

FOURTH YEAR.

TWIN FALLS NEWS, TWIN FALLS, IDAHO, FRIDAY, SEPTEMBER 11, 1908.

NUMBER 46

CELEBRATION A GRAND SUCCESS

OT A HITCH IN THE LABOR DAY
PROGRAM.

very Attraction Promised Was Fur-
nished and the Program Was Carried
Out Precisely as Announced by
the Promoters.

The Twin Falls labor unions "dov-
ered the goods" on Monday and the
celebration of Labor day in Twin
falls will long be recalled as a pleas-
ant memory. The comprehensive
program was carried out in detail, not
a single feature being neglected. There
were no halls or hitches, the only
hitchback being the rainstorm in the
evening, which necessitated the
postponement of the bucking contest
and field sports program until Tues-
day. The postponement of the baseball
game into the program put a crimp
in the proceedings and prevented
Judge Price, the orator of the day,
from delivering a speech. The rain
also had compelled the postponement
of the program of sports and the
bucking contest had the rainstorm
interfered.

TWIN FALLS BUYS KIMBERLY FLOUR

SEVEN CARLOADS PURCHASED
BY LOCAL MERCHANTS.

Mill Running Day and Night—Several
Fires Set by Sparks from Railroad
Engine—Right of Way is Being
Cleared of Weeds.

KIMBERLY, Idaho, Sept. 9.—Mrs.
Henry Jones and family of Rock
Creek were here Sunday the guests
of W. J. McIntire and wife.
C. V. Rice and family expect to
leave in a few days to visit the pa-
rents of Mr. Rice near Boise. They
will go overland and be away about
two weeks.

P. J. Pringle and family, A. Ryan
and wife, parents of Mrs. Pringle, and
Mr. and Mrs. R. J. Hummel, spent
a few days visiting the Lakes/Thou-
sand Springs, Hagerman valley and
other points of interest on the lower
end of the Twin Falls tract. They
left Saturday and were away three or
four days.

Mr. Cowan of Pallado, Colorado, is
here visiting J. G. Higley and fam-
ily.

August Bohm has sold his barber
shop to Ben Taylor, who has taken
possession. Mr. Bohm has been here
for about six months and has
worked up a good business. Mr.
Taylor is from Wisconsin and has
had a great deal of experience—was
a day long visiting the Lakes/Thou-
sand Springs, Hagerman valley and
other points of interest on the lower
end of the Twin Falls tract. They
left Saturday and were away three or
four days.

The mill is running night and day
now. W. H. Thomas, the manager,
was in Twin Falls Saturday after-
noon and saw a number of dealers
here and took orders for 955 bar-
rels of flour—about seven carloads.
This speaks well for the Twin Falls
merchants in marketing flour.

GOOD DEMAND FOR WHEAT IN HANSEN

NICK SMITH SHIPS TWO CARS OF
GRAIN.

Also Ships a Carload of Hogs to Boise
—George Washington's Grape Vines
Are Loaded and His Young Apple
Trees Are Bearing.

HANSEN, Idaho, Sept. 10.—Clarence
W. Parks of Ionia, Mich., was here
Saturday looking up a location for a
hardware and furniture business. Mr.
Parks is salesman for washing ma-
chines from Michigan.
Many Hansens attended the La-
bor day picnic at the county fair last
Monday. About all the reports given
comment on the copious downpour of
rain.

W. L. Good and John Olson were
in Twin Falls business visitors Sat-
urday.
The ladies of the Presbyterian
church met with Mrs. W. L. Good last
Friday and organized a ladies aid
society with the following officers:
President, Mrs. W. Crater; vice
president, Mrs. J. A. Kneveler; sec-
retary, Mrs. Ethel Towne; treasurer,
Mrs. H. L. Van.
John Minger sold his ranch to Mrs.
J. W. Woods. The place joins the
lowlands on the east.

A. Benstrup of Colorado Springs,
cousin of Mrs. Graveland, spent last
Saturday with George Washington. Mr.
Benstrup had been to Cheyenne to in-
stall new street cars at that place and
came on west for a look at the coun-
try. He was well pleased with this
section of the country and expects to
return later to locate.

Prof. C. F. Romig was in from Dry
Creek Saturday, going on to Kim-
berly.

Nick Smith shipped a car of hogs to
Boise Saturday, a car of oats to
Shoshone Monday and a car of wheat
Wednesday, the wheat to Green Riv-
er, Wyo. The latter car was pur-
chased from Hansen farmers at \$1.12
per hundred. Mr. Smith expects to
handle all the grain grown in this
vicinity.

Miss Harriette E. Elliott came in
Saturday from Pocatello, where she
had been attending normal school for
a week. Miss Elliott attended for
her examination at Twin Falls
two weeks since and took with her
Rock Creek school this year and told
down her homestead near there. She
reports an interesting meeting of
the people and a fine work done
by the city of Pocatello and a
reception by the next governor of
Idaho, James A. Brady.

Miss Ethel Smith and sister, Mrs.
Earnest Smith, were Twin Falls vis-
itors Saturday.
W. J. Calkins spent several days
last week looking over the King Hill
tract, returning home Sunday.
Postmaster Good weighed the in-
coming mail from the East on the 7th.
A collection of all classes was deliv-
ered, including the mail sacks. Is
Hansen on the boom or not?

Mrs. E. L. Jones was a passenger
to Twin Falls Sunday. She expects
to embark in the millinery business at
the county seat.
The bricklayers on the Towns-
end building at Kimberly, who were
working on all classes, were deliv-
ing to Twin Falls in the rain.
F. V. Brownlie and family will start
overland for Oregon this week.
F. Brodger, of Broken Arrow,
Okla., spent a day this week visiting
at E. P. Hinton's.

FATE FAVORS A MILNER CHILD

LITTLE GIRL PASSES UNHARMED
THROUGH CANAL GATES.

With but Two Inches to Spare, the
Child Manages to Squeeze Through
and Lands in Four Feet of Water in
the Big Lateral.

MILNER, Idaho, Sept. 9.—Mr. and
Mrs. D. C. MacWatters returned Fri-
day noon after an absence of several
days in Salt Lake City. Mr. Mac-
Watters is manager of the Riverside Inn
in Salt Lake City and is spending
several days in Ogden, Salt
Lake City and Anacosta, Mont., at-
tending the shooting tournament.
P. S. A. Bickel for a few days on
their ranch near Buhl.

R. Cockburn, who has been suf-
fering with a broken bone in his foot
for several weeks, is in Dr. Illg's
hospital at Gooding taking treatment
for it. He is getting along very well
and will be able to return to
Milner.

W. F. Pierce, who met with a very
severe accident at the telephone
exchange in Salt Lake City 2500 volts pass-
ing through his body, is reported as get-
ting along as well as could be ex-
pected.

Mr. and Mrs. P. R. Kartke of Dur-
ley spent Sunday at Riverside Inn.
Misses S. Belle Chamberlain of
Boise, Elina Delow of Twin Falls
and George Irving, carpenter foreman,
were at Riverside Inn Saturday.
Mr. and Mrs. R. S. Fessenden are
spending the week in Salt Lake City.
The severe wind storm Monday deliv-
ered a little damage around Milner,
blowing glass out of windows and
overturning several barbs and
overturning fences. One man reported
that he had his coat blown off his
back.

The little daughter of C. M. Willey,
aged four years, on the North Side
canal, met with an accident Sunday
that probably would not occur once
in a thousand times and have the
severe consequences. The child was
about the headwaters between the
main canal and lateral No. 1. She
jumped over the bank and held a rake
in her hands. The force of the water
rent pulled her into the canal. She
went through under the gates, with
barely two inches of space to spare
between her head and the gate. She
was badly bruised and
going along through the gates
but had the remarkable presence of
mind to get out of the canal and
the bottom of the lateral, getting fresh
air in that way and keeping the water
out of her mouth until she was taken
care of.

D. C. MacWatters drove to Jerome
and Gooding Monday on a business
trip.
A. Dygert and R. W. Fullerton re-
turned Sunday evening from a camp-
ing trip of several days in Rock creek
canyon.

C. B. Smith of Jerome was a Milner
business visitor Saturday.
C. W. Josay, head timekeeper on
the Salmon river dam construction
was transacting business in Milner
Monday.
W. C. Stark returned from an ab-
sence of several days in Boise Sat-
urday afternoon. Mr. Stark has ac-
cepted the position of chief account-
ant in the North Side company's of-
fice.

Ruth, the little daughter of D. D.
Ryan, is very ill. Miss Ladd of Twin
Falls is nursing her.
R. W. Fullerton, who has been
spending several weeks in Milner,
will move to the county seat, where
he will engage in business.
D. W. Ross, one of the consulting
engineers for the North Side company,
spent Friday in the Milner office.
C. W. Josay, head timekeeper on
the Salmon river dam construction,
and Messrs. Bennett, Brooke and
Philney composed a picnic party who
spent Sunday on Cottonwood creek.
C. R. Lartimer spent last week in
Boise attending the Republican state
convention. Mr. Lartimer is a cousin
of Mr. Brady, candidate for the gov-
ernorship.
Mr. Carl Osterberg, who has been
attending the Republican state con-
vention, left Monday for Buhl, where he
will probably spend the winter.

CHANGE IN PLANS FOR SALMON DAM

LENGTH OF TUNNELS WILL BE
'DECREASED.

Open Cuts Will Be Made Which Will
Facilitate Construction Work—Site
is Being Cross-Sectioned and Founda-
tion Stripped.

SALMON RIVER DAM, Sept. 9.—
The past few days have witnessed an
important change in the plans for the
canal work at the dam. Although
this change has not gone into effect,
it is being seriously considered by
Consulting Engineer A. J. Wiley. By
decreasing the total length of the two
tunnels from 5000 to 4500 feet and
increasing the open cut a correspond-
ing amount, it is proposed to use the
excavated material for the concrete
and rock filling of the dam, involving
about 94,000 cubic yards of rock. The
original plan was to quarry this rock
from the open cut to the crusher, and
then to transport it to the dam site,
needing the material removed in
the open cut. The most attractive
feature of the new plan, if adopted, is
that the stone crusher, concrete mixer
plant and cement silos will not have
to be transported across the canyon.
It is proposed to lay tracks from
the open cut to the crusher, using
an electric motive for hauling.
Timbers are now being placed for
the stairway which is to scale the 150-
foot cliff. When completed the stair-
way will have about 215 steps and
will be six feet wide with a railing on
both sides and in the center.

Assistant Engineer Nowell has started
cross-sectioning the dam site and
a crew of men have started in on the
work of stripping for the foundation
work, which will necessarily be slow
until derricks are installed.
The stone crusher and a load of
heavy timbers for derrick construction
are expected to arrive tomorrow.
George Irving, carpenter foreman,
and his daughter Edith have recently
gone to Boise, where Miss Irving is
to attend school this winter. Mr. Ir-
ving will be absent several days on
business, after which he will return
to the camp.

W. Ross of Pittsburgh has recently
joined the camp, where he spent two
days inspecting the work and install-
ing a new accounting system as out-
lined in the Pittsburgh office.
Mr. Ross will be absent several days on
business, after which he will return
to the camp.

R. H. Schneidewitz, who was ap-
pointed a committee of one to in-
vestigate the matter of a postoffice at
this point, seems to have met with
opposition. At least he has not re-
ported back.

Professor Little of the engineering
department of the University of Idaho,
accompanied by Albert MacPherson,
left on the 7th for the dam last Sat-
urday in the auto and after an in-
spection of the work returned to town.
On the afternoon of the 7th the
camp was visited by the first couple
to a cyclone, which tore the black-
smith tent to shreds, overturned the
lower used in connection with the
household effects of H. W. Walker
over the landscape.

The "dam" baseball team has gone
into a spin. The team is scheduled
for the remainder of the season.

GARRY THE NEWS TO POWELL.
CANNED Fruit Grown by Hugh
Reed at Twin Falls.
Ralph H. Schneidewitz of the Twin
Falls North Side Land & Water Co.
secured from Hugh Reed of Twin
Falls some of the finest peaches,
pears and apples ever grown in any
country. Mr. Schneidewitz pro-
duced the fruit to send in order to show
what the Twin Falls tract will pro-
duce. Mr. Reed's trees are four years
old and the fruit is very early. He
thinned the buds in order to give
the trees a chance and the result was
shapely and large fruit. His Craw-
ford pears are exceptionally fine
and his pears cannot be beaten. His
Rome Beauty apples are equal to those
grown at Blue Laken, which is saying
a great deal for the early fruit. He
did not tie the fruit to the trees with
baling wire and it was not injured by
wind or frost.

FIRE AT HOLLISTER.
M. F. Cochran's well drilling
outfit was destroyed by fire on
the Hollister townsite at noon
today. The members of the
crew were at dinner when the
fire broke out and so forces
went the fire. The loss was
some bailing and fixtures
were saved. There was a
large pile of sawbrush beside
the engine and this caught
fire from some unknown cause.
The flames spread to the derrick
and practically destroyed
the entire outfit. The well
had been driven about 200
feet and efforts were being
made to hasten the work.

BUHL IS MAKING GREAT GROWTH

BUILDING BOOM IN THE WEST
END TOWN.

School Opens with 190 Pupils—Bond
Issue is Favored to Provide School
Wagons—Postoffice to Be Moved on
Sunday.

BUHL, Idaho, Sept. 9.—Mr. and
Mrs. W. T. Snodgrass, owner of Mr.
Hopkins returned Thursday
from their outing in Yellowstone park.
They report five large rooms and
of the wonders of nature to be seen
in the famous national breathing
space and of the fine time they had
there.

The postoffice will be removed from
its present location Sunday to the
north side of Main street, across from
the opera house. Postmaster Bhatt
is erecting a building on his own lot
there for postoffice purposes.
School opened yesterday with be-
tween 180 and 190 pupils. The first
school in the district opened less than
two years ago, with about 15 pupils,
in one small room and one teacher.
They now require five large rooms and
six teachers. Professor C. C. Nor-
wood, recently of Eureka, Utah, is su-
perintendent of schools, and has
charge of the high school work. Prof.
Norwood was for several years a pro-
fessor in the Utah Agricultural col-
lege, and for the last two years su-
perintendent of the high schools of
several counties. He is a graduate of
the Nebraska Normal school. Miss Vivian
Mullins has charge of the first and
second grade classes. Miss Harriet
Shenandoah, Iowa, is teaching the
primary grades. The new temporary
schoolhouse is very conveniently ar-
ranged and is substantially constructed.
It will be comfortable and warm
during the winter. It is roomy and
well lighted. Work was resumed
yesterday. The new schoolhouse
and will be ready for occu-
pancy by next spring.

