

MAY CONTEST STATE ELECTION Alleged Illegal Use of Ballots Is Charged.

DEMOCRATS ARE THE ONES
CHARGED.

Ballot With the Words "Let the
People Rule" Under Democratic
Rooster the Cause.

Word comes from Fremont county that the Republicans of that county have under consideration a movement to have the election there set aside on the grounds of alleged irregularity in the ballots.

It is charged that the Democratic ticket was certified with the words at the top "Let the People Rule," and was so printed, the words standing out prominently at the top of the ballot distinguishing it from other tickets on the same ballot.

The election laws of the state make it illegal to have any such words or initials, marks or symbols, on any ballot which will distinguish one ticket from another except the party name and the party emblem, which for the Democratic ticket of this state, was the rampant rooster.

Section 405, Chapter 9 of the Political Code, Revised Statutes of the State of Idaho, has this provision:

"At the general elections in this state nothing shall be placed on the main ballots excepting the names of the candidates, the names of the parties, or, of any of the different parties, the names of the candidates for the different offices on the several party tickets and the circles as herein provided for."

It is charged from that county that advantage was taken of this wording to secure votes. Workers were sent to all precincts, even to the outermost, on election day, to tell the voters that the ticket marked "Let the People Rule" was the one to vote for if they wished to support prohibition; that it meant that those on that ticket were the ones who would submit the question prohibiting liquor so that "the people may rule" on the question, and that it had been marked in that way for purpose. It is alleged that the voters who were deceived in this manner and were stamped to the Democratic ticket which they voted straight on this point.

In this connection it is stated that the Fremont county Republicans appears to be on all fours with the question raised by the "wets" of Lewiston in the local option election there where the ballot was numbered to correspond with the numbering on the stub. The law requires the stub to be numbered so that there may be no mistake in the number of ballots given out and so that none may be removed without being discovered, but it does not require the ballots to be numbered, as shown by the law quoted above.

After the "drys" won the election, the "wets" attacked the election, seeking to have it annulled in the courts. Judge Steele of the district court at Lewiston ruled against them and the case was then appealed to the supreme court. The supreme court would have decided the question at that time, but it was argued that the Lewiston term of that court only last week, and a decision was expected.

BUILDING IS BEING PUSHED Courthouse is Now Assuming Final Form.

WILL BE ENCLOSED IN TWO
WEEKS TIME.

Increased Force of Men At Work
On County Building Is Making
Material Changes.

With the coming of colder weather these in charge of the court house are pushing the work with increased activity. Mr. C. O. Hays, superintendent in charge of the construction, predicts that the building will be enclosed by December 1. The floors are all poured and the enclosing work is well under way. About 30 men are at work on the building, exclusive of those employed in the framing.

The first floor is well arranged for the more general needs of the court house. In the southwest corner it is to be found the offices of the county attorney and the sheriff, while in the northern part of the floor has commodious rooms for the use of the county commissioners. There are three hallways, the main entrance being the one that faces Shoshone street. The large stairs are now completed for this entrance.

The second floor the northeast corner is set aside for the record room. This room is reached in only one way, a set of circular stairs. The room is absolutely fire-proof—reinforced concrete floors, wire lath, iron ceiling. Nine doors lead into the record room. Every effort will be made to provide for the recorder and treasurer.

The third floor has the housing of the judicial system of the county. The building on this floor is to be the court room. The ceiling is to be suspended and arranged in such a way that it will form a sounding board. Every effort will be made to provide acoustic properties of this room as desirable as can be secured. There will be a dome effect over the judge's bench. The room is to be furnished with the jury room, located in the south corner. It is so arranged that there will be absolute seclusion for the jury. The room is furnished with his private office with a stenographer's room. The southwest corner is given over to the use of the county auditor. The southeast corner contains his private office and a large examination room as well. The probate judge has rooms on this floor.

It is found that to serve as the county baitle, and in all appearances there will be few escapes of those who so unfortunately fail to conform to the demands in the county jail. The northwest corner will contain the cells for the male prisoners. There will be a separate cell for each prisoner. The northeast corner is a dining room and there is a demand for them. There is a space for the solitary confinement for the men and women. The northeast corner will contain the cells for the women and juvenile prisoners. The eastern part near the center of the building will be the quarters for the men to be held in three rooms. Provision is also made for the kitchen as the wants of the inner mass of the prisoners has not been overlooked. There will be a suspended ceiling and the walls are reinforced here. In any escapes are made they will have to be the air route and a sharp foot drop will be provided.

A view from the top of the building shows that it is the highest building in town. The top is on a level with the top of the water tower. From the court house top it is an easy matter to see Jerome and the surrounding country on the North Side. The mountain peaks of the surrounding country are as every other general feature of the landscape. The main towers of the city as laid out embraces much surprising feature of the sight to be obtained from this building is the general panoramic view of Twin Falls. The city as laid out embraces much more territory than even the old settlers dream of as it has branched out in the last years. The different sections of the city are clearly marked as one another, as seen from this viewpoint. A good idea of the tract is also secured.

The basement of the court house is nearly completed. The boiler is installed and the coal bunkers are nearly completed. The cement for the floors is being poured. The conduits for electric light and telephone wires have their origin here. None of the piping for the building will show as it is all buried under the ground. The electric wiring is all carried in a main conduit from which it is differentiated into the "various rooms" of the building.

AWARDED A SILVER CUP Twin Falls Exhibit Secures Award At Council Bluff Show.

Telegraphic Dispatch Does Not State What
Award Was For. Exhibit is Attracting
Much Attention.

Telegraphic advices received in this city yesterday, bring the news that Twin Falls has won a silver cup at the Council Bluffs fair, which is an exhibit that was sent there under the auspices of the Twin Falls Commercial club.

Whether this cup wins first prize for the exhibit or simply for a section of it is not known, as the telegram did not state. A letter received in this city yesterday from Council Bluffs, made up this exhibit is attracting more attention than any other at the fair. The same advices state that the show is a worthy one and that everybody is moving smoothly as far as the local exhibitors are concerned.

Insult to U. S. Flag.

Mexicans Trample National Emblem Under Foot—Feeling Tense.

Mexico City, Nov. 9.—Through insults to the American flag and assaults upon Mexican citizens in the streets, the anti-American demonstration which began last night with the stamping of the Mexican Herald offices, developed this afternoon into an affair of international importance.

PRAISES TWIN FALLS.
Many Idaho Boosters Fanned at Omaha Hotels Yesterday.

