

JARBIDGE CAMP HAS RICH STRIKES LAST TWO EQUALLY AS IMPORTANT AS FIRST.

TWIN FALLS MEN HAVE GOLD MINE ANOTHER NEW DISTRICT ACCESSIBLE FROM HERE.

KLONDIKE MINERS GO TO JARBIDGE OUTFIT AT BUHL, WHERE LARGE INTEREST IN CAMP EXISTS.

RAILROAD NEWS IS ENCOURAGING EARLY BUILDING VIA CONTACT TO MAIN LINE PROMISED.

DEATH OVERTAKES HEALTH SEEKER VICTIM OF TUBERCULOSIS DIES IN LODGING HOUSE.

BIG LUMBER FIRM FOR TWIN FALLS WILL ERECT OFFICE AND LUMBER STORE HOUSE.

All indications are that District will fulfill Hopes Spread When Original Discovery Was Announced-Prospectors Most Enthusiastic.

Autos can get in from this City in Day and One-half Over Fairly Good Road According to Reports of a Prospector.

Preparations Being Made by Big West End City to Secure Share of New Gold Camp Business-Roads Will Be Shortened.

Twin Falls Hopes for Southern Outlet Are Helped to Realization Earlier Than Had Been Anticipated by Several Influences.

Was Apprehensive of the End of Life, and Had Asked to Be Taken Home, but Relative Arrived Too Late to Perform That Mission.

Firm is Already Entrenched in Southern Idaho - Cities and Large Business Opportunities in Present and Prospective.

C. G. Winter arrived in Twin Falls Tuesday, less than a week out from Jarbridge, and said: The two big strikes, since Bourne first discovered his bonanza lode, were at Jarbridge and Glynnville, one and a half miles west thereof and on another vein entirely, and by Pierre Escalon, two miles southeast of and on the same vein as Bourne's. These were made a week ago.

Twin Falls seemingly has another gold mining camp prospect which is likely, in the next few months, to be another more tributary territory for merchants. It is more remote than Jarbridge and Falls early last week, and its characteristics are altogether different.

A. G. Howard, a prospector, residing at Winocomb, when at home, came into Twin Falls early last week, bearing specimens of ore from a rich discovery he has made on Queen river in the Disaster Peak region, seven miles south of the Nevada-Judah line.

Evidently the much-discussed southern railroad outlet from Twin Falls to Contact mining camp, is to be realized sooner than has been expected. Word came here this week, through J. M. Chambers, recently filed in the last office of Elko county, at Elko, of the Mindoka & Southwestern railway company, indicating that the new line will tap the Southern Pacific four miles west of Cobro, and suggesting it in the intention of the projecting corporation to proceed southward, after crossing the Southern Pacific, into Ely.

J. Owen Mason was found dead on the floor of his room in the Colorado house, in this city, at 7 o'clock last Sunday morning, by one of the alder lodgers; and, inasmuch as the indications were that no one had been present when the unfortunate man breathed his last, Coroner Charles J. Walker was notified.

Twin Falls will have another lumber firm in the near future, according to the announcement made this week by E. J. Ostrander, head of the Ostrander lumber company, whose main offices are at Yreka, Cal. From that point its business ramifications extend all over the southern part of the state, branches having been maintained at Wendell, Gooding and Hagerman. All these are to be continued, and the Twin Falls branch is expected to assume a very important part in the company's development, which building supplies are to be furnished the public.

There are about sixty men mostly Goldfield and Cripple Creek miners, in the district. They all declare it is the biggest gold discovery ever made in Nevada if not in the United States, and the excitement is running high.

Howard's visit here was for the purpose of conferring with two citizens of Twin Falls, who were recent visitors to this property, having been requested by the discoverer to inspect it. Here they perfected the deal under which an interest in this discovery was secured on the basis of developing great riches.

The route of this new line passes over the Contact investment company's townsite, and its owners believe that by the middle of next summer the construction work will be in full swing and that by fall trains will be in operation. Contact business has therefore come into high consideration among investors during the last week.

Two of these great goldmining claims owned in Contact. At the same time citizens all along the line of the Southern Pacific, in Northern Nevada, are being much gratified, because this new line will place them nearer a source of supplies.

Who it was intended at first to extend from the promoter's farm to the farm in the family burial plot, it was later decided to hold the funeral here Tuesday afternoon, Rev. H. W. Farnham officiating.

Education for Farmers. Special Courses Offered by University of Idaho, beginning January 26th, 1910, the dairy department of the University of Idaho will conduct a special course for creamery men, and another for cheese makers, who desire to acquaint themselves with the new and modern apparatus as well as the requirements of the most approved factory methods.

MR. JARR PLUNGES INTO SOCIAL SWIM

INDUCED BY HIS WIFE TO GET INTO SOCIETY

Received a Jovial "Ha-Ha" from His Friends at the Office but Nevertheless His Course Was Actuated for the Sake of the Children.

"Mrs. Stryver expects us to be Thursday afternoon today," said Mrs. Jarr, as Mr. Jarr was dressing preparatory to the day and his toil.

"Did you say that?" asked Mr. Jarr. "Yes, I said you," replied Mrs. Jarr. "U-s, we, you and I."

"Well, you can count me out, and you can convey to the lady my unending respects," said Mr. Jarr. "No for me the pink tie fight and the lady finger and macaroni mixup."

"That's the way you always talk," said Mrs. Jarr, impatiently. "You think it smart to fear at all the refining influences of the World. Your idea of enjoyment is the associations of the 'corner saloon'."

"What if you like that or tea and tattling and the high handkerchiefs," said Mr. Jarr, composedly.

"I'm sure I've been patient and never tried to interfere with your enjoyments, even when they were of that sort," said Mrs. Jarr. "But our children are growing up, and we must begin to make nice associations for their sake."

"When Willis is older I am sure you will be glad to see him associating with the Slavinsky boys or those children of Muller's and Bepler's. Gus, your favorite friend and companion, who likes the saloon on the corner, has no children, fortunately!"

"Oh, Willis might do worse," said Mr. Jarr, coolly. "Slavinsky's boy is a right little fellow and has made his mark in the world. Young Henry Muller has extraordinary talent for drawing; his father is going to send him to an art school, and everybody predicts a great future as an artist for him. Bepler's eldest boy has won a scholarship at high school—I hope our Willis will never associate with such people!"

"And it will be grand for little Emma when she grows up to go with the same set!" remarked Mrs. Jarr.

"Well, sir, I don't know about that," said Mr. Jarr, weakly.

"Like all American fathers, he had inclinations toward social progress in the matter of daughters. Then a saying thought struck him.

"I can't go. I can't get away from the office," grumbled Mr. Jarr.

"Business is the first duty of a man who doesn't want to do something," said Mrs. Jarr.

LIFE TRAGEDY OF AN ITALIAN

SPENDS \$40,000 VAINLY, TRYING TO FIND FATHELESS WIFE.

Has Recently Returned to Spokane and Relates Story of the Search Which Did Not End Until All Hopes of Success Had Vanished.

After traveling thousands of miles in Europe and spending \$40,000 in an effort to win back his wife and children and get in his power the man with whom the wife eloped, Frank Bruno, a resident here, but wishing to hide his time, has arrived in Spokane, Wash.

"Have I employed detectives to do my work and the man with whom she eloped?" should say I have. I have spent thousands of dollars. In my search I personally visited every city of considerable size in Italy, France and England. I was in all these places I secured the aid of the officials. But all was in vain. The elopement has already cost me \$40,000.

"I haven't the least idea as to where they are, but am satisfied they did not go to South America and did not return to this country. I am certain they are in Italy.

"This man, Joe Patullo, with whom my wife eloped, is a member of the 'Blackhand' and was a counterfeiter in his native country. Worthless for his work. He is too worthless to work."

"That man came to this city and I met him in my saloon. He seemed pleasant and spent money freely. I trusted him and he visited my home and asked to be godfather of the youngest of our seven children. This shows to what extent I trusted him."

STOLE HORSE, LEFT ANOTHER. Theft Occurred on One of Twin Falls' Principal Streets.

A. L. Yates suffered the loss of a good horse by theft last Monday on his farm near the city, and he was hitched in front of the Orsis theater on Shoshone street while Frank Yates was enjoying the vaudeville performance.

The theft came in the evening, when he came out of the theater he found, instead of his own steed, another, carrying another saddle, than had been there an hour and a half previously.

He was surprised, angry. He thought some friend had perpetrated a joke on him, and vainly searched the city for his own ring for some time. Not getting on his feet he traveled to the new mining district, the scene of the recent fabulous gold discoveries, where they intend spending several weeks on business.

He was accompanied by a man who is said to be interested in the organization of a new bank about to be opened there, in which Mr. Yates is interested.

BULL VOTES FOR OWN WATERWORKS

BONDS CARRIED BY VERY LARGE MAJORITY.

Entertaining Bunch of Live News Reported from the bustling West End Metropolis, including Theft of Judge Boggs' Chickens.

DUHL, Ida, Dec. 15.—A serious family quarrel occurred in a home close to Duhl Saturday night in which a baseball bat was used on one of the combatants, who was badly injured in the fray, having been hit on the head with the bat, which cut a deep gash across the forehead.

Thomas Clifton made a business trip to Twin Falls Friday in the interests of the West End Land company.

Christian Corfield was a passenger on the morning train to Twin Falls Friday, having gone to the county seat on business.

It is reported here on reliable authority that F. H. Duhl, president of the Twin Falls Land and Water company, has a large force of men at work above American Falls surveying and doing preliminary work on a big reservoir site there preparatory to a storage reservoir to conserve the flood waters of the Snake river for use in irrigating the Brunau tract which it is expected will be thrown open to settlement some time next year.

This means a boom for Duhl in the near future, as the distribution point for the Brunau for several years to come. Being the present terminus of the railroad, Duhl will benefit by the travel to the new project, as persons going in there must stop off at this city before proceeding further, and spend some time here both going in and coming out.

Mrs. Elizabeth Dack of Clear Lakes is sick with typhoid fever, and is being cared for at the City Hotel.

Russa W. Alred went to Pifer Sunday to be present at the organization of a new bank about to be opened there, in which Mr. Alred is interested.

Deputy Sheriff Fred Schneider, accompanied by O. M. Gault and G. W. Drew, stopped over in Duhl Saturday night on their way into the Jarbridge mining district, the scene of the recent fabulous gold discoveries, where they intend spending several weeks on business.

They were accompanied by a man who is said to be interested in the organization of a new bank about to be opened there, in which Mr. Alred is interested.

J. Hawkes, an old time friend of John H. Hopkins, Mr. Hawkes is visiting Mr. Hopkins. Mr. Hawkes lives in Preston, this state, and is an old pioneer, having crossed the plains in 1851, when he was but sixteen years old.

He drove stage over the territory now known as the Twin Falls tract, in 1854. He took an active part in what is known among the old timers as the Walker war, with the Indians, in 1853. He entered the Salt Lake valley through Emigration canyon in 1851. When he arrived in Salt Lake City, which he says was not

the ordinary wilderness of desert and sagebrush all around him, he exclaimed: "Am I doomed to make this awful desert plain my future home?" This was the day he hit his gold. "Salt Lake City looks different now from what it did then, and so does this country." It is really a new country to Mr. Hawkes, as well as to all the old timers who have seen it the first time in many years.

A fatal accident occurred in the vicinity of Lewis' ferry Sunday afternoon. Garrett Huston was driving a heavily loaded four-horse team down the incline towards the ferry, when the wagon turned over, or he was thrown off in some way. It is not known here exactly how it happened, but had both arms broken and was otherwise so badly injured that he died shortly after reaching Twin Falls Sunday night. He was taken to the hospital as rapidly as possible, but he was too seriously injured to be able to recover. Mr. Huston was from Chicago, and was in this country on business last year.

Mr. and Mrs. Walter M. Hoy left on Tuesday evening's train for Seattle to spend the holidays. They will return home about the middle of January.

