## CURRENT WORLD.

Premier Sadden of New Zealand, the  
most noted statesman in the British  
colonies, is dead.King Hakan of Norway was  
crowned with pomp and ceremony at  
Trondheim on Tuesday.Harry Nelson Pillsbury, the famous  
chess champion, died at his home in  
Philadelphia last Sunday, aged 34  
years.It now seems certain that no definite  
action will be taken in the case of Sen-  
ator Reed Smoot of Utah at the pres-  
ent session of congress.President Roosevelt, last Saturday  
signed the bill admitting Oklahoma  
and Indian Territory to the statehood  
of the state of Oklahoma.European and American merchants  
are complaining bitterly against the  
Japanese administration in Manchuria,  
claiming that the Japanese are  
crowding them out of the Chinese  
trade.John M. Pattison, governor of Ohio,  
died at his home in Milford, a suburb  
of Cincinnati, on Monday afternoon.  
He had been ill for some time but his  
death was unexpected.President Roosevelt has signed the  
proclamation authorizing the sale of  
town lots in the three towns on the  
Michigan coast where the lots were to  
be fixed by the secretary of the inter-  
ior.Dora Chipp, an Indian woman, brut-  
ally attacked Mrs. William Deak, the  
wife of a ranchman, near Yreka, Calif.,  
last Sunday, killing Mrs. Deak's infant  
daughter and leaving her mother in  
the feeing mother. The mother is  
still at large.The sagebrush badge worn by Major  
Fred H. Reed, editor of the Burley  
Idaho, Bulletin, who represented El  
Korah temple of Boise at the Mysie  
Shrine, conclude in Chicago, was  
awarded first prize for being the most  
unique emblem at the gathering.Hundreds of Jews were killed during  
anti-Semitic riots at Bialystok, Russia,  
and their premises were looted. Rus-  
sian authorities suppressed the details  
of the slaughter, which has just come  
to light. Disabling conditions pre-  
vail over the entire Russian empire.A conference of the passenger officials  
of the Union Pacific, Southern  
Pacific and Santa Fe lines in Omaha  
last Friday resulted in the announce-  
ment of a reduction of passenger  
rates per mile in six of the western  
states and two territories. In Idaho  
this will be the first time in the history  
of four main lines. In portions of Wy-  
oming and Colorado, three instead of  
four cents on the Union Pacific and  
main line of the Short Line in Ne-  
vada, Arizona and New Mexico, the  
main line rates will be four instead of  
five in Utah, on certain main lines.  
Three instead of four cents in California  
have been varied, but the new rates  
will be uniformly three cents per  
mile on main lines. The reductions  
become effective July 1.The senate has passed the Mandell  
bill amending the national irrigation  
law so as to permit the secretary of  
the interior to reduce the minimum  
area of farm units in the government  
projects from 40 acres to 20 acres. The  
bill was amended in the senate by  
providing that the secretary of the  
interior may extend the time to settlers under  
the irrigation projects for completing their  
entries when the delay is caused by  
the failure of the government to com-  
plete the entries in the time specified  
by the land laws. It was amended  
also by a provision authorizing the  
secretary of the interior to appropriate  
lots in Herby and Rupert townships,  
Idaho, and sell them to occupants who  
have erected permanent buildings  
thereon not readily removable.A summer storage rate on coal has  
been granted on all coal from the  
Union Pacific or Oregon Short Line  
coal mines until August 1. All pur-  
chasers of coal for the next six weeks  
will be enabled to purchase their fuel at  
a price 50 cents less than in the past.  
The price in the past has been  
\$7.75 per ton, making it possible for  
coal from the principal mines to be  
obtained at \$7.25 per ton. The re-  
duced rate is made for the purpose of  
permitting coal to be stored during the  
summer months, thereby reducing the  
congestion during the cold winter  
months, when there has been grave  
danger of a coal famine. In the past,  
because of the inability of the railroad  
company to get the fuel hauled regu-  
larly enough. Half of the supplies  
was made by the coal companies and  
half by the railroad company.The citizens of Boise, Idaho, are  
making great preparations for enter-  
taining the Fourteenth National Irriga-  
tion congress, which convenes at  
that city for a six days session be-  
ginning September 2. A grandstand  
located but two blocks from the rail-  
road depot has been secured for the  
congress. The sessions will be held  
in the auditorium which has a seating  
capacity of 2200, while the pavilion ad-  
joining will be used for committee  
rooms. The buildings are surrounded  
by large shade trees and every con-  
venience will be provided for the com-  
fort of the delegates. The exhibits of  
grains, grasses, fruits and sugar beets  
promise to be the largest ever held in  
the northwest. After the work of the  
congress has been completed excursion  
trains will take the delegates to the  
various irrigated districts of the state  
to show what has been accomplished  
by irrigation and the new projects  
under construction."If you want to make a hit, you  
must strike out for yourself, my son."  
"You're mixed in your baseball talk."  
"If you strike out you can't make a  
hit."—Woman's Home Companion for  
June.Marketer—How much are strawber-  
ries?  
Dealer—One dollar a box.  
Marketer—Give me some good sour-  
pickles—they cost less and taste about  
the same.—Los Angeles Express.

