

### COMMERCIAL CLUB WILL ENTERTAIN

#### Informal Reception Planned by the Directors and Secretary.

#### MEMBERS ARE URGED TO EXTEND INVITATION TO SOME FRIEND.

Wives and Families of All the Membership Included in the General Invitation.

In order to revive the fraternal spirit among its membership and increase the already large number of boosters for the city, the directors of the Twin Falls Commercial club, through Secretary Spangler, have issued invitations for a big informal reception for Wednesday night, November 30, when the club will be thrown open to the guests. A program is being prepared by the club, which will be sure to please everyone. The invitation which is being sent to the membership, follows:

**OF FAMILIES SOCIABLE.**  
There will be an old-fashioned sociable and general good time at the Twin Falls Commercial club room on Wednesday evening, November 30, 1910. You are asked to come and bring your wife and also your best friends and his wife. We are sure you have to do when you get there is enjoy yourself. It is going to be a strictly informal affair. Paquin gowns, gum boots, and button-down shirts, neckties and flannel, abrits will be on an equal whatever that means. Come promptly at eight o'clock so we can begin not get through by bedtime.

There will be some joyful refreshments passed out from time to time during the evening.

**ENTERTAINING COMMITTEE.**  
Twin Falls Commercial Club, Boyd block, 112 Main Avenue.  
P. R. Osgood, chairman.  
P. No. 2—R. S. V. P. D. Q.

### R. R. OFFICIAL LIKES TUBERS

#### Writes Secretary Spangler That the Country Speaks For Itself.

R. A. Ashton, vice president of the Chicago & Northwestern railway, likes Twin Falls potatoes for breakfast. At least he writes the secretary of the Commercial club to that effect.

As for a practical demonstration we had some of them baked for breakfast this morning and they are simply first in an expert opinion. If you raise potatoes like that in Twin Falls you don't have to have any expert opinion on the subject, and your representative, Mr. Geo. H. Smith, I should judge that your country speaks for itself.

### PROHIBITIVE LICENSE ASKED

#### City Council Sets License That Spells Death To Hawkers.

Sections 5 and 18 of ordinance No. 18, were amended by the city council, the last reading being given the amended sections Monday night. The new amendments will be in effect as soon as the legal publication has been satisfied.

The ordinance refers to the license that will be required of hawkers, peddlers and transient merchants. The former license required was ten dollars a day, but the amendment against the outside competitors was so strong that the amended portions were ordered to go into effect immediately. The new license that the license shall be \$25.00 a day, instead of \$10.00.

The license price that has been asked will no longer drive a man out of the street. It will also protect the merchants from the house to house peddlers and canvassers. The home merchant deserves this support from the council. It will take a "right smart hawker" to make that license fee in addition to his profit and expenses.

**Tax Notice.**  
Twin Falls county, state, city, school and village taxes for the year 1910 are now due and will become delinquent on the first Monday in January next thereafter, and unless paid prior thereto to 10 per cent penalty will be added thereon, with such other costs as may be provided by law.

**L. O. HAYFORD,**  
Assessor and Ex-Officio Tax Collector,  
Twin Falls County, Idaho.

### WANT MANY MORE FINE DAIRY COWS

#### Farmer's Union Taking Active Steps to Get Herds.

#### BANKS HAVE BEEN ASKED TO LEND FINANCIAL ASSISTANCE.

#### Mass Meeting is Called for Next Thursday Afternoon at the Union Hall.

At a recent meeting of the Farmers' Union, the subject of increasing the number of dairies on the tract was brought up by Capt. Woods, of the Lincoln Refrigerating & Produce company, in order that the very profitable industry should be built up in this county. As a result of the discussion a committee of three was appointed to take up the matter and see if money could not be had from the banks to ship in a large number of dairy cows. The committee consisting of A. C. Boone, Capt. Woods and H. J. Youngs of the Sterling Ice Cream company, immediately went to work on the proposition, getting prices on such cows and also getting some very satisfactory responses from the bankers of the city. The results of the committee's work will be given out at a mass meeting which will be held in the Union hall in this city on next Thursday afternoon at 2:30. All of the ranchers are urged to attend and learn something of the needs of the ranchers in the dairying line and also of the remedy.

