DIRECTORS CALL MASS MEETING

Members of Salmon Settlers Association Convene Saturday.

A mass meeting of the members of the Salmon River Settlers Association, was called by the board of directors of that organization, who met in Twin Falls last Saturday, and letters were sent out immediately afterwards advising those concerned of the action taken.

The meeting will be held for the purpose determined upon by President Mooman, J. O. Gundersen and E. Finney of Twin Falls and others of the board of directors, of preparing a protest, to be presented to the Board of Commissioners of the county, composed of Mooman and Finney or others, the objection being to the discontinuance of further water diversions from the Snake river.

SERIES OF EXPOSITIONS CALL FOR TWIN FALLS PRODUCTS

Effort Being Made to Secure Displays for Eight Different Avenues of Publicity—Shows at Boise, Chicago, Omaha, Pittsburgh, New York and St. Paul, Besides Governor's Special Train and Exhibit in Magio City.

A veritable web of land shows, extending from one end of the continent to the other, is calling this year for exhibits of products from the Twin Falls county, affording possibilities for beneficial publicity, unparalleled in previous seasons.

In addition to the horticultural exhibits, to be held by the Twin Falls Fruit Growers' association in the Magio city during the early part of October, there are other exhibits, for which are now in progress, and the governor's special train in potential charge of former Governor James A. Coyle, which will carry delegates and speakers from one town to another throughout the Middle West, starting from Omaha, there are six different avenues of publicity, which are being used to call attention to the Twin Falls products for exhibition purposes.

Farmers Urged to Cooperate. Thomas H. Kibler, representative of the United States Land Irrigation exposition of Chicago, was in Twin Falls Wednesday in conference with the secretary of the Commercial club, regarding the Twin Falls county exhibit at the exposition November 18 to December 9. The space for this exhibit has been purchased by the United States at Pittsburgh and will be given to Twin Falls county free, the only expense connected with the exhibit being for the attendance of Twin Falls representatives.

Boise Fair Greatest Yet. Boise will be one of the bright spots in all the north-west during the week of October 9. Not only will the annual fair be one of the greatest agricultural expositions ever held on the Pacific coast, but a program has been arranged by the Entomological department of the fair, which is calculated to keep the visitor in a continuous whirl of excitement.

Routing of Exhibits. The plan for unravelling this complicated exposition, determined upon by the Twin Falls Commercial club, is to gather up the exhibits from the Twin Falls exhibit and one for each county to be shipped directly to the fair, which will be in charge of the fair, after which it will be sent to Chicago. The state display will be shipped directly to the fair, which will be in charge of the fair, after which it will be sent to Chicago.

Rebecca to Give Dinner. The members of Golden Rod Chapter Lodge No. 105 will give a chicken dinner Saturday, September 16 from 12 to 1 o'clock in the building formerly occupied by the Merchants' hardware company. The price to be charged is 25 cents and the public is invited. The doors will be opened continuously between the hours mentioned.

Orchard Company Opens Store. The Crystal Springs Orchard company has opened a fruit store in the building formerly occupied by the Merchants' hardware company. The store is located at the corner of Main and Second streets and will be open from 10 o'clock to 6 o'clock.

Testimony of Neighbors Same

Although the hearing was held behind closed doors, there are many rumors to the effect that several of the residents of the Gold-Rule addition in the neighborhood of the scene of the tragedy give versions of the affair which tally with the story told by Van Ripper. One man, who is said to live in a tent between Fifth and Sixth streets, is reported to have stated that he heard the command to the men to throw their hands, which received no reply that he could not understand, and which was immediately followed by the report of the gun.

Oxley came to this city about a year ago from Decatur, Illinois, and since his residence here he has been known as a peaceable and industrious citizen. Soon after arriving in the city he purchased a home in the Gold-Rule addition, for which it is understood, he has paid. He was a member of the Workmen of the World and of the Red Men, in which orders he is in good standing. He was, however, a member of the local union, the members of which took up a subscription among the business men and unions of the city to defray the expenses of sending Oxley to children and shipping the body to Decatur for burial. The members of Local No. 338, laborers' union of Twin Falls express their regrets to the friends who contributed as follows:

Resolution of Gratitude. The members of Local No. 338, Laborers' Union of Twin Falls, desire to extend their sincere thanks to the numerous business men of the city, and also to the unions for their contributions to the fund raised for the benefit of the widow of our esteemed friend and brother, John L. Oxley.

