

## TWIN FALLS TO HAVE CREAMERY

### ORGANIZATION TO BE PERFECTED ON SATURDAY.

Stock Will Be Subscribed Locally and Boise Company Will Lease the Plant and Operate It, Paying Ten Per Cent After Two Years.

It has been definitely decided that Twin Falls is to have a creamery. At the meeting of the Farmers' Federation last Saturday it was decided to accept the offer of the Commercial Cream Co. of Boise to erect a plant in Twin Falls, have the company own it for two years and pay 10 per cent on the investment for the following three years. A meeting will be held tomorrow for the purpose of perfecting the organization. The creamery will pay the pro-rating butter price for butter and will also assist the farmers in purchasing cows by paying for them out of electricity instead of steam power. A considerable saving will be effected. The creamery will be modern in all respects and will afford the farmers an opportunity of turning their hay into cash at a profitable figure and receiving their money every month. At the meeting on Saturday the finance committee was granted an extension of one week in which to report. A similar extension was allowed the committee on sports. The committee on grounds and buildings reported progress.

Another meeting will be held tomorrow at which the committees will submit their reports and definite action with respect to the fair will be taken.

### MILNER MAKES RAPID PROGRESS

Activity is increasing on the Great North Side Project.

MILNER, Idaho, July 24.—R. W. Faris is working five electric derricks and hoists on the big rock cut just west of Milner, running two shifts, day and night, using electric light for the night shift. They are making heavy blasts in the cut, which averages about 20 feet deep by 45 feet wide. Mr. Faris has just purchased an immediate steam shovel which will be installed immediately in the deep earth cut two miles out from Milner, where an army of men and horses are at present at work. This cut averages 21 feet deep by 60 feet wide.

Crops on the Milner experimental farm are doing splendidly and the farm is proving very profitable to the numerous prospective purchasers of land on the north side. The grains will be ready for harvesting very soon.

For the convenience of prospective purchasers the North Side Land & Water Co. has a large force at work with grubber and road grader preparing new roads leading from Jerome to Twin Falls, Shoshone and in other directions.

The electric wiring and plumbing work in the Riverside Inn is about completed. Contractor P. H. Hall expects to turn the building over complete the first of September, when the company will arrange for a house warming in the way of a dance.

The grounds around the Riverside Inn are being terraced. A tennis court is being laid out on one of the corners adjoining the hotel. A great deal of enthusiasm is expected to be worked up in this popular game.

Each evening after 6 o'clock the bunkers in the lake above the dam and the river are lined with the inhabitants of this beautiful little town, pulling trout and other fish out of the water.

## SETTLERS ASKED TO CO-OPERATE

### ENGINEERS WANT REPORT ON ALL COMPLAINTS.

Circular Letter Sent to Every Land Owner in Order That All May Have an Opportunity to State Objections, if Any, to Canal Transfer.

Professor O. L. Walker and P. M. Johnston, who are securing additional data for the state land board in regard to the condition of the canal system, have addressed a circular letter to all entrymen requesting the latter to state their grievances, if they have any. The engineers are anxious to give every man an opportunity to be heard and the widest possible publicity is being given the circular which follows:

The undersigned engineers have been appointed by the State Board of Land Commissioners of Idaho to make a detailed estimate of the cost of completing the Twin Falls canal system according to specifications and agreements set forth in the contract between the said board of land commissioners and the Twin Falls Land & Water Company, and to inquire into the carrying capacity of the canals and laterals, and the general efficiency of the system.

To expedite the gathering of information and to let every man on the tract have an opportunity to state his case, we are sending you this blank form which we hope you will fill out at once and very promptly return to us at Twin Falls.

As soon as the information we want can be gotten together we expect to visit each place where trouble is reported and when that visit is made out or to be otherwise improved, or headgates, measuring devices, etc., are not satisfactory, the trouble should be promptly reported.

Respectfully,  
O. L. WALLER,  
R. D. GORDON.

**Lateral No. 1.**  
1. What is the length of lateral, including branches built by the company?  
2. How much of this lateral is in coulees?  
3. Has any work been done on this coulee portion?  
4. If so, to what extent?  
5. Should any more work be done on it? If so, what should be the nature of the work and where should it be done?  
6. How many acres of land is the lateral or coulee? Intended to irrigate?  
7. How many acres are being irrigated from it in 1907?  
8. What is the condition of the lateral or coulee? Is it as to its carrying capacity in 1907?  
9. In your judgment, what should be done, if anything, to make it all under 10?  
10. Is the grade of the lateral, or coulee, at any point so great that it is liable to slide or drops to prevent its damaging or cutting property?  
11. If so, where?  
12. Is the lateral so constructed, and are its branches sufficient to convey the necessary amount of water to within a half mile of each and every 160 acres under it?  
13. If not, give definite description of lands it will not reach?

