TWIN FALLS NEWS, TWIN FALLS, IDAHO, FRIDAY, AUGUST 16, 1907.

NUMBER 42

## SALMON RIVER PROJECT NOW AN ASSURED FACT

State Accepts the Company's Proposal and Makes Formal Application for the Segregation of 150,000 Acres Adjoining the Twin Falls Tract on the South and Extending from Rock Creek to the Salmon River—Contract Involves Construction of Electric Railway.

The Twin Falls-Salmon River Irrigation company's proposal for the segregation of 150,000 acres of land adjoining the Twin Falls tract on the south and extending from Rock Creek to the Salmon River—Contract Involves Construction of Electric Railway.

be great. However, the distribution problem presents no difficulties and the project is the most compact as a feasible ever launched. No trouble whatever was encountered in financing the enterprise, work on which has already commenced and is being pushed through to completion without delay.

Perhaps the most important feature of the Salmon project, so far as the Twin Falls tract is concerned, is the proposed construction of an electric railway from the city of Twin Falls through the territory covered by the canal project. The route for this railway has already been surveyed and the construction of the road forms a part of the company's contract with the state.

The importance of the Salmon project to the Twin Falls tract can scarcely be estimated. It will place under cultivation an area little less than that of the south side project, and will open up a tract which will sustain a population equal to that of the south side. Millions of dollars will be expended on the construction works and Twin Falls will reap all the benefit.

From time to time Mr. Hayes investigated the project until he was satisfied of its feasibility. He then communicated his discovery to George F. Sprague and C. B. Hurt, who took up the work with him and launched the project. Briefly stated, the Salmon river enterprise includes a concrete and steel dam 200 feet high on the Salmon river, 1200 feet below the bridge across that stream which is located on township 14 S., range 15 E., 35 miles southwest of Twin Falls. By means of a tunnel, one and one-half miles in length the water will be conveyed to 150,000 acres of land equal to that on the Twin Falls tract. The reservoir has a capacity of 200,000 acre feet and the water will be hauled up for a distance of 15 miles. This storage, together with the natural flow of the stream, will furnish a water supply second to none in the west, as the Salmon river has a drainage area of 1700 square miles, all of which is mountainous country where the snow fall is abundant.

Roughly speaking, the main canal of the Salmon project will run about three miles north of the Point ranch, crossing Deep creek near the town of Contact, passing to the north of Goat springs and the Warm creek field, and terminating in the vicinity of Rock Creek. This segregation practically covers the territory between the high line canal and the foothills.

Within the segregation are desert entries aggregating about 12,000 acres which are not included in the area to be covered by the project, and which, by the terms of the contract with the state, cannot be watered by the canal system. In other words, the water is made directly applicable to the Carey tract lands and cannot be used for any other purpose.

Water right under the Salmon project will be sold for \$10 an acre as the expense of constructing the immense dam and the long tunnel will

## MACHINERY FOR KIMBERLY-MILL

ARRIVES AND WILL SOON BE IN POSITION.

Restaurant Changes Hands—Enjoyable Dance in the New Amusement Hall—Junior Ball Players Defeat Twin Falls Boys—Farmers Busy.

KIMBERLY, Idaho, Aug. 14.—C. F. Romig has rented the Clyde building on Main street and will use it as a residence for his family this winter. Mrs. Romig and two children arrived here last week to make their home here. Mr. Romig is principal of the Kimberly school and expects to open school early in September.

On Thursday afternoon, the 22nd, the last meeting was a social one and was held at the home of Porter Tingle last Thursday, when Mrs. Pringle and Mrs. M. H. Wright received. The meeting was well attended and all reports are enjoying the season.

On Thursday, the 15th, the Kimberly restaurant and hotel, which is now owned by Ed. Bennett taking possession. Mr. Ashdown has recently accepted a position as chief in Cameron & Durey's restaurant, and will leave for Salt Lake. Mr. Ashdown has visited in Salt Lake. Mr. Ashdown has visited in Salt Lake.

The dance given in the new hall on last Friday evening was well attended considering the disagreeable weather, which kept away a good many people who would otherwise have been out. Those who did attend spent a very pleasant evening and are hoping that it is only a sample of many more pleasant ones to follow soon.

The young men of Kimberly and Twin Falls ball tossers met on the Twin Falls diamond Sunday and played a game over which they were much interested and excited. The score was 17 to 25 in favor of the Kimberly lads. Twelve of the Kimberly fallies were made in one inning.

Church services will be held in the schoolhouse on Sunday evening by Mr. Mueller of Twin Falls. This will be Mr. Mueller's last Sunday here before conference and he does not expect to be returned to this field. A large attendance is desired.

Roy Hudson has been seriously ill the past week suffering from an attack of typhoid and cerebral fever. C. C. Golden is spending the week here visiting with Mr. and Mrs. G. H. Traut.

D. E. Beland, father of Mrs. C. C. Paris, has purchased a small plot of land from George Peterson and is erecting a dwelling upon it. The land adjoins the townsite on the south.

## BOISE PITCHER AN EASY MARK

SLAUGHTERED BY TWIN FALLS BATSMEN.

Oakley Came Reinforced and Ready to Gain Revenge on the Irrigators but Bliss Fooled Them and Sweetley's Big Bat Kept Them Chasing.

"Boise Bats in the Brush," or "The Cuckoo Coning Hurrah! Hurrah!" was the title of the comedy enacted on the Twin Falls ball grounds yesterday afternoon when Jim Worthington, Benji Howells, Doc Aaron and other good fellows from Oakley brought nine husky ball players down to do battle with the irrigators. It was a ferocious game and could only be described by a Rider Hanged. For 12 innings the athletes perspired and at the conclusion the score stood 10 to 9 in favor of Twin Falls. It was a game of many angles, with several pronounced tips and curves. Before the Oakley boys came it was whispered in Twin Falls that the mischief would be done by the Boise fans, who would devour the Twin Falls lads without any mercy or compunction.

Campbell showed all he had yesterday. He stands a chance of making good with the Piler Juniors. Datta Farrall, Mundorf and mighty Mitchell, also of Boise, performed very well. Everett Sweetley in particular took a good fancy to them. Three times he disturbed the Moorman addition and twice he stopped Campbell's bean ball.

Roy Hudson has been seriously ill the past week suffering from an attack of typhoid and cerebral fever. C. C. Golden is spending the week here visiting with Mr. and Mrs. G. H. Traut.

D. E. Beland, father of Mrs. C. C. Paris, has purchased a small plot of land from George Peterson and is erecting a dwelling upon it. The land adjoins the townsite on the south.

Mrs. E. B. Precher of Twin Falls sends the latter part of the week with Mrs. R. H. Wright.

Mrs. Reese and daughter, who have been visiting Mrs. W. McCarty for the past two months, left for her home in Livingston, Montana, on Saturday.

## CROWDING WORK ON TROLLEY LINE

MILNER AND JEROME WILL SOON BE CONNECTED.

Road Will Eventually Be Extended to Boise and Also to the Southern Pacific and Western Pacific in Nevada—Heavy Shipments of Sheep.

MILNER, Idaho, Aug. 14.—Work is progressing rapidly on the electric road from Milner to Gooding. Gradually it is intended to extend this road to Boise and down into Nevada eventually.

Improvements at Jerome are moving right along. Bulldozers are being used to completion and the water in the new well is proving of unusually high quality. Electric power for lighting will be supplied within a short time.

Miss Belle Chambliss, state superintendent of instruction, of Boise, and Mrs. J. H. Cash of Twin Falls spent Friday and Saturday in Milner. Mr. and Mrs. Northrop were very much pleased with Milner and the hotel here and expressed a determination to come back next summer and spend a month. While here they were guests at the company house.