(Signed) Committee. The body was prepared for shipment to the old territory and was on Saturday evening last the widow of the dead man and her four little children started on their sad journey.

ELOCUTIONIST AND DOCTOR WED. Miss Gertrude Amy Rauch and Dr. Frank T. Kenney Married.

A quiet wedding was held at a Portland Congregational parsonage on the afternoon of September 8, at 3 o'clock, when Miss Gertrude Amy Rauch was united in marriage to Dr. Frank T. Kenney of Twin Falls, Idaho.

Mrs. Kenney, a talented dramatist and a graduate of Wallon College, is the daughter of Mr. and Mrs. T. J. Kenney, who are now making their home in Portland, recent arrivals from Twin Falls, Idaho. She will know throughout the Twin Falls country, where she has given many recitals.

Dr. Kenney is a prominent medical surgeon of Twin Falls, and influential in medical circles of that city. He has received a bachelor's degree from the University of Toronto, Canada, and has established at the Magio City during the past three years.

Dr. J. N. Evans, the physician of Boise, arrived in Twin Falls Sunday and registered at the Perrine. On account of the heavy daily license recently imposed on traveling opticians, Dr. Evans will make permanent quarters in this city. He has leased the building adjoining the Barber office, now vacated by the Barber. His coming is a great benefit to the community.

Mr. Pittman will leave on Friday morning for a convention to Shoshone Falls and Blue Lakes. Friday afternoon—Address by Mrs. U. M. Over, Cambridge. Report of committees.

Another and the third national victory for FLANDERS "20" within a month. This time a clean sweep in America's hill climbing classic. The THREE speed FLANDERS "20" won event in her class Saturday at Worcester, Mass. climbing Dead Horse Hill in 1 minute 10.85 seconds, breaking all previous records for her class by 46 seconds, and defeating second car in her class by 37 seconds. She also beat records made by the following high powered and higher priced cars in other classes. Velie Buick, Cole, Hudson, Firestone, Oakland, Cameron Krit and Empire.

FLANDERS "20" was the lowest priced car in the contest. Dead Horse Hill is one mile long with a rise of over 400 feet to the mile. Newspaper accounts say course was slow because of bad surface and one very bad spot near finish line.

FLANDERS time better than time made in 1909 by any car less than three times her price. And faster than time made last year by any car but one of three times her size and price. She averaged a little over 46 miles an hour up to the eight per cent grade. Strictly stock chassis. Event run under A.A.A. rules and supervision. FLANDERS "20" was sensation of the sixty and seventy horse power cars barely beating her phenomenal performance.

Sending you photograph of WITT in victorious FLANDERS on the hill.

She has now only to win the three hundred mile Savanna Road Race to prove her invincibility in speed as she proved her reliability in the Little Glidden; her staying powers in Minneapolis, to Helena Montana reliability run, and her hill climbing qualities on Dead Horse Hill. Watch the little wonder at Savanna.

## GENERAL NEWS OF THE WORLD

### BANDIT WHITNEY BOBS UP AGAIN

BANK OF COKEVILLE, WYO., ROBBERY OF \$500

Outlaw, Who Murdered Conductor Kidd and Terrorized Eastern Idaho Last June, Resumes Operations Across State Line.

Montpelier, Sept. 11.—At Cokeville, Wyoming, 30 miles east of here, Hugh Whitney and his brother this afternoon held up the Cokeville state bank, getting about \$500. The bank is owned by P. J. Quasly and others and for some time the officers have expected an attempt at robbery and have kept most of their money under time lock. Two masked men entered the bank this afternoon and eight men who were in the bank at the time, were lined up along the wall and searched. The robbers secured about \$500 in money, loaded the officers of the bank in the vault and escaped. The robbers were last seen riding up Smith's Fork canyon. A posse of mounted men has taken up the chase. Hugh Whitney has not been heard from definitely since he outrode and outmaneuvered hundreds of posse men in Idaho last June. He was pursued for the murder of Conductor Kidd on a train near Blackfoot, while attempting to escape from the custody of a deputy sheriff.

### MAINE TIRES OF PROHIBITION.

Wets Get a Majority of About Fourteen Hundred.

Portland, Me., Sept. 11.—Unofficial returns late at night indicated that prohibition was voted out of the constitution of Maine today by a majority of about 1400 vot. About 25 small towns had not been reported and the vote of these, together with errors in the tally, make it difficult to say by telephone, still left the exact result in some doubt.

