

## POULTRY SHOW IN TWIN FALLS

WILL BE HELD ON JANUARY 28,  
29 AND 30.

Valuable Prizes Will Be Given by the Twin Falls County Poultry Association and Special Prizes by Twin Falls Business Men.

The biggest and best poultry show ever held in the state of Idaho will open in Twin Falls on January 28 and continue for three days. It will be under the auspices of the Twin Falls County Poultry association, an organization that has increased its membership at every meeting and is now one of the most progressive and progressive organizations on the tract. It now has a membership of nearly 60 which should be increased fourfold before the poultry show is over. To arrange a poultry show on such a pretentious scale was quite an undertaking for the association. Some of the leading members were rather skeptical as to the ability of the organization to make a success of the exhibition. Mrs. E. F. McPherson, the secretary of the association, succeeded to get out the program list, 1000 copies of which will be distributed. She has succeeded in filling the list with profitable advertising, and she has been very successful in interesting business men in the show and securing special premiums. The prizes are sufficiently attractive to induce poultrymen from over the southern part of the state to bring their birds to Twin Falls and a splendid collection of fowls is already assured. A prominent grower from Mountain Home will bring some high class birds to compete with his of Twin Falls neighbors. Lieutenant Governor Sweetser will bring some of his famous White Orpingtons, and other leaders in the poultry world will also enter the lists. There are many magnificent birds on the Twin Falls tract and the prizes should bring them all in.

C. E. Booth will give a handsome \$25 silver cup as a sweepstakes prize. The First National Poultry Association, Poultry Bank & Trust Co. will also give special silver cups and a large number of valuable special prizes have been promised by the association. The association will give first and second prizes for cock, hen, cockerel, pullet and pen of each variety.

The show is open to all, and any poultryman in the state who thinks he can win with his birds will be welcomed and will have the opportunity to capture valuable prizes. Judge D. T. Helmich of Jacksonville, Ill., admittedly one of the best authorities on poultry in the country, will pass upon the merits of the birds. Judge Helmich will be assisted by the Salt Lake association to judge a show in that city in January and will come to Twin Falls. The fact that Judge Helmich will make the award will attract attention to it as it insures impartiality and fixes the standard of the Twin Falls birds. Those who think they have good birds and do not wish to lose them by bringing them in for Judge Helmich's inspection. They also stand a good chance of getting a prize to boot. The show is the most worthy of public support and the manner in which it is being handled by the association insures its success.

## CANNOT KEEP BUSINESS AWAY

Meyer & Co. Taking Care of Customers in Their Basement. Meyer & Co. have secured the store room adjoining the one they rented some time ago in the Rogerson building, which will have a frontage of 60 feet on Main avenue. The partition between the two rooms will be removed, which will afford fine space for display. The fittings will be the latest designs and the store room will be made extremely attractive. Joe Meyer is busy receiving stock which is being opened up in his basement. Although he has not opened for business, he is selling goods right along to customers who visit the basement. The store room was a still in use by the contractor, who is making every effort to get it in shape for occupancy by the first of the year. Meanwhile, Mr. Meyer will continue to trade in the basement regardless of the thumping of horses' hoofs overhead. He said it was the first time he ever had a horse on him, but he is willing to stand it in order to get started in Twin Falls.

## HOG MARKET.

W. B. Kurtz, representative of Swift & Co., arrived from Portland on Thursday for the purpose of looking over the Twin Falls hog market. Mr. Kurtz said Swift & Co. were ready to take all the hogs they could get weighing 180 pounds or over, for which they would pay five cents per pound, cash on delivery. Nick Smith will look after local purchases for the packers. Shipments will begin on December 15 when the new rate on hogs to Portland becomes effective.

## KILLED BY FALL FROM SCAFFOLD

MICHAEL SHOLES THE VICTIM OF  
ACCIDENT.

Stepped on a Loose Board While Preparing the Ceiling of the New Presbyterian Church and Fell Fifteen Feet to the Floor.

Michael Sholes, a well known plasterer, fell from a scaffold, while preparing the ceiling of the new Presbyterian church on Third and Main streets, and sustained injuries which resulted in his death a few hours later. The body was taken to Miller's parlors in Carson City, Nev., where he died. The funeral will take place at 2 o'clock on Sunday afternoon. Sholes is survived by wife and three children, to whom the heartiest sympathy of the community is extended. The accident occurred about an hour before noon. He was at work on the ceiling in the middle of the chapel room, on a scaffold 15 feet from the floor. Apparently he stepped on a loose board. John Bergman was standing a few feet from where Sholes fell. He heard a crash above and looked around in time to see Sholes as he fell. Sholes struck the floor. Bergman said Sholes fell head first and seemed to be doubled up. Bergman and Charlie Krohn hastened to the assistance of the injured man and immediately sent for a physician. For a few moments Sholes seemed to be dead, but before the physician arrived he opened his eyes and gazed about him. He was in an ambulance and Bergman held his head on the way to the hospital. Twice during the journey Sholes asked Bergman what had happened and Bergman told him he had fallen from the scaffold. He did not seem to understand, and Bergman did not wish to lay him with the members of the union who had lapsed and died about five hours after the accident.

