

Notice for Publication—Final Proof. I. A. Hill, of Filer, Idaho, who made entry No. 1979, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the SE 1/4 of NW 1/4 of section 26, of township 10 S., of range 15 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Twin Falls, Idaho, on the 19th of December, 1908, by two of the following witnesses: John H. Chisholm, Edie M. Lynch, Mabel Chisholm, C. G. Bringham, all of Filer, Idaho. J. A. HILL, Entryman.

Notice for Publication—Final Proof. I. Ernest Wilson, of Twin Falls, Idaho, who made entry No. 2320, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the NE 1/4 of SE 1/4 of section 6, township 11 S., range 14 E. B. M., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Buhl, Idaho, on the 29th day of December, 1908, by two of the following witnesses: F. J. Carver, C. C. Lillibridge, Lester Parker, all of Cochar, Idaho, and J. A. Yochem of Twin Falls, Idaho. ERNEST WILSON, Entryman.

Notice of Writ of Attachment. In the District court of the Fourth Judicial district of the State of Idaho, and for Twin Falls county. Brown-Hart company, Ltd., a corporation, plaintiff, vs. John B. Davis, defendant. Notice is hereby given that on November 21, 1908, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant for the sum of \$257.57 and interest, and \$75 attorney's fees. In witness whereof I have hereunto set my hand and the seal of my office this 23rd day of November, 1908. H. W. WYATT, Clerk of the District Court. R. H. ROYS, Deputy.

Notice of Proof of Completion of Works and Application of Water to Beneficial Use. Notice is hereby given that at 1 p. m. on the 18th day of January, 1909, at Three Creek, county of Owyhee, state of Idaho, before Thomas Higgins, state of Idaho, will be submitted to the commission the terms and conditions of a House creek and of the application to beneficial use of said water in accordance with the terms and conditions of permit No. 1270 heretofore issued by the state engineer of the state of Idaho. 1. The name and postoffice address of the person holding said permit are Peter B. Davis, Butte, Idaho. 2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 4.8 cubic feet per second. 3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied for beneficial use is 4.8 cubic feet per second. 4. The place where said water is used is 3/4 of NW 1/4 section 6, township 15 S., range 13 E. B. M.; NW 1/4 of SW 1/4, SE 1/4 of NW 1/4, and NW 1/4 of NE 1/4 section 31, township 14 S., range 13 E. B. M. The date of priority which said user is prepared to establish is December 26, 1905. JAB. STEPHENSON, Jr., State Engineer.

To All Land Owners and Water Users. At a meeting of the governing board of the Twin Falls Canal association it was decided necessary, upon the best legal advice obtainable, to procure a decree from the courts showing the standing of the water right for the land on the original Twin Falls tract. This is necessary in order to secure the rights of land owners in case a dispute arises as to the priority of the South Side Twin Falls tract over the surrounding tracts which have made filings on the waters of Snake river, or in case any of the surrounding tracts show a disposition to encroach upon the rights of settlers upon the lands of the South Side Twin Falls tract. Every owner of land on this tract, which covers the original appropriation of 30,000 acres on the North Side, is invited to join as a plaintiff in this suit to be brought, and if he so joins the expense will be nominal. If he fails to join as a plaintiff he will be made a defendant in the case, making it necessary for him to secure legal help at a considerable expense. The secretary of the Canal association will be in touch with the Commercial Savings bank in Twin Falls, Idaho, every Saturday from 9:00 a. m. to 5:00 p. m. and will receive the names of all those wishing to be made plaintiff and answer any questions to those desiring information. The secretary has also been instructed by the governing board to call upon as many of the land owners as possible for him to see and give them an opportunity to become plaintiffs in the case. Messrs. Stockinger & Bowen are the attorneys for the association and will conduct the case. They, as well as others who have given this matter much thought and study, consider an early action of the courts most important, and it is necessary in order that the decree of benefit to any particular piece of land that the owner of that land shall signify his intention to join in the suit. The whole tract cannot be treated as a body, and the fact that your neighbor has a decree does not put your land in the same standing as his unless you are a plaintiff in the suit, so it is important to you that you are not overlooked. GEO. E. HARLAN, President. IRVING R. DARROW, Secretary Governing Board.

Summons. In the justice's court of Buhl precinct, county of Twin Falls, state of Idaho, before M. D. L. Barstow, justice of the peace. Idaho Realty company, a corporation, plaintiff, vs. J. W. Smith, defendant. The state of Idaho sends greetings to you. Pursuant to an order issued out of the justice court on the 11th day of December, 1908, you are hereby summoned to appear before me at my office, located at the Idaho Realty company, a corporation, is plaintiff and you are the defendant. Said action is brought to recover from you the sum of one hundred and fifty-five dollars and sixty-two cents (\$155.62) and cost of suit or plaintiff will apply to the court for the relief demanded, or judgment will be taken against you for the said sum of one hundred and seventy-five dollars and sixty-two cents (\$175.62), together with cost of this suit, if you fail to appear and answer. This action is brought to recover from you the sum of one hundred and seventy-five dollars and sixty-two cents (\$175.62) for money due and owing by you to the said plaintiff, for board and room furnished by said plaintiff at your special instance and request as more fully appears by the complaint now on file in this office. M. D. L. BARSTOW, Justice of the Peace, Buhl, Idaho. O. CLARK STONE, Entryman. Attorney for Plaintiff.

Notice for Publication—Final Proof. I. John E. Schmidt of Buhl, Idaho, who made entry No. 2247, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the NW 1/4 of NW 1/4 of section 33, of township 9 S., of range 14 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Buhl, Idaho, on the 2nd of December, 1908, by two of the following witnesses: Robert Crawford, Ed Braun, Harry Smith, Andrew Lundberg, all of Buhl, Idaho. JOHN E. SCHMIDT, Entryman.

Notice for Publication—Final Proof. I. John H. Chisholm of Filer, Idaho, who made entry No. 2232, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the NW 1/4 of SE 1/4 of section 26, of township 10 S., of range 15 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Twin Falls, Idaho, on the 19th of December, 1908, by two of the following witnesses: John H. Chisholm, Edie M. Lynch, Mabel Chisholm, C. G. Bringham, all of Filer, Idaho. JOHN H. CHISHOLM, Entryman.

Notice for Publication—Final Proof. I. James Cumming of Seaford, Ontario, Canada, heir of Alexander M. Cumming, deceased, who made entry No. 310, under the provisions of an act of the legislature of the State of Idaho, commonly known as the "Carney Act," approved March 2nd, 1899, which embraces NE 1/4 of NW 1/4 of section 16, of township 10 S., of range 15 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams at Twin Falls, Idaho, on the 2nd of January, 1909, by two of the following witnesses: S. E. Klein, C. P. Morganstern, Walter Melis and Mike Dean, all of Twin Falls, Twin Falls County, Idaho. WILLIAM H. CULLINGTON, Entryman.

