TWIN FALLS NEWS, TWIN FALLS, IDAHO, FRIDAY, APRIL 5, 1907

NUMBER 28

CONTRACT GIVEN TO R. W. FARIS

FOR CONSTRUCTION OF NORTH SIDE CANAL

Contractor Will Be Given Handsome Bonus If He Finishes Work in Nine Months—Water Will Be Available Next Spring for 30,000 Acres.

MILNER, April 4.—The main canal, from which will be irrigated the first 30,000 acres to be irrigated by the Twin Falls North Side Land & Water Co., will be completed in nine months from date. The contract for the construction of the canal was today awarded to R. W. Faris, who will receive a substantial bonus in the event that the canal is ready for water prior to January 1, 1908. Mr. Faris is burning up the wires with orders for material and will throw an army of men on the work immediately. He knows the character of the task he has undertaken, and if he does not secure a liberal slice of the promised bonus it will not be his fault. The company is anxious to have the work done quickly and thoroughly, and its action in awarding the contract to Mr. Faris is undoubtedly evidence of good faith.

The electric railway which is to serve the entire north system will be constructed simultaneously with the canal. The steel bridge upon which the railway is to cross the Snake river has been purchased from the Oregon Short Line and is ready for shipment. An abundance of power for the railway system will be provided and one year hence the settlers on the 30,000-acre tract will have water and transportation.

The North Side company has effected an arrangement whereby those who wish land adjacent to the railway system can secure what they want at graduated prices. Lands facing upon the railway tracks will be sold for \$8 an acre in excess of the cost of the water rights. This charge will not become effective until the railway is in operation nor will interest be charged on the additional cost prior to that time. In other words, the first tier of 40's on either side of the track will be sold for \$38 an acre. Plus the additional cost of \$1 per acre for the land. The second tier will cost \$36 an acre, the third tier \$34, and the fourth tier \$32. Thus an \$24 man may have the privilege of locating within a mile of the railway by paying \$2 an acre additional. Nearly all the land seekers under the north side are jumping at the chance to get land close to the electric road and are glad of the opportunity to secure it at the price fixed. They reason that the construction of the railway will enhance the value of their holdings far in excess of the added cost. Lands on the south side which are the several miles from the Oregon Short Line have been sold for a much greater bonus than that asked for railway frontage on the north side. Entrymen will have their choice in the order of filing, the drawing on April 22 being under the supervision of the state land board under the same equitable arrangement that was made at the time the south side lands were opened for entry. It is a foregone conclusion that the lands adjacent to the railway will be first.

Milner is undergoing a manufacturing process. The streets are being opened up and leveled and the townsite is assuming a businesslike appearance. Main street, the principal thoroughfare, is being graded from the Short Line depot to the river, and a bridge is being built across the canal on this street. The experimental farm, which is located beside the railway track to the west of the depot where

it can be seen by travelers, is in process of cultivation and will be planted and seeded in a few days. No less than 100 acres are being beside the experimental farm ready for planting on the townsite.

The land office of the company, a commodious and well furnished building has been completed and is open for business. The foundation of the hotel is finished and Architect Wayland of Boise is busy engaged upon the detailed plans. The hotel commands a magnificent view of the dam, and it will be one of the prettiest structures of the kind in the west. In equipment and furnishing, it will be second to no hotel in the state.

The Booth Dry Goods company's building has been finished and Manager J. V. Baker is busy getting the stock in place. The company will carry a full line of general merchandise. Mr. Booth purchased the entire grocery stock of Osborn and J. W. Baker, is busy getting it over to Milner. He has bought liberally for the new store, which he intends to keep right up to the top notch in all departments.

Material for the Milner waterworks system has been purchased and if all goes well the system will be well under way by the first of May. In town, will be supplied by six-inch pipes, into which the water will be pumped at fire pressure. When the first section of the main canal to be constructed by Faris is being built, work will be carried on at the Wilson Lake Sugar Loaf and Monument reservoirs, the purpose of the company being to complete these reservoirs and the canal system appurtenant to them in time to supply water throughout the entire system for the irrigating season of 1907.

COSMOPOLITAN TWIN FALLS

Citizens Came from 35 States and 12 Foreign Countries.

The total number of voters who registered for the city election was 446, which was ridiculously small because of the fact that the ballot box was taken to the field. A large per cent of those who did not register were under the impression that since they had registered for the general election last fall they would not be required to do so again at this time for the city election, and others failed to register because the outlook indicated that there would be no contest, and if they couldn't have a fight they didn't want to bother with it.

The registration books would be interesting to consult for the general election to who we are. There is probably not another place of its size in all the States so cosmopolitan as the young City of Twin Falls. These books show that we are here from 35 states and 12 foreign countries. Eighty-nine per cent of us are native Americans and 11 per cent foreign born, as per cent of our foreign population comes from the British empire, and about half that per centage from Germany.

Iowa, Illinois, New York and Indiana are, in the order named, more largely represented than any of the other states. Of the native American population 37 per cent are from the states east of the Rocky mountains; 57 per cent are from states east of the Mississippi river, and just 2 per cent are natives of Idaho. Eight southern states are represented, constituting 14 per cent of the city's population.

We are here from over half the earth. Others are on the way. The gathering together of the states and the nations of Europe and America for the business of empire building. We are not waiting for them to come but there's room for many thousands more.

SHADE TREES FOR HANSEN TOWNSITE

ALSO FOR SCHOOL GROUNDS AND PUBLIC PARK.

Tree Will Be Set Out and the Streets Will Be Graded at Once—Oats Being Shipped by the Carload—School Entertainment Tonight.

HANSEN, April 4.—S. T. Hamilton was a caller in Hansen last Wednesday.

Another carload of oats left here Wednesday morning.

Tom Divine sold his 80-acre ranch one mile south this week to D. W. Howard.

Mrs. W. N. Rose was a passenger to Twin Falls last Monday.

Bruce Reno spent last Monday in Twin Falls.

George L. Doughty shipped a quantity of oats to Heyburn on Monday last.

J. D. Stevens and T. T. Rutledge entertained a few of their friends on Easter.

Arthur Babcock, who has spent the past winter in Kansas, returned home this week.

The Galley brothers have recently erected a granary on their ranch.

Mr. Black, manager of the Vector lumber yard at Kimberly, was the guest of T. T. Rutledge last Sunday.

Mrs. C. O. Merrill and Miss Amy Keith of Twin Falls came out on Sunday evening's train, returning Sunday.

Ed Galley and wife have returned from their former home in Oklahoma, where they spent the winter.

Arthur Towne returned home last Monday evening. He has been working with the North Side surveying party.

Willie Sampson, an employe of Nick Smith, was under the doctor's care at Twin Falls for a few days. He returned home Wednesday feeling much improved.

George Doughty and his friend, Arthur Ketchum from Iowa, took the train here on Wednesday for Twin Falls, where they will remain for a few days.

A school entertainment will be given at the schoolhouse Friday evening, April 5. A splendid program will be rendered by the pupils, after which a basket social will follow for the purpose of raising a library fund.

A carload of fine shade trees arrived here last Monday evening to aid in the beautifying of the schoolhouse grounds, park and streets of Hansen.

The setting out of the trees and grading of the streets will begin at once.

The acreage which will be put under cultivation in the vicinity of Hansen this year will be fully double that of last year. The site is coming up splendidly and the fall wheat is showing beautifully. The farmers realize that their land is too valuable to remain idle and another year will soon be a rarity in this vicinity.