### JARBIDGE ROAD IS ASSURED.

#### Canvass for Funds is Successful—\$25,000.00 Raised.

The efforts of the committee appointed some time ago to canvass for the necessary funds for the improvement of the road from here to Jarbridge are being most successful. The committee raised \$25,000 among the business men of the city. Out of this amount \$10,000 will be given to the settlement of the debts contracted by the Mining Exchange. The balance was formed here nearly two years ago.

Active work on the repair of the road has been started and every cent is being spent in the direction of work before the weather is too forbidding. The main part of the work will have to be done in the Jarbridge country, where considerable work will have to be done to blaze the new road. The repair work on the road before the Jarbridge hole country is reaching to be estimated as \$50,000.

**Death, Nevada.** The little town in Nevada which did things when it came to raising a fund to capture the Jarbridge trail, is rushing things equally hard from their end. They have a working fund of \$100,000 and in addition a road organization to assist still further in the work. They also contemplate establishing direct telephone communication with Jarbridge. At present present Twin Falls and Death seem to be fighting against time in the endeavor to get the Jarbridge trail. The advantages seem to be with Twin Falls, because of the road that is already in the camp and the barriers in the Jarbridge country, and how death lies on the death road.

### DEATH OF MRS. DEAKE.

#### Well Known Resident of City Passes Away.

Another pioneer of this city passed to the beyond last Saturday evening when Mrs. E. B. Deake died at the home of her nephew, Mr. J. W. C. Deake, on Blue Lakes Boulevard. Mrs. Deake was only 41 for a few days, a slight illness complicated with her advanced age causing her death. The funeral was held from the home and the interment made in the Twin Falls cemetery. The deceased has been a resident of this city for the past three years, having come to Idaho from South Carolina with her nephew, Mr. Deake. Mrs. Deake by her loving and sweet disposition, made a friend of everyone with whom she came in contact, and her death brings sorrow to a large circle of friends in this city.

### CARLOAD OF DAIRY COWS.

#### P. B. Johnston Brings in Graded Stock.

P. B. Johnston, living one mile south of the city, returned Thursday on a trip through the middle states. During his absence Mr. Johnston purchased a carload of fine full blooded and graded Jerseys, Jerseys and Durhams, and will sell the same to the ranchers of this track. The new shipment can be inspected at Mr. Johnston's ranch.

### RENEWED ACTIVITY ON THE BRUNEAU

#### More Acreage Added to the Original Filings.

#### FORTY THOUSAND ACRES NEAR GRANDVIEW ENTERED.

#### Filing of New Irrigable Land Indicates Renewed Prospects of Financing Bruneau Project.

Complete and detailed filings were made in the United States land office Saturday afternoon for an additional 40,000 acres of land to the 350,000 acres previously filed on and for 140 miles of canal for the mammoth Bruneau-Twin Falls irrigation project located west of the present Twin Falls tract on the south side of the Snake river and which extends almost from a point just west of Buhl to Grandview in western Idaho. The filing is the largest one for any individual irrigation project in the history of the United States land office. It adds to the maps and charts of the project in blue print are now a record of the United States land office in this city and so far as the filings for the promotion, and eventual irrigation of the project is concerned those behind it, or the capitalists representing the project, are through with the land office. Some idea of the magnitude of this great project can be secured from the fact that the filings show that approximately 76 miles of the 150 miles of canal will be 220 feet wide at the bottom. At that ratio the canal at the surface of the ground or from lip to lip of the canal will be over 100 feet wide, a great river bed in fact, that will be constructed over this vast area of land which is to turn the homes of hundreds of thousands of arid southern Idaho. Through these canals will pass every second 10,000 cubic feet of water, a voluminous effluent to be estimated as the normal flow of a big river.

It was discovered after surveying the land to be included in the project and after making out the right of way of the canal that there was a complete block of 40,000 acres of ground which heretofore had been covered up and out of the right of way. Accordingly this was appropriated and will be included in the segregation. Eventually it is expected that the project will cover 200,000 acres, the largest project of its kind in the world.—Evening Capital News.

### FARMERS WILL ORGANIZE.

#### Eastern Oregon and Southwestern Idaho Farmers Plan to Organize.

J. F. Denny left Sunday evening for Dallas, Oregon, to attend the meeting that is to be held there for representatives of the organizations of farmers in Eastern Oregon and southwestern Idaho. The meeting will be held today and tomorrow in the Oregon city. The official name of the convention is the Farmers' Union convention. The organizations represented there are very similar to the one in the Twin Falls area. The plan is to have the farmers in these neighboring sections organized for mutual benefit.

