TWIN FALLS, IDAHO, FRIDAY, OCTOBER 26, 1906.

NUMBER 52

WANT SUPPLIES FROM SNAKE RIVER VALLEY

Nevada Mining Districts-Seek Railway Communication with this Section of Idaho-Short Route from Twin Falls to Ely Said to Be Feasible-Would Open Rich Camps and Provide Splendid Market for Products from this Section.

The great mining districts of Nevada are looking toward the Snake river valley for their agricultural supplies. Nevada is enjoying an era of mining prosperity which eclipses the famous days of the Comstock and her appetite for products such as wheat, potatoes, etc., has increased. It is natural that the rich mining camps of Nevada should look to this valley for their supplies because it is the most productive and most logical source. It is but 255 miles from Twin Falls to the growing city of Ely, Nevada, and a railway between those points would tap a rich mineral country. The Gould system will reach Deeth station on the Central Pacific in 60 days, Deeth is 120 miles from Twin Falls by township lines. There is already a good stage road from Deeth to Twin Falls and engineers claim that a railway could be constructed along this route without encountering difficult grades.

In Ely there is talk of a railway to the north which would place the big mining camps in touch with the Snake river valley, their logical source of supplies. Were such a road built it

would place Twin Falls closer than Ogden and Salt Lake City to the famous range. It would also give the lower Snake river valley a competitive route to the east by reason of the Western Pacific connection, which is a part of the Gould system. Twin Falls would naturally be the objective point of such a road by reason of its geographical position. The people of Ely and other big mining camps have already signified their willingness to co-operate in any movement tending to encourage the building of the road. Concerted effort on the part of the people in the southern Snake river valley might do much toward furthering the movement.

The League of Southern Idaho Commercial clubs will meet in Twin Falls on November 15. The question is one which might properly come before the league and there are possibilities of good work in prospect. Among other considerations is the Contact, Nevada, copper camp which only requires transportation to make it one of the greatest copper producers in the west. Still another feature is the prospective opening of large tracts of irrigated land in Owyhee counties, which would be given the outlet they need. Sooner or later these tracts are bound to have railway communication. The prospects are alluring and a determined effort being about their realization should be made.

PREPARING FOR LEAGUE MEETING

WHICH WILL BE HELD IN TWIN FALLS NOVEMBER 15.

Delegates from the Commercial Clubs of Southern Idaho Will Be the Guests of the Local Organization-New Officers Are Installed.

At the meeting of the Twin Falls Commercial club on Monday evening the newly-elected officers were installed and C. M. Hill was re-elected secretary. In view of the approaching convention of the League of Southern Idaho Commercial clubs, which takes place in Twin Falls on November 15, a committee consisting of Carl Hahn, J. M. Maxwell, T. J. Woods, C. C. Bedford and George F. Sprague was appointed to arrange for the entertainment of the club's guests. There promises to be a large attendance at the convention as the representative business men of the cities represented in the league have expressed a strong desire to visit this city. The following delegates to the league convention were chosen: George B. Fraser, C. M. Hill, F. H. Eastman, C. O. Meier and P. H. Smith. The club also decided to give a hearty non-partisan reception to Governor Gooding and Chief Justice Stockings and Drs. Pike and Boyd and P. H. Smith were appointed a committee to take charge of the arrangements.

WANT MAIL FROM TWIN FALLS

Residents from Three Creek District Ask for Change.

O. M. Gaut of Wallace and P. J.

Holohan and George B. Fraser of Twin Falls returned on Monday from a trip to the Contact and Three Creek districts. They reported that the citizens of the Three Creek district were very anxious to secure the establishment of a mail route from Twin Falls to Butte. This route would do away with the present routes from Hagerman to Butte and from the mouth of the Bruseau to Butte, which are longer than would be the route from Twin Falls and not nearly so dependable. Were the Twin Falls route opened mail could easily be sent into Three Creek from this city three times a week. It would be a more economical route than the one at present. The people of Three Creek have petitioned the department for a change and it is desirable that the citizens of Twin Falls should co-operate in the movement. A good deal of trade from the Three Creek district now comes to Twin Falls and more would undoubtedly come were the mail route established. Within the past few days 60,000 pounds of oats have been shipped from Twin Falls to Three Creek. A project is on foot to build a reservoir near Butte to store the waters of Cedar, Devil and Howes creek for the irrigation of 70,000 acres of land, most of which is in the Cassia county. Surveys have been made and it is reported that work will commence in 60 days. This affords an additional reason why the mail route from Twin Falls should be established. By making a cut-off from the high Blue bridge westward considerable distance could be saved.

Meier, Gaut, Holohan and Fraser stated that the Contact copper camp looked promising. Several good veins of copper had been opened up there, say and with transportation facilities the camp would undoubtedly become a good producer. A smelter was built there some years ago but on account of the absence of suitable ore for fluxing purposes it could not be operated.

GOVERNOR FRANK R. GOODING.

Governor Frank R. Gooding will deliver an address in the Ring theater, Twin Falls, tomorrow, Saturday, evening, November 27. This will be the governor's first public appearance in Twin Falls and he is assured of a hearty welcome. He will be entertained by the Republican leaders and will also be given a cordial reception by the Commercial club in the club rooms. Governor Gooding was to have visited this city some time ago but a severe cold necessitated the cancelling of several of his dates, that for Twin Falls being among them. His schedule was revised, however, in order to include "the magic city" as he was especially desirous of meeting the settlers on the largest irrigated tract in America. As president of the state land board Governor Gooding has won the respect and good will of the Twin Falls community by reason of the fair and liberal treatment which he has accorded the settlers. He and his associates on the board have invariably leaned toward the entrymen in all cases which came under their consideration. In no instance has the governor failed to stand on the side of the settler. Whenever representation was made to him that the settlers wanted a concession of any kind it was always promptly forthcoming. He has dealt honorably with the Water company at all times and his policy toward the settlers has been liberal in the extreme. Questions pertaining to the interests of the tract invariably received immediate attention. The governor's theory is that if a settler is worth bringing into the country he is worth looking after. A practical farmer himself, he appreciates the difficulties of pioneering and he has endeavored to make the lot of the pioneer as pleasant as possible. Governor Gooding will be received not only as the chief executive of the state but also as a friend to whom the people of the Twin Falls tract are deeply obligated for many favors. He will be met by a delegation of prominent Republicans. Doctors Boyd and Pike and P. H. Smith constitute the Commercial club committee appointed to arrange for the governor's entertainment, which will be purely informal in accordance with his expressed wishes and to which every citizen of the Twin Falls tract is cordially invited.

SECRETARY TAFT ON HIS WAY TO IDAHO

Distinguished Statesman Will Deliver Addresses in Pocatello, on Friday, November 2, and in Boise on the Following Day-Come at Special Request of President Roosevelt to Show Latter's Approval of Governor Gooding's Stand for Law and Order.

Secretary Taft, the strong arm of the administration, will, at the special request of President Roosevelt, deliver two addresses in Idaho in support of the state ticket. Secretary Taft is an extremely busy man. He comes to Idaho at the express desire of the president, who takes this means to show his approval of the stand which Governor Gooding has taken for law and order. President Roosevelt has been deeply interested in the Idaho campaign, being especially desirous that Governor Gooding's fearless stand for law and order should be vindicated at the polls. Secretary Taft is likewise concerned in the issue in this state and will deal with it in his customary vigorous manner. It has been announced that the secretary will confine his addresses principally to the questions of law and order and will

un equivocally state the position of the administration with respect to Governor Gooding's attitude in the Steunenberg case.

