

# TWIN FALLS NEWS

VOLUME 11

TWIN FALLS, IDAHO, FRIDAY, JUNE 1, 1906.

NUMBER 32

## LIBERAL SUBSCRIPTIONS FOR TWIN FALLS FAIR

Indications Are That More Than \$3,000 in Cash Prizes Will Be Distributed. In Addition to a Number of Special Premiums—Farmers Will Be Encouraged to Compete—Twin Falls Merchants Make Generous Response to Request for Funds.

Twin Falls will have a fair this fall which, if measured by its value in dollars and cents, to the farmers and townspeople, will rival the state fair in Boise. Although the work of canvassing for funds may be said to have nearly begun, approximately \$2,000 has been pledged and the promoters confidently assert that not less than \$3,000 in prize money will be distributed. So favorably have the plans for the big fair been received that the suggestion has been made that Twin Falls join hands with other towns in the vicinity in celebrating the Fourth of July and invite them to co-operate in making the fair a success. That a successful fair would be of vast benefit to the city and the tract is beyond question, and from the manner in which the business men of this city have taken hold of the project there can be no doubt regarding its success. Moreover a magnificent exhibit of agricultural and horticultural products is assured. It only remains for the promoters to make the prices sufficiently attractive to induce the farmers to compete and that is precisely what is contemplated. The idea is to make it an object for every farmer to bring in his best products and stand a fair chance of carrying away a prize which will recompense him for his trouble.

The business men have responded liberally to the request for funds. Up to date the following subscriptions have been obtained:

Twin Falls Land & Water Co.	\$500
Twin Falls Investment Co.	300
I. B. Perrine	100
McCormick & Co.	100
First National Bank	100
C. L. Parsons	100
C. C. Bedford	50
W. B. Benson & Co.	50
W. H. Bros.	50
Maio Lumber Co.	25
Piller Coal Co.	25
Castelle Grain Co.	25
Sprague's Pharmacy	25
Wester Lumber Co.	25
Hotel-Perrine	25
Twin Falls Lumber Co.	25
Pacific Hotel	15
Total	\$1,565

In addition to the above, several other subscriptions have been promised and there is little doubt that the aggregate sum will exceed \$3,000. In addition to the cash subscriptions, a large number of valuable special prizes have been tendered. Every indication points to a grand exhibition which will demonstrate the productivity of the tract and the enterprise of the settlers.

**BASEBALL PLAYERS ENTERTAIN**

Kimberly Sphere Jugglers Prove to Be Good Hous.

KIMBERLY, Idaho, May 31.—The dance given by the boys of the baseball team on Friday evening was one of the most enjoyable dances given here. Notwithstanding the stormy weather there was a good crowd. Rock Creek young people turned out in force. Everyone present declared the evening a delightful one and the boys felt well repaid for their labor.

The blacksmith shop recently opened by J. O. Loe of Twin Falls is doing a good business.

James M. Young left Sunday for

would be guaranteed by the league and would carry more weight than otherwise by reason of this fact. The address of Dr. Stevens was listened to with much attention and he was warmly applauded at the close. A number of members of the local club expressed their views in sympathy with that of the guest of the evening. The hall was well filled, although many were unable to be present on account of business engagements. J. J. Stevens presided over the meeting and introduced the speaker in a happy address.

### REMEMBERED HIS NAMESAKE

M. M. Murtough Gives Fat Check to Murtough Sunday School.

MURTAUGH, May 31.—Miss Lala Emanuel and Mrs. M. M. Murtough spent Sunday in Twin Falls.

M. M. Murtough, formerly assistant general manager of the Twin Falls Land & Water Co. and now chief engineer for a big light and power company in Brazil, and after whom Murtough Sunday school was named, was in town Sunday and was remembered by the Murtough Sunday school with a kind letter and a liberal check which is greatly appreciated.

Rufus Haggan and Chester Stephenson spent Sunday in Murtough. Crops in this vicinity are doing splendidly.

The annual school meeting will be held on June 4 at the home of W. E. Jacks.

The new water tank which the Short line is building here is nearing completion.

### HANSEN DISTRICT IS INTACT

No Change in School Boundaries.

That Section.

HANSEN, May 31.—D. D. Sherer is spending this week in Twin Falls. John Babcock was a Rock Creek visitor last Wednesday.

John Babcock has been on the sick list for the few days.

Will Lytle is assisting on the McMaster ranch this week.

C. J. Donmore of Rock Creek was an early Sunday passenger from here last Monday.

F. M. Towne returned last Friday from Yakima, where he had been for a couple of weeks.

Miss Gertrude Walton spent a number of days of last week visiting friends in Twin Falls.

Mr. E. G. Galloway and mother, Mrs. Galloway, left this week for a sojourn in Mexico.

H. Lacourse and G. L. Redhead have been assisting on the Dick Smith ranch for a number of days.

D. V. Beck moved his family to Twin Falls last week where Mr. Beck has been engaged in painting for some time.

Last Sunday evening Mr. and Mrs. H. A. Andrews entertained a number of their friends at dinner. The guests were: Mr. and Mrs. F. M. Towne, Misses Fern and Ethel Towne, Miss Almida Roberts, Will Lytle and Arthur Towne.

Recent visitors in Twin Falls are included in the following: Mrs. J. R. Hinton, Mrs. A. R. Wilford, Mr. and Mrs. F. M. Towne, Geo. Dechay, J. H. Gleson, J. McCarthy, Charles Upson, W. E. Morton, William Baker and F. R. Baker.

Mr. Walker, who had been teaching the Rock Creek school, which closed last week, is now residing on his ranch south of here, busily engaged in putting his land under cultivation.

G. W. Osterhouse went to Pileas last week, where he intends remaining a few weeks.

Among the stage passengers to Rock Creek this week were: Mrs. Kild from Rupert, Charles Rainwater and Mr. Welsh from Boise.

It has been reported that the Hansen school district intends to remain an independent district, and we consider it an injustice to us to be reported otherwise.

### RECLAMATION SERVICE TRIES TO WORK ITS FAITH CURE

A big fight, which may involve the government reclamation service in a scandal, is now on between S. J. Lingie of Denver, owner of the Whalen lands, and the government engineer in charge of construction of the Interstate canal in northern Idaho, near the town of Pocatello, Idaho.

Over a year ago the government entered into a contract with Mr. Lingie, by which the latter was to furnish water through a section of the Whalen lands or Lingie ditch.

Under the agreement between Lingie and the reclamation service, the latter state canal, through the Carey lands, controlled by Lingie, who is operating under the Carey act, was to be completed by the first of May. The inspectors of the reclamation service had a big celebration at the head of the canal at that point in the canal and it is estimated that it will take six weeks or two months to complete the particular portion. Yet the government inspectors claim the canal was not finished on the first of May. The question now is between the government and the Carey act, as to how it is to be done to furnish the irrigators under the canal with water. There is a contract entered into between Lingie and the reclamation service, which is under this special contract the canal had to be finished by the first of May. The reclamation service, in order to have it finished, was to pay a bonus of \$75,000. The question now is as to whether the money goes to the contractor and the government is liable for damages to Lingie.