"The people of Twin Falls, Idaho, must have plenty of money for railroad fare," remarked Joe Keenan, manager of the Henshaw hotel, "for there is scarcely a day that somebody from Twin Falls does not register here and, of course, some of the Twin Falls fellows must go to other Omaha hotels thus setting the representation from that bustling Idaho burg. I have observed that these Idaho fellows always seem to be well supplied, with money—they are never guilty of talking themselves as cheap travelers. When we see an Idaho man come in, we know he is a good fellow."

John T. Brown, a Twin Falls booster, has been at the Henshaw several days. He is not only a Twin Falls booster, but an all-round Idaho booster, as well, and it is never too late nor too early for him to sing the praises of his state. "Twin Falls is going to be the center of the Idaho proportion some day, so Mr. Brown says, and he bases his prediction on the fact that a splendid productive region lies tributary to the city."

"We look upon Omaha as our gateway," said Mr. Brown, "and I am all ways glad to come here on a visit. We of Idaho can help, many times and Omaha can help us," he continued.

Mr. Brown expressed himself as being thoroughly in accord with the land boosterism initiated by The Omaha Bee and Twentieth Century Farmer, and he predicts that it will be of vast benefit to the west as a means of inducing new settlers to investigate.

"Investigation is all that is needed," Mr. Brown vouchsafed. "If by the people of the east and middle west could only know the opportunities Idaho offers, there would be a general westward movement. Idaho is not exclusively a mineral state, as many unfortunates assume, but on the other hand it is a splendid agricultural and horticultural section. Of course, everybody knows of our prominence in sheep raising. All other kinds of live stock do equally well. True, we are strong in minerals, but mineral is not all, by a big margin."

P. W. Walls is another enthusiastic Twin Falls booster, registered at the Loyal. Several other boosters are also registered at various Omaha hotels.—Omaha Bee.

NOW CONTROL POWER SITES O. S. L. Secures Snake River Sites.

WILL ELECTRIFY PART OF THE
ROAD.

Salmon Falls and Thousand Springs
Bought Up Great Power Possibilities.

From a thoroughly reliable source it is learned that the Oregon Short-Line has secured control of the big electric power proposition at Salmon Falls and at Thousand Springs, both of which are in Lincoln county on the Snake river, southwest of Gooding. It is further learned that the O. S. L. is certain to build the railroad and run through Boise to Payette. This railroad cut-off is to be electrified and the power for this line is to be taken from one of the other newer propositions, Salmen Falls or Thousand Springs, perhaps the latter, because there is never any ice to interfere with the electric plant at these remarkable springs, which are perpetual in character and will furnish an immense amount of power. It is probably generally known to Idaho people that these great springs are supposed to be the waters of the famous Lost River in Blaine county, which find their outlet in the shape of these springs in lower Lincoln county.

It was said to be ample power at Salmon Falls and Thousand Springs run trains from Shoshone to Fortville. While the grade from Owinza to Boise, across the line of the proposed cut-off, is said to be rather steep, the grade is ideal for an electric line.

When the Owinza-Boise-Payette cut-off is completed the running of the numerous trains on the branch between Boise and Nampa is to be largely cancelled. It is said the running of so many trains on this branch has never been a paying proposition to the railroad company. The completion of the Owinza-Boise-Payette cut-off will do away with the long operating delays that now are occurring daily at Nampa for all passengers leaving Boise for the east or west, and for all passengers leaving Boise from the east and from the west.

New and heavier steel have been laid out by O. S. L. from Poentello to Shoshone. It is understood that the O. S. L. for three years past has refused to put down heavier steel between Shoshone and Huntington until the plans for the Owinza-Boise-Payette cut-off were fully matured. Now that the O. S. L. has matured its plans and has decided to build the cut-off it is now engaged in laying the heavier steel to Huntington, Carlisle of the steel during the past several weeks have been engaged in getting ready a large force of men is busy laying this steel east of Nampa. It is thus seen that Nampa, Caldwell and the other points on the Snake river are to remain on the main line.

The cut-off will not only give Boise a main line service, but the electrification of the cut-off will add practically a third interurban road service, which has been largely responsible for Boise's remarkable growth and progress since the electric railroads have been built.—Statesman.

BETTER GRADE AT SHOSHONE FALLS Lincoln County Commissioners Will Get Busy.

WILL REDUCE PRESENT GRADE
TO TWELVE PER CENT.

Intention Is To Make Road Wide
Enough To Allow Teams To Pass
Anywhere.

The county commissioners of Lincoln county have finally committed themselves to the project of improving the present steep grade leading down to Shoshone falls on the north side of the river and have given a contract for the same to Gus Johnson, proprietor of the Shoshone falls hotel.

Mr. Johnson will begin work next week on the grade, with a number of men and teams, and will continue the work through the winter months. Mr. Johnson stated to The Times' reporter that the present grade, which is about twenty-two and a half per cent., will be cut down to twelve, and that the road bed will be widened to sixteen feet to allow teams to pass at any point. The road when completed will permit automobiles to make the trip from the top to the ferry.

CAMPING ON RESERVATION. Indians Excitement Marks Opening of Indian Lands.

Grievous homesteaders of determined countenance, are camping on bits of rich land in the Coeur d'Alene Indian reservation, with their bedding, tents, and camp paraphernalia, while generally farm implements, guarding their chosen homes against claim "jumpers," for the United States government, have their tents pitched, surrounding the western wilderness by throwing upon uncollected tracts in this land and expense to general entry, and warding off hostile forces, who had planned last night a thousand rushed over the reservation line to locate. Little sections of sections of their holdings at Coeur d'Alene today, while groups of numbers chose to post their notices after the midnight hour, race to the land offices and boot other contestants for the land by pleading priority of settlement.

Sprinkled among this determined host were women, and widows with children.

Gunsport reports from the direction of the reservation tonight tell of the watch of the night.

After 17 days weary waiting in line, 60 settlers held their last roll call in Monahgan hall this morning, and marched to the land office where Peter Batting recognized their number in line during the filing. Numerous clashes were found, due to priority of settlement being in question, and priority of position in line of file.

Land openings in the last two years had schooled the wags soon to take every advantage of the opportunity to secure priority of right to file. Many in the waiting line entered the reservation this morning in a cloud of dust, followed by the police, established a residence on the spot, established a residence and were back in line before roll call.

STRIKE ON GOOD LUCK. Another Strike Reported Yesterday From Nevada Camp.