### SOME FINE APPLES.

#### L. B. Fitzgerald Receives Box of Pedigreed Jonathan and Delicious.

L. B. Fitzgerald, local representative of the Stark Bros. Nurseries, received this week a box of fine samples of apples from the Stark nurseries in the Wenatchee Valley, Wash. The apples are of two varieties, the Delicious and King David, each variety being a trademark of this great nursery company. The samples are very nice and will be displayed in the various show windows on Main street, as well as at Mr. Fitzgerald's office in the Weaver building. The Delicious is rapidly becoming one of the most popular apples in the country, and is to have the farmers on the Chicago market at \$8.00 a box and retailing at two for a quarter. The King David is a new variety, charging 25 and 30 cents apiece for them.

### PURCHASES ROOMING HOUSE

#### L. A. Wright of Jarbridge, Takes Over the Iris.

L. A. Wright, who has been promoting the real estate activities in Jarbridge since the opening of that camp, has decided to locate for the winter in Twin Falls, as well as retain his interests in Jarbridge. Mr. Wright has purchased the Iris rooming house from Thos. Sals, has had it thoroughly repaired and refurnished, and will run an up-to-date lodging house.

### FRANCHISE HAS GOOD PROVISIONS

#### Gas Franchise is Considered a Fair One.

#### MAXIMUM CHARGE CLAUSE WILL PROTECT CONSUMER.

#### Provision is Made For Arbitration Committee of Five Whose Decision Will Hold in Dispute Over Price.

In order to give a digest of the gas ordinance, which has been acted upon by the council. The Times is printing a number of the more important and salient features of this franchise. One of those who are in a position to know, say that the franchise is a liberal one and as good as could be secured. The company has established a maximum rate for the gas beyond which it cannot go. The franchise is a liberal one and as good as could be secured. The company has established a maximum rate for the gas beyond which it cannot go. The franchise is a liberal one and as good as could be secured. The company has established a maximum rate for the gas beyond which it cannot go.

### TRANSFER CO. FITS EMPLOYEES

#### Turkey With All the Trimmings is the Culinary Offering.

The baggage rustlers of the Twin Falls Transfer company made merry yesterday at the expense of the company. Everything that goes with a good old-fashioned Thanksgiving dinner was served. Those who were fortunate enough to be eligible to the dinner had the chief of the occasion, Mr. Bowser will be in demand by the cases as soon as his accomplishments rack know.

### CONKLIN-BARROWS.

#### Popular Teacher Weds Boise Engineer.

At 5:30 o'clock Thanksgiving day, Harold Conklin of Boise, and Miss Hazel Barrows of Twin Falls, were united in marriage at the home of Rev. Mr. J. H. Barton in Boise, the ceremony being performed by Rev. Mr. Barton. The bride wore a beautiful gown of exquisite lace over silk and was accompanied by her father, J. E. Barrows, of this city.

### DEPARTURE OF MAELS.

#### Lack of Information Causes Some Confusion.

Lack of first-hand information as to the closing, arrival and departure of the mails and the time for the closing of the postboxes seems to be causing some confusion among the citizens. Nothing of something that is not desirable to mention.

### GAME CALLED OFF.

#### Twin Falls-Blackfoot Football Game Called Off On Account of Snow.

The Thanksgiving game between the Twin Falls and Blackfoot high school football teams has been called off on account of the weather. A telegram from Blackfoot, received Wednesday, stated that they were having a big snow storm there.