## CORRUIGATION METHOD OF IRRIGATION IS FAVORED

Superintendent McPherson Considers It the Most Economical and Efficient for This Tract—Explains His Reasons for Believing That It is Superior to Flooding, Especially on New Land—Approximate Cost of Preparing Land for Water for the First Time.

When questioned regarding the common methods of irrigation on the Twin Falls tract, Superintendent McPherson said:

"There are only two methods by which water may be applied to land on this tract, by flooding and by corrugation. As far as the cost of the year's cultivation is concerned, corrugation is much the better. There are some objections offered to the corrugation method by those who are used to the flooding system, but after a little experience on this tract all will agree that if the corrugation system is properly established it will prove the most economical and effective. I would advise the corrugation system at all times on all temporary crops. Of course, in a permanent meadow, where there is no danger of washing, flooding can be resorted to, but even then the corrugations are a great aid in the distribution of water.

"How would you proceed to irrigate a new field by the corrugation method?"

"First, I would run the corrugations or small furrows 30 inches apart in the direction in which the water is intended to flow. As soon as this is done I would run my cross ditches at right angles with the head ditch or supply lateral, if possible, from 300 to 500 feet apart. These would cut checks in each cross ditch, the distance apart to be governed by the fall of the land. The sharper the pitch of the land, the more checks are necessary. However, I would remark here that all ditches should be run with an 'L' grade as possible. The checks should be constructed so that water will flow down and not over the sub-lateral. The checks should be put in at regular intervals and the water should be raised with the spirit wheel as high as would do so that the water would be raised to a level. To divert the water from the cross ditches into the corrugations I favor the use of lathe boxes. Each of these little boxes will supply from one to three corrugations, the number depending upon the pressure from the cross ditch and the length of the corrugation.

"How do you make these lathe boxes and what do they cost?"

"Four lathe boxes will make two or three boxes, according to the length required. The four lathe boxes are simply nailed together in the form of a square and the lathe boxes are placed on a level line in the bank of the cross ditch so that they will all receive the same pressure. If they are kept clear they will remain in position for service indefinitely. Lathe cost \$5.00 per thousand. Corrugations cost \$1.00 per thousand. Allowing one box to each corrugation, 500 boxes would extend clear across a 40-acre field. If each box were to supply two corrugations, 250 boxes would be required, and allowing one box for three corrugations the number would be correspondingly less. A 40-acre field would require 100 boxes. The length for irrigation in order that the water may not have to be carried too far, and that perfect saturation may be obtained, is 100 feet. More money would be needed, allowing one box to each corrugation and a corresponding less number if each box answered for two or three corrugations. When the check gates and lathe boxes are once set in place and the land is properly graded, irrigation is no longer a matter of merely a question of opening and shutting check boxes, or gauging the height of the water by the splashboards. Under this system irrigation becomes automatic. See that you are, of course, that the land is properly laid out so that the water has uninterrupted flow and perfect irrigation is obtained. More money is wasted every year and more damage is done to the fields in trying to irrigate land which is not properly prepared than would be put in first-class corrugations every acre of land on the tract. It pays to take time and do things right in the beginning. Remember the old adage that water will not run uphill nor will it jump over obstacles in the field. Water is a good servant when properly controlled, but a hard master once it gets out of the gutter. See that your land and your ditches are right before you begin to irrigate. There are other methods than that which I have outlined, but the same results may be obtained, but I believe the one I have described is the cheapest and best for this tract at least for the present. When flooding is practiced on new land water is hard to control, the cost of labor in irrigating is increased and the danger of washing is greater. Moreover, it is dangerous to attempt flooding at night, whereas by corrugation, water can be applied at night as well as by day, and the resulting benefits are a greater area irrigated, no damage from washing and no man can irrigate by corrugation as much as can five men by flooding.

### DANCE IN BUHL NEXT FRIDAY

First Social Event in the "City by the Setting Sun."

The first communion in the social life of Buhl will occur next Friday evening when a grand ball will be given in the new hotel. The Hagerman orchestra will be engaged for the occasion and there will be some lively foot work. Supper will be served in the ball room and none of the old-fashioned dancing will be suffered. The Bowen boys are primping up for the occasion; it is said, and Brother Sweden, who has recently received some new and beautiful packages from his brother, the engineers, will be there, that is a clench. They could not be away with a thought of Buhl. It is reported to be suffering from rheumatism but it is a safe bet that he will not miss many numbers. Anton Anderson has a new outfit of new and fancy things and he will show the young bucks some new and fancy steps. Harris and Osgood are reported to be in training, and Ralph Coe is wearing out a section of floor in the new bank practicing the two-step. Jack Shank and George Dunn are said to be in the line of farmers, and it is predicted, spring a surprise. From Coeur d'Alene there will be a jolly delegation and Twin Falls will supply the number of representatives. It will be a great dance and nobody can afford to miss it. F. S. Marshall and F. W. Elkhoff are to be floor managers. Enough said.

### ADVERTISED LETTER LIST

List of letters unclaimed in the post office at Twin Falls, Idaho, for the week ending May 27, 1906:

None. Mrs. Van Broadbent, Joseph Brown, John Cunningham, E. DeVries, Mrs. Madam (2) Holter, Sam. J. Isaac, R. F. Noveck, Francis Novack, Amador Patterson, T. S. (Parcel) Patterson, Peter Peterson, Peter Planch, J. A. Rutherford, W. L. Salsbery, W. H. Schlecht, Joseph Taylor, Mrs. Maud Taylor, B. H. Wilson, J. W. Wolfram, Aaron Wool, Emmet, (Parcel).

When calling for the above letters, please say May 27, 1906.

W. W. DUNN, Postmaster.

A business can go without advertising---so can a wagon go without grease, but in both instances it goes hard.

New ideas are being brought out in Wash Goods daily. They are added to our line almost as soon as produced. Keep in touch with this department if you want the new things as they come out.

Just received---A New Line of

**Ladies' Linen Suits and Neckwear**  
at prices that will surprise you  
**Shirt Waists Muslim Underwear Wrappers**

Next Week---A Full Line of

**Courtney's Full Vamp Shoes**

Ladies', Men's and Misses

Gold Leaf Coffee Free for One Week

**OSBORNE & FEELEY**

"The Home of Good Goods"

Notice is hereby given that by virtue of the authority vested in, and the duty required of me by sections 109 to 117, Sections 109 to 117, of the State of Idaho, I will on Monday, the second day of July, 1905, commencing at 10 o'clock a.m., offer for sale, in front of the courthouse at Albion, Cassia county, Idaho, the following described property, or enough thereof to satisfy the taxes and costs assessed thereon for the year 1905, together with any personal taxes for which the same may be liable, as shown by the following statement. The sale will continue from day to day until the same is completed.

## ORDINANCE NO. 25.

An ordinance providing for an advisory Board of Health, prescribing duties of Health Officers and for the restriction and prevention of contagious diseases, and providing penalties for the violation of this ordinance or the rules and regulations of the Board of Health.

