

OPENING OF HOLLISTER TOWN SITE FIRST PASSENGER TRAIN GOES INTO IT CARRYING PARTICIPANTS IN SPECTACULAR DRAWING

Eager Crowds Engage in the Selection of Sites, and Afterwards Plans are Made by many for Improvement of Holdings

The new city of Hollister was formally christened last Saturday. Celebration of the sales of the first lots...

Again in this city and it was refilled quickly with another crowd. The two trains carried out to the city which bears the name of H. L. Hollister...

Two, therefore, which is probably, the town of Hollister was seemingly in splendid blue for immediately gaining a large and growing population...

Since the Twin Falls tract was opened, five years ago, there had not been any incident of so much significance for the future to this part of the state.

In charge were Conductor F. W. Lockridge, an experienced and old-time employee of the Oregon Short Line Company, residing when at home, at 112 West Second Street, Salt Lake City, and who has been doing yeoman service here since this extension of the Short Line system was inaugurated.

On the site already erected were the electric arcs, such as are used at street intersections in cities. The visitors were therefore struck with the paradoxical condition here afforded of a town being illuminated by electricity, even before the second house may have been erected.

This fact had been much appreciated for many months, and greatly advertised as it was, the responses came from far and near, by mail, when principals interested found it impossible to attend themselves.

Engineer W. D. Benson presided at the throilla. He too enjoys distinction along with Conductor Lockridge. C. J. Denn was fireman of this distinguished engine, while J. O. Walker served as brakeman, along with George Turanch in similar capacity.

In the discussions intervening over the possibilities of this young city, starting out under these auspicious circumstances, many of the favored selected participants predicted a population would develop here within at least two years, 2,000. These opinions came as the result of experience in this part of the country, where the power of irrigation and electricity combined are remarkably influential in building up and making agricultural areas quickly as well as thriving.

Hollister townsite was opened, for these many reasons, with considerable interest. The records show approximately 700 people, attended up to a high pitch of enthusiastic apprehension lest their "numbers" might never come out of the box, and

At those were added, on the site of Hollister, some hundred or more farms, ranchmen, and cattlemen from the more southerly parts of the state, who came in all sorts of vehicles, horseback and afoot.

The waiting for the clerks to receive all the registrations ended about 2 o'clock and the forces of the company were transferred to another tent, where had been prepared seats, sufficient, it had been expected, for all comers; but the advance registrants, as a crowd were deficient. More

REGISTERING FOR THE HOLLISTER DRAWING AT HOLLISTER, IDAHO

At the same time all exceedingly anxious to receive the favors of the fickle goddess and especially draw "No. 1." There were disposed of, by drawing the private sale, before the proceeding closed in the evening, approximately \$70,000 worth of lots, and first steps followed looking to its immediate upbuilding as the leading metropolis for the Salmon and Snake river tract, joining the original Twin Falls tract on the south. The new railroad is a link in the Oregon-Short-Line's main line, that between Reno, Mont., and Los Angeles via either the great Nevada mining camps or Sacramento or San Francisco. Everywhere results from all these causes that Hollister's opening possessed far-reaching influence on the greater development of all this region.

NIGHT POLICEMAN STREET PAVEMENT MAIL CARRIERS FOR TWIN FALLS

HAS BEEN PROVIDED WILL GO IN SOON FOR TWIN FALLS

COUNCIL SWITCHES BURMEISTER TO THIS JOB. CONTRACT LET TO PORTLAND FIRM TUESDAY NIGHT.

City Gets What is Regarded as a Very Liberal Arrangement for the Work as to Price, and a Ten-Year Guarantee on the Job.

Renewed Efforts This Week May Bring the Question Up in the Headquarters at Washington With Desired Practical Results.

Colloquy Over Arrangement of "Force" Discloses That Sometimes Chain Gang Members Silently Steal Away From Their Servitude.

Twin Falls street pavement will be inaugurated this fall, and carried along as far into the winter as the weather will permit. The administration hopes to have a goodly part of the business section paved therefore before spring.

Efforts are being made to have the longlooked for, and deserved, postal carrier system established in Twin Falls, between now and the first of the year.

At a meeting of the council last Monday evening, Mayor Hahn presided several inquiries to Chief of Police Lewis Rowan regarding the employment of the "third" member of the force, James Burmeister.

The contract for the pavement was let by the council Tuesday night to the Norton Concrete Company of Portland, Ore., after canvassing the bids of three competitors, the other two having been the Barber Asphalt Paving Company of Spokane, and Straub & Mulder of Salt Lake.

The aggregate amount of the postal business, it was developed, of the city during the last quarter, June to August, was \$100 per cent more than the same period of 1908 of \$1,200, and the indications are that it will total over \$20,000 for the fiscal year ending next June 30, or 100 per cent more than is necessary for carrier service.

It was decided that Burmeister continue on the force, therefore, and in default of the cash on duty. He has also collected poll taxes and dog taxes.

Eighteen and one-half blocks in the central part of the city are included in the contract for the expenditure of many thousands of dollars on the part of the property owners, who pay for their own frontage, while the city at large pays for the street intersections at an expense of \$36,000, and to raise which bonds have just been sold.

At that time considerable correspondence occurred between Postmaster Greenough and the department at Washington, regarding a free delivery system here, and procedure went to the point of the department saying that an investigation would be made to learn if there were any advantages here, and procedure went to the point of the department saying that an investigation would be made to learn if there were any advantages here, and procedure went to the point of the department saying that an investigation would be made to learn if there were any advantages here.

STREET CARS ARE RESTING.

Wheels That Turned, in Embryo for Awhile, Now Dormant.

GRAVEN IS NEW ALDERMAN.

Chosen by the Mayor as Successor to J. M. Maxwell.

George A. Alkon, who returned last Friday from Salt Lake, stated that he has decided to let the Twin Falls street car franchise matter rest for the present; therefore it is not probable that city council members will further consideration at a meeting.

Mayor Hahn was appointed by Mayor Hahn, last Monday evening, to fill the vacancy created by the resignation of J. M. Maxwell, resigned, as alderman from the first ward and was confirmed by the council forthwith.

Commissioners meet Monday. Expected to Order Local Option Election and Appoint Assessor.

HURTT WORKING IN MONTANA.

Is Building Another Twin Falls Success at Conrad.

TWIN FALLS HAS OVER 5,000.

Excess Over Former Claims.

A copy of the Conrad (Mont.) Observer, received by the News, says that "Within three months, the territory between Conrad and Fort Ferry will be solidly settled up the entire distance of about eighty miles."

The population of Twin Falls is quite noticeably over 5,000, and has been 5,000, or more than has been claimed by the boosters, according to the declarations of E. A. Wilson and B. Bennett, who are taking the census, under orders of the city council. They reported enumeration of 5,127 up to Tuesday.

A successor to the assessor, George Harlan, who resigned last week, will likely be appointed after the regular officials' resignation shall have been accepted as he desires, inasmuch as he prefers, it is felt, to be relieved of responsibility of the position as soon as practicable. There has been considerable mention of Deputy Benachump, who has been serving as assessor, receiving his plan, which on the other hand, others believe the place will go to a dark horse.

WAS AN HONEST SERVANT.

A housewife who had met with unusual experiences around a dishonest agent took the precaution, before filling the vacancy, to write to the applicant's last employer for exact information as to the girl's honesty.

Optimistic Feeling Prevails in East.

P. W. Goldsmith of Goldsmith & Ackerman, returned Friday from the weekly's trip east. It took in Chicago "the show" he said, and found everything active in a business way, with everybody hopeful.

GONE AFTER PLACER GROUND.

TWIN FALLS NEWS PUB. CO. . Twin Falls, Idaho

TWIN FALLS

WILL SEE THE TRACT BY AUTOMOBILE SATURDAY.

Expect to View Every Important Feature of the Irrigation Project Here Together With the Work Accomplished by Farmers Under It.

Senators Borah, Warren and Sutherland, together with several invited guests, probably will arrive in Twin Falls Saturday forenoon and they are to enjoy an auto ride throughout the irrigated tract, under the auspices of the Commercial club.

These gentlemen constitute a part of the congressional committee, appointed at the last session to visit the irrigated sections of the west, especially the regions wherein government works have been undertaken. Among these are the Minidoka project, and which was investigated by almost the full committee six or eight weeks ago. Insufficient time then prevented the committee making a visit to this section, hence its members had no opportunity for comparing the original Twin Falls project, in all its perfection, with work of this character that has been hastening the government forces, for lack of funds and many other reasons.

In the proposed journey of these senators over the tract every opportunity will be afforded them for seeing the great work accomplished here. The entire day will probably be devoted to this trip.

Should there be time, however, a formal lunch will be tendered the guests by the club.

The senators' announced intention of spending but one day in Twin Falls has precluded the arranging of such a testimonial of appreciation of their visit as would have been preferred by the leading citizens, through the Commercial club, under circumstances of their making a longer stay.

\$100,000 for Farm Loans.
Easy terms; quick action.
IRRIGATED LANDS CO.,
North Wing Fork of workmen on his new slaughter house

NEAR KIMBERLY

WIRES ALSO REACH THAT POINT FOR ELECTRIC SERVICE.

Fat Hog Exports to Coast Are to Be Insured, but Grain Falls to Come in Because Lower Prices Are Prevailing Than Farmers Demand.

KIMBERLY, Idaho, October 6.—Charles Russell's father is here visiting him from Ohio, and is well pleased with Idaho.

A representative of the Western Loan & Savings Company was here looking after their local agency and loans this week.

Messrs. Green & Higson of Focatello, plumbing contractors, have finished work on the heating plant and plumbing in the new bank building and will return later to add the finishing touches after the plastering is done.

The power line is completed from Twin Falls and wire has been strung so that everything is ready to furnish Kimberly with electric lights and power.

Miss Allie Turner has been having trouble with her eyes and was unable to meet her classes in the Kimberly schools Tuesday.

SHERIFF MAY GET A "ROLL."
Dyer is in Omaha for a "Cut-Up" of Award Money.

Within a few days one of Twin Falls distinguished officials may arrive from the east with a nice bunch of money, in amount possibly as high as \$25,000, and his friends are wondering what he will do with so large a sum.

This gentleman is known as the sheriff of the county, and spells his name Dyer whenever affixing his signature to any document. Without saying a word he went to Omaha last Saturday, in response to a summons as a witness in the United States court, where the Omaha train robbers are being tried this week.

Should they meet conviction, at the conclusion of their trial, it is expected the rewards will be paid by the railroad and express companies.

Mr. Dyer therefore carried along a valise large enough to hold his share, and may have it filled when he gets home.

The three heaviest freight producing crops in the United States are cabbage, onions, and potatoes.

MURTAUGH

Mr. Folson of Filer recently here Saturday with his thrashing rig and will clean up this locality before moving out. Some of the grain had not yet been harvested.

Mr. Frank Terrill is busy putting in his slaughtering house and will soon be out with fresh meat, again.

Mr. William Wheat has been quite sick for the past few days, but is better at this writing.

Mr. and Mrs. James Wheat of Kimberly, visited their son, William, last Sunday.

Mr. Elvis Laycock, who has been visiting his old Colorado neighbor, Mr. F. Lee Johnson, has accepted a position with the Twin Falls Milling & Elevator Company. Mr. Laycock will have charge of the company's office and elevator at Hansen and reports that he has already contracted several thousand bushels of grain. Mr. Laycock has been doing for the same company in Colorado for years.