## HARVEST BEGINS AT KIMBERLY

### Great Activity Among the Farmers in That Vicinity.

KIMBERLY, Idaho, July 24.—Mrs. Harvey Dunkley, who has been visiting Mr. and Mrs. A. Dunkley here for some time, returned to her home in Walla Walla, Wash., on Wednesday.

J. H. Wright, who had the contract for the erection of a building at Kimberly, has completed his work and returned home. He expects to go to the new town of Jerome, on the other side of the river, shortly.

E. W. McClannahan and wife returned home on Wednesday's train.

Mrs. William Harris and family returned last week from Upton, Utah, where they have been visiting for some time.

Mrs. F. T. Newberry and family left last Thursday for Portland, where they will spend the summer vacation. They were accompanied as far as Minidoka by Mr. Newberry.

W. H. Johnson of Marysville, Wash., who has been visiting his father-in-law, Mr. L. D. Morrill here for a few days, returned home last Friday.

A carload of poles for the power line to the mill have arrived and been unloaded. The water wheel, which has been shipped from the factory in Portland last Saturday, Mr. Hendricks has sold his place here and will move to the neighborhood of Portland as soon as harvest is over.

A carload of poles for the power line to the mill have arrived and been unloaded. The water wheel, which has been shipped from the factory in Portland last Saturday, Mr. Hendricks has sold his place here and will move to the neighborhood of Portland as soon as harvest is over.

Mr. Hendricks accompanied his wife and mother as far as Burley on Tuesday to see that they got safely started on the stage for Albion, where they go to visit relatives.

Mr. and Mrs. E. C. Ashdown and Mr. and Mrs. M. N. Fisher spent Wednesday evening themselves at Blue Lake.

Mr. E. C. Elmore and family went to Rock Creek Tuesday, where they will visit the H. P. Larsen home for a week.

Telephone repairmen were at work on the line between here and Rock Creek on Tuesday. They reported that they found two poles down.

Miss Zylpha Stratton came out on Tuesday to visit Miss Elvira Hatty.

Miss Mary F. Cushman, who has been visiting Miss Eva Budd here for a few days, returned to her home in Nesh, where she will visit a while before returning to her home in Wisconsin.

George Luft had three mowers at work in his 160-acre hay field Wednesday morning. He evidently intends to make hay while the sun shines.

Messrs. McCarty, Coors, Hiltner and Stevens went to the hills south of here on Tuesday to get poles.

Two very exciting games of ball were played on the Kimberly diamond last Tuesday. The first was a game between the Twin Falls and Kimberly Juniors. Only seven innings were played, but they furnished a great deal of thrills for the spectators. The final result was a score of 15 to 15 in favor of the Twin Falls. The second game was played between the Kimberly team and a team from Hansen. The Kimberly boys were crippled by the absence of four of their regular players. The Hansen team was in fine form. The final result was a score of 15 to 15 in favor of the Twin Falls. The game was a very close one and the spectators were very much interested.

John Cliffe, who runs the Hilly stable during Mr. Elmore's absence, had the misfortune to be killed by a horse a few days ago and is suffering with a lame leg as a result.

Mrs. E. C. Youngs and Mrs. J. R. Smith left on the early train Thursday for Mrs. Smith's home in Iowa. They have been visiting Mrs. A. D. Norton at Rock Creek.

There was a dance held in the new house being built on the Ellis farm south of town. Not a very large crowd was present, but all report a very enjoyable time.

W. T. West spent Tuesday on his ranch near here. He has about all his hay cut and has let a contract for stacking it.

The first grain of the season was cut last week. It was volunteer wheat and was fully matured and ready for harvest. This was done on the J. W. Hiltner farm just west of here.

A new electric line was painted on the front of the Nibbel-Channel Lumber Co.'s office last Wednesday. John Kosharek of Twin Falls did the work.

An interesting contest took place Sunday evening in front of the drug store. Charley Mahubb and A. R. Campbell had a pulling match for a low head prize. The contest was so hotly contested that the decision was awarded to Mr. Campbell.

G. G. Young is contemplating leaving shortly for Merced, Calif.

George Moore has sold his 80-acre farm lying east of town.

The Hiltner boys have finished putting in their hay crop on the McMaster place and has moved his outfit to the place where he has been buying cattle. The crop, the Hiltner boys are also at work there. The hay ranch is about the busiest around here.

## ENGINEER HAMMING'S REPORT ON LATERALS

### Interesting Data Compiled by Representative of State Engineer—Coulees Are for Most Part Unimproved and Rocky—Specific Mention of Those Laterals Which Are in Need of Attention and Nature of Improvements Required.