Be it ordained by the Chairman and Board of Trustees of the Village of Twin Falls:

Section 1—There is hereby created in this, the Village of Twin Falls, an advisory Board of Health, consisting of three physicians, who shall be chosen by the State Board of Medical Examiners to practice medicine within the state.

Section 2—It shall be the duty of said advisory board of health to meet at least once each month, and at such other times as may be requested by the health officer or board of health, to advise the health officer in the performance of his duties, and make such rules and regulations as in their judgment the interests of the public health require, and after approval by the Board of Trustees, to cause the rules and regulations of the board of health of this village.

Section 3—Said advisory board of health shall be appointed by the Mayor and Board of Trustees as follows: One physician to be appointed for the period of three years; one for two years and one for one year, and one to be appointed annually thereafter. Provided, however, that any one of said appointments may be removed at the pleasure of a majority of the Board of Trustees.

Section 4—The physician receiving the appointment for the first three years shall be the health officer of said Village for and during the period of one year, unless sooner removed by the Board of Trustees.

Section 5—All orders relating to the public health shall be in writing and issued by the board of health through its executive officer, and shall be signed by him, and all notices and orders issued by the board of health

shall be signed by the health officer and shall be served by the city marshal or by some member of the police force. And said health officer may issue all orders necessary for the purpose of carrying out the powers conferred and the duties imposed upon the board of health; provided, that in the case of sickness of the health officer, or if from any cause he is unable to act, then all the duties of the health officer shall be performed by some member of the advisory board of health, to be designated by the Chairman of the Board of Trustees as health officer during such absence or inability to serve.

Section 6—The health officer is hereby authorized and empowered to execute and carry out all existing laws, and such laws as may be hereafter passed by the general assembly of the State of Idaho, or the Board of Trustees of this village, which confer any power or require the performance of any duty in connection with the health of the village of Twin Falls. The health officer as executive officer of the board of health is authorized to enforce all rules and regulations adopted by the State Board of Health now, or that may be hereafter adopted, and all rules and regulations adopted by the Board of Trustees, and the rules and regulations of the board of health of this village.

Section 7—It shall be the duty of the health officer to cause a notice to be served upon the owner, occupant or agent of any property, place, building, to remove any nuisance, source of filth or cause of sickness, found upon any private property within such reasonable time as may be designated by him; and if the owner, occupant, or agent fails or neglects to comply with such notice he shall be fined not to exceed twenty dollars for every day which he fails or neglects to remove or permit such nuisance, cause or probable cause of sickness to remain after the time prescribed in such notice for the removal thereof.

Section 8—If the owner, occupant or agent fails or neglects to comply with the notice mentioned in section 7 hereof, then the health officer may enter the nuisance, source of filth or cause of probable cause of sickness to be removed, and all expenses incurred thereby shall be paid by the owner.

occupant or agent, or other person neglecting to comply with such notice, shall be liable to be recovered by civil action.

Section 9—The health officer shall have the power of a public officer in the enforcement of this ordinance and the rules and regulations of the local or State Board of Health.

Section 10—It shall be the duty of all police officers to observe the sanitary condition of the village, and to report to the health officer promptly any nuisance or accumulated filth found in any portion of the corporation.

Section 11—The health officer shall receive from the village as compensation for the performance of his duties One Hundred Twenty Dollars per annum, payable in monthly installments.

Section 12—It shall be the duty of every physician residing in and practicing within the limits of said village to give written notice to the health officer immediately of any case of small-pox, diphtheria, scarlet fever, measles, typhoid fever, typhus fever, malarial fever, or other diseases dangerous to public health, that he may be called to attend professionally, and any physician who shall neglect or refuse to give such notice as herein required within twenty-four hours after he shall first visit and ascertain the character of any such disease herein named, shall be fined not less than ten dollars for more than twenty dollars for each and every day he neglects to give such notice. In all cases where there is no physician in attendance, it shall be the duty of any person having charge of the person or persons of the family, or having the care or custody of any hotel or lodging rooms, to give such notice in like manner as required hereof by physician, and such person shall be liable for neglect or refusal so to do.

Section 13—It shall be the duty of the health officer immediately on receiving notice of the existence of a case of contagious disease, as mentioned in the preceding section, to take such measures as may be necessary for the proper restriction and suppression of such disease, and investigate all the circumstances attendant upon the occurrence of the same, and in case the health officer shall be in doubt as to the true nature of the disease, or for other good reasons, he shall call to his aid the advisory board of health, with which he shall confer with reference to the proper course to be pursued for the public safety. And it shall be the duty of the health officer to cause the premises on which such disease shall have occurred, together with all infected furniture, bedding, clothing and other articles, as provided by the health officer.

Section 14—Quarantine shall be deemed to be:

- 1—The placing of a card not less than eight by fourteen inches in size, having printed thereon the name of the disease in large letters, upon such conspicuous place in each building, hall, lodging room or place wherein exists a contagious disease, as will best protect the public health.

- 2—The separation of the sick from all other persons, if possible, except the members of the family, the attending physician and nurses.
- 3—That no person shall leave such premises except the attending physician, without the permission of the health officer.
- 4—That no article that has been used on or about the sick with a contagious disease shall be removed from the sick room, nor from the premises, until the same has been properly disinfected.

- 5—That when nurses are employed to care for the sick, they shall not be permitted to leave the premises during such employment, and where neighbors, relatives or friends serve as nurses, they shall not be permitted to leave the premises without previous change of clothing, proper disinfection and permission of the health officer. Any person who shall violate any of the provisions for quarantine, as defined in this section, shall be fined not less than twenty-five dollars for each offense, or be imprisoned for not less than ten days.

Section 15—Quarantine shall be established and maintained in each and every case for the period named herein, to wit:

- Small-pox, forty days.
- Scarlet fever, thirty-five days.
- Diphtheria, thirty days.
- Membranous croup, thirty-five days.

And all other contagious diseases at the discretion of the board of health.

Section 16—Upon notice being given of the existence of any of the diseases named in the preceding section, the health officer shall cause a card having the name of the disease printed thereon to be fastened upon some conspicuous place of each building in which disease prevails, and card to be maintained during the existence of the disease and until the premises have been properly cleaned, disinfected and purified and until quarantine shall be released by the health officer.

Section 17—If any person shall willfully or maliciously remove, permit or neglect or cause or permit to be removed or placed upon any quarantine premises, without the proper authority as provided herein, he or she shall be fined not less than twenty-five dollars.

Section 18—During the existence of any contagious or infectious disease in any family or household, or place in this village, and until after recovery of the sick, and the disinfection of the premises, no person residing in such household family or place, shall be permitted to attend school, nor any public place, without the written permission from the health officer, and no superintendent, teacher or officer of any school shall permit any child or person from such household family or place to attend any school without a permit signed by the health officer, showing thorough disinfection of the person, clothing and premises. And any person who shall knowingly violate any of the provisions of this section shall be fined not less than twenty-five dollars, or be imprisoned not less than ten days.