John A. Taylor left for Iowa Mon-
day to spend the winter with his mother,
who lives in the southern part of that
state.

Bruce Howard is nursing a lame arm
in a sling as a result of a sprained
wrist.
Under Sheriff C. W. Dyer came up
from Twin Falls last night on official
business.

Mrs. M. D. L. Barlow is helping
her daughter, Mrs. R. T. Allen, to take
care of the threshers who are separat-
ing the wheat from the chaff and
straw on Mr. Allen's ranch. The
numerous columns of smoke rising
from the stacks of straw and
straw from the smokestacks of the thresh-
ing machines would cause one to im-
agine that there was a railroad on
each section of land west of Cedar
ditch.

Geo. R. Dunn pleasantly surprised
his numerous friends in Buhl by drop-
ping in on them last night after
afternoon. He spent a few days in
town and vicinity looking after his
interests and then departed for home.
Dunn has a fine lot of land, the tract
which will always be glad to see him,
for he is a fine fellow and Buhl never
had a more energetic or consistent
citizen.

Mr. and Mrs. Eugene DuBois came
up from Twin Falls Monday and are
spending a few days visiting friends
here.

C. W. Holbrook of Charles City,
Iowa, is among the land seekers on
this end of the Twin Falls tract who
are new homes in a country where
neither floods, frost nor droughts in-
terfere with pleasure, comfort or
business.
Martin, H. R. Powell, L. A.
Sharp and Pless Wilson of Twin Falls
registered at Hotel Buhl Friday.
Timothy Wagner came in from his
home in Idaho Falls, Sunday, and
spent a few days here. He is a
acquaintance with his old friends
and to get acquainted with the new
ones. He has a fine lot of land, the tract
which will always be glad to see him,
for he is a fine fellow and Buhl never
had a more energetic or consistent
citizen.

Notice for Publication—Final Proof.
I, James Whitby of Murrah, Idaho, who made entry No. 1788, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Caray Act," approved March 2, 1899, which embraces the NW¼ of NW¼ of section 18, township 11 S., range 20 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Twin Falls, Idaho, on the 15th day of September, 1908, by two of the following witnesses: H. E. Bates, W. B. Boers, O. Carson, E. Tolman, all of Murrah.

JAMES WHITBY, Entryman.

Notice of Writ of Attachment.
In the District Court of the Fourth Judicial district of the State of Idaho in and for Twin Falls county.

Widona Wagon company, a corporation, plaintiff, vs. J. H. Stothard and Frank Halvorson, a partnership doing business under the firm name of J. H. Stothard & Co., and the Oakley State bank Ltd., defendants.

Notice is hereby given that on August 20, 1908, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendants for the sum of \$1211.66.

In witness whereof, I have hereunto set my hand and the seal of my office this 22nd day of August, 1908.

H. T. WEST,
Clerk of the District Court.
By R. H. ROYS, Deputy.

Notice for Publication.

Department of the Interior, U. S. Land Office at Hailey, Idaho.

August 26, 1908.

Notice is hereby given that Garrett G. Conover of Roseworth, Idaho, who, on June 10, 1904, made desert land entry No. 1194 (serial No. 6704), for the SW¼ of SW¼, sec. 20, the E½ of NW¼, and SW¼ of NW¼, sec. 1, and section 29, township 12 S., range 13 E. B. M., has filed notice of intention to make final proof to establish claim to the land above described, before John F. Hansen, United States commissioner, at his office at Rock Creek, Twin Falls county, Idaho, on the 14th day of October, 1908.

Claimant names as witnesses: Harvo C. Frakes, Jerry Emery, Homer E. Axe and John Boyd, all of Roseworth, Twin Falls county, Idaho.

A. I. McMAHON, Register.

Alias Summons.

In the Probate Court of the county of Twin Falls, state of Idaho.

Lester Stephens, plaintiff, vs. L. H. Babcock, defendant.

The State of Idaho sends greeting to L. H. Babcock, defendant. You are hereby summoned to appear before me, at my office in Twin Falls, in the county of Twin Falls, on the 28th day of August, 1908, at 10 o'clock a. m., in the above brought against you by said plaintiff, to answer the complaint of the above named plaintiff. Said action is brought to recover from you the sum of \$141 for clearing sagebrush and for labor upon farm, or judgment will be taken against you for the said amount, to wit, for the sum of \$141, together with costs of this suit, if you fail to appear and answer.

To the sheriff or any constable of said county, greetings: Make legal service and return, hence, said summons. Given under my hand and seal this 27th day of August, 1908.

September 18, 1908.

Notice is hereby given that R. Clyde Beach, Lewiston, Idaho, assignee of Clifford M. Barrett, who, on August 6, 1907, made desert land entry No. 2045, and who was assigned by E. B. Barnes, who made entry No. 1719, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Caray Act," approved March 2, 1899, which embraces the NW¼ of NW¼ of section 12 S., range 15 E. B. M., has filed notice of intention to make final proof to establish my claim to the land above described, before H. T. West, clerk of the District Court, Twin Falls, Idaho, on the 7th day of October, 1908, by two of the following witnesses as witnesses: Albert E. Larson of Piler, Idaho; James Christ, Joel W. Craven and Patrick H. Smith, all of Twin Falls, Idaho.

A. I. McMAHON,
Register.

Sept. 4-Oct. 2.

Notice for Publication—Final Proof.

I, Charles W. Young of Buhl, Idaho, who made entry No. 1311, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Caray Act," approved March 2, 1899, which embraces the NW¼ of NW¼ of section 22, township 10 S., range 15 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Buhl, Idaho, on the 20th day of September, 1908, by two of the following witnesses: P. J. Meyers, M. R. Godfrey, J. W. Hollison, C. F. Wallace, all of Buhl, Idaho.

CHARLES W. YOUNG, Entryman.

Notice of Writ of Attachment.

In the District Court of the Fourth Judicial district of the State of Idaho in and for Twin Falls county.

Jerome Mercantile Company, Ltd., plaintiff, vs. Huntington Downer, defendant.

Notice is hereby given that on August 24th, 1908, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant for the sum of \$608.04.

In witness whereof I have hereunto set my hand and the seal of my office this 26th day of August, 1908.

H. T. WEST,
Clerk of the District Court.
By R. H. ROYS, Deputy.
Aug. 28-Sept. 18.

NOTICE.

Pursuant to the authority and by the direction of the Republican County Central Committee of Twin Falls county, Idaho, a Republican county nominating convention will convene at the city of Twin Falls, in Twin Falls county, State of Idaho, on Tuesday the 22nd day of September, 1908, at 1 o'clock p. m., at which county convention a Republican platform of principles will be announced, and the members of a central committee will be elected, and candidates will be nominated for:

1 State Senator.

1 Representative.

1 Clerk of the District Court and ex-officio Recorder and Auditor.

1 Assessor and Tax Collector.

1 County Treasurer.

1 Sheriff.

1 Prosecuting Attorney.

1 County School Superintendent.

1 Probate Judge.

1 Surveyor.

1 Coroner.

1 Commissioner from each of the three districts.

2 Justices of the Peace and 1 Constable from each precinct.

Officers to be voted for at the general election to be held on Tuesday, November 3, 1908.

The various precincts in the county are entitled to delegate representation in this convention as follows:

Precinct. Delegates

Milner 1

Murrah 1

Kimberly 2

Hansen 4

Rock Creek 2

Twin Falls No. 1 6

Twin Falls No. 2 6

Twin Falls No. 3 6

Twin Falls No. 4 4

Miler 7

Maria 7

Buhl 11

Castleford 1

Roseworth 1

Butte 1

Pursuant to the authority and by the direction of the Republican County Central Committee of Twin Falls county, Idaho, a Republican primary will convene in each one of the precincts of the county on Monday, the 14th day of September, 1908, at which primary the polls shall be opened at 1 o'clock p. m. and remain open until 7 o'clock of the same day, at which primary the legal, qualified Republican voters of the precinct will nominate and elect delegates to attend the county convention, to be held on the 22nd day of September, 1908, to announce and adopt a platform of principles, and to nominate candidates to have them nominated for the position to which he aspires.

(Signed) C. D. THOMAS,
BOYD H. FULLER, Chairman.

Clerk.

SCIENCE APPLIED TO FARMING

How Young Man Profited by What He Learned at College.

On the home farm, before I went to agricultural college, we practiced four-year rotation of crops; twice corn, once oats, once wheat; and now I go this one better since I learned the value of legumes as soil enrichers. We sow clover with all our oats except a small piece each year, which we sow with alfalfa after grain is cut. The alfalfa we allow to stand three to four years and then follow it with corn. We let just enough clover stand seed, pasturing the remainder of the field and then plowing it under in the spring, to be followed with corn again. Not many years ago we were told that we were wasting our time in growing wheat and that corn was the real money crop. Here is the answer to this statement, which "we" have worked out in a practical way: We are just the wheat crop ahead, as the increased yield in corn caused by the rotation has fully made up for the loss in acreage. In fact, we are now able truthfully to say that we are the wheat, clover and alfalfa ahead—a clear gain—and this is no mean consideration when you figure the value of clover and alfalfa feed in connection with corn.

This one feature of what I learned at the agricultural college is worth many times over what I expended for my education there. To understand the value of alfalfa hay in all feed operations is a worth a course in agricultural school. A few of our farmers tried growing alfalfa and pronounced it a failure. They urged against it that it would produce only two crops a year; that the first crop would be lost in the wet end of the season, which would render the hay impossible to stack without spoiling; that the second crop would not yield well in a dry season, and that it was, after all, not a good feed.

While attending the college I had my eyes opened on the question of alfalfa, and on my return to the farm I said, "We will grow alfalfa." The result has succeeded beyond our expectations. We now keep 25 acres in alfalfa and get five tons per acre from every acre each year, and a abundance of good, safe pasturage besides. Not only is it relieved by its stock but it is by far the easiest to handle.

Before I went to college an ear of corn was an ear of corn and nothing more. If it had a reasonable size it was good to me. I knew nothing of seed less about the proportion of corn to the cob, about the value of a well-bred kernel, about the importance of the various other vital features of an ear of corn. While at home my first vacation from school I went to our corn-crib and tried to pick out a quantity of good seed-corn; I was astonished to find that there was

scarcely a presentable ear in the entire crib. Now I can go into all the ears of the crib on the farm and pick out 25 ears every one of which will score above 70—and do this without any hunting over the pile either. We used to think that our 800-bushel crib did well if they shelled out 800 bushels—and often they would not. Now these same ears invariably shell out more than 1000 bushels. All this change has been accomplished in five years simply and solely by the process of intelligent selection—for we grow the same variety of corn now as when we went to college.

Before I took my agricultural course the oats grown in our locality were practically confined to two varieties—one a fair yielder in a favorable year, but, unfortunately, most years were unfavorable, and these oats had a strong tendency to lodge and were very susceptible to rust; the other kind, a late variety, had heavy straw and would not lodge; but was a poor yielder. In school I learned of a new variety of oats imported from Russia by the experiment station. I brought several bushels of this kind home. This is the variety we now grow, and the yield is not only much larger but far more dependable, and these oats will stand up after our heaviest storms, even after they are dead ripe. This makes cutting a comparatively easy and successful operation. But the point which I wish to emphasize in this connection is that one neighbor after another has seen the success of our "college oats" and secured seed, growing them as successfully as I have been able to myself. This little fact tells the story of the value to the country at large of the training given by the agricultural colleges. Wherever a good student of one of these colleges is located he has become, by sheer force of example, an active missionary in the cause of progressive agriculture. This kind of work is working in almost every locality.

Of course it is idle to expect to revolutionize the old-fashioned home practices of rule-of-thumb farming in five or ten years, but I know from actual experience how great a stimulus to the application of physical laws to the cause of progress lies in it to know definitely the ends you are striving for. In fact, it is difficult without reason to put a limit upon the value to the farmer of knowing the peculiar qualities and points of breed of livestock and their adaptability, the value of pure-bred livestock and particularly of pure-bred sires; to know the hardy varieties of fruit, their adaptation to different localities, and to make cuttings and grafts. I don't believe the average farmer could tell you which is the best, piece-root or whole-root graft in apple trees, for example.

Again, you can hardly exaggerate the importance to the farmer of the knowledge of the value of human labor and of the best methods of pro-

ducing soil erosion. Why, I remember when we used to sell all our grain, burn our straw and corn stalks and dust manure in ditches on the roadside in order to prevent washing. Now, by reason of the enlightenment I received from my scientific training, all this waste is stopped; we feed all our grain and get all the manure we can. The very first piece of farm machinery we bought on my return from school was a manure spreader, and the first year we used it to cover 10 acres with six loads of manure to the acre. That 10-acre tract yielded six bushels more to the acre than the remainder of our cornfield, and in hunking we could instantly tell where the unfertilized rows left off and the fertilized began.—H. W. Ehlers in the Saturday Evening Post.

SEVEN HUNDRED PUPILS ON ROLL

AT THE OPENING OF THE FALL TERM.

Methodist and Christian Churches Used as Temporary School Rooms—Enrollment Bids Fair to Be 1200 by the First of the Year.

The Twin Falls school opened for the fall term on Tuesday morning with a total enrollment of 637 pupils, divided as follows: Primary 61, first and second grades 62, second grade 70, third grade 74, fourth grade 73, fifth grade 60, sixth grade 69, seventh grade 67, eighth grade 52, high school 35.

The primary and the grades up to the sixth and the high school children occupy the Methodist church, the latter using the auditorium and the entire second floor, with the exception of one room. The seventh grade is located in the Christian church and the eighth grade in the Methodist church, these edifices having been placed at the disposal of the school board.

When the fall term opened in Twin Falls one year ago the enrollment was a little over 400. By the first of January it had increased to 800. The same proportionate increase is expected this year, which will bring the enrollment up to 1200 by the first of January.