MALICIOUS FAKE.

The Spokane Spokesman-Review and other Washington papers last week published a dispatch stating that the Milner dam had gone out. It was a vicious publication and caused no end of trouble. Telegrams poured in upon the Land & Water company and the three settlers who had friends in Washington were smothered by letters of condolence.

The Milner dam was never in as bad condition as it is at the present moment and there is as much chance of its going out as there is for a knocker to enter the kingdom of heaven.

AUTHORITY ON IRRIGATION LAW

Judge Noyes of Los Angeles Locates in Twin Falls.

Judge J. S. Noyes of Los Angeles, for 14 years one of the most distinguished members of the California bench, has formed a partnership with S. T. Hamilton under the firm name of Noyes & Hamilton. The new firm has secured a site of office rooms above the postoffice. Mr. Hamilton is one of the pioneers of Twin Falls and the city has no more loyal friend. He has been true to everything that tended for the betterment of Twin Falls from the beginning, and his faith in the city is evidenced by his property holdings, which exceed those of any individual property owner. Judge Noyes enjoys the distinction of being one of the most successful judges of officers of California. During his long service on the superior bench he decided many of the most important water right and irrigation questions in the western states and his decisions are regarded as a criterion. During his last term Judge Noyes rendered 66 decisions in 62 which he was successful. The dictum of Judge Noyes on questions involving water rights

and irrigation is accepted throughout the arid states. Chief Justice Alahli of the supreme court of Idaho, who has made a careful study of the decisions of Judge Noyes, complimented the latter in the highest terms. Judge Noyes has made irrigation law a life study and when he found an opportunity to establish a practice in the great irrigated district in America, he did not hesitate to accept. He came to Twin Falls early in the winter to visit his old school-club, R. M. McCollum, whom he had not seen since they were children. The Twin Falls tract and its great possibilities fascinated the judge and he determined to come here where he could study irrigation at first hand and on the highest plane. He concluded that he had devoted enough time to the drudgery of the bench and could afford to indulge in his favorite pastime of working out irrigation problems at his leisure. Personally Judge Noyes is one of the most genial men in the west. The bench has never dulled his wit nor stunted his affability. The judge is a distinct and welcome acquisition to Twin Falls and the fact that he is to make his home here will add to its greatness as the premier irrigation center.

SUGAR BEET SEED FOR THE ASKING

COMPANY READY TO SUPPLY THE FARMERS.

Object is to Encourage Beet Culture and Promote the Establishment of Sugar Factories—Farmers Invited to Try the Experiment.

The Twin Falls Land & Water company has a quantity of sugar beet seed for free distribution to those farmers who are willing to plant it. Those who desire seed should communicate with Superintendent McPherson. It is a foregone conclusion that sugar beet factories will be built on the Twin Falls tract so soon as the farmers are ready to furnish the beet, and experience has demonstrated that beet culture is a study in itself. The farmers must learn how to grow beets before they can hope for a factory.

About 16 pounds of seed is required for an acre of beets. The seed should be planted on alfalfa seed or manured ground, and the planting should be done as early as possible. Beet growing is really gardening or intensive cultivation. It has been tried and it means \$150 land and ready money for the farmer. The company is anxious to distribute the seed as widely as an area on the tract as possible. While it is probable that the beets can be profitably shipped to a nearby factory, this feature of the experiment is not considered as the beeto make excellent food for stock. Mixed with alfalfa they make an ideal ration, consequently every farmer can afford to try a small tract at least.

JUDGE J. S. NOYES.

Summary. Temperature—Maximum, 65, on the 30th; minimum, 19, on the 26th. Precipitation—Total, 4.8 inches; greatest, in 24 hours, 1 inch, on the 24th; total snowfall, 11 inches.

CITY ELECTION.

The first city election in Twin Falls passed off, very quietly. The citizens wisely got together and selected a clean, representative man for the city offices and there was no contest. The vote was very light because of the lack of interest due to the absence of friction and the further fact that most of the citizens in the First ward especially did not take the precaution to register in their own wards or else omitted to register at all on the supposition that because they had done so in the last campaign it was unnecessary to repeat the operation.

The ticket elected was as previously announced:

Mayor—Fred E. Voigt

Treasurer—John M. Maxwell.

City Clerk—Stuart H. Taylor.

Police Judge—W. J. Smith.

Surveyor—C. H. Mull.

Aldermen—Ward 1—E. W. Davis, C. A. McMaster; Ward 2—P. E. Dean, John J. Pilgort.

The new council will meet this evening and perfect organization.

ADVERTISED LETTER LIST

List of letters remaining uncalled for in the postoffice at Twin Falls, Idaho, for the week ending March 30, 1907:

Abbott, J. N.
Beal, Len
Pullocker, J. A.
Williams, Ida

When calling for the above letters, please say, "Advised March 30, 1907."

W. H. GREENHOW, Postmaster.

WORK OF THE SCHOOL BOARD

What has been Accomplished in the Past Two Years.

Under the decision of the county attorney it is necessary to elect an entire new board for the new school district in the new Twin Falls county. The board that will retire at this time is composed of F. B. Chamberlain, chairman, one teacher, one clerk, E. B. Williams, director. This board, with the exception of Mr. Chamberlain—who was elected last year in the place of A. W. Darrow, has had charge of the affairs of the district the past two years. When they were first elected to this position the district had only about 20 scholars and employed one teacher. They had no school buildings or school desks or appointments. What has been accomplished by the board is simply marvelous. Last year they were necessary to meet the growing demands of the district, that at least six or seven teachers be employed, that rooms be provided for holding school, and the school be put on a graded basis. The directors met this proposition with no money and no taxable property. Through the kindness of our best business men and of their own personal credit they built temporary school places for four rooms, rented one building and used the school room, employed eight teachers, and graded the schools; also as a temporary relief for the benefit of the country children who were having to attend a distant school, as they had no taxable property and no school houses, the board provided for a wagon system to transport the children from the county to the school. By careful management and by the sale of the old buildings after the district was through with their use, the school was enabled to meet all of their payments, and each and every teacher received his money at the end of each school month. The district was bonded and a new school house was erected and equipped at a cost of \$30,000. The board had the enormous duty of looking after the specifications, the building of the school, and at the same time keeping the schools running in temporary quarters.

During the present school year school opened in the new school houses under more favorable conditions. The board purchased more school wagons so as to aid and promote the growth of the country in giving them up to date schools and have paid all the expenses of running the schools, paying for all the equipment and school desks and appointments, so that at the writing of this article the district bonded indebtedness, has met all debts, and the full nine months term of school has been fully paid for. There are 12 teachers employed, besides a music teacher and janitor, and seven wagons to transfer school children. The board is an earnest advocate of the central high school system, but the members are open to conviction as to which is the better method of the two central high school ideas—the wagon system or the schools located in the country and under the supervision of the central school, from which the scholars may finish up to the eighth grade, and take advantage of the central school for high school purposes. The wagons were only put on, as before stated, to relieve the conditions that existed in the rural districts of the country, and until such a time as the people could determine for themselves which system of the central high school they desired to adopt. In all work that has been done for the district, including the purchase of wagons, the board has always called for bids, which bids have been public in both of the local papers, and has then accepted the lowest and best bid for the work or labor to be performed. They have been broad minded, liberal and progressive in their ideas of school management, and have endeavored to give the people the best possible school to be had in the state, as there is no other advertisement either for the county or the state than a good thorough up to date school system.