Mr. B. F. Jain went to Twin Falls Wednesday with his little son to the doctor. The boy has been complaining for several days.

H. H. Cook has finished his threshing and reports a yield of forty bushels of oats per acre.

F. E. Kaller is loading a car of hay this week.

UTILITY COMPANIES AFFECTED.
Must Make Water Connections and Transfer Wire Poles.

The city council last Tuesday night instructed the management of the Twin Falls Waterworks Company that the pavements are to be laid, and that previous thereto this company must make all connections with city lots throughout the areas to be paved. This matter had been discussed by the council shortly after the paving question came up several months ago, and it was deemed for the best interests of the city that every connection be in place previous to the laying thereof, in order that the pavement need not be torn up later to make them.

The city clerk also was instructed to notify the Great Shoshone and Twin Falls Power Company, also the Bell Telephone Company, that all poles must be removed to the spaces between the curbs and the street areas, in order that the paving shall not be interrupted by poles in the pavement areas. It is expected the companies owning these public utilities will obey these instructions without protest.

Man knows no sadder experience than to have an aching heart and an aching tooth at the same time.

CHANNEL & WHITE, Owners

NEW HIGH SCHOOL FOR TWIN FALLS

DIRECTORS DECIDE TO ASK A VOTE ON BONDS.

Came to this conclusion at a Mass Meeting of Citizens, Called for Discussing the Subject, and Which Instructed for New Building.

Twin Falls will have a high school building on the ground, at present parked, directly north of the court house site, unless sentiment of the people changes sufficiently very soon to influence the school board to abandon its intention of issuing \$50,000 bonds for this purpose.

At a meeting last Friday evening, in the Bickel school building, the trustees reached the conclusion that whenever they might be within reason and the law, to increase the public school facilities, would receive the endorsement of the taxpayers.

This conclusion came after the aforesaid meeting had received the widest publicity possible, in advance, and but few citizens responded. Nineteen taxpayers were present, including the members of a board.

The members of the board, and the gentlemen who did attend, entertained the idea that it was their duty to proceed without delay, under all the circumstances, and take measures which would guarantee the future of the rapidly-increasing school population. In all respects therefore it was another reflection of the spirit of progress which pervades Twin Falls, and which has characterized the splendid rapid growth of the community, as well as development of its admirable public works ever since the community was founded.

Chairman James Waters called the meeting to order, explained that it had been the duty of a board, informing the board of trustees of the Twin Falls school system whether greater indebtedness should be incurred to increase the number of facilities, and it possible, to get the sentiment of the people on the question of either constructing a new and larger high school, or continuing the present measures for the education of the increasing numbers of children knocking for admission to the school rooms.

Member W. E. Nixon of the board, who is familiar with every detail of the independent school district finances, read data which showed that there is only a net of \$50,000 bond issue possible for the district, under the law, until the assessed valuation shall have reached a greater limit. "We would like to put up a high school building that would cost \$150,000," he continued, "but the constitutional limit prevents such a course."

Some informal discussion ensued as to the needs of the district, whereupon the views of Superintendent Elliott were called for. Prof. Elliott then went into a detailed explanation of the requirements, the conditions, and probable needs of the district in a very few years. He said he believed that a large building should be constructed if possible, in order that every facility could be afforded the children, and that Twin Falls schools would be the peer of all in this part of the state.

"We believe," continued the professor, "in not only giving these young people the elements of an education, as we are doing, but we also should give each child something of an educational nature, so that when they leave school they will be able to do something practical, and do it well."

"The Twin Falls schools have a good course in the common branches, but there is no opportunity, with our limited facilities, to give the students technical education such as they should secure."

"We need a thorough course in scientific agriculture. It is of infinite value to the boys to know about the kind of soils required to raise crops, and have such other technical training as will serve them practically when they leave the school. Boise is adopting this kind of a course in her public schools this year, and we should not properly equipped require a course in manual training; and I would like to see the facilities available for a course in cooking for the girls, also a course in which the young women would be taught how to make simple clothes."

"We cannot do this work satisfactorily in the buildings we now occupy, as we are short of space, and are compelled to double up in everything. Above all, we need space for the high school branches. We have facilities for the grades, as they are classified today; but with the mixing of the high school branches, every room is crowded with thirty-five scholars and more, which is too many."

"And what is more to the point at issue just now, I call your attention to the fact that there is an increase in the school attendance to so large an extent that, if it keeps up until spring, the crowded conditions will yet be more acute."

"For instance, during the first week of the present term the attendance was 918; it was 950 during the second week; 972 the third week, and 938 the fourth week, at the rate of nineteen scholars per month."

W. H. Bridgier suggested that quite a number of children should be in school, who were seen around the grounds. Chairman Waters explained that the trustees do not under the direction of the school board, or these children would be brought in. He said the trust of these was appalled by the probate court, which system does not work so satisfactorily as it would if the school directors controlled it officially.

"Yes, there are at least 400 children who ought to be in the school who are not," interrupted Supt. Elliott. "We have proceeded in the way we have," continued Chairman Waters, "because we wanted to get the sentiment of the people, as well as to handle the question to the satisfaction of everybody, and I am sorry there was not a larger attendance here tonight."

C. D. Thomas at this point spoke at considerable length, saying in effect that he believed that a high school in graded school buildings, and whenever the people of this city don't come to a meeting called for to sign they will vote for a high school building as we need. If they had come here in larger numbers I believe they would talk somewhat in favor of continuing our facilities, because we all stand for the big Twin Falls.

"We haven't a completed school system, we are only started. We need a high school. If we stop now in our school development we will depreciate property in this city, because people will not where they can get high schools. If we get the high school, it increases the value of all the property in the city."

"After seeing this meeting tonight I don't think there is a man here who thinks that this school board can go ahead and provide the high school. We may develop some opposition, but if we are not met at our meeting, and that will bring the crowd."

"I would suggest that we open the plans for a high school building to the eyes of our citizens, and let them see what will fit the park ground, north of the court house, and the first part of which may cost around \$50,000, and which can be erected at once, then the demands are felt, let there be wings added to it."

"After much inquiry around town, I have seen a man who is in favor of the enlargement of our high school facilities. So far as they go, our schools here are just as good as any in the state. In fact, our schools here are more than Twin Falls because our schools are of high character. The increase in the tax levy which would be involved in this proposition is less than \$50,000 bond issue, and scarcely be perceptible in the taxes, and as a matter of fact the cost of renting temporary quarters and building the school is not more than the school departments would be far greater than the interest and sinking fund on these proposed bonds."

"Our boys and girls already show their abilities as scholars and students, and we are very proud of them; they have demonstrated that they are capable of giving good results. We have an extra good corps of teachers this year, and I am sorry that we have not the high school building right now. In order that full justice could be done all students."

"I believe we should take the small attendance at this meeting as a reason for a tentative feeling of the public toward this move for a greater high school for Twin Falls, and believe that we should take the initiative tonight, and that every man here pull his coat and carry the project through, as we have already done. If we get to work it can be done."

Mr. Nixon said the opposition would come from people who bought their lots in the vicinity of the park with the understanding it was to be a park, or contain public buildings of other character, and also from others who declared it should be the site of a public library building, while others might see the school land should buy a site for a high school.

Informal discussion followed, during which it was stated that Messrs. Smith and Voligt of the Twin Falls Land & Water Company have informed the board that, in case a high school building were erected on the site proposed, the board would have to obligate them to keep the surrounding areas parked and beautified. The statement was subsequently made that the proposed site belongs, and that Mr. Smith and that he can do anything he pleases with it, while if the city wants a library, there is a man in the United States (meaning Andrew Carnegie) who would buy a site and erect the building.

Chairman Waters then said if there were no more men on hand desiring to address the meeting, its deliberations would be accepted by the board as warrant for going ahead, and that the board would proceed to build a high school on the ground mentioned.

GREAT NEVADA GOLD STRIKE

Very High Grade Vein is Opened Near Battle Mountain. A recent gold strike near Battle Mountain, Nevada, is pronounced by old miners to be the richest in the history of the west.

At fourteen feet depth, the length of the shaft, there is over an inch of ore, and the value is estimated at \$25,000. Parallel to this is another three-inch streak that assays \$100,000 per ton. Six ounces of the latter rock morning left a result of one and a quarter ounces of gold, worth \$44. The balance of the shaft rock averages \$400. Great excitement prevails in that locality. Battle Mountain is on the main line of the Southern Pacific railway and about 150 miles southwest of Twin Falls.

FALL FASHIONS ARE VERY PRETTY

THE TUNIC HAS REPLACED THE SHEATH SKIRT STYLES.

Sleeves Are Long, but Are Still Tight-Fitting, and There Are Combinations That Serve for Street and Indoor Wear All in the Same Costume.

There is good cheer for women in the fact that nothing but the beautiful has happened to the autumn fashions, and every change is declared rational and consistent, by the leading writers on fashions in the most representative publications covering the world.

The sheath skirt has disappeared along with the thin, clinging materials. Rough, thick goods for the street and shorter rather full skirts are the thing. They are full only about the bottom. But they are pulled in as tight as possible about the hips. This is accomplished in various ways, depending on the dressmaker, and also on the dress itself.

Sleeves are still long, and they are still tight-fitting, but not so plain and not so tight as last season. And there is a sweeping demand for chiffon sleeves, more or less transparent, and these are used in both street costumes, under the coats, and for house and dinner gowns. The evening gowns, however, are either sleeveless or have only a short, transparent sleeve.

In the tunic gown there is a full skirt with an overdress above it, which forms at a part of the bodice, or at least a part of it. These tunics come up under the arms, sometimes in a single piece of the goods, often on the bias, and which has the appearance of having been drawn and tightly pinned or wrapped about the hips and bust, and then of having been cut, shaped, and embroidered or trimmed after.

This treatment outlines sharply the hips and bust, and as there is a tendency to draw the drapery in rather closely at the knees in the back, this figure has the effect of a wide skirt tied about the loins after the fashion of the Egyptian women or of Lakme in the opera of that name. The upper portion of these tunics is gowned, that is, the neck and sleeves are formed of chiffon or net of the same color, worked out with the material used with Egyptian bands of trimming and lace.

The gown thus described is not yet complete in itself, but has made so with it a handsome coat, either long or long, mostly the latter, and this coat is cut straight as to line, especially about the waist. It is to be worn over the dress, or for visits. When in the house the long coat may be laid aside, and thus one appears in a dressy suit.

SECRET OF ATTRACTIVENESS.

Authority Says Women Must Pull Themselves Together. Polly Penn, one of the Chicago Tribune's most highly recognized experts on beauty culture, declares that common sense makes any woman an attractive. She says: "Women can do much for themselves if they will remember to turn all kinds of work into cheerful exercise by doing it as a pleasure and taking long deep breaths as they proceed. She continues as follows, speaking to women: "Next, see a watch upon your chest. The habit of lifting your head will help you also to carry your chest up. The sunken chest, meaning inefficient breathing, hait your health, and small hope of attractiveness."