Notice for Publication—Final Proof. I. Samuel C. Kline of Twin Falls, Idaho, assignee of John J. Hogan, who made entry No. 322, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the NW 1/4 of NE 1/4 of section 14, of township 11 S., of range 17 east, Boise, meridian, has filed notice of intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Twin Falls, Idaho, on the 19th of December, 1908, by two of the following witnesses: C. P. Morganstern, John H. Cullington, Boyd Patrick, Frank Patrick, all of Twin Falls, Idaho. SAMUEL C. KLINE, Entryman.

Special Stockholders' Meeting. Notice is hereby given that a special meeting of the stockholders of the Twin Falls News Publishing Co., Ltd., will be held at the office of the company in Twin Falls, Twin Falls county, Idaho, on Monday, December 21, 1908. GEO. B. FRASER, Secy. Twin Falls, Idaho, Nov. 9, 1908. The best equipped orthographic office in the northwest is DR. HUME'S, over the postoffice. Hours, 9 a. m. to 4 p. m. Phone 128.

Notice for Publication—Final Proof. I. Albert M. Ring of Buhl, Idaho, who made entry Nos. 2045 and 2074, under the provisions of an act of the legislature of the state of Idaho, commonly known as the "Carney act," approved March 2nd, 1899, which embraces the S 1/4 of SW 1/4, and NW 1/4 of SW 1/4, and SW 1/4 of SE 1/4 of section 24, of township 9 S., of range 13 E., do hereby give notice of my intention to make final proof to establish my claim to the land above described, and that I expect to prove that I have resided on, reclaimed and cultivated said land as required by law, before E. B. Williams, representative of the State Land board, at Buhl, Idaho, on the 22nd day of December, 1908, by two of the following witnesses: C. A. Dummer, Francis MacDonald, George D. Chamberlin, A. C. Tempest, all of Buhl, Idaho. ALBERT M. RING, Entryman. Deferred until December 29, 1908.

Six Months, in Advance, \$4.00

Entered as second-class matter, December 2, 1904, at the postoffice at Twin Falls, Idaho, under Act of Congress of March 3, 1879.

The question of the transfer of the canal system by the Twin Falls Land & Water Co. to the settlers is one of many variations. Twelve months ago the company sought to turn the canal over to the farmers and the latter refused to take it. At that time there were lions against the system in litigation which have since been satisfied. The company has expended a great deal of money in enlarging and improving the system, which is now practically complete, with the exception of the cement headgates and measuring devices in dispute. This question will be settled by the courts in whose hands it now is. The company claims that under the terms of its contract it is not obliged to run water excepting during the irrigation season and it has required the settlers to put up a bond to secure it in this event that the courts should decide in its favor. Having in mind the proposed enlargement of the canals for the irrigation of half a million acres west of the Salmon river, the company is reluctant to risk friction with the settlers while this work is in progress. The most perplexing question is how to equalize the maintenance charges. It is unfair to expect those settlers who are actually improving their land and adding to the value of farm property to pay double what they should pay for maintenance while the speculators, whose land is running to weeds and fouling that of their neighbors, pay nothing. Even from the company's point of view the maintenance is unsatisfactory. If it were possible to assess every acre under the system for maintenance, the settlers would doubtless be content to let the company operate the system until the west of Salmon extension is completed. This, however, is impractical under the terms of the contract. It is a knotty question. The attitude of the settlers with respect to the proposed extension is what might be expected from fair minded and progressive men who wish to see the extension built as it will enhance the value of their lands, improve their water supply and furnish them a home market and better transportation facilities. It is to be hoped that some plan will be devised whereby the maintenance burden may be properly placed. If this were done, the settlers and the company could easily reach an agreement as to the enlargement of the canals and their operation during the construction period. There is not nearly so much friction as there was a year ago and the solution seems much nearer.

CANAL WORK ON SALMON TRACT

ENGINEERING CREW WILL SOON BE IN THE FIELD.
Laborers on Dam Ask for Reduced Hours and Strike When Demands Are Refused, but the Work Will Not Be Impeded in Consequence.

SALMON RIVER DAM, Dec. 10.—Confidence is being restored in huge chunks. Everyone goes about with his pockets full of it. It's also stuff in the shape of a desire to have the working hours reduced from 10 to nine hours. Mr. Horn thought it a pretty idea and patted the spokesman on the head while he told him in a very distinct voice well above a whisper that there was "nothing doing," and the necessary started to get down. It was a fool break to make, but the men stuck to their promise to each other and quit. Some were clean cut and desirable men who really didn't want to go, but who "less scared of doing wrong. Than being laughed at, went along," thinking it better to be a man with a fool principle rather than one with no principle. However, the work was not crippled in the least as the men hoped it might be, and their places were soon to be filled.

The stripping of the damsite has progressed far enough to expose about 1,000 square feet of the foundation material which is close to the surface and first class material for the purpose.

The top of the Salmon river dam when completed will be a roadway which will take the place of the present bridge crossing the river on the Three Creek road. Assistant Engineer, W. H. Boring, recently began the work of building the road leading from the top of the cliff to the dam. This road will be of the same nature as the one leading down to Shoshone Falls.

The camp hospital is now under construction and should be completed next week. Dr. Duckett of Twin Falls will probably be the resident physician and will shortly take up his quarters here at the dam. The hospital provides for about 12 men and contains a living room and office.

It was learned here today from reliable parties that an engineering crew would soon be in the field running the lines for the canals of the Salmon river project. The work will probably be under the direction of Charles B. Smith, assistant to Chief Engineer. It is likewise probable that the Fair-Kee Construction Co. will take a contract for a fair proportion of this work and will begin at the dam end just as soon as the final arrangements are made.

Mr. McCurry of the Fair-Kee Co. has just recently returned from Boise and reports that Mr. Paris and Mr. Wiley are to be here in the very near future and will go over the canal proposition with the idea of getting things started.

The stripping of the open cut between the two sections of tunnel is about half completed. The Fair-Kee Co. is employing about 40 men and 20 teams at the dam and expect to be through with the present job by January 10.

Herman Martin, Inspector of Carey Act lands under State Engineer Stephenson visited the dam a few days ago on official business. A. C. Croft, Jr., has just returned from Twin Falls.

RARE TREAT FOR HANSEN CHILDREN

CITIZENS PROVIDE FOR GRAND ENTERTAINMENT.

Come Forward with Substantial Contributions Which Are Added to Funds Raised at Social-Townsite Building to Be Ready by New Year.

HANSEN, Idaho, Dec. 10.—Harry T. West was in Hansen on Friday night to meet some eastern heavyweights whom he took to Twin Falls in a carriage.