The Duhl Furniture house is building a second store house back of its main building, in which to store its rapidly increasing stock.

Geo. C. Tyler of the Kimberly Nursery company, Kimberly, was in Duhl Friday taking orders for fruit trees to be set out next spring.

Joseph Winters of Sampson, Ore., spent several days in Duhl last week looking over the country and purchased 120 acres three miles west of Duhl, which he will commence to improve in the spring.

William Powers of San Francisco, Cal., registered at Hotel Buhl Friday. R. F. Musser, a banker of Orangeville, Ill., a friend of Fred Nihart, visited Mr. Nihart and family last week and spent some time looking around for an investment.

H. J. Young of Twin Falls registered at Buhl Hotel Tuesday Monday. He is very favorably impressed with the future prospects of the Duhl country and expects on this end of the tract the before spring.

L. D. Jennings came into town Tuesday with a load of beef, which he killed himself and soon disposed of to the meat markets in the city.

W. E. Campbell of Butte, Mont., was a Duhl business visitor Monday. He was among the investment seekers on this end of the tract in the last few days.

George Wade came in from his Castleford ranch Monday to lay in supplies for the holidays. George believes in buying his presents early, so as not to rush the store clerks to death at the last minute.

Bullhuts are enjoying the little snow that we have. Bleigh riding is the order of the day. Where the sightings came from is a conundrum. They appeared all at once as if by magic.

The Coloradoans in Hull homestead for the mountains that they left, where they could sleep half the year.

J. W. Jackson, one of the advance guard of the Ferguson flats settlers, was in town Monday on business. He pines for deer and does not seem to have done him any harm. He is as fat and sane as ever.

J. W. Thompson of Twin Falls made a short business trip to Duhl Monday.

Mr. and Mrs. E. M. Stanton went to Twin Falls Friday, to attend Mrs. Stanton's brother, who was taken seriously ill. It was learned here yesterday that he had to be taken east.

ing the Citizens' state bank building on Main and Broadway. Jack Howe was up from the Snake river Monday to inspect the bulldozing of the city engineer of Duhl and makes periodical visits to the city for the purpose of giving grades to the numerous parties preparing for building operations on business Monday.

A. F. Einger of Wendell was over from the northwest end town Tuesday on business with Duhl people.

Joseph Huff of Moab, Utah, was among the prospective land purchasers in Duhl last week.

The bond election which was held yesterday was a grand victory for the issuance of the bonds. Eighty-five persons registered. Sixty-eight votes were cast. Sixty-four for issuing the bonds and four against issuing them was the result of the election.

It was what should be expected, not only because it is a good thing in itself for the city to own its own water works, but since the country won't dry, we need some kind of a cheap drink to keep us from drying up and blowing away in the heat of summer.

And what can be cheaper than Duhl water except the water we are going to have it as cheap as we can possibly get it. No private corporation will own the drink supply of this city. Duhl shows the way in every respect.

This tract. It was the first to show the courage to sink for deep well water, and after it showed the Mississippians that the water under water except the water we are going to have it as cheap as we can possibly get it. No private corporation will own the drink supply of this city.

LEGAL NOTICE Notice of Writ of Attachment In the District Court of the Fourth Judicial District of the State of Idaho in and for Twin Falls County. Plaintiff, J. B. Swanson, jointly with Plaintiff, W. B. Swanson, Defendant.

Notice is hereby given that on December 10th, 1909, a writ of attachment was issued out of the above entitled court, and the above named defendant, attaching the property of the above named defendant for the sum of \$100.00.

In witness whereof, I have hereunto set my hand and the seal of my office this 13th day of December, 1909.

H. T. WEST, Clerk of the District Court. By C. C. BIGGINS, Deputy.

LEGAL NOTICE Notice of Writ of Attachment In the District Court of the Fourth Judicial District of the State of Idaho in and for Twin Falls County.

Notice is hereby given that on December 11th, 1909, a writ of attachment was issued out of the above entitled court, and the above named defendant, attaching the property of the above named defendant for the sum of \$150 and interest.

In witness whereof, I have hereunto set my hand and the seal of my office this 14th day of December, 1909.

H. T. WEST, Clerk of the District Court. By C. C. BIGGINS, Deputy.

ORDER TO SHOW CAUSE WHY ORDER OF SALE OF REAL ESTATE SHOULD NOT BE MADE. In the Probate Court of the State of Idaho, in and for Twin Falls County.

In the matter of the estate of Josiah May Perkins, Deceased. Silas Perkins, the administrator of the estate of Josiah May Perkins, deceased, having filed his petition herein, praying for an order of sale of some of the real estate said decedent as may be necessary for the purposes therein set forth.

It is therefore ordered by James W. Shields, judge of said probate court, that all persons interested in the estate of said decedent, appear before the said probate court on Friday, the fourteenth day of January, 1910, at 10 o'clock in the forenoon of said day, at the court room of said probate court in the city of Twin Falls, in the county of Twin Falls, State of Idaho, to show cause why an order should not be granted to the said administrator to sell so much of the real estate of the said decedent as shall be necessary.

It is further ordered that a copy of this order be published at least once a week for not less than four successive weeks in the Twin Falls News, a newspaper printed and published in said Twin Falls county, Idaho, and that said publication be completed at least five days prior to the said 14th day of January, 1910.

Dated December 16th, 1909. JAMES W. SHIELDS, Probate Judge. (Seal Probate Court)

Notice for Publication. United States Land Office. Halley, Idaho, Oct. 22, 1909. Notice is hereby given that the Northern Pacific Railway company, whose postoffice address is St. Paul, Minnesota, has this 22nd day of October, 1909, filed in this office its application to select under the provisions of the Act of Congress, approved July 1, 1890, (30 Stat. 697, 620), NW. of NE. of section 19-29-16 B. B. M.

Any and all persons claiming adversely the lands described, or desiring to object because of the mineral character of the land, or for any other reason, to the disposal to applicant, should file their affidavits of protest in this office, on or before the 23rd day of December, 1909.

RAISING WATER LEVEL

Providing Increased Storage Capacity at Dam.

The work of raising the level of the reservoir above the Mindoko dam is now about completed, says the Rupert Pioneer Record. Concrete piers eight feet high have been built along the top of the spillway, and these are covered with plank walk. Flash boards will be put in on the upper side of the piers and in this way the level of the water will be raised about four feet above the spillway, or about three feet higher than it has been heretofore.

This will greatly increase the storage capacity of the reservoir, which is nearly fifty miles long and a mile wide, and it will also increase the capacity of the power plant by providing additional pressure.

The building enclosing the power plant is now being completed, and the work of installing the turbine unit is progressing. The big turbines have been shut down until the opening of the irrigation season next year, but the small generator will be kept in operation for furnishing light and power during the winter.

HEAVY RAILROAD TRAFFIC

Twin Falls Branch May Be Short Now Freight Service.

The traffic over the Oregon Short Line is immense and seems to be steadily increasing, says the Mindoko correspondent of the Rupert Pioneer Record.

The Twin Falls branch is furnishing such a volume of business that it begins to look as though additional freight service will have to be put on that branch.

The main line is crowded so badly that freight crews cannot get over the division within the hour limit and no other trains are tied up here for that matter.

Trammaster Cunningham has been here for several days looking after the situation and trying to keep the business moving.

With the increase that is bound to come as the country is developed and with the branches being built, a double track from Granger to Hamilton will be necessary to handle

SHIPMENTS
MURTAUGH FURNISHES A BIG CONSIGNMENT THIS WEEK.
 Stainour, the Well Known Operator, Sells a Lot of High-Bred Sheep to Farmers in the Burley Section—Personal Mention.

MURTAUGH, Ida., Dec. 16.—Prof. J. E. Hinton of Hanson came here last week and picked up all the fat hogs in the surrounding country. He will load them out Thursday and ship with his Hanson consignment to Portland market.
 J. E. Stainour reports the sale of a small bunch of his pure-bred sheep, which he had on pasture at Hanson. They were shipped to Burley.
 F. Leo Jones has been remodeling his house the past week.
 J. E. Stainour was looking after his flock at Hanson Monday.
 L. C. Roberts was a business visitor at Twin Falls Monday. Mr. Roberts has been helping J. W. Draper with his carpenter work, but because of the inclement weather is laying off for some days.
 A. M. Reeves and W. A. Kuhn of Twin Falls came out Monday to assist Chris. Newman with his painting work. They are kansoming the J. Tolman residence this week, also W. E. Boers' house.
 B. E. Babcock of Twin Falls came out Saturday evening for a few days duck shooting. He returned Monday with a fine string of mallards.
 Frank Weichhammer sold his porkers to Prof. Hinton this week.
 T. J. Bacon held the lucky number in the raffio here Monday, drawing a fine new automatic shotgun. The gun was put up by W. E. Boers, the numbers running from 1 to 89.
 Mrs. W. P. Jones came home Tuesday, after a week's visit at Hanson with her brother.
 Auditor Lewis Pettit of the West-er Lumber company was looking after business and visiting the local agent, W. E. Boers, here Tuesday. He left on the evening train for Burley, Albion and Oakley. Mr. Pettit was very well pleased with the business his agent was doing here and at Artesian City. The auditor reports another new yard started at Oakley and thinks there should be a yard opened up at this point. The company's former agent at Hanson, T. Rutledge, drove Mr. Pettit into the country that he might get an idea of the surrounding farms and see the demand for a lumber yard at this place.
 W. E. Boers reports the sale of a large sheep band 2920 feet, sold to A. A. Tolman near here. Mr. Tolman believes in caring for his flock.

ARTESIAN CITY DOINGS
 New School Building Has Been Arranged For.
ARTESIAN CITY, Id., Dec. 16.—Mr. and Mrs. J. E. Bower went to Twin Falls Monday, where they are transacting business with the Artesian City Sewing company.
 The promoters of the city have arranged with the board of commissioners for a new school building which will be put up at once to enable the school to run a short term of school this winter. For directors of the new school district the following named residents of the district have been recommended: A. H. Doeringer; F. A. Merrill and Mr. Hutchinson. The Cassia county board agreed to cut off the settlement adjacent to Artesian City and by so doing form a joint district with a school house in Artesian City townsite.
 Probably a temporary building will be built by popular subscription.
 George Wise of Twin Falls purchased a five-acre tract which he expects to put to fruit the coming season.
 F. A. Gutshall of Twin Falls purchased a city lot last week, also G. H. Baker of Milner secured a lot in the city.
 Jno. Craig has been delivering his clover seed to Twin Falls market Hanson.
 A. E. Morrow of Twin Falls invested in a five-acre tract and a city lot this week.
 Robert Lake is painting the Bower house this week. The carpenters will finish their work in a few days.
 L. B. Jones is entertaining his friend Mr. Hobart this week. They were in Murtagh Tuesday purchasing supplies.
 I. C. Medley has purchased the buildings on E. F. Hayes' homestead and is moving them to his ranch this week.

Alaska's Gold Promise.
 Government reports show that Alaska was second on gold production in 1908, among the states and territories of the United States. It yielded yellow metal valued at \$10,868,000, and the indications are that with the opening of the new camps just reported, in a year or two, Alaska will be the first in the gold producing localities of the United States.

TO EXCHANGE.—A good timber claim, in Northern Idaho, for irrigated land in Southern Idaho, town property or vacant lots. Address, H. O. Jones, Harrington, Wash.
 For fish, call up 220; prompt delivery. Bulk oysters. Robertson & Janks.
LEGAL BLANKS.
 Of every character and description arranged from the best legal forms and brought strictly up to date.
 A full supply always on hand at the Twin Falls News office.