### FRANCE REFUSES PROPOSALS

Will Not Submit to Negotiations Made by Germany.

Sept. 11.—France's reply to counter-proposals in the negotiations have been made. It will be in effect the same as the one made tomorrow for approval. The task of drawing up the reply proved simpler than at first expected. Doubts because the German demands were such as could not be accepted by France. It is said that the reply, while written in a spirit of conciliation, is a solidly worded one with regard to the position France has assumed concerning questions of principle, from which France will not depart a hair's breadth.

The premier's energetic and business-like manner of proceeding has had a good effect. It is regarded as another proof of the government as to its policy and as a manifestation of the government's desire to do its utmost to shorten the period of uncertainty which is having such prejudicial effect on the markets of the world. It also removes any possibility of charges that France by delay is waiting to bring about and further financial distress in Germany.

The broad outlines of Germany's proposals have been communicated to the public, because the government believes the people have a right to know at this period of tension what is going. Foreign Minister De Selves has also indicated in a semi-official note that France's reply would be a refusal to accept Germany's conditions. In this French opinion appears to be wholly justified and prepared for any contingency.

One point of view in official quarters is that Germany's financial situation, which is expected to reach a climax by the end of September, may tend to moderate Germany's demands.

### ADVERTISING SECURED

Who Performs Actor-Force Operations in Limelight.

Providence, R. I., Sept. 10.—The Rev. Joseph Lambert, who leaped from ecclesiastical obscurity into worldwide notice because of officiating at the marriage of Colonel John Jacob Astor and Miss Madeline T. Force at Newport on Saturday, faced a flock of parishioners today who are thoroughly aroused over his action. When Dr. Lambert arose to deliver his sermon in the Plymouth church, the local Congregational church of this city, of which he is pastor, he found his followers divided in their opinions of his act.

It is understood he will be summoned before the general conference of the Congregational church to explain. The minister avoided direct reference to the subject that forcibly identified him in every mind. But when he declared his belief that one thing necessary to bring the nation back to "advertise our church," there was a perceptible stir.

### TO SUPPORT HUGHES

New York, Sept. 11.—Leaders of the so-called progressive or insurgent wing of the Republican party have agreed to concentrate their forces in an effort to bring about the nomination of Charles E. Smith, who has withdrawn from the contest and support Justice Hughes at the national convention.

### BEATTIE FOUND GUILTY

Jury in Famous Murder Case Pled for Divine Guidance—Case Will Be Appealed.

Chesterfield Court House, Mo., Sept. 8.—Twelve Virginians, mostly farmers, knelt at dusk tonight in the obscurity of the small jury room at Chesterfield, and fervently prayed for divine guidance that they might pass judgment airtight on Henry Clay Beattie, Jr., indicted for the murder of the wife, arose from their knees and liberated nearly one hour and silently one by one, recorded a verdict of guilty.

After weighing carefully the meaning of their death, and once more on bended knees beseeching divine assistance against possible error, at the end of 55 minutes, the jurors filed into the hushed and crowded courtroom, and with startling suddenness, 12 voices, instead of the usual one of the foreman, spoke the word "guilty" in chorus. It was almost a shout.

The specter of death which stalked on Midlothian turnpike on July 15 when Mrs. Louise Owen Beattie was slain, stared hard at the young husband, ready to claim its victim by electrocution on Friday, November 24. But the prisoner returned the gaze, unwavering and unafraid.

To Ask for New Trial. The court of appeals will be asked to grant a writ of error and a new trial. Young Beattie, cognizant of the legal weapon yet at his disposal, did not surrender. Instead, he comforted his broken-hearted father and comforted him as he whispered: "I have not lost my father. He is still alive. Unusual as was the tragedy, the jurymen did not hesitate to admit to their friends that they stood on the precipice over the most cold-blooded act, but on Beattie's national infidelity as well. It perhaps was a drastic continuance of Virginia justice which in the last half century has sent to death such illustrious murderers as Philip and McCaa.

### Strike Last Resort.

Los Angeles, Cal., Sept. 11.—Hundreds of railroad shopkeepers and members of various labor unions gathered in a mass meeting at Labor Temple tonight to hear addresses by Samuel Gompers, president of the American Federation of Labor, and J. W. Kline, international president of the Blacksmiths and Helpers' union, and the latter's associates on the committee, which recently conferred in San Francisco with Julius Kruttschnitt of the Harri-man system.

