BREEDING AND SALE BARN OF CRAVEN BROS., TWIN FALLS.

In the reclamation of the arid lands of Idaho, the mule has played a conspicuous part. Without him, it would have been well-nigh impossible for the contractors to perform the wonderful work they have wrought in the building of canals. Fully appreciating this fact, it is only necessary to visit the construction camps of Donald Grant & Co., on the North Side tract. The strong physical arm of this company is its mules, and to see these animals come in from a hard day's work in the dust of the ditches, kicking up their heels and braying for their evening feed, is an inspiring sight. The noble horse cannot withstand the hardship of construction work, but the rugged mule thrives on it. No day is too long, or too hot for the mule. He trudges up and down the banks of the canals in clouds of dust, always in the collar. No veterinary for him for he and sickness are

strangers. Uncle Sam found this out and he uses no less than two million, or two-thirds of the mules in the United States. Uncle Sam likes them because they can do more work and stand more abuse than the horses and they are practically immune from illness. Craven Bros. of Twin Falls have been breeding Mammoth Jacks at Licking, Mo., for many years. Recently they established a western breeding farm in Twin Falls where they now have 17 pure bred Jacks and 28 pure bred Jennets. The animals are at their big barn, one-half mile from the northwest corner of town. Among them are several of the most noted prize winning Jacks in the country, including "Handsome," which won the first prize at Georgetown, Lawrenceburg, Shelbyville and Lexington, Kentucky. This Jack is said by competent judges to be the

best in the United States. Another aristocrat of the Craven barn is a half-brother to the undoubted "Mowhawk Glenwater," a very classy animal and a great producer. "Kentucky Giant," yet a colt, gives promise of developing into one of the biggest Jacks in the United States. These animals were sired by imported Jacks and Jennets from the best blood in Catalonia, Spain, from whence came the best Jacks and Jennets in the world. This blood has been kept pure for centuries and the Catalonian breeders have succeeded in improving the size and bone of their animals until they now breed Jacks capable of siring mules weighing 1400 to 1600 pounds. A mule of this weight will do twice as much work as a horse of like belf. He will eat less and will never require the attention of a veterinary. It is the intention of Craven Bros.

to continue the breeding of the Catalonian strain in Twin Falls. They propose to use the Jacks which they now have for stud purposes until the animals are sold and to replace them with others of similar breeding, selecting the very best that can be obtained. Craven Bros. are members of the American Jack Stock Registration association of Columbia, Tenn., which is recognized by the government as the most authentic organization of the kind in existence. They have sold 64 Mammoth Jacks in Utah and Idaho during the past two years, all under a guarantee as to their soundness and producing qualities. All of the animals have thrived and have proved great sires. Those who are interested in livestock are invited to visit the Craven barn and inspect the Jacks and Jennets.

ABSTRACT WITH EACH LOT

AGREEMENT REVER HITS KIMBERLY

SEVERAL FINE TRACTS ABOUT TO BE OPENED.

Demand for Town Property is on the Increase - Freeholders Will Vote Saturday on Proposal to Create an Independent School District.

KIMBERLY, Idaho, March 31.—The patrons of Kimberly school district must remember that the election is held Saturday afternoon to vote on making this an independent school district, and be sure to come out and vote. The sentiment thus far expressed seems to be unanimously in favor of such action. The cost of running the district is no greater than there are no extra salaries to be paid,

and it allows the people and the directors to manage the affairs of the district to the best advantage without all the red tape that we are now unrolling in having everything passed by the county officers at Twin Falls. We can meet every requirement of the law in regard to establishing such a district and can thus give men at home who are qualified to run the affairs of the school, so let's make it unanimous for a bigger and better school at Kimberly. Be sure to vote next Saturday.

S. C. Dunn was in town Saturday arranging for the erection of his new dwelling to be erected on the block five acres west, east of the mill. It will be a large two-story house containing about six or seven rooms. The contract will probably be let right away, as Mr. Dunn wants everything complete before fall, when he expects to move his family here so as to be near a good school.

One of Kimberly's bachelors, John E. Minton, and Miss Lucy E. Heuser went to Twin Falls a few days ago and returned as husband and wife. Their many friends are extending congratulations. They will probably make

their home in Woodall for the present.

J. P. Dunham arrived from Centralia, Mo., in Thursday and is looking after his interests here. He is president of the Kimberly Realty Co. L.L., which owns the tract of land north of the depot. The 40 will be split out into what is called apple spring and will then be divided into small tracts to suit the purchasers.

Frank Burrittson has had the surveyor at work on the land adjoining Kimberly to the south. He is holding 15 acres divided into small tracts and will put it on the market as an addition to Kimberly. He will retain five acres where his house is located. This is fine land and will make beautiful sites for residences.

The clearing is nearly completed on the land north of the mill owned by Lars Anderson of Twin Falls and W. H. Thomas of Kimberly. This will be divided into tracts from building lots to acre tracts. It is on the market as soon as possible. These tracts are located close in to the business part of town and will sell readily. They have been offered for acreage tracts here for over a year, but nothing was obtainable, so now the residence part of Kimberly will have a chance to grow.

Roy Decker has arrived from Illinois and is visiting his father, P. H. Decker.

A car of horses and building material, etc., has arrived from Illinois and is being unloaded for Conrad Fritz, who will build on the 20-acre tract just south of town. A son of Mr. Fritz came with the car and Mr. Fritz will come later with another car of household goods.

The child of Miss Madeline J. E. Strong died Sunday with the la grippe and with buried Tuesday at the Merrill cemetery, east of town. The parents have the sympathy of the community in their bereavement. The emphasis is the need for a cemetery at Kimberly. Several have been buried on the land owned by Mr. Morrill and it is believed that it would be for him to set aside a few acres for this purpose and sell lots therein to those that desire them and thus he will be repaid for his land. It is lost, and at the same time accommodate the public.

An electrician from Salt Lake has been here this week winding the armature of the dynamo out at the light plant which was burned out by lightning a few days ago. The plant is in good shape now and the mill is running again.

The new hardware store and the Hogan Mercantile store building are both being treated to a new coat of paint, which greatly adds to the appearance of Main street.

The new blacksmith shop and implements house is complete and the proprietors, Frank and Gill are ready for the large spring trade.

The plate glass front has been placed in the drug store building and Mr. Carter is about ready for customers in his new drug store.

W. F. Breckon returned Sunday from his trip to Payette. He reports well on the way and is on the train, but his friends have been keeping him busy explaining how it happened since his return.

Thomas Budd, caretaker of rural route No. 1, starts with the mail on April 1. The patrons of this route are placing their boxes and greatly appreciate the accommodations of the carrier in delivering their mail to them.

W. C. Hall of the Western Lumber Co. reports the sale of his own to Kennedy Bros. for a new dwelling on their farm bought of E. R. Campbell; also a sale to R. Rogers for a house southeast of town.

Martin Sullivan has been busy for several days clearing a good sized tract which he raised on his farm, south of town, last year.

A. McDermid was a business visitor to the country Tuesday.

Lars Anderson and County Attorney Guthrie were business visitors here Tuesday.

B. C. Carroll, the book man, had the misfortune to get his buggy smashed in Twin Falls a few days ago.

W. Webster shipped a car of haled hay to Miller this week.

The Utah-Idaho Elevator Co. shipped several cars of oats and hay to Burley and the North Side this week.

