

BUSINESS BLOCKS WILL BE DOUBLED

Plans Under Way for a Large Number of First-Class Business Structures Which Will Double the Business Area of the City.

Within the next 12 months the number of business buildings in Twin Falls will be doubled. This is not a mere guess or a prediction, but a positive fact.

The handsome new building of McCormick & Co., the foundation for which is already in, will be rushed to completion.

The First National bank is planning to extend its building to alley, which will afford additional frontage on Shoshone street.

W. F. Guthrie has a two-story brick building on the site of the Gold-Rule on Main, upon which commenced this week.

The Consolidated Wagon & Machine Co. will erect a two-story structure on the northeast corner of Main and Second avenue south.

Frank Smith and Charley Smith are figuring on building either on their new location on the corner of Shoshone street or on the new lot.

Pat Hall, Locked in a Vault, Thought His Time Had Come. Pat Hall was a serious look and his face did not show a trace of it.

me out of this. If I put out this coal oil stove I'll burn it and I'll let it burn it smoother to death.

GOOD PROGRESS ON SALMON DAM

HEAVY CONSIGNMENTS OF MATERIAL ARRIVE. Fair-Keel Co. Stripping Sections of Open Cut Between Tunnels.

SALMON RIVER DAM, Nov. 19.—A marked change in progress of the work at the dam has taken place on account of the fine weather of the past few weeks.

Through the air compressor is not yet in operation, A. J. Lucker, foreman in charge of tunnel work, has proceeded with hand drills and making very good progress.

Except for two breakdowns, due to defective rod couplings, the well at the camp has been giving good service.

Assistant Engineer R. J. Newell recently made a business trip to Shoshone creek. Incidentally he shot a deer on the way back but it is up before he reached camp.

Pat Hall, Locked in a Vault, Thought His Time Had Come. Pat Hall was a serious look and his face did not show a trace of it.

CONSOLIDATED TO ERECT BUILDING

BIG COMPANY PURCHASES THREE MAIN AVENUE LOTS. Will Put up a Two-Story Piped Brick Structure, 75x125 Feet, with Full Basement—Building Will Be Thoroughly Modern.

The Consolidated Wagon & Machine Co. has purchased lots 26, 27 and 28, located on the north corner of Main and Second street north, on which it will erect a two-story, piped brick building.

The Consolidated Wagon & Machine Co. has purchased lot 26, 27 and 28, located on the north corner of Main and Second street north, on which it will erect a two-story, piped brick building.

Work will likely begin at once on both the business building and the warehouse, much depending on the weather.

FOOTBALL. Twin Falls 10, Jerome 0. Owing to the tremendous importance of the football game between Twin Falls and Jerome, the News has engaged the celebrated expert writer, Chester Baird, to furnish a technical story of the struggle.

Except for two breakdowns, due to defective rod couplings, the well at the camp has been giving good service.

ARC LIGHTS ON BUHL STREETS

ARE LIGHTED FOR FIRST TIME MONDAY NIGHT. Mail Carrier on New Route to Three Creek Makes His First Trip on Schedule Time Over the Worst Roads of the Year.

BUHL, Idaho, Nov. 25.—Heretofore it has been Bright, Brilliant, Beautiful, Busy Buhl. The arc lights were put into commission on Main street and Broadway Monday night, and these streets are as bright by night as they are in the middle of the day.

The mail carrier's first trip from Three Creek to Buhl was made on the 10th of November.

W. Z. Potts of Twin Falls visited Buhl last week on business.

Charles W. Butters was in from the ranch for a short while today. He says that he cannot see any difference between seasons in this country.

E. A. Delbrail was in Buhl last week stocking up with provisions for the winter.

W. F. Prector loaned his ranch southwest of town and will soon move in to Buhl to spend the winter.

A portion of the Cassia national forest, showing the location of the Twin Falls Shoshone Land & Water company's dam, reservoir, diverting dam and the route of the canal.