The hardest period for the board had been passed, which was the formation and equipment of the schools at the time when there was no money to be had either by hire or employment of teachers or portable school rooms. In round numbers, the board has expended under their personal direction and investigation during the past two years about \$15,000 for school purposes, \$30,000 of which went into the new school building and was borrowed from the city on the school bonds. The board in of the belief that during this year, as there is not nearly so much equipment to purchase, that the school levy can be reduced to at least 12 mills, and if a decision of the supreme court could be reached regarding our school licenses an 8 or 10 mill tax would be sufficient for the next school year. All the expenditures and warrants that are drawn for the same, and the records of all the proceedings, are on file with the clerk. It has been the policy of the board to have all the work done by any person that is interested in the schools, and the board invites those that desire to come and examine the records, and how the money has been spent, and how much has been received, so that each person will be thoroughly satisfied that the board has used its best judgment in protecting and expending public moneys.

Registered Dogs for Sale.

Thoroughbred broken on Idaho and most excellent. Two setter bitches, one best trial strains; pink of condition; hunted on Idaho birds for two years; both registered, registered pointer, no better bred better field dog in the state; registered Irish water spaniel, forced retriever. Fine opportunity for men who want fine bred, perfectly broken, healthy and registered dogs. Owner is going out of business. Address B. L. care News office.

Furniture for Sale.

On account of change of residence I will sell a portion of my furniture, including one heater, one quartered oak dresser and mirror, one Morris chair, one mahogany center table, quartered oak dining table and chairs, etc. Inquire at residence of J. V. BAKER, concrete cottage, Eighth ave.

LIMITED
Sole Agents for Water Rights for all Carey Act Lands under the
GREAT TWIN FALLS CANAL SYSTEM

45,000 Acres of Carey Act Land
Still open for original entry under this Canal System
Land, 50 cents per acre. Perpetual water rights, \$25 per acre, ten annual payments.
Vehicles from Buhl furnished free to those who desire to inspect land. Prospective entrymen accompanied by competent locators.

BUHL
Buhl, located 17 miles west of the city of Twin Falls, will be the leading city on the west end of the tract and the distributing point for a large area, including the stock districts of Three Creek, Butte and Roseworth, likewise the farming and fruit growing districts of Hagerman, Kanoka Flat and Salmon. The railway track is now being laid between Twin Falls and Buhl and will soon be in operation. Buhl has a splendid gravity system of waterworks, with a pressure of 100 pounds in the business section. It will be supplied with electric power and light this spring. Business property values in Twin Falls have increased 500 per cent in less than two years. The same opportunities for investment are presented at Buhl. Now is the time to buy. Write for literature and further information.

PROVISIONS OF HERD LAW
Districts May Be Established Where
They Are Wanted.

The creation of herd districts is made possible under the terms of the following bill which was passed by the recent legislature and will become a law next month:

Section 1. The board of county commissioners of each county in the state shall have power to create "herd districts" within such county, as hereinafter provided; and when such district is so created, the provisions of this act shall apply and be enforceable therein.

Section 2. A majority of the qualified electors of any district, which district may include one or more voting precincts, may petition the board of county commissioners in writing to create such district; "herd districts" shall be created within the boundaries of the said proposed herd district, and shall designate what animals of the species of horses, mules, asses, cattle, sheep and goats it is desired to prohibit from running; at large in such district; and may designate the period of the year during which it is desired to prohibit such animals from running at large.

Section 3. It shall be the duty of the board of county commissioners, upon such petition as hereinafter set, a date for hearing said petition, notice of which hearing shall be given by posting notices thereof in three conspicuous places within the proposed herd district, and by publication for two weeks previous to said hearing in a newspaper published in the county nearest the petition, of the contents of the law thereto and that it would be beneficial to said district, the board of commissioners may make an order creating such herd district in accord with the prayer of the petition, or with such modifications as it may choose to make. Such order shall specify a certain time at which it shall take effect, and shall be in force at least 30 days after the making of said order; and said order shall continue in force, according to the terms thereof, until the same shall be vacated or modified by the board of commissioners, upon the petition of a majority of the electors of said district.

Section 4. At such hearing, if satisfied that a majority of the electors of said proposed herd district are in favor of the establishment of the law thereto and that it would be beneficial to said district, the board of commissioners may make an order creating such herd district in accord with the prayer of the petition, or with such modifications as it may choose to make. Such order shall specify a certain time at which it shall take effect, and shall be in force at least 30 days after the making of said order; and said order shall continue in force, according to the terms thereof, until the same shall be vacated or modified by the board of commissioners, upon the petition of a majority of the electors of said district.

Section 5. The provisions of sections 3 and 4 of this act shall not be construed to confer upon the board of county commissioners any jurisdiction over animals otherwise subject to their running at large under existing law.

Section 6. Any person who shall, in violation of any order made pursuant to the provisions of section 3 of this act, permit or allow any of the animals designated in such order, owned by him or under his control, to be at large in such herd district, shall be deemed guilty of a misdemeanor. The pendency of any such action shall not prevent nor prejudice the bringing of another action against the same party for a violation of such order, committed after the commencement of such pending action.

Section 7. The owner of animals permitted or allowed to run at large in violation of any order made in accordance with the provisions of section 3 of this act, shall be liable to any person who shall suffer damage from the depredations or trespasses of such animals, without regard to the condition of his premises, and the person so damaged shall have a lien upon said animals for the amount of damage done, and the cost of the proceedings to recover the same, and may take the same and custody thereof until all such damages are paid; provided, that the person so taking said animals into custody shall not have the right to detain the same for more than five days without commencing an action against the owner thereof for such damages. Said damages may be recovered by civil action before any court of competent jurisdiction, and no such action shall be defeated or affected by reason of any criminal action commenced or prosecuted against the same party under the provisions of section 6 of this act.

Section 8. Any person may take into custody any of the animals specified in the said order of the board of commissioners that may be about to commit a trespass upon the premises owned, occupied or in charge of such person, and retain the same until all reasonable charges for keeping said animals are paid; provided, that it shall be the duty of the person so taking said animals into custody to notify the owner or person in charge of the same within five days thereafter, and if the owner or person in charge of them shall not be known to the person so taking said animals into custody, and can not be found after diligent search and inquiry, he may proceed in the manner provided for the taking up and disposal of stray.

DEFINITION OF LAWFUL FENCE
Requirements Exacted by New Law in Effect Next Month.

The Twin Falls farmers will be interested in learning what constitutes a "lawful fence" in Idaho. The subject is covered thoroughly in the following bill which was passed by the recent legislature and will become effective next month:

Section 1. Lawful fences are described as follows:
Section 1. If made of stone, four feet high, two feet base, and one foot thick on top.

Section 2. If it be a worn fence, the rails must be well laid and at least four feet high.
Section 3. If made of posts, with barbed, rail, or poles, the posts must be well set in the ground and not more than eight feet apart, with not less than three six-inch boards, or rails, or poles, not less than two and one-half inches in diameter at the small end; if four-poles are used, they shall not be less than two inches in diameter at the small end. The top board, rail or pole must not be less than four feet from the ground, the spaces well divided, and the boards, rails, or poles securely fastened to the posts; if poles not less than three inches in diameter at the small end are used, the posts may be set 12 feet apart.

