TWIN FALLS, IDAHO, FRIDAY, OCTOBER 12, 1906.

NUMBER 50

OBJECT LESSON IN TREE-GROWING

SPLENDID SHOWING AT THE
TWIN FALLS NURSERY.

Fruit Trees Have Made Enormous
Growth and Are in Fine Condition
for the Winter—Grand Results Ob-
tained by Mr. Waters.

Those who came to Twin Falls 18 months ago, driving from Shoshone by way of Blue lakes, will recall seeing a clearing on the left hand side of the road, about a mile from town. There was a small house on the clearing and a busy man with a Van Dyke beard kneeling in the dust from daylight to dark, digging, planting and watering. When strangers were told that the property was the Twin Falls nursery they smiled. They asked the nurseryman's pluck but they questioned his judgment. They should visit the Twin Falls nursery now and see how near right the nurseryman was. The nursery is like the city and the tract, it has made marvelous progress.

James A. Waters, the courageous nurseryman, has reared a young forest of roses in the land are blooming. Sleek Jersey cows browse in his pasture fields, fat Plymouth Rock hens strut about his yards, the perfume of flowers delights the senses and a general air of thrift pervades the entire place. The most startling feature of the nursery is the appearance of the trees. Every farmer on the tract should visit Mr. Waters and get the benefit of his experience. This statement is made for the purpose of booming Mr. Waters' nursery. "Good who needs no bush." The nursery shows for itself. It is a priceless object lesson to the "who" who grow trees and shrubbery. The transition from scrub brush to majestic trees, 12 feet in height, is wonderful. It is worth while knowing how Mr. Waters did it.

Blooming in the garden in Prince Camillo de Rohan, Alfred Comb, Mrs. John Lang, American Beauty, Pearl in France, Paul Neyron, Tree in France, Margaret Dixon and other varieties of roses. They have blossomed all summer and are still throwing out magnificent roses, untouched by frost. "The Crimson Rambler" has made a growth of 12 to 15 feet this year. The chrysantheums are loaded with buds. Flowering almond, honeysuckle, Russian olive, wisteria and hydrangea flourish.

Mr. Waters has original ideas regarding hedges and in a year or two he will have a hedge which will be one of the attractions of the tract. The privet and tamarisk are spreading lustily and next year the chickens will be unable to force their way through them.

From acres planted one year ago tiny oaks have reared their heads a foot above ground. Dainty little pinon pines are sprouting from pine nuts planted at the rate of 12 to 15 per acre in Twin Falls when given a chance.

"My trees have all done well this year," says Mr. Waters. "Some of the varieties have done much better than I expected. The old reliable Jonathan apple trees have fully developed their terminal buds and are ready to go into winter quarters. Everything grows in Twin Falls when given a chance. I mention this fact because the Jonathan is, in my estimation, the best apple we have, considering the quality of the fruit and the adaptability of the tree to this location. I have about 30,000 Jonathans which I set out last spring and every one of them is strong. I have good reason to believe they will winter in first class condition. The Rome Beauties and Winesaps also came through the summer nicely. I was particularly interested in these varieties because I believe it is best for those of our farmers who wish to plant commercial orchards to favor

long keeping winter apples for the reason that you will get some varieties that are better than that of other sections and early apples would not be so profitable on account of market conditions. The Bannan apple has made splendid growth. From my experience and observation I am still convinced that this tract has no equal as a field for those varieties of apples for which it is adapted. By this I mean the growth of such apples as Jonathans, Rome Beauties and Winesaps.

"Many of my plum, prune, peach and apricot trees have made a growth of four to six feet this year with one irrigation and they are in fine condition for the winter. The same is true of the pear trees, with the exception that they have had two irrigations. The cherries have also done equally well with two applications of water. They are fully developed and ready for the winter."

"Water should have been turned off all kinds of fruit trees a month ago in order to prevent all possibility of frost damage. After the trees have shed their leaves they should be irrigated once, say about December 1, in order that they may go into winter quarters moist as it is the dry frost which injures them. I do not practice fall cultivation. All that is necessary is to protect the trees against rabbits. I do not advise trimming until March."

Mr. Waters considers it safe to set out trees in November, provided the ground is deeply plowed and carefully irrigated. He is now engaged in building his apple trees, of which he has over 75,000.

The Elberta peach trees will bear heavily next year. They threw out lots of buds this year but Mr. Waters expects the buds in order not to tax the trees. All the peach trees have made wonderful growth.

"The Oregon native maple," said Mr. Waters, "is found to be a favorite tree in this section. It looks no handsomer as the hard maple and it grows as rapidly as the soft maple. My Oregon maples have thrived splendidly and are in excellent condition for the winter. I have not lost a single one of them. They will grow with any kind of decent treatment. Another good thing which we get from Oregon is the ever bearing blackberry. My vines have been bearing all summer and there are berries on them yet."

Mr. Waters takes a great deal of pride in his locust grove. His black locust trees made phenomenal growth last year but they were watered too late in the fall and many of them died. The locust leaves are turning yellow and the trees are ready for the kind of weather. The same is true of all the trees on the nursery farm with very few exceptions. Mr. Waters has done a great deal of profitable experimenting and is possessed of much valuable information. He should be induced to tell the farmers at the association meeting what he has learned in regard to growing trees on the Twin Falls tract.

PREPARING FOR THE WINTER

Filer Farmers Propose to Take Time by the Forelock.

FILER, Oct. 9.—W. O. Tice is building a good barn on his ranch. He expects to have it ready to receive their daily mail and appreciate a good mail service.

R. W. Gager has added to his neat hardware stock a full line of cold and hot bath heaters and Good Luck ranges.

E. C. Clark is building a neat and

substantial grainery and making other good improvements.

Many of our people are digging cellars and caves and preparing for winter.

O. Q. Dale is building a neat little cottage and expects Mrs. Dale soon to join him in their new home.

T. D. Smith has about completed a very neat and substantial barn on his town lot.

Quite a number of our people attended the Republican county convention at Twin Falls last week.

Pat Murphy has returned to our locality and all are glad to see him at home again.

Hon. Mr. R. Hattabaugh, Democratic candidate for congress, addressed a large audience here last evening.

The elder of the Mennonite church for this district will preach at the school house next Sunday at 11 a. m. and 7:30 p. m.

BLANKET EXTENSION OF TIME GRANTED By State Land Board to All Entry- men Within Certain Limits on the West End.

The State Land Board has granted a blanket extension of time until June 1, 1907, to all entrymen whose lands are under the high line canal west of Cedar draw. It would be well for the entrymen to communicate with W. O. Taylor, representative of the board in Twin Falls, and find out whether their lands are included in this area.

NEW WAREHOUSE IN COMMISSION

KIMBERLY FARMERS BUSY STOR-
ING THEIR GRAIN.

Three Sorghum Mills Operating in
That District—Old Time Prospector
Attracts Attention—New School
Nearing Completion.

KIMBERLY, Oct. 11.—Peter Newman of Rock Creek left on Thursday for New York City. From there he expects to call for his old home in Denmark, from which he has been absent seven years.

L. E. Prothero, who was injured so severely some time ago by being kicked by a horse on the road between here and Twin Falls, and who was taken to the latter place for surgical attention, was brought home on Friday's train. He stood the trip very nicely and now feels more contented that he is at home and can see just how things are going on the ranch.

The telephone linemen from Twin Falls spent two days this week setting new poles and rewiring the phone in the Mercantile company's store which was recently moved from its old location where it stood in the street. They replaced the old poles with new ones and at home and can see just how things are going on the ranch.