## STATE NEWS.

The Idaho National bank will be  
opened in Boise on July 1 by George  
W. Fletcher and associates. It has a  
capital stock of \$100,000.William Rydervere and Cleveland  
Brown were drowned in the office  
river at St. Anthony on Tuesday after-  
noon while engaged in stringing tele-  
phone wire across the stream.Charles S. McConnell has been re-  
moved from the position of registrar of  
the state land board because of alleged  
inattention to business. His place has  
been given to M. J. Church of Caldwell.The general land office at Washing-  
ton has cancelled the homestead entry  
of 12 M. Davis and others which was  
filed upon the townsite of Roosevelt  
during the Thunder Mountain mining  
boom.A corpse, believed to be that of Jo-  
seph Smith of Rexburg, was found in  
the Elgin canal two miles west of St.  
Anthony. The skull was crushed and  
it is supposed that the victim met  
with foul play.The supreme court has affirmed the  
decision of the district court of Ada  
county in the case of William Henry  
Bonds, who was sentenced to  
death for the murder of Charles Day  
in the latter's home in Boise on the  
night of October 6, 1904.George N. Litt of Pocatello, Idaho,  
American consul at Chatham, Ontario,  
will be promoted to consul at Anna-  
ber, Germany, July 1. The consulate  
at Chatham will then be subordi-  
nate. Litt's present salary is \$2,000. At An-  
naberg it will be \$3,000. He refused  
the consulate of Port Elizabeth, South  
Africa, which was offered him by the  
former editor of the Pocatello Tribune.The opening of settlement of the Co-  
rvey act lands under the Marysville  
canal system in Fremont county last  
Friday was very successful, more than  
4000 acres being taken. The remain-  
ing land, some 2000 acres, is being care-  
fully sought. The lands were disposed  
of by drawing in which a large num-  
ber participated. Bank Commissioner  
Lovelock of Twin Falls represented  
the state land board.

## BEST SEED FROM SECOND CROP

Alfalfa is Stronger and Better Bred  
at Second Cutting.The second crop of alfalfa is usually  
saved for seed as the yield of seed  
from this cutting is likely to be greater  
than that from the first or third cut-  
ting. The first crop does not afford  
seed well on account of weather condi-  
tions and perhaps owing to the fact  
that bees and insects which aid in the  
fertilization of the flowers are not present  
in so great numbers early in the  
season as later. Wet weather, which is  
more apt to occur in the early part of  
the season, also tends to prevent the pro-  
duction of seed and we occasionally  
have such conditions here in Colorado.  
If there is any difference in quality it  
is hardly due to improper fertilization  
of the blossoms because all the seeds  
must have been produced by fertilized  
blossoms and the blossoms which are  
underfertilized produce no seeds what-  
ever. If less vitality is observed in  
the seed from the first cutting it is  
likely due to weather conditions which  
cause improper development of the  
seeds or the seed might have been in-  
jured by too much wetting and heat-  
ing.