Section 4. If wire be used in the construction of fences, the posts must not be more than 24 feet apart, set substantially in the ground, and three substantial strands of wire, of equal diameter between the posts; and all wires must be securely fastened to each post and stay with not less than three barbed wires or four colled spring wires of not less than No. 9 gauge. The bottom wire shall be not more than 21 inches from the ground, and the top wire not less than 47 inches from the ground. If woven wire less in height is used, it must be brought to the height of 47 inches by additional barbed wires, or colled spring wire of not less than No. 9 gauge, or two No. 13 gauge wire twisted together, with intermediate bars not more than 12 inches apart and of not less than 1/2 inch gauge wire, and the stay wires not more than 12 inches apart, and the top wire not less than 47 inches from the ground. If woven wire less in height is used, it must be brought to the height of 47 inches by additional barbed wires, or colled spring wire of not less than No. 9 gauge, or two No. 13 gauge wire twisted together, with intermediate bars not more than 12 inches apart and of not less than 1/2 inch gauge wire, and the stay wires not more than 12 inches apart, and the top wire not less than 47 inches from the ground. If woven wire less in height is used, it must be brought to the height of 47 inches by additional barbed wires, or colled spring wire of not less than No. 9 gauge, or two No. 13 gauge wire twisted together, with intermediate bars not more than 12 inches apart and of not less than 1/2 inch gauge wire, and the stay wires not more than 12 inches apart, and the top wire not less than 47 inches from the ground.

Section 5. If made in whole or in part of brush, ditch, pickets, hedge, or any other material, the fence, to be lawful, must be of such strength and capacity to turn a cock to the fence above described.

Section 6. All fences in good repair, of suitable material, and of the description and all creeks, brooks, rivers, sloughs, ponds, bluffs, hills or mountains, that present a suitable obstruction to stock are deemed a lawful fence.

Section 7. That section 1202 of the Revised Statutes of Idaho, 1887 (section 677, of the Code of 1901), be and is hereby amended to read as follows:

Section 1202. Each adjoining land owner, unless otherwise agreed, or unless their arrangements have heretofore been made, must construct and keep in repair that half of the line fence between their respective interests of land which is to be left when he is standing on his own land facing the other; unless the owner of one of said tracts chooses to allow his land to be unenclosed. The President, that one party may, for his own convenience, strengthen, or render his fence, light, the whole or any part of said fence by stretching one or more additional wires thereon or otherwise; in which event the other shall not be liable for his proportion of the additional cost; but, provided, that if one of the parties shall render such fence hog light and the other shall at any time use his field for the pasture of hogs, sheep or goats, without a header, such other shall become liable, as a joint owner or owner, and shall, upon demand of the party building the hog light fence, pay his just proportion thereof.

In case viewers are appointed, as provided in section 1305 of the Revised Statutes of Idaho, 1887, the report of such viewers must be in conformity with this section.

Section 8. All acts and parts of acts in conflict with this act are hereby repealed.

Reliable information regarding the city and
country promptly and cheerfully furnished. Ad-
dress all communications to The News Publish-
ing Company, Twin Falls, Idaho.

Entered as second-class matter, December 11,
1894, at the postoffice at Twin Falls, Idaho, under
the Act of Congress of March 3, 1879.

The character of the inspection
which is being made by the engineers
selected by the state, the settlers and
the Land & Water company is such
as to leave no doubts in the mind of
the land owners that the system will
be turned over to them in the best
possible condition. The engineers are
very much in earnest, and when a
man appears before them with a com-
plaint he will be required to "make
good." Every complaint will be in-
vestigated and reported upon. Many
ridiculous statements have been made
to the engineers, who are determined
to probe every statement and report
upon its merits. It is significant that
some of the most noted irrigators in
the west who are located on the Twin
Falls tract at the present time have
never said a word. However, when
the engineers submit their report the
people will be thoroughly informed as
to the condition of the system, which,
it is freely predicted by unprejudiced
and experienced irrigators, is so far
ahead of any other ever constructed
that comparison is impossible.

Elsewhere in this issue appears a
review of the work done by the Twin
Falls school board which should
arouse a feeling of pride in every citi-
zen. Seldom if ever has a city made
such magnificent progress on educa-
tional lines. While the centralized
school system, which entails the use
of wagons for transporting the chil-
dren, may not meet with universal
approval, it should be borne in mind
that this is an experiment and must
be regarded as such and not as an
extravagance. Conditions obtained in
Twin Falls which had never been con-
fronted before and the board met
them according to its best judgment.
There are many advantages connected
with the system which those who do
not live in the country cannot appre-
ciate. The children do a great deal
of shopping; they run errands and they
bring home the mail every evening.
The system is a plain business propo-
sition and should be so treated. If
found impractical it can easily be
abolished.

The North Side company is going
about the construction of this sys-
tem in the most energetic manner,
thus fulfilling the optimistic pre-
dictions made for it. No matter what
the growers may say, the final 36,000
acres will be irrigated and supplied
with an electric railway one year from
today. The entire system will be
finished in two years if money can do
it. The south side will profit equally
with the north. Land values on the
south side are increasing daily and
will continue to increase as the north
side is developed. No less than 1600
acres of Carey act land was filed upon
in the vicinity of Buhl during the
month of March and the demand still
continues.

Arbor day should be celebrated, be-
fittingly in Twin Falls. In no other
city in the west has the day more
significance. It is gratifying that the
children are being encouraged to plant
trees and shrubbery. That is a work
which should be done by every prop-
erty owner. Twin Falls can be made
one of the most beautiful cities in the
west if proper attention is given to
tree planting and ground work.

tary.
E. R. Williams, appointment as no-
tary.

A special state eighth grade exam-
ination will be held the first Monday
in May and another on May 14, 15, 16,
17.
COUNTY SUPERINTENDENT OF SCHOOLS.
Notice.
Notice is hereby given that the
Board of County Commissioners will,
at their meeting April 8, 1907, receive
bids for the medical attendance upon
the county's indigent sick and the
supervision of the quarantine in
contagious cases. H. T. WEST,
Clerk of the Board.
Dated Twin Falls, Ida., March 28, 1907.
Notice.
Notice is hereby given that the
Board of County Commissioners will,
at their meeting April 8, 1907, receive
bids for the filling of all prescriptions
and the furnishing of drugs and sur-
geries and disinfecting all quarantined
cases of the county. H. T. WEST,
Clerk of the Board.
Dated Twin Falls, Ida., March 28, 1907.
Public Notice.
I, Harry West, duly appointed
clerk of the district court and ex-
officio auditor and recorder of Twin
Falls county, do hereby give notice
that I will apply to the board of
county commissioners of said county
at their April meeting for the appoint-
ment of a deputy and necessary clerical
help needed for the conduct of the
office. H. T. WEST,
Clerk of the District Court and ex-
officio Auditor and Recorder.
Twin Falls, Idaho, March 18, 1907.
Public Notice.
I, George D. Aiken, duly appointed
sheriff of Twin Falls county, do hereby
give notice that I will apply to the
board of county commissioners of
said county at their April meet-
ing for the appointment of such
clerical help as may be needed for
the conduct of the office.
GEORGE D. AIKEN,
Sheriff.
Twin Falls, Idaho, March 18, 1907.

