FOURTH YEAR

TWIN FALLS NEWS, TWIN FALLS, IDAHO, FRIDAY, NOVEMBER 22, 1907

NUMBER 4

TO REPAIR THE SALMON BRIDGE

COMPANY TO PUT IT IN SAFE CONDITION.

One of the first moves in the development of the Salmon Project—will be driven at Hollister and will be at the bridge.

The promoters of the Salmon river irrigation project have decided to put the Salmon bridge on the Three Creek road in, first, class condition without delay. This bridge is just below the Lee Maplin ranch, 35 miles south and west of Twin Falls. It was condemned by the county commissioners last spring but the commissioners hesitated to expend money in rebuilding the structure for the reason that it will "cost" under water. As the company will make use of the bridge in hauling material across the river for the works, it was decided to put the structure in first class condition immediately. Two large cables will be stretched under the bridge and securely anchored. This will insure a solid underpinning. Heavy planking will be laid across the drive-way and such other parts of the structure as need attention will be looked after.

The Salmon bridge is used extensively by the residents of the Three Creek and Butte districts who do their trading in Twin Falls. They have been anxious to have the bridge rebuilt for some time and they will be glad to learn that something is to be done.

Another move decided upon by the promoters of the Salmon project is the drilling of a well on the Hollister townsite. "A drilling" outfit with a capacity sufficient to sink 2000 feet has been purchased and will shortly arrive in Twin Falls. It will be taken down to Hollister at once, the object being to provide water for the engineering camp and contractors. The chain of wells on the North Side is proving a great benefit to that project and the same plan will be followed on the Salmon.

The townsite of Hollister will be surveyed by Engineer John R. Hayes, who is about to install a well in the Salmon river at the bridge in order that an accurate record of the winter flow of the stream may be obtained. Mr. Hayes will likewise survey a route for the telephone line which the company is to build from Twin Falls to the dam site at the bridge. He will begin work in a few days, so soon as the estimates are ready.

SCHOOL NOTES.

For many weeks the Twin Falls basketball team has been practicing training and practicing for the battle with Rupert. A hard struggle was anticipated, one that would test all the strength and ingenuity of the local team. Our fears and dread were fully allayed when the 8th grade lined up against the Rupert school team on the muddy field. A fair sized crowd was out to see the game. From the first there was no doubt as to what the outcome would be. Almost at the first play a local guard made a foul which gave the visitors one point. That was all they made during the game. They were outscored by Twin Falls throughout and whenever Miss Dumke or Miss Jones got the ball there was almost invariably a flutter

of the basket and the referee announced. When it was all over the visitors still had their lone score against 20 for Twin Falls. It was too one-sided to be interesting and there was almost no enthusiasm. In the afternoon it looked for a few moments as if it might possibly be a different story. Rumors had been spreading that the Rupert team had improved wonderfully since we last saw them and that we were up against a hard proposition.

A large crowd was gathered to witness the game which was played with a snap and rush from start to finish. At the end of the first half there were six scores for each side and enthusiasm was at a high pitch. Then began the real battle. First one was ahead then the other until the score of 10 was reached when Twin Falls took up and simply run away from Rupert. The game was over when the time was called and then it was found that the girls in blue had earned 19 points against 10 for the visitors.

Prof. Farris refereed the morning game and Mr. Swerlingford of Rupert the one in the afternoon.

The visitors left on the evening train acknowledging the supremacy of a base ball game will be played here in the spring with them.

The musicals Friday evening was all that the most critical could wish. Everything was prepared and rendered perfectly. From the first the audience demanded encores which were supplied. It would be an injustice to all the remaining numbers to say that any one was best. Much credit is due Miss Mankler for the success of the evening. The auditorium was filled to the last seat and the audience was very appreciative.

A program will be given by the

Thanksgiving proclamation. Thanksgiving, the best and oldest of the customs of the early pioneers of New England, and which has been kept up in a spirit of reverent thankfulness by their descendants, is approaching. It is in spirit a festival, celebrating the bounties of nature and the rewards of toil, arousing sentiments of gratitude for the blessings of peace and plenty poured out upon our people and the state, awakening the virtue of charity and the desire to take upon ourselves the burdens of those in need and distress and inclining men of good will to a reverent acknowledgment to the Almighty of His divine favors.

Therefore, I, Frank R. Gooding, governor of the state of Idaho, do hereby designate Thursday, November 28th instant Thanksgiving day, and ask that the people of the state of Idaho honor the day. I earnestly recommend that in so far as possible the people on that day refrain from their usual vocations, and in their homes and places of worship offer acknowledgments to God for his many blessings, and prayers for the continuance of His divine favor. In witness whereof, I have hereunto set my hand and caused the great seal of the state to be fixed. Done at the capital, in Boise, Idaho, this 11th day of November, one thousand nine hundred and seven, and the day of the independence of the United States, the one hundred and thirty-second. (SEAL) By the governor: F. R. GOODING. ROBERT LANSDON, Secretary of State.

POSTOFFICE SITE FINALLY SETTLED

DEPARTMENT DECIDES ON THE BARCOCK BUILDING.

Postmaster Greenhow is Advised of Official Action—Office Will Be Moved as Soon as Some Necessary Fixtures Have Arrived.

Postmaster Greenhow has received the following dispatch from the post office department: Washington, D. C., November 19. W. H. Greenhow, Twin Falls, Idaho. Letter mailed accepting proposal W. A. Barcock to lease quarters for postoffice. (Signed) Hilchock, First Assistant. This settles a question which has long been a bone of contention in Twin Falls and which has caused needless hard feelings. In pursuit of the theory that business would naturally follow the postoffice, an effort was made to move the office southeast on Main street. This was resisted by those who owned property in the northwest end of the city and the fight began. It was a useless contest for which there was not the slightest excuse except greed and the desire to rule.

Three or four proposals were made to the postoffice department. The most acceptable was that of J. W. Craven, who offered to put up a building on Main street adjoining the Barcock store. Mr. Craven was requested by the department to pay the rental of the premises now in use until such time as his building was completed. Mr. Craven replied that he would agree to pay the rental after January 1, 1908, by which time he hoped to have his building ready. The department then accepted the offer of W. A. Barcock, whose building, adjoining the Hotel Perrine, is all ready for use.

When the department indicated its intention of locating the postoffice in the Craven building, Mr. Barcock leased his premises to R. C. Laverling, who is about to open a furniture store in Twin Falls. When Mr. Laverling was informed that the room was desirable for a postoffice, the department consented to transfer his lease to a building which is now under construction adjoining the Leggett block, next to the Barcock block. This building will be 25 by 100 feet, one story high for the present and constructed of concrete blocks. The trenches for the building have been dug and the building material is being rapidly delivered. The structure will be ready for Mr. Laverling within 30 days.

The government lease is for five years and the delectable subject will be buried for that time at least.

CRIPPLED THE GRASSHOPPER

Accommodation Train Is Wrecked at American Falls.

The accommodation train which left Twin Falls on Tuesday morning came to grief at American Falls that evening. The train had stopped at the Power City for water and was about ready to pull out when a double-header train from the west crashed into the rear of the grasshopper which projected from the end of the switch on the main line. The caboose was demolished and all cars' three loaded and three empty, were spilled all over the adjoining landscape. An unknown Japanese, who was sitting in the ca-

boose, was killed. John Fickel of American Falls received injuries which resulted in his death yesterday. Mr. Hall of Acquia was also hurt. The accident occurred at 9 o'clock in the evening and the track was cleared at midnight.

As a result of the coroner's inquest the members of the crew of the Twin Falls local were held for criminal negligence in allowing their train to foul the main line. Conductor Chapman was in charge of the grasshopper.

MANY CASES IN DISTRICT COURT

AUTUMN TERM WILL OCCUPY SOME TIME.

Session Opens on Monday Morning With a Heavy Docket—Two Murder Trials Will Require Several Days in the Hearing.