H. A. Johnson, the Kimberly barber, has bought a lot between the Nibley-Channel Lumber yard and the saloon and will erect a building at once, which he will use for both a barber shop and a short order house. This will make another addition to the business part of town.

Several buyers are here for town lots this week and town property is advancing in price every day.

Farmers are all busy with their spring planting these days and they do not come to town unless it is on urgent business.

The Utah-Idaho Elevator Co. has another car of coal in and Mr. Davis has the supply of scrubbrush is getting short in these parts.

Legal blanks of all kinds at the News office.

WATER AT 125 FEET IN FILER

WELL WILL BE DRIVEN TO THE SECOND FLOW.

Water is Clear and Soft - Contract for New School Building Awarded to Payne & Heyl of Buhl—Proposal to Buhl Creamery.

FILER, Idaho, March 30.—The contract for our new school building was let Tuesday evening to Payne and Heyl of Buhl, their bid being the lowest. The new building will be erected on Yakima avenue near the site of the present temporary school building. The plans call for an eight-room structure, 60x73, two-story brick building to be completed by August 15. J. W. Barrett of Buhl, who did the architectural work will superintend the construction work.

The present temporary building will be sold at the close of the present term of school.

Sherman Ludlow is moving this week to his new home on Yakima avenue, which he recently purchased of R. C. Angus. Mr. Ludlow succeeds Rev. J. A. Forsell as pastor of the Mennonite church and will take up his new duties at once.

F. M. Leekley of the Portland Creamery Supply company was in Filer last week looking over the prospects of a creamery for Filer. Mr. Leekley tried to interest the ranchers about Filer in organizing a stock company, each rancher to be a stockholder. This is an exceptionally good field and we hope the ranchers will take hold of this proposition and push it to maturity.

Cleve Barnes, who has been spending the winter in Colorado, returned this week to Filer and is now looking after his ranch south of town.

Freeman Hall of Staples, Minn., arrived in Filer the first of the week. Mr. Hall is a carpenter and contractor and will make his home here.

The Nibley-Channel Lumber company is increasing its stock room to accommodate the large stock of lumber on hand.

Rev. J. A. Forsell, former pastor of the Mennonite church of this place, has been appointed to take charge of a church at Granger, Wash., and left the first of the week for his new field.

R. E. Brown is again out and able to attend to his duties at the bank, after a serious attack of pneumonia.

R. M. Gaskill, formerly of the Filer Drug Co. is now working in a drug store in Blackfoot.

George Weidman has rented the John Angel ranch on Buckner flat and will move to his new home immediately.

Work on Filer's deep well is progressing very rapidly. Water has already been struck but not in sufficient quantity to satisfy the drillers, so the good work will be continued.

NORTH SIDE LANDS

We have listed with us eight 40-acre tracts which range from one-half mile to 1 1/2 miles from Jerome.
This is desirable land and does not require residence thereon.
The land is very good and its close proximity to Jerome makes these tracts very desirable investments.
Write us for information and prices.
There is a large number of relinquishments for sale of North Side lands and the prices are very attractive.
Remember that the Clover Creek lands sold at \$45.00 per acre, which is equivalent to \$10.00 bonus on North Side tract.
Our prices for relinquishments range from \$3.00 per acre bonus upwards.
There is considerable activity in lands on the North Side now and this is the time to buy if you want to invest, or to sell if you have land and wish to dispose of it.
Inquiries cheerfully answered. Correspondence solicited.

R. H. TRAILL
North Side Lands and Town Lots
Jerome, Lincoln County, Idaho

Sam Slick Sawed Six Slim, Slippery Saplings.

Pretty work on Sam's part, no doubt, but it had been wise he would have brought his wood down to us and saved himself a lot of work. We don't handle slim, slippery saplings, but we do carry some of the finest stove wood that ever gladdened the eye of a housewife. We saw it to fit your stove.

Murtaugh's Wood Yard

LOTS LOTS LOTS

We have a very choice list of LOTS. Some of these lots are offered very cheap and will make an excellent investment. We have BUSINESS LOTS from \$625 up. Main street business lots from \$1000 up. Two on Shoshone at a bargain.
Our RESIDENCE LOT list is especially good, prices ranging from \$200 up.
We also have a very complete list of FARMS and IMPROVED CITY PROPERTY. See our list before buying. We may have just what you want. Don't forget we write FIRE INSURANCE. WE WANT YOUR BUSINESS. REAL ESTATE AND INSURANCE.

J. E. WHITE—Successor to—MILLER & WHITE

Martin Schwab, Jr.

TWIN FALLS, IDAHO.

Importer and breeder of Percherons, Belgians, Shires and Coach horses.

My second importation of Stallions will land Thursday. They consist of three Royal Belgians and one German Coach Stallion. They are as good as money could buy, coming three and four-year-old and weighing up to 2200 pounds. Any community in need of a Stallion will find it profitable to inspect these grand horses or write me. I guarantee my Stallions and, being a resident and property owner here, my guarantee can be made good easily. Prices and terms most liberal to responsible parties and a square deal to all. These Stallions should go into the hands of good men at once and will leave thousands of dollars in this section of the country.

You will find the horses at McMaster & Smith's big sale barn until I can build barns on my own property on Blue Lake boulevard. I am here to stay—support an honest home business.

Twin Falls County Directory

A book which should be on the desk of every business and professional man in the county and in the office of every business house doing business in this county.

It contains a complete list of all the business houses and residents in Twin Falls, Buhl, Filer, Kimberly, Hansen and Milner, together with the names of the farmers on the tract and the location of their lands.

It also contains a complete classified directory of the county.

The Twin Falls County Directory is Invaluable to:

Lawyers, because they can turn to it in an instant and find the name and address of any business man or farmer in the county.

Doctors, because they can easily find the address of patients in the country or in the cities.

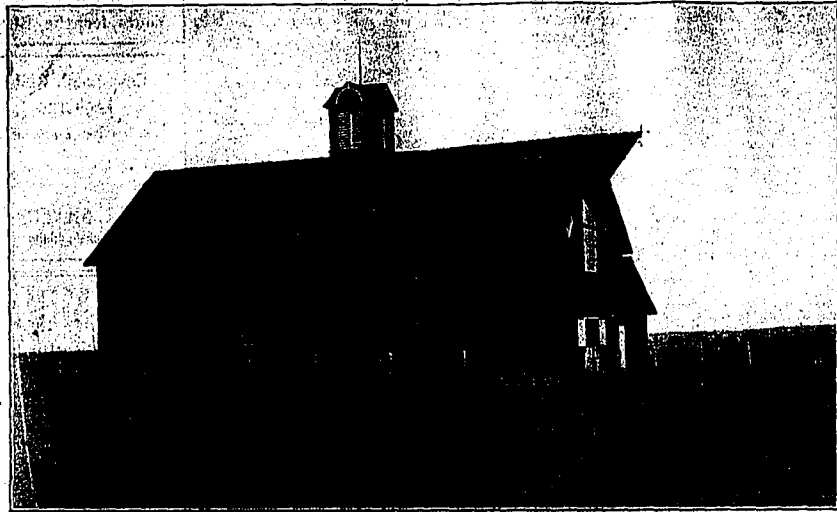

Real estate dealers, because it instantly shows them where every man in the county lives and where his land is located.