### JARBIDGE CAMP IS ACTIVE

#### Times Correspondent Writes of Camp's Work.

#### NEED OF TELEPHONE CONNECTIONS.

#### Death, Nevada, Trying to West Trade From Twin Falls to Elko Co.—Road Organization Perfected.

Jarbridge, Nev., Nov. 19, 1910. There is greater activity in the camp now than ever before and in the future of the district look bright and permanent. A mill is being built on the site of the old one, constructed, while the prospectors are opening many fine showings. The Paviuk Co. were the first to begin practical development by the area and they are now the first to purchase and erect a mill. They have contracted with the Chalmers & Williams Co. for a large granite plant which is to be placed in operation, as soon as possible. Most of the material for this mill is now on the way, some of the lumber has already arrived and ten or twelve freight trains are arriving every day with more lumber and some machinery. Mr. W. T. Borgana has been here two or three days, supervising the grading of the mill and preparing the foundation for the mill. The frame timbers for the mill building will be hauled on the ground from Jarbridge to the mill site. The mill site has been fixed over the ridge between the Jarbridge river and Bear creek and the logs are being stacked down in quantity to the Jarbridge where the ax men are at work squaring the timbers. The mill is to be built on the bank of the Jarbridge river and directly at the mouth of the tunnel. The logs will be hauled from the tunnel into the ore bin and after being crushed, the pulp will be elevated to the classifiers. The mill building will occupy nearly all of the available flat on the river bottom, while the solution tanks will be placed on a bench of the cliff, 800 feet above the mill. The large gang of men are employed and the work will be pushed as fast as possible.

### NO CONTRACTS WILL BE ISSUED

#### Land Board Petitioned on Behalf of Tract.

#### Water Co.'s Case Presented by Attorney Edwards.

Attorney C. H. Edwards of Salt Lake, representing the old original South Side Twin Falls Land & Water company, appeared before the state land board at a recent session and presented a petition on behalf of the land board dated September 15, forbidding that concern from selling any more water on that tract. It is asserted that when the old company turned over the project to the settlers, it kept about 30,000 acres and water rights thereon, which were still unused, and the old company took that much stock as an equivalent in the new company's holdings, it is asserted. But the settlers claim that there is not sufficient water to warrant the selling of those additional rights and that if such rights are sold the settlers now on the tract now have enough water for their own crops.

### MARRIED AT THE M. E. CHURCH

#### Grover Tyler and Miss Ola Miller United in Marriage.

On Wednesday evening at six o'clock occurred the wedding of Grover Tyler and Miss Ola Miller, both of Twin Falls, at the parsonage of the M. E. church. Rev. Mr. H. E. Cullison officiating. The bride is the daughter of Mr. and Mrs. Grant Miller and has made for herself a host of friends during her residence here. The feast was engaged in the plumbing business in this city.

### HANSEN-SAWYER.

#### Popular Young Couple of This City Wedded.

On Wednesday evening, Nov. 23d, a company of young people found their way to the home of Rev. Mr. H. W. Cullison, where the wedding of Miss Edith Sawyer and Roy E. Hansen, the young couple are to make their home in Twin Falls and have the good wishes of a host of friends.

### POST AND SLEEP.

#### Popular Young Couple of This City Wedded.

On Wednesday evening, Nov. 23d, a company of young people found their way to the home of Rev. Mr. H. W. Cullison, where the wedding of Miss Edith Sawyer and Roy E. Hansen, the young couple are to make their home in Twin Falls and have the good wishes of a host of friends.

The efforts of the Farmers Union toward getting more live stock for feeding on this tract is one of the wisest moves ever made by that body, and if carried out with the same forethought which indicated and started the move, and the result in getting enough live stock to dairy cows, fat hogs and sheep to consume a large percentage of the big hay crop of this tract. The price of beef, pork, mutton and the high grade products of the dairy is usually staple at all times and when the time comes that the ranchers wake up to the proposition the quicker will Twin Falls county become prosperous, irrespective of the market price of alfalfa, or any other products which can be fed to the stock.

The matter of raising the three hundred thousand dollars bonus for the new railroad is hanging fire for various reasons. One reason being that a large number, owing to adverse comment, believe the proposition is a fake, and others because of the estimate of the sum to be raised seems insupportable in view of the money market. The reasons cause greater apathy than should be occasioned. In answer to the first The Times desires to state that the offer of a new railroad is a bona fide one and from responsible financiers. The how, presumably from Short Line sources, of a hot air deal, does not enter into the matter in the least. In view of the many surveys and promises made by the latter result in getting the cry of hot air seems misdirected altogether. As to the financial side of the matter, three hundred thousand does look impossible. Yet, if every acre of irrigated land was taxed two dollars per acre for the road, it would more than raise the sum. Nor would an expenditure of that sum be a hardship to any rancher in view of the great reduction which would occur in the present freight rates if a competing road was secured. The Times believes that in such competition is the true solution of the crop question on this tract, together with a unity of action of the ranchers to care for shipments and to seek out markets. The present conditions, of course, cannot be attributed to the railroad facilities, altogether, nor can the railroad be expected to create markets. Yet there is no question but what the present freight rates can be lowered with no hardship to the Short Line and the only way to get such lower rates is by a competing line with a coast outlet. The Times does not feel that the proposal of a

new road is not air or railroad smoke, but a fair and square business proposition put up to the business men and ranchers by a group of railroad men who can make good their promises. There is not the slightest doubt among the actual residents of the tract that such a railroad would increase the value of the land all over the tract \$10 to \$15 per acre and that the two dollars per acre would be money well expended.

