. T. Burke vs. S. B. Milner, H. O. Miller vs. Thomas Milner, A. P. Kosbarck vs. Helen Hill, Harry Colver vs. W. E. Porriño, Arthur Shields vs. S. D. Burton, T. A. Havelock vs. Truth A. Milner, F. Tassie vs. Silas D. Perrine, E. T. Wilkins vs. Adolphe Burton, H. Havelock vs. Lala Milner, L. T. Hardy vs. Hortense Perrine. Halley News-Miner.

Assistant State Engineer C. Spearman, who has just returned from a trip into Fremont county to inspect the work of construction on the Marysville canal project, has filed a very favorable report with the register of the state land office. He reports that there is no doubt but that the canal will be in readiness to receive water to all the lands segregated under the Carey act in that section by June 15. He says the contractor doing the work is under heavy bonds to have the work completed by that date. That he has all the material he will need to complete the job on the grounds, that he now has 30 teams and about 40 men working and that he will have 100 teams at work the first of next week.

Never before in the history of Idaho has there been such a demand for labor as now exists throughout every section of this state. The government work on the Boise-Payette reclamation project will call for every unemployed man in the commonwealth. The Marysville Canal company and the American Falls Canal company are both on the market for men and teams at good wages, and the Short Line is making superhuman endeavors to recruit a big force to rush construction of the Yellowstone park line. The Utah Construction company, which has secured the contract for grading the Short Line's route down the Snake from Huntington to Riparia, is also sending agents throughout the state in search of available horses and men. The government work on the Minidoka project, which this summer call for as many laborers as can be secured, and it is probable that the Big Wood river-irrigation enterprise will this season be inaugurated and require a large force. The sugar beet weeding and thinning season is in progress, affording practically unlimited opportunities for work. The construction of the Ogden Inturban line and the Utah-Idaho railway, the building of the Western Pacific and the heavy work in connection with the various railway enterprises in the northern part of Idaho affords a tremendous demand for skilled and unskilled laborers. "Half a million men wanted," might well be inserted by the northwest in eastern newspapers.—Pocatello Tribune.

Annual School Meeting and Election.

Notice is hereby given that on Monday, the 4th day of June, 1906, the annual school meeting and election in and for school district No. 27, of Cassia county, Idaho, will be held at the school house in said district.

At 1 o'clock p. m. of said day, at said school house, a meeting will be held to select a judge and clerk of election to determine whether or not the question of a special tax shall be voted upon at the election, and to fix the rate, and to transact such other business pertaining to the school interests as may come before the meeting. The polls will open one and one-half hours later, to-wit, at 2:30 o'clock p. m., and remain open until 6 o'clock p. m. of said day. One school trustee will be elected for three years in place of Mr. A. N. Sprague, whose term of office will then expire. Note—None but actual resident freeholders or heads of families of said district shall vote at such special tax election.

C. D. THOMAS, Clerk of School District No. 27. The first Monday in June is the time fixed by law. The polls must remain open not less than three hours. Post three copies of notice in public places, one of them at the school house, at least 10 days before election. Read section 42 of 1893 school law. One question to be discussed is "Centralized Schools and Independent Districts."

If you drink, drink Yellowstone.

CURRENT WORLD.

Vice Admiral Klemich, commander of the port, who was unemployed with the workmen, was assassinated in St. Petersburg on Monday by workmen whose May day demonstration he had attempted to stop.

Carl Schurz, widely known as a publicist and formerly cabinet member, died at his home in New York on Monday. Death was due to a complication of diseases following an attack of stomach trouble which became acute on Thursday last.

Ruben P. Nobokor, son of Reuben and Alice Nebeker of Willard, Utah, was struck on the temple by a pitched ball while playing baseball at the Agricultural College of Utah at Logan last Saturday afternoon and died from concussion of the brain. The boy was about 19 years of age, this being his first year at the college.

In Santa Rosa county, 10 miles north of Milton, Florida, an itinerant preacher named Ackerman, his wife and child, were killed on Monday night and their bodies cremated in their home, which was burned by the assassins. The citizens of Milton have offered more than a thousand dollars, which will be offered as a reward for the apprehension of the assassins.

An inquest was held in St. Petersburg on Tuesday on the body of Father Gapon, which was found, May 12, in an upper chamber of a lonely hotel. The inquest was held by Judge Margolin, the priest's lawyer, positively identified the body. An autopsy showed he had received a blow on the head. The theory is that Father Gapon, a terrorist leader, who is said to have lured Gapon to his death, felled him to the floor and afterwards hanged him.