An old time prospector such as the writer was accustomed to see in Ar-

JANNEY FOR SENATOR.

John Janney of Twin Falls has been nominated for state senator on the Democratic ticket in place of W. S. Starr, who declined the nomination. Mr. Janney is one of the pluckiest of Twin Falls and a very popular and talented young gentleman. He owns the Old Fellows building and other property, also a farm not far from town. Mr. Janney intended to follow the local profession for which he was fitted but outdoor life pleases him better and he prefers to wear khaki and high boots. He is a shrewd business man, a bright speaker and is intensely loyal to Twin Falls.

George Holbrook, one of the second crop alfalfa from the field he planted last spring. He has an excellent stand and will have hay to spare next year. H. A. Howell has finished cutting his second crop, which yielded two tons per acre. J. E. Ohlson sold his third crop of alfalfa in the field to Frank Huston, who will take care of it at once.

W. H. Turner, cashier of the bank, who purchased the Bauer place last spring, is having it cleared. M. N. Fisher is doing the work with a Handrick grubber.

Ernest McIntire, who is the manager of the Kimberly meat market, has been working over time constructing a stable in which to keep his delivery team.

E. W. Tilley is also busy making an addition to the Supply company's store.

The new schoolhouse is nearing completion, which fact will be hailed with joy by the pupils.

A Jay floating gang is camped here at present repairing the track. All the track this side of mile post 30 has been put in good shape and now that stretch between here and Twin Falls will be attended to.

Don't forget to register. Every voter in the Kimberly precinct should register as the time in which you can do so is growing short. Call at the postoffice any time and register.

C. A. McMaster has gone over to his ranch under the high line to fence it. He owns a quarter section over there that is all planted to alfalfa. The range cattle are beginning to come down onto the place and as he does not want to furnish free pasture he is going to fence.

Jack Ohlson, who has been running the delivery wagon for the Mercantile company and the meat market, has severed his connection with same and is now working in the warehouse.

Martin Jensen, who has been visiting with his relatives at Rock Creek, has just returned home in Eyanston, Wyo., on Tuesday.

Three sorghum mills are running in this vicinity. They are turning out a very valuable product which promises to be in great demand. The yield per acre is very satisfactory and the quality of the cane good.

A new pump has been put in the cistern at the schoolhouse.

Just at this time several people are remembering the need they had for a cistern last winter and are preparing themselves for this year.

Miss Eva Pettigrew, who has been ill some time, has so far recovered as to be able to be out again.

A Republican meeting was held at the schoolhouse on Wednesday evening for the purpose of nominating a justice of the peace and a constable.

After this business had been attended to, the Republican club was formed to attend to the campaign in this precinct. The following officers were elected: B. Wilkins, president; C. M. Clippinger, secretary; E. W. Tilley, treasurer. No doubt but what this club will be a great help to the party and Kimberly believes she is setting a good example for the other precincts of the county.

F. M. Prothero has brought suit against J. N. Stratton for a sum said to be due for labor performed on the Prothero place which Stratton had rented. The suit involved the attachment of Stratton's grain, which has been placed in the warehouse.

The Cheney horsepower machine is threshing southeast of here, having

worked for Messrs. Holm, Morse, Walker and Otis Cheney. It contemplated moving to Rock Creek shortly to do the work in that section.

Quite a crowd of the young men about here spent last Sunday at Blue lakes.

Jack Gaskill, our genial lumberman, went hunting again last Sunday. This time he went with William Sharp, who promised him sincerely that he had a nice deer, and to a willow down in the bend of Rock Creek. Jack swears he saw the place where the deer was but that he had gone over Shoshone Basin to register so he could vote for Harry West.

George Holbrook, one of the second crop alfalfa from the field he planted last spring. He has an excellent stand and will have hay to spare next year. H. A. Howell has finished cutting his second crop, which yielded two tons per acre. J. E. Ohlson sold his third crop of alfalfa in the field to Frank Huston, who will take care of it at once.

ANOTHER BRICK YARD IN HANSEN

GREAT ACTIVITY IN THE BUILD-
ING LINE.

Nick Smith Threshes a Big Crop—
New Settlers Coming In—Farmers
Visit the Forest Reserve to Secure
Fence Posts.

HANSEN, Oct. 11.—Rev. Ed Baker was a visitor to Twin Falls last Wednesday.

Thomas Springer left last week for his old home in Missouri.

Two more cars of lumber were unloaded at Hansen this week.

John Hansen and family of Idaho county moved upon their ranch two miles north of here last week.

Roy and Joe Williams have been working on the high line canal the past two weeks.

Ed Smith is hauling out more lumber for his new residence.

W. P. Swan is building a modern four room brick cottage on his ranch.

A. L. Yates, manager of the brick yard, expects his family to arrive here about October 15 from Astoria, Wash.

A party of Hansen farmers went to the forest reserve last Wednesday to be gone a few days. They were all woodmen.

John Rudd, who had been in the mountains the past summer, herding sheep, returned Friday last to his ranch.

Rev. Ed Baker of Wardner, Idaho, arrived Tuesday last to visit. His mother, who has been ill for some time, Mr. Baker reports that she is no better.

W. D. Howard and family arrived here last Tuesday from Childs, Tex., and are the guests of Mr. and Mrs. Roberts.

J. C. Webster, president of the Twin Falls Chamber of Commerce, spent Tuesday night in Hansen, the guest of our lumberman, T. T. Rutledge. Mr. Webster contemplates further improvements on his buildings and yards in the near future.

John Pelkos is hauling material for a new barn on his ranch south of town. He also expects to change the location of his house and make some additions thereto.

W. N. Rose and Charles Upton have the contract for moving his house.

Nick Smith, one of our prosperous farmers in this locality, had 255 acres under cultivation this year, the greater part being sown to oats, which yielded an average of 15 bushels per acre. His total crop amounts to 13,000 bushels.

Miss Eva Walton, accompanied by her sister, Mrs. Pratt Walton, returned Thursday last from Rupert, where they spent the last three weeks.

John Pelkos and family arrived Friday, October 5, from Wallace, Idaho, to move up on his ranch and make this their future home.

After one year's absence Extra Williams has returned here bringing his family and shipping a car of household goods and stock.

Among those who visited Twin Falls last Saturday were James S. Barnes, Mrs. Mary Rice, Isaac Divine, W. H. Nichols, T. T. Rutledge, Mrs. R. D. Roberts and Clifford Roberts.

John Nichols has the contract to do some grubbing west of Twin Falls, to which place he moved his family this week.

J. C. Jones returned last Saturday from Rutland, N. D., accompanied by his wife and Miss Jennie Johnson, also of Rutland.

A new brick yard was started in Hansen this week by A. L. Yates. Five men are at work molding the brick. The men at work are Arthur Towne, Ben Walton, H. Shields, A. L. Yates and Mr. Parker.

Bruce Rose, E. G. Cowles and Chas. Hedrick left this place Thursday.

WHAT CONGRESS VISITORS THOUGHT OF TWIN FALLS

Editor of "Irrigation," a Leading Agricultural Paper Published in Denver, Gives His Impressions of the Tract and its Surroundings—Declares it Will Be the Most Rapidly Populated and Abundantly Productive in the Country.

The following story of the visit to Twin Falls of the delegates from the National Irrigation congress in Boise, and the impressions of the trip, is contained in the last issue of "Irrigation," a Denver publication devoted to irrigation and its application to horticulture and agriculture.