The report of Henry Hamming, the engineer detailed by State Engineer Stephenson to report upon the condition of the lateral system on the Twin Falls tract, is in the hands of the state land board, together with the reports of other engineers who inspected the system. Mr. Hamming spent weeks in examining the laterals and coulees and sought by every means in his power to obtain definite information. He does not gloss over any portion of his report but gives a plain statement of conditions as he found them. His report is reproduced in complete with the exception of a long table giving the number of laterals of each kind in the system, its carrying capacity, the number of acres it covers, etc. Excepting those laterals specified under the heading, "The coulees," the laterals are all up to requirements. That portion of the report bearing upon the coulees is printed in full. The report follows:

DEAR SIR: I have the honor to acknowledge the receipt of your letter of the 19th inst. and in reply to inform you that I have completed my report on the lateral system of the Twin Falls Land & Water Co.—"The Twin Falls Land & Water Co." company has kindly furnished maps and data of the laterals, a plan and section of the laterals which I have appreciated very much. The water users' association also intended to send some one to accompany me, but this plan failed to come, which I have regretted. I received a number of complaints on different subjects with reference to the lateral system which I have examined and will here describe my findings.

First—Complaint of Mr. Link and Mr. Partridge. These parties have property in sections 2 and 11, township 10 S., range 18 E., and they say that the low line, which drops from its point of diversion for about 30 feet, runs 75 feet, cuts an unreasonable wide and deep channel. Whenever I have made measurements on this runoff of the low line which is from 28 feet to 70 feet wide and from 12 feet to 12 feet in depth with a bottom of 12 feet, and they say this will cut out more than a full heat of water, although in some instances I have cut down to rock and found a full heat of water. Whenever I do I think this section should be forced by all means to keep away steel.

Another runoff occurs about 15 miles further down, where the low line follows a depression or draw, called coulee, for about 5 miles; this also has cut a channel as the one above, and it is in some places from 100 feet to 120 feet wide, but as it has cut a deeper channel it will not spread so much now.

Another runoff occurs at the upper end of the low line in sections 7 and 12, township 10 S., range 11 E. Here the water spreads in an uncontrolled manner and in some places a depression. The upper end of this lateral is very rocky and does not erode by the running water, but causes it to spread to a considerable width and in some places it has cut a narrow and deep channel.

I have also been requested to call your attention to some rocky points in the high and low line that have not been cut down to grade.

The natural drainage of the tract forms a considerable part of the lateral system. In fact the coulees, as they are called, form the main detritus from which subterranean canals are constructed to reach the lands that would otherwise be more than the allowable half mile from the available supply.

The following list of the coulees, approximate length, the number of acres to be covered by each and the location of the coulees. These coulees are generally very rocky and the water is not able to run over them. In their natural and unimproved condition, except in a few instances where the land is not so rocky, the water is not able to run over them. In the water is not able to run over them, or where the water is not able to run over them, it is not able to run over them.

The fall of the coulees is from 20 feet to 60 feet per mile, and often times as much as 75 feet to 100 feet per mile.

Considerable objections are made by the water users to the use of the coulees. In part because their channels, not being well enough defined, causing the water to spread where the fall is low, and in some places the water grows up with willows and weeds, and giving a large surface, increasing the loss by evaporation; and in part because the runoff of the water is not able to run over them, or where the water is not able to run over them, it is not able to run over them.

Considerable objections are made by the water users to the use of the coulees. In part because their channels, not being well enough defined, causing the water to spread where the fall is low, and in some places the water grows up with willows and weeds, and giving a large surface, increasing the loss by evaporation; and in part because the runoff of the water is not able to run over them, or where the water is not able to run over them, it is not able to run over them.

**GREAT TWIN FALLS CANAL SYSTEM**

**25,000 Acres of  
Carey Act Land**

Still open for original entry under this Canal System

Land, 50 cents per acre. Perpetual water rights, \$25 per acre, ten annual payments.

Vehicles from Buhl furnished free to those who desire to inspect land. Prospective entrymen accompanied by competent locators.

**BUHL**

Buhl, located 17 miles west of the city of Twin Falls, will be the leading city on the west end of the tract and the distributing point for a large area, including the stock districts of Three Creek, Butte and Roseworth, likewise the farming and fruit growing districts of Hagerman, Kanoka Flat and Salmon. The railway track is now being laid between Twin Falls and Buhl and will soon be in operation. Buhl has a splendid gravity system of waterworks, with a pressure of 100 pounds in the business section. It will be supplied with electric power and light this spring. Business property values in Twin Falls have increased 500 per cent in less than two years. The same opportunities for investment are presented at Buhl. Now is the time to buy. Write for literature and further information.

## Summer---The Time for CEREALS

Summer is the time for Cereals—that is, the proper Cereals. Man should not eat meat during the summer months any more than he can help, as meat causes the blood to heat and over-exerts the digestive system. That is why one feels sluggish after a noonday meal of heavy foods. We carry all the best grades of cereals. Let us have your next order for this grade of goods and we know you will be satisfied.