"Watch how you stand. Check yourself persistently from falling in front and slouching behind. Pull yourself together and force yourself to stand with chest up, abdomen in, head well poised, and feet lightly planted with the weight on the balls. "You were meant to influence others toward sweetness and light. And you never can do that while you jolt and shuffle through life with a bad figure, an anaemic constitution, a listless disposition, duty and ill kept hair, and a bad complexion, and ill chosen clothes. You can be attractive without money and without price. But you have got to wake up!"

Will Raise Trout for Market. North Side Firm Going into This Business on Large Scale. Kinsey & Kinsey, at the Devil's Corral, just above Great Shoshone falls, are preparing to raise and market trout for the money there is in that business, says the Shoshone Journal.

They have a water supply of 2,000 inches of clear spring water and a lake of ample proportions for the business. Smaller lakes can be made as the need of them develops. In the lake are trout ready for marketing which were obtained last year from a government distributor.

Now they are purchasing 400,000 Eastern brook trout from the Sultan hatchery in Washington. These are three inches in length and in a year will be ready for market. The price in Ogden and Salt Lake ranges 40 to 60 cents per pound and the demand is practically unlimited. The Kinseys will soon establish a hatchery of their own as the facilities for handling and raising trout at the Devil's Corral are limitless.

Death of "Horizontal Bill" Morrison. Col. W. R. Morrison died at Waterloo, Ill., on the 30th of September last. Since his retirement from congress in 1887 Col. Morrison had taken no active part in national affairs; but in his days of activity none figured in them more conspicuously. Commencing his congressional career in 1863, he soon became a leader on the Democratic side, where he remained for twenty-four years, and during which time he was known as "Horizontal Bill," because of his low tariff views.

WILL RAISE TROUT FOR MARKET

North Side Firm Going into This Business on Large Scale. Kinsey & Kinsey, at the Devil's Corral, just above Great Shoshone falls, are preparing to raise and market trout for the money there is in that business, says the Shoshone Journal.

They have a water supply of 2,000 inches of clear spring water and a lake of ample proportions for the business. Smaller lakes can be made as the need of them develops. In the lake are trout ready for marketing which were obtained last year from a government distributor.

Now they are purchasing 400,000 Eastern brook trout from the Sultan hatchery in Washington. These are three inches in length and in a year will be ready for market. TWIN FALLS NEWS

Official paper of Twin Falls County. George B. Fraser, Editor. Published every Friday by THE NEWS PUBLISHING COMPANY TWIN FALLS, IDAHO.

Subscription Rates. One Year, in Advance, \$1.00 Six Months, in Advance, .60

Reliable information regarding the city and county promptly and cheerfully furnished. Address all communications to The News Publishing Company, Twin Falls, Idaho.

Entered as second-class matter, December 2, 1904, at the postoffice at Twin Falls, Idaho, under Act of Congress of March 3, 1879.

Twin Falls has been filled this week with another crowd of land seekers which, in the main, either purchased Twin Falls property or agreed with itself to take this course in the near future.

Inasmuch as "health is wealth," and that scientific authorities have proven that flies are dangerous carriers of disease, it would seem that window and door screens are as important in summer as stoves in winter time.

Down here we do not mind the local political shake-up of Boise city administration forces, because we do not busy making money in Twin Falls to consider such matters. However, we sympathize with Boise in her internecine strifes, and thank God we have none.

The fact that some fifteen bond houses made an effort to secure the proposed issue of paving bonds from the city of Twin Falls is an indication that we are in the public eye big and plenty, for a small town, also that the shrewdest of financiers have recognized that there are very material resources behind this municipality.

The first issue of the Caldwell Daily News has reached the office of this newspaper, and we send the publisher and editor, Frank G. Barroughs, our best wishes. His how to the people of Caldwell suggests that his intentions are to give them a readable, spicy and newsy journal; but we sympathize with this editor in the trials awaiting him after the newness of his venture shall have worn away.

The fact that people of Twin Falls county contributed upward of \$1,000 last week for the improvement of the Baptist church in this city is another illustration of the generous as well as the boosting spirit of this community. It may not all be religiously inclined, but everybody realizes that anything is deserving which tends to uplift mankind, and every institution having features of this character gets support of everyone in proportion to his or her ability.

MONEY FOR MILK PRODUCERS. - Let there be no hesitancy among Twin Falls county farmers over getting into the business of producing milk for sale to the creameries. It is now a better-paying business than when commenced in every western locality a few years ago. In all those sections the creamery men would like to get 50 per cent more milk than is available, and sufficient milk is unavailable, because there are not enough cows in the western country.

It would therefore seem that, in conjunction with the production of milk, there is a splendid revenue in sight for the men who will undertake the development of these animals in this section. Inasmuch as some Twin Falls people will ask why dairying is contemplated as an inviting field for this section, the News takes pleasure in saying that there is a constantly increasing demand for butter and by-products, which has expanded larger than has the production of milk cows and the production of milk through two specific causes, viz.: Fancy living has largely increased among the continuously-growing wealthier classes in the cities and smaller municipalities. The ice cream, soda fountain and confectionery trades have vastly expanded everywhere, and these sources of consumption were a few years ago practically nothing, compared to what they are now.

The higher grades of butter command as high as 60c per pound, in California and New York. Time was when these higher mar-

kets for good butter scarcely existed in the west. Now they are found in many of our cities.

When creameries were first inaugurated in Denver, eighteen years ago, the public looked on somewhat apathetically, but as more prices were possible to the milk producers of the suburbs of that city. Today the creameries—and there are hundreds in Colorado—are paying 25 cents per pound, or "gauge," for separated cream, 20 cents per gallon for whole milk; sour milk is commanding 28 cents, and skim milk 40c per hundred weight. And the dairymen who grow their own forage are making big money out of supplying these various classifications of the cow's product.

It is a business that will never be overdone, furthermore, for the reason that there is a strong probability of the milk and butter-consuming population of the Nation increasing at greater ratio, during succeeding generations, than in the past.

THE RAINS AND THE CROPS.

Testimony is divided as to whether the recent rainstorms in Twin Falls county have done more damage than good. There are those who say much benefit has been received by this precipitation, because it has laid the dust, and made permeation, either foot or in vehicles, more pleasant, which everybody admits may be true. Others, equally expert and qualified to render an opinion on this momentous question, are telling that the alfalfa in the stacks is soaked, because the stacks throughout the county are so loosely erected.

It is recalled by those gentlemen that last winter many of these kinds of stacks were found saturated half way to the bottom with water.

Another contingent of qualified men are declaring that enough water has not fallen to seriously affect the hay, either in stack or cock, or the grains yet in sheek.

And in fact there is as much divergence of opinion heard around town on this subject as there formerly was on the question of just when a player should lay down a good hand at draw-poker. And so far as those men in town are concerned, they are apparently about as well qualified, in fact, to speak authoritatively on the first mentioned as the latter question. The only element that seems to feel positive as to whether the rains have done more good than damage are the farmers who have sown grains and grasses this fall and who wanted moisture on the ground to start them growing.

The "dry farming" husbandman rejoices complacently at his good fortune in this respect.

Whatever the losses from the rain to the hay stacks, their owners are merely in the same category with poker players who did not know when to lay good hands down. They could not help it.

FARMING NATION'S INSPIRATION

While Twin Falls people have been congratulating themselves, and with good reason, the last week or two on our four years prodigious progress; while we have been opening new irrigated tracts at Bull and Milner; and while we have participated in founding the new city of Hollister, we yet have been reminded by reports from the great city of New York that on the Atlantic coast things have been progressing also and that Gotham has held the greatest celebration in the history of the modern world, of the results of the American spirit.

Out here we consider who have done great things in constructing a gigantic irrigation system and building a city of 5,000 and in assembling in Twin Falls county 15,000 to 20,000 people, all within the space of five years, on territory that had been, until this work began, merely a sagebrush desert. People view this gigantic work with amazement, and pronounce it wonderful. Those here swell with pride in the thought that no greater testimonial exists to the sagacity, energy and scientific development which enable these results to be accomplished here.

And as all of us ask the cause for our very action, and inasmuch as it here must be explained, we promptly say it has been the farmer who furnished the real incentive for all this development here and who has brought the results into being which, the capitalist paved the way for.

On the other hand, look at the picture in New York. That city is great, overwhelmingly beautiful in every feature. They perform big things there, and have been inspired to attain great ends that would yet have been impossible but for the farmer.

Indirectly therefore, the agriculturists of the entire Nation have really made Gotham what it is.

The New Yorker swells with admiration at his achievements in the concrete, but he is, in his individuality, less strong, has a shorter mental vision, and is less influential, than the farmers of the West, who continue to lay foundations for the further development of empirical cities like New York.

The crops of the United States are twenty times more valuable than the entire world's gold production in any year, and which latter was in 1908 \$410,555,300. Through its production from the soils the American farmer controls this vast sum. There is reason therefore why capital has respect, growing every year more and more, for the agriculturist. And in Twin Falls we know we feel prouder of our accomplishments than do the New Yorkers over their progressive history.

THE CHICAGO CROP DISPLAY.

Idaho May Show As a Whole There, and More Good Spuds Wanted.

A movement is under discussion, by the various gentlemen having in charge the proposed great display of Idaho products at the forthcoming National Irrigation exposition in Chicago, to cause the county to exhibit in one department under the general heading of "Idaho Exhibits." Therefore there is delay in the transmission of the Twin Falls county exhibit as a whole to the Wisconsin City, although the boxes are being sent to Dolso and will be held there until carloads shall be assembled from various districts.

In the meantime considerable of the best samples of Twin Falls county products are to be on exhibition at the Dolso fair, being so placed as they arrive. They will be again added to the Twin Falls county exhibit for Chicago, after the fair closes at Dolso, when everything will be sent on there.

Alexander McPherson, who has been busily engaged this week packing the exhibits in Twin Falls, said that he will be in Chicago, and will be active, as the crops may be gathered, samples of the very best things grown for exhibition in Chicago. Especially, he explained, are the best potatoes wanted, and the best of seedling from overbody who has extra good crops. The exhibit is not as representative as Mr. McPherson's former one, and he is expected to complete this division of the Twin Falls county display until this crop shall have been more fully harvested.

LAND LOCATORS WIN SUIT.

Joe Day and the Parks Exonerated of Wrong-Doin' Charges by Jury.

The case of Don J. Hines et al vs. the Idaho Real Estate & Produce Company, Joe Day, C. W. Parks and W. Van Park, which had been on trial during three days, in the probate court of Twin Falls, Judge Shields sitting, was decided last Wednesday by a jury. Ten minutes after retiring in favor of the defense. A judgment was also rendered against complainants.

MARRIED AT CLEAR LAKE.

Popular Richfield Couple Join Hands for Life Aseptically.

Theodore H. Brush and Miss Genevieve E. Evelev, both residents of well-known social favorites of Richfield, Idaho, were married at Clear Lake on Sept. 29th by Rev. H. W. Parker of this city.

The wedding festivities as well as the ceremony occurred at the residence of the bride's mother, Mrs. P. E. Syster, in the presence of relatives and about fifty guests, and was one of the most important social events of the year in that section, both the wedding and the reception being exceedingly popular among a large circle of acquaintances.

Miss Evelev was formerly a school teacher at Richfield, while Mr. Brush is cashier of the Richfield bank, and a leading business man throughout that region, having manifold interests.