The primary grades are being taught this year by Miss Kinney and Miss Kelley. Miss Thomas and Miss McConnell have the first grade; Miss McManis and Miss Vance the second grade; Miss Boush and Mrs. Jayne the third grade; Miss Albrecht and Miss Fisher the fourth grade; Miss McMillan and Miss Snodgrass the fifth grade; Miss Brown and Miss Knepper the sixth grade; Miss Brown and Miss Knepper the seventh grade; Miss Edinberg and Miss Hattgesseil the eighth grade.

E. L. Weaver is principal of the high school and teacher of science; Miss Gibson teaches Latin and German; Miss Crocker English history; A. D. Pierce mathematics; Miss Ross music; and Miss Janderson has charge of the commercial department. The state system of individual instruction is being used this year in teaching the grades.

New library cases have been put in during the summer months, also a complete set of the International encyclopedia and a complete set of reference histories. The chemical laboratory has been fitted up with new apparatus sufficient to carry on all experiments. Modern toilets have been added, doing away with the old outhouses. A stable has been erected at the farther end of the grounds to accommodate the school wagons and horses. The grounds are in splendid condition. Junior Cartwright has been hard at work all summer keeping them in shape. The trees and flower beds make a beautiful showing. The commercial department is under the direction of Miss Janderson, a thoroughly experienced teacher and a graduate of Link's college of Boise. Any pupil living in the city who has been through the eighth grade is entitled to enter this department. A one-year course is given in the following branches: Commercial shorthand, typewriting, arithmetic, spelling, commercial English and bookkeeping. Any pupil taking this course will receive as thorough an education along these lines as they would at any business college in the state.

Western Union Life Insurance Co. George A. Wolfe, fiscal agent for the Western Union Life Insurance company of Spokane, Washington, has been in the city for the past few weeks interesting people in Twin Falls in the most successful company of the northwest. He has met with such success here and is so impressed with the country that he intends to remain here for some time to come. This company expects to have a resident district superintendent in this locality before very long. The company is especially a home industry as the money received for insurance is reinvested in the communities where it comes from, instead of as in the past sending it to the eastern companies to feed Wall street.

POISONING THE GROUND PESTS

Prairie Dogs Being Extirminated by the Weeds.

Attempts made last spring at poisoning prairie dogs in national forests on an extensive scale seem to have been largely successful in reducing selected areas of these small pests, and plans are now being made to carry on the work much more widely next year. The first experiments in this line were made in November by a stockman who has since entered the forest service. In 1901 Dr. C. Hart Merriam, chief of the division of biological survey of the department of agriculture, made a report upon "The Prairie Dog of the Great Plains," in which the damage done by the dogs was pointed out and various methods of poisoning them were suggested. This report of Dr. Merriam's may be said to have blazed the way for practical work in prairie dog extermination.

Prairie dogs are very obnoxious to the stockmen, for they devour much grass and undermine the surface of the ground with their burrows. Where they establish themselves the destruction of the range is only a question of time.

Range improvement in national forests is one of the chief objects of regulating the grazing. For this reason the forest service is leaving no stone unturned to protect the range from the pest. Stockmen who have suffered heavily from the prairie dog pest were solicited to have the work taken up, and gladly offered to cooperate with the service in furnishing men and horses to distribute the poison.

To ascertain what success could be had in eradicating considerable areas of the pest, a selection was made of parts of the Leadville and Pike national forests which were badly infested. The region in these forests upon which the dogs were located aggregated 200 square miles or more. In order to demonstrate the effectiveness of the work an area of some 50,000 or 75,000 acres of actual dogholes was selected for the test. From 80 to 90 per cent of the dogs were killed with the first distribution of the poison. It will be necessary to go over the ground a second time and by "spotting" the occupied holes the remaining dogs will easily be killed with a very small amount of the poisoning material. The average cost per acre for the poisoning material was only 1½ cents, and even then it was found that more material had been used than was necessary.

The poison is prepared by coating wheat with a preparation of strychnine, cyanide of potassium, anise oil and molasses. When a sufficient quantity is ready, the poisoned wheat is carried to the field of operations. There the stockmen supply men and horses to take the wheat out to the riders and distribution begins. Each rider carries the wheat in a tin pail supported by a gunny sack slung across his right shoulder and hanging at his left side. His left hand is free for the reins. With his right hand he uses a tablespoon to measure out the poison and drop it near the entrance of the holes. A little practice enables the men to drop the wheat while keeping their horses at a sharp trot. By crossing the rows, to and fro, like a man sowing grain, they can cover a large area in a surprisingly short time.

The action of the poison is almost instantaneous. Most of the prairie dogs in a town are dead within an hour or two after the bait is dropped. The work is considered to have demonstrated the entire feasibility of fighting the prairie dogs in this way. It was found, however, that to be successful the poison must be scattered in the spring, when the dogs first come out from their winter quarters and before the green grass is offered to appease their hungry appetites. Next spring the poisoning will be undertaken much more extensively. Stockmen and others who wish to try the dog medicine on their own account can obtain the formula for its preparation and instructions for its use from the forest service.

In irrigated sections it is necessary to protect ditch banks from inroads by gophers which frequently cause great damage by penetrating the banks and causing washouts. As a rule poisoned grain is effective in killing the pests but a systematic campaign by the farmers would seem to be the better plan.

Largest line Fall suits and coats at Booth's.

Great blanket values at Booth's.

The scientists are finding out many things about ancient nations, some of which may be true and some not. "In fact," he is often advanced as fact. Guesses grow into possibilities, and possibilities in probabilities and probabilities into certainties. Dr. M. G. K. tells a story which illustrates one method of argument. An Assyriologist boasted to an Egyptologist that "the Assyrians understood electric telegraphy" because they have found wires in Egypt. "No," said the other, "we have not found a scrap of wire in Egypt, therefore we know the Egyptians understood wireless telegraphy."—Home Herald.

Entered as second-class matter, December 2, 1904, at the postoffice at Twin Falls, Idaho, under Act of Congress of March 3, 1879.

REPUBLICAN STATE TICKET.

United States Senator—Weldon B. Heyburn, Shoshone.
Justice Supreme Court—Judge J. F. Allale, of Idaho.
Congressman—Thomas R. Hamer of Fremont.
Governor—James H. Brady of Hancock.
Lieutenant Governor—L. H. Sweetser of Cassia.
Secretary of State—Robert Landson of Washington.
Attorney General—D. C. McDougal of Grange.
Auditor—B. D. Taylor of Bonner.
Treasurer—C. A. Hagblom of Nez Perce.
Mining Inspector—F. C. Moore of Shoshone.
Superintendent of Public Instruction—B. Bello Chamberlain of Ada.
Presidential Electors—Edgar Wilson of Ada, John Lamb of Owyhee, A. A. Crane of Kootenai.

The proposal to give a bonus of \$1000 for a street carnival should be rejected by the Commercial club. If any money is to be given away it should go to the farmers who are backing the city. Street fairs are all right in their place, but Twin Falls can spend money to better purpose. The amount asked by the carnival management could be profitably spent on the fire department, for instance. The farmers are bringing in splendid fruit and it is a pity that the Commercial club does not secure some of the fruit and place it on exhibition. A demonstration of this kind would be worth more to the city and the tract than a dozen street carnivals.

The Pullman company endeavored itself to the delegates from Twin Falls to the Republican state convention by installing upon the removal of the stromer suspended from the side of the Twin Falls county car. Why the company should have discriminated against Twin Falls county nobody seems to know. The official who ordered the stromer removed gave an excuse that the company did not permit stromers on its cars. If this be true, the company has permitted frequent violation of the rule. It is an exceedingly common happening to see a Pullman car bearing a stromer. The sleepers in which the southern Idaho delegates rode to the Republican state convention in Wallace all bore stromers. When the Salt Lake Commercial club members toured Idaho their cars were decorated with stromers. The practice is so common that the insult offered to Twin Falls county is very difficult to comprehend.

The Republican primary election will be held on Monday and the voters will, for the first time, be given the opportunity to select their candidates for office. There is not a candidate on the ticket that the News would hesitate to support. Strong, representative men have been put forward and no matter whom the people may select, the Republicans will present a clean ticket. The voters of Twin Falls should bear in mind when they go to the polls that Twin Falls is not the only town on the tract and is not entitled to all the offices. If other sections of the county are slighted, Republican chances will be weakened. Twin Falls has held all the offices since the county was created and it is time that recognition should be given other districts. In October the taxpayers will be asked to vote on a bond issue of \$150,000 for the erection of a courthouse and jail in Twin Falls and this city cannot afford to be accused of being hogwash. The west end feels that it is entitled to representation and its request should be heeded. Twin Falls should be big enough to treat its sister towns with consideration and not take the whole

The prompt and businesslike way in which J. G. White & Co. are going about the engineering work on the west of Salmon extension augurs well for the speedy completion of the project. It is a significant undertaking, but the men behind the enterprise are accustomed to shouldering such loads. It is understood that the engineering work will be so far advanced by the end of the year that construction work can follow in the early spring. One of the spectacular features of the project will be the siphon or flume across the Salmon river, which will give the engineers full play to show their ingenuity. Another feature of an entirely different character but of vital interest to settlers on the south side tract will be the effect of the project upon the south side water rights. In order to reach the west of Salmon extension, the vast volume of water needed for the irrigation of that project will have to pass through the Twin Falls high line canal. The Twin Falls tract, having a prior water right, must necessarily be supplied first, consequently the water rights on the Twin Falls south side will be more desirable than before, if such is possible. The intention is to furnish a water supply far in excess of estimated needs as the development of the Snake river valley has exceeded all expectations and must be anticipated.

During the past week scores of farmers on the Twin Falls tract have brought to the News office magnificent fruit grown on trees planted two and three years ago. The fruit came from all sections of the tract and would make a superb showing at any exposition. Elberta and Crawford peaches, rivaling the choicest products in America, came from the vicinity of Dubl, Filer, Marsen, Twin Falls, Kimberly, Hansen, Murtaugh and Rock Creek, proving conclusively that peaches can be successfully grown anywhere under the canal system. Many of the little peach trees are literally loaded with fruit. Peas equal in size, shape and quality to the best in the land have been grown on the Twin Falls tract this year, and apples second to none have been produced. This has been the most unsatisfactory season known in Idaho for years, and the fact that the Snake river valley fruit was unforgotten is most encouraging. A prominent New York fruit buyer, whose judgment should carry weight, visited the Twin Falls tract a few days ago and stated he had never seen healthier trees or better prospects for fruit. He expressed the belief that this section of the state would soon be shipping fruit by the trainload. It has long been contended by those in a position to know that this is destined to become a great fruit section and now that it is coming in the skeptics will have to admit that their judgment was wrong. An exhibition of fruit grown on the Twin Falls tract this year would be the best possible advertisement for the state and would aid materially in the settlement of the vast irrigated tracts about to be opened in the Snake river valley.

The Value of Shows and Expositions. The greatest grain exposition ever held in the world will be held at Omaha, Nebraska, next December. Last year this exposition was held at Chicago and over \$25,000 worth of premiums were offered. This year the prizes will be still larger and the fact alone to inquire, is it worth while—does the end justify the means—will it result in increased yield and improved quality commensurate with this outlay of money? That it will pay and pay well there can be no question. It is a great show, a great show of products at such competitive shows that deficiencies and possibilities for improvement are discovered and healthy rivalry and an inspiration to excel is engendered that is sure to result in great improvement. It is through this spirit of rivalry that all our great improvements come, each one trying to produce something better, more attractive and more economical in order to outdo his competitor in the field. In this feature of our agriculture, the great shows have a great deal of their value to the farmer and the general public. The show ring has been one of the most potent factors in advancing the present splendid development of our improved breeds of livestock, and the grain show is proving just as potent in the improvement of our cereals. It is only of recent years that a great deal of careful, scientific attention has been paid to the improvement of the different kinds of grains and that the fact has been realized that they can be "bred up." Just as our livestock can be, the aggregate result of an additional ear of corn on each stalk, or even of a few additional grains on each ear of corn in a whole state, would be almost beyond our comprehension. It would mean millions of dollars added to the value of the crop of one of the leading grain growing states just in a similar improvement of our small grains would mean millions of dollars added to the value of these crops annually on the coast.

We were obliged to move our stock and as a temporary location we have opened up in the room just west of the postoffice, with the Twin Falls Transfer Co., which we will occupy for thirty days, and in order to reduce our stock preparatory to moving into our permanent location we are going to disregard profits on a long list of items. While we are too much torn up at present to give a detailed list of them, we will say that Children's School Shoes will receive the heaviest cut and we have a very complete line of them from which to select. Also all broken lots of Summer stock in both Ladies' and Men's, and all Oxford.

force an all-round advance in freight rates, we would like to inquire whether it was the prosperity of the railroads that started the mills and factories a going in 1897, or whether it was the starting of the mills and factories that gave prosperity to the railroads. As to what started the mills and factories, we think there can be no dispute. It was the passage of the Dingley tariff law and the consequent reduction of the American market to American labor and industry. When that happened the railroads began to do business and we divided. Wouldn't it be better policy for the railroads to start at the right end of the problem and figure first how to restore prosperity to the mills and factories—American Economy.

Season Will Open on Tuesday, the Fifteenth.

The duck season will open on Tuesday, Sept. 15, and the prospects for good sport are never better. The Dry creek reservoir is reported to be well stocked, many ducks having nested there this year. Birds are plentiful along the Snake river, and there are quite a few scattered along the canals. The lakes above the Milner and Minidoka dams are reported to be covered with ducks and the stretch of water between the two dams should afford excellent shooting. The sportsmen look forward to a very enjoyable season.

An illuminated book entitled "The Freight Rate Primer" is being extensively circulated by the railroad interests in support of the contention that the first step toward the restoration of prosperity should be an increase of 10 per cent in freight rates. Bearing upon this proposition, the following, attributed to the National Prosperity association of St. Louis, is quoted:

"Our prosperity came with the prosperity of the railroads; it declined when adversity struck the railroads. We do not believe we can have the full measure of prosperity again until the railroads are prosperous."

While expressing no opinion as to the wisdom or otherwise of putting in

New Fall gloves at Booth's.

Dealer—Let me sell you some of our new patent ball air.

Dealer—Effective? Why, I sold a man some of it last week and he got turned out of the church for telling the truth about the fish he caught—Cleveland Leader.

"How do you like your teacher, dear?" little Mary was asked, after her first day at school. "If I like her real well," said Mary, "but I don't think she knows much, for she just keeps asking questions all the time."—The Delineator.

