

TWIN FALLS

THE TIMES

TWICE-A-WEEK

VOL. I. NO. 7. TWIN FALLS, TWIN FALLS COUNTY, IDAHO, TUESDAY, NOVEMBER 8, 1910. SUBSCRIPTION \$2.00 PER YEAR.

GEM STATE IN DOUBT

Fourteen Counties Line Up Against Present Governor--- Morman Vote Split.

Democratic Victories Mark Off Year Election in a Number of Normally Republican States.

One of the closest elections ever held in the State of Idaho proves that the Gem state is perhaps no exception to the Republican States that have gone Democratic at this election. Hawley, candidate for Governor on the Democratic State Ticket, is the only Democrat with a chance. All other candidates on Republican State Ticket conceded to be elected by the Democrats. Reports for Southern Idaho indicate that Governor Brady's majority, in all cases very small. The Morman vote in the Southeastern counties was not given solidly for either candidate. Bingham, Fremont, Custer, Oneida, Bannock especially turning to the Democracy.

County returns show Hawley leading by about three hundred plurality with a small increase probable when all precincts are in. Burton L. French, Republican candidate for congressman, was re-elected by heaviest majority on ticket.

BRADY LOSES COUNTY HARMON SWEEPS OHIO NEW YORK DEMOCRATIC

Returns Show Democrats Have Equal Break in County.

Democrats Elect Two Commissioners. Moore Leads by 10. Ticket Badly Beaten

Surprises were in order in the city and county as some of those who were picked as elected were badly defeated. The vote on governor shows Brady's failure to carry this city, while he has lost in the county. Hawley's majority is 272 in the city and in the county all the precincts are not in, as some are isolated. The large precincts are all in and only three small precincts remain to be heard from. Results show that the ticket was badly scratched and that independent voting was prominent.

With only a few of the outlying districts to be heard from results are practically certain with the exception of one or two candidates. Their election or defeat may hinge on the results in these precincts. The ticket as given is the most authentic at this time. Instead of giving Brady a majority as was expected, he was turned down by this county. The rest of the state ticket was successful, although Sweeter barely nosed out a majority over Hunter. Attorney General McDougall's name was often scratched. Duhl, which was thought to be a Brady stronghold, was carried by Hawley by a majority of 99. Hawley carried Holister by six, Maroa by 20, Rock Creek by 23, Horn by 8.

Brady, from the returns received up until noon this morning, carried Flier by 61, Kimberly by 18, Hanson by 52, Milner by 8, Murtough by 23. His vote was far below his estimated strength. French ran ahead of the ticket, carrying every precinct with the exception of two. Flier went heavy for him 173 to 22. Although there was more

straight voting on the state ticket than on the county, there is plenty of evidence to show that the independent vote on the state ticket was heavy.

The biggest surprise of the whole campaign, came in Hornbrook's crushing defeat of Sweeter, who carried only three precincts, all small. In the large precincts Hornbrook out ran his opponent in some cases as high as three to one. He carried Duhl 352 to 151—a majority of 200; Flier 351 to 129, and every precinct in this city. His majority is 699 in the county.

There will probably be two Democratic commissioners, Strouk and Zuck, and the other in doubt and cannot be decided until the other precincts are heard from. Moore probably has the place. The totals show that Zuck made the strongest run with 1710 votes. Strouk was a close second with 1623. At noon Moore was leading Taylor for the First district by 10 votes with the unheard from precincts favorable to his election.

Vanausdell defeated his Democratic opponent by a majority of 397, who lost the four Twin Falls precincts by 51. The two candidates ran nip and tuck in Duhl, only 9 votes separating the two. Vanausdell's victory can be attributed to his heavy vote at Flier, which he carried by 133.

Finch defeated Hinton by 155 votes. He clinched the place by his Flier vote. Another close race was in the case of Young and Pike, the returns showing Young to have a lead of 37, with three

Democratic Candidate For Governor Proves Popular.

Carries Hamilton County A Republican Stronghold by Big Plurality.

Ohio.—290 precincts outside Hamilton county, Harding, Rep. Gov. 16,783, Harmon 20,335 Dem.; gain 2,876.

Cincinnati, Ohio.—Times-Star at 11:45 p. m. concedes election of Harmon, Dem., for governor, by increased plurality and that he has by increased plurality carried Hamilton county by 5,000.

Ohio.—40 precincts outside Hamilton county, Harding, Rep. for governor, 1566; Harmon, Dem. 2344; Democratic gain 161.

30 precincts out of 149 Sixth congressional district, Moxley, Rep. 2622; Stack, Dem. 3429.

Steubenville, Ohio.—Holdingsworth, Rep., 1698; Distree, 1606. Distree re-elected.

Cincinnati, Ohio.—Incomplete but convincing returns from the state point to a Democratic victory. Harmon, Democratic candidate for governor, is conceded by majorities ranging from 20,000 to 40,000. Hamilton county, which for years has been a stronghold of Republicanism, gave Harmon a handsome majority. Indications point to Ohio retaining some Democratic congressmen to the next session.

CONNECTICUT GETS FEVER.

First Democratic Governor In Eighteen Years.

Connecticut.—Judge Baldwin (Dem.) elected governor of Connecticut—first in 18 years—over Chas. Goodwin, but rest of Republican ticket, including Tilson of New Haven, for congressman at large, elected two Republicans and one Democratic congressman elected with very close on first district, where Lonorgan (Dem.) is leading Henry.

Returns Show Falling Off Of Republican Votes.

Roosevelts Own Borough Gives Dix A Majority of Fifty. Greater New York Democratic.

New York.—Election of Dix, (Dem.) by pluralities ranging from 35,000 to 115,000 is conceded. Campaign waged along party lines with fierce attacks upon Dix fail to stop Democratic landslide. Roosevelt's own borough, Cyster Bay, goes to his Democratic foe by 60 plurality.

New York.—City of New York, with only 67 districts missing, shows Dix, (Dem.) governor, 290,253; Stimson (Rep.) 188,305; Hopper, (Ind.) 37,663.

SYRACUSE FOR STIMSON.

Republican Candidate Receives Small Plurality.

Syracuse, N. Y.—Complete returns give Stimson, (Rep.) candidate for governor, 14,507; Dix, (Dem.) 11,123.

DIX WINS IN TROY.

Plurality of 1111 Given Democrat.

Troy, New York.—Dix has a plurality of 6111 over his opponent on the complete returns in this city.

Watertown Democratic.

Watertown, N. Y.—Complete returns gives Stimson 2147, Dix 2750.

Middletown Gives Stimson Plurality.

Middletown, N. Y.—Complete returns Stimson 1765, Dix 1561.

New York.—Bradley, of 208th district, elected.

CONGRESSMAN PAYNE LOSES.

His Own Jailwick Turns Him Down.

Auburn, N. Y.—Congressman Payne of tariff fame, lost his own city by 417.

Ithaca, N. Y.—The vote cast between Stimson and Dix, each receiving 1825.

KENTUCKY IN DEMOCRATIC FOLD.

Ten Democratic Congressmen Out of Eleven, Elected.

Indication from Kentucky point to the usual Democratic majority. Ten congressmen out of eleven will be Democrats, Caleb Powers, Republican, elected in Eleventh district.

BOSTON VOTE COUNTED.

Foss, Democratic Candidate, Receives Plurality.

Boston, Mass.—Foss, Democratic candidate for governor, receives on complete returns, 55,107, Draper, Republican, 27,902. Foss' plurality, 27,265.

Stenciling Demonstration.

The stenciling demonstration at the Poth store drew large crowds and is proving a very entertaining act in Twin Falls. Many handsome things can be made with these materials very reasonable. Both have a complete stock of the paints and stencils. * * *

ITALY SORELY HURT

ISLAND OF ISCHIA SWAYED BY FIERCE STORM WHICH CAUSED DEATH AND DESTRUCTION

An Avalanche of Stone and Mud Rushes Down Mount Vesuvius, Sweeping all Before It, Burying Houses and People.

Naples.—The island of Ischia, in the Mediterranean, southeast of the city of Naples, has been stormwreathed. First reports reaching here gave a very considerable loss of life from the earthquake, but the latest reports indicate that the victims are few.