The autumn session of the district court will open on Monday morning with a docket which will probably spread over several weeks. There are two murder cases on the calendar, those of Isaac Divine and W. G. Strathman (George George) which will occupy considerable time. Divine will stand trial for shooting and killing Al Cummings, a ditch rider in the employ of the Water company. Strathman will answer for the death of Fred Tusken, an employee of Corey Bros. The calendar is as follows:

John H. Lynch vs. W. H. C. Taylor.
Mary R. Norton vs. Twin Falls Land & Water company.
Charles B. Taylor vs. Reinhardt Reeling and the Twin Falls Land and Water company.
O. O. Parrott vs. Eugene W. Sweet.
H. T. West vs. George Henry Johnson.
M. J. Sweetley and E. M. Sweetley vs. Joshua T. Willis.
Isaac F. Womies vs. Nellie M. Womies.
Christian Jacobson vs. Lizzie Jacobson.
Frank A. R. Bower and Abbie Bower vs. H. W. Clotchek and H. M. Johnson.
W. W. Humphrey et al vs. P. H. Smith, et al.
Twin Falls Land & Water company vs. Morgan Heap.
McCormick and Co. vs. W. C. Cooper.

Charles A. Peters vs. A. R. Moore.
Clarence G. Fork and Elias W. Peck vs. John Lindstrom and Bertha Lindstrom.
L. H. Norton administrator of estate of A. D. Norton vs. Frank Jewett.
John D. Rogers vs. Lena Rogers.
Great Shoshone & Twin Falls Water company vs. W. A. Clark.
Shoshone Falls Power Co. Ltd. vs. Carroll G. Dobson, et al.
Bessie Blanche Averett vs. Harvey S. Averett.
Elsie C. Eastman vs. Frances Wolcott.
Great Shoshone Falls & Twin Falls Water Power vs. A. Z. Conrad and Thomas Prince.
George H. Brundage vs. Alsin Brundage.
Amie Furubus vs. Willard A. Furubus.
Eva B. Shewmake vs. Wiley Shewmake.

State of Idaho vs. Isaac Divine.
Lulu Canton vs. Wellington Canton.
Larsen vs. Willet T. Shewmake.
Midloda and Southwestern Co. and O. S. L. R. Co. vs. Thomas Swedberg.
Huston G. Springton vs. Mary Springton.
Wester Lumber Co. vs. A. Dumken.
I. B. Perrine vs. Alfred Peterson and Leon Moore.
Western Loan & Savings Co. vs. Kennedy Packard, et al.
Western Loan & Savings Co. vs. Charles R. Rosen Bertha C. Rose and Ira Van Auker, et al.
W. D. Garlock, Fred Nihart and C. D. Thomas vs. Tom Warden and Hector Warden.
Noble Channel Lumber Co. vs. C. H. Foster and wife.
Twin Falls Land & Water company vs. M. F. Cample and Mrs. M. F. Cample.
John P. Hansen & Son vs. O. C. Tadlock.
Twin Falls Land & Water Co. vs. Josephine Lee, George W. Rice and Charles E. Noyes.
Twin Falls Land & Water company vs. William T. Smith.
John K. Yates vs. W. D. Garlock and A. P. Owens.
Twin Falls Land & Water company vs. Frederick W. Glona.
Twin Falls Land & Water company vs. James D. Yates et al.
Twin Falls Land & Water company vs. Fred W. Glen et al.
Miller-Perrine Lumber company vs. Wm. F. Shewmake, et al.
Twin Falls Land & Water company vs. J. W. Hill.
J. E. Van Auker vs. Cuy R. Stern.
H. T. West vs. Twin Falls Land & Water company.
Cassia County vs. Commissioners of Twin Falls county.
W. R. Leggett vs. C. E. Evans.
John M. Gooding vs. Jesse A. Gooding.
State of Idaho vs. G. A. Miller.

LOTS OF GOLD IN THIS BANK

SNAKE RIVER ALWAYS DIGS UP THE DUST.

John Chiswell of Clear Lake is About to Make a Clean-up at His Placer Mine Near That Place—Ledge of Red Rock Discovered.

CLEAR LAKE, Ind., Nov. 13.—The weather continues pleasant for this time of year and the leaves on the fruit trees are still green.

Mrs. Henry Smalley moved to Buhl last week in order that her children might attend school there.

Charles Wilson is in Abbey where he will remain for several days.

A. C. Wilson visited Hagerman on Saturday.

Charles Ingersoll is busy placer mining.

B. L. Rathbun made a business trip to Twin Falls this week.

John Chiswell, who is placer mining, expects to make a shipment of gold dust soon. He says he has his gold in a bank that never fails to dig it up when requested.

A. G. Mudlena crossed the river last Friday with a load of beef which he had no difficulty in disposing of.

Otis E. Syter has a fine drove of tags of all ages which he is having to trouble in selling.

Earl Hopkins, who has been at Preston attending school, returned home on Saturday and will visit with his friends and relatives here until after Thanksgiving.

Mrs. E. A. Dack is thinking seriously of locating in Buhl and following her profession of trained nurse.

Mr. and Mrs. G. F. Syter, who had been in Buhl for several days, were married and placed with the devotion in that vicinity. Mr. Syter was the first to marry and while he was present, he was unable to use it on account of the lack of fencing.

Over a fence and about, who had been clearing sagebrush on the Taylor ranch, returned to Abbey on Friday.

Samuel Briggs and Charles R. Rose, who have discovered a ledge of red rock, are busy taking out samples.

Mrs. W. E. Briggs and daughter, Belle, did some shopping in Hagerman the last of the week.

A TEAM OF WINNERS

Clever girls who upheld the honor of Twin Falls in the basketball game with Rupert. Top row, from left to right—Lizzie Webb, Dinah Dumke, Mary Jones, Clara Jones. Lower row, May Jones. In the Rupert game, which resulted in a score of 20 to 1 in favor of Twin Falls, Phoebe Dumke played in place of Mary Jones. This team won the Booth cup last spring. Photo by Blakes, Twin Falls.

Thanksgiving Anticipations

IS YOUR OUTFIT COMPLETE FOR THE GREAT AMERICAN HOLIDAY? ALLOW US TO SUGGEST:

- A Black 18 oz. French Worsted Suit.
- A Stetson Hat.
- Arrow Quarter Size Collars.
- Colonial Gravats.
- Cluett Coat-Shirts.
- Cooper-Ribbed Union Suits.
- Lincoln Leather-Garters.
- Holeproof Sox.
- Floresheim Shoes.
- Priestly Cravatette Coat.
- Stein-Block Overcoat.
- Silk Lined Gloves.

Eldridge's

HANSEN SOCIAL VERY ENJOYABLE

SHADOWS AUCTIONED OFF AT FANCY PRICES.

George Redhead Makes an Admirable Auctioneer—Peter Neilson and Harry Killough Sell Their Farms—Turkey Shoot is Arranged.

HANSEN, Ida., Nov. 21.—W. N. Rose has erected a commodious barn on the west end of his lot.

V. J. Rauch was a Twin Falls visitor on Tuesday.

A pleasant surprise was given Mr. and Mrs. C. E. Edwards on Wednesday evening by the giving of their fifteenth wedding anniversary and also Mr. Edwards' birthday.

Roy Ball has purchased a new gasoline engine to operate his hay press. He is hauling for Professor Hinton this week.

George Washington is delivering hay to Mr. Torgue to be shipped to Mexico. Mr. Torgue is also shipping a carload of oats to the Faria, Kest Co. at Milner.

Edwards & Clifford of Hagerman have a bunch of cattle in Professor Hinton's pasture. There is an abundance of feed in the fields in this vicinity.

Mr. Farr has resigned his clerkship with Professor Hinton and has returned to Twin Falls.

Lester Neilson has returned from Ogden where he underwent an operation for appendicitis. He is still under the care of a physician but will soon be able to resume his duties.

Mr. Cederholm has gone to Portland, Oregon.