The Traders' Insurance company of Chicago, one of the largest fire insurance companies of the west, is in the hands of a receiver as a result of losses aggregating \$748,000 in the San Francisco disaster. Byron L. Smith, president of the Northern Trust company, was named receiver. It is stated that the company's assets will not exceed \$3,300,000. In addition to its San Francisco losses the company has other debts and losses aggregating \$1,200,000.

After two sensational trials and eight years of the bitterest legal battle, Cordelia Botkin, the murderess of Mrs. J. P. Dunning, has been taken to the San Quentin, Calif., penitentiary to begin her sentence of life imprisonment. The sentence for which Mrs. Botkin is suffering was one of the most notorious in California. Madly infatuated with Dunning, she sent his wife a box of poisoned candy which was the cause of the death of the woman and one of her sisters in Delaware.

The three men captured by provincial officers near Quichenca, British Columbia, and supposed to be the bandits who held up the Imperial limited on the Canadian Pacific last week, have been taken to Vancouver where they will be tried. In the sharp fight between officers and the men captured one of the latter was shot in the leg. The old man of the trio is said to be Bill Mipor, notorious as a highwayman and train robber and with a price on his head larger than probably any other man on the Pacific coast.

A mysterious tragedy on an Oregon Railway & Navigation freight train near Foster, Oregon, is perplexing the authorities of that county. A car containing household goods and two horses belonging to Colonel S. W. Taylor, commandant at Fort Warren, was on the train when it struck a log after it had been cut out of the train. The alarm given by Private William Wilson, Twenty-fifth battery, coast artillery, who was en route from Fort Riley, Kansas, to Fort Warren as the custodian of Colonel Taylor's property. When William ran back over the train to notify the conductor that the car was on fire he said that while he was cursing the horses one kicked him, knocking him senseless, and when he recovered the car was on fire. The train's horses were loose and both were killed by falling to the ground. After the burning car had been cut out a body which may have contained the car was on fire or woman fell from the end of the blazing car. A physician says the body shows evidence of murder. While the train was standing at Foster a man who had been on the train stated that two tramps had been riding in the car and both had been burned to death. This man then fled. Officers who pursued him shot and killed John Conley of Pendleton, in the belief that he was the man wanted, but it is positively known that Conley was not on the train. Private Wilson has been arrested. He insists that he was alone in the car.

REVIVED MEMORIES OF PAST
(By C. D. Thomas.)
The Burley Bulletin of the 4th inst. brings the news of the death of George Warren, at the age of about 70 years. It does not say when or where he died, but when Mr. Warren left home about a month ago it was to return to his coal mines in the Goose Creek range. It is, therefore, likely that he was somewhere in Cassia county, and probably that he was alone in his cabin at the time.
George Warren was one of the few representatives of the State Land Board at Twin Falls, Idaho, on June 16, 1906, by two of the following witnesses: O. E. Vanhook, A. H. Vanhook, E. J. Wall, Walter Finley, all of Buhl, Idaho, and ARTHUR B. CHAFFEE, Entryman.

BUILDING BOOM ON AT BUHL

Several New Business Houses Under Construction.

BUHL, May 17.—Geo. A. McDonnell of Twin Falls has filed on 80 acres northwest of Buhl.

A lateral was built last week along the north side of the Experiment farm. Arthur Howell of Duluth, Minn., has filed on 40 acres near Buhl, to the southeast.

Horbert Osborne, a clerk at the Hotel Perrine, was in town Friday evening the scenery.

Frank Sorenson went to Twin Falls Friday for a few days' sightseeing. Incidentally he will "Boost for Buhl."

A Sunday school is soon to be organized in Buhl. Supplies have been ordered and the first meeting will be held in the near future.

Mrs. D. L. Barstow came out from Twin Falls last Wednesday, and the Barstow family are now nicely settled in their new place north of town.

Frank Bower of the Hotel Buhl went to Twin Falls the first of the week to meet his wife and family who were expected to arrive at work here.

Pat Hall, who has been directing the work on the new Hotel Buhl, moved back to Twin Falls Thursday. A few of Pat's men are at work here.

H. C. Sorenson returned from Salt Lake Friday. "Dad's" eyes stuck out when he noticed the growth the town had made during his 10 days' absence.