Mr. and Mrs. Pope Smith took the train on Thursday evening for the east.

Charles Engokko left on Thursday evening for Nevada. He spent the fall with the Smith brothers at the headgates.

George Matson and wife have visited Mrs. Jackson's home to visit Mrs. Matson's parents, Mr. and Mrs. Harwood, for the winter. They will probably invest in Hansen property.

B. Roberts loaned a car of his for Hunter on Friday last.

Harry W. Nichols, who spent the summer with Messrs. Cowan and Rowe, left on Sunday evening for Chicago.

A number of the Sunday school children were the guests of Mr. and Mrs. F. M. Towne on Sunday evening.

Mrs. M. M. Newberry is reported on the sick list.

Mr. and Mrs. P. J. Jerome are being congratulated on the birth of a son on Sunday evening.

Mrs. W. E. Smith and Miss Ethel Smith were Twin Falls visitors on Monday.

Mr. W. L. Good and Miss Helen Good did some shopping in Twin Falls on Saturday.

George Bauerlaub returned from Hot Lake, Oregon, on Saturday. Mrs. Eichenlaub will remain at Hot Lake until her health improves.

J. D. Brewer returned from Oregon on Monday.

Mrs. M. M. Towne, Miss Ethel Towne, Miss Fern Towne, J. R. Hinton, J. L. Barnes, and Mr. and Mrs. H. Barnes were Twin Falls shoppers on Tuesday.

L. L. Morrell took the train on Tuesday evening for Klamath Falls, Oregon, where he will remain for the winter.

The carpenters on the townsite company's building are rushing it to completion. They are making a great effort to complete it in time for the New Year.

The children of Hansen will have a grand time on Christmas day. To the funds raised at the social last week have been added substantial contributions by the citizens, sufficient to insure a celebration worthy of the day and the guests of honor.

W. H. Boring, secretary of the Hansen Townsite Co., will visit his daughter, Mrs. A. L. Tucker, at Oak Park, Ill., during the holidays.

BREVITIES

Judge and Mrs. Boggs of Buhl were Twin Falls visitors on Thursday. Mr. and Mrs. E. A. Miller came down from Buhl Saturday for a visit. Fred A. Voigt left on Wednesday evening for Milwaukee and crew who will visit with his father during the holidays. Rev. E. R. Hornstrom will preach in the Baptist church, Twin Falls, Sunday morning and evening at the usual hour. George Hartman, assessor-elect of Twin Falls county, is building a residence in block 80 which will be completed about the first of the year. National Bank Examiner C. S. Loveland was in Twin Falls for a few hours on Tuesday. He brought with him two eastern gentlemen whom he had interested in the Twin Falls country. A. A. Wolf of Elk, Wash., has been in the city looking over his property, north of town. Mr. Wolf has a very high opinion of the Twin Falls country. The funeral of A. R. Mahler, who died on Wednesday, December 3, took place on Saturday afternoon from the chapel under the auspices of the Odd Fellows. Interment was in the Odd Fellows plot in Twin Falls cemetery. The Presbyterian ladies will serve tea in the building formerly occupied by Lavering's furniture store on Saturday, December 19. They will also have on sale fancy articles, suitable for Christmas gifts, cake and other delicacies. Four carloads of fat hogs were shipped to Seattle on Tuesday by Don Bryan and Mr. Van Ausdich of Filer. The new rate on hogs to be sent west went into effect on that date. Mr. Bryan said he expected that \$30,000 worth of hogs would be shipped from the Twin Falls tract this season. The interstate commerce commission has cancelled the rate of the port car on grain to Portland, Seattle, Spokane and 53c to Seattle. These rates were put in effect by the Short Line about a month ago and local officials of the road have not been advised why the commission revoked them. The fancy doll, to be given by the Episcopal ladies to the little girl who secures the most votes in an event at the Idaho Department store. Miss Elva McCollum will be at the store on Wednesday and Saturday afternoon between the hours of four and six o'clock to receive and count votes. The Twin Falls Grocery & Mercantile Co. is placing the fixtures in its new store, recently vacated by E. C. Lavering, two doors northwest of the old store. The new store is expected to be open for business by the first of the year. It has splendid quarters and its furnishings will be right up to the second. The body of Harry Stanton, now deceased, is being taken to the water company in Charley Coker's crew, who died on the train while being brought down from Buhl on Monday evening, and taken to his father's home. Stanton contracted a fatal cold and declined to be taken to a hospital until too late. He has relatives in Panna, Ill. who have been notified of his death. The Odd Fellows are preparing to hold their Christmas party on the rink on Christmas eve. As they usually conduct their social affairs in the best of style, the rink will doubtless be crowded on the evening of December 24. The music will be the best obtainable, the floor management correct and all the minor details which go to make up a pleasant evening will be attended to. The heartfelt sympathy of a multitude of friends is extended to Mr. and Mrs. H. H. Weaver by reason of the loss of their infant child, which was taken from them on Saturday morning, December 12. The funeral occurred from their family residence at the Pacific hotel on Sunday afternoon at 2 o'clock. Rev. Gowley officiating. Interment was in Twin Falls cemetery under the direction of H. E. Hunt & Co. C. B. Wilfong, cashier of the Twin Falls Bank & Trust Co. will leave this evening for Kansas City for a visit. Mrs. Wilfong will return to Twin Falls with him. Mr. Wilfong is loaded with data concerning Twin Falls which he will judiciously distribute during his visit. He carries with him a diploma, for veracity at being elected Governor Gooding which he will flash upon those who doubt his marvelous stories. George A. Wolfe, who recently spent several weeks in Twin Falls in the interest of the Western Union Life Insurance Co. of Spokane, has been related by the highest official of the company in Idaho, with headquarters in Boise. Mr. Wolfe was greatly taken with the Twin Falls country and made every effort to induce business in this city. He and Mrs. Wolfe made many warm friends during their sojourn here who will be glad to welcome them.

Joe Meyer of Meyer & Co. hung out a sign, "Glass or no Glass, we are open for business," in front of his new store in the Rogerson block. Glass, superintendent of the Power company, was puzzled over the sign, thinking perhaps the firm had not been able to get its electric lights going. He called on Mr. Meyer and asked him what the trouble was, and Mr. Meyer explained that the plate glass in his show windows had broken in transit, which explained why the windows were boarded up. Lee is a little bit fussy about the sign and it is not safe to mention it in his presence.