## BAILING ALFALFA IN FIELD

Care Should Be Taken to See that it  
is Properly Cured.The people at the Kansas station  
have been experimenting in baling alf-  
alfa from the field. All the alfalfa  
which was baled before it was fully  
cured spoiled in the bales, the result of  
breeding and molding. The alfalfa  
which was baled when well cured and  
in good stacking condition kept well  
and no spoiled hay was found in the  
bales in midwinter when the hay was  
examined. Perhaps the greatest ob-  
jection to baling alfalfa from the field  
is the slowness of the work. It is very  
desirable to put the hay rapidly.  
However, if one uses only a small quan-  
tity of alfalfa or can put a number of  
crops at work it may be possible to  
put up the alfalfa rapidly by baling it  
from the field. If the hay is baled  
well, raked when wilted, put into the  
shock, cured in this way, and then  
baled, the leaves will be saved and a  
better quality of hay secured than if  
the hay is put into stack and baled  
later.Governor George C. Pardee of Cal-  
ifornia, president of the National Irriga-  
tion congress, which meets in Boise,  
September 2 to 8, 1906, has written  
a personal invitation to the governor  
of each state and territory of the United  
States, asking them to head the dele-  
gations appointed to the congress.  
Favorable response has been received  
from a majority of the chief execu-  
tives, and those who cannot come in  
person will send personal representa-  
tives. A special train of Pullman  
cars will be made up at Omaha and  
Kansas City, to bring the governors  
and their parties through to Boise.  
The Fourteenth National Irrigation  
congress will be honored by the presence of a  
larger number of state governors than  
were assembled since the opening day  
of the World's Fair at Chicago.

## An Ideal Stock Ranch.

400 acres, all fenced and cross  
fenced with good fence, thirty-four  
miles from town, well located on daily  
mail route; 200 acres in hay, positive-  
ly no waste land; plenty of free water  
at all times; large creek running  
through a portion of land; deep black  
loam soil, very fertile. This ranch is  
tributary to the best stock range in  
Idaho; good 2-room house, modern,  
painted; good barn, well built, heated  
and other outbuildings, corrals, etc.; a  
full equipment of machinery goes with  
this ranch; adjacent to a rich mining  
district; affords a splendid market  
for all produce; near good schools  
and church; the best bargain in Idaho;  
owner must sell; \$17.50 per acre, on  
easy terms. Write to  
Northwestern Investment Co., Ltd.,  
Boise, Idaho.

If you drink, drink Yellowstone.

### YEAR'S WORK AT THE NORMAL.

Splendid Advancement Made at the Albion Institution.

The Albion State Normal school closed a most successful year June 13. The enrollment for the year was 20 per cent greater than last year and the school spirit was 100 per cent better. The school has made great advancement during the year. Especially has this been so in its relations with the other schools of the state. The long distance from the railroad, which the school has had to contend with up to the present year has now been eliminated, making it possible to hold contacts with other schools at Albion. While the football team was a disappointment last fall it showed that there was material to make a good team. A boy on the team had ever seen a football game before they were in the first game, and it is not to be wondered at that the strong academy team which had been playing together for three years should have an easy time of it in the first game. The second game showed a remarkable change for the better in the Normal team, and while the Academy team was victorious in this game it was a very close and hard fought one. In the last half the Normal boys held their opponents to one touchdown. During the last five minutes of play the Normal team forced the way over 60 yards down the field, showing that they had at last solved the problem of advancing the ball against the strongest team in Idaho. Next year the Academy team will lose over half of its team, while the Normal will lose but one man. The Normal boys say that they will wipe out those of the Academy team who in basketball the girls' team did fine work. At Pocatello in the fall they gave the Academy a decisive defeat. At Albion, a short time later, the Academy won. The two teams seemed to play very evenly. If men's rules were used the Albion team would easily win. If women's rules were used the Academy team had the advantage. Professor Pike, who coaches the girls' team, says that he certainly has a winning team for next year.

In baseball the team did fine work. Professor Shepherd managed and coached the team. At Pocatello the team was defeated in the last game of the season. In a game which was rather loosely played but very interesting on account of the closeness of the score, 11-12. At Albion the Normal wiped out the Academy by defeating the Academy team by a score of 10 to 8 in a well played game. Altogether a schedule of 10 games was played, a majority of which were won by the Normal team. But one man of this year's team will not be back next year and the prospects for a very strong team are good indeed.

While athletics are an important part of school work they are not the most important by any means. It is upon their efficient scholarship that the Normal prides itself particularly. One of the students paid a compliment to the school when she said: "Well, I should like to see any other school through which a high standard of work is maintained and insisted upon. The students are required to keep up to the standard and the school is not at all lenient in this regard. Their work they are not allowed to 'slide through' but are required to take the work over. Thoroughness in the work done is about by required. A very pleasing and helpful feature of the work of the Albion State Normal school is the literary societies. Two strong societies have their halls in the new building. These halls are beautifully fitted up by the societies. The literary work of the societies is under the close supervision of the faculty and is of the highest order.