The Antimoney drug store expects to open an ice cream parlor this week and put a soda fountain in commission next week. Buhl is now looking on as a metropolitan place.

The centennial finished their work on Wilson & Patton's saloon building Thursday and returned to Twin Falls. Andy Wilson went in also to arrange for the shipment of stock, fixtures, etc.

W. A. Proctor arrived from Trompsen Sunday and left at once for his ranch 12 miles northwest of town. He has come prepared to clear up 100 acres this season and make other improvements.

Garden truck from the ranches down on Mud creek is now on the local market and seems to be of excellent quality. The growing season is well advanced on the ranches along Snake river.

The Antimoney drug store was moved into its new quarters on Broadway last week, and Messrs. Harris & Allen are now busy in the remodeling of their new place. They are very nicely situated in every respect.

Herman Anderson's billiard hall is receiving its finishing touches. The hall and paper and now presents a very fine and comfortable appearance. Mr. Anderson began business last week and has every prospect of doing well.

Jas. C. Ream has just finished his fishing tackle on the Hotel Buhl with a paint brush. Mr. Ream is quite an artist in his line, and so much work has been coming his way that he has found it necessary to give out contracts.

The Milner-Perrine Lumber Co. is erecting a large shed 200x100 feet at the rear of the hotel. Their office building and warehouse is nearly completed. A fine fireproof vault has been built for the safe keeping of books and papers.

The telephone line has reached Cedar draw and will probably be in Buhl this week. A branch line has been built to Filer and will be in operation. The rate of construction is very rapid, and shows that the company anticipates profitable results from the outset.

There is a large volume of water flowing in Cedar draw at present and the crossing will soon be impassable. If not repaired, there are other bad places in the route to the headwaters as high up as that at Cedar draw. It is up to somebody to see that it is repaired and soon.

Claud Brown, who is agent for the Denver & Rio Grande railway at Spanish Fork, Utah, was here last week and filed on a very fine quarter section about 12 miles southwest of Buhl.

Mr. Boyd, local manager of the Western Lumber Co., has just returned from a visit east will return this time to make his home here.

Mr. Boyd, local manager of the Western Lumber Co., has just returned from a visit east will return this time to make his home here.

Mr. Boyd, local manager of the Western Lumber Co., has just returned from a visit east will return this time to make his home here.

Mr. Boyd, local manager of the Western Lumber Co., has just returned from a visit east will return this time to make his home here.

Thursday-looking over the town. The first named gentlemen are capitalists who were returning from the coast and came to inspect the Twin Falls tract. Mr. Miller is the oldest son of the late S. B. Miller, and was looking after the interests of the estate. The gentlemen expressed themselves as pleased with what they saw and that this is a country with a wonderful future.

C. S. Peck of Okmulgee, I. T., who purchased the highest price lot in town on opening day, Mr. Peck is ranging to build a bakery on lot 6, block 99, on Broadway, between the Hotel Buhl and the State bank. The gentleman expects to come to Buhl to stay, having disposed of all his interests at Okmulgee and shipped his goods and chattels to this place. Mr. Peck, Jr., says he does not regret the price, \$1750, which he paid for the choicest corner lot in town, and is content with his bargain.

The weather conditions here Thursday were of the kind which "Jawa and Nobrak" creates the festive "twister" and the big thunderstorm. During the forenoon the temperature was very high, but about 10 o'clock oppressive clouds came in from the west. At about noon rain began falling along the Salmon river, and the storm came this way. No rain fell in Buhl, but a force dust storm made things lively for a few minutes. Some lightning was seen. While dust storms are a nuisance for the short time they last, more people here are turning to the eastern "twister" and thunderstorm.

Major McDonnell and wife went to Twin Falls Monday to reside permanently. Mr. McDonnell has been in the employ of F. W. Elkhoff for several months, and leaves to accept a better offer from the Bedford Drug Co. The major is going to live with Miss Mac. Also the people in the Elkhart ward, where politicians had him elected for alderman at the next city election. Mac will be succeeded by Mr. Wilson in the business way, and will no doubt become a social lion when he overcomes his besetting sin of bashfulness. He thinks a great deal of his little son and will be in society. However, Buhl people wish him success in every walk of life, and expect him to get enough of the Buhl in a short time and return to Buhl.