Section 19—Whenever there is complete recovery of persons who have been sick with a contagious disease, and there is no further exposure thereof, the quarantine may be released by the health officer, although the period

prescribed in section 15 hereof has not elapsed; provided that no person of quarantine shall be permitted until proper disinfection of person and premises has been made.

Section 20—No order for the release of quarantine shall be made by the health officer until he is satisfied that all the provisions of this ordinance have been complied with. The attending physician of a person having charge of the sick shall on recovery of the sick transmit a statement to the health officer stating the cause of the disease, and whether covered, and it shall be the duty of the health officer to satisfy himself that this has been complied with, and so satisfied he shall at once release the quarantine; but in case he finds that this ordinance has not been complied with, he shall order the same to be complied with, under his direction, and the expense thereof shall be paid by the village, if the sick or the persons having charge of the sick, are unable to pay for the same.

Section 21—The body of a person who has died from any contagious disease shall not be removed from the sick room until it has been wrapped in a cloth saturated with a solution of corrosive sublimate one ounce to six gallons of water, then tightly enclosed in a coffin. The body then shall be buried immediately without the attendance of any person other than is necessary for the internment thereof, nor shall any child be permitted to act as a pall-bearer or carrier at such funeral. And any undertaker or other person having charge of or direction of the burial of any body dead from any contagious disease who shall violate any of the provisions of this section shall be fined not less than twenty dollars, at the discretion of the court.

Section 22—If any person, whether an owner, occupant, or agent, shall rent or lease, or permit to be occupied by any person, any house, room or place in which there has been or cause of the contagious disease named herein, or in which any person has died from tuberculosis, unless the same has been previously disinfected, and such disinfection approved by the health officer, he shall be fined not less than ten dollars, nor more than one hundred dollars.

Section 23—After the death or recovery of any person from a contagious disease, the room, furniture and other contents not to be destroyed, shall be thoroughly disinfected under the direction of the health officer.

Section 24—No person shall give, lend, sell, or offer for sale any clothing or other article liable to convey infection of any contagious disease, unless the same has been disinfected, and such disinfection approved by the health officer.

Section 25—The health officer is hereby empowered to visit or cause to be visited any and all private and public schools of the village and make or cause to be made an examination of the minors and children in attendance thereat, as often as he may deem necessary to secure a complete visitation.

Section 26—Any person failing to comply with any order issued by the health officer under the provisions of this ordinance, shall be liable, by interfering with the board of health, or any of its representatives in the performance of its proper duty, shall be liable to a fine of not less than five dollars, nor more than fifty dollars.

Section 27—All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

Passed this 28th day of May, 1906.

S. T. HAMILTON, Chairman.

I. R. DARROW, Clerk.

OREGON SHORT LINE.

Annual Teachers' Excursions East-bound.

From all points on the Oregon Short Line in Idaho round trip excursion tickets will be sold on May 26, June 1, 2 and 16 at one lowest first class fare, plus 7¢, to points in Minnesota, Iowa, peninsula of Michigan, Illinois, except the part east of the line of the Chicago & Eastern Illinois railroad Chicago to St. Louis; that part of Missouri on and north of the Rock Island railroad from St. Louis to Kansas City; South Dakota; that part of North Dakota east of the meridian at which the Missouri river crosses its southern boundary line; Kansas, except that part east of the Santa Fe and San Francisco railroad from Kansas City to Fort Scott; thence through Girard, Herkner and Baxter to and including Galena, Kansas; Nebraska; Colorado, east of and including Colorado company points, Denver to Trinidad inclusive; also to Memphis, Tenn. Transit limit 15 days in each direction; final limit October 31. Stopovers allowed only at and west of Missouri river points. The same rates will apply on tickets sold at Idaho points on May 26 and 28 for the Western Federation of Miners' meeting at Denver, May 28 to June 16. Transit limit five days in each direction; final limit 15 days from date of sale. For further information inquire of

## ROADS AND BRIDGES.

Something should be done toward improving the roads and bridging the intervals on the west end of the tract. Farmers are having great difficulty in getting their building material and effects on their lands, and their farm work is being held back in consequence. Water is gushing in torrents down all the coulees, the banks of which are almost bottomless. The larger laterals, of which there are miles and miles, spread in every direction and are almost impassable. The smaller laterals are also very dangerous to cross at this time of year. In short, the farmers are having a rough time in getting to and from their lands, and the proper authorities should immediately take steps to open a few roads at least. The Rock creek crossing west of Twin Falls is sadly in need of repair and it might not be out of place for the Twin Falls Commercial club to look after it, or at least stir up those responsible for its maintenance. Cedar draw has been bridged by I. B. Perrine, but there are other coulees west of there over which bridges should be built without delay. In the vicinity of Buhl it is almost impossible to travel in any direction with a load. Section lines have not been opened up and the question of transportation is serious. In view of the proposed division of the county it is doubtful if the commissioners can be induced to do anything for the Twin Falls tract this year in the way of road work. The farmers are too busy at this time to pay much attention to roads and bridges, and besides, they cannot be expected to do more than their share. If they bridge their own laterals they will do well. The many laterals are serious obstacles and it is imperative that they should be bridged at once. Similar trouble was experienced on the east end last year and a remedy was found in united action. The same experiment might be tried on the west end.

## CURRENT WORLD.

Aurelia Herrera, the Mexican boxer, who was to have met Battling Nelson in a 20-round contest at Los Angeles, last Friday night, failed to weigh in as required by the articles, and the match was declared off. The prevailing impression among ring followers is that Herrera was afraid to meet the lightweight champion.

Governor Cutler of Utah has protested to the Interstate Commerce commission the removal of the cliff dwellings in the San Juan and Rio Grande districts of that state. The dwellings were to have been taken to Colorado for exhibition. They afford the strongest evidences of the existence of a pre-historic race in that part of America.

Sensational testimony in support of the charge that the Standard Oil company has profited enormously by discrimination in its favor by railroads, has been used in useful means to stifle competition has been disclosed by the Interstate Commerce commission which is now investigating conditions in Ohio. The testimony is attracting national attention and promises to rival that of the insurance companies.

The disclosures which followed the investigation by the Interstate Commerce commission of the relations between the coal trust and the railways appear to develop into a scandal of considerable proportions. According to the testimony offered last week the Pennsylvania railroad has dealt with independent coal operators with disdain. President Cassatt of the Pennsylvania, who had engaged passage for Europe, changed his mind and decided to stay at home and mend his tottering fences. He is blamed for much unjust discrimination.

President Roosevelt has signed a proclamation creating the Bear River forest reserve in the southern part of Idaho. It embraces 655,000 acres. A small part of the reserve extends into Utah. This reserve has been created principally to protect the water supply of the Malad and Marsh valleys.

SORELLE'S PUPILS WIN PRIZES.  
Splendid Compliments to the Academy of Idaho.

In the national business show which was held in the coliseum at Chicago last month, some notable work in both shorthand and penmanship was done. The work of the contestants over that of last year showed a marked improvement. The typewriting contests former pupils of Rupert P. Sorelle, who now has charge of the shorthand department in the Academy of Idaho at Pocatello, took a very important part. Three of his students won prizes in the contests.