Business men, because it will enable them to reach customers quickly and with certainty.

Only a limited number of these directories are available. They are sold at \$3 the copy, but by

Special Offer

The News has secured the entire issue and offers the directories on the following terms:
Copy of directory and Twin Falls News for one year, cash \$3.75.
This applies on renewals as well as to new subscribers. The supply will soon be exhausted, as the directories are selling rapidly.
Get a copy before they are all gone.

BREEDING AND SALE BARN OF CRAVEN BROS., TWIN FALLS.

In the reclamation of the arid lands of Idaho, the mule has played a conspicuous part. Without him, it would have been well-nigh impossible for the contractor to perform the wonderful work they have wrought in the building of canals. No fully appreciate this fact, it is only necessary to visit the construction camps of Donald Grant & Co. on the North Side track. The strong physical arm of this company is its mules, and to see these animals come in from a hard day's work in the dust of the ditches, kicking up their heels and braying for their evening feed, is an inspiring sight. The noble horse cannot withstand the hardship of construction work, but the rugged mule thrives on it. No day is too long or too hot for the mule. He trudges up and down the banks of the canals in clouds of dust, always in the collar. No veterinary for him for he and sickness are

strangers. Uncle Sam found this out, and he uses no less than two million, or two-thirds of the mules in the United States. Uncle Sam uses them because they can do more work and stand more abuse than the horses and they are practically immune from illness. Craven Bros. of Twin Falls have been breeding Mammoth Jacks at Hickling, Mo., for many years. Recently they established a western breeding farm in Twin Falls where they now have 17 pure bred Jacks and 28 pure bred Jennets. The animals are at their big barn, one-half mile from the northwest corner of town. Among them are several of the most noted prize winning Jacks in the country, including "Handsome," which won the first prize at Georgetown, Lawrenceburg, Shelbyville and Lexington, Kentucky. This Jack is said by competent judges to be the

best in the United States. Another aristocrat of the Craven barn is a half-brother to the undefeated "Mohawk Glenwater," a very classy animal and a great producer. "Kentucky Giant," yet a colt, gives promise of developing into one of the biggest Jacks in the United States. These animals were sired by imported Jacks and Jennets from the best blood in Catalonia, Spain, from whence came the best Jacks and Jennets in the world. This blood has been kept pure for centuries and the Catalonian breeders have succeeded in improving the size and bone of their animals until they now breed Jacks capable of siring mules weighing 1400 to 1800 pounds. A mule of this weight will do twice as much work as a horse of like height. He will eat less and will never require the attention of a veterinary. It is the intention of Craven Bros.

to continue the breeding of the Catalonian strain in Twin Falls. They propose to use the Jacks which they now have for stud purposes until the animals are sold and to replace them with others of similar breeding, so getting the very best that can be obtained. Craven Bros. are members of the American Jack Stock Registration association of Columbia, Tenn., which is recognized by the government as the most authentic organization of the kind in existence. They have sold 64 Mammoth Jacks in Utah and Idaho during the past two years, all under a guarantee as to their soundness and producing qualities. All of the animals have thrived and have proved great sires. Those who are interested in livestock are invited to visit the Craven barn and inspect the Jacks and Jennets.

ABSTRACT WITH EACH LOT

BREVITIES

W. W. Hinchey left on Tuesday for the east. He will visit in St. Paul, Minneapolis and Washington, D. C. Mr. and Mrs. George Scott were in Wednesday from their home on Salmon river. Mr. Scott reported a heavy rain in the vicinity of the dam on Saturday night last. J. W. Bush arrived from La Grande, Oregon, on Monday to look at his farm near Twin Falls. He thinks things very highly of his property which is one of the best ranches on the tract and worth many times what it cost him. Superintendent S. D. Parke has tendered his resignation to the school board and the board is now in correspondence with several applicants for the position. Mr. Parke will leave Twin Falls with the good will of the people whom he has faithfully served. P. O. Bethune, who bought the premises now occupied by the Consolidated Wagon & Machine Co. on Second avenue south, will open a boarding and transfer stable and feed barn in the building when the company moves to its own building on Main avenue. Frank H. Eastman, formerly editor of the Twin Falls Times and now editor of the Tacoma Daily Tribune, was here for the first time in 15 months this week. Mr. Eastman still has property interests in Twin Falls and he was very much pleased with the condition in which he found the city. John Koeharik and Glenn McKinlay left Twin Falls on Thursday evening for Mexico where they will inspect an enterprise in which they are interested. They did not state whether it was a rubber farm or a bull ring, but they promised to unfold an interesting tale on their return. They will be absent for three weeks or more. The Twin Falls Land & Water Co. and the Twin Falls Canal association have agreed that the company shall install measuring devices on all company work, or within a half mile of every legal subdivision of 100 acres. It was decided that the automatic system of measuring should be installed beyond that point. J. R. Hinton resigned as a member of the governing board and J. L. Barnes was appointed in his place. The Commercial club will elect officers for the ensuing year on Tuesday, April 6. In accordance with the constitutional requirement, two nominating committees have been appointed. On one committee are John Maxwell, George H. Smith and H. O. Miller, while A. C. Coburn, A. J. Pennington and W. H. Thornbrough comprise the other. Each committee will submit a ticket and the tickets so submitted will be voted upon by the club members. Robert Kerns and John C. Portkins are building five-room bungalows in the White-Callahans addition. The homes will be modern in every respect and will add to the beauty of suburban Twin Falls. It is more than probable that many other residences will be erected in this addition this spring and summer as the location for homes is very attractive. The addition is within the city limits and will not only add the city advantages, such as electric light, water, sewers, etc.

Mr. and Mrs. Eugene Hanna of Portland visited in Twin Falls on Sunday. Wes Russell was in from Deep Creek this week and reported that the stream was carrying an unusual amount of water. Two horses were drowned at the crossing while the water was up, both valuable animals. Dr. Seymour of Charles City, Iowa, arrived last Friday to take a look at his farm on the Salmon river tract. The doctor had never been here before, having filed by power of attorney. He found the country fully up to his expectations. The measuring device to be installed by the Twin Falls Land & Water Co. will be tested tomorrow, Saturday, in the dam in the rear of the Twin Falls hospital and all farmers are invited to witness the test. At the same time E. V. Berg will give a demonstration of the pumping plant for the irrigation of small tracts of high land. Nick Smith brought in a carload of mares last Friday from Cache valley, Utah. Among them is the mare which won first prize in the heavy draft class for two years in succession at the Utah state fair. There are many likely looking animals in the consignment. They are quartered at the Farmers Real Estate & Livestock company's big barn. Mr. and Mrs. A. N. Sprague entertained Mark Murrain, Carl Hahn, Harley Miller, Walter Craves, George Alken and Fred Voigt at dinner on Wednesday evening. The guests who attended all day and the manner in which they dined was refreshing to behold. Mrs. Sprague was assisted in serving by Miss McManis. The dinner was so good that the bachelor party returned the following day for another feast. Frank Benoit and P. B. Johnson have organized the Twin Falls Bottling Works and will place water from Mr. Johnson's well on the market. The complete bottling plant will be installed in the building formerly occupied by Jacobson & Hoops as a creamery. The plant will cost approximately \$4000 and will be modern all details. The water will be put on the market for domestic and commercial use, carbonated, flavored, bottled and in carboys. Water was turned out of the main canal at Miller and the dry creek reservoir on Tuesday night to permit the installation of two bridges across the canal between Hansen and Murrain. The bridge material was all on the ground and the work was rushed with day and night shifts to permit of the water being turned on within 24 hours. The pools in the bottom of the canals were filled with trout, grayling, suckers and bullheads. Some of the small fry was stranded but the fish manager is flourishing into the holes and none of them were lost. Lots in the Grand View addition have been going like a 90-horsepower automobile this week and Johnny White has been kept on the jump showing property to purchasers. The White-Callahans addition is being trimmed down to slender proportions and the Bolton-Williams addition is shrinking beautifully. Now Mark Murrain is coming forth with his second addition of 72 lots, joining the city limits on the east, for which Hill & Taylor and the Stroud, Sprague & Huntley Co. are sales agents. This addition is unusually good and will doubtless sell rapidly.