RESTS ENTIRELY WITH THE FARMER

SUCCESS OR FAILURE DEPENDS ON INDIVIDUAL. Man Who Thinks He Can, Without Knowledge or Experience, Make a Success of Farming Will Soon Find Out His Mistake.

I have recently been studying the results obtained on the farms on the Twin Falls tract for the year 1908, and find that the cases as a whole do not up to the standard.

Geo. L. Eveleth moved his family from the hill farm last week. We have in mind a fine square meal that certain old bachelors, one of whom has become a young benefactor since.

W. S. Hanson of Wendell was over from the North Side last week to take notes on Buhl's progress.

J. A. Ball of Twin Falls was a visitor in Buhl Monday.

Arnold Frankel was up from the county seat last week on a short business trip.

A company has been formed by the business men and others here which is called the Buhl Deep Well company.

Every school in the land should teach at least the elements of agriculture. The young man and the young girl should be taught something of that great study which is the backbone of the nation.

PIONEER EXHIBIT AT EXPOSITION

EZRA MEEKER IS PLANNING AN INTERESTING FEATURE.

Management of Alaska-Yukon-Pacific Exposition Makes Liberal Allowance for the Exhibit of Pioneer Life in the West.

Through the liberality of the Alaska-Yukon-Pacific exposition officials, the pioneers of the west will have an opportunity to provide an exhibit worthy of the days of old when the western empire was to the making. Ezra Meeker, who has been placed in charge of the pioneer department, has outlined elaborate plans which are described in the following circular, which he is scattering broadcast throughout the west.

The managers of the Alaska-Yukon-Pacific exposition have allotted a space on the grounds of the exposition, near the two great "Palaces for Exhibits"—the Agricultural and Manufacturers' buildings (now completed), upon which to exhibit pioneer life of the Old Oregon country.

This liberal action should be an inspiration to the pioneers and their descendants, as well as to lovers of the early history of the commonwealth that formed the Oregon of pioneer days and all citizens who wish to foster patriotism by a retrospective view of the past, and to inspire them one and all to aid in making this the crowning event in the lives of the pioneers.

This splendid concession is on a site overlooking that magnificent body of water, Lake Washington, as well as the mountains beyond and the snow-capped mountains to the south and east. Too much praise cannot be bestowed upon the management of the exposition and I wish, on behalf of the pioneer to thank them for their liberal action.

Exhibits Wanted.

Now, then, it behoves all friends of this work to bestir themselves and respond in a bustling manner and install an exhibit of which we may all be justly proud. I will soon move my ox team and wagon, of the "Oregon trail" fame, to the grounds allotted and set the oxen to work preparing the grounds, getting the material for the cabins to be built and otherwise preparing for the homecoming of the pioneers. The oxen will be kept there until the close of the exposition. I will also remove to the grounds myself as soon as a suitable cabin can be provided, and personally supervise the preparations necessary to make the exhibits convenient and attractive and will remain until after the exposition is closed, hold all exhibits loaned in trust during the life

of the exposition, and at the close return them to the owners. I will absolutely refuse to receive any money compensation for my services or for my ox team until after all money or exhibits loaned are returned to owners.

A small admission charge will be made, sufficient to repay all money loaned. The exposition management has agreed that \$5000 shall be retained from all sources other than from refreshments before any percentage of gate receipts is exacted. This extremely liberal action was taken to emphasize the importance of the work and as a token of honor and respect in which the pioneers are held, and will undoubtedly result in the early return of all money loaned, long before the close of the exposition. The refreshment feature will be self-supporting from the start.

Those who contemplate aiding in this work either by the loan of money or exhibits are entitled to know the scope of the proposed work. The general public likewise will be interested, and so I will outline in this bulletin what is proposed to be done.

Old Time Cabin.