## Perrine & Burton

General Merchandise

## Eureka Hotel

J. C. GIRDNER, Prop.

Everybody works at the Eureka hotel but father and he's too fat. He don't do nothing but bring in fresh vegetables from the ranch every day. That's why we can give you the best rates in Twin Falls. Give us a trial and be convinced. First class women cooks.

capacity, 17.3 second feet; required capacity, 63 second feet.  
Lateral No. 42, in sections 16, 9, township 10 S., range 14 E., lateral should be enlarged to carry 21 second feet.  
Lateral No. 80, in sections 2, 3, township 11 S., range 14 E., should be enlarged to carry 6.3 second feet.  
Lateral J, in sections 35, 26, township 10 S., range 15 E. This lateral has a flume intake; the lower end of this flume should be raised about 0.7 feet and the bank from end of flume for 200 feet or 300 feet should be raised, which is in fill, then from the end of this fill for 200 feet, the lateral should be cut down to grade and widened to not less than 3 feet in bottom. This lateral should have culverts to drain water from the upper side of lateral.  
There is also some complaint on the lack of sufficient drainage under the low line which, in some instances holds considerable water above its upper bank that cannot drain away.

The lateral system in the following townships is not complete: viz., Township 9 S., ranges 13, 14 and 15; township 10 S., ranges 13, 14, 15; township 11 S., ranges 13, 14. The Twin Falls Land & Water Co. has now got men and teams there to complete the works. Many laterals already constructed will have to be enlarged and extended as can be seen from the list of laterals.

It is intended to extend the low line to a point in sections 24 or 13, township 10 S., range 15 E.  
My attention has also been called to the measuring devices, many settlers claiming that they have none at all. I have been informed that the company intends to put in measuring devices at any point where two or more parties take water and where any party will be liable to water in their own device. The measuring devices used by the company consist of a box

about 12 inches high, with two slides moved about two or three feet apart. The first is to regulate the amount of water to pass and the second is not giving the required area of opening for discharge pressure.  
Some settlers along the high and low line complain that some of the openings in these canals have been placed too high, and no doubt many of them could be placed lower and should be placed lower, and I think the company intends to do so where ever practical.  
I herewith enclose a number of complaints and blue prints of the lateral system.

The complaints generally state that some lands are not receiving water, and I have not found any land east of Cedar draw where the water is not within 1/2 mile of any subdivision 100 acres and adjacent high enough to cover the highest point except where such point is too high to be covered at all, except the NW 1/4 of section 9, township 9 S., range 16 E., and the NE 1/4 of section 12, township 10 S., range 15 E. West of Cedar draw there are some instances of that nature in township 9 S., range 14 E., but there the laterals are not yet completed.

Respectfully submitted,  
HENRY HAMMING.

## TWIN FALLS NEWS

Official Paper of Twin Falls County.  
George B. Frazer, Editor.Published every Friday by  
THE NEWS PUBLISHING COMPANY  
TWIN FALLS, IDAHOSubscription Rates.  
One Year, in Advance, \$2.00  
Six Months, in Advance, \$1.00Reliable information regarding the city and  
country promptly and cheerfully furnished. Ad-  
dress all communications to The News Publish-  
ing Company, Twin Falls, Idaho.Entered as second-class matter, December 12,  
1904, at the postoffice at Twin Falls, Idaho, under  
the Act of Congress of March 3, 1879.

The settlers on the west end of the Twin Falls tract are having the same troubles now as those experienced by the settlers east of Rock creek two years ago and by those between Rock creek and Cedar draw last year. These troubles are inseparable from the early distribution of water under irrigation systems and they eventually cure themselves. It has so proved under every system. The perfection of laterals is slow work, its time and usage are the only agents by which weakness can be developed. The report of Engineer, Henry Hamming, which appears in this issue, shows the condition of the laterals and conduits as Mr. Hamming found them this spring. Mr. Hamming was engaged by the state land board to audit the state engineer and he makes no bones about criticizing the work. The fact that the settlers came down upon the tract like an avalanche and compelled the company to resort to makeshifts in order to facilitate the delivery of water cannot be taken into consideration. That is a plain business proposition and if the water was not available, the notice that it was ready for delivery should have been withheld. To estimate the cost of putting the lateral and conduit system in the condition demanded by the contract between the company and the state would be a hazardous operation. The better way would be to transfer the operating department of the canal to the settlers in order that every acre of land might be made to bear its just proportion of the cost of maintenance. Let the Land & Water company maintain its construction department until the system is pronounced complete according to contract. There might be a vast difference between the estimated cost of completion and the actual cost. Estimates, especially those of a complicated character, are often wrong. Casual examination of Mr. Hamming's report will show that weeks, perhaps months, would be required to make a careful estimate of the work yet necessary on the conduits and laterals because of the immense amount of detail. The chances for error would be great. True, the settlers might be secured by bond, but the safer way would be to let the company finish the work. The operating company could manage the canal in the meantime and nobody would be harmed. There are good reasons why the settlers should operate the canal. The government will not issue patents to any more land on the Twin Falls tract until the canal system is turned over to the settlers. The issue of patents east of Rock creek was an error on the part of the department, it being the supposition that the eastern portion of the canal had been turned over. Without a patent to his land the farmer cannot negotiate a loan, giving his property as security. Many loans have been made by the local banks but they cannot be expected to finance the entire tract. Another well known reason why the settlers should operate the system is that in the event of a transfer the maintenance charges would be reduced and the speculators would be made to pay their just share of maintenance charges, instead of heaping the entire burden on the backs of those who are staying-at-home and improving their property, incidentally making that of their speculative neighbors more valuable. The state land board is not disposed to force the transfer by any means. It is gathering all the information possible. Engineers O. L. Waller and F. M. Johnston are here now making investigations. They have addressed communications to every land owner on the tract whose address they could obtain, inviting them all to come forward with any grievances they may have. The state land board has been fair and just in all its dealings with the entrants on the Twin Falls tract and attempts to impugn the motives of the board come with poor grace. Nor is there any reason why the integrity of the Land & Water company or that of the engineers who are inspecting the system should be questioned. The proper thing to do is to come forward and assist the