The first consignment of lumber from Twin Falls to Contact was shipped last week by the Rose Lake Lumber Co. TRANADAY - Antonio Trunaday died on Sunday, March 28, at the ranch of Frank A. Oakes, one mile north of Blue Lakes, aged 32 years. The funeral occurred on Tuesday morning at 10 o'clock, Rev. Varnum of the Methodist church of Jerome conducting the services. Interment was in Jerome cemetery under the direction of H. E. Hunt & Co. KENNISON - The infant daughter of Mr. and Mrs. D. H. Kennison died at the family residence at Kimberly, Friday, March 26. Mr. and Mrs. Kennison lost their youngest son only three days before, and their many friends mourn with them. The funeral occurred on Saturday afternoon at 2 o'clock under the direction of H. E. Hunt & Co. Interment was in Twin Falls cemetery. STRONG - Loyd E. Strong, the eight-year-old son of Mr. and Mrs. J. E. Strong died at the home of his parents, three miles east of town, on Sunday, March 28. The funeral took place on Tuesday morning at 11 o'clock from the Latter Day Saints' church in Kimberly. Interment was in Twin Falls cemetery, under the direction of H. E. Hunt & Co. The funeral of J. B. Booth, who died in Gooding on March 23, was held on Sunday afternoon at 2 o'clock, Rev. John Gourley of the Presbyterian church officiating. The Presbyterian choir sang three impressive selections. The floral offerings were beautiful. Among them was a magnificent piece from the Associated Press office in Omaha, where Mr. Booth was once employed. Interment was in the family lot in the Twin Falls cemetery, under the direction of H. E. Hunt & Co. ANDREWS - Charles Andrews died at his home in Filer on Thursday evening, April 1, of paralysis, aged 50 years. He is survived by his wife and a brother who resides in Wichita, Kansas. The brother has been notified and is expected to arrive in Filer on Sunday or Monday, when the funeral will be held under the direction of J. J. Miller. Filer Camp 5515, Modern Woodmen, will conduct the services. Best Seed on the Tract. We now have on hand a big supply of Dicklow seed wheat, club wheat, seed brew barley, seed feed barley, clover seed, alfalfa seed, timothy seed, feed, corn and chop. Coal. Custom grinding. Contract lots. Ask for quotations on carload lots. FERTILIZER - ELEVATOR CO., Kimberly and Filer, Idaho. 10-acre tracts, \$100 down, balance easy terms. Stillwell Bros. 10,000 Jonathan Apples. Extra nice smooth trees, grown from white root seedlings. These are on land that is sold and must be cleared this spring. Low prices on thousand lots. Kimberly Nursery Co., one-quarter mile from Kimberly, IDAHO BROS. The Ladies Aid society of the Christian church will hold their annual Easter bazaar and dinner on Saturday, April 16, in Mrs. Powers' store, "The Coffee Club" on Main street. A chicken dinner will be served, beginning at 11 a. m. Every one is invited to witness the bazaar and eat dinner with the ladies. Mrs. E. Nell Dingman, Sec.

German Lutheran Easter services will be conducted at the Christian church on Easter Sunday at 9 p. m. by the local pastor, Martin O. Mueller. All Germans are cordially invited to attend. At their monthly meeting this week the county commissioners received the application of Fatten & Wilson of Bluff for a liquor license. The applicants have retained counsel and will appeal to the district court. Lou Kierstedt moved to Jerome on Sunday, bag and baggage. His new home in the North Side metropolis was finished last week and his office is also ready for occupancy. Kierstedt will engage in the real estate and insurance business. The Ring grillroom in the Hotel Rogerson was opened on Sunday when the tables were thronged all day. Mr. and Mrs. Fline were the many congratulations on the manner in which the grill was arranged and the character of the service and menu. Rural route No. 2 was started on Thursday morning, April 1, with C. F. Raymond, substitute carrier. Mr. Raymond will carry the route until Clyde Anderson, the regularly appointed carrier, perfects his bond. The new route will be a great convenience and will relieve about 40 postoffice boxes. W. T. Jack of Oakley and Mark Austin of Sugar City attended the ceremony at Jerome on Thursday and accompanied the party to the Goose creek project. Mr. Jack is interested in the latter and Mr. Austin is the superintendent of the sugar factories in Fremont and Blingham counties. Sheriff C. W. Dyer of Twin Falls was elected president of the Intermountain Sheriffs association which was organized in Boise this week. The organization is composed of the sheriffs of Idaho, Utah, Montana, Washington, Oregon, Wyoming and Nevada. The next meeting will take place in Salt Lake City on May 15. The county commissioners have made an appropriation of \$2000 for the state park at Shoshone falls which will be available when the bill creating the park becomes a law on May 6. The money will be expended in improving and beautifying the park and making it one of the most attractive resorts in the west. D. S. Spencer, assistant passenger and ticket agent of the Oregon Short Line, arrived from Salt Lake City on Wednesday afternoon in a private car. Mr. Spencer accompanied him. They were the guests of Mr. and Mrs. E. Ferrine at Blue Lakes on Wednesday night. Everybody come and eat dinner with the ladies. Mrs. E. Nell Dingman, Sec.

Buy of Bolton, the Booster TWIN FALLS REALTY CO. S. H. BOLTON, President. The P. E. O. society met at the home of Mrs. Hahn on Wednesday evening, March 17. Owing to illness of some of the members, there was an inclemency of the weather, there was a small attendance. The re-election of the present officers was definitely settled by vote, which resulted as follows: Mrs. Mary Mitchell, president; Mrs. Dall, vice president; Mrs. Nell Bealford, secretary; Mrs. Lucretia Sprague, corresponding secretary; Mrs. Alta Greenow, treasurer; Mrs. Zelma Baker, chaplain, and Miss Nan Greenow, guard. The chapter had the pleasure of adding Mrs. Eda Warner to its membership by dimit from chapter A. W. of Osage, Iowa. The program, aside from the usual quotations, was postponed until the next meeting as those who had the literary work for the evening were ill in every instance. Mrs. Hahn served the delectable refreshments at the time of the meeting. The society colors, yellow and white, were carried out in the salad, cream and cake. The egg salad was in marguerite shape, the society flower and was as delicious as it was pretty. Those who attended enjoyed the evening to the utmost and the only regret was that there was so little to enjoy Mrs. Hahn's hospitality. The meeting of March 25 was held at the beautiful home of Mrs. Sprague. After a brief business session, presided over by the president, the literary work was taken up. The Arthurian Legend subject was resumed, Mrs. Hahn giving a sketch of the characters, Triarum and Elinor. Mrs. Stalker read portions of Tommyson's Elinor and by her fine rendition the members enjoyed the most beautiful passages of the poem. A paper on Laurence and Elinor was also given which closed the program. Mrs. Sprague treated the society to delicious refreshments, always an attractive feature of the meetings. The delegation of Boise business men which attended the coronation at Jerome, arrived in Twin Falls today in special cars attached to the regular train. They were taken to the Commercial club and later went for a drive around the city. The members of the party were very outspoken in their praise of the Twin Falls tract, which many of them had not seen before. They expressed a desire to get better acquainted with their neighbors and promised to come again as soon as circumstances permitted. If you are contemplating building it will pay you to get prices from us. ROSS LAKE LUMBER CO., just south of O. E. L. depot.