First—"The settlers' cabin built without lumber or nails will be duplicated; two of these, 32x23 feet each with a 14-foot entryway, between, will be used as a social hall, music room and for exhibits. The old-time music will be the work of John V. Meeker, familiarly known all over the Old Oregon country as "Uncle John," who is now nearly 84 years old, but whose voice retains much of its old-time sweetness, will organize and lead in these daily musicals of strictly old-time songs so dear to the pioneer ear. We have some of the old-time vocal strains that are not yet voiceless that will be brought forth for accompaniment to the old-time vocal strains. Just across the street known as Pacific avenue, and but a hundred feet distant from the music hall of the pioneers, is the great music pavilion of the exposition, where strains of the best modern music may be heard. Between the intervals of this grand display of talent may we not expect the pioneers, in a spirit of friendly enthusiasm, to break forth in strains, if not as technical, yet as near the heart, and make this part of the grounds the musical center of the exposition.

Homepun Exhibit.

In one cabin to be erected it is proposed to install an old-time loom and an old-time spinning wheel and have them operated continuously until the end of the exposition. An expert in this line, a Kentucky lady, will be sent by the director of the Berea college, Kentucky, to install and carry on this work. The college will send a complete exhibit of homepun cloths, home-made counterpanes, rugs and other specimens of the handwork of the mountaineers of Kentucky. We hope to install the loom, and wheel a month before the exposition opens, so that, if Uncle Joe Cannon with his famous homepun suit may

want a better one he can get it from cloth woven on the exposition grounds.

Pioneer Schoolhouse. Another cabin will be a duplicate of the cabin schoolhouse of early days in the Puget sound valley. In this an exhibit of the old-time school books will be made and an opportunity given for an old-time spelling match open to the younger generation. A blockhouse, a relic of Indian war times, will be removed from its present site where it has stood for over a half century and set up on the grounds and serve as a receptacle of Indian war relics, as also an exhibit of the life of that day.

There are so many of these old-time scenes that may be reproduced that it would seem unnecessary to mention more of them to show that a very interesting and instructive exhibit may be made, and I will mention but a few more.

Festive of Long Ago.

The barbecue of the "fatted ox" (not Dave and Dandy of the Oregon trail expedition) and the clam bake will be features of special occasions. The mush pot with its bubbling milk; the "eye" hominy with its peculiar flavor; the corn pone, like mother used to make, will all be in evidence, not forgetting the milk with the cream stirred in nor the buttermilk from the dasher churn in use on the ground. Neither will we forget the "old oaken bucket that hung in the well," with the gourd on the curb, nor the well sweep—in a word, the whole exhibit will be realistic, and as complete as it is possible to make with the funds supplied by the friends of the work.

If you are interested in this work, write me at once what you have to loan suitable for exhibits and also how much money, if any, you can spare (as a loan) to aid the work. We have over \$2000 already pledged, available for immediate use—enough, we think, to carry on the work until March, but we need to know now what the response will be to this appeal.

EZRA MEEKER.

For Sale.

65 acres No. 1 fruit land in Snake river canyon under Twin Falls canal system; every foot easily irrigated; soil sandy loam; about 80 acres cleared and fenced, nice acres in alfalfa; bearing orchard, apples, pears, cherries, apricots, plums, peaches and plums; plenty good shade, four-room house; barn; fine stretch of water for boating; elevation about 200 feet below than Blue Lakes. Inquire of G. B. Fraser, News office, Twin Falls, Idaho.

For Sale—160 acres, SW 1/4, 34-20; 20 acres under cultivation; 25 acres burned off; three sides fenced; shank 10x20; 4 acres of potatoes; first class land, easily watered; a bargain. Address M. T. M., The News.

The best equipped osteopathic office in the northwest is DR. HUME'S, over the postoffice—Hours, 9 a. m. to 4 p. m. Phone 181.

WANTS TO HEAR FROM FARMERS

PRESIDENT ADVISES 'COUNTRY LIFE COMMISSION.