H. L. Brandt of Nampa, who has a half section of land near Hansen, has been looking over his property. Mr. Brandt is greatly pleased with the Twin Falls tract of which he has a very high opinion.

Mr. Tadlock went to Rupert on Monday to reside.

The shadow social given in the schoolhouse for the benefit of the library was a great success in every particular. The proceeds amounted to \$45.00. All sorts of shadows appeared on the curtain to be auctioned off to the highest bidder. Prices ranged from 40 cents to \$4.75. One of Hansen's 'gentlemen' and chivalrous bachelors bid the limit for an attractive phantom, which proves that our men are not lacking in gallantry.

J. E. Williams and son and Dick Anderson of Payette are in Hansen. After attending the Gooding opening they decided to look over the Twin Falls tract with which they were so well pleased that Mr. Anderson purchased Peter Neilson's ranch, for

which he paid \$88 per acre. Mr. Williams closed a deal for Harry Killough's property near the townsite. They all come back to Hansen. J. D. Brewer and son, Ira, who went to California some time ago to locate in the Golden State, concluded that Hansen was the best place after all and they arrived home on Sunday.

Miss Dixie visited with her parents at Heyburn on Sunday.

Nick Smith purchased J. E. Hill's hogs and took them home on Tuesday.

McRawlins of Wyoming came over from Gooding after the opening last week for the purpose of making a purchase of land. He was called home sooner than he expected and before he had an opportunity to look around. Mr. Rawlins will return in the spring.

The Western Lumber Co. shipped a carload of lumber to Murtaugh on Wednesday. The company has orders for another carload to be delivered at Bickel siding to be used by the dry land homesteaders.

G. L. Redhead auctioned the shadows at the social and did so well that he is likely to be called upon for similar service in the future.

Foreman Anderson put a crew of Japanese at work shoveling snow from the tracks in front of the Hansen depot (?) on Monday morning.

R. B. Roberts started overland on Monday morning to trail a flock of sheep from the Boise valley.

The Hansen Gun club will hold a turkey shoot the day before Thanksgiving.

FOR SALE—Good team, heavy brood mares; 1800-lbs. mule colt; harness and wagon; cheap. Box 851, Twin Falls.

Bids for Contracts.

Sealed bids for contract for erecting for the basement of the new school house, school district No. 12, to be built in Buhl, will be received by the board of trustees of said school district up to 6 o'clock p. m., December 1st, 1907. The bids shall be made for so much per cubic yard of dirt, and so much per cubic yard for rock work where the rock is solid and requires blasting. The dirt is to be placed around within 20 feet of the building and all leveled to an even depth, and the rock is to be piled in separate piles on the school grounds.

The board of trustees reserves the right to reject any and all bids. Address all bids to E. A. Miller, clerk of the school board, Buhl, Idaho.

Let Blabes do your photo work for Xmas.

We have money for long time farm loans subject to water contract. COMMERCIAL & SAVINGS BANK.

We want to sell your property. Stroud, Carter & Co.

Go to Stroud, Carter & Co. for bargains in farm lands.

TWIN FALLS MAN FOR PRESIDENT

OF SOUTHERN IDAHO LEAGUE OF COMMERCIAL CLUBS.

C. M. Hill Elected to Head the Organization Which Has Been Revived on New and Healthier Lines—Railroads Denied Representation.

At the annual convention of the Southern Idaho League of Commercial Clubs in Boise this week, C. M. Hill of Twin Falls was elected president of the organization. The representation was large and deep interest was manifested in the proceedings. Action was taken upon several important matters.

Railroad questions absorbed the time of the convention to a large extent and there was a wholesome change of front respecting the same. A resolution was passed favoring the election of a railroad commission by vote of the people and the executive committee of the league was instructed to take a poll of the commercial clubs on the question.

It was decided, however, that the railroads should be denied representation at league conventions, the impression having obtained—that the league was dominated by the railroads. This action was opposed by Mr. Moss of Payette, Mr. Booth of Boise and Mr. Helghe of Weiser and supported by Mr. Hill of Twin Falls, Mr. Griffiths of Caldwell and Mr. Ingerson of Pocatello.

The league commended the action taken by Senator Heyburn in requesting that the treasury department should deposit no more government funds in New York banks until the latter were willing to pay the western banks the amount due them.

Following a discussion on the question of high transportation rates on building material the following resolution was passed:

"Whereas, the principal items used in the construction of all kinds of buildings, canals, power plants, and other structures are cement, lumber, iron and steel; and

"Whereas, the present rates on these commodities in effect in southern Idaho are excessive, unreasonable, discriminating and unjust; and

"Whereas, the general unbuilding and prosperity of the country largely depends on cheap construction material;

"Now, therefore, be it resolved by the convention of the League of Southern Idaho Commercial Clubs now assembled, that the traffic committee be urged and instructed to take immediate action with the proper

authorities toward securing equitable and just reductions in the rates on said commodities; and, especially, to ask that discriminations against any particular section of southern Idaho be corrected."

By adopting the following resolution, the convention endorsed Senator Heyburn's amendment to the rate law:

"Your committee on resolutions respectfully recommends that this convention endorse Senator Heyburn's amendment to the interstate commerce law.

"That the secretary be instructed to send each commercial body in the state of Idaho a copy of the attached memorial requesting them to call a meeting at the earliest opportunity, endorse the memorial and send to each of our representatives in congress a copy of the memorial and their indorsement.

"And it is further resolved that the secretary of the league be instructed to send a copy of this memorial to the principal commercial bodies of the western states most vitally affected and informing them of our action."

The Heyburn amendment asks that congress amend section 4 of the railroad rate law to make it unlawful for any common carrier, subject to the provisions of this act, to charge or receive any greater compensation for the transportation of passengers or of

like kinds of property for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance, but this shall not be construed as authorizing any common carrier within the terms of this act to charge or receive as great compensation for a shorter than a longer distance.

With the view of improving the telegraph service in Idaho, the league adopted the following resolution:

"Resolved, that it is the sense of this convention that the executive board should take up with the Postal Telegraph & Cable company the question of that company building its line through Idaho and extending its service to the cities in the southern portion of the state."

The election of officers resulted as follows:

President, C. M. Hill, Twin Falls; First vice-president, B. P. Shawhan, Payette.

Second vice-president, William Northrop, Boise.

Secretary-treasurer, Rollie Atkinson, Boise.

Members of the executive board: E. M. Helghe, Weiser; R. B. Greenwood, American Falls; E. T. Brace, Nampa; C. C. Moore, St. Anthony; M. F. Alpayette, Payette; William Northrop, Boise.

25 Per Cent

We have some very desirable business properties that will pay 25 per cent on the price asked under annual lease.

TWIN FALLS, IDAHO

HOW TO HANDLE WHITE PINE IS CREAM PROPERLY

HINTS FOR OWNERS OF DAIRY COWS

Cream Should Not Be Held Long Before Delivery to the Creamery—Cost of Producing Milk—Formula for Figuring Cream Checks.

The following data, which is taken from the Northwest Pacific Farmer, is of interest to those who own dairy cows in view of the fact that a creamery is about to be started in Twin Falls.

After a year's observation with the dairy herd at Cornell University, Prof. H. H. Wing reaches the following conclusions regarding the food cost of producing milk:

With a fairly good herd, carefully fed and kept, milk can be produced for 15 cents a hundredweight, and for 16 cents a pound for the cost of food consumed.

That individuals of the same breed vary more widely in milk and butter production, than do the breeds themselves.

The large animals consumed less pounds of dry material per 1000 pounds live weight a day than did the smaller animals.

That in general the best yields of fat were obtained from cows that gave at least a fairly large flow of milk.

In general, the cows consuming the most food produced both milk and fat at the lower rate.

For the production of milk and fat there is no food so cheap as good pasture grass.

Delivery of Cream.

Cream should be covered, white en route to the station and be exposed to a high temperature just as little as possible, and never to the direct sun's rays.

The cream that has been held soon sours when the temperature is raised above 60 degrees. Ship cream often and take it to the station or factory in a good wholesome sweet condition and insist on receiving a better price for it than is paid for the stuff delivered once a week.