ADVERTISED LETTER LIST

PREFERS JAIL TO CORSETS.
 Cleveland Young Woman insists on Dressing Like a Man.
 A telegram from Cleveland, O., says: "I'd rather be in jail all my life than in these corsets and skirts any longer," declared pretty 25-year-old Lillian Moler a week ago, just before disappearing for a second time from the home of Gottlieb Moler, her step-father.
 She was arrested a month ago while posing as "Harry Roberts," ice wagon driver and livery stable hostler, after she had lived on the west side for two years as a man.
 "She's queer. We cannot understand her," stated Moler tonight. "But she loves horses and men's work and can't stand women's clothes. We've given her men's clothes, even suspenders, and she is back driving a grocery wagon. She says it is better than sewing and cooking."
 Her four tailor-made suits of H. Heartfield, merchant tailor, Shoshone avenue.
 Finest Line in the City.
 See the News for engraved wedding invitations, cards, etc.
 Robertson & Janks for prompt delivery. Anything in the most line, wholesale and retail. Phone 320.

GREENEY FARMERS FIND SORTING IS NECESSARY

After Years of Experience They Discover Much to Be Learned and New Methods Adopted to Maintain Reputation in Market.

A Greeley, Colo., correspondent of the Chicago Produce News says: "The quality of Greeley potatoes so far this season has not been up to the standard of former years."

This is not due so much to poor quality, as poor sorting on the part of the grower.

The fact is beginning to be realized by dealers and farmers and during the month there has been a movement on foot to correct this fault.

The farmers, as a few of the dealers, have organized an inspection bureau. The bureau has chosen a pioneer farmer, who is now refused, to act as public inspector and he has entered into his duties with a view to a certain standard of sorting and is going through the warehouses and classing the stock already stored as first-class, second-class, etc.

Under this arrangement, the dealers may refuse any loads of potatoes which do not come up to standard, either in quality or sorting. In case of a dispute the inspector is supposed to decide whether or not the stock is suitable for shipment.

This will force any intelligent farmer to put his stock up in good shape and will protect the dealer's interest.

The inspector will also go through the territory and examine the potatoes in the cellars belonging to the growers.

With this arrangement may not prove entirely satisfactory and may need considerable revision, it surely will result in a decided improvement in Greeley potato shipments, which from now on should meet with satisfaction in the eastern and southern markets.

The crop this year was damaged somewhat by potato bugs and grasshoppers, so that it is not so large as last year, but there are still a good many potatoes in the district and mostly in the hands of the farmers, who are shipping the loads brought. All stock shipped from now on will be loaded and resorted from the cellars.

NEW AEROPLANE ANNOUNCED

Will Carry Three Passengers and is Otherwise a Wonder.

Wallace E. Tillingshast of Worcester, Mass., announces that he has perfected an aeroplane that will carry three persons in safety, and in which he declares he has already flown from Worcester to New York, without stopping for fuel, in a time of an elevation of 4,000 feet and was seen, while returning to the Massachusetts city, by a coast guard, who reported the fact of having notified the coast guard in a timely manner.

His machine is built on the aeroplane pattern, has a 120-horse power gnomon engine, and weighs 1,500 pounds.

Mr. Tillingshast is president of a Worcester manufacturing company, and explains that he intends soon to make a demonstration in his home city of the practicability of his device.

CHINESE PHEASANTS PLACED

Crop is Being Planted Throughout Idaho Fields.

The state fish and game department last week shipped from Boise a large number of Mongolian pheasants, to be planted in various parts of the state where it is believed they may do well. Some went to Hagerman; some to Montpelier, some to various points along the Snake river valley. The birds were liberated at once on reaching their destinations, except in instances where they may be held and fed for a time, if the weather condition should seem to warrant letting them free.

The birds were brought from Oregon, where the department secured an "order" for a number of them. They have proved to be a conspicuous success in that state wherein they supply the finest of hunting, and are yet able to increase in numbers.

The pheasant is a hardy, wary bird, that is able to live in fairly well settled communities and still propagate its species despite the annual shooting.

MOVING PICTURES AT A TRIAL

Will Be Used as Evidence Against Assassins of Price It.

A telegram from Seattle, Wash., says: "Moving pictures of the assassination of Prince Itai at Harbin will be used in the trial of the Korean assassins according to a dispatch received by the steamer Kaga Maru which arrived here today."

When the prince and the Russian Minister Korkorostoff met, a Russian cinematograph photographer had a moving picture of the meeting and took the scenes attendant on the assassination.

When the Japanese official learned that the pictures were successful, they obtained a film 500 feet long and this will be shown in court at the trial. Another set of films will be exhibited in Japan.

BIG BOND SELLERS

WORK FOR IDAHO

EFFORTS OF TROWBRIDGE & NIVOR ARE APPRECIATED.

There were some things connected with the Land and Irrigation show at Chicago, says the Idaho Falls Post, that were hardly to the liking of the exhibitors from various states (Idaho included), owing to the circumstance that the Chicago papers and the Chicago press were very little public. The Tribune, favored the show, but seemed reluctant to boost it after the thing was fairly on its feet, and it is hinted that there was a mercenary motive behind it. So that as it may the result was satisfactory.

The show was good, and though the exhibits lacked proper preparation in Idaho, the success of the show has eclipsed any other state on the map in the variety and fullness of its exhibit. We have it from a gentleman who is an exceptionally close observer of such enterprises, the while there was ample opportunity to have made very elaborate displays with the products sent out, this or that, but the exhibitors, in the opinion of the observer, have been very little pleased in the result, as the advertisement has been far-reaching and the result will be satisfactory.

A significant feature of the show was the commission on the part of several corporations of great wealth, and money was spent in a lavish manner that the visitors to the exposition might thoroughly familiarize themselves with the exact conditions and advantages of the great irrigated West.

In this instance it is entirely possible to refer to the Trowbridge & Nivor company, as this great bond promotion house is directly interested in this locality, having recently taken over irrigation bonds of the district, and it is not surprising that capital has accomplished much for the upbuilding and advancement of Idaho and every section of it, including Twin Falls, and millions have been put into the state through the influence and energy extended by the Trowbridge & Nivor concern. Its agents and guests visited this part of the state during the past year for the first time. The attention made was lasting. A second party followed, and the opportunities of Sunnyland created profound interest with the right kind of individuals.

In addition to this interest it is a significant fact that the Trowbridge & Nivor company practically lifted the Chicago show out of the rut and proffered to the state the best of the interests might have an opportunity to determine the exact status of the west from the investor's point of view.

The Post has held for a long period that it was the bounden duty of the people of this section of the country to interest capital in our resources. The honest man is always a desirable quantity, of course, and the more of him, the merrier.

But the faith of the investor is the most vital thing in the building of a new country, and there is reasonable ground for the assurance that the attention of capital is turned this way and the circumstance can be productive of nothing so great as the future exploitation of the resources and advantages of this section of the Snake river valley, promotion at the right hands.

The fact that heavy investment has been made in the great corporation, that thousands and thousands of dollars have been spent in the shoe process of personally interesting other investors, that special trains have been run into this state through the straining to the individuality of the worth of the country that needed their money, undeniably stamps the Trowbridge & Nivor company as one of the best friends that Idaho has at the present time.

The introduction of capital for the purpose of carrying our irrigation bonds means that their securities will command attention. It means that capital will follow for investment even on the direct operation, that is, in the consummation of building enterprises or manufacturing or other institutions.

It is not necessary to elaborate on detail. The operation of the principle of the thing that affords the principal interest. One great combination of corporations has shown the greatest faith in Idaho development. It is extending to this end of the state. It is a natural course of events that other interests will follow and the same identified with the pursuits of life and upbuilding of this part of Idaho, and faith must be shown in the fact that regard Idaho Falls and surrounding country with friendly eye. The promotion and advancement of any country depends upon the many other related improvements for the investment of millions in Idaho projects, and the desire of those investors to further their work and interest, assures well for the future of the state, and that there will be return commensurate with their faith is but a simple matter of commercial operation. Investments already made are secured a hundred times.

It is the encouragement of this manifest friendship on the part of corporation interests that will be productive of the most gratifying result to this or any other community. It is reasonable to assume that no capitalist will invest his money unless there is fair opportunity for return, and the native must not go on the theory that there is opportunity in all ways in sight. It must be advanced at times, and now that extensive investing combinations are centering

STRICKEN WITH APLOXY WHILE BEAMING

Ingratingly in Fair Health, Well-Known Resident and Physician of Southern Michigan Expires Here.

Dr. Daniel McLin of St. Joe, Mich., died quite suddenly Tuesday afternoon, at the Rogers Hotel, at about 11:30. He had arrived in Twin Falls on Sunday last, intending to make investments, and although he had knowledge of the possession of a weak heart, he was not aware of the attack of the trouble. Late Monday afternoon an arrangement had been made with his son, James McLin, and S. H. Zekind, a nephew, under which they were to have attended the Oriskany theater in the evening.

Just previous to time for starting however, the doctor complained of feeling ill, and told the younger men he would have to cancel the engagement. He administered an injection of morphine such as had been his custom, in the hope of obtaining relief, but throughout the night suffered severely.

Tuesday forenoon there seemed no occasion for alarm, and in fact shortly before being again attacked by the paroxysms that took out his life, had asked Zekind to prepare a light meal for him. While waiting for this, the fatal stroke was heralded by clearing symptoms, and the attendants hurriedly sent for Dr. W. H. Wilson. Before the latter arrived, however, the end had come.

Coroner Charles A. Walker was called and in conjunction with Dr. Wilson a thorough investigation of the case was made, which proved beyond doubt that death was due to apoplexy. The remains were prepared by H. C. Hunt & Co., and started for St. Joseph on the Tuesday evening train, accompanied by James McLin and S. H. Zekind, two estimable young men, who were considerably distressed by the sorrow which had befallen them so quickly.

Young McLin first came to Twin Falls about a month ago, and had done very well. He was looking for in which to locate for business activities of various kinds.

It was in response to his representations that Dr. McLin had come west, for the purpose of giving his son the benefit of his observations and experience. Young Zekind had accompanied the doctor, because he was a close associate of the doctor, and the younger men had expected to embark in investments together. They could not say whether or not they would return, although he favored their work.

Dr. McLin was 63 years of age and a high Mason, and the expectation was that the remains would be met in Chicago, and accompanied by a delegation of that order to his former home, where the funeral services were expected to occur next Sunday.

Dr. McLin was a very wealthy man, and said to have been one of the best known and highly recognized members of the medical profession in Southern Michigan. He was also a brother of F. McLin, the promoter of the celebrated beverage known throughout the country as "coca-cola."

WALLS CLEANS UP LEWISTON.

Closes a Meat Market and Throws Cider Into the River.

Lewiston is receiving a municipal clean-up from James H. Wallis, state pure food commissioner.

He dropped into that city last week and started a crusade that started all the natives. The telegrams from the Relief-Statesman describing the conditions says "awful unsanitary conditions were disclosed."

All fixtures were required to put a cement floor in their slaughter house and the Cold Storage Meat market was permanently closed. Several barrels of cider were condemned and many other related improvements for the protection of the public health were ordered.

His efforts on Idaho, and made Idaho the exposure of all eyes at the Chicago show, the state should feel some sense of gratification that it is making good on the investment, and the greatest faith is felt in the ability of moneyed combinations to turn the tide of immigration this way. And no combination has been more active or energetic in the past few years in doing outside publicity work for this state than has the Trowbridge & Nivor company. It has accomplished for this state in opening the eyes of people to the opportunities what James J. Hill did for the North-west.

And the average citizen is not lost to the sense of appreciation for the great publicity work that has been carried on.

LUCKY

Story Related of a Young Man at a Bridge Party.

Mrs. Florence Kelly, the new vice president of the National Suffrage association, said in a recent address in New York: "Too many men take the pessimistic view of woman suffrage. It is a young cynic at a bridge party took of marriage."

"Are you lucky at cards?" a lady asked him.

"Oh, very lucky; I always win," said he.

"How about love?" she went on, archly.

"Just as lucky," he replied. "I always lose."

NEWLY DISCOVERED HELPS SURGERY

PATIENTS KNOW ALL AS DOCTORS OPERATE.