The ball game between Oakley and Milner at Milner on Saturday resulted in a score of 13 to 12 in favor of Milner.

A dance was given Saturday evening after the ball game at Riverside inn which was largely attended. Music was furnished by part of the Twin Falls orchestra.

Misses Greenow and Davies and Messrs. J. Woods and Dodd came up from Twin Falls Saturday evening to attend the dance and spend Sunday in Milner.

Some day before long Milner will have a beautiful dancing pavilion overlooking the dam and then we hope the Twin Falls people will come up often and enjoy it.

Messrs. A. J. Henry, F. C. Webb, Thayer Palmer and their families, Mr. F. L. Evans and Miss Dolly Webb have returned to their homes where they had summer, returning to Milner in the evening.

D. C. MacWhiters has just returned from his home to make their home. He was accompanied by Mr. and Mrs. L. B. Perrine and daughter, Miss Stella. They will be in Twin Falls for some time.

## BOISE PITCHER AN EASY MARK

SLAUGHTERED BY TWIN FALLS BATSMEN.

Oakley Came Reinforced and Ready to Gain Revenge on the Irrigators but Bliss Fooled Them and Sweetley's Big Bat Kept Them Chasing.

"Boise Bats in the Brush," or "The Cuckoo Coning Hurrah! Hurrah!" was the title of the comedy enacted on the Twin Falls ball grounds yesterday afternoon when Jim Worthington, Benji Howells, Doc Aaron and other good fellows from Oakley brought nine husky ball players down to do battle with the irrigators. It was a ferocious game and could only be described by a Rider Hanged. For 12 innings the athletes perspired and at the conclusion the score stood 10 to 9 in favor of Twin Falls. It was a game of many angles, with several pronounced tips and curves. Before the Oakley boys came it was whispered in Twin Falls that the mischief would be done by the Boise fans, who would devour the Twin Falls lads without any mercy or compunction.

Campbell showed all he had yesterday. He stands a chance of making good with the Piler Juniors. Datta Farrall, Mundorf and mighty Mitchell, also of Boise, performed very well. Everett Sweetley in particular took a good fancy to them. Three times he disturbed the Moorman addition and twice he stopped Campbell's bean ball.

The young men of Kimberly and Twin Falls ball tossers met on the Twin Falls diamond Sunday and played a game over which they were much interested and excited. The score was 17 to 25 in favor of the Kimberly lads. Twelve of the Kimberly fallies were made in one inning.

The dance given in the new hall on last Friday evening was well attended considering the disagreeable weather, which kept away a good many people who would otherwise have been out. Church services will be held in the schoolhouse on Sunday evening by Mr. Mueller of Twin Falls. This will be Mr. Mueller's last Sunday here before conference and he does not expect to be returned to this field. A large attendance is desired.

Roy Hudson has been seriously ill the past week suffering from an attack of typhoid and cerebral fever. C. C. Golden is spending the week here visiting with Mr. and Mrs. G. H. Traut.

D. E. Beland, father of Mrs. C. C. Paris, has purchased a small plot of land from George Peterson and is erecting a dwelling upon it. The land adjoins the townsite on the south.

Mrs. E. B. Precher of Twin Falls sends the latter part of the week with Mrs. R. H. Wright.

Mrs. Reese and daughter, who have been visiting Mrs. W. McCarty for the past two months, left for her home in Livingston, Montana, on Saturday.

H. L. HOLLISTER To whose pluck and perseverance is due the completion of the Shoshone Falls Power Plant.

**Why Not Buy Clothing Where Everybody Is Treated Alike?**

Where everybody's money buys honest value, paying nothing for fancied or fictitious superiority, where no class distinctions are paid any attention to, where the farmer or the workman pays for what he gets the same amount as the banker or capitalist pays, and no more, where "good" clothing only is carried, where suits that sell for \$5.00 are carried and where suits costing \$20.00 are sold; at the former price you get your money's worth, and at the latter price you pay less than anywhere else in town for the same quality of goods.

**Eldridge Clothing Co.**

Electric current from the Shoshone Falls power plant will be transmitted into the city of Twin Falls on Thursday August 15. The power has been run through to the city and found to be satisfactory. The power has been running for several days and is found to be satisfactory. It generates 500 kilowatts, or about 850 horse power. The transmission is operated by a water wheel manufactured by the Harlan Brothers of Dayton, Ohio.

The tunnel through which the water is carried is 110 feet in diameter, 120 feet in length, with a drop of about 187 feet. The water is carried in concrete at the upper end of the tunnel and the flow, at the hydraulic rate value at the lower end of the pipe, will be 1000 cubic feet per second to the square inch. The unit which is now in operation will cut utilize about one-fourth of the energy.

The completion of the Shoshone Falls power plant is a source of great gratification to all who are interested in the project. It has been under way for several years and the completion has been long expected. The power plant has not been touched in the past and it is now in a state of readiness for the completion of the project. The power plant is situated in the Wood River district, Salt Lake City, and is the only one of its kind in the West.

Mr. Hollister was fortunate in all that he did and did not lose the sale of the power plant. He has been successful in his own state, who has been a stumbling block in the way of the development of an electric power plant. He has been successful in his own state, who has been a stumbling block in the way of the development of an electric power plant.

Not only has Mr. Hollister been successful in his own state, but he has also been successful in his own state. He has been successful in his own state, but he has also been successful in his own state.

# SHEEP FEEDING ON TWIN FALLS TRACT

Profitable Enterprise When Discretion Is Used—Care Should Be Exercised In Selecting the Stock and Also in Feeding—Mutton Is the Primary Consideration, Though the Wool Clip is a Factor Which Should Not Be Overlooked.

From Murlough to the Salmon river the Twin Falls tract is dotted with hay stacks. From every field they rise, mute interrogations mark to the question, "What are we going to do with our feed?" This question every farmer on the tract has probably asked himself at some time or other but it has never been satisfactorily answered. During the constructive period, while the acreage in alfalfa, clover and other grass was comparatively small, the farmers had no trouble in selling their hay at good prices. Now, however, conditions have changed. An enormous acreage was seeded to alfalfa on the Twin Falls tract this year and there will be almost enough of that excellent fodder grown here to feed the entire state of Idaho. Alfalfa is the foundation for all crops on irrigated lands and we must grow it whether we can sell it or not.

It is frequently held in check so as to be scarcely noticeable when the sheep first arrive from the range. Its development appears a few weeks later, however, and unless proper precautions are taken it becomes a serious interference with good results in fattening; besides a source of infection for the year and premises with the germ of this disease. On this account it is generally considered best to dip all range sheep brought to the farming sections for feeding. The dipping should be done immediately or very soon after arrival and repeated in about ten days to insure effective results. In case this has not been done promptly on the arrival of the sheep and the disease makes its appearance during the winter, it is generally advisable to attend to the dipping without further delay, even though the weather may be severe, as postponement will only prolong the difficulty and at the same time cause greatly diminished gains as well as a lower value on the market. Sheep may be dipped over at a zero temperature with less menace to the flock than to allow the disease to get under way.

As before stated, the climate on the Twin Falls tract is particularly suited for sheep feeding. A dry, keen winter atmosphere is conducive to the growth of the flock and large gains. On the other hand, damp, murky weather always means unsatisfactory results. While shelter is not an essential necessity, it is a distinct advantage. A constant and liberal supply of bedding is of even greater importance than shelter, and water and salt should be accessible in fattening pounds at all times. The water supply constitutes an important factor and any irregularity concerning it always entails loss.