You expect your wheat, corn, potatoes, live stock and in fact all other farm products, to be graded and paid for accordingly, and there is no logical reason why an exception should be made of this much more perishable and valuable product which depends so much on its quality for its true value.

It costs more to produce good cream, give it to the factory and deliver it.

Such cream is worth more for making butter and should command a better price. The producer should insist that he receive for his cream a price based on its quality.

Figuring a Cream Check.

Do you know how to figure a cream check? Suppose you had 112 pounds of cream sent to the factory, and but it was 22.5 per cent.

The average test, 30 per cent; price for making, 2 cents. How should it be figured out? This way.

One hundred and two pounds of cream testing 30 per cent contains 33 pounds of butter fat. Where modern methods of butter making are followed, there will be an overrun of 18 to 20 per cent in churning cream:

that is, for each pound of butter fat in the cream 1.14 to 1.20 pounds of butter will be obtained. Taking the latter figure we find that 33.6 pounds of butter fat would make 40.3 pounds of butter, which at 32.6 cents a pound, will bring \$13.11.

The milk-maker receives 2 cents a pound, or 81 cents in all, leaving \$12.30 to the credit of the patron. This figure is, of course, only approximate, since the conditions in the factory which influence the yield of butter are subject to considerable variations, but it is not likely that a larger overrun than 20 per cent will be obtained under good management, so that the patron cannot expect to receive more than the amount stated for his cream.

Do Not Endanger Life When a Twin Falls Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Twin Falls testimony.

E. R. Chandler, farmer, living one mile and a half south of Twin Falls, Idaho, says: "I do not hesitate to recommend Doan's Kidney Pills for they proved of great benefit to me."

For two or three years I suffered off and on with kidney complaint and backache and on one occasion I was laid up for a week on account of it.

I procured a box of Doan's Kidney Pills at Sprague's drug store. I took this remedy faithfully and found it to be just as represented. Doan's Kidney Pills relieved the pain in my back in a very short time. I know this remedy to be safe and reliable for kidney trouble, and should I have a return of the trouble I will again resort to Doan's Kidney Pills."

For sale by all dealers. Price 50 cents.

Old Dutch Cleanser, mixed with elbow grease will remove corrosive substances in sinks or latrines, for sale at Idaho Department Store.

WHITE PINE IS DISAPPEARING

IDAHO HAS NEARLY ALL OF THIS VALUABLE TIMBER.

Within the Memory of Comparatively Young Men Prices Have Soared from \$15 to \$115 per Thousand—Rich Forests Looted.

The position which the United States has held as a lumber-producing nation has, perhaps, been due more to white pine than to any other wood. The timber of this valuable tree which has played a most important part in the material development of the nation is fast disappearing and now it is as costly as the finest American hardwood.

Rev. Edward Everett Hale, the Chaplain of the senate, who has always taken an interest in forestry, declares the passing of white pine as our foremost wood, and tells how in his lifetime he has seen the day when "the masts of every vessel that sailed the seven seas were made from New-England grown pine; while today very little white pine is cut in New England big enough to furnish a single mast spar. He tells also, of the lumbering industry of the wood, that he ordered a set of book shelves on which the cabinet-maker made a price, and then asked whether they should be mahogany or white pine.

The white pine production has shifted from New England to the lake states, and Michigan was the leading lumber producing state for 20 years, from 1870 to 1890, with a supremacy based on white pine. In those two decades the cut was 120 billions of board feet, valued at the point of production, at not less than two billions of dollars, or nearly half as much again as the value derived from all the gold-mines of California from their discovery in the late forties until the present.

The rich forests of Michigan were once thought inexhaustible and lumbering continued in a most reckless manner for years. Suddenly the people awoke to the fact that the thoughtless destruction of the trees had brought about a loss of the heritance of all future generations.

An idea of the increasing scarcity of white pine lumber is given by the New York P. O. D. quotations, on a basis of about 100,000 ft. of the best grade, cost \$97 to \$114 a thousand board feet and the "selects" or next lower grade cost \$79.50 to \$99.50.

Michigan, which was the basis of comparison which indicates the condition of the market for white pine.

The best stands of this timber now in this country are in scattered sections of Minnesota, New England, and parts of Idaho. The species in Idaho is sometimes called silver pine. Some of the country's best white pine is found on the Indian reservations in Minnesota and Montana.

Of stands are found in the states of Wyoming, Montana, Colorado, and one or two other states. At the present rate of cutting the tree will soon be practically a thing of the past.

The small stands in the national forests are inconsiderable, but they will be managed with the greatest care by the government through the forest service, and through this method and practice of reforestation it may be hoped that the fine old tree will furnish timber for other generations.

ADVERTISED LETTER LIST

List of letters remaining unclaimed in the Twin Falls postoffice for the week ending Nov. 16, 1907. Parties calling for these letters will please say "advertised Nov. 18, 1907."

Reliable information regarding the city and
country generally and especially regarding
the Twin Falls, Idaho, and the
Twin Falls Publishing Company, Twin Falls, Idaho.Entered as second-class matter, December 2
1904, at the postoffice at Twin Falls, Idaho, under
the Act of Congress of March 3, 1879.

"Sec. 4. That it shall be unlawful for any common carrier, subject to the provisions of this act, to charge or receive any greater compensation for the transportation of passengers or of like kinds of property for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance; but this shall not be construed as authorizing any common carrier within the terms of this act to charge or receive as great compensation for a shorter than a longer distance."

Should Senator Heyburn succeed in securing the passage of the above amendment to the rate law, he will have done the middle-west a greater service than any other man, living or dead. He will meet with resolute opposition. The railroad lobby, which has blocked the halls of congress for years and has polluted state legislatures, will fight the amendment tooth and nail. Its passage would mean freedom from railway bondage, immunity from the throttling that has enslaved the middle west for years. The city of the railroads is: "You do not know what you are talking about. You are a disturber, a menace to American industry. The secret of rate making is something you cannot fathom. Of the management of railways you know nothing, consequently your opinions are worthless." Of this talk the people have had enough. The citizens of Idaho are willing to take the word of Mr. Harriman that the Oregon Short Line paid a dividend of 50 per cent in August of last year upon stock that is floating in water. When asked where the money for the dividend came from, the comptroller of the Harriman system replied: "From current resources." No later than yesterday the News paid \$2.50 per hundred on paper from Omaha to Twin Falls. The carload rate from New York to San Francisco on the same commodity is 75 cents per hundredweight. For a long time the rate from Minneapolis to Twin Falls was 42 cents per hundredweight, or more than half the carload rate from New York to San Francisco. This, the railroads will maintain, is due to water competition. Thus, it is written in the railway lexicon, the country must run to fringes; the seaports shall flourish and, the inland cities shall be cast down. Because railways are able to pay 50 per cent dividends is no reason why they should be attacked or wrecked. They have their rights, but they should respect the rights of others, which they do not. In an address before the Kansas City Commercial club this week, James J. Hill of the Great Northern said:

"The transportation facilities of the whole country are and have been unequal to its present needs. They must be made equal to the burdens they bear or the country cannot prosper. How far railroad construction has been unable to keep pace with the domestic commerce the country even now does not realize. Railroad managements have met the situation by every effort to increase equipment and increase efficiency in the operation. In both directions the country has accomplished a little short of wonderful. Everything that available capital, ingenuity, cheap energy, high protected labor and efficient management can accomplish has been done. The problem that remains is both physical and financial, to bring construction up to the needs of our immense domestic commerce, and to raise the necessary money to do this. If both or either of these is impossible, it is not the fault of the railway system. And only gross ignorance of the truth, or the malice of disturbers, can ignore the plain and true facts. Only by improved methods of operation and only by traffic as would have destroyed business activity or turned it into a game of confusion and chance."