Showing of Spring and Summer
MILLINERY
At the **MODE MILLINERY SHOP**

Beginning Saturday, March 6th, and continuing all the following week. We extend to all the ladies on the Twin Falls tract a cordial invitation to call during these show days and inspect our line of everything that is correct in the line of Spring and Summer Millinery. We handle nothing but millinery. That is our exclusive line of business. Our prices for first-class work cannot be compared with any other house in the city.

THE MODE MILLINERY SHOP
WILLIAMS & WILLIAMS, Props.

"King Brilliant"

The magnificent Percheron stallion. A sure producer. Has sired most of the best colts on the Twin Falls tract. Will make the season at the Idaho Live Stock Co.'s stable in Buhl. Terms for season, \$15; single service, \$5.

"Bill Taft"

Kentucky Mammoth jack. He has the conformation and the size and will produce breadwinners. Will make the season at our stable. Terms for season, \$20; single service, \$10.

Famous coach horse. One of the most classy animals ever imported. Just the sire for driving stock. They have speed and stamina for heavy roads. Sound and geldings, 1200 to 1650 pounds. Matched teams 1000 pounds each.

Idaho Livestock Co.
BUHL, IDAHO
Buyers of all kinds bought and sold.

**DON'T DESTROY
COYOTE SKINS**

FRONT FEET OF THE BELTS ARE WORTH MONEY.

State Pays \$1.50 for the Front Feet of Every Coyote, Lynx or Wild Cat Killed Within its Boundaries—This is Season to Get Them.

At this season of the year, the wily coyote that has been terrorizing your chickens all winter, finds a convenient den for whelping. The whelps are born early in April, as a rule, and it will pay the farmers to keep a sharp lookout for the dens and dig the vermin up. The state pays a bounty of \$1.50 for the front feet of coyotes, lynx and wild cats. The pelts must be cut off at the hump so that they will show both the claw and the pad. No bounty will be paid on mutilated feet. A perfect foot means one that shows both claw and pad.

Quite a number of coyote dens were located in the vicinity of Twin Falls last spring and in several instances the dens were excavated and the whelps destroyed. During the past winter coyotes seemed to be as numerous as ever and they did considerable damage around the farmhouses. The predatory animal department is doing its best to exterminate the outlaw of the desert and it has agents in every county to receive and pay bounty on the feet of predatory animals. These agents are called "De-footers". The Twin Falls "De-footer" is Dr. M. F. Kennedy, V. S. Dr. Kennedy keeps a special sharp axe with which he "de-feets" coyote pelts and he revels in the sport. His ambition is to secure the pelts of cougars or timber wolves which he carves with great delight. There is a popular impression that the doctor would rather look at a good horse than amputate the feet of coyotes, but he has to have some recreation and as local representative of the state veterinarian he practices "de-footing". The bounties are paid in the form of warrants issued by the department on receipt of the feet. Front feet only are acceptable.

Rummage Sale.

Will every housewife in the city contribute to the rummage sale for the benefit of the City Library fund. Lay out every thing you can no longer wear or use, for some one else may need them. The sale will be held at the library rooms the first Saturday in April. All contributions may be left with Mrs. Pike, Mrs. Hall, Mrs. Barnes or Mrs. Packard. Please bear date in mind.

WANTED—Party to clear for irrigation, 25 acres of land about seven miles southeast of Twin Falls on Salmon river project. Write, stating terms. S. E. King, Walla Walla, Wash.

BOISE, . . . IDAHO

How does this look for a four-year play?

The city of Twin Falls has an assessed valuation of more than \$1,000,000.

Twin Falls has the most modern and complete sewer system of any city in the intermountain region.

Twin Falls has a lower rate for electric power than any city in the west, with the exception of Spokane.

Twin Falls was the first city in the state to install the centralized school system. Children are brought in from the country in wagons, 10 of which are now employed.

Twin Falls has the best school system in Idaho and two of the largest and most modern schoolhouses.

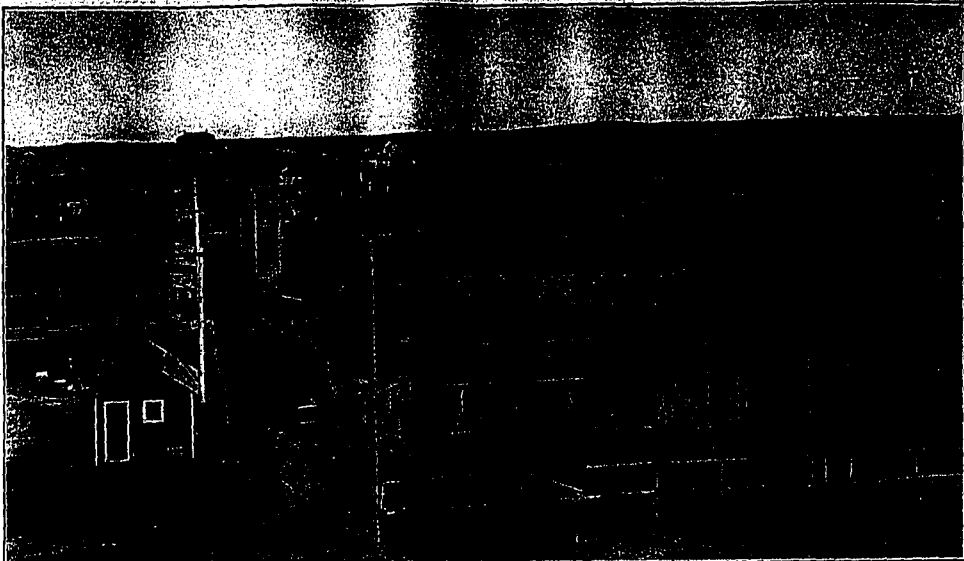

Twin Falls county is building a county courthouse to cost \$150,000. It will be the most pretentious and most modern courthouse in the northwest.

Twin Falls county had an assessed valuation of \$4,500,000 last year and will easily pass the \$5,000,000 mark in 1920. These values were all created in four years. The state and county tax rate was only 21 mills.

Twin Falls will be the junction point for the Oregon Short Line cut-off from Twin Falls to Wells, Nevada. This cut-off will shorten the traveling time from Montana to California 12 hours and will open the Nevada and California markets to Twin Falls products.