Big Strike On Good Luck at Jarbridge, Nevada, and on the Good Luck property at Jarbridge. It is understood that C. C. Coburn, secretary of the company, from his brother at the Good Luck mine, Mr. Coburn states that they had in the progress of the strike a depth of 90 feet, uncovered free gold ore, identical to that of the Bluster or Mt. No. 1. Also a letter from Thos. Parks, superintendent of the company, confirming the report.

Mr. Parks states that the strike between the Good Luck mine and Jarbridge, in a letter to C. C. Coburn, secretary of the company, from the best properties in the camp. Some of the ore brought to camp from the mine and on exhibition at Attorney Motkin's office, shows free gold, visible to the naked eye.

REMODELING RESTAURANT. Tam Koto Putting in New Front in the Twin Falls Cafe.

The entire lower portion of the front wall of the Twin Falls cafe, owned by Tam Koto, was taken out last week, and replaced with big plate glass display windows, an improvement which changes the whole appearance of the place and really improves the looks of the whole block.

MEXICO REGRETS FRACAS. Officials Attempt to Stop Further Rioting.

Guadalajara, Mexico, Nov. 11.—In the course of anti-American demonstrations in this city last night, an American flag was burned amid cries of "Death to the Gringos." Conservative estimates today placed the damage to property of Americans at from \$500 to \$1000. The rioters were in conflict with the American Drug company were in spite of efforts being made by the government authorities to preserve order, and which prevented further rioting today, a spirit of unrest prevailed and renewed violence was feared.

Manuel Cuatrecasas Gallardo, candidate for governor is doing everything possible in conjunction with the commander of the federal troops, to maintain peace. American Consul Samuel McGill has been assured by the authorities that there will be no further trouble. Late last night a high fire from the Methodist Missionary institute in the city, with the iron bars on the windows in the building were smashed.

Glass doors and windows in the homes of C. N. Struc, W. L. Kling, Rev. R. O. Elliott, C. F. Coruthers and Dr. W. S. S. Swayze, in the American consular residence section, were demolished by riotous mobs in the American consular residence section, were demolished by riotous mobs in the American consular residence section, were demolished by riotous mobs in the American consular residence section.

New Horsecatching Shop.

The Aid meets Thursday with Mrs. Stancel.

RECEIPTS ARE AHEAD.

Filer Postoffice Gains Nearly \$500 Over 1909.

(Filer Journal.)

H. H. Schildman visited in Twin Falls, Wednesday.

Last week Friday the Women's club met with Mrs. Lundy at the meeting the report of the Federation was given by the president. A musical program was given in honor of the new members. Refreshments were served.

Tomorrow evening the I. O. O. F. lodge will elect two directors for the coming year. After the election there will be a supper served.

The money order sales for the month of October, 1909, were 123 and the amount was \$22,823. The number of postoffice money orders sold during

the month of October, 1910, was 449, and the amount of the sales, was \$2012.24. The difference of the amount of sales during the month of October, 1908 and 1910, is \$4913.

There was a splendid gathering of people at the Masonic rooms last Thursday evening to witness the installation and consecration of the annually elected officers of the lodge. G. F. Crocker, W. M.; F. C. Graves, S. W.; R. A. Reynolds, J. W.; T. E. Moore, treasurer; A. Timm, secretary; T. F. Rice, S. D.; C. H. Strand, J. D.; Wm. Spencer, Tyler; W. W. Shaffner, S. B.; Aaron Anderson, J. S. Sunday at 4:30 at the home of the bride, Mrs. E. M. D. S. Wilson, their oldest daughter, Pearl, and Scott Lorain, were united in marriage, Rev. Garver officiating. The newly wedded couple had the congratulations of a host of friends who wish them much joy in their married life.

The Filer Woman's club expect to have an art exhibition in the near future. This exhibition will consist of copies of famous pictures.

The Lacaster boys, Mr. Kelly and sons, Curtis Stevens and John McCorral, returned Tuesday from their hunting trip in the mountains, 200 miles north. They killed various deer.

FOR REVISION OF TARIFF.

Champ Clark Says Democrats Will Urge This Legislation.

Bowling Green, Mo., Nov. 11.—Downward revision of the tariff at once is urged by the members of the new Democratic house by Champ Clark, congressman from the Ninth district, who is a candidate for the speakership.

Mr. Clark said: "I will do what my prediction of months ago," said Congressman Clark today. "The people are tired of the present administration and are anxious to see the return of the returns indicate with the tariff reduction.

"The first and greatest proposition to be presented should stand for a reduction in the tariff to a revenue basis. I would reduce it scientifically and gradually and put into it a sliding scale so that when it is the tariff bill in 1903. There is no question but what the Democrats will be on their good behavior during the next congress and the future of our party will depend on our conduct. The Democrats have a golden opportunity for constructive statesmanship and should take advantage of it. Let us measure our fitness for legislating wisely and patriotically."

AFTER THE POLE.

Japanese Will Make Expedition In Quest of South Pole.

New York, Nov. 7.—The Explorers' club has been notified that a Japanese expedition to the South Pole will leave Tokyo on November 15. The expedition will use a 200-ton vessel, equipped with sails and auxiliary power, and expects to be three years in making its long journey.

The captain of the expedition will be in charge of two specialists from the Waseda university, one of whom will devote himself to the study of astronomical and natural phenomena, while the other will take care of the necessary topographical work, meteorological observations and study of natural products of the regions visited.

OFFICE SEEKER OUT.

Change In Administration Results In a Scramble.

In view of the fact that Hawley has been elected governor, and in view of the fact that this election will bring forth an abundant crop of office seekers, it may be valuable information to those office seekers to know just what appointments the governor is empowered to make. Most of the appointive offices of the state are board appointments and as all the boards will have a majority of Republican members, it may be supposed that the Democrats will find little consolation from that source.

Table listing various state positions and their salaries, such as Secretary to the governor, Chief clerk, and various commissioners.

State horticultural inspector, appointed by board, but board appointed by governor, \$2000. Pure food commissioner, appointed by board, but majority of board appointed by governor, \$1500.

NEED FOR APPLES.

Supply Not Up To Demand, Declares President Elliott.

St. Paul, Nov. 11.—The increasing production of apples in the northwest has furnished a problem which the great railway systems confronting in St. Paul will have to solve.

Despite the fact that thousands of new trees have been planted and the 1909 crop of apples in the Yakima valley, Washington, the Dutton-Kool valley, Montana, the Venatchee district on the Great Northern in Oregon and the various apple districts in Idaho is largely for several years, the demand for apples and the new markets opened in all parts of the world will take every apple raised.

O. A. STALKER & CO.

the cars, be placed in these storage houses, where they will be stored. It has been found that precooled apples keep better and taste better than those that are cooled in refrigerated cars while in transit.