The trip to Twin Falls and St. Anthony, Idaho, after the close of the congress, were occasions that not a single individual in the great party flitting eleven coaches will ever forget. It was an idea born in the brains of the executive committee that was a fitting climax to a great event in the history of irrigation in America.

The Studebaker Wagon stands for the qualities that make wagons desirable. Light running and easy on the team, durable because the lumber is seasoned right before being finished. Made to stand up under heavy loads.

THE STUDEBAKER WAGON

is built from first-class material down to the minutest detail. The slow-growing, fine-grained, tough-fibered black birch from the rocky hills of New England is used in the hubs, select white oak is made into spokes and felloes and choice second growth, butt cut hickory is used for the axles. Every other part as carefully selected. The skids, tough and hard, are forced into place on the axles under 100 tons pressure. "Studebaker" axle shoulder spokes are driven into the hub under the same tremendous pressure. Best and toughest iron and steel strongly reinforces every part where needed. The Studebaker is

The Unapproachable Wagon

and we sell it because the name is the best guarantee we can give of its excellence. We keep them in stock, and if we haven't the kind you want, in size or style, we can get one for you in the shortest possible time. We shall be glad to talk wagon to you and if you will come in we will give you some interesting reading matter about wagons.

The state fair opens in Boise on Monday. To those who have never visited the capital and do not thoroughly appreciate the wonderful advantages of Idaho, the fair is an alluring attraction. Special rates have been provided and the opportunity to see a beautiful city and an excellent fair is one which should not be neglected.

Frequent complaint is made that hogs and cattle are pastured on lands through which laterals pass and the water is being contaminated. The farmers use water from the ditches for domestic purposes and if the laterals are transformed into hog wallows the water will be unfit for use. There appears to be no excuse for such practice and the proper authorities should see that it is stopped immediately. The laterals should be kept free from all impurities.

The statement of receipts and expenditures presented by the board of school trustees, which appears elsewhere in this issue, is one in which every citizen should take interest and pride. It shows that the Twin Falls school is in a flourishing condition, financially and educationally. The trustees have been liberal but not extravagant. Many have complained about their school taxes. It should be remembered that this is a new community and is building for the future. When the license money is available the taxes will be lowered materially. The revenue obtained from the county district more than offsets the cost of maintaining the wagons. This district will pay in taxes this year more than \$3000, and the state apportionment amounts to a considerable sum.

Dispatches have been sent out from Twin Falls to the effect that Governor Gooding canceled his meeting date in this city because he feared insult. It has been stated that a prominent Republican threatened to call for three cheers for Governor Gooding. Dr. Boyd and Joseph F. Smith when the governor was introduced. These statements are a libel on Twin Falls and an insult to the state. Nowhere in Idaho will Governor Gooding be given a more cordial reception than that which Twin Falls will extend him when he visits this city two weeks hence. His previous date was canceled because the governor was suffering from a severe cold which compelled him to cease speaking in public. The people of Twin Falls are law abiding, hospitable citizens and they treat all political speakers courteously, regardless of their affiliations. Governor Gooding has been fair and generous to the people of this tract and they appreciate his friendship and admire his manhood.

There is no reason why Senator

George A. Day, Republican candidate for state senator from this county, should not receive the vote of every Republican on the Twin Falls tract. It is being urged that because Senator Day is a member of the Mormon church he would oppose the creation of a gentle county. This is idle talk and grossly unfair to the senator. The citizens of the east end of the county are strongly in favor of county division. They realize that two years hence they will be in the minority and furthermore they are sincere in their desire to favor the people of Twin Falls. Since the tract was first settled they have shown a friendly disposition toward the west end and many times have gone out of their way to accommodate us. They cannot be blamed for hesitating to spend county money on roads and bridges because they have always looked forward to county division and it is natural that they should leave that work for the new county. In every respect they have been absolutely fair and upright in dealing with their new western neighbors. Senator Day has lived in this county many years.

He has twice represented the county in the state legislature and proved himself a tireless, conscientious and effective worker. Mr. Day has always stood for county division and he is capable of wielding more influence to that end than any candidate who could have been selected. He is a man of integrity and ability and his religious belief should not militate against him. The true Republicans of Twin Falls will not be so narrow minded as to oppose him because of his creed. The entire county ticket is clean and Republicans should vote it from top to bottom.

When a man is elected delegate to a convention and takes part in the deliberations of the same, no matter if the candidate he desired should be defeated, he is not to be considered as acquiescing in the result and giving his support to that man just the same as he would to the one he was endeavoring to secure the nomination for. That is good straight politics. When a man secures every nomination he works for, it becomes a one man convention. There is no possibility of even being satisfied. The proper thing to do is to let you get what you did and the other man should do the same. If you are a Republican, support the Republican ticket. Remember that if you vote for a man who is voting for, but the principles of the party to which you claim to belong. Idaho Falls Register.

CHANCE FOR POTATO GROWERS

Omaha Buyer's in the Market for Fifty Carloads.

W. H. Butts of Omaha, potato buyer for O. W. Butts of that city, visited Twin Falls this week and declared it was the most promising irrigated tract he had ever seen. Mr. Butts inspected and tested several varieties of home grown potatoes and pronounced them excellent. He expressed the belief that this would surely be a great potato section and he advised the farmers to be jealous of their reputations. Mr. Butts said it was absolutely necessary to keep the varieties apart for the reason that they did not cook alike. It is necessary that the potatoes should all be thoroughly cleaned. No potatoes smaller than turkey eggs should be marketed, nor should the very large potatoes weighing more than one pound be sold. Above all, the potatoes should be carefully sorted and stored in a dry, well-ventilated, satisfactory conditions, to buy 50 carloads of potatoes in this city and if he can secure that amount he will send a man here to superintend the grading and shipping. His proposal will be discussed at a meeting of the Farmers' federation which will be held in Superintendent McDonald's office on Saturday afternoon, October 13. All those who have potatoes to sell should attend this meeting.

CONTESTING RIGHT OF WAY

Cory Bros. are being hampered in their work on the Buhl extension by entrymen who object to granting the railway company any right of way through their land. In some instances the engineers have been stood off by land owners armed with shotguns. The railway plans to claim 200 feet right of way through the tract by reason of the fact that it was government land. The railway plans to claim this. This claim was resisted by land owners east of Twin Falls, who declined to grant more than 100 feet. West of Twin Falls the railway appears to have been no definite agreement with respect to the right of way. In many instances the entrymen fled upon their land and subject to the right of way. Other entrymen claim there was no understanding respecting it. Unless the question is straightened out satisfactorily to both sides work on the road may be delayed. Ultimately the railway company is bound to secure the right of way but the rights of the entrymen must be protected in those instances where no agreements exist.

Grain Bags—Grain Bags.

The Pioneer Storage & Commission Co. has just received a carload of wheat and oat sacks.

Carpenters Wanted.

Three or four good carpenters wanted at Buhl at once.
A. McDONALD, Buhl, Idaho.

Summary.

Total receipts	\$11,061.11
Total disbursements	3,340.32
Balance on hand	\$7,720.79

I, the undersigned, do hereby certify that the foregoing statement is true and correct to the best of my knowledge and belief.
J. M. MAXWELL,
Village Treasurer.

Subscribed and sworn to before me, a notary public, in and for the county of Cassia, state of Idaho, this 9th day of October, 1906.
I, R. DARROW,
Notary Public.

Notice of Publication.