## WHAT EVERY WOMAN IS LEARNING.

Every woman is coming to know that advertising has a real value to her. In olden days, under olden conditions, store-advertising was a very negligible thing. It consisted of either the dull, formal announcement of the conservative stores, or of the hysterical, misleading and "stamping" style of advertisements resorted to by the irresponsible stores. In neither case was advertising important to the housewife, nor of the nature of "service" to her in planning her purchases. Within the three decades just past advertising has evolved from these olden conditions into its present status of store-service. No worth-while store would now think of omitting it, or of limiting it to much in the scope of its usefulness. It would be as wise to try to do business in quarters wholly inadequate, or with no delivery system, nor clerks. For the advertising is as much a part of store service as any other phase of store-keeping.

Women have learned, and are learning, that only stores that are adequately advertised are able to give real value—are able to compete in value-giving with other stores that advertise. The store that does not advertise is not considered at all except as a mere neighborhood shop, to which we are driven by necessity sometimes—always to our loss.

Women are learning that the advertised store, selling great quantities of goods, is able to sell them at a much smaller per-plate profit than the unadvertised store, which must make its profits from a small number of sales. This truth makes store-advertising of real importance to every woman—to every buyer.

## WILL OPEN COURSE.

First Number of Lecture Course Will Be Given Tuesday Evening.

Kellogg-Haines Singing party will open the lecture course next Tuesday evening. There are five in the company. The number will be given in the Methodist church.

The roster of the company has three pianists, cello, flute and violin artists, a comedian and humorist. The company was named after the entertainers that are flatterers and stamp the company not only as versatile, but talented.

The repertoire is well arranged, containing selections from the grand as well as the comic opera.

Of their work the Bonville (Wis.) Review says: "The Kellogg-Haines Singing Party gave an excellent entertainment which was thoroughly enjoyed by the large audience. The party is composed of professional singers of exceptional merit, who appeared to advantage both in solo and quartet work. The program was composed of the most interesting and well selected, and several of the numbers were performed in costume which gave a touch of color to the program. The entertainment closed with a scene from the opera 'Martha,' which was very well given."

## MAKES STATEMENT FOR BAND.

Director Tyler Gives Facts in regard to Construction of Band Stand.

The director of the band, Mr. Tyler, in a communication to The Times, corrects some erroneous views that have been held in regard to the construction of the band stand. His letter shows that there is at present a deficit of about \$100.00. The letter follows: "The Editor of The Times: May I encroach upon your space to say a few words about the Twin Falls bandstand erected in the park? There seems to be a general misunderstanding about it and I would like to point to know the facts of the case. Quite a few people imagine that all the material and labor were donated, but this is a mistaken idea. When a bandstand was first suggested, Houghtling & Vasson the architect, presented the band, free of charge, for a very fine design, which was ultimately used.

From the design, it was supposed that the stand could be erected for about \$500 or \$600, and it was considered that there was not more than \$250 or \$300 in the bank at the time.

Accordingly, a committee of band boys went to all the lumber yards and asked each yard to donate one-eighth of the lumber in the stand, the lumber which they all agreed. At the same time, the hardware stores agreed to donate all hardware, nails, etc., and H. H. Friedman & Vasson the architect, the services of wiring the stand, while electric material was donated by the three electric supply companies in the city. When the stand and specifications were made out, it was found that the cost of the lumber alone amounted to over \$530 dollars, which divided into eight parts of one-eighth of the lumber, would mean that each lumber yard was stuck for over \$100 worth of lumber. This was more than any yard was willing to donate, and however, it was purchased from all the yards and the lumber companies very generously agreed to donate 355 worth of lumber, each.