Secretary Taft's first speech will be delivered in Pocatello on Friday evening, November 2. On the following evening he will be heard in Boise. It is probable that a special train from Twin Falls to Pocatello will be arranged for in order to give the Republicans on the Twin Falls tract an opportunity to hear the famous statesman. Secretary Taft is, with the exception of President Roosevelt, the most conspicuous figure in politics at the present time. Like the president, he is frank and fearless and his message to the people of Idaho will possess extraordinary interest. It will, in effect, be the message of the president and must be accepted as evidence of the chief executive's interest in this state and his desire that law and order should be upheld in Idaho.

TWIN FALLS SUGAR BEETS FAR ABOVE THE AVERAGE

Analysis by Government Chemists Show that the Beets Grown Here Run Exceptionally High in Sugar Producing Qualities-Tract Pronounced One of the Best Sugar Beet Sections-Report of Pathologist in Charge of Sugar Beet Investigations.

That the Twin Falls tract is destined to become a great producer of sugar beets is proven by the report of the bureau of chemistry upon samples submitted to it by Superintendent McPherson. The beets sent to Washington were selected at random from the field on the Twin Falls experimental farm. Equally as good beets were grown elsewhere on the tract. Several analyses were obtained, some of them showing 92 per cent purity. The excess of sugar in the Twin Falls beets commends them to manufacturers. Considering that they were grown on new land, the results obtained from the government analysis are very satisfactory. Furthermore, the yield was far beyond the average.

Following is the analysis which Superintendent McPherson received from the Bureau of Plant Industry of the department of agriculture:

WASHINGTON, D. C., October 19, 1906.-Mr. A. McPherson: Twin Falls, Idaho: Dear Sir-In regard to the sample of sugar beets which you sent to this department for analysis, I will say that I have just received the following report from the bureau of chemistry, where the analysis was made:

Average weight of beets, 28 ounces. Sugar in the beet, 18 per cent. Sugar in the juice, 20.10 per cent. Coefficient of purity, 83.45.

These beets, as you see, make a splendid showing and without doubt were grown in one of the best sugar beet sections. Very truly yours,

C. O. TOWNSEND, Pathologist in Charge of Sugar Beet Investigations.

WILL BUILD A BROOM FACTORY

S. D. Martin to Establish New Industry in Twin Falls.

S. D. Martin is in Twin Falls arranging to build a broom factory in this city. He is a gentleman of wide experience in this line of business and he thinks highly of the prospects. Mr. Martin will begin the operation of his factory as soon as he can get his building and material in condition. The factory will be of sufficient capacity to handle the broom corn product of the entire tract. Mr. Martin has 21 acres in broom corn himself and he is fully satisfied that the product will be strictly high grade. It has already been fully demonstrated that broom corn of the finest quality can be grown on the Twin Falls tract. It is a crop which, under proper conditions, can be made very profitable as it is worth \$100 per ton and will easily yield one ton per acre. Mr. Martin is particularly impressed with the superior quality of the Twin Falls product and is firmly convinced that the farmers here will find it a very remunerative crop.

Products from the Greatest Irrigated Tract in America Excel All Others in Quality—Sugar Beets from this City Are Awarded First Prize, Carrying Much Higher Percentage of Sugar than Others—All Twin Falls Needed Was Fruit.

Twain Falls farewells at the state fair in Boise. First prize for sugar beets is an honor which any county might well cherish and the Twain Falls beets scored away above all others.

According to the United States government chemist, the prize winning beets yielded 18 per cent sugar, 20.10 per cent sugar in juice and .89-46 purity. While these figures show the Twain Falls beets to be exceedingly high in sugar but slightly deficient in purity, other samples from the same field showed 17 per cent sugar and 92 per cent purity. It is probable that the beets first mentioned may have protruded slightly above ground, which would account for the deficiency in purity. However, the excess of sugar in the Twain Falls beets is suggested.

The Idaho sugar factories require 12 per cent sugar in sugar beets and the Twain Falls beets score exceptionally high. Furthermore, the Twain Falls beets were shapely and large, excelling all others in size, and appeared to be growing on a large field for the reason that they were allowed come up to the required standard. The Twain Falls beets conformed to every requirement and only won first prize.

Tons upon tons of sugar beets are being hauled every day to the beet dumps in the Payette valley. Wagon loads and trucks of the big trucks pass through the beet factory. Payette every day to the dump just north of the fruit packing house, and the hauling will not be finished in another week. The beets are being hauled to the acre in the Payette valley far from the fields already harvested. In fact exceeding the expectations of the very early season. Over 17,000 tons have been harvested. The average tonnage has been over 18 tons to the acre.

Cars, crunched high with the blood-red beets are being hauled to Payette from the bench over the new railroad and are sent to the Nampa factory in Minidoka. C. B. Faurot, field supervisor for the Payette district for the sugar company, states that the factory is running at more than its estimated capacity. The machinery was intended to handle 100 tons of beets every 24 hours, but instead with every revolution of the earth from 650 to 700 tons of the big sweets are fed into the huge maw of the factory. Mr. Faurot says the outlook is that it will greatly tax the factory to handle the crop in season, which, he thinks, if the increased acreage that is expected to be planted in the valley, means that the larger factory at first intended for Payette will have to be erected without delay.

Cassia county was third in the national sweepstakes. Last year second place was obtained but this season the competition was so keen and the county was so much better. Canyon county took first place and Elmore county second. By rights Cassia should have been second but the display of fruits from Canyon and Elmore and all other respects. When pressed for a place in the contest, Cassia said they could not reply. Had there been some fruit in the Cassia exhibit this county would undoubtedly have taken first place. Superintendent McPherson was disappointed in not getting exhibits from a number of farmers upon whom he relied. He is sorry that the county is not bringing in their exhibits but the letters were not posted until too late. With a little fruit from Blue Lakes, Cassia might have been first. Superintendent McPherson wished to be absolutely fair. It will not be long before the Twin Falls

Marysville Canal Completes.

Public notice is hereby made that the Marysville canal system is now complete and the lands are now open for entry.

These lands are located in Fremont county, near the city of St. Anthony, and is a territory famous for the production of enormous crops of wheat, oats, rye, barley, alfalfa, clover, timothy, and many varieties of hardy fruits.

The total cost of land and water is \$25.00 per acre, payable in three installments reasonably and perhaps the last really cheap water right that will be offered in the state. Payment provided for by the state for a period of ten years, so that any American citizen 21 years of age can avail himself of the opportunity to secure a good water right.

Parties owing lands under this canal system which were improved this year are refusing, \$75. per acre. Write us for particulars.

CLINTON-HURTT & CO., Ltd.,

It was Superintendent McPherson captured a few prizes for fruit. He took a number of plates of apples from Blue Lakes and stuck them in the county exhibit. Out of 10 varieties he took seven first prizes and three seconds. The first awards were for Arkansas Black, McIntosh, Red Pippin and the Winter Wonder. Pears and the seconds for Gano, Pawnee and Grimes Golden apples. He also received first prizes for apples from the following orchards: Con- sidering the class of competition, awarding first and three seconds out of 10 varieties is very creditable. The time was when Twin Falls was in the hands of the boards.

