L. T. Shippley, who is the determining factor in the decision of the location site, has come and gone. As far as Twin Falls people are concerned they know no more regarding the location of the building than they did before. His report will be made to the Washington office, where the final decision will be made.

By a score of 52 to 0 Twin Falls walked over the Pocatello school in the contest at the ball park on Saturday. At no stage of the game were the visitors dangerous, and only made down to ten in the game. Twin Falls were on the offensive during the entire game.

Either something is "rotten in Denmark" or there is more negligence on the part of the county commissioners if the public can take their method of procedure in regard to publication of proceedings as a basis of judgment. For some reason or other no proceedings have been published for some time. The law provides that at the adjournment of each session of the board the commissioners shall publish such proceedings which will inform the public. It even goes farther than that and stipulates as to the manner of publication.

Three men hold up in one evening is the alleged record established by H. C. Wirtner and Slim Smith of Milner, last Friday evening, at Milner. The alleged men were recognized by one of the intended victims, and one of the men, Smith, was taken and is now in the Twin Falls jail. The other men had not been captured up to this time. The men stationed themselves on the Main street bridge, on the Snake, near the railroad tracks, and waited for the "victims to pass" by. In a short time three men were being up and two others were stopped.

Swam & Aldrich last week received the credentials that make them the wholesale agents of the Franklin Automobile company. There is more than passing significance attached to the fact that the part of the eastern concern for it probably presages the policy that will be followed by other large concerns. The maximum rate for gas is to be \$1.95 per 1000 feet. In case of dissatisfaction on the part of the consumers the rate shall be determined by an arbitration committee.

An ordinance granting to Earl Miller and his associates of Des Moines, the right to construct and operate works for the manufacture of gas was favorably acted upon by the council. The ordinance was given its first reading at the meeting last night. The ordinance provides that the company shall start construction of a plant by April 1, 1911, and that they shall have two miles of main laid by January 1, 1911. It is understood that the company now have a lease on a piece of ground near the depot. The city under the provisions is to be furnished with 25,000 cubic feet of gas per month, free of charge. The maximum rate for gas is to be \$1.95 per 1000 feet. In case of dissatisfaction on the part of the consumers the rate shall be determined by an arbitration committee.

On the day of his visit last Thursday, competition for the site became keen and the interested parties were busy boosting the advantages of the different sites. A total of nine or ten locations have been suggested. There were a number of locations that are being pushed by local business men. Block 101, near the O. S. depot on Third avenue west was strongly pushed, because of its accessibility to the depot.

Capt. Girder won the flip and Twin Falls kicked off Pocatello school by advancing the ball to the 30-yard line. By line plunges and on run Pocatello made down, but lost on next attempt. Ball advanced to Pocatello's 16-yard line, but ball is lost to visitors on 12-yard line. Bailey intercepts a forward pass and carries the ball for first touch down. After the first kick off there were a number of fumbles by both sides, but Twin Falls makes touch down by end runs by Girder, Jays and Adams. The third touch down was made in nearly the same way, the same men carrying the ball. Score for final half, 18-0.

The law covering this matter is found in paragraph 19 of Section 1917, under the caption of TOWNS AND DUTIES OF THE COUNTY COMMISSIONERS. Paragraph 19 of Section 1917, Powers and Duties of the County Commissioners. At the adjournment of each session of the board, to cause to be published such brief statements as will clearly give notice to the public of all its acts and proceedings, and semi-annually, a statement of the financial condition of the county. Such statement as well as all other public notices of proceedings, or to be held before the board, not otherwise specially provided for, must be published in one newspaper printed and published in the county as well as the most likely to give notice thereof; and when in a weekly newspaper, it must be published at least five times a week, or in at least five issues when the paper is published oftener than weekly, but when there is no newspaper published in the county, such statements must be kept posted for at least twenty days in three places in the county, one being in a conspicuous place at the court house door.

Soon Lusk Parker, of the Western Lumber company, came along, and he was stopped, but he said he has recognized the men, and as a result was allowed to go. After this the men attempted to make their escape. The townspeople were quickly notified and the chase was taken up. The suspects are local characters of considerable reputation, but appeared to have pulled off a surprise on their part. The man who was allowed to hold up the men used guns, although they were not discharged.

The capture was made by Sheriff O. L. Lincoln. The crew for the capture belongs, however, with Sheriff Dyer. Sheriff Dyer happened to be in Twin Falls and Sheriff Dyer saw the train enter Shoshone and to capture the men that they would be taken unaware.