land board and the engineers in reaching a just conclusion. Now is the time to come.

The movement to build a creamery in Twin Falls is one which should be encouraged by everyone who has the welfare of the tract at heart. The Snake river valley is particularly favored in its ability to produce stock food. Magnificent yields of hay have been obtained in every section of the Twin Falls tract. By turning this hay into butter it can easily and profitably be converted into cash. The only way this can be done is by building a creamery. For butterfat creameries pay the current market price of butter, which is 30 cents per pound in Twin Falls at present. Milk will yield from 3/4 to 6 per cent butterfat. A gallon of milk weighs 3 1/2 pounds and a good milk cow should give four gallons per day, or 33 pounds. This would be the equivalent of 1 1/3 pounds of butterfat, which should bring a return of 49 cents per day. If a cow will bring in a revenue of 30 cents per day, of one cent for every pound of hay she eats, it will pay to keep her. In addition to the returns received for butterfat, the farmers who own dairy cows will profit by the use of the skimmed milk, which can be fed to calves, hogs and chickens. This is an important item in connection with dairying. Moreover, the creamery supply the farmers with ready cash every month, another vital feature which should be considered. In addition, those who own stock in the creamery are assured of a return of 10 per cent on their investment after the second year. The investment is legitimate and safe and there should be no difficulty in disposing of the creamery stock at home. Viewed from every standpoint, the creamery enterprise is worthy of encouragement and it should receive the hearty backing of merchant and farmer alike.

**Notice for Publication—Final Proof.**  
I, Ernst W. Haag of Twin Falls, Idaho, who made entry No. 1890, and who made entry No. 1892, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carey act," approved March 2, 1899, which embraces the SW 1/4 of NW 1/4 of section 10, township 11 S., range 16 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. ## BREVITIES

The Episcopal church services announced for next Tuesday evening have been postponed until Wednesday evening, August 1.

C. D. Thomas and two children, Vesta and Rex, and Miller Evans spent the first part of the week on a fishing trip over in the Clear Lake country.

Scott Hazen was taken to Salt Lake City on Saturday for surgical treatment. He has been ill for some time. It is reported that he underwent an operation and is much improved.

J. A. Horne has disposed of his threshing outfit and has returned to his old home in Elgin, Oregon. He found it impossible to divide his attention, and while he has not quit Twin Falls by any means he will be absent for some time.

Berry & Swank have received a carload of sewer connection pipe for use on the laterals. Splendid progress is being made on the lateral work and the system will be complete in a very short time. A number of connections have been already made.

Construction work on the Auger falls power plant was resumed on Monday morning. The canal across the cut-off is being excavated, a number of men and teams being employed. The work will be kept up until the canal is completed.

Macfate & Catteugh of Three Creek brought in a heavy consignment of wool last week. Alex Gonzalez and J. M. Bratten brought their wool to Twin Falls. Roger and Pence took their wool to Mountain Home, not caring to risk the Salmon river bridge which is very shaky. Jack Bratten said he was willing to take a long chance in order to get into a live town like Twin Falls. Jack's friends here are willing to rebuild the bridge rather than run the risk of losing his company. The wool clip is bright and light this year, the season being very favorable.

A merry party, consisting of three ladies and four gentlemen, started for the Little Smokey country last Saturday to enjoy an outing. They drove a four-horse team. At the top of the south grade at Blue-Lakes the ladies got out of the rig, fortunately as it happened. Scarcely had the team started down the grade when the sick leader stumbled and fell against its mate, crowding the latter off the grade. The men jumped and by quick work managed to cut the high wheeler loose. The other three horses and the wagon dropped to the bottom of the canyon, a distance of about 500 feet. The horses were instantly killed and the wagon was smashed to bits. Unhunted, the others secured another outfit and resumed their journey on Sunday morning.

Alex. McPherson, went to Boise on Wednesday to attend a meeting of the state board of industrial inspection and pure food commission.