Robert M. Hays of Buhl was a Twin Falls visitor on Tuesday. J. C. Wester, president of the Western lumber Co., was a Twin Falls visitor on Wednesday. Charley Coker came in on Tuesday from Buhl, having finished his work on the canal system for the winter. The property owners on the north-west side of Main avenue, between Third and Fourth streets, who have agreed to lay a cement sidewalk, 15 feet in width, from corner to corner. The work will be done as soon as practicable. W. M. Wayman, who is heavily interested in this property, came down from Boise on Tuesday to meet his friend and schoolmate, H. A. Bertram of Chicago, editor of the Farmers' Voice, with whom he went to Jerome and thence to Wendell and Gooding on Monday. The Kingsbury Printing & Stationery Co. has issued a handsome colored folder of Twin Falls views suitable for mailing. All the principal scenic wonders of the lower Snake river valley are shown as well as several Twin Falls scenes. The folder is prepared in neat form for mailing and should find ready sale during the holidays. An fox of Wallace arrived on Tuesday to visit his niece, Miss Maxwell, the daughter of Mr. and Mrs. John Maxwell. Mr. Fox has cultivated quite a fatherly air and they say he handles a baby very artistically. He was surprised when he got off the train and saw the Rock creek bridge but was checked and headed in the right direction. He thought he was in Spokane for a few moments until he got his bearings. H. A. Bertram of Chicago, editor of the Farmers' Voice, an excellent agricultural paper, arrived in Twin Falls on Saturday last to look over the country, of which he had heard much that was favorable. Mr. Bertram is a relative of the Ball brothers, whose ranch at Hansen he visited on Sunday. He was greatly enthused by the beauty of the country, which he said, was even better than he represented. He went over to the North Side with W. M. Wayman on Monday and continued on to Boise.

A. A. Peetz of Chicago has purchased the Independent Meat market from F. J. Terrell & Son and assumed the management of the business on Wednesday. Mr. Peetz conducted a meat market in Chicago for 12 years and the secrets of the trade are an open book to him. He came to Twin Falls only a few days ago, made up his mind in a minute that it was the coming city and immediately embarked in business. He has Chicago friends and the Twin Falls spirit. William Walker of Detroit, who came west with Mr. Peetz, is assisting him in the business. E. G. Reed, mayor of Jerome, greeted Twin Falls with his presence on Thursday afternoon while on his way to Pocatello. He postponed a blockade in front of the postoffice and was about to be arrested for obstructing the sidewalk when his disguise was penetrated and the officer apologized. It was explained to the mayor that wider walks were about to be completed in Twin Falls which would enable him to traverse the business portion of the city without taking to the middle of the street. He now measures eight feet across the sidewalks, a gain of three feet since he struck Jerome. He attributes his visit to the pure water and invigorating atmosphere of the North Side metropolis.

The Twin Falls Land & Water Co. has granted the offices in the investment company's new building on the east corner of Main avenue and Second street north. The move was made with splendid appreciation of fact. Chester Baird was major donor, with Will Taylor, Mark Coffin, John McDonnell and McBride as his aides. Baird carried the highest number of books were rounded up and carried over, with profuse perspiration. Occasionally the tollers rested and refreshed themselves. The singing choir killed them at times, but they managed to generate enough heat to keep the procession moving. At least a few of the tollers did more work than they have done for many moons. Charley Coker was an interested bystander.

Three Sterling Attractions Offered by the Twin Falls Lecture Course in January. The Twin Falls lecture course has three splendid numbers for next month. The first entertainment will be on New Year's night, when the Colonial Saxophone quartette will give a recital, assisted by Victoria Lynn, reader. The quartette has been enthusiastically received everywhere and comes with the highest recommendations. It gives a versatile and satisfying instrumental and vocal program of which the press in the cities where it appeared speaks in flattering terms. The second number for the month will be on January 16, German, "The Wild." It is a play of the highest order. He will be assisted by Miss Ida Germain, pianist, and Mr. and Mrs. Shirley Brathwaite, English soloists and entertainers in their comedy number entitled, "On the Thames." Magic, mystery and illusion are the features of Germain's work. His sleight of hand is said to be superior to that of any other performer now before the public. On January 20 will be heard the Rachel Steinman concert company, an aggregation of three talented women. Miss Rachel Steinman, violinist; Miss Constance Veltch, cellist and pianist; and Miss Virginia Sherman, singer. This trio has met with splendid success on tour. Leading critics everywhere have praised their work, the Chicago papers being especially complimentary. If you have a bargain in a city lot or farm property, list it with us. We might sell it. JOHN B. WEITZ & BRO.

JEROME MAKING MIGHTY STRIDES SEVERAL BUSINESS BUILDINGS STARTED. Big Hotel Already Under Roof—Progressive Spirit of the Town Shown in Result of Ladies' Aid Bazaar at Which Over \$180 Was Netted.

JEROME, Idaho, Dec. 16.—I. B. Porline was in town last Friday on business. Ralph Schmechel has returned to Jerome from Pittsburg, accompanied by Mr. Busse and a number of men to assist him with his work. He is starting a colony and building a number of cottages in the east side of Jerome, where his assistants will live with their families, who are set to the work. The bazaar held last Saturday by the Ladies' Aid society was a decided success. Everything was completely sold out before evening, and those intending to buy Christmas gifts in the evening were disappointed. The girls in the candy booth had to leave several things to home to make more ready. They could not see Tuesday than a few minutes before it was sold. They netted over \$100, which goes toward the aprilt that prevents in such a small but growing town. D. C. MacWatters of Milner was in town Friday and Saturday, accompanied by Mr. Kirkpatrick of the same place. Alex. Melpherson of Twin Falls is superintending the new experimental farm on the North Side tract, south of below evening. He is accompanied by H. A. Bertram, editor of the Farmers Voice of Chicago and by William Wayman of Boise, who is interested in irrigation projects. They looked over the ground and decided that the North Side tract had a splendid future, especially in the fruit industry.

R. S. Cookham of Twin Falls was in Jerome on Wednesday, purchasing town lots and meeting his old friends. Mrs. Walter Christensen was tendered a surprise party last Tuesday evening. It was a very enjoyable affair. Music was kept up until quite late. Five hundred was played. The week was in general a very part of the week, purchasing town lots and attending to other business matters.

Mr. Johnson of Salt Lake has brought his family to Jerome and intends to locate. He is building a store on Main street, in which he will have a fine stock of clothing. He is very enthusiastic about the outlook, and will undoubtedly do a very good business. Mr. Barnes, the district superintendent of the Methodist Sunday school, paid a visit to Jerome on Wednesday, looking over the ground for a church. Major Fred H. Reed has returned to Jerome after a few weeks' visit in the east. He is at his new home on Main street and seems to be glad to be back again among old friends. The new Jerome hotel is nearing completion, as the roof is now being put on. Construction is going on very rapidly. It is expected to be done by the first of February. Governor Frank R. Gooding has recently purchased property in Jerome. E. G. Bennett spent Wednesday in Wendell. Mr. and Mrs. Burkett left on Wednesday for Iowa, where Mr. Burkett will spend the winter, but his husband will return to Jerome. Many new buildings are looming up on Main street. Gerboth Bros. are putting up a new corner building next door to the Jerome state bank, for a hardware store. There will be a furniture store, an electrical supply store, a restaurant and an employe store soon on Main street, and a lodging house on Lincoln avenue. The Weaver Lumber company is putting up a building in their lumber yard. Mr. and Mrs. R. H. Trull will leave Jerome on Friday for a short trip to Salt Lake City.