Thus, it will be seen that there is a considerable balance due on the lumber. The carpenter's labor on the stand amounted to some \$600, out of which Mr. Papp, the contractor, is making a generous profit. The bandstand is now about \$400 out of which Mr. Briscoe made a generous donation. A statement was published about a week ago in your paper giving the exact figures, showing that there is still about \$1200 due. Since that statement was made, \$100 has been paid off the debt.

When the band boys feel that they are entitled to help from the public in paying off the debt, as they gave all the concerts in the park last summer absolutely free of charge, and last month spent about \$140 in uniforms and over \$60 on music.

The band is making another effort for the benefit of the debt on the bandstand. They will present to the public on Monday and Tuesday, December 12 and 13, the Cartwright Concert Co., a troupe of finished musical entertainers, and they hope that all music lovers will come out and set their money's worth and incidentally help along the debt. The band boys explain in the hope that they may clear up some misunderstandings about the band's affairs.

## TWIN FALLS EXHIBIT.

Progressive Young Section of West Makes Good Showing.

In the five years of its existence the Twin Falls section of Idaho has achieved a remarkable reputation for its fruit and other products and, if one is to judge by the exhibit made by the Twin Falls Commercial club at the Council Bluffs Horticultural congress, the good things that have been sent from this section are only a partial indication of what might have been said. The apples in the exhibit are from 4-year-old trees—not that older trees are able to bear better, but they have any order to speak of. The first scattering houses of this typical county of the west were built in the spring of 1906, only three years ago, and today Twin Falls is a city of over 7,000 people, the seat of a county which has been created as the result of the wonderful development of the section during the five-year period, and has all the modern conveniences of an up-to-date city. There are four miles of paved streets and more are being constructed; many of the homes are not only lighted but heated by electricity; there is a complete sewer system; it is possible, owing to the rapid growth, to make the schools highly centralized, and to have the children go to the city schools from miles around.

The climate of Twin Falls is said to be very mild, owing to its location on the great Snake river, from which the water is taken for the irrigation of all the region round-about. The fruit-growers here so far had no necessity to "smoke" to save the fruit from late frosts in the spring.

Twin Falls is a live fruit-growing city and the business men comprising the Commercial club, valued \$2000 in cash for the bringing of the carload of apples, potatoes and other products to the horticultural show in Council Bluffs, and to show the same fine exhibit at Chicago next week. The exhibit was not made by any land company themselves to show people of the middle west what can be raised on southern Idaho soil by the application of water. There are now about 100,000 acres of land under irrigation and as soon as direct new water connections are completed there will be over 1,000,000 acres under water—Omaha World-Herald.

## FIGHT TO A DRAW.

Last Night's Contest Gave Ten Rounds With No Decision.

Kid Williams of Denver, and the Salt Lake Kid, fought a draw at the Shoshone theatre last night. At the end of the ten rounds the referee announced that the fight was a draw. The men weighed 155 pounds and were evenly matched, although the taller man seemed to have the advantage at times. The fight was witnessed by a packed house. In the preliminary, Hall knocked out Lankin in about a minute.

## WHY?

WHY HAVE THE PEOPLE OF THIS COUNTRY APPROXIMATELY THREE BILLIONS OF DOLLARS DEPOSITED IN SAVINGS BANKS.

Because these banks pay 3, 3 1/2 and some of them 4 per cent. interest, compounded semi-annually, and you can get your money any time.

This is not true of money out on private loans or mortgages.

Again these banks open accounts on small deposits and continue to accept deposits in small amounts and in short order you every increment to be happily.

Doubtless there are hundreds of millions in these banks that would not be there were it not for the little Home Safes, a cut of which is shown below.

For a short time we will loan free these little Home Safes. Made of steel and handsomely finished—they hold about \$150.00 in silver.

They are locked by us when loaned. You can drop in your daily or weekly savings and bring safe in every 30 or 60 days as convenient, and we unload and credit your account with contents.

To get one it is only necessary to start an account and you can start on any amount—\$50.00, \$100.00, \$50.00, \$30.00 or even \$1.00.

Hundreds of thousands of these little safes are in use, and by using them hundreds of thousands of people have built up savings accounts amounting in some cases to thousands of dollars. If good for them why not for you?

Our collectors will thoroughly canvass the city. They are authorized to open accounts and to loan safes and collect money to start accounts. They are all bonded and bank will be responsible for all cash they collect. They carry letters signed by officers of this bank and will tell you all about it and show the little safes.