Allen G. Fisher of Omaha has accepted a position with the Bedford Drug Co. Mr. Fisher is an experienced pharmacist and druggist whose specialty is prescription work.

During the thunderstorm Saturday afternoon lightning struck the yard derelict in John Havlick's yard, wrecking the derelict pole and stunning two workmen. Beyond being hurt for a time, the men were not injured.

F. M. Johnston of Cheyenne, Wyo., is here on the representative of State Engineer Johnston of that state and is working with Professor Walper inspecting the canal system and investigating complaints.

W. M. Lambing of Cedar Rapids, Iowa, was a Twin Falls visitor last night in 1892 with a government survey party. They ran parallels and subdivided the flat river and Owyhee districts. While here they camped at the old desert station on Rich creek and obtained their water supply from the creek. Mr. Lambing also brought the first steam road wagon across the desert from Kelso, Utah, to Boise. He is naturally much interested in the Twin Falls much interested in the Twin Falls tract, which he considers one of the finest garden spots in the universe.

While engaged in blasting holes for poles on the power line between Auger falls and Jerome last Monday Frank Henderson and Roy Lewis had a painful accident. They had set four blasts, three of which exploded. Not knowing that the fourth blast had failed, Lewis began to probe the hole with a crowbar. The blast went off, blowing Lewis' face with rock and giving Henderson a liberal sprinkling. Lewis was painfully cut on the jaw and forehead, bloodied, pieces of rock being driven into his eyes. He was brought to Twin Falls for treatment and is doing as well as could be expected. Henderson was less seriously hurt.

J. H. Miller, who was held in the county jail pending his trial on the charge of having passed a forged check at Buhl, made his escape on Monday night. The jail lock was forced from the outside by an accomplice of Miller, this being the second attempt to free him. Deputy Sheriff Dyer was on Miller's trail in an instant and the fugitive was recaptured at Mindook on Wednesday morning by Deputy Marshal Peterson, who brought him back that afternoon. Miller picked up a team of horses somewhere on the road and he may have to answer a charge of horse stealing in addition to the one already preferred. He is a morphine fiend and had several bottles of the drug in his possession when he was arrested in Mindook.

A slight explosion of gas resulted in a small fire in the steam laundry on Tuesday. The damage was slight.

The Epworth League society of the Methodist church will have a service of song next Sunday evening.

Mr. and Mrs. Stuart H. Taylor returned home Sunday afternoon from a six weeks trip with relatives in Glenwood, Minn.

Mrs. Wilbur Hill, who has been spending the past few weeks visiting her parents in Morris, Minn., returned home Sunday afternoon.

Chief of Police Dyer has engaged a force of men and will proceed to clean the townsite of weeds without delay.

Woods, Evans & Thomas sold yesterday the three ranches of E. B. Chamberlain to A. B. Fourness of North Dakota. The price paid was \$4,000.

An alarm of fire was turned in from the Twin Falls house last night shortly before midnight. Fortunately the blaze was extinguished before it had gained headway and the services of the department were not needed.

Dr. D. P. Milliken, the veterinary surgeon, who had been ill of brain fever for a time, was adjudge in the Blackfoot asylum. At times he was perfectly rational but his brain trouble recurred frequently and he became so violent that it was necessary to place him under restraint.

Somebody stole a pair of ebony drumsticks belonging to the Twin Falls band one night last week. The drum and sticks were left in the lobby of the First National bank building over night and in the morning it was found the sticks had been appropriated.

Rev. John Gourley will return home Saturday afternoon from Los Angeles, where he has been the past few weeks visiting his son Frank, who was seriously ill. Services will be resumed at the Freshwater church next Sunday morning at which time Mr. Gourley will preach.

Mr. and Mrs. J. M. Spackman entertained the members of the Ladies Aid society of the Presbyterian church and their husbands at supper at their home Tuesday evening. Mrs. Slater and Mrs. Young assisted Mrs. Spackman in serving. After supper the evening was spent in playing games and singing.

Twin Falls chapter, O. E. S., held their regular meeting last Monday evening and voted to postpone the meetings of the society until the second Monday in September. After the meeting the members present were invited down to Bedford's, where they were treated to ice cream through the courtesy of Dr. and Mrs. J. B. Ellis.

Bonham & Peters have rented the Pioneer Storage building opposite the McCormick bank and will occupy it as soon as alterations have been made.

G. B. S. Mead, who is connected with the stereotyping department of the New York Sun, is visiting his aunt, Mrs. S. B. Camp, for a few days.

S. H. Young and Mr. Barnes left Tuesday morning for a few days camping and fishing trip at Thousand Springs.

P. E. Doan, who has just returned from tour of northern Idaho and Nevada, says that in his 6,000 mile trip he saw no town that looked more alive than Twin Falls.

Rev. H. W. Parker of the Methodist church will leave the city next week for his vacation, which he will spend in Salt Lake City. Rev. Parker will be absent about a month.