Charles Eldred's big pumpkin was the largest on exhibition, and had there been a prize for the biggest pumpkin, Charles would have won it. The pumpkin was about 20 inches in diameter. There always something fascinating about a big pumpkin, and the largest at the fair always attracts a great deal of attention. Mr. Eldred's pumpkin was no exception. It was in fine style and his giant pumpkin made all others look like vagrant peas.

Twin Falls could easily have won the first prize for orange grove. The exhibit from this city were not entered except in the sweetpeas.

First honors had already been won by Twin Falls for the exhibit of grape vines. The exhibit from this city was entered in the floral department. Superintendent McPherson felt there was no need of taking the prize money prize, consequently the exhibit was not entered. The exhibit of the sweetpeas display.

There were many other exhibits on view, even if they are reading in the paper, but they are not mentioned as at the last election. All persons, therefore, desiring to vote on November 6 must not fail to register.

The law requires that all voters in precincts are obliged, under the law, to be at their offices on Saturday of each week up to the time of the election in November, from 9 o'clock in the morning to 5 o'clock in the afternoon; and from 7 o'clock in the evening to 9 o'clock in the evening. The registrars are also obliged to register voters on any day of the week, at any other day of the week, at a time when the registrar is at the office, but the law does not require the registrar to be at the office at any particular hour on any days but Saturday.

The registrar must, before registering any applicant, require the applicant to take and subscribe the oath of office, and to sign the oath, which is as follows:

In discussing beet crop conditions in Idaho, Thomas R. Cutler of the Idaho Sugar Co. said:

"Everything points to the belief that this year will be a record breaker for beet crops as far as the sugar and sugar-beet industry is concerned. Climatic conditions throughout the season, taken as a whole, have been just what was needed. The result is that the beets are larger and in better shape every way than during any previous year. The beet crop will be a record (or will have) actually realized in this state for six months and a half. As far as the proceeds of the ensuing election; that, I have never been convicted of treason, felony, embezzlement of public funds, harboring of fugitives, or any other crime, and my vote, or purchasing or offering to purchase the vote of another, or other infamous crime, without thereafter being indicted, or convicted of the crime; and I am a ship; that I will not commit any action in violation of the provision in

season. The results have been in a greater proportion of the sugar-making properties and renders it absolutely certain that this year's output of the sugar crop will be the largest in the annals of sugar making in the two states.

"Roughly speaking, I should say that about one-half of the sugar crop of 1911 has already been harvested. Our next pay roll for labor will come November 19, when we will distribute to the men about \$1,500,000 for their share alone in our six factories—a much larger sum than for the corresponding period of last year. On November 15, 1911, we will begin the delivery of beets and the sum expended in this way will not be less than \$1,500,000.

"This year's crop has been the greatest in the history of the industry of any kind, and this with favorable weather conditions and a growing knowledge of beet culture. The sum of money that has resulted in the bumper year year to date in the sugar industry."

At the time the beets in the Par-

son. This was the first time that this oath entered into; that I am not now or heretofore a citizen of any other place in this state; that I do regard the constitution of the United States and the laws thereof, and the constitution of the state of Iowa thereof, as interpreted by the courts, as the supreme law of the land; and I have not previously voted at this election. So help me God."

OREGON SHORT LINE.

Homesteaders' Rates.

From September 15 to October 31, one way second class settlers' rates to the Twin Falls tract will be in effect as follows: From Chicago \$130.50; from St. Paul \$100.00; from Leavenworth, Atchison, St. Joseph, Council Bluffs, Omaha, St. Louis City, St. Paul and Minneapolis \$22.50. Proportionate rates for all other cities and points in Iowa. For further information apply to A. E. SULLIVAN, Agent, Twin Falls.

**TWIN FALLS AT
LEWISTON FAIR**SPLENDID EXHIBIT ATTRACTS
MUCH ATTENTION.J. R. Conway of Twin Falls, Who Had
Charge of the Display, Hospitably
Received by Management—Flatter-
ing Comment on Exhibit.J. R. Conway of Twin Falls has re-
turned from Lewiston, Idaho, where
he had charge of the Twin Falls ex-
hibit at the Lewiston Interstate fair.
Mr. Conway reported that he was
very hospitably received and con-
tinuously treated by the fair manage-
ment, who appreciated the enterpris-
e of the Twin Falls tract in sending so
fine a display to northern Idaho. The
Lewiston newspapers were exceedingly
kind in their treatment of the Twin
Falls exhibit, which was one of the
star attractions at the fair. Governor
Mead of Washington and Governor
Gooding of Idaho were among those
who inspected and praised the exhibit
from this city. Mr. Conway secured
permanent quarters for the exhibit in
Lewiston.The Lewiston fair was a grand suc-
cess. The attendance on the opening
day was 10,000 and was well sus-
tained throughout the week. The ex-
hibits were exceptionally good.Upon Mr. Conway's arrival in Lewis-
ton the fair management extended to
him and through him to the people of
Twin Falls a hearty welcome and ex-
pressed thanks for their splendid exhibit.
The exhibit, which was assembled by
Mr. and Mrs. Conway, in Twin Falls,
praised its destination in a most
condition, despite the long journey of
600 miles. The fair management read-
ily furnished a good booth in the north
wing of the agricultural hall where the
surroundings were in harmony with
the Twin Falls display. Mr. Conway
did not compete for prizes, being con-
tent with showing the institutions that
the Twin Falls tract is a producer of
everything in the agricultural and hor-
ticultural line. The Twin Falls ex-
hibit was constantly an attraction for
a large crowd and Mr. Conway was
kept very busy answering questions.
C. E. Grave, the highest official in the
Canadian department of agricul-
ture, acted as judge in Agricultural
hall. He commented upon each unit
in the Twin Falls display in a manner
which showed his high appreciation.
The Lewiston Tribune said of the
Twin Falls exhibit:"The Twin Falls display at the fair
attracted much deserved praise and
collected much enterprise on the part
of the Twin Falls people in sending
such an exhibit here. The display of
products was a most superb one, while
the stories of photographs told an in-
spiring story in the evolution of Twin
Falls from a sagebrush plain, to a
prosperous city of 3500 people in less
than two years.""The Republic," in commenting upon
exhibits from all states and counties,
headed the list with a kindly comment
on Twin Falls.

The Evening Teller said:

"Lewiston now has a permanent
exhibit of the products of the Twin
Falls irrigated lands. J. R. Conway,
who brought from southern Idaho the
fine exhibit of Twin Falls irrigated
products which drew so much atten-
tion at the Lewiston Interstate fair,
returned to his home this morning, but
before going he removed the exhibit
from the fair grounds and found per-
manent quarters for it in the office of
Crocker & Bagg in the Donnan
block. Mr. Conway states that all of
the construction work on the main
canals was finished two months ago
and the contractors have the lateral
nearly all completed. Two crops have
been raised on much of the land which
has been found to be very productive.
What was formerly a barren, arid
desert land is now under water and
there will be about 500,000 acres ir-
rigated when the north side project is
completed. Mr. Conway was for many
years a business man of this place
and had charge of the Asotin county
exhibit at the fair for several years.
He is highly pleased with the invest-
ment he has made in Twin Falls, stat-
ing that he has nothing for sale there
but is adding to his holdings at every
opportunity."

An Optimist at Eighty-Four.