JEWELERS  
109 Main Avenue East

## Our Silent Oyster Salesman

This is the clean white and blue porcelain Sealship case from which we sell SEALSHIP OYSTERS at our store. No ice or water ever touches the oysters.

It is the final step in the Sealship System which makes it possible for us to furnish our customers with Sealship Oysters exactly the same every time when eaten at the shore. They are firm, tempting, delicious morsels of sea food.

## Sealship Oysters

Have the Tang of the Sea  
You will be surprised when you see Sealship Oysters. More surprised—and delighted—when you eat them.

In buying Sealship Oysters, remember that there is no "Huge" or "Nothing but solid meat." The "Huge" is what spoils common oysters. It is melted rancid fat.

When you ordinarily buy oysters in the quart, get only a pint of Sealship.

Come into our store and see our silent salesman. While there, ask for a copy of our book "Inside Oyster Disks." It gives many shrewd facts.

Twin Falls Fruit and Produce Co.

## COAL

Are your scuttles and bins full of good, clean "Peacock" Coal

If not, now is the time to fill them

**A THANKSGIVING OUTFIT**

In the shape of new shelving, counters, etc., will make your store more attractive to buyers. You can obtain all the materials required all ready to put together without trouble. We also carry a full line of sashes, doors, no uidings and all kinds of mill work. And if we haven't just what you want we'll get it for you.

**ADAMS & PILGERRIM LUMBER CO. Ltd.**

**IS KNOCKED OUT.**

Reputed Scrapper Later Practices Art In Arena Of City Battle.

Friday noon one of the local pool halls came near being the scene of a pugilistic encounter. As the grand finale one of the combatants was taken into the arms of the city jail where he could meditate upon the glories of the gladiator. Aside from numerous challenges indulged in by the two would-be principals, no damage was done.

In this particular pool hall, a fighter who professed to have stayed twenty rounds with the renowned Stanley Ketchell, offered to put to shame any fighter in the town. One of the local opponents of the padded mitts came to the front as the champion. The outsider insisted that money be placed on the outcome. The local man offered \$15.00 but the other man presently returned with a check for \$1000.00. About this time the strong arm of the law wandered in and hostilities were halted before any physical harm was done. The net result of this attempted melee was the arrest of the man who successfully stood off Ketchell but who failed to ward off the stiff arm of the law.

**SCHOOL NOTES.**

Several Teachers to Attend Meeting of State Teachers' Association.

The Misses Kears, Shotwell, Miller and Martin will visit the Boise schools Tuesday and Wednesday, and will attend the meeting of the State Teachers' association the remainder of the week.

School will close Thursday and Friday for the Thanksgiving vacation.

The local declamatory contest to select a representative for the state contest, will be held at the Bickel auditorium, Friday evening, December 24. There are nine speakers entered in this contest, and they are training faithfully under the direction of Mrs. W. E. Aaron.

Supr. O. M. Elliott will leave Monday evening for Boise to attend a meeting of the State Teachers' association and later will give an address before the Canyon county trustees at Caldwell. Subject: "The Consolidated School, Its Difficulty and Advantages." School will close for the Christmas vacation, Friday, December 23, reopening Monday, January 2.

**A Disraeli Anecdote.**

Sitting next Disraeli at dinner, Mrs. Jenne said that Lord Shaftesbury must be allowed one virtue, namely, his patient and affectionate behavior toward his wife. "Do you think," said Disraeli in his deep tone, "that he has ever seen her?"---Memoirs of Lady St. Helier.

**New Horseshoeing Shop.** I have opened up a new horseshoeing shop at 221 2nd Ave. South, and am fully prepared to do expert, shoeing promptly. Lame and ill-treated horses given special attention. G. H. SELF. Nov. 23 pd.

**ADVOCATES SHEEP FEEDING**

Colorado Man, After Visiting Twin Falls, Declares It To Be Feasible.

While temporary conditions are against the development of feeding operations on the western slope, prediction is made by Cornelius Colt, the Pacific coast packing authority, that decadence of the mutton-raising in northern Colorado means the development of new feeding centers west of the continental divide. He recently traversed the Twin Falls district of Idaho and after the trip said:

"I found incredible quantities of hay at points remote from transportation that could be bought for \$4.00@\$4.50 per ton. It is mainly the product of settlers who have been flocking to Idaho in large numbers. They have also raised barley and wheat which can be bought at \$1.95 per cwt., and corn now worth \$1.20 per cwt. in the same section. All these settlers need is leadership. They have access to a near-by supply of thin lambs, procurable at \$2.00 per head, and with some one to show them the way would soon be in shape to convert their rough feed into a casable and portable article. The Pacific coast can use every pound of mutton Idaho could make during the winter months."