The Poland Transfer and Twin Falls Transfer companies have consolidated under the firm name of the Twin Falls Transfer company. Mr. Swab will have charge of the business and of the new firm, while C. O. Poland and H. A. Rozell will look after the drayage.

The Junior Epworth League society of the Methodist church was entertained at the home of Miss Hall last Saturday afternoon. The little folks played games and later in the afternoon enjoyed some delightful refreshments which were served by Miss Hall.

German Lutheran services will be held in the Christian church next Sunday at 2:30 a. m., followed by English services at 3:30. English services will also be conducted at Ellersburg in the schoolhouse at 10:30 a. m. All are cordially invited. W. H. Schnabel, pastor.

The daughter and nephew of Robert Fleming, who have been seriously ill of typhoid, are reported as having passed the critical stage and doing well. Miss Fleming, who is a trained nurse, came on from Washington to be with the sick. Another daughter of Mr. Fleming's returned Wednesday to Ellensburg, Wash., where she will teach school.

Found—Black mare coll' branded J. R. on right shoulder. Owner may have same by proving property and paying charges by calling on George Laughlin, N. E. of SE 1/4 section 4, township 11, range 17.

If you have any good sized teams to sell, see the Brunk Brokerage & Realty Co., Idaho Dept. Store building.

Lost—At Blue Lakes, lady's long black kid glove. Finder please return to Perrine Hotel office.

If you want good garden hose, see BERRY & SWANK, Phone 107.

BOOTH GOES EAST.

Twin Falls Merchant Visits Eastern Markets.

C. E. Booth of the Booth Dry Goods Co. expects to leave next week for the east on a purchasing trip for fall and winter goods and expects to come back with the largest and best assortment of the newest things on the market. Mr. Booth will visit many eastern markets and get in close touch with the very latest styles, and states that he will be able to show Twin Falls ladies the noblest things in coats and furs to be bought and will make special effort to get an extra strong line of silks and satins, and Mr. Booth expects to employ a milliner to take charge of that department in his store and will purchase a large assortment of holiday goods. No doubt Mr. Booth will come home with the new lines right at hand and the Booth store will continue to be headquarters for goods of quality and merit.

The carload of dairy cows which are to be sold by the Brunk Brokerage & Realty Co. have been delayed in shipment and will not reach the city until the first of the month. See them if you want some nice choice dairy stock.

Strayed from Wyland place last week, a dark mare, branded S on left thigh. Finder return to Oscar Wyland's place, 1/2 mile NW from Twin Falls, or notify Charles McManis, Twin Falls, Idaho.

The Liberal Clear Store is headquarters for A. G. Spaulding sporting goods.

Whereupon the board adjourned  
July 12, 1907.

GEORGE L. CROCK, Chas.  
HARRY T. WEST, Clerk.

Twin Falls, Twin Falls County, Idaho,  
July 12, 1906.  
The board met in regular session  
for adjournment of July 10, 1906,  
the members being present, to-  
wiz: George L. Crocker, chairman; Y.  
H. Haddad, John Hansen, mem-  
bers of the board.  
Whereupon the following pro-  
ceedings were had:

Current Expense Fund.	
B. Hoag, assigned witness	
certificate	\$
Who Dept. Store, rent for jail	
T. Hamilton, premium on	
bonds	
at National bank, desks	...
S. Averett, plans for jail, dis-

Wester Lumber Co., lumber  
Whereupon the board ordered  
its board do now adjourn to  
the day of July, 1907.  
GEORGE L. CROCK  
test— Harry T. West, Clerk  
Twin Falls, Twin Falls County,  
Idaho.

The board met as a board of election to consider complaints in accordance with order made at a meeting of July 9, 1907, the following members being present, to-wit: Crocker, chairman; L. E. Safford, Joseph E. Burke, members of the board. Whereupon the verified complaint of Joseph E. Burke was read, and due consideration the board

the southwest quarter of section twenty-one (21), township eleven (11) south, range eighteen (18) from \$99,638.00, amount of 16 acres of land being too high for irrigation. Whereupon the verified commissioner Robert Druse was paid and a consideration the board instructed the assessor to reduce the assessed

quarter of section twenty-  
and the north half of the north  
quarter of section, twenty-  
(10), township eleven (11) sec-  
tion eighteen (18), from \$3,200  
to \$2,400, account of 10 acres of  
land being in the canal and 75 ac-  
res being a life water right.  
Whereupon the verified compta-  
Herman Stricker was read

whereupon the verified complaint of *Therese Jones* was read, and a consideration the board instructed the assessor to reduce the assessment on the southeast quarter of township *twenty-six* (26), township, etc.

one motion the assessor was ordered to add to the assessment the name of Jones Bros., east half northwest quarter, and lots one and two, section thirty (30), township (11) south, range nine (9), 1120 acres at \$12.00, \$140.00.