### MILK COWS AND THEIR MOODS

Old Farmer Tells of His Experience With Different Kinds.

I have had many years of experience on the farm and have also had much experience in the handling of dairy cows. Perhaps I should say farm cows, for my cows have always been the kind that are kept on most of the farms in this section, a pure bred dairy cow in my life though I believe in that kind of a cow. I have only one kind I can offer for not having kept in the neighborhood. As I have but four cows myself it does not pay me to keep a bull. Besides, if I were going to buy a dairy bull it would be a good one and I have not the money to spare for that kind of animal as I should want. Now I can hear you say, "Go in with your neighbors and buy one for me." That sounds easy, but it requires too much talk and a very busy man and that does not feel like devoting my time to trying to convert my neighbors to any particular way. The few cows of each and every kind is therefore explained. During all the years that I have handled cows there has been growing upon me the true that cows are immeasurably in their characteristics. I do not know if pure bred animals are any nearer alike than are the non-pure bred ones, but I believe that some wide difference will be found. That should be one of the advantages of handling the pure breeds. But in the difference in the room for hope of better things when farmers should have learned to appreciate the best and also to avoid the worst. As I think over the list of cows I have owned, I find material on which many columns of matter could be written. There was one cow that was an even tempered old soul, as regarded human beings, but she was a fighter with regard to the animal world, and it did not make any difference whether the other animal were another cow or a pig. She would not only fight, but would force the fight. And yet she was gentle as a lamb in her relation to even little children. There was another cow that was noted for mere stubbornness. I never saw her to fight anyone or anything, but if she made up her mind not to go into the barn it was impossible to get her in. If she was assailed with harsh words or threats she replied with stubbornness only. It was her characteristic. There was another cow, a tomahawk raised cow of her Texas conformities. She was simply a great coward and could be easily frightened. Then she would simply bellow, though she had the most terrible horns of any in the herd. She never got over being afraid of her attendants. Another cow was of the kind that wanted to be petted and made much of. Her only ambition in life seemed to be to receive attention from her keepers. When going to and from pasture she preferred the company of the man instead of the other cows and would walk by his side like a dog. I believe there is as much difference in the makeup of cows as there is in the breedings, and they show about the same characteristics. Perry Zimmerman in the Northwest Pacific Farmer.

### BUT THE CALF WAS UNGRATEFUL

After Being Rescued from a Shaft It Kicked Its Benefactor.

The members of George H. Binkley's engineering corps performed a notably humane deed on Tuesday when they rescued a calf from the bottom of a mining shaft at Goat Springs. The rescue was effected by means of halter ropes, neckties, belts and handkerchiefs, knotted together and wound around the anatomy of the young bovine.

The members of the engineering party noticed a cow bawling in the vicinity of one of the mining shafts at the springs on Sunday, and they suspected that she had trouble on her mind. They were going to investigate, but fear of breaking the Sunday law deterred them. Brother Binkley, who was reading his Bible at the time, found therein a passage which said that a man might pull his ox or his ass out of the mire on Sunday without violating any of the commandments. It took him so long to find the passage that the boys had no time to organize a rescue party that evening. On Monday they were too busy, but on Tuesday the big event was pulled off, or rather the calf was pulled out. Warner Roberts hoisted the job. From the top of the shaft, which was 10 feet deep, the calf looked ratty but belligerent. It occupied all the space at the bottom. Some of the boys were in favor of bringing over Buck Rice's well drilling machine and lifting the calf by means of a sling. This proposition was voted down and the boys began to reach together their belts, handkerchiefs and neckties. With the impromptu rope they got a hitch around the calf's neck and up came the calf.

### Train Load Parties for National Irrigation Congress.

Many carload and trainload parties are being made up in various parts of the west to attend the National Irrigation celebration in Sacramento in September. Special low railroad rates have been granted over all transcontinental lines and the occasion affords an opportunity to see California under the most advantageous conditions in the harvest season. A feature of the irrigation festivities will be popular excursions for visitors into the beautiful valleys of the state. Steamboat and railroad trips to great orchards and vineyards laden with "handicrafts" will be visited. California's vast agricultural industries will be seen at their most interesting stage of activity. An opportunity will be afforded of visiting the irrigation systems of California and other states. No such chance of seeing things in the Pacific states is likely to occur again for many years. The local end of the events will be rounded out with a continuous series of charming and splendid entertainments. There will not be a dull moment in Sacramento from the falling of the gavel which calls the National Irrigation congress to order until the great convention itself "passes" irrevocably into the realms of history.

### SEED AND COMMISSION HOUSE

To Be Opened in Twin Falls by Salt Lake Capitalists.

Augustus Vogler of the Vogler Seed and Produce Co. of Salt Lake City and William B. Hughes, also of Salt Lake, have leased the two warehouses of the Pioneer Storage & Commission Co. for the purpose of opening a seed, commission and produce business in Twin Falls. While the two gentlemen have not announced their plans as yet, it is supposed that they will conduct a general seed, produce and commission business, somewhat similar to that of the Vogler Seed & Produce Co. Mr. Vogler is one of the best known and most successful men in his line of business in the west and it is fortunate for Twin Falls that he has decided to enter this field. He is familiar with irrigation and the growing of seed on irrigated land. This feature of agriculture is destined to become very important on the Twin Falls tract and Messrs. Vogler and Hughes will doubtless foster it as it should be fostered.

### Warrior Roberts is Ready to Testify that Calves have neither Reasoning Power nor Sense of Gratitude.

After all he did for the impounded animal, Mr. Roberts ordered several while he was unfastening the rope and then it scampered off in the brush without thanking "thank you." It was a very unfortunate termination to the heroic deed as Roberts has not seen his best girl for two months and has figured on an early visit to Twin Falls. Mr. Binkley orders several pounds of tenderloin steak for Roberts' damaged eye and made application to Andrew Carnegie for hero medals for the "wicked bunch."

Wanted.  
If you have any hogs, sheep, or mares to sell, communicated with A. D. McKinlay at the Cedar Draw ranch on the township road to Bull.

For Sale.  
Registered O. I. C. bonr, two years old, gilt edge building, good bones. George Bassett, Twin Falls, Idaho.

## MILWAUKEE

"The Milwaukee Leads"

The MILWAUKEE NEW NO. 15-BINDER is the strongest built Binder in the field today and is the only Binder that will stand the irrigation ditches and do perfect work. Light running and easy to adjust.

Milwaukee Chain and Gear Mowers and Hay Rakes, the only Rake that can stand raking sagebrush.

SWEEP RAKES, STACKERS AND BINDING TWINE.

### GREAT TWIN FALLS CANAL SYSTEM

25,000 Acres of Carey Act Land

Still open for original entry under this Canal System

Land, 50 cents per acre. Perpetual water rights, \$25 per acre, ten annual payments. Vehicles from Bull furnished free to those who desire to inspect land. Prospective entrymen accompanied by competent locators.

This might be mistaken for a picture of Geromino raiding a modern farm, but it is really a snapshot of Jake Fritz gathering cherries at Blue Lakes for an admiring party of ladies. Jake is seldom aroused to action excepting when ladies are around. At the beckon of the fair sex he comes a volcano of energy. He has actually been known to do real work at the behest of a pretty girl, all of which goes to show that every one of us have our weak points. Jake is not nearly so black as his picture would indicate. In fact there is no whiter man in the west, measured by every standard known to humanity. Like the great Twin Falls tract, Jake will bear the closest inspection.

## Here's Your Chance

To Make Your Hay Worth Something by Feeding it to Fine Blooded Stock.

## J. W. CRAVEN

Has just received a mixed car of Thoroughbred Stock which can be seen at his ranch 11-2 miles East of Twin Falls.