Dr. Edward Everett Hale believes
that as a nation we have cause for
thankfulness. He speaks from the
vantage ground of more than 60 years
of adult life, and in an editorial in the
November Woman's Home Companion
says:"The year has been prosperous be-
yond any precedent in America. This
prosperity has been simply physical
prosperity. The churches have en-
larged their fellowship considerably.
The schools and universities have had
more pupils than ever. Congress has
passed laws which are generally
thought to be of great use to the coun-
try. And, so attractive has the nation
seemed to the people of other nations
that a large number of people have
come into the country from Europe
than ever before.""In the days of this prosperity, there
appears, in many quarters, an uneasy
impression that, as a common phrase
puts it, 'we are going to the dogs.' In-
stead of this we have great cause to
be thankful. Every man or woman
can say with truth, and should say it,
'I thank God I am alive and strong
and well.'""I thank God for oxygen and ozone
and electricity and the Roentgen Ray,
and ether and radium, and all the
other things and realities, and grate-
ful for the powers of which I know
nothing at all, but which have been
combined somehow."

"I thank God for peace."

Tax Notice.

Notice is hereby given that the taxes
for the year 1906 are now ready and
payable at the county assessor's office.J. O. SMITH, Assessor and Collector for Cassia
County.**HOW PRIZE FIELD
WAS IRRIGATED**OWNER PROCEEDED BY CLOSE OB-
SERVATION.O. B. Olson, Who Never Saw an Irrig-
ation Ditch Until He Came to Twin
Falls, Tells How He Succeeded in
Waiting His Land.O. B. Olson, who won the Twin
Falls Land & Water company's spe-
cial prize of \$50 for the best irrigated
field on the tract, never saw an irriga-
tion ditch until he came to Twin Falls
about 18 months ago. Mr. Olson had
been farming successfully in Nez
Perce county, Idaho, and he hesitated
long before deciding to try irrigation.
By intelligent work and close observa-
tion he succeeded in winning the cov-
eted prize and no practical irrigator
who has seen Mr. Olson's prize field
will dispute his right to the honor. It
is a model piece of work.Mr. Olson owns the northeast quar-
ter of the northwest quarter of section
5, township 11, range 18, which is two
miles south and three-quarters of a
mile west of Kimberly. His land has
a slight rise in the center and slopes
gently to the north and south. The
prize field is located in the northwest
corner. The field, which is 10 acres
in extent, was cleared last winter and
plowed in April. Mr. Olson used an
ordinary walking plow and turned his
furrows seven inches deep. He made
a level six foot wide and 12 feet
long, using 2x4 boards and three
braces. His team handled the level
without difficulty. For corrugating he
employed what is known as the Ogden
marver, which levels and corrugates
at the same time. The corruga-
tions ran north and south and were 30
inches apart and from 30 to 36 rods
in length. The supply ditch ran along
the south side of the field and con-
tained seven checks in a distance of
40 rods. The checks regulated the
flow of water and made it possible to
sack the soil at the outlet which was
lath boxes were used, one to each cor-
rugation where necessary. The checks
were equipped with pieces of burlap
sacking at the outlet which was cor-
rugated at the same time. The corru-
gations ran north and south and were 30
inches apart and from 30 to 36 rods
in length. The supply ditch ran along
the south side of the field and con-
tained seven checks in a distance of
40 rods. The checks regulated the

C. H. MULL, Twin Falls.
FRANK THORNTON, Albion.
Commissioners,
District No. 1—John L. Smith, Oakley.
District No. 2—Dr. G. L. Crocker, Filer.

Reports from all precincts on the Twin Falls tract show that the voters are tardy in registering. Many of the settlers appear to have left their politics behind them and evince little interest in the state campaign. They are occupied with their farm duties and cannot afford to devote much time to politics, consequently there is some excuse for their failure to register. It should be borne in mind, however, that Cassia county's representation two years hence will be dependent upon the vote cast. In the event of the creation of a new county the vote cast next month will be the basis upon which the county will receive political recognition. If for no other reason there should be full registration on the Twin Falls tract. Furthermore, the vote cast upon the tract at the forthcoming election will, in a large measure, indicate the progress which has been made in the past two years. The issues in the present campaign are sufficiently important to command the attention of every voter and it is the duty of every qualified elector to register and cast a ballot. All political parties are equally interested and the leaders should bend every effort toward bringing out the full vote.

Quail are being slaughtered in the vicinity of Twin Falls by pot hunters. The quail season does not open until November 1, nevertheless the birds have been "ground sluiced" with persistent regularity for weeks. If there is a deputy game warden for Cassia county he has never made his presence or identity known on the Twin Falls tract. Quail hunters are constantly being detected and warned but no steps have been taken to prosecute them. The Twin Falls Rod and Gun club members have been aware of the infraction of the law but they are powerless to punish the offenders. The appointment of a vigilant game warden is necessary. Ducks have been shot out of season on the Dry creek reservoir but nothing has been done to stop the practice. The sage hens are beginning to come down from the hills and will become the prey of the pot hunters unless something is done to protect them and insure observance of the law. The state game warden's attention to Cassia county is invited.

The visit of Secretary of War Taft to Idaho at this time is extremely significant. President Roosevelt would hesitate to send his personal representative to the Gem state were it not that he desired to show his approval of the state administration. By reason of the foul crime which robbed the state of former Governor Frank Steunenberg, who at the cost of his own political future relieved Idaho of a stain which had retarded its development for years, Governor Gooding

was exposed as a target for the anarchistic press. He became a national character, like Frank Steunenberg, whose life's blood was spilled on his own doorstep because he dared to stand for right and justice and punish crime. From seaboard to seaboard the yellow press attacked the governor of Idaho because he had the manhood to perform a disagreeable duty. It was to place the stamp of his approval upon Governor Gooding's action that President Roosevelt sent Secretary Taft to Idaho. Those who will hear Mr. Taft's addresses in this state next Friday and Saturday will know how the president regards the situation in this state.

Governor Gooding deserves and will receive a rousing welcome in Twin Falls tomorrow evening. He has been shamefully misrepresented to the people on this tract by a particular press but sober-minded people judge him by his acts and it cannot be said that he has ever shown anything but the most friendly spirit toward the settlers under the Twin Falls project. For two years, the governor has occupied a position as chairman of the state land board in which he has had ample opportunity to show his policy regarding new settlers. That he has been liberal and kindly cannot be denied. At no time has there been the slightest friction between the board and the settlers. The day is fast approaching when the canal system will pass under the control of the land owners and the state land board will have much to say with respect to the transfer. With Governor Gooding at the head of the board the settlers need have no fear regarding their rights. They will be fully protected and their experience with the present state administration has fully convinced them of that fact. There are various other reasons why the governor should receive the solid support of the Twin Falls tract. The citizenship of the tract is unexcelled. A more peaceable law abiding community does not exist. Attempts are being made to discredit the governor because he has stood for law and order. It has been charged that he is wantonly persecuting the men who are charged with the most grave of crimes. Governor Gooding will answer these charges himself tomorrow evening in such a way as to leave no doubt in the minds of law abiding citizens as to the propriety of the course he has pursued.

To the Public.
I wish to announce to the public of Twin Falls and vicinity that I have taken charge of the Washington hotel, formerly in charge of Mrs. H. M. Bunnell, and that it will hereafter be known as "The Hall House." The whole building has been repainted, papered and newly furnished, and I am now ready to take care of the public in a manner that will satisfy the most exacting.