Communication with the island is difficult, but brief dispatches from Castelluccio state that while it is believed some persons were killed by the collapse of houses, the body of only one woman has been recovered.

Naples suffered from a furious storm of wind and rain Sunday night and all day Monday, the damage amounting to millions.

Every section of the city bears the mark of the gale. The suburbs were even more seriously effected, several persons being killed. The surrounding country has been devastated, great quantities of grapes, vines, trees, walls and parts of houses being scattered about in all directions.

An avalanche of stones and mud rushed down Mount Vesuvius about the lava flow of August 1906. It swept all the way to the town of Portici, killing many persons and ending the lives of many victims.

DOESN'T LIKE

Candidate for Governor of Pennsylvania Objects to Charges of Editor.

Philadelphia.—John K. Tener, Republican candidate for governor of Pennsylvania, on Monday swore out a warrant for the arrest of E. A. Van Valkenburgh, editor and president of the North American company of this city, charging him with criminal libel.

The warrant is based on an attack begun by the North American on October 13 against Mr. Tener's business integrity. The charges have been reiterated daily.

Briefly, they assert that Mr. Tener was "a friend and associate of swindlers."

KEEP POLITICIANS GUESSING.

No Successor to Senator Dilliver Will be Chosen Until After Election.

Clarinda, Iowa.—In the course of a political speech here on Monday, Senator Carroll made his first public reference to the appointment of a successor to the late Senator Dilliver, intimating that he would name no one until after the coming election. After calling attention to the fact that the person appointed could serve only until the legislature meets next winter the governor said: "I deem it but proper that no hasty action be taken and shall therefore trench no conclusion as to the matter nor give any consideration whatever to it at present."

Sea Gives Up Victims.

Punta Gorda, Fla.—The bodies of seven men, all victims of the recent hurricane, were washed up by the waves Monday. Six of the seven were sailors on four Spanish fishing smacks which went to pieces near Boca Grande during the storm. It is also believed that a seventh Spaniard was drowned but nothing has been seen of his body. Many more men are missing in this vicinity and it is likely that the death toll of the recent hurricane will reach ten.

Fight to Save His Life.

Salt Lake City.—After posing prison cell and corridors for nearly three years, and once sentenced to death, Thomas Vance, the alleged uxoricide, on Monday afternoon began his second fight for life and freedom in Judge Lewis' court. Convicted of having kicked his wife, then administering poison, which resulted in her death, on December 8, 1907, Vance was sentenced to pay the death penalty, but was later granted a new trial.

Killed in Saloon Brawl.

Salt Lake City.—In a drunken brawl in a Commercial street saloon, Monday night, an unidentified Finlander, 35 years of age, was shot and instantly killed by William Stewart, a fellow countryman, who was arrested two minutes later, after a short chase, participated in by deputy sheriffs.

Mikado Entertains Prince.

Tokyo.—Prince Tuan Hsun, uncle of the Chinese emperor, was received in audience Monday by the emperor of Japan. He had luncheon at the palace and later received a high decoration from his majesty.

Killed His Former Wife.

Mount City, Mo.—Crazed with jealousy at the sight of his divorced wife driving with another man, William Halsey on Monday shot and fatally wounded the woman and then killed himself.

New York Needs Millions.

New York.—The tentative budget of New York City for the year, as made public Monday, foots up \$171,805,747, an increase of more than \$2,000,000 over the budget for 1910, as finally adopted.

SUDDEN DEATH OF D. B. HILL

Man Who Was Long the Ruling Spirit of New York Democracy Expires After Brief Illness.

Albany, N. Y.—David Bennett Hill is dead. Senator Hill had been suffering from a cold and bilious attack of three weeks' standing. He was sitting up in bed to take a drink of water when he was seized with acute dilation of the heart. Death followed quickly, with no one but a nurse at his bedside.

David Bennett Hill was born August 29, 1843. He was elected to the assembly in 1870 and again in 1871. For many years Mr. Hill was a member of the Democratic state committee, and in 1870 and 1874 he was a delegate to the national convention, which nominated Tilden and Cleveland, respectively.

In 1882 he was elected lieutenant governor on the same ticket with Grover Cleveland, and following Cleveland's election to the presidency of the United States Mr. Hill became governor, subsequently elected for two terms.

He was governor for seven years. In 1891 Mr. Hill was elected United States senator and in 1894 he was once more the candidate for governor, but was defeated by Levi P. Morton, his Republican opponent. Mr. Hill was the candidate for the nomination for president in 1920, but Grover Cleveland was elected for that office.

In 1894 Mr. Hill was credited with being the political sponsor of Alton B. Parker, who was nominated for the presidency by the Democratic national convention at St. Louis. Following election Mr. Hill announced his permanent retirement from public life since that time had no legal practice.

Coal

Montgomery, Ala.—The coal in the city, which has been fifty years, the Newmont has decided that it will not select coal from the West, but will use the greater energy. A rigorous test made by Commissioner shows that the Indiana coal is 20 per cent more efficient, while the saving in cost is nearly two-thirds. The test may also be of use to manufacturers.

Ruby Losses Cast.

There was a time when the ruby was next to the diamond in the estimation of lovers of precious stones. Now it has fallen from its high estate. The reason is that the ruby, like the sapphire, can be imitated so closely that even experts cannot discriminate between the real gem and the imitation. The greatest sufferer by this is said to be the Casp of Russia, who owns the finest collection of rubies in the world. The St. Petersburg court jewelers estimate the loss in value of the Casp's rubies at \$4,000,000. Some time ago he tried to take out a policy of insurance on them, but no company would accept the risk.

Level

Too many, however, will be in nature that which we share with the dead and the worms. They will be the boys who are throwing stones at them, or who if they are good to eat, as the Eskimo asked of the watch, or treat them as certain devout Afrikaner villagers are said to have treated a descendant of the prophet—killed him in order to worship at his tomb, but gradually, we may hope that the love of science—the notes "we sound upon the strings of nature"—will become to more and more, as true of it as the most beautiful and sacred element of human feeling.—Sir John Lubbock.

Pardonable Curiosity.

That cats occasionally "suck the breath" of sleeping persons is a persistent belief as recent news items indicate. Recently the story was told of a cat that used his master as a couch and his chin as a pillow. It is not impossible that his breath was milk-laden, but it is somewhat improbable. Without making any insinuations, one may be pardoned for wondering whether or not the cat had been raised in a saloon.

Want Change of Venue.

Marshall, Mo.—Walter Diploy and Mrs. Goldie Smith, charged with the murder of Stanley Ketchel, have filed a motion in the justice court asking for a change of venue for preliminary hearing.

JARBIDGE ROAD CAN BE CHANGED

Committee Declares Jarbridge Road Can be Altered.

\$200,000 WILL BUILD ROAD FOR AUTOMOBILES.

Matters Are Brought to a Head at Meeting Held To Consider Report of Committee Which Made Trip.

The report of the committee which made the trip to Jarbridge to investigate the feasibility of altering the present route between Twin Falls and that point, made a report at the Commercial club on Friday afternoon. The report of the committee was given by F. M. Buckley and Ed. C. Olson. The report was accepted by the meeting. By virtue of the action taken two weeks ago the chairman was empowered to appoint a committee to solicit funds for the work.

A number of Jarbridge men were present and acted favorably upon the report. F. M. Buckley gave the report for the party, who made the trip, which consisted of Messrs. Lyman, F. M. Buckley and Ed. C. Olson. The party was gone for about five days and during that time made a trip over the entire route. An attempt was made to pass over the route, but they were unable to avoid the points that have caused the trouble before. The main objection made against the present route was the narrowness of the road, which reaches the objective points rather than Jarbridge. The contemplated route will be in the main the present route, with some minor changes will be made.

On the trip, freighters and those qualified to know, were asked as to the route and an endeavor was made to troubleshoot the route. The distance would be 15 or 16 miles, making the distance 45 miles. Besides shortening of the route, many of the objectionable passes can be avoided.

