TWIN FALLS NEWS, TWIN FALLS, IDAHO, FRIDAY, FEBRUARY 22, 1907.

NUMBER 17

## TWIN FALLS COUNTY OFFICERS SELECTED

**Governor Gooding Will Probably Sign the County Division Bill and Announce His Appointments Today—Capable Men Are Named by Chief Executive to Administer the Affairs of the New County—No Trouble in Reaching Harmonious Agreement.**

Commissioners—Dr. George L. Crocker of Marsa, L. L. Salladay of Twin Falls, John F. Hansen of Rook Creek.  
 Clerk, auditor and recorder—Harry West of Kimberly.  
 Assessor and Tax Collector—James McMillan of Kimberly.  
 Sheriff—George D. Alken of Twin Falls.  
 Attorney—Frank A. Hutto of Twin Falls.  
 Treasurer—C. J. Hahn of Twin Falls.  
 Superintendent of public instruction—J. R. Hinton of Hansen.  
 Probate Judge—Frank E. Chamberlain of Twin Falls.  
 Coroner—J. D. Rogers of Twin Falls.  
 Surveyor—Charles H. Mull of Twin Falls.

has taken a keen interest in school work, understands every phase of it and is bent upon giving the Twin Falls tract the best schools in the state. In that he merits the support of every good citizen.  
 Carl Hahn, the first treasurer of Twin Falls county, needs no introduction. If he cannot fill the office acceptably he has a young son who can. The boy is only two weeks old but he is growing rapidly. It is hoped that Mr. Hahn will have such a quantity of county funds thrust upon him that he will have to charter a new vault.  
 Frank E. Chamberlain, probate judge, is an experienced attorney, has a knack of doing things promptly and well and never shirks a responsibility. His office will be well administered.  
 J. D. Rogers, county coroner, is well known in Twin Falls through his previous connection with the postoffice. The worst that can be wished him is that his duties may be light.  
 Charles H. Mull, who was elected county surveyor, has a thorough grasp of the details of his office and by reason of the vast amount of work he has performed on the tract he should make a splendid officer. Much devolves upon him and his many friends are confident that he will measure right up to the line.  
 It has been predicted that Governor Gooding will make public announcement of his appointments after his arrival in Twin Falls in order to harmonize with conditions, and it would be fitting that he made the announcement from the stage of the Ring theater where he promised the people of Twin Falls that he would do precisely what he has done. Such an arrangement would be eminently fitting and would undoubtedly arouse great enthusiasm. The citizens of the new county are to be congratulated upon the auspices under which the county is launched.

Governor Gooding will, in all probability, affix his signature today to the bill creating the county of Twin Falls and will immediately appoint the officers of the new county. The governor deferred the signing of the measure until such time as he could announce his appointments as he desired to start the county with a complete set of officials. An harmonious agreement regarding the distribution of offices was reached without the slightest difficulty and the selections are very satisfactory.  
 The appointment of Dr. George L. Crocker of Marsa, who had previously been elected county commissioner, followed as a matter of course. Dr. Crocker is a conservative and progressive gentleman and a splendid citizen who has the interests of the tract at heart and the ability to initiate a sound policy for the government of the county.  
 L. L. Salladay of the Twin Falls Hardware Co., the commissioner selected from Twin Falls, is a thorough business man, a clean citizen, loyal to his county and his presence on the board will add greatly to the strength of that body.  
 "Uncle John" Hansen of Rook Creek is particularly well qualified for the commissionership. He has had abundant experience, possesses the confidence and esteem of the community to a marked extent and is in every way a safe man for the position.  
 Harry West will bring to the office of clerk and recorder the three most necessary requirements—experience, tact and skill. His services should be extremely helpful to the commissioner and his appointment is a very wise one.  
 James McMillan, assessor and tax collector, is likewise well fitted to his office. He is a gentleman of keen discernment and good judgment and is thoroughly familiar with the duties he will be required to perform.  
 Frank A. Hutto, county attorney, is a recent arrival. Mr. Hutto showed his good judgment in selecting Twin Falls as his home and demonstrated his faith by purchasing a splendid business lot for his office. He is an ardent Republican and has served several terms as county attorney in Oklahoma.  
 George D. Alken, the new sheriff, is an active, energetic and fearless man who will fill the office with dignity and see that everything in connection therewith is run on a businesslike basis.  
 Professor J. R. Hinton is an admirable appointee for the position of county superintendent. Mr. Hinton

At a meeting of the state land board yesterday E. B. Williams was appointed representative of the board in Twin Falls to succeed W. O. Taylor, who will relinquish the office on March 1. Mr. Taylor has proved an extremely efficient and popular officer and it is gratifying to the people of this county that his successor is equally acceptable. Mr. Williams is one of the pioneers and is exceptionally well qualified to fill the position to which he has been appointed. Mr. Taylor will bring his family back to Twin Falls and engage in other business in this city. That he has decided to remain here is very pleasing to his many friends.

### "LEST WE FORGET."

If you have a team which you can possibly spare tomorrow (Saturday) please communicate with either F. H. Smith, J. W. Voorhes, F. J. Costello, G. D. Alken or A. P. Senior. Many teams are needed to transport the state officials and the members of the legislature to Shoshone falls, Blue lakes and elsewhere.  
 Remember that there will be an important meeting in the Bradley & Smith hall tomorrow (Saturday) afternoon at 2 o'clock for the purpose of taking action on the question of securing fair grounds in Twin Falls. Land values are going up every day and grounds should be obtained at once.  
 Recollect that all farmers who have land in townships 9, 10 and 11, range 17, are requested to meet in the auditorium of the legislature building tomorrow (Saturday) afternoon to ascertain the condition of canals and laterals in those tracts. It is desired that the information may be presented to the board of examining engineers which will shortly inspect the canal system preliminary to its transfer to the settlers.

### E. B. WILLIAMS WILL SUCCEED W. O. TAYLOR

At a meeting of the state land board yesterday E. B. Williams of Twin Falls was appointed representative of the board in Twin Falls to succeed W. O. Taylor, who will relinquish the office on March 1. Mr. Taylor has proved an extremely efficient and popular officer and it is gratifying to the people of this county that his successor is equally acceptable. Mr. Williams is one of the pioneers and is exceptionally well qualified to fill the position to which he has been appointed. Mr. Taylor will bring his family back to Twin Falls and engage in other business in this city. That he has decided to remain here is very pleasing to his many friends.

## COMMISSIONERS CONCLUDE LABOR

### ASSESS DAMAGES CAUSED BY SEWER SYSTEM.

City Will Have to Pay \$1995 for Right of Way on Rook Creek—List of Property Owners Who Will Receive Payment from the Corporation.

John F. Hansen, J. H. Angel and Lewis Sweater, the board of commissioners appointed by the district court to determine and assess the damages sustained by property owners on Rook creek by reason of drainage of the Twin Falls sewer system through that stream, completed their labors and submitted their findings on Saturday last. The commissioners held that there would be no damage by reason of the actual taking of any of the land of the defendants to the action instituted by the village of Twin Falls against the land owners on Rook creek below the outlet of the sewer. It was also held by the commissioners that there would be no benefit accruing to any of the defendants through the construction of the system.

The aggregate amount of damages assessed by the commissioners was \$1995, distributed as follows:

C. B. Taylor	300.00
Don C. Bryan et al.	100.00
F. A. Voigt	100.00
J. T. Willis	200.00
A. B. Roberts	450.00
C. F. Raymond	100.00
W. W. Humphrey	250.00
H. Willis	350.00
Rainhard Roling	75.00
W. K. Harvenden	15.00
W. D. McCabe	15.00
Austin E. Gross	40.00
Total	\$1,995.00

## LEGISLATORS COMING TO SEE NEW COUNTY

State Officials and Members of Both Houses Will Arrive in Twin Falls on Saturday Morning and Be the Guests of the Town Until Sunday Evening—Big Reception Will Be Given Them on Saturday Night at the Ring Theater.

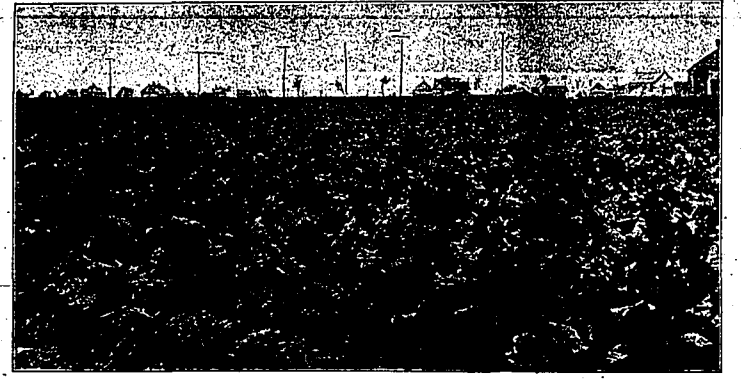

The state officials and members of the Idaho legislature and their wives will be guests of Twin Falls on Saturday and Sunday, February 23 and 24. They gladly accepted an invitation to visit the new county and satisfy themselves that they made no mistake in creating it. The guests will make a special train which will arrive in Miller on Saturday morning. Here they will be met by a committee composed of Dr. W. F. Pike, I. B. Porjane, George B. Fraser, Frank H. Eastman and C. D. Thomas. After taking breakfast and inspecting the big dam the visitors will take the train for Twin Falls, arriving here in time for luncheon. When luncheon is over the members of the party will be taken to Shoshone falls, where they will take in the sights and inspect the power plant. In the evening there will be a public reception at the Ring theater, where the guests will be entertained and supplied with refreshments. The program for the entertainment is now being prepared and will be a feature of the visit. On Sunday those who wish to visit Blue lakes and the Twin Falls will be provided with rigs and similar care will be taken of those who desire to take a drive in the country. As the notice was short the preparations were necessarily hurried. E. B. Williams, A. N. Sprague, T. O. Boyd, James McMillan, G. F. Sprague, R. M. McCollum, M. J. Swolay, R. W. Jones, B. T. Hamilton, L. L. Salladay, T. J. Woods, G. B. Borer, L. L. Pettit, H. O. Miller, and W. H. Eldridge comprise the committee on reception and entertainment, while P. H. Smith, J. W. Voorhes, P. J. Costello, G. D. Alken, A. P. Senior and Jake Fritz will look after the transportation. EVERY MAN WHO CAN SPARE A TEAM IS URGENTLY REQUESTED TO COMMUNICATE WITH THIS COMMITTEE. The finances are being looked after by C. M. Hill, R. M. McCollum and Carl Hahn.  
 It is expected that the visitors will number between 150 and 200 and THE IMPORTANCE OF SECURING ENOUGH TEAMS IS THEREFORE VITAL.

**HANSEN FARMERS ARE ON THE MOVE**  
 PLOWING AND SEEDING NOW IN FULL BLAST.  
 John Munger has leased the Ranches of Charles Upton and Joe Smith and will cultivate them in addition to his own farm at Hansett.

**HANSEN, Feb. 21**—Miss Almendra Roberts was a Twin Falls visitor last week.  
 Arthur Towne is assisting in the survey of the north side project.  
 Joseph Nelson hauled out a load of lumber last Wednesday from the Hanson yard.

T. T. Rutledge, manager of the Wooler lumber yard, has been suffering during the past week from a slight attack of grippe.  
 Mr. and Mrs. Rose of Soda Springs arrived last Saturday to visit their son, W. N. Rose. They departed for their home last Wednesday evening.  
 All preparations are made for a masquerade ball in the Rauch hall next Friday evening, February 22. The affair promises to be a grand social event.  
 The delightful spring weather of the past three weeks has resulted in much activity on the ranches. The farmers have been busy plowing and seeding and doing other spring work.  
 John Munger, who has been running the live barn at Kimberly during the past winter, has returned to Hansett and is preparing to farm on a large scale this spring. Besides farming his own land, he has rented that of Charles Upton and Joe Smith.  
 Will Baker sold a team last week for the sum of \$400.  
 J. D. Stevens started last week for his old home in North Yakima. He had not been feeling well and thought he would try a change of climate. On hearing that there had been a wash-out on the O. R. & N. he stopped off at Heyburn and returned to Hansett the following morning. Since then his health has greatly improved and he proposes to remain here.

**FIRE DEPARTMENT REORGANIZED**  
 Frank Lindy Elected Chief and Two Captains Chosen.  
 At an enthusiastic gathering of husky young men in the Commercial club rooms on Tuesday evening the Twin Falls fire department was organized on a permanent basis. Frank Lindy was elected chief, Louis Peterson cap-

Sugar beet field on the Experimental Farm, Twin Falls. Note the handsome residences in the background. This field yielded 21½ tons to the acre and several reliable tests showed the maximum per cent of saccharin, to be 19.7 and the percentage of purity 92.5. On other farms on the tract even better results were obtained, showing that Twin Falls is destined to be a wonderful sugar beet producing section.