There are no more beautiful sights in the world than the Twin falls, the Shoshone falls, the Blue Lakes, the Thousand springs and the upper and lower Salmon falls, all of which are within easy distance of the city of Twin Falls.

The purest of well water has been obtained in Twin Falls at a depth of 350 feet. In Bull at 500 feet and in Flier at 125 feet.

VIEW OF TWIN FALLS, LOOKING NORTHWEST FROM THE ROOF OF THE BICKEL SCHOOL. PHOTO BY C. E. BIRBEE, TWIN FALLS.

In the right hand picture the new Lincoln school looms up prominently directly in front of where the camera was located. The Episcopal, Presbyterian and Methodist churches are easily discerned and the park shows plainly. The new courthouse is now being built to the right of the Methodist church, in the center of the picture.

When it is considered that the citizens of Twin Falls spent more than \$1,000,000 for homes last year and bid fair to repeat the performance this year, some idea of the growth of the residence sections of the city may be obtained.

Plans have been prepared and contracts have been awarded for new business buildings which, when completed, will represent an outlay in excess of \$1,000,000. As nearly all of these buildings have already been rented, it cannot be said that the business section is likely to be overdone. In all, 38 business blocks have been planned, not including the courthouse.

With the construction of the Oregon Short Line cut-off to Wells, the work on the Salmon project and the laying of approximately three miles of pavement, Twin Falls will be a busy city for some time to come.

MORE LABOR SAVING DEVICES

Calculated to Lessen the Burden of the Farmer's Work.

Cultivator—T. Miller, West, Tex. The object of this invention is to provide improvements in cultivators, whereby the plows can be quickly and conveniently set to any desired pitch for use in deep or shallow plowing, and without requiring the loosening of bolts or like cumbersome manipulations.

Check Row Planter—O. Brown, Morrison, Iowa. The more particular purpose here is to provide a type of planter in which the spacing apart of the hills is the general direction of travel of the planter is done, without the necessity of a stationary actuating wire. Means are provided which are controllable by the automatic action of the machine for varying the spaces between the hills so as to render the same suitable for land surfaces of varying conformity, as the

machine passes over such surfaces.

Harvester—C. M. McCormick, La Junta, Colo. The invention relates more particularly to machines for harvesting crops such as sugar beets, and the like. Specifically, it relates to one having a top for removing the tops or leaves of the beets, and including means for severing the leaves which lie upon the ground as well as the standing beet tops from the roots. Mr. McCormick has invented another harvester and the object of the improvement is to provide an apparatus for use for sugar beets and the like in which the plow can be operatively and imperatively arranged in a plurality of positions in which a feeder is provided for laterally placing severed beet tops or other foreign bodies from in front of the plow, as the latter travels along.

Seed Planter—W. A. Rockwell, Harriman, Tenn. In the present patent the improvement pertains to the

plunger attachment of the rotatable seed wheel, also to means for use in governing the discharge of seed from the hopper and the wheel. The invention is not limited to corn or peas, but is available for planting oats in drills, also for planting sorghum, cane seed, beans, etc.

Seed Box—A. O. Yates, Friend, Neb. The box is such as is used in connection with seed depositing implements. The object of the invention is to produce a box having means for dropping different numbers of seed or seeds of different sizes. The seed box is particularly applicable to corn planters.

Gate—P. H. Wilson, Talent, Ore. This swinging gate is of a type usually termed a farm gate and employed for guarding openings into fields from a roadway. The object of the invention is to provide novel details of construction for a gate, and afford means for manually opening the gate in opposite directions.

Shock Loader—E. Pitcher, Verona, N. D. The loader is designed to continuously pick up grain shocks and discharge them on a delivery mechanism while still in an upright position, and by the mechanism convey them to a wagon. In this manner of gathering up the shocks they are not roughly shaken, and much grain is thereby saved from waste.

Planter—E. St. Aubin, Ganeer Township, Ill. The object of this invention is to provide a device for use in simultaneously planting three rows of corn, and arranged so that each of the planting devices will be at all times in engagement with the ground regardless of the inequalities in the surface thereof.

Adjusting Device for Grain Drills—W. F. Jacobs, Okawville, Ill. The inventor's more particular object is to enable the operator to adjust the depth of the drill teeth, and consequently regulate the depth within the soil to which the seeds are carried.

The invention relates to means whereby a number of related parts upon the same machine may all be moved in unison for purpose above indicated, thus saving a multiplicity of separate movements of various parts.

Harvester Device—W. L. Griffin, Scottville, Mich. The invention relates more particularly to apparatus used in the harvesting of potatoes and other similar produce. It provides a device by means of which potatoes can be freed from the earth adhering to them, and by means of which the cleaned tubers can be easily and rapidly filled into receptacles therefor.

Cultivator—A. Bridson, Albertville, Ala. The cultivator comprises a plurality of cultivator hoes having points adapted to till the ground, the forward parts of the hoes being attached to two cross bars arranged substantially parallel and transversely of the implement. With one of this general construction there is a ten-

dency of the teeth of the hoes to become broken at their point of attachment to the rear cross bar, which this invention prevents.

MORMON CONFERENCE.

Salt Lake City, April 4, 5 and 6. The usual special low round trip rates will be made via the Oregon Short Line. Tickets on sale from all points north of Ogden in Utah, Idaho and Wyoming, April 1st to 5th, inclusive; limit, April 15th. See agents for further particulars.

If you are contemplating building it will pay you to get prices from us. ROSE LAKE LUMBER CO., just south of O. S. L. depot.

VIEW OF TWIN FALLS, LOOKING SOUTHWEST FROM THE ROOF OF THE BICKEL SCHOOL. PHOTO BY C. E. BISBEE, TWIN FALLS.

This view, and that upon the opposite page, were taken by C. E. Bisbee a few days ago from the roof of the Bickel school. They constitute a single picture, encompassing about two-thirds of the townsite proper. The most densely populated residence section of the city, to the right of the second, or right hand picture, is not shown. Nor does the business section of the city appear to advantage. The townsite covers so much area and the buildings are so well distributed over the entire site that it is well nigh impossible to get a photograph showing both business and residence sections.

BRACING AIR AND BRIGHT SUNSHINE

BENEFIT HUMANS AND PLANTS ALIKE

Analysis of the Climate of the Intermountain Region by H. E. Bereman — Tends to Produce Highest Type of Civilization.

H. E. Bereman, editor of the Farmers Voice, published in Chicago, contributes a very interesting story on western climate in his last issue.

The wild geese migrate spring and fall north and south with the regularity and precision of clock work. Man is the only migrating animal who stays put.

Which is the most important factor in the farmer's problem of prosperity and satisfaction is more a matter of taste than of positive measure.

These again, tastes differ. Some like it hot and some like it cold; some are indifferent; some would grow at any kind of weather.

I have been asked frequently what kind of weather and climate the newly irrigated sections of the north afford. Naturally the first item of difference from the climate of the south is that the air is drier and the precipitation less.

One of the good things about the arid country is the long period sunshine. It is not a land of perpetual sunshine, but practically 300 days in the year are sunny.

its effect upon vegetation. As plants depend so closely upon light for rapid growth, it is evident that the growing season is extended by constant sunshine.