Omaha papers say this city shows most complete potato exhibit. "The most complete potato exhibit ever seen in the Mississippi valley" is the way that the Twin Falls exhibit at the county fair show is characterized by the Omaha Times-Herald. Omaha papers have been giving considerable space during the progress of the show to the showings of the various sections of the country. Idaho has been given more credit than any other section of farmers. It is a comment on the middle west as a criterion, Idaho has the credit for getting results. The clipping that bears the above title was sent to the Twin Falls display follows:

WAS A HUGE SUCCESS. Poverty Ball Brings Out Diversity of Hard Times Costumes. Some of the real original ones that deserve special mention were Mr. and Mrs. M. J. Sweeley, Dr. and Mrs. Pike, Mr. and Mrs. E. C. Lavington, Howard E. Swadlow's costume in going into the oven in his "Old Yankee" costume. Many others had creditable costumes which contributed to the brilliancy of the evening.

Thomas, H. H. W. Wilson and the Misses Jane and Grace Maxwell.

Potatoes are shown there that look every price in Council Bluffs, including the best. These potatoes were picked from patches that yielded over 600 bushels to the acre. There is a general exhibit of grains and vegetables and apples from four-year-old trees, including alfalfa eight feet tall. This was all raised in Snake River valley, near Council Bluffs. Mr. H. Smith who is in charge of the exhibit, says there was nothing but sugarbeet and desert six years ago. Now there are 300,000 acres under cultivation.

Mr. Holohan came to Wallace a day or two ago and the license was secured this morning. Mr. and Mrs. Holohan left on the 2 o'clock train for Council Bluffs. They will go to Twin Falls to make their home. The bride is one of the best known young women of Wallace. She is a member of the Trousseau club and has been active in other social organizations. Recently Miss Leighty has been employed by the Wallace Piano company.

LETTERS DEAD IN FIVE DAYS.

New Ruling Makes Undelivered Mail Dead Matter in That Time.

Uncalled-for letters in the postoffice will remain but five days hereafter before being sent to the dead letter office. Heretofore the limit has been 30 days, at the end of which time the amount of uncalled-for mail so accumulated that it became an almost impossible task for the regular force to handle it.

The order has gone out in the bulletin which was issued from the office of the postmaster general November 10. The order reads:

Ordered, that in accordance with the provisions of an act of congress, approved June 24, 1910, the postal laws and regulations of 1912 be amended as follows:
Section 670. When the writer of any letter on which the postage is prepaid shall indorse on the outside thereof his name and address, such letter shall not be advertised, but, after remaining uncalled for at the office to which it is directed the time the writer may direct, or the postmaster general prescribe, shall be returned to the writer without additional charge for postage, and if not delivered, shall be treated as a dead letter.

Section 672. Whenever any unclaimed matter of the first class other than postal cards and post cards bears the name and address of a sender, as postoffice box, number and street, etc., without a request that the same be returned if not delivered, such matter will be termed "dead matter" and must not be advertised, but must be returned to the sender within the time prescribed by the following paragraphs:
Uncalled-for letters directed to street and number in cities, five days.
Uncalled-for letters for general delivery in cities, five days.
Uncalled-for letters for delivery by rural carrier, five days.

Section 673. Uncalled-for letters in offices of the fourth class and not intended for delivery by rural carrier, five days.

All request, card, or official matter of any class returned to the sender must bear on its face the reason for such return, such as "Refused," "Removed," "Present address unknown," "Exchanged," "Undeliverable," "Cannot be found," "Address incomplete," etc., and must also in every instance be indorsed "Returned to writer" and bear the postmark of the office from which it is returned. (Signed)
FRANK H. HITCHCOCK,
Postmaster General.

Idaho Will Have Bery of Pretty Girls at Rose Festival at Portland.

Labeled the "Boosters of Idaho" an excursion of fair maidens of this state will go to Portland next spring during the famous Rose festival annually held in that city. Already plans are under way to make the proposed excursion a pronounced success. Arrangements have been made with the management of the festival for the entertainment of the Idaho girls, who will make the trip and the very best of accommodations will be provided for them in the Rose city while they are at its guests.

It is believed that the excursion will afford an excellent medium for the boosting of the Gem state, its cities, towns and villages, climate, resources, possibilities and future. All told the excursion will cover about a week, for a number of side trips are to be made out of Portland to the surrounding country. The excursion will be made up of young ladies from the southern part of the state or from the cities and towns of Idaho, Weiser, Payette, Elmer, Caldwell, Nampa, Mountain Home, Gooding, Hilday, Twin Falls, Pocatello, Blackfoot, Idaho Falls, Montpelier and others.
The Rose festival is probably the greatest annual event held in the city of Portland. It has already won a national reputation and is now recognized as a national event, no other city in the United States, so far is known, having a festival of a similar nature.
It is believed by boosting organizations and commercial clubs of the southern and eastern parts of the state that the excursion that is now being planned will be beneficial in an

DOES SUFFRAGE PAY.