ELDRIDGE MAKES
FINE PROGRESS

SUBSTANTIAL GROWTH OF THE
NEW TOWN.

People Are Tired of Scrapping and
Wind-Jamming—H. B. Johnston
Goals East to Buy Stock of Dry
Goods for New Store.

ELDRIDGE, April 3.—Judge A. D.
McKlinsky was in town on Wednesday
making some purchases.
Mrs. C. E. Lay went to Twin Falls
Wednesday to do some shopping.
Messrs. John Angot, Nola Lind,
Frank Brown and Dan Sior of Buck-
er Flat came over on Tuesday to see
Eldridge grow.
Eldridge farmers, who have been
night watchmen at the Twin Falls
depot, is home again and has joined
the Short Line surveyors.
Mr. Voro of Yakima, Wash., is
living in E. W. Water's house at
town. He is an experienced shoe-
maker and is talking of starting a
shop in Eldridge.
C. O. Eldridge of Twin Falls drove
over to Eldridge on Sunday. He was
accompanied by his niece.
H. B. Johnston started for the east
on Wednesday to purchase a stock of
dry goods for his new store. Mr.
Johnston's establishment will fill a
large gap in commercial circles. Dur-
ing his absence in the Twin Falls
his absence in the Twin Falls
his absence in the Twin Falls
his absence in the Twin Falls

Ed Alcorn of Dayton, Wash., called
upon a number of old friends and
fellows here last week, among
them were F. Brooks, E. G. Walther,
James Fitzgerald and George Buch-
gan.
Fred Scheffel came to Eldridge,
on Saturday on horseback. His horse,
which belongs to M. J. Macaw, was
caught in a barbed wire
fence and was badly hurt.
C. E. Lay, who rode on horseback
to Twin Falls last Friday, is not
very favorably impressed with that
mode of travel and probably
swear Mr. Harriman's dividend when
the railway is opened for traffic.
Eldridge is making splendid
progress. The people in this vicinity
have come to a realization of the fact
that nothing effective can be accom-
plished by knocking and back-packing.
They have had a foreible illustration of
this in the case of the school, where
a taste of real progress, and they are
showing a decided preference for the
latter. The injuries inflicted upon
the community at large by the
long and tedious and tangible results
are being obtained. After having been
fed upon "hot air" and unfulfilled
promises for more than a year the
people are ready to appreciate har-
mony and progressiveness and they
are showing their appreciation very
effectively. Farmers who for months
have been waiting for the Twin Falls
Buhl because they did not care to be
annoyed by having knockers and trou-
bles drummed into their ears have
been treated and tangible results are
being obtained. Wherever everybody
is welcomed and given a "square deal."

Realty Bargains.
C-room brick, modern, in Denver,
Colo. Jo trade for farm on Twin Falls
tract.
Farm residence in La Grande, Ore.,
with 6 lots, chickens, park and fruit

Between Shoshone, Falls and Twin
Falls, city, pocket book with receipts,
bill, etc. Return to this list, come
and receive reward. W. S. ADAMS.
Best line of Domestic and clear
Havana cigars can be had at the Lib-
eral Cigar Store.

RUSHING SEASON
AT CLEAR LAKE

SPRING HAS OVERTAKEN THE
SNUG VALLEY.

Farmers Are Getting Ready to Turn
on the Water—Hay is in Demand
on South Side—J. N. Hopkins Re-
covers from His Recent Illness.

CLEAR LAKE, April 2.—Real sum-
mer weather is with us now. All the
farmers are hurrying to get their
ditches in shape for irrigation.
Mrs. O. E. Eyster returned last
week from Shoshone, where she has
been visiting with her daughter and
friends.
J. W. Briggs is busy this week
pruning his orchard and getting it in
condition for the season.
Nelson Christwell, who suffered from
ill-health for the past three or four
months, is able to be around again.
Will Eyster has taken quite an in-
terest in the Twin Falls tract. He
has spent about two-thirds of his time
in that county of late and declares he
is in love with the entire tract.
The ferryman has been kept quite
busy of late crossing teams loaded
with hay. Several parties purchased
hay from this E. Eyster and are haul-
ing it over to the Twin Falls tract
to use them over the spring season.
A. C. Wilson and his son, Charles
Wilson, left this morning for their
work at Buhl.
The friends of J. N. Hopkins will
be glad to hear that he is able to be
up and around again. He was out last
Saturday looking over his Twin Falls
tract. G. P. Johnson has rented his
Clark grad ranch to a man from Hagerman.
We are glad to welcome additional
families in the valley.
Mrs. W. E. Simms was the guest of
Mrs. O. E. Eyster on Saturday evening
when she came down from her
home at Buhl.
Sunday at Clear Lake.
J. N. Hopkins has received a new
supply of groceries for his store.
A. G. Madelon sold a fine milch
cow last week.

OF OATS=OATS=OATS
If you want Pure Seed Oats,
Feed Oats, Clean Oats, Lincoln
Oats, and the Side Oats, the best
Oats on the tract, call at
'Smith & McMaster's'
Breeding Corral
13th Avenue, Across Street from
Gallier's Livery Barn,
Twin Falls,
and while there don't forget to
see the Famous Hansen Band
(musicians of Bob McCullin) and
note its great capacity for brains
and loud noise; also those fine
Morgan and Percheron stallions.
FRANK LYTLE, Manager

Get your Sunday candy, fresh home
made chocolates, at the Idaho De-
partment store on Saturday, April 6,
25 cents per pound.
Knights of Pythias, Attention.
Regular meeting Tuesday, April 9,
1907. Work in third rank and business
of importance. Full attendance re-
quired.
W. E. NIXON, C. C.

OREGON SHORT LINE.
Settlers' Rates.
Daily, from March 1 to April 30,
1907, the same cheap one-way second
class settlers' rates will be in effect
from the east to points on the Oregon
Short Line as have heretofore been
made. The spring and fall months
are follows:
To Huntington and main line
from intermediate points:
Chicago \$30.50
Bloomington 23.30
Peoria 23.50
St. Louis 27.50
Kansas City, Leavenworth, Atch-
ison and St. Joseph 22.50
Council Bluffs and Omaha 22.50
Sioux City 22.50
St. Paul and Minneapolis 22.50
Proportionate rates will be made
from other stations in Illinois, Iowa,
etc.
Spring rates on branch lines will be
made local over junction points.
D. E. BURLEY, D. S. SPENCER,
G. P. A. D. E. SULLIVAN,
Agent, Twin Falls.

BAILEY & CO
Stationery, Finest
Box Papers, 25c up.
Spring tree planting season is over;
so is the Twin Falls Nursery with over
300,000 home grown fruit, shade and
ornamental trees of all varieties. Mr.
J. A. Waters, the genial proprietor, is
pleased to have buyers make a per-
sonal selection.

TWIN FALLS LODGE

BREVITIES

T. J. Woods returned on Wednesday from Boise, where he had been for a few days on business.

Dr. Ellis and Dr. Coburn attended the meeting of the state medical association in Boise this week.

Peter Erickson is preparing to build a residence on Tenth avenue on the lot purchased from Mr. and Mrs. C. O. Morrell.

The Hotel Perrine grounds are very nicely parked and sodd, a very conspicuous and handsome improvement.

Mr. and Mrs. M. W. Kunkley returned on Wednesday from Halsey, where Mr. Kunkley did a neat stroke of business.