MILNER YOUNG PEOPLE VISIT THE HILLS. General Freight and Passenger Agent of the Milner and North Side Railway Arrives—Milner Orchestra Entertains at Riverside Inn. MILNER, Idaho, Dec. 17.—Mrs. E. E. Spruce returned from Twin Falls with her little daughter Ruth, who has just about recovered from an attack of typhoid fever. Mr. H. H. Spruce returned Saturday from an extended visit in Colorado Springs, where she was called by the death of her mother. Mr. C. Bush, general freight and passenger agent of the Milner & North Side railroad, arrived in Milner on Friday last from Pittsburg, Pa. Ledyard Porter and crew will be transferred this week to the survey work on the Salmon river tract. Mr. and Mrs. George Weldon attended a dance in Burley on Saturday evening. Word was received Sunday of the death of Mrs. L. A. Webb at Logan, Utah. Mrs. Webb's mother of Frank Webb of this place. Mr. and Mrs. Webb are in Logan this week attending the funeral. Mr. and Mrs. Art Henry are in Logan, Utah, this week attending the funeral of Mrs. L. A. Webb. A party of Milner people enjoyed a two days' outing in Cottonwood canyon last week leaving Saturday. There were 12 in the party. Misses Bush, Sprague, Kirkpatrick and Doyle; Mr. and Mrs. W. C. Edwards, and Messrs. Black, Cookburn, Bennett, Fitzhony, Brunan and McLean.

NOT TOO COLD FOR AN OUTING. General Freight and Passenger Agent of the Milner and North Side Railway Arrives—Milner Orchestra Entertains at Riverside Inn.

MILNER YOUNG PEOPLE VISIT THE HILLS. General Freight and Passenger Agent of the Milner and North Side Railway Arrives—Milner Orchestra Entertains at Riverside Inn.

Sau Grant of Donald Grant & Co., contractor on the North Side work, was a business visitor in Milner Friday of last week. The new piano has arrived at Riverside Inn. It is a Mason & Hanlin, made in mission style to match the furnishings of the inn. The Milner orchestra, Miss Kirkpatrick and Mr. Davis, entertained the crowd with some delightful selections on Monday evening. Miss Blythe Sprague is spending a few days of this week with friends in Twin Falls. Rev. L. L. Lashner was a business visitor in Twin Falls Tuesday afternoon. M. T. Miller left last evening on a business trip to Portland, Oregon, to remain until after Christmas. E. C. Klerstedt made a trip to the dentist's in Twin Falls Tuesday afternoon. D. C. MacWatters is in Boise this week transacting business. Miller was in deep gloom for a while this morning on account of the freezing up of the big fuel pipe to the power plant at the dam. E. C. Klerstedt and Ivan Bennett left last evening on a business trip to Boise. P. S. A. Biekel, the chief engineer, made a hurried business trip to Milner Wednesday afternoon. After inspecting some of the canal work from this end of the line he returned to Jerome. P. C. Bush left for Gooding last evening to look after various matters in connection with the railroad.

of Desirable Land still open for original entry under the Twin Falls North Side Land & Water Co's Canal System under the

**CAREY ACT**

on which water will be available for the irrigation season of 1909.  
This fruit and farm land is all tributary to the towns of Gooding, Wendell, Jerome and Hildale, which will shortly be connected by electric irrigation, on which the steel is now being laid. It is certain to double in value as have other lands under the same system. Several wells have been drilled, showing the water plain to be at a depth of from 100 to 300 feet, at which an abundance of the purest water is obtainable.

Splendid realty, investments and business opportunities are offered in the above towns, which are now rapidly building up. They have the advantages of electric light and power, railway facilities and the secure backing of a large and productive area of irrigated, horticultural and agricultural land.

Terms, one-fourth down, balance in one, two and three years at 6 per cent. Land, 50 cents per acre; 25 cents at time of filing. Water rights, \$35 per acre; \$3 per acre down, balance payable in 150 annual installments.

**40,000 Acres of Magnificent  
Land in the Clover Creek  
Extension**

Will be opened for entry next spring, possibly sooner. Watch for this great opportunity.

For Sale—Five-room plastered house, half acre of city land; in city limits; city water. Will consider North Side lands part payment. Address A. B. News office.

**IMPROVEMENTS  
IN THE CANYON**

**GREAT CHANGES IN VICINITY OF  
CLEAR LAKE.**

New Arrivals Who Have Purchased Old Ranches Are Rapidly Changing the Landscape—Placer Mining is in Full Blast.

CLEAR LAKE, Idaho, Dec. 14.—Summer weather prevails in this part of the country. There is no snow and the thermometer is holding up comfortably. The smaller ranch is being plowed and set to trees by its new purchaser. Charles Marsh and Robert Marsh are busy clearing their ranch of sagebrush and getting everything in shape for spring operations. J. W. Banbury has been hauling grain and lumber from Buhl to his ranch. He has built a new barn and has done wonders in the way of clearing, plowing and tree planting. The dense growth of willows along the water's edge has been removed for a mile along the river and also along the banks of Blind canyon and Box canyon. Two hot trout streams, both of which are wholly within Mr. Banbury's holdings. He has set out hundreds of fruit trees along these canyons where they will get plenty of good Idaho sunshine and be secure from frost. They will be irrigated from springs, of which there are more than 100 on Mr. Banbury's property. He has built a vineyard which is surrounded by springs which maintain an even temperature all winter. With hogs thriving in his alfalfa fields, hundreds of geese in his beautiful blue lake, and berries of quail mingling with his poultry, Mr. Banbury is living pretty close to mother nature. He has a fine navigable water for his motor boat on the Snake river, and he says life on the farm beats living in Chicago all the while.

Otis E. Syster is building a new two-story house on his Clear Lake ranch which he intends to furnish as a summer hotel. It will have a full basement and be arranged to accommodate a large number of guests. As Clear Lake is one of the prettiest spots in Idaho and affords fine fishing and boating, it should be a popular resort.

A. G. Madelena was a Buhl visitor last week.

Mr. and Mrs. Otis Syster visited in Buhl for a day recently.

Charles Rose and J. W. Briggs returned last week from a trapping trip up Big Wood river and reported good luck.

Charles N. Ingersoll is running his placer mining machine full blast. He reports having struck a fine prospect and expects to make a good clean-up next week.