HOUSES WANTED IN FILER TOWN

DEMAND IS SAID TO FAR EXCEED THE SUPPLY.

Other Evidence Reported That This Bustling Part of Twin Falls County is Progressing Like All Other Sections of It.

FILER, Ida., Sept. 6.—Mr. Isaac and Mr. Waters, from Washington, who have some salmon lands, arrived here last Wednesday. They wanted to rent a house here but as there are no vacant houses in town have concluded to build on. They are at once building a good demand in Filer right now for at least a half dozen four or five-room cottages.

Elmer Aman of Nebraska and W. L. Aman of Oregon, brothers of the Aman boys, south of town, have been in Filer the past week, visiting these relatives and looking over the land with the intention of making this part of Idaho their home. They are very well pleased with the possibilities here.

Mr. and Mrs. M. G. Ripley were in Twin Falls yesterday Monday. Mrs. A. A. Timm was in Twin Falls interviewing the dentist Monday.

Dr. McKee of Twin Falls was in Filer on business Monday. Dr. and Mrs. Newberry arrived here from Seattle Thursday. E. W. Fogarty, per 100 lbs., was in Filer, turned out Friday night and gave them a rousing welcome. The doctor and his wife were ready, however, and served refreshments to all.

Ripley Brothers got their auto home from Twin Falls Friday evening. There it has been in their best condition and Saturday took a party over to Hollister to the drawlows. The roads via Twin Falls are very good for autoing. Besides the new covers given to the car, but there was not much luck in the Filer crowd, as the first number called for Filer was 23, held by H. R. Miller. Ripley Bros. held Mr. Miller's power of attorney and sold his drawing to J. E. Noddings of Boise. George Pratt had a new sign painted for his Rickett stock this week. Mr. Lammert went to Dolso to work on the tract, did the work.

Mr. Kolb's new home, on Yakima avenue, is now completed and Mr. K. and family will move in once.

The Misses and Mrs. McIntyre report their millinery and bakery business good and are planning to open a new venture. The ladies of Filer find it very handy to be able to get their new lids at home rather than having to go to Twin Falls.

Mr. Lammert went to Dolso to work on the tract, did the work. The Filer Mutual Telephone Company meets in the Johnson building Friday night. All stockholders are requested to be there.

The Filer baseball team are going to play at home in the Johnson Field Friday night, Oct. 15. Admission 25c. Look for program next week.

C. E. Glines is packing George K. Miller's furniture and will ship it to Boise to Mrs. Johnson's sister, Della.

The Highline Grain Company have sold their holdings to the Twin Falls Milling & Elevator Company. We understand this sale includes the company's holdings in Filer, Peavoy and Bull. We do not know what will be done with the mill, but the Filer business, expects to do but hope he and his will still make Filer their home.

Mr. G. H. Ripley acted to Twin Falls Wednesday. A term and buggy led the procession. Mr. G. H. Erdman has been over on the North Side the past week building a garage and a new house. He moved his family over Tuesday.

Mr. Woods of Iowa, has been visiting his friends, Mr. Graves and family. Everett and Maxwell, the gentlemen that lately moved here with their families from Salt Lake, are now teaching on the Salmon dam. They are expected to return Sunday and report that they have a fine job and at good wages.

Frank Brown bought a fine piano at Mrs. Brown's auction last Saturday, which he brought to his sister, Miss Francis.

Ray Brown, the assistant cashier at the Filer State bank, sold his horse and buggy to L. L. Brown Monday. Ray bought another one at Twin Falls.

Karl Farnsworth, who last spring sold his checker ranch west of Filer to Mr. Tice, has been visiting on the tract for a few days.

NEW PRESBYTERIAN SYNOD.

Organization Will Be Effected Here During Next Week.

TWIN FALLS MARKET.

Oats: Tightly held. Without Offerings. Wheat: Steady. Flour: Steady. Corn: Steady. Beans: Steady. Potatoes: Steady. Apples: Steady. Sugar: Steady. Coffee: Steady. Tea: Steady. Rice: Steady. Oil: Steady. Lard: Steady. Butter: Steady. Eggs: Steady. Hides: Steady. Wool: Steady. Tallow: Steady. Soap: Steady. Candles: Steady. Paper: Steady. Cloth: Steady. Shoes: Steady. Hats: Steady. SOUTH OMAHA STOCK MARKET.

Sheep and Hogs Ruling Lower, and Cattle Holding Steady. SOUTH OMAHA, Oct. 2.—There was a good run of cattle all week, but the trade held up in pretty good shape throughout. All dealers are after supplies, and anything at all desirable has found ready outlet at prices little different from a week ago.

Good to choice range beef steers are quotable at \$5.00@4.60; good to choice, \$4.25@4.65; good to choice, \$3.75@4.25; fair to good, \$3.25@3.75; good to choice heavy feeders, \$5.00@4.35; fair to good, \$4.65@4.90; good to choice light medium weights, \$4.50@4.85; fair to good, \$3.50@3.85.

Receipts of sheep have been extremely heavy during the week, but the market shows a loss of only 25c from a week ago, which is very light considering the increase of about 30,000 head. Good killing lambs are quotable at \$2.00@1.75; yearlings, \$1.65@1.50; ewes, \$2.75@2.15; feeding lambs, \$2.25@1.60; yearlings, \$1.60@1.45; ewes, \$3.75@1.25; ewes, \$2.50@1.30.

The hog market today is steady to a shade lower. The bulk sold at \$7.80@7.87 1/2; top, \$7.90.

WANTED.—Young men stenographers. Excellent opportunity for energetic young men. Good, permanent position. Address: Mr. G. H. Miller, Twin Falls North Side Land & Water Co., Milner, Idaho.

W. R. PRIEBE WATCHMAKER and JEWELER

OUR STORE is full of pretty things. Just received a new line of

BREVITIES

Mrs. F. Ramsey has returned from Seattle.
The Hamiltons visited the Hanson family last Friday.
Miss Charlotte Powers has gone to Boise to reside.
Sam Olds has gone to Oregon on a health-seeking trip.
W. A. Gill of Kimberly spent a few hours here Monday.

Mrs. Hanson E. Morse has gone to Chicago on an extended visit.
Mrs. A. D. P. Keith of Hansen visited friends in the city Saturday.
N. D. Cunningham was a county seat visitor Monday from Hansen.
Fred Whitaker has been spending the week at Hansen and Elmer.

Dr. J. J. Douglas of Seventh Avenue East is ill of typhoid fever.
C. E. Booth entertained as guests this week Mr. and Mrs. Stone of Nampa.
Attorney J. H. Wise has returned from a flying business trip to Wyoming.

Dr. James H. Smith is in town from a prolonged stay on the Lower Salmon.
Dr. Adella R. Nichol has moved her office into rooms in the Boyd building.
Mrs. E. C. Hardy and daughter Mary, have gone to reside in Portland, Ore.

E. H. Bolton piloted a party of land seekers through the Hansen territory Wednesday.
George McClure of Burlington, Ia., is in the city investigating investment opportunities.
On the 11th, 12th and 13th inst, the Elmer stock company appears at the Orphanu.

John McClure of Pennsylvania, has purchased the 5-room cottage of C. A. Krueger in block 23.
B. F. Jain of Murrough came to Twin Falls Wednesday seeking medical attention for his young son.
M. S. Towne of Hansen spent the early part of the week in Twin Falls, looking after business matters.

Attorney F. F. Fellows is on a week to spend at his home. He is expected to return tomorrow.
The C. E. society of the Christian church meets the night of the 8th inst, with Miss Edith Bowers.
Dr. and Mrs. H. W. Wilson have a sister, Essie, Bartholomew and family from Michigan City, Ind.

Attorney Geo. C. McAllister has a new home east of the townsite at W. H. Johnson, recently from the Leon Redhead and Sturgeon McCoy from Hansen were calling on Twin Falls friends and acquaintances Monday.
C. A. Robinson will erect a commodious residence on Seventh Avenue and the foundation excavation has been started.

W. F. Warner took a flying trip to Salt Lake City, Monday.
Robert Rogerson spent Thursday in Bull on business.
W. F. Allen has been spending several days in Salt Lake on business.
M. M. Cron, from the Salmon, left Monday for Moscow to attend the unveiling of the monument.

A. S. Brown has gone to Bull to reside and engage in the auctioneering business there.
The Catholic ladies held a silver tea at the home of Mrs. Channah on Monday evening.
Ruben Jones and Bill Tidlock have struck a good looking lead at Conestoga and are sinking thereon.

Two shifts of men are at work on the Armstrong group under the management of V. A. Marshall at Conestoga.
Mrs. Thomas and G. G. have removed with the family from Boise and will spend the winter in Twin Falls.
Dick Swanson has been making reports from Twin Falls to Conestoga the past few weeks, taking in supplies.

George B. Davis, a contractor from Boise, was among the enthusiastic participants in the proceedings at the Holliester opening.
Col. S. H. Avery, president of the North Side Settlers' Association, spent several days in Twin Falls last week, on route East.
Fred Smith of Twin Falls passed through Twin Falls last Friday en route to Spokane, where he will spend a week visiting relatives.

Mr. Scott-Rouse, salesman for the Sweet Candy Company, Salt Lake, was in town a couple of days last week and reports good business.
W. S. Gullford passed through the city Monday, on route to Jerome from Milner, where he attended a meeting of the North Side Company.
About forty of the members of the Episcopal church, who are many of the priced Rev. and Mrs. Chamberlain, Thursday evening with an hour's call.

Mrs. C. M. Wynne, C. E. Gaylor, Jr., and S. M. Moses arrived from Chicago Monday to see Twin Falls farm lands with a view of investing there.
W. S. Starr of Kimberly was a Twin Falls visitor this week, (inauguration) and was very complimentary in his remarks on many friends, of whom he has many here.
W. M. Lambing, having purchased a home in Twin Falls, returned Saturday with the expectation of making arrangements to remove here next March.

Having presided at the Holliester drawing, and gotten many matters thorough in running order, Major W. L. Lacey, who has charge of the Twin Falls Milling & Elevator Company's business in Hansen, has been spending some time in this city for the active campaign contemplated there by this company, which is leading in the grain trade of this part of the valley.
Hansen from the operating department of the Oregon Short Line, spent a few days here early this week, conferring with city officials relative to street grades of the new street, and the widening of the street there the officials want the tracks lowered, which request Mr. Hansen will report upon.

Rev. Thomas Hoekling of Tooele is visiting D. L. Hoekling of this city, will preach Sunday morning next in the Methodist church at 11 o'clock. At 7:30 p. m. the pastor, Rev. H. W. Parker, will preach and there will be special music. "Every body welcome," he says, "and if you are strangers, come and let us get acquainted."
The first of the "Wednesday musical" studies occurred Wednesday at the residence of Mrs. Gullbert. Participants in the program were Mrs. Sprague, Mrs. Gullbert, Mrs. Dehn and Miss Carlson, and Miss Messrs. Day, Jones and Thomas. The works of Ethelbert Nevin only were discussed and rendered and the occasion was very edifying to all present.