There are other advantages in this plan of storing the apples near the orchard in which they are grown. It is believed, for one thing, that the grower will be able to get a better price for his product by holding it and shipping when market conditions are improved. The grower also will have more time for handling his crop and will not have to rush it to the trains.

Dairymen It will be to your advantage to bring your butter wrapper orders to The Times.

BUSINESS WILL GAIN.

New York Dispatch Says Will Become Normal Again.

New York, Nov. 12.—Now that politics is out of the way for a while it is probable that business will get down to its bearings and not only Wall Street but the country at large will go ahead now in a healthy prosperous course.

It is probable that the railroads will hold off a while yet until the interstate commerce commission has decided the question of rates as the supreme court of the United States has finally continued the anti-trust laws.

There is no doubt that the railroads have been holding back orders for equipment until they are dangerously near the point where they will not be able to properly laudate their business.

A comparison of railroad contracts placed in 1910 with previous years will show liberal and open orders including terminals and shop extensions as well as bridges. These are quite liberal during the second quarter of the year and liberal contracts for all kinds of fabricated structural steel placed by all interests have aggregated 1,076,000 tons.

SHO-FA

"No Query of Quality"

Chocolates

WE want every man, woman and child who enjoys good Chocolate Candy to try our Sho-fa Chocolates. We are endeavoring to put out a line of goods, equal to the very best made by any concern.

The secret of the flavor of a chocolate cream lies in the flavoring and coating that are used; the appearance depends upon the workmanship. When you combine a smooth, high-grade coating with a center made from true flavors, such as pure vanilla-bean extract, genuine maple sugar and real crushed fruits, having the same handled by an expert who has become an artist in chocolate dipping you will have a product that is both beautiful and delicious beyond words to express.

If you are a lover of Chocolates you will be delighted with Sho-fa Chocolates

Our Silent Oyster Salesman

This is the cleanly white and blue porcelain Sealshipt case from which we sell SEALSHIPT OYSTERS at our store. No ice or water ever touches the oysters.

It is the final step in the Sealshipt System which makes it possible for us to furnish our customers with oysters which taste exactly the same here as when eaten at the shore. They are firm, tempting, delicious morsels of sea food.

Sealshipt Oysters

Have the Tang of the Sea

You will be surprised when you see Sealshipt Oysters. More surprised—and delighted—when you taste them.

In buying Sealshipt Oysters, remember that there is no "liquor"—nothing, but solid meat. The "liquor" is what spoils common oysters. It is melted railroad ice.

If you ordinarily buy oysters by the quart, get only a pint of Sealshipt.

Come into our store and see our silent salesman. While here ask for a copy of our book "Sealshipt Oyster Dishes." It gives many shore receipts.

TALE OF YACHTING CRUISE

How a Hostess Arranged a Breakdown and Got Rid of Her Bored Guests.

A few seasons back a well-known hostess chartered a splendid yacht for August and invited a large number of her friends for a three-week cruise. At first all went well, though the party was not specially well assorted; but after a few days they began to evince signs of being somewhat bored with each other's company.

The hostess marked these signs of incipient boredom, which became more plainly evident each day, and at last in despair she took counsel with one of her guests, an old and experienced yachtsman.

"What on earth shall I do to amuse these people?" she asked.

The yachtsman looked at the serene sky and calm, blue water, and shook his head doubtfully.

"A storm would enliven them up a bit," he said, "but the weather looks quite settled. There is only one thing to be done. You must arrange a breakdown, the engineer will manage that all right for you. He has probably often done so before. Then you must make for the nearest port for repairs, and let your guests have a run ashore. Some of them, I expect, will find an excuse for bidding you good-by and those who remain with you will get along all right together."

The hostess took her guest's advice, and arrived at Toulon a day later, where, nine nights of her guests bid her good-by.—M. A. P.

AN UP AND DOWN ARGUMENT

Sam—I want you to understand dat Ise no common nigger, Ise had a good bringin' up, I has down, too.

Pete—Dat's all right, but ef yo' fool's wid me, man, yo'll hab a good frowin' on yo' face.

THE DIFFERENCE

"Jones is a newspaper man, isn't he?"

"No. He's a journalist. He touches you for a loan every time he meets you."

SOLUTION OF LABOR PROBLEM

Plan Suggested Requires Establishment of National Unit of Value for Work.

It should be beyond the power of either party (that is, labor and capital) to fix the wages for any specified class of work. As before suggested, it is a matter to be determined impersonally and automatically, and this only can be done by the establishment of a national unit of value for labor, upon which all wages shall be computed with the same universality of application as now inheres in the established tables of weights and measures. Necessarily, such a unit of value for labor must be not only a fixed "entity" in relation to rates of wages, but must at the same time be susceptible of accommodation to economic changes, so that the money value of wages shall keep pace with fluctuations in the cost of living. It follows, therefore, that the unit upon which the federally established table of wages shall be built must be chosen with respect to some commodity that is so universally used and so far-reaching an influence that its market price indexes and measures the cost of living in all walks of life.—North American Review.

The Teltale Body.

A main fact in the history of man's progress is the wonderful expressiveness of the human body. If it were made of glass or of air and the thoughts were written on steel tablets within, it could not publish more truly its meaning than now. Wise men read very sharply all your private history in your look and gait and behavior. The whole economy of nature is bent on expression. The teltale body is all tongues.—Emerson.

NEW USE FOUND FOR SNAKES

Farmer in Ohio Discovers Them Clearing the Potato Bugs From His Patch.

Farmers in various sections of the country have for a number of years declared snakes that are non-poisonous are very valuable to the farmers. They say the reptiles are very good at catching field mice, rats and even the frisky ground squirrels that are so very destructive to fields of newly planted grain.

But the latest use for the ugly reptiles has just been discovered in Harrison county, Ohio, a few miles east of the historic town of Cadiz, where Charles Albright, who is farming the lands of Samuel K. McLaughlin, found a garter snake eating potato bugs.

Albright was out in the field destroying the bugs, which are quite plentiful, and coming upon a snake coiled up in a potato plant, he secured a club and killed it. In a few moments he discovered the top of an another potato plant away back and forth, and looking closely, discovered another snake of the same variety coiled up in the branches of the thrifty plant.

He was interested to know why these reptiles should be occupying such a strange position, and after watching for a short time he saw the snake pick off and devour dozens of the troublesome potato bugs. He did not kill the reptile, and he says he will not allow any of these snakes to be harmed on the land he has charge of, for he thinks they have become very useful.