Suggests That It Get in Closer Touch with Farmers and Find Out What is Needed—Wants a Discussion of Various Important Questions.

At the suggestion of President Roosevelt, the Country Life commission has asked the farmers of the country to meet in their respective communities some time before Saturday, December 5, to discuss the questions which the commission is studying and to indicate their own ideas of what are the most important subjects for the commission to consider. In a letter to the members of the Country Life commission, the president says the farmers should feel "a sense of ownership in the commission" and that he believes that the commission should get into the closest possible touch with the farmers. He urges the importance of holding the meetings before congress adjourns prior to the Christmas holidays, so that at the time congress re-assembles, early in January, the commission may have reports of the meetings in hand and may be "in position to advise definitely what should be done."

At the same time, President Roosevelt adds two members to the commission—one member from the south and one member from the far west, Charles S. Barrett of Union City, Ga., and William A. Beard of Sacramento, Cal.

President's Views.

The letter of the president to Chairman Bailey follows:

The White House, Washington, November 5, 1908. My Dear Professor Bailey: I wish at the outset cordially to thank you for the way in which you have taken hold of the work you are doing. No more valuable work for the people of this country can be done, because no more valuable work for the farmers of this country can be done.

Now of course the whole success of the work depends upon the attitude of the farming people of the United States. If they feel an awakening interest in what you are doing, they should manifest it. Moreover, it is essential that the farmers, the men actually live on the soil, should feel a sense of ownership in this commission, should feel that you gentlemen in very truth represent them and are responsive to their desires and wishes, no less than to their needs. It seems to me therefore that it would

be wise to try to get into the closest possible touch with the farmers of the country and to find out from them, so far as you are able, just what they regard as being the subjects with which it is most important that you should deal. This you are already doing by sending out a circular of questions and by holding meetings in different parts of the United States. But perhaps something more can be done.

Get Farmers Together.

I accordingly suggest that you ask the farmers to come together in the several school districts of the country so that they may meet and consider these matters. I suggest the school districts because the schoolhouse would be the natural and proper place for such a meeting; or they could meet at other customary or convenient places. It would be well if the meetings could be held within the next three or four weeks; that is, before congress adjourns prior to the Christmas holidays, so that at the time of the reassembling of congress early in January you will have the reports of the meetings and so will be in position to advise definitely whether to summon the meeting by circular or otherwise.

Throughout this letter where I use the word "farmers" I mean also to include all those who live in the open country and are intimately connected with those who do the farm work—ministers, school teachers, physicians, editors of country papers, in short all men and women whose life work is done either on the farm or in connection with the life work of those who are on the farm.

Live Topics.

"You know better than I what topics you will suggest. How would it do to include such topics as:

The efficiency of the rural schools; farmers' organizations; the question of farm labor; the need of good roads; improved postal facilities; sanitary conditions on the farm. Your purpose is neither to investigate the farmer, nor to inquire into technical methods of farming. You are simply trying to ascertain what are the general economic, social, educational and sanitary conditions of the open country, and what, if anything, the farmers themselves can do to help themselves, and how the government can help them. To this end your especial desire is to get in touch with and represent the farmers themselves. The commission now consists of five members. I shall ask two more gentlemen to serve upon it, so that the full membership will be as follows:

Professor L. H. Bailey, New York State College of Agriculture, Ithaca, N. Y., chairman.
Mr. Henry Wallace, Wallace's Farmer, Des Moines, Iowa.
Kenyon L. Butterfield, president Massachusetts Agricultural colleges, Amherst, Mass.

Glifford Fletcher, U. S. forest service, Washington, D. C.
Walter H. Page, of North Carolina, editor of the "World's Work."
Charles S. Barrett, Union City, Ga.
William A. Beard, Sacramento, Cal.
Again, thanking you, and with good wishes for your success in this great and important work, believe me very sincerely yours,
THEODORE ROOSEVELT,
Bailey, Chairman.