Demonstrations of Power of Stovaine in New York Hospital Suggest That A Man May Watch His Own Disembowelment Without Pain.

Before an audience composed of fifty of the leading surgeons and medical men, the Chicago Record-Herald, Professor Thomas Jonoesco, the Roumanian scientist, who says stovaine is the best anesthetic ever used, demonstrated today that painless operations can be performed upon patients while they are conscious.

Three children and one woman were operated upon in the hospital of the New York Society for the Relief of the Lame and Crippled, at Lexington avenue and Forty-second street.

A combination of stovaine and strychnine was injected hypodermically into the spinal column of each. The effect was to produce total insensibility to pain in the portion of the body operated upon, although the patients were able to hear and see what was going on in the room.

Dr. Jonoesco did not perform the operation of administering the stovaine through the anesthetic. Dr. Virgil P. Gibney, surgeon in chief of the hospital, was the operator in two cases, while his brother, Dr. Homer Gibney, formed the third, and Dr. William B. Coley the fourth.

The first of the four patients was a boy 4½ years old, who had been suffering from a severe case of "Achilles tendon."

Dr. Jonoesco first injected between the twelfth dorsal and first lumbar vertebrae a combination of three centigrammes of stovaine and one-half milligramme of strychnine. Within four minutes the boy was rendered insensible to pain from the waist down.

Dr. Virgil P. Gibney performed the operation while the child could hear a flood of comment from the medical men in the room suffering from this case, as in the others, the patient was blindfolded. When the surgeon had finished he inquired of the youngster how he felt.

"I'm all right," replied the boy. Dr. Homer Gibney next operated, the patient being a boy somewhat older than the first, suffering from what is commonly known as "club foot."

A dose of five centigrammes of stovaine and one milligramme of strychnine was injected—nearly twice the dose required for the first patient. It is explained that a more powerful dose is required for an older patient.

One of the visitor surgeons was heard to remark when Dr. Jonoesco began to inject his anesthetic: "There, that is enough to make me use ether every time."

He referred to the fact that the boy winced slightly at the first prick of the hypodermic needle. Later Dr. Jonoesco said:

"I do not think the boy felt any pain; at any rate, it was very slight. I have seen patients under the influence of ether almost blue in the face from paralysis of the respiratory or motor centers."

Dr. Jonoesco concluded by announcing that stovaine is the better of the two.

The third boy was operated upon by Dr. Coley. The dose in this case was the same as in the second operation.

DEFEATED FIGHTER TO GET FORTUNE

LOSER'S END OF PURSE SETS A NEW RECORD.

Sida Lights on the Jeffries-Johnson Fight; and Glimpses of the Great Money They Will Make Out of the Coming Contest.

Jeffries and Johnson are the most fortunate pugilists the world has ever known. They have signed to fight for a purse, the loser's share of which will be more than any victor ever dreamed of in the old days and is expected to equal the operations demonstrated today that painless operations can be performed upon patients while they are conscious.

The promoters have taken precautions to guard against any depreciation of the show by backing by stipulating that neither of the principals shall participate in any ring contest other than the championship fight.

This is just to the liking of the fighters. Were it not for this restriction, Johnson might be considerably embarrassed by the insistent demands of Sam Langford, and as Jack could not possibly make as much in a session with Sam as he can on the stage he is only too pleased to live up to the promoters' terms.

They will continue to rake in enormous amounts of money, and before the date of battle, at which time they have bound themselves to begin active training.

To prevent any annoying delay in selecting a referee, the articles state that unless Johnson and Jeffries have agreed upon the official sixty days before the contest the promoters will do their own selecting.

Throughout the entire proceedings in New York Jeff and Jack did not speak to each other. Jim had made up his mind that he would not shake the victor's hand, but had no opportunity to decline to accept the black paw, for Jack never extended his mitt.

WILL AID IDAHO TOWNS.

Senator Borah Reintroduces Bill for This Purpose.

The Boise Statesman's Washington correspondent wired, on the 11th inst., as follows: In the hope of aiding the development of towns on government irrigation projects, which are materially handicapped at present because of their inability promptly to incorporate and issue bonds for civic improvements, Senator Borah has reintroduced a bill providing that funds arising from the sale of lots in these towns may be utilized for building schools, water and sewer systems, and other municipal improvements.

This bill was favorably reported during the last congress, but was never taken up for consideration, and died on the calendar.

The measure meets with approval of interior department officials and will likely become a law at this session.

SEEKING SOLOMON'S RICHES.

Excavating in the Holy Land for Ancient Ruler's Wealth.

London and Paris newspapers contain interesting accounts of efforts to find King Solomon's treasures and the crown of David in Egypt. An English syndicate is said to be bearing the expense of excavating at the pool of Silwan, on the eastern slope of Zion near the spot where the "Statue of the City of David" wind up over the conduit that brought water to the temple.

Two members of the Turkish parliament are continually present, this being one of the conditions laid down by the authorities before permission to begin the excavation was given, and great interest is manifested in the work.

Large sums of money have been spent in obtaining the permit, in purchasing land and in carrying on the work, and sixty men are engaged at a weekly expense of \$4,000.

Condensations from the Wires

At New Haven, Conn., on the 10th inst., Yun Hiang Esao, a Chinese student at Yale university, won the Ten Back prize for public speaking.

During a terrific storm which passed over Lake Erie on the 13th and 14th inst., more than a million dollars of property was destroyed and fifty-nine lives were lost, four of which were destroyed and one badly damaged.

At Cleveland, O., Harry E. Hayes was sentenced last Friday to five years in the penitentiary for embezzlement of \$108,000 worth of railroad bonds. He is the junior member of W. J. Hayes & Son, stock brokers.

A jury in New York last week found the American Ice Trust guilty of violating the law against trusts and was fined \$5,000 by the court immediately.

The prosecution next expects to force a dissolution of the concern under the new statute. This company was proven to have arbitrarily advanced the price of ice to 8,000,000 people through its absorption of all ice manufacturers and dealers in the United States.

New York, Washington, Baltimore and Philadelphia.

Kalamazoo, Mich., sustained a million-dollar fire in a trunk yard.

Twenty-six Moles was executed last Saturday, at Adams, near Constantinople, for participation last April in the massacres of Christians in various parts of Turkey.

Secretary Ballinger has temporarily withdrawn from all forms of private work along the Snake river in Idaho, Washington and Oregon, and 291,438 acres in Idaho and Wyoming have been withdrawn because they are found to contain valuable phosphate deposits.

A handful of criminals who had not been apprehended at last accounts.

At Detroit, Mich., on last Saturday Helen Bronn, a 13-year-old girl, was found murdered in a trunk yard.

Red Cloud, the famous Indian chief, for many years leader of the Sioux, died last week at the Pine River agency. He was 86 years of age.

A shipment of 700 wintered lambs was consigned from Mt. Pleasant, Utah, on the 10th inst., to Los Angeles, Cal., and is believed to be the largest lot of registered sheep shipments of Utah superior mutton to that part of the Pacific coast.

The first shipment was contracted for at 60 per pound.

Hogs sold at \$5.50 per hundred pounds on the Kansas City market on the 10th inst., which was the highest price reached in that city since 1882. On the same day the price of hogs reached \$3.45 on the Omaha market.

Horace H. Lurion of Tennessee has been nominated for justice of the United States supreme court by President Taft.

Gen. Clarence L. Edwards, chief of the bureau of insular affairs in Porto Rico, informed the Washington administration that Porto Rico should be accorded citizenship at the earliest opportunity.

Announcement is made from Seattle that all freight is moving on the northwestern railroads, whereas the switchmen struck about ten days ago, and that the strike is broken.

Edward G. Culliffo, after serving four years in the Pennsylvania penitentiary at Adams Express company of a package containing \$101,000 in bills, was released from that institution last Saturday, and is said to have retained most of the stolen money throughout his incarceration.

Ohio politicians are much disturbed over a probing into graft charges by the state legislature now in progress at Columbus. Gov. Harmon declares he has evidence on which a number of former officials will be convicted of misappropriation of funds and bribery in awarding contracts for state supplies.

Announcement is made from Washington that all money of which the government has been defrauded by short-weight sugar weighing at the New York custom house will be recovered from the sugar trust.

TEN CORN EARS SELL FOR \$335.

One Peck of Wheat Brings the Enormous Amount of \$104.

E. E. Faville, editor of Successful Farming Magazine of Des Moines, Ia., paid \$325 for ten prize-winning ears of corn, during sale of the winning displays on the 10th inst. at the Omaha Corn exposition.

This corn was grown by J. R. Overstreet of Franklin, Ind., and won over \$1,000 in prizes. At the rate paid by Faville for ten ears, a bushel would have brought \$2,345.

H. E. Kruger of Beaver Dam, Wis., won the sweepstakes on wheat, producing the best peck the world has ever seen. He paid \$104 for the peck that he might retain it and take it back home for seed.

Several Towns Will Be Beautified Under Artistic Hand.

The Twin Falls North Side Investment company has secured the services of R. E. Sloss, landscape architect and gardener, of Pittsburg, Pa., to beautify the company's private grounds and to create plans for improvement of the public grounds set aside by the company in the various towns in which it is interested, says the Jerome News.

Mr. Sloss is already in Jerome and is busy with his work. He will design and have charge of the landscaping and beautifying of the grounds at Miller, Jerome, Wolford and Hollister. He has already commenced the plans of the grounds surrounding the North Side Inn at Jerome and also of the public parks at that place.

POISON CLOSES GIRL'S ROMANCE

A Mother Engaged to Marry Her Daughter's Lover.

Near Elgin, Ill., on Nov. 26 last, Florence Honor, aged 24, committed suicide by drinking carbolic acid because she learned that Peter Hahn, aged 50, was to marry her mother, aged 41. Hahn admitted he was, until a few months ago, engaged to the girl. The mother, however, would not believe she was deserted until the mother declared the wedding day was set. Mrs. Honor owns a big farm in Kansas county.

Express Company Liability.

The appellate court of the First district, Lincoln, has held that an express company is liable for the full value of goods destroyed in transit through the negligence of the carrier, rather than the arbitrary value usually placed on all express packages where the value is not specifically stated by the shipper when the consignment is made.

241

The necessity of sorting potatoes intended for high-grade markets, to which the News called attention of Twin Falls county farmers a few weeks ago, is emphasized by the experience reported from Greeley and published in another column. There is said to have been a deal of trouble developed in that region this year, through efforts to secure sufficient out of the short crop to make up in dollars what the decreased aggregate yield represented, and therefore while inferior tubers were sent out, on the supposition that dealers would accept anything with the Greeley brand, the scheme reached most disadvantageously within a very short time. Hardly in fact had the digging been started last fall when there were protests coming from every point to which consignments had been made, with the result that the leading producers immediately called a halt and inaugurated the system that is described by the correspondent from that section. It may be suggested here that there is a considerable loss in the new policy the Greeleyites have adopted for handling this crop, and it might be a valuable one for growers in the Twin Falls tract to consider with a view to accepting generally.

Apple Orchards
Would you like to plant a commercial apple orchard of 500 to 1000 trees or more without costing any cash for the trees? If interested, write Blue Lakes Nursery, Twin Falls, Idaho.

The Twin Falls Orchard & Fruit Co. have \$100,000 of stock still unsold. They have some of the best apple orchards and orchard land in the Snake River valley. Stock will pay 20 per cent. Write for particulars.

STRAYED—Coll. \$5.00 reward for its recovery. From my farm two miles east and four south of Buhl. A mare, yearling dark bay, one eye split, had halter on, carries itself well. Joseph Nigbor, Buhl.

Chickens Free
At the Poultry show, a \$15 pen of fowls to be given away each day; a chance to give every ticket. Drawing closes at 9:00. Open to all. See the greatest exhibition of fine fowls ever held in the state. Twin Falls, Dec. 13 to 18.

Try us for choice cuts of meat; all kinds. Phone 325. Robertson & Janks.