On Thursday forenoon workmen on the Wilson & Patton saloon burned a quantity of rubbish in the rear of the building and Buhl's first fire recently resulted. The fire was still smoldering when the dust storm came along at about 12:30. Shortly after fire broke out in a room in the rear of the building. Mr. Wilson and his helper. It is supposed that the wind blew coals into the building on the point where the fire broke out. The surrounding buildings, but for a few minutes a disastrous conflagration seemed imminent. But one barrel of water was available for fire fighting. It was used and the fire was burned, together with its contents. The total loss was about \$25. Extra precautions should be taken in the future. A fire of this kind is a blaze here are of necessity still somewhat crude.

"A Family Affair."

The first opportunity the people of Twin Falls have had of seeing a high class theatrical performance will be presented next Monday evening at the Roller Rink when the Home Dramatic company will present "A Family Affair."

"A Family Affair" is one of Mr. Townsend's most popular comedies, and wherever it has been produced, either by amateurs or professionals, it has met with universal and pronounced favor. P. Pike has charge of the play, and associated with him are people of pronounced stage ability, and a glaze at the cast of characters will verify this statement. Following is the cast: Mrs. Walter F. Pike, Miss Nellie Ash, Mrs. Paul V. Robinson, Louisiana, "Chas. H. Mull, C. E. Cole, Bob Hays.

We are informed that "Louisiana" is one of the new comedies that just arrived, but not having met the lady of color we can't give her name. She will, however, be pleasant to meet Monday evening—formally, informally or otherwise.

On the whole, the performance at the Roller Rink Monday evening promises to be the very best of its kind that has ever been given here, and being the first performance by a home troupe, will doubtless be attended by the citizens generally. Tickets can be purchased at the Y. M. C. A. reading room, the Roller Rink or the drug stores.

Come to the Roller Rink Monday evening, May 21, and laugh all the rest of 1906.

A laugh is the best cure for the blues, and you can have it if you will come to the Roller Rink Monday evening, May 21.

If you want to keep solid with that best girl, don't fail to take her to the "Family Affair" at the Roller Rink Monday evening, May 21.

Lands Wanted.

To supply a demand from some clients, we have a list of good lands that can be had at right prices.

SWEETLEY & SWEETLEY, Twin Falls, Idaho.

SOMETHING DOING AT FILER

Telephone Connection Established—Many New Business Houses.

FILER, May 17.—W. E. Mack is a recent arrival from Toppah, Wash. Mr. Mack is a practical irrigator of considerable experience with new land and has secured employment with E. H. Kogge of Twin Falls.

Nels Lind, who was recently on the sick list, is again able to be about his work.

H. H. Springston, who came into Filer two days last, spring carrying his bed on his back, is the happy possessor of 40 acres of as fine land as there is on the Twin Falls tract.

E. H. Kogge of Twin Falls, who has a motor mill and tank and will have it erected as soon as the stream can be completed. This will be used for temporary domestic water supply until a pipe line can be laid from Cedar draw reservoir, two miles south of town.

Mr. Reynolds of the business firm of Triplett, who arrived from Peoria, Ill. last week, Mr. Reynolds has purchased residence property near the park and will erect a neat home and commence housekeeping, which, by the way, is something new to him as well as the country.

Harris Triplett, successor to the Filer Hardware Co., contemplates the erection of a large addition to his present building and will, so soon as the same is completed, carry in addition to hardware a stock of harness, vehicles, implements, furniture, etc., and an up-to-date line of general merchandise. It will be one of the largest stocks carried by any firm on the Twin Falls tract. He has on hand at present a large stock of alfalfa, clover, timothy, grass, grain and other seeds. Mr. Reynolds will manage the hardware, vehicle and implement department.

E. G. Walter, formerly of Boise, will manage the harness, shoes and repair department. His stock of leather and tools has been ordered and is already arriving. Messrs. Triplett, Reynolds and Walter are all men of considerable business ability and will make a strong firm.

Vannatter & Crabb of Lind, Wash., have purchased both business and warehouse property. They will establish a large general merchandise business, probably handling a meat market in connection.

Bailey, Keith & Co. of Spokane, Wash., have purchased property for warehouse purposes and will look after the people's wants by carrying a full line of general merchandise.

J. B. Pierce has opened a retail liquor establishment in the Jones building. He promises a clean, orderly house.

Messrs. H. B. Lorain, A. D. McKinlay, Will Higginbotham, Felix Vennersstrom and Wm. Spencer were Twin Falls visitors Saturday.