Speaking of the terms made by the organized shop crafts, Mr. Kline declared that the railroads must recognize the Federation of Shop Employees. A strike was the last resort, he said, and the interests of a innocent public were involved. Therefore, he hoped the railroad managers would "see the light" in negotiation. It is believed that a strike would be effected on points aside from the recognition of the shop federation.

### Mount Etna Again Active.

Catania, Sicily, Sept. 11.—The eruption of Mt. Etna has become more intense. The showers of ashes and cinders are heavier than yesterday and the rumbling of earth shocks at short intervals is heard for miles. The ashbins are growing in violence and a panic prevails. The fear of the people is augmented by the great heat and suffocating atmosphere. All the country round about is covered with ashes and seems under a pall. It is reported that three new craters have opened, but so far it has been impossible to ascertain whether they are emitting lava, because of their high situations and the thick smoke that lies over them.

### Millionaire Scores Collegians.

Chicago, Sept. 10.—R. T. Crane, millionaire iron manufacturer, made public today an arraignment of the big universities of the country. He charges alarming prevalences of drinking and gambling among the students. Columbia he ranks the worst but conditions at Yale, Harvard, Princeton and Cornell, he declares are almost as bad.

Daniel 111—Sept. 17.

"The Lord is my Helper, and I will not fear what man shall do unto me."—Hebrews 11:6.

Years passed after the narrative of our last study. King Nebuchadnezzar had advanced the four Hebrew captives to positions of honor and trust. Just where Daniel was at this time we do not know, but his three companions, given new names, were governors of Babylonian provinces.

Nebuchadnezzar had conquered the world. He instituted a great peace celebration and brought his representatives from all parts of the then civilized world to Babylon. These were to be duly impressed with the greatness and magnificence of the Babylonian Power and of the futility of resisting it.

He had doubtless heard that the Israelites from of old were inspired by certain promises from their God that at a future time their nation should be made the dominant one for the ruling and blessing of all nations. Nebuchadnezzar considered this theory of the Jews a wise one and himself the opposite person to be the blessing of the world in the name of his god, Bel-Merodach.

**Golden Image of Bel-Merodach.**

Nebuchadnezzar would honor the god whom he believed had given him his victories. He would make him god of nations. The people from every part of his domain should be committed to the worship of this one god that the having of one religion might help to cement the various incongruous elements of which his kingdom was composed. As a preparation for the great peace festival, a broad plain for manuevers of the troops and the gathering of the princes and nobles and visitors was selected. In the midst of the plain a golden image of Bel-Merodach was erected—nearly feet high. It is not necessary to assume that the image was of solid gold, although Herodotus mentions a statue at Babylon or smaller size which was of solid gold, weighing forty-three thousand pounds.

When the great day of celebration came, with governors, princes, captains and provincial rulers, the judges, treasurers, counselors and lawyers, in their various robes of office and surrounded and interspersed with the delegates from various nations, the banners flying and the musical instruments playing, it must have been an impressive sight.

At the appropriate time the religious unity of the empire was to be demonstrated by a general worship of the golden image of Bel-Merodach.

Courage of the Three Hebrews.

Everything seemed to go well until it was reported to the king that three governors, whom he had set over the provinces had rebelled against his de-

creed and refused to worship the image of Bel-Merodach—had defied the king's power—for like all mandates of a king, the penalty for disobedience was so severe as to leave no room for opposition in a sane mind.

The courage of these three Hebrews stands out on the pages of history as a shining example. They were not able to deliver any people out of his hand; their own city, Jerusalem, had been overthrown. They could hope for no success, no rescue from the death that was before them if they persisted in defying the king of the whole earth. Their answer was that the God of Jehovah, they were sure, was quite able to deliver them from the fiery furnace; or from anything He might choose, and would do so. But if not—if He did not deliver them—did if they were certain of it in advance—nevertheless, they would be His faithful servants and worship Him alone. How sublime their faith and their courage! Such faith and such courage we may be sure is pleasing to the Lord. We must not expect that in every case God will thus deliver those who trust in Him; rather, as these Hebrews intimated, we are not able to know the wise plans of our God, nor what may be His will respecting what little remains of our lives. But His power and love are confident. We can trust Him where we cannot trace Him.

"Blessed Are They Who Put Their Trust in Jehovah."