AN EXCUSE FOR EACH

Mother (severely) — How many strawberries have you eaten out of this basket, Ethel?

Ethel—Only two. One to see how it tasted, and the other to take the taste out of my mouth.

A TRAGEDY IN PROSPECT

Hiram Clovertop—Don't blow the gas out, er! Gosh! they probably want me to call a boy to do it, so they kin put it in the bill!

Mrs. Clovertop—Don't you stand for it, H, you jist blow it out.

PHOTOGRAPHING ON APPLES

How Pictures or Words Are Printed by Nature on the Growing Fruit.

Occasionally much interest is aroused by the appearance in a fruit store of a few apples on which appear perfect photographs, not painted on but apparently in the skin of the fruit itself.

Though interesting, the method of making picture apples is simple and not at all difficult if the fruit is of a red variety. Just before the apple begins to turn a photographic film is fastened about it in such a manner that it will not move and blur the picture. The foliage is then removed so that the apple is exposed to the direct rays of the sun and nature does the printing. The prints are clear, sharp and perfect in every way, except that depth of tone is lacking. If it is desired to brand a name or words on the fruit black paper should be used instead of the film, the desired letters being cut out.

Probably some clever advertiser will take advantage of this method some day, and we may be handed an apple on which is attractively etched something like "If I Give You Palms Take Pepper Peppin Pills."

Why Locked Up.

"Ever been locked up?" demanded counsel.

"I have been," admitted the witness.

"Abal! And what had you been doing to get yourself locked up?"

"I had been doing jury duty."—Pittsburg Post.

H. A. Baldrige of Washington, D. C., arrived in Twin Falls Saturday noon to look after business affairs here. Mr. Baldrige is an old friend of Mrs. Horace McDermott and family.

W. S. Houghton, of the Warren Coal Co., arrived in Twin Falls Saturday noon from Baker City, Ore., and left the same evening for Portland, called there by the serious illness of Mrs. Houghton.

Died—On Saturday, November 12, 1910, at 12:12 o'clock p. m., the infant daughter of Mr. and Mrs. Guy Hamphreys, who weighed a half mile and a half, died of a fever. The body was taken to Charles J. Walker's undertaking parlors on 2nd Ave. East. The funeral was held Monday morning at 9:30 a. m. Interment was made in the Twin Falls cemetery.

Died—On Friday morning at 7:00 a. m., the infant daughter of Mr. and Mrs. A. D. Boylan, after a severe illness of whooping cough. The funeral was held at the residence on Myrtle avenue, Murtaugh addition, at 2:00 p. m. Saturday, under the direction of Charles J. Walker, officiating.

Mrs. C. W. Cullison, of the First Methodist church, officiating. Interment was made in the Twin Falls cemetery.

Marriage licenses issued since October 27: Alfred L. Dewhurst and Mrs. F. F. Fells, and Sista Morgan, of Olney, W. Va.; Scott Lorraine and Pearl Williams; Samuel L. Sullivan, and Bertha E. Hoidy, Twin Falls; Charles E. Argyle, Twin Falls, and Katie Grove, Denver; Clifford M. Dryden and Grace E. Tipton, Twin Falls; Perry Moon and Mrs. L. H. Harrison, Twin Falls; W. Stanley Gearhart and Julia Gallagher, Duhl; Ralph Ingle and Lotie Wilson, Milner; George Fredericks and Myrtle Day, Artesian City; William Layman and Katie Adair, Twin Falls; Leo Steffus and Kate R. Hoger, Twin Falls.

C. O. Longley was looking after legal business in Durley, Monday.

Judge Ellis returned Monday noon from a business trip to Durley.

W. F. Ringer of New Plymouth, is registered at the Perrine this week.

Ray Taylor was down from Hansen a few days the latter part of the week.

W. S. Harris of Duhl, came up Monday evening for a short business visit in the city.

Dr. and Mrs. W. S. Jackson were business visitors of the west end of the tract Monday.

Bert Sower, proprietor of the Perrine hotel boarding camp, transacted business in Jarbidge, Monday.

M. J. Kirkpatrick returned to Milner Friday evening to look after business in that city.

Dave Seaman of the Farmers' Reed Corral, arrived home Sunday from a business trip to Salt Lake City.

J. M. Chambers left Monday noon to go to Coxford, to look after his property in that camp.

C. G. Waller, owner of the Diamond A ranch in northern Nevada, is a business visitor in the city this week.

M. O. Green left Monday evening for Yonahosa, Mich., called there to coax out the available but timid capital for development. Where others have ceased operations on account of the financial stringency, the Rainbow-Amazon Mining company has kept stubbornly at work, and the stockholders certainly deserve everything they can get out of their investment.

R. W. Spangler, formerly editor and manager of a newspaper in Gooding, Idaho, is secretary of the Twin Falls Commercial club and moved his family to that point Thursday.

For the past month Mr. Spangler has been acting as secretary of the Statesman of Boise and has been the special representative of that paper with Governor Brady in his tour of the southern counties of the state.

Mr. Spangler is a newspaper man by profession, and a very forceful writer. He is enthusiastic, enterprising and energetic. While Gooding people generally regret to see him and his family leave this place they are glad that he has been fortunate in securing a good position near us. His homeing at Twin Falls and the South Side will be of great benefit to the North Siders. Also—lanho Leader.

DRYDEN-TIPTON
 Popular Young Couple Married Last Saturday.

A very pretty wedding took place at the home of Mr. and Mrs. H. B. Johnson, on Saturday evening, at 8 o'clock, when Miss Grace Tipton became the bride of Mr. Clifford Dryden, Rev. Mr. Cullison officiating. The bride wore a white gown of crepe de chine. The groom was attired in black.

The bride, a sister of Mrs. Johnson, has lived in Twin Falls and vicinity for almost three years, and has many warm friends here.

The groom is one of the most promising young business men of Twin Falls, and is well and favorably known.

The house decorations were ferns and carnations. After the wedding ceremony, guests, who consisted of relatives only, were invited to the dining room, where a simple but dainty repast was served.

Miss Lulu Ormby of Rexburg, and Miss D. C. Moody of Idaho Falls, were the bridesmaids. Mr. and Mrs. Lester T. Wright, a few days the latter part of the week.

C. H. Chaplin, formerly of Jerome, but now connected with one of the large banking institutions of Twin Falls, was acting as ring bearer. The Lincoln Inn left Friday—Gooding Leader.

Mrs. Ostrander and Kenneth, of the Achman, Adams Trench, Ostrander Lumber company, drove here after coming to Gooding, Thursday to have a look at their lumber yard.