Notice is hereby given that at 2 p. m. on the 10th day of November, 1906, at Rock creek, county of Cassia, state of Idaho, before John F. Hansen, proof will be submitted of the completion of works for the diversion of 45 cubic feet per second of the waters of Rock creek, Cassia county, in accordance with the terms and conditions of a certain permit heretofore issued by the state engineer of the state of Idaho.

1. The name of the person or corporation holding said permit is Dan P. Albee.

2. The postoffice address of such person or the place of business of such corporation is Rock creek, county of Cassia, state of Idaho.

3. The number of such permit is 1564, and the date set for the completion of such work is November 11, 1907.

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the permit, for such diversion is 45 cubic feet per second.

6. The amount of lands for which said water is available is 40 acres, particularly described as follows: SW 1/4 of N 1/2 of section 25, township 11 S., range 18 E. B. M.

JAMES STEPHENSON, Jr.,
State Engineer.

A. G. Lammers

Hotel Filer - Filer, Idaho
Notice for Publication—Final Proof.
I, William Hutchinson of Twin Falls, who made and was sworn to before me, the provisions of an act of the legislature of the state of Idaho, commonly known as the "Cave Act," approved March 2, 1905, which embraces lot 2 and 3-1/2 of NW 1/4 and NW 1/4 of NE 1/4 of section 18, township 11 S., range 18 E., do hereby give notice of my intention to make proof to establish my claim to the land above described, and that I expect to prove the same by the testimony of myself and cultivated soil land as required by law, before W. O. Taylor, recorder of the State Land Board, at Twin Falls, Idaho, on the 10th day of the month of November, 1906, by two of the following witnesses: A. G. Lammers, J. H. Venstrom, J. O. Girder, John H. Leab, all of Twin Falls.

WILLIAM HUTCHINSON,
Delivered until October 20, 1906.

NOTICE.

All residents and property owners in the village of Twin Falls are hereby notified that all vaults and cesspools must be thoroughly disinfected and put in sanitary condition at once; and that all manure and rubbish of every kind or nature must be removed with like promptness.

By order of the Board of Trustees,
S. T. HAMILTON, Chairman.

Strayed or Stolen.
Black horse weighing about 1050 pounds; branded U on left thigh. Reasonable reward for return or information leading thereto.
R. K. JOLLY, Burley, Idaho.

BREVITIES

S. Peterson, Jr., of Salt Lake City, a well known implement dealer, is in the city.

Mrs. Frank Burrington of Kimberly has been the guest of Mrs. A. D. Norton of Rock Creek for the past few days.

Work has commenced on the Stoddard-West company's building on Main street. The foundation is already in and the walls will go rapidly.

The Land & Water Co. has purchased 200,000 pounds of oats and is in the market for as much more. The company is also buying hay for delivery at its ditch camps.

P. H. Smith has thrashed the crop which he cut from 80 acres of new land one mile south of town. The crop averaged 65 bushels to the acre, an excellent showing for land which was cleared late in the spring.

William Clawson, who purchased a tract of land from John Erickson on Blue Lake, has been publishing residence on his new property. His building is a gem which will net him a nice income. It yielded 10 tons of alfalfa to the acre this season.

The elm trees on the north side of the experimental farm have made wonderful growth this year and probably show up better than any other tract. They are uniform, well limbed and straight as a die.

The prohibitionists have nominated Arthur Cressley of Filer for state senator and D. W. Brunk of Twin Falls for representative. Their platform advocates county division with Twin Falls as the county seat of the new county.

Wildie Boas, who will build a flour mill in Twin Falls, have decided to increase the capacity of the plant to 150 barrels per day. They have been granted until May 1 to complete the mill on account of the increased capacity. The machinery has been ordered and work will be pushed.

Corey Bros. have crews at work clearing the right of way preparatory to commencing work on the grade of the Buhl extension. They have been waiting patiently for farm teams but from appearances they will secure very few. It will probably be necessary for them to bring in stock from Montana. They are also picking up all the laborers they can secure.

Mrs. J. H. Yates has leased the Hotel Washington and will assume charge on Sunday, when an elaborate dinner will be served. Mrs. Bunnett, the retiring hostess, who has made the Washington popular, will remain in Twin Falls. Mrs. Yates has many friends who wish her well in her new venture.

Many farmers are complaining because they are not notified when water is turned off to permit of repair or construction work. Water would enable them to fill their cisterns and make preparations for the shut-off. They believe the company should give advance notice either through the ditch riders or the press.

The new house and hose for the city have arrived. The house is being built in a shed in the rear of the Hotel Perrine until such time as the city can secure permanent quarters. The additional hydrants are on the way and the pipe line for the low level canal is nearing completion, consequently there will soon be no further cause for complaint regarding fire protection.

Miss Grace Klerstedt has decided to take a limited number of pupils in shorthand and typewriting. Her class will be private and the tuition will be thorough. Miss Klerstedt is conceded to be one of the most capable stenographers and typists in the west and her ability to impart knowledge of these arts is unquestioned. Those who desire to join her class should apply at the office of the state land board.

Alfred Eoff, the well known Dolan financier, has purchased 80 acres from S. S. Spencer, facing on Blue Lakes boulevard. The price was \$100 per acre. Mr. Eoff has the reputation of growing the best Italian prunes in the west and the fact that he was willing to pay a substantial bonus for Twin Falls land shows what he thinks of the tract. He is a welcome addition to Twin Falls and a man who will do much for this section.

Alfred Eoff has returned from his trip to Twin Falls. It was his first trip to that section, and he was one of the most surprised of all those who have gone to Twin Falls in the past. He is pleased with the development that has taken place in two seasons. In speaking of it yesterday he said there were many localities settled for 20 years where no such progress had been made. This, he said, was true of both the towns and the farms.—Boise Statesman.

Charles Roraback of Rock Creek is acting godfather to an orphan child, otherwise known as a "lippy." The mother of the infant cecily, a gray mare, weighing about 2100, brand A. P., mired in Rock creek near Mr. Roraback's home. Mr. Roraback did not die, mourned by him for three months old. The owner of the colt can recover it by applying to Mr. Roraback, paying the charges and proving property.

Senator and Mrs. W. B. Heyburn and Miss Mary F. Yeatman of Kennett returned on Sunday from Harborsburg. Where the senator spoke on Saturday evening. Miss Yeatman has purchased 80 acres fronting on Blue Lakes boulevard from Addison T. Smith and leased the land to P. T. Higfield, a young gentleman of Wilmington, Del. Mr. Higfield is a bright and ambitious young man who will not allow any weeds to grow on his farm.

Frank Burrington of Kimberly is building a fine new house.

D. M. Winsor of the Western Moline Plow Co. is a guest at the Portico.

W. H. Barker, the Heyburn brick manufacturer, was a Twin Falls visitor this week.

President C. B. Hurr of the Independent Co. was in the city on Saturday and Sunday.

Mrs. A. N. Sprague left on Monday for Denver, where she will visit for a time.

Mr. and Mrs. William Scherer have rented the residence of D. W. Brunk on Tenth avenue.

C. E. Evans picked up a milk can on the road and left it at the News office, where it awaits the owner.

Lutheran services will be held in the Christian church next Sunday at 2 p. m. by Rev. W. H. Schnack. Services will be held at Filer in the school house at 5 p. m.

Joseph J. Hulise left on Sunday for Nevada. He will visit the new mining camp in the border, continuing his journey to Yakima. Mr. Hulise will return to Twin Falls in the spring.

J. W. Craven has returned from his old home in Missouri. Waited at the corn crop was great in Missouri this year, and the farmers were fat and sassy.