In ancient times Mr. Hill would be considered a blasphemer. In modern times he is classified as a member of the Annals club. His statement that the railways are unequal to the burdens they are called upon to bear is quite true. Nobody will dispute Mr. Hill on that point. Why are they unequal? Is it not possible to manu-

facture enough steel rails, enough locomotives and enough cars? Mr. Hill should have gone further and said that the earnings of the railways are being used to pay fat dividends on watered stock and not for the purchase of needed equipment. Mr. Hill's own road, the Great Northern, is a pitiful example of his pigheaded policy. Mr. Harriman has spent vast sums in construction since he obtained control of the Union and Southern Pacific. He has also wrested vast sums from the people through exorbitant rates. He makes and un-makes cities by discrimination. He maintains a press bureau which is constantly framing apologies for his methods and appealing for public sympathy. For the public Mr. Harriman cares not an iota. The shipper has no rights in his opinion. Last June the News shipped a box of line-type slugs to the Albion State Normal Mirror at Albion. The type was for use in the June number of the Mirror. It was "short" at Burley and it has not yet reached Albion nor has the Short Line "made good." The publication of the Mirror was delayed until after the spring vacation term; the News lost the material and is out the cost of composition. Suit could be brought against the Short Line but what's the use? This illustrates the Harriman policy. His "Come, pussy" talk is no longer heeded.

The Southern Idaho League of Commercial clubs did a wise thing in excluding the railroads from the organization. The railroads should belong to the league by rights, but when they evince a disposition to stifle what they consider a menace to their predatory practices it is time to shut them out. If the railroads behave they have nothing to fear. If they do not behave, let them be taken to task. The Short Line has scattered throughout the state merchants and others who are over ready to shout railroad praise. They are the favored few whom the railroad relies upon to influence public sentiment. Kick them out also.

The railroads are making their old threats: "We will not build while the present uncertainty exists. We must be assured of large rewards and protection." In addition to breeding anarchy, the pompous railway capitalists are working up large scabs on their noses. The time is approaching when it will be necessary to bale the railroads out and hang them up to dry. They are soggy and sour and while they make an excellent football for Harriman and his piratical crew, they need a few turns of the wringer and a little stitching.

It is undignified to say the least, on the part of the postoffice department to so manipulate matters as to secure a location without paying rent. There is no valid reason why the government should not pay for its office space like a private citizen, but so long as people are anxious to have the postoffice located near their property, so long will the government take advantage of the clamor. Why not have a federal building in Twin Falls and be done with it?

It was only a question of time until something trumped on the Twin Falls accommodation train. The wonder is that hogs have not rooted it off the track. However, there was no need of killing two men in the smash.

Notice of Attachment.

In the district court of the Fourth Judicial district of the state of Idaho, in and for Twin Falls county, Pioneer Storage & Commission company, limited, a corporation, plaintiff, vs. S. S. Wheeler, Wm. Hoops, A. D. McKinlay, J. T. Willis, Geo. Bassett, John Peters, D. L. McClung, Clark Stanton, H. A. Kellor, E. C. Cheney, Wm. Cheek, H. H. Jacobs, W. W. Humphrey, Roy Ashworth, C. W. McElvaine, P. H. Smith, and J. W. Craven, co-defendants.

Notice is hereby given that writ of attachment was issued out of the above court in the above entitled action against the property of S. S. Wheeler, Wm. Hoops, A. D. McKinlay, J. T. Willis, Geo. Bassett, John Peters, D. L. McClung, Clark Stanton, H. A. Kellor, E. C. Cheney, Wm. Cheek, H. H. Jacobs, W. W. Humphrey, Roy Ashworth, P. H. Smith, and J. W. Craven co-partners in the Twin Falls Horse company, on the 21st day of November, A. D. 1907, commanding the sheriff to attach the property of the said defendants for the sum of three hundred and seven and 6/100 dollars and interest thereon at the rate of 7 per cent per annum since the 2nd day of July 1907, and to keep the same until such time as the court shall order and to return the same to the court.

Witness my hand and the seal of said court this 23rd day of November, A. D. 1907.

H. T. WEST,
Clerk of the District Court.

Geo. H. Smith, Deputy.

MORE MACHINERY FOR FLOUR MILL

THIRD CARLOAD ARRIVES IN KIMBERLY.

All the Equipment is Now in Hand and the Work of Installation is Being Hastened—Mill Will Soon Be Ready to Grind.

KIMBERLY, Ida., Nov. 20.—Wm. van Houten has a story telling how whenever the weather warms up, H. G. Wise and P. H. Wise, who left here some time ago to visit their old home in northern Idaho, have returned.

The long looked for car of machinery for the mill has arrived and is being unloaded. This is the third car that has been received and completes the machinery order. Manager Cheney will begin work at once setting the various machines and promises to be turning out flour in very short time. E. C. Crocker of Salt Lake is in town looking after the power plant. A. R. Moore is handling grain to the mill.

Several new barns are being operated about here at present. A. Ball, who has a farm southeast of here, is operating one with a gasoline engine.

C. W. Rice and W. R. Ashdown moved W. H. Turner's house to his Rock Creek home on Thursday. The building was small and was loaded bodily on a wagon and hauled to its new site.

F. A. Morse, who has been here some time looking after his interests, has returned to his home in Boulder, Colo.

The Nibley-Channel Lumber Co. is making extensive improvements in its office. The partition at the back has been removed giving much more room and the whole interior will be painted.

W. T. Hudson is making a cistern at the hotel to hold the winter's supply of water.

W. R. Ashdown has resigned his position in Twin Falls and returned to Kimberly to establish his residence on his homestead near Rock Creek.

Arval Yancoy had a public sale at his place on Thursday. He disposed of all his personal property preparatory to making an extended trip.

The Kimberly hall is being plastered this week and a dance is to be put in at once so it can be made comfortable for meetings this winter.

W. H. Thomas has disposed of the Frank Proctor place. Ed. Claborn who owns the adjoining 30 is the purchaser. The price was \$105 per acre.

The Nibley-Channel Lumber Co. has received a contract for coal which it is putting in bins for future use.

Mrs. A. D. Norton and mother, Mrs. R. C. Younger, have returned from Boise where they had been visiting for some time.

O. C. Tadlock of Rock Creek was in town on Wednesday.

C. W. Rice came from Oregon where he went to get some horses he had in that section.

Mrs. H. J. Hill has accepted a position as book keeper in the Electric mill.

Statements of grain have been very slow here the past week. Owing to the uncertain condition of the market farmers are holding up and very little being handled at all.

A. J. McMillan has finished building a house on his homestead near Murtagh. Already nine houses have been built in that neighborhood and before the first of next month there will be a great many more erected.

During this week regular mid-week prayer meetings will be held in the school house every Wednesday evening.

A. R. Keeler loaded a car of potatoes on Wednesday last week for shipment to Texas. This was the first car shipped from here this season.

W. H. Turner and C. W. Rice visited the former's homestead east of Rock Creek last week. Mr. Turner expects to have a house put up at once as he is to be ready for occupancy about December 1st, at which time he will be compelled to establish his residence on the land.

W. O. Oshorn has been busy building his house on his homestead near Rock Creek.

C. E. Argyle got close enough to a deer on a section of university land, two miles south of town, to get four shots at it but with no effect. The water was out of the low line canal and the deer just happened to wander over into civilization.

Several parties are contemplating a trip to the hills south of here after deer.

W. and Frank Burrington have come to Los Angeles, Cal., where they expect to spend the winter.

G. T. Gaskill has filed on a piece of 160 acre land about 6 miles south of here, which in some manner, remained unselected until this late date. Art Norton of Rock Creek was in town a few days ago and after talking with which to build a new bunk house on his ranch.

E. U. McIntire has had the plastering and painting done on his house so it will now soon be ready for occupancy.

M. H. Wright has gone to Rock Creek to do some carpenter work for Art Norton.

Slavon Jubilee Singers, School Auditor, Monday night. Reserved seats \$1.00 at Sprague's.

Rage Wanted. Cash paid for old rats delivered at The News Office.