Michael Sholes came to Twin Falls two years ago and has been employed by the First National Bank and Trust Co. as a janitor and a good citizen. He was a member of the plasterers' union and a member of his craft. The members of the union who had lapsed and died about five hours after the accident.

## DEATH DESOLATES THE TUSH HOME

AND CLAIMS A MOST ESTIMABLE  
WOMAN.

Operation for Appendicitis Proves Fatal to the Popular Wife of C. A. Tush, Who Died from Its Effects on Sunday.

Mrs. Cary Allen Tush, the beloved wife of Chief Engineer C. A. Tush of the Twin Falls Land & Water Co., died on Sunday, following an operation for appendicitis performed on the previous Friday. Her devoted husband was by her side at the starting of the ways, and scores of loving friends sought to soften the cruel blow in various ways. Kindly hands were stretched toward her heartbroken husband, to whom the sudden and entirely unexpected affliction proved a heavy cross.

Mrs. Tush was taken ill about two weeks ago. Every care was bestowed upon her by friends, who were particularly zealous because of the absence of her husband, who was occupied by his duties on the west of Salmon extension and beyond the reach of telegraph or telegraph. Her case was diagnosed as acute appendicitis and an immediate operation was decided upon. The operation was successful on Tuesday, November 29, Mrs. Tush's condition, however, was not improved and strong hopes for her recovery were entertained. It was soon discovered, however, that the surgical operation was not sufficient to remove the disease until within an hour of her death and she cheered those about her with her expressions of supreme confidence and her beautiful faith in the Redeemer, in whom she had placed her trust. Rev. A. Chamberlain, her pastor, was in attendance.

Mrs. Tush, who was the wife of C. A. Tush, no funeral services were held in Twin Falls. The body was escorted to the depot on Monday evening for shipment to Riverside, California. Mr. Tush accompanied Mrs. Tush and Mr. Volt traveled with his sorrowful friend as far as Ogden. Funeral services were held at the Huntley chapel, where the body lay in state on Monday.

Mrs. Tush was one of the most popular women in Twin Falls. Gentle and kind, she was loved by all who knew her and loved of all whom she met. A thorough Christian, an unselfish worker and a loving friend, she brightened the lives of all who came in contact with her. She had just settled in her new home and barely had time to welcome her many friends.

The esteem in which Mrs. Tush was held by the people of Twin Falls is partially reflected in the following resolutions of the various organizations with which she was affiliated:

By the Springs club: "The Springs club wishes to voice the sympathy of its grief over the loss by the death of Mrs. Tush. This literary club has been in existence three years, and during the past year it has had many close and lasting friendships. Now that death has claimed one of its most helpful members, we can only hope that the Divine will, knowing no matter what progress she makes, there will always be in the hearts of the present membership a longing for a beautiful smiling face to cooperate with the club. Mrs. Tush was a most devoted member of this club."

MRS. H. W. CLOUGH, President.

By the Episcopal Ladies' Guild: "At a meeting of the Women's Guild of the Episcopal church, held December 2nd, the following resolutions were unanimously adopted: Resolved, That in the death of Mrs. Cary Allen Tush this guild has lost a most helpful and devoted member, and much beloved friend; one whose presence was a never-fading source of comfort and encouragement; one who was always bright and cheerful, always ready and willing to bear even more than her share of the responsibilities; one whose Christian qualities and noble character were a most valuable and inspiring example to all who came in contact with her; and one whose death is a heavy loss to the church and firm believer in the blessed promises of her Savior. Her death is a great bereavement to all who loved her."

Resolved, That this guild extend to her bereaved relatives, and especially to her beloved husband, its deepest sympathy in their hour of great loss and trial. If further resolutions were unanimously adopted.

Resolved, That the minutes of this guild be published in the public journals, and that the copy of the resolutions be sent to her bereaved husband.

(Signed) MRS. JOHN E. HAYES, President pro tem. MRS. R. M. McCOLLUM, Vice President. MRS. W. H. GREENBLOOM, Treasurer.

F. B. Johnson is planning a building on the Main street lots between Main avenue and Second avenue west. He and his brother, James Johnson, have purchased the Don Bryan building on Main street, adjoining the Tolin building, which they purchased some time ago. They now have a frontage of 50 feet and will in all probability build a handsome frame building and put it to use as a store.

## JEROME TO HAVE ANOTHER BANK

INCORPORATED, WITH A CAPITAL STOCK  
OF \$15,000—COMPANY TO FURNISH FUNDS  
FOR A MUCH NEEDED ADDITION TO THE  
JEROME SCHOOL.