The biggest change of the route and the point that will cause the most expense is at the cut-off that is now proposed near Jarbridge. It is estimated that it will be necessary to blast out a good deal of the pass, some 2000 cubic yards of rock being required. This part of the road alone will cost \$2000. Jarbridge will do their share. Jimmie Cameron, who represented Jarbridge in the committee, stated that he will make himself to complete the road from Jarbridge to the top of the rim cut-off at Twin Falls will raise the necessary funds. He stated that he had \$2000 for which he was willing to give from two to ten days labor on the road. In his opinion it is necessary that this road be built now, before the winter snowed in. "Death," he said, "has raised \$4000 and in addition has organized a road stock company with a capital of \$100,000. The Jarbridge Jarbridge has meant \$500,000 to Twin Falls since the camp was started, and it can hold its own."

Others at the meeting felt that a good road could be put into Jarbridge for \$2000. There will be Jarbridge from now on for the Brun-King Jarbridge Co. have received part of the mill which will be freighted in from here. It is estimated that the work is being done at the work is being taken up at once. As a result it was decided to go ahead with the canvass for funds. The estimated amount for the road is \$2000 for the cut-off and \$500 more for the remainder of the road. The committee is now in charge of the matter and making the canvass.

MURTAUGH ITEMS.

Murtaugh, Idaho, Nov. 7th, 1910. Messrs. J. E. Downer and Fred Koller are shipping two car loads of potatoes to Kansas City, Mo., this week. Mrs. Hartley and daughter were over from the North Side. Mrs. Frank Terrill and Misses I. A. Terrill and Gertrude Rauch of Hansen, were the pleasant guests of Mrs. F. M. Buckley. Mr. J. D. Tolman was an Oakley visitor Friday.

Mr. and Mrs. Andrew Hansen are no longer so much, really interested and will remain for several weeks. Mr. and Mrs. Charles King are at the Hansen ranch during Mr. and Mrs. Hansen's absence in the east. Mr. and Mrs. J. I. Tolman and family are in Oakley for a few days, visiting.

A very interesting literary program was given at the school house Friday evening.

Miss Gertrude Rauch gave a recital at the school house Thursday evening. "Mrs. Wiggs of the Cabbage Patch" was given, which was greatly enjoyed. Andy Hansen was severely hurt in a runaway accident. Mrs. A. B. Beverlin, Lyman Tolman, J. E. Steinhorn, went to the mountains Saturday morning for poles.

Mr. and Mrs. Andrew Hansen and Mrs. Hansen's absence in the east. Mr. and Mrs. J. I. Tolman and family are in Oakley for a few days, visiting.

Miss Gertrude Rauch was the guest of Miss I. A. Terrill during her stay in Hartsburg.

Frank Terrill has been in Milnor for several days landing cattle.

MEETINGS ARE WELL ATTENDED

Y. M. C. A. Meetings Bring Out Large Crowds.

ACTION TAKEN AT AFTERNOON MEETING FOR BUILDING.

Committee Will Canvas Situation In Order to Determine Local Conditions and Needs for Organization.

Three meetings were held Sunday in the interests of the Y. M. C. A., which had three representatives here. Meetings were held in the morning in the various churches, a men's muss meeting in the afternoon, and a union meeting in the evening. Although the meetings were not designed primarily for the purpose of starting a Y. M. C. A. in this city, some action was taken in this direction at the afternoon meeting, when a committee was appointed to investigate into the situation in this city and see what progress could be made in the way of establishing a Y. M. C. A. building and organization here.

The morning meetings were all well attended and the afternoon mass meeting for men brought out a crowd of about 200. The Apollo club and Y. M. C. A. orchestra furnished a musical program, after which I. B. Rhodes addressed the meeting. It was at this meeting that the committee was appointed to investigate as to the feasibility of pushing the work in this city at this time.

The evening meeting, held in the Methodist church and illustrated by stereoptical slides, was well attended and besides being an entertaining meeting was instructive. I. B. Rhodes was the lecturer and presented the claims of the Y. M. C. A. in a logical and pleasing way. He stated at the beginning of the meeting that Twin Falls to start a Y. M. C. A., as that initiative must come from the residents, but that the organization was willing to come in and do their share as soon as the townspeople had manifested an interest.

In tracing out the work slides were thrown on the screen illustrating the various products of this state and the last and most important "crop" of the state was shown when a group of young boys were shown. Then the starting of the great work of the Y. M. C. A. was shown when the picture of George Wilson, an employee of the great Hitchcock & Co., London, was shown. The speaker traced out the growth of this great movement from the time of its inception in a small room in the warehouse of this great firm, to its present status in all the countries of the world.

A number of views were shown of the different buildings in the cities of the state and of Oregon. Twin Falls has a building costing \$24,000.00, while Pocatello has a railroad Y. M. C. A. with a membership of 1300. This

building cost \$44,000.00. Boise also has a building and the work at this particular place was gone into in detail. The speaker remarked that Twin Falls should not allow other cities to surpass them in this matter. The local committee had gone as far as to have a plan for a building drawn up and this was finished on the screen, proving much applause.

The plan of operation of the Y. M. C. A. was next given, showing how it operates among the young men and boys, appealing to the social, physical and religious demands of the men. Typical scenes illustrative of the actual operation in the buildings were shown. One scene showed the Y. M. C. A. housed in a passenger coach at the construction camps of the C. M. & St. Paul railroad, and the actual benefits were given. There was also an endorsement from the Gould system as to the advantages that had come to their men from the starting of these branches along their system. Plans are now being made for starting the Y. M. C. A. on the battleships, one being in operation on the battleship Nebraska.

In closing the speaker showed the practical results in the way of increased returns that come from the classes of the Y. M. C. A. schools. He showed how a large per cent drop out before finishing the grammar schools and had it necessary to attend the night school. He showed the fact that the educated man has an income of \$1,000.00 while the uneducated man's income is only about \$400.00. Many young men realize this fact and attempt to better themselves in the night schools of the Y. M. C. A. The last words of the speaker here, he hoped that Twin Falls would be remiss in the matter of taking care of the many men that are to be found in this city.

LIKES TWIN FALLS STORY.

Commercial Club Man Makes Good With Local Story in Oregon.

At the Commercial club Tuesday evening, C. C. Chapman in his address told a story on Twin Falls, Idaho. That town is wonderfully blessed by nature and the boosters are rightly proud of their city, so they blow and blow at every given opportunity, frequently blowing as hard as the wind blows. Chapman was here one night and boosted after booster until every glory on earth, but one, had been credited to his feet and said: "Well, all I've got to say is, if that you fellows can suck as hard as you can blow, you can get the Pacific over here in about fifteen minutes." And the yell that went up shook the Capitol dome at Washington City—Corvallis, Ore., Gazette, Oct. 28, 1910.

Mrs. S. H. Bolton Fortunate. Mrs. S. H. Bolton had the fortune to draw the Mission lamp at Booth's last Wednesday. The drawing occurs each Wednesday at 3 o'clock and attracts a large crowd.

HOLD LAST RALLY.

Republicans Have Boise Speakers To Close County Campaign.

The last Republican rally of the campaign was held Saturday evening at the Airframe when James H. Shoup and Judge Richard of Boise, were the principal speakers. Rep. Sweetley also spoke briefly in reply to some of the criticisms that had been directed against him, republican state and Judge Shoup proved to be an able and logical speaker. He showed how political parties are necessary in order that in the final analysis government may rest with the people. No one can, he declared, logically deny the political parties the right to exist. The duty of the voter is to select the party that is at the last variance with the voter's conviction. For more than fifty years the Republican party has been the dominant party and there is no reason at this time for turning down the party for the minority which has promised much and done little. The duty of the voter is to select the party that is at the last variance with the voter's conviction. For more than fifty years the Republican party has been the dominant party and there is no reason at this time for turning down the party for the minority which has promised much and done little. The duty of the voter is to select the party that is at the last variance with the voter's conviction.

In touching upon the state issues he spoke briefly on the Mackay dam charges and declared himself on the wet and dry issue showing the fallacy of Hawley's stand. Senator Sweetley was next introduced and declared himself on the county campaign. He declared that prospects were bright. He predicted the practice of slinging mud in this campaign. Endorsements were read from W. C. T. U. authorities endorsing the stand that he took on the local option law. In closing he refuted successfully the charges that he was the "tool of the corporations."

The last speaker, Judge Richards, confined himself to state issues, showing that the charges of Democracy had not been sustained and that the real issues were being hidden by minor ones. He called upon to bring some charges against the party in power. His final appeal was to support the ticket in its entirety.