My tables are furnished largely from my gardens south of Twin Falls, and the choicest vegetables are always procurable. I will be pleased to meet my old friends and make new ones at "The Hall House."

MRS. J. H. YATES.

Hon. Edward A. Walters, the Republican nominee for district judge of the Fourth judicial district, of which Cassia county is a part, has been a resident of the state of Idaho for about 20 years, being a native of the state of Iowa.

Mr. Walters is a graduate of the Northern Indiana college with the degree of B. S. and B. A., and secured his legal education at the Northern Indiana Law school. He practiced law for two years in Indiana, during which

HANNIBAL McNABB
DIES AT HANSEN

EXPIRES AT THE HOME OF HIS DAUGHTER.

Is Buried in Twin Falls Cemetery—School Building Ready for Carpenters—Mrs. Yates Takes Charge of Restaurant.

HANSEN, Oct. 25.—Frank Brower is building an addition to his house. Mr. and Mrs. Charles Upton and W. N. Rose were Twin Falls visitors on Wednesday last.

John Hansen and Dr. Abner of Rock Creek were among the lumber purchasers here this week. Miss Amy Keith, who is attending school in Twin Falls, came out on Wednesday to visit at her home. Mr. Thayer, manager of the Western Lumber Co., was in Hansen on Wednesday. He expressed his surprise at the great amount of lumber that has been sold from this yard.

The mason work on the new school-house was completed Thursday and the building is now ready for the carpenters. The Democrats will hold a meeting at Hansen Friday evening, October 25. Addresses will be made by Hon. Geo. C. Chapin of Idaho Falls, Democratic candidate for lieutenant governor, and John Janney of Twin Falls, Democratic candidate for state senator. Other nominees on the Democratic ticket will be present.

John Babcock, accompanied by his brother Arthur, returned to this place on Saturday last after an absence of two months. They are now residing on their ranch north of here. Mrs. Charles Swan is visiting at the home of M. P. Swan while her house is being repaired.

E. D. Brackenbury, Republican candidate for sheriff, was a caller in Hansen on Friday last.

W. J. Calkins is building a house on his ranch lately purchased from Fred Baker.

B. F. Hayes and family have arrived from Stillwater, Oklahoma, and are the guests of Mr. and Mrs. Bert James. Mr. Hayes has rented a house in Twin Falls and will move his family there for the winter.

Misses Hansen and Cline of Rock Creek took the train here on Friday morning for Albion, returning on Monday.

Mrs. A. T. Yates of Asotin, Wash., now has charge of the restaurant at this place which was formerly managed by Mrs. Charles Upton. Mrs. Yates took the train here on Friday morning for Asotin, returning on Monday.

Fred Baker, Fred Nesbitt and Mrs. Charles Upton will leave here on Sunday next for their homes in Goldendale, Wash., on account of the illness of her father.

Hannibal H. McNabb, aged 67 years, was seized with a stroke of paralysis on Friday night and died at 5:30 on Saturday morning, October 20, at the home of his daughter, Mrs. R. B. Roberts, two miles east of Hansen. Mr. and Mrs. Roberts were in Boise at the time Mr. McNabb was taken ill. They were telephoned for and arrived on Saturday's train. The funeral services were held at the Roberts residence on Sunday, Rev. Geo. Crocker officiating. Interment was in the Twin Falls cemetery.

Winter's Blasts will not inconvenience you if your house is in good condition. Take time by the forelock and see C. W. Hawk, contractor, builder and carpenter, six thousand between Eleventh and Twelfth streets, Twin Falls.

Did you see that big crowd of hungry-looking fellows charging down Main street to the corner of Eleventh and Main. They all stopped at The Hall House and went away satisfied.

ENGRAVING

BREVITIES

F. W. Schwamb and John W. Voorhes left on Wednesday for Chicago for a visit.

The arrival of a ten-pound girl gladened the home of Mr. and Mrs. C. E. St. George on Saturday, October 20. The happy parents are the recipients of many hearty congratulations.

Lutheran services will be held in the Christian church on Sunday, October 21. Services will also be held in the Flier schoolhouse on the same date at 8 p. m. by Rev. W. H. Schnake, pastor.

T. J. Woods has moved his office to the Hotel Perrine, taking the room next to the office of the general manager of the Idaho State Bank. He has moved up his new quarters tastefully and the office presents a swell appearance.

The river road at the Cedar crossing is reported to be in bad condition on account of the amount of water which is coming down the draw. A bridge will probably have to be put over the river for the farmers who use the road as a outlet as they have no other means of egress.

Peter Erickson of Colfax, Wash., who has a choice quarter section west of town on which he made final proof last year, was here during the week arranging for the further improvement of his land which he has rented. Mr. Erickson is well satisfied with his investment and thinks highly of the tract.

C. S. Polk has disposed of his quarter section 34, miles west of Twin Falls to H. C. Van Ausdell of Garland, Utah, for \$4,000. Mr. Polk has lived in Utah long enough to master the science of irrigation. He is a splendid farmer and a welcome addition to the agricultural colony.

Plans are making for a tour of the Twin Falls tract by the candidates on the Republican county ticket. Every precinct will be visited and strenuous effort will be made to secure full registration. It is absolutely necessary that the vote should be brought out in order to secure proper representation two years hence.

A meeting of the Twin Falls Farmers' association will be held in the hall of Superintendent McPherson tomorrow, Saturday evening, November 27, for the purpose of formulating the winter program. The meetings in the past have proved very helpful and constructive and it is the intention to maintain interest in them during the winter months when the farmers have more time at their disposal.

Senator Al Page of Gardner, who owns several valuable tracts of land near Twin Falls, is here looking after his interests. Mr. Page reports that the conditions in northern Idaho were never so prosperous. He states that those of his neighbors who invested in the Twin Falls tract are prospering well with their ventures, and the senator himself is highly satisfied with the appearance of the tract.

W. S. Starr of Kimberly has harvested 1100 bushels of oats from 20 acres which he sowed on June 15, an average of 55 bushels to the acre. This is an extraordinary yield for grain sown so late in the season. Mr. Starr also obtained 36 bushels to the acre of spring wheat, which was also sown very late in the season. This proves that the growing season on the Twin Falls tract is extremely long.

W. S. McCormick, the well known financier and head of the banking house of McCormick & Co., accompanied Superintendent Olmstead of the Short Line to Twin Falls last Saturday. Mr. McCormick is noted for his intense loyalty to the west and he has probably done more toward upbuilding the intermountain country than any other man in the west. He was one of the first to perceive the possibilities of the Twin Falls tract and it goes without saying that his first vision confirmed the good opinion he had formed. Mr. McCormick said he expected to find a live, substantial town and his expectations were fully realized. He was delighted with the appearance of the tract and he predicted a splendid future for both.

Mr. and Mrs. F. F. Stephens will conduct services in the Christian church on Sunday morning at 11 o'clock and Sunday evening at 7:30. There will be a splendid musical program in addition to the exercises and addresses. This will be the last appearance of Mr. and Mrs. Stephens in Twin Falls for some time as they will leave shortly for New Zealand, where they will labor for a year. Mr. and Mrs. Stephens have done much to further church work in Twin Falls and have made many true friends in this city who wish them every success in their new field. Mr. Stephens has a farm on the Twin Falls tract and will retain his interests here. He and his good wife are splendid citizens who will be cordially welcomed on their return.