Mrs. Bertha Rose and her sister, Miss Belle Briggs, were in Wendell the last of the week on business. They have purchased some lots in that town.

Henry Smalley, who recently sold his ranch, was down Saturday and Sunday, moving some of his belongings to Buhl.

Howard Dack, the eldest son of Mrs. E. A. Dack, is the victor of a painful accident. While out riding, his horse fell upon him, breaking his shoulder. He was taken to Buhl for surgical treatment.

Clay, Robinson & Co.'s Market Letter, DENVER, Colo., Dec. 14.—Receipts of cattle were light for the past week and the market closed a good 25c lower for the week on everything excepting possibly the very best grades of beef, which were barely steady.

There were 3100 cattle on sale here today and the market was all the way from 10c to 25c lower, an ending was slow to get under way and was pretty dull and drabby all day. The top today was \$5.35, for some choice Wyoming hay-eds. Outside of this, the market was about the same for the week and the market closed a good 25c lower for the week on everything excepting possibly the very best grades of beef, which were barely steady.

SUNDAY SERVICES.  
Presbyterian church, Rev. John Godfrey, pastor. Services held every Sunday in K. P. hall. Sunday school at 10 A. M. Preaching service at 11. Evening service at 8:00.

Methodist church, Rev. Henry W. Parker, pastor. Services held in the Bickel school. Sunday school at 10 a. m. Preaching service at 11. Evening service at 7:30. Junior Epworth league at 8; Senior at 8:30.

The Church of the Brethren (or Dunkard) church, Rev. O. Fahrney, pastor. Sunday school at 10 a. m. Preaching at 11 a. m. Christian workers' meeting, 7 p. m. Evening service, 8 p. m.

Christian church, Sunday school at 10 A. M. Preaching at 11 A. M. and 8:00 P. M. K. P. C. E. at 7:00.

Christian Science church, K. P. hall every Sunday at 8:00.

For Rent—30 acres near Castleford. Address Box 450, Twin Falls, Idaho.

For service, thoroughbred Jersey bull, Term, \$2.00. Samuel Wood, head 4 miles north, 1/2 mile west, Twin Falls.  
I will pay five (5) cents per pound for good traps, not used, in Twin Falls. DON C. BRYAN, Don C. Bryan Realty Co., Twin Falls. Bibles can take photos day or night. Try him.

OF FORTY.**

Hotel Accommodations Are Insufficient to Accommodate the Innumerable Who Have Crowded the Town for the Past Week.

WENDELL, Idaho, Dec. 14.—Fred Vader of Hagerman transacted business here on Wednesday.

Arthur Rolley, who conducts a meat market here, returned from Hatley Saturday with a nice bunch of beef cattle.

George Handy and Mr. Penfold of Hagerman were here Tuesday on business.

W. T. Smith and F. W. Hastings were in Gooding Saturday.

B. W. Stelhour of the Blue Lakes nursery was in Wendell Thursday.

John Mills of Hagerman was through here Monday on his way to Jerome with honey from the Hagerman valley.

Leslie Perry was a business caller in Gooding on Monday.

Miss Eva Hastings, who had been visiting friends in Dole, returned home last week.

Floyd Anderson is digging a large cistern on W. S. Hasson's ranch south of town.

J. A. Bosa and family of Pine Dale, Wyo., arrived in Wendell last week and will make their home here.

Mr. Higgs of Gooding was in town on Thursday, having been called here to treat Fred Dot, who had his ankle injured by a horse stepping on it.

Henry Hols bought a new wagon and is going into the transfer business with C. V. Sauley.

J. J. Hansen and family of Pine Dale, Wyoming, are now residents of Wendell. Mr. Hansen bought some lots and will build in the near future.

W. H. Buehler is having Wm. Grant's house moved on to one of the lots which he bought recently.

Mr. Rafe, who has been boring a well on Dr. E. J. Perry's ranch, struck water at 110 feet. Good pure water is one of the many things the North Side tract has to be thankful for.

John S. Johnson and family of Garfield, Washington, were in town last week. Mr. Johnson was looking for a suitable location for a jewelry store.

R. V. Wilcox and family, who came here recently from Hill City, Kansas, are now located in Buhl in their new home, which has just been completed.

Wendell was visited by a great many people last week, some looking for business locations and some for investments. The hotel was full a week and yet was not able to accommodate all the transients. Everyone who visits our little town is very much impressed with it and with the surrounding country.

W. J. Ties and son returned Saturday from Kimberly. Mr. Ties recently bought 150 acres of land, one-half mile from town, and sold 50 acres of it to Mr. Harrington of North Dakota. Mr. Harrington will begin work on his land at once.

Mrs. J. N. Watson and daughter arrived Thursday and are comfortably located in their new home which Mr. Watson had ready for them.

The business men of Wendell met Wednesday night and organized a commercial club, the object being to further the interest in Wendell and vicinity. It was organized with 40 charter members. There was a great deal of interest shown among the members, and they will make every effort to promote the growth of the town and induce capital to come in. The following officers were elected: H. E. Barrett, president; J. A. Wilson, vice president; R. V. Wilcox, secretary; H. D. Jackson, assistant secretary, and L. R. Hastings, treasurer.

Card of Thanks.

**FARM TOPICS**

BY WILLIAM HEWS.

Good roads make farming easier and more pleasant.

Take good care of your horse. He is the best friend you have among the animals.

It is a sin to burn a straw stack. Let it rot, then spread it on the fields. It makes good fertilizer.

The farmer who uses his mind as well as his muscles will make a success on the Twin Falls tract.

Did you ever observe that the farmer who keeps his buildings and yards neat is usually a money maker? His notes are seldom outlawed.

Mr. Farmer, if you can raise double the amount of grain raised by your neighbor on the same acreage, you can ride in an automobile while he drives an ox team.

It is gratifying that the farmers and business men are awakening to the need of opening outside markets for Twin Falls products. A producers' association will benefit every person on the tract.

G. Summers, who lives one-half mile from Piler, harvested 71 bushels of oats per acre and one cutting of alfalfa on the same land this year. Mr. Summers knows how to farm and he gets the results. If one man can get 71 bushels of oats per acre and a crop of alfalfa as well, why should another man get half that crop? Is it the fault of the man or the land? The productiveness of the soil is very uniform on this tract, consequently it would seem that the man is at fault.

The writer has seen several droves of spring pigs which have been raised on alfalfa and water, with very little grain. The pigs are large and healthy. This is a cheap way to raise hogs. So soon as a good market can be obtained, and it would seem that one at least is in sight, hog raising will be one of the most profitable industries on the Twin Falls tracts. Some farmers seem to think that hogs cannot be fattened without corn, but this is not the case. Ground feed, boiled or soaked wheat or barley, balled potatoes or ground flint corn are all good hog fatteners. We have all of these and we should produce fat hogs at a minimum cost.