Mrs. W. F. Pike will entertain at "500" this afternoon. Those invited are Mesdames Alkon, Ball, Booth, Boyd, Boyer, Hagen, Davis, McGee, Milner, Williams, Harris, Misses Luce, McCollum and Rigdon.

Mrs. M. H. Sebeck gave an orchestra musicale last Friday afternoon. After a few select numbers a delicious Dutch lunch was served. The guests were Mesdames Steele, Chamberlain, Ring and Kierstedt, Misses Kierstedt, Belle Chamberlain and Dr. Jane Shank.

Murray R. Hattabaugh, Democratic candidate for congress, addressed a large audience in the Ring theater on Monday evening. Mr. Hattabaugh is a pleasing speaker and he presented the campaign issues in a forceful manner, eliciting liberal applause. His delivery is very effective and his address showed careful preparation. He exploited several new phases of the Mormon question and touched briefly upon national issues.

E. G. Walther of Filer has grown a quantity of water radishes of excellent quality and great size. One of the radishes which he brought to the News office resembles the trunk of a cannon, being having two arms projecting. Walther said that the seed which he received from the department of agriculture and he will have splendid radishes on his table in midwinter. The seed was planted in May and the radishes matured perfectly. They are firm and succulent but not stringy or tough.

M. W. Kunkely, state agent for the Merchants Life association of Burlington, Iowa, has decided to make the state headquarters in Twin Falls. He has secured a new two-story brick building and will operate from here. The insurance disclosures in Now York have proved beneficial to those companies who have followed safe lines and their business is rapidly increasing. Mr. Kunkely is finding the people of Twin Falls ready to talk wisely in regard to the low level canal and he is going after them strong.

Mrs. Maude Provins of Ottawa, Ill., and her two sons, Claude and Carl, have each filed upon a quarter of four miles south of Buhl. They left for Ottawa yesterday and will return in two months with a carload of household goods and effects. One of the young men has been in the government service in the Philippines connected with the educational department, but he prefers the peace and prosperity of Twin Falls to the turmoil of the Orient. The Provins family are of the finest type of citizens and they will find congenial company in their new home.

On Thursday afternoon Mrs. G. D. Alken entertained delightfully with cards and a novel seed guessing contest. A monstrous yellow pumpkin was transformed into a jack-o-lantern and the guests guessed the number of seeds it had contained. The guesses were kept in a profound secret but Mrs. Booth received the first prize, a book. In the card games Mrs. Barrett won a beautiful plate, while Miss Luce secured a handsome rack. Those present were Mesdames Booth, Boyd, Barrett, Baker, Tush, Harris, McCollum, Williams, Taylor, Pike, Kunkely, Misses Luce and McCollum.

Elias Nelson of the department of investigation, who spent the summer in Twin Falls investigating conditions on the tract, left yesterday for Caldwell, where he will take charge of the department's experimental farm established there. Mr. Nelson has done a great deal of quiet, effective work, the results of which will be embodied in his report to the department. He has also made many warm friends and secured a high reputation. The board of the department has paid much attention to Twin Falls and while there has been no blare of trumpets to proclaim the value of the work his assistants have performed, time will demonstrate their benefits.

Judge Ogden Hiles, city attorney of Salt Lake City and one of the leading judges of the American press in Utah, will deliver an address at the Ring theater on Monday evening and the Kimberly school on Tuesday night. Judge Hiles has been prominently identified with Utah politics for many years and his views on the Mormon issue are based upon personal acquaintance. The senator has been identified with Utah politics for many years and his views on the Mormon issue are based upon personal acquaintance. The senator has been identified with Utah politics for many years and his views on the Mormon issue are based upon personal acquaintance.

C. K. Williamson of Meridian has shipped in a carload of dairy cows, consisting of Jerseys, Holsteins and Shorthorns.

Mr. and Mrs. P. H. Smith have furnished apartments in the Boyd block, where they will reside during the winter.

Guy C. Barnum of Shoshone, candidate for district judge on the Democratic ticket, spent several days in Twin Falls this week.

The Falls Steam laundry building has been moved from its former location on Tenth avenue to Thirteenth avenue, two blocks in the rear of the Idaho Department store.

The village trustees on Saturday night awarded the \$40,000 sewer bonds to Fred L. Harris. There were in all three bids received. The Bankers & Lumbermen Bank of Portland bid \$40,752 for the bonds—Portland bid \$40,752 for the bonds delivered in Chicago. One of these bids were subject to many conditions. Mr. Harris bid \$40,500 cash for bonds delivered in Twin Falls and subject to no conditions whatever. It would have been paid at least six weeks to fulfill the requirements, if it were possible, of either the Portland or Chicago bids, during which time the accrued interest on the bonds would have amounted to \$300 at least, thus reducing the Portland bank's bid to \$40,452, less the further cost of shipping—the bonds to Portland, which would be about \$50.

ADVERTISED LETTER LIST

List of letters remaining uncalled for in the postoffice at Twin Falls for the week ending September 6, 1906:

REALIZES BARNUM'S PROPHECY

Socialist Orator Turns Out to Be a Tiresome Humbug.

When P. T. Barnum said the American people liked to be humbugged his words were prophetic. The people of Twin Falls are no exception. On Monday and Tuesday evening to be humbugged by the "Socialist" orator, Lewis, an unkempt gasbag, whose palms wore as itchy as they were dirty. It was expected that Lewis would expound the doctrine of Socialism in an instructive manner, as they are susceptible of such treatment; but he talked of abolition, socialism and various other more interest in the collection which were taken up at the meetings and in the sales of his book than he did in the cause which he was supposed to represent. Lewis offered no evidence whatever to show his familiarity with even the rudiments of Socialism. His talk was an incoherent disconnected string of phrases and words with secondary punctuation. In his treatment of the Steunenberg case he showed no regard for facts or fairness. Slandered in his audience were men who saw Pettibone, "the martyr" blown up the Frisco mill at Gem, Idaho—good hard working citizens who had been ordered out of the town of Wallace by the same Pettibone and who knew him for what he is, a lawless, disreputable character with no respect for law and order. Lewis is of the brand of Socialists who strive to be winning. He plays upon the passions of honest workmen and lives upon their credulity.

FREE FREE FREE

One Upright Piano,

Value \$450

GIVEN AWAY ABSOLUTELY FREE

The Idaho Department Store, successors of the Allen Mercantile Co., was one of the first mercantile institutions to open its doors in Twin Falls and in its short year we have grown into one of the largest mercantile institutions in Idaho, doing business in our own two-story cement block building which is pronounced the finest store and the best equipped building in the state of Idaho. We have shown our confidence in Twin Falls and are here to stay.

Now to show you our appreciation of your confidence in us and to reward you for your liberal patronage in the past and to solicit a continuance of the same, we will give away absolutely free one Upright Piano valued at \$450. TERMS AND CONDITIONS.

With every \$1.00 in cash trade we will give you a ticket numbered in duplicate. You keep the original and deposit the duplicate in a large box just inside the front store door. This box is securely locked and the key is in the possession of Mr. Voigt at the Land & Water Co.'s office.

On the night of December 31, 1906, the last day of this prosperous year, we will give a grand musical recital in our store building to which everyone holding one of the \$1.00 coupon tickets is invited, and the prize in the presence of our patrons and friends. Mr. Voigt will unlock the box and a small boy will draw 100 tickets therefrom. When the 100th ticket is drawn the number will be called and the person holding the duplicate will be the owner of the piano. The first ticket will be given on Monday, October 15. Who will be No. 1?