JEROME, Idaho, Dec. 2.—E. J. Osterlund has just returned from Pocatello, where he took part in a Myrtle Shrine meeting.

The Osterlund-Reed Lumber Co. now has 20 outfits hauling lumber. They have over 1000 cords of lumber at Shoshone awaiting to be hauled over to Jerome. The business is increasing every day, and the office have been ordered to hasten to accommodate the increased office force.

E. C. Kiersted of Milner was in Jerome on Monday.

Mrs. and Mrs. Traill entertained quite a large number of guests at dinner last Sunday, 23 being present. They celebrated Thanksgiving on Sunday by having a large dinner. The count of the football game at Twin Falls. Those present were Mr. and Mrs. Traill, the Misses Trull, Covell and Mrs. Christian, Messrs. C. G. Kinney, Kinroy, McClelland, Sugg, Platner, Seavers, Watson, Newell, Graham, Hurlbath, Waterston, C. G. Brown and others.

The new Jerome water tank is being constructed near the old pump, and will contain 50,000 gallons of water.

Quite a number of noted people visited Jerome Tuesday evening, going on to Gooding Wednesday morning. They were Mr. and Mrs. Purdy of Pittsburgh, Mr. Gilmore of Pocatello, Governor Gooding, I. B. Perrine, A. J. Wiley, D. C. MacVaters and E. S. A. Bickler. They all seemed well pleased with the progress of the country and the rapid progress being made. They stopped for several hours at the Blue Lakes ranch, owned by Mr. and Mrs. C. A. Tush.

The new bank of Jerome was incorporated last Saturday, having for its officers R. S. Frazer, president; J. M. Hoffman, Cashier; and O. Z. Burkhard, cashier. The temporary quarters will be in the office of J. M. Hale on Main street.

Plans are being made for a new lodging house in block 104, which will be six stories high. It is much needed here, all the other lodging houses being crowded most of the time.

Dr. Henning of Fort Sheridan, Ill., is now in town. He has established an office and laboratory and intends practicing here.

Mr. and Mrs. Hovey are in camp on Snake river. The Milner & Gooding Stage railroad is now into Wendell, the Purdy party taking the initial trip from Wendell to Gooding Friday.

Elbert Bennett has recently purchased the new residence which he intends to rent.

John Pliner has gone to Council Bluffs, Iowa, for a few weeks' visit with his parents.

John Drann, who was in the Jerome State bank, has gone to take Mr. Geary's place as cashier of the State bank while the latter goes east for the holidays.

The officers of the company decided to incorporate with the Jerome school house, there now being over 100 pupils and the present room being inadequate. Building will be commenced immediately.

The engineers are building a temporary building in the park for the mixing of concrete for the structures on the site of the North Side segregation.

On account of the increase in business at Gooding, Idaho, Rice Shugart has been transferred from Jerome to that point to assist Thomas E. Sanders, the resident material and recording clerk of the Twin Falls North Side Land & Water company, so that the latter may be able to take every advantage and opportunity of rushing the work forward to completion.

The Jerriss met informally on Tuesday evening at the company restaurant, initiated a few neophytes and fraternized with Governor Gooding, Mr. and Mrs. Traill, Mr. and Mrs. Perrine, all of whom were made members. Questions of interest to the town and tract were discussed, and the school problem was discussed. Purdy spoke feelingly of the magnificent development of Jerome and assured the business men of the hearty cooperation of the company in all the public movements. Mr. MacVaters also expressed his pleasure at meeting the Jerriss and invited them to stop at his home on Main street whenever they wanted anything. Mr. Perrine avowed his loyalty to Jerome and all of southern Idaho. Governor Gooding, who was accompanied by J. B. Keel and W. J. Young are going into the real estate business. They will have their office in the present quarters of the Basket store. Future more into their new building.

Reliable information regarding the city and country promptly furnished. Address all communications to The News Publishing Company, Twin Falls, Idaho.

Entered as second-class matter, December 2, 1894, at the postoffice at Twin Falls, Idaho, under Act of Congress of March 3, 1879.

The assurance that the Oregon Short Line will build from Twin Falls to Wells, Nevada, is very encouraging. It means that the population of Twin Falls will be doubled within the next year.

The patrons of the Bell Telephone Co. in Twin Falls are signing an agreement to have their telephones taken out unless the company reduces its rates and furnishes better service.

It is generally understood that should the company decline to make any concessions an independent company will immediately be formed. This is harking back a few months to the time when a franchise was granted to an independent company.

Buhl has secured a mail route to Three Creek and another to Clear Lake. It is reaching out for a third route to the Salmon river dam.

Something more than the mere appointment of committees to do this or that is required. There must be some life and glister to the organization. As it is, the heaviest hydraulic pressure would fail to squeeze a drop of blood or pennyweight of push out of the club.

SHORT LINE TO BUILD TO WELLS

AUTHORITATIVE STATEMENT TO THAT EFFECT.