The Powder Manufacturer—Fanny, old Bill, of all people, going into the gunpowder shed with a lighted candle. I should have thought that that would be the last thing he'd do. The Workman—Which, properly speakin', it were, sir.—The Sketch.

BREVITIES

W. Van Jorns, watermaster for this district, is in the city.

S. H. Bolton returned yesterday from southern Oregon. He said he saw some beautiful country while he was away, but nothing that would induce him to leave Twin Falls.

George F. Sprague returned on Friday last from Tokeland, Wash., where he and Mrs. Sprague had enjoyed a vacation. Mrs. Sprague will remain in Tokeland for a longer visit.

The W. C. T. U. will meet with Mrs. Felt next Tuesday afternoon. A special program has been arranged and an invitation is extended to all interested in temperance work to attend.

Guy Milner and Miss Florence E. Barry were married at the home of Mr. and Mrs. H. J. Hill by Rev. John Gourley on Saturday afternoon. Mr. and Mrs. Milner's many friends professed their best wishes to the popular couple.

Al W. Irvin arrived today from Chicago and announced his intention to stay in Twin Falls. Mr. Irvin has many friends here who will be glad to know that he is to become a permanent resident. He has a fine farm on Sucker flat.

Loretta Kalbelsch, the infant daughter of Mr. and Mrs. Jacob E. Kalbelsch, died at the family residence, one mile east of Filer, on Saturday, September 5. The funeral services were held at the residence at 2 o'clock on Saturday afternoon, under the direction of H. E. Hunt.

John J. Lyons, aged 69 years, died at his home in Filer on Monday, September 7. He is survived by his wife and child. The funeral services were held in the church at Filer and were conducted by Rev. R. M. Deane. Interment was in the family plot in the Twin Falls cemetery, under the direction of H. E. Hunt & Co.

The only son of Mr. and Mrs. Lester Brownell died at the home of the parents in Twin Falls on Sunday, September 6, at 4 p. m., aged one year and one month. The body was shipped to Echo, Oregon, on Monday evening by H. E. Hunt & Co. and was accompanied by the parents. Mr. and Mrs. Brownell had resided near Buhl for the past three months.

The Occidental baseball team, reputed to be the fastest colored nine in the west, will try conclusions with the Irrigators on Saturday and Sunday, Sept. 12 and 13, playing two games on the latter date. The Occidentals have been trimming the Ogden and Salt Lake talent and threaten to give the locals a hard battle. Blackfoot took the measure of the Irrigators on Sunday in a close game.

P. W. Whinery of Filer picked 33 Elberta peaches from one of his trees planted two years ago last spring. The fruit is of superior form and possesses the finest flavor. Mr. Whinery's apple trees also began to bear this year and he has quite a few nice apples. In the Filer district are a large number of healthy young apple trees which bore fruit this season, plainly demonstrating that this section of the state is all that has been claimed for it.

Hon. John Lamb of Silver City came over today from Albion, where he attended a meeting of the trustees of the Albion State Normal school.

The machinery in the Twin Falls Milling & Elevator company's new elevator was set in motion this week. A considerable amount of grain is being stored. The recleaning plant has been given a test and works splendidly.

E. W. Davis has sold the east half of his quarter section at Kimberly to Mr. Barnhill of Bonadonah, Iowa, who will take possession in February or March. Mr. Davis intends to improve his remaining 80 acres and may possibly decide to embark in the mercantile business.

J. W. Bush, who is interested in Twin Falls, arrived this week from La Grande, Oregon. Mr. Bush is an experienced butter maker and was instrumental in inducing the Harder brothers to start their creamery in Twin Falls. In so doing he placed the public under deep obligations.

Harry O. Booth, buyer for the packing house of Schwarzschild & Sulzberger of Chicago, was in Twin Falls during the early part of the week looking over the country. He secured a quarter section southwest of Wendell. Mr. Booth thinks very highly of the Twin Falls country. He left for home on Thursday evening.

J. B. Perrine is making an effort to secure right of way for the electric line between Twin Falls and the high line canal. He wants to let a contract for grading on this side of the canal but has thus far been unable to straighten out the right of way tangled. Two miles of the grade has been completed south of the canal and Nelson, the contractor, is ready to begin work on the north side as soon as he is permitted.

Senator W. B. Heyburn will be in Twin Falls on Tuesday, September 22, and will attend the Republican county convention on that date. Senator Heyburn has frequently visited this section of the state, being one of the first to perceive its great possibilities. His sister-in-law, Miss Yeatman, owns a choice piece of property adjoining the townsite, and his secretary, Addison T. Smith, has a splendid farm tract in the same locality.

A fire starting from some unknown cause damaged the house and clothing of Mr. and Mrs. W. P. Burgess last Tuesday afternoon to the extent of \$125. The family were all at the ball grounds witnessing the bucking contest when the fire was discovered. The fire department made a quick run to the house and soon had the fire under control. It started in the basement, working its way up through a partition into a clothes closet and then on to the roof. A large crowd gathered at the fire and assisted in the work of moving the furniture and other effects from the house to a place of safety.

The citizens of Twin Falls have once more shown their appreciation of a manly action by presenting a fine gold watch to Francis J. Matten, who recovered from the Snake river the body of Charles Tupper, the boy who was drowned in the Snake river on Sunday, August 22. The watch was exhibited in the window of Gilbert & Pribe, jewelers, and bears the following inscription: "Presented by citizens of Twin Falls to Francis J. Matten for recovering Charles Tupper from Snake river, Aug. 26, 1908."

The Twin Falls Investment Co. is adding a second story to its building on the corner of Main street and First avenue north. The company was interrupted to build two stories and most of the rooms on the second story have already been spoken for.

Robert Pierce, an employee of the Great Shoshone & Twin Falls Water Power Co., was severely shocked at Jerome Sunday, receiving 200 volts. He was brought to Twin Falls for attention and is rapidly recovering from the effects of the shock.

George Smith has some beautiful places in his orchard on Sucker flat, not far from Filer. They are shapely and of excellent quality. The varieties are Alexander, Crawford and Bokhar. The trees were planted in the spring of 1906 and are four years old.

Joseph O. Tolman, who is charged with having assaulted Sylvia Hunt at the home of Mr. and Mrs. W. P. Burgess, was arrested at Salmon, Utah, on Sunday night and brought back for trial. The warrant was sworn to before Justice W. E. Beers at Murtagh on August 15.

Dr. Haskins and family of Chicago, who had been enjoying an outing on the doctor's farm, southwest of Wendell, for three weeks, arrived from Riverside on Sunday. The children had great sport and Mr. and Mrs. Haskins enjoyed their experience and gained in health.

Two sections in the Boise-Salt Lake sleeper have been preserved for Twin Falls and it is now possible for passengers to have their reservations made here instead of at Minneapolis, thus relieving them of the uncertainty of securing accommodation. The Twin Falls-Salt Lake sleeper has been well filled every trip since it was put on and is proving a great convenience.

Structural steel, steel rails, dump cars, rock crushing machinery and other material for the Salmon dam is being unloaded at the warehouse west of Rock creek. One piece of rock crusher weighing seven tons was shipped to the dam this week. There are two carloads of steel rails for the tramway on the ground at the warehouse, together with a number of dump cars. There is also a mammoth revolving screen for the rock crusher which is slightly too large to be used as a watch chain.

Robert Nelson, secretary and manager of the International Audit Co., and Messrs. St. John Powers and Victor Armstrong, the accountants who audited the books of the Twin Falls Land & Water Co., left for Chicago on Wednesday evening, having completed their labors in Twin Falls. It was with keen regret that they said goodbye to their many friends in Twin Falls. They are all Twin Falls roots of the deepest dye and will always retain pleasant memories of the year spent in the best town on earth.

William Denning has been doing effective work with the kerosene torch in the sugarcorn on the North Side. Last Friday he burned 30 acres which, at the prevailing price of \$5 an acre, is equivalent to a saving of \$150. Mr. Denning states that the torch works all right in dry weather and can be profitably used where the brush grows densely. Favored by the wind, it is possible to burn large areas with very little loss of time. Hundreds of acres have been cleared of sugarcorn on the North Side by this means in the past few weeks.

Mrs. C. A. Tush will entertain 10 boys and 10 girls at her home this evening in honor of Stella Perrine. The little ones are promised a grand time.

Republican caucuses will be held in popular precincts on Saturday next and the Taft and Sherman Republican club will meet in McCornick's bank.

Secretary Volgt of the Twin Falls Land & Water Co. is expected home on Saturday from Boise, where he has been on business connected with the west of Salmon extension.

Charles H. Jackson of the Southern Hercules mine, near Albion, is in the city making preparations for the development work on the property which is to be of an extensive nature.

A semaphore has been erected by the Oregon Short Line at the Twin Falls depot. When the semaphores at other stations were put in, Twin Falls happened to be the terminus, hence the delay in installation.

Dr. J. O. Atchison, a veterinary surgeon of Chicago, has arrived and is being on business connected with the land at his land. Dr. Atchison is very favorably impressed with the country and will in all probability decide to practice in Wendell or Jerome.

Judge W. J. Smith had a lively session of court on Tuesday morning. Two of his patrons had been in a free for all fight and both were badly punished. Quite a few farmers have appeared in the city of late but the authorities are furnishing them with from that section last year and he hopes to do better this season as he now knows where to look for the animals.

Mrs. Margaret Roberts, who has been visiting with her sister, Mrs. W. O. Taylor, will return to her home in Boise tomorrow. She will be accompanied by her nieces, Misses Julia and Susan Taylor, who go to visit their grand parents, General and Mrs. Roberts, and to attend school in the capital until the Lincoln school is completed.

Fire broke out in the rear of the Johnson building on Main street Sunday and burned a hole in the roof. Gilbert & Pribe, the jewelers, received a liberal baptism of water and had a nice job of cleaning up on their hands when the fire laddies got through. The firemen made prompt response and did excellent work, winning all sorts of praise for their activity and skill. The damage to the building was slight.

During the month of August 668,192 tons of freight less than carload lots was forwarded from the Twin Falls depot, an increase of 361,660 pounds over the shipments of August, 1907. The freight received in less than carload lots aggregated 746,622 pounds, an increase of 379,248 over August of last year. There were 258 loaded carloads of freight received during the month and 95 straight carloads shipped, a heavy increase over the traffic a year ago. The cash remittance for freight received during the month amounted to \$1060, of which \$2775.60 was local. It was the biggest month in the history of the office and it shows what is doing in Twin Falls.

The Great Shoshone & Twin Falls Water Power Co. is rushing work on the extension to Filer and Buhl and those towns will be supplied with light and power current in a very short time. The holes are dug on both extensions and the poles and copper will go up with a rush.

GRAIN IS TURNING OUT WELL
Very Satisfactory.

More than a dozen farmers have thrashed where on the Twin Falls tract already this season which has averaged above 50 bushels to the acre. Many yields of from 35 to 50 bushels per acre have been reported. The farmers are of the belief that they made a mistake in not irrigating after the rains which fell during the last week in May and June. They supposed that irrigation was unnecessary at that time. Warm weather followed the rains and the grain was forced to such an extent that it did not fill as it would had it been irrigated. Mr. McPherson published a warning to the farmers in June which, had it been heeded, would have saved them considerable money. In the columns of the News he strongly urged the farmers to irrigate and not trust to the rains. Although the June rains were the heaviest ever known in this section of Idaho, tests showed that the ground was not moistened below a depth of four to six inches. In most places the ground was as dry as straw between the moisture resulting from rainfall and that brought about by irrigation which was not conducive to heavy crop yields. One man turning out well, though the returns from this crop fall short of those obtained last year. Potatoes are yielding much better than was expected and appear to be of unusually good quality. Corn is maturing nicely and the tomato crop will be much better than that of last year. Alfalfa is normal and so far as reported it was not injured by rain. The demand for grain is better than it was a year ago and the local markets are healthy.

Yields Lighter Than Last Year but Very Satisfactory.

Address all communications to Kings Hill Irrigation & Power Co., rooms 35-36. First National Bank building, Boise, Idaho.

WORK ON THE WEST EXTENSION
J. G. White & Co. Increase Force of Engineers.

Boyd Ehle has arrived from New York and assumed charge of the engineering work on the west of Salmon extension for J. G. White & Co. Mr. Ehle has secured offices in the Harder building, where headquarters will be maintained. He has two parties in the field already and will start a third on Monday. George Merritt Ward arrived on Wednesday and will have supervision of the draughting and designing. Mr. Ehle is an engineer of national repute. He has charge of construction on the McCall Ferry power plant on the Snakechama river, the largest in America, and was also on the Panama canal work. Mr. Ehle stated that no time would be lost on the west end work, it being the company's intention to cover the field thoroughly at once.

New Fall dress goods at Booth's.

Kings Hill Project
The Kings Hill Irrigation & Power Co., will, October 12, 1908, open for entry 20,000 acres of choice fruit land under the provisions of the Carey act. The land is situated in the Snake river valley in a section where the canyon

widens, leaving an expanse of sheltered bench land ideal for fruit growing. The soil is similar to that at Blue Lakes and the altitude is 1000 feet lower. The water supply is obtained from the Maled river and is unexcelled. The company is especially desirous that land seekers should inspect the works and satisfy themselves regarding every feature. The tract may be reached either from Bliss, King Hill or Glenna Ferry. Following are some of the important features of the project:

First—The absolute security guaranteed by the Carey Act land law.

Second—The abundance of water.

Third—The permanency of construction of the system conveying the water for irrigation.

Fourth—The purity of the water and unchangeable temperature.

Fifth—The composition, quality and productivity of the soil.

Sixth—The sheltered and protected condition, freeing it from late and damaging frosts.

Seventh—Altitude, which is a most important factor.

Eighth—Fruit culture, the most profitable product, making lands more than it paid to anything else.

Ninth—Not the least important is the fact that the main line of the Oregon Short Line railroad skirts the edge of this tract of fertile land its entire length increasing its ultimate valuation to an immeasurable degree.

Tenth—Telephone line and good roads.

Eleven—Selection and filling upon Carey Act land can be done by anyone present for any number of persons if he be empowered to do so by power of attorney from the person wishing to file on land. Blanks will be furnished upon application.

Address all communications to Kings Hill Irrigation & Power Co., rooms 35-36. First National Bank building, Boise, Idaho.