DEMANDS A CHANGE.

Judge Perky States That G. O. P. Has Had Degenerated.

Democracy had its final hearing in the campaign Monday evening, when Judge Perky said his cause at the Airframe. Judge Perky's reputation as an orator had the house and a responsive audience was the order. The speaker took occasion to trace out the national as well as the state issues. He called the voters not to vote by second nature unfeeling of the results. He stated that the day of radical party was passed. He called upon to bring some charges against the party in power. His final appeal was to support the ticket in its entirety.

All these organizations, but regulations have been made upon the promise that such combinations have a right to exist. The cause for this marked increase was said to be the twelve tariff, statistics being quoted to prove this. He claimed that the failure of the system was that it forbade the shipping in of cheap goods, but did not forbid the immigration of cheap labor as is evidenced by the large number of coolies now employed. In briefly discussing state issues, he referred to the Mackay dam, the land board and the Huley bank failure. He also urged the adoption of the initiative, referendum and recall. In closing he urged Mr. Brady for attempting to buy up papers in the state. He accused him of having control of papers in the state to further his propaganda. The speaker declared this to be an attempt to throttle the freedom of the press.

AMOMA CLASS HAS PARTY.

Sunday School Class Enjoys Evening at Marty's Home.

A Halloween party was given by the Amoma class of the Baptist church and the honorary members at the home of Mrs. A. S. Martz. The decorations were very unique. One room represented a Gypsy camp where the fortune teller presided. Another room was haunted for ghosts were represented among the guests, and on the walls. Another room was decorated in green and white, the class colors, gnomes and gnomes were made to carry out the colors. Jack-o-lanterns were used throughout the rooms. Halloween games and jokes were played and enjoyed by all.

PROFIT FROM ALFALFA FIELD

\$121.50 Per Acre In the Hagerman Valley.

The Hagerman Sun says that eight acres belonging to Sam Johnson, seed dealer of 1600 pounds of alfalfa, produced a yield of 3 1/2 cents per pound at low price, as it would bring 17 1/2 to 20 cents if held until next spring, would produce a crop of hay worth \$22 tons for the eight acres, which will sell for \$5.00 per ton, making \$176 more; there will be 20 tons of chaff left, the seed is worth \$1.00 per ton, sell for \$5 a ton, making an additional \$100—a total of \$272, or \$121.50 per acre. This is not counting anything for the pasture after the hay has been cut, which is certainly worth something. Do you wonder why Idaho lands steadily increase in price while eastern lands either stand still or depreciate in price?

Student Paper. The Associated Students of the Academy of Idaho have decided to issue a college paper and have elected an editor in chief in the person of Donald McPherson and a business manager in the person of Rex Stratton. The publication will be issued semi-monthly—Pocatello Tribune.

Mr. McPherson is a son of Alex McPherson of this city, and was a former pupil in the local high school. WANTED—At The Times' office, clean, cotton rags, at once.

The Presbyterian Ladies Aid will be the guests of Mrs. J. R. Calkerson at Buhl next Friday. An invitation to spend the day having been issued by the former member of the society.
Mr. R. W. Merryweather, who was reported seriously injured, is said to be much improved. He was injured in a fall from the roof of the court house. Mr. Merryweather was engaged in wheeling a load of brick onto the elevator, which at the instant a bell was to lift the load. In some way the insulation on the bell cord became worn and as he stepped on the floor of the elevator the wires exposed and closed the circuit, with the result that it rang the bell and the engineer started to raise the load. The elevator rose about four feet when Mr. Merryweather fell backwards to the floor. He was considerably shaken up and received a number of minor injuries.
MRS. BUCKLEY ENTERTAINED
Has Novel Party For Music Lovers, Last Week.
Mrs. F. M. Buckley entertained thirty or more music lovers Wednesday afternoon, at her unique musical concert. The very original invitations sent out, read as follows: "Perhaps this excites your curiosity, but I'll not explain you must just come and see.
For Do, Re, and Me, Will all be there, And Fa, So, La, If the weather is fair, And All in accord, I hope to see, You at this strange little Musical Bazaar.
A great number and variety of musical games were enjoyed, and refreshments were served. The first letter of the various dishes in the menu forming the word, "Piano." Novel favors were the barn of music entitled, "Musical bees," on which were the following lines:
B Brave, He Wise, B Sweet, T Gay, B Good, B Bad, But Every Day B Busy as a Bee.
LARGE SHIPMENTS OF LIVESTOCK
Movement Indicates That Idaho Will Have Shortage In 1911.
Reports from the great railroad and packing house centers point to the effect that the volume of livestock being rushed to market this fall from all over the country is without precedent. Does this movement indicate that stock growers anticipate a lowering of the market price in the near future, or do they need the money for the maintenance of their automobiles. At the rate sheep of all grades are being rushed to market means a shortage next season.
For Rent—3-room house, \$12.00; city water; 2 blocks from Lincoln school. Apply J. E. White or Appell, this office.

HAS HAND BADLY CRUSHED
Workman Has Right Hand Caught in Rock Crusher Friday Night.
Jack Elliott, a workman employed on the rock crusher near the depot, suffered a painful injury last Friday night when he caught his hand in the conveyor in attempting to extract a rock. Although the hand was badly torn, he will not lose it.
It was employed on the night shift and was tending the conveyor. A rock became lodged in the conveyor in such a way as to block its passage. He reached in with his hand and succeeded in releasing the stone. The moment that he did the conveyor started again, catching his hand as it did so. His cry attracted the attention of the fellow workmen who came to his assistance. In order to free his hand it was necessary to stop the conveyor and turn it back sufficiently to release his hand. The flesh on the upper part of his hand was badly torn. The moment that he caught his hand in the Elliott against the carriage, bruising him about the neck and head. Although the injury is a serious one, the members will not be lost, although considerable time will be required to heal the injury.

Millions Ruined

It is inconceivable that any person should neglect the slightest symptoms of deflection of eye but a specialist to fit their eyes with glass lenses. The eye is the most delicate organ of the whole body. It is most easily impaired. Millions of eyes have been ruined by improperly fitted glasses. Wrong glasses are worse than poison to the eye. When the eye is so easily injured, it is passing strange that persons will, without knowing their requirements, purchase glasses from peddlers, jewelers and unskilled travelling oculists.

If you have any trouble with your eyes don't trust them to anyone but a specialist.

If you want the best and are unwilling to have your eyes tampered with, go to

CELEBRATE 35TH ANNIVERSARY.

Mr. and Mrs. Frank Masalle Celebrate Happy Event.

Kimberly, Idaho, Nov. 24, 1910.

The Jenkins & Carey sale Tuesday of this week was well attended and everything sold brought good prices. Two fine cows were sold, bringing \$117 and \$123, respectively.

The streets of Kimberly had the appearance of having gone through an earthquake. The sidewalks were broken and the transformation can, however, be traced to regular hallowe'en rounders, but thanks to the boys, no damage was done.

Rev. James Lottch received a bad fall Monday evening by some one stretching a wire across the sidewalk in front of Ellis & Wilson's store. The Lottch is able to be up and around, although at the time he received severe bruises and had to be picked up by the ambulance. The accident happened along just as he had left. The fall knocked him unconscious for a few minutes.

Mrs. J. C. Ruzles from Harton, Kansas, is visiting with her sister, Mrs. Thos. Glover, who lives northeast of Kimberly.

On Monday morning after the week's vacation while the faculty were attending the teachers' institute at Pocatello. All report having had a very successful and enjoyable vacation.

Calvin Owens came in from Rock Creek Wednesday where he has been working on the new house of Magnus Larsen.

Mr. W. C. Mangold of Pocatello, was looking over the country Tuesday with a view of making an investment in land.

Dan Sudweeks, who has been very sick with typhoid fever, is reported much better at this time.

Mr. and Mrs. Frank Masalle celebrated their thirty-fifth wedding anniversary Wednesday evening of this week. Only a few of their immediate relatives were present at the party. Mrs. J. E. Halferty served refreshments and all present joined in wishing them many years of health and happiness.

The Kimberly Telephone Co. received their equipment Monday of this week and have begun the erection of their pole lines.

E. T. and C. T. Newbery have begun work on their 36-acre tract near Twin Falls. They expect to get out 10 or 15 acres to orchard in the spring.