Question Discussed by Women of the East, Who Say It Does.

Buffalo, N. Y., Nov. 17.—"The operation of woman suffrage and its local effect," was the subject which received especially close attention at the closing session of the combined national municipal league in this city today. Mrs. Mary Winsor of Inverford, Pa., president of the Pennsylvania limited suffrage league, presented a digest of data recently collected with reference to the operation of woman suffrage in Colorado. Much of the information was obtained through letters received from many persons of prominence in civil affairs.

Of twenty-three communications from Denver, three were unfavorable, three lukewarm and seventeen favorable upon actual accomplishments. The election of Miss Merideth as election commissioner, the vote securing amendment to the charter for the initiative, referendum and recall and the defeat of the so-called water "franchise grab" in Denver were attributed in Miss Winsor's report to the votes of women.
From Colorado Springs, where, according to Miss Winsor, "the municipal conscience is not highly developed either in men or women," five letters received were unfavorable and slight favorable. Several writers attributed to the work of women the adoption of a new charter combining elements of the Galveston and Des Moines plans.

GIVE US A REST.

For heaven's sake let us alone and give us a rest for a while. This country of ours is not going to huddle just yet. But we are emphatically a nervous nation, and when turmoil is rampant industry ceases. Confidence in our institutions is absolutely necessary, and when that is shaken the devil is to pay. The country at present is a political ridden, and until calm comes business of all sorts, insurance included, will suffer.

What we want just now is for these agitators, these investigators, to shut up shop and get on of the way. It was all very well to point out abuses, but this everlasting keeping it up is all fooliness. The American people are not blooming fools. They don't have to be led all the time. Playing to the galleries is getting mighty nauseating, especially when it results in the present deplorable turmoil and lack of confidence.

There is nothing the matter with this country, nothing the matter with business, except that a few wretched reformers are raising the devil with it. Give us a show to work out our own salvation; un-molested and we will be all right. But this everlasting nervousness through which we're passing is

entirely senseless, uncalled for, and ruinous to business. The sooner we consign these agitators to the place where they belong and settle down to real work, the sooner will confidence be restored and the wheels of progress again revolve.

The conservation of confidence and conscience is what is most needed just now.—Insurance Advocate.

Protection of the home merchant against the mail order houses has been one of the principles adhered to by The Times. This paper has gone on the principle that the home merchant deserves all the protection he can get against out of town competitors who have nothing in common with local merchants and less in common with the town. This paper has never solicited mail order advertising and has insisted that the home merchant deserves support from the newspapers. An investigation of the columns of this paper will show that no mail order or foreign competitors have advertised in this paper.

Recently one of the local grocerymen had an advertisement in The Times which proved by actual figures that Twin Falls people are actual losers in trading with mail order houses. The bill of groceries in question would cost \$101.65 at home and the delivered price of the Denver concern was \$148.74—a loss to the consumer of \$47.19. Besides this the buyer contributed to the dividends of a corporation that pays no taxes, pays no wages, paid has no interest in this city. This is a typical illustration of the actual working out of the mail order houses—institutions which have no right to do business in their or any other city. It is only reasonable to suppose that if The Times takes a stand against outside competitors that local merchants should pay the same courtesy to The Times. During the last few weeks outside solicitors from the southwestern part of the state have been ordering from local merchants for job printing, which belongs to the newspapers of this town. What advertising can an outside job concern do in Twin Falls? Why should the merchant ask The Times to boost his business when he gives his job printing to an outside concern? What contribution does this outside plant make to Twin Falls? What rent and taxes do they pay and what is their wage distribution in this city. These are the things that should be asked of the outside competitor. The newspapers are dependent upon the merchants of Twin Falls for their existence and can ill afford to have the trade go elsewhere. The

Times asks that the same support be given it that it in turn gives the local merchants in their fight against out-of-town competition.

STATE THAT SAW A NEW LIGHT.