## HELP WANTED

### FIVE HUNDRED MEN AT ONCE

To buy and wear our Gents' Furnishings. Our line of Men's Cravenetted Rain Coats at cost. We are showing a nice line of Men's Dress Shirts and Work Shirts that will astonish you.

### MEN'S WORK GLOVES

Buckskin, Horsehide and Calfskin at prices a little less than you ever bought them before.

E. A. Mallory & Sons Cravenetted Hats. All the latest blocks.

Dry Goods, Gents' Furnishings, Millinery, Groceries and Shoes.

## OSBORNE & FERNEY

"THE HOME OF GOOD GOODS."

## Looking for the Best Tailor?

If so, WE should serve you!

### Our Materials

are the best products of the American and European mills in beautiful new patterns. Over 500 selections.

### Our Fitting

is guaranteed. We cut our garments in the very latest styles, as worn in the large fashion centers.

### Our Substantial Workmanship

is the best that money can buy. We guarantee our garments to hold their shape and to give the very best of wear.

### Our Prices

are very modest, lower than those quoted by any other firm in town.

## Eldridge Clothing & Tailoring Co.

# ISSUANCE OF PATENTS IS TO BE FACILITATED

Senator Heyburn's Efforts Have Resulted in Modification of President's Order—Senator Has Also Introduced Resolution Instructing the Secretary of Interior to Issue Patents in All Land and Mining Applications in Which Law Has Been Complied With.

WASHINGTON, D. C., Feb. 19.—Congressman French made a speech in the house of representatives a few days ago in which he uttered a strong appeal for a liberal appropriation for the improvement of the Columbia and Snake rivers. It was during the consideration of the river and harbor bill and many notable speeches were made, but none was better received than that of Mr. French. He has taken on a great interest in this question since he first entered congress, and was in position to furnish many interesting facts to support his appeal for river improvement. In a clear, unassuming but forceful manner he told of the commercial importance of the northwest and how the development of that section, so rich in everything that goes to make a country great and prosperous, is retarded in its growth and in its prosperity by excessive freight charges. He asserted that the best way to cheapen railroad rates was to improve water transportation. On this he said:

"We talk of the regulation of railroad rates. We place laws upon our statute books for the equalization of the charges made. We accomplish splendid results through the vigilance of our interstate-commerce commission; but, sir, that which, in my judgment, would avail more than all the laws we could pass and all the commissions we could appoint for the regulation of railway rates would be the adopting of a broad, comprehensive system for the development of the waterways of our land and the speedy execution of that policy."

Senator Heyburn discovered a "nest-hole" in the woodpile during the consideration of the army appropriation bill in the senate a few days ago. In legislative parlance the "nest-hole" has a great many meanings, but this time it means that in some way an innocent looking sentence had crept into the bill making an appropriation for the army that would have the effect of repealing that portion of the interstate-commerce law, passed last spring after prolonged debate, prohibiting free passes. Senator Heyburn's discovery caused a discussion of the question to continue for three days, in which nearly all the senators participated. The question as to whether the government should be permitted to make special contracts with railroads for cheaper transportation for government employes than is permitted to individuals was also thoroughly discussed in this connection. A point of order was made against the section and the point being sustained by the vice president, the provision went out. Had Senator Heyburn overlooked the measure and had it not been discovered by any one else, the free pass clause, as far as it applies to government employes, would have been ineffective.

**To Facilitate Patents.**  
A joint resolution has been introduced in the senate by Senator Heyburn instructing the secretary of the interior to issue patents in all land and mining applications where the proofs submitted show a full compliance with the requirements of the law and where no protest has been filed against the granting of such patents. In doing this Senator Heyburn is following up the idea he contended for in his recent speech in the senate on the question of the issuance of patents. It will be remembered that an order was recently issued providing that no patent should be issued under any law until the case had been examined on the ground by a special examiner to see that all requirements had been complied with. If this joint resolution passes it will have the effect of nullifying in a great degree the recent order of the department.

The order issued by the president under date of February 12, 1907, following closely the delivery of Senator Heyburn's speech on the public land question, indicated that the speech was not without its effect upon the administration. It will be observed that the concessions made therein are in response to the demand made by Senator Heyburn and so far as they represent an immense benefit to the people.

The proclamation of the president to which Senator Heyburn's speech was principally directed was issued under date of January 25 and suspended the issuance of patents, and the recent order practically rescinded his former order of suspension and confirms in a large degree the proposed amendment of Senator Heyburn directing the secretary of the interior "to issue patents in all land and mining applications where the proofs submitted show a full compliance with the requirements of the law and where no protest has been filed against the granting of such patents."

This is the natural result of a fearless discussion of the public land question and a result that can only be obtained by such consideration at the hands of those whose duty it is to represent the people to the executive department where that department is under misinformation and a wrong impression as to the rights of the people upon the public domain; and is evidence of the fact that Senator Heyburn was correct when he asserted *time and time again in his recent speech* that the president was acting upon insufficient information and that he was receiving a wrong impression from those upon whose judgment he would naturally rely.

**Original Order.**  
The order which gave rise to the discussion was as follows:  
The White House, Washington, Jan. 25, 1907.—The Secretary of the Interior: To prevent the fraud now practiced in the acquisition of public lands of the United States, I have to direct that hereafter no final certificate, patent, or other evidence of title shall be issued under the public land laws until an actual examination has been made on the ground by an authorized officer of the government; but the following shall be excepted from the force of this order:

(1) All claims which have heretofore been examined on the ground by an authorized officer of the government whose report is found satisfactory.

(2) All claims where heretofore an officer authorized to take final proof shall have been present at the taking of final proof to cross-examine claimants and witnesses, if such proof is found satisfactory.

(3) All claims where claimant's compliance with law has been established by contest or other regular adverse proceedings.

(4) Entries which may have been confirmed by virtue of any act of congress.

(5) Selections and entries in which no residence or improvement is required by law, when the lands embraced therein are strictly speaking in agricultural districts, or when their character has been fixed by investigation and classification made in accordance with law.

(6) Cases of re-issuance of patents because of some clerical error occurring in the patent heretofore issued.

(7) All Indian allotments which have been regularly approved in accordance with instructions of the secretary of the interior.

You will issue all necessary instructions to carry this order into effect. This order is in lieu of my order of December 12, 1906.

**THEODORE ROOSEVELT.**  
The Amendment.  
It will be seen by comparison of the foregoing order with that which appears below that quite a number of concessions were made. The amended order reads:

The White House, Washington, Feb. 12, 1907.—The Secretary of the Interior: Since there is some uncertainty concerning the meaning of the order of January 25, relating to issuance of evidence of title under the public land laws, I reissue the order in the following more specific terms: To facilitate the final disposition of proper applications for patent and to prevent the fraud now practiced in the acquisition of public lands of the United States, I have to direct that hereafter no final certificate, patent, or other evidence of title shall be issued until an officer authorized to make final examination has made such examination or has obtained information of equivalent value. This order, however, shall not be taken to affect or modify the following:

(1) Final surveyor homestead entries heretofore made where the proof is satisfactory and complete.  
(2) Final certificates and receipts in final surveyor homestead proofs heretofore or hereafter made when the proof is satisfactory and complete.  
(3) Homestead entries committed on ceded Indian lands in which annual payments are required.  
(4) Entries where claimant's compliance with law has been established by contest or other regular adverse proceedings.  
(5) Entries confirmed which may have been confirmed by virtue of any act of congress.  
(6) Selections and entries in which no residence or improvement is required by law when the lands embraced therein are situated in non-agricultural localities, as shown by the records of the geological survey, or when their character has been fixed by investigation and classification made in accordance with law.  
(7) Re-issuance of patents because of some clerical error occurring in patents heretofore issued.  
(8) Military bounty land warrants and other similar warrants when the requisite proof has been made.  
This order is to replace my order of January 25, 1907.

**THEODORE ROOSEVELT.**

**WEEK'S WORK IN THE LEGISLATURE**  
**RAILWAY COMMISSION BILL IS DEFEATED.**  
Local Option Measure Rejected in House—High License Bill Under Consideration—State Funds Bringing In Large Amount of Interest.

BOISE, Idaho, Feb. 19.—State Treasurer Hastings has just completed a tabulated statement of the amount of money paid by the various counties of the state and of the total amount levied against said counties for state taxes in 1906. This table shows that of the total levy for state purposes of \$481,596.86, \$303,095.18 has been paid, leaving \$177,501.70 of the 1906 taxes uncollected and not yet paid into the state treasury. Several of the counties have almost completed their proportional share of state taxes, while there are a number of others from which no money has yet been received on this account. But small amounts have yet been received from Bligham, Canyon and Latah counties, and nothing from Blaine or Oneida counties.

The state treasurer's report shows that there are 43 banks in the state listed as state depositories and that on Saturday there was deposited by the state in these banks the sum of \$500,615.26, drawing interest at the rate of 2½ per cent per annum on daily balances. This is the greatest amount of interest bearing funds the state has ever had. If this amount could be kept up throughout the year the state treasury would earn, at the present rate of interest, \$12,500 per annum interest upon state funds deposited.

The past week has been important in its development in the legislature. The railroad commission bill was brought to final vote in the house on Thursday and was defeated by a vote of 22 yeas and 26 nays. The

vote was taken after a very spirited discussion lasting several hours. But one member, Smith of Nez Perce, absented himself at the time of the vote. The bill had been reported for passage by the committee of the whole by unanimous vote. It was generally understood, however, that the house was very evenly divided relative to the measure and it was generally felt that the chances for the bill's passage were not good. The following is the final passage vote:

Yeas—Anderson of Nez Perce, Balfour, Barry, Brooks, Finstad, Freehafer, Gleason, Jones of Latah, Jones of Shoshone, Keltz, McCracken, Miles, Mullaly, Scawell, Shaw, Taylor, West, West, Whitten, Williams and Wyman.

Noes—Abbott, Anderson of Bligham, Bennion, Bradley, Cassell, Connor, Cunningham, Fallon, Fogg, Grinnett, Harris, Hudleson, Johnston, Jones of Oneida, Curtley, Kilpack, Lovesey, Redman, Ross, Staley, Stanford, Surrledge, Weaver, Webb, White and Speaker Hunt.

On Friday the house, after heated discussion over the McCracken local option bill, defeated that measure by a vote of 15 to 30, with three pairs.

There is still under consideration in the house a high license bill, providing for state license for saloons of \$750 a year. This bill, it is felt, will probably pass the house.

The joint committee from the two houses left Friday afternoon for the north to inspect, the State university at Moscow, the Normal school at Lewiston and the North Idaho Insane asylum at Orofino. The committee also has, as a duty, the examination of a report upon the proposal to buy or build a bridge across the Snake river at Lewiston, which would serve as a connecting link between its estates of Idaho and Washington. It is expected that the Idaho committee will meet a joint committee from the Washington legislature in Lewiston on Tuesday, when the proposition will be thoroughly examined and a report drawn up by the committee.

The matter of the federal judgeship for Idaho is still under discussion here. The feeling has developed, however, that the president will probably name a north Idaho man. If this be true, it would limit the field of probable candidates between Judge Allaha of the state supreme court, who is felt to be clearly in the lead as a probability, and Judge Truitt, member of the state senate, and Hon. J. E. Habb of Lewiston in the order named.

Memorial services were held in the Columbia theater here on Thursday night in commemoration of the lives and services of ex-Governors Steunenberg and Hunt. There was a joint meeting of the two houses of the legislature which was presided over by the lieutenant governor, who introduced the speakers. A number of very fine speeches were made and the large audience present showed its appreciation by frequent expressions of agreement with the statements of the speakers.

The proposal to divide Nez Perce county into three counties, bills for which have been introduced in the house and senate, seems to gather no strength and it is now thought that no action will be taken.