J. M. Johnson, representing a new brand of explosive, arrived in Twin Falls Tuesday from Salt Lake, and has been engaged for several days making tests of its powers at the Salmon dam, with the expectation of having it used on that work. Mr. Johnson claims that his explosive is superior in many respects to anything ever placed on the market for blasting purposes.
A most enjoyable affair occurred Tuesday, when the Twentieth Century club held an informal reception. Mesdames Alton, Swagley, Gloucheck and Packard were the guests of the afternoon while Mrs. Chamberlain and Mrs. Stalker presided at the punch bowl. An enjoyable program furnished the entertainment and it is hoped that the club will favor its friends with another informal afternoon.

Mrs. M. J. Sweeney entertained the Afternoon Bridge club at its second meeting this week on Friday afternoon. After a few games of bridge, the business session was called and the adoption of new rules and regulations was discussed. The following committee for the coming year were also appointed by the president, Mrs. M. M. McCallum: On entertaining, Mrs. Sweeney, chairman; on members, Mrs. Sweeney, chairman; Alton and Pike. The club meets this week with Mrs. E. M. Sweeney.

M. J. Sweeney of Bull was here on business Tuesday.
Mrs. J. M. Williams came over from Plover Thursday.
Geo. Connell was here from Bellevue Thursday.
D. M. Denton has gone to Colorado on a brief business trip.
John T. Emery and family of Chicago arrived in Twin Falls Monday.

G. W. Mean of Hansen was among the county seat visitors this week.
Mrs. H. W. Parker, wife of Rev. H. W. Parker, is visiting this week at Mountainblain.
B. J. Bradley of Heyburn has been spending a few days here on business.
W. A. Ducker and E. J. Monroe of Gooding were Twin Falls visitors Thursday.

H. C. Alexander and W. S. Harris and wife of Bull were Twin Falls visitors Monday.
P. C. Flores and wife, and Mrs. F. S. Albee, of Shoshone, were Wednesday arrivals at the Perrine.
Jacob H. Moler and Miss Zula M. Head of Plover were married at the Methodist parsonage Wednesday last by Rev. H. W. Parker.
J. P. Pierson, former classmate of T. J. Woods, came in from Jerome Tuesday and is now enjoying a pleasant visit with the latter.

Ten Artesian City lots and ten acre tracts were sold this week by the Idaho Real Estate & Produce Company, Tuesday afternoon.
Del Sprague is acting as a pharmaceutical expert this week at the Calkins & Boot pharmacy, in the absence of Mr. Calkins on a trip to the coast.
Earl Snyder, F. B. Brown and G. Melaner of Oconowoc, and W. D. Sprenger of Watertown, constituted a Wisconsin party that viewed the tract Monday.

The social given by the Young People's Church Union was held in the Baptist church on Friday evening, Oct. 1. There were about eighty-five present and all had a very enjoyable time.
Miss Bertha Beltray is visiting Twin Falls relatives, after an absence of several months in Los Angeles, where she is court stenographer. She was formerly clerk of the court here under Judge Chamberlain.
A special election will be held Monday next by the farmers residing in that district, to authorize bonds for the construction of a bridge across Rock Creek, near Wm. Urie's residence, southeast of Twin Falls.

Mrs. Dr. D. Brown Lewers has returned from her California and coast trip much improved in health, and she and her husband will continue to make their home in Twin Falls, with which they are both more favorably impressed than any place they have ever resided in.
Mr. Lacey, who has charge of the Twin Falls Milling & Elevator Company's business in Hansen, has been spending some time in this city for the active campaign contemplated there by this company, which is leading in the grain trade of this part of the valley.

Hansen from the operating department of the Oregon Short Line, spent a few days here early this week, conferring with city officials relative to street grades of the new street, and the widening of the street there the officials want the tracks lowered, which request Mr. Hansen will report upon.
Rev. Thomas Hoekling of Tooele is visiting D. L. Hoekling of this city, will preach Sunday morning next in the Methodist church at 11 o'clock. At 7:30 p. m. the pastor, Rev. H. W. Parker, will preach and there will be special music. "Every body welcome," he says, "and if you are strangers, come and let us get acquainted."

The first of the "Wednesday musical" studies occurred Wednesday at the residence of Mrs. Gullbert. Participants in the program were Mrs. Sprague, Mrs. Gullbert, Mrs. Dehn and Miss Carlson, and Miss Messrs. Day, Jones and Thomas. The works of Ethelbert Nevin only were discussed and rendered and the occasion was very edifying to all present.

J. M. Johnson, representing a new brand of explosive, arrived in Twin Falls Tuesday from Salt Lake, and has been engaged for several days making tests of its powers at the Salmon dam, with the expectation of having it used on that work. Mr. Johnson claims that his explosive is superior in many respects to anything ever placed on the market for blasting purposes.
A most enjoyable affair occurred Tuesday, when the Twentieth Century club held an informal reception. Mesdames Alton, Swagley, Gloucheck and Packard were the guests of the afternoon while Mrs. Chamberlain and Mrs. Stalker presided at the punch bowl. An enjoyable program furnished the entertainment and it is hoped that the club will favor its friends with another informal afternoon.

Mrs. M. J. Sweeney entertained the Afternoon Bridge club at its second meeting this week on Friday afternoon. After a few games of bridge, the business session was called and the adoption of new rules and regulations was discussed. The following committee for the coming year were also appointed by the president, Mrs. M. M. McCallum: On entertaining, Mrs. Sweeney, chairman; on members, Mrs. Sweeney, chairman; Alton and Pike. The club meets this week with Mrs. E. M. Sweeney.

The McCallum of Roseworth, was a Roseworth guest Monday.
C. Oliver of Kimberly spent the early part of the week in the county seat.
A. J. Jones closed a deal this week for a forty-acre tract south of the city.

Mrs. T. H. White has gone to Cambridge, Idaho, on a visit with relatives.
F. J. Smith of Decatur, Ill., was among the week's Twin Falls land seekers.
L. H. Lusk of Dawson, Minn., spent Monday looking over the tract as a land seeker.
C. W. Welton's family has arrived from Cambridge, Ill., and will reside here.

C. B. Andrews and R. D. Hendricks of Jerome spent Sunday among Twin Falls friends.
C. O. Field of Hamilton, Or., was circulating over the tract on land seekers Tuesday.
C. J. Frawley of Boise spent several days in Twin Falls this week on a business deal.

Mr. and Mrs. F. R. Cunningham of Jerome were among Twin Falls visitors Tuesday.
Chas. Page of Jerome came over Monday to shake hands with the Twin Falls contingent.
C. E. Sandstrom and A. H. Moore, both Gooding hotel men, were among the Holliester opening attendees Saturday.

Pocastello Academy will play the Twin Falls high school football team at the ball park here Saturday afternoon, Oct. 13.
Henry Lamsden and wife, (who is a sister of Mr. T. H. White), went to Mountainblain this week, after an extended visit with the Whites.
A cement transformer house is under construction by the Great Shoshone Falls Water Power Company at the corner of Third Avenue and Third Street East.

Leater T. Wright will build a seven-room dwelling at corner of Sixth Avenue and Second Street East, to cost \$7,000. Excavations have been started for the foundation.
E. C. Post, an Ann Arbor, Mich., lawyer, A. M. Shannon of Portland and W. H. Warren of Boise, were among the visitors entertained this week by local real estate men.

F. D. Kimball, formerly of Twin Falls, is now in charge of the W. C. Cornick & Co. bank at Bureka, Utah, spent several days here this week, on business and greeting old acquaintances.
Geo. W. Spiers of Des Moines, Ia., one of the principal financial backers of the West End tract, registered Saturday at the Perrine and put several days in the county seat on business matters.

Miss Elda Edeberg, who drew No. 9 from the Holliester "raccoon" last Saturday, sold her lot selections to which she entitled her, for \$50 bonus and considered her day's work was quite remunerative.
County Commissioner E. R. Sherman of Bull, came in Monday. He had just returned from Seattle, where he spent two weeks making preparations for closing the Twin Falls exhibit at the end of the fair.

J. F. Fulton, on route to Baker City, Ore., stopped a few days here this week and examined the conditions. "It certainly looks good," he remarked, "and I hope to get hold here soon. This is a coming metropolis."
Among the Iowans visiting Twin Falls county this week were Fred W. Koop of Monticello and George G. Drury of Cedar Rapids, both in the land prospecting line, and declared themselves exceedingly well pleased with the prospects.

Houghtaling & Vissor, the off-credit Twin Falls architects, are receiving much praise from critics for their plans for the proposed Holliester hotel, the exterior views being delightfully original and beautiful and artistically conceived.

George D. MacQuerry of Wendell is visiting friends in this city.
Mrs. George F. Sprague and the children arrived from the coast Wednesday evening, after having spent considerable time there visiting and pleasure taking. They were met on the road by Mr. Sprague, who had preceded them here last week and prepared everything in the house correspondingly.

The gutt building, west of the postoffice, has been finished by Contractor Ernest White, and is a creditable piece of work, everything having been neatly completed, even to the concrete sidewalks with curbs and pugh that spells great success for the man who had this improvement in hand.
Since the railroad is running regularly from Twin Falls to Holliester (terminal), arrangements are being made to put on an automobile line from that point to Contact. By this arrangement the trip can be made easily in a half day, and the facilities for getting supplies to the camp will be very much improved.

Atty. F. B. Bell of Salem, Ia., who came to the effect of buying property and locating in Twin Falls, not only purchased a home this week, two miles north of the city, but declared he will move his family here as soon as possible and bring friends along from his native state.
W. N. Powers of Ely, Nev., registered at the Hotel Perrine Tuesday. He said: "I am steadily prosing on the leading copper property in the West. It will be Twin Falls' greatest vegetable market whenever direct railway connections are secured from Coals or some other point on the main Southern Pacific line."

The Ladies Guild of the Episcopal church held its semi-annual election of officers at the rectory on Thursday. Mrs. McCallum was chosen president; Mrs. Oakley vice president; Mrs. Henry Allen secretary and Mrs. Greenhow treasurer. There were twenty-five ladies present and elaborate plans were made for their Christmas sale.
L. D. Garvin has been in Twin Falls the last week placing his farm of eighty acres, six miles west, on the market for a miller, not a farmer," he explained, "and I have not been as successful as others working my land. It is not the fault of the land, however, nor the country; but merely for the reason that I am not used to a farmer's life."

T. E. Moore of Elfr visited the city Sunday on business connected with his butter commitments, which are quite heavy. "The ruling of the state pure food inspector, requiring that all butter labels be printed, did not disturb me in the least," said Mr. Moore, "because I have always used printed labels on the packages I send to market."
Joel L. Priest of Boise, and connected with the Short Line Company's traffic department, spent Friday here. Asked about the north-and-south line through this city, he said: "This company, I understand, intends to tap the main line of the Southern Pacific out of Twin Falls inside of two years—maybe next summer."

Mr. and Mrs. J. M. Speckman, who were among the first investors in Twin Falls, and have seen their city grow rapidly from the sagebrush, were among the most interested people who attended the opening of the Holliester townsite. "It am satisfied," he explained, "with what I have accomplished in this country, and believe it is going to be repeated in the future, therefore I am here to secure what I can. My good wife and I are hoping to get good numbers out of the drawing, and if we do not then we will invest anyhow. Only a few years will elapse until Holliester will be a good town."