Pure bred, registered Jersey Cows.  
One pure bred Jersey Male.  
Several head of Trotting Fillies and Geldings.  
Napoleon, the finest Jack in the west, and Four other magnificent Black Mammoth Jacks.  
Pure bred, registered Duroc Jersey Red Hogs.  
Pure bred, registered Chester White Hogs.  
Pure bred, registered Berkshire Hogs.

If you want to pick up some well bred, healthy stock at a reasonable figure, call at the ranch, 11-2 miles east of town.

## J. W. CRAVEN, Twin Falls

## BUHL

Buhl, located 17 miles west of the city of Twin Falls, will be the leading city on the west end of the tract and the distributing point for a large area, including the stock districts of Three Creek, Butte and Roseworth, likewise the farming and fruit growing districts of Hagerman, Kanoka Flat and Salmon. The railway track is now being laid between Twin Falls and Buhl and will soon be in operation. Buhl has a splendid gravity system of waterworks, with a pressure of 100 pounds in the business section. It will be supplied with electric power and light this spring. Business property values in Twin Falls have increased 500 per cent in less than two years. The same opportunities for investment are presented at Buhl. Now is the time to buy. Write for literature and further information. Address all communications to

# TWIN FALLS COUNTY MAKES FINE SHOWING

Stands Eighth in Assessed Valuation and in Crowding—Many Counties Which Have Been Organized for Years—Also Has the Distinction of Having the Highest Rates in the Value of Patented Land—State Assessment Will Approximate \$100,000,000.

The state board of equalization met in adjourned session on Tuesday with all the members present. Auditor Robert Bragaw reported that the abstracts from all the counties had been received and a general review was made of the same. Blaine county was the last to report and the abstract shows a decrease in the assessed valuation amounting to \$319,936, and a shortage of 3000 acres in patented lands. There is an increase in the valuation of patented lands, while more than 180,000 sheep are unaccounted for in the abstract. It is presumed that these have been classed as "wandering" and were therefore not returned at an assessed valuation by the county. The abstract of Blaine county is defective in the same respects as that of Fremont, which shows a decrease in the assessed valuation of that county amounting to \$185,006, which is accounted for by 23,000 acres of missing patented lands and missing sheep. The Elmore county abstract also presents some inconsistencies that will come up for special hearing by the board.

Auditor Bragaw, as secretary of the board, was instructed to summon the assessors of Fremont, Elmore and Blaine counties to appear before the board on Tuesday morning, August 20, at 10 o'clock.

The returns show an increase in acreage of patented lands of 821,675, over 4,488,722 returned last year. Increase and decrease of the assessed valuation of these lands by the acre in the different counties as shown by the returns are as follows:

Ada, decrease 52 cents; Bannock, decrease 4 cents; Bear Lake, increase 4 cents; Bingham, increase \$1.13; Blaine, increase 13 cents; Boise, decrease \$1.31; Bonner, increase 59 cents; Canyon, decrease 42 cents; Cassia, decrease \$1.07; Custer, same as last year; Elmore, increase—\$2.61; without 3000 acres missing; Fremont cannot be figured owing to 23,000 acres missing land; Idaho, decrease, 3 cents; Kootenai, increase 67 cents; Latah, increase 46 cents; Lemhi, decrease, \$1.02; Lincoln, decrease 41 cents; Nez Perce, decrease 39 cents; Owyhee, increase 17 cents; Shoshone, increase \$1.20; Shoshone, increase, 1 cent; Twin Falls, increase \$5.22; Washington, increase 25 cents.

The total assessed valuation of the state, not including railway telegraph and telephone lines, as returned to the board, is as follows:

Ada	\$8,984,554	\$19,508,699
Bannock	2,901,020	3,068,453
Bear Lake	1,241,802	1,297,727
Bingham	5,746,828	7,056,101
Blaine	2,166,861	1,847,825
Boise	1,338,813	1,546,300
Canyon	4,280,134	4,858,763
Cassia	3,129,952	3,228,697
Custer	1,019,220	1,085,861
Elmore	1,016,829	1,163,974

Fremont	3,661,946	3,280,904
Idaho	2,804,310	2,929,313
Kootenai	3,817,894	2,926,961
Booner	3,015,301	3,015,301
Latah	4,560,304	4,969,045
Lemhi	1,392,613	1,450,649
Lincoln	1,697,346	684,737
Nez Perce	7,820,805	8,888,233
Owyhee	1,974,022	2,207,700
Owyhee	1,890,853	2,114,582
Shoshone	7,283,937	9,688,742
Washington	2,868,946	3,272,659
Total	\$68,266,742	\$76,810,142

State Auditor Bragaw estimates that the assessment of the railway, telephone and telegraph lines when added to this will bring the figure to \$95,000,000. It is also expected that increases will also be shown in Blaine and Fremont county when sheep are added to the assessors of property overlooked in making their returns, as these returns have in years gone by amount- ed sufficiently to make up the difference. Blaine county, reporting yesterday, returns property as follows:

Real estate and improvements, Patented lands, acre 140,549, valuation \$99,549; improvements on patented lands, \$164,200; improvements on unpatented lands, \$15,625; city and town lots, \$102,977; improvements on town lots, \$22,320; patented mining property, acre 8204, valuation, \$41,020; improvements on mining property, \$56,527. Total assessed valuation, real estate and improvements, \$1,202,016.

Personal property—Bank stock, \$116,500; cattle, 13,375, valuation \$165,504; sheep 20,150, \$41,020; horses \$212, \$19,640; avian \$39, \$1556; goods, wares and merchandise, \$127,825; wines and liquors, \$8300; shearing plants, \$2200. Total personal property, \$4,310. Grand total assessed valuation as equalized by the county commissioners, \$1,817,825.

### NEW STALK CUTTER PATENTED

Can Be Attached to Various Wheeled Machines.

R. B. Humm of Chalkaska, Indian Territory, has patented a new stalk cutter. This revolving cutter is for use in cutting stalks of any kind upon any character of ground. It is absolutely complete in itself but so constructed that it can be conveniently attached to different wheeled machines, for example, disk cultivators or disk harrows. The cutter may be applied without disturbing operating parts or interfering with their functions, it being also capable of almost instant removal, leaving both it and the machine intact.

Lost—Wednesday morning, a grey leather hand bag. Return to News office.

"The Doxie," ask Moore & Wansley

Blue Lakes has always been the playground and breathing place of the Twin Falls tract. Bert Perrine has sacrificed the privacy of his beautiful home for the benefit of the public. Campers ravish his orchards, plier his fruit and impose on his hospitality in many ways but he says nothing. So long as the intruders do not break the branches of the fruit trees and try to catch the nut from in Alphonso orch they are tolerated. These pictures show how the children enjoy themselves at the lakes. The berries are the property of Lake Filer, who raised them from kittens and trained them to be gentle with children.

Pranks on the Patient Burros at Blue Lakes.

TWIN FALLS NEWS

Official Paper of Twin Falls County. George B. Frason, Editor.

Published every Friday by THE NEWS PUBLISHING COMPANY TWIN FALLS, IDAHO

Subscription Rates. One Year, in Advance, \$2.00 Six Months, in Advance, \$1.00

Watered as second-class matter, December 12, 1904, at the postoffice at Twin Falls, under the Act of Congress of March 3, 1879.

The officials of the United States land-office in Hailoy have decided the homestead contest case against Mr. Spencer of Burley adversely to the contestant. Mr. Spencer will probably appeal to the general land office and the secretary of the interior.

NO FLOODS; NO DROUGHTS.

A feeling of genuine alarm exists in eastern Washington and north Idaho because of the possibility of the wheat crops being ruined by rain.