Now is the best time to contract with Tyler Bros. of the Kimberly Nursery Co. to furnish your orchard for next fall, when you are good and ready. They have saved one large orchard company several thousand by contracting ahead one year.

Sunday school begins between the ages of four and twenty at 10 a. m. Reading room open in the church every afternoon except Sunday from 2:30 to 4:30.

Money to loan. C. W. Welton, Twin Falls Title and Abstract Co.

JARBIDGE CAMP.
(Continued from Page 1.)
tion, with a prospect that, as soon as the cost of the proposition shall have been discovered, some definite action will be ordered.
Wain interviewed the Commercial club and its directors, and the club and directors thereof discussed it at their meeting Tuesday evening, concluding that for the present nothing could be done, on account of the fact that the club probably would not have the money to build the road.

Walsh said that prospectors, and others, from Elko, Nev., were staked twenty-five miles south of Jarbridge, with a load of lumber and other supplies; that they could proceed no further with wagons, and were having to pack in. He had not learned they were yet in the camp, but they were expected to arrive in a few days, and the Jarbridge people are getting ready to open a wagon road right through from their town, and intending to secure a share of the business that comes with it.

Ed Bonano, George Winkler and P. B. Beadle, former Goldfield miners, have set the stamp of their approval on Jarbridge, and are getting in as vigorous as they can. The road passed through Twin Falls. Beadle and Bonano say it is the greatest gold discovery ever made in Nevada. Dick Swanson, who is in the camp from Three Creek, and is one of the Jarbridge men, has sent a letter to J. M. Chambers here in which he announces that three important strikes have recently been made there. He did not go into particulars, but he referred to refer to strikes reported in last week's issue of the News, one by parties representing Johnny McRae, and another by parties from Three Creek and the other instance. The third, which he referred to had not been previously reported.

Chambers returned to Twin Falls Tuesday, and, not feeling particularly endeavored, for about a week, to get in. He said there is a lot of snow between the Kitty Wilkinson ranch and the camp, also that there are no provisions at any way from Three Creek and the camp, for horses. For this reason, he explained, his trip was a failure. He arranged to have packers take powder in for Swanson from Three Creek, and in the meantime this party doing the packing will leave horse feed on the route at various stations going in.

Chambers says nobody should attempt to make the trip without having plenty of horse feed available. There is none in camp, neither can hay or grain be secured at points heretofore thought to have plenty for sale.

Kitty Wilkinson's house is deserted, she having gone to some other ranch she owns. There are no horses there, nor provisions, nor accommodations for men.

Her ranch house in known also as the Hot Springs. Nobody being there, has rendered it necessary for several parties going in to try to reach their plans after reaching that point.
Chambers secured his information from Sol Newman at Three Creek, Newman packed in, a week ago last Tuesday, the outfit for Bonano and Winkler, the Goldfield men. Newman had, at the time he talked with Chambers, just returned to Three Creek from camp for another load owned by the same parties, but he particularly by a complete analyzing outfit that Beadle is taking in, with the expectation that it will be in very much demand. Chambers said that Newman and Beadle expected to get started out of Three Creek early last Sunday. Newman further said:

"Bonano and Beadle got into Jarbridge in the very beginning of the excitement over the discovery, and immediately came out quietly and went to Goldfield and closed up their business there and got back here as soon as they were in with plenty of baggage and are getting in with adequate supplies for an all-winter's campaign. They declared it is the greatest strike in the history of Nevada."

Newman told Chambers also that he had a hard trip getting through with the Bonano and Winkler outfit, because he had no feed for his stock, and it was necessary for him to push right through, and return to Three Creek as quickly as possible. Tom Bonness, an experienced sheep man, accompanied Newman on this trip. There was a snow storm as they were at the time. Bonness became lost on the trail, on account of the heaviness of the snow, and his obliteration of the trail. He wandered around all night alone, and eventually found his self back at the point from which they had started (Hot Springs).

This incident emphasizes what the News mentioned in the beginning of the rush into Jarbridge, that attend to the first things that should be attended to is to mark the route of the trail between Hot Springs (Kitty Wilkinson's ranch) and the Jarbridge camp on poles. It is expected that parties going in will attend to this, inasmuch as the miners there have not the facilities.

Chambers further said that J. P. Duncan and J. W. Holsley expected to leave Three Creek on Wednesday of this week for the camp, with the intention of staying all winter, and during which time they will make up their claims. Holsley owns a ranch near Castleford, and he and his partner, Chambers explained, are well equipped even now. They also expect to take in the powder which Chambers wanted to get into the district for Swanson.

All hopes have been abandoned of getting anything over the road this winter between Three Creek and the camp, it having become so much snow clogged that the traction is too heavy; therefore it is necessary to pack in from that point.
Tom Higgins, at Three Creek, has ordered a supply of pretty nearly everything an outfit needs and expects to re-appoint a limited number of prospectors who intend to buy everything they want before leaving Twin Falls. Tom is a veteran in frontier life and said to be

A good all-round prospector, Chambers explained, that he has sent a petition, in blank, to be signed by the operator of Jarbridge, regarding the postoffice department, to request the name of the camp in mail handling, so that, preliminary to getting a postoffice established there, can be made by the department, and it will facilitate the handling of this business.
It is expected that as soon as a line of regular communication, in and out of the country, is established, as it probably will be within another month, application for a postoffice will be made by the miners of the district.

Chambers added that on the 8th of the month was at one in the camp, and about six feet of snow on the level, but of course drifted into the gulches.
R. H. Waring, formerly an active mine operator of the Seven Devils country, came in Monday from Burley, representing a strong syndicate of merchants of that city, having plenty of capital and confidence in their agents. He said he would await the arrival of an outfit he had shipped from Burley, and after securing provisions here would embark for the Jarbridge camp, accompanied by his son.

James Barber of Caldwell, also co-operating with the Burley syndicate, arrived Tuesday and stated he was going in with Waring's party.
J. W. Dingman, of the American Lumber company, of this city, and his friend, C. W. McCormick, were arranging this week to get started on the trip. They expected to be on the road in a few days after their announcement of intentions.

George Shoemaker of Hansen is also preparing to go in. He will take along a pair of snow shoes, and therefore expects to have overcome much trouble otherwise anticipated.

Insure in the Prudential. Ask the agent to call. C. H. Warrington, Twin Falls.

TEN-TON PLANT
FOR ICE MAKING
DETAILS OF TWIN FALLS NEW REFRIGERATING SHOP.
Provision is Made for Everything That Needs Freezing, and Company Expects to Supply All the Country Round With Congealed Products.

The Lincoln Produce & Refrigerating company has informed Secretary Stolls of the Commercial club that work will be started very soon on a building 40x80 feet, on lots 7 and 8, block 153, and that the machinery for ice making, designed to occupy these quarters, is being manufactured in Chicago.

Little doubt exists therefore that Twin Falls will have an ice factory and cold storage facilities very soon. Capacity of the ice plant in the beginning is to be ten tons daily. Four large rooms will be devoted to refrigerating purposes, and two are to be exclusively for butter and eggs, while the other two will serve general cold storage demands of the public. The plant will have excellent track-ago facilities and managers expect to supply ice for nearby towns in car lots, and also to receive consignments from the same communities for storage.

The corporation is capitalized for \$25,000, stockholders being all Chicago residents. E. Woods is president and general manager, Edward Buel vice president, and Leroy Washburn secretary and treasurer.

Mr. Woods came to Twin Falls about six weeks ago, in response to an invitation from the Commercial club's secretary. He viewed the field with care and soon secured the site which was purchased later by word, from Geo. D. Aiken, through the agency of the Irrigated Lands company.

President Woods is here to supervise the work of construction and expects to remain a resident of the city.

Photos day or night at Bisbee's. Evening sittings by appointment. Phone 144.

EXPERT INSPECTS CONTACT CAMP

BE LIEVED TO HAVE BEEN FAVORABLY IMPRESSED.

His Reported Interest in the District Expected to Produce Further Investment of Big Capital There—Big Smelting Company Doing Work

CONTACT, Nev., Dec. 9.—Contact is to be congratulated on the recent visit of E. M. Parrish, the eminent mining expert and operator, who has operated extensively in Colorado, Mexico, California, Mr. Parrish is among the foremost operators. From the showings that he has made here in the camp he was greatly surprised. Contact is due no doubt to have in the near future a return visit from this gentleman, because his interest in the camp, and his intrinsic knowledge are surely demonstrative and abounding.

Mr. Shields of the Copper Holdings company came in from his work in the district, and was in the contact department. These claims are receiving his personal attention in their development.

The U. S. Mining, Smelting and Refining company has just let another contract to Mr. Dickerson, the former contractor, to further the development of its work. This is surely very encouraging news, as it clearly shows that Contact is a fair way to be known as a camp with stability. Mr. Sheldon, the company's engineer, is now on the ground directing the work with regard to the Contact.

Dr. S. P. Snyder of Minneapolis, Minn., owner of the Bonanza group, has increased his working forces to three eight-hour shifts. This is another indication of the fair way to be known as a camp with stability.

W. A. Kent, the genial and progressive merchant of Contact, is visiting Twin Falls, regarding the development work on his East-End group. His operations are so extensive in Contact and his ability among the best in the district. His connection with his mining interests is also about to be placed before the present townsmen. A well-known gentleman is still a progressive man. Contact is a fair way to be known as a camp with stability.

Several new buildings are being completed in the near future for the camp which will add materially to its appearance.

Mr. Reid is in receipt of a shipment from Twin Falls, brought by John Ryan, foreman of Rold's ranch.

SMALL CAUSES FOR DIVORCE.

Percing National Legislation on Serious Subject.

The trivialities which frequently constitute grounds upon which applicants for divorce go before the courts are quite illustrated by two cases reported from Oakland, Cal., last week. In one instance Mrs. Fred L. Mitchell told the court she was walking with her husband and expressed a desire for a dish of ice cream. Her husband told her that he had but 16 cents with him, and needed it for a shave at the barber's. She insisted on having the cream, he indignantly refused to buy it. Then they quarreled on the street, she repaired to a friend's house, refused to return home, and the next day had a lawyer draft an application for divorce, which the court refused to grant, though there was no legal grounds produced. In the other instance, the only allegation was that Emma Martin threw a shoe at her husband and cut his cheek, which he refused to forgive notwithstanding she explained the act had been part of a playful action, which she had not intended would result so seriously. The court withheld the divorce and roundly berated the husband for asking it.

DYNAMITE EATEN BY CHICKENS

Owner's Dares Not Kill Them or Break Their Eggs.

A telegram from Winsted, Conn., says: A man who has a small farm a few miles from the city, has dared to trample on a small portion of it and is afraid to eat his own hens' eggs. Heavy fowls had fat tened for Thanksgiving were immune from death.

Recently he opened two one-pound sticks of dynamite, into which a little roach had found its way, and after breaking the cylinders into pieces spread them on a flat stone in the sun to dry. He meant to use the dynamite in a lot he was clearing.

When he went to get the explosive after he had drilled holes in a big board he saw a flock of his hens scratching in the dynamite and eating it as they would eat gravel.

The puzzled farmer cannot tell by the looks of his hens which ate the dynamite. As for eating, he says on their heads with an ax, he shudders at the thought, and does not dare to eat his own hens' eggs, for he fears particles of dynamite may lurk in the shells.

HANSEN TO HAVE BANKING HOUSE

OWNERS ARE BEING JOINED BY LOCAL CAPITAL FOR PURPOSE.

Station Agent for the Town Has Arrived and New Depot is Now Doing Service and is Much Appreciated by the People.

HANSEN, Ida, Dec. 15.—The citizens of Hansen and vicinity, realizing the necessity for such a banking fund are subscribing freely for the bank fund and the beginning of the year will see a stately structure being constructed on the main street of Hansen. The new banker will have charge and judging from the enthusiasm which is now being manifested he will control a flourishing banking business.

J. B. Hiltner shipped out two carloads of hops Thursday.

Mr. and Mrs. W. N. Rose were Twin Falls visitors on Monday last.