C. H. Winner, who lives near Hagerman, has raised alfalfa seed for several years. He said the crop usually averaged about \$75 per acre. If such returns can be obtained, seed will bring in a much better revenue than hay. One hay crop should be cut in the spring, or early summer, and the second stand left for seed. Care should be taken not to use too much

water as it will cause the alfalfa to run to straw rather than to seed. The seed usually matures about September 15. It can then be cut and handled the same as grain, except in threshing. A clover huller should be used to get good results.

The cold snap caught many farmers unprepared to care for their stock. Blame themselves for this condition while others are excusable. Those who arrived late in the season did not have sufficient time to make preparations for housing their animals, but those who have been here for more than a year have no such excuse. Stock will shrink in value if left at the mercy of the elements. It takes food to generate heat, consequently the animals which are exposed will require more feed than those which are comfortably housed. Furthermore, the extra feed consumed by the exposed animal is wholly wasted, adding nothing to the growth of the animal. It pays to protect stock in winter.

Many nursery agents are busy at present on the Twin Falls tracts, taking orders for trees, vines, etc. Farmers should be very careful in placing orders with strange agents or strange nurseries. They should be sure that the stock is grown in the right latitude and altitude; also that both the nursery and its agent are reliable and will deliver what is ordered. After the stock is set it takes years in most instances to tell whether or not the trees are true to name. Moreover, the loss of one year in the growth of a fruit tree means a great deal to the farmer. Order the varieties which have been tested and found suitable for this section of the country and be sure you get what you order. It costs just as much money and labor to raise poor varieties as it does to produce good ones. Care in selection will save money and grief.

**SURVEYING WEST EXTENSION**

Cold Weather and Lack of Water Retard Operations.

Oscar Sonnenkahl, county surveyor for Bannock county, came in from the Brunson tract yesterday to spend a day with his wife. Mr. Sonnenkahl has the contract for surveying a big portion of the immense Carey act segregation down there. He has three companions in the field and is rushing the work as rapidly as possible. However, it will be almost impossible for him to finish the work within the time required by his contract, and he has been granted an extension until the 15th of January. Like a brave soldier, Mr. Sonnenkahl is defying the elements, and remains personally in the field in all sorts of weather in order to carry out the job. He is compelled to haul water for his men and stock 18 miles, and the liquid is therefore almost as valuable as whiskey at a bit a drink. Mr. Sonnenkahl returned to the front this morning.—Pocatello Tribune.

**WONDERLAND OF IRRIGATION**

Subject of Mrs. White's Lectures on Twin Falls at St. Charles.

Mrs. Marion A. White of Chicago gave a most enthusiastic talk upon the subject of irrigated lands, both ancient and modern, in Masonic hall, Tuesday afternoon. The lecture was under the auspices of the Thursday club, which had invited among its guests, the faculty of the high school.

Mrs. White commences her subject on the banks of the Euphrates and the Nile, then travels by way of India, telling something of the ancient irrigating ditches of Cayton. While the older irrigators of the world, and the Po valley receive attention, the early settlement of America, with the struggles of the pioneers; the arid wastes and their significance under reclamation; the long-fought battle for recognition of their possibilities; the settlement of the Salt Lake valley and other communities through irrigated lands, were described in words not easily forgotten.

Then the lecturer introduced her audience to what she is pleased to call her "Wonderland of Irrigation." Marvellous, too, must be this "outspring of the Carey Act," the Twin Falls country of Idaho—the largest irrigated tract in the world. Here nature has accomplished remarkable feats in the building of dams, reservoirs, canals, laterals and ditches, changing the desert in the space of four years. Into tracts upon which are towns and homes and farm lands, thrifty, enterprising and productive. The glories of the Snake river canyon are graphically told; its tremendous waterfalls and springs poetically eulogized.

Mrs. White won fame as a lecturer on art subjects. She has held a thorough European training as art critic and connoisseur, so it is not surprising that in this present lecture there should appear descriptions of color and atmosphere that are simply entrancing.

The Snake river canyon is before the audience in pictorial words, and the same might be said of the plateau, from 400 to 800 feet above, and which is now under irrigation. Now it is a bit of the city developed from an area of subsoil and sand within the past four years which the lecturer presents. Again the audience is charmed by a glimpse into the farm life under more favorable conditions than those known east of the Rockies, and so, all through the discourse, runs a golden thread of description and eloquence that commands attention. The lecture was illustrated by means of excellent photographs and by maps, but Mrs. White also gives this lecture with stereovision views.—St. Charles, Ill. Chronicle.

Five tons Grubb strain Pechchlow seed for sale. Ed Vance.

### ANOTHER BOOST FOR TWIN FALLS

FROM A CORRESPONDENT OF THE BOISE STATESMAN.

Comprehensive Review of What Has Been Accomplished in Four Years on What is Now the Greatest Irrigated Tract in America.

TWIN FALLS, Idaho, Dec. 12.—On the banks of Rock creek, in the big irrigated section of southern Idaho, once known as the great Idaho desert, stands Twin Falls. Its by-name is not entirely misplaced. Although it did not spring up in the night, its growth is phenomenal. Four years ago last June the first load of lumber was unloaded at the townsite of Twin Falls, its representation being a few surveyors' stakes and a blue print. The nearest railroad being 30 miles away, nothing in sight but sage brush, the spring run of water nearly exhausted in the creek beyond, life in Twin Falls was not encouraging, nevertheless stock heads and manes were there, and in spite of the many difficulties the town grew. The water from the great Twin Falls irrigation system was coming here in April, and the settlers in the surrounding district were busy clearing the land in readiness for the spring. Seeding and planting was carried on to some extent, and the town took up the work of progress in earnest. The streets were graded, shade trees planted, parks laid out and a school system organized.

Another year passed by. The past year having shown great results, settlers brought in for exhibition the products of the soil, which showed its possibilities. The experimental farm established by the land and water company under the management of Al McPherson was demonstrated that products of all kinds yielded prodigiously, the fertility of the soil being incomparable, under the influence of the best plowing and the best crops for development were indeed bright.

Lively Town. With a population of over 4,000 people gathered from every state in the Union, hundreds of elegant homes and many fine business blocks, Twin Falls today stands a representative of an American brain and brawn is capable of producing.

The residence district is unquestionably up to the minute, a complete water and sewerage system, telephone poles mark every alley, arc lights grace the principal streets and the comforts of electric light and heat is not unknown. Handsome shade trees line the streets, watered by a constant flow of pure water, the freshness of the lawns, the perfume of beautiful flowers would put to shame thousands of older cities.