Lost—Black and white scotch collar well marked. Reward for her return to C. M. Hill, Twin Falls.

MORE VISITORS FROM ILLINOIS

EXCURSION TRAIN ARRIVES FROM CHICAGO.

Land Seekers to the Significant Number of 23 Went Their Way Westward from the Windy City. They Will Visit the City of Joseph.

Major Fred Reed, clad in corduroy and wearing his inimitable smile, escorted a party of land seekers from Chicago to Twin Falls this afternoon. The major was "muzzled," as it were, in a measure, distraught. For some time after the party registered at the Hotel Perrine, the major poured over the registered and scratched at his head, and counted and counted and the result seemed to worry him.

"I have worked this thing out by the laws of mathematics," said the major, "and it looks up 23 every time. That's not a good sign and we will have to increase the number of our party, or lose somebody. I can't stand for that number."

After struggling with the count the major called Carl Hahn to his assistance and together they work over the list. Carl corroborated the major's count after which they will give away the Armstrong and Mr. Nelson of the International Audit company who verified the tally. Finally they decided that H. J. Hollister should be classed as a Twin Falls pioneer which would make the count correct. Mr. Hollister had compounded the broth in Chicago and was really the pilot of the party.

The visitors were duly impressed with the greatness of the Twin Falls canal system and they will make an extensive tour of the North Side tomorrow. They came over the Northwestern and they are as welcome as Idaho sunshine.

The Twin Falls tract is indebted to Illinois for many desirable citizens and is always glad to greet people from that state.

German Souvenir. The O. K. Candy Kitchen has just received a shipment of German place-cards which they will give away with every purchase of candy amounting to \$1. They are very pretty and make a handsome wall ornament.

Kellogg Hallen. Singing Party. School Auditorium, Thanksgiving night. Reserved seats \$1.00 at Sprague's.

HOW THE BANKERS REALLY BEHAVED

HAD A JOVIAL NIGHT SESSION ON WEDNESDAY.

Saved the Country and Had Lots of Fun Doing It—President of Clearing House Association Asleep at the switch—Many Were the Jokes.

(By Bud)

As the editor of the News I am not in the habit of staying up late at night, and consequently could not sit out the bankers' meeting, he detailed me as special commissioner to report the proceedings. They had all the money locked up, I suppose, for they invited me inside the bull pen and gave me a comfortable chair and a cigar. They were a cheerful looking lot of gentlemen and I believe any one of them would have stood for a touch.

After the purpose of the association had been set forth and the officers elected, President Hahn turned to Secretary Maxwell and said: "John, how is the girl?"

"Finer than silk," said the secretary. "She is gaining in weight, every day and her color is splendid."

"When my boy was that age," continued the president, "we found that he was growing faster than we thought."

I noticed that Mr. Nixon was paying close attention to the conversation and I could not understand why he should be interested. Later I learned the reason. For a while I thought the meeting would turn into a mothers' convention. Mr. Allred of Buhl contributed some valuable suggestions along the juvenile line while Messrs. Warner and Cost showed very little interest in the proceedings. When Mr. Turner of Kimberly cut in I thought we were all of with the bachelors and that we were up against an all night session. After they had discussed everything from toothbrush rings to booties they began to get down to business.

The president opened a big bag of blanks and the secretary distributed an assortment of pens. That looked encouraging and when they passed around the cigars again and laughed over the clutch the married men had on their wives in being able to stay out all night without exciting suspicion, things began to cheer up.

One of the members suggested that the offer of the proprietors of slot machines to place "brasses" in circulation be accepted. This was turned down for the reason that many patrons of the banks were in the habit of using the slot machines and might be forced to put in real nickels.

The gentleman from Kimberly expressed the opinion that good, serviceable yellow notes might be made from Kimberly straw and Secretary Maxwell offered to donate his entire strawstack. Mr. Cost of Buhl suggested that the green notes might be made from sagebrush which might give them a tough fibre and render them extra durable. Both propositions were rejected pending the completion of the municipal power plant which might permit of the construction of paper mills. Mr. Allred declared that if the worst came to the worst they might use baled hay as a medium of exchange, whereupon Mr. Fuller and Mr. Honeychurch turned pale and the meeting took a recess for five minutes to enable them to revive.

When the session was resumed President Hahn said:

"It's just this way, gentlemen. The American party simply had to win or it was all off. I thought Morris would make a better run than he did but I guess they gave him the double cross. I'd like to have—"

"Beg pardon," interrupted a member, "but we were discussing currency and specie."

"Oh yes, as we were," said the president. "Now let's get down to business. What kind of a pen do you prefer Mr. Warner?"

Mr. Warner seized up the rubber stamp in the hands of the president and raised an objection.

"I must protest against this handicap," asserted Mr. Warner. "My understanding was that we were all to be on an equality and now Carl Hahn breaks in with a rubber stamp while the rest of us are forced to use pens. He might just as well have had the News print his name on the certificates."

This provoked a hot discussion, during which I swiped another good cigar. Finally they settled down and began to sign papers. I have heard about people making money rapidly but this beat anything I ever saw. For an hour or so there was nothing to it but the scratching of the pens. Once in a while the writers would pause to hear a good story or crack a joke.

It was getting pretty late by this time and I was growing hungry.

"Wonder if Will Turner would take one of these in exchange for lunch?" suggested a member.

"Let's try," ventured another, and we all filed over to the Mission cafe.

The proposition was put up to Will Turner who said:

"Certainly, gentlemen, but if I should happen to run out of lunch I would be obliged to offer you a certificate from the butcher which would be just as good as the butcher's is so long as he can get the chickens from the farmers who have lots of them. I could let each of you have a wing and give you a clear—"

This was rather blinding and we all decided to take sandwiches and cheese as a starter.

After lunch the writing was resumed. Shortly after 2 o'clock it was found that Ralph Cost had been asleep for half an hour and was about \$500 behind in signatures. Then Carl Hahn grew careless and began using his stamp upside down which complicated matters further. At 3:30 Russ Allred fell in a gentle dose and the others were becoming sleepy.

"Close up boys," said the president.

"We must save the country if it takes us until daylight." Everybody got busy again and the scratching continued without interruption until a strange sound was heard.

"It's the grasshopper train from Buhl coming in," said somebody. "Grasshopper is banned," asserted another. "It's a snore. Gentlemen, our presiding officer has succumbed at his post. He fell in discharge of his duty. Let us adjourn."

A committee of three was appointed to wake up the president and the work of the night was wound up.

DON'T WANT SALOON IN FILER

Opposition to Grog Shop in Midway City is Manifest.

A meeting was held on Tuesday evening, November 12, in the M. B. C. church at Filer for the purpose of discussing the subject, "A Saloon in Filer."

The meeting was called to order by M. J. Carmichael, after which S. Ludlow was elected chairman and Arla Ludlow, secretary.

The following rules of order were adopted:

1. That no one speak without permission of the chair.

2. That no one speak longer than 20 minutes.

3. That the upholders of the saloon speak alternately with the opposers of the saloon.

4. That no one speak while some one else has the floor.

The discussion was opened by Rev. Hotchkiss and followed by others.

Rev. Hotchkiss said it is sometimes said that a saloon helps the business of the town. The saloon is not a bonanza to the town. Parents will send their children to schools in towns where there are no saloons. A saloon is like a lion running loose in the streets.

Elder M. J. Carmichael—Some present the argument that a saloon would help our school fund as well as other funds pertaining to our town. As we are only a village, the saloon license would go into the county treasury and not into that of our village. When a town has a saloon, a policeman has to be paid \$60 or \$75 a month to watch that saloon that pays in \$350 to the school fund. Some say that we had better have a licensed saloon than what we have. If you license a saloon, you can't get rid of it, but we can get rid of a "blind pig." Another argument is put forth that in a town where there is a saloon there is a "gallon house." If saloon men say this, they are the first I ever heard of that are so thoughtful for the welfare of the community.