IOWAN BUYS NICE HOME.
Will Engage in Fruit Culture Here, Coincident With Removal.
Henry Gleason, chief of police of Fort Dodge, Ia., Thursday last purchased from Lars Anderson, for \$4,500 cash, ten acres improved and containing a large house, on Blue Lakes boulevard. The sale was made by S. H. Bolton of the Twin Falls Realty Company, and is one of the handsomest of the season.
This property is located near the Waters nurseries north of the city, and in one of the best sections of the suburbs.
About one of the ten acres is set to fruit, while the balance is growing alfalfa. It is the intention of the purchaser to utilize the entire tract for orchard and to remove his family with his family to permanently reside in the near future on his newly acquired home.

Status of Holliester Railroad.
Principal delay, since the construction of the Holliester-Salmon dam railroad began, is being experienced now because of the unexpected condition of the bridge across Deep creek 25 miles from Twin Falls. The road is completed to a point ten miles south of the dam, but will branch off toward the dam at what is known as mile-post 29. The work of construction, it is reported by the employes of the Holliester and will branch off toward the dam at what is known as mile-post 29. The work of construction, it is reported by the employes of the Holliester and will branch off toward the dam at what is known as mile-post 29. The work of construction, it is reported by the employes of the Holliester and will branch off toward the dam at what is known as mile-post 29.

Taft Will Urge Ship-Subsidy.
Speaking before the largest audience he had faced since his great transcontinental trip began, a crowd that overflowed the hall, the manager of the Alaska-Yukon-Pacific exposition at Seattle with its seating capacity of nearly 20,000, President Taft last Saturday announced that he will urge in his coming message to congress the enactment of a ship-subsidy law. Mr. Taft declared that the country was ready to make such an experiment and that something must be done to build up a merchant marine. His utterances on this subject were received with great acclamation.

To make home happy is an art—not a good many people have either lost or never found.
When you want my article of merchandise buy it of a reputable home dealer, that the profit may remain to benefit the community.

Ladies are cordially invited to inspect our new line of FALL AND WINTER MILLINERY now on exhibition The Mode Millinery WILLIAMS & WILLIAMS, Proprietors 5 doors west of the Post Office

If you don't own a raincoat it's something you ought to have; and after you've had it a week, you'll wonder how you did without it so long. The new models you're showing Hart Schaffner & Marx raincoats are very stunning, some of them button-through, with military collar; some have the regular lapel collar and fly-front, some are double-breasted. But they're all of them all-wool, and they all shed rain perfectly. In addition to your regular overcoat, have a raincoat. You must see the new suits, too; they're exceptionally good; and we have plenty of styles and patterns for you. Now grays and blues are the prevailing colors. Suits \$20 to \$45. Overcoats \$15.00 to \$20.00. *This store is the home of Hart Schaffner & Marx clothes. The Eldridge Clothing Co.

HOTEL AND BANK ASSURED.
 Hollister will quickly build into City Properties.

Following the conclusion of the sales of the choicest lots on the day of the opening of Hollister, considerable time was spent by the attendants in casting up their prospects, and many declared it is their intention of immediately proceeding to improve same with buildings.

Among these are several stores, a bank structure, as well as the various smaller housings for innumerable kinds of business which will open next season, three during the next few months. The streets are well marked out, asphalt having been removed by the townsite company, but a short portion will elapse until this region will have assumed quite the proportions of a growing Twin Falls county metropolis.

The plans are approved for a hotel of more pretensions than the Hotel Perrine of Twin Falls, and it is the intention of Messrs. Hollister and Perrine to push this building to an early completion. Every modern convenience and comfort are provided in the plans; even to hot and cold water baths, electric lights and running water.

BIG FORCES BEHIND HOLLISTER
 Men Who Have Participated in Founding New Town.

Men responsible for the establishment of Hollister include quite a list of aggressive empire builders, who are engaged in developing this part of the Snake River valley, in South Idaho, and especially what is known as the Salmon River tract, adjoining the original Twin Falls tract on the south. These gentlemen's operations are carried on under the name of the Twin Falls North Side Investment Company, of which the following are officers: I. B. Perrine, president, W. S. Kuhn vice president, W. W. Hurlbut, secretary, D. C. McVaters, treasurer, Major Fred B. Reed general agent, and H. L. Hollister, for whom the town of Hollister is named, represents the very large Kuhn interests in Chicago at 202 J. S. Salo street, where large colonization operations are in progress with a view to placing inquirers there in reliable connection with the western headquarters of the Salmon and other irrigated tracts under this same management.

Through the personal efforts of Messrs. Perrine and other citizens of Twin Falls, the Short Line management was induced to build into the Salmon tract from Twin Falls, after the company had almost decided upon some other point would answer this purpose at that time deemed most satisfactory; and but for these extensions on the part of Mr. Perrine it is said, the line might not have been started from Twin Falls to the site of rising metropolis. As things have developed since, however, it appears to have been a wise decision on the part of the railroad people, in many ways confirming Mr. Perrine's good judgment. He is said to have also been able to induce the railroad to accept in railroad circles by the influential work performed by Mr. Hollister and the Messrs. Kuhn on the eastern end of the investment.

Throughout the proceedings Twin Falls strongly aided the project with all the forces that could be mustered through the Commercial club, representing principal business interests of the city.

But ninety days were required to construct the road, and place the train manager in operation. This is an illustration of the vigor with which the entire project of irrigating the Salmon tract, preparing for Hollister's opening and for colonizing the Salmon tract, have been handled.

A large corps of able assistants have participated in these laborious exertions on the part of the Twin Falls North Side Investment Company, and to them due credit should be given for their part in making successes which these enterprises enjoy.

Major Reed, hereupon in strength, and a tireless worker, had these forces thoroughly organized; therefore the arrangements for the Hollister opening were perfect in detail, and were carried out to the letter, giving satisfaction to the public in all respects. The able assistance given to this work in Twin Falls by J. C. Moore, Lieutenant to Major Reed and who has charge of many of Mr. Perrine's various other interests in this city, was generously recognized as having had a most influential bearing in culminating Hollister's first big celebration.

Bank and Lumber Yards.
 The Nibley-Channel Lumber Company purchased five and the City Lumber Company four lots in Hollister at the opening, and each completed establishing yards there at as early a date as possible. N. J. Holte, from Edendale, N. D., is arranging to establish a bank in the town by Jan. 1, 1916.

A happy family is but an earthly heaven.

WANTED
 Contracts for Sage-brush Grubbing.
 Good workmanship.
 All hand grubbing.
 Absolutely clean job.
 See or write to me at once.
FRANK HOSHIMOTO
 Box 615, Twin Falls, Idaho.

YOUNGEST MAN AT DRAWING.
 Came from Ohio and Had a Lot of Fun and Frolic.

Walter Eldridge Weaver of Gallion, Ohio, was probably one of the most interested spectators and participants in the Hollister drawing, because he had a lot of innocent fun. He had to his record also the honor of having been the youngest man on the site, being but four years of age.

Throughout the proceedings this precocious Buckeye, tender in age as he was, failed to weary of the excitement, and marveled an onlooker of good cheer until the end, playing and prattling pleasantly with strangers, and acquaintances alike, while his mother and father, Mr. and Mrs. J. J. Weaver of Gallion, bundled themselves investigating the chances of acquiring what there was in the way of best lots available for the land money.

Mr. and Mrs. Weaver had been spending a vacation in the West, and dropped into Twin Falls just in time

 No. 53-637, J. M. Morse, Twin Falls, Idaho.

BUHL WATER WORKS

NEGOTIATING FOR PURCHASE OF EXISTING PLANT.

Awards Made for Exhibits at Late Farm Products Exposition, and Also Full Review of Other Buhl Happenings.

BUHL, Idaho, Oct. 6.—Dick Leach, who has been elected by the Twin Falls Land & Water Company several years, left Friday for Seattle, where he will spend the winter, and in the spring will go to Northern Alaska, where his father has several gold mining claims, which Dick will assist in operating.

Fred Volgt, secretary of the Twin Falls Land & Water Company, and M. J. Swezey, of the law firm of Swezey & Stewart of Twin Falls, were in Buhl Friday night for the purpose of attending a special meeting of the city council, at which negotiations were carried on for the purchase of the waterworks system by the city from the company. It was practically agreed between Mr. Volgt and the council that the city would sell the waterworks and all material belonging thereto now in the city, to the company, for \$30,000, of which the city would accept \$25,000 in ten-year bonds, and the balance in bonds at 6 per cent interest per annum, and would take a mortgage on the waterworks for \$5,000 for the balance of the \$30,000. The city council agreed that in case the city should need money at any time within the next few years for the purpose of extending the system, the company would loan it \$5,000, which would be repaid in the first case, by a mortgage on the plant. As it is necessary, according to law, for the city to advertise for bids for such a mortgage, the city attorney was instructed to prepare the notice for such bids and commence its publication at once, which was accordingly done.

A well attended dance was given Friday night at the Snodgrass opera house.

J. B. Bierman and Mrs. Bierman left Sunday evening for Fort Collins, where they will spend the winter. Mr. Bierman sold all his personal property, but retained his ranch.

The Buhl Boosters baseball club has disbanded for the season. All the foreign players left for their respective homes, the last one, F. G. Trumppfeller, the first baseman, leaving Sunday evening for St. Louis. We expect them back in the spring, and if they return, Buhl will have the crack team of Southern Idaho.

A baby girl was born Saturday night to Mr. and Mrs. John F. Mothven. Mother and child are doing well, and father John says that they cannot deprive him of girls. He lost one in 1917, but this new arrival gives him the same number still.

John Larson, brother of Ed Larson, and Peter Wambo, who have been here and looking over the country all summer, left Sunday evening for Minneapolis, Minn.

Frank Wiles sold his ranch a mile south of town, last week, for \$125,000 an acre. Land values around Buhl are climbing, but they are advancing at a sure pace and one that warrants that they will never fall back. Mr. Mrs. W. H. W. and Mrs. W. H. W. of Illinois, where they will visit for a short time, and will then go to the coast to the winter. They expect to return to Buhl in the spring.

The city council held its regular monthly meeting Monday night, transacted routine business, ordered a license issued to the Office saloon for one year, allowed a new ordinance to be drafted by the city attorney to prepare a bond issue ordinance for the \$25,000 bond issue to be made for the purpose of purchasing the waterworks. Bidders will be invited to bid on the ownership of public utilities. There is no doubt that the election for the bond issue will carry by more than the required two-thirds vote, and the city is expected to receive for \$3,000 less than they cost to build, but Mr. V. H. H. said at the meeting of the council Friday night that the company was anxious to get rid of their property as well as other property of a similar character, as the company had matters of greater importance to attend to, and that its officers desired to be free to devote their time and attention to those more important matters, which is the reason why Buhl is able to get such a bargain in the waterworks system.

W. L. Manderson and E. B. Brackett of Roseworth were transacting business in Buhl Thursday.

Thomas Higgins of Three Creek was a Buhl business visitor last week.

Robert Rogerson was up from Twin Falls Thursday on a short business trip.

A. F. Ehinger of Wendell, was over from the northwest town Friday to take a look in at Buhl and transact some business.

Peter Hanks and Lloyd Lamford were up from Hesperian Saturday on business with some of the Buhl merchants.