The last legislature was quite liberal in its appropriation for the school. As a result kindergarten, manual training, and other departments were instituted and have done much to add to the efficiency of the school. A liberal appropriation was made for the efficiency of the school. The training department has been doing good work and has added very much to the efficiency of the school. No effort has been made to do commercial work though a thorough course in bookkeeping is given. The prospects for the coming year are indeed bright. There will undoubtedly be a large increase in attendance. Students are waking up to the fact that on account of its location Albion is a model school town. Just far enough from the railroad to free it from the disquieting influences which are constantly to be found in a railroad town. It is close enough to the nearest station for the students to get to and railroad quickly if necessary arises. Albion is in a beautiful little mountain valley which offers beautiful scenery at all times of the year. The town is small but this is really an advantage to the school. The faculty make an effort to see that the proper social advantages are given to the students and they do not suffer a dearth of social privileges. At the same time there is little outside the school life to take the student's mind from the school work. At first sight it would seem that it might be so dull in so small a town for the students who attend that the students would desire to leave the school and go to schools in larger towns, but such is not the case and uniformly students who, once attend the school prior to return to Albion in preference to going to other schools. The prospects of the scholars are indeed bright.

One day in Washington recently a group of politicians were talking, when "Uncle Joe" Cannon was reminded of a story.

"There was a friend of mine in Ohio," said he, "who once joyfully sought an ill expert, declaring that he was a first class fisher in his line. He brought a sample in a bottle. Now evidently my friend had been in a great hurry, hastily grabbing the first bottle he found, when the chemist had duly analyzed the sample submitted he sent the following telegraphic report:

"Find no trace of oil. You have struck paragonic." "Woman's Home Companion for June.

## COMMERCIAL CLUB FOR BUHL

Business Men of New Town to Form an Organization.

BUHL, Idaho, June 20.—Hober C. Borenson visiting Twin Falls last week on business.

George F. Sprague was in town several days last week looking after the affairs of his company.

Mr. and Mrs. J. Milner of the Power City were visitors in town Saturday.

Fred Nihart came up from Twin Falls Thursday night to attend the preliminary session in the proving up act.

A. W. Wagner is building a residence on Linden street, near the park.

W. F. Shewmake is building a neat four-room cottage on Poplar street.

Albert Debusk and family are now comfortably settled in their new home on Twelfth avenue.

George LaMunyon came in from Twin Falls Saturday with a four-horse team of record.

C. E. Paul has completed his residence on Twelfth avenue and is now busy making a garden.

Dr. H. R. Wells and family of Yakima are here. They moved out to his ranch two miles east of town and have taken up their residence there for the purpose of proving up.

Mr. and Mrs. H. McNeal of Twin Falls; T. C. Marquand of Genesee, Idaho; John Grant, Logan, Utah, and H. L. Henderson of Pocatello were guests at Hotel Buhl last week.

Pat Hall was busy Friday and Saturday hitting screws on the doors and windows of the hotel.

John Hinchley has a contract to haul 10 tons of gravel from the Springs to the company's camp at the reservoir, from which point it will be distributed to the various camps of the company along the canal route.

C. E. Hargreaves is putting in good fences on the park with his disk harrow. The trees are making a fine growth, and will be ready to cut soon to furnish that welcome shade which the born tree lover so well.

Cherries from Hagaman's were on the market here Monday but they were not long.

Not long. The guests at Hotel Buhl did fine work, putting a large quantity of them out of sight, with great relish. They left some of the stems and leaves, and even a few whole ones.

Jack Garland, the village blacksmith, is kept busy, but he says that he has got into a new line of work.

He will sell his job, property and stock, and has hired the whole thing up for the purpose.

This is a fine opportunity for a young man of the right kind.

S. H. Hays of Boise and R. M. McCallum were in town on a tour of general inspection.

General Hays had not been here since the foundation of the hotel was laid, and was well pleased with the progress being made both in the town and country.

He made a thorough inspection of the hotel and expressed himself as being well satisfied with the first-class manner in which the work was done.

Mr. Hays and Mr. McCallum were the guests of Mr. and Mrs. Hinchley.

J. C. Ream, our popular painter, and W. S. Harris, the druggist, went fishing in Clear Lake Sunday and returned with a good catch of trout.