Otis H. Blaisdell, who studied typewriting in the St. Joseph's Grammar school, Chicago, won the first prize in

the "final contest," and a second prize in the "blindfold contest." Mr. Blaisdell is a young man under 20, and has had only two years' experience. This was his first contest in public, and he defeated writers of much longer experience.

Miss Nellie Harrington won the second prize in the "final contest," and had third place in the American championship contest, competing against and defeating such well known writers as Charles W. Martin, whose skill as a typewriter operator has been more widely reported than that of perhaps any other writer. Miss Harrington's work attracted the attention of the judges because of the apparent ease with which she wrote. One of the papers in speaking of it says:

By all odds the most graceful operator in the contests was Miss Nellie Harrington. It was noticeable that towards the end of each contest in which Miss Harrington was entered, the judges were invariably attracted to the corner of the stage where she sat. Most of the operators were bending over their machines and working for their lives, while she never stooped or appeared to be the least worried. Although she confessed afterwards that "she was scared out of her wits," we were not at all surprised to see her in technique or in correct position of the fingers. She was a real operator, and before the contests were over, two of the judges had opened negotiations with Miss Harrington to take charge of their typewriting department, and that the two typewriting companies telephoned her, it will be understood what an impression her work made on observers qualified to judge of performance.

Miss Lillian Rohmer won the second prize in the "ladies' contest." All of these stenographers received their entire training under Mr. Sorelle's instruction, while he was in charge of advanced shorthand and typewriting department in Gregg school, Chicago. He ought to be proud of the record his students are making, especially in contests of national importance, such as the one recently held in Chicago.

**Raising Young Chickens.**  
Young chickens should be fed a little at a time and often. If they are given ground food alone, there is a great danger of overfeeding. Very good results may be obtained by feeding entirely of cracked grains from the time the chickens are hatched until they reach maturity. There are on the market many prepared chick feeds, consisting of different mixtures of cracked grains, which are very suitable. After the chickens are five or six weeks old, the prepared chick feed may be dropped and the chickens fed on cracked corn, cracked wheat, hulled oats, etc.

If the chickens cannot get grass, some kind of green food should be provided. Lettuce and cabbage are very good for this purpose. Some kind of meat should be provided, such as green cut bone or meat scraps. Finely cracked grit should be kept in a box where the chickens can help themselves at all times. Water should be provided from the start and should be placed in such a dish that the chickens cannot get into it and get wet. Chickens of different ages should be allowed to run together, as the younger ones will not get enough to eat.

**Lake Formed by Earthquake.**  
Corporal Botley, of the Royal northwest mounted police, who has been on patrol duty for several weeks, has reported at Swift Current, Assiniboia, with a strange story. On the first night of the San Francisco earthquake a band of Indians were camped at Eagle Owl lake, and the report that during the night all were awakened by a violent shock. That there had been a terrific convulsion of nature there could be no doubt. In the morning it was found that an artesian well had appeared in the bottom of the coulee nearby, and was throwing water fully 30 feet in the air. The coulee rapidly filled, as did the adjoining depression of land, and a fair-sized lake now exists, where there was no water before. The new lake is 20 miles south of Swift Current.

According to the records to date in the coroner's office the death list from fire and earthquake in San Francisco is now 402. The last name added to these who perished in the disaster is that of Fred F. Stanley, a letter carrier.

Timothy is the greatest fake in the line of farm products. Its falseness is apparent to any intelligent farmer who will figure out what it costs to grow it and what it is worth in feeding value. Even the expert stations are giving the turning down of the pretentious humbug. It is a sort of mate as hay to the Dan Davis as an apple and the Kuller as a pear and we can get along without it.—Field and Farm.

We have been asked by an old subscriber if there is any alfalfa seed available to harvest more than one crop of alfalfa seed in a season. Owing to the great drought on the vitality of the plants it would not be believed to attempt to grow more than one crop of seed in a season even if it could be done. Under no condition should the first growth of alfalfa be harvested and if it is desired to maintain a good stand, although there may be situations at the higher altitudes where it becomes necessary to save the first growth, it should be obtained at all. The third cutting for seed weakens the alfalfa plants less than earlier cuttings, but as it is generally not of the quantity here in Colorado. We have therefore come to depend upon the second crop which allows sufficient time for a late fall growth to protect the plants through the winter. The second stand shows and more evenly than the first and comes at a time more favorable for planting and handling the crop and the yield is greater. The ripening also comes at a time when ditch water is likely to be low and this is considered an advantage in seed maturing. It affords better opportunity for the first growth to make a heavy hay crop with plenty of water.—Field and Farm.

The Rose of Idaho four for sale by Pioneer Storage & Commission Co.

**Notice for Publication—Final Proof.**  
J. Thomas Baldwin of Twin Falls, who made entry No. 852, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Caray act," approved March 2, 1899, which embraces the SW 1/4, SW 1/4, SW 1/4 of section 13, township 18 S., range 16 E., B. M. hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove two lots have resided on; remained and cultivated said land as required by law, before C. D. Thomas, representative of the State Land Board at Twin Falls, Idaho, on June 30, 1906, by two of the following witnesses: Will Banks, E. L. Knapp, Nelson Cederholm, John O. Lico, Prescott Kallbels, all of Twin Falls.  
THOMAS BALDWIN  
Entryman.

**Land Wanted.**  
To supply a demand from some clients and personal friends, we need a list of good lands that can be had at right prices.  
SWEENEY & SWEENEY,  
Twin Falls, Idaho.

**For Sale.**

HAGERMAN, IDAHO.

## BREVITIES

Mrs. R. H. Holtzman returned on Sunday afternoon from Boise where she had been visiting with Mr. and Mrs. C. B. Harris.

From all parts of the tract come reports of fine crops and excellent prospects. The outlook is bright and with ordinary luck there will be bumper harvest on the tract this year.

W. N. Bowen and M. L. Bowen are located on their farms east of Boise and are making the brush disappear. They have splendid tracts of land and are cultivating them carefully and scientifically. The owners are anxious to see them but they enjoy it immensely.

Mr. and Mrs. B. L. Rathbun and family have moved into their new and pretty cottage on Seventh avenue near the park. Mr. Rathbun believes in home comforts and his new residence is a model in this respect, besides being one of the prettiest in the city.

Henry Fink of Nez Perce has arrived and is preparing to move to his farm near Filer. Mr. Fink is a member of the firm of Fink Bros., photographers of Nez Perce. He reports that the agricultural lands of the Perce county this year is highly encouraging.

A performance by the Homo Dramatic club in aid of the Twin Falls band is being talked of and meets with hearty approval. Not only would the public appreciate the entertainment but the band would also be placed on sound footing, a consummation devoutly to be wished.

Rev. J. H. Barton and wife of Boise will spend a few days in Twin Falls next week and on Tuesday evening, June 5, an informal reception will be given in their home at the home of Dr. and Mrs. Clouche to which the members of the Presbyterian church and congregation are cordially invited.

Miss Grace Kierstead has accepted the position in the office of C. D. Thomas made vacant by the resignation of Miss Lillian Kierstead. She has been engaged as a writer by one of the leading magazines in the east. Miss DeVore has the good wishes of many friends who hope to see her succeed in the field of literature.