The proposal to create Power county from portions of Oneida, Blaine and Cassia counties, with the county seat at American Falls, has so far received but little attention.

ance of evidence of title under the public land laws, I reissue the order in the following more specific terms: To facilitate the final disposition of proper applications for patent and to prevent the fraud now practiced in the acquisition of public lands of the United States, I have to direct that hereafter no final certificate, patent, or other evidence of title shall be issued until an officer authorized to make final examination has made such examination or has obtained information of equivalent value. This order, however, shall not be taken to affect or modify the following:

(1) Final surveyor homestead entries heretofore made where the proof is satisfactory and complete.  
(2) Final certificates and receipts in final surveyor homestead proofs heretofore or hereafter made when the proof is satisfactory and complete.  
(3) Homestead entries committed on ceded Indian lands in which annual payments are required.  
(4) Entries where claimant's compliance with law has been established by contest or other regular adverse proceedings.  
(5) Entries confirmed which may have been confirmed by virtue of any act of congress.  
(6) Selections and entries in which no residence or improvement is required by law, when the lands embraced therein are strictly speaking in agricultural districts, or when their character has been fixed by investigation and classification made in accordance with law.  
(7) Re-issuance of patents because of some clerical error occurring in patents heretofore issued.  
(8) Military bounty land warrants and other similar warrants when the requisite proof has been made.  
This order is to replace my order of January 25, 1907.

**THEODORE ROOSEVELT.**

**WEEK'S WORK IN THE LEGISLATURE**  
**RAILWAY COMMISSION BILL IS DEFEATED.**  
Local Option Measure Rejected in House—High License Bill Under Consideration—State Funds Bringing In Large Amount of Interest.

BOISE, Idaho, Feb. 19.—State Treasurer Hastings has just completed a tabulated statement of the amount of money paid by the various counties of the state and of the total amount levied against said counties for state taxes in 1906. This table shows that of the total levy for state purposes of \$481,596.86, \$303,095.18 has been paid, leaving \$177,501.70 of the 1906 taxes uncollected and not yet paid into the state treasury. Several of the counties have almost completed their proportional share of state taxes, while there are a number of others from which no money has yet been received on this account. But small amounts have yet been received from Bligham, Canyon and Latah counties, and nothing from Blaine or Oneida counties.

The state treasurer's report shows that there are 43 banks in the state listed as state depositories and that on Saturday there was deposited by the state in these banks the sum of \$500,615.26, drawing interest at the rate of 2½ per cent per annum on daily balances. This is the greatest amount of interest bearing funds the state has ever had. If this amount could be kept up throughout the year the state treasury would earn, at the present rate of interest, \$12,500 per annum interest upon state funds deposited.

The past week has been important in its development in the legislature. The railroad commission bill was brought to final vote in the house on Thursday and was defeated by a vote of 22 yeas and 26 nays. The

vote was taken after a very spirited discussion lasting several hours. But one member, Smith of Nez Perce, absented himself at the time of the vote. The bill had been reported for passage by the committee of the whole by unanimous vote. ## Are You Going to Build?

If so, you no doubt realize that Good Plumbing is one of the most important elements of the home.

There is no other feature which will appeal so strongly to the careful housewife as modern, high-grade plumbing, while on the other hand, nothing could be more disagreeable or injurious to the health of the occupants than a poor plumbing system. Good Plumbing is always cheapest in the end.

We take particular pride in the fact that we do Good Plumbing—the honest kind—and use the very best fixtures, namely "Standard" Porcelain Enamelled Ware, every piece of which is guaranteed by the makers to be strictly first quality.

You want the best. Let us solve the plumbing question for you. We make no charge for plans and suggestions and are convinced of our ability to please the most exacting.

## EARLY SPRING AT CLEAR LAKE

CATTLE ARE STARTED TO THE SUMMER RANGE.

Farmers Getting Their Ditches Ready for the Irrigation Season—Snake River Swallows Up Mr. Finley's Scow—Load of Hay.

CLEAR LAKE, Feb. 19.—We are enjoying delightful spring weather. Alfalfa and wild grasses have started on the southern slopes. Some of the stockmen have already turned out their cattle, while others are making preparations to follow suit soon.

Charles Ingross is busy cleaning out his ditches and getting ready for spring work.

Will Syster spent several days last week visiting in Twin Falls, where there he attended the St. Valentine's day dance.

James Hopkins went over to Twin Falls on the 14th and came back with a glowing description of the town.

S. D. Briggs, who is managing the Salmon creek ranch for L. H. Norton, was here last week and reported that the range cattle in that vicinity had wintered splendidly and that a large bunch of stock had just been started to the summer range.

Mrs. Mary Anderson of Abbey has been visiting friends in the valley for the past few days.

Mr. and Mrs. John Dalquist spent Sunday at the home of Mr. and Mrs. A. G. Madelena.

Mr. Finley, who purchased the hay crop at A. G. Madelena's ranch, lost a portion of his purchase in a peculiar manner. Mr. Finley had the hay baled and loaded it upon a scow which he had built to carry the hay across the Snake river. The scow, loaded with hay, sank to the water line, allowing the cargo to float down the river. The crossing was attempted a short distance above the rapids and only three bales of the hay were saved. The rest of the load went over the rapids and several bales have been captured by Nelson Churchill, who caught them as they were floating down stream.

Otis E. Syster is raising the banks of his ditches in order to prevent the water from a seeping and soaking away during the summer.

Charles Rose is still at work on his house, having been delayed last week on account of running out of rock.

John M. Hopkins is making preparations to begin building a home residence.

## DEMAND FOR ALFALFA SEED

is Unprecedented This Year in State of Colorado.

The demand for alfalfa seed this spring is bound to be unprecedented. Farmers are realizing more and more the great value of this plant and in many sections where farming without irrigation is practiced a strong effort is being made to introduce it. This is particularly true of the Divide country, where alfalfa has been fairly successful wherever sown in the proper way. The important point in trying to raise alfalfa without irrigation is to prepare the ground thoroughly in advance. Alfalfa can not be put on good ground and secure a good stand. The ground should be cultivated for at least a year before alfalfa is sown. Ground upon which potatoes were raised last season will do very well if properly prepared. The value of alfalfa to any farm cannot be over-estimated.—Denver Field and Farm.

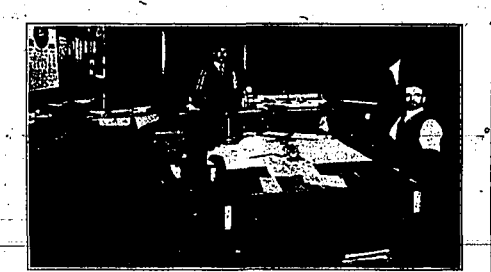

## AMENDMENTS TO GAME LAWS

Important Changes Proposed in New Measure.

The fish and game committee of the house of representatives has prepared a new fish and game bill calculated to make the protection of fish and game in Idaho more effective.

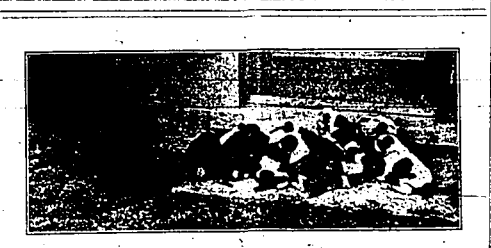

One important change from the present law is that allowing the selling for export of the eastern brook trout from private ponds. The brook trout is not a native, and is not bound to be as well adapted to the streams of Idaho as the native trout. It is said to thrive well in private ponds, however. The shipping of the brook trout is to be done under the supervision of the state. The bill was primarily so changed to meet the needs of men in Fremont county, who have a large pond filled with eastern trout, but it will be made applicable to any section of the state where it can be shown that the ponds are really what they are claimed to be—private ponds and not part of the natural water system of the state.

Total abolition of sealing will be advocated, except in Bear Lake, which is partly in Utah and subject to the provisions of the Utah law. No other sealing will be allowed in the state. The bill will also provide for the establishment of a fish hatchery, together with brooding preserves if necessary or desirable for the propagation of Mongolian pheasants, quail or any other game that may be thought to be especially desirable.

## OFFICE OF THE OREGON SHORT LINE AGENT, TWIN FALLS.

Mr. D. E. Sullivan, the agent, is shown seated beside his desk. His assistant, Mr. R. Brigham Hoyt, appears standing. Neither of the gentlemen are sickly, as might be supposed from the looks of their pictures. The photograph from which the cut was made was taken during the afternoon and as the sun always shines brightly in Twin Falls, it was necessary to draw the blinds. This accounts for the sallow appearance of the two gentlemen. They are both very fine looking men and they spend their time taking in money for E. H. Harriman, who is working for them. They have taken in so much hard coin since the station was opened that they have to rub salt on their hands to soften the callouses. The ground on which the Short Line station stands was covered with sagebrush two years ago and pessimistic people were insisting that the railroad would never be built to Twin Falls, at least in their time. It is a pity that it was. The same kind of people are croaking today that the power plant will never be finished, that the talk of electric railroads is all a bluff and that the world in general is going to overlasting smash. It is too bad that nature will stumble occasionally and permit such croakers to come into the world.

## MORE TWIN FALLS PRODUCTS.

(Photo by Ilhaca.)

This is the family of the Count of Monte Cristo and his consort, the Countess Josephine. The gloomy and savage looking beast in the corner is his excellency the count. He is said because everybody who comes into the office of his agent, Agent D. E. Sullivan of the Short Line, uses him for a door mat. Monte is really a very amiable dog but his face hurts him. It is possible to shunt a furniture car between Monte's forelegs. The count is a blooded animal from old England, don't you know. Josephine is a very affectionate mother and her offspring looks like rolls of butter. Like all other Twin Falls products, the youngsters are right up to the notch and they all sold readily for \$25 each.

TWIN FALLS NEWS

George B. Fraser, Editor. Published every Friday by THE NEWS PUBLISHING COMPANY TWIN FALLS, IDAHO

The state fish and game fund is assuming plum proportions but the fish and game law is not fulfilling the purpose for which it was intended.

The road which follows the section line from the northeast corner of the townsite to the farm of Frank E. Chamberlain, two miles east, is a splendid object lesson in roadbuilding.

The first baseball practice of the season took place last Sunday. Only four of last year's team are here at present, but plenty of promising material.

The city owns 12 fire hydrants which cost approximately \$50 each. They are unprotected and any one of them is liable to be broken at any time.

Some dissatisfaction is being expressed because the sidewalks are being laid two feet from the property line, leaving an unsightly gap which appears unnecessary.

Notice to Canal Contractors. Office of the Chief Engineer, Twin Falls North Side Land & Water Co., Milner, Idaho, Feb. 15, 1907.

Sealed proposals will be received at this office until 3 o'clock p. m. Tuesday, March 12, 1907, for the excavation of four (4) miles of canal containing about 93,000 cubic yards of lava rock excavation.

MINIDOKA BUYS KIMBERLY GRAIN

SEVERAL CARLOADS SHIPPED FOR SEED.

Thrashing Operations Resumed—Coyotes Are Growing Bold—Townsite Company Presents Ladies' Pioneer Club with Public Park Site.

KIMBERLY, Feb. 21.—Tom Atkins of Rock Creek returned from a visit to Salt Lake on Friday. Pulispher brothers are hauling their grain to the warehouse.

The Ladies' Pioneer club held their regular weekly meeting at the home of Mrs. A. D. Norton.

The first baseball practice of the season took place last Sunday. Only four of last year's team are here at present, but plenty of promising material.

ADVERTISED LETTER LIST

Letters remaining uncalled for in the postoffice at Twin Falls for the week ending February 20, 1907.

Resolutions of the Board of Trustees of the Village of Twin Falls.

BE IT RESOLVED, by the Board of Trustees of the Village of Twin Falls, Cassia county, Idaho, that the City Clerk of said village be and he is hereby instructed to notify the property owners and each of them of the Village of Twin Falls, to construct sidewalks according to the laws and ordinances of said village.

### BREVITIES

R. J. Hayes of Pocatello was a Twin Falls visitor yesterday.

Mrs. George Ebeloch of Buhl is a guest at the Perrine.

A. J. Wiloy, consulting engineer of the reclamation service, was a Twin Falls visitor on Monday.

Philip Cost, cashier of the Buhl State bank, came over yesterday to transact with the "Homeless Twenty."

Superintendent McPherson has returned from the Mindola tract, where he delivered several lectures which were well attended.

The streets are being worked over with a grader and the Berling sea appearance of the thoroughfares is disappearing. Let the good work proceed.

This new telephone office in the First National bank building is being fitted up. The board is set in position and the connections are now being made. The office will be a vast improvement on the present quarters.

Judge M. T. Records returned on Tuesday from the northwest, where he had been visiting since last April. The judge had a splendid time but he could not overcome his expectations for Twin Falls, which, he declared, had grown far beyond his expectations.

Mr. and Mrs. H. S. McDougall and children left on Wednesday for Halcyon, where Mr. McDougall has accepted a position in the Halcyon store. John Blass, Mac's smiling face will be missed and it is hoped that he and his estimable family will soon return to the land of milk and honey.