The pupils of Miss Elizabeth Barrows will give a musical recital Friday evening, November 11th, in the old Opera House.

Mr. W. C. Newbery left Wednesday for Portland, Oregon, in charge of six cars of hogs for a Portland commission company.

Monday evening the Misses Lilley and Claiborn entertained about forty of the young people of Kimberly and vicinity with a delightful party at the Claiborn home. The guests began to arrive about eight o'clock and were received by four very bewitching couples, with refreshments and coffee served at 11:00 o'clock, after which the party broke up feeling that Miss Marie was a very entertaining hostess.

A business meeting of the Epworth League will be held in the church Wednesday evening, November 9th. All members of the League and all interested in the League or wishing to join, are invited to be present. After the business the evening will be spent in games and social time.

Miss Marie was present for November 18, except for the recital in the Methodist church, under the auspices of the Epworth League. Miss G. G. Tracy Any Rauch will give a dramatic recital on that date, assisted by Miss Nellie Rauch. Remember the date and place. Admission 25 and 25 cents.

RAISE POSTAGE ON MAGAZINES

Washington, Oct. 31.—President Taft and Postmaster General Agre on Next Scheme.

Washington, Oct. 31.—President Taft and Postmaster General Hitchcock reached an agreement today on recommendations the president will submit to congress regarding a change in the second-class postage rates, affecting magazines and other periodicals.

Mr. Taft will recommend that magazines be required to pay the present rate of one cent a pound on all reading matter, a much higher rate, to be determined later, on advertising pages. Each magazine will be required to send a copy of its current issue to the postoffice department each week, or month, as the case may be. There the publication will be dissected, the reading matter and the advertising sections will be weighed separately and the weight ascertained.

Newspapers will not be affected. The average haul of the newspaper is but 500 miles, while the average haul of the magazine is 1100 miles. The hauling of magazines has proved costly to the government and both the president and postmaster general believe it has entered largely into the deficit shown each year in the postoffice department. This deficit has been reduced in the last year, a saving of \$11,000,000 having been reported from economies put into effect by Mr. Hitchcock. The adoption of a new rate for magazines Mr. Hitchcock believes will wipe out the deficit and put the postoffice establishment on a self-supporting basis.

President Taft is looking forward to a one cent rate for letter postage and hopes to recommend it before he leaves the White House. He hopes also to back up his recommendation with figures and estimates showing that the present rate at this rate will yield a profit to the government.

The establishment of the proposed rate on magazines, the president believes, will bring about a saving of a penny postage. He believes the magazines will be compelled to pay only their just share in the postal expense.

The president is determined to push his plans for placing second and third class postage under the civil service. He will make the recommendations to congress in his forthcoming message.

When the Japanese Advertise.

The Japanese have an original way of advertising and they apply to it the art of the poet; that their original imagination is capable of an exchange with the poet, and that the methods of their combinations are sometimes as picturesque as they are original. Japanese merchant informs his customers that his goods are sent by "air" and that his knowledge of the air is as durable as the hide of an elephant. A Tokyo grocer borrows the psychology, and, in mordant language, announces that "Our vinegar of excellent quality is sharper than the tongue of the most diabolical of mothers-in-law."

THRES REEPLIT AND VULCANIZED AT KELLEYS. June 9-10
WHIZZ—A New One. Sec. June 9 11

SAY POTATOES WILL SOAR.

Middlemen Predict Tubers Will Sell at \$4.00 This Winter.

That potatoes will reach the unheard-of price of \$4.00 per hundred weight by spring is the opinion of the middlemen of Boise. If this condition comes for spuds will mean a great hardship upon the consumers of this city, it is said.

It is said that the amount of potatoes which are in storage for the spring demand is far below the normal amount which should be stored at this time of the year, and that the demand for spuds is exceptional. Potatoes are retailing at this time for 90 cents per hundred in sack lots, and 1 cent per pound in smaller quantities.

Reports from the Upper Snake River valley, which is recognized as the potato supply point for this vicinity, state that the crops were light and that the demand for the product in eastern markets is heavy. Market reports from the Greeley section have it that there will be a decided shortage at the close of the season on account of the scarcity of water during the irrigation season, and that the supply there would not equal the demand.

The Missouri river region reports that the crop of spuds was just fair and that the demand was exceptionally good. This is unusual for this period, as the demand for the product is utilized before the eastern crop is used. It is a known fact that Kansas city commission houses have had men out there making attempts to buy all of the spuds obtainable at the present market price, for January delivery, but that they were not successful.

Potatoes are bringing the farmer from 65 to 70 cents per hundred at this time, and the demand is heavy. There are no wintering the crop, and there is only a small percentage of the crop sold. In fact there are probably as many spuds in the pits of the farmers at this time as Idaho at this season last year, and last year's production was twice that of the past season.

Judging from all reports, the crop throughout the entire country is about half what it is normally, although the grade of the spuds which matured is up to standard. This will mean that the demand will be just twice as heavy as in ordinary years, when potatoes run up to \$2 per hundred, and on this basis is forecasted at \$4 spuds made.

It is said that Boise storage companies were unable to secure sufficient potatoes to fill their warehouses and that they are withholding their crops until the first of February. From that time on the consumers of Boise who have not stored their winter supply of potatoes are at the mercy of the Idaho supply and demand, and from all indications the demand is far from reassuring.

At market this year is in direct contrast to that of last year, as there were hundreds of carloads of the finest stock left in the caves to spoil because of the force of the market price did not warrant the haul to the cars. It is estimated that several hundred cars were left over on the first of May in the Upper Snake River valley alone, and conditions were the same all over the country, according to dealers.

For Sale—Horses, Cows, Hogs, Hay.

One span extra good, weight 2300 lbs., 5 and 7 years old. One span light mares, weight 2100 lbs., 6 and 8 years old. One mare 1300 lbs., 8 years old. One pair of pure bred Shorthorn cows and heifers, cow good milkers. Fifteen head of pure bred Poland China sows and gilts, all eligible to register.

Sixty tons hay in stack.

DR. CRIPPEN TO BE EXECUTED

Convicted of Brutal Murder of Actress Wife and Sentences to be Hanged on November 15.

London.—Dr. Hawley H. Crippen, after a trial extending over five days, was on Saturday found guilty of the murder of his wife, an American woman, known on the stage as Belle Elmore. Lord Chief Justice Alverstone, who presided at the trial, sentenced Crippen to be hanged on November 15.

There is, however, the strongest prejudice in England against executing a man on circumstantial evidence, and an incident at the close of Crippen's trial has caused the impression that the jury may have recommended a life sentence.

After Crippen was sentenced, the foreman of the jury handed to the lord chief justice a note, after looking at which the justice said: "That shall be forwarded to the proper quarter." The "proper quarter" might mean the home secretary, who has jurisdiction in such matters.

Dr. Crippen was convicted of the charge of having murdered his wife and burying her body in quicklime in the cellar at his home.

Edith Levee, a beautiful typist, is charged with being an accessory to the crime, and is yet to be tried. Crippen and the Levee girl left England together, and were arrested in the United States.

PHILADELPHIA WINS PENANT.

American League Leaders Now World's Champion Ball Players.

Chicago.—By winning from Chicago on Sunday by a score of 7 to 2, the Philadelphia team of the American league won the world's championship series, winning four out of the five games played, outbalancing and outfielding the veteran Chicagoans in every game but one. While the series was not the most profitable ever played, the players' share of the money amounts to \$79,071.93. O. this, 60 per cent, or \$47,443.15, goes to the winners and \$31,628.77 to the losers. As there are twenty-three players on each team eligible to participate, each of the Philadelphia players is entitled to sound numbers to \$2,620, each Chicagoan to \$1,375. The total receipts for the series were \$173,980. The two clubs get \$38,750 apiece, while \$17,338 goes to the national commission. The total attendance was 126,219 persons.

BABY BOOZY TIKES AT KELLY'S.

SMOKE SIGNALS OF INDIANS

How the Redman Communicated With His People and Warned Them of Danger.

The traveler on the plains in the early days soon learned the significance of the spies of smoke that he sometimes saw rising from a distant ridge or hill and answered from a different direction. It was the old-time talk of the Indians across miles of intervening ground, a signal used in rallying the warriors for an attack, or warning them for a retreat.