Salladay for \$25.00 to be used in caring for D. P. Milliken, indigent.

Whereupon the board canvassed the election returns from the special election held at school district No. 7, held on the 2nd day of July, A. D. 1907, in accordance with an order made and entered by this board on the 11th day of June, A. D. 1907, and after due consideration the board finds that said election was in all respects in accordance with the laws of the state of Idaho.

That at said election 18 votes were cast, as follows:

For creation of independent school district, yes—18.

For creation of independent school district, no—0.

Whereupon the board appointed the following trustees for Twin Falls Independent School district:

C. D. Thompson, to serve until the next school election;

W. A. Waters, to serve until the next school election;

E. B. Williams, to serve for a term of two years after the next school election;

C. E. McClain, to serve for a

school election; B. A. Baker, to serve for a term of four years after the next school election; H. H. Howe, to serve for a term of four years after the next school election.

Whereupon the board ordered that this board do now adjourn until the 18th day of July, A. D. 1907.

GEORGE L. CROCKER, Chairman.

Attest:  
HARRY T. WEST, Clerk.

July 18, 1907.

The Board of County Commissioners met in regular session on per adjournment of July 17, 1907, all the members being present, to-wit:

Saturday, John Hansen, members of the board.	
Whereupon the county treasurer was authorized to have the necessary blanks for his office printed.	
The following official reports for the quarter ending July 8, 1917, were received and ordered filed:	
C. J. Hahn, county treasurer, showing balance in treasury .....	\$12,201.94
H. T. West, auditor, showing in treasurer's possession.	12,201.94
F. E. Chamberlain, probate judge, fees earned .....	6.25
G. D. Aiken, sheriff, fees earned .....	109.10

collected	1,550.00
(H. T. West, clerk District court and ex-officio auditor and recorder, fees earned: F. E. Hutto, prosecuting attorney)	985.25
Whereupon the quarterly report of Edna Dellow was referred back on account of not being complete.	
Whereupon the petition of J. D. Rogers et al. was read, praying for the establishment of a herd district, and on motion the board set August 5, 1907, at 2 o'clock p. m., as the date for hearing said petition.	
No bids having been received for the construction of a temporary jail building, the board adjourned.	

Whereupon the board granted James McMillan, assessor and tax collector, leave of absence from the state for this month from August 1, 1907.

Whereupon the board ordered that this board do now adjourn sine die.

GEORGE L. CROCKER, Chairman.

Attest: \_\_\_\_\_

**Board of Equalization.**  
July 18, 1907.  
The board met as a board of equalization as per adjournment of July 13, 1907, all the members being present, to-wit: George L. Crocker, chairman; L. E. Galladay, John A. Hansen, members of the board.  
Whereupon, the board ordered that the assessment of the following named persons as shown on the assessment roll for 1907 be increased, and instructed the clerk to notify each person so to appear before the board on the 20th day of July, A. D. 1907:  
S. T. Hamilton, SE1/4 of SE1/4 sec.

of NW<sup>1</sup>/<sub>4</sub>, section 22, township 9 S., range 17 E., raised from \$12 to \$20.  
C. W. Dege, lots 2 and 4, section 23, township 9 S., range 17 E., raised from \$5 to \$10.  
W. W. Hunsicker, NE<sup>1</sup>/<sub>4</sub> of SW<sup>1</sup>/<sub>4</sub>, and NW<sup>1</sup>/<sub>4</sub> of SE<sup>1</sup>/<sub>4</sub>, section 7, township 10 S., range 17 E., raised from \$800 to \$900.  
H. O. Miller, S<sup>1</sup>/<sub>2</sub> of NE<sup>1</sup>/<sub>4</sub> and lots 1 and 2, section 6, township 10 S., range 17 E., raised from \$1,550 to \$1,800.  
August Hertschick, NW<sup>1</sup>/<sub>4</sub>, section 22, township 10 S., range 18 E., raised from \$1,600 to \$1,920.  
H. H. Hergenrother, NE<sup>1</sup>/<sub>4</sub> of NW<sup>1</sup>/<sub>4</sub>, section 7, township 10 S., range 17 E., raised from \$1,700 to \$1,900.

1, township 10 S., range 16 E., raised from \$500 to \$900.  
 W. Sallinger, N. P., of N. P., section 1, township 10 S., range 16 E., raised from \$100 to \$150.  
 J. W. Hill, S. E. of SW 1/4, section 26, township 17 S., range 18 E., and N. E. of NW 1/4, section 25, township 11 S., range 18 E., raised from \$1,410 to \$1,810.  
 The board dropped the bond ordered this year and adjourned to the 19th day of July, 1907.  
 GEORGE L. CROCKER, Chairman.  
 HARRY T. WEST, Clerk.

**Board of Equalization.**  
The board met as a board of equalization as per adjournment of July 18, 1907, all members being present, to-wit: George L. Crocker, chairman; L. E. Salladay, John Hansen, members of the board.