Ed Claiborne of Payette is a guest at the Perrine. Mr. Claiborne was induced to come to Twin Falls by his friend, W. H. Thomas. Although Mr. Thomas had given him a glowing description of the town and tract, Mr. Claiborne declared that the half had not been told him. He is looking for an investment and will make it when he finds a suitable proposal.

W. H. Thomas and Werner Klingner of Payette, who are to build a flour mill in Twin Falls, are here conferring with contractors. They will award the contract for the building before they leave town. It will be an imposing structure, so constructed as to permit of enlargement when necessary. Details will be announced when the contract is let.

Irving R. Darrow has resigned his position with the Land & Water Co., relinquished the office of village clerk and the citizenship of Idaho and returned to the seclusion of his farm. If Mr. Darrow makes as good a farmer as he did official he should take every prize at the Twin Falls county fair, being missed in the sphere which he fills so well. May the Darrow farm prosper.

An attractive display of brooms, the product of the Twin Falls broom factory, is displayed at the People's drug store. The factory is turning out a standard quality of brooms and is deserving of liberal home patronage. The big sweep broom, valued at \$10, will be presented to the first couple named in Twin Falls county, being made especially for that purpose. The display is well worth inspection.

Things are aizzling at Millard. D. C. MacWaters, the general superintendent, has assumed charge of affairs and everything is moving rapidly. The townsite is being cleared, work has commenced on the hotel, the trolley road is being graded from the depot to the bridge and overgrown is on-the-move. A party of 25 employees, in charge of Messrs. Shobert and Hyer, has established headquarters at Wilson lake reservoir. The new driveway of George Weldon will be opened for business tomorrow.

On Saturday evening occurred the first of a series of dinners to be given by the "500" Card club. Mrs. Sweetley was the hostess for the occasion. A sumptuous meal was served at 7 o'clock, then the evening was most enjoyably spent in the popular game, "500." The club presented Mrs. Sweetley, Messrs. and Mesdames Tush, Allen, Barrett, Boyd, Baker, Eastman, McCollum, Maxwell, Booth, and Dunn. The club presented Mrs. Sweetley with a handsome solid silver fork. The favors—two spoons—were won by Mrs. Alken and Mr. Booth. The second meeting of this kind will be with Mrs. Alken.

The Presbyterian Ladies' Aid society will meet on Saturday at 2:30 p. m. with Mrs. Stuart Taylor.

L. L. Sullivan and W. E. Sullivan, the Halcyon attorneys, are guests at the Perrine.

E. A. Moon has been appointed business procurator. Mr. Moon having been unable to accept the position.

Mrs. S. T. Hamilton and daughters have arrived from Colorado Springs and Sam and Cora are expected here which he wore for the long. They will remain in Twin Falls.

The Jones and Peters buildings will be three stories in height. The Jones building which that Twin Falls has reached the three-story stage. No body is disposed to question their judgment of why the first three-story business block in town.

Buhl and Kimberly ball players are at work on the new building. Kimberly declares they will win the pennant on the tract this season and Twin Falls will have to move to beat them.

The Lindzey Furniture Co. has leased the building recently occupied by the City Meat market, the lower floor of which will be refitted and remodelled for the accommodation of the furniture company on March 1. The second floor will be converted into light housekeeping rooms.

Mrs. E. W. Davis entertained a number of her friends at a garden tea delightfully and informally on Thursday evening. The invited guests were Misses Kinney, McCollum, McManis, Myers and Mankor, and Messrs. Nixson, Bill Fuller, Collins, and Woods. Mrs. Davis was most competently assisted in entertaining by her niece, Miss Ethel Hildgen.

On Monday afternoon was raffled the fine burnt leather pillow and burnt wool articles which were presented to the Hermal association by Mrs. L. M. Lacey to raise money for the building fund. The drawing took place at Bedford's drug store. The first prize was won by R. L. Cox with 47, the second by James Grossman with No. 74, and the third by Eldred McCall with No. 43.

Something new in the way of entertainment for Twin Falls was the bowling party given at the bowling alleys Tuesday evening by Mr. and Mrs. Max W. Kunkley. The alleys were closed for the evening for the benefit of the invited guests, who were Mesdames Miller, Evans, Sullivan, Pike, Levasse, McKimley, and Miss Edith Young, and Messrs. Fred Volz, Fred Volz, Dewitt Young and Donald Kunkley. Some good scores were made despite the fact that it is so cold and many of the guests had bowled. Between the game a buffet lunch was served.

Judge J. E. Noyes of Los Angeles, California is the guest in Halcyon, a friend and schoolmate, Robert M. McCollum. He read about "Cyclone Bob" in the Pacific Monthly and discovered that he was the brother of his brother, other than his brotherly chum. He invited the judge to visit him and the judge declares he would not have missed the visit for anything. He has 12 years on the superior bench of California. Judge Noyes declared more water cases than any other member of the bench, and he acquired a well-reputation as an authority on irrigation law. Scores of his decisions form precedents today. He has always taken a lively interest in irrigation and he considers the Twin Falls canal system the most marvelous in the country. Judge Noyes will probably return to Twin Falls in June and he wishes the visit for his health. He is delighted with the town and the people.

J. Bibeau of Weiser, a deaf mute who struck and instantly killed three and one-half miles west of Mindola by the westbound passenger train on Tuesday. Bibeau, who was a laborer in search of employment, was walking in the snow when he was struck by the track ahead of the train, the whistle was blown repeatedly to attract his attention. As he still kept between the rails, the brakes were applied. Just as the train began to slacken speed, Bibeau stepped aside and the brakes were released. Instantly Bibeau was back between the rails, at the same time turning around and facing the engine. He seemed to be dazed and although the emergency whistle was applied, the train was upon him before he changed his position. The body was frightfully mangled. The remains were taken to Rupert, where an inquest was held. No blame attached to the engineer, who performed his whole duty. Bibeau was an industrious man of good repute. He had been stopping at the train house in Mindola and made his wants known by writing.

There was a full attendance at the Last Grand club on Friday afternoon at the home of Mrs. J. P. Mitchell. The favors were won by Mrs. Mitchell, a dainty cup and saucer, and Mrs. McCollum, a silver card tray. The ladies present were: Mesdames Tush, Barrett, Boyd, Baker, Eastman, Dunn, Davis, Greenough, Hill, Mitchell, Maxwell, Sweetley, Tush, Williams, McCollum and Miss McCollum.

P. J. Holohan has returned from a tour of the northwest in the interest of the Du Pont Powder Co. Mr. Holohan declared that he is enjoying the trip. The shooter in all the towns made his visits pleasant and in some places he was met by a shooting party. He shot when the thermometer was below zero. Mr. Holohan will go to Boise tomorrow and return in a few days to remain at home for a short time before starting on another tour of his territory.

There was a "sum of" query by night school on Monday. The "Bunch" enjoyed a moonlight ride as the guests of Miss Mary Barrette. Frank Bennett was the driver and he carried a passenger or two. The white team hit to one of his big wagons he piloted the young ladies and their chaperones over all the streets of the city and his passengers enjoyed all the delights of a sea-side drive without seasickness. No mention of refreshments was made in the account of the ride which was furnished to the News, so this matter of entertainment will, of course, be taken for granted. The merry-makers were Misses Ethel Manker, Edith Young, Elva McCollum, Isabel Parsons, Florence Hildgen, Antora Rogers, Rena Jones, Perrine, Mrs. Stauffer and Mrs. Taylor, who chaperoned the party.

Neither absent or tardy—Mario Pillorini, Joseph Austin, Don Hason, Phil Barrett, James Harrah, John Winters, Myrtle Rogers, Mabel Waters, Iselta Bybee, John Hubbell, Ivan McGill, Katie Larkin, Bryan Rogers, Grace Madams, Albert Boyer, Barn Voyle, Sigling Oakes, Ross Johnson, Graymo Winder, Myrtle Elgner.

Fourth Grade:  
Neither absent or tardy—Mario Pillorini, Joseph Austin, Don Hason, Phil Barrett, James Harrah, John Winters, Myrtle Rogers, Mabel Waters, Iselta Bybee, John Hubbell, Ivan McGill, Katie Larkin, Bryan Rogers, Grace Madams, Albert Boyer, Barn Voyle, Sigling Oakes, Ross Johnson, Graymo Winder, Myrtle Elgner.

### SCHOOL NOTES

The school is starting a new month's work with good results so far.

A great deal of interest is being taken in the declamatory contest which will be held at Pocatello on April 26. The schools of southern Idaho will be represented there and a preliminary contest will be held here on April 6 among the high school students to determine who will represent Twin Falls.

The party given by the high school last Saturday evening was a success in every way. Everyone there declared they had a fine time and that it was the best ever given by the school.

The basket-ball girls defeat by the seventh grade. Fred Volz did most to arouse the girls to anything else. They have been practicing faithfully all week and are improving steadily.

Mrs. Borden, the teacher in district No. 40, three miles east of Filer, visited the school this week and reported herself as thoroughly satisfied with the school. Mrs. Borden is taking the examination at Albion this week.

Mr. Thomas received a letter from the board of directors at Stampi last week asking several questions about our method of running school wagons. The letter concluded with the statement: "Your work will be greatly appreciated because you people of Twin Falls have the name of having a way to do things." Mr. Thomas answered by a return letter last week of the building, wagons and children.

Superintendent Potter has organized among the teachers of the Twin Falls school, a teachers' association. Meetings are held every first and third Friday of each month at which time interesting subjects are presented and discussed, as well as the latest and most modern methods of teaching. On the 14th of February a general invitation is extended to all the teachers of Cassia and Twin Falls counties to attend and take part. A cordial welcome will be given them.

### SCHOOL REPORT

Following is a list of those who have not been absent or tardy from school since January 1; also a list of those receiving in that time an average of 90 or more:

Primary:  
Neither absent nor tardy—Ethel Poland, Trull Milner, Emma Gregg, Orrin Hill, Albert Triff, Clifford Bringham, Audrey McEwan, Alta Jones, Frances Humble, Myrtle Elgner, Robert Dingman, Edwin Lecheur.

Average of 90 or more or above—Sylvia Gardner, Ruth Milner, Harold and Mabel Jones, Margaret Jones, Anell Jones, Gertrude Jones, Clifford Bringham, Olive Jennith, Lullie Wilkie, Lilla Wilkie, Cecil Pomroy, Edna Wilton, Edwina Lecheur, Benedict Lecheur, Kearney, Vivian Parker, Willie Carl, Roy Rogers, Flora Bowser.

First Grade:  
Neither absent nor tardy—Buckus Gollie, Leon Hodge, Burton Noble, Doris Adams, Alma George, Tessler, Johnnie Slutz, George Worley, Florence Humphrey, Dewey Jones, Mattie Redsell, Chaffee Newton, Dorr Rine, Tony and Edna Jacobson.

Average of 90 or above—Mildred Boone, Earl Dingman, Chaffee Newton, Arthur Humphrey, Grant Thomas, Florence Humphrey, Edna Wilson, Hugh Boone, Alvin Miller, Nellie Dolly Sheffield, Stella Wilks, Milan Rogers, Gladstone Woodhead.

Second Grade:  
Neither absent or tardy—Dorothy Leonard, Cora Hartigan, Dora Snider, Eva Hoge, Dewey Winder, Vera Jones, Lester McKean, James Hutchinson, Sewall McCaun, Rachel Quigley, Francis Fuller, Gasie Rossell, Dayle Moore, Leo Moore.

Average of 90 per cent or above—John Glenn, Russell Ferney, Dwight McGill, Orrin Wilks, Dewey Snider, George Wilton, Helen Moore, Rachel Quigley, Edwin Heath, Frank Oliver, Earl Vance, Grace Urie, Charles Perrine, Cora Hartigan, Nellie Ferney, Lena Moore, Dorothy, Lemmon, Melvin Pettit, Henry Howe, Ruth Herendeen, Willie Summers, Mildred Conway, Clara Walton, Oscar Willey, Thelma White.

Third Grade:  
Neither absent or tardy—Bonnie Thomas, Georgia Ann Willis, Keith

### Attention!

Private stock household goods of M. W. Kunkley of Twin Falls. Inquire at Dr. Pike's residence.

Presbyterian ladies cooked food sale on Saturday afternoon during March at Osborne & Ferney's.

Situation Wanted as Housekeeper, general housework or nurse. Address N. J. News office.

WANTED—Some one to buy half interest in clothing, furnishing and shoe store. All new goods; other lines can be added; large, light storeroom; best corner location in town; \$1500 to \$2000 required. Party who can manage business as owner has other interests. Address EDWARDS, Buhl.