J. E. Stenhouse of Murietta, who is now convalescing, called at Hansen.

Mr. and Mrs. Will Hildy took advantage Monday morning of the good sleighing and seated joyfully in their bob made a flying trip to the country.

W. E. Smith left Thursday for Lewiston, where he will visit a daughter.

Mr. Hagler and son, carpenter, spent Sunday at their home in Twin Falls.

J. E. Stenhouse shipped twelve head of registered sheep from our yards this week.

Dr. Rutledge passed through town Monday on his way to Twin Falls.

The Aid society called a special meeting Thursday at the home of Mrs. Elvira La Cook.

John Hiltner called in Twin Falls Monday visiting his parents and transacting some special business.

Mrs. Redhead has been quite ill the past few days with tonsillitis but is now convalescing.

R. B. Roberts was a passenger to Twin Falls Thursday.

Miss Laura Nixon, instructor at the Excelsior school, spent Saturday at her home in Hansen.

Mr. and Mrs. T. Rutledge of Artesian City spent a few days of last week with Hansen friends.

Mrs. L. M. Good and daughter Helen, who are located in Twin Falls as guests at the Nick Smith home.

The school children will give a Christmas program Friday afternoon at the school house, after which the school will be dismissed for a vacation of one week.

FILER SECURES NEW STATE BANK

STOCK IS OVER-SUBSCRIBED AND STARTS AUSPICIOUSLY.

Large Preparations Made for Christmas Celebrations and a Great Round of Holiday Pleasures Prepared Throughout the District.

FILER, Ida, Dec. 15.—The Filer State bank on last Friday sold their interests to the new banking company which recently organized and is to be known as the Merchants' and Farmers' bank. On Tuesday a business meeting was held by the new bank and the majority of the former bank received. Messrs. Ray Brown, F. E. Allen, M. G. Ripley and Dr. Chas. Wetherbee were elected to be directors for the unexpired term, to act with D. McKinley, who had been elected to the board of directors.

The bank stock was more than subscribed and after creating a surplus of \$5,000 over the original capital stock of \$10,000, there still remained \$10,000 over the bank's needs.

The old Filer sold for a neat premium. A. D. McKinley and daughter, Miss Maud, were the only ones of the original stockholders to still have stock at the time the transfer was made.

A meeting of the directors held on Tuesday, F. E. Allen was elected president, Dr. Wetherbee vice president, and H. E. Brown cashier. Following is a list of the stockholders of the new bank: R. E. Brown, F. E. Allen, H. H. Schildman, Chas. Wetherbee, M. G. Ripley, A. D. McKinley, John Chisholm, J. E. Wile, W. S. McDaniell, Miss Maud McKinley, Lincoln Bros., F. D. Brown, C. C. Stevens, Geo. Leonard, H. C. Van Awealdt, H. S. Kalkbrenner, Dr. H. W. Clouch, C. Cornick, E. A. Wintgen, F. D. Rasmussen.

The day of the big rabbit hunt dawned crisp and bracing and many eager hunters gathered to chase the festive bunny from his natural haunts. A jolly good time was reported by those participating in the day's sport and many of the furry tribe were sent to the happy realm of no more to annoy the industrious irrigator or destroy his promising crops.

That Santa Claus is coming to Filer is evident by the many shoppers seen daily on the streets and the many packages in their arms.

The children of the Methodist Sunday school are practicing every evening at the school house, the program which they will give on Christmas eve. Mrs. E. B. Ripley has charge of the vocal part of the entertainment.

Chas. Lusher of the Idaho store company spent Saturday and Monday in the falls city on business.

Low Moorhead, one of the summer arrivals to this vicinity is erecting a new residence on the property chased by him at that time and upon which he will make his home.

Harry Rogers, who spent the summer on the Griffith farm, has departed for the home of his parents in Lakewood, New Mexico, to remain for the holidays, after which he expects to enter school in Quincy, Ill., for the remainder of the school year.

Bula Ripley was among the Filer visitors in Twin Falls this week. Also A. A. Timm, M. G. Ripley, Ray Brown and T. E. Moore.

Chas. Lusher of the Idaho store company spent Saturday and Monday in the falls city on business.

Dr. Croker of the Falls City attended the Masonic meeting here on last Thursday evening. The lodge is now well organized and the hall refitted into appropriate quarters.

Despite the wave of winter weather, farm work of various kinds is still being pursued, such as fertilizing the

ground and the planting of alfalfa hay. The Fuller Bros. are selling this week. G. Summers paid for his week's work on the day school. The boys are having the day school on the corner of the main street, which is proving a shipping large quantities of the haled product.

Mayor Hahn and Attorney Wile, both of Twin Falls, attended the meeting of the stockholders of the new bank on Friday and Tuesday of this week.

On Monday Mr. Woods and Dr. Croker of the county seat were looking after the case of the late estate here.

The Walters Brothers have sold their interest in the large hay baler to R. M. Garrison, who expects to be kept busy with it for a greater part of the winter.

Capt. David Jenks has been assisting the hog buyer, Mr. Baldwin, in the purchase of porkers for several weeks past and this week they shipped to the coast market three carloads of fat wigs.

Miss Butler of Buhl spent Monday here looking after the interests of her estate in this place.

Mrs. Chas. Lusher is expected to return some time during the first of the year, from her trip to Boise.

The moving picture show that was given here last Friday evening was greeted by such a flattering shower that they have decided to show on both Thursday and Friday evenings each week. Their excellent performance to be followed by an impromptu dance.

Bills are out announcing that there will be a dance given in Johnson hall on Christmas eve, also that there is to be a masked ball given in the same place on New Year's eve.

On Monday morning the Idaho-Utah Elevator company disposed of forty-five loads of coal, having received two cars of the same on the Saturday evening before.

The literary exercises have been postponed from Friday evening to Tuesday evening, Dec. 19, on account of the date chosen by the moving picture show from Twin Falls.

R. C. Beach and Albert Coburn, both of the Falls City, were here on Tuesday looking after their land interests near town.

There will be a meeting of the farmers of the neighborhood in the Maros school house on Saturday afternoon, Dec. 16th, for the purpose of organizing a Farmers' union. Prominent speakers from various places will be present and it is expected that there will be an enthusiastic meeting.

The Ladies' Aid society has been holding special meetings in order to complete the work commenced for their cause which began on Saturday afternoon, and promises to be a great success. A hot lunch will be served to hungry shoppers during the day and evening, and the evening will close with a free concert by local talent.

Ira Fuller and Mrs. Wm. Kendall were quietly married at Allbon a week ago last Saturday, and entertained their many friends with a jolly dancing party at the former Kendall home, on last Friday evening.

FARMING WITH GASOLINE. Mechanical Power is Profitable for Veteran Kansan.

William Jackson, farmer of Oberlin, Kansas, who has been using a ninety-horse power farm motor in his farming operations, recently finished plowing and seeding a thousand acres of wheat. He used a four-cylinder motor and it required 2,107 gallons of gasoline, which cost \$266.84. Of lubricating oil he used about \$90 worth, making a total cost for gasoline and lubricating oil of \$356.84.

The expense for men, their board and other incidental expenses were \$250, which brought the total cost of plowing, packing and seeding a thousand acres up to \$606.84, or less than 61 cents an acre for the entire operation of seeding the farm.

A great name without merit is like an oil lamp on a coffin.

TROJAN POWDER The Successor to Nitroglycerin Dynamite DOES NOT FREEZE

TROJAN SAVES TIME. WHY? FIRST. No time is lost in thawing, as TROJAN cannot freeze. SECOND. The rock is always well broken—No re-shooting is necessary. THIRD. Delays caused by accident are minimized. TROJAN does not explode by impact or jar. FOURTH. Cases of TROJAN do not have to be constantly turned, because there is no glycerin to run in hot weather. In tunnel and mine work, users of TROJAN can return to work in a short time; there are no fumes, no sickening gases. TROJAN explosives are manufactured in all disruptive grades, and are being used successfully in tunneling, railroad work, irrigation, quarrying, coal and other mining. TROJAN is unchanged in any climate, and does not deteriorate with age.

ROBBERY BOOD IN SAN FRANCISCO

HOLDS UP SAME PLACES THE SECOND TIME.

After Eluding the Police for a Week, Miscreant Calls at Scene of His Crimes and Demands More Money and Escapes.

After being sought by the entire police department of San Francisco for an entire week, an unidentified man, who on the Saturday night previous had held up and robbed two druggists and then entered a Hammann bath establishment and, without a word, shot down the bookkeeper, William H. Schneider, last Saturday, walked into the first place he had held up and, at the point of a pistol, again robbed it, obtaining \$125.

The place, which is conducted in connection with a drug store, was passed by scores of Christmas shoppers. An hour later a man believed to be the robber entered a drug store, which that unless more than \$100 was in the till the next time he would shoot the proprietor.

Several persons were in the place when the robbery occurred and asked one of the clerks for some headache powders. Dr. Glascock prepared them and happened to look up and recognized the man as the same one who robbed him last Saturday.

With "there he is again" to the clerk, he ran up the stairs in the rear to notify the police. In the meantime the clerk who waited on the robber, turned to hand him the powders and found himself confronted with a revolver and was forced to hand over all the money in the cash register.

As the clerk was pouring out the contents of the register, J. H. Courteney, Glascock's partner, shouted to a moment and then he hastily grabbed two handfuls of the coin and hurried out.

He was followed for over a dozen blocks, but disappeared around the city hall and had not at last accounts been arrested.

NEW STYLES FOR WOMEN'S WEAR

THREE-PIECE SUITS ARE SAID TO BE POPULAR.

Descriptions Indicate They Are Excitingly Attractive in Many Features and Much Bedecked with Lace and Much Other Trimming.

The three-piece suits in the shops are more than ever attractive, says the Chicago Journal. They are made of various sorges, broadcloths and wide wale fabrics, although the wide wale materials are fast used for afternoon costumes than when they first returned.

Coats of such suits have shortened somewhat, but most of them are still well below the knees. They are all half fitted, with just enough material to hang comfortably. Added to the long used soutache one finds in many of the new models that a very wide braid is finishing collars, sleeves and other parts of coats as well as of skirts.

More princess yokes with platted lower part are seen in this class anything else but perfectly plain skirts hold their own with the long coats.

The moyen age style is being modified until it has become a princess (style of many varieties); but the regular moyen age gown is still not only extant but in regular standing.

In the best of the gowns that are made at the house or for use under separate wraps almost all the lace introduced for yokes and sleeves is dyed the color of the gown.

A great deal of self-colored braid is also employed, and self-colored embroidery done in coarse floss with long effective stitches that the veriest amateur can accomplish is also worked in self-tone.

In many costumes, a glint of tarnished gold thread in the needlework or lace or of silver or bronze to give a metallic gleam is the only contrasting notes furnished. Bronze cut beads were cleverly mingled with the self-colored braid and needlework on a handsome gown seen in one of the shops. It is also used in this way and black satin plings are found in unlooked for places.

In many of the new sleeves the lace furnishes a puff or cuff, and there are a lot of banded appearances which often make the puff double, or now and then triple. The gown in question is one of the three-piece kind in a style familiar to shoppers. It is made of navy blue cloth with elaborate braiding on the bottom and up the slashed sides of the coat. The skirt is of moyen age suggestion, with the princess yoke and waist part

FREIGHTER MEETS DEATH TRAGICALLY

FALLS FROM WAGON AND IS SERIOUSLY INJURED.

After Long Ride Through Stormy Weather, Finally Reaches Twin Falls and Succumbs to Internal Hemorrhages Despite Medical Aid.