John MacRae, Robert Rogerson and John Catehugh are here from the Three Creek district. They state that the range is in magnificent condition.

The Masons will confer their third degree tonight, after which they will enjoy a banquet at which the state engineers of Idaho and Wyoming, two prominent members of the order, will be present.

Mr. and Mrs. R. C. Beach of Lewiston were in town for a few hours on Monday on their way back from the east. Mr. Beach has large property interests on the tract and was delighted with its appearance.

The Baptist Ladies Aid society met at the home of Mrs. Rogers on Thursday. The ladies are making preparations for another cooked food sale in the near future, the one they held last Saturday having been such a success.

President F. H. Buhl of the Land & Water Co. arrived on Sunday and returned to Salt Lake on Wednesday. Mr. Buhl was very much pleased with conditions on the tract. He will return in a few days.

Mrs. Daniel Struppier and son left on Monday for their former home in Pullman, Wash. The son, Daniel Struppier, necessitated the sale of his farm west of Twin Falls and the return of the family to Washington.

Master Don Hazen is minus his open faced gold watch with a locomotive engraved on the back. He lost the timepiece on Sunday morning in town. If the finder will kindly leave the watch at the News office Don will see that the action is properly appreciated.

There will be a Y. M. C. A. meeting in I. O. O. F. hall on Sunday afternoon at 4 o'clock. Special music has been arranged for the meeting, to which all are cordially invited. The business meeting of the association will be held on Monday evening in the association rooms.

Osborne & Ferney have sold their grocery stock to C. B. Booth, who has transferred it to the store. He has hereafter confine their attention to dry goods, millinery, furnishings, boots and shoes. The removal of the grocery stock will give them much needed room.

It is necessary that all those interested should attend the school meeting in the Biickel school on Saturday afternoon, April 6, at 1 o'clock. The tax levy for the year will be determined at this meeting and other important questions will be discussed. Candidates for trustees will also be nominated.

The Messrs. Miller and Con Colvin are engaged in building the residence of A. L. Anderson on Blue Lakes avenue. They have all three sets for their families and will likely locate in Twin Falls. The three gentlemen recently arrived from Washington and they found so many friends here and liked the country so well that they will probably remain.

Some young men who evidently carry their brains in their feet amused themselves on Sunday by shooting holes in the sewer pipe with rifles. They selected for their targets pipe which had been laid and cemented and they did a lot of damage. Investigation is being made and if the guilty parties are identified they will pay for their pranks.

The pound social held at the Presbyterian church on Thursday evening was greatly enjoyed. Games were played and the conclusion of the feast the guests were watched, each of them paying 1/2 per pound. This diversion caused a great deal of merriment, the pump and heavy members of the congregation being greatly amused.

Mrs. S. Perkins of Kimberly is visiting in Twin Falls.

Services will be held in the Catholic church on Sunday, April 7, at 10:30 a. m. by Rev. Joseph Beusmans.

Mrs. W. H. Greenhaw and her daughters entertained the friends of Mr. and Mrs. Allen on their leaving prior to their departure for Goldfield. Besides the guests of honor, there were present Mesdames Altech, Morgan, McManis, Crismon, Davies and Missa Heap.

A large audience assembled at the skating rink on Monday night to hear the musical given for the benefit of the Catholic church. It is surprising how quickly a program can be arranged with a small number of fine numbers. Many large cities would be proud of the Twin Falls amateur musicians.

Six of the girls, with the assistance of several of the young married ones, are doing into the mysteries of Miss McCollum this week for practice. As these learn they can interest others, so that by next winter all the girls will be able to understand these most popular games.

The reception given by Mrs. Conway and Mrs. Young was a most delightful affair. The musical variety contest was the amusement of the afternoon, Mrs. Pike winning the prize, a book of poems. A dainty lunch was served. Mrs. Allen and Miss Mankler favored the guests with musical selections.

The Bridge club met with Mrs. Swooley last Friday and enjoyed a most delightful afternoon. The favors were given to Mrs. Wilbur Hill and Mrs. Allen. The ladies present were Mesdames Barrett, Tush, Williams, McCollum, Hayes, Boyd, Hill, Davis, Booth, Alken and Miss McCreary. Meetings occur with Mrs. Mitchell.

Mrs. Stuart Taylor was hostess on Friday to a charmingly appointed luncheon and refreshments with Mrs. James Young, C. M. Hill, Wilbur Hill, Miller, Fuller, and Misses Young, Gourley and McCollum.

Assessor McMillan has appointed John W. Voorhees his deputy in the field. Jaek is an active coil and he works without blinders. The only thing he cannot see are chickens, potatoes, and as neither are subject to assessment it does not matter. He is especially strong on sheep, a very valuable character. He should make an excellent assessor.

Eight of the younger ladies were invited last Thursday evening to the home of Mrs. J. H. Hayes to meet Miss Farlow. The hours were pleasantly passed in playing "500". After a dainty luncheon was served Miss Farlow gave some excellent vocal selections. The guests were the Misses DeBow, McCollum, Dyer, Parsons, Farlow and Davies, with Mesdames Taylor and Stalker.

The J. G. C. met with Floss Brunk Saturday afternoon. They enjoyed themselves with games and had a general good time. The prizes were won by Margaret Conway. Late in the afternoon refreshments were served. Those present were Burdette, Margaret Conway, Fern and Florence Costello, Grace Barger, Mary Miller, Gladys Musgrave, Pauline Davis, Helen Oakley and Floss Brunk.

Mrs. Charles P. Diehl left on Wednesday evening for her old home in Springville, Utah, whither she was called by the sudden death of her father, James Whitcomb, shortly of Junb county, Utah. Mr. Whitehead was apparently in perfect health and his unexpected demise was a terrible blow to the family and to the best of friends whom he had in the community. Especially sorrowful was the blow to his wife and little children, who were left without a father and mother. Mrs. Diehl took her infant daughter with her and will remain in Springville indefinitely.

The declamation contest and entertainment which has been held in place on Friday evening, has been postponed until Saturday evening, April 6, at 8 o'clock. The program appears in the school notes for this week. The children have been working hard to make the entertainment a success and they are deserving of and will undoubtedly receive liberal patronage. There is splendid talent in the Twin Falls school and it should be encouraged. The program is excellent and should attract a bumper house.

Mrs. Henry J. Wall and daughter returned to Salt Lake City on Wednesday for a visit.

Lou Kierstedt has joined the "cheeky" family, being so proud for her of a son born to Mrs. Kierstedt last Saturday, March 30. Mother and son are doing splendidly and Lou is getting down to earth again. For five days he will not recognize anyone but Carl Haha, but he is quieting to such an extent that it will soon be possible to groom him right down to the heels.

T. W. Busby of Pullman has arrived and is awaiting the arrival of his family. They will locate on the Busby ranch at Buhl, upon which he is making final proof. Mr. Busby read in a Washington paper that the Minor planet had been discovered. He is wired for particulars. This is the reply he received at Walla Walla: "No dam out here except profano dam." That settled it and he came on.

William Cheek is setting a noble example to his brother farmers. Every time he comes to town he drives in on a road grader which he operates effectively both going and coming. As a result the road which he traverses is constantly improving and has drawn a great deal of favorable comment. While Mr. Cheek's example cannot be followed by all, it will serve as an excellent illustration of what can be done in the way of road building.