Arrangements are being made by Prof. W. L. Carlyle of the Idaho experiment station for a campaign of education among the recently acquired agricultural population of the state with the object of stimulating feeding operations.

**IS A GOOD LOSER.**

Brady Says the Reason He Lost Was That He Did Not Get Enough Votes.

Governor Brady has proven that he is a good loser, as he is a winner. A short time ago in American Falls his friends were telling him how he lost and he seemed to feel more disgraced over the outcome than did the governor.

At this time the governor gave out an interview and his explanation of his defeat is that he "did not get enough votes." The interview follows:

"I have no feeling of resentment over the result. Somebody must lose, and I am going to be a good loser. I will have nothing to do with any contests, regardless of whether there were irregularities which would justify throwing out any returns or not. When the strife that enters into all campaigns disappears my administration will appear for just what it is and will be judged accordingly. I am willing to rest upon it. Some of my friends tell me that if it had not rained I would have been elected by a handsome majority. Others say that the railroad commission plank cost me 500 votes in Pocatello alone. They may all be right, but I attribute my defeat to not getting votes enough, and when the canvassing of the returns is complete I believe you will find I am right."

# Anderson's Whirlwind Jewelry, Cut Glass and China Sale

Means a positive saving of from 40 to 50 per cent for the holiday shoppers. For **TWENTY DAYS** commencing December 3rd we will wage a merchandise battle that will make a clean sweep of the finest line of **JEWELRY, CUT GLASS** and **FINE CHINA** ever shown in the state of Idaho. The mightiest Bargain Event ever bestowed upon the people of Twin Falls, sweeping all others before it like the sweep of the mighty Tomado.

## HO! FOR THE MONEY SAVING EVENT OF YOUR LIFE!

You cannot believe all you hear, nor all you read, but you surely can believe all you see--so we ask--**COME AND SEE**. You may say sales are getting to be a chestnut, but listen: This sale will no more compare with others conducted in Twin Falls than sunlight compared to the dimness of the ancient candle. If we handed you a bunch of the good old American Eagles, how long would it take you to extend a willing hand in our direction? Do you think you would be fortunate if you happened to be around when we are handing out cash like this? Would you be interested to know that we would like to hand you cash like this? If so, listen: There are no fake notes in this warning. During this Twenty Day Sale we will positively save you many hands full of Clear Cash. Now then--**"DON'T BE A DOUBTING THOMAS."** The "Can't Be Dones" are always being beaten by the "Do Its." Though the Door of Opportunity is wide open it means nothing to the man who is fast asleep. Wake up, quit lagging at the tail end of the procession. Never have the advantages which we have to offer at this sale been equalled. The lowest price point in every instance has been reduced. You never heard of such bargains in all your life.

### SALE COMMENCES SATURDAY, DECEMBER 3RD

And continues until Christmas Eve. Everything will be marked in Plain Figures. **STORE CLOSED** Thursday and Friday, December 1st and 2nd during which time we will arrange stock and cut the life out of prices as you never saw before. **DON'T WAIT** to buy your Christmas Silverware, Christmas is not far away--you can stand on a chair and see it--Assortments of China, Cut Glass and Platedware are complete right now. **PRICES CUT LIKE NEVER BEFORE**. Our store will be a continuous blaze of Holiday Gifts at prices so low that it almost an impossibility. **BUT COME**. Lest the extreme lowness of the following prices should make you doubt let us say that the larger part of our Cut Glass is "Libby's, The World's Best." Not a "Second" is quoted here. The blanks are clear, the cuttings perfect and brilliant--but note the prices.

#### We Don't Care to Shout

Too much. Enough is a plenty. But we wish to convince the Twin Falls people that pennies spent here during our Twenty Day Sale will equal dollars spent elsewhere. Quality considered, this sale will never be equalled.

#### Our Watch Department is Always Complete

We carry a large line of Elgin, Waltham, Illinois, Hamilton, Howard, and several makes of cheap or grades. Prices cut to the very lowest. We can furnish you with what you want.