A. W. Hartwell was over from Roseworth last week and spent a few days in Buhl transacting business.

F. F. Warner of Twin Falls was up from the county seat for a short business trip Saturday.

BIG LEAD DEAL INVOLVING \$37,000

MAGNATE BUYS ALMOST WHOLE SECTION NEAR TWIN FALLS

Charles Mead of North Yakima, Wash., for \$37,000, 520 acres in section 10, township 10 north, range 19, which is a mile north of Kimbory and five miles northeast of Twin Falls. This deal, which had been pending but a few weeks, was closed within the last week. The negotiations were carried directly between the seller and buyer.

Mr. Mead is one of the heaviest farm land owners of his part of the state of Washington, easily ranking at half a million dollars. His "next friend" in this vicinity is W. P. Guthrie, attorney. Between these gentlemen there is an acquaintance extending over a period of ten years.

Mr. Mead had heard, through advertisements, of the splendid prospects of this region, its accomplishments, and the fact that the soil was fertile, seeking the best he could find in the way of an investment. He looked thoroughly over the district, made inquiries for something big, and was directed by Guthrie to the land which he secured.

Mr. Mead's intentions are to seed the entire tract to alfalfa, believing there is more money in this use of these acres than anything else.

Mr. Guthrie said that he believes the investments already made by Mr. Mead in this section are well warranted, and that the acquaintance of Mr. Mead with heavy farm land investors of Washington and the high opinion this investor holds of the Twin Falls section, led to his bringing at least twenty-five other financially strong men here with their capital in the near future.

Other real estate transactions of the week include the following: By the Twin Falls Realty Company—Forty-five acres to F. J. Smith, known as lot 2, northwest quarter of section 10, township 10 north, range 19, four miles northwest of Twin Falls.

Lot 16, block 62, with four-room house in Twin Falls, to C. W. Forman.

Five-room house, on lot 2, block 31, to C. W. Buckley.

Five-room house, on lot 14, block 23, to J. A. Poitz.

Tract of 100 acres, to W. A. Follett. This property adjoins W. P. Ring's improved home. Follett was offered \$20 per acre advance on the price he paid for the home.

Ten acre tract to F. S. Ball, of Salem, Ia., at \$250 per acre. This property adjoins the home of J. M. Speckman, north of Twin Falls.

Eighty acres at \$150 per acre, consisting of the east half of the northeast quarter of section 13, township 10 north, range 17, to Fred C. Polzin.

Forty acres at \$150 an acre, consisting of the southeast quarter of the northeast quarter, section 26, township 10 north, range 16, three and one-half miles southwest of Twin Falls, to Axel B. Lister.

Lot 11, Surto's addition, four and one-half acres, containing 6-room house, adjoining Twin Falls townsite.

One hundred twenty acres Salmon relinquishment in section 9, township 10 north, range 16, to Jas. S. Doming.

By Woods & Thomas—To Mrs. W. D. Lockwood of Nooksack, \$225, lot 26, block 88, just east of the Commercial National bank building. The purchaser will improve this property with substantial business structures.

Eighty acres Salmon River land to W. J. Truoblood.

Intends Putting All of His Purchase in Alfalfa—Other Sales in a Week of Exceptionally Live Real Estate Activity.

Charles Mead of North Yakima, Wash., for \$37,000, 520 acres in section 10, township 10 north, range 19, which is a mile north of Kimbory and five miles northeast of Twin Falls.

This deal, which had been pending but a few weeks, was closed within the last week. The negotiations were carried directly between the seller and buyer.

Mr. Mead's intentions are to seed the entire tract to alfalfa, believing there is more money in this use of these acres than anything else.

Mr. Guthrie said that he believes the investments already made by Mr. Mead in this section are well warranted, and that the acquaintance of Mr. Mead with heavy farm land investors of Washington and the high opinion this investor holds of the Twin Falls section, led to his bringing at least twenty-five other financially strong men here with their capital in the near future.

Other real estate transactions of the week include the following: By the Twin Falls Realty Company—Forty-five acres to F. J. Smith, known as lot 2, northwest quarter of section 10, township 10 north, range 19, four miles northwest of Twin Falls.

Lot 16, block 62, with four-room house in Twin Falls, to C. W. Forman.

Five-room house, on lot 2, block 31, to C. W. Buckley.

Five-room house, on lot 14, block 23, to J. A. Poitz.

Tract of 100 acres, to W. A. Follett. This property adjoins W. P. Ring's improved home. Follett was offered \$20 per acre advance on the price he paid for the home.

Ten acre tract to F. S. Ball, of Salem, Ia., at \$250 per acre. This property adjoins the home of J. M. Speckman, north of Twin Falls.

Eighty acres at \$150 per acre, consisting of the east half of the northeast quarter of section 13, township 10 north, range 17, to Fred C. Polzin.

Forty acres at \$150 an acre, consisting of the southeast quarter of the northeast quarter, section 26, township 10 north, range 16, three and one-half miles southwest of Twin Falls, to Axel B. Lister.

Lot 11, Surto's addition, four and one-half acres, containing 6-room house, adjoining Twin Falls townsite.

One hundred twenty acres Salmon relinquishment in section 9, township 10 north, range 16, to Jas. S. Doming.

By Woods & Thomas—To Mrs. W. D. Lockwood of Nooksack, \$225, lot 26, block 88, just east of the Commercial National bank building. The purchaser will improve this property with substantial business structures.

Eighty acres Salmon River land to W. J. Truoblood.

Four acres on Blue Lakes boulevard to W. T. Cummings.

Twenty acres to E. Washburn at \$105 per acre, two miles east of city—section 13, township 20, range 17.

Lot 14, block 91, on Main Avenue, to J. E. Montgomery, \$500.

Eighty acres, four miles east of Twin Falls, at \$45 per acre, to W. J. Truoblood.

NEAT CLEAN-UP MADE BY FORMER COLORADO FARMER.

By the Use of a Few Thousand Dollars Capital, Fortunate Operator Clears Small Fortune in Twin Falls County Land.

Whether it is luck or good judgment, that guides his hand, but it is certain that the man who came into Twin Falls from Colorado two years ago, is among the most successful money-makers who have quickly jumped into territory of most enviable character in Twin Falls county.

This man's experience furthermore again emphasizes the fact that opportunities are existent in this country for men to get acre, rapid, profitable action on their capital, great or small.

There is no mythical feature connected with Calver's operations. He is known to have sold during the last week a tract of land of 520 acres, near Twin Falls—only five miles outside of the corporate limits—for a round \$37,000, for about two years ago but \$55 per acre, including the land and the water right.

Calver isn't of course going round telling everybody about his luck, which his net profit is, but his acquaintances declare he is anywhere from \$3,000 to \$5,000 to the good.

Inasmuch as the land was purchased from the writer company, and that payments for the land run to the state in annual installments extending over a number of years, it is not considered probable that Calver used more than \$3,000 to \$4,000 in swinging the tract into his own possession. In the interim, between the time he secured it and the date of sale, he is not supposed to have invested many dollars in its improvement other than what was required to raise some crops and seed a part to alfalfa. Returns from these are believed to have aggregated more than was expended, so that the increased price of sale over what it cost him is voluit.

Christian Science services are held every Sunday morning at 11 o'clock, and Wednesday evening at 8 o'clock, in the church on Third Avenue East, between Second and Third streets. Sunday school for children between the ages of four and twenty at 10 a. m. Reading room open in the church every afternoon except Sunday from 2:30 to 4:30.

How the aviator looks down upon the chauffeur!

Monthly Summary.
Temperature—Mean maximum, 75.5; mean minimum, 47.3; maximum, 92; date, 16th; minimum, 28; date, 23.
Precipitation—Total, 1.54 inches. Greatest in 24 hours, .36; date, 25th. Number of days on which .01 or more precipitation fell, 7. Number of clear days, 15; number of partly cloudy days, 16; number of cloudy days, none.

Remarks—Potato vines not entirely killed in this locality, one mile north of Twin Falls, Idaho.

SPECIAL DRAWING

Government Lands Irrigated Under CAREY ACT

Twin Falls Country Southern Idaho

On the Main Line of Oregon Short Line Railroad

A FAR, SQUARE PROPOSITION

With Approval of State Land Board of Idaho

LAND AND PERPETUAL WATER RIGHT, \$35.50 and \$50.50 per Acre, Payable in Ten and Twelve Annual Installments.

You can register by mail at the office. Small deposit at the time of registration. You pay for no land until you have seen it and are entirely satisfied. Deposit will be returned if you see the land and do not file.

You know whether you draw land without the expense of a trip. You will be notified if successful in drawing and be given 15 days to personally inspect the land. You do not have to cruise the land before the drawing. You do not buy a "cat in a bag." Project entirely under supervision of the State of Idaho.

CROPS THIS YEAR
OATS.....102 Bushels Per Acre
BARLEY.....96 Bushels Per Acre
WHEAT.....74 Bushels Per Acre
ALFALFA.....7 Tons Per Acre

You may register any time from Oct. 1st to Oct. 19th. Drawing to be made Oct. 20th, 1905, at 10 o'clock a. m., by the Idaho Irrigation Company, Ltd.

For full information and instructions regarding the drawing, and for booklet, write or call on

VALUE OF BEETS AND SUGAR PLANTS

MONEY THAT THIS INDUSTRY CIRCULATES IS ENORMOUS.

Figures That Give Some Idea of What May Be Expected When the Lands Adapted to Beet Culture in Twin Falls County Are Thus Utilized.

While the sugar beet industry is under consideration by the farmers of the vicinity of Hansen, with a view of engaging in beet growing and of soon supporting a factory in that vicinity, it may be of interest to realize that the harvesting of this crop in other parts of Idaho and throughout Utah is now opening and will be in full swing very shortly.

The experts of the sugar companies estimate that the total yield for the season will be approximately \$500,000 tons, for which a price of \$2.10 a ton will be paid to the farmers.

In the two states there are about nine factories and four cutting stations, which will cut about \$1,000,000 in wages during the running season. The factories are at Lehi, Garland, Ogden, Logan and Lewiston, Utah, and at Blackfoot, Idaho. The Sugar Cane and Nampa, Idaho. The four cutting stations are at Provo, Springville and Spanish, Fort, Utah, and at Perry, Idaho. During the running season the various plants will consume about 112,000 or possibly 115,000 tons of coal.

Owing to the exceptionally heavy rains of the summer months, the period in which the beets acquire their sugar making qualities, the beets are lower in these qualities than in former years. It is estimated that 16,000 pounds of sugar will be produced during the running season. The annual consumption of sugar in Utah and Idaho is 20,000,000 pounds, of which a quantity 20,000,000 pounds are produced at home and the remaining 10,000,000 pounds are imported. About 600 tons of sugar will be expected. During the closed season the sugar companies of the two states expend about \$500,000 in maintaining their plants.

POTATO BUG IN IDAHO.

Warning That Producers Must Heed, or Suffer Losses.

The University of Idaho agricultural experiment station at Moscow has issued a bulletin on "The Colorado Potato Beetle in Idaho," in which instructions are issued on the most efficacious ways in which to destroy this pernicious pest.

They are described, when mature, as being plump, yellow beetles with black stripes on the shield, the head and under parts of a reddish-orange color. The young stages are reddish grubs with black marks along the sides. The eggs are orange in color and are found on the under side of the leaves of potato, in groups of a dozen or more. The young are always found on potato vines, but the adults may occasionally be found in other places.