Adam B. Fox, Abner H. Fox, Mrs. Minnie Osterman, Elizabeth Fox, B. Maxwell and George Fox will have arrived and established residence on their farms west of Cedar road. Their properties adjoin and they will have a jolly time experiencing the delights of life in the sagebrush under the Carey act.

Eugene R. Billett has moved up on his farm north of town and gone to Los Angeles on business. Mr. Billett travels extensively in the west in the interest of the furniture factory in Shoshone, Wis., with which he is connected. He stated that the Twin Falls tract had made the most progress during the past 12 months than any irrigated section in the country.

Dr. Hies has five acres of rye on his farm north of town portions of which are more than six feet high. The rye is so well and healthy a stand was obtained. The patch is within a few yards of the Snake river canyon in deep sandy soil. Dr. Hies is planting a big field of potatoes and a considerable quantity of other vegetables. His land slopes splendidly and he is working it in fine shape.

The Home Dramatic club of Twin Falls will present "A Family Affair" at the Kimberly school house on Wednesday evening, June 6, for the benefit of the Kimberly public library. The performance recently given by the club at the Ring theater in Twin Falls was so entirely satisfactory that the people of Kimberly may anticipate a treat. It is more than likely that a large number of people from Twin Falls will witness the Kimberly performance.

J. H. Geck of Kirkland, Wash., has taken a quarter section of land south-west of Buhl, near the farm of his nephew, Irving L. Ward. Mr. Geck, who is now in California, has not long in making up his mind and he has secured a fine piece of land. Mr. Ward is cultivating his farm extensively this year with reasonable luck he will have a splendid crop. Mr. Ward and Mr. Geck are the kind of citizens that make communities and their neighbors are of the same piece. The Buhl farming district will bear watching. It is being settled by progressive people.

The Twin Falls Horse Breeders' association, of which S. S. Wheeler, William Hoops, A. D. McKinlay, J. T. Williams, George Bassett, James A. Waters, D. H. McClure, C. W. Cheney, H. Kellogg, E. G. Cheney, H. H. Jacobs, W. W. Humphrey, Ray Ashworth, P. Smith, Joel W. Craven and C. W. McKinlay are members, will convene on Saturday at 10 o'clock. A. D. McKinlay president, Joel W. Craven secretary-treasurer and Mr. L. S. Smith manager. The association has purchased the imported pure blood Percheron stallion "Socialiste," a magnificent proportioned animal, which will be kept in Twin Falls.

Woody T. Seal has disposed of his farm, one mile south of town, and is preparing to move to the home in Texas. Mr. Seal's health has given him some concern and he has worked like a beaver ever since he came to Idaho. His farm was a splendid orchard. In addition to bringing about splendid crops for himself, Mr. Seal cultivated 30 acres for Mark Bennett, whose farm adjoins and Mr. Bennett can congratulate himself on the show. Mr. Seal's neighbors and his wife in Twin Falls regret his departure and wish him the best of fortune. His time in Twin Falls was profitably occupied and he leaves a substantial remainder in a farm of which any man might be proud.

Miss Helen Kerr of Pittsburgh, Pa., is the guest of Mr. and Mrs. B. L. Rathbun.

Mr. and Mrs. E. A. Pearce and child have arrived from Pullman, Wash., and are located on Mr. Pearce's farm near Buhl.

J. P. Koschorek is engaged in painting the new school building. Painting the house will be finished in about 30 days, by which time the building will be practically completed.

Kirk Dyer of Medford, Wis., who was a visitor on the 28th of last week, has purchased a lot on Shoshone avenue. Mr. Dyer was very favorably impressed with the city and will return shortly.

Jess Butler and Jim Burnett went up Rucker creek on a fishing excursion yesterday. They gained a can of splendid worms and a number of shiners and greatly enjoyed their visit with Uncle John.

Miss Mary Brooks, who had been visiting with her uncle and aunt, Mr. and Mrs. George F. Sprague, left this morning for Dr. and Mrs. J. H. Ward for a time before returning to her home in Pearl Creek, N. Y.

The foundation for the block which R. W. Jones and John Peters are building on Main street is almost completed. Mr. Jones has prepared a splendid plan for the building, which promises to be one of the most striking and best constructed in the city.

The freeholders of the Maroa school district, No. 24, will hold their annual meeting on Monday. It is proposed to hold the meeting at the new school building. The Maroa district is in a very healthy condition, having the largest tax roll on the tract, outside of Twin Falls.

Charley Mull, Dennis Holohan, George Fraser, Arnold Frankell, Chet Mull, and John Peters are working on the power plant there. They took along a piece of bait and some tackle in case the sturgeon should happen to be biting. They report hard climbing on the trail down the canyon.

Ben Kelly, who had been conducting on the passenger train since the opening of the Twin Falls branch, has resigned to accept a position in Denver. He was taken by John Freeman, another prince of good fellows. Mr. Kelly is a great favorite with the traveling public in Twin Falls, and it goes without saying for anything he has done to prosper.

The Twin Falls fire department was organized on Wednesday evening with a membership of 40. John Annan was elected president, C. M. Price vice president and T. J. Woods secretary. Several donations for the department have been received and the organization is on a sound and practical basis. So soon as hydrants and fire pressure are available the department will be ready to afford protection to property owners.

Annual "Children's Day" exercises will be held at the Christian church on Sunday night to which all are cordially invited. The program will consist of hoop and rainbow drills, mill, and other games and recitations by the pupils. The children have been preparing for the exercises for some time and will give a good show to the audience. The exercises are free and a large attendance is expected.

The Decoration-day exercises at the Ring theater were well attended. The program consisted of solos by Mr. Gross, Miss Ash and Mrs. Holtzman, two choruses by the audience, "Amalgamated" and "The Star Spangled Banner." The address of the day was timely and well delivered by Rev. Gourley. The program was given by the club at the Ring theater in Twin Falls was so entirely satisfactory that the people of Kimberly may anticipate a treat. It is more than likely that a large number of people from Twin Falls will witness the Kimberly performance.

D. H. Bixler of Proctor, Vermont, chief of the estimating department of the Vermont Marble Co., has been visiting with his old friend, Mr. Eldridge of the Eldridge Clothing & Tailoring Co. Mr. Bixler and Mr. Eldridge toured Europe together not long ago and enjoyed the trip very much. When Mr. Bixler visited Buhl and the Thousand Springs with Mr. Eldridge, besides taking in Shoshone Falls, Mr. Bixler and Mr. Eldridge said that Twin Falls had some of the grandest scenery he had ever gazed upon and also had magnificent prospects.

Mr. Larned, who formerly pitched for the University of Michigan baseball club and who is now a resident of Twin Falls, has been playing with the local nine. Mr. Larned is a clever performer and will greatly strengthen the Twin Falls team. Mr. Larned is the pitcher of the team. His team, which will be here in a few days and will be found in a local uniform. Paddy Martin, who has been pitching for Cornell for the past two years with splendid success, is expected in Twin Falls shortly. With such good material available, Twin Falls should be able to put the field a team which should hold its own with the best clubs in the state.