FALL STYLES AWAY FROM YOU

LEADING MODES MADE FOR US BY THE PREMIER PRODUCERS OF AMERICA.

Sophomore Styles Specially Prominent, Embracing Young Men's Distinctive Clothes

NOW IS THE LOGICAL TIME for clothes selection, and this is the logical place to make that selection. This is going to be a big clothing season. Men have been denying themselves a great many things for a year past. Now we feel the reaction. We have prepared for it. So have the manufacturers. One notable feature is the immense range of styles—the daring innovations in clothes. These have to do with young men's clothes, chiefly. It is well enough to avoid the very flamboyant styles. We feel that our own selections have comprehended all the best that the leading designers have offered that are within the precincts of good taste. We invite your inspection and await your approval.

FIGHTING POISONOUS PLANTS

Government Seeks Antidotes for Larkspur in Colorado.

The losses to the cattle men in the western states from larkspur poisoning every year have been so serious that the government is making a vigorous effort to find an antidote for the poison as well as to eradicate the plant itself.

In the Gunnison national forest, Colorado, the losses to the stockmen last season from larkspur were conservatively estimated to equal almost 5 per cent of the total number of cattle grazed upon that forest.

Its effects are almost immediate. Death follows the eating of the plant within a few hours. For this reason remedies are of little avail because the animals are generally dead before they are discovered.

Experts from the bureau of plant industry, in co-operation with the forest service, have made careful and painstaking investigations in the field with a view of lessening the losses as far as possible, while several different plans have been tried in hopes of completely destroying the plant.

Larkspur grows very luxuriantly in the early spring. On the Gunnison forest in June, 1908, the forest officers counted more than 1300 plants in blossom upon a single square rod. The plant seems to be more poisonous in hot, damp weather than in dry seasons, and it has been observed that when the ground is hard and dry, so that in eating it the stems break off, leaving the roots in the ground, it is not so deadly in its effects.

Since certain areas are well known to be badly infested with larkspur, the stockmen have been in the habit of herding their cattle from such places. As far as possible, these areas will be fenced by the forest service. On other areas where it is not so plentiful the plants will be dug out by the forest rangers and also mowed off to prevent seedling again. It has also been found that the plant will not hold its own against certain kinds of grasses, such as timothy. A few acres, sowed in timothy, are being carefully watched and it is believed that it is crowding the larkspur out. It seems probable that by sowing timothy on the mountain meadows the larkspur could be gradually smothered and replaced by a valuable forage plant.

If this plan is supported by good evidence this season timothy will be extensively sowed later on. Meanwhile upon this, as well as several other national forests where the losses from this plant are very serious, the building of fences to keep the cattle off the most dangerous areas is being pushed by the forest service and will be continued as fast as funds are available for the purpose.

J. C. Thomas of Crawford, Colorado, made an experiment in feeding the larkspur some years ago to determine, if possible, just what part of the plant contained the poisonous properties. A

yearling steer was fed a large quantity of the leaves with no injurious results. A few days later the same animal was fed a quantity of the roots and within 10 hours it was dead, thus justifying the suspicion that the poisonous matter was contained in the root.

In Idaho sheep have frequently been poisoned by the springing of the roots, a plant which is found in some sections of the state, usually near the mountains. Lobelia is also sometimes fatal to stock in Idaho, though not so deadly as the camas weed.

MRS. DORA STEINOUR.

Candidate on the Republican ticket for the office of county superintendent of public instruction, graduated from the Normal department of McPherson college at McPherson, Kansas, taking the B. S. D. degree. She also attended school at Ottawa university, Kansas. After teaching for several years she took the state examination under the state board, receiving a state certificate, and was three years later given a life diploma at the conclusion of a successful period of teaching. Mrs. Steinour also graduated after a course of two years in the Bowman Memorial Kindergarten Training school. When she came to Idaho Mrs. Steinour was given a state diploma in lieu of her Kansas diploma. She has taught successfully for three years at Murtaugh and in all has had 12 years' experience in the work. Mrs. Steinour is in every way qualified for the office to which she aspires.

SUNDAY EXCURSIONS TO JEROME

Famous Old Stage Coach Refitted for the Purpose.
I. B. Perrine's famous old Concord stage coach has been refitted and repainted and is now in commission on the line between Twin Falls and Jerome, via Blue Lakes. The historic vehicle looks just as good as new and it rides comfortably. Four horses are used and good speed is maintained.

Beginning on Sunday, September 13, there will be a special excursion to Jerome every Sunday. The number of passengers will be limited to 10, the comfortable capacity of the coach, and the fare will be \$3 for the round trip. The coach will leave the Hotel Perrine at 8 o'clock every Sunday morning, leaving Jerome on the return trip at 2 o'clock in the afternoon. The excursions offer a splendid opportunity to make a comfortable and inexpensive trip to the North Side metropolis, which is now growing like a weed.

BAKER'S CAKE

Why is it BAKER'S CAKE is such a JOKE the world over? It is because most bakers substitute cheaper materials for those that any good housewife cook would use to make a cake taste good. They try to make a CHEAP cake instead of a GOOD cake and the result is an article that a discriminating person will not have as a gift. Ladies come into our store and say, "Your cakes LOOK very nice, but are they regular baker's cakes?" We say: "No, they are made as you would make them if you are a good cake maker—to taste good."

"THEY TELL AT THE TABLE."

Even if you have a bad opinion of BAKER'S CAKES we want you to risk the price of one of ours and see if it is as we claim—good.

SUNNY SOUTHERN IDAHO Carey Act Lands

Practically 15,000 acres of CAREY ACT LANDS are being reclaimed and put under irrigation by the KINGS HILL IRRIGATION & POWER COMPANY, in the SNAKE RIVER VALLEY in SUNNY SOUTHERN IDAHO. THE COMING FRUIT AND ORCHARD COUNTRY OF THE WEST, where failure is reduced to a minimum, and where there is no apple scab, no fungus growth, no rotting of fruit resulting from too much rain and moisture. Here spraying is most effective—there are no rains during the spraying season to wash it off immediately after spraying. Hence the codling moth is kept away from the trees, permitting the fruit to mature in perfect condition, and free from worms, thus enabling the fruit grower to realize the top market price for his fruit.

There is no rain during the blossoming season to prevent perfect fertilization or pollenization of every blossom, and there is so much continued sunshine that honey bees are numerous and assist in pollenizing the blossoms, causing everyone of them to produce fruit, and making it necessary to thin out or pick off half or more of the green fruit to prevent breaking off many limbs of the trees. Here the greatest danger is in allowing too much fruit to remain on the tree to permit its growing to perfection.

This is certainly a land of opportunity, an empire of prosperity for the man who exercises his brain power and is willing to work and take advantage of what Dame Fortune and irrigation will provide for him in a most lavish manner. The SNAKE RIVER VALLEY, and especially the KINGS HILL IRRIGATION & POWER CO.'S project, will gradually advance to the front and stand first in position of production of fruit, surpassing Yakima, Wenatchee, Toponish and Hood River apples, peaches, apricots and pears in size, color and flavor, and beyond question the best and shippable in the world (this quality results from our cool nights), in which no fruit country can excel us.

There is sufficient sun heat during the long days to make this project famous in the growth of water melons, canteloupes and all kinds of berries and vegetables to the degree of perfection.

OUR LAND LIES ALONG AND ON THE SOUTH SIDE OF THE SNAKE RIVER, and the lava bluffs which rise up from our land to a height of 300 to 400 feet protect from the cold north winds and yet cause sufficient air current to prevent frost in the budding and blossoming season. This condition is our guarantee of a crop of fruit, berries and melons every year.

That is true of fruit, etc., also applies to grains and grasses. Nowhere in the Northwest can they raise more per acre, nor of a better quality, than in the SNAKE RIVER VALLEY, SUNNY SOUTHERN IDAHO.

Poultry raising should also be very profitable on account of there being no rain during the Summer months. The MAIN LINE of the OREGON SHORT LINE RAILROAD runs along this land its entire length, and there are THREE STATIONS or shipping points, superb facilities.

THIS is the land of plenty. Come and get busy. Take advantage of the opportunity while it is yet possible. He who deliberates too long loses thereby. THE "LAND OPENING" takes place at KING HILL, IDAHO, OCTOBER 12th, 1908.

For further information write for booklet "C."

Kings Hill Irrigation and Power Company BOISE, IDAHO

Alias Summons.
In the District Court of the Fourth Judicial district, state of Idaho, in and for Twin Falls county.
Blanch B. Hunt, plaintiff, vs. Charles E. Finch, defendant.
The State of Idaho sends greetings to Charles E. Finch, defendant.
You are hereby summoned and required to appear in an action brought against you by said plaintiff in the said District Court, and to answer the complaint of the above named plaintiff, filed therein, within twenty days (exclusive of the day of service) after the service on you of this summons. It served on this 11th day of September, 1908, at Twin Falls, Idaho, in said district, or if served elsewhere within forty days. The said action is brought to compel the performance of a contract made with the plaintiff by the defendant through his duly authorized agent for the sale and conveyance of lots 10 and 11, in block 4, in the city of Twin Falls, county of Twin Falls, state of Idaho, and to answer the defendant upon the payment of the balance of \$450 due on said contract from plaintiff to make, execute and deliver to the plaintiff a good and sufficient deed for said premises.
And you are hereby notified that if you fail to appear and answer said complaint as above required the said plaintiff will appear to the court and demand the relief demanded in the complaint.
Attest my hand and the seal of the District Court of the Fourth Judicial district, state of Idaho, in and for Twin Falls county, this 20th day of August, 1908.
R. H. WEST, Clerk.
By R. H. WEST, Deputy Clerk.
W. A. BABCOCK, Attorney for Plaintiff, residing at Twin Falls, Idaho.
Aug. 25, 1908. 4-11-18-25.

Notice for Publication—Final Proof.
1. Robert C. Barnes of Filer, Twin Falls county, state of Idaho, who entered No. 1882, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carey act," approved March 2, 1894, which embraces the NW 1/4 of SE 1/4, and the NE 1/4 of SW 1/4 of section 32, township 10 N., range 10 E., do hereby give notice of my intention to make final proof to the satisfaction of the land board described, and that I expect to prove that I have reclaimed and cultivated said land as required by law, before B. B. Williams, representative of the state land board, at Twin Falls, Twin Falls county, Idaho, on the 3rd day of October, 1908, by two of the following witnesses: B. C. Barnes, R. H. Barnes, William Lincoln, R. H. Barnes, all of Filer, Twin Falls county, Idaho.
ROBERT C. BARNES, Entryman.

Call for Democratic Nominating Convention.

Pursuant to the authority and by the direction of the Democratic County Central committee of Twin Falls county, state of Idaho, a Democratic county nominating convention will be held in the city of Twin Falls, Idaho, on Wednesday, the 23rd day of September, 1908, at 2 o'clock p. m., for the purpose of nominating candidates for the following offices to-wit:

One state senator.
One representative.
A county treasurer.
A clerk of district court and ex-officio auditor and recorder.
An assessor.
A sheriff.
A prosecuting attorney.
A probate judge.
A surveyor.
A coroner.
A county commissioner for each commissioner's district in said county.
Two justices of the peace and one constable for each precinct in said county.
To be voted for at the general election to be held on Tuesday, the 3d day of November, 1908. Also for the election of a Democratic county committee for said county, and for the transaction of such other business as may properly and legally come before it.
W. A. BABCOCK, Chairman.
Secretary.

Notice of Primary Election.
Notice is hereby given that primary elections will be held in the various precincts in Twin Falls county, state of Idaho, on Monday, the 22nd day of September, 1908, for the purpose of electing delegates to a Democratic county nominating convention for said county to be held in the city of Twin Falls, Idaho, on Wednesday, the 23rd day of September, 1908, beginning at 2 o'clock p. m., at which said convention delegates for the following offices are to be nominated to-wit:

One state senator, one representative, clerk of the district court and ex-officio auditor and recorder, sheriff, prosecuting attorney, probate judge, coroner, county school superintendent, one county commissioner for each commissioner's district in said county and two justices of the peace and one constable for each precinct in said county.
The several precincts in said county are entitled to delegates to said convention as follows: Miller precinct, 4; Murrell precinct, 1; Hansen precinct, 4; Rock Creek precinct, 4; Twin Falls precinct No. 1, 6; Twin Falls precinct No. 2, 6; Twin Falls precinct No. 3, 6; Twin Falls precinct No. 4, 5; Filer precinct, 7; Buller precinct, 14; Maroon precinct, 3; Castle precinct, 1; Roseworth precinct, 1.
The primary elections are to be held in country precincts at 6 o'clock p. m., and in city or town precincts at 8 o'clock p. m., and to commence at 2 o'clock p. m. and continue until 7 o'clock p. m. in order of the Democratic County Central committee of Twin Falls county, Idaho.
W. A. BABCOCK, Chairman.
Secretary.

CONSTITUTIONAL AMENDMENT NO. 1.

House Joint Resolution No. 10.
(Substitute for House Joint Resolution No. 17—By Kilpatrick.)
To amend section 6 of article 18 of the constitution of the state of Idaho, a joint resolution to submit to the electors of the state of Idaho, for their rejection or approval an amendment to section 6 of article 18 of the constitution of the state of Idaho, to permit county assessors to employ such deputies and clerical help as the business of their office may require.
Be it required by the Legislature of the state of Idaho:
Section 1—That section 6 of article 18 of the constitution of the state of Idaho be amended to read as follows: "Section 6. The Legislature, by general and uniform laws, shall provide for the election biennially in the state of the several counties of the state of county commissioners, a sheriff, a county assessor, a coroner and a probate administrator, a probate judge, a county superintendent of public instruction, a county assessor who is ex-officio tax collector, a coroner and a surveyor. The clerk of the district court shall be ex-officio auditor and recorder. No other county offices shall be established, but the Legislature by general and uniform laws shall provide for such township, precinct and municipal officers as public convenience may require, and shall provide for the election of such officers by the electors of the county, township, precinct and municipality, and their terms of office. The Legislature shall provide for the strict accountability of county, township, precinct and municipal officers for all moneys which may be collected by them, and for all public and municipal moneys which may be paid to them, or officially come into their possession. The Legislature may employ such clerical help as the business of their office may require, and their compensation as may be fixed by the county commissioners. No sheriff or county assessor shall be qualified to hold the term of office immediately succeeding the term for which he was elected. The salary and qualifications of the county superintendent shall be fixed by law."
Section 2—The question to be submitted to the electors of the state of Idaho at the next general election shall be as follows, to-wit: "Shall section 6 of article 18 of the constitution of the state of Idaho be amended so as to permit county assessors and tax collectors to employ such deputies and clerical help as the business of their office may require?"