They were accompanied by a number of the boys, which they solemnly declared they did not buy and offered to make an affidavit to that effect, but they are regarded as being reliable.

They did not give up fishing, and the oath was not insisted upon.

They said that the reason why some people who go fishing fail to catch any fish is that they do not take to make their breath smell just right when they spit on the bait.

They looked in the direction of Chamberlain and Heber Sorenson when they said this.

Chief Engineer R. W. Faris and his brother, J. V. Faris, president of the Academy of Pocatello, were in town Friday and Saturday looking over the situation and could hardly believe the statement when told by the employer that the engine which they saw growing on the experimental farm was planted only about two weeks before.

President Faris was delighted with the outlook and predicted a great future for the whole tract, and particularly for the west end of it.

Work was commenced on the water works system Monday. It won't take long to complete it, and then we will have another organization, to wit, a fire company, which will bring us strictly up to the modern standard.

The Nifty Six club have promised to John, which caused the peace and quiet loving citizens to say that that was a pious lie, and that they cannot hope that the promise would be religiously kept, as it will afford these savages an excellent opportunity to expend their surplus energy and exercise their leather lumps, practicing with the hose cart, which will give the nervous a chance to rest.

A census of the voting population west of Cedar draw was taken last week, by request of the county seat committee, and showed 143 electors to be living on this and that line.

A few refused to give their names, or allow them to be put down, so that there are probably 150 or more voters in the territory.

The territory is being divided into all political shades and complexions, which shows that we are fully abreast of the times in politics as well as in everything else.

The welfare of the nation, and will be there when the campaign opens. Every old party will be represented.

Although but two weeks old, Buhl is said to have a baseball team this summer which, from present indications, will be a hummer.

Last Sunday a crowd of enthusiasts assembled at the baseball park at the south end of town and "choked up sides" in order to try out the available material.

The subject of a letter from the superintendent of schools was read, in which he said that he thought the territory within the boundaries of the town of Buhl was large.

He suggested a change. Secretary Bark was directed to answer the letter, to explain the reasons for desiring to establish a commercial club and to inform him as to the proposed permanent district that the people wished to establish.

The meeting then adjourned. H. R. Young was called for the purpose of discussing questions of a general nature affecting the community at large.

W. Monahan was elected chairman and H. S. Hobson secretary. The only business transacted at this meeting was the adoption of a resolution to recommend or suggest the names of persons to the board of city commissioners for election officers for this precinct.

## CHILDREN'S DAY AT HANSEN

Splendid Program—Rendered by Sunday School Pupils.

HANSEN, June 21.—J. S. Ball was a visitor in Twin Falls last Sunday.

Mrs. Mary Calder of Pocatello is the guest of Miss Nettie Murphy.

C. A. McMaster and Frank Lutte of Twin Falls were visitors at the Nick Smith home last Sunday.

A. A. Fouts left last week for Aberdeen, Wash., where he will remain until fall.

Mr. Fair of Pocatello was in Hansen last Thursday and Friday surveying for the siding.

Mr. and Mrs. Waters of Twin Falls were guests of Mr. and Mrs. P. M. Towles last Sunday.

J. C. Jones left last Tuesday for a visit to his former home in Marlow, S. D.

Mr. and Mrs. Frank Mitchell and Harry Ball of Twin Falls are visiting at the home of C. A. Ball this week.

Miss Vida Hansen passed through Hansen last Wednesday on her way home from the Albion State Normal school.

Mrs. Burnett and Mrs. Guthrie of Twin Falls were visitors at the Town home last Wednesday.

Among the recent newcomers to this part of the tract are Mr. and Mrs. Fred Nesbit of Goldendale, Wash.

Both gentlemen are owners of ranches near this place.

Miss Nettie Rauch arrived home from Albion Thursday, where she had been attending the Albion State Normal for the past school year.

First of the family of Circleville, Ohio, are visiting at the home of Mr. and Mrs. J. S. Ball.

D. J. Stephens of Yakima, Wash., is a guest at the home of Mr. and Mrs. J. S. Ball.

Twin Falls visitors of the past few days include Miss Murphy, Miss Carter, N. H. Nichols, J. Babcock, E. M. Jones, Frank Sanders and T. J. Ranch.