Dr. W. T. McLean and Will Schenck of Maroa, Ill., were here during the arrival of the east this week. Both gentlemen have ranches on Sucker flat and when they saw the remarkable improvement in that district they felt that all about the abominable road to the west. Dr. McLean spent last summer on his farm and a loyal Twin Falls rooster. He was delighted with the progress made in the city and on the tract since his departure. The doctor's talented family furnished many a delightful evening's entertainment at the meeting of the Maroa Farmers' association last year and they were kindly remembered by the plotter of the popular "Big Bear" and a buster from Speedville. He denied the rumor that he was going to start a tobacco ranch on the flat but said he believed tobacco would grow well here as most everywhere else and he was to be thriving.

Stump glorious of the Catholic church is planning to send a permanent priest to Twin Falls so that services may be held here regularly.

The Hall house, formerly called the Washington, has been refitted and refurnished by Mrs. J. H. Yates, who assumed the management last Thursday. It is now very comfortable and attractive. Mrs. Yates is an exception to the rule in making her home and she has high class. Having a good farm of her own from which to obtain her supplies she will make a special effort to popularize her dining room.

Mrs. C. E. Booth entertained numerous friends last Friday. In the afternoon 18 ladies played the popular game of "500." Mr. Eastman making the highest score and receiving a dainty cup and saucer, while Mrs. Wilbur Hall won second prize, a vase. In the evening 20 ladies and gentlemen indulged in a game of bridge. Mitchell took first prize, a beautiful jar, and Miss McCollum second prize, a box of tobacco. Mr. Alkon captured a fancy ash tray.

C. W. Hawk, the builder and contractor, has completed the works on the school building at Maroa, which the school building there is ready for the roof. This school, which is constructed of brick, is Mr. Hawk's kind in this part of the state. It will cost \$2500 and its appearance reflects credit upon the progressive people of Maroa. Mr. Hawk has moved his office to the residence on Sixth avenue, between Eleventh and Twelfth streets.

Chief Justice, Stockholder, Democratic candidate for governor, will visit Twin Falls on Saturday, November 3. As chief justice of the state he will be entertained by the Twin Falls Commercial club. Judge Stockholder is not making any speeches during the campaign but he will deliver an address on commercial development and a progress in this city. The chief justice will be accompanied by State Chairman Jackson of the Democratic committee, who will speak in the Ring theater.

Harry T. West, Republican candidate for representative, has returned from a tour of the eastern end of the county, during which he visited Oak, Idaho, and Boise, Idaho. Mr. West stated that the east end would undoubtedly poll a 90 per cent vote for the Republican ticket. He found many anti-union men everywhere and in no place did he encounter any saving of opposition to county division. The east end will, Mr. West said, give more than 600 majority for the Republican ticket. He will be necessary for the west enders to bestir themselves in order to hold up their end.

Mud Springs creek, which parallels Salmon river west of Bull, is a roaring torrent and is almost impassable for loaded teams on the Hagerman road. It is necessary to install a bridge at once if that tract is to be maintained. The road followed at present contains many steep grades and it is probable that a new road, which has been surveyed and ready to be surveyed may have to be built. The present road does not follow section lines and it may be found impracticable to follow the new road on account of the grades. There is a heavy traffic on this road and it must be kept open.

John Janney, Herbert S. Osburn and C. M. Price, Democratic candidates for state senator, auditor and prosecuting attorney, addressed well attended meetings at Elmer, Bull and Kimberly on Monday, Tuesday and Wednesday evenings. At Kimberly they were accompanied by Hon. G. C. Chaplin, candidate for lieutenant governor on the Democratic ticket. The candidates reported that they were given a hearty reception at all the meetings and found much interest in the campaign. They stated, however, that the registration is surprisingly light and they believe that unless something is done to induce the voters to register the ticket will not cast nearly the vote it should.

Secretary T. J. Woods of the Twin Falls Fire department gathered a few of the boys together this morning on the river bank and showed them the new hose cars. No warning was given to the Waterworks company and the pressure was normal. Two streams were thrown over the roof of the Perrine building and the boys were with out difficulty. It will be necessary to obtain new nozzles with hand holds and gaskets before the hose cars will be serviceable. The boys, however, are capable of doing good work in their present condition. The test was very satisfactory and showed that the fire department is now well protected against fire.

J. G. Gralner has returned from a trip which took him through the eastern and southern states. During his absence he inspected some mining properties in the south where, Mr. Gralner stated, good mineral land is being developed. He said that the electric railways were draining the smaller cities and fattening the larger ones. There was no comparison between the east and the west, he asserted, in the matter of progress. He naturally found western men buying land in the east and south because of its cheapness. In a city four times the size of Twin Falls he could find but one restaurant and the fare at the leading hotel was far from first class.

Miss Mary F. Yeatman of Kennett Square, Pa., who purchased 50 acres adjoining the Twin Falls townsite from Addison T. Smith, proposes to make her farm home and to raise a productive. Miss Yeatman is a sister-in-law of Senator Heyburn, has purchased a large number of apple trees and maple trees from Jackson, Wis., of the Twin Falls nursery, who will set the trees for her in a few days. On the north and south sides of her farm Miss Yeatman has a variety of summer and winter trees with elms and maples. The trees will be set along the roadways and will make a beautiful drive. This plan was followed by Miss Yeatman and worked out splendidly.

Mr. and Mrs. C. J. Hahn returned on Tuesday evening from Salt Lake City, where they had been visiting.

The Ladies' Aid society of the Presbyterian church will hold a special meeting for sewing on Wednesday, October 31, with Mrs. F. H. Eastman.

Jack Howe came in from his ranch at Abbey this week for a short visit. Jack has grown a fine new crop of alfalfa and has cultivated a deep and lasting tan in addition to raising a beautiful crop on his land.

In one of Bradley & Cameron's windows is a huge pumpkin from the farm of Senator Al Page, which was grown by Mr. Skinner. The pumpkin will be hollowed out and used as a jack-o'-lantern on Halloween.

Marlin Sullivan of Kimberly has 26 acres of red clover which would gladden the heart of any farmer. In the east a yield of eight bushels of red clover seed to the acre is considered good. Mr. Sullivan believes that 10 bushels to the acre can be grown here without difficulty. The clover is worth \$2 per bushel, which would make it a profitable crop.

The social life at the Hotel Perrine is delightful. Almost every evening a coterie of guests meet with one or another of the ladies. On Tuesday evening Mrs. Perrine entertained with cards. Those who enjoyed the games were Mrs. and Mrs. Taylor, Mr. and Mrs. Harris, Mr. and Mrs. Williams, Mrs. and Mrs. McCollum, Misses Crismon and McCollum.

Mahlon Pogue of Latah, Wash., who has a fine ranch 10 miles west of Twin Falls, was a local visitor this week. Mr. Pogue, an agriculturist and a good farmer and he thinks very highly of the Twin Falls tract which, he declares, is bound to be a wonderfully productive section. He will probably return to Latah for the winter in order that his children may resume their studies there.

Miss Zella Cole, who is well known and very popular in Twin Falls, will be married in Boise tomorrow to Rollo Gitting, telegraph editor of the Evening Capital News. Miss Cole was employed in the News office and also in the state land office for a time and was prominent in Twin Falls social life. She has many friends here who will be delighted to extend their congratulations.