A young man of our orchards which is located near Twin Falls, has yielded this year a return of \$6.00 for every acre in the orchard. If the trees are set the regular distance, that means a yield of \$006 per acre, or more than an eastern orchard will yield when the trees are in their prime.—Bliss Gazette.

Died—On Saturday, November 12, 1910, Dr. H. S. Anderson, veterinary surgeon, at his residence on 2nd Ave. South, after a short illness. The remains were taken to Charles J. Walker's undertaking parlors, awaiting the arrival of a brother from San Francisco, Calif. The funeral services will be held from the Perrine Tuesday afternoon at 3 p. m. and interment will be in the Twin Falls cemetery.

Mrs. A. E. Gross entertained a number of ladies Friday afternoon at the Noutman home on Fifth avenue. The afternoon was devoted to five hundred cards. Mr. H. H. winning first, and Mrs. Geo. Looney second prize. Duty refreshments were served, Mrs. Gross presiding. Assistance in serving by Mrs. E. J. Davidson, Mrs. W. H. Ackerman, Mrs. H. B. Hooper, Mrs. H. J. Nichol, Mrs. Laura Younger and Mrs. Newman. The following were the invited guests: Mrs. G. L. Harrison, Mrs. A. M. Allen, C. E. Booth, Chas. Bullis, G. F. Baker, Breckinridge, Chappel, P. J. Costello, Homer Craven, Green, Chadwick, Dyer, Dunlap, Dyer, Elliott, Boyd Fuller, Felling, Grant, Guthrie, Greenwood, Goldsmith, C. M. Hill, W. S. Hill, Hartdogan, Hoop, S. T. Hamilton, F.

RAINBOW-AMAZON STRIKE.

Stockholders Elated Over Find of Large Body of Ore at Jarbidge.

Bringing with them samples of ore from a strike made on the Rainbow Fraction, which is operated by the Rainbow-Amazon Mining Co., D. L. Hickling, C. R. Wade, Mr. Conter and J. Z. Borrows, returned from Jarbidge a few days ago.

The samples brought to Twin Falls were from the tunnel which is about 300 feet. This ore is porphyritic quartz veins, and very rich and very satisfactory. The Rainbow-Amazon have been operating continually since June last, and have been awarded through their operations in what undoubtedly is one of the most interesting finds of ore in the Jarbidge district. Manager Theodore Parker, who has the management of the Rainbow-Amazon company's property at Jarbidge, states that in all his years of experience as a mine operator he has never taken charge of a property that looks more promising for a pay mine than the Rainbow-Amazon property.

Naturally Mr. Parker is much elated over his rich find, though the strike is no surprise to many men who have been watching the operations of the Rainbow-Amazon for months, and who have predicted that from the wonderful surface showing that the company would eventually develop a bonanza mine equal to any in Nevada.

Mr. John Clear, Ed L. Arthur and W. C. Wood, who are associated with the above named stockholders, are to be congratulated on their successful finding on what looks to be a key to a portion of their property's ore system. It needs only a few more strikes at Jarbidge to coax out the available but timid capital for development. Where others have ceased operations on account of the financial stringency, the Rainbow-Amazon Mining company has kept stubbornly at work, and the stockholders certainly deserve everything they can get out of their investment.

DEMAND THIS LABEL

On All of Your Printed Matter. It represents Good Workmanship, Good Wages, and Good Conditions.

The prospects for a contest in Fremont county which will throw out some thirteen hundred plurality for Hawley for governor, and the balance of the Republican ticket, state and county, seems probable. The grounds for the contest seem plain enough to warrant such action on the part of the campaign managers for Governor Brady. In case of contest, however, the result in the Fremont election would be to throw out every candidate and keep the present incumbents in office for another term. In view of such conditions considerable local pressure will be brought to bear to keep the contest from being fled. Governor Brady has declined to have anything done in his own name in the matter, seeming to prefer to let the election go as the vote indicated the desire of the people.

The unsettled condition all over the country should be remedied to a large extent by the recent election. The Wall street interests have accomplished much in their defeat of Roosevelt candidates in New York and should be jubilant. Insurgent candidates have been given a set-back in a number of states and conditions as far as the trusts are concerned, are ideal. If

there is any truth to the claim of uncertainty of legislation affecting the expansion of credit and investments, then money should begin flowing westward to the unexploited and undeveloped activities. The next two weeks should mark an upward tendency in the optimism of the whole nation, which has been at low water mark for so long. The railroads, too, should have no excuse for the delay of long contemplated improvements in the west with absolute certainty that no national legislation can now affect their business. As far as the consumers are concerned and the people generally it has been lack of money and not lack of confidence.

TWO NEW STATE CONSTITUTIONS.

Two Constitutional Conventions are in session: one at Santa Fe, New Mexico, one at Phoenix, Arizona. They will spend sixty days framing the organic laws for the two new commonwealths soon to take up the operation of full Statehood. While the new States have much in common physically and historically, it is curious that there is wide divergence in their attitudes toward the making of a Constitution. In New Mexico there are 100 delegates, 71 Republicans and 29 Democrats. Of the former, 32 are Mexicans, or Spanish-Americans, as they prefer to be called; the latter, only one is so classed. The Republican caucus were dominated largely by the conservative faction, and the Spanish-American vote was almost wholly on that side. Of the Republican delegates, less than one-third are classed with the Progressives. It is the plan of these in control to submit a short Constitution, dealing only with fundamental matters of Statehood. "It will be safe and sane," says Territorial Governor W. J. Mills. Those closely in touch with New Mexico politics say that it will be based on the United States Constitution, and that such propositions as Initiative and referendum, equal suffrage, primaries, etc., will be submitted in separate sections. It is planned to make such a simple Constitution that it will be received with approval by Congress; supplementary matters will be regulated by statute. This programme it not satisfactory to many citizens of the new State, who believe that there should be manifested an appreciation of the new idea in State government; but the Progressive Republican faction is so greatly in the minority that there is little probability of any interference with the programme of the leaders. The Mexican delegates will vote solidly with the dominant portion of the par-

ty, and the new State will submit a Constitution characterized by a conservatism for removed from that of the most recent commonwealth, Oklahoma. In Arizona, on the other hand, the Convention is made up of 44 Democrats and 5 Republicans. The issue in the campaign for the election of delegates was the Initiative and referendum. While a strong argument was presented that a migratory population, such as characterizes mining camps, would make doubtful the operation of the plan, the voters overwhelmingly endorsed the idea, and it will doubtless be included in the Constitution. The submission of equal suffrage and local option as supplementary propositions is probable, with little likelihood that either will receive approval. The Constitutional Conventions are given sixty days for their sessions; then thirty days more is to be held the election for ratification of the new organic law by the voters of the Territory. This means that, should the Conventions not finish their work until the expiration of the time limit, the Constitution could not be submitted to Congress until midwinter, with a strong possibility that, in view of adjournment March 4, there would not be a ratification of the Territory's action by the present Congress. Statehood would thus be delayed a year at least. While the two Southwest Territories have been for years eager for Statehood, it is not improbable that this is what will happen, though New Mexico has the better chance for carrying through its Constitution in time.—The Outlook.