Reported Agreement Between the Harriman System and Idaho, Nevada Southern Road Whereby Short Line Will Build Connection.

Official announcement has just been made that the Oregon Short Line is going to build a new stretch of road, 130 miles in length, from Twin Falls, Idaho, to Wells, Nev., and surveys

are now in the field going over the proposed route. The new road will be built as part of the Minidoka & Southwestern, a subsidiary company of the Oregon Short Line, and will run from Twin Falls south by Hollister and on to Wells, where it will connect with the Southern Pacific.

The Oregon Short Line has filed amended articles of incorporation under the laws of the state of Idaho to build the new road from Twin Falls to Wells, Nevada, and surveys are now mapping out the right of way for the line.

The country through which the new line will be built was only opened to the public a short time ago and water has not yet been put on it. The new line will undoubtedly be built in time the water is turned on so that the products of the country can be taken care of.

The Oregon Short Line is also going to build an extension from Rupert to Fuller, on the north side of Twin Falls, that will also go through a very productive section.

The Idaho-Nevada Southern, an electric company, announced its intention some time ago of building a line from Twin Falls to Wells, but it has been reached with the Short Line whereby the latter will build the line.

James B. Steefe, who had been visiting his relatives in Cameron, Mo., returned home on Wednesday at 11 o'clock from Miller's parlors. The bricklayers' union, of which Parnell was a member, will have charge of the obsequies.
James B. Steefe, who had been visiting his relatives in Cameron, Mo., returned home on Wednesday at 11 o'clock from Miller's parlors. The bricklayers' union, of which Parnell was a member, will have charge of the obsequies.
Charles and Harry L. Moynie, the well known woolgrowers of Hagerman, have received news of the death of their father, which occurred in Boston on Monday, November 30. Mr. Moynie, Sr., was a wealthy man and was very proud of his sons, both of whom attained distinction in athletics at Harvard and also in business in Idaho.
C. A. McMaster took two carloads of hogs to Portland in order to test the hog market in that city. He left on Thursday morning and will look into the coast markets thoroughly before he returns. It is the intention of the Farmers Real Estate, Grain & Livestock Co. to ship extensively to the coast markets in the event that grain, livestock and produce can be handled there profitably. The company will develop the markets and do what it can to find an outlet there for Twin Falls products.
A jolly party of Shriners from the Pocatello coronation visited in Twin Falls on Sunday, coming over on two special cars. Among them were Mr. F. O'Neill, the Republican state chairman; Willard White of Boise, W. H. Puckett, the well known attorney of Boise; C. W. Wayland, the Boise architect; Secretary of State Robert Landon, Craig Coffin of Boise and several others, all prominent in the order. Twin Falls was represented at the coronation by a large delegation, including James McMillan, E. J. Ostrander, R. M. McCollum, George Alken, John E. Hayes, C. C. Bedford, George L. Crocker, Fred Ramsay, H. F. Harber, L. E. Saladay, J. H. Wise and Ernest White.

Harry Allen has purchased a half interest in the real estate business of C. B. Evans & Co., with whom he will hereafter be associated.
The Presbyterian ladies will hold their banquet in the Lavington building on Second street east, instead of the Hill & Taylor garage on Shoshone street, which is not quite ready. The banquet will open on Saturday, December 5, and will be a very attractive affair.
Keefe & Curran, the contractors on the Twin Falls Shoshone Land Water company's canal in Shoshone have completed their work. They have completed their work and moved their outfit to Twin Falls on Wednesday. They have a large amount of work moving as the snow is 12 inches deep in the southern part of the county.
Charles Hewitt for many years superintendent of the Sparks, Harrell, cattle ranches in Idaho and Nevada, has retired and has gone to Springfield, Ark. The Sparks Harrell property was recently sold to the Utah Construction Co. and Aden Patterson of Ogden has been appointed superintendent by the new management. It is now in control of the property.
W. C. Williams, J. O. Jones and S. H. Bolton have formed a partnership under the name of the Twin Falls Realty Co. Mr. Williams was in charge of the inside work. Mr. Jones will look after the farm lands, and Mr. Bolton will take care of the city lots. The new firm started out with the sale of 480 acres the first week, one client taking a quarter section on the firm's recommendation without seeing the land.
E. C. Lavington invited a large number of friends to a dance in his new store building on Second avenue east, last evening. The store is new, in which the furniture stock will be displayed in a few days, is spacious and attractive. The orchestra was placed on a balcony and the guests had a delightful dance, followed by refreshments. It was one of the most enjoyable evenings ever given in Twin Falls and Mr. Lavington proved the most genial of hosts.
Rural route No. 3 was started from Twin Falls on Tuesday, with Charles F. Raymond as carrier. The carrier leaves the postoffice at 8 o'clock in the morning and is supposed to make the round trip 4 p. m. but has thus far been able to make better time. The route is about 29 miles in length. Many of the patrons have not secured boxes and their mail has been carried back to town in consequence. It should also be borne in mind that drop letters, or letters mailed in Twin Falls for delivery on rural routes, require two-cent stamps.
E. R. Hermlison has commenced the excavation for a cement block building, 50x60 feet, at the corner of Main avenue and Second street west. One story will be built at first. Mr. Hermlison's intention being to add a second story and enlarge the depth of the building to 100 feet in another year. He will have a basement 35x45 feet. Mr. Hermlison has joined in a party with the next side with Dr. Pike, who contemplates putting up a two-story building on the adjoining lot.
Jake Fritz came in from west of Salmon river on Tuesday evening. He said it was so dry out there that the domestic ducks had lost the webbing between their toes and were growing nails. The chickens had seen so many sheep that they were growing wool underneath their feathers. Northland conditions are expected when the canal system is completed. Jake reports having had a thrilling encounter with a hatched wolf, which he skinned with a survey stick. He has grown a nice crop of whiskers which he wears with a Vandike trim.