Section 3—The secretary of state is hereby authorized to make publication of this constitutional amendment in each county for at least six consecutive weeks prior to the next general election in not less than one newspaper of general circulation published in each county.

CONSTITUTIONAL AMENDMENT NO. 11.

House Joint Resolution No. 3, by Seawell and Freshauer.

A joint resolution to be submitted to the electors of the state of Idaho for their rejection or approval, the repeal of sections 11 and 21 of article 5 of the constitution of Idaho, and proposing amendments to sections 2, 17, and 24 of article 6 and section 5 of article 18 of the constitution of the state of Idaho, providing a district court for each county and extending its jurisdiction to the election of probate and providing for the election and appointment of judges thereof, and their salaries, and the terms of said courts.

Be it enacted by the Legislature of the state of Idaho:
Section 1—That sections 11 and 21 of article 5 of the constitution of the state of Idaho be repealed and annulled.
Section 2—That section 2 of article 5 of the constitution of the state of Idaho be amended to read as follows: "Section 2. The judicial power of the state shall be vested in a court for the trial of impeachments, a supreme court, district courts, courts of probate and such other courts as may be established by law for any incorporated city, town or village."
Section 3—That section 17 of article 5 of the constitution of the state of Idaho be amended to read as follows: "Section 17. The salary of the justices of the supreme court, until otherwise provided by law, shall be \$4000 each per annum, and the salary of the judges of the district court shall be as otherwise provided by law, and the justice of the supreme court or judge of the district court shall be paid his salary or any part thereof unless he shall first have taken and subscribed an oath that there is not in his hands any matter in controversy not decided by him which had been finally determined by his consideration and determination 30 days prior to the taking and subscribing such oath."

Section 4—That section 20 of article 5 of the constitution of the state of Idaho be amended to read as follows: "Section 20. The district court shall have original jurisdiction in all cases, both at law and in equity, and in all matters of probate, settlement of estates of deceased persons and appointment of guardians, and such appellate jurisdiction as is now and may hereafter be conferred by law."
Section 5—That section 24 of article 5 of the constitution of the state of Idaho be amended to read as follows: "Section 24. Each county in the state of Idaho shall be and constitute a judicial district, and there shall be in each of said counties a district court, for each of which at least one judge shall be elected by the qualified electors of said district at the general state election. Provided, however, that any county, in which the total vote for governor at the last general election was not at least 2,000 votes, shall be united with an adjoining county in the election of a judge

and there shall be only one judge elected for said united counties until such time as each shall have attained a general state election at least 3,000 votes for governor, and until said time only one judge shall be elected in the following counties, to-wit: Boise and Ada, one judge; Cassia and Lincoln, one judge; Custer and Lemhi, one judge; Elmore and Blaine, one judge; and Owyhee and Canyon, one judge. Provided, further, that when any judicial district shall cast over 8,000 votes for governor at any general state election, an additional judge shall be elected for each of said judicial 8,000 votes or major part thereof thereafter in said district, any one or more of whom may hold court, and there may be as many sessions of said court at the same time, as there are judges thereof. The said judges shall choose from their own number a presiding judge who may be removed at their pleasure. He shall distribute the business of the court among the judges thereof and prescribe the order of business. In districts composed of but one county there shall be no terms of court, but the court shall be open continuously for the transaction of business. In districts composed of two counties the judge shall hold the district courts of both of said counties in accordance with such rules for the dispatch of business as he may adopt. The courts shall be always open for the filing of papers, and for the transaction of business. The term of office of judges of district courts shall be four years from and after the first Monday of January next after their election. The present incumbent in each judicial district heretofore existing shall be and shall remain till the expiration of his term of office the judge of the new district which he shall hold when elected or appointed. All vacancies created by the adoption of these amendments shall be filled at a special election to be held in the said new districts, upon giving notice thereof as provided for a general election, and said judges shall hold said offices until their successors are elected and qualified. The salary of a district judge shall be classified and based upon the vote for governor at the last general election in his district immediately prior to the beginning of his term of office and shall be classified as follows: In districts having under 3,000 votes, \$2,000 per annum; over 3,000 votes and not over 4,000 votes, \$2,500 per annum; over 4,000 votes, \$3,000 per annum; one-half of which salary shall be paid out of the state treasury and the other half of which salary shall be paid out by the county or counties for which he is elected or appointed, and in cases where one judge is provided for two counties then one county, that portion of his salary which is to be paid by the counties shall be apportioned between said counties according to the assessed valuation of their taxable property, to be determined by the assessment of the preceding year, and in addition to said salaries there shall be paid in the same way to all district judges the actual and necessary hotel and traveling expenses incurred by them in holding court in counties other than those in which they reside.

Section 6—That section 6 of article 18 of the constitution of the state of Idaho be amended to read as follows: "Section 6. The Legislature, by general and uniform laws shall provide for the election biennially in the state of the several counties of the state of county commissioners, a sheriff, a county assessor, a coroner and a probate administrator, a probate judge, a county superintendent of public instruction, a county assessor who is ex-officio tax collector, a coroner and a surveyor. The clerk of the district court shall be ex-officio auditor and recorder. No other county offices shall be established, but the Legislature by general and uniform laws shall provide for such township, precinct and municipal officers as public convenience may require, and shall provide for the election of such officers by the electors of the county, township, precinct and municipality, and their terms of office. The Legislature shall provide for the strict accountability of county, township, precinct and municipal officers for all moneys which may be collected by them, and for all public and municipal moneys which may be paid to them, or officially come into their possession. The Legislature may employ such clerical help as the business of their office may require, and their compensation as may be fixed by the county commissioners. No sheriff or county assessor shall be qualified to hold the term of office immediately succeeding the term for which he was elected. The salary and qualifications of the county superintendent shall be fixed by law."

Section 7—These amendments shall become operative on the second Monday of January, 1911, and all causes then pending in the probate courts of said counties and all matters of probate unsettled in said probate courts, together with all the records of said courts, shall be transferred at said time to the said district courts of their respective counties.

Section 8—The question to be submitted to electors of the state at the next general election shall be in form as follows, to-wit:

Shall sections 11 and 21 of article 5 of the constitution of the state of Idaho be repealed and annulled and sections 2, 17, 20 and 24 of article 5 and section 6 of article 18 of the constitution of the state of Idaho be amended as amended by the Legislature, and the jurisdiction of the district court and extend the jurisdiction of the district court to all matters of probate and to provide for the election and appointment of judges thereof, and their salaries, and to provide for the terms of said courts and establish a system of districts.

Section 9—The secretary of state is hereby authorized to make publication of these constitutional amendments consecutive weeks prior to the next general election in not less than one newspaper of general circulation published in each county.

Notice of Writ of Attachment.
In the District Court of the Fourth Judicial district of the State of Idaho, in and for Twin Falls county.
John O. Jones, plaintiff, vs. Guy B. Stier, defendant.
Notice is hereby given that on September 8, 1908, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant for the sum of \$2155.
In witness whereof, I have hereunto set my hand and the seal of my office this 10th day of September, 1908.
H. T. WEST, Clerk of the District Court.
Sept. 11-Oct. 2.

H. T. WEST, Clerk of the District Court.
Sept. 11-Oct. 2.

To All Land Owners and Water Users.
The following notice is hereby given that the Twin Falls Canal association, was decided necessary, upon the best legal advice obtainable, to procure a decree from the courts showing the standing of the water right for land on the original Twin Falls tract. This is necessary in order to secure the rights of land owners in case a dispute arises as to the prior right of the water right for land on the original Twin Falls tract which have made filings on the waters of Snake river, or in case any of the surrounding lands are to be reclaimed, and to encroach upon the rights of settlers upon the lands of the South Side Twin Falls tract.

Every owner of land on this tract, which includes the original settlement of 30,000 acres on the North Side, is invited to join as a plaintiff in this suit to be brought, and if he so joins the expense will be nominal. If he fails to join as a plaintiff he will be made a defendant in the case, making it necessary for him to secure legal help at a considerable expense. The secretary of the Canal association will be in his office over the Commercial Savings bank in Twin Falls every Saturday from 9:00 a. m. to 5:00 p. m., and will receive the names of all those wishing to be made plaintiffs and answer any questions to those desiring information. The secretary has also been instructed by the governing board to call upon as many of the land owners as possible for him to see and give them an opportunity to become plaintiffs in the case.

Notice of Caucus.
There will be a caucus in Precinct 1 Saturday evening, Sept. 12, at 8:30, for the purpose of selecting delegates to be voted upon at the primaries to be held at the county convention.
JOHN PETERS, Committeeman, Precinct 1.

Abstracts—Abstracts.
J. H. Wiles, room 5, Commercial Bank building, Twin Falls, Idaho.
Military at Home.
The Booth Mercantile Co. are this week advertising a military opening for next Wednesday, the department in charge of Miss Esel from the famous Gage house in Chicago, who is prepared to make her outfit as possible in the military's art. The opening will also comprise a line of Gage pattern hats.

Card of Thanks.
We wish to express our thanks to all those who assisted us during the fire of last Sunday afternoon.

BUHL IS MAKING GREAT GROWTH

Continued from Page 1.

over from the north side city Saturday to take lessons from Buhl, of how to build a town in short order, or how to make lightning changes in the appearance of a town. One who is away from Buhl for a week, even though he be a pioneer in the town, has to take new bearings and observations when he returns or else get lost.

John and George Strato of Garner, Iowa, registered at Hotel Buhl Monday.

J. W. Dolly, Chas. Green and son and O. Jackson of Hagerton were Buhl business visitors Saturday.

H. W. Pitt was found wandering about the streets Monday and when asked what the trouble was, said that he was lost, that he had not been in town for three weeks, and that the changes that had taken place during that time confused him. He asked to be shown to the postoffice, but he believed that he could find the postoffice from that point. He was shown to the hotel and then he struck a bee line for the postoffice.

Richard Warner of Hagerton spent a few hours in Buhl Monday.

H. R. Sentleman of Charman, Ill., was a guest of Hotel Buhl last week.

George Wedwood of Gooding, Idaho, was a Buhl business visitor Monday.

W. H. Cannon of Gooding spent a day in Buhl the fore part of this week.

H. W. Lewis and D. J. McCoy of Twin Falls registered at Hotel Buhl Monday.

Prof. G. H. Wall of Pullman, Wash., is spending some time in Buhl looking after his interests here. The professor is a booster front away back in Washington. He has been the cause of a good many of our best citizens coming to the tract. He is highly pleased not only with the progress the town is making but with the rapid improvements to be seen in the country generally.

Mrs. Jack Howe is up from the Snake river ranch visiting with her friend, Mrs. Mary Snellman.

Herman Geer is no longer able to play the man about town. He has contracts for painting the following buildings: Hotel Buhl, residence of M. C. Ware, dwelling house of Sam Milbank, dwelling house of Harry Eary, dwelling house of Dr. Pitt on the latter's ranch seven miles northwest of town, dwelling house of Adolph Wager, dwelling house of F. S. Marshall, the new postoffice building, the Episcopal church and Mr. Wilkinson's dwelling house which is going up on his ranch.

From all that can be learned the people of the school district are greatly in favor of bonding the district to secure funds for needed improvements and wagons to bring the chil-

dren to school. Many of the ranchmen are bringing in the children themselves at present from all directions. Those living at the outer edge of the district, having school children, bring in their own and all those along their route from their homes to the town. The bond issue will be about \$10,000. The new temporary schoolhouse cost \$1000. The cost of equipping the new \$25,000 schoolhouse will be about \$3000. The cost of running school wagons is estimated at \$2000. The cost of clearing away debris and landscape work around the new building estimated at \$200. No one should oppose such things, as they are a great benefit to the community.

Tom Nesbit was in from his ranch today. Tom has little time to play the gentleman in town, being too busy raising crops and wheelers.

The Mode millinery store of Twin Falls will show a full line of swell and up-to-date millinery in the room now occupied by the postoffice adjoining Parker & Marshall's hardware store Monday and Tuesday of each week in the future. They invite all to call and see their line.

Preparations for a bucking and roping contest, horse races and baseball are going on, to take place on the 28th, 29th and 30th inst.

REPUBLICAN PRIMARY TICKET

To Be Presented at the Election on Monday, Sept. 14.

Below is the primary ticket which will be presented to the Republican voters on Monday, September 14. The voters will express their preference by placing a cross in the circle after the names of the candidates for whom they wish to cast their ballots.

State Senator.
M. J. Sweeley.
W. S. Starr.
State Representative.
A. D. McElroy.
J. L. Crocker.
James A. Waters.
H. Carnahan.
County Sheriff.
John Peters.

Edwin V. Borg.
County Attorney.
W. P. Guthrie.
F. A. Hutto.
County School Superintendent.
T. W. Potter.
Mrs. Dora Steinhorn.
Corporal.
L. J. Miller.
H. E. Hunt.

County Commissioners.

First District—
E. T. Newberry.
H. D. Bott.
Second District—
G. D. Allen.
Chas. A. McElroy.
J. K. Hart.
Third District—
W. S. Harris.
E. R. Sherman.
T. E. Moore.
Theodore T. Davis.

TO LOOK AFTER IMPROVEMENTS

Council to Make a Thorough Canvass of the City.

At the regular monthly meeting of the city council on Monday evening Mayor Voigt and Alderman Sprague were appointed a committee to make a thorough canvass of the city to ascertain public needs in the ways of sidewalks, crossings, hydrants and other improvements. The city is growing at such a pace that it is a difficult matter to keep up with work of this character.

M. M. Burlough was granted permission to change the course of the lateral which runs through the Murtough addition.

An ordinance was passed levying a tax of 10 mills for city purposes during the ensuing fiscal year.

The council certified the unpaid sewer and sidewalk assessments in lateral sewer district No. 2 to the county assessor and tax collector.

The meeting was adjourned until Monday evening, Sept. 14, when more important business will be transacted.

ANOTHER MOVE IN THE SURVEY CASE

JUDGE WALTERS FAVORS THE GOVERNMENT LINES.