While this year's elections have transferred ten States in all from the Republican to the Democratic column, giving the Republicans only three in exchange, it is to five Eastern States—New York, New Jersey, Massachusetts, Connecticut and Ohio—that the country's after-election interest chiefly turns in its effort to more fully understand the verdict of the ballot. In these States, and in Illinois, the Democrats made their most conspicuous gains—gains which were foreshadowed by the earlier result in Maine. The defeat of Henry L. Stimson in New York, in spite of his indelible championship by Theodore Roosevelt, is regarded by the Washington Post (Ind.) as "the most striking single fact" of the elections. He was defeated by a plurality of more than 67,000, two years after his party's previous candidate, Charles E. Hughes, had carried the State by more than 200,000. Mr. Stimson himself declares that his defeat is "a mere incident in the fight for progress," and explains it by the statement that "our party is going through the agony of getting on the progressive side of affairs." The New York Evening Post (Ind.) points out that Mr. Dix did not draw out the full Tammany vote, and credits his election to Independent and Republican voters. The New York Press (Rep.) also sees in the result proof of a growing tendency to disregard party lines. In the New York State legislature 93 votes were gained by the former minority, giving the Democrats a lead of 34 in that body.

The paramount issue in New York this year, declares the Kansas City Journal (Rep.), was Theodore Roosevelt, and the result was "the knell of Rooseveltism and all that it stands for." Of the same opinion are the New York Commercial (Com.), The Times (Ind. Dem.), The Sun (Ind.), The Herald (Ind.), and The World (Dem.), which all agree in attributing the result to Mr. Roosevelt's "tempestuous interference" in the campaign. On the other hand, certain Republican leaders like Herbert Parsons declare that Mr. Roosevelt's activities helped the party in the State and saved it from a much more overwhelming defeat. In this view many progressive papers, within and without the State, concur. Says the Chicago News (Ind.): "Mr. Roosevelt entered the cam-

paign in response to appeals which he could not have resisted—and he did not wish to do so—without forgetting the respect of many thousands who have a high regard for him. He went into the fight to help put the progressives in control of the Republican party in New York. Surely that was a worthy object. Without his energetic efforts the Old Guard—Barnes, Woodruff, Aldridge, Wadsworth, and the rest—would have controlled the Saratoga convention, would have nominated a ticket to its liking, and would have run the campaign to the high satisfaction of the interests. * * * "Mr. Roosevelt took up the leadership laid down by Hughes when the latter became a Justice of the United States Supreme Court. He did it for the public good. He would have been excused as a craven or a turncoat if he had not gone into the fight. He did his best."—Literary Digest.

WHY?

WHY HAVE THE PEOPLE OF THIS COUNTRY APPROXIMATELY THREE BILLIONS OF DOLLARS DEPOSITED IN SAVINGS BANKS.

Because these banks pay 3, 3½ and some of them 4 per cent. interest, compounded semi-annually, and you can get your money any time.

This is not true of money out on private loans or mortgages.

Again these banks open accounts on small deposits and continue to receive deposits in small amounts and in short order you every increment to be thrifty.

Doubtless there are hundreds of millions in these banks that would not be there were it not for the little Home Safes, a cut of which is shown below.

For a short time we will loan free these little safes. Made of steel and handsomely finished—they hold about \$15.00 in silver.

They are locked by us when loaned. You can drop in your daily or weekly savings and bring safe in every 30 or 60 days as convenient and we unlock and credit your account with contents.

To get one it is only necessary to start an account, and you can start on any amount—\$10.00, \$10.00, \$5.00, \$2.00 or even \$1.00.

Hundreds of thousands of these little safes are in use, and by using them hundreds of thousands of wise people have built up savings accounts amounting in some cases to thousands of dollars. If good for them why not for you?

Our solicitors will thoroughly canvass the city.—They are authorized to open accounts and to loan safes and collect money to start accounts. They are all bonded and bank will be responsible for all cash they collect. They carry letters signed by officers of this bank and will tell you all about it and show the little safes.

Total Resources Over \$400,000.00
INTEREST RATE 4 PER CENT AND COMPOUNDED SEMI-ANNUALLY.

Mr. Swell Dresser:
 A gentleman met a friend on the street. "Come with me to New York," said he to his friend as he looked at his watch.
 "I would like to," was the answer, "but really I have no clothes, and it will take me a week or ten days to get them."
 "Now, that's just where you are off. Step right in with me to New York's where I always get my clothes and you can get a new suit and overcoat all ready to slide right on, and when we stroll on Broadway nobody will look any better than we do."
 The friend came to our store and in fifteen minutes, he was ready to go to New York, and he saved \$15 on the suit and \$15 on the overcoat. \$30 is a lot to save.

Equal to the Crisis.