To which Chairman Bailey replies as follows:

Washington, D. C., Nov. 11, 1908. Sir—The Commission on Country Life is much gratified that its members have met with your approval. The public interest in the subject seems to be widespread and to be constantly growing, as the purpose of the work becomes known. Discussion of the inquiry that the commission is making among the people themselves is the best means of arriving at a full understanding of what the country life problems really are. The commission gladly welcomes your suggestions that all country people come together to consider these great questions, and hereby requests all persons who are specially interested in the welfare of the open country to meet in the usual gathering places on or before December 5 to discuss the subject you suggest, or any of the questions on which the commission is making inquiries.

Correspondence Invited.

Copies of the questions may be secured by writing to the Commission on Country Life, Washington, D. C. The commission desires that, so far as possible, a general summary estimate of the discussion in all the meeting places be promptly sent to its office in Washington, so that it may have the benefit of all suggestions in preparing its report. Very respectfully,
L. H. BAILEY, Chairman.
The President,
The White House.

Salmon River Land.

PROVED A FINE ADVERTISEMENT
TWIN FALLS EXHIBITS ATTRACT MUCH ATTENTION.
Throngs of interested people crowd the Exhibition Room and seek information concerning the irrigated sections of the West.

(From our Special Correspondent.)
CHICAGO, Nov. 26.—The exhibit of products from the Twin Falls country closed on Wednesday. It would be almost impossible to describe the wonder and enthusiasm with which this exhibit was viewed. There came the stranger to the possibilities of reclaimed desert land to exclaim as well as to admit his ignorance of all that irrigation is accomplishing in your part of the country. Here, too, came the friends and relatives of those who are already numbered as good and enterprising citizens in your midst, to proudly recall their relationship to the farmer who is working under more favorable conditions, in a country where his labors receive the fullest reward, that, perhaps, the most enterprising visitors of all might be classed among those who have taken up land, and who are preparing to be numbered among the population of the Twin Falls country in the immediate future. These hunted the exhibit at all times, questioning and receiving information, and feeling a genuine interest when some one of the audience of possible mind would interject: "Yes, but that means lots of work." Lots of work? Ah, yes, the latter can find no place in this country of combined industry. As your correspondent has said time and again, the Twin Falls country is no place for the loafer, for the man who does not do well. But it is God's best land to the intelligent and upright, and it develops all that is best in both man and womanhood.

You have a fine class of people with you, and many more of the same caliber are preparing to join you. Since our last communication Mr. and Mrs. Riker of Bryn Mawr, Chicago, have taken up residence in Wendell. Both were highly esteemed in the suburb in which they made their home for some years, and the neighbors parted from them with feelings of deep regret, but gave them a hearty "God-speed" to that part of the country where they have come to make a home amid an environment full of inspiration and promise. Mrs. Riker was a very active member of the Bryn Mawr Woman's club, an organization of enthusiastic women who handle the critical questions of the day with a sense of thought and a sound common sense attitude that carries weight.

Ira B. Perrine is a visitor in Chicago this week. He and H. L. Hollister seem to be two of the busiest men in this very lively city. Mr. Perrine is all smiles when telling of the arrival of a lively Ira B. (Junior) at the Blue Lakes ranch quite recently.

We in this part of the country, particularly in the farm lands south of Chicago, are suffering from drought. In some of the towns in Illinois the question of water supply, even for domestic purposes, has become a serious problem. Rivers and streams in which there has ever been a liberal supply of water are now practically dry and their beds baked and scorched, forming roadways. The people of the eastern states, particularly in the rural districts, are now confronted with the fact that conservation of water, of which there is an overflowing abundance at one season of the year, has now to be agitated seriously.