GREAT YIELD OF CLOVER SEED

Obtained by Martin Sullivan on his Farm Near Kimberly. Martin Sullivan reports having obtained a splendid yield of red clover seed on his farm near Kimberly.

van has not been stung as yet. The supposition is that Dr. Albee's bees come down from Rock Creek to feast upon Mr. Sullivan's clover patch.

SEWER ASSESSMENTS.

Less than half of the lateral sewer assessments have been paid. Payments will become delinquent Aug. 20, on which date they will be turned over to the county tax collector.

NOTICE.

To the Owners of the Lots as Hereinafter Described. You, and each of you, are hereby notified that the assessment roll for lateral sewer assessments to cover the cost of construction of lateral sewers in lots of, abutting on, or adjacent to the lots as hereinafter described, has been filed in the office of the city clerk of the City of Twin Falls, Idaho.

- Southwest Side of 4th Avenue—Lot 5, block 15, 50 feet, \$21.12. Lot 6, block 15, 50 feet, \$21.12. Lot 7, block 15, 50 feet, \$21.12. Lot 8, block 15, 50 feet, \$21.12.

- Southwest Side of 8th Avenue—Lot 1, block 55, 25 feet, \$10.56. Lot 2, block 55, 25 feet, \$10.56. Lot 3, block 55, 25 feet, \$10.56.

Contractors. Notice—I want a 200 barrel cistern built at once in section 6-11-18; contractor to furnish every thing. Further particulars inquired of S. T. Hamilton & Co.

HANSEN FARMERS BEGIN THRESHING

GREAT IMPROVEMENT AT THE CHARISWARD FARM.

Joe Williams Has a Slight Misunderstanding with a Cayuse—Professor Hinton's Departure for Twin Falls is Regretted by Hansen Citizens.

HANSEN, Idaho, Aug. 14.—Professor Hinton has been chosen assistant in the Twin Falls schools to teach mathematics, bookkeeping and physics. Hansen people are much pleased to learn of the professor's elevation to this position but regret very much to lose his influence in our own community.

The Charisward Farm Co. is making things hum on the section. With its engine and grubbing attachment, it has cleaned up acres in the past week.

Mr. Hamilton came out from Twin Falls Saturday to look over the trees. He brought with him a party of visitors who desire to make investments in real estate and probably in live property.

W. J. Calkins is figuring on doing some building on the Vangilder place which he has leased. C. E. Edwards was a Twin Falls business visitor Monday.

Joe Williams received a severe shanking up last Sunday and one which will be long remembered. When he became conscious of his surroundings he requested his brother to litch the unruly cayuse to a rig and he would see if it would bite better than steel.

Mr. Galley is numbered among the sick this week. J. L. Rose's little one was quite sick the first of the week.

Ed Criswell completed his threshing Wednesday. His crop somewhat smaller than last year, which made a fair yield. The Cheney rig is doing the work. They will move to the Kelth ranch from Mr. Criswell's place.

James Hyatt and Jack Arthur from Heyburn were guests of T. T. Rutledge Wednesday.

Preparation for the housing and entertainment of the great crowd of visitors attracted to Sacramento in September for the Irrigation Congress and Interstate Exposition is going forward rapidly and everything will be in readiness on the date fixed.

John McArthur, 8-foot walk street, John McArthur, 8-foot walk street, John McArthur, 8-foot walk street.

STUART H. TAYLOR, City Clerk. Contractors. Notice—I want a 200 barrel cistern built at once in section 6-11-18; contractor to furnish every thing.

BREVITIES

Mrs. E. W. Davis, who has been ill for the past two weeks, is greatly improved. Mrs. Stuart H. Taylor entertained a small party of friends at her home Wednesday afternoon. A luncheon was given in honor of Harold E. Dodd Tuesday night. Frank Hayward, J. W. Voorhees and Morgan Hoop. Mr. and Mrs. H. O. Milner and daughters will leave Saturday for a several weeks visit in their former home at Atlantic, Iowa. A china-shower was given in honor of Miss Cora Greenhow Monday afternoon at the home of Miss Winifred Davies. In the party were Miss Elva McCollum, Miss Mary Barrette, Miss Florence Higbee, Mrs. Edward Larned and Miss Nan Greenhow. G. M. Milner of Salt Lake City, a son of E. A. Milner of Buhl, is in Twin Falls looking over the electrical plant. Mr. Milner is an electrical engineer of the most modern school and if he finds that conditions warrant his doing so he will locate here. With the advent of power there should be good demand for the services of an electrical engineer of Mr. Milner's capability.

Miss Myrtle McMillan returned home Monday afternoon after a visit with relatives in Pocatello. Charles Mearney returned here Tuesday afternoon from a trip to his former home in Anaconda, Mont. Miss Libbie Cumming and John Cumming of Sacramento, who arrived in the city Sunday afternoon to attend the funeral services of their brother, Alex. Cumming, returned home Wednesday afternoon. John Catteugh and George Douglas came in on Monday from Three-Creek to order cars for the transportation of Mr. Catteugh's sheep. Mr. Catteugh expects to ship 2500 or 2700 sheep from Twin Falls on August 24, provided he can secure the cars. The sheep are in fine condition. Irving Miller, a brother of I. J. Miller of the city, was one of those seriously injured in the explosion which took place at Boulder, Colo., last Saturday morning. Mr. Miller received word Wednesday that his brother had been badly hurt by falling into a hole and was still in a very critical condition. County Clerk Harry T. West has received a supply of matriculation blanks and is now ready to make a few new citizens. The blanks are lengthy and complicated and great care is required in their preparation. Mr. West has on hand several applications for naturalization which he is now ready to accommodate. C. E. Booth returned on Wednesday from the east, where he went to purchase fall and winter stock. Mr. Booth said it was uncomfortably hot in the east during his stay there and he was thankful to get home where he could sleep under a blanket. Twin Falls looked better to him every time he came back, said Mr. Booth. During his absence Mr. Booth received zealously for Twin Falls and five of his former neighbors followed him westward. They arrived here yesterday and will make a thorough examination of the tract. Mr. Booth stated that the telegraph strike had caused great confusion and annoyance in the east and there was a fair prospect of it spreading to the railroads. Miss Georgia Baker, daughter of Mr. and Mrs. B. A. Baker and Clayton Smith were married at noon Wednesday by the Rev. H. W. Parker of the Methodist church. The double ring service was used. Miss Edna Harris was the ring bearer. The bride was dressed in white silk and carried a small ivory white bible. The house was very prettily decorated with sweet peas and foliage. The wedding march was played by Miss Nita Baker. After the ceremony an elaborate wedding breakfast was served to guests. Among the guests who witnessed the ceremony were Timothy Noble, father of Mrs. Baker, and a sister, Mrs. Harris, both of town. The couple received very many handsome presents. Mr. and Mrs. Smith left the city Wednesday evening for Chicago, where they will live.