Attorney General Guheen came in on Wednesday and went over on Thursday to Jerome.
Joe Daniger of Pocatello was in Twin Falls on Wednesday, but on Thursday. Mr. Daniger is very well known in Twin Falls and it would not be surprising were he to engage in business here.
A second general delivery window has been opened in the Twin Falls postoffice, gradually to the relief of patrons. This window will be kept open for four hours each week day, during the rush after the distribution of the mails.

M. J. Flohr, cashier of the First National bank of Wallace, Idaho, and director in the First National bank of Twin Falls, was in Twin Falls this week looking after his interests. Mr. Flohr has a quarter section near Miller which he is cultivating. He was pleasantly surprised with the improvement since his last visit and decided to put a new coat of red on his barn by way of appreciation.
The Springs club met with Mrs. Gourley on December 1. The history covered the time of Cromwell and Charles I. It was participated in by the entire class. Miss Gourley read a most excellent paper on Cromwell and Mrs. Peckard gave a sketch of "England's Lake Country." Roll call brought forth selections from Milton. The afternoon was so far assembled because of the vacancy death had left in the little circle since the last meeting. Resolutions of loving remembrance to Mrs. Mauv Tush were spread upon the records, and a copy of them with a message of condolence sent by the secretary to the bereaved family from the club.
A mass meeting of farmers will be held in K. P. hall tomorrow, Saturday, afternoon at 2 o'clock for the purpose of discussing the questions suggested by President Roosevelt to the Commission on Country Life. These questions include the efficiency of rural schools; farmers' organizations; question of farm labor; need of good roads; improved postal facilities; sanitary conditions on the farm. An expression from the farmers on all questions is desired by the commission. All farmers are invited to attend the meeting. Arrangements will also be perfected for two weeks of institute meetings on both the north and south side tracts. The speakers will be alternated and the meetings so arranged that all subjects will be thoroughly covered in each section.
"Not because your hair is curly; not because your eyes are blue. Everybody knows the refrain of the popular song; but nobody in Elber could account for Ernest Klersted's "Bullfinch Bill" shock of hair. It stood out as rebellious as the raptid below the spillway of the Milner dam. Ernest had but to shake his leonine locks and the tenderfoot took to the legs. "One shake of Ernest's shaggy locks were worth a thousand words," as the hillside poet once feelingly wrote. But, alas! the feet of clay. However, as the writer promised, on his word of honor, not to say a word about the curl papers, and, furthermore, as Ernest is once more the uncle of a male boy and should be thinking about the grave responsibilities of life, nothing more will be said.