The W. C. T. U. of Twin Falls will meet at the Christian church, next Tuesday afternoon, October 30. Mrs. D. Hall, a talented lady and a national worker in the W. C. T. U. of Illinois, expected to be in Twin Falls on the following day. Her appearance is looked forward to with keen anticipation by those interested in the work of the organization.

Judge A. D. McKinlay of Coeur d'Alene ridge is so firmly convinced that Governor Gooding will be re-elected that he has deposited \$500 in the First National bank and a similar amount with McCormick & Co. as a wager on the result. The judge will take no Democratic money in any amount over \$10 upward. He predicts that Flier will be the banner Republican precinct on the tract.

To avoid moving our heavy hardware to our new store, we are offering 10 per cent discount on all heating stoves and ranges.

STOTHARD-WEST HWDE. CO., Opp. McCormick's Bank, Main Street.

IRONBREW IS THE BEST.

Oats Wanted.

To responsible party, upright plans, fine condition, terms reasonable. Apply to M. W. Johnson, Rock Creek, Idaho.

BLUE ROCKS WILL

CATCH IT AGAIN

GUN CLUB PREPARING FOR FALL

COMPETITION.

Regular Shoots Will Be Held and Handicaps for Prizes Arranged—Question of Feeding Game Taken Under Consideration.

The members of the Twin Falls Rod & Gun club met last evening to perfect arrangements for the fall target shooting and to consider the questions of game protection and feeding. It was decided to order a supply of target at once and set regular days and hours for practice and the competitive shooting. Handicaps will be arranged and suitable trophies will be competed for. An effort will be made to secure the appointment of a competent deputy warden for the Twin Falls tract for the purpose of checking illegal shooting which is now so prevalent. The club also has under consideration the question of introducing Bob-White quail and planting wild rice for ducks on suitable feeding grounds. These questions will come up at the next meeting on Thursday evening, November 1, which will be held in the office of President Harris.

The Gun club has been a good advertisement for Twin Falls. Pet Hoholan, the warm-hearted and keen-eyed captain of the Twin Falls club, has participated in all the important western shoots and more than upheld the honor of the club. He roamed the Twin Falls everywhere he went and advertised the tract far and wide. More than one man who came here to file on land said his attention was directed to Twin Falls by seeing Pet shoot.

The individual championship of the northwest was brought to Twin Falls by Mr. Hoholan and the valuable Globe trophy, the most precious and coveted of all prizes, is snug in Pet's strong box for another year. Mr. Hoholan also took high gun at Salt Lake and took several valuable prizes at Pocatello.

The Gun club can do much toward protecting and propagating game on the Twin Falls tract and the members are fully aware of this fact and determined to do all they can toward its attainment. The membership of the club will be increased and interest in the grand sport stimulated.

ADVERTISED LETTER LIST

List of letters remaining unclaimed for in the postoffice at Twin Falls for the week ending October 20, 1906:

Denovan, Steve
McKee, C. E.
Million, Miss Stella
More, Mrs. Emma

Extraordinary Offer

For a Short Time Only

In order to introduce and get my Bromide Enlargements before the people, will offer

100--Pictures--100

FOR EXTREMELY LOW PRICE OF

\$8.00

This includes Frame, Glass, etc. These pictures will be 16x20 inches in size, your choice of 5 styles of frames, oak, oak and gilt, or all gilt. These frames are extra heavy, extra large, with frame that usually sells for \$4.50 each.

The work I guarantee to be first class in every way, and if you are not perfectly satisfied you need not take them and you are nothing but the trouble of bringing me the photo that you want the enlargement made from. Please do not confuse these pictures with the cheap pastel pictures that the traveling fakirs offer you and are not satisfied with. I am hard with you to stay and am living depends on my getting out work that you will be pleased with, for want you to come again.

This offer holds good for month of October, 1906, and for only 100 pictures. I know this will not be enough for all of you, but first come first served. Don't blame me if you come too late.

Yours truly,

C. E. Bisbee

WATERWORKS FOR BUHL COMPLETED

PIPES AND FIRE PLUGS ARE
ALL IN.

Building Activity Still Continues—
Several New Residences Completed—
Water Company Begins Work on
its Office Building.

BUHL, Oct. 24.—J. W. Bolkinap
drove to Twin Falls last week and
spent several days there on business.
D. B. Thomas returned on Thursday
from Salt Lake, where he had been
for three weeks.

Registration closes at 9 o'clock on
Saturday evening, November 3. Any
one not registered at that time can
not vote.

B. R. Overbaugh left Saturday for
Pullman, Wash., to remain for the
winter.

George R. Dunn, who is heavily in-
terested in and around Buhl, arrived
in town Friday from Tappan, Wash.,
where he had been for two
months harvesting his hop crop. He
bought a house located on a ranch
near Buhl and during his absence
some one borrowed it and is now
looking for the house and the borrow-
er.

School opened Monday but was dis-
missed in about an hour until next
Monday on account of lack of books.
There were 46 scholars present at the
opening.

Geo. G. Marshall went to Salt
Lake Monday on business.

Deputy Sheriff E. D. Brackenbury
of Albion and H. H. Thornton of Burley,
Republican candidates for county su-
perintendent of schools, were cam-
paign visitors in Buhl Thursday.

George L. Eveleth spent several
days of last week in and around Rock
Creek.

F. D. Darnell of Butte, Mont., is a
guest of Hotel Buhl and is putting in
some of his time looking over the
west end of the tract.

C. Gaylord of Twin Falls was a
Buhl visitor Thursday.

H. A. Thatcher of Genesee, Idaho,
is engaged at Hotel Buhl and is
viewing the country around the town.

Mr. and Mrs. B. McKinstry and S.
O. Caldwell of Montana are guests of
Hotel Buhl.

P. Harrah, P. Stafford, J. H. Co-
mer of Twin Falls were up to see us
last week.

D. W. Yaden of Bliss, Idaho, came
up on the morning of the 18th to see
the city of the setting sun and was
well pleased with its appearance.

J. F. Stott went to Twin Falls Sat-
urday on business.

General Manager Faris and As-
sistant General Manager Tush of the
Twin Falls Land & Water Co. were in
town Friday on business.

For the commencement of work on the
company's office building, which is to
be erected north of the bank. The
sage brush has been cleared off the
lot and the water will be turned out
of the gutter in a day or two so that
excavation can be commenced at
once. The building is to be two sto-
ries and built of stone.

F. R. Storm of Utah is working on
the Burley residence, putting the
finishing touches on the fancy wood
work.

Charles English of Glenna Ferry
spent several days in Buhl last week.
Mrs. Bertha Rose of Clear Lake
attended the dance Friday night.

J. J. English of Glenna Ferry is a
guest of Hotel Buhl.

C. Fink of Ogden, Utah, was a vis-
itor in town Thursday.

Dr. G. F. Baker of Twin Falls was
in town Friday.

Dr. D. P. Albee of Rock Creek
spent Sunday in Buhl.

A. W. Husted of Ottawa, Ill., is here
looking over the country with a view
to locating here.

F. H. Homans of Los Angeles, Cal.,
is a guest of Hotel Buhl and is taking
rides with Ed Braun through the sage
brush.

R. R. Hobbs of Twin Falls was a
Buhl visitor Sunday.

C. J. Barle of Dayton, Utah, is in
town.

town and looking for a place of land
to suit him. He will no doubt find it.
The Buhl Lumber Co. has its stock
moved into its new yards on Ninth
avenue, and Frank W. W. the man-
ager, is living in his new residence
which he built adjoining the yards.