Homestead and Desert Lands. In the great Shoshone valley, 20 miles south of Twin Falls. All persons who wish to locate in this beautiful tract claim in the grain and hay belt of southern Idaho—a land of fertile soil, water, grass and timber. For information address Parkers, Twin Falls, Idaho, or call at my ranch in Shoshone valley. J. A. PARKER, Locust and Guide.

Fancy Chickens for Sale. Thoroughbred Barred Plymouth Rocks. Cockerels, \$2 each; pullets, \$1 each. Eggs for hatching, 42¢ per set. Address Mrs. C. Macfarlane, Heyburn, Idaho.

Dicklow Wheat for Sale. First class clean seed grain. Inquire of A. BENDER, Box 675, Twin Falls.

Help Wanted. Hotel help for all positions. Address Box 973, Twin Falls.

Found. December 18, 1906, bay stud yearling colt, no brand. R. W. RUTTER, Sec. G. T. 11, R. 18. If you drink, drink Yellowstone.

Grain sacks, 9 cent apiece. H. B. JOHNSON.

### PIANOS & ORGANS

Everything in Music. Violins, Guitars, Banjos, etc. with BAILLY & LEON. Rates for Rent.

Improved ranches near Twin Falls for rent on favorable terms, either one or three year leases. Inquire of ALEXANDER McPHERSON.

Gamekeeper—I feel we are going to have a very cold winter. The count—How is that, Pete? Gamekeeper—In half of the wood has been blown from the shed.

### Hotel Quicker

Hotel Quicker—What's the matter with this chicken? Waiter—It isn't the chicken's fault, sir; you ought to have come last week.

**IDAHO, the Land of Opportunity ASHTON Is in Idaho**  
ASHTON, a new town 16 miles northeast of St. Anthony, is the present terminus of the R. R., a recent extension of the St. Anthony branch of the Oregon Short Line railroad.  
ASHTON was platted in December and lots were placed on sale January 1st, 1906. \$5,000 worth of lots were sold at private sale on day of opening and many business houses are already being erected. Bonds have been voted for a \$10,000 school building to be built in the early summer. Hotel Ashton, a modern up-to-date structure to cost \$25,000, is in course of construction. The Ashton State bank has been organized with a capital stock of \$25,000.  
ASHTON is located on a beautiful tract, has natural drainage with gradual slopes in each direction, and has a commanding view of the surrounding country. It is the shipping point of the Marysville, Fremont, Squifflet Creek, Ore., Farmington, Cozart Creek and Island Park sections, which include a body of agricultural land 20 to 30 miles square, and containing over 200,000 acres of irrigable and tillable land which is unsurpassed for fertility, productiveness and water conditions. Approximately 1,000,000 bushels of grain were produced in this territory last year, with barely a third of the land yet in cultivation.  
ASHTON will be the supply point for tourists and National Park trade this season, and will be a division point as it is necessary in crossing the government forests, into which the road enters just beyond Ashton, to use all instead of coal burning engines. The railroad company has secured ground suitable for the construction of round houses and other buildings necessary for division headquarters. A standard 55-foot depot is already in the course of construction. The railroad receipts from the Ashton office for the first two months exceeded \$10,500 and March bids fair to exceed the aggregate of the first two months of business.  
The "Northwestern" R. R. has surveyed into the Jackson Hole and Fall River Pass, and with the extension of their line through this natural gateway must pass through Ashton and St. Anthony westward to the coast.  
KEEP YOUR EYE ON ASHTON!  
Splendid opportunities for farmers and investors both in city property and farm lands.  
For further particulars ask or write.

**IDAHO EXPERTS WRITE ON THE HOG INDUSTRY**

Content That the Hog Pen is a Mighty Agency in Keeping Up the Price of Grain—Valuable Pointers on the Feeding of Porks—Idaho is Particularly Well Adapted to This Particular Line of Industry—Alfalfa Makes Ideal Feed for Hogs.

Superintendent Fren Moore of the Idaho experiment station at Moscow has contributed the following interesting paper on hog feeding to the Gem State Rural:

The great demand for pork products and the remarkably good prices paid for hogs should wake up the Palouse farmer to the fact that this industry would add greatly to his revenue. By converting wheat into pork he can receive from \$0 to \$0 cents per bushel for his grain and have no "sacks" to buy. The first thing necessary is to breed hogs best adapted to the locality. Breed for spring pigs that they may get the benefit of the spring pasture. While the pigs are small fix a trough in a dry shed where the old hogs will not bother them. Keep chopped wheat, so the pigs can eat when they wish. Always feed little pigs dry feed when they are running with the sow and they will grow very rapidly. After weaning, feed the pigs as before until the pasture grows better and the pigs get well started. Then the chopped wheat may gradually be reduced. The growth of the pigs can be greatly increased by contriving a light feed of the wheat. Plenty of fresh water and good shade through the warm weather should be provided. After harvest the hogs may be turned on the stubble-field to pick up the grain left by the machine. This will all be clear profit. When the stubble is cleared up the hogs are then brought to the feeding pens to finish. To get the best results hogs require a well sheltered feeding floor, with plenty of light, and a small lot outside for exercise.

Before hogs are placed on feed they should be perfectly clean. Dipping is a good plan. Then the animal is in a condition to convert every bit of food into gain. Hogs should not be fed too much wheat on the start. Two pounds of chopped wheat for the first two or three days, then three pounds for two or three days, and so on until they are on full feed. It usually requires ten days to get the hogs on full feed. Never crowd hogs. Keep them greedy; always ready for their feed. Wheat should be well chopped. Before feeding, moisten and add a little chop. The trough should be fixed so the hog cannot get his feet into it. Water should always be at hand in a separate trough. Eight or ten hogs in one pen are plenty. Weigh the feed, as uniform feeding brings the best results. A daily ration of five or six pounds of wheat per head is sufficient.

The feeder should be careful about the pen, preventing the hogs from becoming excited.  
Put them. A hog likes kind treatment. A little time spent to scratch the hogs on the back is feed saved. Seventeen pounds of gain can be gained from one bushel of wheat and 15 pounds should be easily obtained. With the hog market at 6 1/2 cents per pound, 15 pounds will bring 93 1/2 cents a bushel for wheat.

**Profit in Hogs.**  
D. G. Rogers of Caldwell, one of the most successful hog raisers in the West, gives his views in the Gem State Rural as follows:  
Without solicitation, I have prepared a few hurried items relative to the great question of swine production in Idaho. Being identified as I am very closely in that line of business in your locality, I feel free to make a few statements of the question which stands first of all in value in relation to other meats, being double that of beef and nearly three times that of mutton.

"The hog," of all animals, is the most abused, the most neglected, and the most despised, save one; that one is man, who so befriends himself with intoxicants as to lose all self control and is reduced from a being, made in the image of his Maker, to a mere brute; yet, notwithstanding all these opposing influences, the hog ranks first of all in volume of production and wealth, reaching the enormous figures of \$60,145,000 for the last census year of 1900.

When we consider the enormity of the export products of the hog for the year of 1906, viz., lard \$50,000,000, bacon \$35,000,000, and hams \$20,000,000, is it any wonder that farm-

ers of Idaho or other localities should be stimulated to action thereby and share very largely in the production of this most important commodity, either for export or home production? And to show how easily and cheaply this may be done is the import of these papers.

Where the climatic conditions are most favorable, and the freedom from destructive diseases, which are so prevalent in many localities, almost unknown; with all the requisites for cheap production, with abundance of alfalfa for pasture, ranking first of all as a food product for pigs, being highest in protein of all known feeds, Idaho presents to my mind the veritable field of operation in this particular line of industry. And just here let me say, what has been done elsewhere can be repeated here.

In the state of Washington I raised pigs which, at eight months old, dressed 250 pounds and 275 pounds, but how was this done? And at what a cost? But just here let me say, it must be done in connection with the dairy; the dairy being a very important factor and an inseparable adjunct to successful hog raising, for pigs must have milk and milk lays the foundation upon which to build the superstructure of the future hog; for milk being rich in protein and fats, builds the muscle and the bone, while the alfalfa is rich also in protein and adds the carbohydrates also. To these should be added a small quantity of ground feed, either wheat or barley, and this feeding should be kept up constantly from the time the pigs are old enough to eat until they are supplied by another lot. Only sufficient grain should be fed to keep them in good growing condition and not to fatten. The sows, and together with their progeny, must have ample alfalfa pasture with but an occasional feed of grain sufficient to keep them in good order. The hog is naturally a rover, and is also cleanly when one will let him be so, therefore good comfortable sleeping quarters must be provided, also plenty of good pure water.

**Choice Irrigated Lands**  
Improved Lands for Sale, Located in the Payette Valley. Prices Reasonable. Terms to Suit.

Level, smooth land, three miles from Emmett, has been plowed and leveled. This last fall 50 acres of fall wheat was put in and was well plowed; is well fenced with heavy cedar posts a rod apart with four strands of galvanized barbed wire.

There is a good house, 14x18, with cement foundation, good well with pump on it; good barn for five head of horses; wagon shed 10x24, chicken house 10x12, everything is put up in the best possible manner. All of the outbuildings are of dressed lumber with shingle roofs and everything painted, including roads.

House is painted white with green trimmings, everything else red with white trimmings.

Land adjoining it on the east sold by the state for \$47 per acre. Will sell 80 acres or the full 160.

Smooth, level land with just a gentle slope, making an ideal farm for irrigation. Has been plowed in fine shape, is all in fall wheat, has good stable for 10 head of horses, it being 16.4x50; wagon shed 32x24, 10 feet high; chicken house 10x12; large, roomy cellar, and the farm is well fenced with cedar posts a rod apart and four strands of heavy galvanized wire.

Five-room house, cement foundation, very nicely built and well finished; heated and good enough for anybody to live in; very conveniently arranged, with pantry, closets, etc.; good well with pump.

Are you joining it on the east 100 acres fenced and cleared, no other improvements. Will sell all or part.

Same style of improvements as on the northeast quarter section 30 referred to above. 50 acres in fall wheat which is in fine condition.

There is a telephone in each of these houses and the land is situated convenient to the irrigation system and the cream of the celebrated Emmett bench, it being situated in township 7 North, 2 West Dolan Meridian.

These places will be sold on long time at 8 per cent and will be parceled out if so desired.

We have a full equipment of horses, wagons and farming tools, which can go with this land if so desired.

Water will be ready for delivery as early as it is needed this coming spring, as the ditch has been completed and is being puddled at the present time.

These places are all conveniently located as to range in one of the best sheep countries in Idaho.

Lumber is worth \$20 per thousand delivered at the ranch and brick at the town of Emmett is selling from \$7 to \$8 per thousand. All the buildings above mentioned have shingle roofs and everything has received two coats of paint. Horses have oiled floors and are finished in first-class manner.

"UTAH'S GREAT INDUSTRIAL SCHOOL"  
Prepares Men and Women for Success in Life COURSES OF STUDY.

Agriculture—Agronomy, Horticulture, Animal Industry, Veterinary Science, Dairying, Irrigation and Drainage.	Engineering—Mechanics, Surveying, Designing, Irrigation, Sewerage, Hydraulics, Roads and Pavements, Etc.
Domestic Science and Arts—Cooking and Dietetics, Sanitation, Hygiene, Sewing, Household Economics, Etc.	Commerce—Business Administration, Accounting, Banking, Transportation, Commercial Law, Stenography, Etc.
Mechanics—Arts—Carpentry, Forging, Pattern Making, Carriage Building, Foundry Work, Machine Work, Etc.	General Science—Comprehensive English, Mathematics, History, Economics, Modern Languages, Natural and Physical Sciences, Etc.

Courses are also offered in Music, Art, Physical Training and Library Work.

IT IS IMPORTANT  
Before you decide which school to attend that you consider carefully the opportunities afforded by the AGRICULTURAL COLLEGE OF UTAH—its strong faculty, modern courses of study, splendid equipment, most atmosphere and healthful environment; also the low expenses and the uniform and splendid success of its students.

Twenty buildings, provided with the best modern equipment; 175 stock farms, orchards, gardens, parade grounds and athletic field—these afford exceptional facilities for thorough and efficient work. A strong faculty of experts, representing the best institutions of America and Europe, are in charge of the work of instruction and experimentation. No tuition—Entrance fee, \$5. College opens September 15. Write now for illustrated catalogue.

Moore, John Graf, Christian Corfield, all of Elletts.  
 HARMON G. MUNYON, Entryman.