William R. McMillan, a well known farmer, died at his home, five miles west of Twin Falls, on Tuesday, December 1. The body was taken to Hunt's parlors, where it was held pending advice from the father of the deceased in Ohio. The funeral was held from the residence today, Rev. Gourley officiating. Interment was in Twin Falls cemetery.
Mr. and Mrs. Lou Klersted are the recipients of many hearty congratulations on the arrival of a son, born to Mrs. Klersted on Saturday, December 28. Mrs. Klersted and baby are doing splendidly, but Billy, the elder son, does not take kindly to his little brother. Lou says the boy will make a great baseball battery for Twin Falls when they grow up, and they certainly would if they take after their father.
The Great Shoshone & Twin Falls Water Power Co. raised its primary voltage this morning from 2300 to 22,000. Hugo "step down" transformers have been installed at the Twin Falls sub-station on Main Lake, avenue, where the voltage is reduced to a commercial basis. Later the company will increase the voltage to 22,000 at Buhl and also at the Salmon river dam, where sub-stations will be built. Hereafter the voltage has been reduced at the power house at Shoshone into a standard and higher current in town.
Hon. A. D. McKinley of Meron and Mrs. Hattie F. Prudential of Dubuque, Iowa, were married in that city on Thursday, November 28. They went to Chicago immediately after the ceremony and will visit in the east for a fortnight or more before they return to Iowa. On their way back they will visit in Iowa for a brief visit. Mr. and Mrs. McKinley will be at home on and after December 20. The bride and groom were childhood friends in Twin Falls, where the groom has a host of friends who will rejoice at the opportunity to entertain the bride. Miss Hattie F. Prudential, who accompanied her father east, is visiting with friends and relatives in Iowa.
Miss Georgie Harper and her clever company have been pleasing larger audiences nightly at the rink. Miss Harper's productions have been of the highest order, but she is disappointed because the limited stage facilities will not permit her to use her own scenery, a carload of which she carried with her. Miss Harper is an exceptionally talented artist with an excellent repertoire and strong support. Joseph Dietrich, the leading man, has shown to great advantage, and the company as a whole is nicely balanced. A matinee will be played on Saturday afternoon when the popular "Rip Van Winkle" will be presented. The engagement will close on Saturday evening. Miss Harper said she was very much pleased with Twin Falls and thoroughly satisfied with the patronage she received during the week of idagreenoble weather.
Miss Van Nance was the hostess of the Keystone club Friday evening, November 27, at the home of Mr. and Mrs. D. E. Ryan. Greetings were read from Hon. J. T. Morrison of Boise and W. J. Silverton of Seranton, Penn. Four new members were taken in at this meeting. After the business meeting the club enjoyed several beautiful selections by Mrs. Ryan and Miss Jackson. Refreshments were served during the social hour to the following members and guests: Mrs. R. W. Alford of Buhl, Mr. and Mrs. D. E. Ryan, Miss Jackson of Cleveland, Ohio; Mr. and Mrs. S. T. Hamilton, Rev. John Gourley, Mr. and Mrs. M. F. Gamble, Mr. and Mrs. George Taber, Misses McConnelly, Gourley, Thomson and Hamilton, C. J. Walker. The next meeting will be held at the home of the Rev. Gourley. New Year's eve a cordial invitation is extended to the Pennsylvanians.

Don Bryan shipped five carloads of hogs to Seattle and topped the market with them.

on which water will be available for the irrigation season of 1908.

This fruit and farm land is all tributary to the towns of Gooding, Wendell, Jerome and Hillsdale, which will shortly be connected by electric railway, on which the steel is now being laid. It is certain to double in value as have other lands under the same system. Several wells have been drilled, showing the water plain to lie at a depth of from 100 to 200 feet, at which an abundance of the purest water is obtainable.

Splendid realty investments and business opportunities are offered in the above towns, which are now rapidly building up. They have the advantages of electric light and power, railway facilities and the secure backing of a large and productive area of irrigated horticultural and agricultural land.

Terms, one-fourth down, balance in one, two and three years at 6 per cent. Land, 50 cents per acre; 25 cents at time of filing. Water rights, \$15 per acre; \$3 per acre down, balance payable in nine annual installments.

**ARC LIGHTS AT THE SALMON DAM**

INSTALLED ABOUT SHOPS AND ON STAIRWAY.

Derricks for Cableway Are Being Assembled—Third Bunkhouse Erected and Furnished with Bath-tub—Reading Room for Men Opened.

SALMON RIVER DAM, Nov. 28th.—Men people are suffering when they have done the best they know how, but not so with F. C. Horn. He was satisfied that his construction camp was thoroughly up to date until he saw an article in the last issue of the "News" stating that Buhl had installed arc lights. Yesterday Mr. Horn went to Mr. Glass and explained that it was necessary to have arc lights at the dam and today a party of electricians are here with the said lights which will be placed about the construction shops and over the stairway leading into the canyon. Besides these lights, the camp is supplied with 158 common 16 candle lamps.  
The past week has witnessed quite a few additions in the way of buildings. A third bunkhouse has been erected, a large reading room for the use of the men was opened only a few days ago and last, but not least, except in size, is the bath house, equipped with concrete floor, and modern heater. Here the men may splash about under the shower of hot or cold water without danger of hurting the furniture. The camp water system offers a head of about forty pounds which is sufficient for fire purposes.  
The tunnel heading has progressed 130 feet, track has been laid and the air line from the air compressor to the tunnel is being laid. A force of twenty-one men is now being employed in the tunnel, which is worked by carrying headlamp and bench.  
Harry Young, superintendent for the Fair-Kearl Construction Co., which has contracted some of the stripping work at the dam, was in town a few days during the week on business. Mr. Young is planning to haul out dynamite and a large store of provisions.  
The carpenter force at the dam is busy assembling the five-ton derricks and has begun framing the timbers for the cableway towers. It is hoped that these towers will be in place within the next two weeks and that the cable will be swung before Xmas. The cableway is the next thing of importance to be undertaken at the dam. The stripping of the damsite has advanced to about the stage where the assistance of a derrick will do wonders but before the derrick can be lowered to the bottom of the canyon, it will be necessary to have the carrier in service.  
The foundation for the air compressor has been completed, and the machine will be set probably within the week. Machines drills will probably be installed in the tunnel about Xmas time.