Only adult beetles winter over; they burrow deep in the ground in the fall and come up in the spring; about the time young potato vines are coming through the soil.

When the adults come up out of the ground in the spring they are less than half as much as they did when they began hibernation in the fall, although the hardness of the shell makes this loss of weight imperceptible to the eye. They are very hungry, however, and in their search for food they will rise on the wing and sometimes fly for miles. This is the time when they spread.

To prevent the spread of the beetle, watch potato vines carefully when they first come up, and destroy any bugs that appear before they have laid eggs.

Where not numerous the beetles should by all means be collected by hand with a view of getting them; where they are too abundant for this the vines should be sprinkled with Paris green, two teaspoonfuls in a bucket of water.

HOW A FARM HAS PAID.

Land That Was Rented Yields Owner Over 10 Per Cent.

Dubu Herald: The John Buford place was recently sold for \$16,000. The farm consists of 160 acres and is located about three miles from town. The first year that Mr. Buford purchased the place he had it cleared and sown to crop. It has been rented ever since, and has paid the owner \$800 to \$1200 profit each year.

This shows what improved farms will do in this country. If Mr. Buford had left the land in sagebrush it would be worth about \$50 per acre and a loss of about \$1000 on the average for each year, a total loss of more than one-half the price he received for the crop. This is one of the many illustrations of improved land against unimproved land in Twin Falls county.

WEDDED AT RUPERT THURSDAY

Popular Young Journey Start on Long Life's Journey Together. Thomas Beech of Twin Falls and Miss Hildah Nelson of Rupert were married at 11 o'clock Thursday morning, Sept. 30, at the residence of the bride's sister, Mrs. M. Titus in Rupert, by Rev. D. B. Titus of the Christian church.

Relatives and friends were present. The happy bride and groom departed for Twin Falls on the evening train, after having received copious congratulations and splendidly playing wedding music that was served in their honor by Mr. and Mrs. Adams, Mr. and Mrs. Beech will reside here.

BIG SPUD CROP GROWS CLOSE IN

EIGHTY ACRES YIELD OVER 100 BAGS PER ACRE.

The Ground Being Utilized for Potato Culture While Owners Have It "On the Market" As a Speculation and Are Making Money Too Ways.

The raising of potatoes in the vicinity of Twin Falls is going to be successful, so far as soil and climate are concerned, and also the indications are that this use of the land may prove to be immensely profitable, almost from the inception of this industry on a large scale.

Figures of the big tonnage of spuds cultivated by A. V. P. and Company, the well-known Twin Falls real estate operators, this year, reflect the financial possibilities of this crop here. Two tracts of land, one of 100 acres, located last spring, one of which is a mile north on Main Avenue, and the other two and one-half miles east (on Ad. street Avenue) of the potatoes. To the person accustomed to large areas of farm land, where great distances separate the bases of operations from the seats of population, the cultivation of these tracts in so nearby tracts seems paradoxical; but the fact that big operations of this kind can be prosecuted by men who get live in town and enjoy all the pleasures of community associations, and social life, adds another strong point in favor of Twin Falls as a desirable place in which the farmer may live and prosper easily and comfortably, without isolation.

Wednesday Mr. Llesner came in from a visit with his potato crop, and brought along samples of the spuds which are very superior in general character, and said: "We have altogether eighty acres of spuds, two different tracts serving this purpose. Unless thus used the land might otherwise be idle. I believe we will have at least 100 sacks of spuds per acre, and this at the present price of 50 cents per hundred pounds, this ground gives up 8,000 pounds of potatoes, and the gross revenue therefrom will be at least \$4,000, over half of which will be profit, allowing the widest latitude for expenses of raising them and getting them on to market. It is likely, however, that this estimate of the expense is too large.

The owners contemplate shipment of the entire crop of these eighty acres in car lots, but may not put them on the market for the present, in the belief that, by waiting a few months, a better price can be secured on account of the fact that the crop throughout the eastern and middle states is short.

By diverting this ground as they have done, to potato culture while it is on the market, Llesner & Company set a pace which several other Twin Falls firms are expecting to follow next season. Several tracts that are for sale by non-resident owners, and which have been held for speculation are said to be in line for cultivation by lessees and renters.

BIG PRUNE MAN HERE.

Comes from Boise to Look Over Twin Falls Orchards.

E. J. Sinsel of Boise, famous as the biggest shipper of prunes from this state, has been spending considerable time in Twin Falls this week, looking over the field, with a view to securing the best land as a "wind-up" of the season.

"It has been the highest in my experience in Idaho as an exporter," he said, and also declared the prices of all fruits have been very high. Idaho prunes last sent on to New York by his house commanded \$1.25 to \$1.50 per crate.

"Halo prunes," continued Mr. Sinsel, "are not only coming more in demand every year in foreign markets, but the competition is being won by us, but that it was a few years ago, and the lightness of the crop has been felt in many communities this year where large quantities have gone in previous seasons."

Mr. Sinsel is turning his attention to handling the Idaho apple crop this season, and he found there is a growing amount of young orchards in this vicinity which he is intending to watch from year to year. He declared the apple crop is light everywhere, and that this fruit will be high this winter.

WHAT TWIN FALLS MAY EXPECT

Service of Electricity from Irrigation Dams Proves Practical.

On Oct. 1 the United States government began delivering electric current over a transmission line lighting of the city of Phoenix, Ariz.

The company that built this line is the first patron of the government to buy electric power generated at the Roosevelt storage dam, the proceeds going back into the reclamation fund as a credit to the Salt river reclamation project.

Later power will be furnished in some localities to settlers removed from ditches, who will irrigate land by pumping plant power being raised in lieu of water for acreage interests in the reserve.

Giving Land to Indians. The remnant of the Kallispell Indians, which from days beyond tradition has occupied the fertile Bonanza tract in northwestern Washington, has decided to take farms like white men. Forty acres to each Indian of good soil are being allotted by the government.

Marriage certificates, not divorce, are written in sympathetic ink.

MANY BIDS SUGGEST TWIN FALLS HAS GOOD CREDIT.

Twenty-Year Securities Will Be Issued at 5 Per Cent and a Bonus Is Received from Bond Buyers on Entire \$40,000 Issue.

Twin Falls credit is first-class, apparently, in the estimation of bond-selling houses which desired the \$40,000 bonds that were recently authorized by this municipality for paving and sewers and which were awarded to H. C. Speer & Sons, of Chicago, by the council last Tuesday night.

For a 5 per cent bond, running twenty years, with privilege of paying in ten years, the city was offered by this firm par and interest, and a bonus of \$137.50, bidder to furnish the blank bonds.

There were fourteen other bidders, all from exceedingly responsible firms in eastern cities, and some of which offered to take 6 per cent bonds only. These concerns were desirous of giving the city larger bonuses than did Speer & Sons, but the computers of the bids concluded that the increased rate of interest involved in a 6 per cent bond more than offset the lower bonus asked by and conceded to the successful purchaser.

About \$25,000 of the proceeds of the sale of these \$40,000 bonds will be available for paying for pavement of street intersections, and the other \$15,000 used for sewer extensions.

Typewriter Economy

Good work is cheap at any price

UNDERWOOD STANDARD

Typewriter

shows the way to the best work at the lowest operating cost. Visible writing, combined with the perfect action of the machine allows the operator to keep the mind constantly on the work.

The result:—work is turned out neater, freer from error and quicker than is possible with any other machine you can buy.

The perfect balance with the absolute freedom from friction gives a durability to the Underwood that shows a very marked saving in the cost of repairs.

Before deciding upon a machine, let us show you the difference between a "Trailer" and

"The Machine you will eventually buy."

ATTENTION, LADIES

THIS IS FOR YOU!

Last week we gave special attention to our Gents' Department. The result was the largest sales ever made in a week by any store in the history of Twin Falls. This week we are going to devote some attention to the "Ladies' Department" of our store. We have the largest assortment and best selected line of Dress Goods, Dry Goods, Tailor-made Suits and Dresses for women, misses, girls and children in this city. To show our appreciation of the liberal patronage already accorded us, we are going to make it an object for every woman in Twin Falls County to visit our store and be convinced she can purchase any article found in any large store at the right price. Our business has grown so great in the past six months that we can afford to be liberal. **HERE IS WHAT WE OFFER:**

SHOES GIVEN AWAY!

Women's, Boys' and Girls' Shoes ABSOLUTELY FREE!

We will pay your Shoe Bill from October 8, 1909, until further notice. You can be shod with the very best footwear **WITHOUT ANY ULTIMATE COST TO YOURSELF**

HOW IT'S DONE

We give you a purchase slip with every item of wearing apparel (Men's and Young Men's Clothing and Furnishings; Boys' Clothing and Furnishings; Women's, Misses' and Girls' Clothing; also Trunks, Traveling Bags and Suit Cases) you buy at our store, and on each slip is marked in plain figures the total amount of each transaction. You preserve these slips and on presentation at our Shoe Department, when their total face value equals any slip amount stated in accompanying Premium Slip Table, you will be given a generous credit on the purchase price of any pair of shoes you may select; the credit under certain conditions actually presenting you, FREE of all cost, the finest footwear it is possible to obtain anywhere.

PREMIUM SLIP TABLE

Slips to the amount of \$2.50 entitle you to credit of 25c on shoe purchase.
Slips to the amount of \$5.00 entitle you to credit of 50c on shoe purchase.
Slips to the amount of \$10.00 entitle you to credit of \$1.00 on shoe purchase, or any pair of \$1.00 shoes absolutely FREE.
Slips to the amount of \$15.00 entitle you to credit of \$1.50 on shoe purchase, or any pair of \$1.50 shoes absolutely FREE.
Slips to the amount of \$20.00 entitle you to credit of \$2.00 on shoe purchase, or any pair of \$2.00 shoes absolutely FREE.
Slips to the amount of \$25.00 entitle you to credit of \$2.50 on shoe purchase, or any pair of \$2.50 shoes absolutely FREE.
Same proportion of shoe credit given on all slip amounts over \$25.00.

THE REASON

We are determined to have the reputation of doing the biggest retail shoe business in the state, and if there is anything that will accomplish our purpose, it is this Genuine, Legitimate, Fair and Square Proposition. We already transact a good-sized business, but so pronounced is our spirit of progressiveness, that we are never satisfied with plain, ordinary, every-day-matter-of-fact achievements. This, therefore, is the reason for our making such an unusual offer—**ACTUALLY GIVING AWAY SHOES ABSOLUTELY FREE.** We sell only reputable makes of shoes, the kind that combines equally the greatest amount of style, quality and comfort; and yet our regular prices are always low.

Save all your purchase slips and when you present them at our store, their total face value gives you a substantial credit or your unrestricted choice of any pair of shoes in our stock, in accordance with above schedule. Purchases may be made in any other Department than Shoe, and combined to equal any of the slip amounts. Every pair of Shoes we sell is perfect in every detail as far as we can make it. In case any pair should prove to be otherwise than entirely satisfactory, remember it is our policy to make it right. In consideration of this, and the unusual nature of our offer of shoeing you absolutely FREE, are we not entitled to the biggest business in the State? We feel confident that you will at once say we are, and we will surely get it.

One of our specialties this week is our line of **Bear Skin Coats**, with cap and leggings to match for children. These garments are especially well made and healthful and warm for winter wear.