Another argument is, that, if we had a saloon, we would not have the drunken men on the street as we do now. Did you ever see a town with licensed saloons where there were no drunken men on the street and if liquor was sold without license it must be people crazy?

There are men that don't want to drink. Shall we not give them a town where there is no saloon when we have one on each side of us with saloons?

Mr. Pearce—I am in for the welfare of our boys and girls. An argument is put forth like this—I don't drink myself, but I think we should have personal liberty. There are many things in which our personal liberty is curtailed. Our liberty should not conflict with the welfare of the public. A saloon is the hotbed of crime.

Some argue that liquor will not hurt anyone if they let it alone. For an example, look at the intoxicated element that swarms a town. Did the passengers touch the liquor? No. Many wives and children suffer without touching the liquor.

Mr. Drake said in a town where the saloons were closed for 30 days, there were men that bought goods in a store, that never had a nickel to spend there before. Does a saloon help the business of a town?

Mr. Drake sang a good temperance song.

The song "Twin Ballots" was sung by Elder J. A. Perrell.

J. O. Tice—I am not a public speaker, but I am public in regard to a saloon in Filer. We ought to do our best to keep a saloon out.

The chairman—What will the saloon do for me? I have three boys. Statistics say that every sixth boy in each family has to go to fill up the ranks of those who fill drunkards' graves. I don't want one of my boys to help fill up those ranks. In the name of mother, I don't want anything that is good, keep a saloon out of Filer.

The chairman read a statistical report on the cost of liquor to the U. S.

The following resolution was made: Resolved—That we, the people of Filer, strongly protest against the license of a saloon in Filer and also the sale of intoxicating liquors for any purpose except medicine and that only by strict compliance with the laws of our state.

The meeting adjourned with prayer by Elder J. A. Perrell.

ARETA LUDLOW, Secretary.

TO LET—1-room cottage, good location, \$15. Box 361, Twin Falls.

J. W. Craven has some very fine Merino ewes and bucks for sale in lots of 50 head at farm, 1 1/2 miles east of town; also has a herd of nice young horses and colts for sale cheap. If interested call or write.

Blasch's electric studio the most up-to-date studio in southern Idaho.

Sole Agents for Water Rights for all Carey Act Lands under the

GREAT TWIN FALLS CANAL SYSTEM

25,000 Acres of
Carey Act Land

Still open for original entry under this Canal System

Land, 60 cents per acre. Perpetual Water Rights, \$25 per acre, ten annual payments.

Vehicles from Buhl furnished free to those who desire to inspect land. Prospective entrymen accompanied by competent locators.

BUHL

Buhl, located 17 miles west of the City of Twin Falls is the leading city on the west end of the tract and the distributing point for a large area, including the stock districts of Thras Creek, Butte and Roseworth, likewise the farming and fruit growing districts of Hagerman, Kanoka Flat and Salmon. The railway track is now completed between Twin Falls and Buhl, and train service has begun. Buhl has a splendid gravity system of waterworks, with a pressure of 100 pounds in the business section. It will soon be supplied with electric power and light. Business property values in Twin Falls have increased 500 per cent in less than two years. Some opportunities for investment are presented at Buhl. Now is the time to buy. Write for literature and further information. Address all communications to:

Secretary, Twin Falls Investment Co., Ltd.

TWIN FALLS, IDAHO

HAVE PROJECT OF THEIR OWN

ON DEEP CREEK-FLAT SOUTH OF FILER.

Well Known Citizens of Twin Falls
Are Building a Dam on Deep Creek
to Hold Flood Waters for the Irriga-
tion of a Large Tract.

P. H. Smith, J. W. Craven, C. J. Hahn, R. S. Cookinham and A. E. Larsen are making a project like the Deep Creek flat in township 12 south, range 16 east, where they are putting in two dams for the purpose of holding the flood waters of the creek for the irrigation of 2,000 acres of desert land owned by them along the stream. The upper dam, which is some distance above the lower, is supplementary to the latter from which the main canal will head. This water will be carried down the flat over the lands for a distance of about 3 miles and distributed where needed. The distribution problem is easy as the land slopes nicely and is smooth and free from rocks.

The lower dam is now under construction; will raise the water to a height of 18 feet above the level of the west bank of Deep creek, and forms the natural back of the reservoir on that side. From the west bank is a gradual slope for several hundred feet which will permit of sufficient storage for two irrigations. To make doubly sure of having enough water, however, the promoters will put in an upper dam a few miles further south on the creek which will insure a full supply.

The foundation of the lower dam rests on bedrock in a trench cut all the way across. A core of heavy flanking has been set in the center of this trench with a concrete filling on either side to the level of the lower slope of the west bank. From this height, up the stream, the dam will take the form of a quarter mile wide, sloping of three feet to one, rip-rapped on the surface and carried down stream in the same manner to guard against the overflow cutting back to the core.

The headgate of the main canal will be built of concrete into the dam on the west side, the bed of the canal being slightly higher than the back of the dam about 15 feet below the water surface of the dam.

The land to be irrigated is all creek without a rock or a bump from end to end. It lies like a smooth table with just enough tilt to carry the water. So dense and rank is the sagebrush that it was necessary to use a traction engine, and heavy machinery. Several hundred acres will be put in crop next spring and the entire tract will be under control.

There are three or four wells on the tract, the deepest of which is 15 feet from the creek dries up in July or August the water sinks to a strata of gravel a few feet below the level of the creek bed. During the spring and summer Deep creek is a roaring torrent.

Several families are located on the Deep creek flat on desert lands. They propose to use water to grow alfalfa from wells. With one good irrigation in the spring they should be able to mature grain. Once started, alfalfa will quickly grow down to the water table after which it will need no irrigation.

By section lines the lower dam site is about 13 miles north and 12 miles west of Twin Falls. The distance is about 22 miles if you drive a team of horses, 25 miles if you use mules and 30 miles if you walk.

Mr. Craven has devised a very clever scheme for digging post holes. He has trained a colony of pocket gophers to burrow to the right depth and by attacking them the ground at intervals of a foot apart he managed to have his post holes dug in fine style. He is now engaged in training the gophers to keep away from the canals and is also teaching them to eat sagebrush instead of seeds.

NEW ALL ABOUT VICIOUS DOGS
Successor McMillan Gives Pointers on Canine Management.

A group of men were discussing dogs and the best methods of handling vicious animals. One of the party held to the old theory of looking a nasty animal in the eye. Another maintained that the proper way to fight a canine attack was to walk straight ahead and not break ground. "Gentlemen," said James McMillan, "I want to say to you that there is just one safe way to handle a savage dog. It beats looking him in the eye, kicking him in the ribs or walking away from him. When you are attacked, you must stand firm, with your feet well apart, and wait until you get within reaching distance and then grab one of his fore paws and give it a good shake."

"Want the dog begin to feed himself on your precious person while you are getting the grip?" asked an inquisitive hearer.

"Not on your life. While you are squeezing his paw he cannot close his jaws. He will whine like a baby and when you let go he will put his head between his legs and beg for mercy. I have tried the experiment scores of times and I never knew it to fail."

How in thunder did you happen to get it, Mac?" queried the skeptic.

"Well, Great Scott, man, ain't I the assessor?"

Bibbe's electric studio open every Tuesday and Friday evening, 7 to 9.

J. W. Craven, has 15 pure bred Duroc Jersey sows, for sale cheap at \$12, 15 miles east of Twin Falls.

For that better grade of post cards call at Bibbe's.

Notice of Astry.

I hereby give notice, as required by law, that I have taken up an astray at my farm in section 26, township 8, range 16, on October 29, 1907. The said astray is a sorrel gelding, aged, weight about 1100, white dots on forehead and nose, branded O with perpendicular line through it on right shoulder.

E. J. MALONE, Twin Falls, Idaho.

Notice of Estray.

I hereby give notice, as required by law, that I have taken up an astray at my farm in section 24, township 10, range 15, on Oct. 18, 1907. The said astray is a bay gelding 10 years old, branded O on left shoulder.