The first and second nights of the Twin Falls baseball club played an exhibition game on Decoration day, which resulted in favor of the second night. The score was 12 to 12. The first game was played at the home of Thomas Leach, Wilson, Noble, Robertson and Waymont. In the second game, lineup were Ray Abbott, Peterson, Smith, Tom Hulse and Ray Abbott. The game was intensely exciting, both sides being evenly matched. The home team won in the last inning. The crowd was the largest the club has ever had. The game was played in the best of the work for the juniors but did the best work for the juniors for four innings, being relieved by Lou Hulse, who made a big hit with the crowd.

Buhl is not behind Twin Falls in the matter of vegetable supplies. W. H. Grith is marketing excellent vegetables grown on his farm at Mud Springs, not far from Buhl. He has time his supply is some other farmers in the vicinity will be ready to fill local requirements.

Dr. D. Brown Lowers has completed the installation of equipment in his dental parlors in the Bradley & Smith building opposite the Perrine and is now located in style and comfort. He went to considerable trouble and expense in fitting up his parlors and he has reason to feel proud of the results.

The telephone line reached Buhl on Tuesday afternoon, when connection with Twin Falls was completed. The line will not be extended to Glenn's Ferry at present. Manager Hays is preparing to build a number of other lines, which will connect Buhl with the tract thoroughly. The Buhl office is located in the new hotel.

F. E. Drake, who came from Beatrice, Neb., and has an excellent farm on Sucker flat, is planting 10 acres of alfalfa and intends to erect a mill this autumn. From experience made last year Mr. Drake is satisfied that sorghum can be profitably grown. Mr. Drake brought a number of thoroughbred Duroc Jersey hogs with him and the animals are thriving splendidly.

Jack Howe, a reformed civil engineer of Twin Falls, who has been improving his farm near Abbey for the past two months, is in the city for the purpose of getting a half cut and shave and to board the train for Idaho. A few old friends, Jack has dropped several pounds of adipose tissue in the sugarbush and looks as if he is a new man. He is looking for crops but the callouses on his hands are something scandalous.

William Mabbutt, who has a farm in the Devil's Corral, one mile above the Shoshone falls, in addition to a ranch at Shoshone, brought a load of alfalfa to market today. The alfalfa he marketed in less than 15 minutes. Mr. Mabbutt is one of the noted pioneers of southern Idaho and his friends call him "the devil" because he lives in the Devil's Corral. He gives the lie to "Paradise Lost," being one of the most amiable of men. The "Corral" is one of the scenic wonders of Idaho and "Bill" is the most hospitable host in the state. He will be heard from a little later when the people get better acquainted.

**Chance for Grubbers.**  
I have 50 acres on my ranch nine miles west of Twin Falls on the Buhl road which I want grubbed. Call on or address A. D. MCKINLAY, Twin Falls, Idaho.

**Position Wanted.**

The poll tax for the village of Twin Falls for the year 1906 amounting to \$4 per capita, is now due and payable to the village marshal. Those who have not paid will please communicate with the undersigned. By order of the board of trustees.  
C. W. DYER, Village Marshal.

**Diamonds for Sale.**  
I have a fine assortment of diamonds on hand which I bought at a bargain and can use the cash in the near future to advantage, therefore I am going to make you an offer. I will sell these diamonds at wholesale prices and agree to buy back at the end of one year for what you pay for them and 5 per cent added. If you pay now, I can satisfy you as to my reliability and responsibility. Sale will last until June 20, 1906.  
G. C. GRAYNER.  
The Jeweler, Twin Falls, Idaho.

**S. T. HAMILTON & CO.** call attention to the plat of M. E. DeLong's farm into 5-acre tracts. These tracts are now on sale at prices and terms which are attracting great interest. Part of the tract is a beautiful view of the city. Watch this space next week for a photograph of the beautiful residence to be given away when all tracts have been sold. This property is in the city and is ideal for rural homes.

And has applied for a patent for said lands under the acts of August 18, 1894 (28 Stat. 372-221), June 11, 1896 (29 Stat. 434), and March 3, 1891 (21 Stat. 1135-1188), relating to the granting of not to exceed a million acres of arid and semi-arid land; and that the said land, with its accompanying proofs, is open for the inspection of all persons interested, and the public generally.

Within the next 60 days following the date of this notice, protests or contests against the claim of the state to any tract described in the list, on the ground of failure to comply with the law, or on the ground of non-desert character of land, or on the ground of prior adverse right, or on the ground that the same is not suitable for mineral than for agricultural purposes, will be received and noted for report to the general land office at Washington D. C.

N. J. SHARP, Register.

### BUHL GETS GOOD DRENCHING

Recent Rains Thoroughly Soaked the West End.

BUHL, Idaho, May 30.—E. A. Milner returned from Chicago yesterday. J. H. Geck of Seattle, Wash., was a guest of the Hotel Buhl Sunday.

Wiley P. Shewman has bought lot 16 in block 23, and is building a dwelling.

Mrs. Chas. E. Hudson left for Salt Lake, Wednesday, to join her husband.

Frank Sorenson was confined to his room several days last week by sickness.

G. A. Parker was down from Twin Falls looking after his lumber interests here.

A. D. Wilson is preparing to build a home in Buhl, having purchased lot 6 in block 126 for that purpose.

The hardware stock of Parker, Marshall & Co. is being moved into the new building on Main street, now completed. This is the first two-story mercantile building in town.

John Lehman, who recently arrived from Okmulgee, I. T., has brought his family to Buhl and will make this place his home.

Mr. J. J. McBride of Cabinet, Ida., and Albert F. Warner of Loveland, Colo., were here last Wednesday and were shown over the west end by Ed Braun.

The gentlemen were very favorably impressed with the country.

Mrs. J. J. Lehman and grand daughter, Miss Mary Lehman, of Lancaster, Pa., arrived Friday and are the guests of Mr. and Mrs. John R. Lehman.

The ladies are mother and daughter, respectively, of John R. Lehman.

The Baldwin building is completed and awaiting a tenant. Mr. Baldwin has had several applications for the building, and is now in correspondence with a Utah party who wishes to open a general merchandise establishment here.

Pat Hall was here last week and cleaned up the carpenter work on the Hotel Buhl. Pat's crew has disbanded, the carpenters composing it having gone to Twin Falls preparatory to scattering themselves over the country again.

The Miller-Perrine Lumber Co. has moved its office into the new quarters down town, and the retired and jovial John R. Lehman now has elbow room according to his strength.

The company's stock of building material will soon all be gone, and it is expected to be the best advantage.

J. W. Lawler, who lives east of Buhl, was in town Monday, and reports that crops in the vicinity of his place are doing well.

The entire quarter section will be 15 of barley and 10 of corn that are coming on nicely.

Sam Swanson has 80 acres in crop; Mr. Hughes has 40 in crop; and J. H. Brown has 30 in crop. Everybody is busy, and with glorious prospects all are happy.