In the Daily News of today appears the following item of interest to your community: "Irrigation projects in the far western states attract much attention at the present time. Naturally, therefore, the subject is included among those treated in the Daily News free lectures. Among the speakers presenting information about irrigated undertakings is E. P. Holp, whose address on 'The Twin Falls Country, Idaho,' will be given tonight in the assembly hall of the Friedrich Ludwig Jahn school, at Belmont avenue and North Lincoln street. The Twin Falls project is a gigantic one and will accomplish the redemption of the barren waste of hundreds of thousands of acres of land. The country is grandly picturesque, and Mr. Holp's pictures to illustrate his lecture are of a character to interest the spectator who seeks merely a scenic treat as well as the one who desires information about the economic aspects of irrigation and its results. Your correspondent would also add that the same lecturer was also heard before a large and distinguished audience in the Emmanuel Baptist church, Englewood, on the preceding night.

LECTURERS DOING EXCELLENT WORK
GREAT INTEREST MANIFESTED IN TWIN FALLS.
I. B. Perrine Returns from the East and Reports a Very Successful Trip—Says the Exhibit Was a Grand Success.

I. B. Perrine returned from the east on Tuesday and reported a very successful trip. He went as far as Pittsburg, where he did some very effective work.
Mr. Perrine stated that the Twin Falls exhibit in Chicago and Pittsburg proved phenomenal attractions. The exhibition rooms were crowded from morning until night.
"I received great interest," said Mr. Perrine. "The people all seemed to be very much in earnest and they asked the most searching questions. Mr. Gulliford arranged the exhibits very nicely and they were all giving out reliable information. He made a fine impression."
"It was amusing to see the visitors trying to buy the exhibits. Mr. Kuhn gave orders that nothing was to be sold. When the exhibition closed the exhibits were all given away. Considering that they cost the Kuhn \$200, I think the North Side people were very liberal. One man actually offered \$1 each for a sackful of Peacock-brown pigs. The visitors, especially those who have lands out there, were simply wild to get produce."
"There were 53 in the last excursion from Chicago last week," continued Mr. Perrine. "And I expect to see the interest sustained until the last acre of land is sold. They all have the Twin Falls fever back east and when they see these exhibits they were more anxious than ever to come west."

During the progress of a talk on the Twin Falls project at the Marquette building, Chicago, a man in the audience dropped dead. Mr. Perrine said he attended a lecture by Mr. Holp in one of the Twin Falls cities in Chicago at which 3000 people were present. Mrs. White and Mr. Holp are doing excellent work and interest in their lectures is constantly increasing.

MRS. WHITE, AT CARLINVILLE
Lectures Before a Large and Highly Interested Audience.
A highly educational and instructive lecture was the "Wonderland of Irrigation" given by Mrs. Marian White of Chicago, Wednesday evening in I. O. O. F. hall. It was under the auspices of the Carlinville Woman's club, and the hall was tested to its utmost capacity by an intelligent and responsive audience. From the banks of the Nile and the Euphrates; from the land of the Hindoo and—through the irrigated regions of Italy the lecturer brought her audience to the latest development under American scientific thought, and the disbursement of unlimited capital to the waters of the Snake river basin in the southern Idaho, and called her "Wonderland." The coming of the eastern capitalist to the desert region, the building of the largest dam in the world for irrigation purposes, followed by the distribution of water through canals and laterals to the desert soil, was all graphically described. The lecturer dwelt particularly on the home building fostered by this largest of all irrigated tracts, the Twin Falls country. The coming of the settler, the clearing of the prairie, the building of a city, together with its educational institutions, were little stories from a unique chapter in the evolution of a community of intelligent people resolved upon making the desert region a perennial paradise.

JEROME STRIDING FORWARD RAPIDLY

ANOTHER STAGE LINE IS FOUND NECESSARY.

Telephone Service Now Requires Two Operators and the Number of Telephones is Increasing Daily—More School Room Needed.

JEROME, Idaho, Nov. 25.—R. T. McNamara, who has been in Shoshone material clerk of the Land & Water Co. is now in Jerome.