The Indian had a way of sending the smoke up in rings or puffs, knowing that such a smoke column would at once be noticed and understood as a signal, and not mistaken for the smoke of some camp-fire. He made his rings by covering the little fire with his blanket for a moment and allowing the smoke to ascend, when he instantly covered the fire again. The column of ascending smoke had said to very Indian within thirty miles, "Beware! An enemy is near!" Three smokes built close together meant "Danger." One smoke merely meant "Attention." Two smokes meant "Camp at this place."

Frequently at night the settler or the traveler saw fiery lines crossing the sky, shooting up and falling, perhaps taking a direction diagonal to the lines of vision. He might guess that these were the signals of the Indians, but unless he was an old-timer he might not be able to interpret the signals. The old-timer and the squawman knew that one fire-arrow, an arrow prepared by treating the head of the shaft with gunpowder and fine bark, meant the same as three columns of smoke puffs. "An enemy is near." Two arrows meant "Danger," three arrows, "The danger is great." Several arrows indicated, "The enemy is too powerful for us."

Japanese Method of Cold Storage.

On a recent visit to the city of Tokata, on the northwest coast of Japan, I had occasion to observe, what at first I thought I imagined was a haystack, but on investigation found to be an immense mound of snow covered with straw matting. The purpose of this mound was to keep in cold storage, for consumption in summer, fish caught in the winter. This is the only method of cold storage employed in the rural districts in the northwest of Japan, where the snowfall is very deep in winter, and these stacks are to be seen in considerable numbers distributed in different parts of the country.—Strand Magazine.

STALKER, The Clothier

Divides Waters of Two Oceans.

Situated exactly at the highest point of the Jivido of the Rocky Mountains, on the Crow's Nest division of the Canadian Pacific railway, in British Columbia, the Summit hotel, of which "Andy" Gow, a famous hunter and frontiersman, is proprietor, claims a unique distinction. When it rains in the mountains the water which falls on the eastern slope of the Summit hotel roof trickles away to join a tiny rivulet, which in due process of time mingles its waters with the broad Atlantic. The water falling just beyond the ridgepole, on the other side of the roof, flows westerly, and ultimately into the Pacific.—Wide World.

More Money for Red Men.

Washington.—New methods for the handling of Indian lands sales have been put in force by the bureau of Indian affairs, whereby the Indians will receive at least \$50,000 more per year than under the old system, according to officials of the bureau.

For Sale—Almost new dayvorn full leather upholstery. Call at H. B. Clifton's real estate office. Nov 8

You get the quickest and best service at the Boston Lunch, because we employ experienced help. SHEP.

Certainly Doing Her Share.

Cleveland, O.—Too late for the census, but earnestly doing her share in Cleveland's remarkable growth, Mrs. William G. Clarke, a Lakeside avenue matron, Friday became the mother of her third set of triplets. She is also the mother of four pairs of twins and is the only sister of twenty brothers. Two pairs of twins and one set of triplets were born during Mrs. Clarke's first marriage and the remainder of her seventeen children came in groups during her second marriage.

Fire Damages Theatre.

Salt Lake City.—Fire partially destroyed the Daniels theatre, early Monday morning, ruined over \$40,000 worth of stock of the Daniels Clothing company and drove inmates of the Jungalow hotel to the street in their night clothes. The total damage is estimated at \$60,000, with insurance placed at about \$25,000. For a time the flames threatened to get beyond control of the firemen, and more serious consequences seemed imminent.

LAWRENCE BARRETT, MHD Havana.

See Robertson & Janks for your Sunday dinner.

A Wonderful Dog.

A government official in Bavaria connected with the forestry department has a wonderful dog, which is as clever at climbing trees as a cat. If his master fastens a handkerchief up in the tree-tops the animal will clamber up after it in the simplest way, and never fails to bring it down. He was taught by his mother, who was famous as a tree climber. The clever animal has won several medals by his extraordinary talent, and takes particular delight in climbing silver birches—not the easiest tree in the world to scale, for the trunk is particularly smooth and slippery.—Wide World.

Corporations Pay Tax.

Washington.—Practically all the corporation tax aggregating in cases of \$27,000,000, has been collected by the treasury department. The officials say it was collected with less annoyance and was paid apparently with less reluctance than any other internal revenue tax.

Will Try Silk Culture.

New York.—The raising of silk worms is to be undertaken on a large scale by English capitalists at Great River, L. I., a suburb of New York.

Shot Cuban Commander.

Havana.—An attempt was made Saturday night to assassinate Major General Pino Guerra, commander of the Cuban army. General Guerra was leaving the presidential palace when he was shot in the leg and seriously wounded. A sentry on guard at the palace gate was also shot, the bullet striking him in the breast. The assailant, who was captured, proved to be a member of the national secret police.

Patten Satisfied With Fortune.

Kansas City.—James A. Patten, the millionaire wheat trader of Chicago, was here Friday, and during the day he told why he quit the exchange. According to this statement, the fact that he had enough money and hoped to benefit the health of his brother caused his retirement.

Two Killed in Wreck.

Upper Sandusky, O.—Two women were killed and a score of other persons hurt when three coaches of the Hocking Valley passenger train, northbound, was derailed one-half mile south of Harper. It is not known what caused the wreck.

LAWRENCE BARRETT, MHD Havana. See Robertson & Janks for your Sunday dinner.

CARRY OFF CONVICT

MAN CONDEMNED TO DEATH RESCUED FROM VIRGINIA JAIL BY FRIENDS.

Mountaineers Ride into Town and After Releasing Friend From Prison, Having Overpowered the Guards Set Him Free.

Livingston, Va.—Mountaineer friend of John Moore, under sentence to be electrocuted for the murder of Frank Howl, descended upon the Nelson county jail at 1 o'clock Friday morning, stormed the building and rescued the prisoner. It is supposed he will be taken to the mountains and liberated.

At an early hour seventy-five men from the mountain sections where the crime was committed proceeded to the county jail. Admission was gained and the guards awed into non-resistance. Moore was then released.

Precautions had been taken by the mob to prevent an alarm. Almost as quietly as they entered the town the mob fell prone upon their way into the mountain district to try to re-arrest Moore.

The only telegraph wire leading into the section of the country where Moore's friends live, was cut before the rescue.

Moore was condemned to death at Richmond on September 28, after being convicted of murdering Frank Howl in Nelson county last May.

Quick Justice.
A Yorkshirren was standing near the representative of the Red House on a second day of the Blackspitting meeting, when he remarked "I understand that justice is meted very quickly in these parts." "Quickly" exclaimed the Lancastrian, "should think it is. Why, just on yesterday an airman fell out of his aeroplane, and he was tried and sentenced to six months in jail before he hit the ground." "You don't say so?" "What was the charge?" "Vagrancy. He had no visible means of support."

President Taft Registers.
Washington—It will not be necessary for President Taft to go to Cincinnati to register in order to vote there. The president has registered by affidavit. He will go to Cincinnati to vote on November 8.

THE GARDEN OF MONTEZUMA

Important Discoveries Made in Beautiful Pleasure Grounds of Early Mexican Rulers.

That an unknown, highly cultured people, of whom little history, tradition nor legend has preserved any record, flourished in or near the valley of Mexico and enjoyed spiced chocolate and aromatic beverages from transplanted tropical fruits grown by them in a marvelously built garden at Oaxtepec from 1500 to 2000 years ago is the latest theory of Guillermo Telles regarding the recently discovered garden of Montezuma.

Mr. Telles applied to the department of public instruction for a special permit to make explorations in the garden. The permit that concerning the twenty-one successive caecques on the land with evidence in possession of the national museum has led him to believe that the garden has great antiquity.

He has been devoting a large part of four years to studying the plants found there. Through the inscription he has been able to glean historical data concerning twenty-one successive caecques. Tropical trees, flowers and fruits were transplanted from the isthmus of Tehuantepec and Central America to this garden, and there were grown cocoa, vanilla, papaya, yucca, cacao, mamey, and another rare flower which gives off its odor in the night.

These plants and their friends were ingredients of the delicious chocolates which were the favorite beverage of the Aztec lords when Cortes arrived. The garden was visited by Acapulco and Ihuacama, the second named being identical with Montezuma. It is claimed that Montezuma Ihuacama appropriated this beautiful garden to his personal royal use and pleasure.