The farmers in this vicinity are clearing the brush from the roads adjoining their properties and bridging their laterals and irrigation ditches so that the cross the public highways. Commendable, indeed, let the good work go on.

Carl Murphy has rented his place to Mr. McLean and left for unknown parties to return with a bride. The young bachelors in this vicinity have been surprising us so often of late that we are getting suspicious.

Pioneer Star was recently advised that the Filer postoffice has been designated as a money order office, and the business done in that department has been brisk from the start. It certainly fills a long felt want.

Our esteemed neighbors of Maroon are a progressive, up-to-date people. Some of them have the finest farms in the country. They have cleared 100 acres of land, roads cleared and bridges built.

Nels Lind has one of the nicest looking farms west of Rock creek. E. Sommers has 20 acres of the finest spring grain in the country.

We have a telephone! Hello, Filer! Twin Falls greeting. Call us up and let's have a social chat.

E. H. Rettig has secured the signatures necessary for opening a public road on the half section lines in sections 5 and 17, and arrangements have been made for opening a road paralleling the railroad right of way as soon as the same is completed.

Fence posts for sale by Pioneer Storage & Commission Co.

Just received, car of corn and one of shorts. It is cheaper and better for stock than oats. Pioneer Storage & Commission Co.

Correct Surveys.

Having secured a copy of the original field notes and plats for the entire C. W. V. Survey, we are prepared for Idaho, is in a position to set all obliterated corners correctly and place same on record if desired.

T. J. Woods & Co. can find "the other fellow" that wants to buy your real estate.

Your visit to Twin Falls will not be complete unless you see Shoshone falls. The water is high and the spectacle is grand just now.

For Moline implements call at Pioneer Storage & Commission Co. Fifteenth avenue, near Shoshone avenue.

BOISE EXCURSION.

Continued from Page One.

Chant of Caldwell, men who appreciate what irrigation means, said the project was grand and would work a wonderful transformation in a very few years.

C. B. Adams of the Boise Evening Capital News, who accompanied the Commercial club excursion, said the trip and the Twin Falls tract:

"This excursion has been the greatest success in every way. The excursionists were met, each place by delegations of citizens and made welcome. The Twin Falls reception and entertainment could not have been improved upon in any way."

"The visitors are delighted and amazed at what has been accomplished here in little over a year. Green fields of alfalfa, wheat, oats and other cereals greet the eye in every direction and extend so far the limit is only bounded by the horizon. Comfortable farm houses have been built, and their frequent indications the farm unit is generally not more than 80 acres—Wash. enough to float a good sized steamboat flows lazily down the main canal, but when it reaches the lateral hurry-up, orders seem to prevail and the little streams take on a different gait. In some instances the main lateral—a small canal, but with strong bottom over which the water flows as if in mad haste to get back to the Snake river. From these large laterals hundreds of smaller ones lead out, each one of them that has been changed as if by magic from a barren desert to fertile fields."

"In driving along the smooth highway a great many fine appearing orchards are noticeable, and shade trees without number have already relieved the monotony of the landscape and added to its beauty. It is safe to say, from present appearances, that in a few years these broad acres known as the Twin Falls tract will look more like a great city park than an ordinary farming community. The visitors seem to understand the value of trees and are planting without stint. While the appearance of the country has been a surprise to the visitors, the cause over more comment. From Burley to Buhl on the Twin Falls tract every few miles finds a bustling, bustling village, with Twin Falls the metropolitan city, which will have not two years old putting on and wearing becomingly the airs of a city. Wide streets, substantial buildings, miles of good electric lines, some of the finest things noted. The Hotel Perrine, good enough and large enough for the ordinary city of 10,000 inhabitants, is elegantly furnished and equipped for the comfort of its guests. Very soon the town will be lighted by electricity, and an electric railroad will be completed to Shoshone falls, a distance of five miles, which will make this place the necropolis for all western tourists."

"The people here are truly cosmopolitan. They have been a sample of the best from several states, and for hospitality they put to shame the best in the southland. They are proud of the resources of the tract, and confident of its great future. They are so thoroughly in earnest, the spirit becomes contagious, and the visitor soon finds himself a convert to the optimistic view of the future. And before he realizes it, he is singing the praises of the magic city and its fertile surroundings."