J. O. Wyatt of Maroa will receive his second carload of farm horses to-day. They shipment was delayed on a road grader which he operates on the first. There are 40 horses in the shipment and the animals will be sold at once at the local fair market. Just which corner they will be taken to Mr. Wyatt cannot tell until he finds out what room he can secure. The horses are all high grade, similar to those brought from the same section some weeks ago.

County Recorder West is doing a tremendous volume of business. On Tuesday, election day, when business should have been quiet, he collected 42 fees, the receipts for the day amounting to \$37.75. The office of the clerk and recorder is the only revenue producer and is supposed to sustain the district court and board of commissioners. If business continues at this rate the office will have a nice surplus at the end of the year. Mr. West is greatly handicapped by a shortage of records but is managing to keep everything in compact and convenient shape.

Cash Store Millinery Opening.

Misses K. and J. Hood of the Cash Store have announced their millinery opening for Saturday afternoon and evening. They were disappointed for several days on account of the inclemency with which their stock arrived and the opening was postponed in consequence. Now that the goods are here and a handsome display is possible, nothing will be spared to make the opening notable. The Misses Hood are experienced in this line of business and they know the precise of what ladies like in the way of spring and summer styles. The variety of their stock is surprising and the prices—but that's another story.

For Sale.

132 acres improved land, all under fence and cross fenced, house, cistern and corral; 40 acres in alfalfa, first stand; one of the very best farms on the tract, four miles northwest of town.

Also 600 bushels Towso seed wheat; 400 bushels alfalfa, one good dairy cow and calf, one sow with pig, one sow with four pigs. W. H. COX, P. O. Box 264, Twin Falls, Idaho.

Strawberry Plants.

20,000 healthy plants for sale; also one sack, lined inside and out, price \$40. A. P. SENTON, Box 676, Twin Falls.

Found.

On the Buhl road, a fur neckpiece; owner can have same by calling at News office and paying for advertisement.

Horses—Horses—Horses.

The 40 head of horses advertised to arrive here April 1 were delayed en route but will arrive here Friday, April 5, and will be offered for sale at one of the feed corral in Twin Falls. J. O. WYATT.

Lost Cow.

Strayed away, returned with white face, weight about 1100; liberal reward for her return. P. J. COSTELLO, Twin Falls.

CANAL INSPECTION.

The members of the engineering board selected by the state, the Canal association and the Land & Water company are engaged in making an inspection of the canal system preliminary to its transfer to the entrymen. The members of the board are James H. Stephenson, Jr., state engineer of Idaho; C. J. Johnston, state engineer of Wyoming; O. A. Waller, professor civil engineering, Washington State college, Pullman, Wash.; R. D. Goodrich, assistant to Mr. Waller, and C. A. Tush, assistant general manager of Idaho & Washington Co. The engineers had a very satisfactory meeting with the governing board of the Canal association on Wednesday evening. Every detail of the system will be carefully examined and no complaint, no material defect or objection will be made which will be slighted. Should Messrs. Johnston, Waller and Stephenson be unable to complete the inspection at this time they will each leave a man here until such time as they are able to return. Mr. Johnston is one of the most noted engineering experts in the country, having been selected by the government to inspect the canal systems in Egypt's great colleges. Pullman was selected by the state land board because of his peculiar fitness for the task. Mr. Waller is likewise a noted authority on irrigation, the entrymen from Washington especially placing the greatest reliance on his judgment. He was selected by the Canal association and no better selection could have been made. Mr. Waller will report to the board and upon the tenor of this report will hinge the transfer.

SCHOOL NOTES.

Next week the regular monthly examination will be given.

The sixth grade girls have organized a basket ball team.

The school was given a fire drill Monday afternoon. The building was emptied in 65 seconds.

A large per cent of the eighth grade pupils passed successfully the recent state examination.

The baseball team has arranged for a game with the fromen April 12, Come and root for us.

The high school boys are very grateful to Mr. McCauloy for a fine new ball but which he presented to them Thursday.

The High school welcomes Hallie McMaster again in school after an absence of several weeks. Margaret Gourley is improving in health and will soon be with us again.

The school is busy selecting one of the following four plants which Mr. Walters will present to the school on Monday: Virginia Creeper, African Tamar, Vinesap apple and Jonathan apple.

The sixth grade class is taking a trip over the world. They started at Nome, Alaska, and have arrived at London, England. The description of a few stragglers who have missed the trains, etc.

There will be no regular school on Arbor day. The exercises will begin at 9 o'clock in the morning and after tree planting is finished the pupils will be given a plant to set out at home that day.

Mr. Parke gave a very interesting talk in the auditorium last Monday on the "Evolution of Nations." One reason given for this was the great packing industry—for instance the meat packing houses in Chicago. Mr. Parke told of a visit there and described the method by which the animals were handled.

A great deal of interest is being taken in the declamatory contest which has been postponed until Saturday, April 6. The tickets are selling rapidly. It will begin at 8 o'clock on admission 25c. Following is the program:

Instrumental solo—"Grand Valso de Concert"—Tito Mattel

Wm. Coburn.

Forum scene from "Julius Caesar"—Dell Fuller

"The First Settler's Story"—Shields Song—"Good Old U. S. A."

Vesta Thomas, Mary Miller, Margaret Conway, Leny Williams, Lydia McMaster, Gertrude Berry, Gladys Musgrave, Pauline Davies.

"The Deepest Notch in History"—Shields

"Merley's Conversation"—Vera Cole

Song—"Welcome, Sweet Springtime"—Ida Crider, Estelita Hanson, Ethel Tyler, Ethel Davies, John Dingman, James Shields, Richard Frary, Fred Sheffield.

"The Doom of Claudius and Cleopatra"—Elsie Hubbell

"The Man Without a Country"—Blanche Parker

Quartet—Selected

Ethel Crider, Estelita Hanson, Ethel Tyler, Miss Mankler.

Cheap Homes
In the Upper Snake River Valley
Good Water and Fine Climate
Greatest Beet Country on Earth Just Developing
OVER \$3,000,000.00 in beet factories in the Upper Snake River Valley. Sixteen tons per acre the average crop last year and 20 tons per acre not unusual. Hundreds of families are taking advantage of low prices in lands. Prices from \$10.00 per acre up. Four to six tons of alfalfa per acre, 50 to 120 bushels of oats, 50 to 60 bushels of wheat, 75 bushels of barley, 600 bushels of potatoes an average crop. Inexhaustible water supply for irrigation. The canals are all owned by the farmers, water right included with the land, the maintenance fee with water not to exceed 10 to 25 cents per acre annually. Have 10,000 acres in one body, partly improved, with good water right, near railroad; great layout for a colony, at \$50 per acre on reasonable terms. The extension of the Short line to the Yellowstone Park and the building of other lines through Wyoming and Idaho, on to the coast, puts this valley in close touch with the outside world.

BUHL MOVES AT A RAPID PACE

GREAT ACTIVITY AMONG THE FARMERS.

Everybody Hustling to Get Land Under Cultivation—Building—Operations in Full Blast and Sagebrush Burning in All Directions.

BUHL, April 3.—The Austin school is closed and Paris I. Lilly, who has been teaching the school during the winter, has accepted a position as teacher in Albion.

Ed Larson has an incubator in operation at his place in Albion. Mrs. W. B. Hays and son arrived Thursday from Ottawa, Illinois, to join her husband on his ranch six miles south of town.