George L. Eveleth will commence
clearing off the remainder of the sage
brush on the McCollum ranch as soon
as he can get men to do the work.
The entire ranch will be in crop next
year. After Mr. Eveleth gets through
with this job he will tackle 300 acres
of his own and prepare it for cultiva-
tion next spring.

Hickney neighbors is assuming a Nob-
Hill appearance. The finishing
touches are being put on the Burley
residence. This is an elegant house
and has more the appearance of a
country club house than of a dwell-
ing. The material in the building
is of the best quality and so is the
workmanship. A. McDonald, the con-
tractor, saw to it that the latter would
be a masterpiece.

The building which it was
told was to be a temporary school
house turns out to be a fine residence
which is being built by E. A. Milner,
but the use of which he is giving to
the school for the time being.

The building is now ready for use for
the latter purpose. Professor E. A.
Wyatt's residence is finished and he
is living in it. J. M. Shank's house
is completed and Mrs. Shank moved
into it last week. John Hineley is
getting ready to make several changes
in his residence, making it larger and
more roomy.

The waterworks pipes and fire plugs
are in all along Broadway and Super-
intendent Charles Coker says he will
finish it up about the 10th of next
month.

Scott Dolg left for Boise Monday
on business connected with his busi-
ness block.

E. A. Milner will commence the
construction of his building, adjoining
the Dolg building, as soon as a suit-
able tenant can be found for it.

Farker & Marshall will commence
the construction of another business block
adjoining their hardware store on
Main street next Monday. The build-
ing will be two stories.

Entertainment to be given by Mrs. Geo.
L. Eveleth in the parlors of Hotel Buhl
Monday evening. "Five hun-
dred" will probably be the name.

Mr. and Mrs. F. S. Marshall en-
tertained at dinner Friday evening. Those
present were Miss Edith Milner, Mrs.
C. S. Peck, Messrs. Earl Knapp, Earl
Knapp, and F. Moore.

Friday night a dozen fine hens
were sold. All the indications
point to the fact that they were taken
by a two-legged coyote. The taking
left Mr. Moore a rooster to make a
fresh start with, but that was all he
did leave him.

Charles Davis, a 14-year-old boy
living about five miles south of town,
met with a painful accident Monday.
He attended school and had mounted
his horse to return home, when he
was asked by Mr. Milner to assist
him in rounding up some horses.

According to the latter, The boy took
his horse suddenly to head off
other horses owned by the Buhl Lumber
Co. and the horse slipped and fell on
his head, spraining his ankle. Mr. Mil-
ner picked up a team and took him
home. He is not seriously hurt.

John Sullivan, a nine-year-old boy
living with his parents about five
miles south of town, was badly hurt
on Monday while playing with other
boys of his own age. They were grab-
bing sagebrush when one of the other
boys accidentally struck Sullivan
with his horse, hitting him on the head
through the skull. W. S. Har-
dressed the wound but advised the
parents to take the boy to Twin Falls
for surgical treatment.

Hon. Geo. C. Chapin of Idaho Falls,
Democratic candidate for Lieutenant
governor, John Janney of Twin Falls,
Democratic candidate for governor, and
C. M. Price and Herbert Bur-
buck of Twin Falls, Democratic
county recorder respectively, at-
tended the campaign meeting here Tuesday
night. The hall was well filled and
candidates spoke on the issues of
the campaign.

The night showman of a few
days ago, who was warning that the
coming of the potatoes, G. W. Oak-
ley, who is now in the city, returned
from a trip to the mountains to the
south. He is probably farther
than any one else in the city.

Frank Lyric and John McMaster
are spending the week on a hunting
trip in the mountains to the south.
M. L. Homans, who had been at work
on the canal, returned to the city
last week. He is now in the city.

George F. Peterson left Tuesday for
his home in Massachusetts, where
he will spend the winter in the hope
of recovering his health.

P. J. Fall left this week for Rock
Springs, Wyo., where he expects to
work in the coal mines.

H. T. W. returned from his
trip to the eastern part of the
country.

Within a week the road lead-
ing north to the Twin Falls
will be opened all the way.
For all the improvements
credit should be given A. L. Desaire,
our efficient supervisor.

Mr. and Mrs. H. H. H. who have
been in the city for some time,
left for Rock Creek, Oregon, on Mon-
day.

Mr. and Mrs. H. H. H. who have
been in the city for some time,
left for Rock Creek, Oregon, on Mon-
day.

Football.

Kimberly, Oct. 25.—A Demorest
contest was held in the school
house last Thursday evening. Six
young ladies from Twin Falls took
part and all did exceptionally well.
The medal was awarded by the judges
to Miss Bertha Bentley. A party made
up of teachers and students from the
Twin Falls school drove out on a hay
rack and arrived in time to hear a
last declamation.

John Jones, who had been quite ill
and fever for some time, is now
out again.

Mr. Jones returned from an
trip east on Thursday.

Monahan, who is working for
at, has been compelled to
leave his position several
times because of his
illness. He is much im-
pressed and able to return
to his position.

William H. H. who was in-
jured several weeks ago, is now
improving, being able to pre-
pare and ground without trouble.

The Kimberly bakery is now open
for business. Under the efficient man-
agement of W. R. Ashdown, who is a
practical baker of considerable ex-
perience, it promises to be a success.
He admits that his present trade is
far above his expectations. He has
fitted up the restaurant building in
nice cozy shape and the meals he
serves are excellent.

A. L. Desaire sold a span of horses
to a man living near Buhl.

Choney's horse-pipe and thresher was
laid up on account of repairs for a
part of the week. It will shortly move
to Rock Creek.

Miss Nettie Murphy of Twin Falls
visited the family of A. R. Moore this
week.

Willard Seweroff of Oden, secre-
tary and treasurer of the John Snow
club, and Co. paid a visit to Kim-
berly recently. The way the grain is
piling up in the warehouse proved
quite a revelation to him. He was fa-
vorably impressed with the future
prospects of the tract.

The coal famine about here was
somewhat relieved by the arrival of
the other horses owned by the Buhl Lumber
Co. on Monday. A line of teams stood
at the door all day long loading. One
drove up from Rock Creek in the
night so as to be on hand early in
morning to be sure of getting a
load.

John Scott, who left on July 3
company with the fall to drive
the fall to the Shoshone land, ap-
peared on Sunday. They cov-
ered more than 1,000 miles.
He returned by train, hav-
ing a very good outfit in Rock
Creek, Wyo. They were un-
happy about the land lottery and
much of the time.

The light of registration is pro-
vided and it behooves all who wish
to call at the postoffice and
get any day.

The snowman of a few

serves are excellent.

A. L. Desaire sold a span of horses
to a man living near Buhl.

Choney's horse-pipe and thresher was
laid up on account of repairs for a
part of the week. It will shortly move
to Rock Creek.

Miss Nettie Murphy of Twin Falls
visited the family of A. R. Moore this
week.

Willard Seweroff of Oden, secre-
tary and treasurer of the John Snow
club, and Co. paid a visit to Kim-
berly recently. The way the grain is
piling up in the warehouse proved
quite a revelation to him. He was fa-
vorably impressed with the future
prospects of the tract.

The coal famine about here was
somewhat relieved by the arrival of
the other horses owned by the Buhl Lumber
Co. on Monday. A line of teams stood
at the door all day long loading. One