**MORE MINERAL DISCOVERIES**  
 Many Claims Are Being Staked in Cassia County.

I. G. Hale and Ernest White arrived here Wednesday morning from a visit of several days to the mineral claims of Bemis Bros. and Elquist Bros. south of Oley.  
 They report that a shaft has been sunk to a depth of 15 feet by one of the claims, and that a grade of ore which assays from \$50 to \$75 per ton has been struck, and that the outlook is very encouraging for even a better grade of ore. It is announced that a stock company will soon take hold of these claims and that work on their development will be pushed during the present season.  
 During the past 10 days several parties from Burley and Heyburn have staked out claims in the mountains near Elletts, and it is expected that as soon as reports can be obtained from the ore sent east from assay, active operations on the development of these claims will be instituted.  
 J. M. and Ed. O. Hamilton, expert mineralogists of Omaha, Neb., were in town the first of the week and visited the mineral district south of Burley. The outcroppings evidently looked pretty good to them, for they staked out two claims.  
 It is announced that prospectors from Albion have recently made a rich find in the mountains near the Burley-Albion road, and are taking out some high-grade ore—Burley Bulletin.

**OREGON SHORT LINE.**  
 Settlers' Rates.

Daily, from March 1 to April 30, 1907, the same cheap, one-way second class settlers' rates will be in effect from the east to points on the Oregon Short Line as have heretofore been made in the spring and fall months, as follows:

To Huntington and mail line	From Intermediate points
Chicago	.....\$30.50
Bloomington	.....29.50
Peoria	.....28.50
St. Louis	.....27.50
Kansas City, Leavenworth, Atchison and St. Joseph	.....25.00
Council Bluffs and Omaha	.....24.50
St. Paul	.....22.50
St. Paul and Minneapolis	.....22.50

Proportionate rates will be made from other stations in Illinois, Iowa, Mo., and Nebraska.  
 Stations on branch lines will be made local over junction points.  
 D. E. BURLEY, D. S. SPENCER, G. P. A. Assistant, P. A.  
 D. E. SULLIVAN, Agent, Twin Falls.

**Choice Lands.**  
 We own and have for sale some choice irrigated lands, improved and unimproved, that we can sell you on very reasonable terms. The price will be satisfactory, the quality of the land and water supply second to none in the West.  
 Write us for particulars.

**CARE SHOULD BE USED IN PURCHASING SEED**

Cheap Seed of Any Variety Generally Proves the Most Expensive in the End—Only Reliable Dealers Should Be Patronized—Simple Germination Tests Described Which Any Farmer Can Apply—Results of Government Experiments.

Sowing time is at hand and the seed question is again up for consideration. As the major portion of the Twin Falls tract is still virgin soil and the wood pests are, in a measure, not to be reckoned with as yet, it is particularly desirable that the farmers should obtain clean seed and only clean seed. If care is exercised the tract can be kept clean for years to come. The farmers are vitally interested in the seed question and they should purchase only from dealers who are willing and able to give a reliable statement of quality. Cheap seed is invariably the more expensive in the end. The data condensed below was the result of pure seed investigations by the government and it shows the importance of caution.

**Features of Poor Seed.**  
 Except wheat, corn and oats, the seeds of grasses and clovers are most largely used by farmers, and these are also the most frequently impure, adulterated or dead. It is true that much poor vegetable seed is sold, but in this case the question of genuineness of variety is of chief importance, and to determine this before the seed is planted is impossible. But with grasses and clovers the case is different; the exact value of the seed can be determined long before planting, and there is no good reason why this should not be done.

- Three charges may be preferred against poor seed, any one of which ought to be sufficient to condemn it, while usually all three can be proved.
  - (1) The seed will fail to grow, or if it grows will give an uneven stand.
  - (2) In case of grass or clover seed, it contains weed seeds, and will sometimes bring an entirely new weed to the farm.
  - (3) Poor seed costs more than it is worth.

**Amount to Sow Per Acre.**  
 The amount of seed to sow per acre is regulated by more or less well defined rules, based upon general experience and varying somewhat locally. Thus, it is said that three bushels per acre should be planted of redtop, orchard grass and English rye grass; one-half to 12 pounds of timothy, and 10 to 15 pounds of clover. These rules, however, do not take into consideration the quality of the seed used. Assuming, for example, that bushels of first quality seed is meant, then an increased amount should be sown when an inferior seed is used. The standard weight for orchard grass is 14 pounds per bushel and of this, according to our tests, 9 to 10 pounds consists of pure seed that will grow, the remainder being chaff, dead seeds and weed seeds. If now the seed purchased has a lower germination, say 50 per cent instead of 80 per cent, then there will be only a little more than 5 1/2 pounds of pure and good seed in

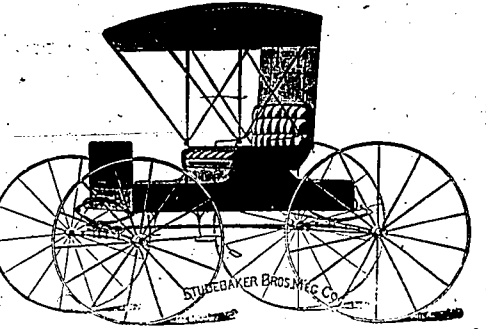

every bushel. Again, if the amount of chaff is greater, there may be only a little more than 3 1/2 pounds of pure and good seed in every bushel. Three bushels of standard orchard grass seed, weighing 14 pounds to the bushel, contain 25 to 35 pounds of good seed; therefore, if a similar stand is desired from seed of the same weight but lower germination, say 50 per cent, as above, nearly 5 bushels per acre must be sown, while of seed weighing 12 pounds per bushel and germinating 50 per cent, 6 1/2 bushels will be needed. On the other hand, if high grade seed weighing 16 1/2 pounds per bushel and germinating 80 per cent is used, there will be over 14 pounds of good seed to the bushel, and less than 1 1/2 bushels need to be used. It is clear from this that the little knowledge one gets of a sample of seed by passing a handful through his fingers is not a sufficient basis for a correct judgment of the amount to sow. A uniform stand under these conditions is secured only by chance. Seed may fail to come up if thus carelessly selected, though every care has been taken with the preparation of the land. In this case fallow of seed, of labor, and of the use of the land, could have been avoided by testing for germination before planting.

**How to Secure Good Seed.**  
 The remedy lies with the consumer. All legitimate demands in trade are bound to be met, and if purchasers will intelligently and persistently demand good seeds they will get them. When trying to get good seeds, four rules should be observed: Buy from reliable firms, avoid the cheap grades; demand a statement of quality in percentage; test the seed.

**Testing of Seeds Important.**  
 It has already been shown that the best seed to buy is that which is guaranteed free from injurious weed seeds, and of which the price per pound of pure and germinable seed is the lowest. If the purchaser has any doubts about the seedman's statement, or feels that he would like to make sure of the quality of his seed before planting, he should send a sample to the seed-testing station. Whether seed is guaranteed or not, the most important thing is to have it tested. The risk involved in planting untested seeds is too great, especially when a considerable quantity is used.

**Kinda of Test Necessary.**  
 A complete test of a sample of seed consists of a purity test and a germination test. If the purchaser is satisfied about the purity of his seed, as he may readily be in the case of wheat, oats, or corn, a germination test should still be made. It is true that often much may be known of the vitality of seed from its color; for example, bright colored timothy clover seed is pretty sure to germinate well and dull-looking seed to germinate poorly. But in many cases no visible difference exists, and it is always safest to make the germination test. All seeds, except grasses, can be tested for germination at home as well as at a station, and farmers are urged to make these tests.

**Practical Details of Seed Testing.**  
 A simple germinating apparatus can be made from two ordinary plates and a piece of flannel cloth. Fold the cloth and lay it in one plate, placing the seeds between folds of the cloth, which should be moist, but not dripping. Cover the whole with another plate inverted and stand in a warm place. If the test is made during cold

**The IZZER**  
 An IZZER==Not a Has-Been  
 The IZZer Buggles are the product of the STUDEBAKER CO. and represent the highest qualities in buggy making.  
 In Material, Workmanship, Finish and Style they stand in a class by themselves above all others. They are built to stand hard usage, and at the same time give you a neat, light running buggy, both side and end spring.  
 The man who rides in an IZZER rides in THE BEST.  
 A large assortment of styles always on hand, and it is always a pleasure to show them. Compare this line with catalogue house Buggles and then BUY AT HOME.

While it is difficult to estimate the money loss chargeable to poor seed on account of extra labor, loss of the use of the land and the introduction of weed seeds, it is easy to determine the exact loss due to the quality of the seed itself, reckoned on the increased price for the seeds that actually come up and grow. A sample of seed may contain:

- (1) Pure and germinable seed, that is, seed that will grow and produce the kind of plants wanted.
- (2) Chaff, sticks and dirt.
- (3) Dead seeds of the kind purchased.
- (4) Weed seeds and field seeds other than those wanted.

Of these the pure and good seed only is of any value, the remainder being either useless or positively harmful. The value of the sample to the farmer will depend, then, upon the amount of pure and germinable seed present. It

weather, care must be taken to stand the plates when the temperature will not fall much below 50 degrees Fahrenheit at night and will be about 65 degrees or 70 degrees during the day time.  
 The seeds that have sprouted should be removed every day and the number recorded. When the test is completed, the number of seeds sprouted can be compared with the number put in the test and the percentage of germination determined. Clover seeds, cereals and timothy should be tested for about ten days, while other grass seeds need 14 to 20 days.  
**Summary.**  
 Dirty seed endangers the farm by introducing weed seeds. Low priced seed is often poor seed, and it is then far more expensive than a high priced good seed. The price of seed per pound or bushel is no accurate measure of its value; the true value is found by testing the sample and thus determining the per cent of good seed present. A statement of the percentages of purity and germination should be demanded whenever seeds are bought in quantity.

**HANDY TOOL FOR IRRIGATORS**  
 The invention of A. A. Brothen of Mountainhome.  
 A. A. Brothen of Mountainhome has invented an instrument which, it is alleged, will almost revolutionize farm work in the irrigated sections of the country. The instrument is attached to a stick, the lower end of which is forced into the ground and is always ready for operation. The use of the instrument will enable farmers to detect any place on their ground not properly leveled, and will show where ditches and laterals can be run so that they will carry water. It can be used to give any fall desired from a fraction of an inch on 100 feet to one on ten miles. It is extremely simple to operate.  
 Mr. Brothen has applied for a patent on his invention and expects to put the instrument on the market in the near future.

**HUNTERS' REST.**  
 A Summer Resort.  
 Twenty miles south of Twin Falls, a place of pastures green and forests fair; mountain streams and shady glades, pure water and fragrant air, where good fishing and hunting abounds, and the only place for a summer outing near Twin Falls. Hotel and camping grounds, supplies of all kinds kept on hand.  
 J. A. PARKER, Proprietor.  
 Spring tree planting season is here; so is the Twin Falls Nursery with over 300,000 home grown fruit, shade and ornamental trees of all varieties. Mr. J. A. Waters, the genial proprietor, is pleased to have buyers make a personal selection.

**Ranches for Rent.**  
 Improved ranches near Twin Falls for rent on favorable terms, either one or three-year leases. Inquire of ALEXANDER McPHERSON.  
**Stray Horse.**  
 Striped puma, from C. O. Poland's barn, one white horse with halter and gear; weighs 1000 pounds. A reward will be given for the return of horse or information to J. Woods' office.  
 "Skidoo," "23 for you." That's the number you want—Braun's transfer.

**Smoke "Supreme Court" For Sale Everywhere.**

**BUHL IS STUMPED FOR A CEMETERY**

MAY HAVE TO BUY A CADAVER TO START ONE.

People Are so Healthy That There is No Show for Undertakers—Farmers Hurrying to Their Ranches and Taking Advantage of Fine Weather.

BUHL, Feb. 20.—The dust is flying on the streets of Buhl.

The guests of Hotel Buhl don't care how high the beef trust puts the price of meat—because they are so healthy and ducks on the hotel premises and they get killed quite often.

The lumber men are wearing broad smiles these days. When asked the cause, they said they were getting large quantities of lumber to the ranchmen who are building residences on their ranches.

Miss Mattie King arrived from Scott City, Kansas, last week. She has taken up her residence on her ranch, which is located about nine miles southeast of town, for the purpose of proving up. She intends to make Buhl her permanent home.

Andy Wilson put Geney May to work on his ranch last week clearing off the sagbrush. Andy and his brothers in Twin Falls have acres and intend to have the most of it in crops this summer.

The baseball fields are at it again. They are already in training. They declare that they will carry off the pennant on the tract this summer.

Ed Larson is having his 160 acres, a mile and a half south of town, and Fred Smith & Braun are doing the grubbing.