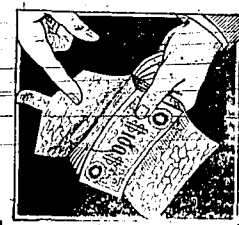

Ed Couze, formerly of this city but now of Buhl, was in the city Tuesday on a business trip. Mr. and Mrs. C. E. Cook, Miss Helen Cole and W. A. Minnick left the city Wednesday afternoon for a ten days' camping trip over in the Wood river country. Rev. Father Reusman of Pocatello held services in the Catholic church here last Sunday. Monday and Tuesday Father Reusman spent on a fishing trip over at Rock Creek. Professor I. B. Hinton of Hansen has been engaged as assistant principal of the Bickel high school for the coming season. Mr. Hinton will have for his specialty the teaching of mathematics. The union services of the churches of the city will be held at the Danhard church next Sunday evening. The services of the Bickel high school for Courley. This will be the last union service this summer. German Lutheran services will be held in the Christian church next Sunday afternoon at 2:30, followed by English services at 3:30. English services will also be held in the school house at Flair at 10:30 a. m. F. W. Schwanb, who has a quarter section on Sucker flat, has returned from Chicago. Mr. Schwanb has been away from Twin Falls since last autumn and he was delighted with the improvement made during his absence. The school board is daily receiving inquiries for board and room for school children for the coming school season. These requests come from parents who live so far away from Twin Falls as to make it impossible for them to have their children make the trip back and forth each day. The school board would appreciate anyone so situated that they can board and room school children if they will make that fact known to them at once. John S. Courley was pleasantly surprised at his home Monday night by about 40 of his friends who had called to bid him good-bye before he left for Los Angeles, where he will spend the next few months. Will Young, in behalf of those present, presented Mr. Courley with a pair of gold cuff buttons with his monogram inscribed on them. The evening was passed in a social way. Refreshments were served by Messrs. Miller, Lytle and Colles, assisted by Mrs. Miller and Mrs. A. J. Green. In the party were Mr. and Mrs. Will Young, Mr. and Mrs. L. J. Miller, Mr. and Mrs. Stuart Taylor, Mr. and Mrs. J. M. Spackman, Mr. and Mrs. William Hill, Mr. and Mrs. S. T. Hamilton, Mr. and Mrs. A. J. Green, Mr. and Mrs. O. B. Fuller, Misses Florence Dyer, Beth Hamilton, Grace Simpson, Grace Barber, Misses Gamble, Dewitt Young, Boyd Hill, Fuller, Frank Lytle, Jay Green, Kenyon Green, John Newton, LeRoy Newton and C. E. Colles.

James Cameron and Miss Emily Erickson went to Ketchikan Monday afternoon, where they joined Mr. and Mrs. Crandall, and party, who are camping in that locality. Next Thursday night a band dance will be given at the rink. These summer dances are fast increasing in popularity at this time. Dances are always sure of good music and a good time. Mr. and Mrs. George S. Park and Mr. and Mrs. Fred J. Palmer of Jordan Valley, Oregon, are guests at the Hotel Perrine. Mr. Park was here last night and attended some property. He was more than pleased with the advancement made during the past year and he thinks better than ever of the tract and the city. Mrs. O. M. Gunt and Miss Fern Gunt have arrived from Wallace and established their residence in Twin Falls. The building has been fully six inches taller since his family arrived but he is justified in putting on airs because he can look down on the hotel without any trouble at all. Hoch der Gunt family. Pat Hall, the pioneer employ builder, is putting up a two-story restaurant and lodging house for the North Side company at Wendell. The building will be 24x60 feet and Mr. Hall will also erect a barn 21x40 feet in the rear. Ground for the building has been broken and the lumber is now being teamed into Wendell from Gooding. L. E. Prothro is acting as chief of police until such time as a permanent appointment is made. John Wilson and W. H. Thomas of Kimberly thought they would court arrest by driving furiously down Main street. They made a furious drive all right but before "Eme" could land them they had disappeared and have had a few days restoring normal conditions. The funeral of Alexander M. Cummings, who was shot and killed by Isaac Devine at Hansen recently, was held from Miller's chapel last Sunday afternoon. Rev. J. H. Schenck conducted the services for the Odd Fellows. The chapel was crowded with friends of the deceased, while many were obliged to stand outside, being unable to gain admittance to the funeral ever held in the city. The casket was completely covered with flowers. The members of the Odd Fellows escorted the remains to the Twin Falls cemetery, where the interment took place. At the grave the Odd Fellows' burial service was read by Rev. Schenck.

We Handle Quickly. A great many lines in Stationery but never juggle with prices. We furnish every facility for writing for the library or the office, and the only change there is about our trading is the low price that accompanies the highest quality. Whether you are an order provider or a "home accuracy" you will be interested in our offerings. We carry a large line of Stationery - Hurlbut's Stationery, the most up-to-date and highest grade on the market. Bedford Drug Co. Pharmaceutical + Chemists. C. C. BEDFORD, Mgr. Twin Falls.

IOWA VISITORS WELL PLEASED

Charles H. Plummer and B. E. Ives like Twin Falls Tract. Charles H. Plummer of Waterloo and B. E. Ives of Cedar Falls, Iowa, were Twin Falls visitors this week. Mr. Plummer's home is in Cedar Falls but his duties as county recorder of Black Hawk county keep him in Waterloo. He is an old friend of W. W. Humphrey, with whom he was associated in the Yellowstone park for years. Some time ago Mr. Humphrey sent Mr. Plummer some Twin Falls literature and the latter decided to come out and see if the statements contained therein were true. He found that they were and he and Mr. Ives will participate in the October opening on the north side at Jerome. "You have a magnificent country," said Mr. Plummer. "I did not expect to find you so far advanced. Your crops are grand and if I tell the folks back in Iowa the truth regarding what I saw, I'm afraid they will think I suffered a touch of sun. After looking over the system I am convinced that there is no better. You have the soil, the water, the climate and the proper spirit. Mr. Ives and myself went over to Jerome and there we saw a miniature of the Twin Falls of three years ago, I suppose. At all events we are going to take part in the drawing on October 1 and in the meantime we will keep our fingers crossed and pull for an early choice. There is so much good land on the north side that a person is almost certain to secure a good location. The fact that excellent well water can be obtained there is a great advantage. With a good many Iowans here which convinced me that Twin Falls must be all right."

Your Money. Is not safe if you carry it in your pocket. You run the risk of losing it or having it stolen. Put your money in the The Commercial & Savings Bank and know that it is where you can get it, when you want it. Safe Deposit Boxes for Rent. Two pleasant front rooms to rent, furnished, private family. Mrs. Marble, in Garlock house.

IDAHO DEPARTMENT STORE

Principal Colors for Fall. Black holds first place in colors, with Dark Green, Cardinal, Navy, and Royal following close. Shadow Checks showing combinations of two or more of the above colors in dark shadings are considered the strongest, especially in Broadcloths where the depth of the fabric enhances the beauty of the combined colorings. We have placed our Dress Goods orders in New York for the Imported Fabrics and with the largest house in Chicago for the Domestic goods which we expect to be delivered about September 1st. The advance numbers of the swellest line of Ladies' Suits ever brought to Twin Falls are expected to arrive by express about August 28th, followed by the largest order for Cloaks and Skirts ever brought to Twin Falls county. Ladies, look to us for the most attractive styles in high class merchandise obtainable in this district.

Idaho Department Store

We Close at 7 P. M. except Saturdays.

# CAMPING OUT IN SHOSHONE BASIN

## JOLLY PARTY ENJOYS OUTING FOR TEN DAYS.

Dieted on Trout and Chicken, Flavored with Appetizing Sauce—John Costello Did Some Fancy Sage Hen Shooting—Dad Pape Missed an Owl.

A jolly party, consisting of Mr. and Mrs. John Costello and their two sons, Cleve and Wayne; Mr. and Mrs. P. J. Costello and their three daughters, Fern, Florence and Irene; Mr. and Mrs. William Onkley and their two sons and daughter, Arland, Stirling and Helen; M. H. Pape and his two sons, Oscar and Byron; Carl Hoag and Walter Robertson, returned from the Shoshone basin this week. They spent 10 days in the hills and had a splendid outing.