J. E. Hayes has taken his camp to Wendell, where he will lay out the mainline there. He moved last Saturday.

Miss C. L. Vedder's mother and sisters are now residents of Jerome, having moved over from Twin Falls several days ago. They are installed in the Trull building on Main street and are very cozyly situated.

Miss Vedder, however, will return to Miller to take up her old duties there.

Dr. John F. Schmershall, the new doctor of Jerome, has his office over the new store and has ordered a new telephone which is to be put in on the first of December.

Mr. Kirkpatrick of Milner spent Tuesday and Wednesday in Jerome, returning to Milner Wednesday evening to be in time for his Thanksgiving dinner at home.

There was a moving picture show in town on Friday and Saturday evenings, to which all the citizens of Jerome attended. It was in the new building of Williams & Lemay's plumbing shop.

The Nibley-Channell Lumber company have erected quite a large building in their lumber yard and are doing a fine business.

The warehouse of William Wagner of Chicago in block 93 is nearly completed and is a very fine, large building.

Mr. Burelson and Mr. Stark of Milner were in Jerome Sunday evening, going on to Gooding Monday morning.

Miss Louise Kaudy of Milner is in Jerome visiting Miss Agnes Miller. She will retrace Miss Miller at the telephone while the latter goes to her home at Buhl on a short visit.

The telephone service is getting so large that it needs two operators, now telephones being put in almost every day.

Mr. Alvin Bennett of Milner is in Jerome assisting in the office with his brother.

Messrs. Wilson and Sprague of Milner are now at Jerome. Mr. Wilson being in the draughting department and Mr. Sprague with the surveying crew.

Nick Carter, one of the draughting men, has built a shack, and as his wife is with him he is quite happy with the world.

Mr. Stroud, the real estate dealer

of Twin Falls, has a branch office in the newspaper building. Major Reed has gone to St. Louis on a business trip. Mr. Collins of Pittsburg was in Jerome last Tuesday. Miss Henderson is now at Hovey's camp.

Reuben Undergraff, the proprietor of the Shoshone-Jerome stage line, has decided to put on another stage as the traffic and freight is getting so large that the one now in use cannot accommodate it all. The new one will start about the first.

Jerome will have to increase its school room, as the pupils are becoming more numerous daily and the present room is crowded.

WELL EQUIPPED FOR BUSINESS

The Farmers Real Estate, Grain & Livestock Co. in the outgrowth of four years of practical experience on the Twin Falls tract, it represents progress along the lines which have made this a business town. Charles A. McKeaster and Nick Smith, two of the four members of the company, have been here since before the water came. They have farmed extensively and they thoroughly understand that business. During the first irrigation season they led with the biggest crops on the tract and they have held the lead ever since. Appreciating the need of good stock, they were the first to ship high class horses to Twin Falls and their reputation in this respect is well known. They are now holding the head stock of the business, paying particular attention to the horse.

The firm is thus equipped for buying and selling lands and livestock, grain and produce, practical experience having shown that all these branches of business go together in the west. A man may not have land to sell, but he might have a carload of hogs or grain to dispose of. The company will in all probability build stables in Twin Falls in which to care for its stock, of which it has a considerable amount quartered at the Farmers' corral at present. The first installment of this stock, comprising high class farm horses, will be sold at auction on Saturday, November 23.

WENDELL ENJOYS BUILDING BOOM

GREAT ACTIVITY ON THAT PART OF TRACT.

Railroad Now Within Five Miles of Town—Splendid System of Ditches Nearing Completion—Settlers Are Arriving Daily.

WENDELL, Idaho, Nov. 23.—I. C. Brubaker, cashier of Gooding State bank, was a business caller here Monday.

C. H. Chapin of Jerome was a Wendell visitor Tuesday.

Mr. and Mrs. E. A. Kinney and Mr. and Mrs. R. F. Smith spent Wednesday in Hagerman.

Robert Moore of Chicago is building a bungalow on Fourth street.