Statistics of meteorology are familiar with the facts of air currents and cloud movements. The sun shining on the ocean's surface evaporates moisture, which by virtue of its great heat, rises and is carried by wind currents hundreds of miles inland.

The source of rainfall for the Mississippi valley is the Atlantic and the Gulf of Mexico. The rainfall gradually decreases as we go west, until we reach the semiarid region of Colorado, Arizona, New Mexico, Wyoming, Montana, Idaho and Utah.

On the west slope of the Rockies and the smaller mountain systems the rainfall is excessive near the coast, induced by westerly moisture laden winds from the Pacific.

The summers of southern Idaho resemble those of central Illinois. The winters are not so severe as those of the same latitude.

FOR SALE—Forty acres one mile from Buhl; 20 acres in cultivation; substantial four-room house; 5000 chicken house; 12000 ft 27 amble house; all fenced; 150 fruit trees set out; 100 plants of several kinds of small fruit; 600 locust trees set out; one payment made; price, \$75,000. Call on, or write to P. W. Monahan, Buhl, Idaho.

It provides a device by means of which potatoes can be freed from the earth adhering to them, and by means of which the cleaned tubers can be easily and rapidly filled into receptacles therefor.

Cultivator—A. Bridgen, Albertville, Ala. The cultivator comprises a plurality of cultivator hoes having points adapted to till the ground, the forward parts of the hoes being attached to two cross bars arranged substantially parallel and transversely of the implement. With one of this general construction there is a ten-

dency of the teeth of the hoes to become broken at their point of attachment to the rear cross bar, which this invention prevents.

MORMON CONFERENCE.

Salt Lake City, April 4, 5 and 6. The usual special low round trip rates will be made via the Oregon Short Line. Tickets on sale from all points north of Ogden in Utah, Idaho and Wyoming, April 1st to 5th, inclusive; limit, April 15th. See agents for further particulars.

SALMON RIVER RELINQUISHMENTS

Will You Buy Now or Will You Wait

Will You Buy Now or Will You Wait

TWIN FALLS, THE PEERLESS CITY OF THE WEST

TWIN FALLS
Is located about 300 miles from any large city.

TWIN FALLS
Will soon be the largest city in Idaho.

TWIN FALLS
Is so located that it will become a city of 50,000 people before 10 years passes by.

TWIN FALLS
Is located in the heart of the largest and most productive area of irrigated lands in the entire west.

TWIN FALLS
Agricultural district will in the near future be producing a greater quantity and variety of first-class grains, vegetables and fruits than any other like territory in the United States.

TWIN FALLS
Being located on the Snake river with its great water power being even greater than the water power of Niagara falls of New York state, at no distant day will be the largest manufacturing city in the entire west.

TWIN FALLS
At the present time being the largest city in southern Idaho, is headquarters for all of southern Idaho's enterprises.

TWIN FALLS
New railroad over into Nevada will also make the city of Twin Falls headquarters for all of northern Nevada's enterprises.

TWIN FALLS
With its large mercantile establishments of various kinds, its sound banking and financial institutions and its first class hotels, will forever draw business from all southern Idaho and Northern Nevada towns, in the same manner as Salt Lake City draws business from all Utah towns and cities, therefore "God speed" the numerous towns that are growing up in all directions from Twin Falls, thanks to them for their industry and enterprise, they are contributing daily to our rapid growth and prosperity. May they ever prosper.

THE GREAT SNAKE RIVER
With its scenic and numerous grand and gorgeous waterfalls, more grand and beautiful than the Niagara falls of the east, will make the city of Twin Falls the most fashionable, aristocratic resident and resort city west of Chicago. Eastern railroads have their eyes on Twin Falls for a future resort city to which they will run sight-seers and excursionists to by the thousands.

THE PRESENT AND FUTURE
Prospects for making money in Twin Falls are one hundred per cent better than in any city of its size in the United States.

REAL ESTATE IS 100 PER CENT
Cheaper in Twin Falls than in any other city of its size in the United States, all advantages considered.

WITH THE NUMEROUS ADVANTAGES
of the city of Twin Falls and surrounding country real estate is certain to increase in value more rapidly in the future than it ever has in the past.

THE PERSON WHO BUYS
Real estate now is the person who will make the easy money.

WHITE & CALLAHAN'S GOLDEN RULE ADDITION

IS NOW ON THE MARKET. HOME SITES on payments of only \$5.00 PER MONTH, only \$1.25 PER WEEK, 10 2-3c PER DAY.

THE GOLDEN RULE ADDITION

STATUS OF WATER RIGHTS DEFINED

JUDGE STOCKLAGER EXPLAINING HIS CONTENTION.

Not Necessary That Settlers Should Use All Their Water Within Five Years But They Cannot Abandon All Use for That Time.

The recent declaration by Judge Stocklager that citizens who did not use their water would risk the loss of their water rights at the expiration of five years has been misconstrued by many to mean that an entryman must apply all his water upon all his land within five years or forfeit his right to the water which he has failed to use. The judge did not intend to convey any such idea. His statement was that a man who failed to use any of the water appropriated to his land within five years from the date of the appropriation would forfeit his right. The man who used what water he could, or exercised "reasonable diligence" would run no risk. That section of the statutes which applies to the case reads:

Section 3264, revised codes of the state of Idaho, reads in part as follows: All rights to the use of water acquired under this chapter, or otherwise, shall be lost and abandoned by a failure, for the term of five years, to apply to the beneficial use of which it was appropriated, and when any right to the use of water shall be lost through non-use or abandonment, such right to such water shall revert to the state, and be again subject to appropriation under this chapter. . . . Provided, further, that any person or persons who are owners of a water right, and who have, with reasonable diligence, annually increased the beneficial use of the water covered by such water right, or who do hereafter, with reasonable diligence, annually increase the beneficial use of the water held under such water right, shall not be subject to the non-alienation of abandonment, and loss by non-use of such water right, as provided in this section.

In explaining the interpretation of this section, Judge Stocklager said: "It do not wish to be misunderstood about my construction of section 3264 of our statutes. Our courts have held that a reasonable use of water after appropriation is governed by conditions and circumstances, largely dependent upon the opportunities and abilities of the appropriator. He may not be able to use all the water appropriated for a number of years

after the appropriation is made and it was never intended that all of the water should be used upon the land for which it was appropriated the first year, as seems to be erroneously construed by recent attempts of mine published in the Twin Falls papers.

"If a man should file upon 100 acres of land and appropriate water therefor under the provisions of the Carey act and wholly fail to use any of the waters thereon for a term of five years, the water so appropriated would revert to the state. Under the provisions of the Carey act, however, the entryman is obliged to cultivate at least one-sixteenth of his land during the first 12 months after he has acquired the land and water right, and the same amount each year thereafter for three years. This would be construed as reasonable diligence.

"However, the Carey act has not changed the state statutes governing the use of water, or the constitution of the state, or the right of water, the essential to the industrial prosperity of the state, and all agricultural development throughout the greater portion of the state, depending upon its just appropriation to and economical use by those making a beneficial application of the same. His control shall be in the state which, in providing for its use, shall equally guard all the various interests involved. All the waters of the state, when flowing in their natural channels, including the waters of all natural springs and lakes within the boundaries of the state are declared to be the property of the state, whose duty it shall be to supervise their appropriation and allotment to uses diverting the same therefor for any beneficial purpose and the right to the use of any of the waters of the state for useful or beneficial purposes is recognized and confirmed.