Up to the Minute. The business district is very much alike to the present and future needs. Handsome business blocks have been erected wherein are domiciled banks, stores, shops and offices of various kinds. The fraternal and religious bodies have not lagged behind, the Episcopal, Catholic, Christian, Baptist congregations have built handsome edifices, while the Presbyterians, Methodist, German, Baptist and other denominations have under construction memorials to their faith. All the prominent benevolent and fraternal societies have permanent organizations, the commercial interests being languid together in their club.

Five Schools. The educational facilities are the pride of the city. The independent school district is represented by two elegant schools erected at a cost of \$30,000. The centralized system has been adopted for the past three years and is a complete success. The children of the farmer living within a radius of four miles from the city are brought to school in large covered wagons that were built expressly for this purpose and returned to their homes in the evening, thereby leaving them the advantage of all the grades and high school. This system has been copied by several communities and is successful where it is conducted economically.

Manufacturing Enterprises. In the manufacturing district, enterprises are being pushed along rapidly. Planing mills, machine works, creameries, elevators and several other establishments are running to their full capacity, while the sawmills, cereal and alfalfa mills are possibilities of the near future. Looking from a business point, it is asked, What is going to support such a city? Take a bird's-eye view of the surrounding country and the answer will be easy. Twin Falls is surrounded by half a million acres of the best land in the world. When all the land is under intense cultivation it will support millions of people. The extreme productivity of the granitic soil is enriched every season by the silt that is washed down from the mountains, soil poverty will never be known. Southern Idaho has more summer than any other country, an average of over 300 days in the year, no fog, no mid-day, glorious sunshine with plenty of water is worth more than all the gold mines in the world.

Water is secured for this immense country by a million dollar dam that is thrown across the Snake river at Milner, diverting the water to large canals that distribute by laterals and ditches. Every acre of land under these canals carries a permanent water right to enough water for intelligent irrigation.

Products Unlimited. The products of this country are unlimited. Nothing will grow that is put in the ground. The chief products at the present time are: Grains, represented by wheat, oats, barley, millet, rye and clover; fruit, such as apples in their class, both yielding heavily. Potatoes, onions, celery, egg plant, sugar beets, and in fact all kinds of root crops are viable. Corn is grown successfully, as high as 94 bushels per acre having been obtained; oats are produced as much as 131 bushels, wheat 54, potatoes 52 1/2 bushels, alfalfa seed six bushels, and nine tons of hay per acre. These are ripe crops, but they show the productiveness of the soil.

### Fruit Growing.

For more than 20 years fruit has been grown successfully on Rock creek and on the Snake within the district, but it was not fully demonstrated until the past year that the whole plateau was susceptible for commercial fruit growing as the oldest trees were only planted after the advent of the water three years ago.

Peaches, plums, cherries, grapes and all varieties of apples were seen the past season and brought to full maturity, and are of the finest quality. The reputation of the Idaho peach and the red apple has been fully sustained on the Twin Falls tract. Fruit growers from Colorado and other favored western points are enthusiastic regarding fruit culture, and many heavy investments have been made. Thousands of acres have been planted during the last two years, and when it is considered that there is a body of half a million acres that is in the fruit zone, and half a million more that will be opened in the near future, the American fear of the orchard industry declining will not be realized for years to come.

Mighty Falls. Only five miles from the city of Twin Falls thundered the mighty cascade of the great Shoshone falls, rightly named the Niagara of the west, as they have a height greater than Niagara. This is one of nature's grandest displays. At this point the water of the power plant that furnishes the Twin Falls country with electrical power. Twin falls, another magnificent place of scenery, is located a few miles further up the river. While the height of the falls is not so great, the scenic setting is superb.

The future of the branch of the Oregon Short Line, but in the near future connections will be made with the Southern Pacific through Nevada, opening up extensive markets for the products of the Twin Falls district.

Outlook Promising. The outlook for next season is very promising for Twin Falls. A handsome cottage house will be erected for \$100,000 home for one of its banks, and several business blocks are planned. Some are under construction at the present time, but the demand for business locations is such that active operations will be continued all winter. Over 100 residences were built during the past season, and the demand is not yet; the sound of the hammer is heard on every hand.—Boise Statesman.

### IDAHO IS CROWDING GREELEY

in the Potato Markets Hitherto Held by Colorado.

Idaho has for a good many years been noted for its production of fruit, which has been consumed in all parts of the United States, but not until the last couple of years has it been considered one of the leading potato producing states in the west. Idaho potatoes bring top notch prices and hundreds of carloads are being shipped from the Twin Falls and eastern Idaho sections each season.

An incident which demonstrates that the Gem state product is displacing that of Colorado, is that at Greeley, where raters who have for many years shipped their produce to other markets, the California and Idaho potatoes, found to be of better quality, have largely killed the market for the Greeley "spud."

In the Denver Republican, the latter part of last month, there appeared a story under a Greeley date line, from which the following is quoted: "It is considered likely, because of the keen competition of California and Idaho potatoes with those of Greeley, which has broken the monopoly Greeley potatoes has heretofore held on the Texas markets, that Greeley may be forced to seek other markets for the bulk of the crop this year. With Idaho and California dealers selling at low prices and with freight rates much lower on long hauls than from here to Texas, Greeley has been crowded out. As a result, the price paid growers here is only 60 cents, and farmers refuse to haul their potatoes to market at this price. "Last year the Cuban markets were investigated, and the outlook thought favorable, providing boats could be secured at Greeley. This market has not been tried, and it is likely that the bulk of the crop may go to the southeast, instead of the southwest. Cold weather, too, may prove of benefit to Greeley shippers, as it will prevent the sending of Idaho's potatoes over the mountains, while it is easy to furnish with storage box cars in which to send the Greeley crop south. Farmers get \$1 per hundred weight by hauling their crop until spring, but dealers think the conditions will be the same as four years ago, when many carloads were dumped from warehouses before spring."—Statesman.

Hotel for Sale. Twenty-five room hotel for sale in live town in southern Idaho. Completely furnished. Will be sold for less than 15 per cent on investment. Easy terms. IRRIGATED LANDS CO., Twin Falls, Idaho.

Furnished Rooms and Board—Morrell House, East Main ave., Twin Falls. Mrs. S. E. Smith.

For Sale. A fine large Guernsey cow, fresh December 4th; gives 3 1/2 to 4 gallons daily; gentle, and easy to milk. T. W. POTTER, Maple Hill Farm.

Boosting the West. The Salt Lake Tribune is engaged, as it has been for years, in boosting for the west. In the past few years it has expended much time, energy, space and money in this work. It is of and for the west. It is the future greatness of the west, inferiority comprising the states of Utah, Idaho, Nevada and Wyoming, and is doing its utmost to bring to the attention of the world the men and money of the development of their wonderful agricultural, mineral and other resources. If not already familiar with the Tribune, send a free sample copy of either daily, Sunday or semi-weekly. Address The Tribune, Salt Lake City, Utah.