The three Hebrews were bound in their clothing and some of the strongest men of the king's guard were commanded to throw them into the furnace. As the bound men were thrown in, the flames came forth and enveloped those who had thrown them in, and destroyed them. The king already had had some evidence of the power of Jehovah God, and he watched intently the furnace. As the king looked toward the furnace, to his utter astonishment he beheld four persons walking in the midst of the fire, unharmed. He said to his counselors, "We cast three men into the furnace, but behold, I now see four, free, walking in the fire, and the fourth has an appearance like a son of the gods."

What had he done? What should he now do? He had the three, "the servants of the Most High God, come forth and come hither!" They came, unharmed, with not even the smell of scorching upon their clothing. Nebuchadnezzar acknowledged the miracle and praised the God who had thus by His angel of power delivered His servants that trusted in Him, and who had defied the king's mandate and yielded their bodies that they might not serve nor worship any god except their own God. Truly, "Blessed are all they that put their trust in Him."

**DISCRIMINATION—MITIGATION.**

The railroads, from the year one of steam travel, have been the recipient of unfair abuse and impracticable suggestions at the hands of 'excitable or ambitious citizens, through whose communities they pass and which they are supposed to serve as common carriers. Perhaps, for that reason they have become inherently adamant in their attitude toward public desire, privately or openly expressed, and, maybe, that is why an interstate commerce commission is necessary as a court of popular appeal with power to enforce its mandates.

Every new country wants all it can get at the hands of a transportation company, and, in some cases its appetite is a little too voracious, but where there appears to be discrimination there surely is just cause for complaint.

During the past summer and present fall, round trip excursions have been granted from eastern points to the Pacific coast, and vice versa, with stop-over privileges,—except in Idaho, or, to employ the exact words of limitation used by the railroads, except "west of Pocatello and east of Huntington." One traveler exposed this condition in a rather startling way by writing to all of the companies, ascertaining that virtually every Idaho city was excluded from the benefits to be derived from stopover privileges.

In one instance, a rate of \$19 from Chicago to Los Angeles was in existence, but only by the payment of \$9.75,—just \$10.75 more,—were stopovers in Idaho permitted.

Even in the colonists' rates does this enforced disadvantage work to the detriment of the state. They merely allow a three day's stopover "west of Pocatello and east of Huntington," while for all other points that right extends from 12 to 16 days.

A protest against this apparent discrimination certainly can not come within the classification of irrational demands. The indignation that is aroused by the discovery of such a condition is righteous, and an appeal to the railway, or, maybe, even to the interstate commerce commission has every principle of equity behind it. The transportation companies have been, and are today, a vital factor in the development of Idaho. It is possible that they could have overlooked or ignored deformity?

In this connection, it is worthy of mention that an effort is being made at the present time to secure from the Oregon Short Line a concession which will give holders of tickets through to the Pacific Coast the right to stop over in the Twin Falls country for a few days on their western trip without extra cost. In detail, the plan is to allow them to ride from Minidoka to the Magic City, and, after a cross-country scorch trip, including Shoshone Falls and other places of interest nearby, from Jerome to Gooding, substantially free. If this endeavor meets with success, it will provide the entire section with the most directly beneficial advertising that it possibly can secure. In mitigation of the sin, because of which this district, as well as the state, has already suffered, this proposal deserves recognition.

CLUBS

Elaborate Reception Planned.
The opening reception of the Twentieth Century club promises to be a brilliant affair, if the plans of the committee in charge are any indication. The affair will take place in the Elks hall on the afternoon of September 26. The room will be elaborately decorated for the occasion in the club colors—green and white—and the same color scheme will prevail at the punch tables. The reception committee is composed of Mrs. F. E. Chamberlain, chairman and Mesdames W. O. Graham, W. P. Guthrie, H. J. Felling, A. M. Wikor and F. M. Buckley. The board of directors of the Twentieth Century club held a meeting at the home of the president, Mrs. B. E. Morse, on Monday evening, at which it was decided that, in view of the impending Old Fellows convention to be held in the city on the same dates that had been set for the meeting of the district federation officers, an Old Fellows convention would be held when their entertainment could be more satisfactorily arranged. The chairman of the entertainment, Mrs. M. J. Sweeney, has written asking for a postponement, but nothing definite regarding the change in plans has been heard, as yet.