We will continue our policy of selling goods at the lowest possible price and still hold our Saturday specials, where the finest bargains are always found. We were the first merchants in the city to sell sugar at 16 pounds for \$1.00 and just keep your eye on us for bargains in the future.

In order to give each and every one a fair opportunity on this grand prize we will consider all monthly bills as cash and will issue coupons for the amount of the bill, providing it is paid on or before the 10th of succeeding month.

Pasture, Pasture, Pasture.
Good feed, pure water and strong fence.
J. H. SHIELDS,
1 1/2 miles north on Blue Lakes boulevard.

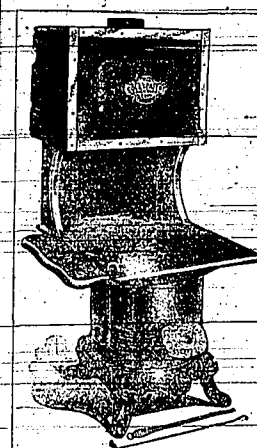

Furnished Room.
Furnished room with breakfast if desired; bath and home comforts. Inquire at office, Idaho Department store.

TEMPERANCE WORKERS ACTIVE

Mrs. Garlock of Twin Falls is Re-Elected State President.

The W. C. T. U. of Twin Falls, will meet at the Christian church "Tuesday" afternoon, October 16. The occasion will be a program meeting. The subject, "Christian Citizenship." In view of the approaching election and the need of being posted along these lines, the subject is one that should appeal strongly to every one. The meeting at Mrs. Garlock's yesterday was well attended and was a treat enjoyed by all present. Mrs. Garlock, state president of Idaho, had just returned from Emmet, where the national convention was held October 3-5, and she gave a synopsis of the doings of that body. She was re-elected state president for the ensuing year. She is also active in the W. C. T. U. convention to be held in Boston November 17. The union in Twin Falls has adopted a resolution to send a delegation to the world's convention. A committee was appointed to arrange proper design, material, etc. It was also decided to invite Mrs. D. Hall, a national worker in the state of Illinois and who is touring Idaho, to visit the union here and deliver an address about the 6th or 7th of November.

Extraordinary Offer

For a Short Time Only

In order to introduce and get my Bromide Enlargements before the people, will offer

100--Pictures--100

FOR EXTREMELY LOW PRICE OF

\$8.00

This includes Frame, Glass, etc. These pictures will be 16x20 inches in size, your choice of 5 styles of frames, oak, oak and gilt, or all gilt. These frames are extra heavy, extra large, with frame that usually sells for \$4.50 each.

I guarantee to be first class in every way, and if you are not perfectly satisfied you need not take them and you are not anything but the trouble of bringing me the photo that you want the enlargement made from. Please do not confuse these pictures with the cheap painted pictures that the traveling fakirs offer you and are never satisfactory. I am here with you to stay and my living depends on my getting out work that you will be pleased with, for I want you to come again.

This offer holds good for month of October, 1906, and for only 100 pictures. I know this will not be enough for all of you, but first come first served. Don't blame me if you come too late.

Yours truly,

C. E. Bisbee

PHOTOGRAPHER

TWIN FALLS, IDAHO

If It Comes from Bisbee It's All Right.

Cooked just as you like it.

Served when you want it.

Be kind to your stomach and you will live long

We are now equipped to serve short orders

of meat, fish, game and poultry.

Oysters in every style.

Short Orders a specialty.

BRADLEY & CAMERON

MINIDOKA DAM IS COMPLETED

Finishing Touches Administered and Contractors Dismantling Works.

The finishing touches have at last been given the Minidoka dam and the structure is now entirely completed. Bates & Rogers, the contractors, last Monday commenced dismantling the plant, which will be hauled to Minidoka.

The head works for the main north side canal are completed and the main canal is completed for its entire length to Schermer, Orman & Crook having finished their work last Tuesday. The canal will not be ready for the water, however, until the head gates for the waste canal are completed.

The headgates for the main south side canal will be finished in a week or ten days. The contractors on the structural work are away behind and the turning in of the water will be delayed on this account. The bridges and culverts on the south side will be completed in about two weeks, but the progress on this side is very slow. The flow of the river is increasing and with one gate down the water has backed up for a great distance, the islands above the dam being submerged. It will take to a few days to raise the water to the canal levels when the canals are ready for it.—Boise Record.

MAY TAKE PLACE OF COAL AND OIL

MANIFOLD UTILITIES OF DENATURED ALCOHOL.

Revolution in Heating Lighting and Power Production May Take Place When Untaxed Alcohol is Placed on the Market.

A great deal of interest is being manifested in Twin Falls in the manufacture of denatured alcohol. The product, being sold for industrial purposes, is being sold for 13 cents per gallon. It is stated that a New York distiller produces alcohol at a cost of 8 cents a gallon. His product was sold in New York in carload lots at \$2.20 per gallon. The tax is \$2.08 per gallon, which leaves 12 cents for the producer, profit and risk. Distillers claim that from 40-cent corn alcohol can be manufactured for 13 cents per gallon of 94 per cent strength. The present price of alcohol in Cuba is 10 cents per gallon.

Department Regulations. The commissioner of internal revenue, with the approval of the secretary of the treasury, has issued departmental regulations concerning the manufacture of denatured alcohol, the handling of the same and its uses. The law providing for the manufacture of denatured alcohol became effective January 1, 1907, and is in harmony with similar laws adopted by other countries.

In referring to the regulations the commissioner said:

"The prime object to be attained by this type of legislation is to furnish, for purely domestic uses, and also for what might be called industrial domestic purposes, heat, light and power, cheap alcohol with the hope thereby that there will be a reduction of expenses in the department."

"This denatured alcohol will be a competitor with illuminating oil, gasoline and coal. It will also furnish to manufacturers who use alcohol in the products of their factories, alcohol free of the heavy internal revenue tax now levied on the same. This amounts to about \$2 per wine gallon on alcohol at 180 degrees proof. It is believed great benefit will be derived by the people by this legislation and this certainly was the main object of the law. The public measures received such hearty and unanimous support as did this."

"In preparing the regulations it was essential to adopt rules that would prohibit as far as possible perpetration of any and all frauds against the revenue of the government, by the reclamation and reimpregnation of denatured alcohol through distillation or other processes through the removal of the denatured ingredients added, and restoration of the alcohol to its original condition for beverage and potable purposes."

"To secure these ends it will be necessary to use articles for denaturing purposes and also alcohol of a certain grade that are most difficult to separate from pure alcohol by chemical or other processes."

"In determining on the denaturing agents to be used, the cost of the same is of great moment, for to render this new legislation of practical use and benefit, it is necessary for the denatured products to be sold to the consumer at as low a price as can be secured."

Two Classes of Alcohol.

"Under the regulations now issued, alcohol of 180 degrees proof is free from the tax of \$1.00 per wine gallon after being denatured by the use of either some general denaturing material or some specific material adapted especially to the use of certain manufacturing interests. There will, therefore, be two classes of denatured alcohol: first, that styled 'completely denatured,' which will have no general use for general consumption, can be purchased at stores without limiting regulations as against the private consumer, and, second, 'specially denatured,' in which the material demanded by the needs of manufacturing interests will be regarded, and with limitations as to the use of the same, restricting it to the special manufacturing industry for which it is prepared."

"This specially denatured alcohol will be kept under strict surveillance and governmental supervision."