Not a Glass Child.
They were having a glass of beer on the pavilion when all at once on the walk below there was the sound of crashing glass. They looked and saw that a child of about eight months had fallen prone upon the pavement face down. His mother ran to pick him up.

"He's a glass child," lamented the woman who was drinking the beer, "and he broke himself when he fell."
"No," said the man, and looking again, she found that he was right. It was not the child that was broken, but a large bottle of which he had held clasped in his arms when he fell face down.

JAPAN'S LARGER NAVY.

Forty Million Will Be Used for New Fighting Vessels.

Tokio.—Count Katsura, the premier and minister of finance, speaking at a dinner of the Associated Clearing houses Sunday evening, outlined the next budget briefly and said that the government would faithfully adhere to the policies already followed.

The only new feature in the next budget will be an appropriation for naval increase, amounting to forty million dollars, payable in six years. This, the finance minister said, had been necessitated by the sheer requirements of maintaining peace.

Samoaans Suffer From Hookworm.
Washington.—Eighty-five per cent of the inhabitants of American Samoa are suffering from the hookworm disease, according to the annual report of Captain E. Parker, U. S. N., retired, governor of the American islands of the Samoan group.

Dual to the Death.
El Paso, Tex.—Word has reached here that at Valentine, 250 miles east of here, Joel Finley, a prominent cattleman, and Tom Dybe, a deputy sheriff, fought a duel with revolvers on the principal street. Finley fired four bullets into Dybe's body, killing him instantly.

Memorial Services for Dolliver.
Washington—Memorial services for the late Senator Jonathan P. Dolliver, of Iowa, were held here on Sunday in the Foundry Methodist church.

Blew Postoffice Safe.
Indianapolis.—After wrecking the postoffice safe, taking \$400 in money and stamps, and attempting to gain entrance in the vault of the Farmers State bank, in Bargersville, seven miles south of Indianapolis, safe blowers made their escape.

Admits Killing Policeman.
East St. Louis, Ill.—Lee Rhodius, 24 years old, arrested in connection with various drug store robberies, admits that he killed a St. Louis policeman last summer.

Senator Elkins Improving.
Elkins, W. Va.—Senator Stephen B. Elkins, whose illness at his home here has prompted many anxious inquiries from friends in Washington, continues to show improvement, according to his physicians.

Injured in Automobile Collision.
Dallas, Tex.—James Frick, Jr., of Dallas, was fatally injured when an automobile collided with a motor cycle on the State Fair speedway Sunday afternoon and crashed through the fence into a crowd of spectators.

NOT SO BAD AS HE EXPECTED

Young Man's Nice Bunch of Excuses Were Not Needed, After All.

There is a young man in Dallas whose work keeps him up until the small hours of the morning, which is rather an awkward thing, inasmuch as he has but recently taken out himself a wife.

But the lady knew of these hours, and he is not expected until very late.

A few days ago this man met an old friend, and over a cigar after working hours they discussed the past, present and future, until daylight's gleams began to show rays over the house-tops. Then the young man with speed made for his home, fearful of his reception.

On nearing his habitation he discovered a bright light in the window, and excused born of desperation began to excruciate his head. He was in for it this time over.

He decided to tell the truth as being more nearly satisfactory than a false and with this good resolution in his head he threw open the door and beheld a sight that filled him with amaze.

"Upon a chair, with her skirts tucked about her feet, sat his wife. The lamp was turned too high and had smoked the chimney."

"On his entrance she precipitated herself into his astonished arms and wept."

"What was it?" she asked, weeping. The man started.

"A non-matter," explained the lady. "It came out of the closet soon after you'd gone, and I've been up here ever since."

THE TACTFUL WOMAN'S WAY

Studies Man at Most Important Hour of Day With View of Keeping Peace.

An experienced and observant woman declares that the most important moment of the day to a man's peace of mind is the ten minutes that follow his return from the work of the day.

He has frequently brought him to a change his whole state of feeling. He comes home usually tired. Work or the vexations of business during the day have frequently brought him to a point of fatigue or nervousness at which a very little thing may decide what his mood will be for the rest of the evening.

Of course the particular disposition of every man is going to tell here, just as it does everywhere else. But the rule will hold good for the average man. The most important thing for the tactful woman to do is to wait until she sees some signs of his temper before she makes any decided move.

Don't, above all things, tell him that the plumber has just sent in a terrible bill merely for talking that little alteration. Don't talk too much in the beginning on any subject. Conversation taken tentatively at the outset is likely to upset anybody who is a little tired after a day's work and who wants the quiet enjoyment of the home.

The woman who follows this advice will find her evenings pleasanter than if she jumped at the beginning into the heart of things, especially disagreeable things.—Woman's Life.

Philosopher and Philosophy.
According to Life, philosophy is a short cut to knowledge. Being a short cut to knowledge philosophy is nothing at all, because there is no short cut to knowledge.

A philosopher is a man who thinks that if he finds out a certain thing which nobody else has ever found out, he will be able to find out everything else without looking. Therefore, he spends his life looking for that one certain thing, and thereby overlooks everything else. Accordingly, a perfect philosopher knows nothing at all. Happily the world has never yet been burdened with a perfect philosopher.

There are, however, a good many imperfect philosophers floating around who are interesting to associate with directly, as they follow philosophy no as a vocation but as an avocation.

Another Railroad Strike.
St. Louis.—Approximately 2,500 men employed in the mechanical trades on the Missouri Pacific & Iron Mountain system walked out in sympathy with the striking machinists on Friday. The union men say that the road will not be able to operate their locomotives more than a week without the men who quit work.

He's a good judge of things to wear.

Mr. Swell Dresser:—

To dress well you must begin at the bottom. Florsheim shoes we sell have good bottoms and good tops. Although you wear shoes at the bottom, our styles are topky.

Buy shoes that have a reputation. They will cost you \$4.00 or \$5.00 a pair and they will keep your feet in good humor.

You and each of you are hereby notified that you are to appear in an action brought against you by the above named Plaintiff in the District Court of the Fourth Judicial District of the State of Idaho, to wit: for the County of Twin Falls and to answer the complaint filed therein, within twenty days exclusive of the day of service, after the service of this summons, if served within the district; or forty days if served elsewhere.

This action is brought to obtain a judgment determining all the rights and priorities in and to the waters of Snake River between American Falls and the Miner and Plaintiff, and to declare and determine that the Plaintiff is entitled to three thousand cubic feet per second of time of the waters of said river prior to your diversion of said river and to quiet any and all conflicting claims in and to the waters of said river, and to adjudge all defendants subsequent in right of the Plaintiff to the extent of three thousand cubic feet per second of time.

And you are hereby notified that if you fail to appear and answer the said complaint as above required the said plaintiff will appear to the court for the relief demanded in the complaint given under my hand and the seal of the said court this 21st day of October, 1910.

H. T. WEST, Clerk. (SEAL) By C. C. Siggins, Deputy. STOCKSLAGER & BOWEN, Attorneys for Plaintiff, and Residing at Twin Falls, Idaho. Oct 25 Nov 22

Extract from Woodburn, Oregon, Independent of October 20th, 1910: 'Before the winter is over Woodburn will be mighty thankful that it has some paved streets. One thing is certain—the people of this city would like to get back to a mud condition. It is a noticeable fact that those who buy property to secure property on those streets that have been improved. This is a little demand for first street property until that thoroughfare was paved, nor were extensive improvements on the principal streets contemplated. Some citizens, of course, object to progress of a material character. This simply shows lack of education in the respect. They probably would be among others brought up to expect paved streets, sewage systems and other necessities, but they consider such improvements unnecessary. They view Woodburn in the light of a farm.''

MURTAUGH ITEMS.

Murtaugh, Ida., Nov. 7, 1910. George Chas. in up train. Kitcherby on a short business trip. Karl Fredericksen, Murtaugh's blacksmith, was a business visitor to Shoshone. Mr. Isaac Levine of Hansen, was hunting ducks on the lake, Tuesday. Mrs. Myrtle Day returned from a short business trip to Lewiston, Wash., who has been very ill. Mr. Day left her mother very much improved.