Acirema Club Program.
The Acirema club held an enjoyable meeting at the home of Mrs. F. Taylor on Monday afternoon. The first part of the meeting was devoted to a program of papers on the subject of Spanish life, that being the course of study undertaken by the club. The program was as follows: The Map, Drawing and Geography, Mrs. C. D. Weaver.

**A RECORD OF A TON OF PEACHES ON THREE TREES**

Peaches from Orchard of J. M. Stepp—Young Jonathan Trees Which Yielded Seven Boxes

While it is to be sincerely regretted that arrangements were not made for an agricultural fair to be held on the Twin Falls tract this year, as the likelihood is that there never was a better season for the collecting of exhibits, yet the horticultural exhibit to be held in this city next month will compensate in a degree. While the peak set is a little late for some of the earlier fruit, it will be just about the season to secure good exhibits of commercial fruit, which is, after all, the backbone of the industry. However, it is to be regretted that much of the early stuff will be gone by that time, and that it cannot be utilized in estimating the reputation of Twin Falls as a fruit growing district.

**Great Yield of Peaches**  
Among the yields, which may be classed as phenomenal, is the production of approximately a ton of Champ-

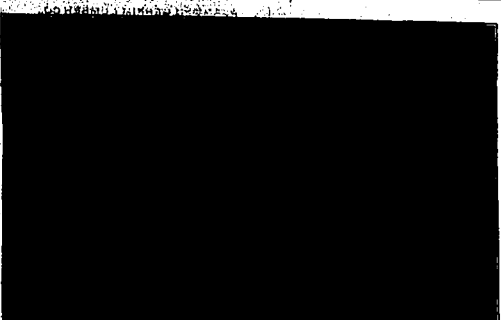

necessary, as everything is bearing in the same proportion as the peach trees in question. Mr. Stepp was in the employ of one of the large railroad companies prior to becoming a rancher, and seeing his old employer recently, was asked if he didn't want his old job back. His reply was in the negative, and he added, "I wouldn't trade my ranch for the best position on the entire system."

**Adding to Acreage**  
Mr. Stepp's home ranch consisted of a forty, which he has supplemented since by another place of 80 acres a short distance north, and while he is engaged in diversified farming, his first experiments with fruit has convinced him of the possibilities, and he has since been adding to his acreage.

From some of the Jonathans, which he first set out upon coming upon the place, he received last season a yield of 7 boxes per tree of good marketable fruit, which would seem

for orchard, it being well adapted to fruit growing and inconvenient for agricultural purposes, as it is cut off from the main body of land by Rock creek. On this tract, he planted last spring six acres of Jonathans, one acre of Arkansas Blacks, one acre of Stayman Winesaps, which are an improvement upon the old variety of Winesaps, being larger and of better flavor. The balance he will set to Stark's Delicious in the near future.

**Excellent Showing in Grains**  
In the cereal line, Mr. Stepp has had excellent results in both wheat and oats this year. As he has not threshed yet, he is rather loathe to make an estimate, but he got a yield of 60 bushels per acre of Dakota wheat last season, and states that he has a crop now in the stack which, to all appearances, will be even better. Mr. Stepp is one of the kind of farmers, who finds it more profitable, both in dollars and cents, as well as in the benefits to his place, to feed

his peaches, on three trees on the right of J. M. Stepp, five miles south of this city. In spite of the use of many "crutches" or supports, many of the branches of the trees broke to the ground from the weight of the fruit, and as the orchard is entirely surrounded by a high locust hedge, it is practically certain that the damage was not done by wind.

Upon coming to this country, Mr. Stepp planted three acres to a family orchard, which experience has taught him was rather more than was

to amply justify the opinion that fruit is a good paying crop in this section. In addition to his first venture on the home ranch, he also has 4 1/2 acres of orchard, which was set two years ago—one-half to Jonathans and one-half to Winesaps, and which have made a fine growth. He believes in setting two-year-old trees, and in this orchard he has secured almost perfect stands, losing only one tree out of the entire lot.

Across the road, upon his 80-acre ranch, he has set aside a 10-acre plot

his hay upon the ground. Last year he fed not only his own hay, but purchased quantities from his neighbors for the purpose, and the result of his experiment was such that he will repeat the operation again this year.

**A Bumper Wheat Yield**  
F. H. Drake of Sucker Flat was in the city a few days ago, and states that the thresher reports a yield of 80 bushels of wheat per acre on a field of 10 acres on the ranch of G. S. Deidt.