O. R. KING, Twin Falls, Idaho.

Notice for Publication.

Notice of Proof of Application of Water to Beneficial Use.

Notice is hereby given that at 2 p. m. on the 1st day of December, 1907, at Three Creek, county of Owyhee, state of Idaho, before Thomas Higgins, prowl will be submitted of the application to beneficial use of threefourths of one cubic foot per second of the waters of West House creek and three-fifths of one cubic foot per second of the waters of Spring Creek, in accordance with the terms and conditions of permit No. 978, heretofore issued by the state engineer of the state of Idaho.

1. The name and postoffice address of the person holding said permit is James B. Steele, Butte, Cassia county, Idaho.

2. The use to which said water has been applied is irrigation and domestic.

3. The amount applied to beneficial use is one and one-fifth cubic foot per second.

4. The place where said water is used is in section 25, and SE¼ of NW¼, section 23, township 15 S., range 12 E. B. M.

5. The right to take the water from such works is based upon Permit No. 978.

6. The source of supply from which such water is diverted is West House creek and spring.

7. The date of the priority which said user is prepared to establish is October 18, 1904.

JAS. STEPHENSON, Jr., State Engineer.

First Snowstorm Causes a Rush for Coal—Several New Settlers Located on the West End—Buhl Musicians Organize Brass Band.

BUHL, Ida., Nov. 21.—J. H. Schooler, John Talley, W. B. May, Fred Nihart, W. C. Griffith, J. M. Griffith, H. R. Earp and F. S. Marshall took in the opening at Gooding on Thursday, but came back without making any thing. They say now that they like Buhl better than over.

H. D. Scott of Kimberly, who owns a ranch two miles south of Buhl, came up Saturday to look after his interests here.

Mrs. J. W. Faris, wife of J. W. Faris, the cashier of the Buhl State Bank & Trust company, arrived Saturday from Pocatello, to join her husband here. Mr. Faris' residence on Eighth avenue and Locust street, Park View, will soon be ready for occupancy when the family will move into it.

E. A. Miller made a quick business visit to Salt Lake the fore part of the week.

Buhl had its first snow of the season on Sunday, and Monday morning every body in town was looking for coal, but there was none for sale. It was discovered that B. Boyd, the local manager of the Weeter-Lumber company, had none for sale, and a run was made on his bank. All sorts and kinds of people, from the millionaire banker to the day laborer, could be seen wandering their way with coal scuttles, towards the office of the Weeter-Lumber company, to borrow, beg, or buy a bucket full of coal. Mr. Boyd, with his usual public-spirited generosity, let all those who applied have a scuttle full of the precious black diamonds. He said he was expecting two carloads in every day, and when they arrived there will be no other run made on him.

T. W. Snodgrass made final proof on his ranch Tuesday. Mrs. Snodgrass is visiting in Twin Falls.

B. L. Rathbun came up from his ranch at Clear Lake Tuesday on business. He says that he is making a bet upon which will win the famous Clear Lake as a place to induce members of the funny tribe to catch on.

Sam Johnson, the owner of the ranch at Lewis Ferry, was a Buhl business visitor on Tuesday.

Rev. J. H. Barton of Boise held services in the school house evening, evangelizing the fore part of the week.

D. T. Leach went to Minidoka Monday on business. Mr. Leach is from North Dakota, and is negotiating for the purchase of a quarter-section three miles southwest of town. He is the owner of a large band of sheep which he intends bringing into this country.

O. M. Drake of Boise was a Buhl business visitor the latter part of last week.

J. C. Moore of Twin Falls came up from that town Wednesday on business.

Ernest Galt of Kansas City, Mo., was among the land seekers on this end of the tract Thursday.

W. F. Proctor, who had been selling high grade cows at the stock yards

for several days of last week, took home to his ranch a few that he had left on Sunday.

Jas. R. Quick of San Francisco registered at Hotel Buhl Thursday.

J. E. Roy of Salt Lake City, was a Buhl business visitor Friday.

L. G. Sherman of Twin Falls was up from the Magic City Friday on business.

LeRoy Decker of Ogden was a Buhl business visitor Saturday.

Henry Williams and W. Woblo of Salt Lake City were guests of Hotel Buhl Monday.

H. E. Vanderveer and H. F. Bishop of Lincoln, Neb., were land seekers on the west end Saturday.

G. W. Grindley of Hagerman spent several days of last week in and around Buhl on business.

W. R. Palmer of Twin Falls, was a Buhl business visitor Saturday.

C. P. Seal, a locomotive engineer of North Yakima, spent two days of last week in town looking over the country, prospecting for an 80 to suit him. He left for Twin Falls Tuesday morning to make a filing.

Lola Taylor, the 14-year-old daughter of ticket agent, C. H. Taylor, met with a painful but not serious accident Friday, while out horse back riding. The horse threw her and dislocated her elbow joint. Dr. Monroe was called and had the injured member in proper shape in a few minutes. The injury has not caused her any trouble since. She has been around as if nothing happened.

N. J. Jordan came in from his ranch in the Ottawa colony Monday on business.

Oscar Stahl of North Yakima was in town Saturday and took a ride with Ed. Braun for the purpose of finding a piece of land to his liking.

W. D. Yngst, who purchased the Baldwin ranch a mile south of town last week, arrived Saturday from Salt Lake with a carload of household goods. He will commence the erection of a commodious residence on the ranch at once, and will send for his family as soon as it is completed. He will take up his residence there and go to making improvements without delay.

Geo. W. Nolan of Salt Lake is a guest of Hotel Buhl.

H. H. Fisher, C. M. Fisher and H. H. Kew took away of Tuesday and came into town to keep acquainted with the city and the people. If one misses seeing Buhl for a week, he won't know it the next time he sees it.

T. H. Holmes, the barber moved from St. Louis into the upstairs dwelling rooms in the Evans Johnson block, Main street, on Thursday.

The several musicians in the town held a meeting in the school house Tuesday evening for the purpose of organizing a brass band. The organization was effected with 12 members. Many more have expressed their intention to join. Buhl will soon have a full band.

Another meeting will be held Tuesday, Dec. 2, at which time the various committees appointed will report.

There will be a dance Thanksgiving night at the Anderson billiard hall.

The second story addition to the Baldwin rooming house is completed and will soon be ready for occupancy.

The front is being put in the Harvard block on Main street, opposite the post office.

The farmers are busy hauling by their dig crews of grain and alfalfa.

Miss Neta Baker of Twin Falls, who has been visiting with Mrs. F. S. Moore for the past two weeks, left for home today.

The Ladies Aid society will give a Thanksgiving dinner on the 28th, to which the public is cordially invited.

J. H. Schooler is under the weather. He caught cold on his trip to the opening at Gooding and has not been well since.

The board of school trustees is advertising for bids for contracts for making the excavation for the new school house. All bids must be in by 6 o'clock p. m. December 1st, and no doubt a contract will be let at that time for the work. The work will commence at once as soon as the contract is let.

Clay M. Milner, the electrician of Twin Falls, visited his father, E. A. Milner, between trains on Tuesday.

Postmaster Nihart received a very complimentary letter from the post-office department for the prompt and efficient manner in which he attended to the weighing of the mails during the weighing period. The amount of mail matter weighed at the office during the month of October was:

First class, 119 pounds, 6 ounces; second class, 95 pounds, 7 ounces; third class, 25 pounds, 5 ounces; fourth class, 83 pounds, 11 ounces; penalty matter, 1 pound. Equipment carried in connection with the mails, 112 pounds, 13 ounces.

The Buhl Trading company has an exhibition two sugar beets weighing 7½ pounds each, which were grown on the ranch of C. S. Peck, south of Pahr.

J. F. Mills of Hagerman was in town Wednesday selling honey.

Once-a-Buhl—booster—always one. Mr. John A. Jacoby, former manager of Hotel Buhl, but now living at Nampa, writing to a friend here says that the family never forgets to say a

word for Buhl.

McCrow of Hagerman was a Buhl business visitor on Wednesday.