G. A. Burgoyne of Hamilton, Ohio, arrived in town Saturday and started at once to build on his 80 acres a mile east of town for the purpose of proving up. He is highly delighted with this end of the tract and is well pleased with his acreage of it.

Fred Krauel and John Hincley traded teams last week and now Fred thinks that he has a team equal to his strength.

W. C. Griffith moved out on his ranch three miles south of town Saturday. He will have no time in getting his land into crop.

Mrs. W. H. Griffith left Monday for Lewiston, Idaho, for an extended visit with her daughter, Etta, at that place.

Dr. T. M. Gilmore left for Boise Sunday to take the medical examination. He took with him Miss Anna Lindstrom, who will enter St. Luke's hospital at that place for the purpose of having an operation performed for the removal of a tumor.

A. J. Peavy and wife were over Buhl Sunday. They have bought a ranch six miles east of town.

Ed Larson went to Twin Falls Monday to purchase seed wheat and a steel corrugator.

L. H. Norton of Austin was a Buhl business visitor Wednesday.

J. W. Jackson passed through Buhl Wednesday on his way from Twin Falls to Ferguson, Idaho.

J. L. McCaulley came up from Twin Falls Thursday and is stopping at Hotel Buhl. He is making preparations to commence work on his 100 acres for the purpose of proving up this summer.

J. G. Smith leased his quarter section to William Lee for five years. Mr. Smith will work the carpenter trade this summer.

A. Schlemmer of St. Louis registered at Hotel Buhl Friday.

Charles James of Wallace, Idaho, was a guest of Hotel Buhl for several days last week.

J. J. Martin of Twin Falls is in the city and looking around for an investment.

P. E. Dean of the firm of Day & Dean of Twin Falls came up from the Magic City on business Saturday.

W. Skiff of Kallispell, Mont., spent a few days in town last week looking over the country with a view to investing. He was favorably impressed with what he saw of the country and will probably locate here.

Albert Herron of Sunnyside, Wash., arrived in town Sunday and took a look over the country the fore part of the week.

Rev. John H. Schenck of Twin Falls held services in the schoolhouse Sunday evening and preached an Easter sermon.

T. W. Busby of Rosalia, Wash., registered at Hotel Buhl Friday.

Dr. W. F. Pike and wife of Twin Falls drove up from that town on Monday. The doctor is seeking investments in and around Buhl. He was inquiring for bargains in real estate and probably found some.

R. M. Hays and C. O. Melfs of Twin Falls made a flying business trip to Buhl Monday and rented the old postoffice store building, which they will use for a farming implement store and harness shop. They expect to have their stock in here about the fifth of this month and be ready for business and the boom.

Mr. and Mrs. W. D. Southworth came in from their ranch on Ferguson flat Monday. They were accompanied by Irene Neer, who together with Mrs. Southworth, did some shopping.

F. W. Havileck of Twin Falls was a business visitor Saturday. He

WILL BEAUTIFY KIMBERLY PARK

SITE IS NOW BEING CLEARED AND PLOWED.

Ladies' Pioneer Club Has Arranged to Set Out Trees and Shrubbery on the Grounds Provided by the Townsite Company for Park Purposes.

KIMBERLY, April 4.—E. H. Dean and family have moved to Marquette where they expect to reside in the future. Last season they had A. E. Greens place rented.

The Ladies' Pioneer club met last Thursday at the home of Mrs. M. N. Fleher.

The block which has been set aside by the Townsite company as a park has been plowed and harrowed preparatory to planting in lawn. The Ladies' Pioneer club, who are entirely responsible for Kimberly's having a park at all, are expecting to have the block fenced within a very short time. They will also have trees and shrubbery set out.

A crew of O. S. L. engineers were here Friday settling stakes for the extension of the warehouse spur to the flour mill.

Mr. A. James, after visiting a short time here with his family, has returned to Rock Springs, where he will remain all summer.

Mr. H. Brady, who has been at Silver City working in the mines all winter, returned home Wednesday. He owns a valuable 40 near town which he expects to farm this season.

The lumber for the lumber for the flour mill has been placed with one of our local dealers and will be shipped here direct from the mills.

Mr. H. Brady says a day here this week as the guest of Miss Eva Budd.

E. U. McIntire left on Wednesday's train to visit his old home in Ely, Nevada. He will go through Salt Lake, where he will stop a few days.

Mrs. George Holvock and Mrs. E. C. Tucker are going to Salt Lake to attend conference.

R. T. Newberry, father of E. T. Newberry, is living very ill at the home of the latter. A great deal of care has been given him but it is feared he could not recover but at present his has rallied somewhat.

George Lutz has received a collection of trees from Nampa, Idaho, which he has in his orchard which is doing the winter.

E. F. Skinner is expecting a carload of hogs to arrive here very shortly. They were shipped from Warden on the 1st inst.

The Johnson horsepower threshor was again resurrected, enough to thresh 125 bushels of wheat on the R. W. Jones place which were bought in the stack by A. L. Bossiro and J. E. Henley.

Two cars of grain were loaded at the warehouse Thursday. Surely Kimberly has reason to feel proud of her record as a grain market.

The eighth grade under the supervision of Professor Hess, is taking the examination required for entrance to the High school.

Mrs. George Trucheloff is reported to be sick at her home east of town.

The beautiful weather of the last few days has made loafers scarce. All are busy plowing and sowing. Considerable grain has already been planted about here.

Last Sunday was the first day suitable for baseball practice since the recent snow. A great many of the boys turned out but still more are needed to pick a team from. In the first practice game of the season two bats which were in use all last year were broken, which ought to be evidence that we will do heavier batting this year than last.

Mrs. J. E. Henley is quite ill.

Mrs. J. E. Henley entertained a few of her friends at dinner Sunday afternoon. The recipients of her hospitality were Mr. and Mrs. A. L. Hestler, G. H. Taylor and A. J. McMillan.

B. Williams made a business trip to towns between here and Minidoka this week.

Dr. D. F. Albee of Rock Creek was a visitor in town this week.

Frank M. Prothero, Jr., while out driving with a heavy team, was so unfortunate as to let them get away from him. After running a mile or so they collided with a fence, doing considerable damage to the horses.

L. E. Prothero left on Thursday for Salt Lake to consult a specialist regarding the condition of his knee, which was so severely injured last fall by the kick of a horse.

Dicklow Wheat for Sale. First class clean seed grain. Inquire of A. P. SENIOR, Box 675, Twin Falls.

Help Wanted. All careful bookkeepers use Fogg's liquid Perline, the best eraser known. For sale at the News office.

Money to Loan. A few hundred dollars to loan on improved farms. J. H. Swan, residence next to Christian church.

The Liberal Clear Store is headquarters for A. G. Spaulding sporting goods.

When you want a transfer wagon call up central and say, "Skidoo," 23. Braun's.

Wanted. Sewing of any kind or will go out by the day. MRS. MAXON, 7th ave. and 13th street.

Wanted to Rent. One or two rooms, furnished or unfurnished, for light housekeeping. Inquire "E," this office.

Wanted. Experienced person to take charge of stallion for season. Address of inquirer of J. W. Craven, Pioneer Storage & Commission Company.

Proper Clothes

It is not everybody knows what correct clothes are. The standards of fashion are so constantly shifting that he who knew yesterday may be misinformed today.