NO CHANCE FOR SOUTH.

New Orleans Not Able To Float Bonds For Exposition.

How the financial leaders of the United States regard New Orleans' ability to hold an international exposition is shown in the editorial attitude of "The Wall Street Journal," New York, the mouthpiece of American finance, which printed the following terse statement in its issue of October 27th.
 "The recent failure of the City of New Orleans to sell \$7,000,000 4 per cent 18-21 year bonds is now regarded as almost assuring the Finance Exposition for California. On November 2nd New Orleans will vote on floating \$5,000,000 in aid of the exposition. Strong opposition is at work in the pockets of the plan claiming that the city is already taxed and bonded to the limit of endurance. Recent figures show the present bonded debt of the city as \$32,521,040, which with the \$7,000,000 and other debts would bring the total indebtedness above \$40,000,000."

CLEARANCE SALE OF LOTS

In Order to Close Out Lots That We Have Left in The Golden Rule Addition

We Are Going To Make Special Terms For a Short Time. We Will Make These Terms So Reasonable That You Cannot Afford To Pay Rent. q q q q

The Golden Rule Addition

Will soon have a quarter of a mile of concrete sidewalk (50 ft. wide) also a quarter of a mile of city water mains, both of these improvements are now under construction.

The Golden Rule Addition

Can now be bought for \$5 cash and the balance only \$1.00 per week. Think of it! Only 12c per day.

Lots Will Be On Sale On And After Nov. 14

They will not last long. Call at our office and let us show them to you. These lots are also for sale with the other real estate firms of the city. You will be surprised how nice these lots are and how well located. Come early and get your choice.

The Golden Rule Addition

Is inside the City Limits of Twin Falls.

The Golden Rule Addition

Is one short block from Lincoln School House.

The Golden Rule Addition

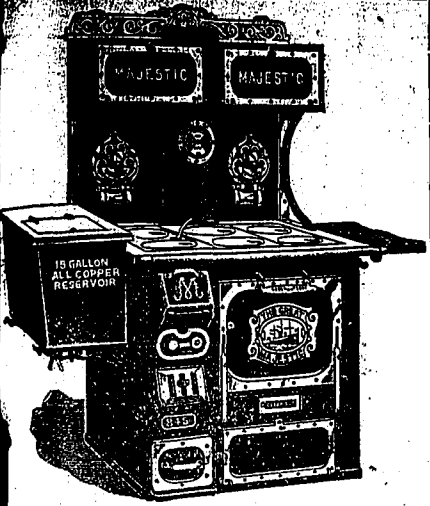

Is only three blocks from the Court House block, and the same distance from the new \$150,000 High School building.

The Golden Rule Addition

Has a great many new houses, there are more improvements being made in this addition than any other addition in the city.

Donations taken up at park amounting to \$424.44 were used for electric, dry, hall rent, etc. The donations were as follows: \$20.40 first collection, \$114.46 second collection, and \$189.58 at the concert in Dramatic.
The stand will give a minstrel show in the near future, and expects liberally patronized by the public. Every cent will go to the above indebtedness.
The band wishes to thank the public for their liberal patronage, and we promise a bigger and better band for next year. C. D. Tyler has instructed the band for the past year at the cost of his own pocket, and has by his labor made one of the best bands in the state. Why can't the public show its appreciation for the immense amount of labor furnished its services free?
The new music for the band cost about \$5.00 per week. The Ells have donated the light, and we have in occupation of light bill, which we have to pay. Submitted by
C. D. THOMAS, Manager.

OCTOBER FREIGHT BUSINESS

20,000,000 Pounds of Freight Handled at O. S. L. Depot Last Month.
A little more than 20,000,000 pounds of freight were shipped in and out of Twin Falls during the month of October, and for the country of Twin Falls and for the Country of Twin Falls and to answer the complaint filed therein, within twenty days exclusive of the day of service, after the service on you of this summons, if served within the district; or forty days if served elsewhere.
This action is brought to obtain a judgment determining all the rights and priorities in and to the waters of Snake River between American Falls and Twin Falls. Dem. and to declare and determine that the Plaintiff is entitled to three thousand cubic feet per second of time of the waters of said river prior to you and credit of you, and to quiet any and all conflicting claims in and to the waters of said river, and to adjudge all defenses thereto, and to appoint in and to the plaintiff to the extent of three thousand cubic feet per second of time.
And you are hereby notified that if you fail to appear and answer the said complaint as above required the said plaintiff will appear to the court for the relief demanded in the complaint.
Given under my hand and the seal of the said court this 21st day of October, 1910.

HAS HISTORIC VALUE.

Damon and Pythias Is Representative of Present Fraternal Spirit.

The historical drama of "Damon and Pythias" is one that for almost a century has been recognized as one of the noblest and most beautiful dramas ever written. Among the historic classics, few plays have been accorded the high relative standing to those of the world's immortal Shakespearian plays. It is originally from the gifted pen of that great Irish poet, John Banim, who died in his early twenties. The world's greatest critic and dramatist, who, after his early death of so promising an author, and have been unanimous in the belief that maturer wisdom would have corrected the incongruities in "Damon and Pythias" as originally written, for the play itself is full of dramatic fire and poetic genius. It is a far cry, however, almost a century from the time the play was originally written, unto the present day.

The spirit of fraternity is in the air, and for one fraternal order that existed a century ago we have twenty today, and this wonderful story of brotherhood and sacrifice portrayed in "Damon and Pythias" (which has its only parallel in David and Jonathan) is told in thousands of lodge rooms throughout the country, every week for the purpose of impressing upon the mind the beautiful lesson of a sterling manhood to forebly depicted in these two most notable instances. These heroes still live, and will live, while friendship warms the heart of man; for all fraternalists advocate sacrifice, honor and all the qualities that go to make up sterling integrity and make frail humanity into a better man. These virtues form the cornerstone of true fraternity.