"Under these provisions, it would seem that a man who filed upon 40 acres of land, cultivated and irrigated five acres during the first year after he had filed and obtained a water right to the land, but failed, for five consecutive years after his first use to make any beneficial use of the water appropriated to his land, would run a grave risk of losing his water right. He does not acquire the water when he buys a water right; he merely acquires the right to use the water. The state owns the water, it merely confers upon the entryman the right to its use. On the other hand, if a man should gradually increase his acreage as his means and conditions permitted, he would stand no chance of losing his right to the use of the water originally appropriated.

"I hope I have made it clear that it is not necessary for a settler to use all his water every year. He may only use a portion of it so long as he shows good faith in the final reclamation of the land for which he appropriated the water and he has a reasonable time in which to accomplish this purpose."

ROBBED FARMER AND LIVERYMAN

SHARPER RAISES A CHECK AND STEALS HORSE.

Swindled Clayton Diver of Buhl and Got Away With Horse From Byrne's Stable—Purchasers Have Trouble With Mail Order House.

BUHL, Idaho, March 31. — J. W. Morris returned last week from Olympia, Wash., where he has been during the winter. He says that while living there a young brigand arrived in his family. Mr. Morris is so proud of the new arrival that he will speak to only his most intimate friends. He has been married seven years and this is the first born. Mr. Morris was living on Ferguson flats for two years before going to Washington. His family will soon arrive. They will live in Buhl hereafter.

Jim Patten visited Twin Falls last week on business. Jim makes frequent trips to the Magic city these days. He created Jim, the Bachelor club is becoming suspicious. Miss Ethel Jacoby arrived in Buhl last week from Nampa, Idaho. Miss Jacoby is the daughter of Mr. and Mrs. John A. Jacoby, who were former managers of Hotel Buhl. The family moved from Buhl to Nampa a year ago, and have regretted the move ever since. They will return to this bustling town in a few weeks to make it their permanent home. No one who has ever lived here but cannot come remain away. They simply cannot stay away from here. No other place they can find affords such opportunities for work or business of any kind as does Buhl. And so they all come back.

A man calling himself Ed Scott worked two days the fore part of last week for Clayton Diver on the latter's ranch, four miles south of town. Mr. Diver paid him \$3 by check, which Scott raised to \$20. He came into town and cashed it for that amount, then went to E. V. Byrne's livery barn and hired a horse to go to Filer. Neither he nor the horse has been heard from since. The check was cashed by the horse. Alred last Wednesday afternoon, and as soon as the crime was discovered the sheriff was notified and set out to date, nothing has been heard of the criminal. He has of forfeited \$10 reward on the capture of Scott.

A small order of goods was in through this post office tract about a month ago and several orders from persons who were getting hatrains towards the purchasers found out that he padded the orders to twice their original

amounts and now there is trouble, and a fight between the purchasers and the seller. A. W. Bolander, recently of Salt Lake City, bought the Brotherton barber shop on Broadway and is now daily installing therein as the shaver on that street. W. L. Hubbell rented his ranch and will move into town as soon as he has finished a dwelling house he is building on Broadway. The house will be completed in a week.

Carpenters have commenced the frame work on Dr. Albee's residence on North avenue, and are making rapid progress in erecting the building. Herman Geer reports that the interior of the new schoolhouse is now painted and that the rooms are ready for use at any time. The main entrance doors are swung and in all probability school will open in this handsome structure next week.

Senator and Mrs. Sweeley visited Buhl Monday and went back to Twin Falls on the early morning train. They drove out to their ranch in the west of town and the senator attended the meeting of the Commercial club in the evening. In the course of the meeting he addressed the club, giving a short resume of the work done by the legislature last winter and of the parts taken in the work by himself and Mr. McCallahan. His talk was timely and instructive in many respects. It was well received and fully appreciated by the club.

Matthew Scully returned last week from Lewiston, Idaho, where he spent the winter looking after his business interests there. Mr. Scully owns a ranch northwest of town on which he is making his permanent home and which he will improve this summer.

Russ W. Alred was a Filer business visitor Monday. The West End Water Co. unloaded a car of mules and grading outfit here last night which will be taken out to the West End project at once to commence work on the canals and reservoirs on that project. We have good roads to that point now and hauling is easy.

Henry Smalley returned Saturday from Jacksonville, Fla., where he had gone to look over the country with a view to locating there. He purchased 20 acres of orange land close to the city and a town lot in a new town site about 12 miles from Jacksonville. He intends to return to Florida in a short time and make it his future home.

F. W. Leekley, representative of the Laval Creamery Supply company of Portland, Ore., was in Buhl last week and spent several days negotiating with the board of directors of the Buhl Creamery Co. for supplies and equipment for the creamery. A contract was signed between the parties with the board of directors of the Buhl Creamery Co. Bids for contracts to build the creamery will soon be advertised for and it is expected that the creamery will be in operation in a short time. S. E. Wilson, a brother of Mrs.

Chas. B. Roberts of Boise, Creek, recently arrived from Yuma, Colo., to visit his sister. He came down from Rock Creek Saturday in company with Mr. Roberts to see Buhl. Mr. Wilson left a count covered with three feet of snow about a week ago and he could hardly realize that he was in a summer country. It was rather a novel experience for him.

William Rootstock was over from Wendell last week on business. William Stanley of Springfield, Ill., was a landowner on this end of the tract last week. Jasper Ulmermark, recently of Iowa, purchased the interest of Bruce Howard in the City Meat market and will hereafter conduct the business in partnership with Amos Howard. Mr. Ulmermark's family will soon arrive in Buhl and take up their residence here.

E. Ed Brotherton, the popular Twin Falls barber, was in Buhl Monday closing out the deal for his barber shop here.

S. E. Baker of Denver, Colo., was a guest of Hotel Buhl one day last week. H. W. Parker of Twin Falls was in Buhl for a short time Thursday.

E. B. Hicks of Roseworth, Idaho, visited Buhl Thursday on a short business trip. A. W. Wright of Pocatello registered at Hotel Buhl Friday.

Mrs. J. W. Howe was up from the Abbey ranch on Snake river last week on a shopping tour. Miss Hulda Schenck of Twin Falls and Miss Mabel Pleasick of Filer were Buhl visitors Friday.

J. B. Stone and G. W. Stone of Wendell spent a few hours in Buhl Saturday. F. C. Pritchard of Salt Lake City registered at Hotel Buhl Saturday.

Miss Cunningham of Filer registered at Buhl hotel Monday. W. E. Moore of Somerset, Ky., is on this end of the tract, viewing the country with a view to making an investment.

J. B. McLain of Twin Falls visited the tract Monday. J. L. Lamb of Denver, Colo., was a landowner in Buhl last week. H. J. Reiner of Milwaukee, Wis., is a visitor at Hotel Buhl.

W. H. Monarch and wife of Boise are visiting in Buhl. Chas. H. Tarr, a brother of Harry Tarr, arrived in Buhl Monday evening from Sabatha, Kansas. He is visiting his brother on his ranch, two miles south of town. C. P. Georff of Elko, Nev., was a Buhl business visitor last week. F. C. Meredith of Des Moines, Ia., is a visitor at Hotel Buhl. Word has just been received from