Garret E. Houston died at the Twin Falls hospital at 12 o'clock Sunday night, from injuries received in an accident on the road between Buhl and Wendell and after much extreme suffering and exposure to wet and cold weather following the catastrophe of which he was an unfortunate victim. He had charge of a team hauling a load of lumber for R. H. Trail of Wendell. While descending a steep hill Houston was precipitated from the vehicle and it ran over him inflicting internal injuries, as well as breaking his left arm and cutting his head and ankle. He was accompanied on the wagon by two fellow workmen, who likewise were thrown from their seats, but fortunately not injured. They brought Houston to town and then to this city. Heroic everything was done that physicians possibly could do, to aid him; but surgical efforts were unavailing and he succumbed to internal hemorrhages.

The funeral was held Tuesday from H. B. Hunt & Company's parlors at 2:30 o'clock. Rev. H. W. Parker of the Methodist church officiating. Interment was at the Twin Falls cemetery.

Outside of the fact that Houston came from Chicago about eighteen months ago and located on the North Side tract very little could be learned of his previous history. He was known locally, however, as a hard working energetic man. He was about 40 years of age.

For up-to-date photos, go to Bisbee's.

elaborate with the braid. There is a rather shallow yoke of self-colored lace finished at the top with gold embroidery, which is repeated in the lace puff wrist. Skunk makes the coat collar, the front facing and the muff.

In most of the three-piece suits in the big shops, whether they are of simple tailoring or are of elaborate style, one finds the art of the American designer. Paris may lead off with types to be followed at a greater or less distance; but the American manufacturer has learned that to suit the tastes of his clients French models must be modified until there is little if any of the original style in them.

WEEK'S KIMBERLY NEWS.

Coal famine there said to be somewhat relieved.

KIMBERLY, Ida., Dec. 15.—Dr. Weaver of Twin Falls was here on professional business Thursday. W. F. Brecken was a business visitor in Twin Falls last Thursday and again Monday.

The Ladies' Pioneer club met at the home of Mrs. Fisher last Thursday afternoon, with a good attendance present.

The Westco Lumber company received two cars of coal the past week and the Utah-Jobbo Elevator company received two cars, thus relieving the coal famine and also dividing with our neighboring towns, Twin Falls and Hansen.

J. M. Harriman, a substantial young farmer from near Hansen, was here Friday transacting business.

A. E. Norton from Rock Creek, and one of the old timers there, was in Kimberly Friday. He has sold his ranch and will take a vacation for awhile.

Walker made a flying trip from Rock Creek to Kimberly Friday. The local Sunday schools are making preparations for a Christmas tree and entertainment for the young folks and the attendance will likely increase during the next few Sundays.

M. S. Hicks left Monday for Lemhi county, in the north part of the state, where he will visit old friends where he has been for some time.

Arthur Scranton of Hansen will have a public sale Thursday, Dec. 16. G. H. Dixon took his team to Twin Falls last Saturday where they were sold for \$320.

J. N. Clyde and family have moved to Twin Falls to reside temporarily. C. F. Romig and wife left Tuesday evening for Coeur d'Alene, where they expect to make their future home. Mr. Romig will engage in the real estate business. Mr. Romig has been here several years and taught in the Kimberly schools and their many friends will be sorry to have them leave Idaho.

MILNER NEWS NOTES.

Chronicles of Personal Movements on the East End.

MILNER, Ida., Dec. 15.—M. J. Kirk was transacting business in Milner Friday last.

George Rinker, watermaster for the North Side company, was in town Friday.

Thomas A. Starrh of Mariuagh was a Milner business visitor last Saturday.

Jerome Hill, Jr., and R. L. Koster, representing the Kuhn interests, returned to Pithsburg Wednesday evening after spending several days in Milner.

D. C. MacWatters accompanied Jerome Hill, Jr., to Salt Lake Wednesday evening where he met Mrs. MacWatters on her return from an extended visit in Ohio.

Mrs. G. M. Balfout and M. A. Doyle spent Friday and Saturday in Salt Lake doing some Christmas shopping. While there they selected 150 gifts for the children of Milner and the first segregation to be presented to them at the entertainment Christmas eve.

H. B. Maxwell of Boise was transacting business in Milner Saturday. Doyle spent Friday and Saturday in Salt Lake doing some Christmas shopping. While there they selected 150 gifts for the children of Milner and the first segregation to be presented to them at the entertainment Christmas eve.

E. C. Kierstedt spent Saturday and Sunday in Twin Falls. He was a guest at the dinner given by Dr. and Mrs. Brown Lowers Saturday evening.

Rev. S. C. Orr of Buhl held church services in Milner Sunday afternoon and evening.

J. P. Evans of Salt Lake.

was a business visitor in Milner this week.

Mrs. F. P. May and Mrs. W. C. Edwards were Christmas visitors in Twin Falls Saturday.

Mrs. L. L. Wilcox was in Twin Falls Friday and Saturday of last week.

Mrs. H. A. Young and Miss Leola Haworth were in Twin Falls Thursday.

Mrs. D. E. Ryan and daughter, Miss Marie, spent Thursday in Twin Falls.

Mrs. G. W. Hayes and children were the guests of Mrs. M. J. Kirkpatrick in Twin Falls several days last week.

Mr. and Mrs. R. L. McClelland have taken up their residence in their new home on Main street.

Dr. W. F. Duckett was a Twin Falls business visitor Friday.

A. Shepherd of Oakley was the guest of his daughter, Mrs. George Weston Saturday.

The Star Amusement company presented their weekly moving picture show and dance Friday evening.

Main Avenue West TWIN FALLS Three Doors Above Postoffice

COLORADIAN TALKS OF TWIN FALLS

SAYS THE CHICAGO SHOW WILL BRING US 10,000 PEOPLE.

Also declares it worth \$5,000,000 to this part of Southern Idaho and confirms what our own returned citizens said.

From all over the country during the last week Twin Falls received commendation and much advertising, from newspapers in cities and towns whose representatives were at the big United States Land exposition in Chicago, and upon their return voiced praises of the Gem state.

For instance, James B. Matting, a foremost irrigator, who was at the Northern National exposition, said to the Denver Republican upon his return from the exposition, after reciting the benefits of the great show to that state:

"Colorado was not the only great beneficiary. I am sorry to say it, but her exhibit suffered greatly by comparison with those from altho' almost every other state had exhibits of products that cannot begin to show the crops raised in our state this year.

"The only point in which Colorado excelled was in the noise made on the floor of the Coliseum by her boosters, who must be given credit for doing all in their power to make the most of a bad bargain.

"The entire thing shown by certain sections of the West was a disgrace. I do not hesitate to prophesy that the Twin Falls irrigation district of Idaho, will profit by \$5,000,000 and 10,000 new people as a result of the big show that the excellent impression made there.

"The Twin Falls irrigation companies had a corps of able lecturers who talked continuously from 10 a. m. to 11 p. m. daily in an audience room seating 1,000 people. The room was crowded all the time.

"The orators and middle westerners are hard bargainers.

"On one occasion when I was in the Twin Falls lecture room at 11 p. m. the people present stood on their chairs cheering the lecturer, and beginning to get into a riotous mood. All lectures were illustrated by means of moving pictures and stereoscopic views. Each project in Idaho was assigned lecture time commensurate with the extent of its exhibit on the main floor.

"In the Twin Falls register, wherein people desiring to have information mailed to them were requested to write their names and addresses were written during the exposition."

FOREST SERVICE ON RANGE STEERS

STOCKMEN URGED TO PASTURE THEM IN HIGH ALTITUDE.

Results Attained. Declared to Have Been Eminently Satisfactory and Government Agents Are Rendering Ranges More Accessible.

The following has been received from the headquarters of the forest service at Washington, D. C., bearing the government stamp: "One of the most serious problems being made by the forest service to open hitherto inaccessible ranges by the construction of trails and bridges, and unused arid ranges by the development of water. The higher the elevation the more nutritious, while the climate is much more rigorous; both of which conditions result in the animals being in better health and having more solid flesh when placed on the feeder markets in the fall.

This fall has seen large numbers of the range-bred steers, most of which come from ranges within national forests, topping the feeder markets at all points where feeder steers are sold.

So great has become the demand for cattle of the quality mentioned that hundreds of stockmen throughout the west are selling their bunches of stock cattle and are beginning to handle steers exclusively.

On the old ranges where, a few years ago large herds of cows and calves, were found today there are equally large bunches made up entirely of steers, some of which may perhaps have come from Old Mexico, Texas, Arizona and New Mexico, however, usually furnish a large quota.

These steers are brought into those western ranges at from eighteen months to two years old. They become acclimated the first year, while in the second and third years they become suitably mature to be taken to market.

The demand for cattle of this kind is greater than the supply and, as in all other cases where the demand is greater than the supply, the price received on said stock is constantly increasing. This is true of the steer business, one can easily ascertain through conversation with anyone of the western stockmen who make this a business. They will tell you that they have made more money in the last two or three years in handling steers than they made in ten years in handling strictly stock cattle.

These steers are usually under favorable conditions, and when they have reached the stockyards they show an exterior finish that other cattle, lacking the same health and ruggedness, fail to show. This makes the western steers ready sellers on the market, and after they have been butchered the percentage of the weight of the dressed carcass over that of the live animal is usually in the best of health, have splendid frames upon which to build, are well muscled and boned, and being accustomed to the rigors of the western climate, continue to put on flesh in the eastern feed yards under identical conditions are losing flesh on account of the inclement weather conditions. This western steer only demands that he be given plenty of good fresh water and sufficient food so that he may never be hungry and he will always give a good account of himself and return many dollars in profits to the feeder when he is sold for the block in the spring.

The settlement of the west is rapidly reducing the amount of available range and the cattle are being put on higher and higher into the hills in search of forage. This is greatly increasing the importance of freely utilizing the ranges within the national forests.

ANCIENT GREEN CLOTHING WORN

TRIO OF AMERICANS ADOPT TOGAS AND TUNICS.

Astonish Decorous Old Philadelphia by Scantiness of Their Personal Apparel After Several Year's Residence in Athens.

Sorens in the firm belief that they have solved the problem of right living, Raymond Duncan, brother of Leonard Duncan, the danseuse; his wife and his young son, just back to America after seven years spent in Greece, walked about the central streets of Philadelphia unmindful alike of the latest "fashion" costumes attracted and of the cold rain.

The tunic and toga of the Athenian era formed the dress of the trio. Duncan, disciple of the early Greek theory of music and harmony, wore the same garments he had on yesterday when he landed in America.

Mrs. Duncan had made a change of togas and draped herself with a purple robe. "Little Menekles" had brown woolen smock on. All wore the sandals of the ancients.

Vague and fleeting references to "model systems" and "harmonies," "chromatics," "mono-chords," "Pythagorian principles" and "rhythm" puzzled the reporters, but Duncan elucidated many theories to the delight of his questioners.

"Football could be taught in the schools and colleges by teaching the players music," was one thing he said. "Every movement has its corresponding equivalent in music. Make the sounds and the movements follow."

"I do not believe in what you understand as marriage," he remarked later, "but the true rhythmic union of a man and a woman is always conducive to better work. All true marriages should contain rhythmic harmonies. If discord appears no divorce is necessary. Simply separate."

Duncan went on to say that he knew more about real dancing than any other person. He admitted that his sister knew much about ancient dances and could dance well, but said she was handicapped by "the feminine mind."

Duncan declared he and his family would not don American clothing for the winter.

"Our bodies are well cared for and we do not feel the cold as do those used to covering the entire bodies," he said. "Menekles can stand the extreme cold better than either his mother or I. He has been subjected to the exposure since his birth. But before he was two days old he had a snow bath in Paris and was in the open weather with no protection except his woolen tunic."

CATTLEFORD DOINGS.

Coal Shortage is Felt There the Same As All Over County.

CATTLEFORD, Dec. 12.—Mrs. W. D. Southworth returned home last Wednesday from a two weeker stay in Buhl.

John Lovorotto, Herman Hoynes and Julia Schlake made a flying trip to Buhl Friday.

The coal famine at Buhl reaches Cattleford district also. Quite a few of our ranchers have made several trips to town, while others remained several days trying to get a load of coal.