Shortly before the Civil war closed, that splendid American soldier, Justus Henry Rathbone, fired with the commendable desire to give to the world the love of the unselfish character of that ancient Grecian soldier, Pythias, conceived the idea of, and crystallized into life, the formation of an order, which for its ends should teach and fulfill that sterling lesson of brotherly love from man to man. From that beginning has sprung a tremendous and powerful, distinctly American fraternal order, "Knights of Pythias," with close to a million membership in America alone.

Some years ago Mr. Keene recognized in "Damon and Pythias" a play, which under proper reconstruction, could be made into one of the grandest and most spectacular of dramatic spectacles of the highest type known to the stage. After years of careful study and "re-creation" the present version has resulted.

FIGHT FOR EXPOSITION.

New Orleans and San Francisco Are Waging Hard Fight.

The matter of the selection of a site for a world's exposition to celebrate the completion of the Panama canal will come before congress for decision next month and the two rival claimants for the honor have for months past been marshaling their forces for the battle. Both are confident of winning the coveted endorsement and both will have representatives on the ground to present their respective claims before the committees of the senate and house.

On the one hand is San Francisco, the bustling metropolis of the Pacific coast, the city which stands to profit more through the completion of the canal than almost any other city in the United States.

On the other hand is New Orleans, the Louisiana metropolis, located on the Mississippi, sixty miles from the Gulf of Mexico, which will add nothing to its export trade through the opening of the canal and which will derive no direct benefit from it.

Nearly 75 per cent of the exports from New Orleans go to New York or Europe, and they will continue to do that way after the canal is opened to the commerce of the world. Ships from the Atlantic seaboard and from European ports, with cargoes for the Pacific coast or the Orient will not approach New Orleans or their way through the canal; either going or coming. The great majority of them will touch San Francisco, and in the case of many of the larger ships, San Francisco will undoubtedly be made a regular port of call.

The Panama canal was designed primarily to promote trade between the Atlantic coast and European ports with the Pacific coast and with the Orient, by providing a shorter and cheaper route. From a commercial point of view New Orleans' interest in the canal, compared with that of San Francisco, is nil.

RAILROAD MEN PLEASED.

Hawley's Election Provokes Fire Works in Pocatello.

Railroad fuzes furnished the red fire and a hundred small boys and girls, who turned the noise for a ratification celebration held at the intersection of West Center street and Arthur avenue last night by the Democrats of many of the larger ships, San Francisco will undoubtedly be made a regular port of call.

The Panama canal was designed primarily to promote trade between the Atlantic coast and European ports with the Pacific coast and with the Orient, by providing a shorter and cheaper route. From a commercial point of view New Orleans' interest in the canal, compared with that of San Francisco, is nil.

SECRETARY MAKES PROVISION.

Charges on High Land Areas Not Due Until Irrigation Is Provided.

Gravely settlers should give particular attention to public notice of the Secretary of the Interior dated October 12, 1910.

According to the public notice dated July 19, 1907, payment of charges on high land areas within the project was to begin for the season of 1910.

The public notice of October 13, 1910, to which attention is called, provides that charges on high land areas will not become due until such time as means are provided for the irrigation of such lands, but in order to take advantage of the terms of this notice, settlers must, on or before December 1, 1910, agree to accept these terms and amend their water right applications to conform with the revised plans. The form of agreement is blocked out in the notice referred to. These agreements must be signed and sent in to the Hoiler land office, otherwise payment of charges on high land areas will begin with the 1910 assessment.

NEW PRODUCE CONCERN.

R. W. Carruthers Opens Produce House on Main St.

A new produce company is doing business on Main street under the name of the R. W. Carruthers Produce concern. The proprietor is Mr. R. W. Carruthers. The store is located on East Main, a few doors east of the Department store.

The firm handles butter, eggs, all kinds of fruits, fresh vegetables and everything that goes to make up a complete produce concern. They are making a specialty of Sealshipt oysters as they have exclusive sale on this famous brand. They also have a delivery system in connection.

Marketing In Crisman Gulch.
"What makes the butcher put both hands in the air? Is he afraid you are going to shoot?"
"No," answered Broncho Bob. "He has gotten over being afraid. He knows ain't going to shoot as long as he keeps his hands out of reach of the scales while the meat's being weighed."—Washington Star.

TIRES REBUILT AND VULCANIZED AT KELLY'S. June 2-30

FACTORY PAYS \$175,000.00

Idaho Falls Sugar Factory Pays Big Returns to City.

The first of the three pay days for labor and beet at the Lincoln factory of the Utah-Idaho Sugar company factory last night resulted in the distribution of about \$175,000.00 in cash. Twenty thousand of this for labor, was paid Thursday, the balance to be paid on Friday is for beet.

This is the first of three or four pay days at the factory, the sum total of which will run over half a million dollars. This amount of money will all be circulated and distributed within the immediate trade vicinity of Idaho Falls and is a matter of considerable importance to the mercantile and other business interests.

The total pay roll of the three factories in the valley will no doubt aggregate over one million dollars in the valley. An item of very considerable importance.—Idaho Register.

Thanksgiving Day Proclamation.

Many years ago our forefathers met together to give religious solemnity to their gratitude to God for the blessings bestowed upon them. From year to year the custom has been followed. It has grown in its meaning to each of the citizens of our great nation. It is a day set apart from our ordinary pursuits to be sanctified by the open exhibition of that spirit which has made our nation great and without which no community of people can live.

There are many reasons why the people of Idaho should rejoice with each other on this day and give thanks to our Creator for the privileges which have been extended us. We are enjoying an unprecedented era of prosperity. No general scourge of sickness has come upon us, and the health of Idaho has been only in keeping with the inexorable rule.

The nation has steadily advanced in those things which its founders hoped for, principal among which is the priceless heritage of liberty and free speech.

Therefore, I, James H. Brady, in accordance with our custom, and the proclamation issued by the president of the United States, do hereby designate Thursday, the twenty-fourth day of November, Thanksgiving day, and do request the people of the state of Idaho, wherever possible on that day, to refrain from their usual vocations, to meet together in service to God, and in other manner to give thanks to God for His graciousness.

In witness whereof, I have hereunto set my hand and caused to be affixed the great seal of the state of Idaho.

Done at the capital, in Boise, Idaho, this eleventh day of November, in the year of our Lord one thousand nine hundred and ten, and of the Independence of the United States the one hundred and thirty-fifth.

JAMES H. BRADY, Governor.
ROBERT LANSDON, Secretary of State.