The breakfast menu consisted of trout, more trout, trout fried and fried trout, trout cooked with their heads on and trout cooked without the heads; trout fried with the eyes open and fried with the eyes shut. For dessert pickled eels' feet were served with rock trout sauce.

The dinner consisted of broiled chicken, fried chicken, stewed chicken, flinched chicken, chicken pie, flavored with sauce made of grasshopper heads, which makes a rich gravy. The dinners were followed by a dessert of apple fritters, seasoned with coyote kidney sauce and washed down with squirrel wine, made in Twin Falls.

An active member of the party said the feature of the trip was the excellent cooking of the ladies, who had to work overtime to keep the rest of the campers in food. It seems that the party was divided into two classes, the cooks and the eaters, and the eaters had the best of it.

In speaking of the trip, "Dad" Pape said it delighted him to see John Costello bring down the sage hens. John shot right handed, left handed, with his eyes shut and his eyes open, but he found the birds every time and kept the larder well stocked with chicken.

"Dad" Pape and Billy Onkley did the heavy fishing. "Dad" said he caught an unusual amount of suckers, a happening which he attributed to his own reflection in the water.

Down in the basin—the outside met Mr. and Mrs. John White, Ed Littler and his friend, "Dad" Pape complimented to John of his inability to hit sage hens and John suggested it should be thought that the birds were scared by the appearance of "Dad's" face and dashed wild. "Dad" said he got the shaver and shortly after he stalked an owl. The owl looked so much like a

biishop that "Dad" was timid about shooting. However, he did not drop a shot and never missed a feather. The owl flew away with a coarse hoot. "Dad" said the "tears which the shaver brought to his eyes impaired his vision to such an extent that he could not see the sights on his gun.

The party saw several broods of young ducks and many old ones and were much tempted. But they let the creek heading the grasshoppers from the land under the Shoshone creek irrigation project and they let the ducks go.

"Dad" Pape said he would not advise any of his friends to try fishing in Big creek for a time. What few trout they left are landed down with steel for the Contact railway. Besides, Billy Onkley felt that so many grasshoppers that their digestion was impaired and they are not good eating. It was a fine trip.

### Excursion to Salt Lake and Ogden.

August 29, via Oregon Short Line. Round trip from Twin Falls to Salt Lake, \$11.30; to Ogden, \$10.50. Many summer attractions. Salfair Beach, on Great Salt Lake; bicycle races at Salt Lake; Lagoon and Wandanero resorts. An ideal summer vacation trip. See agents for further particulars of write D. E. Burley, G. P. A., Salt Lake City, Utah.

## WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Blipping Away. Twin Falls women know how the aches and pains that come when the kidneys fail make life a burden. Back ache, hip pains, headaches, dizzy spells, distressing urinary troubles, all the ailments that warn you that you are entirely dependent upon your kidneys and bright's disease. Doan's Kidney Pills permanently cure all these disorders.

Mrs. E. Burnett, residing at 122 First avenue, Pocatello, Idaho, says: "I consider Doan's Kidney Pills a most excellent remedy and one that can be entirely depended upon by those who have any symptoms of kidney complaint. I speak from experience because I suffered—sometimes from aching pains across my back and through the region of the kidneys. Any hard work at the house which caused an extra strain across my back was sure to cause me much suffering on account of the pains which followed. I got Doan's Kidney Pills and received so much benefit from one box that I procured three others. I am happy to state that they corrected all the trouble with the kidneys, all the annoying symptoms were removed, and I have had no trouble with my back or kidneys since."

For sale by all dealers, price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

The Anheuser-Busch Trophy for Brewing Barley. A magnificent trophy of sterling silver is being designed for the Anheuser-Busch Brewing company of St. Louis, to be offered for the best state exhibit of brewing barley at the coming Interstate Exposition of Irrigated Land Products and Forest Products, which opens in Sacramento September 2d.

This superb cup is in the hands of the F. Lutz, Dresden Jewelry Company of St. Louis, and will cost \$500. The design will be unique in many respects and when finished this massive trophy will be one of the finest specimens of the silversmith's art ever sent to the Pacific coast.

The members of the Anheuser-Busch company are very much impressed with the importance of the coming irrigation display in connection with the Fifteenth National Irrigation congress and are anxious to promote the success of the enterprise in every way.

The production of brewing barley on the irrigated lands of the arid west is a matter of considerable consequence to the brewing industry of the whole country. Both the Anheuser-Busch companies, two of the largest concerns in their line in the United States, have adopted a practical means of encouraging the more extensive cultivation of this crop among the farmers of that section.

# 150,000 Acres Carey Act Land

To Be Opened for Entry  
**October 1st, 1907**  
\$35.50 Per Acre

\$32.25 per acre in cash is paid at time of filing, the balance is divided into annual payments covering a period of ten years with 6 per cent interest on deferred payments.

Under the Carey Act, people who have used all their government rights to take up land can still acquire 160 acres of Carey Act land. Filings may be made by power of attorney when parties intending to file cannot possibly come.

The entire Twin Falls tract embraces 420,000 acres. The opening **OCTOBER 1ST** is the last tract to be sold under the gravity system.

There are three new towns in this opening—**MILNER, JEROME and WENDEL**. Surveys for an electric railroad reaching all the towns have been made and active construction from Milner and Jerome will be commenced August 1st, 1907. The contract from Jerome to Wendel will be let later in the season.

Special rates will be given on the O. S. L. railroad to reach Jerome, where the opening takes place October 1st. Take the O. S. L. railroad to Shoshone or Twin Falls, where stages will make frequent trips to Jerome.

# BUHL IS STILL ON THE BOOM

### DUST HAS BEEN BANISHED FROM THE WESTERN TOWN.

**Sidewalks Are Laid in the Business District—New Fixtures for the Citizens Bank—Great Catch of Fish by Buhl Citizens at Thousand Springs.**

**BUHL, Aug. 14.**—The Buhl Boosters went to Filer Sunday and played the Rattlers there. The score was 32 to 2 in favor of the Boosters. The case of Bowley vs. Kraus was tried before Justice M. D. L. Barstow yesterday and resulted in a mistrial, the jury disagreeing. The case grew out of the death of Mrs. Bowley by her horses and the wounding of another. The animals were shot on the 22nd of June last. The owner brought the action against Mr. Kraus, who was charged with doing the shooting. The evidence was circumstantial, and the jury, after staying out two hours, returned into court and informed the judge that it was impossible for them to agree, whereupon they were discharged. M. J. Sweeley of the firm of Sweeley & Sweeley, Twin Falls, and P. W. Monahan were attorneys for plaintiff and W. P. Guthrie of Twin Falls and J. M. Shank of Buhl were attorneys for defendant.

Elbert DeBusk is confined to his bed on account of sickness. A. W. Posey of Twin Falls came up from town Saturday for the purpose of having the patient operated by Dr. Monroe for an abscess. The operation was successful and the patient returned home rejoicing. A crowd of 25 children took in the fishing on Snake river Sunday and returned with 100 pounds of the finest brook in the bunch.

Geo. B. Fraser of the News took an outing at the Riverside ranch on Sunday. He exhibited a murderous fish catching machine to an admiring crowd of sports in front of Hotel Buhl Saturday evening and he doubtless made good execution with it. He probably made a big killing if the report did not come out of the bait hole and allow the bait to escape without being used. Ed Kirkpatrick and W. H. McLaughlin of Klamath Falls, Ore., were in town Saturday night. Mr. McLaughlin is a druggist and is employed by the Buhl Drug company. The heat in the country is getting very bad. George B. Fraser's arrival who has taken into the city of the snake and its fortunes with Buhl, and the arrival of A. T. Hayes and Miss Hays and their family, who are visiting with the appearance of the country and will be boosters for Buhl when they return home. They are accompanied by R. D. Hayes, who is a land seeker and who intends making Buhl his future home. The Citizens bank is putting in new fixtures in the building. The business which will doubtless cause Cashier Alfred to put on some dog, but if it does it will cause his expansion from the Easy and Careless Seven club.