Messrs. F. C. Horn and C. W. Jensen arrived in camp today to see that their names got on the payroll.  
The Salmon Falls river is now discharging about eighty second feet, or 4,000 inches. For the past two weeks it has been rising gradually but very recently has shown evidences of the fact that much freezing is going on in the mountains.  
Some of the engineering force at the dam have purchased a large phonograph and about 120 records. A public concert was given a few nights ago. It was much enjoyed. Mr. Gilt-wort tested the men to see how many they could stand. It has been discovered that the average able-bodied man can stand about forty-two records if played fast. "Pat" Murphy holds the record at fifty-one. Pat is deaf but never knew it would be of any advantage to him.

Odd Fellows Give Enjoyable Dance on Thanksgiving—Uncle Johnny McCay, a Popular Citizen, Falls a Victim to Pneumonia.

**KIMBERLY, Idaho, Dec. 2.**—Harry R. Smith returned Sunday from his trip to Iowa and other points in the east. He found conditions fairly good there and crops better where he was than they were last year.

The infant son of G. H. Johnson

ded this week. The child was sick but a few days, and the parents have the sympathy of the community.

Dr. J. T. Evans, the Boise oculist, was here this week looking after his patients. He will make Kimberly every few months in the future.

Martin Sullivan has had his new house fitted up with bath, tub, sink, etc. This will be one of the best modern country houses in the country when completed.

H. D. Scott won the thirteenth prize in the Salt Lake Herald contest. The prize was a Singer sewing machine valued at \$50. It looks as though the old bachelor was getting ready for housekeeping as the machine will come handy.

The weather has moderated some and the workmen are busy on the new hardware store. The frame of the second story is up. Swearingen and Wilson are ordering a complete line of furniture to go with their hardware and harness and hope to be ready for business by the first of the

year.

The work on the school house is progressing nicely. Most of the planning is already done and the lower rooms are being completed and tiled.

The Modern Woodmen held their annual election Tuesday night and the following officers will hold for the next year: W. F. Brecken, venerable counselor; F. M. Kendall, worthy advisor; W. R. Carley, clerk; E. U. McCallie, banker; H. R. Pettibone, watchman; W. M. Mansor, secretary; Will Lytle, chief forester; H. M. Fletcher, escort; A. McDermid, a member of the board of trustees for three years. Under the above officers it is predicted that the Woodmen will make a good showing for the coming year. A New Year's ball will be given on the night of January 1, by the Woodmen at their hall. A committee consisting of A. McDermid, W. R. Carley, R. M. Newberry and W. F. Brecken are looking after the arrangements and will start the new year off right.

The dance by the Odd Fellows on Thanksgiving night was well attended and about fifty-five tickets were sold. Everybody had a good time and the members are well pleased with their receipts.

This community was saddened on Monday by the news that John H. McCay was dead. He was familiarly known here to his friends as "Uncle Johnny." He came here last spring from Okonema and had recently traded his property for land in Okonema and intended to start back on Thanksgiving day but was taken with pneumonia and was sick only a few days when death relieved his sufferings. Mr. McCay was born in Georgia about sixty-two years ago and enlisted in the civil war on the Union side and served through the war, being wounded. He later moved to Okonema, where he held office in the state. He leaves a widow and five children to mourn his loss. He was a member of the Odd Fellows lodge and also of the Masons, where he had reached the degree of Shriner. One of his sons is expected to arrive here Thursday or Friday, and the remains will be taken to the train under the care of the Odd Fellow lodge of Kimberly and the burial will take place at Okonema, Okonema. Numerous telegrams from friends and lodges have been received extending condolence and inquiry and the community is suffering the loss of a good citizen.

The sympathy of his friends here, and they include the entire community, is extended to his wife and children at this time.

Mr. R. J. Hummel and daughters, who have been sick, are all reported to be recovering rapidly.

Jas. N. Clyde and bride left Saturday for their trip to Missouri to spend their honeymoon and to visit his parents and relatives.

The painter is busy this week on the inside work of the butcher shop which is being painted white. This will make one of the best shops of the tract when completed.

# DAIRYING ON A BUSINESS BASIS

## HOW THE DAIRY HERD SHOULD BE BUILT UP.

Pure Bred Biras Are an Absolute Necessity—Twin Falls Country Can Produce More Butter Fat at Less Cost Than Any Other Section.

(By A. McPherson.)

The rapid rise in land values and the consequent reduction in the farming unit, make it imperative that a radical change take place in the present method of farming. The large areas where hay and grain are being raised must necessarily be cut down to smaller areas and devoted to a different system of tillage. It is entirely possible to produce several times the value per acre that our farms are now producing, thus providing homes for many more people, giving us a greater population and wealth.