Miss Lee was a business visitor to the dam town Monday of last week. Mrs. Orsen Strong and little daughter Lois, returned Sunday from Okanogan. They visited relatives and her daughter Chloie, who is attending the Academy at that place. Fred Frank French and Miss Maude Tipton returned from Coconino Saturday, where they had been attending teachers' institute. Mr. George Decker and Miss Alice Tolman were shopping and visiting in Twin Falls Saturday. Mr. and Mrs. Frank A. Terrill were Twin Falls visitors Saturday. Mr. Andrew Hansen is having several tons of hay baled and shipping it to Minner for the North Side Construction company.

Candidate Hess of Kimberly, was visiting the voters here last Monday. Arthur Wilson and Mr. Craig drove to Lewiston Saturday to attend a public sale, Tuesday. Mr. Fred Keller was being shipped his potatoes the past week. Mrs. J. H. Wederlock and two little children spent last Friday night with her mother, Mrs. Joe Hutchingson, of Artesian City. Mrs. Rutledge has been enjoying a visit from her brother, Chester McFarlane, of Heyburn. Chester Stephenson is working for Frank J. Terrill at present. C. C. Workman and wife were Okanogan visitors last week. Frank Brewer, the Hansen contractor, was visiting at the home of Mr. and Mrs. Rutledge. Mrs. J. H. Zinsler, Edna gave Mrs. Harve Walling a surprise party Monday afternoon, each lady taking a large supply of good things to eat and many of the ladies were present. The ladies attending were Mesdames Deeringers, Beers, White, Orson, Fred Strong, Strong, Fowler, Hutchinson and Joe Strong.

Mr. Hillburter was working for Mr. Deeringer Monday. Clayton Dowley shipped seven head of beef to independent Meat Market at Twin Falls, last week. Ernest Eden came up from Twin Falls Tuesday, where he has been working for the past month. Rufus Hansen went to the mountains for poles Wednesday. Willie Cora, the infant daughter of Mr. and Mrs. Wm. Wheat, died on November 3. The baby was only five days old and the parents have the sympathy of the community in their sad bereavement. Elmer Hunt has a force of men working on a culvert at Antelope Springs.

The recital given by Miss Gertrude Rauch, who is a gifted eclectician, Wednesday evening, at Murtaugh, was well attended. Miss Board of the North Side, attended the recital last Wednesday evening. A Test of Billitulle Parentem. Taken from Municipal Engineering Magazine of October, 1910. Billitulle's test was given a unique test in York, Pa. recently, in the presence of the mayor of the city and several citizens interested in paving work. The test consisted of allowing a large traction engine of the A. H. Farquhar company, of York, to pass over the pavement. The engine was a 15 H. P. model, with four 10-ton wheels carried the customary clanks on the rear and the sharp center ridge of the rim of the front wheels. These ridges and clanks did not injure the surface of the pavement in the slightest degree. The only marks left were the dust and dirt marks that would be expected on any wheel passing over a newly paved street.

In addition to this, workmen in the employ of the Standard Billitulle Pavement company, gave a demonstration of the rapidity with which the paving can be repaired, by cutting out a number of sections and replacing them. NOTICE OF WRIT OF ATTACHMENT. In the Fourth Judicial District of the State of Idaho in and for Twin Falls County. Crane & Co. a corporation, Plaintiff vs. Samuel H. Bolton, E. D. Fransome and J. H. Ennis, a corporation, doing business under the firm name and style of Twin Falls Plumbing & Heating Co. Notice is hereby given that on October 14th, 1910, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant for the sum of \$779.82 and costs.

In Witness Whereof, I have hereunto set my hand and the seal of my office this 17th day of October, 1910. H. T. WEST, (SEAL) Clerk of the District Court. By C. C. Siggins, Deputy. Wanted—Competent girl for general housework. Mrs. E. M. Sweeney, 206 8th Ave. N. Nov 8 if

precincts missing. Young is probably elected.

Shields will be probate judge by the small majority of about 70.

Hall was defeated by Hicks, who ran especially strong in the city, carrying every precinct. Hicks' majority will be about 230. Walker will be the next corner, as he has a lead of 100. Hayford ran like a coyote in his race with Dyer, leading him by over 400 and leading the entire ticket. He overwhelmed Dyer in Dubl, where he lead by 135. He carried every precinct in Twin Falls.

Young in the city was elected during the morning, although the Democrats got out a big vote, evidently working under instructions to get their vote out early. At noon only 750 had voted out of a registration of 2525. At six o'clock 1780 had voted, but in the last hour a heavy vote was polled, both

alides using every influence to get voter out. The result was a heavy vote, notwithstanding weather conditions. Politicians figured that yesterday's inclemency would help the Democrats in that a full vote would not result. The vote came out heavily during the last hours, so it did not alter conditions.

ELECTION NEWS.

(Continued from First Page.)

MONTANA REPUBLICAN.

Congressional Election Returns Re- published

Helena, Mont.—Returns from over half of the state state that on joint ballot of legislature Republicans will control by 20 votes, thus insuring return of United States Senator for Republican fold. Returns from different sections, some Democratic, show small but safe Republican majority.

Helena.—Chairman Waldo of the Republican state committee, claims Republican majority of 20 on joint ballot in the legislature and says Republican legislative ticket in Deer Lodge and Silver Bow, Democratic strongholds, have been elected.

Billings.—24th precinct, Yellowstone county, gives Pray 191, Hartman 130.

Port Benton.—Pray's home precinct gives Pray 185, Hartman 44.

Pray 811, Hartman 614.

Dillon.—South Dillon precinct gives Pray 239, Hartman 141.

Billings.—24th precinct, Yellowstone county, gives Pray 125, Hartman 41, at precinct, Pray 161, Hartman 114.

Bosman.—North Bosman precinct gives Pray 105, Hartman 238.

NEW HAMPSHIRE REPUBLICAN.

Indications Point to Small Lead Over Democrats.

Concord, N. H.—In 31 out of 39 districts, Dase, Republican, 1296, Carr 1082.

CALIFORNIA REPUBLICAN.

Johnson for Governor, Has Small Plurality.

San Francisco.—Returns incomplete give Johnson Republican, small lead for governorship. Legislature will be Republican beyond a doubt.

CLOSE CONTEST IN N. DAKOTA.

Johnson, Republican, Holds Slight Lead Over Burck.

Returns from scattered parts of North Dakota, give Johnson, Republican, so slight a lead as to place election in doubt until final count.

DELAWARE IN SAME COLUMN.

Gives Republican Majority in the Legislature.

Wilmington, Del.—The Associated Press says the Republicans have carried Delaware, including a majority of both houses of the legislature.

Osborn for Governor Has Sure Plurality.

Detroit, Mich.—203 townships in Michigan give Osborn, Republican, 65,797; Harman, Democrat, 45,407.

BOB TAYLOR DEFEATED.

Tennessee Conceded Republican By Heavy Lead.

Chattanooga, Tenn.—At 11:00 p. m. Times concedes the election of Osborn, Rep., by 15,000 to 20,000 over Taylor, Dem., for governor. Returns indicate both houses of the legislature will remain Democratic.

GIVEN FAREWELL RECEPTION

Rev. and Mrs. Alward Chamberlaine Given Reception at Ferriss.

On last Monday evening a farewell reception was tendered to Rev. and Mrs. Alward Chamberlaine at the Hotel Perrine by the Ladies Guild and other friends of the Episcopal church. A large number was present and expressed their regrets at the departure of the rector and his wife.

During the evening a number of musical selections were rendered by Mrs. W. O. Taylor, Miss Shettle and the Apollo club, all of which were thoroughly enjoyed. Daily refreshments were served by Mrs. A. P. Senior, Mrs. A. D. Norton, Mrs. Frank McAtee, Mrs. Oakley, Mrs. Locklin and Mrs. I. B. Ferriss, assisted by Miss Nan Greenough, Katharine McDermont, Beesie Bitter and Miss Hall.

The following ladies assisted in receiving: Mrs. E. B. Williams, Mrs. R. M. McCollum, Mrs. A. P. Senior, Mrs. A. D. Norton, Mrs. I. B. Perrine and Mrs. W. H. Greenough. The parlor and halls of the hotel were beautifully decorated with pink carnations and Jack o' lanterns.