Honry Helso is building a barn on his ranch. William Luke is helping him.

H. E. Chester is entertaining his friend, Mr. Holbrook, from Illinois.

Dr. Wm. E. Jackson has opened a dental office on Main street.

E. G. Reed of Jerome was in town Friday.

W. J. Fitzsimmons has just completed a residence on his ranch south of town.

Mr. Schultman of Twin Falls was a business caller here Monday.

W. A. Briggs is building a residence near the schoolhouse.

E. K. Aus, who has been living in Wm. Rookstool's house the past month, moved his family on to his ranch south of town last week. Mr. Aus has built a nice house on his ranch.

J. M. Watson, our enterprising merchant, is erecting a residence on his lots on Avenue A. He expects his family out from Iowa in a short time.

Arthur Bailey of Hailley is putting up a building on Avenue A in which he expects to open a meat market in a few days. Mr. Schultman is doing the work.

Arthur D. Milligan of Jerome was here Monday and Tuesday in the interests of the North Side News. He was successful in securing a number of subscribers.

R. M. Stanton, our hay and grain merchant, has completed his office and is now building a warehouse in which to store grain and seeds.

Oscar E. Longworth of Van Wert, Ohio, who has spent several years in the government service, is making preparation to erect several buildings on his ranch five miles northeast of Wendell. Mr. Longworth's family is staying in Twin Falls till the buildings are completed.

W. J. Fitzsimmons went to Gooding Thursday to meet Mr. Bryson from Cedar Falls, Iowa. He has come out to look over the country with a view to making some investments and probably locating here.

The Wendell State bank opened its doors for business November 16 with L. R. Hastings as cashier, I. C. Brubaker of Gooding is president of the bank and F. E. Du Sault of Hagerman and C. H. Chapin of Jerome are on the board of directors. The bank did more business the first day than its officials had anticipated. It is capitalized for \$10,000.

W. H. Sheppard of Gooding was here last week putting in the fixtures for the Wendell State bank. Mr. Sheppard has decided to locate here and is now putting up a carpenter shop on Avenue B. He has a ranch three miles southeast of town.

E. A. Kinney, superintendent of the Sunday school here, reports that the Presbyterian Sunday school at Berwyn, Ill., had a rally day recently at which time a collection of \$22 was taken. The money was sent to Mr. Kinney to be used in starting the work here. Besides this, friends of Mr. Kinney have sent him over \$20 to be used for Sunday school purposes.

The construction of ditches around Wendell is nearing completion and some of the largest camps have already moved to other parts of the tract. They are pushing the work as rapidly as possible, and there is no question but that the water will be ready for use on or before April 1, 1909. The ditches are large and well built. Those thoroughly acquainted with irrigation pronounce them the best constructed ditches they have seen. Chief Engineer Bickel has been busy at this end of the tract the past two weeks inspecting the ditches and looking after the details of the work. Everything the company has done for the North Side tract has been of the best material and workmanship that money could procure. The railroad will soon be here as it is now within five miles of town. Every week brings new comers, and building is going on rapidly, not only in town but in the surrounding country. The buildings are all good, substantial buildings that would be a credit to any country. The company sent over a party of surveyors last week to complete the survey of the Wendell townsite. Major Reed was in town a few days ago and assured us that there was a number of big things in sight for our town in the most future.

Notices to Creditors.

Estate of Jake Diehl, deceased.

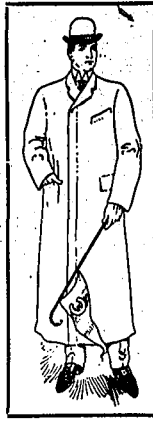

Notice is hereby given by the undersigned, administrator of the estate of Jake Diehl, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to the said administrator at the town of Albion, county of Cassia, state of Idaho.

Date of first publication of this notice, Friday, July 10, 1908.

ANDREW LOUNSBURY, Administrator of the Estate of Jake Diehl, deceased.