Announces His Intention to Render a Decision on the Theory that Corners Located by Engineer Levisen Were Government Corners.

Judge Edward A. Walters of the district court has informed counsel in the case of Humphrey et al. vs. James G. Whitney et al., commonly known as the survey case, that judgment will be rendered for the plaintiffs, which means that the government corners will be adhered to and the so-called company corners set aside in the event that the decision is sustained by the supreme court, to which an appeal will be taken.

The communication of Judge Walters is as follows in my mind as to the last surveyed the land in question in order that the company might live up to that requirement of its contract which

the 'survey case,' judgment will be ordered in favor of the plaintiffs as prayed for in their complaint. As I leave within the next couple of days for Albion, I will not have time to be able to indicate to you the views I have taken in reaching the conclusion now announced. By reason of the importance of this matter, and the care and attention and thoroughness with which counsel on both sides have presented it, and inasmuch as I have given it perhaps more care and study than any case yet before me, it is somewhat reluctantly that I forego the pleasure of a written opinion. The judgment shall be prepared on the theory that the survey made by Levisen locates the first government corners and is the survey that shall be adopted as the boundaries of the lands here involved, as described by the patents received from the government or the state. There is a slight doubt in my mind as to the last matter mentioned, but it will be far better for the decree to so rectify, in

There are but few days remaining before September 15, the closing of the contest for the \$25 Suit. There is still time for any one to win, and a free Suit is worth trying for. You have until October 1st to return the tickets, but no more will be given out after Sept. 15.

This week we are making a Special of SUMMER SHIRTS. Come and see if they are a bargain at the price asked at.

STALKER'S CLOTHING STORE

Satisfaction or Money Back

order that on appeal this entire case may be settled and determined. Such authorities as were left with me by counsel for inspection will be returned at my earliest opportunity. I trust counsel for plaintiffs will very speedily prepare findings and decrees. Immediately upon the receipt of the decree the case will be appealed to the supreme court of Idaho. The action is one of vital importance to property owners involved as the decision of the supreme court will determine the boundaries of their property.

The case was instituted to settle a dispute regarding section and quarter section corners. Many of those involved had followed corners established by the Land & Water company on the supposition that they were government corners, when, as a matter of fact, the company's engineers, failing to find government corners, had surveyed the land in question in order that the company might live up to that requirement of its contract which

calls for the delivery of water within a half mile of each legal subdivision of 160 acres. Levisen was employed as a surveyor to locate corners for land owners and claimed to have found the government corners which, in most instances, did not agree with those located by the company. Confusion resulted and the litigation followed. What will happen when the case is ultimately decided is a matter of conjecture.

Woman Suffrage Advocate (to Speaker Cannon)—"I maintain that woman has always been the prime factor in this world."

Uncle Joe (blandly)—"Oh, I don't know. In the very beginning woman was only a side issue."—Judge.

Yankee—"I'll have you know, stranger, that I belong 'to Chicago.' Sandy—"Dead, an' wha'd hae thoct it? From the way ye've been speaking I thought Chicago belonged to you."—Home Magazine.

**TICKET MERITS
STRONG SUPPORT**

REPUBLICANS HAVE NAMED
NONE BUT GOOD MEN.

Not a Weak Spot in the Entire List—

Candidates Are All Conspicuously
Competent and Command the Respect and Confidence of Voters.

BOISE, Idaho, Sept. 8.—Now that the excitement of convention week has subsided and the delegates have returned to their respective localities, an almost universal spirit of satisfaction and enthusiasm for the state ticket adopted by the Republicans at Boise is prevalent. A smoldering fire of contentment seems to fill the minds of the party members which will find expression when the campaign fans it into flame within the next two months.

Those candidates whose nominations were assured before and resulted at the convention were in the full of sense the selection of the individual party members throughout the state, and were not, as is sometimes the case, foisted on them by a few bosses. For a long time the public had given them careful consideration, and the action of the delegates was merely the voicing of its conclusion.

The expectation of Senator Henry's re-nomination was justified by his record of inviolable service to the state and his demonstrated capabilities as a statesman of the highest type.

An affirmation of as pronounced nature was the nomination by acclamation of James H. Brady for governor. His advancement of the interests of the state have been of a different but not less effective character in the promotion of its resources which before he reached life into them they practically dormant. Combined with this exceptional business ability is his leadership shown as chairman of the state central committee and his high standard of citizenship, both in his country and state.

D. F. O'Neill, Brady's successor as state chairman, fits logically into the position. He has for many years been a prominent figure in the politics of the state, and his pleasing personality and large acquaintance, if nothing more, would command him to more than this, he is a captain worthy of his charge in which the Republican party can feel unreserved confidence.

The choice of Hamner for congressman was perhaps a surprise to many, but it was not made at the dictation of any but the delegates themselves. Brady and others who might have wielded influence kept their hands off in strict pursuance of a policy which had been previously determined upon. There was no state except that made by the delegates, and their preference of Hamner to French was not in the light of a rejection of the work accomplished by the present representative, for he made a splendid record. As a young man, he has been signally honored by three elections. The present candidate is not unknown, his qualifications have been more than once demonstrated. Colonel Hamner has proven himself a soldier with ability to command and an orator who pleases and holds the attention of his audience. He also possesses the principles of statesmanship which, when given the opportunity to develop, will more than meet the requirements of a state which is forging ahead into the foremost ranks of the American sisterhood.

As justice of the supreme court the confidence of Judge Allshouse was unquestioned by the members of the convention, which indicates the prevailing opinion of the people throughout Idaho. The requirements of a judge are peculiar in their nature, and, at the helm of the state tribunal, he has evinced a justice and efficiency which should insure his reelection.

L. H. Sweetser, candidate for lieutenant governor, during the time in which he served in the legislature from Cassia county created a regard for his executive ability, and the naming of D. C. McDougall as the nominee for attorney general was in every respect as happy a one. Twice he has been Oneida's county attorney and he accomplished more in that office than any of his predecessors. He was presented to the convention ten years ago, but failed to receive the nomination. Although his candidacy this year was not announced until just before the convention, he had for some time been considered a desirable possibility.

A persistent fight has been made against Secretary of State Landon and Treasurer Hastings both before and since their re-nomination, but it partakes more of the nature of persecution by a few prejudiced ones, and its ineffectiveness was exposed by the unanimous vote of the delegates. In the light of the integrity with which they have conducted themselves in office, the apparently personal motives of their antagonists should serve to aid instead of detract votes.

S. D. Taylor of Bonner, who is selected for the position of state auditor, an old newspaper man of Idaho, was influential in much of the legislation of the last term, and is generally conceded to be well qualified for the office to which he has been nominated.

As a candidate for mine inspector, the convention determined upon one of the most competent engineers in the state, if not the entire west. F. C. Moore has been in the employ of the Federal Mining company, and although a comparatively young man, his reputation in mining circles has risen to meet the most exacting demands for the capacity in which he will serve.

The high standard of accomplishment attained by Miss Belle Chamberlain as superintendent of public instruction admits of no question. That her work as one of the foremost woman educators in this country will

be approved is scarcely clouded with

In all, the ticket which will bear the Republican nomenclature is the cleanest, best balanced and best proportioned that has been presented to the state, and displays a most sharp contrast to the state of the Democratic party which has been rendered haphazard and indefinite by factional dispute.

BUHL

Buhl, located 17 miles west of the City of Twin Falls is the leading city on the west end of the tract and the distributing point for a large area, including the stock districts of Three Creek, Butte and Roseworth, likewise the farming and fruit growing districts of Hagerman, Kanoka Flat and Salmon. The railway track is now completed between Twin Falls and Buhl, and train service has begun. Buhl has a splendid gravity system of waterworks, with a pressure of 100 pounds in the business section. It will soon be supplied with electric power and light. Business property values in Twin Falls have increased 500 per cent in less than two years. The same opportunities for investment are presented at Buhl. Now is the time to buy. Write for literature and further information.

Address all communications to

Secretary, Twin Falls Investment Co., Ltd.

TWIN FALLS, IDAHO

The photograph from which this cut was made was taken in Boise a few weeks ago by Horace Myers. At that time there were in Boise many of the men prominent in irrigation work and a group of them visited the photographer. The photograph is much better than the cut, the figures of the men standing having blurred badly. Standing, from left to right, the figures are those of D. C. MacWaters, general superintendent of the Twin Falls Land & Water Co., who does not look like a German count, as the picture would indicate; H. L. Hollister, whose colonization work and promotion have been potent factors in the development of the Twin Falls Land & Water Co. and mayor of the city of Twin Falls; C. A. Tush, chief engineer of the Twin Falls Land & Water Co.; A. C. Milner of the Twin Falls Land & Water Co.; Governor Frank R. Gooding, George A. Baird, executor of the Kimberly estate; President Frank H. Buhl of the Twin Falls Land & Water Co., and I. B. Perrine, who needs no introduction and whom the photographer has treated somewhat cloudily.

VIRGIL HALL IS CHAMPION RIDER

ROCK CREEK HORSEMAN WINS BUCKING CONTEST.

Splendid Competition and Splendid Exhibition of Clean Riding at the Baseball Park—Winner Had No Snap Getting the Money.

The bucking contest, which was held at the baseball park on Tuesday afternoon, attracted a crowd which filled the grand stand and bleachers and poured into the field. It was a jolly bunch of spectators and the riders came in for a liberal share of "joshing." In a sweet, meadow voice, Miller Evans, the major, domo, re-entrant in a broad brimmed sun-bravo, announced that it was to be a fair and square contest, in which the riders were not to use saddle rolls and were supposed to ride straight up and not longer or pull leather. The boys lived up to Miller's promise and gave a splendid exhibition. There were eight riders in the competition and all showed their ability to straddle anything with hoofs and hair. The horses were saddled in front of the grand stand, in accordance with popular request, and this delayed matters somewhat but the spectators were not impatient once the contest started. J. H. ("Buck") Rice, Robert Brose and Arthur Hanson were selected as judges. "Buck" Rice has been the best rider in the west for over 30 years, and is also somewhat of a performer himself, though he does not court that particular form of exercise at present. Robert Brose has also had long experience on the range and Mr. Hanson can likewise distinguish between a bucking horse and a saw horse. The judges had a difficult task before them but there were no murmurs of discontent over the decisions. Jeff Hamilton was master of the field and kept things moving. The first horse was a supple little bay with apparently irreproachable manners. Frank Hartwell was delegated to ride Exhibit A and was barely deceived by the animal. The horse proved to be blunder shy, to begin with, and it was necessary to blindfold him during the saddling operation. This took so much time that the spectators in the grand stand offered to let even money that the horse would die of old age before the contest began. Finally the saddle was cinched and Mr. Hartwell mounted. The little bay pitched and squirmed and with an attempted onslaught tossed Mr. Hartwell forward to Mother Earth. The crowd cheered as he got up rather crestfallen and Frank got on to him, treating him that manner. Pulling down his hat, Mr. Hartwell vaulted into the saddle again and stayed with the

beast until all the bucking was knocked out of it. It was a good exhibition and it served to put the crowd in good humor.

Mr. Buck of Buhl lived up to his name by attacking the second horse, which displayed a fine repertoire of capers greatly to the delight of the spectators.

Next came Howard Urie, to whom was assigned a stocky black horse, which displayed a fine repertoire of capers greatly to the delight of the spectators. The black was a perverse brute, coming down stiff-legged and showing a variety of impolite movements which, however, did not disconcert Mr. Urie. In the least, the rider let the black go through his entire bucking program. He sat gracefully in the saddle and worked the quirt and spurs every jump, winning rounds of applause.

The fourth horse was a sorrel owned by the Twin Falls Meat Co., and as pretty an animal as one would wish to see. Ray Cline of Rock Creek was deputized to do business with the horse and he gave the prettiest exhibition of the day. Riding loose and easy and making liberal use of spur and quirt, he urged the horse to its worst, spurring it on the shoulders and riding with an abandon that brought the spectators to their feet and called for the loudest cheering of the afternoon. Cline made no attempt to hold on, his apparent purpose being to develop all the mean traits in the horse with utter disregard of his personal safety. With a meaner horse he could not have done better. The sorrel refused to misbehave so soon as it found its master.

Mr. Harvey of Buhl hooked up with a racy sorrel, reputed to be one of the worst buckers in the country. The sorrel did not disappoint the crowd. Mr. Harvey was pulled summer after a few seconds of whirlwind contention. He resumed the saddle and hung to his perch the second time without pulling leather.

Gordon Edwards of Kimberly was assigned a big gray mare which proved to be a regular carter put up at all could not be induced to cut up at all. The seventh horse, a spunky bay, showed more bottom than any of the exhibits and gave Tom Urie a splendid chance to show his skill. Mr. Urie rode as sweet as a major and gave the horse all the chance in the world to dump him but the little bay didn't have the right movement. It was a very spectacular exhibition and Mr. Urie showed that good riding runs in the family.

Virgil Hall of Rock Creek drew a big roan with the most gorgeous bay of tricks imaginable. The horse was released just as Virgil was throwing himself into the saddle and before he could set himself and get his right stirrup. He lost his left stirrup the first lunge and to longer until he caught them, after which he gave the roan the steel and whip and furnished the most exciting and difficult ride of the day. The judges ordered the roan back and Mr. Hall mounted the animal again and repeated the performance amid great applause. His

second ride was as clean as a whistle and the horse showed a variety of dismounting motions that were simply dazzling.

Nobody was surprised when the judges awarded first prize to Mr. Hall and gave the \$25 prize to the owner of the roan horse, the award for the best bucking horse on the grounds. Second prize went to Tom Urie and third to Ray Cline.

MANY MAGNIFICENT EXHIBITS

Of Fruit Will Be Shown at the National Irrigation Congress. The National Irrigation Congress and the International exposition, Albuquerque, September 23-October 10, properly are joined in one big event. For the exposition, with all of the fruits of the soil, grown in the desert by the touch of water, is a practical lesson of irrigation. Really the exhibition will attract the attention of visitors from the eastern states and from South Africa, Asia and South Europe more than the congress will. For irrigation is centuries old, but its application in America, comparatively is new, and visitors from remote states and foreign countries will want to be shown.