To do this we must study and adapt ourselves to the changed condition of more intensive cultivation of the soil. Southern Idaho is particularly adapted to this because of the westerly productiveness of the soil. This is especially true if the growing of alfalfa and dairying are made the prominent features.

Alfalfa has a wonderful power of enriching the soil and is unsurpassed as a food for the dairy cow on account of its high percentage of protein. Protein or nitrogenous compound is the most costly element of foodstuff in the eastern and middle states, but wherever alfalfa is grown, protein is the cheapest and yet the most necessary element food constituent.

In order to give a clear conception of the value of the alfalfa plant, I submit the following analysis: 100 pounds of alfalfa hay contains eleven pounds protein, 39.5 carbohydrates, 1.2 fat. The best authorities on feeding dairy animals give the following ratio for a balanced ration: One pound protein, to five pounds of carbohydrates and four pounds of little figuring will show from the above analysis that alfalfa contains an excess of protein.

Experience has proven that the addition of sufficient oat straw, wheat straw, sugar beet pulp, beet tops or roots, which are so cheaply grown, or are by-products in Idaho, will keep a dairy animal in the flesh and a full flow of milk. Alfalfa, in many parts of Idaho, averages about six tons, or more of hay per acre. This coupled with the products of the farm that are usually wasted, gives Idaho the cheapest and greatest quantity of forage per acre of any part of the civilized world. This together with our equable climate and price of dairy products, would make Idaho the

leading dairy state in the Union. Breed of Dairy Cattle. Of course, under this head, the dairymen are divided in opinion, as to the kind or breed of cattle that are most profitable. Some prefer a general or dual purpose cow, such as the dairy strain of Short Horn, or the Red Poll and Brown Swiss, while others prefer the special dairy purpose animal such as the Jersey, Guernsey, Holstein or Ayrshire or their grades.

The dual purpose animal is kept for the purpose of furnishing both dairy products and beef, and oftentimes where special conditions exist they are very profitable. These conditions are: adjacent to free range on the border of some irrigated tract, or where large areas or buttes may arise in the center of some tract, where these cattle could be grazed from the time grass begins in April until the first of July, and then after the hay crop is harvested, the animals can be turned into the meadow until the first of January and sometimes later. This would practically give a free range for cattle a large portion of the year, reducing the feeding or pasturing minimum. The dual purpose animal does not give, as a rule, such quantities of milk as the dairy type, yet under the above conditions with the products of milk and beef combined, they can be made very profitable.

Dairy Cattle. The special purpose dairy cow for an irrigated farm under intensive cultivation appeals to the average small farmer because of the ease with which she is managed and the profit derived from her. When properly handled the profit often exceeds the value of a good steer in butter fat alone every year, and besides this the additional income in the value of the calf and the skim or separated milk which is used for feeding hogs that are necessarily incident to a dairy farm.

I am fully satisfied from personal experience and observation that the special purpose, or true dairy cow is the best for the intensive farmer in the arid districts of Idaho. An acre of pastures composed of mixed grasses will easily pasture two cows six or seven months of the year, and hay from one acre of good alfalfa, together with some other cheap forage would feed the two cows for the balance of the year. Thus one cow could easily be maintained to each acre of land devoted to dairy farming.

Building Up the Dairy Herd. Very few farmers are financially able to purchase pure bred dairy cattle at the beginning, but it is admitted by all who are familiar with the dairy business that the pure bred sire of the dairy type is always desirable. The best way to breed up a dairy herd is first to secure some good grade cows as near the type desired as possible, and a pure bred sire. Then begin breeding up the herd, keeping all the males for future use. Soon a high grade herd will be built up, and if proper selection and care is exer-

cised they will in a few years, almost equal the pure bred in milk production.

Community Breeding. It is often the case that a farmer of limited means is not prepared to purchase and care for a pure bred dairy sire. This will lead into community breeding which has many advantages, providing the community can agree on the special breed that will suit them best. One of these advantages is that when a dairy sire has passed his usefulness in one community, he can be exchanged for one in another, often without additional cost, thus encouraging the building up of the dairy herd with the particular breed agreed upon. Scrub sires, or even those of pure blood of other breeds, should be discouraged at all times.

The Babcock test and scales should be used frequently so that the dairy farmer can know at all times whether each individual cow is profitable or not. A cow that will not produce somewhere near 200 pounds of butter per year, is not as profitable as she should be, and if she goes below 150 pounds she is not profitable at all.

Every dairymen should set the standard of butter production which should be at least 300 pounds per year and work to that end.

Another advantage of community breeding of a single breed is that it over an excess or surplus number of cows accumulate in any district it attracts buyers because they can get a carload or more of the particular breed in that section and have a large number to select from. Success in dairy farming will also depend largely upon the man. If he makes it a business and studies it, and follows the up-to-date information and practices that can be learned and put in practice by any man of ordinary intelligence, dairying, in connection with a small farm will be the most profitable and satisfactory branch of farm labor in the arid districts.