Mrs. Geo. L. Ebrecht was confined to her room for several days last week with the grip. She has now recovered. Quite a number of people have been sick here during the last two months, but none of them have been fatalistic enough to die and intend a graveyard. The Buhl says that Dr. Gilmore, Mrs. Mary Snodgrass and Mrs. Geo. L. Ebrecht have formed a trust in connection with the undertaking and the cemetery association. When anyone gets sick the doctor takes to dooping them—and the ladies to nursing them with the result that we can't have an undertaker in town. The ground started. We are up to date in everything else.

W. T. Snodgrass is building a residence on Main street between Ely and Smith and Twelfth. It will be occupied by himself and family when completed.

W. D. Southworth came in from his ranch on Ferguson Friday last. Southworth who has returned from Boise, where he has spent the winter visiting with his relatives. He reports that J. H. Smith has completed his dwelling house on his ranch, one-half mile east of town, and has gone to Twin Falls for his family. He will make his ranch his future residence.

And still they come. A pine-pond baby boy arrived at the home of Mr. and Mrs. Harvey Earp early Sunday morning, and since that time many collisions have taken place on the streets, Harvey having to apologize for every one of them. He cannot see anything on earth. His face is always turned skyward and he wears one of those peculiar smiles that won't come off. Dr. Gilmore reports mother and child as being all right and that he thinks he has Harvey's case under control. In a lucid moment Harvey told our correspondent that up to the time of the arrival of the baby, his domestic relations were of the most peaceful and happy nature, but now he says that there are squalls and kicking in the family, and sometimes even tears are shed.

John Hinckley's safe freight outfit is in commission once more, the roads having improved sufficiently to enable him to operate.

Engineer John McDonald is preparing to put up a camp on Deep Creek, eight miles southwest of town, for the accommodation of his workmen on this end of the tract. Mrs. John Morris is employed to do the cooking, and Mr. Morris will be one of the ditch riders.

It is said that only the Irish can beat the Dutch, and the only way they can do it is by marrying them. Fred Krausel was in town Sunday afternoon. His ranch is a mile and a half east of town. When asked how he was getting along with the sagebrush he said that he had grubbed nine acres in the past six days. A bystander inquired what kind of a tree he had and he said: "One I bought at Parker & Marshall's. You go and get one like it and put Dutch muscle and oil on the grease behind it and you will see the sagebrush fly." "Fred felt so good over the record that he had made that he became confidential with your correspondent and said to him: "I am the happiest man in Idaho. I have a handsome Irish girl for a wife, two of the best looking, brightest and highest youngsters on the tract, a \$250 springing gray team and a pet dog. I feed the whole bunch and they are all fatter than I am. I am going to have over 60 of my 80 acres in crops and a high state of cultivation this year." It was stated in these items a few weeks ago that Fred was a bunder and working, and he is making our word good.

J. H. Wilson and Alfred Peterson of

Twin Falls made a flying visit to Buhl Sunday. Mr. Wilson visited his ranch to see it and find out how the grubber was working. They returned to Twin Falls in the afternoon.

M. B. Kearney came up from Twin Falls last week, spent a few days in town making preparations for opening his clothing store and returned to the Magic City Sunday afternoon.

J. H. Schooler started a six-horse team to Twin Falls Monday for freight. Bon Howard left Tuesday for Walla Walla, and a possible headmaster and superintendent of a big ranch there. Ben was formerly employed as a clerk in the clothing store of Ed Krausel.

Miss Selma Swanson, sister of J. C. Swanson, one of our prominent ranchmen, departed Tuesday for Hatton, Wash. her former home.

J. H. Schooler has added to his stock of horses a fine black Percheron stallion.

H. W. Pitt is building on his ranch six miles south of town. He is going to prove up this summer.

W. M. Fisher is building a residence on his ranch four miles north east of town.

Bernard Reid, recently of the famous peach country in the Grand valley of Colorado, is building a residence on his ranch four miles west of town.

Charles Whitby has over 80 acres plowed on his ranch already and he is still at the work.

Mrs. F. S. Marshall, accompanied by her mother, Mrs. M. A. Webster of Groveland, Iowa, returned Saturday night from the States, where she had been visiting her parents and friends for several months. Mrs. Webster will make an extended visit with her daughter.

Earl Knight returned Saturday night from Strawberry Point, Iowa, where he spent the winter. He said that it was not so cold in that country as might be expected, but he was glad to get back to Buhl.

A. J. Milner received a letter from his wife last week from Duluth, Minn., which contained a newspaper clipping from a paper in that town which stated that for ten days the temperature was from 10 to 28 degrees below zero all the time. The people in that town are glad to see the weather where the ranchmen have been plowing for the last two weeks. "What fools these mortals be!"

Clarence Clanton, the schoolboy, while playing ball at recess Monday, was hit over the eye with the ball, which cut a deep gash just above the eyebrow. Fred W. M. took him to Dr. Gilmore's office and the doctor took several stitches in the wound. No serious consequences are expected to follow the injury.

Clarence Clanton, the three-year-old son of Thomas Clanton, was bitten in the cheek by a dog Monday. Dr. Gilmore dressed the wound, which is quite deep, but he expects no further trouble from it.

A. W. Wagon came in from Ferguson Flat Thursday and reports plowing in progress all through that section of the tract. They are also doing some work on the Castle Ford wagon road and bridge.

Fred H. Hartwell and Edward L. Brackett, of Raynolds, Idaho, spent several days of the latter part of last week in Buhl.

C. A. Snelson of Sand Springs was Buhl business visitor Friday.

Luke Malone of Filtr was a guest of Hotel Buhl Thursday.

James Hopkins of Hagerman registered at Hotel Buhl Friday.

T. H. Wagoner returned last Saturday from Butte, Mont., where he spent the winter. He said they had lots of good cold weather in that part of the country during the month of January.

John Dewbank, a brother of Mrs. Harvey Earp, arrived in town Monday from Lansford, Dakota. Mr. Dewbank is a machinist and blacksmith, and in his spare time he has no more to say than what line of business he will go into.

M. J. Frostenson and J. O. Frostenson of Hagerman were registered at Hotel Buhl Sunday.

R. W. Allred and L. D. Allred, prominent bankers of Boise, accompanied by F. W. Hayward, a wholesale shoe dealer of Omaha, Neb., spent Monday and Tuesday looking over the country and the future great city of Buhl with a view to determining the question whether or not they should establish a branch of their respective businesses here. They seemed to be very favorably impressed with the town, the country and the future prospects of both. The former gentleman authorized the statement to be made that they contemplated the establishment of a branch of their banking system in Buhl.

S. W. Sutherland came in from his ranch 11 miles southeast of town Monday on business.

Wm. Scott Boig came in Monday from Boise, where he has spent the winter. He will soon commence operations on his business block, which he has been working on during the cold weather, and will rush to completion. He started back to Boise Tuesday morning on urgent business.

Paris Lilly, who has been teaching school at Anus for a number of years, came into town Monday and went to Twin Falls Tuesday. The school was closed on account of the smallpox which has been here for a while, but Mr. Lilly says it is all passed away now. He owns 160 acres six miles south, which he will improve this year.

W. O. Taylor, representative of the state land board, came up from Twin

Falls Monday to examine and report on the character of land in section 23, 9-14, as to whether it is more valuable for agriculture than for agricultural land.

The Farmers' association will hold their annual meeting in Hagerman, the 25th, in the schoolhouse.

D. W. Yaden of Hagerman was registered at Hotel Buhl Monday.

The Farmers' association will hold their annual meeting in Hagerman, the 25th, in the schoolhouse.

Frank Schooler, brother of J. H. Schooler, wife and two children of the deceased, are staying at Hotel Buhl. Schooler and his family. Frank is an old timer, who left here some years ago, and was astonished at the change that has taken place here since he left. He was raised in Hagerman and knows, or rather did know, every foot of the country, but he says that he knows it no more until he gets acquainted with it again.

Carl Molge of Twin Falls was in town Tuesday and said that he intended to open a farm implement store here in the near future.

George Lacey and Charles Hill of Twin Falls were Buhl business visitors Tuesday.

W. H. Stevenson of Salt Lake City registered at Hotel Buhl Tuesday.

I. W. Workman of Twin Falls is in Buhl on business.

**ASKS FOR BETTER SERVICE FOR BUHL**

SENATOR HEYBURN CONFERS WITH POSTAL DEPARTMENT.

Was Surprised to Find That No Regular Mail Service Has Been Established Although Buhl Postoffice Was Opened Nearly One Year Ago.

Senator Heyburn has taken up with the second assistant postmaster general the question of the irregularity of the mail service between Twin Falls and Buhl. When advised of the inadequate and irregular service, the senator expressed surprise that the department had not established a regular mail-froute between these points inasmuch as the postoffice at Buhl had been established for nearly a year. He has made an earnest appeal to the department to establish a regular service and has given it information in regard to the number of people residing in the west end of the tract who get their mail at Buhl. The senator is hopeful that an advertisement will be issued for a regular service, and that a bid which the department will consider reasonable will be received for carrying the mail daily between Twin Falls and Buhl.

**JUST ARRIVED**

Large Stock of Books, Stationery, and School Supplies. BAILEY & CO. For Rent. Store room, with dwelling house in connection. Apply to P. W. Monahan, Buhl, Idaho.

**If every man wore the same kind of a cap or hat they would look almost as much alike as do Chinamen.**

There is an individuality in headgear. The hat or cap that will look well on one man will spoil another man's appearance.

We have a complete assortment of spring hats and caps suitable for all sorts and conditions of men.

Don't wait until they are culled. Come and inspect them now.

**THE HUB Clothing & Tailoring Co.** Main Street, Twin Falls

CARE IN FEEDING ALFALFA. Horses Should Not Be Put on It Too Suddenly.

Caution should be used in feeding alfalfa to horses if they have not been accustomed to it. Like other concentrated feeds, it seems to stimulate all the physical processes to such extent that various disorders of the digestive system may appear. This is particularly noticeable in the urinary and respiratory glands. When horses have attained a mature age and it is desirable to change from other hay to alfalfa, the change must be gradual and the alfalfa selected for this purpose should be more advanced in the physical processes to such extent that which is to be fed to cattle or sheep. As a general rule fully ripe alfalfa hay is the best to use for work and driving horses, while that prepared in the usual way—that is, cut when the field is about one-third in bloom—is better for "colts." In any event, horses fed alfalfa hay must be given abundant exercise. Field and Farm.

**THE GOLDEN RULE Closing Out at Cost To Quit Business**

During our very successful Midwinter Sale, owing to the unusual bargains offered, we were often asked, "What does this all mean?" "Why are you selling so cheap?" "Are you going out of business?" etc., etc.

**We Will Now Explain** We were not closing out, but were reducing our stock, with the expectation of selling the business. The party who was figuring on buying has been unable to raise the necessary money. We have therefore decided to give the GENERAL PUBLIC the benefit of the PRICES HE WAS TO PAY, and therefore offer

**Our Entire Stock at Actual Cost** As is generally known, we carry nothing but NEW, FRESH and UP-TO-DATE GOODS, not a dollar's worth of second-hand or shabby worn stuff in the store. During the time we have been in business we believe we have established a reputation for FAIR and HONEST DEALING. You can therefore have every confidence in our statement that we are

**Selling Out to Quit Business** That everything must be sold, regardless of cost, and at whatever sacrifice.

**At Cost and Less Than Cost SHOES**

1000 PAIRS of the celebrated Hamilton-Brown Shoes. THE BEST FOR WEAR, the BEST FOR LOOKS and the BEST Shoe Value in the market.

**At Cost** DRY GOODS, LADIES' and CHILDREN'S UNDERWEAR, HOSIERY, CALICOES, GINGHAMS, LAWNS—Everything in the Dry Goods Department.

**A Sacrifice in Mens' Goods** Work Shirts, Negligee Shirts, Dress Shirts, Underwear, Socks, Neckties, Collars, Etc. Cottons, Flannel Suits—As fine a line of HATS as there is in the city, and all our MEN'S READY-TO-WEAR CLOTHING, China and Glassware, Tinware, Pictures, Stationery, Toys and all kinds of notions regardless of cost.

**Comforters and Blankets** You need them. We want only what they cost. BEAR IN MIND—WE ARE POSITIVELY GOING OUT OF BUSINESS and everything must and will be sold at COST and LESS THAN COST. Remember the DATE.

**Sale Commences Saturday, February 23** And continues until the entire stock is disposed of. Don't come too late.

**No Goods Exchanged Cash Only**

**THE GOLDEN RULE**

E. A. MILNER, Pres. I. B. PERRINE, Vice-Pres. R. H. COST, Cashier. **State Bank of Buhl, Ltd.** CAPITAL STOCK, \$25,000. GENERAL BANKING BUSINESS. FIRE INSURANCE. REAL ESTATE. SAFETY DEPOSIT BOXES FOR RENT. CORNER BROADWAY AND LOCUST STREET, BUHL, IDAHO.