So the managers of the exposition are sparing no pains to make of it the biggest agricultural and livestock show in the mountain west, east of the San Joaquin valley. They propose to give a practical lesson of the value of irrigation in the form of orchard and field crops, forage, cotton and even thoroughbred livestock. The exhibits will include oranges, lemons, pomegranates, figs, dates and olives from the irrigated valleys of southern Arizona and the more hardy orchard and field crops—cotton, beet-sugar and livestock from all over the so-called desert west. These products, especially the orchard fruits, not only will be shown, but they will be in such abundance that visitors may eat thereof and judge of their excellence. Every valley and section of the mountain west will be represented in these exhibits.

BOER HERO WILL BE ON HAND

B. J. Viljoen Will Attend Irrigation Congress at Albuquerque. R. J. Viljoen, a hero of the Boer war, who now is a citizen of the United States and lives in the Navajo valley, writes to the board of control wanting to know the movements of the Hon. J. H. Shoshone, one of the delegates from Cape Colony, South Africa, after his arrival in America. Mr. Shoshone has many compatriots living in the Dutch colony of the Navajo valley, an they want him to be their guest for a few days, while he is in the west. He and other foreign delegates will be personally conducted by the Hon. E. McQueen Gray of Carlsbad, N. M., who is chairman of the committee of foreign relations of the board of control.

Free lessons with every mandolin, guitar or violin purchased at the Twin Falls Music House.

WILL ENTERTAIN DIPLOMATS

Foreign Representatives to Attend the Irrigation Congress. The foreign ambassadors and other diplomats stationed at Washington will attend the National Irrigation Congress and International exposition, Albuquerque, September 23-October 10, will travel by special Pullman cars, to be provided by the department of state. They will travel by way of Chicago, where their cars will be attached to the Santa Fe Limited, or, possibly, made into a special train. They will be guests of the department of state on the trip, and, after the congress and exposition, they will journey to the Grand canyon and to other attractions of the southwest.

Nothing will be too good for them. This is a rich and hospitable country, and whatever there is of curiosity or pleasure in the mountain west Secretary Root, or his assistant, Secretary Bacon, will show to them, be it the ancient city of Santa Fe, government reclamation projects, Indian pueblos, the petrified forests, the Grand canyon or the big trees of California. The members of the diplomatic corps are among the talented and cultivated men of their respective nations. Many of them never have been west of the Atlantic seaboard in this country. So, while they are out west for a good time, the government will give them the best there is in the southwest, which is the best in the world.

FRENCH-ENGINEER IS COMING

To Learn Something at the National Irrigation Congress. M. Rene Tavernier, chief engineer of the ministry of agriculture and public works of France, who officially will represent France in the National Irrigation Congress, Albuquerque, September 23-October 10, before which he will deliver an address entitled "Hydraulic Forces of Irrigation: Reclamation Studies by the Ministry of Agriculture of France," will make a practical stay in America. He proposes to see the several government reclamation projects and the Grand canyon of the southwest, and afterward journey to the Pacific coast. In California he will inspect the irrigation projects of the San Joaquin valley, and from there he will travel through the northwest, examining the government projects of that section. Mr. Tavernier comes to America to learn.

Mr. Carlos Comancho, who has been commissioned by the government of Chihuahua to attend the National Irrigation Congress and International exposition, Albuquerque, September 23-October 10, has arrived in New York. Mr. Comancho, who lives at Santiago, is director of the seed test bureau of Chihuahua's department of agriculture.

Will sell or trade for anything of equal value improved land in any quantity. FRENCH, at Famous Shoe Store.

Notice.

I hereby announce myself as a candidate for nomination on the Republican ticket for county commissioner for Buhl precinct, subject to the action of the Republican primaries to be held September 14.

W. S. HARRIS.

Notice.

I hereby announce myself as a candidate for the office of probate judge subject to the will of the Republican county convention.

R. A. CARTER.

Notice. I hereby announce my candidacy for the office of county superintendent of public instruction on the Republican ticket, subject to the will of the party as expressed at the primary election to be held September 14.

MRS. DORA STEINOUR.

Muriel, Idaho.

BOOSTING FOR "SUNNY IDAHO"

GOOD WORK BEING PERFORMED
BY MRS. WHITE.

Talented Lecturer Tells of the Won-
ders of the Snake River Valley and
the Golden Opportunities Irrigation
Has Made Possible.

Mrs. Marian A. White, whom I. L.
Hollister engaged to lecture, has
arrived in Twin Falls and is lecturing
in the evening. She is creating an
excellent impression in every city
she visits. Mrs. White came to
Twin Falls and gained her infor-
mation at first hand. She visited
the places about which she lectures
and takes of them just as she found
them. Her lecture is well illustrated
by stereoscopic views of scenes on
the Twin Falls tracts. Mrs. White is
reaching a very desirable class of
citizens and Mr. Hollister is entitled
to the highest praise for having en-
gaged her. Below are some of Mrs.
White's press notices:

"The Wonders of Irrigation" was
the subject of a lecture given by Mrs.
Marian A. White of Chicago Thurs-
day evening. The lecturer has evi-
dently given much study to the sub-
ject, and has woven facts pertaining
to farming, both ancient and modern,
by irrigation into a story of unusual
interest. From the Euphrates in
Syria, some 2,000 years B. C., to the
Snake river in southern Idaho of 1908,
is a long distance to travel in a period
covering many centuries, but the lec-
turer followed the lecturer's graphic
descriptions with appreciative inter-
est.

"It is not wonderful," said the
speaker, "that we should look to the
nation that has shown a marked de-
velopment in labor-saving devices and
has chained the lightning to serve
man's purpose, for an era of evolution
in the science of harnessing the stu-
pendous waterfalls and mighty rivers
of the west in subservience to the
needs of agriculture." So in the
blossoming of the Caray act new regions
are being developed out of the arid
wastes and among these, that part of
southern Idaho adjacent to the Snake
river, and now known as the Twin
Falls country, is a healthy, vigorous
product. Under this act of grace, "ir-
rigation is the fine art of agriculture,"
said the speaker in convincing tones,
"and it is introducing into the na-
tional life, social and economic con-
ditions that are proving a blessing to
humanity."—Champaign Daily Gazette
(Champaign, Ill.)

The big tent at the Chautauqua
theater, Tuesday evening, was filled to
overflowing when Mrs. Marian A. White
of Chicago delivered a stirring address,
accompanied by stereoscopic illustra-
tion, on "The Wonders of Irriga-
tion." The audience by the hundreds
in the early centers of civilization were
compared with the modern dams in
irrigated sections of the United States.
The Snake river basin in southern
Idaho, the most modern seat of a
successful irrigation, was picture-
quely described. The walls of the Snake
river canyon and the wonderful Shu-
shone falls, held in veneration by the
Indians, were graphically eulogized,
while the Twin falls, after which this
particular portion of the country is
named, became very intimate to the
audience as the lecturer described her
descent over an Indian trail through
the canyon of the Snake. The lecturer
was highly instructive and gave the
audience an excellent idea of what is
being done under the Caray act for
the reclamation of arid wastes.—Ur-
bana Courier-Herald (Urbana, Ill.)

The lecture by Mrs. Marian A.
White of Chicago last evening proved
to be of a highly educational nature.
The lecturer, who has made more
than a superficial study of the meth-
ods of irrigation, both ancient and
modern, carried her audience in pic-
tures from the banks of the Euphrates
to the new world, illustrating the
laurels for advanced scientific
thought in connection with the de-
velopment of agriculture by irrigation
in the Snake river canyon. In the
Twin Falls country, southern Idaho,
this irrigated portion of some
600,000 acres is the direct outcome of
the Caray act," said the speaker,
"which safeguards the interests of
both arid and irrigated companies
equally well."

Mrs. White's energetic manner
moved her audience to enthusiasm.
She appeals to love for country, to
a right appreciation of its resources,
and having made a serious study of
the social and economic conditions in
the arid regions, Mrs. White speaks of
that with which she is familiar.
Champaign-Daily News.

Notice.

I hereby announce my candidacy
for representative from Twin Falls
county on the Republican ticket, sub-
ject to the will of the people as ex-
pressed at the primary election to be
held September 14.

Building, Twin Falls, Idaho.

EVERY PENNY ACCOUNTED FOR

State Treasurer's Accounts Right to a
Cent.

BOISE, Idaho, Sept. 10.—Governor
Frank H. Goessling ordered another
special general examination of the
state treasurer's office yesterday after-
noon. This, perhaps, will be the last
of what has been a series of investi-
gations made by the present execu-
tive.

Treasurer Hastings, although taken
by surprise, declared his office was in
absolutely perfect shape and issued a
statement of the money on hand,
which is as follows:
Deposits in 36 banks.....\$561,450.00
Cash on hand.....\$2,652.00
Boise City National.....0,972.96
Bank of Commerce.....10,362.90
Capital State.....24,434.24
Warrants.....8,599.90

Total.....\$704,032.02
Believing this examination was for
the purpose of politically discrediting
him, Treasurer Hastings posted re-
wards in various parts of the state,
offering as high as \$1000 to charity
should any error in his cash accounts
be discovered.

"An unwarrantable attack has been
made on me from two isolated
sources," declared Mr. Hastings, "but
it seems pertinent to me that, out of
110 papers in the state of Idaho,
nearly but two have contained state-
ments to the contrary. Mr. Goessling's
State Examiner C. D. Gosnell has
examined my books a great many
times and states that he has never
found one wrong fact pertaining to
the bank examiner, has done likewise
and announces a similar result."

"A declaration was made at a re-
cent caucus of the House Judiciary
committee to the effect that I had depel-
tized a half million dollars of the state
money without security. This is a lie,
pure and simple. Mr. Gosnell's ex-
amination of June 11 shows there
were bonds to the amount of \$1,275,000
to secure \$725,000 deposited in the
SS banks. I have never loaned a
bank which has requested state mon-
ey, irrespective of its views."

The following figures were given
out by Treasurer Hastings, which are
a record in themselves of what has
been accomplished in his office during
his incumbency:

Interest derived from the use
of public funds by his pre-
decessor for the year 1905.....\$4,066.68
For the year 1906.....9,267.63

Total.....\$13,334.27

Interest derived from the use

of public funds by C. A.

Hastings for the year

1907.....\$13,266.94

For the year 1908 to Sept. 1, 17,484.06

Estimated from Sept. 1 to

Dec. 11.....4,249.00

Total.....\$31,733.06

Grand total.....\$40,000.00

FINEST POULTRY IN THE WORLD

Will Be Shown at National Irriga-

tion Congress.

The finest poultry of the world is
grown in the north of Jerome, and
will be a poultry show in the In-
ternational exposition, Albuquerque, Sep-
tember 29-October 10, and Colonel R.
P. Twitlock, secretary of the National
Irrigation congress, invites growers
to write him for the premium list,
which will consist of liberal prizes,
etc. There will be no entry
fee charge.

Everything in legal blanks at The

Notice of Opening of Carey Act Lands, Boise, Idaho, Sept. 1, 1908.
By order of the State Board of Land Commissioners of the State of Idaho, the following described desert lands will be opened for entry and settlement on and after October 12, 1908, in tracts not to exceed 160 acres, by one qualified to enter the same under the provisions of acts of congress approved August 12, 1884, June 11, 1896, and March 3, 1901, commonly known as the Carey acts, and an act of the Legislature of the State of Idaho approved March 2, 1899, and the rules and regulations of the State Board of Land Commissioners of Idaho in relation thereto, to-wit:
All of the lands described in the contract between the United States and the State of Idaho, dated March 30, 1904, which are situated in Twin Falls, Lincoln and Owyhee counties, state of Idaho, and are more particularly described in said contract which is on file in the office of the State Board of Land Commissioners, said lands being approximately 14,000 acres situated in township 6 S., range 13 E.; township 6 S., range 11 E.; township 6 S., range 10 E.; township 6 S., range 10 E.; township 6 S., range 10 E. B. M. Applications to enter said lands may be made in person or by authorized agent to any agent of the State Board of Land Commissioners at King Hill, Elmore county, Idaho.
The land will be sold to the entrymen at the price of 60 cents per acre, one-half of which shall be paid when application is made and one-half when final proof is submitted.
All applications must be accompanied by a copy of contract for the purchase of water shares in the Kings Hill Irrigation & Power Company's canal system at a price not to exceed \$45.00 per share.
One share will be required for each acre of land entered and will represent a proportionate interest in said canal system.
P. R. GOODING,
Governor and President.
M. L. CHURCH,

"Heart of Hope," Richardson.
"Young Folk's Natural History," Worthington.
"Making of America."
Clay, Robinson & Co.'s Live Stock Report.
DENVER, Colo., Sept. 7.—We are not getting any steady runs of cattle yet. Early in the season it looked as though everything was going to get in on the early market, but prices have not been very attractive to western range men and while several roundups have been working intermittently the cattle have been cut pretty close and shipments made small. We had a light run here this last week and prices held just about

steadily. The killers are bearing down pretty hard on the market, claiming that the beef trade is very unsatisfactory. The bulk of the good cows sold this last week at from \$3.00 to \$3.30, with an extreme top of \$3.80. Today the good cows brought \$3.10 to \$3.25 and the best steers sold at \$3.00, but there was nothing chosen on sale. There are one or two good sized shipments in sight for the latter part of this week from the Bear river country. Outside of this there are not many cattle in sight and we look for a fairly active market the balance of the week. The demand for feeders on our market is not at all urgent. There is some inquiry for the good heavy, fleshy cattle for the choice kinds of light weight stockers. Medium grades are slow sale.
The sheep market has been rather quiet. Some westerns were on the market and sold at from \$5.50 to \$6.00 for lambs and \$4.00 for yearlings. The feeder lamb trade is at a standstill. Buyers and sellers are a good ways apart in their opinions of value.
The hog market is active at Missouri river prices.

ADDRESS BY SENATOR HEYBURN
Delivered in Unity Church in Boise Last Sunday.
BOISE, Sept. 8.—Senator Heyburn delivered an address before the Unity club in the Unitarian church of Boise Sunday evening. The organization is composed of business men and his talk was not of a political nature, but rather a discussion of constitutional principles.
That the people do rule was the substance of a declaration made by the senator, and he pointed out the manner as provided by the constitution. Whenever a man fails to do this, he said, it is only because he does not evince a sufficient interest in his voting power or is careless in his selection of the man to represent him.
The party out of power, he stated, is the minority, and it is the minority because a majority desires to express itself through another channel. He further said that the great mistake of the minority in attempting to regulate power was its attempt to overthrow entirely the majority's scheme of government.