P. D. Neer returned home Wednesday from Ripon, Wis. He reports a fine time Mrs. Neer.

Mr. and Mrs. Stove Gattello was in Buhl Monday.

Ed Delbrill was home long enough this week to kill one of his fat hogs. Ed left for the Minidoka tract Tuesday morning, where he expects to remain several weeks.

It was announced Sunday at the Cattleford postoffice that a dance and supper would be held at the Poplar Grove school house in District No. 21. Music will be furnished by Mrs. Gates Hoynes and Mr. and Mrs. Coese.

UNITED CHRISTIAN PARTY.

Chairman Calls for Army of Volunteers to Effect Reform.

A Davenport, Iowa, man has issued his summons to the nation. He would enlist an army that fulfills so much of the prophecy of Revelations that it will contain—when perfected—"a hundred and forty and four thousand" men. And when he gets that army, he will traverse the country, and correct every evil. It is the text of his message: "I have been thinking."

"Davenport, Ia., Dec. 2.—In the name of Jehovah, our Father in heaven, and Jesus Christ, our Lord and King, the glory of God and for the benefit of humanity, and through the press of the world, I do hereby call for 144,000 patriots who will cooperate with me in a united endeavor and demand that all our rulers, law makers and judges shall adopt and use the Decalogue and the Golden Rule as a standard measure for all our laws and government in and for every state and nation.

"And to this end I would like to hear from all Christians or patriots who will take part in a state or national conference and from all who will cooperate in the work of a Christian purpose, regardless of sex, nationality, creed or party. See Isaiah 59:19.

"RUDOLPH WILLIAM BENKERT," National Chairman, United Christian Party."

NEW CORN IN SOUTHWEST.

May Solve the Problem of Stock Toping in Arid Regions.

A new kind of corn has been brought to this country from Shanghai—it has qualities that may make it valuable in breeding a corn adapted to the hot and dry conditions of the southwest.

The plants raised in the test averaged less than six feet in height, with an average of twelve green leaves at the time of tasseling. The ears averaged 5 1/2 inches in length and 1 1/2 inches in greatest circumference, with sixteen to eighteen rows of small grains.

On the upper part of the plant the leaves are on one side of the stalk, instead of being arranged in two rows on opposite sides.

Besides this, the upper leaves stand erect instead of drooping, and the tips of the leaves are therefore above the tips of the tassels. The silks of the ear are produced at the point where the leaf blade is joined to the leaf sheath, and they appear before any sign of an ear except a slight swelling.

Yes, the Greater Twin Falls county for investments; but the Prudential for life insurance. C. H. Warrington, Twin Falls.

TWO GIRLS RIDE BUMPERS.

Travel Forty Miles on Car Rode Before Being Taken to Hospital.

Chicago News: Two little girls, Agnes Smith and Annie Loedke, both 13 years old, who escaped from the industrial school at Milwaukee on the night of Nov. 29, made a 40-mile trip to Jefferson Junction clinging to the rods underneath a passenger train, and then walked ten miles across the country in an attempt to elude officers they knew would be seeking them.

Both are sick from their hazardous escapade and the Smith girl is not expected to live. They were found by the police near Johnson's creek this morning, cold and hungry.

They were turned over to the sheriff. Both were too exhausted to try to evade his questions and told of their escape.

To Whom It May Concern.

You are hereby notified not to extend any credit to my wife, Clara Reaume, as she has left my bed and board without provocation and I will not be responsible for any credit given her.

LOUIS REAUME, December 2, 1909.

Two Killed After Torture.
At Shawnee, Okla., Dec. 8, robbers first tortured and then shot to death Mrs. Hallie Cummings and her father, A. Roberson, household dwellers. Roberson's body, badly burned, was among the charred remnants of a feather bed, which had been soaked in oil before it was set afire. Mrs. Cummings had been immersed in a tub of hot water and then shot.

\$1,500,000 FOR CANCER CURE.
Princely Fund Established to Discover a Sure Remedy.
Recent investigations of his will show that George Crocker, the California millionaire who died Dec. 5, in New York of cancer, gave to Columbia university \$1,500,000 for a discovery of a cure for this disease. Provision is made in the will also for researches into other fields of surgery and medicine with this fund should the progress of science reach a point on the question of cancer where its cure is established.

TALKS ON CHICAGO SHOW

SAYS "COME TO IDAHO" WAS SLOGAN OF BOOSTERS.
They Will Always be Evidence at the Trowbridge & Niver Sales, Showed a Harvest in This Empire.

"Whenever Idaho" was spoken, with the Idaho irreflexion, the crowd stood silent to hear all that was said of the Gem state at the National Land and Irrigation exposition," is "Burt spoke of the big Boise Statesman report that occurred in every leg coliseum," he continued, "for in every part of the exposition building Idaho was there with the goods, and with some active boosters ready to answer questions and give the information desired, no part of the state or was mentioned."

"From three to seven lectures were given each day in the lecture hall on the second floor, Senator William Wayman and George B. Fraser entertaining audiences occupying the seats and putting standing room at a premium. Through the Trowbridge & Niver people and the Clinton-Hurt company, operators of the Selig Polyscope company, traveled for three months over Southern Idaho taking motion pictures of everything in the way of agricultural and horticultural pursuits, harvesting and packing cantaloupes, peaches, and packing fruits, digging, sorting and sucking potatoes, mowing and stacking alfalfa, harvesting wheat, oats and other grain, the best sugar industry from digests, the beetles through the factory, into refined sugar—nothing was overlooked which Idaho produces in such abundance and which gives the lands their earning capacity. These moving pictures were used to illustrate the lectures, serving to inspire the speakers and adding intense interest to the auditors."

"The attendance was enormous. The coliseum was opened at 10 o'clock in the morning, and by 11:30 the big building was filled, remaining so until the closing hour 10 o'clock at night. People in all walks of life, bankers, merchants, farmers, mechanics, capitalists, representing not only Illinois and looking states, but states of the east and south, made up the great crowds of information seekers, and it is wonderful how great and strong and eager the hunger is for and for the state of Idaho."

"It was nothing unusual for a man to say how much money he had and to ask what he could do with it in Idaho, what did raw land with a water right cost and how much water needed to put a farm into a producing condition, so it would support a family."

"Of course, other states were creditably represented with good exhibits, but none of them came near to Idaho's display of products, and this state is entitled to the big benefits of the exposition, and will get them, for all everyone seemed to select Idaho as the state to which he intended to immigrate."

"While the exposition was called a Tribune show, the newspaper boys, the originator of the enterprise, the publication did not seem to give the show the attention, its merit deserved, and the other Chicago papers were extremely brief in mentioning the enterprise, so that we felt that we should have had greater publicity. However, an organization has been made through which the exposition will be permanent in character in the future, and as no newspaper will have a monopoly in the management or control we believe all the big publications will give the exhibition the publicity to which they are entitled."

STATE LEASES 150,000 ACRES.
Fremont County Sheepmen Get a Large Range.
The state land board last Friday signed the largest lease of state land in the history of the commonwealth, aggregating 150,000 acres, for grazing purposes, covered by a single application in which more than 100 citizens of Fremont county are interested.
This acreage is thus rented exclusively for grazing purposes and under the terms of the lease (the maximum term of which is five years), the state will receive a revenue of approximately \$40,000 at 74 cents per acre per annum. F. C. Johnson, W. H. G. Galt, Mark Austin, Douglas Rix and J. P. Parkinson, extensively interested in sheep raising in southeastern Idaho, represented the applicants.
Why They Are Prohibitionists.
Lewiston Teller: The Idaho farmer is responsible for the local option vote, but most of them are supplied with storage reservoirs.

LARGEST ORCHARD IN WORLD.
is to Be Set Out by Corporation in Council Valley, Idaho.
The Council-Mess Orchard company, with lands in the Council valley, is preparing to set out 4,000 acres in fruit trees and will have the world's largest orchard.
Eight thousand apple trees have already been ordered for next spring's planting. This tree order, the largest in the state, is to be supplemented by further apple tree orders until a sufficient number has been secured for the entire 4,000 acre tract.
Professor Elias Nelson will have complete charge of the preparation of the land, laying out the irrigation ditches and planting the apple trees for the whole 4,000 acres.
To accept this employment Prof. Nelson has resigned charge of the Idaho experiment station at the University of Idaho.

IDAHO STATE NEWS

Lewiston is to have an improved mail carrier service soon.
There is a rumor that the state Geographical society, which was organized by Governor Brady to organize at Boise January 8, may change the name of Snake river to Clark river in honor of the explorer.
The Idaho Lumber Manufacturers Association will issue bonds in the sum of \$50,000 to carry out their plans for extensive improvements. They now own property valued at \$90,000.
The Oregon Short Line put on a double daily train service between Boise and Huntington Sunday. There is a rumor that the whole distance from Seattle to Weiser will be double tracked to take care of the business.
Twenty new banks have opened in Idaho in the last year, and the state banks now number 122. These have increased their resources \$7,000,000 in the past year.
The inundation of 12,000 acres of meadow lands along the banks of the Snake river and their subsequent purchase by the Washington Water Power company at \$1.25 per acre is to be made the subject of government purchase.
The rainfall at Orofino for the month of November reached a total of 8.02 inches. Last November it was an inch and the record rainfall for the month was in 1906 when the total was 6.35 inches.
Nine tons of powder have been used so far in clearing stumps from the streets of the new town of Winchester.
C. D. Lampron, for many years manager of the Boise Gas company, has resigned to accept the management of a gas lighting company in the city of Mexico, where he will soon go with his family.
The Butterfield Livestock company of Washington county has refused to pay the grazing fee and will test the constitutionality of the law. Caldwell is reported exceedingly short on coal.
Joseph N. Hall, pioneer of Idaho City, died on the 5th inst., aged 76 years.
Authorities of Ontario will endeavor to prevent the sale of "near" beer by having courts decree it carries intoxicating powers.
Ben Baker, a Camas prairie farmer, recently marketed thirty-eight head of hogs for which he received practically \$600. They had fattened wholly in the stubble fields with little cost to the owner.
Two solid train loads of fresh fish were given a fast run through Shoshone county, and will reach the Billings live fish cat. The trains were put through on passenger time to the eastern terminals.
The citizens of the Teton basin, north of Fremont county, are negotiating the question of creating a new county to be known as Teton. It is claimed that the property valuation of the valley will justify the action.
There are 25,000 acres of land in Ada county alone that is susceptible of reclamation with an annual rainfall of 14.25 inches.
For breaking into the Oliver Hardware company's store at American Falls and stealing some pearl handled pocket knives, two revolvers and a miscellaneous lot of cutlery, two young boys, one from Boise, and the other the son of a highly respected Phenixville family, are in the county jail at the latter city.
The Kootenai county prohibitionists are now organizing a law enforcement league.
The Sunnyside Realty company with a capital stock of \$20,000 has been organized to handle the real estate of the famous Sunnyside tract. Slot machines have been barred at 200 hotels and were taken from all the saloons.
A shipment of choice steers from Grangeville to Spokane for the Christmas market arrived at a head of 200 head and met the shippers \$10,000.
The Idaho Smelting & Refining company will be running its plant at full blast after the first of the year. It is running in large quantities in the Clearwater river.
Roads in the mining country surrounding Wallace have been impassable by the drifting snow, which in places is piled up nearly three feet.
The small mills in the timber belt about Kamiah will make a head start out this year before. The tonnage cut this year before. The tonnage will probably aggregate 10,000,000 feet.
Kendrick's fire department has been reorganized and an alarm system installed.
The ore body of the great Monarch mine in the Murray district has been surveyed and valued by prominent mining engineers and the ore blocked out amounts to a total of \$3,500,000.
Manual training has been made a part of the course in the Wallace public schools and 150 pupils are enrolled in the seven classes.

There is no use trying to disguise the fact that Boise is now enjoying a substantial business boom, and will soon have 50,000 people. Write, wire, phone or call and see us in regard to a residence, investment or business proposition, before they get higher.