# BUHL IS STUMPED FOR A CEMETERY

### MAY HAVE TO BUY A CADAVER TO START ONE.

People Are so Healthy That There is No Show for Undertakers—Farmers Hurrying to Their Ranches and Taking Advantage of Fine Weather.

BUHL, Feb. 20.—The dust is flying on the streets of Buhl.

The guests of Hotel Buhl don't care how high the beef trust puts the price of meat. There are lots of chickens and ducks in the market and they get killed quite often.

The lumber men are wearing good smiles these days. When asked the cause, they said they were selling large quantities of lumber to the ranchmen who are building residences on their ranches.

Miss Mattie King arrived from Scott City, Kansas, last week. She has taken up her residence on her ranch which is located about nine miles southeast of town, for the purpose of proving up. She intends to make Buhl her permanent home.

Andy Wilson put Casey May to work on his ranch last week clearing off the sagebrush. Andy and his brothers in Twin Falls have 80 acres of crops this summer.

The baseball fends are at it again. They are already in training. They declare that they will get off the pennant on the tract this summer.

Ed Larson is having his 100 acres, a mile and a half south of town, grubbed. Evelyn & Braun are doing the grubbing.

Mrs. Geo. L. Eveleth was confined to her room for several days last week with the grip but is well now.

Quiet number of people have been sick here during the last two months, but none of them have been patriotic enough to die and help start a graveyard. The Buhl gang, Dr. Gilmore, Mrs. Mary Snodgrass and Mrs. Geo. L. Eveleth have formed a trust in opposition to the undertakers at the cemetery here. When anyone gets sick the doctor takes to dosing them and the ladies to nursing them with the result that we can't have an undertaker here until the ground started. We are up-to-date in everything else.

W. T. Snodgrass is building a residence on Main street between E. Twelfth and T. Twelfth avenues which will be occupied by himself and family when completed.

W. D. Southworth came in from his ranch on Ferguson Flat Friday and went to Twin Falls to meet Mr. Southworth who has returned from Boise, where she has spent the winter visiting with her relatives and friends.

J. H. Smith has erected a fine ranching house on his ranch, one-half mile east of town, and has gone to Twin Falls for his family. He will make the ranch his future residence.

And still they come. A nine-month baby boy arrived at the home of Mr. and Mrs. Harvey Earp early Sunday morning, and since that time many collisions have taken place on the streets. Harvey having to apologise for every one of them. He cannot see anything on earth. His face is always turned skyward and he wears one of those peculiar smiles that come off. Dr. Gilmore reports mother and child as being all right and that he thinks he has Harvey under control and his soon have him in a normal condition. In a lucid moment Harvey told your correspondent that up to the time of the arrival of the youngster, his domestic relations were of the most peaceful and happy nature, but now he says that there are squalls and kicking in the family and sometimes even to the street.

John Hinckley's fast freight outfit is in commission once more, the roads having improved sufficiently to enable him to operate.

Engineer John McDonald is preparing to put up a camp on Deep creek, eight miles southwest of town, for the accommodation of the ditch riders on this end of the tract. Mrs. John Morris is employed to do the cooking, and Mr. Morris will be one of the ditch riders.

It is said that only the Irish can beat the Dutch, and the only way they can do it is by marrying them. Fred Krauel is in town Sunday afternoon. His ranch is a mile and a half east of town. When asked how he was getting along with the sagebrush he said that he had grubbed nine acres in the past six days. A bystander inquired what kind of a hoe he had and he said: "One I bought at Parker & Marshall's. You go and get one like it and put Dutch muscle and elbow grease behind it and you will see the sagebrush fly." Fred felt so good over the record that he had made that he became confidential with your correspondent and said to him: "I am the happiest man in Idaho. I have a handsome Irish girl for a wife, two of the best looking, brightest and healthiest youngsters on the tract, a fine spanking gray team and pet dog. I feed the whole bunch and they are all fatter than I am. I am going to have over 60 of my 80 acres in all kinds of crops in a high state of yield this year." It was stated in these items a few weeks ago that Fred was a hunter and would bear watching, and he is making good wood.

J. H. Wilson and Alfred Peterson of

Twin Falls made a flying visit to Buhl Sunday. Mr. Wilson visited his ranch to see it and find out how the grubber was working. They returned to Twin Falls in the evening.

W. B. Key rode up from Twin Falls last week, spent a few days in town making preparations for opening his clothing store and returned to the Magic City Sunday afternoon.

J. H. Schooler started a six-horse team to Twin Falls Monday for freight. Ben Howard left Tuesday for Walla Walla, Wash., to accept a position as superintendent of a big ranch there. Ben was formerly employed as clerk in the clothing store of Ed. Larson.

His numerous friends are sorry to lose him, but wish him success in his new home.

Miss Selma Swanson, sister of J. C. Swanson, one of our prominent ranchmen, departed Tuesday for Hatton, Wash. her former home.

J. H. Schooler has added to his stock of horses a fine black Percheron stallion.

W. Pitt is building on his ranch six miles south of town. He is going to prove up this summer.

W. M. Fancher is building a residence on his ranch four miles north-east of town.

Bernard Reid, recently of the famous peach country in the Grand valley of Colorado, is building a residence on his ranch four miles west of town.

Charles Whitely has over 80 acres plowed on his ranch already and he is still at the good work.

Mr. P. B. Marshall accompanied by her mother, Mrs. M. A. Webster of Greeley, Iowa, returned Saturday night from the latter town, where she had been visiting her parents and friends for several months. Mrs. Webster will make an extended visit with her daughter.

Earl Kaitch returned Saturday night from Strawberry Point, Iowa, where he spent the winter. He said that it was not as cold in that country as might be expected, but he was glad to get back to Buhl.

A. J. Kiffin received a letter from his wife last week from Duluth, Minn., which contained a newspaper clipping of a girl in that town who stated that for ten days the temperature was from 10 to 28 degrees below zero all the time. The people in that tight country should wonder at Buhl, where the ranchmen have been plowing for the last two weeks. "What fools these mortals be!"

Walter Scott, one of the schoolboys, while playing ball on Monday, was hit over the eye with the ball, which cut a deep gash just above the eyebrow. Professor Wyatt took him to Dr. Gilmore's office and the doctor took several stitches in the wound. No serious consequences are expected to follow the injury.

Cleo Clinton, the three-year-old son of Thomas Clinton, was bitten in the cheek by a dog Monday. Dr. Gilmore dressed the wound, which is quite deep, but he expects no further trouble from it.

A. W. Wagon came in from Ferguson Flat Thursday and reports plowing in progress all through that section of the tract. They are also doing some work on the Castle Ford wagon road and bridge.

Fred H. Hazwail and Edward L. Brackett of Rosworth, Idaho, spent several days of the latter part of last week in Buhl.

C. A. Snelson of Sand Springs was a Buhl business visitor Friday.

Luke Malone of Philor was a guest of Hotel Buhl Thursday.

James Hopkins of Hagerman registered at Hotel Buhl Friday.

T. H. Wagener returned last Saturday from Buhl, Idaho, where he spent the winter. He said they had lots of good cold weather in that part of the country during the month of January.

He is glad to get back to sunny Buhl. He owns a large tract under the high line and is getting ready to make it produce next summer.

John Devoreshak, a brother of Mrs. Harvey Earp, arrived in town Monday from Lansford, Dakota. Mr. Devoreshak is a machinist and blacksmith, and is here to stay. He has not yet decided what to do at Buhl.

M. F. Frostenson and J. O. Frostenson of Hagerman were registered at Hotel Buhl Sunday.

R. W. Allred and L. D. Allred, prominent bankers of Boise, accompanied by J. W. Hayward, a wholesale shoe dealer of Omaha, Neb., spent Monday and Tuesday looking over the country and the future growth of Buhl with a view to determining the question whether or not they should establish branches of their respective businesses here. They seem to be very favorably impressed with the town, the country and the future prospects of both. The former gentlemen authorized the statement to be made that they contemplated the establishment of a branch of their banking system in Buhl.

S. W. Sutherland came in from his ranch 11 miles southeast of town Monday on business.

Wm. Scott Dolg came in Monday from Boise where he has been since the winter. He will soon commence operations on his business block, work on which has been suspended during the cold weather, and will rush it to completion. He started back to Boise Tuesday morning on urgent business.

Paris Lilly, who has been teaching school at Asotin for several months, passed into town Monday and went to Twin Falls Tuesday. The school was closed on account of the smallpox which was reported to be in that vicinity. But Mr. Lilly says it is all passed away now. He owns 160 acres six miles south, which he will improve this summer.

N. C. Taylor, representative of the state land board, came up from Twin

Falls Monday to examine and report on the character of land in section 23, 24, as to whether it is more valuable for stone than for agricultural land. It seems that there is a great deal of the land north of town and close to the river that is more valuable for stone quarries than for agriculture and should be allowed to revert back to the public domain.

D. W. Yaden of Hagerman was registered at Hotel Buhl Monday.

The Farmers' association will hold their next meeting Monday evening, the 25th, in the schoolhouse.

Frank Schooler, brother of J. H. Schooler, wife and two children, of Hammond, Utah, are visiting Mr. Schooler and his family. Frank is an old timer, who left here some six years ago, and was astonished at the change that has taken place here since he left.

He was raised in Hagerman and knows, or rather did know, every foot of this country, but he says that he knows it no more until he gets acquainted with it again. He was delighted with what he saw and when he went to Twin Falls and the eastern end of the tract, for all the old trails had been wiped out and he had no way to find his way. He attempted to follow them.

Carl Meigs of Twin Falls was in town Tuesday and said that he intended to operate a farm implement store here in the near future.

George Lacey and Charles Hill of Twin Falls were Buhl business visitors Tuesday.

W. H. Stevenson of Salt Lake City registered at Hotel Buhl Tuesday.

I. W. Workman of Twin Falls is in Buhl on business.

## ASKS FOR BETTER SERVICE FOR BUHL

### SENATOR HEYBURN CONFERS WITH POSTAL DEPARTMENT.

Was Surprised to Find That No Regular Mail Service Had Been Established Although Buhl Postoffice Was Opened Nearly One Year Ago.

Senator Heyburn has taken up with the second assistant postmaster general the question of the irregularity of the mail service between Twin Falls and Buhl. When advised of the inadequate and irregular service, the senator expressed surprise that the department had not established a regular mail route between these points inasmuch as the postoffice at Buhl had been established for nearly a year.

He has made an earnest appeal to the department to establish a regular service and has given it information in regard to the number of people residing in the west end of the tract who get their mail at Buhl. The senator is hopeful that an advertisement will be issued for a regular service and that a bid which the department will consider reasonable will be received for carrying the mail daily between Twin Falls and Buhl.

**CARE IN FEEDING ALFALFA**  
Horses Should Not Be Put on It Too Suddenly.

Caution should be used in feeding alfalfa to horses if they have not been accustomed to it. Like other concentrated feeds, it seems to stimulate all the physical processes to such extent that various disorders of the digestive system may appear. This is particularly noticeable in the urinary and respiratory glands. When horses have attained a mature age and it is desirable to change from other hay to alfalfa, the change must be gradual and the alfalfa selected for this purpose should be more advanced in growth at the time of cutting than that which is to be fed to cattle or sheep. As a general rule fully ripe alfalfa hay is the best to use for work and driving horses, while that prepared in the usual way—that is, cut when the field is about one-tenth in bloom—is better for colts. In any event, horses fed alfalfa hay must be given abundant exercise.—Field and Farm.

## Closing Out at Cost To Quit Business

During our very successful Midwinter Sale, owing to the unusual bargains offered, we were often asked, "What does this all mean?" "Why are you selling so cheap?" "Are you going out of business?" etc., etc.

### We Will Now Explain

We were not closing out, but were reducing our stock, with the expectation of selling the business. The party who was figuring on buying has been unable to raise the necessary money. We have therefore decided to give the GENERAL-PUBLIC the benefit of the PRICES-HE-WAS TO PAY, and therefore offer

### Our Entire Stock at Actual Cost

As is generally known, we carry nothing but NEW, FRESH and UP-TO-DATE GOODS, not a dollar's worth of second-hand or shabby worn stuff in the store. During the time we have been in business we believe we have established a reputation for FAIR AND HONEST DEALING. You can therefore have every confidence in our statement that we are

### Selling Out to Quit Business