The Buhl Townsite company is serving notice on all lot owners on Broadway and Main streets that the contracts to put in walks on the streets will be enforced. If any one neglects to comply with the contract to put in the walks before November 10 the company will be in charge of the expense to the lot owner. The result of the notice is that sidewalks are being laid as fast as men can be procured to do the work. No more mud in Buhl.

Mrs. R. W. Allred and daughter Hazel, wife and daughter of H. W. Allred, the general cashier of the Citizens bank, arrived Wednesday evening from Boise and gave Mr. Allred a pleasant surprise, as he was not expecting them. The cashier wears that smile that went some off and the ladies will prove a welcome addition to the society people.

G. M. Milner of Salt Lake City son of E. A. Milner, spent a few days visiting his father and sisters and left yesterday for Twin Falls, where he is going to figure on wiring houses for electric lighting. Mr. Milner is an electrical engineer and a member of the electrical engineers' association. G. E. Harlan came in from his ranch this morning for supplies for the harvesting season. His chief purchase was a binder which will soon be humming through the golden grain.

The Johnsons, who are building on Main street is making rapid progress towards completion. It will be two stories in height and will be used as a furniture store. Melges & Hays have commenced work on their building on Main street and will push it to completion as rapidly as possible. The great need of Buhl just now is business buildings. There is a big demand for them and

none to be had until they can be built. H. W. Ball, the architect and builder of Twin Falls, is now working on the Buhl Trading company's new building which is to be used as a store and banking establishment. The structure will be of stone, the front of cut sandstone and pressed brick with plate glass windows.

Ole Syster is putting in a ferry at Clear Lake, which will be open to the public in about ten days. Miss Ethel Jacoby was on the street yesterday but is able to be up and around again. John A. Jacoby went fishing the other day and came home with a good string of fish. Everything would have been all right if Mr. Jacoby had the change when he thought the fish from the boy who caught them, but he did not and told the boy to call at the hotel for the money. It was not in the office when the young angler arrived but Mrs. Jacoby was and that is how we learned that the fish were bought in full of being caught by our friend. It's all right, John, lots of us have done the same thing, only we were not found out. The next time you go fishing be sure and have the right change along.

Chas. B. Smith of Boise was a Buhl business visitor Thursday. Geo. O. Street of Salt Lake registered at Hotel Buhl Thursday. Jessco of Ogden was doing business with our merchants the latter part of last week. E. Furber of Seattle, Wash., spent a few days looking over the west end of the tract the early part of the week. C. O. Melges of Boise, L. Crocker and County Surveyor C. H. Mull came up from Twin Falls Friday and went out to view the situation at Castle Road with reference to bridging the Salmon river at that point.

Geo. D. Wooley and H. P. Barger of Twin Falls were Buhl business visitors Friday. H. E. Trigg of Spokane, Wash., arrived in town Friday evening and took up his residence on his ranch for the purpose of being a fisherman. Chas. F. Romand wife of Kimberly registered at Hotel Buhl Saturday. Miss Mabel More of Filer was a Buhl visitor Sunday.

C. W. Fuller of Pocatello spent several days of last week in town. H. Yotter and A. J. Koraski of North Yakima, Wash., were among the sports who came in last week to take a look at busy Buhl. C. O. Melges of the Melges-Hays Implement company came up from Twin Falls Sunday. C. E. Jay and wife of Filer were guests of Hotel Buhl Sunday.

Ernest Buyer of Twin Falls came up from that town Monday on business. H. D. Scott of Kimberly is doing the proving up act on his ranch two miles south of town. G. A. H. Brown of Twin Falls was a Buhl business visitor Monday. A. W. Payne and A. A. Duckhater of Opa, Wyo., were land seekers on his end of the tract the early part of this week.

John Lawrie of Twin Falls visited his Buhlite friends on Monday. W. H. Hildridge of Boise, who was a land seeker on this end of the tract the latter part of last week. W. H. Hildridge of Twin Falls, who is doing thirty days in the snakebrush, was in town to tell us that so far he has had no use for the counter irritant for snake bites which he took out with him last week. You are new for the snakes can smell it and they are afraid of it. They know it is more deadly than their fangs.

H. H. Brown of Kimberly came up from that burg Tuesday on business. Charles Innes came in from his ranch on Ferguson flats yesterday for supplies for the harvesters. **Electrical Wiring.** I will wire your house in approved national board of fire underwriters' style. None but new code standard material used and workmanship guaranteed. Write me for right to hold. Leave your specifications with H. O. Milner of Twin Falls Lumber Co. and let me figure on them. Phone 7. G. M. MILNER, Electrical Engineer.

"The Doxie," ask Wilson Bros. Bring in the baby and let Bisbee take its picture.

**Choice Lands for Sale.** We can sell you the choicest irrigated lands at a price and on terms that will be satisfactory. Write us today. THE NORTHWESTERN INVESTMENT CO., Ltd., Boise, Idaho.

## Memorial.

Twin Falls Camp No. 10880, M. W. A.: Your committee to formulate a memorial upon the death of Neighbor Edwin S. Lewis would beg leave to present the following: As the spirit of our neighbor has been summoned from earth into the world beyond, each member of Twin Falls Camp No. 10880, M. W. A. feels our bereavement when we remember the kindness of his heart and the warmth of his attachment to each of us, and when we remember how young his life was when he left us and how much good he could have done among his neighbors had he remained with us. In the death of our neighbor we have lost a kind and true friend, and while we bow in humble submission to this sore dispensation, we offer our deepest sympathy to the father, brother and sister who are bereft of a kind and tender son and father, and pray they be comforted by the assurance that the memory of our neighbor, whom they esteem so highly, will ever be held in loving remembrance by each of us. Therefore, in token of our esteem for our departed neighbor, we present a copy of these our most sincere utterances to the family, spread them upon our minutes and furnish the same to the press of our city for publication. Respectfully submitted, L. M. LUCY, D. W. BIRK, ROY NEWWOOD, Twin Falls, Idaho, Aug. 14, 1907.

**Card of Thanks.** We desire to extend our sincere thanks for the many expressions of sympathy and the kindness shown our brother, A. M. Cumming, during his last sickness. Also to thank the Odd Fellows of Twin Falls and his many friends in Hansell for kindnesses shown. J. CUMMING, MISS JIBBIE CUMMING, "The Doxie," ask R. W. Jones.

**Excursion to Salt Lake and Ogden.** August 23. Oregon Short Line. Round trip from Twin Falls to Salt Lake, \$11.30; to Ogden, \$10.20. Tickets limited to ten days. Many summer attractions. Salt Lake Beach, on Green Salt Lake; bicycle races at Salt Palace; Lagoons and Wandamero resorts; best bathing at Salt Lake in years; high water. An ideal summer vacation trip. See agents for further particulars or write D. E. Burley, G. P. A., Salt Lake City, Utah.

The Liberal Clear Store is headquarters for A. G. Spaulding sporting goods.

# A "Different" Way of Selling Clothing in Twin Falls.

It's the one-price way which we have established in this city. We are making converts to it every day. Like every thing else new, it has to win its way. It is radically different from the clothing methods you have become used to. There's a lot of satisfaction in knowing your money is as good as anybody's and that it buys us much stuff. While our store is a one-price store, the one price is the lowest price at which good clothing can be sold.