The wives of Napoleon III's marshals played a great part during and after the second empire. When Marshal Bazaine was planning his escape from the Isle Sainte Marguerite his wife assisted him in the plan and came in the boat to meet him.

When General de Carles died in exile and disgrace on the Riviera his wife was determined that he should at least be buried in the family vault at Pere La Chaise. In order to accomplish her object, with the aid of a faithful servant she had the corpse arrayed in a huge travelling cloak and lifted into a railway carriage. With such a companion beside her, this woman made the journey alone, in defiance of the law. These women seemed to have been equal to any crisis in which they found themselves.

W. S. McCornick Purchases Northern Nevada Mine for \$425,000.

Saturday's issue of the Daily Mining News records the purchase of the Winnemucca mines at a sale to satisfy judgment. Mr. McCornick is the controlling manager of the Twin Falls Bank & Trust Co. of this city is the purchaser. The clipping from Winnemucca, Nev., Nov. 18 To satisfy a certain judgment, the Golden Bell, Mayflower and Good Hope mining claims and millsite, property of the Chaffey Mines company, has been sold here at sheriff's sale. The property was purchased by W. S. McCornick of Salt Lake City for \$425,000, the amount of the judgment and costs of suit.

The property is situated in the camp of large-grained gold ore. On this estate was located the famous "Black Hole" bonanza that produced 1,000 tons of shipping ore in a single year, giving Chaffey one of the busiest camps in northern Nevada. Like most of the valuable mines in the state it soon became involved in litigation, which tied up the property.

However, it is said that there are large bodies of ore in the workings of the property and it is ever hoped it will be again producing gold bullion. The new owner is a prominent Salt Lake banker. It is not known what plans he has for the operation of the property.

Malleable iron is better than Cast,
It's stronger—though softer, and longer does last;
In "Majestic" the parts are all riveted tight,
Made of charcoal and malleable, which makes them just right.

NORMAL SCHOOL NOTES.

Lawiston School is Fast Gaining a Reputation.

That the Lawiston Normal is fast gaining a reputation outside of the state of Idaho, was quite evident from the fact that this week Miss Sarah E. Hadden, a student of the Normal and a graduate of LaSalle Seminary, Anaburadio, Massachusetts, entered the professional school as a regular student. Miss Hadden expects to specialize in Domestic Science, and will take the two years course in that subject, with the idea of teaching domestic science in high schools upon graduation.

This year there are about a dozen students in attendance at the Normal from the middle west and the east. The enrollment at the present time is very close to two hundred eighty.

At the regular weekly meeting of the Normal debating club, held Thursday evening, the question debated was "Resolved, That mad cow houses are detrimental to the public in general." The judges, consisting of Messrs. Fowler, Green and Tautefast, gave their verdict in the affirmative. So much interest was aroused in the question that it was decided to debate this same question at a meeting in the near future.

Some of the young women of the Normal are considering the question of forming a girls' debating club. Should they do so, a definite program that from time to time debates will be held between the members of the young men's club, and that of the young women's club.

The recital given this week by the faculty members of the University of Idaho, under the auspices of the Normal Girls' Glee club, proved a great success. The entire affair was under the management of the young women of the Normal, and credit for bringing to Lawiston the University of Idaho's musical faculty, it is probable that next month the club will go to Moscow, where they will appear under the auspices of the University.

The Kookooskia club will also hold its first social meeting sometime in November 23rd, Thanksgiving Eve. The club now numbers about thirty members.

The girls of North Idaho, of the Normal, expect to form a club of their own, to be known as the North Idaho club. All of these clubs are social in character and meet but once a month. Dancing Party Postponed.

The State Teachers' Association meets this year at Boise during the Thanksgiving recess. The following members of the State Normal faculty are on the program:

President Black, who will discuss "The Social Significance of the Rural School." Fred E. S. Woodruff, who will give a talk on "Geography and Nature Work." Miss Frances Chamberlain, "Children's Songs." Miss Clara Knys, "Primary Arithmetic." Other members of the faculty, who will attend are Professor Talinktion, Mrs. Mund B. Curtiss, and Misses Lytle and McGehey.

Thanksgiving recess this year at the State Normal will begin Tuesday afternoon, November 23rd, 4:30, ending Monday morning, November 28th, at 8:15.

Thanksgiving

Two hundred and eighty-nine years ago, this holiday was first observed by the Pilgrims. After a terrible struggle for existence they had at last harvested their crops, secured the friendship of the Indians and provided against the severity of the winter. This was the occasion of giving thanks for these good things. Today we give thanks to our customers and friends who stand by us and who have helped make Meyer & Co. Inc. what it is today.