The ranch owned by D. E. Burley is to be improved this summer and put in first-class shape.

A contract to clear and plow forty acres for alfalfa seeding has been let to W. C. Griffith.

The entire quarter section will be cleared and fenced this summer. Mr. Burley's place, which joins the townsite on the east, is being looked after by Mayor Eickhoff.

The latter gentleman has a 60-acre oat patch up in that vicinity himself.

Considerable rain has fallen here since the shower period began Friday afternoon—on Saturday morning, according to a reading of the experimental farm rain gauge by D. H. Bark, 36 of an inch was recorded; Sunday 17.7 inches; and on Monday morning it registered 12.7 inches.

On Monday morning it registered 12.7 inches for the three days. The weather has been quite cold, with vigorous frosts. This is probably the conclusion of the season, and summer rather may be expected.

The bridges being built across Cedar draw and the next draw this side are the work of I. B. Perrine personally, that gentleman saying the quality of his work is of the best.

Mr. Perrine's generosity and his interest in their welfare. The gentleman has been generous himself, and understands something of the difficulties of travel over bad roads.

It is announced that the Twin Falls and Valley Co. is preparing to bridge the cottons and other bad places on the road east of Buhl. This will please people here immensely, as those draws were simply a terror to freighters and other travelers.

A four-horse outfit loaded with lumber for the Vector-Lumber Co. got in Saturday morning with no more difficulty than a wagon load of hay.

J. M. Maxwell and W. E. Nixon of the First National Bank of Twin Falls were in town Sunday, and together with Cashier Cost of the Buhl bank, visited the ranch of L. M. Swift.

A Nez Perce banker, who is sojourning a mile or more west of town. The gentlemen examined Mr. Swift's irrigation ditches, inspected his potato patch and made other investigations which convinced them that his methods were in strict conformity with the principles of conservative banking.

In passing, a storm cloud handed them a fine series of weather forecasts to prove that the climate was right.

One of the busiest men on this end of the tract is J. J. Sweeney, the irrigation expert for the country west of Cedar draw. Mr. Sweeney conducts irrigation classes and gives practical demonstrations of irrigation work.

Mr. Sweeney is a very valuable man for the farmers. He is not afraid of getting his feet wet, and has had a great deal of experience in irrigation matters in new countries.

Incidentally he is an enthusiast over the prospects of the Twin Falls tract and never tires of telling of its possibilities of future development.

There is no doubt in his mind that the farmers of the Buhl section have a comparatively short cut to Easy Street, patient study of the principal traits required for success. That it seems like uphill work to some for a time is probable, but only a year or two will see a successful demonstration of results.

H. C. Sorenson and Charley Roberts returned Tuesday from a fishing trip down on the Snake river. As a half dozen trout of different sizes were all they brought home, there is some speculation among the boys as to what they did during the four days they were gone.

Halley, Idaho, May 19, 1906.  
Notice is hereby given that Charles  
Rorback of Hock Creek, Cassia County,  
Idaho, has filed notice of intention  
to make final proof on his desert-land claim  
No. 1470, for the E½ of NW¼, and  
the E½ of S 2, section 31, township 11 S., range  
19 E., B. 1, T. 11 S., R. 19 E., of the  
United States, commencing at John F. Han-  
cock Creek, Cassia County, Idaho, on Monday  
August 20, 1906. He names the following  
witnesses to prove the complete irri-  
gation and location of said land: He-  
nry H. Strickland, Arthur B. Rorback,  
George H. Strickland, Charles Rorback,  
of Hock Creek, Charles Rorback, of

Rock Creek, and Albert Johns of Rock Creek, Idaho.

N. J. SHARP, Registered  
First publication, May 25, 1908.

**Notice for Publication.**  
Department of the Interior, Land Office  
at Hailley, Idaho, May 19, 1908.

Notice is hereby given that the following  
claiming settler has filed notice of  
intention to make final proof in support  
of his claim for the following described  
land before John F. Hansen, United States  
commissioner, at his office in Rock  
Creek, Idaho, on the 20th day of August,  
1906, viz: Charles Horabach, 20 acres  
and the E½ of NW¼ of section 36, township 11-S., range  
14-E., of section 30, township 11-S., range  
14-E., T. 11S., R. 14E., S. 30N., and  
desires to prove his claim following the  
provisions of the act of March 3, 1901,  
upon cultivation of said land, viz: Arthur  
Norton of Rock Creek, Idaho.

UHL FARMERS GET TOGETHER  
splendid New Association by the  
-Work Association:  
The second meeting of the Uhl  
Farmers' Association was called to  
order by President Russell at the Ho  
Monday night, a large number  
farmers being present. Minutes  
of the previous meeting were read  
approved.

Under the head of new business, Mr. C. P. Sweeney made a motion to the effect that a committee be appointed to prepare a program for the next meeting. A second being heard, the motion was put and carried.

Report of the committee on school district was called for, and was filed by J. C. Sweeney. Fifty-one children in school age were reported. The report also recommended that the district include the territory west to the Salmon river and east to the line of

Report of the committee on roads and bridges was furnished by Mr. Hobson. Boundaries with a recommendation of boundaries the same as for the school district. Report was on motion adopted.

Report of committee on voting precinct was filed by Mr. Hobson. Boundaries recommended were substantially the same as the school district.

Moved and seconded that the secretaries approve and present to the county.

Commissioners a petition asking for a new precinct, and suggesting the names of men for appointment for officers necessary. Carried. On motion a recess of five minutes was declared. During the recess eleven more farmers signed the association's articles and became members. On the resumption of the order of business, S. J. H. Schooler was recommended for appointment as constable, and Mr. [redacted] suggested as a candidate for overseer.

On motion the following four gentlemen were appointed delegates to the convention of Farmers' Associations: John Russell, T. W. Berry, A. H. Edwin, M. D. L. Barstow.

On motion the following gentlemen were recommended for appointment as school trustees: F. S. Marshall, H. S. Gibson, E.-A. Milner.

The president then appointed as a program committee Mr. Sweeney, Mr. Gibson and Mr. Davis.

Mr. McPherson and Mr. Sweeney gave some practical instructions

the work of irrigating the new lands of the Twin Falls tract, following which an adjournment was taken. There was a notably increased attendance at this meeting, over the first. All farmers on this end of the tract seem to realize the importance of organization and to appreciate the advantage of uniting with the association. Increased attendance is anticipated for the next meeting.—Buhl Bulletin.

For the above a round trip rate of \$10.00 for Twin Falls to Portland, or same will be in effect from June 1 to September 15 inclusive, usual stop-over privileges, final return limit October 31. For further information apply to—D. E. SULLIVAN, Agent, Twin Falls, Idaho.  
BURELY, G. P. and T. A., Oregon Short Line, Salt Lake City.

**Seed Oats for Sale.**  
 Health & McMaster will deliver  
 a clean, home-grown Lincoln oats  
 to farmers in Twin Falls. Those  
 desiring first-class seed may obtain  
 it by inquiring at Mr. McMaster's resi-  
 dence, west of the Weeter lumber yard  
 on Main street.

## BUHL, IDAHO