The Misses Perrine, Fuller and Bals, and Messrs. Astor, Taylor and Ball of Twin Falls, were entertained Sunday, June 10, at the home of Mr. C. A. Ball.

Miss Nettie Murphy is now residing on her ranch one-half mile north of the townsite, engaged in proving up.

Miss Murphy is having a part of the ranch put under cultivation. Mr. John Simmons doing the work.

John Babcock, the energetic irrigator of the Hinton ranches has filed upon the forty-acre tract one-half mile east of the townsite north of June 10, and will soon be employed in making final proof on his land.

Owing to the call for Rev. Schenck's services in Twin Falls last Sunday, he was unable to preach here Sunday afternoon as previously arranged, and consequently the preaching was postponed to next Sunday.

Rev. G. H. Gierhart of Twin Falls will also be present.

Children's day was observed last Sunday by the young members of the Hansen Union Sunday school. A large and appreciative audience listened to the well prepared program, several numbers being given, especially on the program rendered was as follows:

Opening song... Sunday school pupils. Recitation... Frank Hassard. Exercise... Making the Summer Song... Six children.

Song... "Gills for the King"... School Recitation... "The Gem of Days"... Ricks.

Concert... "Wave Lett"... "Leaves"... Three children. Song... "Sunshine in My Soul"... School.

Recitation... "The Young Man"... School. Recitation... "The Shadow"... George Redhead. Recitation... "In Blossom Time"... Neta Crater.

Song... "Bring Them In"... School. Exercise... "The Young Man"... School. Day... Three children.

Vocal solo... "Sitting by the Gate"... Gabe Dyrine. Recitation... "A Funny Little"... Merna LaCourse.

Address... Rev. G. W. Crater. Duets... "My Mother's Bible"... Miss Dyrine and Mr. Babcock.

Song... "O Children's Day, Farewell"... School.

Public Notice. The poll tax for the village of Twin Falls for the year 1906, amounting to \$1 per capita, is now due and payable to the village marshal. Those who have not paid will please communicate with the undersigned. By order C. W. DYER, Village Marshal.

Needs. For all sewing machines at second hand and department next to Idaho house.

If you want choice cut roses phone to James A. Waters, Twin Falls Nursery, telephone 4A, or Booth's goods store.

## "Gibson's Place"

for Everything in Farm Implements and Vehicles

## Steel Range Buyers

You owe it to yourself to come in and look over our line of the celebrated

## JEWEL Steel Ranges

You, no doubt, have read the advertisements of these ranges now appearing in the leading magazines and farm journals and said to yourself, "I wonder if Jewel Steel Ranges are all their makers claim." Now that is just what we want to prove.

Body made Double and Will Last a Lifetime

We want to show you the extra heavy steel used in the double asbestos lined walls, which never cracks, rusts or peels, and requires no blacking, and which makes the Jewel Steel Ranges the most rigid, durable and lasting on the market.

The Perfect Baking Oven

We want to show you the extra large, square oven with patent non-buckling oven bottom, double drop door, steel wire oven racks and direct fire construction that utilizes all the heat generated without loss and make the Jewel Steel Range the most economical and satisfactory baking range manufactured.

The Best Grate ever Devised

We want to show you the handiest, best and quickest removed duplex grate ever put into a Steel Range. The grate that, when operated, does not drop unburned fuel in to the ash pan or disturb the bed of the fire.

A Range Top that Stays Level

We want you to see the sectional top plate and truss-like a bridge centers and covers that do not warp or crack, made from Kenit-Test Metal which is free from scrap to make it brittle and porous. These with a score of other features will demonstrate why Jewel Steel Ranges are different and better, and why it is the only range you can afford to buy. Don't take our word for it. Call and see the range.

Jewels Cost no more than other Standard Ranges

We have several styles and sizes to show you, and the low prices we have placed on these ranges make them the greatest value for the money ever offered in this section.

\$31.00 buys a neat, attractive pattern with high, closed, and a good sized oven.

\$39.00 buys highly nickle-plated, extra large oven range with all attachments complete.

\$51.00 buys a massive, elaborately nickle-plated and handsome pattern that cannot be equalled at any price.

Don't be misled by egg-shell sheet steel affairs called steel ranges offered by mail order houses at give away prices. We will duplicate any range offered by such concerns for the same money and save you the cost of the freight.

## Snake River Implement Co.

TWIN FALLS, IDAHO