"For the completely denatured article, ten parts of wood or ethyl alcohol and one-half part of benzene will be added to one hundred parts of ethyl alcohol; in other words, to every one hundred gallons of ethyl alcohol will be added ten gallons of wood alcohol and one-half gallon of benzene. The denaturing process will be accomplished on the distillery premises, where the alcohol is produced, in special bonded warehouses, or in special bonded alcohol for denaturing purposes and for the storage of denaturing materials. These buildings and the operation itself will be under closest governmental inspection and control."

"After the alcohol has been denatured it is removed from the distillery premises and then becomes a subject of general distribution. If completely denatured, or for distribution to the manufacturing establishments whose special denaturing formula have been accepted by the department, very largely the consumption of wood alcohol for both domestic and manufacturing purposes, as it will be cheap."

"While the price of the completely denatured product cannot now be definitely stated, it is believed it will not be more than 13 cents a gallon."

"With regard to the specially denatured alcohol, the price of that will naturally vary according to the cost of the denaturing agents selected to meet the necessities of the manufacturing industries."

"These special agents will only be used where it is made perfectly apparent to the department that the industrial interests involved cannot use completely denatured alcohol for reason of the presence of wood alcohol or benzene. In that case some other denaturing agent or agents, which will accomplish the purposes of destroying, as far as possible, the potable or beverage qualities of the alcohol, will be used. The time limit for the use of the article to the special ends desired, will be determined upon."

"The manufacturers will be requested to furnish detailed formulas together with a sample of the denaturing agent produced, according to the formula, and a sample of the pure alcohol denatured with this special agent. These will all be thoroughly examined in the departmental laboratories, and if it is decided that the requirements of the law are met then their use will be permitted."

"It will thus be observed that there is a distinction between completely denatured alcohol and specially denatured alcohol. The latter will be the article of commerce, the product of the farming districts. It will furnish fuel, light and perhaps power for the farmer. It is not impracticable to may bring in its use marketable potatoes and corn cobs and receive alcohol in return. The possibilities are endless."

FARM NOTES.

It seems clear from statistics presented in congress at last session, while the agricultural bill was under discussion, that notwithstanding the increasing use of automobiles and the substitution of electricity for horse power in direct care and clothing, we are still a long way from the 'horseless age.' In fact, it appears that the equine tribe is increasing rather than otherwise. The aggregate of horses in the United States on January 1, 1906, stood at \$6,718,578, against 14,304,667 at the corresponding date of 1897. Their total value in 1906 was \$1,650,000,000, in 1897, \$1,110,889,000. This startling rate of increase in value is no more marked than that of mules, according to the same government authorities. There were 2,104,684 mules in 1897 and 4,404,001 in 1906, and the values were respectively \$2,302,000 and \$3,345,680. —American Farmer.

A grain of wheat is the most beautiful thing on earth under the microscope. The outer bran coat is what we call waste and there are five bran coats. Between the next two are found the insoluble phosphates that build the tooth and bone. The miller takes off this coat and feeds it to the hogs. Between the next two layers is found a cereoline, a species of diatom, that when brought between the teeth and masticated, mixed with the saliva, operates to digest the starch and without it, it cannot be digested properly. In the center of the grain lies the germ, the living principle for reproduction. Here are the soluble phosphates which build the nerve and brain. The miller takes this out and gives it to the hogs, and then we wonder why our children are without nerve force or brain power. —Denver Field and Farm.

TOWNSITE SALE.

Notice of Sale of Town Lots in Heyburn Townsite.

On Saturday, October 20, 1906, town lots in the townsite of Heyburn, Lincoln county, Idaho, will be offered for sale at public auction at the public school house in Heyburn at 1 o'clock p. m.

No lots are appraised at less than \$15.00 and more than \$50.00.

The lots are situated in the NE1/4 of the NE1/4 and the SE1/4 of the NE1/4 of section 16, township 10 S., range 23 E., B. M.

Terms of sale are as follows: 25 per cent cash on day of sale, balance in three annual installments, interest 6 per cent per annum, payable in advance.

Plans of townsite may be seen at the office of W. O. Taylor, Esq., representative of the State Land board at Twin Falls, Idaho, and at this office. For further information address the State Land Commissioner, Boise, Idaho.

By order of the State Board of Land Commissioners.

Link's Modern Business College

THE REPRESENTATIVE BUSINESS SCHOOL OF IDAHO.

Stands for the highest, broadest and best in business education. Ideal location and environment.

Elegant and complete equipment—new throughout.

Courses strictly practical—Faculty composed of specialists.

Patronage consists of young men and women who are characterized by intelligence, ambition and earnestness of purpose.

Its graduates are sought by business men as bookkeepers, stenographers, cashiers, secretaries, managers and practical office assistants, and by high schools and commercial schools as teachers.

A high standard of scholarship is maintained throughout the school.

Every department is thoroughly organized.

Students receive individual instruction.

We teach the celebrated Gregg system of shorthand. It is the easiest to learn, the easiest to write, most rapid and most legible.

We specialize on TOUCH TYPEWRITING, the only method of operating the typewriter by which great skill is attainable.

We perform our whole duty towards our students and the public, in an honest, earnest and conscientious manner.

WE TRAIN YOUNG MEN AND WOMEN FOR SUCCESSFUL BUSINESS CAREERS.

If you desire a good position we can prepare you in the SHORTEST TIME possible and at the LEAST EXPENSE—consistent with thoroughness. Your success is assured if you complete a course in LINK'S MODERN BUSINESS COLLEGE.

Fall Term Opens Sept. 4, 1906

If you cannot enter on the opening day, enter any time. The sooner you enroll the sooner you will enjoy the benefits. For further information, call, telephone or write. Address

A. T. Link, Principal

1014-1018 West Main Street, Boise, Idaho. Both 'Phones.

MANY VISITORS FLOCK TO BUHL

RAPID DEVELOPMENT WORK ON THE WEST END.

Merchants Are Increasing Their Stocks—Building Operations Continue Active—Settlers Are Moving to Their Farms.

BUHL, Oct. 10.—Professor E. A. Wyatt is building a residence on Hinkley heights.

P. E. Dean of Twin Falls was a visitor in Buhl Thursday.

Will Weaver of Twin Falls is living on his ranch two miles southeast of town for the purpose of proving up. An invitation dance was given in Hotel Buhl Friday night. There was a large crowd in attendance and all had a good time.

Mr. and Mrs. Don H. Bark have taken up their residence on their ranch for the purpose of making final proof. Mr. Bark is foreman on the experimental dam.

The Miller-Perrine Lumber Co. is stocking up and getting ready for the rush when the railroad gets here.

Thirty Greeks arrived last week to work on the waterworks system which is being pushed to completion as fast as possible. The grade stakes have been set along all the streets by the engineers.

Mr. and Mrs. O. B. Hess have gone to live on their ranch six miles southwest of town for the purpose of making final proof.

Scott Dole is in Boise purchasing finishing material for his business block on Broadway.

W. S. Peck went to Twin Falls Saturday and made final proof on his ranch one half mile east of town. It will be finished before snow flies.

D. B. Emmett of Burley was a guest of Hotel Buhl Thursday.

Alfred Peterson of Twin Falls spent Friday in Buhl.

T. J. Burrows of Portland, Oregon, spent a few days here the past week looking over the country.

D. H. Hutton of Twin Falls made a trip to Buhl Saturday.

John Holland and H. H. Jadin of Salt Lake are plastering the Burley residence.

L. H. Stuart and W. R. Stewart of Twin Falls registered at Hotel Buhl Saturday.

Edward Dammon of Seacroft, Ill., spent several days last week looking over the country and was well pleased with its future prospects.

James K. McKee of Spokane, Wash., is in town for the purpose of looking over the ground with a view to making investments.

Clarence Provins, Carl Provins and Carl Provins of Ottawa, Ill., are stopping at Hotel Buhl.

Roy Atwood of Twin Falls was a visitor in town Saturday.

Frank Eveleth of Minidoka, brother of George L. Eveleth, manager of Hotel Buhl, spent several days in town last week, returning home Tuesday.

G. A. Parker of the Parker-Marshall Hardware Co. came up from Twin Falls Saturday and is visiting with the Marshall family.

The Parker-Marshall Hardware Co. is putting in a big stock of furniture and hardware. It has a car load of stores in Twin Falls.

Rota, the infant daughter of Geo. L. and Mrs. Eveleth, was quite sick last week but has fully recovered.

Owing to unavoidable delay in the construction of the temporary school building school will not be opened until October 22.

R. M. McCollum of Twin Falls came to Saturday and is making a tour of general inspection on this end of the tract. He does not intend to take

chances on being bit by jackrabbits, tags him or grouse, as he takes a shotgun with him every day, but evil deeds none of these "buck" animals have attacked him yet, or if they have he has failed to bring any of them down. He has not brought any dead or live ones to town so far.

Superintendent McPherson had his pig-plasters in Buhl Monday night and gave us all both old and young some good lessons on the subject of bugs, their habits and mode of life, and the way in which the bad ones damage crops and especially trees.

The lecture was well attended and proved entertaining as well as instructive. These lectures will be continued during the winter and will be of great value to the farmers. H. S. Hobson, one of the members of the school board, reported that the temporary school house was in course of construction and would be ready for use on Monday, the 15th of this month.

Superintendent McPherson will not be here next Monday night on account of his being obliged to go to Portland, but there will be matters of much interest and importance considered at the Farmers' association meeting. The questions which are to be discussed relate to the Twin Falls Canal association, in respect to the association taking over the canal and the question of the right of way.

The association hopes that all persons interested will be present and come prepared to offer some intelligent ideas on the subject.

BEEES PROTECT THEIR QUEEN

Sim Wilson of Clear Lake Found That

See Book Was Wrong.

CLEAR LAKE, Oct. 10.—Cool nights, with light frosts, have been the rule for the past week.

The farmers have concluded having a bee meeting for the purpose of discussing the matter of the right of way to the Clear Lake ranch.

Sim Wilson has lost his faith in the integrity of the bee and imbibed a supreme contempt for the society as a whole. He was convicted of less than a bee by an industrious swarm and his face now looks as though he were suffering from the same.

He attributes his loss of faith to the fact that the instructions which he read in the bee book were all right and he concluded to try them. Going to one of the stands he fixed the workers with an hypodermic eye, murmured an incantation which he found in the book, and removed the cover from the hive and proceeded to take off the slats.

The bees made no response until Sim spied a queen. "Wishing to get a closer look at her ladyship, Sim gently pushed the bees which surrounded her and she came out.

He held the queen in his hand, and the whole hive lit on him at once and perforated his countenance with their stingers. It took him two days to pry his eyes open and his face looks like that of a fat boy in a showhouse. Next time he tries to cultivate the acquaintance of a queen he will wear a veil and an umbrella.

Two teams loaded with fruit for Will Clifford crossed the ferry on route for Twin Falls on Sunday.

Mr. and Mrs. J. Blass and G. W. Arthur of Abbey were gathering fruit at the Briggs orchard on Monday.

J. W. Bostor visited relatives and friends here on Sunday and Monday.

William Duck was a Buhl visitor on Monday.

J. N. Hopkins, who purchased the merchandise stock of George M. Lamb, is now putting in a complete line of dry goods and groceries.

G. A. Madelon has returned from Halley, where he disposed of a quantity of fruit. He has a complete line of dry goods and groceries.

R. Condit of Hagerman visited friends in the valley last week.

Mrs. Wilson and daughter of Clark's grade visited in Hagerman on Sunday.

Work on walks and grounds, \$20.25

Total, \$26,424.20

Due and not paid Adams & Figg, \$200.00

Work on the grounds, \$238.25

Green & Higson, \$2,240.00

Total, \$28,678.25

Total cost of building, \$29,102.45

Balance to credit of district from the \$30,000 bonds, \$897.50

Add to this balance of district of general fund, \$140.55

Making grand total of, \$1,044.05

The above amount of \$897.50 will be transferred to the general account to pay for interest and \$1,500 for desks, as provided in the bonds.

General Statement.

The temporary buildings cost us \$1,289.10. They were sold for \$425.00

after an auction sale on Monday, making the cost to us in net \$1,255.81

per month for the four rooms, or \$30.50 per room per month.

We estimate the value of all school property at \$65,000. The bonded indebtedness of \$30,000. In order to pay these bonds the board will set aside from direct taxation \$1,500 per year for interest and \$1,500 for sinking fund, which will mature the bonds in 20 years.

The enrollment of the school for 1906 is 435. The average daily attendance is a little over 400. We have employed up to date 10 teachers, a superintendent and a music teacher.

The salaries paid these teachers amount in the aggregate to \$770 per month. The janitor is paid \$57 per month. The expense of running six wagons for the transportation of children is \$300 per month. The amount received from the country districts in taxation is about \$5,000 per year, making the wagon system a direct saving to the city school of about \$100 per month.

The levy for school purposes this year is 15 mills on the dollar. This was levied at a general election held in April of this year. It was necessary to make this levy of 15 mills for the reason that the city license money from the saloons was being held by the city awaiting a decision of the supreme court. If the school district wins the suit, the levy for school purposes can be reduced about one-half.

The above statement of the receipts and expenditures will be itemized in full, and together with the order and check books, will be on exhibition at Sprague's drug store in Buhl for the next three weeks, so that anyone who desires can go in and examine the school records and satisfy himself as to how and where the money was spent.

Young Pigs for Sale.

A. H. Kellogg, Twin Falls, Idaho.

Notice for Publication—Final Proof.

L. Michael F. Gamble of Twin Falls, Idaho, the assignee of Homer C. Pettigrew, who made entry No. 1207, and assignee of William T. Hudson, who made entry No. 1133, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," proved March 2, 1899, which embraces the N½ of NW¼, the SW¼ of NW¼, and NW¼ of SW¼ of section 10, township 3 S., range 17 E., hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before W. O. Taylor, representative of the State Land board, at Twin Falls, on November 10, 1906, by two of the following witnesses: T. M. Potter, Charles Smith, E. F. Padgett, Charles Gloyne, all of Twin Falls.

MICHAEL F. GAMBLE, Entryman.

HARD TIMES IN HOLY CITY

Citizen of Jerusalem Appeals to Twin Falls for Aid.

According to the statement of M. Perlmutter of Jerusalem, "times are hard in the holy city." M. Perlmutter's name does not sound scriptural but the appeal which he has forwarded to several citizens of Twin Falls has the true ring of the oriental mendicant. The supplicant is apparently engaged in making albums containing wild flowers from the holy land. A number of these albums have recently been received by citizens of Twin Falls. They came by registered mail and bore the Jerusalem postmark. In each album was a slip which read as follows:

JERUSALEM

Honorable Sir!

I hope you will excuse me for allowing myself to approach you with the following lines.

As a very times workman, and have a large family which I am unable, with all my efforts to supply them with daily bread.

My work consists of Making Flower Albums. The covers are made from the ornamental olive wood, and the flowers within the naturally recollected from the Holy mountains of Zion.
